## Aggies To Occupy New Building

### Seniors Vote To Give Bond For Class Gift

McCoy Is Prexy, Chambliss Secy Of Summer Grads

Summer graduates voted to contribute two dollars each toward the purchase of war bonds to be placed in the Student Union building fund and elected class officers at the meeting held last Friday afternoon. Officers chosen were Betty McCoy, president, and Lois Chambliss, secretary-treasurer. Dean James G. Allen was named class sponsor.

Ellen Helm Miller was appointed chairman of the committee to collect donations for the senior gift. Other committee members will be announced at the next meeting which is scheduled for this afternoon at 5 o'clock in room 220 of the Administration building.

The invitation committee had no definite information regarding invitations when the Toreador went to press, but an announcement will be made at the meeting this afternoon, according to Miss McCoy.

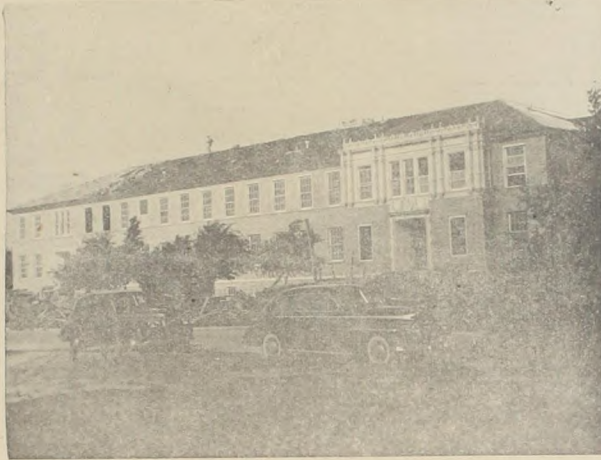

### Civilians And ASTPR Move Into Sneed Hall

College authorities have provided space in the west side of Sneed hall for the ASTPR. The unit expects to move in about July 3. Civilian men will move in the east side of the dormitory between terms, according to W. T. Gaston, business manager.

The dormitory which these groups now occupy will be turned back to women next fall. This building has been referred to as Barracks No. 3 since last July when the first ASTP men moved in.

A new group of ASTP men will arrive about July 5, according to Maj. Frank E. Hanks, commanding officer of the ASTPR. They will report to Sneed hall. The new ASTPR term will begin Monday, July 10.

About 25 of the students in the current ASTPR term ending today will take advantage of the opportunity of going home for a week's furlough, according to Major Hanks. They are to report back for the new term July 8.

### Leidigh States Move Will Be Made By July 7

Building Contains 26 Laboratories And Small Auditorium

Members of the agriculture division will occupy their new building next week for the first time since its completion nearly two years ago. The structure has been used since that time by the Aircrew detachment stationed on the campus.

"Arrangements have not as yet been completed, but we expect to move into our new building on July 7 or within a day or so later," Dean A. H. Leidigh, of the agriculture division, stated yesterday.

Costing well over \$300,000, the building is of Spanish Renaissance architecture. It contains an auditorium, 26 laboratories, six seminar rooms, offices, storerooms and classrooms. Laboratories are not yet furnished but most of the equipment is in storage on the campus and they should be ready for use in the near future, Leidigh said.

Dean Leidigh's office will occupy the northeast corner of the first floor. Dairy manufactures office will be on the west side of the main corridor and plant industry office will be across the hall. The animal husbandry office is located in the southeast corner. The offices of agricultural education and economists from disturbing other activities.

The auditorium, which will seat approximately 300 people, is soundproof. It has a small stage complete with lighting system. The seats are not yet installed and may not be available for some time. When ready, the auditorium will be available for use by small groups from the college in general as well as monthly farmers' meetings and other projects sponsored by the division.

The creamery is located in a detached wing to prevent noise and odors from disturbing other activities. This manufacturing unit has occupied its new quarters for nearly a year. Laboratories for scientific work connected with dairy manufacturing are separate from this unit.

The dairy manufactures building will be turned over to the chemical engineering department for a laboratory, according to President Clifford B. Jones.

The agricultural engineering shop will occupy the old Agriculture building with some adaptations which will be made gradually. The seed laboratory maintained by the state department of agriculture will be located in the new building. Animal husbandry, horticulture and meats classes will continue to use their present laboratories.

When Tech was first opened, the division was located in the ground floor of the Home Economics building. It occupied the old Agriculture building during 1927. Immediately before the sharp drop in enrollment due to the war, aggie classes were being held in every building on the campus except the Home Economics building.

### Former Aggie Student Graduates At Carlsbad

Lieutenant Lloyd J. Holloway, Wellington, former student assistant in the agricultural education department, was a member of the class which graduated June 10 at the Carlsbad, New Mexico, army air field. Lieutenant Holloway is a bombardier.

### Second Annual Education Meet Is Held Here

Second annual conference on education will be held today in the Administration building, according to Dr. R. E. Garlin, head of department of education and psychology.

About 75 letters of invitation have been sent to city and county superintendents of this area. Teachers and principals will also attend.

Dean J. M. Gordon, director of the summer session, will give the opening address. Dr. George P. Mechem, director of field studies in education, will preside over the morning session and Dr. Garlin will preside over the afternoon session.

Speakers of the morning session are misses Edgar, Ellen Wilson, Jean Holloman, Trula Maud Jetton, Lula Mae Cook, Elizabeth Thacker, Mesdames Irene Vanlandingham, Gertrude Watkins, and Rubye Colie Johnson. Dr. Doyle D. Jackson, professor of education, will also speak during the morning session. Subjects discussed will be evaluation of elementary and secondary schools and problems in integration. Afternoon speakers are Supt. P. A. Ammons, Mrs. P. O. Smith, Mrs. Reuby S. Rhodes, Miss Merle Walker, Mrs. Lena Legate and Supt. Chester Johnson. Most of the speakers are summer students of Tech.

The conference, sponsored by the education and psychology department, ends this afternoon at 4 o'clock.

### Dr. and Mrs. Gates Return To Lubbock

Dr. W. B. Gates, head of the English department, returned last Thursday from Mississippi where he was called earlier in the summer by the illness of his father, who is now much improved in health. Mrs. Eunice Gates returned to Lubbock Wednesday of this week from San Antonio where she has been visiting her sister. During her stay, she made a short trip to San Luis Potosi, Mexico.

A wedding ring is like a tourist; it stops your circulation.

### Band Presents Last Program

The Tech summer band will present its final concert at McKenzie State park Tuesday, July 4, at 8:30 p. m. This concert will be in cooperation with the city recreation program. Prof. D. O. Wiley states it will probably be held in the vicinity of the swimming pool.

Among the numbers on the program will be: "Mardi Gras from Mississippi Suite," Ferdie Grofe; "Memories of Stephen Foster," Lucien Cailliet; "A Legend of Sleepy Hollow," David Bennett; "Tribute to Sousa," Goldman; "Miami March," Henry Fillmore; "Stars and Stripes Forever," Sousa; and "Medley of Patriotic Aires," arranged by Barnhouse. The program will be entirely of American composers.

Professor Wiley says, "This has been the best band school since 1941, which leads us to believe that the band school has a definite place in the state music program."

There is an enrollment of 93 students, 57 of which are high school level and 36 are college undergraduates and graduates. All concerts have been well attended with an average of 500 in the audience for each concert, Wiley said.

### Staff Skips Issue In Honor Of Finals

Toreadors will not be published next week because of final examinations, Ellen Miller, editor, announced Wednesday. They will be issued, however, during the second six weeks term of summer school. Students wishing to receive the paper who will not be enrolled for second term may give their subscriptions to Virginia Forbes, business manager, or to the editor, in their offices in the Press building. Subscription rates are 35 cents for the remainder of the summer.

### Manire Approves Budget Of Vocational Ag Dept.

Robert A. Manire, of Austin, who is state director of vocational agriculture, was on the campus Tuesday for his semi-annual visit, during which he approved the budget for the Tech department, and discussed problems with the local staff.

### Exam Schedule Released For Summer Term

Examination schedules and second semester class hours were set this week by the Summer school committee, according to an announcement by Dean James M. Gordon, chairman. Exams will be held Wednesday and Thursday, July 5 and 6, at the following hours:

Wednesday  
8 to 11 o'clock, classes meeting from 8 to 9:30 o'clock  
2 to 5 o'clock, classes meeting from 9:30 to 11 o'clock.

Thursday  
8 to 11 o'clock, classes meeting from 11 to 12:30 o'clock  
2 to 5 o'clock, classes meeting from 1:30 to 3 o'clock.

This schedule also applies to classes meeting any time between these hours. Any classes not scheduled will meet at a time to be approved by the dean of division concerned. Examinations are normally three hours long, however, in the case of classes of less than three semester hours credit, the time may be shortened proportionately.

Registration for the second semester will be held Friday and classes will begin Saturday. Classes for the second semester, six weeks, will begin at 8 a. m. Classes scheduled for the nine weeks term will begin at 8:30 a. m.

The committee agreed to follow the same schedule of examinations for the second six week term, provided there are no conflicts in teachers' schedules and rooms, according to Dean Gordon.

### Math Professors Leave For Term At Texas U.

J. N. Michie, head of the math department, and Dr. Donald Webb, associate professor of mathematics, are leaving soon for Austin where they will teach applied mathematics for the second summer term at the University of Texas. The term will begin July 6. Miss Lida E. May will be acting head of the department during Michie's absence.

The average girl who leaves home is about 15, according to statistics. The average girl who stays home is about 80.

Friday, June 30

Senior class meeting, 5 p. m., 220. All-college dance, 9-11 p. m. Gym.

Saturday, July 1

APO picnic, 7-9:30 p. m. McKenzie park.

Sunday, July 2

APO initiation, 2 p. m., 114. MCCC, 3-30 p. m., 114.

Tuesday, July 4

Band concert, 8:30 p. m. McKenzie park.

Wednesday, July 5

Final examinations begin.

Friday, July 7

Registration.

## For Seniors Only . . .

GRADUATING seniors at the class meeting held Friday voted to contribute two dollars each toward buying a bond to go into the Student Union building fund for their annual senior gift. These students showed a fine spirit when they voiced their desire to contribute to the fund in this manner, for they evidenced both patriotism in wanting to purchase the bond and forethought in wishing their money to go to the Union fund.

However, a serious problem has arisen for the committee appointed to collect the money. During the long session donations for senior gifts may be taken from the graduating senior's breakage deposit. But, obviously, it is impossible to take as much as two dollars from a three dollar deposit when other deductions must be made from that amount so the gift committee agreed to solicit each senior personally. The class is large and the end of this semester is very near, so it may be difficult for the committee to contact those seniors who will leave the campus next week.

Summer graduates can simplify matters a great deal if they will stop by Doak hall and leave their contributions or mail them to Betty McCoy, class president; Lois Chambliss, secretary-treasurer; or any of the committee members listed in the story on page one.

Those who contribute their part to this fund will always feel proud of their gift. When this year's seniors return for annual Homecoming celebrations or just for informal visits and visit the Union building, it will be good to be able to say, "I had a part in building this."

Seniors, your promised gift is a needed contribution to the future of a great school. Make sure that your name is on the list of those who present the bond by making it easy for the committee to collect your part of the funds.

## Life With The Exes

August H. Behling, Jr., Creed C. Coffee, Charles A. Freeman, William N. Garrison, Robert P. Jarrett, James D. Keese, James A. Lucas, Gene H. May, John H. McElroy, Carl L. Moore, Francis K. Morgan, Paul C. Nail, John L. Nikkel, Jr., Roy D. Randolph, John A. Thornburgh and Oscar T. Williams, Jr., are members of a class of engineers that have recently been graduated and commissioned as second lieutenants in the Corps of Engineers at Ft. Belvoir, Va., according to Maj. Frank E. Hanga, head of the military science department.

Philip A. Altendorf, Charles C. Britton, Carl H. Casey, Lanneau Golucke, Guy H. Haverstock, Robert E. Jones, Walter B. Verner

and John H. Wright were recently commissioned second lieutenants in the Signal corps at Ft. Monmouth, N. J., according to Major Hanga. Elmer E. Jameson, who was also in the Signal corps transferred and received a commission in the Marines.

All these men are former Tech ROTC students who would have been in the graduating class of 1944. They have been in the army one year. The engineers took their basic training at Camp Abbott, Ore., and the Signal corps members took theirs at Camp Crowder, Mo. Both groups were returned to Tech in the middle of last October with the ASTP unit and resumed college work until early in February when they were sent to OCS.

## From.... 1

## 2 ...Another

By COUNT MEOUT

The Count has been looking around this week to see if any thing new has been happening and it seems that most of the old couples are still in the same rut—but HARVIN MUCKLOS has found himself a new date in the person of JO WIELDER.

Since HUBERT 'BECK' BECHTOL is leaving for the Navy today, 'UMPY' ROBINSON has decided to let her hair get the effects of sun like so many of her friends have done.

TOMMY HUGHES is taking his physical today to see what is going to happen to his Army status. It's going to be awfully different without Tommy running around the campus.

MARVIN BARRY let BETTY HALLMARK wear his Wrangler pin when he first got it, but she only kept it a week, making it seem as if this break-up is final.

NORMA CROXTON surprised everyone when she announced that she is going to marry a Lieutenant that she dated when he was taking his training here last February.

This week the Navy seemed well represented when BILL ANTHONY and WELDON COBB were running around to the same haunts that they use to before going into the service.

JASON ALLEN came back for a furlough and while here went with MAGGIE NOBLES as much as possible. On one of those dates HOPE CADE and JOE NELSON were along to keep them company.

JACK WATTS and NATHAN MORRIS came back to see how their old buddies are getting along during the summer session when they made a special trip from Marfa.

The WAVES seems to be one of the best places the women of Tech can get into nowadays. So MARY SMITH, who graduated in February, 1944, is planning to go to Hunter College in New York.

HELEN MACK HUME was in Lubbock this week from Carlsbad, N. Mex. so that she could go to the Cadet graduation dance Monday night.

Why has TROY CALDWELL been teased so much about dark-skinned blonde, he was seen dancing with one on the Avenue one night not long ago?

Another former Techman headed for the WAVES is WINIFRED WOODS, who was president of Vivas in 1942-43.

Proud of the orchids that she got for the pre-flight dance last Saturday night, MERRILYN SNYDER was still showing them off Sunday.

Why don't we all go to the dance at the gym tonight for a last fling before finals begin next Wednesday after that one day holiday we get to celebrate the Fourth?

## The World At War

# Century Sees Change In Jap Government

By Dr. Charles Dudley Eaves  
Professor of History

BY FAR the most important event last week was the start of the great Russian summer offensive around Vitebsk on the third anniversary of Hitler's abortive invasion of Russia. The war against the Nazis will be won on this front—not in France. This

is because Russia will be able to throw fourteen million men into this battle as compared with the two or three million we can land this summer in France; also because the great bulk of the German army is on the Russian front. This Russian drive is aimed straight toward Berlin, seven hundred miles away across level terrain—ideal for mechanized warfare. The greatest battles in world history are impending on this front. Germany will be defeated here. But it is about the Jap that I wish to comment this week.

It is difficult for us to realize that ninety years ago Japan was shut off from the world in a cocoon and was living a savage, feudal existence. The emperor, though worshipped as a direct descendant of the Sun Goddess, was also shut up in a monastery and wielded no political power. Great feudal lords, daimyos, protected by a savage warrior class, Samurai, lived in castles and waged bloody wars against each other. Warriors were armed only with wooden shields and huge, two handed swords. The great masses of the people were wretched serfs of the daimyos. Nominal political allegiance was rendered by the lords to the Shogun, who lived at Yedo (Tokio) and wielded political overlordship over Japan. He prohibited all intercourse with the outside world.

As suddenly as a typhoon often sweeps these islands, Japan's feudal dream world was broken asunder. It was the thunder of broadsides from American warships under Commodore Perry in 1854 that awoke the Jap. The Shogun was overthrown, the Mikado was brought out of his chrysalis and spread his wings as a full fledged emperor. He proved to be a very able and far-seeing man. He saw that for self protection Japan must modernize. Calling himself "enlightenment" (Meiji) he gave Japan a constitution copied after Ger-

many's which permitted him to retain great power; he used Germany's army as a model for his new army and Britain's navy as his naval guide; he used the American industrial system as the pattern for a speedy industrialization of Japan. He sent Jap students to Europe and America to study in Universities. They came home and established four modern Universities. By 1894 Japan felt strong enough to venture out on the road of imperialistic conquest.

Japan's first victim was China. Without any warning she torpedoed and sank the Chinese fleet off (SEE CENTURY—Page 3)

### Faculty Wins Second Game In City League

The faculty softball team was victorious over the Federal Em-plo-ees team with a score of 12 to 5.

This was the second game the faculty team has played in the City League, after losing 5-4 to the SPAAF medics.

Prof. T. L. Leach, of the agriculture education department, is the manager and the team is made up of the following: S. S. McKay, S. H. Millikin, Del Morgan, Polk Robinson, Bill Barnett, Lawrence Harmon, Ernest Wallace, Max Arrants, George Philbrick, T. M. Cox, Jay Kerr, H. L. Burgess, J. M. Sipe, and Cecil Ayers.

Tonight the faculty is scheduled to play the Junior Chamber of Commerce.

### Century—

(Continued from page 2)

Korea and forced China to cede to her the great island of Formosa, Port Arthur and the peninsula on which it is located, and pay \$250,000,000 indemnity. Russia forced Japan to give Port Arthur back to China, then leased it herself. This made Japan furious at Russia so she prepared for war by making an alliance with Great Britain in 1902 aimed against Russia. Two years later on a dark February night her navy slipped into Port Arthur and sank the Russian Far Eastern fleet. Then she quickly captured Port Arthur and forced Russia to sign the treaty of Portsmouth giving Japan Port Arthur, South Manchuria, half of Sakhalen island and a protectorate over Korea which Japan annexed in 1910. She had defeated a great European (white) nation and felt confident.

Then in 1934 she began her conquest of China by conquering all of Manchuria. General Tanaka had prepared a blue print of world conquest for Japan—the famous Tanaka Memorial. Regarding themselves as the sons of heaven—gods—the Japs would rule the rest of the world whom they regarded as inferior. All Asia, the Philippines, and rich East Indies would be made into the New Order for East Asia with Japan as master. The United States protested Japan's violations of treaties respecting the Open Door to all nations into China. Japan replied as she had against China and Russia. Four of her air craft carriers sneaked up near Pearl Harbor and sank eight of our battleships and broke the back of our Pacific fleet on December 7, 1941.

(Next Issue: America vs Japan)

### Former Aggie Student Is Recent Campus Visitor

Lt. James V. Christian, Sea-graves, former agriculture student, was home on leave last week from Camp Gordon Johnson, Tallahassee, Florida. Christian is in the Army Transportation Corps, Water Division, and will return there.

W. L. Stangel, head of the department of animal husbandry, spent Tuesday in College Station attending the meeting of the Texas Agricultural Worker's association of which he is president.

### Del Morgan Will Schedule Grid Practice Soon

Summer football practice will begin soon, according to Coach Del Morgan. As soon as the football shoes are received all of the equipment will have been gathered and Morgan, head football coach, will be ready to start working out with men now enrolled in Tech.

Several of the new men who will play on the Raider team were valedictorians and high men scholastically in their high school graduating classes. These men include: "Choc" Miller, Sudan; Seth Murphy, Levelland; George Jennings, Tulia; Billy Joe Whitehead, Mason; and Gene Hardey, Houngerton, Kas. Hardey had a straight "A" record in high school.

Football men enrolled for this semester include: Charles Crawford, Russell Cannon, Marion Goodson, Hardey, Jennings, Don Johnson, Murphy, Miller, Johnny McClellan, Ladell McAteer, Joe Norman, Carl Owens, Ed Robertson, Jack Sanford, Horace Smith, Otis Turner, Ed Turner, and Whitehead, all freshmen. Jack Dillon, Donald Devenport, Don Grove, and Jay Kerr are sophomores. T. M. Cox is a junior.

Coach Morgan expects four or five additional men to enroll next semester. Some of the men listed

### Tech Diamonds Are Used By "Am. League"

"American League" baseball games are being played on the Tech field now. This league is made up of local boys under 15 years, and the teams are sponsored by ABC, Junior Chamber of Commerce, Kiwanis, Optimist, Rotary, and Lions clubs of Lubbock.

The first half of the series ends July 7 when an all-star game will be played. The second half starts July 10.

Coach Del Morgan is manager of the team sponsored by Kiwanis. This team has first place having won four out of five games. Rotary is second, Optimist third, ABC fourth, and Lions and Jaycees are battling for cellar positions.

will drop out to work next term but they will all be back next fall, according to Morgan.

### Dishpan Hints

Right way to use soap in the dishpan is the way a chef adds seasoning—just enough for perfect results. Not a speck more or less. Remember, soap is made of precious war materials.

To keep from wasting soap, use it in proportion to the amount of water and the greasiness of the dishes. If suds die down, add a little more soap, swish it around with a mop or shaker to get foamy bubbles.

### Alumni And Exes Meet To Discuss Newspaper

Alumni and ex-Techsans will meet Wednesday evening at 8 o'clock in the engineering auditorium to approve organization committee plans for an alumni newspaper, announced Miss Dorothy Rylander, executive secretary of the committee and engineering librarian.

The committee met Wednesday evening in the home of Dr. Nina Lamb, professor of foods and nutrition, to make tentative plans for the paper.

Present addresses of all alumni and exes in the armed forces are being compiled. The paper will contain news, both general and personal, of the Tech campus, announced Dr. Lamb, committee member. Other members are chairman J. C. Hardgrave, professor of mechanical engineering; L. G. Harmon, professor of dairy manufactures; L. J. Powers, engineering instructor; L. J. Reithmayer, instructor in government; and Mrs. Geraldine Simmons, instructor of typewriting.

A tall, stately girl is merely a long, lanky girl with lots of money.

### Home Ec Girls Serve Dinner For Faculty

#### Guests Will See Summer Project

A progressive dinner will be given by home management residents this evening with the home economics faculty as guests. The dinner will be given in celebration of the completed remodeling of the home management building. In order to display the new equipment and improvements, courses will be served at the different places of remodeling.

First course will be served at the upstairs cleaning closet, eaten in the hall; second at the kitchen closet, eaten in the dining room; third at the laundry room, eaten in the patio; and finally the guests will go from the patio by the victory gardens and enter the living room through the French doors for the last course.

Redecoration includes the addition of cleaning closets, upstairs and down, and a new closet for the hot water heater. The cabinet top has been changed and walls and woodwork of the kitchen, dining room, living room, hall and laundry room were painted mist green. Colored curtains have been made for the kitchen and living room. A coffee table and reading lamp were bought for the living room.

Mrs. Frances Urban, professor of home management, reports the remodeling a great improvement.

She didn't speak to her loquacious roommate for three days—she didn't want to interrupt her.
