Number S-10

## Seniors Receive Degrees Wednesday

### H. C. Pender Is Granted Year's Absence Leave

J. William Davis Will Be Acting Government Head

Prof. H. C. Pender, head of the government department, has been granted year's leave of absence which he will spend in the insurance field.

Dr. J. William Davis, associate professor of government, will succeed Pender.

Pender, who has been on the Tech faculty since 1926, will leave shortly after completion of the present summer term. He will be associated with the Century Life Insurance company, of Fort Worth, in a special department catering to service men.

The professor long has been one of the most active of the Tech faculty in civic circles. A past president of Lubbock Lions club and a past district governor of that organization in West Texas, he also was one of the founders and a charter member of the Lubbock crippled children's council.

He was a member of the original Lubbock Research council, serving in that capacity for eight years. He has been chairman of the Hub Homes organization since its inception, and played a leading role in securing that construction in the Sanders school area. He has been a faculty member of the Tech athletic council since 1938.

Professor Pender graduated from North Texas State Teachers college, Denton, and did graduate work at Baylor, University of Iowa and George Washington university. Prior to coming to Tech he taught in Beaumont, El Campo, Denison and Wolfe City.

### Frances Barks Is Instructor Of Jap-Americans

Miss Frances Barks, who received her BA in education in 1934, is now teaching sixth grade Japanese-American students in the Japanese relocation center, Rivers, Ariz.

In a recent letter to Dr. R. E. Garlin, head of the department of education, Miss Barks described her work with the students. Upon entering the school, children are given achievement tests, and are then placed in grades. These tests show that the Japanese-American students have an intelligence approximately the same as any other racial group, according to Miss Barks. They attend classes during 11 months of the year, she said.

Friday, Aug. 11  
APO dance, 8:30-11:30 p. m., Meadowbrook Golf club.  
Saturday, Aug. 12  
Final examinations begin.  
Wednesday, Aug. 16  
Commencement rehearsal, 9 a. m., Ad bldg. green.  
Commencement exercises, 8:30 p. m., Ad bldg. green.

Professor H. C. Pender

### All Rooms Filled In Girls' Dorms

All rooms in both women's residence halls have already been reserved for the fall semester, according to Miss Verna Crump, acting manager of Tech residence halls. A number of names are on the waiting list.

Reservations are now being made for civilian men in both Sneed and West halls. ASTRP students will continue living in the east wing of Sneed hall.

Most of the men who have reserved rooms to date are freshmen, according to Miss Crump.

### Tech-Ex Joe Caldwell Visits Campus This Week

Joe Caldwell, '37 graduate in electrical engineering, was on the campus this week. He is employed in the research laboratories of the Sperry Gyroscope Company, Garden City, N. Y.

For the past two months he has been in Stanford university for research on a high frequency radio tube known as Klystron—which means breaking of waves on the beach. He will work on Klystron research when he returns to Garden City.

### Maj. Hartman Arrives Here

Hangs Leaves For Camp Claiborne

Maj. Charles F. Hartman, new commanding officer of ASTRP and ROTC, arrived on the campus last Friday to take over his duties. He is replacing Maj. Frank E. Hangs, who left Sunday evening for Camp Claiborne, La.

Major Hartman was principal of the Stonewall Jackson High school in Houston prior to his going into service. After being called into active duty he was director of ROTC at Louisiana State university from June, 1942 to April 1944. From there he was transferred to Fort Sill, Okla., where he was commanding officer of a special training unit.

The special training unit was closed and Major Hartman's was sent to Tech to replace Major Hangs. Major Hartman's family will remain in Houston.

### APO Builds Barbecue Pit

Alpha Phi Omega, national service fraternity, began building the first of three barbecue pit units in Aggie Grove this week. The project is paid for by the local chapter of APO and all work is done by members.

When completed, the pits will be in three sections with a center chimney. W. R. Hedrick, college architect, made the plans. The first unit will be five by six-feet in size and will be large enough to prepare food for 45 people. Dr. W. C. Holden is supervising the project. Charles Senning is chairman of the project committee.

Marshall Rhea is president of Alpha Phi Omega and Dean James G. Allen is faculty sponsor.

Lt. Richard F. Rabbe, member of the ASTRP staff is on a 15-day leave which was effective the 7th. He went to his home in Ridgewood, N. J.

Lo, Let This Be A Lesson To You !!!

## Toreador Staff Tells All While Signing Final Thirty

By Ellen Helm Miller  
Virginia Forbes  
Vera Culwell

Yea verily, there came one day to the campus of a great institution known as Texas Tech three young women. And lo, they were in hue the color of what grass there was on said campus. And lo, they were called freshmen. For years they tripped around the circle, bright and shining and naive as the sun that beams, looking up respectfully at the godlike upperclassmen, little thinking their day would dawn.

But worse than being freshman, and being gullible, they were journalism majors. Little knowing, they thought journalism majors were the most wonderful people in the world, and they whiled away their hours watching the Toreador staff. For lo they were a most peculiar group of people who ran around with dozens of pencils be-

hind their ears and called the Jovian president of the institution "Uncle Clifford."

Once one of the freshmen even got to touch the editor of the great and glorious college paper, and another caught a glimpse of the business manager. They sat stony-eyed for days dreaming of the time when they might head said rag.

And the wrath of the god's came upon them for their impudence and other sins and the three became editor and business manager and "assistant" editor of the college paper one summer. And lo, they suffered mightily.

For the first week of publication, the editor, truly a good and trusting soul, asked her reporters to write their stories short. And, lo, they wrote them short, the longest one being something like two simple sentences. And the business manager, a high falutin' title for general funky, sat up all

Mrs. William Marvin Whyburn, wife of Tech's president-elect, and her two children, Willa Marie and Clifton Thomas, are scheduled to arrive on the campus today. Dr. Whyburn, who is now in Florida, will arrive here about Sept. 10, according to President Clifford B. Jones.

### Area Set Aside For Plant Study

Ten acres of ground located north west of the power plant has been set aside to be used as a botanical garden, according to President Clifford B. Jones. Native plants will be grown there and tested for medicinal and industrial values. The project also includes the planting of vegetation not native to this region in order to determine conditions necessary to its growth.

The project is under the supervision of the research committee, composed of Dean R. C. Goodwin, Dr. William C. Holden and Dr. H. L. Kent. Work will begin on the garden this fall, according to Dean Goodwin.

### TE Department Purchases New Hand Looms

The textile engineering department has recently purchased four hand looms for instructional work in design and weaving from the textile school at Georgia Tech. These looms weave fabric approximately 20 inches wide.

They will greatly facilitate instructional work in design and weaving since warps for the looms can be made up quickly and with small amounts of yarn, according to L. E. Brown, head of the textile department. This type of loom is used by most textile schools but these are the first Tech has had.

The looms have been painted and will be ready for use in the fall classes. Students who work on them make up their own warps and do all the work on the weaves and designs.

### C. C. Thompson Will Speak At Commencement

Summer Graduates Give War Bonds To Union Fund

Approximately eighty graduates will receive degrees Wednesday night in a ceremony held on the green south of the Administration building at 8:30 o'clock. Charles C. Thompson, chairman of the Board of Directors, will deliver the commencement address.

Invocation will be delivered by Rev. J. M. Lewis of the First Presbyterian church of Lubbock. The benediction will be given by Dr. C. E. Hereford of the First Baptist church.

The summer graduating class will present the college with a gift of war bonds to go into the Student Union building fund. Betty McCoy is class president, Yvonne Hartsel, vice president, and Bonnie Campbell secretary.

In the division of agriculture, four will receive bachelor of science degrees. They are William Truett Babb, J. Wayne Mears, Wilbur Kenneth Roberts and Robert Haskell Stone.

Four will receive degrees from the engineering division. They are Doyle B. Knowles, Kenneth Paul Dowell, Elmo L. Walling, and Ruby Edna Stewart.

Graduating from the home economics division are Myrna Vae Barkley Baumgardner, Ida Christine Bostkin, Madine Lindley Cardwell, Geraldine Rebie Cunningham, Wanda Welch Dunlap, Joyce Maurice Floyd, Lettie Yvonne Hart-sell, Betty Jo Morgan Hubka, Winifred Lee Hurst, Mary Lu Jobson, Hazel Grisham King, Lorene Little, Hazel Christine Moore, Geraldine Elundell Palmer, Mary Frances Peak, Zenobia Catherine Reed, Billie Christine Russell, and Marguerite Brannen Snyder.

Receiving B A degrees from the division of arts and sciences are William Barnett, Billie Louise Berry, Margaret Rosalyn Cammack, Lois Dorothy Chambliss, Maisie Irvin Coon, Vera Culwell, Mary Emily Darwin, Nell Marie Eckert, Jane Gilmore, Dorothy Pollard Johnston, Margaret Long Mary Morris, Darleen Newton, Mary Marguerite Nobles, Lorene Silman, Anita Faye Stone, Maybelle Taylor, Richard Wilfred Johnston will receive a BS degree.

The following will receive BS in education degrees from the arts and sciences division: Christine Billings, Bonnie Mae Campbell, Betty Jo Cardwell, Margaret Elizabeth Gentry, Marjorie Jean Holloman, Sarah Chauncey McInturff, Edith Pearl Newman, Geneva Sides Nowlin, Ernest Edwin Pierce, Arkie Carpenter Smith, Thelma Ruth Strain, Wardell Swaett, Irene Palmer, Vanlandingham, Frank Eugene Wentz, and Oletta Zab.

Receiving BBA degrees from the division of commerce are Virgie Louise Austin, James P. Bowlin, Frances Genevieve Decker, Imogene January, Mary Lou Metcalf, Betty McCoy, Evelyn Simpson, Gwen Simpson, Kathleen Virginia Walthall.

Masters degrees will be awarded 11 people. Averylne M. Hatcher, Lubbock, will receive her MA in history. She graduated here in 1943 and wrote her thesis on "The Walter Franklandingham, Frank Ranch, 1833-1914." Bonita Chandler Herrick, Lubbock, will receive her MA in mathematics. She received

--30--

THE TIME has come, as it always comes, to say "so long for awhile," to the school we love. However, this parting is not a sad one, for we will meet the friends we have made here time and again throughout our lives. Graduation offers a challenge to us all and an opportunity to repay our alma mater for what she has done for us. Our success or failure in our future lives will always be a reflection upon Tech. Let's resolve never to let her down!

Tech has represented many things to the various types of students who have been here. To some she has been solely a place in which to run and play; others have regarded her only as a spot in which to study and receive knowledge. Others have combined these ideas, and also have found opportunities to render service on her campus.

But whatever Tech means to us who are leaving her, there are memories we will have always with us. We will remember classrooms and professors, dull or interesting, and the students, flip, yet serious, everchanging yet unchanging. We will have mental pictures forever of pep rallies and ball games, dancing on the Avenue, the Double T sign and the Victory bells ringing long into the night. And we will recall the fresh clean smell of the campus in the early morning, and the glory of a West Texas sunset behind the Administration building towers.

Even after experience may have supplemented and perhaps augmented what we learned from books, we will recall about all Tech's intangible democratic spirit.

In passing we should like to thank those who have helped make the *Toreador* a success this summer. The summer school committee, headed by Dean J. M. Gordon, and our faculty sponsors, Professors Cecil Horne and Louise C. Allen, have been most helpful. The Lubbock merchants who have advertised with us have proved themselves to be real Tech supporters. And the wholehearted support and cooperation we have received from the student body has been greatly encouraging.

In these weeks we have attempted to present news accurately and fairly. We have also tried to stand up for the ideals in which we believe. At one time we had information (off the record) which could have cleared up a general misunderstanding between administrative authorities and students. When we sought to have these facts confirmed by someone in a position to do so, we were met with the advice, "Never explain. Your friends do not need it, and your enemies will not believe you anyway." If this is a sound policy, so be it. But we trust that the principles upon which Tech has grown—student representation in government, as well as high academic standards—are still considered sound. We fervently hope that the time is not here, and that it never arrives when outside pressure can be brought upon Tech's administration sufficient to make her change her fundamental ideals.

Tech's potentialities are almost limitless. During the first sixteen years of her existence, her growth was phenomenal. In that short time she became the second largest coeducational school in Texas. International hostilities began and, as was the case in colleges all over the world, her enrollment dropped. But the war's interruption is a temporary thing. When new and former students come to Tech after the war, they will find her educational facilities improved. She will have both a larger faculty than she boasts at present and also an expanded curriculum. We treasure the hope that these students do not discover that she has, while progressing in these tangible fields, regressed in the intangibles.

Tech is a young school, but she is inimitably progressive. To paraphrase a quotation from Carl Sandburg: "We love her for what she is, but we love her yet more for what she is going to be. We love her not so much for her realities as for her ideals. We pray for her desire that they may be great, rather than for her satisfactions, which may be so hazardingly little."

"A satisfied flower is one whose petals are about to fall. The most beautiful rose is one hardly more than a bud wherein

## From... I

## 2 ...Another

By COUNT MEOU

With the end of the semester finally in sight, ye old campus is beginning to settle down a bit to its studies. In fact, things have been pretty quiet lately, except for a few goings-on.

EDDIE POOGE seems to be switching gears lately. Just ask DODO BIZZELL or CAROL KRUEGER.

DORIS HAMMERSCHMIDT received an engraved crash bracelet from GENE BISTLINE, ex-engineer now stationed at Barkley. It was a birthday present.

Several girls have been back on the campus this week. Among them JEAN MCLAUGHLIN, SARAH ANDERSON, MARY MIXON, MARY SMITH, SELMA MULLINS, and "FRISBY" PRICE.

BUCK AND NAN, and JOHN and KAY make a gay foursome around town.

MAGGIE NOBLES will be teaching in her home town come fall.

Other students turned professors are DARLEEN NEWTON, THELMA RUTH STRAIN, FLORENCE NOACK, and BONNIE CAMPBELL.

JIMMY WITT was back on the campus last week, in the Bookstore, as usual.

TROY CALDWELL was seen with cute blond GENNY ANTHONY, who starts to Tech this fall. But he's giving the big girls a chance too, dating JOSIE LEE BARNETT for the Wrangler picnic.

Incidentally, JOSIE leaves tomorrow for Ohio, and MARGARET LONG will soon be going to Florida.

Quite a contingent of boys seemed to think BETTE WHITE would be good material for hypnotism.

MILLY COLEMAN will stay in Fort Worth this fall to work on the Star-Telegram and attend TCU.

Things are going from bad to worse. ANN HURT was seen the other night with some freshmen-to-be and later with a 17-year-old.

"CHUCK" FISHER was up last Saturday to celebrate her birthday.

Ask JODIE WOFFORD about the short, but cute, lieutenant with the long, but solid, line she met last weekend.

AVA SMITH is back on the campus, after acquiring a Yankee fiancé and accent to match.

CAROL CLEAVINGER is sporting a pair of silver wings and a bad case of the taffy.

BOB RENNER is back in town, and so is FRANCES BEARDEN.

VEMA MILLER will learn someday when not to turn down blind dates, particularly with Wrangler pledges.

MARION MAYES was back in town Sunday and wouldn't you know it, NINA JEWEL FAIRBAIRN was campused.

RAYMOND ROTHWELL, ex-journalism major, now stationed at Garden City was here Monday.

DON DUGGAN escorted JOYCE WALKER to the all-college dance Friday. Tech! Tech! and we thought he was going steady.

WAYNE KITTLEBY was seen on the Avenue with an unidentified date Saturday night.

JAMES HOLLA and RUTH KNOX made a big night of it last Friday p. m.

We wonder why DORTHEA MOORE likes to trade at HEMP-HILL WELLS so much?

So much for now. The old Count will be back with a lot of fresh dirt come September.

the pangs and ecstasies of desire are working for larger and finer growth.

"Not always will Tech be what she is now. She is going forward toward something great. Our hopes and dreams will go with her, and therefore we love her." EHM.

## The World At War

### Allies Take Brittany Now Race For Berlin

By Dr. Charles Dudley Eaves  
Professor of History

AFTER breaking out of the Normandy peninsula, U. S. armored spearheads raced south to sheer off the port-studded Brittany peninsula, as I predicted they would six weeks ago in these articles. The amazing thing about this drive is its swiftness. Only a few days ago we were tied down in the middle of the Normandy peninsula by hedge-rows, ditches, rain, mud and fanatical Nazis. But suddenly our armored spearheads broke through the middle of the enemy and then raced with blitz speed for Avranche and the ports of Brest, Lorient, St. Nazaire, St. Malo and Nantes. Through these ports we can pour millions of troops and tons of munitions and supplies for the drive on Paris and Berlin.

This break-through was made by our heavy armored divisions acting as a giant spear that cut a wide hole in the enemy line in the center near St. Low. Our armored divisions are much faster than those of the Germans and are enormously powerful because they are equipped with swarms of heavy but fast tanks and mobile heavy artillery. We now have twenty of those so-called "Hell on Wheels" divisions ready to hurl through and over the Germans.

We are to witness now in France a campaign of fast movement. The next American objective is Paris—the heart of France. We expect to reach there by September 1. Then we can sweep westward to take the Channel ports and robot platforms in conjunction with the British on our left. This campaign will be exciting to watch. We may beat the Russians to Berlin yet. The Russian drive has slowed down. They are slowly liquidating the trapped Germans in the Baltic states while other forces push on toward Silesia and Berlin. They probably have outrun their communication and supplies. All the while, the Germans are bringing up more troops and making the Russians move more slowly. However the Russians are so numerous and powerful they will never halt until Germany is crushed. This may come before the leaves fall off the trees this autumn.

## Life With The Exes

Dorothy Miskimmins, who attended Tech during 1941-44, and Lt. Leslie Nikkel, who was here during 1941-43, were married at Camp Claiborne, La. July 13. Mrs. Nikkel was a DFD, and Lt. Nikkel was a Silver Key.

Shirley Medlin, who was enrolled in the agriculture division during 1943, is now a Naval Air cadet. Formerly stationed in Dallas, he visited the campus last Saturday and Sunday while on his way to a new training station on the East coast. Medlin is a former Soci.

Lt. (jg) W. Lyle Donaldson, '38 EE grad, is now with an Atlantic destroyer escort.

Pfc. James Aaron, former agricultural student, is with a bomber squadron stationed in India.

Floyd S. May, who attended Tech during 1937-38, was a member of LAAF class 44-G, receiving his

commission Aug. 4. John Arledge, former aggie, is now in a Navy boot camp in San Diego, Calif.

James L. Tidmore, who attended Tech during 1935-36, and Charles L. Bomar, who attended during 1940-41, were commissioned Army Air corps second lieutenants on June 27 at Foster field.

Specialist 3-C Glenn Sanderson, '42 Agriculture graduate, is with the Coast Guard, stationed in St. Augustine, Fla.

Ensign John Bayless, Jr. is in the communications officer's school at Portland, Me.

S-Sgt. Cullen P. Tibbets, '39, has recently been awarded the Medal of Merit with two bronze oak leaf clusters. A veteran combat cameraman, he was with the Tenth Air force in their long trek across Africa supporting General Montgomery's Eighth Army, and on the invasions of Sicily and Italy. He also went along taking aerial pictures of the Anzio beach head. Sgt. Tibbets entered the AAF in 1941.

# Teacher's Bureau Places Techsans

Some thirty people have been placed this summer by Tech's Teacher Placement bureau, headed by Dr. Doyle D. Jackson. Of this number, 28 are Tech graduates or students.

May and August graduates placed include Misses Marie Hunsucker, Mary Jane Johnston, Melba Knippling, Dorothy Rose Mairs, Darleen Newton, Florence Noack, and Thelma Ruth Strain.

Miss Hunsucker, Matoro, will teach music in the grades at Corpus Christi. Miss Johnston, Graham, will be music instructor in the Iran schools. Miss Kipling, Stamford, will teach commercial work at Ralls and Miss Marrs, Wichita Falls, will teach language in that city.

Miss Newton, Lubbock, is going to teach English and Spanish at Olton. Miss Noack, Lubbock, will be an instructor in high school English at Spur and Miss Strain, New Home, will teach public school music at Andrews.

Other Techsans placed through the bureau are: J. W. Adams, Arton, who will be coach and high school principal at Stinnett, and Mrs. Adams, who will teach home economics there. They both graduated in August, 1931. Miss Mary Clare Barnett, Lubbock, will teach the fourth grade at Lynnwood, Cal. She received her degree in June, 1942.

Mrs. Hattie I. Butcher of Lubbock is going to teach primary work at Friendship school, Wolf-orth. J. E. Caldwell, Lubbock, will teach high school mathematics and coach basketball at Jal, N. Mex. He graduated in August, 1933.

John H. Cox, Lubbock, will be Olton high school principal and coach and Mrs. Cox will teach high school typing and physical education for girls. Cox graduated here in August, 1934. Mrs. W. E. Cox of Ropesville will teach in the primary grades at Fairview.

J. Bud Farmer, Port Arthur, has been placed as instrumental music teacher at Artesia, N. Mex. He graduated in August, 1938. A. Z. Hayes, formerly superintendent at Dickens, will be high school principal at Spur and Mrs. Hayes will teach mathematics there. He graduated in June, 1940; she received her degree in August, 1942.

Mrs. Lily S. Hubbert, Lubbock, will serve as primary teacher at Lorenzo. Miss Emma Jean Jackson, Ralls, will teach high school mathematics at Canyon. She received her degree in August, 1938. C. E. Johnston, formerly Toyah superintendent, will serve as high school principal and teach social science at Wolforth. He is a 1932 graduate.

Mrs. Maurine Lackey, Clarendon, is to teach history in Ralls high school. She graduated in August,

1927. Miss Ida Pauline Lewis, 1942 graduate from Sudan, will teach English at Friona. Miss Elizabeth Lord Lubbock, who graduated in 1941, will teach English and Speech in Carlsbad high school.

Mrs. Mary Ruth Nelson, of Lubbock, is to teach history in Brownfield. Mrs. Lucille McKinnon will teach English at Olney. Miss Rena Noack of Lubbock will be head of the English department at Spur. She graduated in June, 1943. Mrs. Margaret Ross, also of Lubbock, is to teach primary work at Corpus Christi. She graduated in August, 1941.

Non-Techsans placed by the bureau are F. L. Brantley who will be high school principal at Pecos and Mrs. Violet D. Clark who will teach reading in Lubbock junior high school.

Vicky Martin, journalism major, has served as secretary to the Teacher Placement bureau during the summer term.

## O. A. St. Clair Appointed Vice-Chairman Of ASME

Prof. O. A. St. Clair has been appointed vice-chairman of the Texas Tech area of the north Texas section of the American Society of Mechanical Engineers.

This appointment is for the year beginning July 1, 1944.

A modern gentleman, apparently is one who can't bear to see a woman standing in a crowded bus—so he shuts his eyes.

## Vocational H.E. Teachers Meet

A conference for homemaking teachers will be held on the campus Tuesday and Wednesday, sponsored by the state board for vocational education, according to Miss Margaret W. Weeks, dean of home economics.

Miss Ruth Huey, state director of vocational education, will be guest speaker. Tech professors who are scheduled to talk include Dean Weeks; Miss Mable Deane Erwia, head professor of clothing and textiles; Mrs. Lila Alred Kinchen, instructor in clothing and textiles; and Miss Nina Lamb, associate professor of foods and nutrition.

Theme of this year's conference will be problems arising in the family and community during war. Meetings are scheduled to be held in the Home Economics and the Agriculture buildings.

## Aggie Meeting Began Thursday

The vocational agriculture conference of Area I began Thursday, and will continue till noon Saturday, in the auditorium of the new Agriculture building. Guest speakers are Robert A. Manire, state director of vocational agriculture, Austin; M. F. Thurman, state superintendent of the food products war training program, Austin; J. B. Rutland, state superintendent, Austin; and the four head teacher trainers from Kingsville, Huntsville, Texas A. & M., and Tech.

Initiation of honorary Lone Star farmers will be conducted at 9 a. m. today in recognition of those who have contributed to the advancement of the Future Farmers of America program.

## Adams Attends Post-War Meet On Engineering

Dean O. V. Adams was in Fort Worth Monday attending a meeting of engineering, science and management war training institutional representatives of region 17. This meeting was called by Dean W. R. Woolrich, regional advisor, of University of Texas.

Dean Adams and Prof. J. C. Hardgrave attended another meeting of representatives of engineering colleges of Arkansas, Louisiana, Texas, Oklahoma, and New Mexico also held in Fort Worth. Plans were made for setting up a regional organization for the purpose of presenting to authorities in Washington needs of engineering colleges, especially of this region, for various types of engineering equipment, which might

### TOREADOR—

(Continued from page one)

Moreover there were other eccentric tripping gaily around advocating that the staff and indeed entire department take to raising cane professionally.

Now it came to pass that in spite of all their troubles, trials, tribulations and midnight parties, the three young women did come to receive their diplomas. Lo, they were no longer innocent, but they were yet young, as various campus authorities occasionally informed them. But with all their youth, they nevertheless did enter the great wide world. And lo, they again took on a greenish hue, as

## Wrangler Club Gives Picnic Thursday Night

Wrangler club held its last meeting of the summer with a swimming party and picnic from 6:30 to 9 p. m. yesterday at Mackenzie park. Members, pledges and guests attended.

Members present were: Troy Caldwell, Earl Christie, Carl Jensen, Bill Murfee, Gene Allen, Jimmie Williams, Owen Gilbreath, Dan Young, Charles Fugitt, Mickey Sweeney and James Furrh.

Pledges present were: Eugene Bills, R. L. Heath, Norman Hobbak, Walter Johnson, Keith Huckaby, Don Keith, Bill Kennedy, Bill Puryear, Herman Quintus, Bill Reamer and Charles SoRolle.

Paul Castleberry and A. B. Strehli, sponsors, were chaperones.

They were all three cub reporters. Yea, they looked longingly at the big men on the staff, and once, one of them actually touched the editor.
