

By LBJ, Holyoake

## Pledges exchanged in search of peace

WELLINGTON, New Zealand (AP)—President Johnson and Prime Minister Keith J. Holyoake exchanged public pledges Thursday to fend off aggression and search for peace in Viet Nam.

The declarations highlighted a 24-hour presidential visit which also included a brief meeting arranged between Johnson and Norman Kirk, the New Zealand Labor party leader who opposes New Zealand's use of troops in Viet Nam. It has 200 artillerymen there under Australian command.

JOHNSON AND HOLYOAKE, whose National party battles the Laborites in elections Nov. 26, sounded their parallel themes in speeches prepared for a state luncheon in Parliament House.

As Johnson put it, "for free men, for responsible men, for men of conscience, there is no acceptable alterna-

tive but to resist this aggression," which he said Communist North Viet Nam is waging against the south.

Holyoake said "New Zealand is

## Australia next stop on junket

CANBERRA, Australia (AP)—Australia set out Thursday a Texas-style welcome, to be topped off with a barbecue, for President Johnson on his four-day visit before flying to the Manila conference on Viet Nam.

WITH ITS CATTLE, sheep and sprawling ranches, Australia will be like a home abroad for the President and his wife, Lady Bird. At one point in the visit, they will be guests at an outdoor barbecue on a 10,000-acre ranch in rolling hill country outside Canberra, Australia's planned, inland capital.

Some Australians said the visit will outshine the one by Queen Elizabeth II.

PREPARATIONS FOR the visit—first ever made to Australia by a U.S. president—came under fire of some newspapers. Sydney newspapers contended the New South Wales state government was overdoing its planned welcome. The Sydney Morning Herald accused the state government of "vulgarity" and claimed it was bullying and cajoling people to line the streets for Johnson.

Canberra arranged its largest motorcade ever. Australian officials also set up the most extensive communications network in the nation's history.

## Dean mails law forms

Richard B. Amandes, Tech Law School dean, has mailed out more than 80 applications to law school candidates so far and has received two in return.

Although the applications list July as the deadline, Amandes said that those received after May 1 "will be at a disadvantage."

Applications are available at Amandes' office in X51 south of the Municipal Auditorium, extension 6121.

Amandes said there is no limitation on applicants, but only 75 will be accepted for the first year of operation in 1967-68.

among that company of those countries which place their trust in the free decisions of free men—countries which are prepared to resist aggression. But we also bear a responsibility to search for peace."

AND JOHNSON SAID, "We are seeking to bring an end to this vicious war at the conference table."

The New Zealander voiced hope that next week's Manila summit conference of the seven allies fighting the Reds in South Viet Nam "will open up avenues toward a lasting solution."

Johnson, who arrived here Wednesday on a 29,000-mile Far Eastern tour arranged around the Manila meeting, makes Australia his next stop, after a friendly though not overwhelming initial public response here. Australians promised a lively visit, including an outdoor barbecue at a ranch.

The New Zealand government was going all out for this first-in-history visit by an American president.

THE PRIME MINISTER headed a party of notables who flew a 200-mile round trip to greet Johnson and his wife upon their arrival from Samoa at Ohakea air base.

Johnson switched to a New Zealand plane which carried him to another ceremonial greeting at Wellington. He then motored the six miles to the heart of the capital through moderate-size crowds.

## Homecoming parade gets record 26 float entries

International Harvester, manufacturer of farm machinery, will film the 1966 Homecoming Parade for use in its trade publication, International Trail, and for use in commercials.

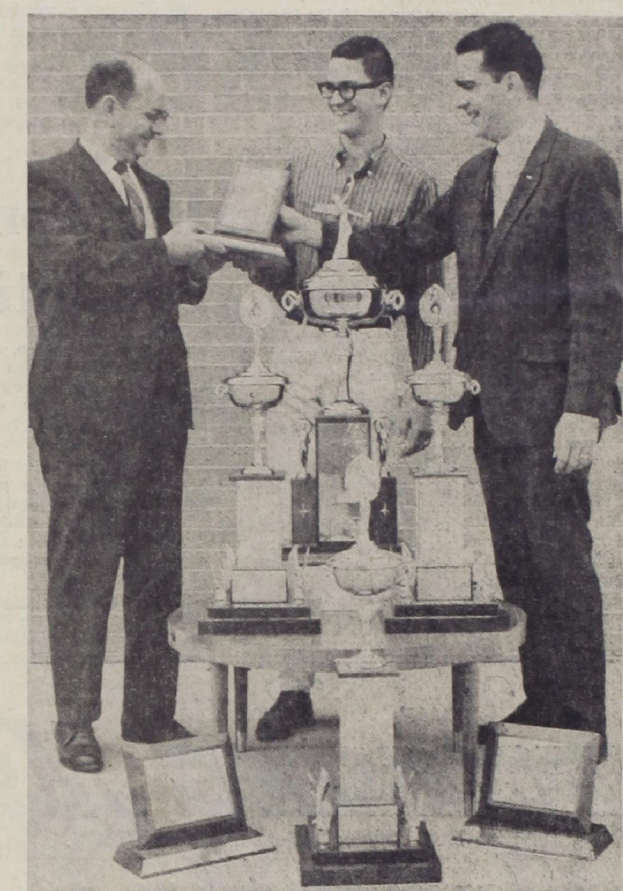

According to Jim Tillinghast, parade chairman, a crew from Chicago will film Saturday's parade in color.

"THIS COULD MEAN nation-wide publicity for Tech and our homecoming activities," Tillinghast said.

Utilizing the Homecoming theme of "Happiness is Texas Tech," a record of 26 floats are entered in the parade with 25 automobiles, five marching units and six bands.

ORGANIZATIONS WITH floats in the order they will appear are:

American Institute of Architects, Army ROTC, Alpha Phi, Wesley Foundation, Tech Union, Alpha Delta Pi, Rodeo Association, Phi Mu and Wells Hall.

HOMECOMING AWARDS READY—Eugene Lake, center, student chairman of Tech's Homecoming, and Tony Gustwick (right) assistant director of the Tech Ex-Students Association, view the array of trophies to be presented to float winners in Saturday's Homecoming parade. Clarence R. Solnick is president of Downtown Lubbock Inc., donors of some of the parade prizes which are being offered for the first time this year. (Tech Photo)

## Busy slate cleared at IFC meet

"Homecoming is drifting away from the meaning of homecoming—welcoming exes back to Tech," Fraternity Advisor Thomas Stover told the Interfraternity Council Wednesday night.

Stover said this was becoming true throughout the nation, not just at Tech. He said alumni have mentioned to him that they have not attended some homecoming dances because the music is aimed at students instead of exes.

The advisor to Tech's 11 social fraternities suggested that the IFC look into faculty and alumni relations, as well as with chaperones. "Homecoming is one time of the year to be completely selfless," Stover added.

IN OTHER ACTION during the meeting in Kappa Alpha Order lodge:

—President Allan Murray announced an award of \$100 for the first place winner in the fraternity division of homecoming float competition and a \$50 award for second place. In the event that a fraternity float wins the college sweepstakes trophy, the number two fraternity will move to first place, but the cash awards will still accrue as if the sweepstakes winner was first and the first place winner second.

—Murray appointed a committee to look into the feasibility of continuing the fraternity all-star football game this year. The game, pitting fraternity all-stars against the championship fraternity intramural team, has had declining attendance in past years, the president said.

—MURRAY INTRODUCED a request from Homecoming Parade Chairman Jim Tillinghast for a representative chosen by IFC for judging homecoming float competition. Murray decided to seek an adult not connected with the college or fraternity system for the judge.

—Fraternity representatives decided to ponder for a week the possibility of sending delegates to the National IFC Conference in New Orleans Nov. 30 through Dec. 3.

—Murray said that open rush does not violate new rush procedures adopted by IFC but prospective pledges could not attend homecoming functions. Open rush exists for two weeks following fall convocation.

—STOVER SAID Bob Rummel of the United Fund had invited fraternities to help one night in the current UF drive.

—Treasurer Dennis Spradley reported a current IFC balance of \$840.19.

## Riots force closure of high school

OAKLAND, Calif. (AP)—Rioting Negro youths assaulted five teachers and forced closure of a high school Wednesday in a resumption of Tuesday night's disorders in East Oakland.

One teacher's nose was bloodied and his eye blackened in the melee at Castlemont High School. The assaults occurred on the grounds during a gathering of 200 Negroes.

SCHOOL OFFICIALS decided on the shutdown shortly after noon.

The disorders began Tuesday night in East Oakland and spread downtown after a traffic accident involving a Negro woman's car. Police arrested a young Negro woman passerby after they said she flew into a rage. Her brother intervened and was arrested. The disorders grew and spread.

Five persons were injured; 19 were arrested, and 47 business firms were damaged.

THE START WEDNESDAY of a three-day high school boycott, called by a group protesting the quality of education for Negroes, also kept police on the alert.

## Professors will deliver last lectures

Four Tech professors will give their "last lecture" beginning Sunday in the Tech Union.

The professors will give a mock lecture as if it were their last. They have been urged to put their best thinking into the task.

Sunday, Dr. Elizabeth Sasser, professor of architecture and allied arts, will lecture on "Living in the Now."

"STUDENTS SHOULD BE alert to what is happening now rather than worrying about the future or fondly recalling the past," Dr. Sasser said.

Included in the lecture will be slides to illustrate the architecture of Bukminister Fuller, art by the French painter Dubuffet and the philosophy behind the electronic music of John Cage.

Oct. 30, Dr. Vernon W. Proctor, professor of biology, will speak on "The Classroom Lecture: What Should One Expect?"

DR. WILLIAM E. ODEN, professor of government, who specialized in political theory, will speak on the area of political thought Nov. 6.

Dr. Robert L. Rouse, professor and head of economics and finance will speak on the history of economic development Nov. 10.

The "Last Lecture" series is sponsored by the Campus Christian Fellowship.

Each lecture will begin at 7:30 p.m. in the Tech Union and no admission will be charged.

## Editors go to national convention

Tech Student Publications Director Phil Orman is attending the National Council of College Publications Advisors convention in Philadelphia today and Saturday.

Orman is serving as national president for the organization.

Four Tech journalism students are accompanying Orman to attend the Associated Collegiate Press convention meeting jointly with the NCCPA. University Daily editor David Snyder of Denver City and managing editor Mack Sisk of Idalou will make the trip along with Nancy Hedleston of Big Spring and Charlotte Shive of Big Spring, co-editors of La Ventana.

Orman will preside at the business meetings and the awards luncheon. On the final days of the convention, he will speak to the delegates on "The Shape of Yearbooks In The Future: New Departures From The Standard Format."

TINY TECHSANS—Mr. and Miss Tiny Techson Christopher Raesz and Toni Arnold seem ready to carve their initials on the tree trunk. Sponsored by Tech Dames, Christopher is the son of Mr. and Mrs. Reuben Raesz and Toni is the daughter of Mr. and Mrs. Donnie Arnold.

## Army has shortage of captains

WASHINGTON (AP)—The Army, now in the midst of a massive Viet Nam buildup, has a serious shortage of captains—with no immediate relief in sight—it was learned Wednesday.

Officials said there are about 32,000 captains on duty now, 2,500 below the planned strength for this year.

BUT THOSE FIGURES tell only part of the story, sources said.

The Army would like congressional approval to add upward of 5,000 new captains next year. These must come from the 16,400 first lieutenants now on active duty, and the Army isn't sure how many of those officers will elect to extend their obligated duty tours.

THE SHORTAGE is being felt to a degree in Viet Nam. Some first lieutenants are commanding combat companies, although that job belongs to a captain under Army tables of organization.

"We've got more spaces available than people to promote into them," one source said.

## Dormitory decorations to be judged

The 1966 Homecoming festivities begin Friday with the judging of the best decorated dorms.

The decorations will be judged according to neatness and originality in using the theme "Happiness is Texas Tech."

Leon Harris, Ann Hubbard and Mary Dove, local people not affiliated with the college, will judge the decorations. Coach Brown of Brown's Varsity Shop will donate trophies.

The decorations have to be finished by 4 p.m. Friday with the judging beginning at 4:30.

The winners, one girl's dorm and one boy's dorm, will be announced Friday night at the coronation ceremony at 8 p.m. in the Municipal Auditorium.

## Federal loan approved for new complex

The U.S. Department of Housing and Urban Development has approved a loan of \$3 million to be applied on the second phase of Tech's new six-tower, 12-story Wiggins dormitory complex, Rep. George Mahon announced Wednesday.

Construction is proceeding on the first phase of the complex, expected to be ready for occupancy by September of 1967. Second phase construction, including three towers and completion of the dining and kitchen area, is expected to begin next October with completion set for September of 1969.

The complex has been named for Dossie M. Wiggins, former Tech president who is now a member of the Coordinating Board, Texas College and University System.

## Air Force receives inspection tourists

The Air Force is rolling out the red carpet for eleven members of the Tech faculty today.

The professors, directors, and executives are traveling to Nevada this week-end with the ROTC cadets on an inspection tour of Nellis Air Force Base near Las Vegas.

**THE TOUR HAS** been offered to the faculty members to further their understanding of the Air Force operations, according to Capt. Herman A. Jones. A complete inspection of the base will offer a glance into the life at Nellis.

Representing Tech's faculty will be Drs. George G. Heather, Thomas Kim, Ivan Little, William E. Oden and P. J. Woods.

Also touring will be Donald Cates, Wendell Hewett, Chester Hubbard, Gerald B. Rogers, Robert Rooker, and Ronald Hamm.

The Tech representatives will be greeted by the vice wing commander of Nellis Air Force Base when they arrive in Nevada. A movie on the base will further acquaint them with Air Force procedures.

**A LOOK AT THE** latest Air Force fighter aircraft will show the group the type of aircraft

used by the United States in Viet Nam.

The men will be quartered at the base for the duration of the three-day inspection tour. As civilians, the administrators and professors will be able to visit Las Vegas, but will be treated to dinner in the Officers Dining Hall.

The Tech Air Force ROTC is sponsoring 13 Army ROTC cadets for the tour also.

## Cheerleader competition

Freshmen cheerleader elections will be starting at 5:30 p.m. Monday in the Student Union Ballroom instead of from 8 a.m. to 5 p.m.

Voting freshmen will watch contestants and mark their ballots while they watch. ID cards are necessary for admittance to the polls.

Sharon Jones, AWS representative to the Freshman Council, said, however, that it is not necessary to stay for all the tryouts in order to vote.

Doors will be marked alphabetically so that voters may have their ID cards validated as they enter.

## Tech fraternities receive high rating

The fraternity system at Tech gained its sixth consecutive Summa Cum Laude rating from the National Interfraternity Conference for the 1965-66 school year.

The rating is given to campuses where the grade point average of all the fraternities on the campus exceeds that of the All Men's averages. Last year Tech fraternities had a grade point average of 2.366 as compared to the 2.029 average of all men.

Phi Kappa Psi's average of 2.740 last year gave them a national Summa Cum Laude Chapter award for the second consecutive year. The chapter award is based on an average at least 30% above that of the all men's average.

Five institutions in the nation achieved a Summa Cum Laude for the four consecutive years from 1960-65. They are Texas Technological College, University of Akron, Ar-

### WESLEY FOUNDATION

The Wesley Foundation Society of Dramatic Arts will hold its first "call meeting" for all interested cast, crew, technicians and assistant directors today at 8 p.m. at the Wesley Foundation (2420 15th). No drama experience is required. For further information call Dave D. Morgan, Ext. 3294 or PO 2-4137.

kansas State College, Murray State College, and Wisconsin State University at Stevens Point.

The complete list of 1965-66 ratings have not yet been released.

Tech became a member of the National Interfraternity Conference since the start of fraternities on campus in 1953. The Summa Cum Laude rating was not initiated until 1960 and Tech has attained it every year.

DR. VAUGHN

## Dr. Tony Vaughn consulting today

Dr. Tony D. Vaughn, special education chairman at Colorado State College, continues consultation today with faculty members of Tech's Education Department.

The discussions started Wednesday on the expansion of Tech's Special Education program for exceptional children. Dr. Vaughn is serving as a consultant for the development of the program.

Vaughn has participated in numerous studies for the Western Interstate Commission on

Higher Education. He works with the U.S. Office of Education to select colleges and universities to receive special education traineeships, fellowships and summer scholarships. He is the national vice president of the United Cerebral Palsy Association.

Vaughn received the bachelor of arts degree from North-eastern Oklahoma State College. He received the master of education and PhD from the University of Oklahoma.

## Moving UN headquarters unpractical says official

UNITED NATIONS, N.Y. (AP)—Move the United Nations? The idea is a pleasant pipedream, diplomats say, but as a practical matter, forget it.

Ambassador Jamil M. Barroody, a veteran Saudi Arabian representative here, suggested in a speech Tuesday that members should think about the possibility of moving U.N. headquarters out of New York.

He ticked off a long list of complaints against the city that ranged from dirt and noise and lack of trees to political pressures, racial discrimination and the high cost of living.

But a sampling of the opinions of delegates Wednesday

be in the center of the world," he said, "and the center of the world at the moment is New York City."

"When we get the pax ecumenica — universal peace — perhaps then we can move to another city."

A spokesman for the U.S. mission, asked for comment on the Barroody proposal, said, "We are the host government and we are doing our best to live up to the responsibilities of the host government. We intend to continue doing that."

## Wilson lecture is previewed

Dr. W. D. Norwood, of the Tech English Department, prepared the way yesterday for Dr. Elton Trueblood's Wilson Lecture scheduled for Oct. 24-27.

At the noon forum, Norwood read a paper on "C. S. Lewis and the Weltanschauung (world view) of W. G. Wells."

The paper dealt with man's modern scientific theories and the myths which they disprove. Dr. Trueblood explained in a letter to Tech he intended

to speak on "The Fallacy of Contemporaneity." He named several authors who had written on the subject and suggested C. S. Lewis as an authority.

Norwood pointed out in his talk Lewis viewed science as a good and necessary study but added that he also felt science dampened man's spirit of the unknown.

Trueblood, an eighth generation Quaker and Professor of Philosophy at Earlham College, is the first of several University speakers for the 1966-67 year. Norwood said the author-professor-minister will discuss "Idols of the Space Age," "The Idea of a Classic," "The Strengths and Weaknesses of Scientism" and "A Timeless Faith."

Next week's noon forum will be a sandwich seminar in which Anthony Pearson will speak on D. W. Griffith's silent movie "Intolerance." Reservations are not necessary.

### LOU TOWER TO VISIT LUBBOCK THIS MORNING

Mrs. Lou Tower, wife of John Tower, U.S. Senator from Texas, will be in Lubbock today for a coffee in her honor at the home of Mrs. J. T. Krueger Jr., 4702 21st St. from 10 a.m. to 12 noon.

An invitation has been extended by Mrs. Miller, co-chairman of Tower's campaign, for all women to attend.

Mrs. Tower is on an extensive tour through the state campaigning for her husband's re-election to the United States Senate.

# Tech student claims to have magic power

When John Paul "Biff" Painter says he's all tied up, he isn't kidding!

Painter, a junior at Tech, specializes in escapes as a magician, and claims one of the fastest strait jacket escapes in America at 13 seconds.

A magician since he was 13 years old, he has studied magic under oriental magicians and Houdini's assistant. He counts stage illusions and floating women as specialties also.

**NIGHT CLUBS**, full stage shows, women's clubs, parlor magic, and shows for children take up his professional time as a member of the Texas Association of Magicians.

As a magician he leads a colorful life. Painter has escaped from a strait jacket while hanging upside down from a building. He has floated a woman across the court house lawn in Longview.

He escaped from an 1890's his act.

leather and chain restraint while under water. The escape took two minutes and 15 seconds while an audience watched through plexiglass windows. The restraint was used on violent lunatics in asylums.

**IN DALLAS**, Painter pushed a sword through a woman's neck. She had no ill effects because she was under hypnosis.

Pursing the serious side of his profession, Painter made a study of mentalism and occidental magic of Tibet and China. He claims to have learned the secrets of ancient Tibetan lamas which allow them to see the future and control the minds of others.

Painter says he has learned the guarded secrets of levitation and astral traveling (making things move through the air).

Painter is a speech major. He is assisted by his wife, Vivian, also a Tech student, in his act.

**NO STRINGS ATTACHED!**—Tech junior "Biff" Painter proves his magical ability, learned under oriental magicians and Houdini's assistant, by making a woman float. Painter claims one of the fastest straitjacket escapes at 13 seconds.

### ALPHA EPSILON DELTA

Alpha Epsilon Delta will meet today at 7 p.m. in the Tower Room of the Chemistry Bldg.

**AWS General Council** will meet today at 5 p.m. in the Anniversary Room of the Union.

### MORTAR BOARD

Mortar Board, national senior women's honorary organization, is preparing to select members for next year. Sophomore women with at least 60 semester hours and an overall grade point of 2.8 are eligible. Those who have not been contacted by Mortar Board can pick up applications in the office of the Dean of Women. Deadline for applications is October 26.

## Lab cast announced

Ramona Peebles, director of Euripides' "Trojan Women," announced the cast Wednesday at an 8 p.m. meeting in the Laboratory Theater.

Greg Bell will play Poseidon in the production which is scheduled to run Nov. 17-22. Charlene Suttle will play Athene.

Anna Karen Frost will take the role of Hecuba, with Jerry Wilkison as Talthybius and Connie Beck as Cassandra.

Andromache will be played by Nancy Fly, and Joel Hughes will be Menelaus with Cindy Hale as Helen of Troy.

Members of the chorus are Beverly Lumpkins, Tammy Elledge, Cynthia Maddox, Clara Hammonds, Gayle Smith, Virginia Joiner, Sherri Cannon, and Connie Pope.

Also, Judy Formby, Dorris Horton, Becky Joyner, Jo Sanders, Mary Ann Vars, Sandra Crawford, Keitha Kover, and Linda White.

Soldiers and attendants are Gary Bruton, Joe Newell, Mike Robbins, and Scott Edwards.

Cast members were chosen in open readings last week.

### QUEEN FINALISTS

Homecoming Queen finalists will meet at 5 p.m. today in the Tech Union, room 209. Pictures will be taken.

# Raider Roundup

### PSI CHI

Psi Chi, national psychology honorary, will meet at 4 p.m. today in room 201 of the Psychology Bldg. Drs. Sweney and Ray will present a psychoanalysis of a graduate student.

### SOCK AND BUSKIN

Sock and Buskin, drama interest club, will meet at noon today in the University Theater Green Room. "Biff" Painter and his oriental magic will be the program.

### JOURNALISM EXES

The Journalism department will sponsor a coffee for all graduates of the department at 8:30 a.m. Saturday.

The coffee will be held in the Ione Hutchinson Conference Room of the Journalism Building.

### TECH ACCOUNTING SOCIETY

Tech Accounting Society will meet today at 8 p.m. in the Biology Auditorium.

### BAPTIST STUDENT CENTER

At a coffee break at 4 p.m. today at the Baptist Student Center, Don Berry will speak on "Sex and the New Morality." The center is located at 13th and Ave. X.

### JUNIOR COUNCIL

The Junior Council will meet at 5 p.m. today, October 20 at 5 p.m. today in Room 209 in the Tech Union.

# Action needed now

The request for expansion of facilities at Tech Union is one that deserves prompt action from the Campus Planning Committee, which must approve plans before they go to the board of directors and actual construction can begin.

The urgency of the situation can be seen each morning following the dismissal of a class, or at meal times, or any time a large program or social function is scheduled, or at almost any other time.

At times the crowded conditions approach a mob-like circumstance, one which can be expected to worsen until expansion is realized.

Many students now avoid going to the Union for coffee or conversation or recreation or meals or whatever-the-case-might-be, simply because they do not want to stand in line and then stand while they drink their coffee.

Every full-time student on the Tech campus pays a \$5 Student Union fee every semester. It is hardly fair to him when crowded conditions keep him from utilizing any of the benefits of his money.

Detailed statistics and a recommendation for 35,500 square feet of additional space in the Union are now in the hands of the CPC. We hope they act, the quicker the better.

# Swimmers begin workouts

Texas Tech's swimming team begins workouts today in preparation for its 1966-67 season.

Thirty-eight swimmers, including 23 varsity performers and 15 freshmen are expected to report to Coach Jim McNally.

Heading the returnees will be Robert Graham of Tyler, Tech's first All-America 50-yard freestyle performer, and Pete Velde of Longview, NCAA

championship qualifier last season.

**THE RAIDERS** placed third in SWC competition last year, and because of Graham and Velde plus an undefeated '65-'66 freshman team, expectations for another successful season are high.

"Because of our tremendous depth, I think we have a good team this year," said McNally. "Although we have a tougher record, we should improve

on our dual meet record."

**"ANOTHER REASON** for our optimism is the fact that the Southwest Conference meet will be held in our pool. Of course this is not as much an advantage as a home court or field in basketball or football, but it helps," McNally said.

Lettermen returning who placed in the finals of the 1966 Southwest Conference meet are Tim O'Rourke of Houston, Frank Shotwell of Lubbock, Dana Weaver of Houston, Ted Everett of Odessa, Bill Bailey of Dallas, Graham and Velde.

Varsity schedule begins Dec. 15, when the Red Raiders meet the Air Force Academy at Colorado Springs.

## Track meet scheduled

Wayland College is host to Texas Tech and Eastern New Mexico University in a cross-country meet beginning at 4 p.m. today at the Plainview Country Club.

Eastern New Mexico was the winner in a meet at Lubbock last week.

Running for Coach Vernon Hilliard's squad will be Rich Kay, Terry Diveley, Jim Jones, Wayne Nelson, and John Semetko.

## Is Scovell twice the quarterback?

By GEORGE CHAFFEE  
Sports Editor

At the beginning of the football season, Coach J T King was worried that people would compare quarterback John Scovell with Tom Wilson, last year's super star.

"It's unfair to use Wilson's accomplishments as a yardstick because it puts too much pressure on Scovell and the rest of the team," King said.

After all, Wilson re-wrote the entire Texas Tech record book in passing and total offense, what's more, he ranks now among the all-time aerial greats in the now pass-conscious Southwest Conference.

But what's this? The Dallas Hillcrest junior is traveling at twice the pace Wilson set. After five games, Scovell has just about accomplished or surpassed what Wilson managed in 10 games his junior season.

Scovell has completed 63 passes of 134 attempts for 783 yards and five touchdowns. Wilson's season total his junior year was 65 completions, 777 yards, and five TD's.

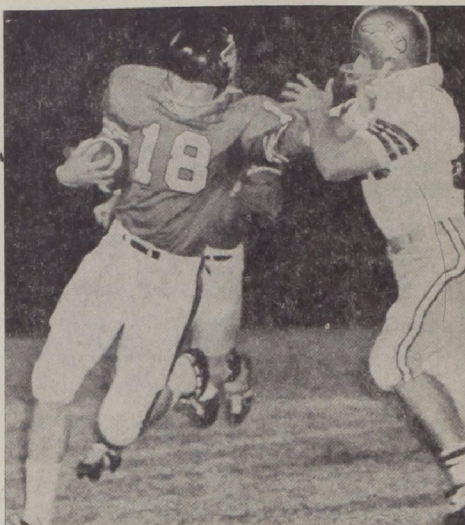

Wilson could plead extenuating circumstances, like the fact that he was using Donny Anderson as a runner in 1964—and the latter was piling up some 966 rushing yards—but he's glorifying in Scovell's accomplishments. As a graduate assistant, Wilson is helping Burl Bartlett with the quarterbacks.

Scovell's field generalship is showing up well, too. He directed four scoring drives of 70 yards or more against Florida State last week. Three of these he capped himself to take over scoring leadership of the Southwest Conference, with 26 points.

Scoring isn't the only category in SWC statistics where Scovell shines. He has regained the lead in total offense with 935 yards, 152 on the ground and 783 via the air. Along with this, he ranks second in passing behind Edd Hargett of Texas A&M.

Going into the Southern Methodist game Saturday afternoon, other Raider offensive leaders are:

Rushing—Mike Leinert of Houston, 341 yards, 5.2 average; receiving—Larry Gilbert of Kilgore, 34 for 479 yards and three touchdowns; punting—Ken Vinyard of Amarillo, 28 for 39.8 average; punt returns—Jimmie Edwards of Royse City, 8 for 36, 4.5 average; kickoff returns—Leinert, 13 for 261 yards, 20.1 average; interception returns—Golden, 3.

**STOMPIN'** John Scovell romps for eight yards against Florida State. Scovell regained the SWC total offense lead, took the scoring lead and placed second in passing.

## Frosh meet Redshirts

Coach Berl Huffman's Picadors meet the varsity reserves in Jones Stadium at 7:30 tonight, in the first of three intrasquad games.

Redshirt coaches Larry Anderson and Jerry Balch look for "a good performance in an interesting game," when their reserve squad meets up with the spirited freshman footballers.

"It always proves to be a fine game when the redshirts meet up with the Picadors, since the redshirts have more experience from practicing with the varsity squad," Anderson said.

So far the Picadors have beaten Rice 17-14, and Arkansas 17-7. They meet Texas A&M at Midland Nov. 10.
