

Trio Leads Discussion For TISA

Three Tech students will lead group discussions in the Texas Intercollegiate Student convention which opens today at Baylor University for three days.

THE THREE leaders who are among 20 delegates attending from Tech are Stan Powers, senior geology major from Desdemona; Donnell Echols, senior agricultural economics major from Lamesa; and Franz Helbig, sophomore industrial trade major from Dallas.

Powers will speak on "Freedom: Inherited or Obtained" concerning freedom of the campus press and where censorship begins.

ECHOLS' TOPIC is "Possibilities of Student Government on the Campus Scene," which centers around the nature of Student government itself.

Helbig's topic is "The Student and Student Government — Education for What?"

WILL WILSON, Texas attorney general will deliver the keynote address, which officially opens the convention. Paul Harvey, noted news commentator, will be guest speaker at the closing convention banquet.

Others delegates attending from Tech include Bob Byrd, Roy Milhoan, David Edwards, Richard Estes, Mary Ann Lindley, David Steinman, Larry Campbell, Gail Peterson, Johanna Zournas, Pete Baker, Dan Howard, Linda Bunker, Larry Pinson, Bob Dyer, Milton Vaughn and Janet Vines.

TISA WAS established in 1949 and now includes 39 Texas colleges and universities and some 100,000 students. This is considered to be one of the top student government associations in the country. The University of Texas is headquarters for the six regional districts into which member schools are divided.

TISA helps college students speak as a unified group to the various college administrations, the state government, to the parents of students and the public at large.

The organization also makes research and comparative information available to its member schools in the fields of human relations, desegregation, foreign student programs, educational standards, school spirit and student-teacher relationships.

Pair To Attend Regional Meet

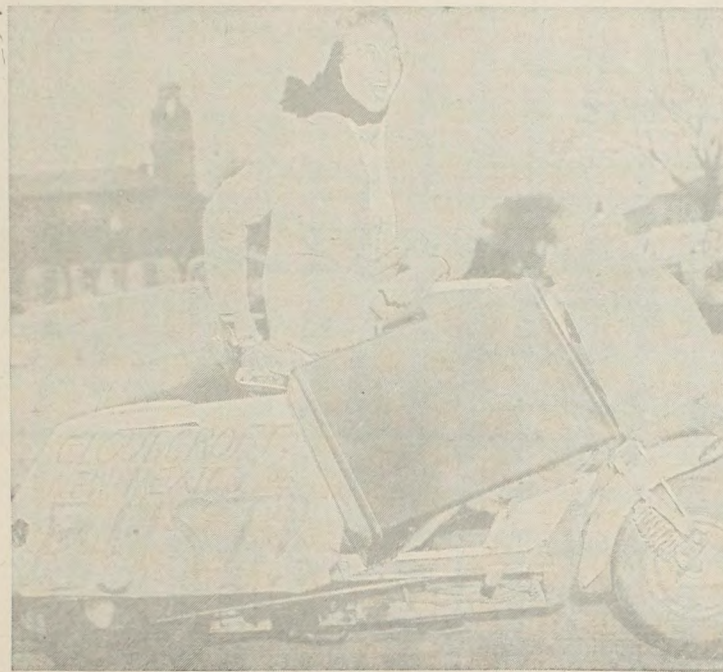

Dr. and Mrs. D. M. Vigness, associate and assistant professors of history respectively, will attend the regional conference of the Danforth Foundation at Leander March 6-8.

DR. KENNETH BROWN of St. Louis, director of the Danforth Foundation, will lead the conference attended by Danforth associates from Oklahoma, Arkansas, Louisiana and Texas.

As Tech's Danforth associate, Dr. Vigness carries out the foundation's purpose — to improve student-faculty relations—through informal meetings and "fireside chats."

DANFORTH scholarship funds are offered for men and women to pursue doctorate programs. Another function of the foundation is to assist young-people sponsors in church groups.

Delegates Get Ready for Trip

WESTWARD HO! — This was the cry of Liz Wilson, Theta Sigma Phi's delegate to the BSO Leadership Retreat in Cloudcroft, N. Mex. this weekend. Loaded down with luggage, Liz expects to leave Friday for a weekend of enjoyment and instruction. (Staff Photo)

Recreation, Study Head Schedule

Eighty Techsians will pile into two chartered buses Friday morning for the snow-clad (they hope!) mountain scenery of Cloudcroft, N.M., and the annual Board of Student Organization Leadership Retreat.

IN STORE FOR the delegates are skiing and sledding, games and dancing, dinners and speeches, but most of all — the work, thought and inspiration that forms the basic purpose of the Retreat.

The Retreat is designed to inspire the thinking of the delegates concerning the purpose and justification of the campus organizations they represent.

JIM THOMPSON, chairman of the Retreat, stated its essential purpose as follows:

"I think the Retreat will open the eyes of the delegates to the fundamental problems of our campus and I hope that it will force them to improve the functions and structure of our campus organizations."

KEYNOTE SPEAKER is Harry Walker, economics professor, who will speak at a dinner for delegates Friday evening on the topic "The Legitimacy of the Campus Organization."

"Jones on the Spot" is the title of a question-and-answer session, featuring Pres. E. N. Jones, scheduled for Saturday evening's dinner.

"KIDDY NIGHT" also holds the spotlight on Saturday night, with delegates coming to the dinner and night meetings dressed in kiddy costumes reminiscent of high school kid days.

Games and dancing are also scheduled for Saturday evening.

The entire Retreat will be held in The Lodge at Cloudcroft, which is a modern hotel-resort nestled in the pines of the Sacramento Mountains of Southern New Mexico.

BUSES WILL leave the Tech Union Friday morning immediately after delegates register in the Union at 7:30. Arrival in Cloudcroft is expected between 3 and 4 p.m. Friday afternoon.

First session for discussions are scheduled for Friday evening after the dinner, with second and third sessions coming Saturday morning and the fourth early Saturday afternoon.

SATURDAY AFTERNOON, after the fourth discussion, is the delegates' opportunity for skiing and sledding—provided the snow arrives.

SPONSORS FOR the Retreat are Miss Jacqueline Sterner, assistant dean of women, and James G. Allen, dean of student life.

Delegates should have their ID cards stamped and approved by their academic dean and their retreat registration receipt.

Prof. Will Attend Art Conference

Dr. Bill C. Lockhart, assistant professor of applied arts, will attend the National Art Educational Association. Conference in New York March 9-14.

Dr. Lockhart, NAEA Research Committee member, will discuss current research at the conference. He will also attend the Western Arts Association Research Committee meeting.

REV. JONES LECTURES DURING REW

'Progress Needs God'

Man's dream of progress is a valid dream, but it is not complete without God, the Rev. Jameson Jones, member of the General Board of Education of the Methodist Church in Nashville, Tenn., and editor of MOTIVE magazine,

told a Religious Emphasis Week convocation audience Tuesday at Texas Tech.

MAN OFTEN comes to think all creativity is by his own hand, the Methodist youth leader said, but his answers to basic questions to life are deceptive.

"Every human being cannot avoid these basic questions," Jones declared, "Who am I? What can I believe? What may I hope in? How should I live?"

How does the classical Christian faith answer these questions? **"IN THE BEGINNING — God,"** said Jones. "This is a statement

of faith that results in faith. From this comes an interpretation of life and our universe in terms of God and with the creation of man as a free creature," he declared.

"If we are honest with ourselves, we know that God has given us a choice between life and death. As a sinner man chooses death." **JONES DESCRIBED** the orthodox Christian view of history as one where God bridged the chasm between Man and God. "Christ came to carry us over the bridge," he added.

Student Juror Receives Gavel

A gavel is to be presented the most outstanding member of the Pre-Law Club by the Lubbock Bar Association.

Roy Bass, local attorney and president of the Bar Association, made the announcement of the group's decision to Bob Arthur, president of the Pre-Law Club.

THE MOST outstanding member is to be chosen for the first time this year and will be presented with the gavel at the Pre-Law Banquet sometime this spring.

A committee will nominate three candidates for the honor and the club will vote for their choice. The committee is composed of Bob Arthur, president; James Adams, first vice president; Holt Irby, second vice president; Margaret Morgan, secretary; and Dr. J. William Davis and Mr. Raymond Mack, sponsors.

ANOTHER COMMITTEE, led by Morgan, is to direct plans for the banquet.

Pre-Law is a group of students interested in the legal profession and meets on the second and fourth Thursdays of each month in Room A of the Tech Union, with the next meeting at 7 p.m., Thursday, March 12.

Language Panel Debate Highlights German Club

German and American educational systems will be compared at a panel discussion next Tuesday at 7:15 p.m. in the Anniversary Room of the Tech Union.

DR. FRIEDRICH SMOLA, Fullbright scholar from Austria, will be the featured panel member and will represent the German school teacher.

The panel discussion will be a part of the regular meeting of the German Club, and will be composed of a German teacher, an American teacher, a German student and an American student.

OTHER MEMBERS of the panel are Mrs. Nancy Pat Tarwater,

representing the American teacher, Udo Sprecht, Tech freshman pre-med student from Germany, representing the typical German student, and Bob Kinney, junior math major from Arlington, representing the typical American student. Mrs. Nancy Griffin, senior advertising art major from Fort Worth, will be moderator.

The discussion will be conducted chiefly in English, and any German speech which might occur will be translated into English.

THE PANEL discussion is a public education feature of the German Club and the meeting is open to all interested persons.

★ Campus ★

Kappa Sigma Takes Lead

Kappa Sigma inched ahead of the Pre-Law Club Monday night in the third round of the Intramural Speech tournament. Kappa Sigma totals 273 points, only two points over Pre-Law's 271.

ABOUT 75 PEOPLE competed Monday, James E. Brennan, speech instructor, reported.

Although several organizations are now out of the running for the sweepstakes trophy, Brennan emphasized that trophies in individual events may be won.

THIRD PLACE winner was Phi Gamma Delta, with 209 points. Pi Beta Phi, with 183 points, and Phi Kappa Psi, 104 points, were next.

Actor Plays Twain Here Military Science Has New Speakers Bureau

Impressionist Hal Holbrook brings to life some of Mark Twain's most hilarious comedies Monday when he presents his solo program, "Mark Twain Tonight," in Lubbock Municipal Auditorium at 8 p.m.

THE NOTED television performer will portray characters in renowned novels such as "Huckleberry Finn," "Life on the Mississippi" and others.

Holbrook has been engaged in Mark Twain impersonations since 1955 when the idea was born. His first portrayal of the famous author-ambassador was in a Greenwich Village club.

Establishment of a department speakers bureau has been announced by Col. James B. Carver, professor of military science and tactics.

Purpose is to make available programs designed to give the general public an understanding of the Army's role in national defense and have qualified speakers to assist public relations by giving talks on military activities.

SPEAKERS ARE furnished on request to any club, department, or group. Subjects covered in these programs are: general military subjects, military history, psychology of war and special sub-

jects, military justice system, army missiles and their capabilities, effect of command and leadership on the battlefield and tactics on atomic battlefield.

Other subjects related to the Army and military services can be presented on request.

Interested individuals should contact Colonel Carver or Capt. R. E. Cavazos, assistant professor, Extension 409.

Conference Set On Seed Laws

Tech will be host to a conference on seed laws and certification problems Friday and Saturday in the Aggie Memorial Auditorium.

PROGRAM will begin at 2 p.m. Friday with a discussion of seed problems, directed by Bill Staffel, chief of the Texas Agriculture Department of seed division.

A banquet will be held Friday in the Faculty Club at 7 p.m. Speaker is "Cotton John" Simth, Amarillo farm broadcaster, whose topic is "A Tenderfoot in Europe."

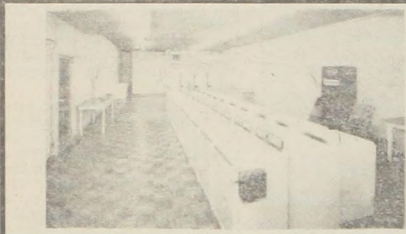

THE CONFERENCE will end with a business meeting at 11:45 a.m. Saturday.

Dr. A. W. Young, head of the Agronomy Dept., and Dr. Clark Harvey, assistant professor, are co-chairmen of the conference. Dr. Young returns tonight from Chicago where he has been attending an executive committee meeting of the International Crop Improvement Association of which he is vice president.

Scholarship Group Meets at 5 Today

The Tech chapter of Phi Kappa Phi, all campus scholarship society, will meet at 5 p.m. today in Aggie Auditorium.

Only present members will be expected to attend, said Dr. A. W. Young, president. They will vote on the names of prospective new members.

DuPont

training
is
tailored
to
the
individual

Training at DuPont begins the day the new graduate joins the Company, and it continues throughout his career. He is usually given a specific assignment at once, so he learns informally in consultation with his supervisor and his associates assigned to the same project. This informal approach to training is supplemented by frequent meetings and seminars and by scheduled performance reviews by each man's supervisor.

It is partly through this method of training that DuPont develops its management men of tomorrow. And the need is increasing every day for qualified people to supervise the development, production and distribution of new products as well as DuPont's 1200 existing products and product lines. So if you join DuPont you can be sure that you will retain your identity as an individual and be prepared for advancement as quickly as your abilities—and job openings—permit.

DISCUSS DISPLAYS — Sandra Dudley, right, and Roma Collins discuss a problem in arranging their senior applied arts display. These displays are a requirement of all senior applied arts majors. (Staff Photo by Mollie Wallace)

Home Ec Seniors Display Best Applied Art Work

It's that time again for Tech senior applied arts majors and things are really buzzing around the Home Economics Building.

THESE STUDENTS are required to exhibit what they consider to be the best of their four years' work in a display form.

Skit Auditions Set Tonight

Tryouts for Skit Row will be continued tonight from 6 to 7:30 in the Aggie Auditorium. The response of organizations with entries has been much greater than expected and has made another audition period necessary, said Roy Lemons, committee member.

Union Presents "Dillon" Dance

"Mis-s-ter Dil-lon" will be the password Friday at 8:30 p.m. Tommy Hancock and his Roadside Playboys will be featured. Admission is free to the dance, sponsored by the Union Western Dance committee.

Organizations Initiate Four Pledge Classes

A plain pin was replaced by a jeweled one many times over in the past week, as sororities and fraternities held initiation services. Kappa Sigma, Sigma Alpha Epsilon, and Pi Beta Phi have initiated fall pledges and Sigma Kappa plans to do so Saturday.

KAPPA SIGMA

Kappa Sigma's new members include James Collins, Floydada; George Culp, Gainesville; Drew Dorsey, Dallas; Larry Green, Abilene; Johnny Hastings, Wichita Falls; Bill Holmes, Glenallen, Ill.; Bernard Johnson, Houston; Derwood Jones, Lampasas; Mike Nichols, Lefors; Tommy Prichard, Dallas; Bill Smith, Dallas; John L. Webb, Wichita Falls and Jimmy Williams, Sudan.

SIGMA ALPHA EPSILON

Sigma Alpha Epsilon named Jimmy Hill best pledge and Buddy Forbess best member at a pre-initiation breakfast.

New SAE members are Barry Buchanan, Lubbock; Winston Boeker, Brady; Curtis Hart, Lubbock; Louis Marshall, Lubbock; Brownie Higgs, Lubbock; Glen Woody, Lubbock; Jerry Beck, Lubbock; Donnie Bryant, Big Spring; Jimmy Hill, Memphis; Jack Lallement, Fritch; Dick Phelps, San Antonio; Arthur Mayhew, Midland; Ted Ferguson, Vernon; Richard Williams, Bryson and Cliff Thompson, Lubbock.

PI BETA PHI

Twenty-three pledges of Pi Beta Phi were initiated Saturday afternoon, preceded by a banquet at Moore's Restaurant Friday.

A Saturday night slumber party was held at the Pi Phi lodge, and Sunday morning the group attended the First Methodist Church.

Pledges who were initiated are Linda Barnhill, Dallas; Nonnie Sue Blocker, Dallas; Barbara Buchanan, Sherman; Barbara Martin, Dallas; Cheryl Crawford, Floydada; Donna Lewis, El Paso; Kay Woody, Lubbock; Gail Pfluger, Eden; Myri Raines, Lubbock; Margaret Snider, Brownfield; Peggy O'Neal, Houston.

NEA WILL HEAR CLARICE WILLS

The NEA will meet tonight in the workroom of the Tech Union Building at 7 p.m. with Dr. Clarice Wills, Associate Professor of Education, as the speaker.

Dr. Wills will discuss a UNESCO meeting that she attended in Paris. Teacher-of-the-Month will be recognized.

Following the meeting, Dr. John Buford, superintendent of schools in Mt. Vernon, Ill., will be honored at an informal reception. Dr. Buford is past president of the National Education Association.

Discussion Passes up Major Point

Nixon and Kennedy Get Student Vote

(ACP) — A recent poll indicates that college students feel that Massachusetts Senator John Kennedy will represent the Democrats and Vice President Richard Nixon the Republicans in the 1960 presidential race.

Fifty-one per cent of the college students interviewed expected Nixon to receive the Republican nomination, and 45 per cent of the students thought that Kennedy would get the Democratic nod.

IN BOTH CASES, coeds showed more indecision than college men in predicting candidates. Forty-one per cent were unsure of the Democratic candidate to 36 per cent of the men, and 31 per cent of the coeds were unsure about the Republican candidate, while only 8 per cent of the college men were undecided.

As far as the men are concerned, there is no doubt about who the nominees will be. Even assuming that all undecided cases decided to vote for the next highest likely choice, the weight of opinion would still favor Kennedy and Nixon.

HOWEVER, if all the undecided coeds were to make their choice Rockefeller for the Republican ticket, this would bring his total "expected" vote equal to Nixon's.

A complete swing by the undecided coeds to any of the Democratic runners-up would raise that man's ranking well above that of Senator Kennedy — the person expected to get the nomination according to the present data.

THE FINAL conclusion: as American college students see it,

the 1960 presidential race is still wide open.

(ACP) — Two years ago Hungarian students began a revolution. The West Virginia Wesleyan College PHAROS published this article:

"For the most part the deeds are forgotten. The scene shifted away from Hungary and a new play came to the stage. Actions once praised as so courageous now rest only in casual setting of another drama.

"PERSONALLY, I can't forget so easily. At the time of the revolution one of my closest friends was a college student who had escaped Czechoslovakia. I remember his yearning well. Had he the means, and I as well, we might both have gone to Europe on the spot and joined the students. We might, but we didn't.

"And that is largely how the whole thing went. No one did. No one even remembers. The passions kindled soon flickered and burned out in the mist of time . . ."

(ACP) — Union College Prof. Curtis L. Hemenway got the "red carpet treatment" in Russia recently.

The Schenectady man tells that Soviet hospitality was so "overdone" that he and his party had to wait two hours at the airport for limousines to their hotel. The Russians wouldn't hear of the Americans riding in the available buses.

A Little Bit

James Hamm

IMPRESSIVE —

— is the word to describe Tuesday night's game against Arkansas — the quality of ball played, school spirit and the excellent extracurricular activities.

Playing the last game of their collegiate careers, Tech's basketball-playing seniors brought the crowd to its feet time and again with superb plays.

Podd Hill showed Tech fans why he won All-America mention, as he scored well, played a bruising defensive game and pulled in timely rebounds. **Wade Wolfe** played an unusually rugged, even for him, game and proved himself a great crowd-pleaser.

Charlie Lynch, the all-around player, was an all-around stand-out, scoring well and defending better than usual, if that's possible. **Gerald Myers**, the floor man, did a wonderful job in setting up plays and provided many exciting moments for fans with his ball-handling. **Chuck Key**, the unsung hero, played his usual outstanding game.

This group of players have done a great service for Tech by proving that Tech is capable of competing on a par with any other school in Southwest Conference athletics — in the first and second years of SWC play.

Another basketball game was played during the halftime of the regular game, involving the Double T Association's new members. The muscular young "ladies" will probably wear bruises from that encounter for a long time.

Rising to the occasion, the Double T pledges entertained the crowd at odd intervals all through the Tuesday night proceedings.

Another fine halftime performance was given by Tech modern dancer **Joyce Tallman**. Intricately stepping to the tune of "Night Train," she kept the basketball fans applauding throughout her performance.

The cheerleaders did a good job in keeping up spirit, along with their little red-shirted (not a saddle tramp) helper.

The band, dressed in its new uniforms for the final game of the season, also did a fine job. The Saddle Tramps applauded louder and remained standing longer after a good Tech play than ever before.

But perhaps the finest performance was turned in by the Tech fans. Although the crowd wasn't as big as on other occasions, as much or more cheering was done than at any other basketball game.

The crowd was courteous (on most occasions) to the opposing team, but booed the officials unmercifully. However, the officials at times seemed to deserve the boing.

Except for a few minor difficulties, such as on-court scuffling, the game went without a hitch, and the outstanding play of some of the undergraduate members of the Raider basketball team gave promise of a good basketball team next year.

All in all, Tuesday night activities were highly successful. It should go down as one of the highlights of the year.

WHILE THE PROS AND CONS of a Publications Committee change are being discussed, one main point seems to have been forgotten.

That point is that the campus publications, the TOREADOR and LA VENTANA, are in the hands of student staffs, headed by student editors, which are in control at the policy-making level concerning content. No matter to which side the balance of power on the Publications Committee tips, the committee will still rule only on policy of a very general nature, such as budgets.

The campus publications, particularly the TOREADOR, must be kept free of censorship of content to insure an impartial coverage of campus news and impartial editorial comment on problems concerning Tech.

At the present, the TOREADOR is free of such censorship, but in the past several attempts have been made to censor the campus paper.

Much of this pressure has come from time to time from the various administrative offices, and even, on occasion, from individuals who felt that they had something to hide.

One prominent example of an attempt to censor, which was partially successful in the past, was an "advisory committee" composed of Student Council members.

Purpose of this committee was to advise the TOREADOR concerning editorial policy. Luckily for the TOREADOR, this committee has been deactivated, although attempts have been made to put it back in power.

Most of these attempts at censorship have been made for two reasons. One is the fear of influential Tech personnel that the TOREADOR can stir up unfavorable student opinion on controversial subjects, and the other is that certain persons feel that the TOREADOR is subordinate to another Tech organization.

The first situation is one that must be faced by every newspaper of any kind, but the second is one that is distinctly peculiar to college newspapers.

A college administration will often think of the campus newspaper as just a training ground for its journalism students, and therefore it should never comment on controversial subjects nor try to develop a personality of its own.

On the other hand, the student government of a college often feels that the campus newspaper is an organization that is supported largely by student funds, and exists for the sole benefit of the students. Therefore, the student government should control the paper.

The college administration's point of view is in error because, for a campus newspaper to train journalism students well, the paper must be as much like a regular paper as possible — with the same right of comment and the right to form its own personality.

Since a campus newspaper is a newspaper in every sense and not just a "bulletin board" for student activities, the student government's attitude is also wrong. A professional newspaper is also financed by its reading public, but does that mean that any government, municipal, state or federal, of that public should control the paper?

"LITTLE MAN ON CAMPUS"

About Committee

Editor:
The basic issue to us is not the reorganization of the committee (publications) or whether they are or are not members of the Journalism faculty on the committee but the fact that here is clear and direct violation of our democratic structure.

FIRST OF ALL, the student has the right to select the editor of the Toreador who is to be named in a popular election of the student body. Many Southwest Conference schools use this system today. When the selection of the editor was taken out of the direct hands of the students and given to the student members of the Publications Committee, the right has again been lost — and this time given to the faculty. Actually, the decision is left up to the Publications Committee but the faculty controls the balance of power 3-2. So perhaps, the student body president will be chosen by faculty members too. It makes about as much sense.

Secondly, the present Publications Committee set-up is in violation of the constitution of the Student Association and Publications Handbook. Of course this hasn't been changed yet because of the suddenness and swiftness of the change made this summer. This change was made without the slightest consideration of student viewpoint. The Faculty Advisory Committee merely commended to President Jones that Tech adopt the new set-up — BANG — we have a new Publications Committee.

STUDENTS PAY for 40 per cent of the Toreador and students sell the ads that pay for the remaining 54 per cent. Why, then, shouldn't the students have the right to elect their own editor instead of entering into the whims of journalism department heads? The students in the department receive valuable training by working the Toreador and there should be close cooperation between the student and the department heads. BU The newspapers should reflect student opinion and to insure complete representation of the student body, the editor should be elected by the students.

The smoothness of the Publications Committee this year is necessarily due to the current set-up. It is due to the work of the committee and the cooperation of the student representatives of the faculty. But, how long will this continue when the student

Wolfe's Photos On Display

"Color Photography," an art exhibit by Mrs. Ellie Wolfe, assistant professor of home and family life, is now on exhibit at Wayne University in Detroit and Turner College in Stephenville. The color photographs consist of 25 scenes of Texas, Colorado, Canada, Scotland, England, and Austria. It took Mrs. Wolfe 10 years to complete her collection which was exhibited in the Hor Economics Building last year.

FIRST OF ALL, the student has lost the right to select the editor. The editor of the Toreador used to be named in a popular election of the student body. Many Southwest Conference schools use this system today. When the selection of the editor was taken out of the direct hands of the students it was given to the student members of the Publications Committee. Now the right has again been lifted — and this time given to the faculty. Actually, the decision is left up to the Publications Committee but the faculty controls the balance of power 3-2. Soon perhaps, the student body president will be chosen by faculty members too. It makes about as much sense.

Secondly, the present Publications Committee set-up is in clear violation of the constitution of the Student Association and the Publications Handbook. Of course, this hasn't been changed yet because of the suddenness and swiftness of the change made this summer. This change was made without the slightest consideration of student viewpoint. The Faculty Advisory Committee merely recommended to President Jones that Tech adopt the new set-up and — BANG — we have a new Publications Committee.

STUDENTS PAY for 46 per cent of the Toreador and students sell the ads that pay for the remaining 54 per cent. Why, then shouldn't the students have the right to elect their own editor and not cater to the whims of the journalism department head. True, students in the department receive valuable training by working on the Toreador and there should be close cooperation between the staff and the department heads. BUT!! The newspapers should reflect student opinion and to insure complete representation of the student body, the editor should be selected by the students.

The smoothness of the Publications Committee this year is not necessarily due to the current set-up. It is due to the work of past committees and the cooperation of the student representatives and the faculty. But, how long can this continue when the students

know that their requests will be honored less and less if they do not follow the line of reasoning coming from the journalism department?

IT APPEARS to the students that the journalism department quite naturally wanted a smaller committee. The larger the committee the more ideas presented and questions asked. As a result, the more the committee members were put on the spot. This is a necessary element in informing the students of the functioning of the Publications Committee.

There have been no split-votes this year. It would have done little good if there had been some. What about the future? Of course, the chairman has not voted on any issue, but he will when the pressure is on, and he won't vote for the students — you can bet on that!

OF COURSE, it was most inconvenient for the Faculty Advisory Committee and the Administration to take time out to consult student leaders and get their feelings on the matter. This is the type problem that the students should not have to be faced with. Actually, it seems as though the FAC and the administration never intended to consult the students regarding the change in the Publications Committee.

THESE ARE the basic issues. All the Student Association is asking for is their rights restored. The students are asking for no more than the basic rights they are entitled to. This practice has not been commonly characteristic of the administration and we feel that such inconsistencies are detrimental to the attitudes and morale of the students of Texas Tech.

IF STUDENT viewpoint is not considered here then the day will come at Texas Tech when we will no longer have any form of student government. Slowly but surely all our rights and freedoms will vanish.

Sounds a bit dramatic doesn't it? We wonder how it sounded to the Russians in 1914 and the Germans in the 1930's?

Student Council Executive Officers

League Shows Two Comedies

"Comedy of a very high order" said the "New York Times" of "Lavender Hill Mob."

This outstanding movie, now considered a classic, will be shown Friday night at 7:30 by the Classic Cinema League in the Aggie Engineering Auditorium.

IN THE "Lavender Hill Mob," Alec Guinness portrays Mr. Holland, a quiet, trusted supervisor of bullion at the local bank. Mr. Holland is a dreamer and his dream is an ambitious one — to appropriate a million pounds in gold bars. He succeeds, but how to dispose of it is another matter.

In the fashion of a Guinness comedy, one hilarious situation follows another throughout the picture.

"Keeping In Shape," a mock lecture on physical fitness by Robert Benchee will also be shown.

CLASSIC CINEMA League members will be admitted free. Admission for nonmembers is 75 cents.

POVERTY CAN BE FUN

It is no disgrace to be poor. It is an error, but it is no disgrace. So if your purse is empty, do not skulk and brood and hide your head in shame. Stand tall. Admit your poverty. Admit it freely and frankly and all kinds of good things will happen to you. Take, for instance, the case of Blossom Signafoos.

Blossom, an impecunious freshman at an Eastern girls' college, was smart as a whip and round as a dumpling, and scarcely a day went by when she didn't get invited to a party weekend at one of the nearby men's schools. But Blossom never accepted. She did not have the rail fare; she did not have the clothes. Weekend after weekend, while her classmates went frolicking, Blossom sat alone, saved from utter despair only by her pack of Marlboros, for even an exchequer as slim as Blossom's can afford the joys of Marlboro—joys far beyond their paltry price: rich, mellow tobaccos, lovingly cured and carefully packed; a new improved filter that works like a charm. Croesus himself could not buy a better cigarette!

However, Marlboro's most passionate admirers—among whose number I am paid to count myself—would not claim that Marlboro can entirely replace love and romance, and Blossom grew steadily morose.

"And ask him has he got an older brother."

Then one day came a phone call from an intelligent sophomore named Tom O'Shanter at a nearby men's college. "Blossom," said Tom, "I want you to come down next week for the barley festival, and I won't take no for an answer."

"No," said Blossom. "Foolish girl," said Tom gently. "I know why you refuse me. It is because you are poor, isn't it?"

"Yes," said Blossom. "I will send you a railroad ticket," said Tom. "Also a small salami in case you get hungry on the train."

"But I have nothing to wear," said Blossom. Tom replied, "I will send you one suit of cashmere, two gowns of lace, three slacks of velvet, four shoes of cat, five socks of nylon, and a partridge in a pear tree."

"That is most kind," said Blossom, "but I fear I cannot dance and enjoy myself while back home my poor lame brother Tiny Tim lies abed."

"Send him to Mayo Brothers and put it on my tab," said Tom.

"You are terribly decent," said Blossom, "but I cannot come to your party because all the other girls at the party will be from rich, distinguished families, and my father is but a humble woodenter."

"I will buy him Yosemite," said Tom. "You have a great heart," said Blossom. "Hold the phone while I ask our wise and kindly old Dean of Women whether it is proper for me to accept all these gifts."

She went forthwith and asked the Dean of Women, and the Dean of Women laid her wise and kindly old hand on Blossom's cheek and said, "Child, let not false pride rob you of happiness. Accept these gifts from Tom."

"Lord love you, Wise and Kindly," breathed Blossom, dropping grateful tears into the Dean's reticule. "I must run and tell Tom."

"Yes, run, child," said the Dean, a smile wrinkling her wise and kindly old eyes. "And ask him has he got an older brother."

The makers of filter-tip Marlboro, who bring you this column, are also the makers of non-filter Philip Morris, who also bring you this column. Whichever you choose, you're right.

Panel Presents Tech Town Hall

College Town Hall will be presented in Tech Union Ballroom Friday from 9 until 11 a.m. to answer questions on business problems.

A PANEL of area business leaders will be present to give answers and discuss present and future business problems, issues and opportunities.

Businessmen composing the panel are Frank Junell, vice president of the Citizens National Bank, Lubbock; G. W. Gutches, general manager of Container Corp. of America of Fort Worth; Newland Oldham, business manager of Pioneer Natural Gas Company, Lubbock; Brooks Harman, attorney-at-law for Stowe and Harman, Co., Odessa.

Band Spots Jazz In Sunday Concert

The Tech Symphonic Winds and the Tech Stage Band will present their first formal concert at 3

Staff Receives New Parking Area

New rules for parking in front of the Journalism building were announced by the Tech traffic department.

THE AREA in front of the building is reserved for staff members and visitors only. Students parking there will be given tickets according to Bill Daniels, head of the traffic department.

p.m. Sunday in the Tech Union Ballroom.

THE PROGRAM under the direction of Keith McCarty, instructor in music, will present both concert pieces and progressive jazz. Symphonic Winds will perform such compositions as "Suite No. 111 from Le Journal du Printemps" by J. C. F. Fischer and "Suite Francaise" by Darius Milhaud.

Between "Artistry Jumps" and "Opus in Pastels" by Kenton, the Stage Band will play student compositions. They will also perform "Interlude" (Rugolo), "Katherine" (Moshier), "Quiet Please" (St-Laurent) and "Neo Gene" (Lang-don).

Placement Interviews Begin Here Monday

Representatives from twenty-two firms are to be on the Tech campus next week for employment interviews with 1959 graduates.

Appointments may be made in the Placement Office this week.

Monday, four firms are holding interviews.

Welex, Inc., is interested in graduates in electrical and petroleum engineering and physics.

Procter and Gamble Distributing Co. is to interview graduates in business administration and marketing for sales positions.

U. S. GENERAL Accounting Office has openings for majors in accounting (bachelors' and masters' degree) and, for summer employment, a junior with nine hours of accounting and B average or better grades.

California State Personnel Board is to interview graduates in civil engineering.

Monday and Tuesday, the Chance Vought Aircraft, Inc., interviews majors in civil and mechanical engineering, mathematics (Ph.D.) and physics (advanced degrees).

Tuesday, two firms are holding interviews.

U. S. ARMY Ordnance Missile Command is to interview graduates in electrical and mechanical engineering, mathematics and physics (all degree levels).

Ernst & Ernst of Dallas is interested in graduates in accounting.

Tuesday and Wednesday the Humble Oil & Refining Co. will interview graduates in chemical, civil, electrical, and mechanical engineering, chemistry, mathematics, physics (advanced degree), marketing and business administration.

Wednesday, two firms are to hold interviews.

F. W. Woolworth Co. is to interview business administrative graduates interested in merchandising.

SHELL OIL Co. is to interview majors in accounting, economic finance, personnel management and office management and women graduates in mathematics and natural science with majors in math.

Wednesday, Thursday and Friday, the Office of Naval Office Procurement is to conduct interviews between 10 and 4 p.m.

the Naval Reserve Training Center on the campus.

Thursday, four other firms will hold interviews.

Norton Air Force Base of St. Bernardino, Calif., is to interview graduates in electrical and industrial engineering, accounting and mathematics.

CIVIL AERONAUTICS Administration will interview graduates in civil and electrical engineering.

Employers Casulty Co. is to interview majors in marketing, economics, finance, office management, personnel management and others interested in casulty insurance.

Texas Employers' Insurance Association is interviewing graduates in chemical, civil, electrical, industrial, mechanical, petroleum and textile engineering. Age limits are 25 to 35.

Thursday and Friday, the two firms holding interviews are U. Gypsum and the Western Co.

U. S. Gypsum Co. is interested in majors in chemical, civil, industrial and mechanical engineering, chemistry, accounting, financial economics, management (personnel, industrial and office), marketing and retailing.

THE WESTERN CO. of Miami is to interview graduates in chemical, electrical, industrial and petroleum engineering, chemistry geology and physics.

Friday, the last five firms will hold interviews.

Rowland Union School District of La Puente, Calif., is interested in graduates for teaching positions in elementary school, girls' physical education and homemaking.

Arthur Young & Co. of Kansas City will interview graduates in accounting.

U. S. NAVAL Laboratories, Pasadena, Calif., will interview majors in electrical, industrial and mechanical engineering, physics and mathematics (all degree levels) for work at the Naval Ordnance Test Station at China Lake, Calif.

S. H. Kress & Co. is to interview persons for positions in marketing, retailing, management (personnel), office and industrial economics and finance.

Columbia - Southern Chemical Corp. will interview graduates in chemical engineering and chemistry (all degree levels). Columbia Southern is a Corpus Christi subsidiary of Pittsburgh Plate Glass Co.

Friday, the last five firms will hold interviews.

Frosh Drub Ince Cagers

Texas Tech's Picadors closed their season Tuesday night with an 88-80 victory over the Ince Oiler.

THE VICTORY was the third in four tries against the Oiler this season and enabled the freshmen to post an 8-4 record for the season. The win gave freshman coach Gene Gibson a 52-11 record for five years of coaching at Tech.

Fine offensive work by Roger Henning, who poured in 29 points and Del Ray Mounts, who scored 24, paced the Picador five to victory.

IT WAS THE highest scoring freshman game of the season. Several other freshmen players were in the double digits to the victory parade.

DEAN OUT WITH INJURY

RALPH'S RAMBLINGS

by Ralph W. Carpenter

Much has already been said about the "new look" offense the Raiders are using — the results of which may be many. One of the results of this new strategy on the part of our coaching staff may be a better tally in the won-loss column at the end of next season. If this end aim is not accomplished, however, there are many other things that supporters of Tech may look for.

As we all know, there are many inexperienced members on our football squad. Maybe they cannot be expected to perform miracles, they probably can't. We might even do worse than we did last year — but it looks doubtful from this corner. What we should do is to look at the comparative scores, yards gained, etc., and generally evaluate how we feel as spectators at the various games. We made very few points last year. If we can just improve in this respect — irregardless of the final outcomes — we will know that a definite improvement has been made.

It is difficult to beat experienced hands with youngsters and we should realize this before we get our hopes up next season. Our new offense is wonderful as far as I'm concerned. Whether it will be used to the best advantage remains to be seen. We all realize that new innovations can be tried in any organization but if the leaders are not change-conscious the new plans may never be given a good chance to prove or disprove themselves. I'm sure that our coaches will be able to make this new offense do something for them. If not this year — then next. As long as something is being done we can't condemn the new plan until we, as observers, have given it a fair shake also.

There are many Monday Morning Quarterbacks as we all know. Also there are many pessimists who condemn things — especially new things it seems — merely because they don't actually have enough facts in their possession to take any kind of a positive stand. All I say is that if you haven't tried it — don't knock it. We may be SWC champs in 1960 after all.

—RWC—

Basketball season has come and gone — the Raiders closed the season out on a good note with the victory over Arkansas. It is a shame that so few fans came out for the game. There were simply too many empty seats Tuesday night. The least the fans could have done for the team would have been to show up for the game and pay tribute to the graduating seniors. Where is the loyalty the fans show when the team is fighting for first place? As soon as the team runs into a little trouble and drops a game or two — the fans scatter. Now don't get me wrong, there was the "faithful" following at the game. The people who stick by the Tech teams — win, lose or draw — we can be thankful for this group.

There's really not much left to say about the Raider cagers. I thought Sports Editor Bill Dean said it all for us in his fine column last Tuesday. We can all be proud of the "famous first."

—RWC—

I have come up with an idea that might increase attendance at baseball games this year. Or maybe — all spring sporting events involving the varsity teams of the school. Why not work out some kind of agreement with the intramural teams where they would not schedule games on the day the varsity teams are in action. It might increase attendance — something needs to be done.

—RWC—

A personal note — Jerry, I made it plain in my column last week that I was not trying to offend anyone with what I wrote. I am sorry you did not understand this—wake up and live, man!!

KOOL ANSWER

Tech Nine Improves

Texas Tech's baseballers are continuing to round into form for their opening game with Colorado March 20.

"THE OVERALL team speed and quickness will be improved over last year," said Head Coach Beattie Feathers Wednesday. "Top flight competition for all positions on this year's team should make for a better team than last year's nine," head baseball coach Feathers said.

"The varsity hasn't had the opportunity to conduct scrimmage games with any other teams other than inter-squad games," reported coach Feathers.

COACH FEATHERS said boys who have shown a great deal of improvement are pitcher Charles Flanagan, outfielder James Hughes and catcher David Bourland, who

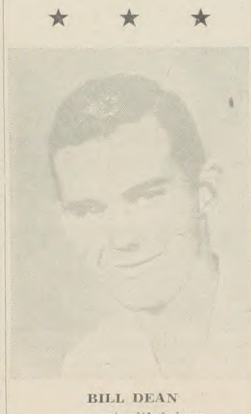

has made the switch from short-stop to catcher.

Bill Dean, outfielder for the Raiders, received a broken collar bone while umpiring the freshmen and Monterey practice game Saturday. Bill will be lost from the team for a period of six to eight weeks. "Bill's power at the plate will be missed," said coach Feathers.

TEXAS TECH plays Rice Institute and Texas A&M but is not participating in official Southwest

Conference competition. The complete schedule:

Mar. 20—Colorado here, Mar. 21—Colorado here, Apr. 3—At Midwestern, Apr. 4—At Midwestern, Apr. 7—At West Texas State, Apr. 11—West Texas State here, Apr. 18—At West Texas State, Apr. 21—West Texas State here, Apr. 25—Abilene Christian here, Apr. 27—At Texas A&M, Apr. 28—At Rice, May 1—Midwestern here, May 2—Midwestern here, May 9—At Abilene Christian.

ROBISON APPRECIATES SUPPORT

Tech Five Wins Third

by RALPH W. CARPENTER
 "We bettered last year's record, but didn't quite reach the goal we hoped for," Coach Polk Robison said Wednesday as he prepared to leave for Austin and the state basketball tournament.

THE RAIDER COACH had begun to relax following the thrilling 80-69 win over the University of Arkansas Tuesday night. The tilt ended Tech's season and gave the Red Men sole possession of third place in the SWC basketball race.

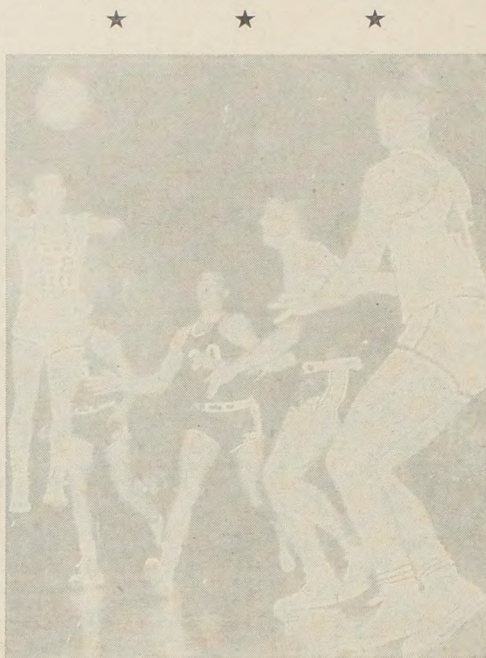

"You're always glad to wind up the season with a victory, especially when you have a fine bunch of seniors playing their last game for you. I tell you, our seniors have been a fine group," Robison declared. "They've done a lot for Tech and Texas Tech has done a lot for them."

THE RAIDER HEAD MAN was praising the five seniors — Podd Hill, Charley Lynch, Wade Wolfe, Chuck Key and Gerald Myers. He also had praise for Don Apple, whose career is also at an end.

"These guys will be hard to replace," Robison declared. "We are faced with a rebuilding problem now, it may be hard to stay off the bottom next year," he continued.

"**WE WANT ALL** students to know that the team and the coaching staff appreciate the fine

backing they have given the team this season. It means a lot to all of us," Robison said. The Raider coach left for Austin yesterday to attend the State Basketball Tournament. "We have our eyes on some boys who will be playing in the tournament and a few other players around the state," Robison concluded.

THE LITTLE MAN FEEDS — Gerald Myers, shown on the left, feeds the ball to the corner man, Chuck Key. The Red Men downed Arkansas 80-69 Tuesday night to sew up sole possession of third place in the SWC basketball wars. The game ended the career of Tech's starting five and leaves Tech with a rebuilding job.

Cindermen Begin Season Saturday Under Sparks

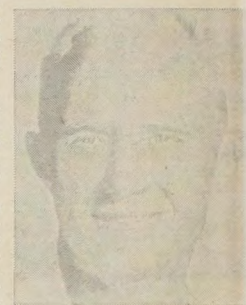

Texas Tech launches its 1959 track season at the Borger Olympics in Laredo Saturday.

DON SPARKS, the former University of Texas distance runner and relay performer making his debut as Texas Tech coach, is taking a nine-man squad. Only four are returning lettermen.

Tech's best hopes for points are pole vaulter James Leonard of Abilene, high jumper W. L. Thornton of Aspermont, and low hurdler James Pettit of Gustine, John Tarleton transfer. All are juniors.

BY EVENT, the Red Raiders will probably enter: 440 — Tommy Davis of Granbury and Curtis Hart of Andrews; high hurdles — Dick Murphy of Odessa and Pettit; 220 — Davis; low hurdles — Pettit and Murphy; high jump — Thornton and Murphy; broad jump — Pettit; pole vault — Leonard; mile — Pete Dyson of Fort

Stockton and Charlie Draper of Amarillo; 880 — Draper; two mile — Dyson.

DON SPARKS ... tracksters begin season

Outlook

By BILL DEAN

The article which appeared in Tuesday's Toreador entitled "Curtain Falls on Four Year Play," was not intended to be continued.

However, copy editors are funny creatures and sometimes with a flick of the wrist they can chop off parts of an article that were never intended to be chopped off. In the present case it was the climax.

So, (just for the record) to pick up where the copy pencil left off—

Next year it's going to seem a little strange looking down to the bench or on the court without seeing these men. It will be tough for awhile on the "new men," although some of them won't be new at all.

When Gene Arrington pops in a jump shot many thoughts will go back to when Podd Hill popped 'em in. Or when James Wiley scores two and looks at the board and grins people will think — there's ole Wade again — the big rascal.

But after a while things will come back to normal and the fans of Raiderland will have new heroes — just as good and just as deserving.

Yes, the names will change and the stars will change, but the memory of these six will no doubt live on to infinity.

They formed "the famous first."
