

DAD WITH THE MOSTEST — Joe Aguilar, Sr., receives congratulations from Ann Denny for being the father with the most children attending Tech, while Richard Riojas looks on. Aguilar has five children attending Tech.

Baylor Bears Fiddle While Dads Burn

by H. T. BARNES

The Baylor Band played some sweet music Saturday but Baylor's football team played a very sour tune to Texas Techsians' ears. **EVEN THOUGH** Tech lost on the football field, they didn't lose as far as Dad's Day was concerned. Visiting dads were here by the scores, and they made themselves known at the game too.

Dads who had sons playing on the team had special seats next to the players' bench and wore their son's number on the front of their shirt. But the dads very infrequently took advantage of the seats as they were giving their sons advice and encouragement during the game.

ENTERTAINMENT was planned to recognize the visiting dads. Pre-game ceremonies honored Mr. H. S. Cottingham, dad who traveled the longest distance (Salem, Ill.); Mr. J. S. Watson, oldest dad at 74 (Lubbock); and Mr. Joe Aguilar, who had the most children in Tech. He has five: Charles, Joe, Jr., Louis, Maria and Anita.

One of the game's highlights, as always, was the entrance of the

Willson Talks Begin Monday

The Willson Lectures, sponsored by the Student Religious Council will begin Monday, Oct. 27; Dr. K. Morgan Edwards, First Methodist Church, Pasadena, California; will deliver the lectures.

TOPICS OF discussion are the "Horizontal Push," the "Vertical Reach," "Depth Reception" and "Breadth Expression." A program of informal discussions and buzz sessions will be built around the lectures and the speaker.

The Willson Lectures will be conducted at 9 a. m. Monday and Tuesday and at 10 a. m. Wednesday and Thursday in the Union ballroom. Classes will not be dismissed.

Red Raider on Tech Beauty. Baylor's bear cubs, Ruff and Tuff, also made their entrance delighting the fans.

HALF-TIME entertainment was provided by the Tech and Baylor bands. Baylor used their unique "diamond formation." Tech students sitting in section P participated by performing card stunts. First stunt was a giant green BU on a white background. Next came a big blue "HI" followed by "DADS." Last stunt was a giant red double T on a white background which was flashed during the playing of the Matador Song.

Highlight of earlier activities

Tech Tax Conference Begins Second Day

Today marks the second day of Texas Tech's sixth annual Tax Conference, with approximately 150 lawyers and accountants from over the state attending.

SPONSORED by the Tech Accounting Department and eight other accounting and bar associa-

tions, the conference will conclude Wednesday.

Meeting in the Aggie Auditorium, the group has representatives from as far away as Houston, Dallas, San Antonio and many other Texas towns.

Ray Lawrence, president of the

Texas Tech Tax Conference, presided over the opening session yesterday morning. Dr. Reginald Rushing, head of the Tech accounting department, welcomed the group to the Tech campus and the conference.

WILLIAM P. Fonville, a Dallas attorney spoke to the group on "Related Taxpayers." A noon luncheon with Dr. Williams H. Gordon, Lubbock heart specialist, as the principal speaker followed. Other speakers on yesterday's program were Neal Sheffield of San Antonio and Charles J. Anthony of Dallas speaking on "Real Estate." A barbecue supper at the Faculty Club ended the first day of the conference.

Today's agenda includes speakers Frank B. Appleman of Fort Worth and Richard G. Taft of Oklahoma City on "Oil and Gas Taxation." Speaking at the noon luncheon will be Dr. Robert L. Rouse, head of Tech's Economics department.

CLARK W. Breeding of Dallas will speak on "Financing the Transaction." Leland E. Fiske will speak on the "Operation of the Properties."

Highlighting the conference will be a banquet tonight in the Student Union Building. Delbert Downing, executive vice president of the Midland Chamber of Commerce, will be the featured speaker.

Wednesday's activities include Sam G. Winstead, a Dallas attorney and Truxton Shaw, associate professor of accounting at Southern Methodist University, both speaking on "Corporations." The afternoon session features "Estate Planning" by John G. Heard, Houston attorney, and Godfrey W. Welsh, Dallas.

OFFICERS of the conference in addition to Lawrence, are D. L. Brooks of Amarillo and Neil Hilliard of Big Spring, vice presidents; and Haskell G. Taylor of Lubbock, secretary-treasurer.

Fourteen Compete For Cotton Maid

A new South Plains Maid of Cotton will be selected tonight at 7:30 in the Lubbock Municipal Auditorium from a field of fourteen area lovelies.

For the winner, a trip to the National Maid of Cotton finals at Memphis, Tenn., and a wardrobe valued at more than \$1,000 will be the award.

Of the 14 contestants, eight are students at Texas Tech. They are Yvonne Skinner, Rowan Shepard, Ginger Bearden, Carolyn Symes, Annett Rose, Paula Wilkerson, Marilyn Warren and Gail Cooper.

OTHER ENTRANTS are Jean Galloway, Kress; Patricia Key, Morton; Jane Railsback, Levelland; Linda Hill, Levelland; Martha Williams, Littlefield and Sally Rutledge, Meadow.

On tap earlier, Tuesday is a luncheon at Lubbock Country Club. The scene will then shift to the Municipal Auditorium where a contest rehearsal is slated at 1:30 p. m.

THEN, at 7:30 p. m., the final stage of the contest will unravel. Waggoner Carr, speaker of the Texas House of Representatives, will be master of ceremonies. Nan Kelly of Lubbock, last year's South Plains Maid of Cotton, will be official contest hostess.

Highlight of earlier activities

was the annual Maid of Cotton Ball at the Lubbock Country Club Monday night. Earlier Monday, a special meeting sponsored by the Southwest Lubbock Rotary Club was held at the Hillcrest Country Club for judges, contestants and special guests.

The winner will be expected to travel, meet new people and make friends in a tour which will include the majority of the United States and several foreign countries that count cotton as one of their chief commodities.

VAMOS! Reception Set

Parlez vous Francais? and habla vd. espanol? These are some of the expressions that might be heard at the reception for foreign students Tuesday from 7:30 to 9:30 p. m. in the faculty lounge.

This event is sponsored by the World Travelers committee of the Tech Union and everyone is invited. Literature from all the countries represented will be available plus the opportunity to talk to the students.

Homecoming Nears

'Pigskin Review' Chosen as Theme Arkansas Provides Opposition

"Pigskin Review," instead of "A Welcome to Arkansas," will be the theme of the 1958 Homecoming Parade, Homecoming Chairman Pat Booth announced after a meeting Thursday afternoon.

THE GROUP of some 30 organizational representatives felt that the change in theme was warranted because the vast majority of parade viewers will be Lubbock citizens and Tech alumni.

The floats will be judged on over-all effectiveness, originality, craftsmanship, and theme idea, with a possible 25 points allowed in each phase.

ALPHA PHI OMEGA, Tech service fraternity, is in charge of homecoming proceedings. Pete Baker is sub-chairman of the event.

Chairman of various committees include Barry Grove, in charge of

registration of exes; Ted Fergason, head of the proceedings for the pep rally, bonfire, and coronation of the Homecoming Queen; and Ronnie Morris, parade chairman.

ALSO KEN BALLEW, chairman of the luncheon committee; Tommy Sanders, in charge of the half-time show; Tafford Blessing;

Frosh Petitions Ready Thursday

Persons wishing to run for freshman cheerleader positions may pick up petitions which must be turned in Oct. 28, at the Student Council Office Thursday morning.

Cheerleader elections have been set for 2 p. m. Nov. 2 in the Rec Hall. There will be a meeting of candidates Oct. 31 at 5 p. m. in Ad 260.

lighting committee; Mike Edwards, signs; and Tony Gustwick, chairman of the Freshman School Spirit Convocation committee.

L. C. Walker, executive secretary of the Ex-Students Association, said that approximately 100,000 people saw the parade last year. The rules and regulations, including expense limit of \$250, for the 1958 floats have been announced.

WALKER SAID that it will not be necessary for the organizations entering floats to turn in an expense account. He continued that this is the first year for the committee to set a limit and that they are "putting the organizations on their honor."

The parade will be held November 22, preceding the football game with the University of Arkansas.

Deadline Set For Entries

Oct. 31 has been set as the deadline for applications for the Woodrow Wilson National Fellowshipship.

ANY outstanding junior, senior or graduate may apply through any full time faculty member, according to Kenneth Kinnaman, Tech Representative for the foundation.

Recipients of the fellowship will receive \$1500 living allowance for single students and increments for dependents plus all tuition and fee costs.

APPLICANTS will receive an application form and letters of reference, then students will be interviewed in Austin.

Those eligible are any graduate student who has not attended a graduate school, junior and senior students with an outstanding record who plan to teach any natural or social sciences or any of the humanities in college.

WINNER OF the award may choose their graduate school as long as it is an Arts and Science college.

The Ford foundation recognizing the critical need for college instructors recently gave the foundation \$25,000,000.

★ Campus ★

Student Invitations Extended

Sigma Tau Delta, national honorary English fraternity, is considering applicants for membership.

Applicants must be English majors or minors of junior or senior standing with an over-all grade point average of 2.2. Interested persons should see Dr. John Guilds, sponsor.

Applications are being received now in the BSO Office for the BSO Retreat Committee. Approximately ten will be chosen. The positions open are publicity, recreation, topic research, secretary and treasurer.

Applicants should have experience in workshops, retreats or general organizational work.

Tennis entries for the women's singles tournament will be accepted through next Monday. Play will begin Wednesday.

Another First From Hub

Now one day service on sport or dress shirts. Hub Laundry offers the fastest service in Lubbock. Bring in your shirts in the morning, Hub Laundry will have them ready that afternoon.

'Twirp' Week Celebrated

"Turn about is fair play" say the members of the Rodeo Association as they prepare for Twirp Week, November 3-8. The girls will have an opportunity to step into the boys' shoes and do the honors, inviting them to movies, cote dates, dances and other socials. It's open season for the girls, and all who participate must have "licenses" provided by the Association.

Sponsored by the R.A. for its members, Twirp Week will feature many opportunities for the girls to ask the boys out. Climaxing the week will be a Twirp Dance, November 8, with music provided by "home talent." Trophies will be presented then to the boy and girl who have the highest number of points for attending the various school activities.

"The purpose of Twirp Week," said Nancy Jones, social chairman, "is to establish greater unity among the members in preparation for the annual rodeo in the spring."

Sock & Buskin Takes Pledges

Masked students around the campus have been discovered as pledges of Sock and Buskin, the Tech speech club.

New pledges are required to wear these masks for two weeks prior to the initiation. Pledges include Vera Simpson, Richard Hopson, Gerb Harding, Karla Alexander, Don Taylor, Pam Goffort, Margaret Farrow, Lola Lipper and Rose Ann Cantrell.

UMBRELLA FOUND

FOUND: One brown umbrella with yellow strips in the student section after the Tech-CU football game in Ft. Worth last week. The owner should call PO 5-8672.

Forensic Festival Kicks Off Friday

The 25th Annual Tech Forensic Festival will get under way Friday morning with 17 colleges from four states represented.

CONTESTS will be held in debate, poetry reading, extemporaneous speaking, after dinner speaking, with approximately 130 students entered in the events, announced James E. Brennan, speech instructor.

Fifty-two debate teams, five of them from Tech, will be entered in the meet. The teams will come from Kansas, New Mexico, Oklahoma, and Texas.

COLLEGES represented will be Hutchinson College, Hutchinson, Kan.; Garden City College, Garden City, Kan.; Southwestern State College, Weatherford, Okla.; Panhandle A&M, Goodwell, Okla.; Kansas State, Manhattan, Kan.; and University of New Mexico, Albuquerque, N. M.

Others are Lubbock Christian College, Abilene Christian College, Texas Christian University, Frank Phillip's College, Southwest Texas State Teacher's College, University of Houston, West Texas State College, Hardin-Simmons University, Wayland College, and Midwestern University.

Festival Is Success

The Fall Horticultural Festival got off to a great start as it opened its doors for the first time Saturday for this now annual Tech event.

Entrants came from as far off as Dallas with over six hundred entries in both the horticulture and arrangement displays from Lubbock and Tech. According to James Ross, senior horticulture major, the Festival "looked like the Midway at the Dallas Fair" as thousands critically eyed the flowers and arrangements.

Tech entries that placed in the show were Chris Easton, third in yellow button mums, James Ross, first and third in double and red double petunias, first in Shasta daisies, and second in dahlias. Mrs. Roy Scooter won first in begonias.

Donnie Johnson was the sweepstake winner in arrangements with a third place ribbon in "Woodland Fantasy" and seconds in "October Moon," "Mum's the Word" and "Witch's Brew." He also won firsts in "Harvest Festival," "Little Doggie," "Cat's Whisker" and "Westward, Ho!" Johnson is a senior horticulture major.

Tafford Blessing, Eugene Ray, Durey Menzies, and Bill Potter won ribbons in the arrangements with Silas Fourines, Keith Fortner, and James Ross also placing.

More Girls Are Needed

Girls are still needed in the Wednesday night dance instruction class. Enough boys have signed up, but they lack partners. Here's your chance, gals. Contact the Union Program Director or Jane Perry, instructor.

Another unlimited opportunity offered by Tech Union is the Record Lending Library. It is now in operation Monday through Friday, 10-12 a.m. and 1-3 p.m. A booth is set up in the lobby at these times to issue the 33 1/3 long play records.

Classical records, Broadway musicals, movie themes and a few popular records are offered for the small fee of 10 cents a record. Students are allowed to check out three records at a time.

Placement Grads In

Attention 1959 graduates! It won't be long before you go out into the cruel world to earn a living.

One of the features of the Placement Service is to help the graduate find a job that will make him as happy as possible while earning a living.

All graduating seniors should investigate placement possibilities. The Women's Air needs officers. Interviews are Oct. 28 and 29.

Ernst & Ernst, an account firm in Dallas, will interview applicants Oct. 27.

Shell Oil Co. will interview prospects Oct. 29. They are interested in business and mathematics. Women should have a natural science major with a minor or the equivalent.

Chemical and petroleum engineers will be questioned by Northern Natural Gas Co. Oct. 29.

Electrical and mechanical engineers note — Collins Radio is interested in people who design and build electronic equipment. The company is located in Dallas and representatives will be here Oct. 27 and 28.

Engineers aspiring to go to New York should be present Oct. 27 for the Creole Petroleum

Organization To Get Box

Club representatives of organizations who are interested in organizational mail boxes are asked to come by the Board of Student Organizations any day between 5 and 5 except on Tuesday and Friday.

Mail for various organizations in boxes can be picked up by coming by the office. Also, at the end of next week the office will have boxes for all campus organizations. Their officers will be available for their officers will be available.

This system approved by the Board of Student Organizations that is designed to coordinate organizations and their mail.

Placement Interviews Assist Grads In Meeting Cruel World

Attention 1959 graduates! It won't be long before you will go out into the cruel world and earn a living. One of the features of the Tech Placement Service is to try to help the graduate find a place that will make him as happy as possible while earning a living. All graduating senior women should investigate placement possibilities. The Women's Air Force needs officers. Interviews will be Oct. 28 and 29.

Ernst & Ernst, an accounting firm in Dallas, will interview applicants Oct. 27.

Shell Oil Co. will interview prospects Oct. 29. They are interested in business and math majors. Women should have a natural science major with a math minor or the equivalent.

Chemical and petroleum engineers will be questioned by the Northern Natural Gas Co. Oct. 28.

Electrical and mechanical engineers note — Collins Radio Co. is interested in people who can design and build electronic equipment. The company is located in Dallas and representatives will be here Oct. 27 and 28.

Engineers aspiring to go to New York should present Oct. 27, for the Creole Petroleum Corp.

will interview graduates at that time.

Gardner-Denver Co., a heavy equipment manufacturer, will talk to business and engineering majors Oct. 30 and 31. This company has divisional offices located throughout the U. S.

Interested in airplanes? Temco Aircraft Corp. officials will inter-

view engineering, math and physics majors Oct. 30 and 31. Temco is located in Dallas.

Allis-Chalmers Manufacturing Co. located in Amarillo will interview engineers Oct. 29.

Tech students who want to stay in Lubbock should be present Oct. 27 when the Schlumberger Well Surveying Corp. will conduct interviews.

Honors Taken By Team In Judging Contest

Texas Tech's livestock judging team took second place honors at the national judging contest in Kansas City, Kan., Saturday.

Winners were announced about noon Sunday.

Tech judges were topped only by Oklahoma State University; Oklahoma scored 4,602 points; Tech finished next with 4,562. Kansas State was third with 4,548 followed by Purdue with 4,541 points.

Texas A&M, the only other Tex-

as team entered in the contest ranked 20th out of the 23 teams participating in the American Royal Collegiate Judging Contest.

Tech's team ranked first in sheep; third in hogs; and seventh in cattle judging. Billy Weatherby, Miles; was third high individual in the contest and won third in swine.

Dudley Arnet, Lubbock; placed fifth high in sheep and Payton Scott, Merkel; won eighth in sheep.

SWIMMING ANYONE?

How about a swim Techan? Don't be chicken it's not too cold. All you need is an I.D. Card and you can swim in the heated pool in the new gym.

The pool is open to students from 7 to 9 p.m. Monday through Friday.

Basketball and trampolene facilities will be open for men students at the same hours.

Drama Group Pledges Five

Big brothers and plaques were presented to four Wesley Player pledges Sunday afternoon.

These pledges and their big brothers are: Linda Lee, Bill Maxwell; Frances O'Neill, Gwinn Lovel; Jane Patterson, Bob LeGrone; and Sandra Seeman, Jerry Matthews.

The Alpha Eta chapter of Wesley Players was formed at the University of Illinois in 1923. Today there are over 23 chapters over the United States. Wesley Players meet ever first and third Sunday of the month.

Five new pledges will be presented at the next meeting of Wesley Players.

Dee Jays Host Halloween Hop

A Halloween theme will prevail at tonight's Club D-J Record Hop in the snack area of the Tech Union from 7:00-8:30 p.m.

The dance is co-sponsored by the Tuesday night dance committee and the "Big Eight" of KDUB radio. A prize will be awarded for the most original costume.

Job facts from Du Pont

DU PONT PLANTS AND LABORATORIES IN 26 STATES OFFER VARIED JOB LOCATIONS TO TECHNICAL STUDENTS

BENEFIT PROGRAM MEANS ADDED INCOME

By E. H. Cox
DuPont personnel representative

Don't forget the "extras" of an employee benefit program when you compare the job offers and salaries of different companies. At DuPont, these extras mean added income that doesn't always meet the eye. They include life insurance, group hospitalization and surgical coverage, accident and health insurance, pension plan and paid vacation.

In addition, the Company sponsors a thrift plan. After two years of service, for every dollar you invest in U. S. Savings Bonds the Company sets aside 25 cents for the purchase of common stock in your name. Roughly, 60,000 of our employees are now participating in this plan.

If you have specific questions on DuPont benefits, just send them to me. I'll be happy to try to answer them. E. I. du Pont de Nemours & Co. (Inc.), Room 12421 Nemours Building, Wilmington 98, Delaware.

EXPANSION PROGRAM OPENS UP MANY NEW CAREER OPPORTUNITIES

The location of your first assignment with DuPont depends on your qualifications and on the openings in your field, but every effort is made to match the job and the location with your preference. The chances for a successful match are good.

Today there are men and women carving out careers with DuPont at more than 75 plants and nearly 100 laboratories spread throughout 26 states. Last year the Company spent \$220 million for new plants and for increased capacities at existing installations. This year new plants have already been put into operation in Virginia and Michigan. Six more are under construction. Others are planned for the near future.

Most DuPont units, it is true, are located east of the Mississippi. Company headquarters, for example, along with many labs and plants, are located in and around Wilmington, Delaware, which is a pleasant residential area within easy reach of Washington, Philadelphia and New York. But there are also plants and laboratories in California, Iowa, Kansas and Texas, and plants in Colorado, Missouri and Washington.

Wherever you're assigned, you'll be proud of the Du Pont Company both on and off the job. You'll find the people you work with friendly, stimulating, and active in the life of the community.

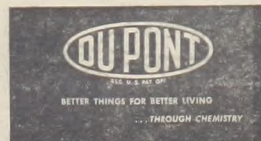

MECHANICAL ENGINEERING MOVIE AVAILABLE FOR A.S.M.E. MEETINGS

There's a great demand for mechanical engineers at DuPont. In fact, the ratio of mechanical to chemical engineers is just under 1:2. Whether your chosen field is research, development, plant engineering, production supervision or sales engineering, you'll find a good future at DuPont.

If you would like to learn in detail what mechanical engineers do in the chemical industry, arrange to see the Du Pont film, *Mechanical Engineering at Du Pont*. It is available at no cost for A.S.M.E. chapter meetings, fraternity house and dormitory showings. Write to Room 12421 Nemours Building, E. I. du Pont de Nemours & Co. (Inc.), Wilmington 98, Delaware.

SEND FOR INFORMATION BOOKLET

Informational booklets about Du Pont are yours for the asking. Subjects include: mechanical, civil, metallurgical, chemical, electrical and industrial engineers at Du Pont; technical sales, research and development. Just name the subject that interests you and send your name and school address to E. I. du Pont de Nemours & Co. (Inc.), Room 12421 Nemours Building, Wilmington 98, Delaware.

Organizations To Get Boxes

Club representatives or officers who are interested in organizational mail boxes are asked to come by the Board of Student Organizations any day between 9 and 5 except on Tuesday and Saturday.

Mail for various organizations is in boxes and can be picked up by coming by the office. Also at the end of next week the lists of all campus organizations and their officers will be available.

This system approved by the Board of Student Organizations that is designed to coordinate organizations and their mail.

Foreign Student Reception Slated

TONIGHT from 7:30 to 9:30 in the Faculty Lounge a reception, to which all Tech students and faculty members are invited, will be conducted for the mutual benefit of those mentioned above and for the students from foreign countries who attend Tech.

Actually, the affair is to honor the foreign and exchange students of Tech, but the ultimate result of such a reception is a better understanding between both parties.

The World Travelers committee of the Tech Union is to be commended for having the foresight to see the benefit of and to arrange such an event.

Most of the students do not give a second thought to the students from other countries, what they stand for, what they are doing here, what they think about the United States and many other related factors.

United States students see them going from class to class, in class and in the dormitories, but they never think that one of them might be able to give a new light on international affairs, our system of dating or the different types of schools found in different countries.

The majority of these students are from families who are relatively well-off, or have some type of scholarship furnished by a company or organization within their country.

They generally represent the top crop of students from their particular country, and are very well informed about current situations, including everything from politics to girls.

Having been associated with foreign students for the past three years, it was decided that they had a much broader view about the United States than we can see from the inside.

They can point out our bad policies, as well as our good. They can tell things that happen in their countries as a result of action made by the United States which you normally wouldn't believe.

Make it a point tonight to drop by the Faculty Lounge and meet some of the foreign students. You probably won't have much time to discuss matters, but you can make their acquaintance, and carry on from there.

Slow Down

mccarty

It looks as if we are coming into a week of diminishing activities, both academic and social. The hour tests are beginning to slack off, and the football team has an open date.

The freshmen, from all reports, have been having the hardest time with their studies. Everytime you talk to one, he says, "I just failed another one," and the "One" usually means a quiz or theme.

We upperclassmen aren't exempt from the drudgery of academic work, however, and it seems that graduation lies on the top of some clouds which are just below the mountain tops.

When you are on top, you can look down and see graduation as plain as day, and when you descend and start for another mountain, it is a hazy view until you get on top again.

This year's "Dad's Day" was quite a success from all indications, and it should serve as a building stone for the same occasion in years to come.

In the Tech Union Saturday morning, the lobby and the Ballroom were practically filled with parents who came to visit their grown-up kids and to see Tech.

At the game there were three dads who received special honors. These were the dad who had the most children at Tech (this was won by the gentleman who had five Techsians), the dad who was the oldest (this was won by the gentleman who was 74) and the dad who came the farthest distance (this was won by the gentleman who came about 2,000 miles from Illinois).

Also, the dads of the football players were seated on the sideline with the respective numbers of their sons. Noticeably, some of the fathers were bigger than their sons. It was a great Dad's Day, especially for those whose dads were able to make it.

The Raiders seemed to have hit a definite slump, a slump which they can't understand, as can't the students and fans of Tech.

"It's not that we don't have the material or don't want to play," one player said after the game, "but we just can't play ball the way we should."

It seems to be a national practice to criticize and belittle a team when it hits a losing streak. This, however, is not the right approach.

When a team is down, it needs personal and moral support. If you continually tell a person or team that it is sorry and no good, it will soon start believing it; on the other hand, if you give encouragement, it can only come up.

Something that stuck out like a sore thumb, especially when the game was being televised, was the fact that several Techsians started leaving the game minutes before it was over.

If a person can't stay and give support until the final gun sounds he certainly doesn't have the right attitude. It was rather ironic the way the most spectacular play didn't come off until many of the less faithful fans had left.

Fiction

Inactive Existence

by James Hamm

Derriere distastefully studied his surroundings, thinking these were the sorriest working conditions he had ever seen.

Glancing up, Derriere saw the handsome but lazy face of his employer, smiling as if at some secret joke he alone knew. The face seemed like the face of every employer he had ever had, a very displeasing face.

He finally reached the conclusion that the most outstanding feature of that face was the utter lack of expression—of life.

"You don't like your new job," the employer broke the silence without actually seeming to break the silence.

"No," Derriere answered. "There is no life, no action, around this dreary place."

"That should satisfy you," the employer said. "Your whole life has been spent in such dreary surroundings. Your unproductivity and unwillingness to work were indeed high recommendations for

this job. It's really not so bad, is it?"

"It's hell!" Derriere said. "If it's hell, it's your own creation," the employer said, with that same secret smile. "What's hell anyway? A condition of the mind formed out of inactivity, barren thoughts and a careless attitude."

"But I never thought I'd sink to this," Derriere said.

"You didn't think," came the reply.

And then it was as if Derriere were looking into a mirror. The voice speaking to him was his employer's, but the countenance smiling back at him was his own.

"You'll like this job better when you have seen the rest of the place," the employer said. "Actually, there is little work involved. You'll have plenty of nothing but time with nothing to do. I'll call my foreman, and he will show you around."

Turning away, the employer softly called—"Lucifer."

From Other Colleges

Central Missouri Offers New Program

Central Missouri State College, Warrensburg, Mo., offers an honors program designed to challenge its best students to do the most advanced work each student is capable of.

OF ABOUT 1000 entering freshmen, 30-35 qualify for the honors program. The program begins with this year's entering class.

Highlights of the program include:

- 1. EACH STUDENT accepted for the program will have an advisor from the honors committee.
- 2. Honors students may enroll in special sections set up by the college.
- 3. PREREQUISITES for courses may be waived.
- 4. Independent study for college credit may be arranged.
- 5. SUBSTITUTIONS for general education requirements may be arranged.
- 6. A student may move into advanced courses as soon as he is ready for them.

7. HEAVIER academic loads will be permitted.

8. Every honors student receives a tuition scholarship for each quarter of the freshman year.

PRINCETON University's Military Science Department revised its program for Army ROTC students so that all but three one-term courses may be given by the regular academic departments.

The new sequence of ROTC courses is designed to provide a solid grounding not only for immediate military affairs throughout life but for a clear and challenging prospect of how his training and service as an officer are related to the whole effort of the United States to maintain peace through strength.

"This, it is believed, is a proper function within a liberal university," said Dr. J. Douglas Brown, Princeton Faculty Dean.

Full Week of Programs Scheduled For Festival

A week-long series of outstanding events under the heading of the First Annual Texas Tech Fine Arts Festival will begin Nov. 2 and continue through Nov. 8.

The Tech departments of Music, Speech, English, Applied Arts, Foreign Languages and Women's Physical Education will merge for presentation of the program.

Among the events scheduled is a performance at the Lubbock

Municipal Auditorium Wednesday, Nov. 5 at 8 p.m. It will feature the Tech Orchestra, the Tech Choir and the Tech Singers in a combined concert, and three performances of the first Speech Department play of the new term, Anouilh's "Antigone," recently praised by Dallas Morning News critic.

Performances are Nov. 6, 7, and 8 at 8:15 p.m. in the Livestock Pavilion.

Two performances of the Modern Dance Group of the Women's Physical Education Department are set for the evenings of Monday and Tuesday in the Livestock Pavilion.

The program for the second day, Monday, will feature displays in the Tech Union. The displays will be retained in the Union until the festival ends.

Wednesday's program will feature the showing of a foreign film at the Tech Union in the afternoon and the giant Tech Music show in the auditorium at night.

Thursday will bring the opening of the Speech Department's "Antigone" at night, preceded by a jam session in the Tech Union that afternoon. The newly formed Tech Stage Band will present the music.

During the week, there will be an exhibition of the work of craft and design by applied arts students in the Home Economics Bldg.

Personnel for the First Annual Fine Arts Festival, and departments are Miss Mary Jeanne van Appledorn, Gene Kenney, Dr. Gene Hemmle and Charles A. Lawrie, music department; Nolen E. Barrick, department of art and architecture; Miss Jane Perry, Women's physical education department; Miss Violet Harvath, foreign language department; Dr. T. W. Camp, English department; Ronald E. Schulz, speech department; Arne W. Randall, applied arts department; Miss Betty Maloy, Miss Cora Jean McMurtry, and Jim Thompson, Program Council; Miss Larke Ann Harrington, program director; Tech Union; and Glenn Cope, Board of Student Organizations.

Boy Hatches Baby Duckling

OXFORD, England (AP) — James Showers, 12, had something up his sleeve. He kept it there for three weeks.

THE SECRET came out at a boys' boarding school dinner here, with the soft, crackling sound of an eggshell slowly breaking.

"Excuse me, sir," said James to a surprised headmaster, "I think my egg's hatching."

HE SLIPPED off his shirt and jacket and carefully removed a duck's egg taped under his armpit.

He watched with something like parental pride as a duckling pushed its way through the shell for a first look at the world.

HE TOLD THE story Wednesday, with its sad ending. The duckling, without a mother to feed it, died after five days.

James couldn't do everything.

Tech Hosts Workshop

Tuesday is the day for the fourth annual Regional Panhellenic Workshop to be held at Tech this year.

REPRESENTATIVES from eight colleges will attend this workshop: Texas Western, West Texas, New Mexico Highland, New Mexico University, New Mexico A&M, Arizona State at Tempe, and the University of Arizona.

The purpose of the meeting is for the discussion of common problems, for the exchange of ideas and information around the area, and for the interest of groups represented.

Sands Heads All Stars In Show Here Thursday

Tommy Sands, the "singing idol" of millions of teenagers, will head an all-star show, featuring also Sonny Curtis, Terry Noland and the Four Teens, Thursday at 8 p.m. in the Lubbock Municipal Auditorium.

SANDS, co-star with Gary Crosby and Pat Boone in the new movie, "Mardi Gras," hit the top with his song, "Teen Age Crush." He has a gold platter for a million sale of this hit, and a sell-out appearance at the Hollywood Bowl are to his credit.

Billed for the program also is Sonny Curtis, Dot recording star of "Willa Mae Jones." Sonny graduated from Slaton High.

TERRY NOLAND, the Brunswick recording boy from Lubbock, will be present. He has to his credit five singles and two albums released. Last Christmas he appeared on the stage of New York's Paramount Theater with The Alan Freed "Rock'n' Roll Show."

The Four Teens, will again appear in their home town. The four boys, all graduates of Tom S. Lubbock, are Larry Welborn, Jimmy Peters, Leon Ligon and Brownie Higgs.

TICKETS for the show are \$1.25 for advance, on sale at Wayne's Record Shops, or \$1.75 at the door. There are no reserved seats.

Pair Plans Discussion

Miss Billie Wolfe and Mrs. Lila Allred Kinchen will talk on their summer trip to Europe tonight at the Home Economic Club at 6:30 p.m. in the Aggie Auditorium.

MISS WOLFE, assistant professor of home management and Mrs. Kinchen, associate professor of clothing and textiles, will show slides and discuss the camping aspects of their trip.

By joining the International Camping club before leaving on their trip, Miss Wolfe and Mrs. Kinchen were able to stay in camps which have restaurants, grocery stores, laundry facilities, washrooms and places to cook.

SOME CAMPS were equipped with swimming pools.

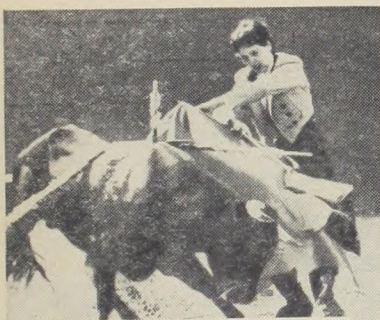

Using Miss Wolfe's Volkswagen camper and attaching it to Mrs. Kinchen's Volkswagen car, they were able to cut the cost of the trip considerably.

ACCORDING to Miss Wolfe, they will have the car and camper at the lecture tonight.

The meeting is open to the public and should last about an hour and a half.

Jones Gives Papers To Tech Collection

Dr. Clifford B. Jones, a key figure in the development of Tech and the school's third president, has given 10,584 personal papers to Tech's Southwest Collection.

INCLUDED in the papers are history books, magazines, newspapers, maps, photographs and clippings.

Among the papers are his correspondence as manager of the Spur Ranch which will add to the extensive papers on Southwest ranching history.

BUSINESS papers will provide

a good cross-section of economic developments, reported Dr. Seymour Conner, Southwest Collection director.

Jones was a member of the 1923 Board of Directors and became board chairman in 1925, serving until 1939 when he became Tech's third president.

"The gift by President Emeritus Clifford B. Jones of his personal papers is of outstanding significance and value to Texas Tech," said Dr. E. N. Jones, Tech president.

Biologists Meet Problems Of 'Bats in the Belfry'

by MYRNA MORRISON

Bothered by "bats in the belfry?"

That's one of the problems—literally—confronting Tech biologists Dr. William W. Milstead and Dr. Donald W. Tinkle.

THE TWO MEN, working on a government grant from the National Institute of Health, are studying the natural history and habits of Southwestern bats.

The study is directed by Dr. R. W. Strandmann, Tech professor of biology.

The Tech researchers have been successful in banding and studying bats found in several South Plains and Panhandle communities, particularly a colony of the small mammals making their home in the First Methodist Church "belfry" and school gym in McAdoo, about 60 miles east of Lubbock.

IT'S THE ONLY place I've ever seen bats in a belfry," quipped Tinkle.

The Tech study is part of a national program to find out anything and everything about bats. The government is interested in bat research because they are potential rabies carriers.

Although no bat rabies has been reported so far, research is a preventative measure which would pay off in the future should the need arise for controlling rabies-infected bats.

BECAUSE BATS tend to live near people and cluster in large colonies and because the evil-tempered mammals bite each other, rabies would spread rapidly in a colony and be quite dangerous, observed Milstead.

Milstead and Tinkle differ from other bat researchers in that they deal with small colonies of bats rather than with big groups in large caves where a million or more bats may live.

IN THIS WAY they can obtain more exact knowledge of the bats' habits in group life.

They have been successful in "banding" and identifying nearly one hundred per cent of the small colonies they have studied and this has aided them in recording flying habits, body temperature, number of young and group behavior of the tiny animals.

Previous research has been done during the summer months. Now the Tech scientists are faced with

the problem of finding out where these bats roost in winter.

THE TECH researchers have filed approximately 2,500 bat identification cards.

The have banded bats in caves near Quanah, Justiceburg, in Palo Duro Canyon near Tulla and in Blanco Canyon near Crosbyton.

The most recent and most important development in the Tech research program was the discovery of a large colony of Mexican Free-tailed bats in a cave near Childress.

THE COLONY, which numbers approximately 10,000, is the first colony of this specie that size to be found on the Plains. They do not usually migrate this far north.

This specie of bat is believed to be most closely associated with rabies due to the fact that they migrate from Mexico where they roost with vampire bats. The vampires, which attack humans and feed on human blood, are carriers of the disease.

Milstead and Tinkle stumbled onto the colony while searching area caves for hibernating bats.

"WE'VE HEARD reports of other caves in this region," Tinkle said, "but we haven't been able to pin down their location."

The scientists would appreciate any aid in locating caves and crevices where bats might hibernate.

The two researchers also stated that they would welcome student volunteers who wished to turn "bat-men" and aid in tracking down the bats' hiding places.

ONLY SCORE — Mickie Barron, Raider halfback, shakes lose from the last Baylor tackler before scoring Tech's only touchdown in Saturday's 24-7 loss to the Bears. The score came on a pass thrown by quarterback Ken Talkington late in the fourth quarter and covered 80 yards. It was the only bright spot in a dismal day for the Raiders before a Dad's Day crowd of 25,000 and a regional television network. It marked the first time in three television appearances that Tech had managed to score. (Photo by Arthur Burks).

Outlook

By BILL DEAN

I don't see how Texas Tech can consistently get in a hole and stay there. But we always manage to do a bang-up good job of it.

Larry Hickman's 71-yard quick kick early in the first quarter put Tech in a hole that led to the Bear's first touchdown and staggered the Raiders mentally.

After that, our offense never was able to mount a consistent drive while the defense, brilliant in spots, finally gave way to Hickman's battering and Buddy Humphrey's tosses.

It was a sad note to 25,000 Dad's Day fans and the thousands who watched on a regional television network.

It wasn't until late in the game that the Raiders provided any fireworks. Ken Talkington's 80-yard pass and run play to Mickie Barron was brilliant. But it was too late.

A week's rest might help the squad before their tussle with Tulane in New Orleans, Oct. 31. Tulane, by the way, won their first game of the season Saturday over Navy, 14-6. It looks like another tough assignment.

★ ★ ★

It's easy to criticize at this point and really hard to say anything good. I'm sure most of the boys feel just as bad about it as everyone else.

I'm not trying to excuse the play exhibited Saturday or last Saturday. But to me the players are hitting just as hard, hustling just as much and trying to win just as bad as they possibly can.

I don't pretend to be a football expert or a coach so I'm not real sure just what is lacking; something definitely is. However I think now, more than ever, the players need our support and we should give it to them.

It's a lot harder to support a team when it's down than when everything is going right. After all, there is nothing to be gained by giving up now. I don't think the players will, and I hope the student body won't. If we don't support "our" team even more than ever right now, it's a shame and disgrace and will bring nothing but discredit to Texas Tech from the rest of a conference we are trying so hard to impress.

★ ★ ★

Upsets rocked the college scene Saturday as such powers as Navy, Michigan, Wisconsin, Michigan State, SMU and Auburn bit the dust. Oklahoma and Notre Dame, two giants knocked off last week, got on the comeback trail with victories.

Some of the top teams did manage to stay that way. Army, Clemson, Ohio State, Mississippi, Colorado, Northwestern and Texas all came through with triumphs.

This year college football has come a long way towards exciting the imagination of the fans. Every week the top teams in the country, win or lose, are putting on good shows. This trend away from some duller contests of the past few years is a refreshing change.

Milstead Tops SWC

by THE ASSOCIATED PRESS
 His team isn't doing very well but Charley Milstead of the Texas Aggies is proving to be quite a football player — or at least he's gaining more yards than anybody else in the Southwest Conference.

singlewing, has taken over the lead in total offense and he gathered 539 yards to do it. In 123 plays Milstead has averaged 4.4 yards. He is second in passing with 382 yards on 32 completions in 54 throws and he's tenth in ball-carrying with 157 yards.

It Was A Great Day for The Game - No?

by BILL DEAN

Tech's Red Raiders were told to forget about football yesterday and were to resume workouts today in preparation for a clash with Tulane Oct. 31 at New Orleans.

The Green Wave, a young improving grid team that had come close but failed to win its first four starts, startled favorite Navy, 14-6, Saturday. Previously they had lost to Florida, 31-14; Texas 21-20; Georgia Tech, 14-0, and Mississippi 19-8.

This week Coach Andy Pilney's charges will travel to Lawrence, Kan., for a battle with the University of Kansas.

Saturday, Quarterback Richie Petibon sparked touchdown drives of 13 and 66 yards to lead Tulane over Navy.

Coach DeWitt Weaver felt that Larry Hickman's 72-yard quick kick in the first quarter of Tech's 24-7 loss to Baylor Saturday was the key play that sparked the Bear win.

Only moments later Baylor end Al Micher recovered a Tech fumble on the Tech 17 and the Bears then marched for their first touchdown.

"That got us in the hole and we never got out," remarked Weaver. He explained that he gave the

boys yesterday off to just "forget football" and hard work will begin again today.

"The team is low and the coaches feel that if we can get ready for Tulane and bring back a win from New Orleans every-

thing will be all right again," he concluded.

Halfback Floyd Dellinger, who was injured last week, is still the leading Tech rasher with 130 yards, or 3.4 a try. Halfback Ronnie Rice is next with 120 yards and a 2.9 average.

Quarterback Jerry Bell and end Gerald Seeman remain tied for the scoring leadership with 12 points each. The leading passers are Dellinger, with four out of six for 67 yards; Rice, with three out of four for 75 yards; halfback Milton Vaughan, with two of four for 50 yards, and quarterback Ken Talkington with two of three for 85 yards.

Talkington's 80-yard pass and run play to halfback Mickie Barron provided the Raiders with their only score against the Bears.

The leading receivers are Seeman, with 5 for 37; Dellinger, with 4 for 57; and Barron, with 1 for 80.

Dellinger also remains the leader in punting (5 for a 37.8 mark), interception returns (1 for 48 yards), punt returns (6 for a 4.5 average) and kick-off returns (5 for a 17.5 mark).

Dellinger is expected to return to the line-up against Tulane. Several others suffered minor injuries against Baylor, including center E. J. Holub, who bruised his ribs. All are expected to be in top shape in two weeks however.

Tech Golfers Win

John Paul Cain, John Farquhar and Don Kaplan, Texas Tech golf team members played leading roles at Dallas last weekend in defeating the pros for the third consecutive year in the Texas Cup matches.

CAIN TEAMED with Baylor's Johnny Arreaga to defeat Chuck Klein of San Antonio and Ross Collins of Dallas, 4-3. The two amateurs were eight under par in the 15 holes of the team match. Cain was individually three under par to take out Klein in a singles match, 3-2.

Farquhar and Kaplan won their doubles match over Maurice Hudson and Lafayette Franks, both of Dallas. The Techsans fired six-under-par golf to defeat the professionals.

KAPLAN won his individual match by defeating Jack Smith of Houston, 4-2. Kaplan was one under par in the match.

Farquhar was the only Tech loser in individual play, falling to Doug Higgins of Ft. Worth. The Amarillo swinger found himself four down at the end of four holes after paring them all. Higgins was five under regulation in beating Farquhar, 5-1.

COACH ANDY PILNEY
Tulane

Female Football

by TRICIA McCULLOUGH

I learned something new Saturday. An intercepted pass on the point-after-touchdown try isn't worth the effort it takes to catch the thing. Knocking it down is good enough because even if you catch it, you can't run with it.

Something else about passes that is interesting. Have you noticed how nobody ever tackles a pass receiver before he catches the ball? There is a 15-yard penalty for it! It's called interference. A defensive man can touch the ball and can tackle the receiver after he's touched the ball, but any personal contact before that is interference.

Long passes are beautiful to see, especially the kind that float in the air. I love to see a long pass, but let's face it, those short, spot passes, and quick passes in the flat that gain five or ten yards are the kind that count.

That's it — see you next week.

Marlboro Track Fire Takes Toll

UPPER MARLBORO, Md. (AP) — A toll of 23 thoroughbreds and a lead pony was counted up Monday in the \$100,000 fire which swept Marlboro Race Track Sunday.

The estimate of the number destroyed in the blaze was revised downward from 26 or 27 believed fatally burned in first reports.

One horse, Haverhill, is in critical condition and may have to be destroyed.

About 27 horses were injured. The fire swept two barns and damaged two others at the half-mile track in southern Maryland.
