

Band Clinic Concluded

Four hundred high school students swamped the Tech music building Friday for the 17th annual Band Clinic, sponsored by the Tech band.

Three bands were made up from the musicians selected from 29 area schools. Some students came from as far as 200 miles.

Class AAA and AAAAA schools joined in a band under the direction of Paul M. Branom, director of the Tom S. Lubbock high school band. Class AA were charged to D. W. Crain, Jr., Abernathy, and Class A and B were directed by J. W. King of Hale Center.

"The directors tell me that they were the best bands we have assembled in all the 17 years," commented D. O. Wiley, Tech band director.

A concert by the Red Raider band Friday afternoon climaxed the event.

Most of the musicians will stay over for tryouts being held today for the All State Region I band, sponsored by the Texas Music Educators association.

DEADLINE IS TUESDAY AT 5

Deadline for applications for the positions of Director and Producer of the 1959 Varsity Show is 5 p.m. Tuesday, according to Jim Thompson, Varsity Show Advisory Board.

Letters should be submitted at the Union Program Office stating previous experience and qualifications.

Skinner In Finals

Yvonne Skinner, Tech senior, has been named as one of the 21 finalists of the 1959 Maid of Cotton contest.

SHE WILL compete with the other finalists in the finals in Memphis Dec. 29-30. Winner of the contest will be cotton's "ambassador" in a global publicity tour.

Judging will be based on poise, personality and family background. Prizes include the six-month tour, a cotton-accented wardrobe and a car.

MISS SKINNER won the South Plains Maid of Cotton contest in Lubbock earlier in the year. Other area finalists and the cities they represent are: Betty Carpenter, Fort Worth; Carolina Jolliff, Dallas; Marcella McKenzie, Tyler; Suzanne Schoemann, Brenham; and Anna Jane Sitton, Carlsbad.

Miss Skinner, a 5' 5" blonde with measurements of 34-23-35½, is the daughter of Mr. and Mrs. L. B. Skinner, 1718 48th, Lubbock.

SHE IS a music education major, singing in Tech choir and Madrigal singers.

Sally Rutledge and Annette Rose, Tech coed were runnersup to Miss Skinner in the South Plains Maid of Cotton contest.

A TYPICAL SCENE — Once in a while, a sewer line in a dorm breaks, stopping dishwashing activities. Here, a dorm cafeteria worker clears dishes off the floor where dorm residents stacked them, after a sewer line broke. The conveyor belt had to be stopped earlier because the kitchen quickly filled up with dirty dishes. The only alternative was to have the students stack their dishes on the floor.

'Tots' Toys' Drive Begins On Campus

Tech students are making needy children happy with donations to the Toys for Tots campaign, sponsored by Circle K International in connection with the Marine Reserve drive.

Various campus organizations are taking children's gifts to their Christmas parties instead of exchanging gifts between members.

BARRELS DESIGNATED as collection spots may be found in many of the dormitory lobbies. Other dorms are placing the toys beneath their tree and asking each room to contribute one toy.

The Tech Union has sponsored a dance with admission being one toy per couple. Another barrel

may be found in the Union lobby.

A TROPHY will be awarded the group turning in the greatest number of serviceable or new toys to Circle K.

Broken or used toys are being repaired in the Marine Reserve Bldg. from 8-11 a.m. and 1-4 p.m. daily. Tech students are invited to join Santa's helpers in preparing these toys for distribution.

Press Group Plans Meeting

Persons wishing to affiliate with Sigma Delta Chi, men's professional journalism fraternity, should attend a meeting of that group in the Reading Room of the Journalism Building Tuesday at 2 p.m.

Interested men students need not be journalism majors, but must express interest in making journalism a profession.

Little International Boasts 74 Entrants

BY LEE SULLENGER

The eleventh annual "Little International" livestock show will get under way today at 12:30 p.m. in the Livestock Pavilion.

Seventy-four students have en-

tered the show, which is sponsored by the Block and Bridle club. All will show college-owned animals.

JUDGING will be based on the ability of the student in fitting and showing his animal, not on the merit of the individual animal itself. Students drew lots for the animals which they will show.

Beef cattle, dairy cattle, sheep, swine and horses will be shown, with the winner of each event receiving a \$10 gift certificate. A leather hand-tooled scrapbook will be the prize for the grand champion. Ribbons will be given to the first five places in every event.

THE RESULTS of the show are expected to be tabulated by 5:30 p.m., and the winners will be announced, including name of the grand champion.

Then the third annual Ham Auction will begin with fifty sugar-cured hams going to the highest bidder.

JUDGES for the show are Durwood Lewter, beef cattle; M. T. Jenkins, sheep; Ralph Harbin, dairy cattle and B. F. Yeates, quarter horses. Division superintendents are Billy Weatherby, swine; Louis Henize, sheep; Charles Cobb, dairy cattle; John Schlittler, beef cattle and Don Hollam, quarter horses.

Dudley Arnett and Payton Scott are the chairman for the show, and Jim Knowlton is chairman of the Ham Auction committee.

Ike May Ask For New Bill

WASHINGTON (AP)—Sen. Clifford Case (R-NJ) predicted at the White House Friday that President Eisenhower will ask Congress to pass new legislation dealing with racial integration.

Case, who has been especially interested in enforcing court-ordered integration of Negro and white pupils in the Public schools of the South, spoke after a conference with Eisenhower.

THE SENATOR said government lawyers are working hard on drafts of civil rights legislation. He described the President as "deeply in sympathy with efforts the Department of Justice is making to come up with something."

Case and Eisenhower have been close since the 1954 senatorial campaign in New Jersey when the President rejected demands from some Republicans in the state to use his influence to have Case removed from the race.

ALSO, in 1957 Case applauded Eisenhower's sending of troops to Little Rock, Ark., to enforce court orders for integration of Central High School there.

Whatever new civil rights legislation the administration settles on probably will be outlined in Eisenhower's State of the Union message to Congress next month.

Case told reporters that Eisenhower listened to what the senator suggested in this field and showed a deep interest, but made no commitments.

Fish Council Plans Dinner

Freshman council members will meet Monday at 6 p.m. for dinner at 2431 20th Street. Joan Carvey, social chairman, will be hostess.

Plans for an all-campus dance sponsored by the freshman class next semester will be discussed.

Tests Prove Dishes Are Not Dangerous

Tests have revealed that the radioactive pottery recently discovered in the home of a Tech graduate is not dangerous.

THE POTTERY was discovered in the home of A. D. Ray, 2313 56th St. Ray is a Tech geology graduate and a part-time uranium prospector.

He was testing objects in his kitchen for radioactivity when his geiger counter registered radiation from some of his pottery.

HE BROUGHT the pottery to the Tech physics department, where Dr. Henry Thomas made tests to discover the radiation level.

The tests revealed that 75 percent of the radiation is alpha radiation and will not penetrate even a sheet of paper. The remaining 25 percent is beta radiation, which is only slightly more penetrating.

"THE RADIATION level was found to be four-thousandths of a roentgen per hour at the surface," said Dr. Thomas.

"A person will have to be exposed almost constantly at very close range to be harmed at all by the radiation, and since the radiation is not penetrating, even constant exposure would affect only the skin."

Sec. Dulles Leaves For Paris Talks

WASHINGTON (AP)—Secretary of State Dulles conferred with President Eisenhower Friday and then left for important Paris talks, accusing Russia's leaders of "contemptuous disregard . . . of their pledged word."

The 70-year-old secretary took off for Western conferences on the touchy Berlin situation a few hours after leaving the Army's Walter Reed Medical Center.

HE PRONOUNCED himself fit and rested after a week-long bout with diverticulitis, inflammation of the lower intestine. Doctors said there was no sign of any recurrence of the intestinal cancer for which Dulles underwent surgery in 1956.

"I feel fine," the secretary said with emphasis. "I feel a whole lot better than I felt when I left here a couple of years ago."

FROM WALTER Reed he went home briefly, then talked with Eisenhower at the White House for an hour. He left almost immediately thereafter aboard the four-engine presidential plane Columbine III for Atlantic Pact-NATO meetings in Paris.

At the White House, Dulles read a 400-word statement approved by Eisenhower. It dealt with Russia's demands that Allied troops be pulled out of West Berlin despite Big Four agreements to maintain military supervision pending a German peace treaty.

"A discouraging aspect of the international scene is the contemptuous disregard by the Soviet rulers of their pledged word," Dulles said.

★ Campus ★

Dorms Have Contests

Teeth may chatter outside but in the five Tech women's dorms Christmas spirit is glowing.

Each of the dorms are having decoration contests with prizes being given for the most beautiful, original and humorous. Some of the dorms are having all dorm parties with entertainment and refreshments while others are having individual wing parties.

PRESENTS will be swapped among the girls and also collected for needy children in the area.

Knapp has in its lobby a Christmas tree and doll house. Contributions to the doll house are made by each girl with different prizes being awarded for them. The dolls will be given to local children.

EACH WING carries a general Christmas theme in their decoration. One wing features Santa Claus sliding down the Chimney, (an off-season laundry chute). Christmas wrappings and bows adorn doors on another wing. Christmas carols are depicted on the doors in another wing.

Weeks Hall has a special project this year. Gifts of toys and clothing will be given to a day nursery for Negro children. They are planning aid for the nursery throughout the rest of the year with an Easter egg hunt and birthday parties planned for the children.

A **CHRISTMAS** tree decorates their lounge but most of the in-

dividual rooms aren't decorated yet.

December 16 has been set for Weeks all-dorm party. The following night the residents will go caroling around the campus.

GOING ALONG with the Christmas spirit Drane's lounge will have a tree decorated with popcorn strings and poles wrapped to resemble candy canes. The switchboard will be decorated like a fireplace, stockings and all.

Invitations have been sent out for their open house which will be Sunday at 3 p.m. Refreshments will be served and the Drane choir will sing. After the program open house will be held.

DOAK'S decorations range from religious scenes to contemporary quotations. One wing has angels over the doors with white crepe paper covering the doors, with song titles written on the paper.

Another wing features Christmas trees constructed from different materials such as popcorn and nylon net.

CHRISTMAS MUSIC may be heard throughout the first floor of Horn Hall. The stairways are decorated with cedar branches and candy canes. They are also having a wing decoration contest. First north wing portrays the twelfth day of Christmas, from the song "The Twelve Days of Christmas."

Christmas characters from different countries are portrayed on the doors of another wing.

Pledge Class Skits To Highlight Fete

Presentation of five-minute skits by each of the 11 sorority pledge classes highlights the annual Panhellenic luncheon today at 12:15 p.m. in the Caprock Hotel ballroom.

ALTHOUGH in previous years sorority members and pledges have been invited to attend the affair, the lack of space this year had necessitated limiting attendance to only pledges, Panhellenic delegates and pledge trainers of each sorority.

Special guests at the luncheon will be Florence Phillips, Dean of Women, Jacqueline Sterner and Mrs. Dorothy Garner, Assistant Deans of Women.

JUDGES of the skits will be Mrs. Caroline Bosworth, Mrs. Alice May, Miss Irene Kohner, Mrs. Evelyn Stovall and Miss Carol Sittler, women's dormitory counselors. The winning pledge class will receive a loving cup.

GREEKS' SING MEET IS SET

John Devine, Chairman of the 1958 Inter-Fraternity Sing has announced a meeting of the fraternity and sorority song leaders Monday at 5 p.m. in the Choral Library of the Music Building.

Dormitory Gives Gifts To Children in City Nursery

Five tricycles are among the gifts Weeks Hall is giving to the Carver Heights Day Nursery Christmas. This will begin a con-

tinuing project of the dorm to be followed by birthday gifts for each child and an Easter Egg Hunt.

"We are very excited about the project," said Mrs. Alice May, Weeks counselor, "and the girls seem very enthusiastic. Some of them have even volunteered to help at the nursery."

"**EACH WING** is buying a gift, which will be taken to the nursery, Wednesday night.

Mrs. R. A. Pillow, head teacher at the nursery said they were very happy to hear of the project, and would be overjoyed to get the toys.

The nursery is for colored children from two to six years old whose parents work. About 50 children come regularly.

What they call bath tissue is now advertised in a background worthy of diamonds. Scott makes Tiffany seem crude and uncultured.

Marketing Club Elects Officers

The Tech chapter of the Student American Marketing Association held a preliminary organization meeting recently, electing temporary officers to serve until the chapter is organized.

STUDENT AMA is sponsored by the American Marketing Association, a professional marketing organization. Membership in the Student AMA can be transferred to the AMA upon graduation if the person is eligible.

Temporary officers are Paul Ortosky, president; David Weaver, vice president; Elizabeth Guthrie, secretary and Beverly Hollingsworth, treasurer. Richard Wiesen and Norman Womack compose a committee for the planning of the chapter constitution and by-laws.

Council Urges 'Stay All Day'

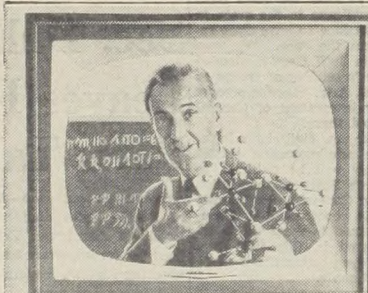

Stay all day and see Tech and Missouri play!

THIS IS the purpose of a drive being conducted by the Student Council. The Council had printed and distributed cards urging students to stay for the Tech-Missouri basketball game **SATURDAY, DECEMBER 20.**

Since the Christmas holidays begin at noon Saturday, many students will leave and the national TV cameras focused on the student section may show empty seats.

The game will be nationwide publicity for Tech, and we want to make sure that Texas Tech will appear to be behind its athletic teams," said Milton Vaughn.

THEY SAID IT COULDN'T BE DONE - BUT TODAY'S L&M GIVES YOU-

THEY SAID IT COULDN'T BE DONE!

Who would believe you could get college credits by watching TV? But television now offers daily classes in atomic physics — and over 300 colleges and universities across the nation are giving credit for TV courses.

Puff by puff **Less tars** & **More taste**

DON'T SETTLE FOR ONE WITHOUT THE OTHER!

Change to L'M and get 'em both. Such an improved filter and more taste! Better taste than in any other cigarette. Yes, today's L'M combines these two essentials of modern smoking enjoyment — less tars and more taste — in one great cigarette.

Freshmen Triumph In Appearance Here

A capacity crowd viewed a fast-moving program of musical selections which scored triumph for the Four Freshmen Thursday night.

A combination of mood music and rhythmical numbers, all backed by the group's own instruments, brought continued rounds of applause from the amiable audience.

CLOSE HARMONY on soft, dreamy memory tunes is the group's speciality but Lubbock

fans seemed especially fond of the wild, rhythmic arrangements of "Malaya," "Granada," and "Stormy Weather."

The crowd broke into applause during several numbers and also during the antics of chief comedian Bob Flanagan, bass and trombone player, Ross Barbour, drummer, kept the show moving from his position at the microphone.

ALTHOUGH THE crowd was responsive, for some unknown reason, people began leaving before the show was over.

THE FOUR FRESHMEN . . . Big hit with Techsians

Neuro-Surgeon Speaks Monday

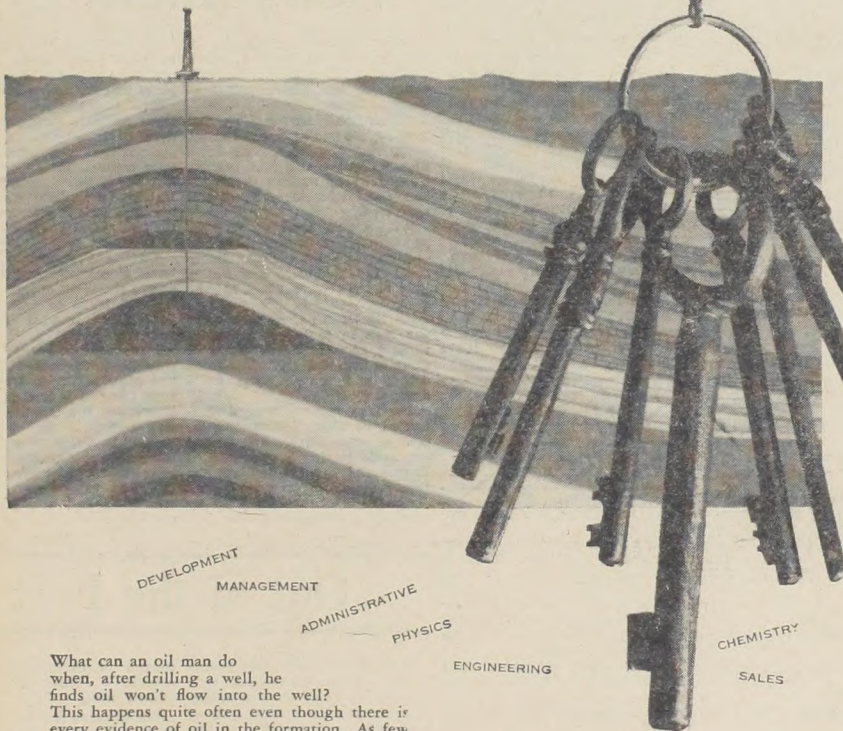

Dr. Jack Dunn, a neuro-surgeon at Methodist Hospital will be the guest speaker at the Psychology Club luncheon at noon Monday in the Tech Union.

Club members, students and faculty members are invited to attend. They should sign up in the psychology office by 10 a.m. Saturday.

THIS WEEK AT THE UNION

Sunday — movie at 2:30 p.m. in the Ballroom. "Ring of Fear" with Clyde Beatty, Mickey Spillane and Pat O'Brien, in color.
Monday — same movie at 4 p.m.
Tuesday — Hospitality Hour at 10 a.m. in the Ballroom Lounge.
D.J. Record Hop at 7 p.m. in the Rec Hall.
Thursday — Square dance at 7 p.m. in the Rec Hall.

with **DOWELL**, you hold the key

What can an oil man do when, after drilling a well, he finds oil won't flow into the well? This happens quite often even though there is every evidence of oil in the formation. As few as just ten years ago he might have had to abandon the well. Not today, however. Sandfrac*, Petrofrac*, Riverfrac*—or any one of several other exclusive Dowell fracturing services might be used to make this well a good producer.

Hydraulic Fracturing is an oil well treating technique which involves the pumping of special fluids under high pressure down a well. The fluids are forced out into the formation to fracture and open up natural drainage channels. Dowell is called on repeatedly to help oil men solve special well problems, and improve the producing characteristics of oil, gas and water wells.

To solve these problems, it takes a team of well-trained, creative people. It takes able men

to design new fracturing services; others to prove them, still more to apply them properly. The key to unlocking formations and performing a real service to the oil industry is held jointly by every Dowell employee. Fortunately, Dowell is staffed with people who can accept a challenge—but more are needed.

If you are a technical or business graduate seeking an opportunity to unlock your abilities, Dowell can provide the key. For complete information on careers with Dowell, consult your Placement Officer or write Personnel Department, Dowell, Tulsa 1, Oklahoma.

Round About Christmas Festivities To Begin

Kappa Alpha Theta members, pledges and dates will get into the Christmas spirit Sunday with a party at the Theta lodge. Following refreshments and entertainment the group will go caroling.

★ ★ ★

NONNIE SUE Blocker was named Pi Beta Phi's best Pledge of the month at the sorority's Wednesday night supper meeting.

Mrs. Carl W. Hensley, Nu province president of Pi Phi who has visited with chapter officers during the week, was a special guest at the dinner.

★ ★ ★

MEMBERS OF Le Cercle Francais, Tech French club, will attend a Christmas Party Tuesday at 7 p.m. in the Faculty Club. Pictures will be taken for the La Ventana and a program and refreshments will follow.

★ ★ ★

MEMBERS and pledges of Alpha Phi will be entertained Sunday evening at 6:30 in their lodge by alumnae and mothers of the group. Refreshments will be served and a caroling party will follow.

★ ★ ★

SIGMA KAPPA'S float chairman, Linda Hegwer, sophomore from Houston was chosen this month's Sigma Standout at a recent meeting.

Dee Dorsett, Lubbock freshman, won the best pledge bracelet.

★ ★ ★

PI KAPPA ALPHA will present their "Dream Girl" at a formal dinner dance in the Palm Room on the Idalou Highway Saturday at 7 p.m.

Nominees for Pike Dream Girl are Kay Jones, Johnnie Wade and Myrna Jo Phillips.

Dancing will follow the dinner.

★ ★ ★

SIGMA ALPHA Epsilon has also scheduled winter festivities for this weekend. The annual SAE Snowflake Dance is set for Saturday night at the National Guard Armory.

Kappa Alpha Theta, Sigma Kappa, and Delta Gamma will present pledges at formal dances this weekend.

7 & 8 Dining Hall Causes Changes

COMPLETION of the dining hall in Men's 7 and 8 will have a two-fold effect. First, it necessitated the closing of West Hall (and its dining hall) to all but athletes, and second, it paved the way to go ahead with plans of remodeling Doak Hall to some extent.

Previously, West Hall had a small number of residents (132) other than athletes, but the extra number of students from Men's 7 eating there made it possible to keep the dining hall open.

Beginning with the Spring semester the dining hall for the two new men's dorms will be open, thus reducing the number of people eating in West to the actual number of residents. This number is too small to justify keeping a dining hall open, and it is more feasible to eat in the dorm where one lives, so the residents of West will be moving out.

The men leaving West made their reservations for the Spring semester Friday, and they will have to vacate by noon, Jan. 25. After talking to those who have lived and visited in West, we draw the conclusion that this move should be a welcome change.

There were a number of students from Men's 7 and 8 who were eating in Doak Hall, also. Starting this spring the dining hall in this dorm will be empty because the students will be eating where they live.

When Weeks Hall was built, the idea from the start was to vacate the dining hall in Doak, and have the girls living there eat in Weeks. Because of the non-completion status of the new men's dorms, the dining hall was kept open for the boys.

Now, the planned changes in Doak can be made if the officials in charge are given the green light. These plans are to convert the dining hall of Doak into a lounge, and then make the second story lounge into more rooms for residents.

To us these new changes are sound planning with the student and the use of college funds foremost in mind. With cooperation from all sides in the carrying out of these changes, a better Texas Tech will result.

two party Half Time mccarty

From what we hear, the half-time show at the Tech-Missouri game is going to be quite colorful. Some of the items making up the show will include ten pretty girls, cowboy reindeer and the Tech student body (if they stick around).

The game itself should be a dilly since Missouri is rated right along with Tech. Taking the whole weekend into focus, we see it as a time for basketball at its best.

Friday night, the 19th, Tech will take on LSU, a team that is coming up in the basketball ranks. I imagine the Raiders will need to take a long snooze before tackling the Missouri team. Have no fear—we'll take 'em both.

Right now we've got two tough battles against Iowa and Nebraska. This Saturday we'll break Iowa's record for not being beaten on their home court by a non-conference opponent in many a moon. We'll beat Nebraska just for the heck of it.

Honors for the day go to six Tech teachers who boosted Tech into the top ranks in leading U.S. college and universities in modern language research. They, together, have contributed 15 articles to "Publications," the Modern Language Association's journal.

These teachers include Dr. A. L. Strout and Dr. Emice Gates, four articles; Dr. C. B. Qualia, three; Dr. W. B. Gates, two and Dr. W. E. Dowling and Dr. T. E. Hamilton, one each.

Did anyone ever stop to think what the area immediately east of the new men's dorms would look like once it was completed?

It should really be beautiful, and knowing Mr. Urbanovsky, who is a specialist at making things a sight for sand-blown eyes, we'll say it will really be an area of beauty.

From the way it looks out of the editor's window, there will be much green grass with much sidewalks cutting through it to the various buildings.

Techsans Talk Back

Gloomy Gus/alias two party mccarty,

Read with infantile interest your "filler" of Dec. 11. Your "scathing denunciation" of the "kid-like attitude" of a bunch of "junior birdmen" is another straw in the series of back-breaking trivialities for which your paper is becoming infamous.

Actually, Gus, this sort of thing has happened in Madison Square Garden, and no doubt in numerous other equally semi-important places. Obviously, there exist a strange breed who consider such things a harmless, flighty, deviation from the tedium.

Children; "all" children? Consult Mr. W.'s famous book—and note: amusement is not a synonym for immaturity.

Joe Nicholson

Note from Gus:

Obviously there does exist a strange breed who considers such things a harmless, flighty, deviation from the tedium. When we were in the first grade we got our hands spanked for such reliefs from tedium, and now that we are in college we can fly the little airplanes without fear of getting our hands spanked, and then justify our actions by saying they do it in Madison Square Garden. I'm sure there are junior birdmen there who also have a kid-like attitude.

Collegiate Press

French Girl Gives Views About U.S.

(ACP) Catherine Recamier of Paris, studying this year at Salem College, Winston-Salem, N.C., wrote for the "Salemite" these views of America:

FIRST YOU are wealthy. You have dollars and a powerful army, navy, and air force. You think that you have the role (almost God-given) of making everybody happy and defending the poor and oppressed.

With a "big brother" attitude, you are looking in every direction—Far East, Middle East, Greenland, South Pole, everywhere. Your aim is good, but look at your deeds.

AS SOON AS there is a crisis you rush in to help apparently without careful consideration of what is involved, and after some debate and thought, you withdraw.

The Suez crisis is a good illustration of this. You rushed in, pledged your support and rushed out again leaving a very puzzled France and England to drift for themselves with Nasser. This incident may be interpreted by others as a sign of weakness.

AT OTHER times you failed to act when people sought your support. The people of Hungary looked to you for help when they revolted, and you did not support them in their struggle for freedom.

Sometimes you go too far in your actions. This is true in the instance of your asking the United Nations to consider the Algerian question. This is a French domestic affair, and you have no right to interfere.

YOU HAVE so many military bases in other countries that the people there get enough of America and begin to feel that they are being invaded by foreign troops.

I realize that foreign policy is very difficult because it is to think and after to decide which is the right thing to do at the right time. Everything is a question of shades on degrees...

YOU HAVE a very wonderful thing here in America and that is your belief and faith in your country. You believe so strongly in something and you should preserve this.

Out of the Past

EDITORIAL, 1935—The townspeople of Lubbock have been very generous in giving rides to college students, and the student body of Tech is very appreciative of this kindness.

As in every college town, hitchhiking is a very common practice. This fad is encouraged here at Tech by the facts that the average male student has but little money and the distance of the business section from the college is over one mile.

Hitch-hikers, not realizing the dangers created, stand in the streets at an unreasonable distance.

This problem could be taken care of by the passage of a traffic ordinance which would provide for reserved spaces for hitch-hikers. These reserved spaces could be designated by marking off lanes from the curb, say six feet wide and half a block long.

For student going to town, lanes could be reserved on the south side of Broadway at the

corners of College Avenue and Avenue X, extending eastward toward town.

For students desiring rides from town to the college, a space could be reserved on the north side of Broadway, extending toward Tech at the corners of Avenue L or Avenue M and at Avenue Q.

Cars should be prohibited from parking in the reserved spaces. The lanes would then provide ample space for the hitch-hikers without their getting in the way of passing automobiles.

TOREADOR, 1932—The annual Girls' Recognition Day of Tech was held on the south lawn of the campus last Monday evening. The purpose of the ceremony was to pay public tribute to all outstanding girls.

A bale of cotton with special lighting effects will be the throne of the cotton king and queen at the Cotton Carnival this spring.

Don Maddox and Voncille Gilkerson will reign.

 11 - 1:30—Classes meeting 1 TTS
 2 - 4:30—All sections of freshmen classes in Biol. 133 and 134.
- Saturday, January 24**
 8 - 10:30—Classes meeting 10 TTS
 11 - 1:30—Classes meeting 2 MWF
 2 - 4:30—Classes meeting 4 MWF, 4 TTS, 12 noon, 5 MWF, 5 TTS.

Classes scheduled for more than one hour will take the first hour of the period on the schedule, and two-semester hour courses will take precedence over one-hour semester hour courses.

In case of conflict of orientation with regular exams, the orientation exam should be given the last day the class meets.

Requested changes in the schedule for individual students will be considered by the Dean of the School in which the student is registered.

EXAM SCHEDULE FOR EVENING COURSES

- Monday, January 19**
 6:30 - 9 p.m.—Classes meeting 6:30-8 p.m. MW and Monday
- Tuesday, January 20**
 6:30 - 9 p.m.—Classes meeting 6:30-8 p.m. TT and Tuesday.
- Wednesday, January 21**
 6:30 - 9 p.m.—Classes meeting 8-9:30 p.m. MW and Wednesday.
- Thursday, January 22**
 6:30 - 9 p.m.—Classes meeting 8-9:30 p.m. TT and Thursday.

UN Condemns Soviet

UNITED NATIONS, N. Y. (AP)—The U.N. General Assembly condemned the Soviet Union and Hungary anew Friday for repressing the people of Hungary. The two Communist nations said they would ignore the action—just as they have done in the past.

BY A VOTE of 54-10 with 15 abstentions the Assembly adopted a resolution sponsored by the United States and 36 other nations that also denounced the executions last June of former Premier Imre Nagy, Gen. Pal Maleter "and other Hungarian patriots."

Yugoslavia joined the nine regular Soviet-bloc nations in opposing

the resolution. The abstainers—the nations that refused to commit themselves—were India, Indonesia, Afghanistan, Ceylon, Ethiopia, Ghana, Libya, Morocco, United Arab Republic, Sudan, Saudi Arabia, Iraq, Lebanon, Finland, and Greece. Israel and Yemen were absent.

HEATED debate preceded the vote in the 81-nation Assembly as it drove toward adjournment. The only other major controversial issue still under debate was Algeria.

U.S. Ambassador Henry Cabot Lodge told a reporter the Assembly vote on Hungary was very impressive.

Serum Progress Told

HOUSTON (AP)—Progress on development of a serum to protect against a killer bacteria was reported Friday by a North Texas State College scientist.

Dr. R. K. Guthrie reported encouraging discoveries from experiments with guinea pigs and mice while seeking a serum against staphylococcus aureus, an old infectious bacteria that has killed 24 infants at the city-county hospital here in the past year.

"WE'VE DEFINITELY found something but we don't know what it is," Guthrie told the 62nd annual meeting of the Texas Academy of Science. "But staphylococcus is like cancer, whatever

advances are made are helpful." Guthrie's research is sponsored by the National Institute of Health under a \$25,000, three-year grant.

DR. ROBERT C. Sherman, head of the biology department at North Texas, was elected Friday to succeed Paul C. Witt of Abilene Christian College as president of the academy.

Gordon Teal of Texas Instruments Inc. in Dallas was named executive vice president.

LORRIN G. Kennamer of the University of Texas was re-elected secretary-treasurer.

New vice presidents include James R. Couch, Texas A&M,

physical sciences; James R. Schofield, Baylor University School of Medicine, Houston, biological sciences; Z. T. Huff, Howard Payne College, Brownwood, social sciences; Everett Dawson, State Fish, Game and Oyster Commission, Austin, conservation, and John C. Dunlap, Dallas, earth sciences.

Films Shown

Tech Art Department is presenting the Classic Cinema League, a series of films which are outstanding in the ways of Best Foreign Film, Best Costume Design as well as being the receiver of the Cannes Film Festival Grand Prize in 1955.

The first movie in this series "Gates of Hell" with a cartoon short subject "Destination Mago" was presented Friday night in the Aggie Engineering Auditorium. "Gates of Hell" received the New York Film Critics award as Best Foreign Film of the year.

There are ten films in this series and cost for the entire series is \$5.50 with single admission 75 cents. These may be obtained East Engineering Building.

Snow Warning Issued

(AP)—Weather observers issued a heavy snow warning late Friday for the Texas Panhandle and South Plains.

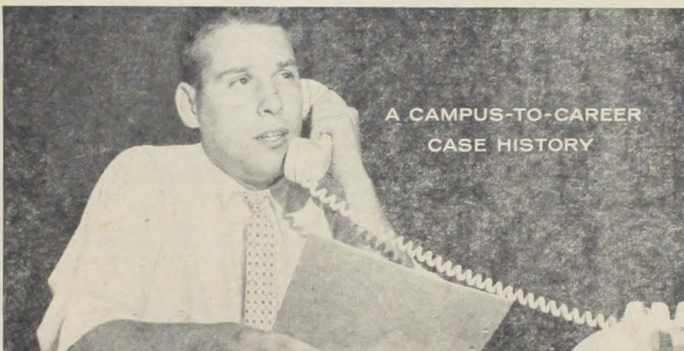

Light snow already was spilling

into the northeast corner of the Panhandle from New Mexico and Oklahoma, and forecasters expect 4 to 6 inches to pile up

during the night in the Panhandle Plains.

Snow there provided the frosting for the state's sharply contrasting layer cake of pre-holiday weather.

Skies were mostly cloudy from the Panhandle across North Central and Northeast Texas. It was fair in other sections.

A CAMPUS-TO-CAREER CASE HISTORY

He's been on his way up from the day he started work

James C. Bishop got his B.S. in Electrical Engineering from the University of Illinois on June 23, 1953. On July 1, he went to work as a lineman in the Illinois Bell Telephone Company management training program. On July 2, he was "shinnying" up telephone poles.

And he's been "climbing" ever since. A planned rotational training program, interrupted by a stint in the Army, took Jim through virtually every phase of plant operations.

He was promoted to Station Installation Foreman in July, 1957. Then came more training at company expense—in human relations and other supervisory subjects—at Knox College.

Since early 1958, Jim has been Central Office Foreman in the Kedzie District of Chicago, which embraces about 51,000 telephone stations. He has 19 men reporting to him.

"I was hired as a candidate for management," he says. "I know I'll get the training and opportunity to keep moving ahead. How far I go is up to me. I can't ask for more than that."

Find out about career opportunities for you in the Bell Telephone Companies. Talk with the Bell interviewer when he visits your campus. And, meanwhile, read the Bell Telephone booklet on file in your Placement Office.

Jim Bishop holds training sessions regularly with his men. At left, he discusses cable routes in connection with the "outover" of his office to dial service. At right, he and a frameman check a block connection on the main frame.

Outlook

By BILL DEAN

The top bowl game come Jan. 1 is going to be in the Cotton Bowl where the Air Force squares off against TCU.

The other games will feature some stronger and much more exciting teams, but I doubt if any will be as even a match.

The Christians have a real powerful crew with some steady performers — nothing spectacular. They work well together and there appears to be no individual star.

The Falcons are the dream team of college football this year rising out of nowhere to an undefeated season, being tied once by mighty Iowa. They are apparently a hand of opportunists that seize every situation that crops up and take full advantage of it.

These two should put on quite a show for the Cotton Bowl throng.

★ ★ ★

Great football, great stars, great coaches — have produced memorable sports history in the Cotton Bowl. According to figures released by the Cotton Bowl Association in 22 games, the average statistics for the home team vs. visiting team is very close.

Some of the figures include:

	Home	Visitors
First Downs:	12.9	13.0
Total Offense:	272.5	259.5
Passing: 16.0/7.3/1.1	16.5/5.7/1.5	
Punting		
Average:	36.5	37.4
Score:	15.4	14.5

Some of the more "well-known" passers who have written history in the annual event include Sammy Baugh, Bobby Layne, Norm Van Brocklin, Babe Parilli, Tobin Rote, Bart Starr and Y. A. Tittle.

Great coaches have also had a part of this event. Bill Alexander, Bernie Moore, Carl Snavelly, Frank Thomas, Dutch Meyer, Jess Neely, Frank Leahy, D. X. Bible, Bob Neyland, Matty Bell, Bobby Dodd and Eddie Erdelatz have all tutored Cotton Bowl elevens.

The Cotton Bowl is truly one

of the landmarks of the great Southwest.

★ ★ ★

Next Saturday a rare event is in store for Texas Tech. This is, of course, the national telecast of the Raider-Missouri basketball game.

Now, you have probably read and heard from everyone everywhere this week how important it is to stay here for the game if you possibly can.

Well, it is important! And you should stay if you possibly can! And what's more, if you don't stay and are able to, please just don't come back. And that is all I have to say. And so there!

Texas Tech will open its participation in the annual Southwest Conference Basketball Tournament against Texas A&M in the second game of the night, Dec. 26, in the Rice Gym.

Other opening games pit TCU against Baylor, and SMU vs. Arkansas in the afternoon, and Rice vs. Texas in the first night game.

MURAL ROUNDUP

Dorm Play Begins

by JOHN LEWIS

The Dormitory League got into the intramural basketball action Wednesday night.

Dorm 8 gave Dorm 7 a sound whipping with a 37-19 score. Speed Hall showed a lot of power in overcoming Bledsoe Hall by the score of 60-25 while Gordon Hall was squeezing out a 33-28 victory over Dorm 6. Dorm 5 beat the athletic West Hall 49-31.

FRATERNITY League action was hard for this writer to find out as some of the teams didn't report to me and some of them went to the Four Freshmen concert and postponed their games.

The Phi Deltis and the Pikes postponed their game for the concert and will play at a later date. That game would have been interesting.

SIGMA NU, which lost to the Fiji's in their first game, came back to win their second over Sigma Chi by the slight margin

of two points, 39-37. This was Sigma Chi's second loss.

Phi Psi came through to win its game with the Deltis by the score of 56-52 in the first game for both teams.

THE POWERFUL SAE team, which the Phi Deltis managed to beat by the skin of their teeth upended the Kappa Sigs by a score of 58-42.

The SAE's will be hard to beat by any team. The Phi Deltis

managed it but it was not a really deciding victory.

SAE, PHI DELTIS, and Fiji's seem to be the real powers in the league, although there are a lot of darkhorses. The Pike team is the leading darkhorse, if the scores thus far prove anything.

The Independent League played Thursday night. Rodeo Association bowed to the Tuxedos 39-24, while the Sports Club won by forfeit over the Kagers. The Athletes defeated the Kavilers, 39-19.

Football Games Slated

FIVE GAMES today—featuring the clash of Wichita Falls and Highland Park — will bring the Texas schoolboy football race to its final.

Defending champion Highland Park of Class AAAAA will face Wichita Falls at Dallas.

IN THE other AAAAA semi-final

Pasadena and Corpus Christi Miller clash at Houston.

WHITE DEER and Mason play at Snyder Saturday in Class A.

Class AAA's semi-final games are both Saturday with Breckenridge and McKinney playing at Fort Worth.

Meet Here Next Week

The Southwest Conference Relays will be held in the Men's Gym on December 19, at 2 p.m.

THE MEET will consist of ten relays and will be in this order: 200 freestyle, 200 fly and breast, 200 back, 200 medley, 1000 yd. distance medley, diving, 400 yd. free, 400 yd. fly and breast, 400 yd. back, and the 400 yd. medley.

First place will be worth 14 points, second will get 10 points, third receives 8 points, fourth gets 6 points, fifth earns 4 points, and sixth place will receive 2 points.

THERE WILL be several SWC records on the line and each team will be after its share.

The first place relay team will receive gold medals, and the second place relay team will receive bronze medals.

DR. P. W. Kirellis, Tech swim-

ming coach, is in charge of arrangements.

Raiders Test Iowa This Afternoon

Texas Tech's Red Raiders attempt to break a jinx that has held since 1942 this afternoon when they meet the Iowa Hawkeyes in Iowa City at 3:15 p.m.

IOWA CURRENTLY has a streak of 80 successive victories against non-conference foes on their home court that dates back to 1942.

The Hawkeyes have started rather slowly this year, dropping decisions to SMU and Oklahoma on the road following a 67-46 victory over Colorado in their home opener.

IOWA IS operating for the first time under Milton "Sharm" Scheuerman, a former Hawkeye star and one of the youngest head coaches in the nation. He is 24. Coach Polk Robison has taken an 11 man squad with him, including trainer Gib Weaver and Manager Preston Davis.

IN THIS afternoon's game which is the first in the two-game road trip for the Raiders, he will

probably start Gerald Myers and Charley Lynch at guards, Podd Hill and Gene Arrington at forwards and Pat Noakes at center.

Also available for action will be Wade Wolf, Dale McKeehan, Chuck Key, Harold Hudgens, Sid Seligmann, and James Wiley.

Coach Scheuerman will probably go with Mike Heitman, Earl Nau or Bob Washington at guards, Dave Garner and Clarence

Wordlaw at forwards and Frank Mundt at center.

Garner and Wordlaw were the two top Hawkeye scorers last year. There are nine lettermen returning on a team that finished sixth in Big Ten competition. Their conference record was 7-7; their season record, 13-9.

MONDAY night the Raiders will conclude their road trip with a game at Nebraska.

Eastern Champions Decided Tomorrow

(T) — Something's gotta give in Yankee Stadium Sunday when the Cleveland Browns, the best road club in the National Football League, take on the New York Giants, one of the top clutch teams, in the highlight of the final program of regular season.

A VICTORY for the Browns will send them into the title game against Baltimore, the Western Conference champ, Dec. 28.

A triumph for New York will necessitate a playoff with Cleveland next Sunday in New York. Cleveland leads the Eastern Conference with a 9-2 mark while the Giants are 8-3.

BOTH OF the Browns' setbacks came on home grounds—17-21 to the Giants and 10-30 to the Detroit Lions. Cleveland has won five games without a setback on enemy gridirons.

The Giants lost when least expected, first to the Philadelphia Eagles, then to the Chicago Cards and Pittsburg.

BUT TO REMAIN in contention, Jim Lee Howell's men turned

back the Browns in their first meeting Nov. 2, beat Baltimore Nov. 9, and won another "must" game against Detroit last Sunday with a final period rally.

Pittsburg and the Cardinals kick off the last weekend of the campaign Saturday in a nationally televised CBS, 1:30 p.m., EST game.

IN SUNDAY'S other games, Baltimore is at San Francisco, Detroit at the Chicago Bears, Green Bay at Los Angeles and Philadelphia at Washington.

Except for the Giants-Browns tussle, which is expected to attract a crowd of more than 70,000, the most important ones are in Chicago and Los Angeles. The Bears and Rams are tied for second place in the Western Conference at 7-4.

THE RAMS will be seeking their fifth victory in a row over Green Bay, whom they defeated 20-7 in their first meeting this year. The Bears beat Detroit 20-7 earlier this season.
