

# THE TREADOR

Volume XXII X7142 Texas Technological College, Lubbock, Texas, Saturday, Feb. 14, 1948 Number 17

## Library Presents First Open House Sunday Afternoon

Harold Bugbee, illustrator, and Evetts Haley, writer and author, are to be guests at the open house in the library 3-6 p.m. Sunday, said A. S. Gaylord, jr., librarian. Both men are outstanding for their work in Southwest history.

This open house will give students, faculty and the people of Lubbock an opportunity to see the library and have it demonstrated to them by the members of the library staff.

The receiving line will be composed of Mr. and Mrs. Gaylord, who will greet the guests after they have been introduced by Miss Ina Bacon, Gaylord's secretary. Others in the receiving line will be Pres. and Mrs. W. M. Whyburn; Charles C. Thompson, chairman of the board of directors, and Mrs. Thompson; Dr. C. B. Qualia, chairman of the library committee, and Mrs. Qualia.

Presiding at the punch bowl will be Mrs. H. F. Godeke, Mrs. G. W. Dupree, Mrs. James G. Allen, Mrs. Johnny Langford, Mrs. R. C. Goodwin, and Mrs. Clifford B. Jones. Mrs. Buella McManus, in charge of the engineering library, will assist with the serving.

"The new history room to be opened on this occasion, will form a nucleus of an outstanding collection of the books on history of the Southwest", said Gaylord.

## W. D. Hill Leads ROTC Rifle Team

Unofficial results of Texas Tech ROTC rifle team scoring in the national William Randolph Hearst ROTC rifle matches held last week were released Thursday.

William D. Hill, sophomore agricultural major from Smithsonian, led the team with a score of 188 out of a possible 200 points. Others who shared in the high scoring were: James E. Elliott, freshman engineering major from Floydada, 182; Lloyd H. Stevenson, freshman arts and sciences major from Lubbock, 181; and Harold V. Taylor, junior engineering major from Muleshoe, 178.

The Tech team, coached by Sgt. J. P. Mounsey, will compete in a four-way match with the University of Oklahoma, University of Texas, and Henderson State Teachers college today and will fire against teams from North Texas Agricultural college and John Tarleton Agricultural college, Saturday, Feb. 21.

## Workers Eligible For Compensation

Every worker employed at Tech is now eligible for a retirement system compensation for employees not covered by teacher retirement. The plan, authorized by the state legislature, extends benefits to laborers, janitors and others not previously protected.

Under this plan employees, on Sept. 1, 1947, could become members of the system if they chose, but had to decide within 90 days. After the 90-day period all new employees were automatically members after working nine months.

"Employees Retirement System of Texas" benefits: (1) employees at the age of 60 who have worked 10 years; (2) employees who may have quit work before the age of 60 if they have worked 20 years; (3) employees of any age under 60 who have worked 30 years. Disability benefits go to anyone disabled with 10 years of service after certification by medical board.

Should an employee quit work before his eligibility for retirement benefits, he may withdraw the money he has paid in, plus interest. Upon retirement, the state matches the employee's contribution, dollar for dollar.

## Textile Bulletin Reprint Issued

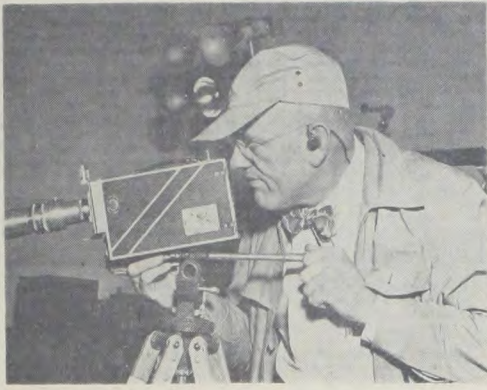

The Textile foundation and the National Council of Textile School Deans have re-printed 10,000 copies of a bulletin issued previously, entitled, "Opportunities for Trained Men and Women in the Textile and Related Industries," announced Prof. L. E. Parsons, head of the department of textile engineering and president of the national council.

The bulletin, first released during the war, has proved of unusual interest to the Veterans administration and vocational guidance groups in orienting students for the textile industry, said Parsons.

Effectiveness of this bulletin has contributed largely to a greatly increased enrollment in the 10 textile schools in the United States, Parsons added.

### CHOSEN SONG LEADER

Clinton "Tex" Ritter, junior aggie major from Lawn, was elected song leader of the Aggie club at its first meeting of the semester Tuesday night.

RKO-PATHE NEWS Look is being given campus departments and personalities by M. F. Peters as he completes the first week of filming the all-college movie sponsored by Tech Chamber of Commerce. Aggie division offered subjects for his camera this week, and he is scheduled to start on arts and sciences division Monday. (Staff photo by Mary King).

## Enrollment of 5,562 Students Sets Record

Enrollment of 5,562 students has set a spring enrollment record, while a few more persons were expected to register after the figures were released Thursday.

"Although enrollment usually drops off considerably in the spring we are losing a minimum of students this year and final enrollment will probably reach 5,900," W. P. Clement, registrar, stated, pointing out that these are not official figures. Final enrollment may be considerably higher, he pointed out.

Of the above total, approximately 2,809 are veterans, according to an estimate by the coordinator of veterans affairs. Records show that 2,883 started registration process with 54 being dropped or withdrawing so far. Final registration for the fall semester showed 6,114 students enrolled, 2,806 of whom were veterans.

Official figures on enrollment are being delayed due to the fact that the IBM machines ordered by the college to do this work have not arrived as yet, and until they do handling of registration material is being done by machines at Lubbock Army Air Field and at business houses down town. Such procedure causes some confusion and slows down the process, Clement stated.

Basic policies for use of Clifford B. and Audrey Jones stadium by organizations not affiliated with the college will be discussed, the President said. Receiving particular attention will be a proposed contract with Lubbock High school concerning use of the stadium for its home football games. The High school was scheduled to play the initial game in Jones stadium last November, but delays in construction forced a change of location.

E. V. Pesqueira, Mexican consul with headquarters in Amarillo, will attend a portion of the meeting as a guest of President Whyburn. He is especially interested in students from Mexico who are enrolled in Texas Tech. Six students from Mexico were in attendance during the fall semester.

The directors will have lunch in Girls Dorm III which they will later inspect, Dr. Whyburn said. They will also attend a "preview" of the open house to be given by the library tomorrow.

"It is hoped that travel conditions will be such as to permit a quorum to be present," the president stated, pointing out that the last time they were able to meet as a quorum was Sept. 27, 1947, at San Antonio. The last meeting held was at Texas Tech during homecoming but not enough members could be present to act as a quorum and since that time a great deal of business has come up which will demand their attention, Dr. Whyburn stated.

## Herefords Arrive For Aggie Project

Eight grade Hereford steers from the Spade ranch were recently received by the department of animal husbandry to be used in its 1948-49 grazing project, Dean of Agriculture W. L. Stange announced. This project is a continuation of a long-range research program to determine what pasture grasses are best suited for beef production.

The calves, whose average weight was 451.2 pounds when received, will be carried as stockers during the winter. Next spring and summer they will be grazed in rotation on six one-acre pastures seeded with various combinations of grasses.

The project last year was started with 12 steer calves whose initial average weight was 432.7 pounds. Over a one-year grazing period the steers gained approximately 1.2 pounds a day with an average final weight of 893.6 pounds.

Arthur B. Watkins, assistant credit manager of Dunlap company, addressed the group. Dr. H. E. Golden, faculty sponsor, introduced L. E. Blackwell, professor of marketing, who was added to the faculty this semester.

### MEDIEVAL EUROPE HAD THE RIGHT IDEA

## Origin Unknown, But Saint Valentine's Day Seems Fixture

By DEANIE GRIFFIN  
Treador Staff Writer

Several hours after dusting the library shelves, foaming at the mouth and finally resorting to stealing other papers—I discovered that there is a month called February it does have a fourth day, and there were three men for which Valentine's Day have been named.

How Saint Valentine's Day first started, no one positively knows—not even the Encyclopedia Britannica, and that's bad. The early martyrologies mention three Saint

Valentines, each associated with February 14. One is described as a priest of Rome and another as Bishop of Terni, both of whom died on February 14. Little is known of any of these saints, and less is known of the third who suffered martyrdom with a number of companions.

There are various theories about how the name of Valentine came to be associated with Valentine's Day. During the Middle Ages, February 14 was considered the day when the birds mated. If one applies the theory of Evolution

## Yearbook Editor Marks May 20 For Distribution

"La Ventana will be ready for distribution about May 20 if engraving receives pictures by March 20, and I think we can get them off," Bob Watson, La Ventana editor, has informed the publications committee.

Unless unforeseen difficulties arise, the annuals will be delivered about 10 days before students leave for summer holidays. Watson told the committee Tuesday. His monthly report was in sharp contrast to that of January when La Ventana was several days behind schedule, and Sponsor R. A. Mills estimated that yearbooks would be delivered later than last year.

Watson said he had hired students to work on the annual, but that "about \$40" was all that had been spent of the \$250 which the committee allotted him. In previous years, the editor, assistant editor and one photographer have been the only paid persons on the annual's editorial staff. An assistant photographer was hired in December to aid English Jackson because of an increased number of pictures Watson has scheduled in this annual, which will be larger than that of any other year.

## Student To Speak At Sunday Service

Harry Smith, who was a representative to the Second World Conference of Christian Youth in Oslo, Norway, last summer, will speak to Tech students and guests at all-college vespers at 4 p. m. tomorrow in the Recreation hall. Dr. A. W. Young, director of the vespers program.

Smith, a Texas university student, appears under auspices of Westminster Fellowship of First Presbyterian church, and will speak on the subject, "There Is a World Church."

J. H. Penn, director of the Lubbock high school a cappella choir, will sing "God Is My Strength" and "The Lord's Prayer," accompanied by Mrs. R. C. Douglas, jr., Charles R. Kelly, Tech student of Lubbock, will lead the meditation.

Vespers programs for the semester are being distributed from the library building, dormitories and through college departments of various churches, Dr. Young announced.

## Dean Solves Query On King's English By Democratic Gob

Speaking of problems, lay aside your pencils and utter this one a few times before you attempt to correct it: "That 'that' that that man used is incorrect."

James G. Allen, dean of men and professor of English, received "that" sentence in a letter from a former student now in the Navy in the Pacific. "That" complicated group of words, came from Newell E. Sanford of Plainview, freshman engineer, 45-46. He asked if "that" series of words could be punctuated so "that" they would make sense.

After some thought and considerable doodling around with commas and quotation marks, Dean Allen answered "that" in the affirmative, with the following punctuation: "That 'that' that that man used is incorrect."

"However," he added, "the pronoun 'that' is supposed to be used to make a sentence clear. If you feel called upon to express 'that' in so complicated a thought, it might be simpler 'that' you use the sign language or 'that' you call on the services for an interpreter."

And that's "that."

## Two Tech Graduates Honored By Jaycees

Two Tech graduates were among those named outstanding young men of 1947 by chapters of Junior Chambers of Commerce. They were Bruce Zorns, a vice-president of the State bank in Brownfield, and J. D. Strickland, operator of a hatchery in Plainview.

Zorns who was an architectural engineer, attended Tech in 1933-36. An aggie major, Strickland received a BS degree in 1934.

style of courting, the banks brought the holiday to America. On dragging the Avenue for information concerning gifts, I've found that anything can be had for a price. Valentines, from the lace and sweet words to the comical, which were considered "quite vulgar" by the Encyclopedia Britanica can be purchased. If your veteran boyfriend still retain a small sum, candy may supplement your dormitory diet.

# Henderson Cops Two Golden Gloves Wins

SMILE OF BEAUTY is given by La Ventana Editor Bob Watson after finding that his publication may not be late after all. See story to left. (Staff photo by Mary King).

## Juniors Announce Prom Cancellation

## Willson Lectures Set Feb. 24-27

The Rev. Charles E. McAllister, dean of the Cathedral of St. John the Evangelist, of Spokane, Wash., will deliver Willson lectures at Tech's Religious Emphasis week, Feb. 24-27. Dean McAllister visited Tech campus last February as he toured 83 colleges during an educational survey under the sponsorship of the Association of Governing Boards of State Universities and Allied Institutions, of which he was president.

The nationally known educator and religious leader will be the second to appear under the auspices of the Willson lectures, a \$10,000 endowment to Tech set up by the J. M. Willson family of Floydada to be used for securing technological and religious lecturers at the college. Speakers are selected jointly by representatives of the boards of the Episcopal church, the Methodist minister and editor of the Christian Advocate rendered the discussions last February.

Dean McAllister, member of the board of regents of the State College of Washington, also serves on various regional and national boards of the Episcopal church, is active in civic work and is prominent speaker both on the radio and on the public platform.

He holds two honorary degrees, doctor of letters from St. John's college in Annapolis, Md., and doctor of divinity from the University of Maryland. He is a graduate of St. Stephens college in Annandale, New York, with a bachelor of divinity degree from General Theological Seminary and a master of arts degree from Columbia university, both in New York city.

## Drane Hall Residents Select New Officials

Carla von Roeder and Henrietta Jackson were elected secretary and junior representative at a house meeting in Drane hall, Wednesday night to replace Dorothy Nelson and Jane Magee, who have moved to Dorm III. Miss von Roeder is a junior home economics major from Knapp and Miss Jackson, a junior arts and sciences student from Whitewright.

Sue Ashley, home economics major from Lamesa, was elected freshman representative. Plans for a semiformal dance Apr. 7 were also discussed. Alice Hix, business major from Abernathy, was elected sophomore representative to replace Nita Yardley.

## Screen Printing Offered; Course Commences Monday

A non-credit course in screen printing will be offered by the applied arts department through the extension division, Prof. Martye Poindexter, department head has announced.

The first meeting will be 7 p. m. Monday, February 16 in X-26 A, when the time and the number of meetings to be held will be agreed upon the class, which is limited to fifteen.

Instruction is to be planned on an individual basis enabling those who studied under Prof. Emmy Zweybruck, Feb. 2 and 3, to continue their work and those who have no experience may begin their instruction with Miss Elizabeth Hawley, assistant professor of applied arts.

## Purchasing Problems Reported At Tech

Tech, like anything or anyone these days, has its purchasing problems, according to S. T. Cummings, college purchasing agent, whose office handles purchasing for the college.

Items specifically mentioned by Cummings were paper supplies, plywood and two-inch water pipe, and everything in the building line.

## Kirkpatrick, James Enter Third Round

By JAN BLACKWELL  
Treador Sports Editor

Bill Henderson, Texas Tech junior from Levelland and defending state Golden Gloves featherweight champion, paved the way for the members of the Lubbock aggregation by advancing into the third round of the state tourney Thursday night with a first round knock-out of Howard Van Winkle of the San Antonio team.

Battling Bill had won his first fight by outclassing Cleve Steed, 126-pounder from Wichita Falls, in a three-round encounter which went the limit. The Wichita Falls scrapper took the defensive from the opening gong and succeeded in staying clear of Henderson's murderous fists. The champion floored Steed in the first round for a count of seven and again in the second for the same time.

Henderson impressed spectators with his ring ability, but Joe Kelley of the Avalanche-Journal stated in his story that the Levelland lar-ruper did not perform as strongly as is his usual custom. The announcer at the fight stated that the state champion swarmed over his opponent and was impressive in carrying the fight to the Wichita Falls representative.

Thursday night's fight was all together different as Henderson left his corner cautiously, slowly stalked his foe, staggered him with rights and lefts and KOed Van Winkle 1:24 after the opening bell. Lubbock's featherweight champ knocked the San Antonio boy down for an eight count, seconds before the telling right cross which dropped Van Winkle for the final count.

Tech's other representatives in the state meet, Lonnie Balch and Frank Telles, made their first appearances last night. They had previously drawn first and second round byes.

Balch, Lubbock middleweight champion, faced the defending state champion, Tommy Baron of Dallas, in his first engagement while Telles took on Weldon Arbuckle of Wichita Falls. Henderson's next fight was unknown at press time.

Telles was defeated in the finals of the welterweight division at Lubbock by Earl Pollard, who lost his first fight at Dallas on an unpopular decision. Dallas was unable to make the state tourney Telles asked to represent this region in that division. He was then 128 pounds over the required lightweight limit.

His trainer was successful in stripping the excess poundage from the Techian's weight by weighing-in time at Dallas, and Telles has regained some weight and is reported to be in as strong condition as ever.

J. D. Kirkpatrick, Lubbock lightweight from Petersburg, won his first encounter with Henderson night with a second round knock-out of Harold Williams of Beaumont. Heavyweight Gene James, former Techian, advanced into the third round Thursday evening with an impressive victory over Tech's Sgt. Relius Bruns of Temple.

Semi-finals and finals of the tournament will be unreeled Monday night. Winners there will then go to the national slugfest in Chicago. Lubbock currently is among the top teams for the team trophy having won four of five fights.

## Musick Funeral Slated For Today

Burial services for George Musick, former Tech student and business manager of The Treador, will be held today at 2:30 p. m. at the First Baptist church of Lubbock. Musick died of gunshot wounds on January 7 in a Guam hospital.

Musick last attended Tech in 1941. Since that time, he had been in the Navy Air corps, and was a lieutenant at time of his death. He was on his third tour of overseas duty when the gun wounds were inflicted. The board of inquiry has not decided how the wound happened. Musick was the son of G. L. Musick of Dimmit, Texas. A. J. Kemp and Elmer Wall, Tech Alumni, will be pall-bearers at the burial.

## Campus Pictures Vanish In El Paso

Several large photographs of Tech campus scenes disappeared from El Paso's Hilton hotel following the Sun Bowl game during Christmas holidays. The pictures were part of an exhibit for the Sun Bowl Carnival.

D. M. McElroy, executive secretary of the Alumni and Ex-student association, said that whoever took the photographs probably thought Tech had no further use for them. The pictures were scheduled for exhibition at several other places, however. Since the art represents considerable time and money, its return would be greatly appreciated, stated McElroy.

## Tech Herefords Sold At Fort Worth Show

Sale of eight Hereford steers from Tech aggie farms at the Fort Worth Stock show was announced by W. L. Stange, dean of agriculture.

The steers brought from 43 to 45 1-2 cents per pound at the auction. The were a part of an exhibit of 12 sent to the show from Tech.

# THE TOREADOR

THE TOREADOR, student newspaper of Texas Technological college, is published every Wednesday and Saturday on the Campus of Texas Technological college at Lubbock by the associated students of the college.

Entered as second class matter, October 31, 1925, at the postoffice in Lubbock, Texas, under the Act of March 3, 1879.

Editorial offices, Press Building, Rooms 103, 105. Telephone: College switchboard; Night editor, 8548.

## Enough Is Enough

A story is told of Papa, Mama and Baby Bear at a luncheon where each was to tell of his experience with Goldilocks. The program committee had thoughtlessly failed to provide chairs for the trio, but blocks of ice were put into use at the last minute.

Their speeches were scheduled as brief, but when Papa Bear rose to say his few words, he thought of the ice awaiting him when he sat down, and he went into detail on his, his wife's and his son's experiences with Goldilocks. Finally, he reluctantly relinquished the floor, and Mama Bear stood up and began to speak. She repeated everything Papa Bear had said, and then some, especially relative to Baby Bear's part in the action. When she gave up and resumed her seat, Baby, who was half-frozen, stood up and lisped, "My tale's told."

There are numerous Tech students who can sympathize with Baby Bear. Everybody who sat in any one of several army surplus buildings during their final exam week or those last few days, can tell the youngster that lots of fellows know exactly how he feels. But insofar as Techsians are concerned, it is no laughing matter.

Because of lack of heat in buildings designated X-5, X-3 and X-6, many students took final exams with a gloved hand, and instructors in those buildings have dismissed classes on several occasions. Small size or poor quality of gas heaters used in those buildings may be causes of low temperatures, but the fact that classes were continued to be scheduled there for this semester (when it was known the buildings could not be heated properly) shows lack of foresight on the part of some college official who considered neither health nor comfort of students and professors.

It may require either night classes for students or swift repair work on the heaters, but this old stuff of freezing students has got to go.

## Welcome, Dr. Rose

Dr. Embree R. Rose, whose arrival at Tech as Director of Health service Feb. 1 signified "coming of age" of the infirmary, has a lengthy and enviable list of honors and degrees on his record. But in the eyes of students, perhaps nothing is more imposing than regret with which the University of Florida released him after his resignation.

The Florida Alligator, school newspaper, editorially commended Dr. Rose for his "strenuous work . . . in placing the Florida infirmary on solid ground."

We wish to extend a sincere welcome to Dr. Rose and affirm our faith in his capableness as both physician and executive of the Health service.

## Essay Contests Opened Recently

Three essay contests have been opened to Tech students. The Swedish American Line is offering a free trip to Scandinavia for the two best essays on "The Influence of Swedish Settlers on a Community or Region." In addition to the two trips four cash prizes will be offered. Inquiries and manuscripts should be sent to: Contest Editor, Swedish American Line, 636 Fifth Avenue, New York 20, N.Y. Contest closes April 1, 1948.

The Interscholastic Association for Study of the Alcohol Problem is offering \$300, \$300 and \$300 for the three best editorials on a significant aspect of the alcohol problem. Entries should be sent to: Edwin H. Maynard, Contest Secretary, 909 Webster Ave., Chicago 14, Ill. Manuscripts must be postmarked not later than June 30, 1948. Prizes of \$1,000, \$500 and \$250 for the best essays on "An American Program for World Peace in the Present Crisis." Essays must be mailed to Tamiment Institute Contest, 7 East 15th Street, New York 3, N. Y. before April 23, 1948.

The truest wisdom, in general, is a resolute determination.—Napoleon.

**ACCEPTS POSITION**  
Harlan Harmon, former textile engineering student, has accepted a position with the Lone Star Cotton Mills of El Paso. Another Tech graduate, Raymond Salazar, is superintendent of the plant.

If some people lived up to their ideals, they would be stooping.—G. Bernard Shaw.  
The value of the field goal was decreased from five to three points in 1909.

## The Vicious Circle

By Oleta Stewart

This column will be a non-gossip one of criticism, comment and commendation. It is for the students and faculty and for their views. CRITICISM—Of course, "it is much easier to be critical than to be correct," but criticism has been known to correct. COMMENT—The ideas will be those of the readers as well as the writer's. Letters and interviews will be accepted, and in fact, are requested. COMMENDATION—The Greeks said "Many men know how to flatter, few men know how to praise." Not wanting to resort to flattery, we of the Circle will be true to our column head and not vary too often from being vicious.

"A vicious circle is a chain of circumstances constituting a situation in which the process of solving one difficulty creates a new problem involving increased difficulty in the original situation." That sounds foreboding, doesn't it? But many of the readers remember that a circle is an unending thing and if the Circle becomes too vicious, the hurt will eventually come back to the writer.

**ELECTIONS UNFAIR**  
With a new semester comes the same old story of "Elections are coming up again, but why go and vote anyway?" The same group of people get all of the offices over and over. Tech has crooked politics run by a clique of wheels and socialites. If Tech's elections represent the choice of a minority of students, then it is because a very small per cent of the persons who call themselves Techsians go to the polls on election day to vote for their officers. And the ones who complain about unfair elections are the ones who never quite have time to vote or who say, "One vote doesn't make any difference anyway."

One vote does make a difference. It means the difference in a person's being a vital active member of the college student organization and being just a regularly enrolled participant in classes. A college made up of people who care enough about the school to select its officers is alive with spirit and interest and competition.

When favorite elections come around, and on April 13 and 14, when the president, vice president, business manager and secretary of the Student Council and the editors and business managers of La Vengeance and El Toreador are elected, if a person doesn't vote for his choice, then he has no reason to criticize the selection of those who did.

**FIRE FIGHTING**  
The rectangles of white with "Fire Extinguisher" lettered on them which are painted along the floor of the Aggie building halls are admittedly decorative but would be slightly ineffective in case of even a pint-sized conflagration.

**PIN BALL MACHINE**  
Embree Rose, friendly mild mannered doctor of the Tech Health service, has set his office hours as 1:30 to 12 a. m. and 1:30 to 5 p. m. Monday through Saturday. He can see only emergency cases after that time. For two reasons, no outside calls will be made. First, Dr. Rose has all he can take care of inside the infirmary and, second, he is not equipped to treat outside cases.

Service in the dispensary is quick and efficient. The waiting room is pleasant with ranch

## Cataloging The Campuses

By JERRY STOLTZ

Racial segregation and national fraternities are discussed under Education in the Feb. 9 issue of TIME magazine. Read and think on these issues because they may pertain to Tech more than we know in the near future.

Arizona State at Tempe is facing both problems at once. Its Board of Regents recently approved the nationalization of fraternities and sororities on their campus (some parties are hoping Tech will do this). But here is the catch at Tempe. Racial discrimination has not been practiced in any form among the students. Negro athletes participate with its teams and the campus is otherwise free of segregation. Now if national fraternities with their caucasian clauses are established they will have racial barriers on the campus.

The recent meeting of the National Interscholastic Council in its annual conference in New York brought forth a proposal from several northern schools to do away with racial and religious barriers in fraternities. Delegates tabled the problem until their next annual meeting.

Virtues are learned at mother's knee, vices at some other joint.  
Girls do you feel that there is something wrong? Maybe you should read an article entitled, "What's Wrong With College for Women," in the December COSMOPOLITAN and find out, or disagree. Quoting the author, Mr. Wylie, "America's average woman college graduate is more liable to turn out a spinster than is her non-collegiate sister. When she does marry, she is more liable to become divorced. And, as a mother, she is a total failure, for these American women do not bear enough children to replace themselves and their husbands."

**TASTY**  
The fights behind the scenes at the Golden Gloves tourney were highlighted when two unnamed assailants jumped on J. D. Kirkpatrick after he left the ring. One of his "amateurs" took a sizeable bite from Kirkpatrick's shoulder. Souvenir seekers are getting desperate these days.

## They're Telling It Around

By CLINT FORMBY

Papers are still full of news concerning the recent market slump. Commodities and stocks continued to sink and cotton was down the permissible of \$10 per bale; grain was not doing much better. Secretary of Agriculture Anderson blames small speculators for the market slump but Texas Senator W. Lee O'Daniel (who might have been thinking in terms of flour) places the blame on Anderson, through government control. One leading speculator, who sold one million bushels of wheat as the market broke last week, may be in for many embarrassing questions from congressional investigations.

The Senate Foreign Relations committee unanimously agreed to put a \$20,000-a-year cabinet rank administrator in charge of the European recovery program. The agreement was reached harmoniously, but Henry Wallace, an opponent of the Marshall plan, asked permission to express his views on the subject.

Russia promised this week to provide documents which would prove that the U. S., Britain and France had provided Hitler with the strength to launch World War II. It was done, they say, by "a golden rain of American dollars" and by French and British diplomacy. The Russians were probably attempting a counter-punch at the U. S. state department which recently charged that Russia and Germany had agreed to carve up Poland between them, dominate the

Balkans and keep Uncle Sam and John Bull out of Europe, Asia and Africa. The Russians probably countered with the propaganda, not to start a running feud between Washington and the Kremlin, but to sway the thinking in Europe.

Joseph A. Passineau, Springfield, Mass., had some propaganda of his own last week when he was acquitted of drunkenness. He explained to the jury that he was a bulldozer driver and that his stagger was really an "occupational sway."

Lubbock police have started an all out drive against speeding and careless driving and the mounting number of tickets handed out shows they mean business. Recent statistics released by Capt. Bill Lamb of the local police traffic department reveals that out of 229 drivers involved in accidents during Jan. 205 were men and only 24 females. Of the 229 drivers figuring, 75 of them were between 25 and 34 years old; 59 between 20 and 24; 34 between 35 and 44; 22 were from 45 to 54; 19 were 19 and three were 18; 14 were between 55 and 64; two were between 65 and 74; and one was over 75.

Commercial drivers figured most prominently in the wrecks. Forty five of those in collisions were commercial drivers; business and professional men numbered 30; students numbered 24; housewives, 16; clerks and sales persons, nine; traveling salesman, seven; all others, 98.

**ORDER EXTRA PRINTS**  
... and let others in on your snapshot fun  
Your friends will enjoy your favorite snapshots as much as you do, and the folks especially will want to get prints of all your pictures. The next time you leave film to be developed, ask for duplicate prints—enough to go around. Prompt service.

## Cause for American Pride

*Four more and seven years ago our fathers brought forth, upon this continent, a new nation, conceived in liberty, and dedicated to the proposition that all men are created equal.*  
*Now we are engaged in a great civil war, testing whether that nation, or any nation, so conceived, and so dedicated, can long endure. We are met here on a great battle field of this war. Many have dedicated a portion of their lives to the service of those who have given their lives that that nation might live. It is altogether fitting and proper that we should do this.*  
*But in a larger sense we can not dedicate—we can not consecrate—we can not hallow this ground. The brave men, living and dead, who have consecrated it far above our power*

**THE GETTYSBURG ADDRESS**  
\* Just ten stirring sentences in all. But they are an immortal expression of democracy and freedom. Shown here, in Abraham Lincoln's own handwriting, is part of the manuscript from which he spoke on the afternoon of Nov. 19, 1863. The original, along with more than a hundred documents famous in American history, is on exhibit aboard the "Freedom Train". This train is now on a nationwide tour. Watch for its arrival in your area!

Be proud of what you write . . . and the way you write it!  
Pride comes with the possession of a Parker "51". For this is the world's most-wanted pen . . . flawless in its beauty and performance. It writes in a way that does you proud. No urging. No coaxing. The "51" starts instantly. Coasts across the page with clean, easy strokes. Two sizes: regular "51" and new demi-size. Both with choice of custom points. The Parker Pen Co., Janesville, Wis., U.S.A., and Toronto, Can.

# Tech Is Contender For NAIB Berth

Winner Advances To Kansas City

By "COTTON" FANNING  
Toreador Sports Writer

Texas Tech is the leading contender for the third berth in the NAIB (National Association of Intercollegiate Basketball) tourney at Will Rogers Memorial Coliseum March 5-6 in Fort Worth.

Spot number three in the tourney goes to the Border conference team which finishes the season with the highest percentage. Texas Tech, West Texas State, Hardin Simmons and Texas Mines are eligible for that berth.

Four of Texas' top-notch senior college basketball teams will compete in the two day play-off to determine which teams represent the Lone Star state in the NAIB tourney at Kansas City, March 8-13, Gus Miller announced. Miller, athletic director and basketball coach at West Texas State college is NAIB chairman for the Texas district.

**A.C.C. Cinches Birth**  
The first position in the tourney goes to the Texas conference champion. Abilene Christian college has that place cinched.

The second invitation to the Ft. Worth meet will go to the winner of the Lone Star conference. Sam Houston State of Huntsville, 57-37, Gus Miller announced. Miller, athletic director and basketball coach at West Texas State college is NAIB chairman for the Texas district.

The fourth place in the contest will be awarded to the non-conference Texas quintet with the best season record, considering opposition encountered. Texas Wesleyan is the most likely choice in that field. Other teams eligible for the spot include Sul Ross, St. Mary's of San Antonio, Texas A&I and East Texas Baptist.

**Miller Heads Committee**  
A team will be selected from the above group by a committee composed of Chairman Miller, Alden Pasche, University of Houston coach; R. M. Medley, athletic director at Southwestern University; and Dub King, Fort Worth Star-Telegram sports writer.

The same committee would choose between tying teams in the Border conference, Texas conference or Lone Star conference should a tie result in either of these circuits.

Friday night's winners will clash for the Texas Intercollegiate championship on Saturday night after Friday's losers have played for third place.

Both Friday night winners will qualify for the NAIB tournament in Kansas City. If Texas is allotted two berths in the meet, according to Miller, if Texas gets three berths, the first night's winners and the third place team will go to Kansas City. Should only one Texas team be admitted to the NAIB classic, that will be the one undefeated in Fort Worth.

## STAFF SLANTS

Techsians will once again become football conscious when spring training begins in March. Tech's football prospects will don their togs sometime between March 1-8, depending on the weather, according to Morley Jennings, director of athletics. The number of gridsters that will likely turn out is unknown at this time, but there will be ample replacements for those Red Raiders who will graduate this year. Spring training is restricted to 30 days and the Raiders are expected to use the maximum time allowed.

"Red" Stewart, who usually drives the chartered bus which carries Tech athletes to games away from home, took a continual stream of ribbing about his hair Monday night while serving as scorer for the Raiders at the Tech-H-SU basketball game. The Cowboys were attempting to build up a long victory streak in their new Rose field house and had succeeded up to that game. Red didn't say a word until the game was over and Tech had thoroughly trounced the Cowboys 53-32 then he made the appropriate statement that their Rose field house was then properly dedicated.

Texas Tech is one of the largest schools in the Border conference, yet they do not participate in certain sports which smaller institutions have developed. Swimming has become one of the leading sports at Tempe which is currently preparing for the Border conference swim meet in May. Tempe does not possess better facilities than Tech

# Grid Hopes Soar As Frosh Enroll

Nine former Texas high school football stars have enrolled in Texas Tech this semester and all, according to Coach Dell Morgan and his aides, are likely prospects for Raider teams of the future. The group, including two tackles, three ends, three guards and a back, will become eligible for the varsity squad in 1949.

Tackle enrollees are Jackie Cookburn, speedy 185-pound Denison lad, and Norman Dalton, 200 pounds, of Abilene, who was released from the Army last November after service in Italy.

Ends are Richard Jackson, a 6 foot, 200-pounder from Phillips; Pete Jones of St. Jo, a 6 foot 1 inch, 190-pounder who rates as a prize prospect; and Arbie Minzenmeyer of Granger, another 6 foot 1 inch, 190-pounder.

Three guards over 200. The three guards provide a lot of weight. Jerrell Price of Brownfield, all-state the past two years, weighs 210 pounds. Rex Pinson of Fairburn, All-Valley team member for three years and selected for All-South Texas team two years, has been playing at 225 pounds. James Roberson, a member of the Bowie high team which lost only two games the past three years, is slightly over 200 pounds.

Roy Jackson, a shifty 6 foot 170-pounder from Denison, is the new back on hand. He is rated among the top ball handlers in prep school T-formations.

Douglas McSwane of San Angelo, letterman tackle of 1945, also returned to Tech this semester. He was discharged from the Army last summer but suffered an attack of typhoid fever and was unable to attend school last semester.

## Crucial Road Test Faces Tech Cagers

Texas Tech's aspirations for a Border conference basketball championship will receive another crucial test when Coach Polk Robinson's basketballers take the road for a western swing into New Mexico and return by way of El Paso.

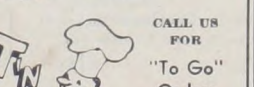

The Raider quintet will take the floor against New Mexico university in Albuquerque Wednesday night, play New Mexico A&M the following night and return to Texas for a tilt with Texas Mines in El Paso Friday night. A successful road trip could place the Raiders in a position to cop the title since only three games would remain on their schedule with two of these at home.

At the present, Tech has lost three of its eight conference games, and with wms recorded for the remaining games on the schedule, the Raiders could cinch a tie for the conference championship. Arizona has the best conference record at present, but Tech has already completed its schedule with the Tusson powerhouse.

for training a swimming team yet it is outlining an ambitious program for its team. We realize that Tech does not have a pool and we only hope that in the near future that the Raiders will somehow be able to vie for honors in Border conference splash meets.

Lavern Roach, the Plainview midweight, is nearing the top rung of success in the world of fis-

## Combat-Weary Techsians Near Victory in Bookstore Battle

By HAL RASPUTINBOYLE  
Toreador War Correspondent  
FROM BATTLE ZONE SOUTH-EAST OF AD BUILDING — (By Carrier Pigeon) — The "Battle of the Bookstore" still raged in all its fury today, but as this dispatch is written late Friday evening, victory is at long last in sight for the combat-weary students of Texas Tech.

Student forces, battling valiantly in an unrelenting effort to seize textbooks so that they will be able to prepare weekend assignments, again scored substantial gains along all fronts—particularly along the "cash" line in the northern area. At the close of today's bitter engagement, members of the TWVA Command staff predicted that the final crushing blow can be dealt opposing forces tomorrow, weather permitting.

**Battle Is Week Old**  
The Battle of the Bookstore, a semi-annual affair, opened a week ago with minor skirmishes, then developed into a full-scale battle Monday as students laid siege to the small but well-fortified stucco structure lying on a plain dominated by the towers of the Administration building, where the TWVA Command staff had kept lookouts posted for several weeks, awaiting the time of attack.

Casualties in yesterday's engagement were comparatively light for student forces. Three fell victims of "standing line fatigue" and were rushed to the infirmary for medical treatment. One, crazed by the continuous tension, went stark raving mad and was taken to a downtown psychopathic ward. Fourteen others were reported to have suffered mashed toes—all unintentionally inflicted by misdirected "friendly fire." All those injured during combat duty will receive the Order of the Blue Cross.

**High Medal Given**  
At the close of the day, Juan Meathball, sophomore engineering student from Roscoe, was awarded the TWVA Medal of Honor for "service above and beyond the call of duty." Meathball, having engaged in furious fighting, had neared the book counter and was all set to acquire his much-needed texts when a fellow-student rushed into the building and said to him, "Say, fellow, how about giving me your place in line? I've got a hot date in about five minutes and I'm in a big hurry." Juan forsook his spot in line to the stranger, and himself went to the rear of the line to begin anew. Student commanders said Meathball's generous action was unprecedented in Tech history.

**RIFLE TEAM TRIUMPHS**  
An ROTC rifle team representing Tech defeated the University of Alaska in recent match by a score of 1792 to 1615, the military science department announces. Texas Tech has a series of matches scheduled weekly through March.

**TECH GRAD EMPLOYED**  
J. C. Long, textile engineering graduate of 1947, is employed by the Socony company as sales representative in the southwestern area.

He has signed to meet Marcel Cerdan, the European 160-pound champion who is one of the leading contenders for the world title, in a 10-round encounter on March 12 in New York's Madison Square Garden. Roach will have a preliminary 10-round engagement with Al Thornton of Rochester, Pa., Feb. 19. Cerdan has recently won two fights in Paris by knockouts.

## Strong Tech Track Aggregation To Participate At Fort Worth

Tech track men will make their first showing at the Southwestern Exposition and Fat Stock show in Fort Worth March 19 and 20, according to Coach Maxey McKnight.

"This is going to be a hard way to open the season, but with most of last year's 'point-getters' back we should return with some honors," he stated.

Returning "point-getters" of the 1947 squad are: Edward Clepper, Mobeette, Raider high-point man in '47 and low and high hurdle star; Charlie Reynolds, Odessa, Border conference 100- and 220-yard dash champion; Seth Murphy, Levelland, 100 and 220 yard dash star; Costin Bufkin, Lubbock, quarter-mile and broad jumper; James Cruser, Rockport, half-mile and mile runner; Ralph Earhart, Lefors, 100 yard dash and broad jumper; Earnest Hawkins, Lamesa, Border conference 880 champion and mile runner; Charles Roe, Rockport, 100 yard dash, 880 relay and sprint relay runner; and Joe Wilson, Claude, 440 and mile relay pacer.

**Freshmen To Bolster Squad**  
We are expecting freshman prospects to fill some of the positions in which we are weakest," Coach McKnight continued, "I have talked to several boys who will help our squad."

Listed among the freshman hopefuls are: Charlie Pinell, Andrews, high school regional high hurdle champion; Edgar Hawkins, Lamesa, mile runner; Ed Wilson, Lubbock, winner of the regional high jump; and Henry Brisco, Devine, half-mile. Coach McKnight said he expected about 50 boys to represent Tech in track and field events.

Bill Kelley, Idalou, Tech basketball, track and football star in 1947, hopes to recover from a broken bone in his right foot in time for the Border Conference meet at the end of the season.

Tech fencers will journey to Dallas Feb. 21 to enter an open tournament in which they will meet some of the best foil artists in the Southwest. Keith Wells, fencing coach, has announced.

The three top winners of the open tournament will meet in exhibition matches March 6, in Dallas to determine the fencer to represent the Southwest in the Wilkenson Saber tournament in New York April 2, Wells said.

Following the Dallas tournament, Tech fencers will meet the Texas University squad March 13, in Austin.

Preparations are also underway for Tech to play host to Oklahoma A&M and John Tarleton, March 27, Wells stated.

# Las Vivarachas Gets 16 Pledges

Forty-eight girls signed preferences for the five women's social clubs Thursday afternoon. Las Vivarachas received 16 pledges, the largest number for any one club. Las Chaparritas and D.F.D. followed with 10. Ko Shari's received eight, and San Souci's four.

Girls preferring D.F.D. are: Doris Bell, Mary Beth Boone, Joan

Brown, Mary Nell Cates, Marilyn Dennis, Joan Galloway, Bonnie G. George, Jane McCoy, Gloria Richards, Margaret Smart.

Ko Shari pledges are: Ruth Edgerton, Barbara Hazlewood, Sue Holmes, Ellise Hopping, Betty LeStourgeon, Virginia Platt, Audrey Thompson, Carolyn Wooten.

Signing Las Chaparritas prefer-

ence were: Ellawyn Abbott, Sharon Haney, Wanda Sue Humphrey, Johnnie Moreland, Eleven Puckett, Mary Roe, Jackie Spurlock, Dotsie Stephenson, Brentie Sue Thompson, Betty Wright.

Las Vivarachas pledges include: Joyce Boren, Joan Chapman, Frances Eubanks, Doris Freeman, Dor-

thy Harrison, Betty Hendrix, Martha Lewis, Pat McCaskill, Jeanne Mecham, Jerry Medlock, Del Parker, Joan Rieger, Bonnie Robertson, Johanne Seyler, Mary Seyler, Wanda Lou Smith.

New San Souci pledges are: Joan Conley, Jeannine Smith, Almarie Wall, Jane Webb.

# Analysis Of Woman Discloses Wo-Ful Properties, Reactions

The element called woman is a member of the human family and it has been assigned the chemical symbol Wo. The accepted atomic weight is 120, although a number of isotopes have been identified as having weights ranging from 95 to 400.

Occurrence: It is abundant in nature; found in the free or combined states, usually associated with men.

Physical properties: A number of allotropic forms have been observed. Their density, transparency, color, or boiling and melting points vary within wide limits. The color exhibited by many specimens is a surface phenomenon and is usually due to more or less closely adhering powder.

**Magnetic Power Listed**

Chemical properties: A b s o r b s, without dissolving in, a number of liquids, the activity being greatly increased by alcohol. Absorbs seemingly unlimited quantities of expensive foods. Some varieties catalyze this food into fat in accordance with the formula  $fat = equals\ RT$ . Many naturally occurring varieties of Wo are highly magnetic; in general, the magnetism varies inversely with the density and size, directly with the square of the valence, and inversely with the cube of the age. Some varieties tend to form anne-ions, others form cations.

Their ionic migrations vary widely. All varieties exhibit great affinity for silver, gold and platinum and for precious stones in both chain and ring structures. The valence toward these substances is high and its study is complicated by the fact that the residual valence is never satisfied. Many stable and unstable unions have been described—the latter in the newspapers. Some varieties, being highly explosive, are exceedingly dangerous in inexperienced hands. In general they tend to explode spontaneously when left alone by man temporarily.

**Wo Is Equalizer**

Uses: Highly ornamental. Wide application in the arts and domestic sciences. Acts as a positive or negative catalyst in the production of fever, as the case may be. Useful as a tonic in the alleviation of sickness, low spirits, etc. Efficient as a cleaning agent. Equalizes the distribution of wealth. Probably the best (income) reducing agent known.—TASCA.

**TWVA CONSIDERS PLAQUE**

Erection of a plaque in the center of Memorial circle will be discussed at the regular meeting of TWVA, at 7:30 p. m. Tuesday in C-101.

All veterans on the campus, whether members of TWVA or not, are invited, according to Gene Nowlin, commander.

# Student Religious Council Sponsors Morning Service

In observance of the World Day of Student Prayer when students of the world join in prayer for peace and understanding among nations, Student Religious Council will sponsor a Morning Watch service beginning at 7:30 a. m. Monday, in the Recreation hall, according to Jerry Sides, SRC president.

"The service will be over in time for students to reach their 8 o'clock classes," Sides commented. Gene Theilman and a SRC committee will be in charge of the program, he said.

# CLUB SEEKS MEMBERS

"Students interested in joining Sock and Buskin, dramatic club, may leave their names at the new Speech building," stated Miss Annah Jo Pendleton, head of the speech department. The club meets the first and third Tuesdays of every month and everyone is eligible to tryout for membership.

# Tempe Nips Tech In Thriller, 55-53

Last-Minute Score Gives Raiders First Home Loss

By AUBREY SHOUSE  
Toreador Sports Writer

Ed Long, Sun Devil ace, led the Tempe, Arizona, quintet to a 55-53 heart-breaking victory over the Red Raiders Thursday night with a long shot in the last 45 seconds of play to hand Tech its fourth Border conference loss and its first defeat of the season in the Tech gym.

With sky-scraping Don Grove at the helm, the courageous Techsians gave the above-capacity crowd 40 minutes of stand-up-and-scream, ball hawking basketball. Tech opened the game with a four point jump on the slow starting Sun Devils, only to have the Arizona sharp-shooters return, with Ed Long and Veri Heap playing above-average court strategy, to be on the top end of a half-time score, 28-24.

Tech cagers must have got the latest word from the locker room during the half-time rest because they came back the second half to run up a 40-36 lead over the teachers from Arizona in the first ten minutes. Then Arizona decided to board the scoring train, and the lead changed hands for the fourth time 42-44 with Heap sparking a Sun Devil scoring spree.

Larson was substituted for Heath in the Arizona line-up and immediately Larson tossed one through the mesh; Wayne Bowles came back with a close up, but Veri Heap sank two long shots to set a 49-44 lead for the teachers. Then Bowles made a free shot and Gibson and Barton sank a set and close-up shot respectively, to tie the score 49-49 with two minutes to play.

From then on the crowd was on its feet. On a fast break Long made the score 53-51; Grove retaliated with his favorite over-handed shot from the free-throw circle to again tie the score. The crowd went wild.

Then the disaster began to form, as the Sun Devils took over and marched the ball down the court, setting up Long for a good over-head shot gallant little Ardis Barton, who sparked the Raider defense as well as copped second place scoring honors for the Red men with 14 points, sank a long shot to off-set Long's. But the teachers would not be denied. Beall threw to Long as the two Arizona stars crossed the mid-field strip

# Pledges, Members Presented By Las Chaparritas Tonight

and the lanky Sun Devil dribbled once, set, and shot the ball zipped through the mesh as the last minute began to fade.

Tech tried to recover but Arizona intercepted a bad pass and managed to hold the ball as the final whistle blew.

Both teams made more than their share of errors, with Arizona capitalizing on Tech's bad passes and long shots. Backboard honors were about even with titanic Don Grove and rangy Ed Long on the jump.

Grove was the game's high point man with 21 points, while Veri Heap trailed with 17.

Earlier in the evening the Wayland Pioneers of Plainview increased their half-time lead of 23-18 to defeat the Tech frosh 56-39. Verdell Turner, Lubbock high school ace, took frosh honors with 13 points. Harkins, Bush, and Goodson led the Wayland five with 18, 14, and 11 points respectively.

**Arizona State of Tempe**

# Sue Warren Weds Jan Blackwell Here

Miss Sue Warren, daughter of Mrs. Audrie Warren, 2409 Fifth, and Jan Blackwell, senior journalism major from Littlefield, were married Feb. 5 in Lubbock by Dr. Norvel Young, pastor of the Broadway Church of Christ.

The bride, attended by Miss Lurline Ballard as maid of honor, is a graduate of Lubbock High school and the groom attended by John Anderson as best man, graduated from Highland High school in Roscoe. At Tech, he is a member of Pi Sigma Alpha, Tech Press club, and TWVA.

# Engagement Of Sue Sloan, J. R. Callahan Announced

Announcement has been made of the Feb. 7 engagement of Miss Sue Sloan, Claunch, New Mexico, to J. R. Callahan, Lubbock.

Miss Sloan, a business major, is a member of Las Chaparritas social club. Callahan, who graduated in January, plans to work as sales manager for Hub Motor company. The couple will reside in Lubbock after their marriage in November.

# Prizes Slated For Winners At Rec Hall Part Tonight

A get-acquainted party for all students will be held 8-10 Saturday evening in the Rec hall, according to Francis Bearden, director.

Bingo will be featured, with reg-lays and other games for those not interested in bingo. Prizes of double T-shirts for the girls and fountain pens and seals for the boys will be given the winners. The new public address system will be used, enabling the sound to be evenly distributed throughout the hall.

Prof. D. D. Jackson of the education department states that "The weather is a mind over matter subject. The weather doesn't mind and you don't matter."

# Loyd Jenkins Plays For Formal Affair

Las Chaparritas, women's social club, will present four members and eighteen pledges at its twenty-first annual presentation dance from 8-12 tonight at Hotel Lubbock Loyd Jenkins' orchestra will furnish the music for the formal dance.

Decorations for the presentation will center around a Valentine motif.

Members to be presented and their escorts include: Barbara Surman, Las DeFord; Pat Allgood, Jerry Thrush; Betty Eratton, J. L. Gully; Wanda Shofner, Jesse Minchew.

# Pledges, Escorts Named

Pledges to be presented and their escorts include: Carol Touchstone, Don Morris; Janet Hightower, Harry Middleton; Jimmie Cotten, Oat-us Roberts; Vangie Theis, Don Rhone; Billy Saunders, Ralph McLaughlin; Mary Hartgraves, O. R. Stark; Mary Lois Blount, Carl Schmidt.

Ann Walker, James Warren; Gonia Miller, Jimmie Hall; Barbara McGee, Keith Schier; Judy Pollard, Zac Henderson; Shirley Fields, Fred Schult; Jean Woodrum, Winifred Hooper; Frances Carpenter, Bill McLarry; Marjorie Luck, Joe Buck; Helen Mitchell, Noble Halburton; Billy Jo Stephens, Marvin Wilson.

Special guests are: Dr. and Mrs. Doyle Jackson, Mr. and Mrs. Geo. Langford, and Mr. and Mrs. Leonard Jansen.

# Interviews Set For Senior Electrical Engineers

Robert McClure, a representative of the Southwestern Public service in Plainview, will be here the first part of next week to interview graduating seniors in electrical engineering for employment. Any student who wants an interview should make an appointment in the Placement Service office on the second floor of the Ad building.
