WUS Drive Set April 4-6

By HELENE EDWARDS

An opportunity to assist university students of many nations in their struggle against poverty, Communism and ignorance will come to Tech students through a drive for the World University Service, to be sponsored April 4-6 by the Student Council.

The program, which has as its slogan, "If you care, then you will share," will be conducted through donations from campus organizations, as well as individual contributions. Tentative plans for the drive include a "mile of pennies" stretching from Tech Union to the Administration Building, a faculty shoe shine service, a sale of coat hangers, and a "slave auction," according to Edwina Schovassa, head of the Council committee handling the drive.

More than 700 American campuses participate in WUS fundraising and educational campaigns every year. The international university organization, with over 30 years of Service, was begun after the First World War as European Student Relief. Other organizations followed, including International Student Service and World Student Relief. All of these organizations are combined now under WUS auspices.

Except where students are physically unable to work, money is not given directly but is used as capital to start self-help enterprises. Students engage in work which includes building huts or hostels to live in, starting health services and rest centers, organizing cooperative stores and canteens, and mimeographing textbooks and lecture notes. Books and laboratory equipment are also supplied to universities by WUS funds.

WUS is acknowledged as an effective means of defeating Communist ideology in poverty-stricken countries by exchanging of ideas and material assistance. The basic aim of WUS in conferences, seminars, and educational travel, asserts the council, is to help all students, professors, and universities to meet basic needs so that the search for knowledge and truth may prosper.

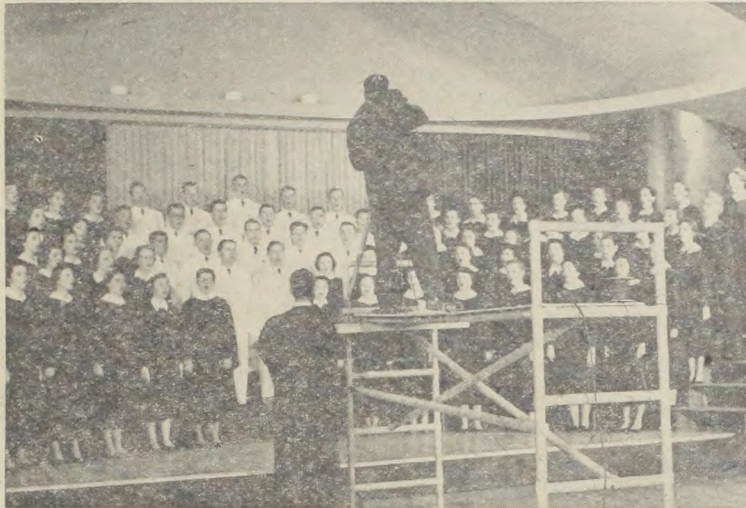

MID-TERM GRADES READY WEDNESDAY

"Mid-term grades should be out by Wednesday, March 28," Mr. Warren P. Clement, Registrar, stated. Parents will receive their copies of the reports through the mail but the grades will not be mailed to students.

Red Cross Contributions May Top Goal

Red Cross contributions are expected to run at least \$100 over Tech's goal of \$1,000, Fred W. Norwood, director of campus Red Cross activities, announced Tuesday.

Although the drive ended March 15, contributions were still coming in late Tuesday. At 5 p.m. the total was \$1,002.52, and, according to Norwood, it will likely hit \$1,100 when final figures are tallied. Twelve departments remained unaccounted for late

THE CHOIR SINGS for the filming of its part in the TV show "Texas In Review." Over 300 students took part in the program which has Easter as its theme. The show will be telecast Monday at 9:30 p.m.

3-Day Dietetic Convention Begins Here

Approximately 100 experts on what Texans should eat and why gathered here yesterday for a three-day Texas Dietetic Association Convention.

Convention participants will hear addresses by seven nutrition authorities and exchange ideas on professional developments.

Opening the convention was an executive board meeting at 2 p.m. yesterday in the Home Economics Building. The Lubbock Dietetic Assn. was host for a reception at 7:30 p.m. in the same building.

Registration was scheduled at 8:30 this morning in the Student Union Ballroom, convention headquarters.

Miss Margaret Johnson of Houston, TDA president-elect, presided at the opening session at 10 a.m. Dr. Willa Vaughn Tinsley, Tech home economics dean, welcomed visitors and Miss Lillian Johnson, Lubbock Dietetic Assn. president, made announcements.

In the opening address, Miss Helen Corbit of Neiman Marcus, Dallas, explained how "Interest Appeal in Foods Affects Food Habits."

"The Influence of Dietitians on Industry" was discussed by E. R. Cronin of the Sexton Co., Dallas, in a luncheon address. Miss Nell Morris of the Frito Co., Dallas, presided at the luncheon, which also featured songs by the Tech Choir and a style show by students in the Tech department of

clothing and textiles.

Dr. Mina W. Lamb, TDA president and Tech food and nutrition department head presided at this afternoon's session which opened at 2 p.m. with a business meeting.

Addresses this afternoon include "Association Affairs" by Dr. Ercell Eppright, food and nutrition department head of Iowa State College, Ames, and senior delegate at large for the American Dietetic Assn., and "Variety Is the Spice of Life," by Miss Rita Campbell, National Livestock and Meat Board nutritionist, Chicago.

In a 7:30 p.m. dinner meeting at the Lubbock Country Club,

Dr. William H. Gordon, Lubbock heart specialist, will deliver the principal address on "Food Habits and National Health."

The dinner program also will feature a song by Miss Mary Jane Hartley, foods and nutrition student from Lubbock, and harp selections by Miss Billye Wolfe, Tech home management instructor. Miss Margaret Weeks, Tech Home Economics dean emeritus will preside.

At 8 p.m. tomorrow the Hemphill-Wells Company will be host for a breakfast in the local store's tea room.

Three addresses are scheduled for the morning session at 10 a.m. in the Student Union Ballroom. Dr. Margaret Eppright, food and nutrition department head at the University of Texas, will discuss "Teaching Food and Nutrition in Colleges."

Dr. Ercell Eppright will report "Iowa Studies in Human Nutrition" and Miss Elmira Blecha, dietitian for the Veterans Administration Hospital, Houston, will speak on "Experiences with Selective Diets."

The convention will end at noon after closing remarks by Miss Lillian Johnson.

Dallas Named Site Of Official Trip

Dallas, site of the Texas Tech-Texas A&M football game Oct. 6, was selected for the official 1956 out-of-town trip at the Student Council meeting Tuesday night in the Administration Building.

The council's unanimous approval followed recommendation by a committee appointed to study the issue, headed by Vice President Don Diley.

Diley reported to the council that distance and train connections were principal factors in choosing Dallas over Waco, site of the Baylor contest.

Choice of out-of-town trip had to be made by the present council because of necessity of placing orders with the Santa Fe Railroad for train accommodations. Only old equipment would have been provided had a decision been left up to next year's council, as is the usual custom.

President Glen Cary reported on work done recently by the Student Orientation Program Committee. Cary said plans have been made to decrease the problem of orienting incoming freshmen in the fall of each year.

The Four Freshmen To Play At Prom

The Four Freshmen, nationally known quartet, accompanied by the Kingsmen Combo will provide dancing music for the Junior-Senior Prom tonight in the Student Union from 7:30-11:30.

A capacity crowd of 300 is expected to listen and dance to the music of the capitol recording artists which are becoming one of the top instrumental and vocal groups in the nation.

All tickets for the prom have been sold out for a week. The dance will be semi-formal with no corsages according to Larry Byrd, junior class president.

Nine Tech students will leave Sunday for Stillwater, Okla., to attend the Southern regional meeting of the Intercollegiate Association of Women Students.

Delegates from AWS chapters in 15 Southern and Southwestern states are expected to attend the meeting, which runs through Wednesday, according to Miss Norma Chapman of Austin, Tech AWS president.

Speakers will include Mrs. Eugenie Anderson, first woman in history to become U.S. ambassador; Mrs. Waldo E. Stephens, National League of Women Voters director; Dr. John Gussen, internationally known psychiatrist; and Dr. William J. Hage, outstanding minister.

Topics to be discussed include the role of the educated woman after graduation, the spiritual role of the woman, the role of the college graduate in world affairs, and AWS cooperation in student government.

Mrs. Martha Hall, assistant dean of women and AWS advisor, will accompany the Tech students on the trip.

Official Tech delegates to the meeting will be Miss Chapman, and Miss Nita Haseloff, Vernon, Tech AWS president-elect.

Miss Eileen Jacobson, Amarillo, will be one of the current Tech AWS officers at the meet.

Newly elected 1956-57 AWS officers to attend are Misses Rebecca Wilson, Lubbock, vice president; and Jean Elliott, Houston, reporter.

Other students, scheduled to attend as dormitory representatives, include Misses Janet Reaves, Plainview, Drane Hall; Joan Z. Roberts, Plainview, Horn Hall; and Marilyn Dunagan, Midland, Knapp Hall.

Miss Ardrith Campbell, Midland, will represent the Panhellenic Council at the meeting.

The regional conference will be held at Oklahoma A&M College.

New Textile Lab Brought To Tech

A textile testing laboratory for cotton fiber research has been transferred to the textile engineering department from the University of Texas recently, Raymond K. Flege, professor of textile engineering, has announced.

The laboratory, sponsored by the Cotton Research Committee of Texas, tests strength, length, fineness and uses of different cotton fibers.

It was moved here because the Tech textile department has better facilities and because of a state policy to consolidate all major research in a certain field in state schools at one school, Professor Flege said.

The laboratory's purpose is to help cotton farmers and other interested persons by helping to develop better cotton.

Also, findings of the laboratory help solve cotton mill production problems and other new research problems through its fiber research, Prof. Flege reported.

The textile department has had to increase its facilities and personnel to operate the laboratory. Tech students are used in the lab on a part-time basis.

The laboratory has helped the textile department get better acquainted with cotton and the cotton industry, Prof. Flege added.

A Newspaper Searches . . .

(To copy what we think is a good thing the Toreador invites letters from Tech students with opinions concerning the survey being conducted by the Miami Hurricane described in this story. If sufficient response is received, we will publish Tech students' "ideal prof." Ed.)

(ACP)—The Miami Hurricane has decided to look for the ideal professor, a search that should prove valuable for both the student body and the faculty. Other colleges might do well to follow suit. Here's how the Hurricane describes its search.

Long after the students have finished a course, they remember certain outstanding qualities about the instructor. There was something about the class, and the way the instructor conducted it that made it seem like more than just something that was required.

Just what do some professors have that makes a student remember him, while other professors are forgotten as soon as the final exam is over?

The Hurricane is now undertaking a search for such a professor. We are trying to find the man, or woman, who is more than just a figure in front of the room passing on facts from a text book. We seek that dedicated spirit in an underpaid profession who helps the student to learn.

Of all the facets of campus life, from extracurricular activities to class work, little recognition is given to the most important job on a campus — teaching. The instructor comes to class, helps the student to learn, then goes home to grade papers. And yet the job he has done during class will carry far more significance when the student graduates than all the football letters, beauty queen titles and honorary singles.

The survey now being undertaken is not a popularity contest, nor do we seek an essay on "My favorite teacher is . . ."

We seek only to determine who, in the student's estimation, is considered the ideal instructor. We are interested in those qualities which impress the student and remain with him when the course has been completed.

LITTLE MAN ON CAMPUS by Dick Bibler

COLLEGE GRAPEVINE...

Frats Pledge Help In Cheating 'Curb'

By CLAYNELLE ROOKER

Fraternal organizations at Florida State University have pledged to work with authorities to help "curb" any organized cheating on final exams. Presidents of 14 houses took the action recently after an informal discussion with Dean of Men Sam Neel.

The meeting was arranged because of large-scale "leakage" rumors which swept this campus during last month's final examination period. Dr. Neel said the rumors amounted "almost to hysteria." During discussion prior to the passage of the resolution to curb cheating, Dr. Neel said he was convinced in his own mind that an "organized ring" was at work distributing final exams. He continued that, according to his information, about seven different examinations had gotten into the hands of the student body before the tests were given. He believed the price of these was ten dollars per exam.

The Colorado School of Mines is contemplating a new grading system. It was suggested that the college switch from giving letter grades to giving numeral grades, thus indicating to a larger degree the capabilities of a student. No final decision has been reached, and the proposal may be put to a student vote in the next all-school election.

The "Reflector" of Mississippi State College tells the story of a man who perched on top of one of Richmond's buildings contemplating suicide.

A policeman had gone up to the roof to try to persuade him not to jump.

"Think of your mother and father!" pleaded the officer.

"Haven't any."

"Think of your wife and family."

"Haven't any."

"Then think of your girl friend."

"Hate women."

"All right. Then think of Robert E. Lee."

"Who's he?"

"Jump, you damnyankee!"

Baylor University has recently completed construction of 24 new apartments for married students, a second 24 to be completed in ten days.

The apartments, located off-campus, are completely furnished, air-conditioned, and all utility bills are paid. They are four room units with an all-tile bath. The kitchens contain electric sink disposals, electric stoves, and electric refrigerators.

Sounds like a good deal, although the rent prices were not given.

Attention Homemaking and/or Agriculture Divisions. The University of Texas has instigated a plan which might also prove beneficial for Lubbock, TU has a Steer Here committee which inspects eating establishments in the university area in an attempt to improve conditions of those eating places, and to encourage students to patronize restaurants with Steer Here signs. Steer Here inspectors take examinations comparable to those taken by city health inspectors. They then inspect the restaurants using a similar criteria, but requiring a grade of 80 for approval, as opposed to the city's approval grade of 70.

Of the 26 eating places recently inspected in the university area, 17 passed, 6 failed, and 3 were borderline cases.

Sounds like such an idea could be worked into a good class project here. Any takers?

Irritated? Write A Letter

Has anyone ever been irritated with radio advertising? First north wing of Bledsoe Hall was, about two weeks ago, and decided to do something about it.

Arthur L. Mosely, junior engineer from Amarillo, wrote a letter to J. W. Chapman and Sons protesting one of their radio advertisements. The advertisement started: "Darling! You finally sold the house!" Mosely passed

this letter around to several of the men on his wing for signatures. Among the signers was Bob King, president of Bledsoe.

A week or so later, King received a letter from Ray Chapman which contained the following: "We appreciate the courteous, thoughtful letter from Bledsoe Hall, and we are happy to enclose herewith our check for \$10 for your 'General Fund.' We send this in token of your interest and frankness of your letter." Bledsoe men agree that the letter they signed was frank.

Chapman also said, "We agree with you concerning the annoying qualities of this type commercial, but experience proves that repetition is most effective, and sometimes more so if annoying. Occasionally, we intend to ease the pain with more subtle copy."

Let's we err again, we hereby designate Bledsoe Hall residence, as our sounding board and Official Advisory Committee.

"We will be happy to pay to the 'General Fund' \$10 for each 60-second script you submit, that is accepted and used by our advertising agency. Copy must be in fairly neat form, double spaced,

and in duplicate." Chapman went on to say that "the sky was the limit" as far as ideas go.

King has the letter posted on Bledsoe's billboard, and asks anyone having ideas to send them in.

Engineers' Show Set April 20-21

Friday and Saturday, April 20-21, are the dates set for Tech's annual Engineers' Show, according to Bill Hudson, student chairman. The Home Economic Open House will be held on the same dates, in conjunction with the Engineering Show. The latter will start each day at 2 p.m. and close at 10 p.m.

The Engineering Show is a composite show of displays from the five departments of engineering: chemical and agricultural engineering, geology and physics. The Show is put on to help show the phases of work done by the different departments and the advances made in engineering.

Hudson also stated that student projects, similar to the offshore drilling rig set up by petroleum engineering students last year will be displayed.

APRIL 3 'D-DAY' FOR MAY GRADUATES

April 3 is an important date as far as graduating seniors are concerned. It is positively the last

day for seniors to complete preliminary steps for graduation.

On April 3 each dean will send to the Registrar the list of candidates who have met all graduation requirements to that date.

12 ROTC Students Return from Trip

Twelve Tech ROTC students returned Saturday from ROTC Day activities held Friday at Fort Sill, Oklahoma. The group, which included 167 cadets from five colleges, invaded Fort Sill last weekend for a look at the Artilleryman's way of life.

Tech students who made the trip under the command of Lt. Col. John B. Webb, were Joe B. Hampton, Herman D. Kaufman, Arthur Martin, Bobby L. Moore, Edward N. Taylor, Jimmy Ware, Tommy D. Beaty, Bruce D. Simnacher, Jeral W. Jackson, Wendell Spence, William Richmond, and Rerschel A. Wade.

The first day, the soldiers participated in a days duty with the field troops of the five Field Artillery groups stationed at Fort Sill.

The second day they were guests at a firing demonstration staged by The Artillery and Guided Missile School, department of material.

Before this, the department of tactics and combined arms demonstrated the tactical uses of the helicopter in emplacing weapons and observation.

Tech Music Department To Present Spring Concert Sunday

The Texas Tech Department of Music will present the annual Spring Concert in honor of the Mozart Centennial in the Student Union Ballroom at 3 p.m. Sunday. The concert, commemorating the 200th birthdate of the famed

composer, will be under the leadership of Paul R. Ellsworth, conductor.

Composed entirely of works from the famous German musician, the concert will feature the winners of the auditions held last week: Mary Jane Hartley, soprano; Richard Watkins, baritone; and Kenneth Vernon, pianist.

The concert is co-sponsored by the music department and the Student Union. There will be no admission charge to the musical program.

Included in the concert will be the Overture to "Così fan tutti"; the Aria, "Dove Sono," from "The Marriage of Figaro"; Aria, "Non Più Andrai," from "The Marriage of Figaro"; "Divertimento No. 5 (K. 187) in four movements; and the Concerto, No. 12 in A Major (K. 414) for piano; and Quintet for Woodwinds and Piano (K. 452).

MISS-CELLANEOUS

American Gals Can Brag

By GLARIA WALLER

Girls, we have one thing which we can brag about. At least so says Dowager Stella Marchioness of Reading, Eng.

And that something is pretty legs. American women "have nicer legs than anyone else in the world," she states.

A visitor in the United States in 1946, she continues that when it came to looks, American women "had not the eyes of British women."

"There is a depth in the eyes of our women because they have seen suffering and tragedies in war. The American women have not such beautiful eyes," she added.

The fashion business, fascinating and challenging, offers many

opportunities for the career minded miss.

Among the choices of careers are future buyers, copy-writers, fashion editors and publicity directors.

And where do you get your training? New York City offers good schools which teach all phases of the fashion world.

One such school is Tohe-Coburn School for Fashion Careers where students receive special training in retailing, advertising, publishing, radio and television.

A two-year course is offered for high-school graduates and a one-year course for girls with two or more years of college. Included in the curriculum is retailing, fashion history, fashion trends, copy-writing and display.

Guest lecturers are well-known men and women in the fashion field. The girls also take field trips to showrooms and plants to see the fashion industry at work.

Make-up and grooming is stressed in a personal appearance clinic, and a business-like attitude is learned as another preparation.

The girls are encouraged to have an interest in music, ballet, theater, opera and art. Extracurricular activities include experience in planning dances, entertaining visiting fashion celebrities and charity fund raising.

So all is not work, but certainly all is not play, either. Two periods during the school year are devoted to practical working experience in the field.

The fashion field is a great one to enter. It, like any other career, rewards you according to what you put into it.

Tech Vets' Dance Tonight At VFW

Tech Vets will hold their annual spring dance at 8 p.m. tonight at the Lubbock VFW, 34th Street at Ave. N, Don Avery, club commander announced.

Tickets, priced at \$1 per couple, will be on sale at the door. Only couples will be admitted to the dance.

Any member of Tech vets is invited to attend and members may bring guests.

The Shamrocks will provide music for the dance.

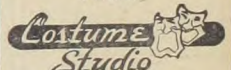

AF ROTC Ball Set For Union In April

The annual Tech Air Force ROTC Ball is slated from 9 to 12 midnight April 7 in the Union Ballroom, according to Bob Williams, chairman of the Ball.

The formal dance is open only to those who are members of the Air Force ROTC Association. No tickets will be sold. Those who are members of the association paid for their tickets when they paid their dues, Williams said.

The Kingsman Combo will furnish music for the Ball.

Phi Delta Phi Reception Sch...
 A chapter of Phi Delta Phi International honorary Fraternity will be installed in the Union Ballroom tonight.

Installation ceremony scheduled to begin at 8 p.m. at the home of Dr. and Mrs. B. Qualla, 2419-24th Street at 8 p.m. will be a normal initiation.

Fourteen charter members will be initiated into Phi Delta Phi, according to Dr. B. Qualla, assistant professor of foreign languages and sponsor.

Prof. H. Wynn Rice, vice president of the organization and chairman of the French department at Methodist University, is installing officer.

Tech's chapter will be the first chapter of Phi Delta Phi to be installed at the University of California.

Purpose of the society is to promote a wider knowledge of French language and greater application for contributions to world culture. Dr. B. Qualla said. Phi Delta Phi.

First-Time Tech...
 To Receive B...
 "Tips to the New Tech" will be sent by the Association of Women Students to all Tech students for the first time this fall. The book will be a combination of the former book "Tips" and "Panhellenic" announced Marguerite editor.

Cover for the book will be by Polly Johnson. The book will be printed with black and white on a bright yellow background.

Contained in "Tips to the New Tech" will be dorm regulations, and all new students.

The book will go to the 1, stated Miss Winder.

ADVERTISING CLUB...
 HAVE RADIO PROGRAM...
 A weekly radio program presented by Tech Advertising Club members was approved at the second meeting of Tech organization Monday in the Union. The program will be sponsored by the Traffic Commission.

The Tech Advertising Club membership is open to all Tech students. Those in joining this organization contact Jim Chapman Killian.

54 Sigma Chi Men...
 Attend Breakfast...
 Fifty-four members of the Epsilon Nu Chapter of Sigma Chi Fraternity will attend the Big Brother - Little Brother - Little Sister Breakfast at the Resthaven Sunday, according to Linda Rogers, associate editor.

Linda Rogers, Sigma Chi, was the speaker of the chapter. The members of the chapter, together with the church, together with the breakfast.

Pi Delta Phi Installation Ceremonies, Reception Scheduled For Tonight, 8 pm

A chapter of Pi Delta Phi, national honorary French society, will be installed in the Tech campus tonight.

Installation ceremonies are scheduled to begin at 7 p.m. at the home of Dr. and Mrs. Charles B. Qualia, 2409-24th St. A reception at 8 p.m. will follow the formal initiation.

Fourteen charter members will be initiated into Tech's Beta Xi chapter, according to Dr. William Roberts, assistant professor of foreign languages and chapter sponsor.

Prof. H. Wynn Rickey, first vice president of the national organization and chairman of the French department at Southern Methodist University, will be installing officer.

Tech's chapter will be the 62nd chapter of Pi Delta Phi, the seventh to be installed in Texas. The society was organized in 1906 at the University of California.

Purpose of the society is to promote a wider knowledge of and a greater appreciation for France's contributions to world culture, Dr. Roberts said. Pi Delta Phi is

sponsored by the American Association of Teachers of French.

Candidates for membership must be advanced students of French with a grade-point average of at least B in this subject and a B minus for all work undertaken.

Officers of the new honorary fraternity will be: LaDoyce Lambert, Abernathy, president; Jean A. Paul, Wichita Falls, vice president; Mrs. Martha Ann Kissinger, Fort Worth, secretary; and Manfred H. Larisch, Amarillo, treasurer.

Other student members to be initiated include: Robert D. Ford, Edward G. Noble, Ronald K. Wetherington and Jean Shelley Smith.

Honorary members will include Mrs. Beatrice W. Alexander; Dr. John C. Dowling, head, department of foreign languages at Tech; M. Pierre Pelen, French consul at Houston; and Dr. Roberts, Mrs. Louise P. McCarty and Mrs. Celeste C. Pierce, both of Lubbock, will be initiated as associate members.

Dr. Qualia is an honorary member of the University of Kansas Chapter.

Barbara Pearce Is Elected President Theta Sigma Phi

Barbara Pearce, Amarillo junior, will serve as president of Theta Sigma Phi, national honorary fraternity for professional women in journalism, during 1956-57.

Elected to serve with her are: Nancy Kainser, Odessa junior, vice president; Marguerite Winder, Gruver junior, secretary; Melba Neely, San Saba junior, treasurer; and Sue Watkins, Abilene junior, reporter and archivist.

Following elections at the Monday night meeting of the group, Sgt. O. C. Foster of the Lubbock Police Department's juvenile division spoke. He urged journalists to help combat juvenile delinquency by giving their support to programs of remedial legislation "designed to provide law enforcement officials with the authority needed to deal with youthful offenders."

Committees were also named to work on Theta Sigma Phi's 15th annual Matrix Table banquet, at which Tech's outstanding senior woman journalist will be named and winners of the area newspaper contest will be announced. Date has tentatively been set as April 9.

Dunbar Combo To Play For Sneed - Drane Dance

One way to spend money is to have a dance. This is what the boys in Sneed Hall believe anyway and to carry out this belief they are bringing the Dunbar Combo, that well-known jazz band on the Tech Campus, to Drane Hall next Tuesday night, March 27.

It seems that \$600 has accumulated at Sneed in the dorm fund so the wing governors got together with their social chairman, Dean Lee, and decided that with that much money they might as well enjoy it.

Getting together with Drane Hall's social chairman, Karen Williams, the two dormitories worked out the plans for the dance.

The dance will be a closed function with only members of the two dorms allowed to attend.

Drane Hall will furnish the refreshments.

5 ALPHA PHI MEMBERS LEAVE FOR AUSTIN

The Executive Committee from the Gamma Iota Chapter of Alpha Phi left for Austin this afternoon to attend a one-day workshop.

The group will attend meetings to discuss chapter work of Alpha Phi tomorrow. Sunday morning they will attend church as a body.

Representatives of Alpha Phi Chapters from Texas State College for Women, Texas University and University of Houston will be present.

Texas Tech representatives will be Diana Smith, president; Karen Nofware, vice president; Marilyn Floeck, scholarship chairman; Carolyn McDermitt, standards chairman; and Hazel Casey, treasurer.

Union Committee Chairman Applications Now Available

The Executive Committee of the Tech Union Program Council announces that any persons interested in becoming a chairman of one of the standing committees of the Tech Union should pick up a form in the Program Office at the Union and make application before Monday, March 25.

Any student interested in Union work is welcome to apply. The only qualifications are scholastic qualifications set by the college.

First-Time Techsans To Receive Booklet

"Tips to the New Techsan" will be sent by the Association of Women Students to all girls entering Tech for the first time next fall. The book will be a combination of the former booklets "Tech Tips" and "Panhellenic Information," announced Marguerite Winder, editor.

Cover for the book was designed by Polly Johnson. The cover will be printed with black and red ink on a bright yellow background.

Contained in "Tips to the New Techsan" will be dorm rules and regulations, and all needed rush data.

The book will go to press May 1, stated Miss Winder.

ADVERTISING CLUB TO HAVE RADIO PROGRAM

A weekly radio program to be presented by Tech Advertising Club members was approved at the second meeting of the new Tech organization Monday night in the Union. The program will be sponsored by the Citizens Traffic Commission.

The Tech Advertising Club membership is open to all advertising students. Those interested in joining this organization may contact Jim Chapman or Gwen Killian.

54 Sigma Chi Members Attend Breakfast Sunday

Fifty-four members and pledges of the Epsilon Nu Chapter of Sigma Chi Fraternity attended the Big-Brother - Little-Brother Breakfast at the Restaurant Walden Sunday, according to Warren Shropshire, associate editor.

Linda Rogers, Sweetheart of Sigma Chi, was the special guest of the chapter. The members attended church together following the breakfast.

What young people are doing at General Electric

Young engineer works on new ways to remove heat from atomic reactors

An atomic reactor running at full efficiency creates a tremendous amount of heat in its core. By removing this heat and putting it to work boiling water to make steam, atom-made electricity is produced.

One of the men responsible for designing new, more efficient ways to remove heat from atomic reactors is 29-year-old Doctor Salomon Levy - Design Analysis supervisor in the Atomic Power Equipment Department's Reactor Engineering Unit.

Levy's Work Interesting, Vital

To study this problem of heat transfer, G.E. recently constructed a heat-transfer system. By electrically simulating the heat produced in a reactor, it is possible to determine the maximum rate at which heat can be removed from a reactor to make steam.

Dr. Levy conceived the idea of building this complex system, designed it and supervised its construction. At present, Levy works with this system to study new problems of heat transfer and fluid flow encountered in atomic power plants.

25,000 College Graduates at General Electric

When Salomon Levy came to General Electric in 1953, he already knew the kind of work he wanted to do. Like each of our 25,000 college-graduate employees, he was given his chance to grow and realize his full potential. For General Electric has long believed this: Whenever fresh young minds are given the freedom to make progress, everybody benefits—the individual, the company, and the country.

Educational Relations, General Electric Company, Schenectady 5, New York

DR. SALOMON LEVY joined G.E. in 1953 after receiving his B.S. in M.E. from the Univ. of Calif. in 1949. In 1951 he received his M.S., and in 1953 his Ph.D. From 1950-53 he was teaching assistant at U. of C. and '50-53 he was Junior Research Engineer at the Institution of Engineering Research.

Classic Win Pitched By Intramural Player

Facing only 25 batters the entire game, Lloyd West of Kappa Sigma threw a no-hit ball game Tuesday night as the Kappa Sigs defeated Phi Gamma Delta 9-0.

Using terrific speed and near-perfect control, West struck out 15 Phi batters. At one point in the game, from the last of the first to the last of the third innings, he struck out seven consecutive hitters and ended the game striking out the last four to face him.

Despite a brisk wind from the west, West walked only three batters and allowed only two balls to get out of the infield. This performance was the first no-hitter in intramural play this season.

The losing pitcher was Bruce Johnson, who allowed nine hits. In the other fraternity league game Tuesday night, Alpha Tau Omega defeated Sigma Chi 11-1. Ray Howard pitched the ATO's to victory; Bob Collier was the losing pitcher.

This tilt went only five innings because of the 10-run rule.

Hickson Captures All-College Lead

Jerry Hickson defeated Don Wilson Wednesday to win the Tech Union Ping Pong Championship for the spring of 1956, announced Teddy Carthel, chairman of the games and tournaments committee.

Hickson also walked off with top honors in the doubles competition by pairing with Richard Flatt to defeat Alvin and Lowell Gregg. The boys will receive engraved trophies.

Thirty-nine boys participated in the singles competition and eighteen boys in the doubles. Tournaments in ping pong and billiards are held each semester, Carthel said.

Kenneth Gullett, Gene Brown and Frank Griffin, shown from left to right are members of Texas Tech's Fencing Team which is making an appearance today and tomorrow in the national NCAA fencing tournament held at the U.S. Naval Academy at Annapolis, Md. It is the fifth such participation for a Tech fencing team. Columbia University is the defending champion.

Sororities Schedule Softball Tourney To Begin Soon

Eight Tech sororities will compete in the fourth annual softball tournament, sponsored by the Panhellenic Council April 5-19, in round-robin play. Specific time and fields will be announced.

Participating sororities include: Pi Beta Phi, Sigma Kappa, Gamma Phi Beta, Delta Delta Delta, Kappa Kappa Gamma, Kappa Alpha Theta, Alpha Phi and Zeta Tau Alpha.

Ruth Ann Cummings is in general charge of arrangements. The schedule has been arranged as follows:

- APRIL 5**
Pi Beta Phi vs. Sigma Kappa
Zeta Tau Alpha vs. Gamma Phi Beta
Alpha Phi vs. Delta Delta Delta
Kappa Alpha Theta vs. Kappa Kappa Gamma
- APRIL 6**
Kappa Kappa Gamma vs. Delta Delta Delta
Delta Delta Delta vs. Gamma Phi Beta
Alpha Phi vs. Sigma Kappa
Pi Beta Phi vs. Kappa Alpha Theta
- APRIL 12**
Pi Beta Phi vs. Alpha Phi
Zeta Tau Alpha vs. Kappa Alpha Theta
Kappa Kappa Gamma vs. Gamma Phi Beta
- APRIL 13**
Gamma Phi Beta vs. Sigma Kappa
Delta Delta Delta vs. Zeta Tau Alpha
Pi Beta Phi vs. Kappa Alpha Theta
Kappa Kappa Gamma vs. Alpha Phi
- APRIL 16**
Gamma Phi Beta vs. Kappa Kappa Gamma
Delta Delta Delta vs. Kappa Alpha Theta
Gamma Phi Beta vs. Alpha Phi
Sigma Kappa vs. Zeta Tau Alpha
- APRIL 17**
Pi Beta Phi vs. Delta Delta Delta
Gamma Phi Beta vs. Kappa Kappa Gamma
Sigma Kappa vs. Kappa Alpha Theta
Zeta Tau Alpha vs. Alpha Phi
- APRIL 19**
Pi Beta Phi vs. Gamma Phi Beta
Sigma Kappa vs. Delta Delta Delta
Zeta Tau Alpha vs. Kappa Kappa Gamma
Alpha Phi vs. Kappa Alpha Theta.

Raiders Play Host To WTSC

Raider Relays Set for April 28 On Tech Track

Again this year the Texas Tech Red Cinder Track will be the scene of the annual Red Raider Relays set for April 28.

Preliminaries will begin at 10 a.m. Saturday and finals are due to be run off the same afternoon. Awards will be made to the first four finishers of each event, while a trophy will be awarded to the high-point individual for the entire meet. The winning relay team will receive trophies and the coaches of the winning teams in each division will receive gold wrist watches.

The meet will be held the day following the closing of spring training for Texas Tech Red Raider footballers.

Every high school athlete who placed either first or second in the regional meets of Texas and New Mexico is eligible to compete in the Red Raider Relays.

The 10-lane track is the finest track in the Southwest, being the only one to meet Olympic standards. It is considered one of the three finest in the country. The track was constructed last year at an expense of \$54,000 and is a continuance of Tech's plans for excellent facilities in the athletic program.

Coach Beattie Feathers' baseball team, currently supporting a 1-0 record for the season, will entertain West Texas in the home opener for the Raiders on the Tech diamond at 3 p.m. tomorrow. There will be no admission charge.

WTSC was the victim of the Raiders last Saturday in Canyon as they fell 10-6. Ronnie Bradley, Tech pitcher, went all the way in gaining the win. He gave up nine hits while walking only one. His teammates backed him up with an 11-hit barrage off Buff hurler Bubba Hillman.

Coach Feathers' choice for Saturday's game will probably be Leo Chase, a righthander, from

Amarillo. Feathers also announced that Buzz Bates will probably don the catching tools for this encounter. The remainder of Tech's lineup is expected to remain the same with Walter Bingham at first base, Fulton Smith at second, George Demere at third, and Monroe Henderson at shortstop. In the outfield Feathers is expected to start Dave Allen in leftfield, Gerig Garrison in center field, and Wick Alexander in rightfield.

The Raiders will depart sometime Sunday morning for Seguin, where they will test the all-weather Texas Lutheran ball club in a two-game series.

Coach Philbrick's Tennis Team To Meet Colorado Here Saturday

Texas Tech's tennis team will play host to University of Colorado tomorrow afternoon at 1:30 on the varsity courts east of the gymnasium, according to Coach George R. Philbrick.

Sporting a 19-13 season record, the Raider squad consists of Billy Edd Gowan playing in the No. 1 slot; Dick Kent, No. 2; Dick Spiers, No. 3; Johnny Kniffen, No. 4; and Scott Cantine, No. 5.

The doubles team will be Kent and Gowan, No. 1-and Spiers and Cantine, No. 2.

Texas Western will invade Lub-

bock for matches beginning at 9 a.m. on Friday, March 30.

Following the Easter holidays, the champions of the Rocky Mountain conference, Colorado College will move in for a match.

PiKA Wins In Intramural Play

Pi Kappa Alpha won the All-College Intramural basketball tournament Tuesday night, by downing a strong independent team, the Goodies, 55-48.

PiKA was in command all the way, holding a 27-19 lead at half-time, which was about as close as the losers came after that.

PiKA advanced to the finals with wins over Doak and Gordon of the Dorm League. The Fraternity League winners were highly favored to take the tournament, after compiling an unblemished 8-0 season record.

The Goodies were champs of the Independent League No. 2, compiling a 5-1 season slate. They had advanced to the tourney finals by beating Sneed, The Vets, and another strong Fraternity League club, Phi Delta Theta, 63-59 in the semi-final round.

Tech Golfers, Tracksters Enter West Texas Relays

Two defending champions—hurdler Leon Chester of Andrews and high jumper Ray McDonald of Blanket—will lead Texas Tech's entry list in the West Texas Relays at Odessa Saturday.

Other Red Raider competitors will be Frank Clarkson of Haskell, Ted Billington of Plainview, Arthur Montgomery of Midland, and Duke Frisbie of Memphis, all in the mile relay. Frisbie will

also enter the 100-yard dash.

Before Tech's golfers compete in the Relays, they will have met powerful University of Houston on the Odessa course Thursday.

Second to North Texas State in the Border Olympics meet, Coach Warren Cantrell's all-sophomore linksmen include John Farquhar of Amarillo, John Paul Cain of Sweetwater, Dan Whalen of Miami, Fla., and Don Kaplan of Bor-

"I feel like a Coca-Cola, Do you?"

Of course. Most everyone does—often. Because a few moments over ice-cold Coca-Cola refresh you so. It's sparkling with natural goodness, pure and wholesome—and naturally friendly to your figure. Feel like having a Coke?

TECH NEWS IN BRIEF

Strehli Named Council Head

Chuck Strehli Monday was elected president of the Tech Union Program Council for the coming school year. Strehli is a senior pre-law major.

Other officers named at the regular meeting were: Pat Tyson, vice president, junior engineering major, Fort Worth; Sandra Cooper, secretary, junior elementary education major, Snyder; Sylvia Dietering, treasurer, senior English major, Lubbock; Alice Wells, director of public relations, elementary education major, Fort Worth; and Bob Huff, chairman of the Music Committee, sophomore major, San Antonio.

APPLICATIONS DUE

All applicants for admission to the Texas University Law School must now take an admission test, according to J. O. Warnick, Jr.

The test will be given April 21, but all applications for the test must be in by March 31, and each must be accompanied with a money order for \$10, Warnick re-

ports. Further information regarding the examination may be obtained from Warnick or Dr. J. William Davis in the government offices, Ad. Bldg. 319 or 310.

CLASS MEETING SET

A freshman class meeting will be held Wednesday at 5 p.m. in room 152 of the Science Building.

The meeting is being held to discuss future class projects and a new class constitution, according to Bob Rose, Freshman Council Publicity Chairman.

DRAMAS SCHEDULED

Two Easter dramas will be presented at the Methodist Student Center, 2420 15th, this weekend by Wesley Players, national drama organization of the Methodist Church.

Friday night at 7:30 will be "He

Came Seeing," by Mary Hamlin. It is the story of a boy whose sight was restored by Jesus, and his family's consequent rejection of him.

In the cast are Angela Malouf, E. J. Williams, Mike Lewis, James Thurston, and Ann Dyer. Laytor Raun is director, assisted by Lenora Howell. Costume director is Catherine Dickinson.

PERKES WINS CHECK

Dan Perkes, 25-year-old journalism senior at Tech, received a \$50 check from publisher, Charles A. Guy of the Lubbock Avalanche-Journal, for having done the best job in advanced reporting at Tech during the fall term. The award is made annually.

HE 'CLEANS UP'

Tech is one of 50 leading schools and colleges of home economics in the country participating in the newly-instituted college program of The Maytag Company.

Purpose of the college program is to provide leading colleges and universities with the new Maytag automatic washer and matching dryer, just placed on the market, without charge for use in home economics classrooms or laboratories for educational and training purposes.

The plan will provide an opportunity for expert evaluation of the Maytag appliances by the nation's leading professors of home economics specializing in household equipment.

Installation of the washers and dryers is being made by local dealers.

ISSUES COMBINED

Next Tuesday's and Friday's Toreadors will be combined and published on Wednesday, because of dismissal of classes on Thursday at 10 p.m. for Easter holidays.

An eight-page edition will be printed. Highlighted will be the announcement and pictures of the top 19 La Ventana beauties.

Deadline for news stories will be 9 a.m. Tuesday.

OFFICERS NAMED

Pat Stooksberry, junior from Amarillo, and Jean Elliott, freshman from Houston, were named treasurer and reporter of the Association of Women Students in a second run-off election last week.

The first run-off elected Mary Jane Hartley, sophomore from Lubbock, AWS secretary. In the regular AWS election Nita Hasehoff, junior from Vernon, was named president of the 1956-57 organization, and Rebecca Wilson, sophomore from Lubbock was chosen first vice president.

Dottie Sue Horchem was elected second vice president by acclamation when unopposed for the office at the AWS nominations convocation.
