

# 'Doc', 'Festus' back to host for Tech's Collegiate Rodeo

By LEE MABRITO  
Staff Writer

"We were delighted and flattered to be asked back to the rodeo again this year," Ken "Festus" Curtis said Wednesday when he and Milburn "Doc" Stone arrived for the Tech Collegiate Rodeo.

"WE HAD A GREAT TIME last year here at the rodeo and we've really been looking forward to it this year," he said. "It's one of the finest rodeos we've seen anywhere."

The show, billed as the largest indoor collegiate rodeo in the world, features "Doc" and "Festus" of the television show "Gunsmoke," who will appear in all four nightly performances.

They wrangled their way into Municipal Coliseum Wednesday night for the first of four performances. The performances, starting at 8 p.m., will continue through Saturday night.

IN AN INTERVIEW AT Municipal Airport, the two stars talked and acted much like the characters they portray in the series.

"We've played in top rodeos across the country," "Doc" said, "and, yet, we are amazed at the precision with which this one is held. From what we saw last year of this magnificent, well-run rodeo, we were very excited about coming this week."

"Doc" said that he most enjoys the tremendous atmosphere of the friendly Tech students.

"It's enlightening and warming to come to Texas, because of the cordial welcoming that is received. The stu-

dents and youth of Texas all know the meaning of the word 'politeness.'" He said this type of friendliness is not seen in many other parts of the country.

COMMENTING ON GUNSMOKE'S 12-year run on television, "Doc" said, "I think as long as we keep the show as the people want it, it could go on forever. As long as we don't leave them, they won't leave us. We've gotten good results for the past 12 years and we hope to continue the trend."

"Festus" said that they almost cancelled the show last year, but that the flood of mail in protest kept them on the air.

Top-ranked cowboys and cowgirls from 12 colleges and universities will appear as part of the 1967 Collegiate Rodeo.

THE CROWNING OF THE Tech Rodeo Queen was announced Wednesday night. Nominees were Cherry Beck, Karen Robinson, Betty White, Patti Englerth, and Marianne Munz.

The Doug Parks Memorial Award was also awarded on opening night.

The Tech rodeo team will be competing against collegiate teams from South Plains College, Tarleton State, Sul Ross, Eastern New Mexico State University, Midwestern University, Panhandle A&M College, Hardin-Simmons University, West Texas State University, Oklahoma State University, New Mexico University, and Texas Western College.

(See first-night winners, page 6)

RODEO ROSES—Mrs. Milburn Stone, left, was presented with this bouquet when she and her husband "Doc," standing beside her, arrived in Lubbock Wednesday. "Doc" will appear at each performance of the

Tech Collegiate Rodeo with Ken Curtis, shown here talking with Miss Lubbock, Jan Glenn. Both performers are stars of the "Gunsmoke" television series.

—Only five weeks left—

# Time evaporates for 'liquor' bill

By JIM WEST  
Copy Editor

AUSTIN—Failure of Gov. John Connally's liquor by the drink bill to move out of committee this week means that the measure has only five weeks left in which it may be enacted into law.

FIVE WEEKS CAN BE a very short

## Bill dictating dress Rejected by House

By BARBRA WORLEY  
Fine Arts Editor

AUSTIN—A bill that would have let Texas state college presidents tell students how they should dress was rejected by the House Education Committee Wednesday, 9-5.

THE BILL, INTRODUCED BY Rep. Delwin Jones of Lubbock, called for establishment of "minimum standards for attire and personal appearance for all persons who are officially admitted to the use of the facilities" of any state-supported institutions.

In an interview with the University Daily Tuesday, Jones said the bill did not say the administrations must establish such standards, but gives them authorization to do so if they desire.

"It is up to the individual administrations to use it or not," he said. "I don't feel responsible for telling them they have to do this, but that they may if they want to."

HE ALSO SAID THE definition of "minimum standards" was not included in the bill, but would be left up to the individual administration.

Jones said the bill was "my own idea," and was not prompted by requests from constituents or from any college administrators. He said he felt the need for such a statute because "improper dress detracts from the classroom" and gives an unfavorable image of the institution.

Texas A&M University recently established certain standards of appearance for its students, but Jones said this action had no relation to his bill.

"THIS WAS PROMPTED BY some of these outlandish characters who look like tramps," Jones said, referring to his bill.

Asked if he was referring to any particular persons on either the Texas Tech campus in Lubbock or the University of Texas campus in Austin, he answered no.

Rep. Reed Quilliam, also of Lubbock told a University Daily reporter when asked about Jones' bill that he felt a matter such as appearance standards should be left up to the individual school administration and should not be a matter of state legislation.

"I disagree most vehemently with the man who wears long hair down his back, but I would defend his right to do so," said Rep. Guy Floyd, San Antonio.

time in the Texas Legislature, and some Capitol observers believe the measure stands little chance of enactment this year, barring a special session.

Sponsors of the bill said it did not move to the floor of the House because of "insufficient support."

The bill may not be dead, though.

"THAT'S THEIR AMERICAN privilege. I think we start violating people's right when we start telling them what to wear to school. You can't legislate everything."

## Blakney reveals revamp plans

Max Blakney, candidate for president of the Student Association said Wednesday night in a speech at Matarador Dorm that he would continue to push for a change in the calendar year of Texas colleges and universities, including Tech.

BLAKNEY, WHO authored the Calendar Year Act passed by the Student Senate Tuesday night, said that the Coordinating Board, Texas College and University System, had the final say in the matter but that they were seeking opinions from various groups, including students.

He also stressed the need for a traffic engineer on campus who "would know how to solve our problem."

"The President's responsibility should not be to merely let the Coordinating Board know our feelings," Blakney said of the proposed calendar year change, "but to keep pushing it. It will allow students to finish the fall semester before Christmas so they will not have to worry about finals and 'waste' the first week they are back as is usually done now."

HE SAID THE semester would begin about the first of September and conclude the week before Christmas.

"The Senate Act has been a start this year, but a restatement of our stand next fall and a coordinated drive on the part of most student governments in Texas will help effect the change," he said.

Blakney also cited the need for a full-time traffic engineer who would study parking, traffic and pedestrian problems and "come up with solutions which would last more than one or two years. We need a long-range traffic plan, and only a traffic engineer can do this."

HE PROPOSED that part of the money for his salary come from a surplus fund largely composed of money from campus traffic tickets, and that the remainder of the fund be used in the campus transportation system.

In the words of Sen. H. J. (Doc) Blanchard of Lubbock, "The governor is a very determined and persuasive person. I don't doubt that had he lived in ancient Rome, he would have charged Mt. Vesuvius with a bucket of water."

A RECENT POLL BY THE Associated Press showed that about 60 representatives—16 short of the needed majority—would support the measure in a House vote. Wire service staffers in Austin said many more legislators privately are in favor of the bill, but are unwilling to commit political suicide by voting for it.

The measure has been labeled "immoral" by forces opposed to its passage.

Connally supporters, however, say the bill would put teeth into Texas liquor laws which have been termed "hypocritical" by an officer of the Liquor Control Board and "schizophrenic" by a Tech psychologist.

CONNALLY EXPLAINED HIS stand to the Texas Council of Churches' Annual Assembly in Austin last month.

"I have received more than 7,000 letters, presumably from well-meaning people, with regard to my proposal to make the Texas liquor control law the tightest in history, and including the provision to legalize the sale of liquor in smaller amounts than full bottles," he said.

"The only question involved in the liquor proposal is whether we are going to have it sold in smaller quantities than a fifth. It is my opinion that it should be sold in small enough quantities to induce temperance and moderation."

ties to induce temperance and moderation.

"IN ADDITION, THE BILL contains strong deterrents against the sale of alcoholic beverages to minors which we do not have now."

The measure would impose strict regulations and levy a \$2,000 state license fee on hotels and restaurants making application for permits to sell liquor by the drink. State licenses now cost as little as \$250 for package stores and \$500 for private clubs.

Supporters of the measure say the licensing feature would do away with the existing "sham" under which private clubs sell cocktails to casual visitors.

LT. GOV. PRESTON Smith opposes the bill.

"Sure, people can get a drink in these so-called 'private' clubs," Smith said Tuesday. "They can also steal, but we're not going to legalize theft." He added that he thought the measure would not be enacted because "the people consider it immoral."

Aligned with Smith is U.S. Sen. Ralph Yarborough, long at odds with the governor.

AN OUT-SPOKEN SUPPORTER of liquor by the drink is Sen. Jim Bates of Edinburg, who recently introduced a bill seeking to legalize horse racing and pari-mutuel betting in Texas.

Bates describes himself as "wet all the way," and said that Texans who "vote dry but elect a wet sheriff are hypocritical." He is, however, opposed

(Continued on Page 3)

## Hearing slated in murder case against Techsan

Preliminary hearing on two counts of murder with malice is set today for Dolphus Jack Brown, 25-year-old Tech freshman accused in the slaying of his parents, Mr. and Mrs. D. J. (Buzz) Brown of Shallowater.

BROWN, A FORMER HONOR student, athlete and student body leader at Shallowater High School, was named in charges filed Tuesday afternoon by Dist. Alton Griffin. The charges followed a 12-hour investigation by the district attorney's office, Texas Rangers and the Lubbock County Sheriff's Department.

Hearing is set for 2 p.m. before Justice of the Peace F. R. Land.

A "statement of investigation" issued Wednesday by Griffin said that authorities have a witness and evidence which lead them to believe the double slaying occurred Monday evening. Brown had told police he found his parents bludgeoned to death early Tuesday morning when he returned home from a card party with friends in Lubbock.

THE STATEMENT SAID clothing that Brown is known to have worn up to 5:30 p.m. Monday was found, stained with blood, in a dirty clothes hamper at the Shallowater home. In addition, officers said they recovered other articles of clothing, along with towels and linens, from a trash receptacle in Mackenzie Park.

The articles found in the park also were blood-stained, the statement said, and some have "definitely been identified as belonging to Mr. and Mrs. Brown."

This evidence, along with a piece of carpet from the Brown home, has been sent to a Department of Public Safety laboratory for analysis.

INVESTIGATORS BELIEVE a car driven by Brown was used to transport the clothing and linen to the Mac-

kenzie Park area.

The district attorney's office said a statement taken from a "very material witness" in the case "does give what our investigation shows to be a clear picture of the sequence of events on this day, pointing to the guilt of Jack Brown as he is charged."

## Ferguson cites basic problems

Richard Ferguson, independent candidate for president of the Student Association, told the members of Alpha Phi Omega Wednesday night that he is vitally concerned with enhancing and expanding lines of communication between the student body and the administration.

FERGUSON, PRESIDENT OF Men's Residence Council, cited the consolidating of many small interest groups into one voice to more effectively represent students.

He told A Phi O's that the administration tends to ignore separate groups that do not go through the proper channels.

A wing-advisor himself, he stressed the need for adequate representation in men's halls and said that "Victorian" rules in women's dorms were ridiculous.

HE CITED THEFT AS A growing problem in residence hall parking lots. Student apathy, he said, was a definite problem which under new systems of communications could be improved.

According to Ferguson, a word-of-mouth system would be more effective. "All polls are somehow statistically invalid no matter how professionally compiled."

"WITH TECH'S GROWING population increasing at twice the rate of the U.S. population, there is a definite need for more cultural activities and fine arts," he said.

Ferguson summed up his speech by saying, "As your leader I want to follow you."

## Permits ready by May 14

Registration permits for summer school will be available starting the second week in May in the registrar's office.

REGISTRATION for summer school classes will be June 7 and 8. Classes will start June 9 at 7:30 a.m. Don Cates, director of registration and records said there will be more Saturday classes this summer than there has been in the past.

Summer school bulletins can now be picked up in the registrar's office and class schedules will be available about the middle of May.

The housing office is now accepting reservations for summer housing from off-campus students. Dormitory residents can make reservations the second week in May.

MURDOUGH WILL be open this summer for men students and Wall and Gates will be open for women students.

FLOWER OF YOUTH—Debbie Mullins, 4, was named the honorary KA Rose Wednesday. With her are

Howard Garrett (right) and John Reeves. Little Miss Mullins is the daughter of Dr. Jill Mullins.

## 'Desire' cast set in Theater finale

The University Theater has announced the cast for its fourth and final production of the year, Eugene O'Neill's "Desire Under the Elms," set for production May 12-15.

Mike Cook, Amarillo freshman, will play Eden Cabot and Robert Byron, Lubbock sophomore, will play Simeon played by Daniel Sample, Abilene freshman, and Art Prickett, Macfarland, Calif., graduate student, will play Ephraim Cabot.

**MARILYN MILLER**, Lubbock graduate student, will be seen as Abbie Putnam.

Cast as the Cabots' guests are Bob Breeze, Steve Maddox, Bill Stuart, Richie Williamson, Rose Lee Head, Iris Osmond, Venita Turcotte and Sue Skulley.

Parts still available include the Fiddler, the Sheriff, and the two men.

**PRICKETT HAS DONE** extensive theater work at Pepperdine College and in the Army. Mrs. Miller has experi-

ence in past Tech productions of "The Contrast" and "Romeo and Juliet."

Byron and Sample, as the two brothers who forsake the farm to seek gold in California, are also experienced actors. Byron has been seen most recently in the Tech production of "Right You Are." Sample has had drama experience in high school and Ar Force productions.

**COOK, FAMILIAR** for his roles this year in "Richard III" and "The Haunted House," brings experience to the role of the brooding third son, determined to inherit the farm.

The six neighbors will be played by students with various experiences in the University Theater productions for this year.

The play will be directed by Ronald Schulz of the Tech Speech Department.

Performances will be at 8:15 p.m. in the evenings, with a 3 p.m. matinee Sunday.

**BEACH PARTY BAND**—Les Watson and the Panthers will play Friday for Phi Delta Theta fraternity's Beach Party, set for 7:30 p.m. in Fair Park Coliseum. The dance is

all-school, and tickets are now on sale in the Union for \$2.50 per couple. Admission at the door will be \$3 per couple.

## Stockhausen arrives Friday with 'psychedelic symphonies'

The "psychedelic symphonies" of internationally renowned composer Karlheinz Stockhausen are coming to Tech in conjunction with the 16th Annual Festival of Contemporary Music.

**STOCKHAUSEN** will present his composition of gongs banging, feet scraping together and other noises in two guest appearances at 6 p.m. and 8:30 p.m. Friday in the Coronado Room of Tech Union.

He is currently visiting professor of composition at the University of California at Davis, and will appear in the music department's festival here immediately before leaving for Cologne, Germany, where he has been Artistic Director of

Cologne radio station WDR since 1963.

**DISTORTED** sounds are a part of the young German-born composer's exploration of "aural landscape." His compositional output includes chamber and orchestral works, piano pieces, musical theater and the electronic music to be presented at Tech.

Friday's program, "New Compositions with Commentaries," will include two recent works, "Moments" and Mikrophonie I, "both of which were discussed in a "Time" magazine article about Stockhausen in February.

**HE WILL** also present an electronic composition entitled "Telemusik" which was composed at the electronic music studio of NKH, Tokyo, in 1966. Dedicated to the people of Japan, this work is described by its composer as an attempt to achieve "a music of the whole world, of all countries and races."

In "Die Reihe," a magazine which Stockhausen has co-edited since 1955, he discusses the importance of electronic music in the modern world, with particular emphasis on its necessity as a means to radiophonic music production.

**STOCKHAUSEN** envisions electronic equipment as a means of production rather than of re-production. He further states that the only way to really experience electronic music is to enter the room where it is being played.

During the 6 p.m. session Friday, a film produced at a Paris television studio and conducted by Stockhausen will be shown with commentary by the composer.

**THE ELECTRONIC** music will be performed on a half-track tape machine connected to two stereo amplifiers and

four speakers placed in the corners of the room. The composer will operate the equipment and lecture from the center of the room.

Stockhausen's appearance at Tech is a presentation of the Fine Arts Committee of the Union in cooperation with the music department.

## Women's Day speaker set

Miss Irene Parsons will speak next Tuesday on "A Woman's Place" at the 35th Annual Women's Day, sponsored by the Association of Women Students (AWS).

Miss Parsons, who is personnel director for the Veterans Administration, was appointed to her position by President Johnson in 1965. She has worked for the VA since 1946. She is also a member of the Executive Committee of the President's Study Group on Careers for Women, established by President Johnson in 1966.

**MISS PARSONS** holds the highest position ever held by a woman in the VA and the highest personnel position held by a woman in the government. She received the Federal Woman's Award last year as the outstanding woman in government.

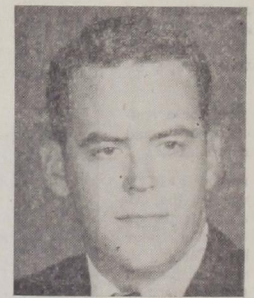

Over 170,000 people are under her jurisdiction. These people are scattered throughout the 252 VA installations, located in all 50 states, Washington, D.C., the Philippines, Puerto Rico and Rome.

**MISS PARSONS** received her bachelor of science degree from the University of North Carolina and her master's in public administration from George Washington University.

Prior to her work at the VA, she was a teacher in North Carolina and an employee of the Civil Service Commission. During World War II she served as a lieutenant in the U.S. Coast Guard.

Her personal efforts to advance equal employment opportunities for women have been cited as contributing greatly to the success of the VA programs.

# Tech will host talks in Union

Groups within Tech's School of Arts and Sciences and Engineering have scheduled conferences for this week.

**Latin American Studies**

Texas Tech will host the 15th annual conference of the Rocky Mountain Council for Latin American Studies Friday and Saturday in the Tech Union.

Tech Government Professor Raymond D. Mack is president of the organization and Geosciences Professor Karl H. Wuerschling is secretary-treasurer.

**MACK SAID** the Council was formed 15 years ago to increase inter-American understanding and to advance the teaching of Latin American studies.

More than 28 colleges and universities are expected to send representatives.

Dr. Thadis W. Box, organizational director for Tech's International Center for Arid and Semi-Arid Land Studies will be the principal speaker at a banquet for delegates at 6:45 p.m. Friday.

**Electronic Engineers Conference**

Tech Electrical Engineering Professor R. H. Seacat is heading a delegation of Tech students and professors at the Southwestern Institute of Electrical and Electronic Engineers Conference and Exhibition in Dallas this week.

**DR. SEACAT** and Amarillo College Professor Michael Parten are to deliver a paper on "The Synthesis of Orthogonal Filters by the Use of the Strum-Liouville Equations."

Tech Electrical Engineering Professor W. W. Wilkins is to address the conference on "The Properties of a Class of Nonstationary Random Signals."

Larry B. Masten, graduate student from Plainview, is to deliver a paper on "Broad-Band Impedance Matching Networks for a Class of RLC Impedances," and Larrie F. Judd, Lubbock graduate student, is to talk on "A Digital Phase Locked Oscillator."

**WELLS HALL**

Wells Hall has invited all candidates running for an executive office or the Student Senate to campaign in Wells. The campaigning has been restricted to the lobby and lounge area. Candidates may campaign using any method approved by the Campaign Rules Committee of the Student Senate.

**PARK ADMINISTRATION HORTICULTURE CLUB**

Dr. Elizabeth Sasser will present slides on "Gardens in Spain, the product of an Arid Land," today at 8 p.m. in the Architecture Auditorium.

# Air society will travel to Florida

The Arnold Air Society's membership is over 3,000. The 19th National Conclave will attract 10 Tech delegates from the local Lewis C. Ellis Squadron and Angel Flight.

The conclave will be held in Miami, Florida, April 23-26, according to Brig. Gen. Donald F. Blake, Commander of the Air University's ROTC.

**TECH ANGEL FLIGHT** delegates are Susan Elle **ANGEL FLIGHT**, the coed auxiliary of the Arnold Air Society, will hold its 12th National Conclave in conjunction with the annual cadet event. The cadets and Angels will represent more than 165 of the nation's leading colleges.

The cadets and Angels will review the past year's progress and will plan 1967-68 activities.

Highlighting the joint conclave will be appearance by leading public figures from the Air Force, the academic world and aerospace industry.

**THREE MAJOR** speeches are scheduled during the four-day meeting. The speakers will be Norman S. Paul, Undersecretary of the Air Force; Lt. Gen. John W. Carpenter III, Commander of the Air University; and James H. Straubel, executive director of the Air Force Association.

The Arnold Air Society is composed of over 6,500 ROTC cadets while Angel Flight's society's purpose is to promote the traditions and goals of the U.S. Air Force, to foster the ideals of American citizenship and to create a bond of professionalism and brotherhood among future officers.

**UNITARIAN CHURCH OPEN FORUM**  
The question, "Should such public issues as the Vietnam question be discussed from the pulpit?" will be discussed at the Open Forum Friday at 7:30 p.m. at the Unitarian Church of Lubbock, 36th St. and Ave. U.

## Legislators, prof appraise Connally's 'wet' bill

(Continued from Page 1)  
to lowering the legal age for drinking, and favors stricter punishment for DWI convictions.

Bates said he believes Connally can muster 79 votes in the House—enough to pass the measure if it gets out of committee.

**ANOTHER SUPPORTER** of the bill is E. A. Gordon, head of the Liquor Control Board's 175-man enforcement division and a veteran of 31 years service with the board.

Gordon said, "I hope the new bill goes into effect. Anything would be easier to enforce than the laws we have now."

## Aggies get new prof

Dr. Henry A. Wright has joined the Texas Tech Range Management faculty as an assistant professor.

Dr. Wright will teach range management and range ecology courses and conduct range research with emphasis on brush control. He has been connected with the U.S. Sheep Experiment Station near Dubois, Idaho since 1964.

**THE NEW TECH** professor holds a bachelor of science degree from the University of California and a master's and Ph.D. from Utah State University.

Dr. Wright has worked for the University of California Extension Service on range demonstration projects. He joined the Intermountain Forest and Range Experiment Station in Boise, Idaho in 1960 where he worked on grazing and fire studies.

He called present laws governing operation of private clubs a "sham," and said they were "unenforceable."

He said Connally's proposal would not involve major changes in the enforcement division's organization or function.

**GORDON SAID POSSESSION** of liquor by minors constituted the greatest single category of liquor law violations. LCB inspectors and other officers issued 100 citations to minors during Texas University's annual Roundup functions in Austin last weekend.

"I don't know why kids

drink like that," Gordon said. "I guess it's because they're restricted from it."

Not exactly, says Dr. Theodore Andreychuk, head of Tech's psychology department. "Teen-age drinking is the result of multiple motivation."

**AMONG THE MOTIVES** Andreychuk lists are a desire to feel sophisticated, to be with the "in" crowd and to feel more adequate.

"The teenager feels as if he's not truly grown up and adult unless he can knock off a few drinks," Andreychuk said.

"The problems come in drinking to excess. The teenager doesn't consider the consequences of his drinking because his thinking doesn't go that far. He thinks that since others can drink legally, he

can too.

"Alcohol, used wisely, and in moderation, can be beneficial because of its relaxing properties, but many teenagers can't handle it wisely and seem to think if a little bit is good, a lot is better."

**ANDREYCHUK** thinks Texas liquor laws are schizophrenic. (Schizophrenia: a major psychotic disorder characterized by emotional blunting and distortion, disturbances in thought processes and a withdrawal from reality.)

"They are schizophrenic in the same sense that it's not permissible to buy a drink in a restaurant, but it is okay to take a whole bottle in. Maybe the guy drinks more than he should instead of buying one cocktail before dinner and

being content with that.

"In effect, that's saying, 'It's okay if you drink this way, but not that way.'"

# Agreement necessary

Texas Technological College is no longer a technological college.

Few, if any, persons would dispute this point or that Texas Tech should ask the legislature to change its name. The present name is inappropriate, deceiving and damaging, they agree, and "university" should be included in the new name. But that is the end of the union.

Broadly speaking, the conflict is based on two opposing areas of thought: (1) retaining the "Texas Tech" portion to maintain tradition and the identity with the name which is already established and (2) an entirely new name to adequately reflect the size, purposes and accomplishments of this university, such as "Texas State University." Variations, combinations and compromises have been mentioned in past years, but none have been successful.

Such a compromise name will be necessary if the upcoming board recommendation is to be a unified one. The legislature has indicated it will pass a board recommendation if only it is not accompanied by widespread disagreement.

A genuine effort on the part of all name-change committee members to seek a commonly agreeable name, and a willingness to sacrifice some ground for the sake of agreement, should assure Texas Tech of a new name and a representative name by the end of this legislative session.

## Commending the Senate

Passage of the Calendar Year Act by the Student Senate Tuesday night adds another affirmative opinion to the Coordinating Board's study of the proposed plan to end the fall semester before Christmas, and will be the first received from a student group in Texas.

Already supporting the plan are Tech's President Murray and the Faculty Senate of the University of Houston. With two of the state's large universities behind it, chances for a change by 1968 are promising. However, more opinions are needed.

We suggest that the Student Senate send copies of its resolution to the student governments of the other 21 state-supported four-year institutions in Texas and urge them to adopt similar resolutions. All would be sent to the Coordinating Board.

As has previously been stated, the University Daily favors a semester which ends before Christmas. We commend the Senate for its action, and hope it will encourage other student governments to do the same.

## LETTERS TO THE EDITOR

### Answers critic of AAUP

The aspersion cast on the AAUP by the late Congressman Francis E. Walter of Pennsylvania, quoted in a letter appearing in the University Daily on April 15, are false in fact and mistaken in opinion.

### Quotes writer

In experiencing Dr. Grover Murray's recitation at the All-School Gripe Night concerning "atrocious English," I wish to quote from Mr. William Faulkner:

"If you would pursue in unbroken—ay, overlapping continuity the history of a community, look not in church registers and the courthouse records but beneath the successive layers of calcimine and creosote and whitewash on the walls of the jail, since only in that forcible incarceration does man find the idleness in which to compose, in the gross and simple terms of his gross and simple lusts and yearnings, the gross and simple recapitulations of his gross and simple heart."

Stanton M. Kizer  
504 Murdough

WALTER STATED in 1962 that congressmen should be pleased that George Washington University was censured by that "irresponsible" organization of "so called" intellectuals, the AAUP.

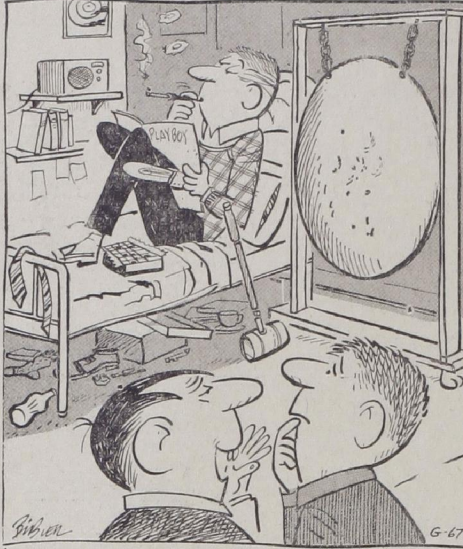

The truth is that George Washington University was not censured. In 1961, two years after Professor Reichard was dismissed from George Washington University and without adequate cause, the AAUP succeeded in persuading the university to admit its error and to make restitution (two years' salary) to Professor Reichard.

STUDENTS AT Tech are mature enough to judge whether the two administrative officials and 185 faculty members on this campus who belong to the AAUP are accurately described by Congressman Walter.

I trust a true statement of the facts will demonstrate to them quite adequately where the irresponsibility lies.

## LITTLE MAN ON CAMPUS

"HE'S THE FIRST PLEDGE WE'VE EVER GRANTED A SPECIAL PRIVILEGE—HIS OLE MAN OWNS A BREWERY."

### New food program needed

For the past couple of years that I have lived under the dormitory system here on Tech campus, I have observed

several attempts by student government or student government committees to thwart the everyday problem of poor food service.

EACH ATTEMPT met with similar results—complete failure in food improvement. Each attempt that I have observed resembles, for the better part, is predecessor. It would appear that with the recurrence of complaints and boycotts, someone could at least develop a new program instead of the worn-out method of voting for the worst meal of the week.

Whoever was in charge of this area this year in the Student Senate and whoever reargued this spent method deserved the congratulations of Food Service and an award for originality. I for one would like to know who and why.

Charles M. Reinken

## Letters to the editor

Letters to the editor of the University Daily should:

- Be typed double spaced.
- Be less than 250 words.
- Contain the name, address and phone number of the writer.

Letters should be mailed to Editor, the University Daily, Journalism Building, Texas Tech, put in the editor's mail box in the foyer of the Journalism Building, or brought to Room 102 of the Journalism Building.

THE UNIVERSITY DAILY, official student newspaper of Texas Technological College, Lubbock, Texas is regularly published daily, Tuesday through Saturday.

### ENGINEERING, MATH and PHYSICS GRADS...

*If you're willing to roll up your sleeves and tackle tomorrow's space challenges... YOU CAN GET A MASTER'S DEGREE, TUITION PAID, AS A MEMBER OF THE CHRYSLER SPACE TEAM.*

**CHRYSLER CORPORATION**

Chrysler Space Division offers qualified graduates a program combining specialized training with on-the-job experience and the opportunity to obtain a master's degree in Applied Physics.

If accepted, you will join the Chrysler Space team at the vast NASA-Michoud complex in New Orleans. You will begin your career with an intensive one-year program consisting of an initial six-month period of specialized in-house training in Orbital Mechanics, Mechanics of Power and Control, Rocket Engine Theory, the cube of variation and necessary related mathematics. The second six-month period, will include more extensive job assignments and an intensified in-house program in advanced math and control systems conducted by a leading educator in the field of space mathematics.

After successful completion of the first year, you will work on your master's degree in Applied Physics at Louisiana State University in New Orleans. LSUNO is a short distance from Michoud and offers a highly reputed graduate program.

While attending the university, you will be an active member of the Chrysler Space team at Michoud and be given time from work to accommodate LSUNO's schedule. Throughout your year of training and while you are working on your master's degree, you will be a full-time, salaried employee, eligible for all fringe benefits including retirement. Chrysler covers all tuition in connection with your studies at LSUNO.

Chrysler Space possesses an incredibly rich engineering and scientific heritage... the result of Chrysler's willingness to give full support to the most revolutionary ideas of its engineers and scientists. Chrysler Space is currently engaged in assignments in Apollo, Apollo Applications, Advanced Launch Vehicles and systems, scientific spacecraft such as orbiting, reflecting telescopes, and research and project development programs covering the spectrum of tomorrow's projected space requirements.

From your standpoint, this program represents a career that will enable you to advance as far as your ability allows you. We invite you to investigate this, today.

Sincerely,  
  
 V. J. Vehko

**A.M.E.N.**  
 (all miscellaneous editor's notes)

AUSTIN—"MEDICAL SCHOOL" is a taboo term right at the moment in this city of legislators and teapippers, and you can get just about as many views on the situation as there are people who are willing to talk about it.

At least five bills are now pending in the Capitol and all are at a standstill, except for the behind-the-scenes maneuvering often referred to as "politicking." Legislators tend to shy away from controversial subjects as long as possible. Only one makes any mention of a med school for Tech and Lubbock, and it has been branded as "politically-motivated" from practically every side, including the governor.

The bill, S.B. 196 authored by Sen. Blanchard of Lubbock, authorizes medical schools in Lubbock and Houston and a dental school in Dallas. It is a package bill—either all of it or none of it, unless the senator desires to change it. That's where the rub comes in.

The Coordinating Board, Texas College and University System, has recommended the Houston and Dallas schools, and included Tech only in its 20-year long-range plans as a nebulous "university base" of a school in West Texas. Generally speaking, Coordinating Board recommendations are the "law of the land" as to new facilities and the governor has said he will veto any bills not carrying their stamp of approval.

HOWEVER, IT'S NOT ALL as easy as that. Separate bills for the Houston and Dallas facilities has passed the House, but have been referred to the State Affairs Committee in the Senate by Lt. Gov. Preston Smith. Possibilities of them dying there are good, especially with Sen. Blanchard on the committee and a large backlog of bills ahead of them. The committee has but 10 meeting days left this session, and legislators have a knack for putting off bills until it's too late when they desire to do so.

As a result, the Lubbock school has been somewhat revived, despite the views of the Coordinating Board. Several members of the "opposition" have talked to Blanchard in the past few days. Two year medical schools have been mentioned. Such facilities are also topics for conversation in the offices of the Coordinating Board and the governor.

Whether or not a compromise is in the making is a matter for conjecture, but it does look as if that's what's happening. Whether a compromise would be able to carry the bill all the way through, including past the governor's desk and veto power, is another matter for conjecture. Many legislators are saying no one will get a medical school this session, even those sites recommended by the Coordinating Board.

SUCH A HAPPENING would be damaging to medical education in the state. The state is now short on medical educational facilities, and it would take at least six years to graduate the first doctor from a med school should it be authorized now. No action this session will postpone it another two years.

For Lubbock's school to begin operation would take even longer. According to Sen. Blanchard's bill, a hospital district and teaching hospital would have to be established and built by Lubbock taxpayers first, before money for the medical school would even be appropriated. His position is that if Lubbock knows it will receive a medical school should it build a hospital, it will be more likely to build the hospital. A situation such as the one at San Antonio would be avoided.

Sen. Blanchard's bill may be "politically motivated" to the extent that he is seeking the support of other legislators. That is a little different from any other bill.

He is not asking that a med school begin here tomorrow, but only that preliminary steps be taken.

**DELTA PHI ALPHA**  
Delta Phi Alpha, national German honor society, will meet today at 7 p.m. in room 207 of the Tech Union. The Roscoe Wilson Foundation Award winners will be announced by Dr. Carl Hammer, head of the Department of Germanic and Slavonic Languages. Election of new officers will be conducted. Hans Grunauer will present a program of slides on Switzerland.

**PANHELLENIC SCHOLARSHIP**  
Deadline for filing application for Panhellenic scholarship is Friday. Upper-class women with a 2.5 overall G.P.A., need, and potential (leadership and contribution) are eligible. Application forms are in the Dean of Women's office.

**TECH ACCOUNTING SOCIETY**  
Tech Accounting Society will meet today at 7:30 p.m. in the Reddi Room of Southwestern Public Service Co. Mr. Woodward of Motorola will speak and officers for 1967-68 will be elected.

**WOMEN'S DAY TICKET SALES**  
Tickets to the annual Women's Day Banquet are on sale now through April 21 and April 24. Tickets may be purchased in the Dean of Women's Office or at the ticket booth in Tech Union 11:30 a.m. to 1 p.m.

**ALPHA EPSILON DELTA**  
Alpha Epsilon Delta, pre-med honorary, will not meet today.

**DORMS? WHO NEEDS 'EM?**—Well, these girls, to name a few. They were a small sample of the long lines of girls waiting Wednesday to sign up for rooms for the fall semester, 1967.

## Phi Deltas to work!

Members and pledges of Phi Delta Theta will conduct the fraternity's annual Community Service Day this weekend with emphasis placed on two projects.

The Phi Deltas will work in town Saturday at the three Lubbock boys' club and will travel to Crosbyton Sunday to work at a Girl Scout Camp.

**JOHN COPE**, chairman of the program, has indicated that a good turnout is expected. "This is one of our biggest projects of the year. It enables us to show the community that fraternities stand for more than just social affairs. We expect approximately 45 pledges and 80 members to take part."

The work Saturday will be performed at three locations: The ABC, Optimist, and South

Plains Lions branches of the Boys' Clubs. Projects will consist of mowing grass, rebuilding baseball diamonds, repairing existing facilities, cleanup work, chopping weeds and hauling off rocks.

**SUNDAY**, a church service will be conducted prior to the work. It will be under the direction of Robert Richards at 10:30 a.m. Following this the sponsors of the camp will provide a noon meal. The afternoon will be spent cleaning out swimming pools, chopping weeds and repairing existing facilities.

This project is part of a national effort by 129 other Phi Delta chapters across the nation and in Canada. This is the 13th consecutive year the Tech Phi Deltas have participated in the event.

## Petroleum course set today at Tech

Three hundred and fifty oil industrialists are expected to attend the 14th Southwestern Petroleum Short, Course that begins today at Tech.

"The purpose of the short course is an assimilation of the newest technology available to industry. It is in reality a service to make business aware of the latest scientific advances," said William L. Duckler, head of Tech's petroleum engineering department.

"IT IS concisely a two-day program in which 28 technical papers will be presented by people of the petroleum industry on current production problems."

Each paper will be given in

a classroom session. Seven different classroom sessions will be conducted simultaneously throughout the day in the Civil-Mechanical Engineering, Electrical Engineering, Petroleum Engineering, and Architecture - Computer Buildings.

**THE SPEAKERS** are all involved in some field of the petroleum industry. They represent various oil companies, engineering firms, equipment manufacturers, magazines and federal and state agencies.

Registration begins in the Sun Room in the Tech Union at 8 a.m. All petroleum engineering majors will be excused from class.

## Engineers to show wares

Texas Tech will host simultaneously the 35th annual Science and Engineering Show and the 11th annual South Plains Regional Science Fair Friday and Saturday.

Roy Battles, senior mechanical engineering major from Dimmitt, will head the Science and Engineering Show, which

will include exhibits from 12 participating departments of science and engineering.

**THE EVENT IS** held every year to show advancements in technology made in the schools of science and engineering, as well as to be entertaining, Battles said.

The department of chemistry will offer exhibits on arid and semi-arid lands and water control in connection with the ICASALS program.

The Tech chapter of the American Association of Mechanical Engineers will assist with the exhibits for the high school and junior high fair.

**THE FAIR WILL BE** in the Mechanical Engineering laboratory and will show about 100 exhibits entered by students from Lubbock and surrounding areas.

Admission for both events will be from 2-8 p.m. Friday and from 10 a.m. to 8 p.m. Saturday.

## Beauty, Beast elected for APO dance

Tech's Beauty, Sandra Shelton and accompanying Beast, Robert Dill premiered Saturday night at the Alpha Phi Omega-sponsored Beauty and Beast Dance.

Miss Shelton was sponsored with 12 other coeds for the by Alpha Chi and competed title. Dill was one of eight men competing for the Beast title. He was sponsored by the Matador.

Jim Rowe, chairman of the election, said that the fraternity made \$200 as students cast their votes by dropping pennies into jars designated for the different candidates. This money will be used in providing information folders on Texas Tech and Lubbock for visitors at the entry stations.

**RED RAIDER APARTMENT**, under new ownership, two bedroom furnished (new furniture) \$89 per month. Two bedroom unfurnished \$55 per month. Located about 10 blocks north Tech campus, 2900 block, Cornell Street, all bills paid. PO5-6267.

Lubbock's most unusual interior decor. Three-room bungalow apartment. Quiet atmosphere. CARRIAGE HOUSE APARTMENTS, 1708 18th PO5-8706.

#### MISCELLANEOUS

**MATH TUTOR:** Certified experienced teacher. Full time tutoring by appointment. 2627 25th, SH7-4924.

Wanted: Good bartenders and attractive girls to work in the Bunnice Room of the Villa Club. Salary: open. Call SH4-1608 for appointment.

Learn to fly, reduced hourly rates, brand new plane, Join Flying Line Club, now in operation. PO3-7241 or 3136.

Need Tutor for Spanish 456. Good recommendation: Good pay, Call Charles Wilcox at PO5-5681.

# Exec election rally pits familiar rivals

Two familiar political rivals, Max Blakney and Johnny Walker, and a noticeable third man, Richard Ferguson, are set to clash for the vote of the populace Friday when the executive office elections open at 8 a.m.

**BLAKNEY AND WALKER**, running against each other in a rematch of last year's candidates for business manager, are confronted with the presence of Richard Ferguson, president of MRC for two years, in the presidential election.

A rally for executive office candidates will take place tonight at 7 p.m. in Municipal Auditorium with the aspirants limited to speeches of five minutes. Each candidate will have an opportunity to answer three questions submitted by students and reviewed by a panel.

Executive office nominating speeches will have a time limit of two minutes. Demonstrations of any manner and material campaigning is prohibited.

Candidates for the other

executive offices are: for vice president, Jay Carter and Ronnie Brown and for secretary, Gwen Connelley, Vicki Johnson, and Diane Naylor. David McDougall is unopposed for business manager.

The election polls in the Tech Union and the Administration Building will be open Friday from 8 a.m. through 5 p.m.; BA, Agriculture, Home Economics, Electrical Engineering and Civil Engineering polls from 8 a.m. to noon and 5 p.m.

Aside from a more organized rally, other changes in this year's election are that financial statements were required and material campaigning on election day is prohibited.

### CATHOLIC STUDENT CENTER

The Catholic Student Center is sponsoring a dance Friday at the Knights of Columbus lodge. The dance will last from 7:30 p.m. to 11:30 p.m. and music will be furnished by the Street Corners. Admission will be \$1.50 drag, \$1 stag and \$2 at the door. All Tech students are invited.

### AIR FORCE ROTC

The Aerospace Presentation Team from Air University, Maxwell AFB, Ala., will present a program on U.S. space efforts at an open meeting at 5 p.m. today in the Agricultural Engineering Auditorium.

## Walker gives plan

Johnny Walker, candidate for president of the Student Association, said Wednesday his plan for seating at athletic events is a combination of those used at the University of Texas and the University of Indiana.

He said students would buy optional athletic tickets at registration. Tickets would be available to spouses of students at a slightly higher rate.

### Prof to conferenc

Dr. Ilse H. Wolf, professor in the home and family life department, will represent Tech today through Sunday at the Annual Conference of Council of Consumer Information in Minneapolis.

The conference is aimed toward college professors with an interest in consumer education.

### REQUIEM FOR A SQUARE

You, like any other lovable, clean-living, freckle-faced American kid, want to be a BMOC. How can you make it? Well sir, there are several ways, none of which will work.

You're too puny to be an athlete, too lazy to be a valedictorian, and too hairy to run for Homecoming Queen. As for becoming a best-dressed man, how are you going to buy clothes with a miser for a father? Are you licked then? Is there no way to make BMOC? Yes, there is! And you can do it! Do what? This: Become a hippie! Get cool! Get alienated! Have an Identity Crisis! Be one of the Others!

- How? Well sir, to become a hippie, simply follow these five simple rules:
1. Read all of Tolkien in the original dwarf.
  2. Have your Sophomore Slump in the freshman year.
  3. Wear buttons that say things like this:  
NATIONALIZE DAIRY QUEEN  
ASTHMATICS, UNITE  
LEGALIZE APPLE BUTTER  
HANDS OFF AIR POLLUTION
  4. Go steady with a girl who has long greasy hair, a guttar, enlarged pores, and thermal underwear.
  5. Attend Happenings regularly.

This last item may require some explanation, for it is possible that Happenings haven't reached your campus yet. Be assured they will because Happenings are the biggest college craze since monoclonousis.

A Happening, in case you don't know, is the first formless art form. Things just happen. For example, eighty naked men come out and squirt each other with fire hoses containing tinted yogurt. Then eighty more naked men come out and light birthday candles in the navels of the first eighty men. Then one girl, clothed, comes out and pulls three thousand feet of sausage casing through her pierced ear. Then eighty more naked men come out and eat a station wagon.

There is, of course, a musical accompaniment to all these fun things. Usually it is "Begin the Beguine," played by 26 trench mortars, a drop forge, and a rooster.

There used to be, some years ago, still another requirement for becoming a hippie: a man had to have a beard. But no longer. Beards were worn in the past not so much as a protest, but because shaving was such a painful experience. Then along came Persona Super Stainless Steel Blades.

Today if you don't want to shave, well, that's your hangup, isn't it, baby? I mean when you've got a blade like Persona that tugs not neither does it scrape, what's your copout, man? I mean like get with it; you're living in the past. Shaving used to hurt, used to scratch, used to gouge, used to give you all kinds of static. But not since Persona. It's a gas, man. It's a doozy; it's mom's apple pie. You dig?

I mean, man, you still want a beard? Crazy! But you don't have to turn your face into a slum, do you? Shave around the bush, baby, neatly and nicely with Persona. I mean like Persona comes in double-edge style and Injector style too. I mean like any way you try it, you gotta like like it.

**MONTEREY CAFE**  
906 1st Place

# Palmer tries Dallas

DALLAS (AP) — Arnold Palmer, in his accustomed place as leading money-winner of golf, makes his first try for the big prize of the Greater Dallas Open since 1961 as he heads a field of 145 that moves out Thursday.

The tournament has a purse befitting Palmer's standing in

the game—he is the all-time leading money-winner—with \$100,000 posted for the pros to shoot at over the 6,777-yard par 35-25-70 Oak Cliff Country Club course. First money is \$20,000.

PALMER was lured here, it is said, by the excellent condition of the course and as a favor to his pal, Comedian Bob Hope. Hope wanted Palmer to come here because he is interested in a scholarship fund that benefits pro-amateur played Wednesday.

Regardless of how they got Arnie, it means tournament officials can claim the finest field in the nine-year history

of the event. Just getting Palmer, who has played in this tournament only once, was considered a master stroke.

UNLESS weather such as dogged the tournament last year pays a return visit, a big profit is expected to be made. The advance ticket sale already has made it a financial success. More than \$125,000 was in the till before activities started.

Roberto De Vicenzo, the man from Argentina who won it last year before he was even noticed in the bunched field, is back. There are seven of the 10 top money winners, with Palmer, No. 1 with \$73,273, dueling Gay Brewer, second with \$66,347.

Doug Sanders, Bobby Nichols, Frank Beard, Bob Goalby and Bert Yancey are other members of the top 10 playing here.

LOOKIN' OVER TH' BOYS—Head Football Coach J. T. King watches the Raiders during Wednesday afternoon's spring training workout. The coaching staff is currently trying to figure out a way to cope with the new punting rule.

# Punt rule haunts King as workouts continue

The old problem of what to do about the new punting rule has come back to haunt Coach J. T. King as he put the Raiders through yesterday afternoon's spring drill.

"We still haven't come up with a workable solution," King said as the grid aspirants began trotting towards the dressing room. "At our next scrimmage, we'll try both the tight punt formation and the spread punt formation and see which seems to work best. We'll punt to the safetyman from the spread and kick it out of bounds when we're in the tight formation."

"Since the interior linemen can't go downfield until the ball is kicked, the defense can put several men on the split ends," King said. "A least one school has had injury problems from this since the ends are covered so well."

The Raiders also devoted a couple of periods to goal line defense during the two-hour session.

"WE DIDN'T look too well at this spot," the Raider mentor commented. "However, this isn't anyone's fault since we haven't been able to give goal line defense too much time 'cause we're so caught up with this kicking problem. I think the defense will toughen up a little more near the goal line this Saturday."

Two more of King's starters have fallen victim to injuries, he most noticeable being senior quarterback John Scovell. Although the injury isn't serious (a sprained thumb), the doctor said the problem could become serious if the injury is aggravated. Scovell's hand will be wrapped up for two weeks—the same amount of time as is remaining in

the spring workouts. LARRY Gilbert, second team All-American last season, pulled some ligaments in his leg and is out of action for a while.

"We've got Larry out there," King said, "but we're not going to let him get involved with any hard contact. His injury isn't serious either, but we just can't afford to let these guys get hurt bad."

While Scovell was watching from the sidelines, his replacements were busy impressing King.

"BOTH TOM Sawyer and Joe Matulich took over pretty well today," King said. Joe's passing was considerably improved.

King also had praise for tackles Jim Moylan and Leon Lovelace.

"When those two put their minds to it, they can really play some smart defense," King said.

# Boston Marathon won by American

BOSTON (AP) — Dave McKenzie, a pint-sized iron man from New Zealand, ended Japanese domination of the Boston A.A. Marathon in a decisive fashion Wednesday, charging through the cold rain for a record clocking of 2 hours 15 minutes and 45 seconds in the 71st annual Patriot's Day classic.

The 24-year-old McKenzie crushed the four-man Japanese contingent on the hills about five miles from the finish and streaked to an easy victory.

The marathon is a 26-mile, 385-yard run from Hopkinton to Boston. McKenzie, a 5-foot-4, 120-pound newspaper printer, boasted his fourth marathon victory since Jan. 28 in over-

powering the field and shattering the course record of 2:16.33, set by Morio Shigematsu of Japan when he led a 1-2-3-5-6 Japanese finish in 1965.

A year ago, another team of Sons of Nippon was sent to Boston and finished 1-2-3-4 after running opposition into the ground.

Three girls turned up in the race—one of them a blonde listed on the official entry as "K. Switzer of Syracuse." She wore number 261.

The other two were unofficial. One, identifying herself as Roberta Gibb, 23, of Winchester, Mass., a UCLA student, hopped out of the shrubbery near the start. The other said she was Rocky Chamberlain, 14, of Newcomb, N.Y. None finished.

# Linkmen host SMU Friday

Two OTHERS that made King's "good guy" list for the afternoon were Phil Tucker and Don King.

The Raiders will hold another two-hour workout this afternoon and scrimmage at 2:30 Saturday.

Texas Tech golfers are hosts to Southern Methodist in a Southwest Conference golf match at the Lubbock Country Club at 10 a.m. Friday.

SMU, riding a 13½-10½ record, is in fourth place in the conference race. The Red Raiders, 11-13, are sixth.

Texas Tech fired its best golf of the season at Fayetteville Tuesday, only to lose to Arkansas 4-2. Robert McKinney of Lubbock and Ronnie White of Corpus Christi had two-under par 68s, Tom Orndorff of Dallas 69, and Jim Wilcoxson of Childress 72.

IN OTHER matches this season Gene (Butch) Mitchell Jr.'s Raiders defeated Rice 5-1, lost to Texas A&M 5½-½, were tied by Texas 3-3, and were edged by Baylor 3½-2½.

Texas Tech is ahead 5-1-3 in its SWC series with SMU.

# SMU, TCU up next for Raider netmen

George Philbrick, whose athletic career began in Dallas, returns to his home city Friday with a Texas Tech tennis team seeking to clinch another upper division finish.

PHILBRICK'S young Red Raiders clash with Southern Methodist Friday and with Texas Christian at Fort Worth Saturday.

Philbrick, all-around athlete for Dallas Tech, continued at Texas Tech under Pete Cawthon grid play climaxed by an appearance in the 1939 Cotton Bowl. Philbrick, now in his 15th year as Red Raider tennis coach, has seen his netters finish out of the first division in Southwest Conference competition only once—last year.

Sophomores, Mike Beene of Odessa and Rudy Gutierrez of Midland, man the top two positions. Junior Mike Farrish of Midland and Pat Acton of Wichita Falls round out the probable singles entries. Sophomore Murphy Yates of Wichita Falls likely will join Beene in doubles.

LAST YEAR Tech downed SMU 6-0 and lost to TCU 4-2.

So far the Red Raiders have beaten Rice 4-2, the first loss a Tech tennis team has ever given the Owls, lost to Baylor 4-2, and defeated Texas A&M 6-0.
