

'Stimulus' exhibition underway

"Stimulus," an exhibition of drawings, photos and models of the Houston cityscape, opened Monday at Municipal Garden and Arts Center, 4215 College Avenue.

"Stimulus" is sponsored by the Tech department of architecture and allied arts, in conjunction with the Houston Chapter of AIA (American Institute of Architects).

THE EXHIBITION will run through Nov. 27, and is open to the public daily until 6:30 p.m. each night. A film, "Blueprint for the Future," will be shown at 4:15 p.m. for the duration of the exhibit, except on Thanksgiving Day.

The exhibition began with a private showing last Sunday, at which Ralph Anderson, who participated in the design of Houston's Astrodome, spoke.

"Stimulus" portrays the problems of city growth and development. The major part of the exhibit comes directly from Houston, based on a study conducted by the Houston Chapter of AIA.

THE STUDY DEALS with problem areas in Houston and offers ideas for improvement, through model cities, blueprints and photographs. This is the first showing of "Stimulus" outside Houston.

This exhibit of problems and potentials of urban development emphasizes beauty and order combined, a challenge to everyone. The exhibit advocates a "more beautiful America" through better planning and design of entire cities.

Also, the over-abundance of signs, billboards, and utility lines is pointed out in crowded pictures, while comparative pictures show what the city could look like if well-planned.

ALSO PRESENTED were selected student problems on "Redevelopment of Lubbock," which included hotel complexes, commercial complexes, traffic circulation plans and others.

The eye catching student exhibit, however, was a large scale model of a "Lubbock Arboretum," featuring a well-planned park, lake and general picnic area.

A large portion of the exhibit seemed to combine modern designs with those of the future. An example of this was a city model called "The Inner Ring," which displayed planned city lots, a conglomeration of building designs and freeways entering the city from four corners, each freeway leading to a terminal complex.

Tech faculty members fill SCMLA posts

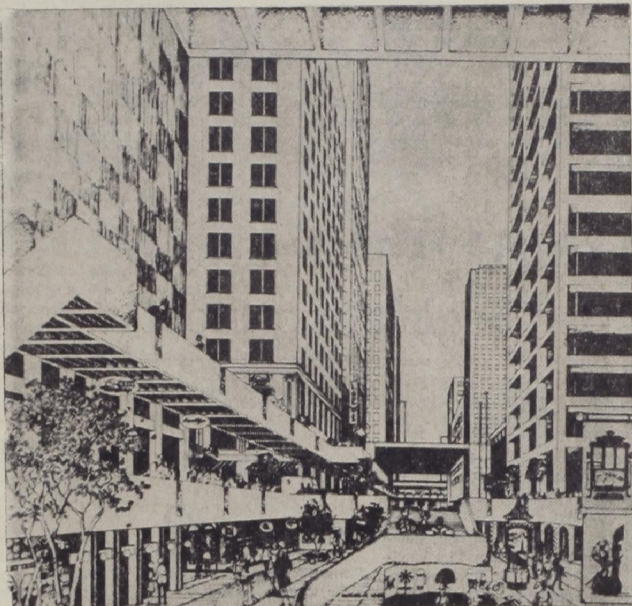

Several members of the Texas Tech faculty have been named to official posts in the South Central Modern Language Association for 1967.

In the English Department, Dr. William Norwood was elected chairman of a section on Contemporary British Literature, Dr. Warren Walker was chosen chairman of a Folklore section, and Dr. Truman F. Camp was named secretary to the 18th Century British Literature section.

IN THE DEPARTMENT of Foreign Languages, Dr. A. Maynor Hardee was elected secretary of the French I section, and Prof. Wolodymyr T. Zyla was named chairman of the Slavic and East European section as well as vice president of the Texas Chapter of the American Association of Teachers of Slavic and East European Languages.

Dr. Carl Hammer Jr. was chosen to serve on a committee to revise the SCMLA constitution and also named chairman of the nominating committee for the national organization of the American Association of Teachers of German.

IN OTHER ACTION, the Executive Council of the Texas Association of German Students elected Tech student Mary Ann Baber of Vernon president of TAGS for 1966-67. A one-time Tech professor in the English Department, Dr. Roy Male, now teaching at the University of Oklahoma, was elected president of the entire association.

'Stimulus' cityscape

— Different variety —

'Vietnik' movements are begun on Tech campus

Two "Vietnik" movements started on campus last week. Neither, however, were of the protest variety.

Men's dorms on campus forwarded 32,000 Christmas cards to San Francisco late Monday so the American Red Cross can distribute them to soldiers on duty in Viet Nam.

Another program, "Project Viet Nam," aimed at gathering needed items for refugees of South Viet Nam, is gaining momentum.

The project coordinating committee received calls from persons as far away as Post and Tahoka offering to donate clothing and school items.

ORGANIZATIONS HAVE issued challenges to other groups for donations and contributions. Murdough Hall Council, in a letter printed in the University Daily, challenged other dorms to best them in contributions.

Carpenter Hall has volunteered to

give medicine and bandages.

The National College Association for Secretaries will donate money.

PI BETA PHI is challenging other sororities for donations.

The Tech Rodeo Association has volunteered to give soap.

Further information can be obtained at the Campus Ministries Bldg., 2412 13th, PO3-4392.

Sponsored by the Men's Residence Council, Christmas cards bearing the following greeting are to be circulated to U.S. soldiers in Viet Nam: "Because of you, America breathes a little easier, America sleeps a little sounder, and Americans walk a little taller — Merry Christmas and thanks."

A spokesman for the Red Cross said the cards will be mailed directly from Travis Air Force Base to the field directors of each major unit, hospital and hospital ship in Viet Nam.

What goes up often comes down --- bruised

By JOHN DROLLINGER
Staff Writer

Weekend outings for enthusiastic students can often be hazardous. Four students took a break from the hum-drum life of college and ventured to Palo Duro Canyon near Amarillo on Sunday. The rough beauty and serenity of the canyon is a nice break from the monotonous landscape of the flat, sandy earth that surrounds Lubbock.

As one stands at the base of a cliff or "Spanish Skirt," as the Park Guide describes the multi-colored formations, one is overcome with the desire to scale this obstacle.

TWO OF THE STUDENTS climbed one of these Skirts. Once at the top, the only way down was a steep, loose gravel slide.

One of the students, who wishes to remain unidentified because of "his stupidity and clumsiness," jumped from his safety point to a seemingly safe "white" ledge.

"All things white are not good," the student said. **THE LEDGE GAVE WAY** under his weight. It broke. Rocks crashed into the canyon below. The student plunged into the dark shadows of the canyon floor . . . he bounced . . . slid . . . screamed as in the movies . . . as he fell into the abyss of the canyon floor.

It did no good. He fell . . . fell real hard. The other three came running up to him and wiped the dirt, tears and sweat from his brow. He was alive. No broken bones . . . just no skin left on his arms . . . bruises everywhere.

"College students can truly be thankful for what they learn. I found out the hard way—what goes up must come down.

Fisher discovers Liz has left him

LOS ANGELES (AP)—Singer Eddie Fisher sued actress Elizabeth Taylor for divorce Monday, charging desertion and saying her 1964 Mexican divorce was invalid.

Miss Taylor married British actor Richard Burton after the Mexican divorce, climaxing an international romance.

Fisher, 38, said Miss Taylor, 34, "voluntarily and without just cause" left him on March 21, 1962, "with the intent to willfully desert." At that time they had been married nearly three years.

Late Permission

Late permission has been granted for women students for the performance of Paul Revere and the Raiders. The singing group will appear Monday, November 28.

Gemini pilots plunge home 'right on money'

Ark. gridder dies after A & M injury

HOUSTON, Tex. (AP) — Claude Smithey, University of Arkansas football player who collapsed in the dressing room after the Texas A&M University game Oct. 29, died Tuesday in Methodist Hospital.

The hospital administrator, Ted Bowen, said Smithey died of "complications caused by head injuries."

Smithey was a tackle on the Arkansas team. A cranial blood clot had kept him out of action last season although it was removed.

AFTER HE COLLAPSED, doctors at Methodist Hospital again removed such a clot.

Smithey tore ligaments in a knee early in September but recovered in mid-season and played in his first game against A&M at College Station, but took part in no more than 10 plays.

Arkansas coaches said game films showed no blow on the head that could have caused the injury.

SMITHEY'S WIFE was with him during his hospital stay and at times expressed encouragement.

However, the player did not regain consciousness after his collapse.

Said Mrs. Smithey during the hospitalization period:

"I was apprehensive but I let him return to football. He wanted to play. Football is in his blood. The doctors gave their approval and frankly I never thought he would rehurt his head.

Blind girl's tape recorder found

Bonnie Alexander was notified Tuesday that her tape recorder has been turned in to Dean of Men Lewis Jones. Miss Alexander's tape recorder was taken Monday as she ate in the Union Cafeteria.

Bonnie depended on her tape recorder for note taking because she is blind.

Nelson Longly, Union director, said the tape recorder was found wrapped in a paper bag in a phone booth in the Administration Building.

He said eight or 10 people had called him to offer donations to help buy Miss Alexander a new tape recorder.

"We are very thankful that the recorder showed up," Nelson said. "Everything turned out very well."

ABOARD THE USS WASP

(AP)—The world's champion Gemini 12 pilots, chipper after four days aloft, plunged home "right on the money" Tuesday after dramatically writing the final chapter in a historic project that led America to the portal of the moon.

"We tried hard to please everybody," declared Edwin E. Buzz Aldrin Jr., who spent more time outside a spacecraft than any other human. "I hope we've come halfway there."

"We're both happy to end the Gemini program with a success," his flying partner, Navy Capt. James A. Lovell Jr. told 2,700 sailors and a nationwide television audience viewing the recovery live.

AND, A SUCCESS it was.

Project Gemini, a \$1.3-billion forerunner to America's man-to-the-moon program, came to its triumphant end within sight of the giant carrier Wasp as it churned through the fabled Sargasso Sea.

Lovell and Aldrin dropped into the gently swelling ocean at 2:22 p.m. EST, and within half an hour were strolling the deck of the ship, shaking hands and waving as a Marine band boomed out an enthusiastic "Anchors Aweigh."

Behind them was a bold journey that lasted 59 trips around the world and spanned 1.6 million miles.

Honea plans 'not guilty' plea in court

Glenn Honea, Tech junior charged Nov. 2 with running a stop sign on Flint Avenue, will enter a plea of "not guilty" when the presently pending case comes before Lubbock's Corporation Court.

John R. McFall, attorney for Honea, said Tuesday the case should be tried in "one or two months, as is the procedure for most bonded cases." McFall posted a \$50 bond Nov. 8.

McFall said, "We are going to enter a plea of not guilty and if they want to try it—we'll try it."

A CORPORATION COURT secretary said the case is not on the current docket but "will be handled like any other traffic case." She said the case would probably come before the court in December or January.

Honea spent about five hours in jail on the morning of Nov. 2 after being stopped by a traffic security officer. He was charged at Lubbock Police Station with running a stop sign at Flint Ave. and dorm lot 30.

AFTER READING a University Daily front page story on the incident, two witnesses, Evan Evans and Chuck Space, said they would be willing to testify that Honea stopped at the sign. Evans and Space are Tech students.

GEMINI 12, though plagued by a series of minor problems, accomplished its major goals, including rendezvous and link-up with an Agena rocket, with little difficulty.

Among its records were:

- The world's longest walk in space. Aldrin spent two hours and nine minutes ambling around the world of the spacewalker while answering some baffling questions about man's ability to work outside. He proved it could be done, so long as a man has the right equipment and rests frequently.

- Most time spent outside. He logged a total of five hours and 36 minutes exposed to space, including his walk, and two times he poked his head through the hatch to take a series of photographs.

- The longest single excursion. One of his "space stands" lasted two hours, 29 minutes, although he did not actually leave the vehicle.

- The first time any man ever thrust his body through a spacecraft hatch into the ocean of void three separate times.

- Most space flight time. Lovell became holder of the space-flying endurance record the minute he rocketed aloft. He had been tied at 330 hours and 35 minutes, with his partner on Gemini 7, Col. Frank Borman.

Smith-Barnes split stalls spending bill

AUSTIN (AP)—Half of Texas' two-headed process for state spending recommendations has stalled, apparently because of the split between Lt. Gov. Preston Smith and House Speaker Ben Barnes.

As a result, there may be no Legislative Budget Board money recommendations for the first time in 16 years.

Gov. John Connally, who has said only the governor should submit a budget, would be strengthened in the spending process if the board fails to draw up its recommended appropriations bill.

THE BOARD, which must submit a budget by Jan. 15, has not met since its explosive meeting of Aug. 29 when budget director Vernon McGee was fired in an obvious power struggle.

Barnes instigated the removal, and Smith was openly angry. Only Smith may convene the board.

"There's a good chance the board may not meet at all," a source close to Smith and the board said.

'TROJAN WOMEN'—Opening Thursday in the Speech Auditorium is a speech lab production, 'Trojan Women.' The play will run through Sunday with performances at 8:15 p.m. each day and 3 p.m. on Sunday. Practicing

for the play are (left to right) Anna Karen Frost who plays Hecuba; Cindy Hale, portraying Helen of Troy; and Joel Leach characterizing Menelaus.

AFROTC tour to see Sheppard AF Base

Thirty Air Force cadets and faculty members will leave Thursday for a one-day tour of Sheppard Air Force Base in Wichita Falls.

The Air Force officers have invited five faculty members to tour the base with the cadets. They are Dr. William G. Cain, professor of management; Dr. Seldon Robinson, assistant professor of management; Ralph W. Carpenter, assistant director of public information; Dr. Charles L. Riggs, professor of mathematics; and Thomas P. Stover, adviser to fraternities, foreign students, and for student loans.

While at the Air Force Base the cadets and faculty will have an opportunity to see many of the planes now in use in the conflict in Viet Nam. They will also see the many different training programs given to each airman at Sheppard.

Before the group returns to Tech, some 10,000 airmen will pass in review before the cadets.

A cadet must have a 2 point overall before he can make one of the many tours to air bases across the nation. He must also sign up in the cadet office a week before the tour.

CHARLES ROE

Roe wins regional

By PEGGY GALBREATH
Staff Writer

Tech will soon be the home of the National Singer of the Year. It's not Ringo! It's Charles Roe, a member of the Tech music faculty.

ROE WON FIRST place in the Southwest Division of the National Association of Teachers of Singing, Nov. 6, in Oklahoma City. As a result of this he will compete in the national contest to be held in Washington, D.C., Dec. 27-30.

Representing the North Texas area, he won the regional contest over a field of five other contestants and will compete against representatives of seven other areas in the national contest.

IF HE WINS in the national competition he will be given a \$1,000 prize and many opportunities to further his career as a professional singer. The organization will arrange tours for him and present him in recital throughout the U.S. He will also be given an audition with the Metropolitan Opera. Not a newcomer to the competition, last year he won second place and the year before placed first in the graduate division.

FOR THE CONTEST, he prepared 21 songs. Five of these he presented for the judges and audience. He will do the same in Washington, D.C. He will sing some of his selections in foreign languages. Mrs. Charles Post, wife of Associate Professor Charles Post, accompanied him on the piano.

A private voice teacher at Tech, Roe has had experience in his field. He has appeared as soloist with the Midland-Odessa Symphony, the Lubbock Symphony Pops Night performances, and in cantatas, oratorios and recitals at Lubbock churches. This past summer, he and his wife sang with the Casa Manana production of "Guys and Dolls" in Fort Worth.

With hard work behind him and hopes for a win ahead, Roe will "sing his heart out" for the judges in December. Maybe, he'll return to Tech as the top singer among the best.

EDITOR'S NOTE: This column, prepared by the department of architecture and allied arts, will appear in The University Daily approximately every two weeks. Other departments are invited to make similar contributions.

"You employ stone, wood and concrete, and with these materials you build houses and palaces; that is construction . . . But suddenly you touch my heart . . . and I say: 'This is beautiful.' That is architecture."

—Le Corbusier

At Texas Tech, the training in architecture and allied arts encompasses all phases of design and graphic communications aimed at improving man's environment, aesthetic appreciation and accomplishment.

It is our view that man has always created only the level of aesthetic environment demanded by him. Architecture and art in their many phases determine to a large degree the quality of that environment. In every sense, art, architecture and beauty are inseparable.

The department of architecture and allied arts inaugurates this semi-monthly column with the hope that it will be of interest to the faculty and student body.

Why "Perspective?" It connotes viewpoint; also, it is of utmost value in both architecture and art to visualize and present perspectives. We hope that the observations and notices herein will arouse your attention and stimulate your viewpoint.

An interesting series of student seminars about architects and architecture is being presented each week by the junior class. Color movies, slides, sound, and other audio visual media are used to make the presentation more comprehensive.

Throughout the school year a constant series of displays of student work is in the halls and lobby of the Architecture Building. These works include architectural drawings, artwork in various media, sculpture, models and ceramics.

Students and faculty of the department of architecture and allied arts will host "Project Four" Thursday in the Tech Union ballroom.

The program will be a formal presentation and informal discussion of work by four panelists from the Dallas-Fort Worth Art Directors' Club and Dallas Association of Advertising, supplemented by informal meetings with individual students for the evaluation of their portfolios and "bull-sessions."

Participating in the presentation will be Jack Reed, Bill Bond, Bob Downs and Joe Crawley.

The "project" series in its fourth year, is made available to a number of schools in the southwest and gulf coast areas. It is an attempt to bridge the gap between student life and professional practice in areas of advertising and editorial art and design.

The afternoon session, which begins at 1:30, is open to the public.

AAUP, TACT heads visit legislative meet

Three Tech faculty members are in Austin today to attend a luncheon meeting of the Interim Committee of the 59th Texas Legislature.

The committee is studying compensation and benefits relating to state college and university faculty members.

Attending will be Dr. Coleman O'Brien, animal husbandry professor; R. C. Janeway, Tech librarian, and Dr. Lawrence Graves, history department head.

Dr. O'Brien is president of the local chapter of the Texas Association of College Teachers, Janeway is vice president of the state association of TACT and Dr. Graves is president of Tech's chapter of the American Association of University Professors.

Janeway said the exact purpose of the meeting and their precise role in it has not been disclosed.

Ex-soldier to discuss race vs IQ

Tom Burtis, a retired Army officer turned student of psychology, will speak on race and intelligence in today's Sandwich Seminar.

He will examine the casual factors for Negro and white performances on intelligence tests and their influence on racial attitudes. In attempting to determine whether or not there are measurable differences, he will discuss the influences of environment and heredity as well as testing methods.

Burtis, who has spent most of his life in the South, became interested in the area of race and intelligence in the Army while on recruiting duty in East Texas and as a personnel management officer.

Retiring after 27 years in the Army, Burtis came to Tech three years ago. Now a senior psychology major, he is minor-ing in sociology.

Swimmers clash, splash in 13-event meet Monday

Capt. Pete Velde's team defeated Capt. Robert Graham's squad 61 to 52 in an intra-squad dual swim meet here Monday.

The two teams, made up of varsity and freshman swimmers, competed in 13 events, including two medley relays and a new 1,000 yard free style event never before used.

The newly introduced event is expected to be used in the Southwest Conference this year. The event was won by Rick Fox, a freshman from Houston, who swam the distance in 11 min., 28.1 seconds.

Coach McNally said after the meet that "the team looks much better this year than it did last year at this time," and that he expects very good results this year.

Union lists Tech talent

The Tech Union is now compiling a list of all types of campus entertainment to be used when persons call the Union requesting the names of groups and individuals to perform.

The Union frequently receives calls from Lubbock and neighboring towns requesting talent not necessarily folk groups, but all types of talent ranging from pianists to magicians.

Dorothy Pijan, Union program director, said, "We know this campus is loaded with groups and talent, but we don't know how to get in touch with them."

Students and interested persons may call the Union Program Office to be included in the list.

This will also help the Union in scheduling hootenannies, since these cannot be arranged without a list of performers.

Nine in delegation

Texas Tech Speech and Hearing Clinic Director Dr. William K. Ickes will head a delegation of nine Tech students who will attend the national conference of the American Speech and Hearing Association in Washington, D.C. Nov. 19-22.

The group also will attend sessions of Sigma Alpha Eta, professional speech and hearing society, which will be held in conjunction with the ASHA convention.

The delegation will include undergraduates Paula Justice of Lubbock, Janis Higgins of Hereford, Janice Coates of Big Lake, Lynda Beth Geron of Brownfield, Janna Calhoun of Mineral Wells, Diane Quinlivan of Fort Worth, and graduate students Kay Patterson of San Antonio, Jim Phillips of Lubbock and Dear Belle Lowe, of Jal, N.M.

He has only won one race this year, but was leading in another when he accidentally "spun out" the driver next to him. He felt so badly about it that he dropped out of the race.

THE POPULAR VOCALIST and composer says he has always been interested in racing, even though he doesn't like to take foolish chances or "live dangerously."

Marty "El Paso" Robbins

Singing career paves way for racing hobby

By ELAINE McLENDON
Fine Arts Editor

"A white sport coat and a pink carnation..." Does this sound like a race-car driver? That's the first line of the song that made Marty Robbins famous and paved the way for his pastime as a race-car enthusiast.

ROBBINS talked about his hobby backstage Friday night before going on stage to delight more than 1,500 fans.

The popular country and western artist is presently racing a 1964 modified hemi-engine Plymouth, which he has entered in nine races this year. His first car was a 1934 Ford with a fuel injected Chevy engine which he ran on dirt tracks.

He has only won one race this year, but was leading in another when he accidentally "spun out" the driver next to him. He felt so badly about it that he dropped out of the race.

THE POPULAR VOCALIST and composer says he has always been interested in racing, even though he doesn't like to take foolish chances or "live dangerously."

Robbins' singing career began when he was working on a construction crew in Arizona for a dollar an hour.

He says, "I've tried work and I don't like it, that's why I have to keep singing."

Actually, he really does work at being one of the best country-western showmen in the business.

Marty and his band act as if they are having more fun than the audience. He adds a bit of humor to even his serious and romantic songs.

Featured on the program were such hits as "The Shoe Goes On the Other Foot Tonight," "Devil Woman," "Big Iron," and "El Paso."

Bob Wills and Leon Rausch and His Texas Playboys played favorites such as "San Antonio Rose."

The band played in typical "western swing" fashion while Wills, accompanied by his white hat and cigar, "called" the numbers.

Warren Smith, in his first appearance since a serious injury, sang one of his biggest hits, "I Don't Believe I'll Fall In Love."

Willie Nelson, one of the most talented artists and composers of country and western music ended the evening with "One In A Row," his latest release. Nelson proved to be one of the highlights of a "rousing good time" at the Municipal Auditorium.

ACCOUNTING SOCIETY
The Texas Tech Accounting Society will meet Thursday at 8 p.m. in room 207 of Tech Union.

WSO
Women's Service Organization will meet in room 106 of the Home Economics Building at 7 p.m. Wednesday.

SOCIOLOGY CLUB
Dr. Evelyn Montgomery of the anthropology department will speak at a meeting of the Sociology Club at 7 p.m. Thursday in the Mesa Room of Tech Union.

JUNIOR COUNCIL
Junior Council will meet at 7 p.m. Thursday at the Kappa Kappa Gamma Lodge, 2414-B N. Broadway. Pictures will be made for the La Ventana.

Tech Stage Band presents first concert in Union

The Tech Stage Band under the direction of Joel Leach will present a concert Thursday at 7:30 p.m. in the Union Ballroom.

This will be the first concert of this type presented on the Tech campus by the Stage Band this year.

The concert will contain a variety of selections, representing many of the finest contemporary arrangers.

Arrangements are by such people as Billy May, Stan Kenton, Johnny Richards, Count Basie, Bill Holman and Henry Mancini.

A highlight of the program

will be two selections by the Stage Band with the addition of a supplementary woodwind group, including flutes, oboes, clarinets, bassoon, French horn and bass clarinet.

Although this combination has become increasing popular with many recording bands, it is seldom heard in concert.

The supplementary woodwinds add a new and unique color to the traditional stage band sound.

The woodwinds added consist of nine new members.

The purpose of the group is to explore the medium of jazz. Stage bands such as this one

have come to the front in the past 20 years.

The Stage Band is planning a tour from Jan. 30 to Feb. 2.

The program includes: "Blue Rond a la Turk," "On Broadway," "Sunday's Child," "Black Magic" and "Fallout."

This is Leach's second year as director of the group.

He received his B.A. and M.A. at Michigan State University.

Many of the members of the group have played professionally with other groups.

The band is currently holding auditions for openings in the group.

Pssst—We're Holding A Few Units For Single Working Girls

A dry 'strip'?

A group of residents of Lubbock County's Justice Precinct Two, containing what many Tech students reverently refer to as "the strip," evidently value their morals higher than their checkbooks.

Known as the "Drys of Justice Precinct 2," they are pushing for a petition to call for a local option liquor election which, if successful, would eliminate "the strip."

Already, they have submitted one petition to the county clerk's office but a canvassing of signatures showed that it was 27 short of the required number. Consequently, the "drys" are going to regroup their forces and have another go at it.

Since a sizeable portion of the 154 signatures thrown out in the canvass were not counted merely because they were signed as "Mr. and Mrs.," it is likely that the next petition submitted will have enough signatures to require that an election be held.

The election will be one of a series of wet-dry elections for Precinct Two, the last one being held six years ago when the area approved the sale of liquor for off-premises consumption. Liquor is defined as any alcoholic beverage containing alcohol in excess of four per cent by weight.

Unquestionably, the sale of liquor in Precinct Two—the only "wet" area in Lubbock County—adds dollars to the economy, the result of an estimated \$10 to \$12 million in sales per year.

Also, elimination of liquor sales in Precinct Two will result in wide-scale bootlegging—which will increase consumption by minors—and innumerable treks to Post, 44 miles away and the nearest "wet" area outside Precinct Two.

The "drys" have a maximum of 30 days from the time the petition is checked out to submit it to the county clerk. If the required 605 signatures are validated, the County Commissioners Court will call an election within 20-30 days. If the "drys" are successful and the election is not contested, liquor stores then have 30 days to liquidate their holdings.

Conceivably, within three months "the strip" could be closed. Such an event would surely create more problems for Lubbock County than it would "eliminate" for Precinct Two.

LITTLE MAN ON CAMPUS

YOU KNOW THE RULE, MISS BEAMIS—THIS AUTOMATICALLY FLUNKS YOU!"

• A Phi O urges team support

We of Alpha Phi Omega would like to express to the student body our support for the Texas Tech Red Raiders. We will be backing the Saddle Tramps in their efforts this week to build the best spirit for any football game in Texas Tech history.

WE REALIZE THAT the student body has been disappointed with what they considered a mediocre team this year. But the men of Alpha Phi Omega hope that the students will forget the past and join together this week in backing the Raiders to their most important victory this year.

We urge every student to join with the Saddle Tramps and Alpha Phi Omega in an undying effort to push our boys over the Hogs from Arkansas.

David C. Lewis

THE UNIVERSITY DAILY, formerly The Daily Tereador, is financed by a student matriculation fee, advertising and subscriptions. Letters to the editor and columns represent the views of their writers and not necessarily those of THE UNIVERSITY DAILY. Letters must be signed, but may be published without signatures in justifiable instances. The views of THE UNIVERSITY DAILY are in no way to be construed as necessarily those of the university administration.

THE UNIVERSITY DAILY, official student newspaper of Texas Technological College, Lubbock, Texas is regularly published daily, Tuesday through Saturday.

Cost of education rises - : textbook prices going up

EDITOR'S NOTE: This is the first of two articles dealing with book prices and bookstores. The second will appear Friday.

By VICKYE HUGHES and BARBRA WORLEY

That "average price" new textbook sold to students this year for \$8.50 was more than likely one to two dollars cheaper last year. What's more, it will also more than likely be one to two dollars more expensive by next year.

Tech students spent an estimated \$2,500,000 last year for books according to a survey conducted by the Business Administration School. This figure is approximately 5.2 percent of overall student expenditures.

A LOCAL bookstore official said it would be difficult to estimate average expenses per semester for students on a local level, but a good guess would be that Tech students would fit into national averages at about the middle point.

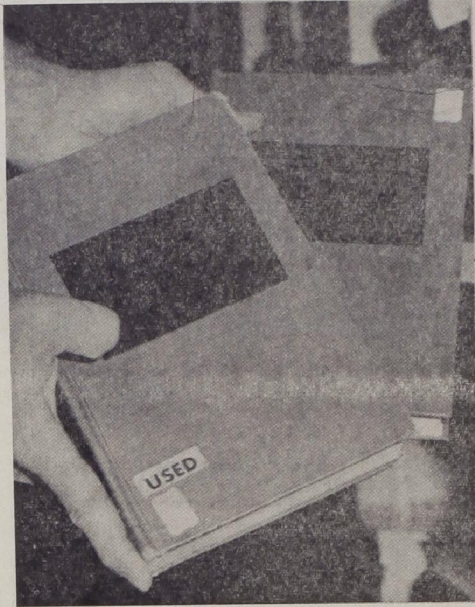

"The national figures which we receive put the cost of books for a full year (two semesters) at from \$100 to \$150, although the figures are higher in some areas," he said. He also pointed out that the type course and hour load would of course affect the total outlay.

"The architecture student for example, will spend as much as \$75 or more on his initial working materials alone," it was pointed out. Engineering and other specialized students also must spend more.

While this type of student may be "over-average" there are also those who spend somewhat less than \$100 annually, but not many.

ADVANCED students, those in their junior and senior years of undergraduate work whose classes involve more of a seminar structure normally call for fewer textbooks and therefore a reduction of expenses in this area, the representative explained. At the same time, more specialized classes require more specialized and expensive texts.

"A book that is not as widely used is going to be priced higher because there is not such a demand for it," another

Reaching for higher prices

Bookstore official said. After he finishes use of the book, a student has two choices — he can keep the book for his personal library and future reference or he can sell it back to the bookstore, recouping about half of its original cost. The resale value of a book depends again on the field of study involved in some cases.

In science and economics, for example, where changes in textbooks require new issues, books can become antiquated easily and thus lose value rapidly.

COMPETITION among textbook companies and personal preference of professors can also affect which book remains in use.

"I changed an entire set of three books from one semester of a course to another," one student asserted, "because the second instructor disagreed with the first as to the choice of books."

The major complaint among students about the textbooks is not so much the original cost but the resale, a bookstore official admitted.

Although the student receives half of what he paid for the book when he resells it, the bookstores usually resell the book at one-fourth under its original cost. This is necessary according to bookstore personnel, because they gamble that in buying a book that it will be in use the next semester, that it is in good shape and that students will prefer used to new textbooks.

BOOKS FORM only a small part of the overall cost of college today. But nevertheless, to the student who lugs them to class daily, even if he drives there, it seems like a "heavy" financial item.

Dear Editor:

Scholastic 'work' needed

We are two sophomore coeds at Tech who are generally proud of our school, but every time we read The University Daily we feel compelled to express our opinions and we finally decided to do it.

WE HAVE been reading about the proposed and recently begun projects for beautification of our campus. After three semesters of exposure to Tech's scholastic system we fail to understand why this money is being spent for the

physical quality of the school rather than for the scholastic quality.

We feel that Tech already probably has the most beautiful campus in the state and yet academically it does not compare with several of the other state schools, much less with those of high national rating.

MILES OF sidewalks, beautiful fountains and thousands of blossoming mums are hardly what this school needs to lead it to the university status it so greatly desires.

For all practical purposes, Texas Tech is now a university in that it has seven or eight different schools of which only two are really technical, not to mention the fact that Tech's Business Administration School is the fourth largest in the nation.

ALTHOUGH WE realize we are not just a technical school, the rest of the nation will not realize it until we get our scholastic system up to par. A simple name-change and/or a beautiful campus will not accomplish this feat.

We do realize that some departments and schools are progressing toward this end, but this is on a limited basis. Unless Texas Tech realizes its academic deficiencies and does something about them, it need not worry about its university name.

TECHSANS and Texans of the legislature will be glad to call this a university when it begins to act like one.

Exam Schedule

EXAMINATION SCHEDULE FOR THE FALL SEMESTER 1966

Friday, January 20

Time of Examination For Classes Meeting on:

8:00-10:30	11 MWF
11:00-1:30	1-2:30 TT
2:00-4:30	4 MWF
6:30-9:00 P.M.	All sections of French 141, German 141, Italian 131, Latin 131, and Spanish 141-142. Room numbers will be announced in respective classes.

Saturday, January 21

8:00-10:30	8 TTS
11:00-1:30	2 MWF
2:00-4:30	All sections of English 131. Room numbers will be announced in respective classes.
	All Saturday classes only.

Monday, January 23

8:00-10:30	9 MWF
11:00-1:30	2:30-4 TT
2:00-4:30	All sections of Biology 141-142. Room numbers will be announced in respective classes.
6:30-9:00 P.M.	6:30-8:00 P.M. MW and Monday P.M. classes only.

Tuesday, January 24

8:00-10:30	10 TTS
11:00-1:30	1 MWF
2:00-4:30	All sections of Chemistry 141-142. Room numbers will be announced in respective classes.
6:30-9:00 P.M.	6:30-8:00 P.M. TT and Tuesday P.M. classes only.

Wednesday, January 25

8:00-10:30	8 MWF
11:00-1:30	11 TTS
2:00-4:30	All sections of Accounting 234. Room numbers will be announced in respective classes.
6:30-9:00 P.M.	8:00-9:30 P.M. MW and Wednesday classes only.

Thursday, January 26

8:00-10:30	9 TTS
11:00-1:30	12 MWF and 12 TTS
2:00-4:30	All sections of Military Science and all sections of Food & Nutrition 131. Room numbers will be announced in respective classes.
6:30-9:00 P.M.	8:00-9:30 P.M. TT and Thursday P.M. classes only.

Friday, January 27

8:00-10:30	10 MWF
11:00-1:30	4-5:30 TT
2:00-4:30	3 MWF

Examination time for classes meeting for more than one hour (as 1:00-2:30) will be determined by using the first hour of the class period to find the corresponding examination period for that class meeting.

Requested changes in the schedule for individual students will be considered by the Dean of the School in which the student is registered.

SIGMA DELTA CHI

Sigma Delta Chi, men's journalism society will meet Thursday at noon in the Seminar Room of the Journalism Building. Sign up for lunch in the Journalism Building.

SOCIOLOGY CLUB

Dr. Evelyn Montgomery of the anthropology department will speak at a meeting of the Sociology Club at 7 p.m. Thursday in the Mesa Room of Tech.

Raider Roundup

WSO

WSO, Women's Service Organization, will meet tonight at 7 in the Home Economics Building, rooms 105 and 106.

ALPHA EPSILON DELTA

Alpha Epsilon Delta, Pre-med Society, will meet Thursday at 7 p.m. in the Tower Room of the Chemistry Building.

Mr. Markham, assistant administrator at Methodist Hospital, will speak on "Medicare and its Effects on Hospitals."

ACCOUNTING SOCIETY

The Tech Accounting Society meeting for Thursday has been cancelled. The next meeting will be December 8.

IL CIRCOLO ITALIANO

The Italian Club, Il Circolo Italiano, will have a discussion of the Italy of today at a meeting tonight at 7 in Room 217 of the Ad Building.

FINANCE ASSOCIATION

John Womack, account executive for the largest U.S. securities firm, will speak at 7:30 p.m. today on "The Securities Business As Your Future Profession."

The program is sponsored by Tech's Finance Association.

Womack is a 1953 graduate of Tech and a 1961 graduate of the New York Institute of Finance. He graduated from the Merrill Lynch Training School in 1962 and has been employed as the account executive at Merrill Lynch, Pierce, Fenner and Smith, Inc. since February, 1962.

The speech will be given in the Arnett Room of Citizen's Tower (14th and Ave. K).

DELTA SIGMA PI

Delta Sigma Pi, professional business fraternity, will tour the data processing center of Citizen's National Bank tonight. All persons interested should meet at the Delta Sigma lodge at 6:45 p.m. Dress is coat and tie.

LA VENTANA PICTURES

Chi Omega and Phi Mu sororities are to have their pictures made for the La Ventana today.

JUNIOR COUNCIL

Junior Council will meet at 7 p.m. Thursday at the Kappa Kappa Gamma Lodge, 2414-B Broadway. Pictures will be made for the La Ventana.

Student wins \$400

Tech senior electrical engineering student Stephen James Stephenson of Borger has received the \$400 Western Electric Scholarship Award for 1966-67, Electrical Engineering Department Head Dr. Russell Seacat announced Saturday.

Stephenson, son of Mr. and Mrs. Ral Stephenson of Borger, is president of Tau Beta Pi and Eta Kappa Nu and is chairman of the Tech chapter of IEEE.

He also belongs to Phi Kappa Phi and Phi Eta Sigma.

The scholarship for academic achievement was presented Friday by Burt Richardson, coordinator of computer facilities for Western Electric in Kansas City, Mo.

TTA plans new fares

TTA, local service carrier in six Southwestern states, today announced plans for its youth fare to become effective November 14, subject to Civil Aeronautics Board approval.

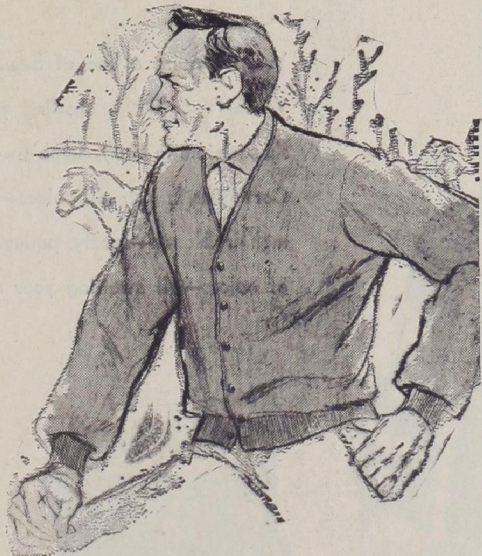

Under the new plan, according to A.G. Kamel, vice president-sales, young adults between the ages of 12 and 22 will be able to make confirmed reservations on any TTA flight, any time, any day, and all year. The young adults will receive 1/3 off the applicable one way fare after purchasing a special identification card good for one year. The ID card will be honored by all trunk airlines across the United States.

TTA will not suspend its reduced fares during Thanksgiving, Easter, Christmas, New Year, and other peak times of air travel. Present youth-fare card holders will be able to use their present card on the new fares until the printed expiration date.

SWC Aces near top

Consistent, exceptional performances are placing the 1966 Southwest Conference individual statistical leaders high among the all-time performers.

Terry Southall of Baylor, Chris Gilbert of Texas, Martine Bercher of Arkansas, Bill Bradley of Texas, Donnie Gibbs of TCU and Larry Gilbert of Texas Tech are destined to inscribe their names alongside fabled performers.

Southall has put together two 24-completion performances and if he can maintain that pace, he could tie the record number of completions (174) by Baylor's Don Trull in 1963. With two games to play, Southall is destined to emerge as 1966 champion, as he holds a three-completion edge over A&M's Edd Hargett, who has only one game remaining. Hargett leads in yardage gained but the Baylor bomber has tossed the most for touchdowns (12).

Chris Gilbert of Texas had a fifth rushing performance in three figures, gaining 117 yards against TCU in a school record number of carries (32). That gave the Steer soph a 360-yard ball-carrying lead over SMU's Mac White, the runner-up. With a net of 943 yards on 180 carries Gilbert needs only 24 against A&M on

Thanksgiving Day to rank third among the all-time leaders, an honor now belonging to Tech's Donny Anderson.

Arkansas' David Dickey set a SWC record for number of carries in a single game (38) as he rushed for 133 to move into ninth place among the leaders. Scoring his seventh and eighth touchdowns in three games, he took over the scoring leadership with 48 points.

Martine Bercher of Arkansas most likely took over the national leadership in punt returns as he raced back a third one for a touchdown against SMU Saturday. He has 21 returns for 374 yards and he was a close third nationally going into the SMU game. He quite

Horn Hall wins volleyball title

Horn Hall won the women's intramural volleyball championship Thursday night after a final game with Chi Omega Sorority.

Horn had previously won the dorm division in a game against West Hall and Chi Omega had won the sorority division in a game against Phi Mu.

The players for Horn were: Renda Harrison, captain, Bessie Lovell, Suzanne Norfleet, Linda Dement, Debbie Moring, and Leane Risley.

The double elimination tournament began Oct. 10 with 53 teams entered.

likely will be Arkansas' fifth national champion within seven seasons and the seventh straight Conference titlist.

Playoffs begin today

Three games are on tap today in the first round of the intramural touchfootball playoffs.

Chi Rho, Tuesday Club League champion, will square off against Baptist Student Union, Monday Club champ, on field No. 2, located behind the Intramural Gym.

Thompson, Residence Hall "A" champion, will meet Phi Delta Theta "B" Fraternity League champ, on field No. 3, behind the tennis courts.

Delta Tau Delta, Fraternity "A" winner, will tackle Carpenter "B", Residence Hall "B" team champ, on field No. 5, east of the Men's gymnasium.

All games are scheduled to begin at 5 p.m.

Moonrakers, Independence League champion, drew a first round bye in the playoffs.

Winners of today's games will meet in the semi-finals Sunday at 1:30 p.m. on fields two and three. The All-College championship game will be played Tuesday at 5 p.m. on field No. 2.

Tech polo team riding high, swinging low

By GARY BLAIR Staff Writer

Conference schools. This match came to being Agriculture Association of Texas A&M.

Would you believe Texas Tech has a POLO TEAM; an undefeated one at that? And, our old nemesis Texas A&M felt the blow of the Raider horsemen last week in a match at College Station Smith, Baylor 24-26 10-3 4-2, in perhaps the first polo match between Southwest

horse show, sponsored by the match. Tech's team was comprised of four members, Charles Armstrong, Stephen Kleberg, Bart Evans and Ben Love. The four had been practicing for the match every weekend in Midland, where there are ample facilities. In Midland there is a team of ex-professional players and amateurs that the Tech boys have played three times and have come out on the winning end twice. When most people think of polo, they think of rich boys and the so-called "jet set," drinking champagne between halves, stands loaded with rich debutantes and after-game parties at the nearest country club. "This is a sport which could go over big with cowboys and good horsemen. When you go to a rodeo, the action lasts maybe 10 seconds if you are lucky. Here, you ride the whole game and really enjoy whacking the little ball around. If you cannot ride a horse well it is no use even getting on the field."

Look "Ski"...

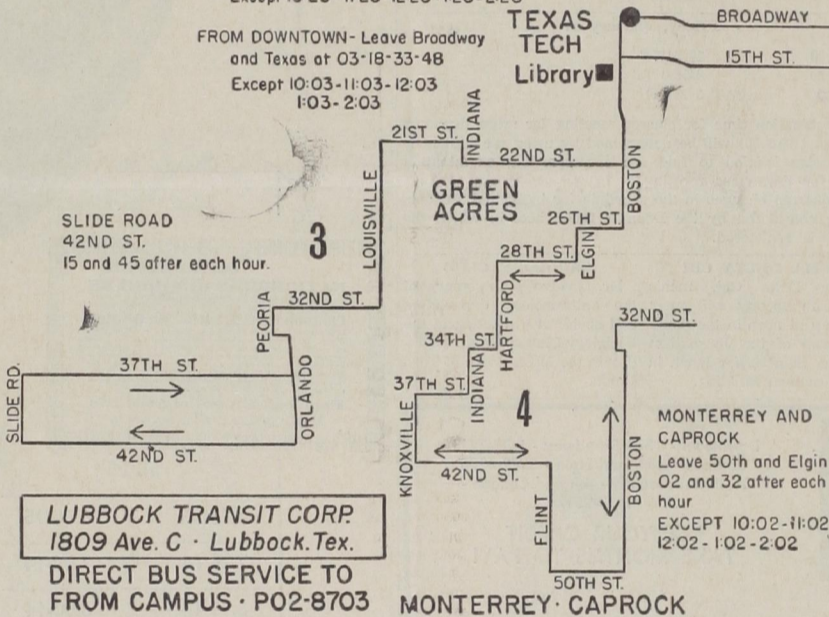

Look "he" in this broad-shouldered nylon parka detailed with welted yoke. Insulated and lined for the coldest days, naturally. And look "ski" anyway. White Stag made it wind and water repellent.

AT LAST—the answer to the small girls Ferret Prayer for Clothes that Really Fit! Our holiday collection is bubbling like Champagne with the important Pace Setters: Lipsters, Mini Skirts, Tents, Swingers, those Pant Sets that are sweeping the country. And for that very special occasion—lovely After Five's.

QUITE A LINE WE'RE HANDING YOU

Yes, it's quite a line of beautiful new sweaters that BROWN'S VARSITY SHOP is handing you. Rich, luxurious ski sweaters in 100% lamb's wool, alpaca, and wool blends. Cardigans in lush fall colors—eye catching; girl catching mohair blends—sporty pullovers in a spectrum of colors—all awaiting your selection at BROWN'S.
