NUMBER 11

Whyburn Predicts 1946 Enrollment To Be Over 5,000

Probable Vet Enrollment Expected To Reach 1,466 By Fall Term Of 1946

Pres. W. M. Whyburn, predicts there will be a total full-time enrollment at Tech in 1946 of 5,716 compared with the previous peak enrollment of 4,250 in 1940.

The forecast includes a probable veteran enrollment of 1,466 in 1946 and a probable part-time or special short course veteran attendance next year of 1,900. The short courses will be made possible if the Reconstruction Finance corporation supports the college's request that the Pantex ordnance property near Amarillo be made available for Tech.

If acquired, the Pantex property would provide physical and instructional facilities for the expected influx of returned veterans.

One of the chief reasons for the need of the Pantex plant as an adjunct to the regular educational facilities at Lubbock is that there is an acute housing shortage now in the neighborhood of the college. The brief submitted to the R.F.C. points out that it is extremely doubtful the expected increase in college enrollment could be housed near the campus. In addition:

"The Pantex ordnance plant with extensive farms, shops, buildings, cafeterias and housing facilities would lend itself remarkably well to use by Texas Technological college. Immediately after it becomes available to the college, it will provide housing, classrooms, laboratories, and other necessary physical facilities needed to give the short term courses desired by many veterans who wish some college education but do not desire a full program leading to a degree."

Pre-Laws Hear Wallace Discuss SF Conference

San Francisco conference was discussed by Dr. Ernest Wallace, assistant Dean of Arts and Sciences, at the meeting of Pre-Law IRC club Monday. This was one of the scheduled meetings concerning international relations, which is a part of the club, according to Patti Hall, vice-president and program chairman.

Wallace traced briefly the development of man's attempts to work together, and that now, he is working towards an organization of all the nations of the world. Most of the plans of the Dumbarton Oaks conference were adapted at the San Francisco meeting. This convention might be paralleled to the Philadelphia conference of 1787 when our constitution was drafted, the speaker explained.

The plan calls for a General Assembly, Security Council, General Staff, Economic and Social Council, Trusteeship Council, and International Court of Justice. Wallace discussed the powers and duties of each of these provisions of the charter.

The freshman trial which was to be presented before the club at the next meeting has been postponed until after Christmas holidays, it was announced by the club president, Troy Davidson. The group voted to have a fall semester function. It will be planned by the executive board and presented before the club at a called club meeting before the next regular one.

- Friday, November 23
 - Kappa Mu Epsilon initiation, Social center, 6:30 p.m.
 - Kappa Kappa Psi dance, Textile building, 9 p.m.
 - Engineers Ball, Lubbock hotel, 9-12 p.m.
 - Rifery, 4-5 p.m., 5-6 p.m., ROTC building.
 - Basketball, 5-6 p.m., Gym.
 - Bowling—Alleys Downtown, 7 p.m.
- Saturday, November 24
 - Tech vs. New Mexico U., 2:30 p.m., Albuquerque, New Mexico.
- Sunday, November 25
 - APO, Ad220, 2 p.m.
- Monday, November 26
 - Newman club, Parish hall, 7:30 p.m.
 - Tau Beta Sigma, Ad210, 8 p.m.
 - AWS, Ad220, 5 p.m.
 - WICC, Ad206, 5 p.m., 7:30 p.m.
 - Textile Eng. Society, TE203, 7:30 p.m.
 - Forum Meeting on Tech Traditions, Aggie aud., 8 p.m.
 - Freshman Class Meeting, C101, 5 p.m.
 - Rifery, 5-6 p.m., ROTC building.
- Tuesday, November 27
 - Jr. 20th Century club, L12, 3 p.m.
 - Aggie club, Aggie aud., 7 p.m.
 - HE club, Annex G, 7:15 p.m.
 - Press Club, Press building, 5 p.m.
 - Gargoyles club, E208, 7 p.m.
 - Accounting society, Ad24, 7-30 p.m.
 - Kappa Kappa Psi, T105, 7:30 p.m.
 - Archery, 5-6 p.m., Gym.
- Wednesday, November 28
 - WRA dancing, Gym, 7-8-15 p.m.
 - Social clubs.
 - Las Chaparritas dinner dance; Lubbock hotel, 8:30 p.m.
- Thursday, November 29
 - Thanksgiving holiday.

Met Tenor ...

METROPOLITAN tenor Nino Martini, shown above, will appear on the Tech Artists Course program at the High School auditorium Dec. 3. This handsome leading tenor has given concerts in major cities of Europe and America.

Nino Martini Will Sing For Techsians

Nino Martini, tenor of the Metropolitan Opera, New York, will be presented at Lubbock High school auditorium Monday evening, Dec. 3, at 8 o'clock, under the direction of the Tech Artist course, according to R. A. Mills, director.

Martini made his operatic debut at 21 as the Duke in "Rigoletto." He appeared on concert in Italy, Belgium, and France. When he first came to America he was presented in five short singing pictures in Italian, and had short parts in operas and other films. Martini was signed as leading tenor with Philadelphia Opera Company. His radio singing won him the Columbia Medal for "Distinguished contribution to radio art;" this medal was granted to only five other individuals including Stockowski. He returned to Europe for a concert and opera tour and then came back to the United States for further radio work. It was after this last return that Nino Martini was signed as leading tenor of the Metropolitan Opera. He starred in three films: "Here's to Romance," "Gay Desperado," and "Music for Madame."

Next to singing, Martini likes horseback riding which he started at the same time he began his musical training at the age of ten. He is an excellent rifle shot, and relaxes between opera and concert dates by going to the movies, preferably those of Western nature. Martini is said to be the only opera star who has had a blind date with a college co-ed. He is a bachelor and likes to dance the Argentine tango. Nino dreams of the day when he can buy a ranch and breed and train horses.

The tenor was born in Verona, Italy, and is the first singer ever to have been called for an audition, who was told to sing a selection, and informed later that his audition was merely a formality. Martini was so surprised that he almost fell off the stage.

The artist was once asked which he preferred—the American girl or the European girl? He replied that anyone who answered this question needed the judgment of Paris, the wisdom of Solomon, and the wit of Alexander cutting the Gordian knot.

Martini's wardrobe has the American stamp from shoes to hat. He doesn't admit to any preference but during the daytime he is seen wearing blue double-breasted lounge suits most frequently. Black shoes and blue shirts with ties that harmonize complete the ensemble. Martini's only problem in tailoring is a result of his tremendous chest expansion. He can sing F above high C in full voice and thus requires plenty of chest development.

Tech Assigned \$17,500 Quota In Loan Drive

Texas Tech has been assigned a quota of \$17,500 for the Victory Bond drive now in progress. R. C. Mowery, professor and acting head of the department of animal husbandry, is chairman for the drive on the campus.

The Victory Bond committee for the drive has been announced as follows: S. S. McKay, first floor Administration; J. T. Shaver, second floor; T. F. Wiesen, third floor; Miss Vivian Johnson, Home Economics; W. C. Cole, Bookstore; Jack Powers, Engineering; Morley Jennings, Gymnasium; and A. J. Bahm, Library and Journalism; W. M. Craig, Chemistry; Major Hartman, Military; George Long, campus; and R. C. Mowery, Agriculture.

All employees are urged to make their Victory Bond purchases and report them to their respective committee chairman. The committee will make their final drive December 1 and purchases made by all employees through October, November and December may be reported as part of this drive.

Feed Experiment Will Compare Values Of Milos

Experimental feeding of 100 lambs, in which the food value of Martin milo is compared with the value of Plainsman milo, is being conducted on the Tech farm, R. C. Mowery, professor and acting head of the department of animal husbandry announced this week. This project is being repeated for the third year and is being carried on in cooperation with the Texas Agriculture Experiment station. The project was started Nov. 14 and will continue for 112 days.

Two dry lots of 20 lambs each are being fed Martin milo and Plainsman milo with alfalfa hay for their roughage.

The other 60 lambs are being fed in the field in two lots of 30 lambs each. The field is immature beaver

in which one lot is being fed three-fourths of a pound of alfalfa, and the other lot is being fed one-fourth of a pound of cottonseed meal. The field is being fed alfalfa and it is anticipated that it will be necessary to finish the lambs in dry lot after the first 50 days, Professor Mowery stated.

The lambs were purchased from Lewis Ackers of Abilene and cost \$12.50 a hundred. The average weight of the 100 lambs was 92 pounds each at the beginning of the experiment and they will be weighed at 28-day intervals.

Hennersdorf Elected VP Of Tech Spanish Club

Maxine Hennersdorf of Lubbock was elected vice-president at the last meeting of the Capa y Espada, Spanish club, filling a vacancy in that office.

Featured on the program was Joan H. Marsh of Amarillo with the castnet; Maisie Carter of Lubbock presented a violin solo, "Malagueña" by Sarasate; Joaquina Bonilla of San Jose, Costa Rica and Johann Seyler of Nuemster danced a Conga; and George Colon of Sanpue, Puerto Rico, and Helen Rippey of Amarillo, danced a Rumba.

KING IS COUNTY AGENT

Raymond King, graduate in animal husbandry from Tech, has become county agent of Castro county, following service as county agent of Scurry county. At Snyder he helped sponsor the Scurry county 4-H club and FFA Livestock show.

place of business in order to visit with them. Little brothers and sisters have returned to school, and a big Thanksgiving football game has been played. Friends from other colleges have come and gone, and the holidays are anything but festive.

Thanksgiving Holidays Set For November 29

Forum Holding Revival Of Old Tech Traditions

Forum is holding a Revival! Yes, Monday evening at 7:00 in the Aggie Auditorium, there will be a revival of Tech traditions. The president and a chosen representative of every club on the campus will participate. The purpose of the meeting is to discuss old club traditions and try to re-introduce them to the students.

As you know many of Tech's customs were forgotten or purposely discontinued during the war. In our attempt to get back to normalcy, it is admirable that these be recalled and put into effect.

No doubt some of the old ones will no longer be in vogue, and new ones will be formed annually to replace ones that we now cherish. But many of our traditions are here to stay. They hold the students together like mortar in the buildings. The best way to insure school spirit, is to give the students something in common with each other.

Clubs start and stimulate a large percentage of the campus's customs worthy of remembrance. Therefore, it is important that the representatives of the clubs get together and recall what all the organizations traditionally do. The only way this can be a success is for all clubs to send representatives and a list of its time-honored systems so that they may be discussed.

The movement is timely and truly Techian in spirit. Forum is to be commended for this call to action. This is merely one of the organizations many projects. All-college appreciation is due its members.

After Long Time ... Tech Veterans Receive First G. I. Checks

From all accounts, it seems that the Veterans' Administration in Waco operates a bureau of Mental-Telepathy," according to D. O. Schultz, secretary of the Tech War Veterans' association. For just as the secretary of the Student Veterans Administration lifted his pen to write out a letter of complaint concerning veteran's pay under the G. I. Bill of Rights, notices and pay allotments began to pour in.

"Maybe this mental-telepathy has its points," he said. "At least it has saved us a lot of correspondence." The story behind this sudden action on the part of the Tech Veterans is simply that the majority of the veterans had not received their monthly allotment check this fall, and consequently, some were financially "out on the limb." However, as the letter of complaint was

in the process of being written many of the boys received their long awaited checks while others received notifications. These stated that applications had been accepted and that checks would follow. A letter Schultz points out "is not dead, but merely tabled until further developments."

"To stop short of 'bread lines,' Maj. Harold L. Kipp, coordinator of Tech Veterans' Affairs says, "Any veteran who is financially embarrassed may report to his office and through the Local Red Cross and may be assured of an emergency fund to tide him over."

In discussing the situation Kipp pointed out that after the certificate of eligibility have been sent to the Veterans' Administration office in Waco, that it takes approximately 45 days for full acceptance and filing. The checks are then made out and sent to the Dallas offices and from there are sent to the veteran.

James Watt Is Killed In Automobile Accident

T-Sgt. Richard James Watt, 1942-43 student in general business of the Division of Commerce, a serviceman at Camp Wolters near Mineral Wells, was killed instantly in an automobile accident seven miles south of Quanah recently.

Student Council Reports \$270 Is Up For V-Show

what all the organizations traded for \$275 has been underwritten for the Varsity Show.

Since there is a need for an approximately \$500, several campus organizations have pledged to underwrite a definite amount. There is also a Varsity Show fund set up in the business office to be kept there in event of loss. In this case, the deficit will be paid out of it. The fund will be continued until a Student Union building has been built. It will be used for stage equipment.

Tech Foundation Aims Outlined

The aims of the Texas Foundation were outlined by Dr. Clifford B. Jones, Tech president emeritus, at a meeting of the board of directors.

Dr. Jones urged members of the board to make the organization more active and improve its present situation. The Foundation serves as a receiving agency for gifts to the college.

Anyone wishing to contribute gifts or funds to the college may do so by making their presentation to the Foundation which accepts it on behalf of the division or the department for which it is intended. Donors who stipulate that gifts be used for a special purpose may write a check payable to the Foundation which in turn earmarks the sum for that use.

Approximately \$14,824.82 is in the Foundation fund at the present time, the major portion of which is designated for special purposes, according to W. J. Gaston, Tech business manager and secretary for the Foundation.

Other board members are Dr. R. C. Goodwin, vice-president; Dr. W. M. Whyburn, Tech president; O. B. Ratliff, Arch Lamb, A. B. Davis, Parker Prouty, Jack M. Randall, Dr. W. C. Holden, and J. Doyle Settle.

Mr. Martin was requested by telegraph to choose the top four, and he immediately accepted.

The eight girls who will compete in this final contest are: Earlyne Reid, Beverly Desanone, Mary Mae Johnson, Lometa Hodge, Betty Bales, Pat Smith, Joe Ann Bailey, and Jeanne Stovall.

The definite date and final plans for this selection have not been made. The artist will arrive on Sunday being who is to be presented on the Tech Artist Course then.

The top four beauties will have a full page picture in the annual, the others will have a half-page. The winners of La Vintana Beauties will not know what place they received until the yearbook comes out in the spring.

Total balance deposited by the Tech Alumni Association is \$1333.58, as released by the latest financial statement for the organization. Expenses for activities of the Alumni since May 26 amount to \$396.42, which has been deducted from the total donations to the association which equalled \$1730.00.

Techsians Given 4-Day Period For Holiday

Classes will officially end at 6 o'clock next Wednesday afternoon for Thanksgiving holidays Thursday, Nov. 29 through Sunday, Dec. 2, and classes will be resumed Monday at 8 o'clock.

Warning is issued by the administration that double cuts for absences from classes will be in effect Tuesday and Wednesday of next week and Monday and Tuesday, Dec. 3 and 4.

This is the first Thanksgiving since the war began that more than one day has been given for holidays. When the college calendar was planned Texas and the nation had not scheduled the official Thanksgiving. Later on, Governor Stevenson and President Truman proclaimed November 22 as the official holiday for Texas and the nation to allow for the week-long shopping season between Thanksgiving and Christmas.

Therefore, most of the state will have celebrated their Thanksgiving yesterday.

If the expected exodus from the campus materializes, Tech campus will be rather quiet for the week-long holiday season. For the first time in several years the Red Raiders will not have a Turkey-day game.

Rumors that the holidays would begin earlier than scheduled, or perhaps be celebrated the week earlier were reported to be without affirmation of the administrative council according to the office of the president, Dr. Whyburn stated.

Top Four Beauties To Be Selected By Nino Martini

The top four beauties, from the remaining eight girls, will be selected sometime Dec. 2, 3 or 4 by Nino Martini who is to be presented on the Tech Artist Course then.

Mr. Martin was requested by telegraph to choose the top four, and he immediately accepted.

The eight girls who will compete in this final contest are: Earlyne Reid, Beverly Desanone, Mary Mae Johnson, Lometa Hodge, Betty Bales, Pat Smith, Joe Ann Bailey, and Jeanne Stovall.

The definite date and final plans for this selection have not been made. The artist will arrive on Sunday being who is to be presented on the Tech Artist Course then.

The top four beauties will have a full page picture in the annual, the others will have a half-page. The winners of La Vintana Beauties will not know what place they received until the yearbook comes out in the spring.

Fund Balance Shows \$1333.58 For Activities

Here Is The Lowdown ...

Straight Facts Are Given Techsians On Thanksgiving

By BESS BALDWIN
Toreador Staff Writer
Thanksgiving? Yes, but when? This seems to be the prevailing question in the minds of Tech students in regard to just when Thanksgiving is to be celebrated. To set the worry-laden mind of Joe College at rest here are a few "straight" facts concerning Thanksgiving.

The first Thanksgiving was observed by the Pilgrims in Nov. 1621. The two-weeks celebration for observing of Thanksgiving in November is a result of students of these institutions find themselves observing Thanksgiving more or less alone.

Picture the poor student who arrives home next Thursday only to be greeted with cold turkey sandwiches or turkey hash. The family has had its big reunion, and victims of the previous week's celebrations are interested in nothing more than recuperation. The sport's enthusiasts find all ammunition supplies exhausted, so the duck or deer hunt has to be cancelled.

Those collegians with working parents must journey to the parent's

place of business in order to visit with them. Little brothers and sisters have returned to school, and a big Thanksgiving football game has been played. Friends from other colleges have come and gone, and the holidays are anything but festive.

Remember also the unfortunate student who works away from college he gets no holiday at all. At the time the businesses are celebrating, he must continue to meet classes. When college holidays begin he must return to work.

There have been several suggestions to a solution for the problem. The one which met with most student approval was that Tech, in order to avoid confusion, celebrate both the first and last Thanksgiving. However, this suggestion met with a great deal of disapproval from the Administrative Council.

Those students with that "best look" today may be those who decided to celebrate along with everybody else. They are extremely lucky since they will have a whole week to recuperate before the next Thanksgiving.

THE TOREADOR

THE TOREADOR, student newspaper of Texas Technological college, is published every Friday on the campus of Texas Technological college at Lubbock by the associated students of the college.

Entered as second class matter, October 31, 1925, at the postoffice in Lubbock, Texas, under the Act of March 3, 1879.

Editorial offices, Press Building, Rooms 103, 105. Telephone: College switchboard; Night editor, 8548.

Social Clubs—Pro . . .

This is the second of the series of editorials on social clubs—Pro and Con. Any comment, on either side of the question will be welcomed by THE TOREADOR. If you think either or both editorials have missed or omitted some important point in this discussion, a letter on the subject will be welcomed. Address Editor's Mail, campus—34.

Social Clubs on Tech campus imperiling Democracy? Make a study of the democratic principle. Every group, every creed, every organization is granted full freedom of belief and activity so long as they do not encroach upon the rights of others. This is guaranteed in the Bill of Rights. There is no motive or practice within the social clubs on this campus which robs a single individual of his rights either as a citizen on the campus or in national life.

The very foundation of democracy provides that man shall be able to rise according to his own ingenuity, capabilities and resourcefulness. Some group in every election ever held must come out winner. A study of government and politics will prove that state and nation are run on the same basic principle that the organizations are here at Tech. Every person, every departmental, national honorary fraternity, and recognized party on this campus enjoys the same privileges of campaigning and electing candidates. Cracker barrel politicians will always be found in America. Those persons who sit, talk, argue and bicker situations and never care enough to exercise their rights. To say that electioneering is impractical, and taking away from serious college work is untrue. What could be better said of a school than that it graduated intelligent students and those interested in national and state government? If social groups are interested in such activities what should be denounced in this policy?

The intimation that incapable persons are put into offices through this political practice is not justified by any of the student officials which have been here in the last four years as senior students can verify. It is doubtful that any candidate has ever broken faith with the fellow students that put him in office.

Further goals are predominant as the basic reason for the formation and on going of social clubs. Social groups lead the campus scholastically. Scholarship is a main objective within the clubs. Members of these clubs lead in campus sponsored groups, student council, departmental clubs, local activities and national honorary-fraternities. A large percent of these students are working to pay for a large portion of their college career. Tech is a large school. It is on the college campus that for the first time one meets the situation as it will be in later life. One must choose for himself what he will believe in, with what group he will affiliate. From the childhood games to adult organizations man is continually banded with some group if he cares to promote a cause. It is an essential characteristic of humankind to be working with some group. What groups he chooses to be a part of are his own preferences. In such a large place as this college it is impossible to be intimate friends with every person on the campus. A main objective, then, in the clubs is to promote friendship and to provide means of working together and having recreational activities.

Veterans coming back to school may not feel the need or desire to become a part of such groups. That is their decision to make. They are older in experience if not in actual years. The trials that they have endured will not pass to others, will not make them any more mature. It is not a rather sadistic angle to say that the following generations should all be robbed because these men had to grow up too quickly? The idea most commonly believed is that the war was fought so that the pleasures, rights and privileges of a free nation might proceed according to plans followed before the nation was threatened. If certain reformation is needed then let it be done but do not wipe out entirely things which carrying on much good work. On this campus veterans many years older than the average college freshman and some older than the senior students are pledging boys' clubs. They are wanted as much or more by these clubs than non-service men and are finding a place and adapting themselves well to college life. They stand on equal basis with all others as to whether they will be selected and they also maintain the same rights to pledge or refuse a social club.

The statement from the catalogue which reads "No student shall be a member of, be identified with, or be active in a student secret organization or one not recognized by the college. Such affiliation will justify the permanent expulsion of a student from college," does not discriminate any more against social clubs than any other organization on this campus. Social clubs petition for and receive recognition on the very same forms and papers that any order wishing college recognition does. They have received that recognition. To say that they are secretly affiliated with other groups is nothing more than digging up ghosts.

Students here are accepted in any work they choose to do for what they are as an individual. The family tree doesn't cast a favorable or unfavorable shadow. What a Texan chooses to be is what he is recognized for by both students and faculty at this college. They are accepted or rejected by clubs for the same reasons and to say that affiliation or non-affiliation means a drastic difference in the college career is not true. It is a matter of individual choice.—J. W.

Thanksgiving . . .

Yesterday was Thanksgiving for Lubbock and the surrounding schools and towns. Yet, Techsians must wait a week for their holiday as they did last year.

Tradition is respected on the campus, and we'd rather the original day be set aside for Thanksgiving. However, when families and friends observe Nov. 22, why shouldn't we? After all, some mothers and fathers work and cannot be with vacationing students next week. Some students were not able to take trips with their friends, because, yesterday was just another school day to them.

If the first Thanksgiving date interrupted examinations or even mid-semester quizzes, there might be a reason for the college to observe the latter holiday, but there is no such reason. Why are we out of tune?—D. W.

From . . .

2 . . . Another

By COUNT MEOUT

The Count is thankful this week that he was included in two celebrations of Thanksgiving and that social life at Tech resembled the good old days last weekend with two such successful dances. Why don't we do this more often?

JO BREWSTER and TOM HALEY have been nominated as the best looking couple on the dance floor, wherever they go.

The Count saw many independent at College Club function they weren't doing so bad, either. I like this.

Congratulations go to MAUREEN SMITH and BOB HOLT who have set the date some time in January. Ain't love grand? She really must have what it takes to enchant him away from his motorcycle.

SUE OSBORN and BURTON CROSSEN have an awfully far away look in their eyes when dancing together. Not them too?

WANDA JEAN TURNER has quit school to get married. June is here, it seems. He was recently discharged from the Navy.

T RYAN and MARIANNE TIMMONS seem to be enjoying each other's company.

There are going to be some hot football games around here after the Thanksgiving holidays between the boys' clubs of the campus. Better go out and cheer for your favorite group.

The object of the affections of WABBIT WATSON is her Boss's son. Quite a set-up, no?

Why was RE WOLFE's wife casting such long glances at her husband at the C.C. dance?

LOU BURNS is wearing ART SHAHAN's high school class ring this week. Here we go again.

Mr. and Mrs. TED CRAIGER are living in town and still attending classes. Wonder if he still carries her books to school.

There is a little friction between BETTY HALLMARK and MARVIN BERRYSSINCE he decided to play in the band instead of taking her to the dance, Sat. And they were such a cute couple.

Are ROBERT PARDUE and MARILYN ANDERSON speaking yet? ROBERT is the boy that got BILL KENNEDY to explain a joke to him—he didn't get it. English?

MARRILYN SNYDER's evening dress caught on fire at the C.C. dance. JIM WANNER rushed to her rescue. JIMMY WILLIAMS with whom she was dancing, states that he would have saved her but he smoke got in his eyes.

Who were the two veterans visiting BETTY HARELL this week? Safety in numbers.

ELEANOR LEFTWICH seems to be for the visits of FRED PHILIPS, an ex-Techsan. We do not blame her.

Evening play practices seem to have their high point when the actors are not on the stage. Most of the participants have dates and bring them to rehearsal. In this case, he who has the fewest lines, is he who is envied.

Charming set up at play rehearsal include JODY WOFFORD and "A"SHALL MASON who play the rich maid and butler.

JACKIE POWERS seems to be doing all the good in the social field. She is also a hot debater, too.

News has reached the campus of the marriage of Maymie Rhea Williams of Kermit to Troy Squires of Springfield, Ill. The bridegroom is a graduate of Lubbock high school and a former Tech student. He recently was discharged from the Navy.

Sgt. Glen Brown of Jackboro, student at Tech when called into service with the National Guard in 1940, died in a Jap prison camp Dec. 11, 1943, his parents have been informed. He was a member of the "lost Battalion" and was captured in the fall of Java in March, 1942.

Lt. Arthur G. Martin of Temple, former student in geophysics, has returned from European service wearing the Silver Star, Bronze Star, six battle stars and the presidential citation. He served with the Ninth air force in England, France, Germany, Luxembourg and Belgium. He was married recently to Betty Stoy of Crandall, former TSWC student.

The marriage of June Rose Gish of Nederland to Edwin Boggs of Portales, N. M., an ex, has been announced. Boggs is a graduate of Tech and is chief production clerk for the Shell Oil company at Portales.

The last German U-boat attack along the Texas coast was December 3, 1943.

Veteran Of The Week

By BEA GREEN
Toreador Staff Writer

Returning from his twentieth mission over Germany, 1st Lt. Marshall Pullen, navigator of a B-17, and the other members of the plane's crew crashed in Denmark on May 24, 1944. On his nineteenth mission, he was wounded by flak over Berlin.

Pullen attended Tech in the fall of '41 and is back as a sophomore petroleum major. He is our candidate as veteran of the week.

The navigator went overseas in Nov. '43 after having trained in Texas, Washington and Montana. German sailors captured the B-17 crew after it crashed, sending its members to Flensburg, Germany for two days.

From there they went to the Interrogation Center, Dulag Luft. Pullen says that all war prisoners were sent there for questioning, persuading and a little solitary confinement. Here he received his first service from the Red Cross.

The Germans after questioning told him that he was going to a Gestapo camp in the afternoon in an attempt to scare him.

Instead they sent him to Wezlar, an intermediary camp. This was during the first part of June. The men received some Red Cross clothes and their first opportunity to shave since the accident.

Afterwards, Pullen was moved again—this time to Stalag III, which is in Sagan, southeast of Berlin. There were about 2200 officers of all forces there, some 5,000 being Americans. "When things were good," he says, "we got one loaf of bread about twelve inches in length for seven men. Fifteen of us lived in one room."

"From time to time we got Red Cross parcels which weighed about 11 pounds each. This food was what they really lived off," he recalled.

During the night of Jan. 27, 1945, they marched out of the camp and kept marching—in the snow—until about 10 or 11 a.m., having covered 18 miles. There was no place to rest, so after resting in the snow and eating frozen food, they started marching again. This time they stopped after covering some 35 miles. Several men died during the trip.

At Muskau, the men refused to continue; therefore they managed to find a concrete factory and sleep for a while. The next day, Pullen and a group of men went ahead of the rest to Spremburg. The temperature was still below zero. Pullen's toes froze. At the town, the men were loaded into "40 or 8" box cars—40 men or eight horses, only this

time 55 men were in a car. They unloaded at Moosburg, which is a small town north of Munich. "Things were real bad here," he remarked. "In a small hallway, there were housed 200 men. There was no fuel, bread supply was cut down, potatoes were given to us raw. Only the fleas thrived. What little food was available was from the Red Cross."

To ease the situation, hospital tents were put up. Two hundred men were placed in a tent. "There was no cooking, no place to cook, and nothing to cook," he says. The tent Pullen was in was placed in a low spot; when it rained, water stood on the ground which the tent was placed. They slept on the ground.

The Lt. was liberated from the camp on April 29, but they did not leave until May 9, when he was taken to a French hospital. He had lost 35 pounds.

Pullen reached the States early in June and arrived home, Pittsburg, Tex., on his birthday, June 9. He says of the Red Cross, "It is the best organization I know of as an impartial. The work it does was needed to us when they could. Transportation difficulties from Switzerland to the German camps were what kept us from having their aid all the time."

West Hall Residents Elect Officers Wednesday

The residents of West Hall met Wednesday, Nov. 7, at 10:00 p. m. in the lounge to elect permanent officers include the following: Jan Post was elected president; other officers include the following: Justice Hall, vice-president; Betty Haynes, secretary-treasurer; Jackie Matthews, finance chairman; Rob Elaine Key, senior representative to the senate; Betty Leonard, junior representative; Wanda Jennings, sophomore representative; Lois Melugin, freshman representative; and Earline Whitaker, AWS representative. Other members of the senate are Ruth Fisher, Jean Compton, Joan Dyer, Kay Pinkston, Avarnell Moss, Faye Harlan, who are student advisors.

Letters To Editor:

The Toreador will publish any letter that is of interest to the students or faculty of Texas Tech. According to the rules of the Publications Committee, any letter printed should be signed by the person writing and kept on file in The Toreador office for school year. If you write The Toreador please sign your name.

Nov. 9, 1945

The article appearing in the November 9 issue of The Toreador under the heading "Homecoming Neareth" is in our opinion sacreligious. Some of the most well-known and best-loved passages of the Bible have been shamefully paraphrased. Although Tech is not a religious institution, respect for the Bible should be universal.

Indignant Co-eds.

Dear Indignant Coeds: The Toreador humbly begs forgiveness for printing the article "Homecoming Neareth". If we were guilty of paraphrasing passages of the Bible, we are under the opinion that this style of writing was rather well known and accepted in various publications, especially on college campuses. About it paraphrasing some of the most well-known and best-loved passages in the Bible, we are open to conviction if you would be so kind as to point out any passage or verse in the Bible that it paraphrases in any way other than the style of language prevalent at the time the King James version was first published. The Toreador will continue from time to time to publish parables, which have become a tradition with this paper as much as the green caps for freshmen.—Ed.

Announcement has been made of the marriage of Mary Beth Clark of El Paso to Joe Powell of Tampa, Fla., recently discharged from the Army. Mrs. Powell is a Tech graduate. Her husband is a commercial photographer.

Nine-Weeks Reports . . .

Were you reported failing or unsatisfactory in one or more courses when nine-weeks reports came out? If so, it does not mean that you will fail when final grades are in, because mid-semester reports do not become a part of your permanent record.

However, these reports should serve as a warning to you to improve your work in the future. Perhaps you have not done your best or have not spent enough time on courses in which you were failing or unsatisfactory.

Even if you were passing in all work at nine-weeks, do not become smug or complacent, because you might fail a course or two yet, if you do not apply yourself or do not attend class regularly.

Low class attendance is probably the reason for the greatest percentage of failures. Even if grades are excellent and attendance is not up to par, many professors place more importance on attendance rather than grades.

Let's "get on the ball," Techsians, while there's still time, and come out with "flying colors" in the long run.—J. E.

Red Raiders To Play Last Game Tomorrow

Strong Lobo Team Oppose Men-In-Red

Several Injured In Clash With Oklahoma Aggies

The Raiders' after receiving their bitterest defeat of the year against the Oklahoma Aggies, take to the road again this week to try for their fourth win of the year against the New Mexico Lobos in Albuquerque. Game time is set for 2:30 in the afternoon.

This will be the final game of the year for the Raiders and they are hopeful for a victory.

The Lobos will depend much upon their famed "touchdown-twins," Don Rumley and Rudy Krall, who have been the better half of the team throughout the season. It will, at any rate, be a contest to watch between Texas Tech's famed Walter Schlinkman and the powerful Lobo combination of Rumley and Krall.

Outstanding threats on the Lobo line are Guard Ben Miles and End George Mertz. Miles has the reputation of letting few opponents pass his stand unshaken. As to Mertz, he is always there when the pig-skin comes his way, and he very seldom lets one pass him by. The Raiders should also keep an eye on Fred Doar who is one of the finest centers the Lobos have brought forth in many a season. He is quite often a sixty-minute man but never slows down in any event.

On a basis of comparative scores the Lobos have quite an edge over the Raiders. The Raiders have won three, tied one, and lost five; scoring 66 points to their opponents 133. On the other hand the Lobos have won 6, tied 0, and lost 1; scoring 246 points to their opponents 31.

The Raiders will depend much upon little Jack Henson this week after his stirring efforts against the mighty Aggies last week. Henson more than once put the ball in a dangerous position for the Aggies by some brilliant ball running. He was assisted greatly by T. M. Cox who for the first time this year has had a chance to show what he could do. Cox turned in a fine offensive as well as defensive game which may result in more minutes for Cox against the Lobos.

Representing Tech for the last time will be the mighty Walter Schlinkman who, in our opinion, is the greatest grid star Tech has ever

produced or ever will. This being Walter's last game the rest of the Raiders, wishing to give him a good farewell, may prove to be exceedingly hard to handle when they clash with the Lobos.

Other outstanding Raiders to play against the Lobos are Moyers who also did some fine playing last week. Lawhorn who is Tech's greatest hope in the line will be assisted by Turner, Winkler, Kelley, Ottmers, and the mighty McSwane. To see action in the backfield will be Schlinkman, Norris, Robnett, who is fast developing into Tech's finest, Shahan, Hardey, and Dillon who is again in the backfield after playing the line all season. Dillon has seen little action due to an injured knee received last year against New Mexico.

Due to Tech's bitterest defeat last week against the Oklahoma Aggies the starting line-up cannot be certain from the above. For the Lobos it will be Malone and Mertz at ends; Williams and Neglich at tackles; Bernston and Miles at guards; Doar at center; with O'Brien, Rumley, Collins, and Krall in the backfield.

Officers On Retirement Pay Eligible For GI Bill

Officers of the Armed Forces who are receiving retirement pay are eligible for training under terms of the GI Bill of Rights, of Public Law 346, only under special conditions and have been advised by H. L. Kipp, veterans counselor, to confer with him before seeking the aid. Major Kipp said the officers will obtain special information by calling at his office, 100 Ad building.

Texans have used 67 billion cigarettes and paid 100 million tax since 1931.

Plays Last Game ...

WALTER SCHLINKMAN

From The Bench

By SPLINTER PANTS PINSON

Tech's Red Raiders ran into more than they could handle in Bob Fenimore and Co. The Oklahoma Aggies plowed the Raiders under by more points than I can remember Tech ever being defeated. Surely it was the worst defeat in recent years. Rapid Robert Fenimore certainly isn't over-rated, for he is one of the greatest ball carriers of all time. Bob, however, wasn't alone as he had a hard charging line to clear the way for him. The men he couldn't side step he simply ran over.

For the final game of the regular season, the Raiders' journey to Albuquerque to engage the once defeated Lobos of New Mexico U. Past games with the Lobos have always been rich in tradition and thrill packed. When the Border conference was active, the Tech-New Mexico U. game was the game of the year. The students of New Mexico U. look forward to this game each year as Tech is the team they want to defeat. This year's affair takes on added importance, as rumors say the winner will be invited to be the home team in the Sun Bowl game. You can bet your boots that the Lobos will be inspired and "play over their heads" in an effort to get the Sun Bowl bid. The men from Albuquerque were idle last week, and their coaching staff was in Stillwater scouting Tech. So look for a great battle to be unreel tomorrow afternoon.

Not faring so well last week, due to the many upsets, John DeLee and yours truly make another attempt to pick the winners.

Tech over New Mexico U. by 1 touchdown. Auburn over Louisiana Tech by 4 touchdowns. Baylor over S.M.U. in a close one, U.C.L.A. over California by 1 touchdown. Georgia Tech over Clemson by 2 touchdowns. Columbia over Dartmouth by 3 touchdowns. Duke over North Carolina by 2 touchdowns. Georgia over Presbyterian by numerous touchdowns. Holy Cross over Boston College by 2 touchdowns. Northwestern over Illinois by 1 touchdown. Indiana over Purdue by 1 touchdown. Minnesota over Wisconsin by 2 touchdowns. Miss. State over Mississippi by 4 touchdowns. Oklahoma A&M over Oklahoma by many touchdowns.

Ty Bain Seeks Coaching Job

Captain of the Red Raiders, Texas Tech football eleven for the 1940 and '41 seasons and All-Border Conference quarter-back, Lt. Travis (Ty) Bain, USNR, of Burger, intends to return to athletic circles in Texas following his discharge from active service from the Navy. Ty received his release Nov. 13.

Awarded a commendation by his commanding officer on board the USS Shipley Bay, a baby carrier, for "valuable service rendered" as Officer of the Deck in the Okinawa Campaign, Lt. Bain worked in the Physical Training Department at Pensacola Naval Air Station immediately before reporting to the Naval Personal Separation Center at Jacksonville for release.

He is seeking coaching assignment in a Texas college or high school. His wife, Eileen, daughter of Dr. H. H. Crosby, prominent Burger dentist, and young son, Michael, are now living with Mrs. Bain's parents at 303 N. Hedgecoke in Burger.

Life With the Exes

Announcement has been made of the marriage of Lt. Mary Ann Lepah of Pocatella, Idaho, to Lt. Charles A. Freeman of Coleman, for three years an engineering student at Tech. The ceremony occurred October 11 at San Fernando on Luzon, Philippine Islands, Lt. Freeman is with an Army engineering battalion at Clark field, Manila.

Friends on the campus have learned of the marriage of Tommie Joyce Rose of Jayton to Pvt. Purvis Sorelle, a student at Tech when he entered service a year ago. Margaret M. Nicholas of Canyon and Thomas L. Devin of Tulla, the latter a graduate of Texas Tech, were married October 27 in Canyon. The bridegroom served three years with the air corps and recently was discharged from service. Previous to enlistment he taught vocational agriculture in Canyon high school, where he is again employed.

Lt. John P. Sorrels, former Tech student, has returned from 27 combat missions in the Pacific area and recently visited the campus. He has been in the Army Air Corps since 1942 and is remaining on active duty, reporting next month to March field. He holds the Distinguished Flying Cross, the Air Medal with two clusters and the Pacific Theater ribbon with three battle stars. He saw most action in the Japanese mandated islands, Truk and the Marianas.

Friends have learned of the recent marriage of Jo Stephens of Willis Point to Sgt. Jimmie Hooser of Plainview, former Tech student. Staff Sgt. J. D. Waller of Malakoff, Tex., a graduate of Tech, has been discharged from service and has returned to his home community to engage in a farm implement and household appliance business. He spent three years in service. He played football and baseball at Tech and taught in Malakoff eight years, part of the time serving as coach.

News of the marriage of Mary Brown of Vincent and Joe E. Fortson of Vincent has been received on the campus. The bride attended

Tech and is teaching near San Angelo. Her husband recently was discharged from service. Anna Kathryn Eavesport of Dallas and Harold F. Galin of Beaumont recently were married in Dallas. The bride is a business administration graduate of Tech. Her husband recently was discharged from the Army after 20 months in the Pacific.

Lutetia Irene Dorenfield of El Paso became the bride of James H. Taylor of Little Rock, Ark., recently in Las Cruces, N. M. Mrs. Taylor is a graduate of Tech and has been employed as classification clerk in the William-Beaumont General Hospital. The newlyweds will live in Marianna, Ark.

Campus friends have learned of the marriage of Elizabeth Jane Smith of Lamesa to Richard B. Holton of Spearman. Mr. Holton attended Tech prior to entering the air corps nearly four years ago. He was discharged late last month after spending most of his enlistment in Europe.

Announcement has been made of the engagement of Mildred Shinn of Corpus Christi to Ensign R. B. Kerr of Dexter, former student of Tech.

Announcement has been made of the marriage of Veta McQuatters of Littlefield and Fred Bolton of Farwell. Mrs. Bolton attended Tech and was employed two years at LAAF. Bolton also is a former Tech student, enlisting in 1941 and serv-

ing in various areas of the Pacific. The couple will live on a farm near Farwell.

Raymond Nolen; Earlyne Reid, Paul Nail.

Pledges and their dates will be: Mary Platt, Dick Cope; Mary Ann Wilson, Bill Guinn; Betty Haymes, Melvin Johnson; Wanda Jennings, Buddy Malouf; Betty Garrett, Dale Kline; Yvonne Scott, Milton Butler; Cleo Stringer, Truman Stringer; Virginia Towns, Elwood Wright; Anita Oliver, Winfred Hooper; Mary Jordan, Jack Hucky; Margery Reed, Douglas Reed; Loretta Maner, Eugene McClurg; Jean Hawly, Bob Hassell; Wynelle Cotten, Bill Spencer; Sue Sentell, Emory Payne; Marjorie Crews, Benoy Gattis; Bobbie Green, Henry Moran; Jayne Thompson, Duane Dawkins; Nell Anthony, Randy Rutledge; Peggy Slappey, J. C. Riggins; Pat Robison, Jack Sams; Sue Son, Jay Denton.

'45 Cage Season Opens On Campus With Workouts

Football ends Saturday night and next week features the beginning of basketball season. Jay Kerr, 2-year letterman is in charge of the team. Polk Robison will take over next week and begin putting the men in shape for their first game the first week of December.

Dean Stangel, chairman of the athletic council and Morley Jennings, head of the athletic department are going to the semi-annual Conference meeting at El Paso the 25 and 26. Fall football will be discussed and the time set to return to normal eligibility rules. The basketball schedule is to be completed at this meeting and we will find out when and with whom Tech plays its first basketball game.

Two lettermen for 1944-45 from the football squad who reports next week for basketball are Gene Hickey and Jiggs Jackson and a squadman to report is Bill Kelley. Freshmen to report from football include Athol Craver, Bennie Tidwell, Frank Ottmers, A. W. Montague and Henry Fisher.

For the past few weeks Kerr has been working out the following: Tillie Sneed, Ardis Barton, James Putnam, Burl Daniels, Don Dollar, Leonard Steger, John Thompson, Robert Pardue, Sam Bishop, Dale Foreman, Garland Finley, Robert Clayton and Bob Scarborough.

Two lettermen for 1943-44 are Phil Ragland and Dale Cooper. They have recently been discharged and they plan to enter school again next semester.

Aggie Pig Roast Is Held Tuesday

The 18th annual Aggie Pig Roast was held at the pavillion last Tuesday night, Nov. 13, with over 200 members and guests present for the event.

Tom Miller, president of the Aggie club, welcomed the guests and Thebert Miller introduced the speakers. Rev. H. G. Gantz who was main speaker for the evening, spoke on the future of agriculture. Dean W. L. Stangel gave the history of the animal husbandry contests that were formerly held every year. A. W. Young discussed the plant industry contests and L. G. Harmon discussed the dairy manufacture contests. A. H. Leidigh also gave a discussion on agriculture.

Arrangements for the Pig Roast were made by committees appointed at the last meeting of the Aggie club. They were: Raymond Burnett, Earl Burnett, Sam Hunnicutt and Norman Hoback chairmen of food committees; Earl Sears, invitation committee; Claude Hoffman, pavilion arrangements; and Jack Creel, program committee.

afternoon, Dec. 5, at 4:00 o'clock. His subject will be "Unit Method of Teaching," which will be given in the high school auditorium.

There are more than 30,000 kinds of flies.

Annual Engineers Ball Is To Be Held Tonight

An Engineer's Ball, sponsored by the Tech Engineering Society will be held Nov. 23, from 9 until 12 p.m. in the ballroom of the Lubbock hotel.

The sponsors are: Prof. and Mrs. Robert Newell, Prof. and Mrs. L. J. Powers, Prof. and Mrs. W. G. Helwig and Miss Dorothy Rylander. Faculty of the engineering division is invited as well as the student body of the college. Tickets are \$1.00 for couples and \$1.25 stag.

TEXAS TECH BOOKSTORE ON THE CAMPUS

What's Back of My Gas Burners?

A thousand years ago, the Chinese used natural gas fuel for evaporating salt brine. They transported the gas in bamboo tubes. Thus, in those days, the gas business was simple. Now, however, it has become complicated and technical, utilizing many scientific devices and processes.

Since natural gas service so vitally affects your daily life, we believe you would enjoy knowing more about it. Therefore we plan to publish a series of four advertisements which will attempt to explain how natural gas is brought from its deep-underground reservoir to the burners of your gas appliances. Due to space limitations, the story must be brief and oversimplified. The drawing at the left will help you follow the gas on its travels.

Most of our gas comes from Hutchinson, Moore, Carson and Potter Counties in the Panhandle Gas Field, one of the largest in the world. We purchase some gas in Ector County for use in the southern portion of our system. In the Panhandle Field gas wells are generally drilled by the "rotary" methods, so named because of the rotating motion of the drill bit. A modern rotary drilling outfit costs from \$100,000 to \$200,000.

The hard steel drill bit is the cutting tool which drills down through successive strata of shale and rock. Screwed to the top of the bit is a string of hollow, round drill pipe which in turn is screwed into the bottom of a hollow, square pipe known as a "Kelly." The Kelly works through a square hole in the rotary turntable. Thus, when the engines spin the turntable, the Kelly, the drill pipe and the bit also spin, and the bit cuts its way downward. Heavy pumps force drilling mud down through the hollow Kelly and drill pipe, through perforations in the bit, then outside the pipe and back to the surface, carrying with it the cuttings from the bit. As the bit moves downward, additional joints of drill pipe are added below the Kelly.

When the gas producing horizon is reached, a string of steel pipe, known as casing, is inserted in the hole from the surface of the ground to the top of the producing horizon. After running the casing, cement is run thru the casing and forced out around the bottom in order to prevent the gas from escaping around the outside of the pipe. Then the well is drilled into the gas-producing horizon.

A steel derrick, capable of supporting weights of 200 tons or more, is used to support the drill pipe during drilling and the casing when casing is being installed. When the well is completed, the derrick is removed. In its place is installed a "Christmas Tree," an odd-looking assembly of valves and fittings necessary in producing, testing and maintaining the well.

WEST TEXAS GAS COMPANY

"Joyous Season" Cast Composed Of Seniors, Freshmen

The cast of "The Joyous Season," Christmas play to be given by the speech department, Dec. 13, at the High School Auditorium, is composed of senior students having two to three years of college dramatic experience, freshman students having had no previous theatrical performances and students mid-way between these extremes, according to Miss Helene Blattner, director of the play and speech instructor.

Louise Ince, senior from Spur, played the lead in "Letters to Lucerne," 1944, and was in "Ring Around Elizabeth," 1945. She is a speech major and is secretary of Alpha Psi Omega, the national honorary dramatic fraternity.

Jodie Wofford has been in every spring production presented by the department since her freshman year. She is a senior speech major from Plainview and is president of Alpha Psi Omega.

Vice-president of Sock and Buskin, Eddie Aryan, is a sophomore from Seminole. He is a speech major and was in "Ring Around Elizabeth" last year.

An Aggie sophomore major from Robi is Jim Simpson. He also was in the production last year. He is a member of Sock and Buskin.

Jack Cogdill, senior from Lub-

Four New Members Given Sock And Buskin Oath

The oath of membership was given to new members of Sock and Buskin Tuesday night in the Campus Playhouse and ice cream and brownies were served honoring them.

Mrs. H. F. Godeke spoke on Parliamentary procedure. Mrs. Godeke said, "The basis of organized effort is Parliamentary procedure."

At the next meeting, Dec. 4, a play directed by Mary Findley will be given.

back, a sociology and philosophy major, is president of Kappa Kappa Psi and was in the Varsity show Band of '42.

Two members of the cast are sophomore transfers from TSCW. They are Norma Crump of Crosbyton and Mary Ann Dykes from Lubbock. Both of the girls are speech majors, members of Sock and Buskin, and participated in the Christmas Nativity play at TSCW last year.

Marshall Mason, sophomore engineering student from Post, member of Sock and Buskin, is one of the three ex-servicemen in the play. The other two are Floyd Saddler, a freshman speech student from Lubbock and Simpson.

Having no college dramatic experience are the following freshman students: Jimmy McFarland, Claude; Pat Robison, beauty nominee, member of Sock and Buskin; Dallas; Patricia Browne, Lubbock, Sock and Buskin member.

The play will be open to the public. Student Activity tickets admit Techsians having them. "Though the play has a serious undertone, it has been called a comedy of character," says the director.

New Books

The Dust Which Is God, William Ross, 1944. An autobiographical novel in verse with a reflected history of the period in America.

Dictators of the Baton, David Ewen, 1943. Biographies of 30 of the leading conductors in America. Biographies anecdotal rather than exhaustive, and very entertainingly written.

Federal Writers' Project, Florida: A Guide to the Southernmost State, 1944. One of the many guidebooks to states and cities published by the Federal writers project. Detailed information and many photographs.

Early Stages, John Gielgud, 1939. Reminiscences of the stage, with a good deal about the author's great aunt, Ellen Terry. An objectively written and very lively autobiography covering the years from 1904 to 1936.

Wife to Mr. Milton, Robert Graves, 1944. A fascinating portrait of Marie Powell Milton, a less satisfactory one of John Milton, and a convincing seventeenth century atmosphere. An entertaining novel, aside from the historical background.

A Lion Is in the Streets, Adria Langley, 1945. A novel of Louisiana with a hero who bears a "purely coincidental" resemblance to Huey Long. Not very well done but interesting because of the subject matter.

The British maintained a Flying Training School at Terrell, Texas, for four years.

A neat appearance assures success. Don't neglect yours. Our expert cleaning will take care of this item for you.
