

College Rodeo Plans Set; Arbor Program Slated Today

Ticket Sales Begin Today With Clean Campus As Goal

The annual All-College Rodeo will start with its traditional parade at 5 p. m. Friday, April 16. Saddle and bare-back horse riding, bull riding, calf roping, and wild cow milking will be featured events at the Rodeo performances. Two time events will be open to women contestants: goat tying and cow milking.

Tickets will be on sale in the

Aggie building from today until 3 p. m. April 15. Student tickets are selling for \$1.20 each; tickets to people off the campus are \$1.50; all tickets purchased at the gates the days of the Rodeo will be \$1.50.

Entrance fee for contestants entering the rodeo will be \$5 per event entered. Awards will be made to the best all-around cowboy and cowgirl at the conclusion of

the rodeo at a dance Saturday night. The awards will be given on a point basis with each contestant receiving five points for first place, three for second place, and one for third place for each event in which he entered and placed.

Clubs on the campus will sponsor floats which will start the parade from Sneed hall, proceed around the circle and down Broadway and end at the Lubbock Sales barn. The Friday night performance will begin at 8 p. m.

The activities Saturday morning will begin with a chuck wagon breakfast at 6:45 a. m. in Aggie grove which will be filmed for the college movie by TCC. Rodeo Saturday afternoon will be held at 2:30 p. m. All performances will be held in the Panhandle South-Plains fairgrounds stadium. The day will be concluded with the rodeo dance in the Tech gym 8:30-11:30 Saturday night.

Floyd Lawhorn, senior aggie student, will preside as sheriff over a posse of deputies the two days of the rodeo. Western wear will not be compulsory for those not wishing to participate in all western days this year, nor will there be a bull pen, according to Edd Hughes, senior aggie major from Springfield, Colorado.

Complete mobilization of all Tech students on a voluntary basis for today's Arbor day clean-up campaign will begin at 8:30 this morning with serendizing of all campus dormitories by the Tech band. All classes will be dismissed, and double cuts will be counted for students missing classes tomorrow.

The band will lead students to a pep rally which will be held at 9:30 a. m. on the boulevard between Doak and West hall. Following a brief concert by the Tech band and leading of several yells by next year's candidates for cheer leader, snipe sticks and collection bags will be issued to students as an aid to the individual clean-up drive to be conducted for the remainder of the morning according

to Gene Nowlin, commander of Tech War Veteran's association. The campus Clean-up drive will begin officially with the dormitory systems covering the campus by assigned areas at 10:00 o'clock, he said.

Two men have been placed in charge of each assigned area. In charge of the north area of the campus, assigned to West and Craddock hall, will be A. J. Smith and Ted White. Center area, assigned to Sneed hall and Women's Dorm III, East, will be supervised by Curtis Sterling and Earl Lockhart. South area of the campus will be led by Andy Willingham and Stanley Hazlewood.

Students with vehicles which might be used in aiding the clean-up campaign are urged

to contact Gene Nowlin, TWVA commander, at the 9:30 a. m. pep rally. Nowlin states that at least six more light trucks are needed for the drive.

"All campus tools and vehicles will be available for student use throughout the day," George Long, campus building and grounds superintendent, says. Availability of at least six vehicles for clean-up purposes have been promised by college officials.

Arrangements are being made with Miss Mozelle Craddock, director of the dormitory systems, for an all-college picnic which will be held at noon on the Ad building green. Present plans indicate that the lunch will be served cafeteria style, with six lines served at one time. Arrangements for the picnic lunch are under direction of Ehl Upsalon Omkron, national home economics fraternity.

A bon fire behind the Journalism building will begin at 1:00 p. m. to initiate the afternoons' activities.

Planting of shrubbery and grass at the Rec hall and installation of a sprinkler system will highlight the afternoon's beautification program. The sprinkler system will be removed from the old band concert area, located diagonally southeast from the Textile building, to an area adjacent to the band hall. Preparations will be made in readiness for construction of an outdoor concert shell for summer concerts.

Activities for the day will be concluded with dancing in the Rec hall from 7:00-10:00 p. m.

Senior Carnival Clears Over \$700 As Committee Ponders Annual Gift

Over \$700 has been added to the Senior class treasury for purchase of a class gift, President Floyd Read announced yesterday. The annual Senior carnival held Saturday night, provided the funds as several hundred people turned out for the affair.

As class officials settled down to a weekend job of counting

coins, Bedford Raley renewed a plea for students to offer ideas for the Senior gift, which will be presented to the college at graduation exercises. Raley, chairman of the gift committee, said that the group had several proposals under consideration, and that additional suggestions would be welcomed by the committee.

Suggestions for the gift may be mailed to Raley at 1810-13th St., or left in the Toreador box in the Press building.

Read, in reporting the financial success of the carnival, said that \$700 was collected, but that debts of not more than \$50 were still outstanding. The Centaur-sponsored booth made the greatest profit during the evening, Read said.

Student support and participation were given credit by the class president in putting over the show. He expressed his sincere appreciation to each college organization which sponsored a booth, and he gave high praise to Andy Willingham, chairman of the carnival committee, for planning the show.

Local business firms which donated prizes to the carnival included: Groce Furniture, Clark's Drug, Meinecke Hardware, Household Supply, Nunn Electric, Rebie Steger's Dress Shop, Hackel's Ready-to-Wear, Jones-Roberts Shoe Store, Hub Clothiers, Maddox Western Leather Goods, Elrod's Tailorline, Midway Theatre, Tech Theater, Lindsey Theater.

King's Jewelry, Hemphill-Wells, Jo Ann Shop, Dunlap's, McGhee-Burdine Cleaners, Durham-Burdine, Waltons, S&Q Clothiers, Sport Center, Tech Drug, Corcoran's, Thomas Jewelry, Varsity Bookstore, Bray's Campus Toggery, College Avenue Drug, Little Fashion Shop, Baldwin's Flowers, College Bookstore and Hackel's College avenue.

Parsons Attends National Council Of Textile Deans

L. E. Parsons, head of the textile engineering department, is attending the spring meeting of the National Council of Textile School Deans of which he is president. The meeting is being held April 5-8 in New York City.

Problems now confronting textile schools will be discussed at the meeting. The council is cooperating with federal officials in the interest of providing information about the textile industries. Attention is also given to veterans and others who wish to prepare themselves for positions in the textile industries, which is largest of all manufacturing groups with the exception of agriculture and its products, according to a pamphlet issued by the Textile Foundation in Washington, D. C.

On his return trip Parsons will visit with Tech graduates Basil Hill (1933), general manager of the Pomona Manufacturing company, Greensboro, N. C., and Don Maddox (1934), vice president in charge of production for Textiles Inc., Gastonia, N. C., seeking information about employment for graduating textile students.

Parsons will also give a report to the Textile Institute of America, which is being held in New York City.

Parsons will also give a report to the Textile Institute of America, which is being held in New York City.

Forum Initiated Members Thursday

Betty Copeland, Mary King, and Barbara Conkling were initiated into Forum at 5 p. m. Thursday in the home of Sue Rainey, 2413-A Broadway, assistant professor of P. E. for women. These new members were elected to replace Winifred Larabee, Hopsy Maas Hervey, and Betty Bomar Self.

Forum is composed of 15 senior girls selected on the basis of grades, activity, and student work for the college. Sunday afternoon fireside Forums are sponsored and presented by Forum for the benefit of all college students. Katherine Nelson is president.

Chem Engineers Work On Show

A working model of a packed tower in operation showing the fractionation of petroleum crude has been prepared by the chemical engineers as one of the new attractions in the sixteenth annual Engineers' show. This model will be in operation in C-A, announced Sam King, senior engineering student from Longview and manager of the chemical engineering exhibits.

In the hall of the chemistry building will be the apparatus for the molding of plastic ash trays which are sold each year as souvenirs of the show. Visitors will have an opportunity to witness the making of the ash trays as well as to purchase a practical and useful souvenir, according to King.

Chemical engineers will attempt to create, in a miniature manner, fog and rain in another demonstration. Other exhibits will be the "Drinking Bird", demonstrating up hill flow of a liquid; electroplating; the magic stream, demonstrating many colors originating from one source; luminal phosphorescent light; and heavy milk in which iron floats.

Pianists To Play On Artist Course Monday, April 12

Vitya Vronsky and Victor Babin, duo-pianists will be presented under auspices of the Tech Artist course at 8 p. m. Monday at the Lubbock high school auditorium.

Vronsky and Babin are making a cross-country tour under the management of F. C. Coppicus and F. C. Shaw, of Columbia Concerts. The program will include a new Babin suite of folk tunes of many lands.

Russia was the birthplace of Vitya Vronsky and Victor Babin. Miss Vronsky was born in Kiev, and Moscow was the home of Babin. They both studied piano under Artur Schnabel in Berlin. They made their debut as duo-pianists in London and later made recordings in England, introducing new music to the two-piano repertoire. In 1937 they made their debut in America.

Vronsky and Babin have appeared with the London Philharmonic, the Chicago Orchestra and the New York Philharmonic Symphony. They have made recordings for Columbia and Victor.

Robert A. Millikan To Lecture May 2-5

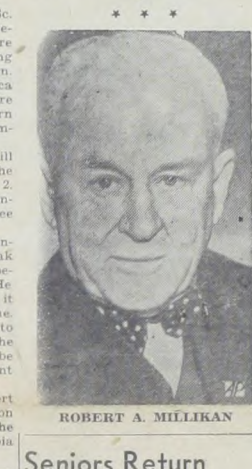

Robert A. Millikan, Ph. D., Sc. D., LL. D., one of America's foremost scientists will give a lecture series at Tech, May 2-5, according to President W. M. Whyburn. "There is no man in America whose arrival should cause more interest and excitement", Whyburn said when he announced the coming lectures.

The eighty-year-old physicist will give his first speech at Tech at the Recognition day service May 2. Then he will lecture at special convocations held the following three days.

Dr. Millikan was the first scientist to publicly write and speak that there is no contradiction between science and religion. He first made this statement when it was considered a very radical one. Dr. Millikan was the first man to "explore" inside an atom, so "the atomic age we are now in can be traced back to him," President Whyburn said.

Born in 1868 in Iowa, Robert Millikan got his primary education in Iowa public schools. Later he received his Ph. D. at Columbia University for Columbia and Victor.

(Continued on Page 4)

ROBERT A. MILLIKAN

Students, Profs. To Receive Awards During Ceremonial Parade Tomorrow

Tech's ROTC will have a ceremonial parade Thursday as a part of the annual Army day activities, stated Lt. Col. L. C. Adams, who will be reviewing officer.

Certificates will be presented to Cadet Col. Richard Tibbetts, Cadet Lt. Col. Robert Adams, Cadet Capt. Harry Alderson, Cadet Capt. Louis Stevens, Cadet 1st Lt. James Kee, Cadet 1st Lt. Ray N. Rhodes and Cadet 2nd Lt. Harold Ballew. Cadet Colonel Tibbetts will be commander of the troops.

Members of the staff, cadet corps, faculty, student body, and community will also receive appropriate decorations. Lt. (j.g.) Robert L. Mason, USNR, assistant professor in the mechanical engineering department, will receive the American Theater and Asiatic-Pacific Theater medals. These medals will also be awarded to Lt. (j.g.) G. C. Dowell, former Tech grid star; Chief Warrant Officer Joe Haddon, ORC, lecturer in music, and Eilly Joe Mallard, senior engineering student. Staff Sergeant Jerry Hoover, USMCR, will receive the Asiatic-Pacific Theater medal. Hoover is a Lubbock policeman.

The ceremony, to be at 4:15 p. m. on the regular parade ground west of the Textile building, is open to the public and all students are urged to attend, Colonel Adams said.

Movie Stars Are Invited To Show

At least two prominent motion picture actors have been extended invitations to be guests of the annual Varsity show, according to George Ater, director. Approval by the student council and President W. H. Whyburn was given for the invitations, but no word of acceptance or refusal of the invitations has been received. Ater stated, "I am sure that the show's 110 personnel, including a 20-piece band and 90 students in the cast, have stepped up rehearsals to a nightly affair as the deadline nears. As many as five male singers, along with stage hands, artists, and costume personnel are needed to complete list of workers on the show."

The deadline for original songs for the Varsity show has been extended, Ater said. Those who are interested in writing songs for the show are asked to meet with Ater at 5 p. m. Thursday in Ad-202, he stated.

Reception Honors Dean Emeritus

Dean J. M. Gordon, professor of foreign languages and dean emeritus of the arts and sciences division, will be honored by a reception 4-6 p. m., April 25 in the Recreation hall, Tech faculty, and the Alumni and Ex-Students association are sponsoring the event, announced D. M. McElroy, secretary of the Alumni and Ex-Students association.

A portrait of Dean Gordon, painted by John Young-Hunter, nationally known portrait painter, will be presented to the college at the reception, and will be on display there. Members of the committee for planning the reception are James G. Allen, dean of men; R. C. Goodwin, dean of arts and sciences; McElroy, and ex-Teachers W. B. Rushing, George Langford, John Hiner Wilson, Homer Maxey and Reverend Jack Lewis, pastor of the Lubbock Presbyterian church.

Pre-Election Rally And Street Dance Scheduled Monday; 4 Out Of Races

Pre-election rally and street dance will be held 7:30-9:45 p. m. Monday in front of the Ad building. The rally is being sponsored by the Tech Chamber of Commerce, according to Hubert Burgess, president. Master of ceremonies will be Floyd Read, senior business major.

All candidates for Student association and council representative offices will be introduced at the rally preceding the street dance. Records which will furnish the music for the dance will be broadcast over the ROTC speaker system.

Seniors Return From DM Trip

Thirteen senior students majoring in dairy manufactures returned Saturday from an eleven day field trip over the state where they observed dairy manufactures operations representing all phases of the industry in the state, announced Prof. L. G. Harmon, acting head of the department.

The group visited industries including market milk, ice cream, cheese, butter and milk evaporation both for condensing and for powdering. Special arrangements were made for the students to tour the King ranch where they observed the results of fine breeding in both dairy and beef cattle. A side line of the King ranch was a tour of the racing stables where many fine horses including the sire and the brother of the famous horse Assault were seen.

Harmon stated that many of the plants visited are now employing Tech graduates and many managers of other plants are anxious to employ graduates of the department.

Forum Initiated Members Thursday

Betty Copeland, Mary King, and Barbara Conkling were initiated into Forum at 5 p. m. Thursday in the home of Sue Rainey, 2413-A Broadway, assistant professor of P. E. for women. These new members were elected to replace Winifred Larabee, Hopsy Maas Hervey, and Betty Bomar Self.

Reception Honors Dean Emeritus

Dean J. M. Gordon, professor of foreign languages and dean emeritus of the arts and sciences division, will be honored by a reception 4-6 p. m., April 25 in the Recreation hall, Tech faculty, and the Alumni and Ex-Students association are sponsoring the event, announced D. M. McElroy, secretary of the Alumni and Ex-Students association.

Army Engineers Need Employees

The Army Corps of Engineers, Galveston, Texas District, needs employees to accomplish its construction program in connection with flood control and maintenance of rivers and harbors, according to Col. B. I. Robinson, district engineer. A representative of this district will be on Tech campus to interview students sometime this month, said Mrs. Jean Jenkins, secretary of the Placement committee.

These employees will have a 40-hour work week, with 26 days of vacation and 15 days sick leave, says the colonel. All excess and holiday work will be paid for at overtime rates.

Jobs and the beginning salaries per year are as follows: concrete construction engineer, \$4,149.60; structural design engineers, \$2,644.80-\$4,149.60; mechanical construction engineer, \$3,905.20; civil engineers, \$2,644.80; civil engineering aides, \$3,397.20; photogrammetric engineering aides, \$3,397.20; mechanical engineering aides \$3,397.20; hydraulic engineering aides, \$2,644.80.

Soils analysis engineering aides, \$2,168.28; real estate administrative assistant, \$4,149.60; photographers, \$2,644.80; topographic draftsmen, \$2,644.80; civil draftsmen, \$2,394-\$3,397.20; cartographic draftsmen, \$2,394-\$3,021; land appraisers, \$4,149.60; real estate negotiators, \$3,397.20-\$4,149.60; and fourth mate on pipeline dredge, \$1,171 per hour.

Further information may be obtained by writing to Placement Section, Personnel Branch, Galveston District, Corps of Engineers, P.O. Box 1229, Galveston.

Meeting Of ASME To Be At Tex. A&M

Engineers will hold their annual branch meeting at College Station, April 12-13. Tech will send 30 representatives from the student body who will be accompanied by Prof. L. J. Powers, Asst. Prof. Floyd L. Williams and Asst. Prof. Robert L. Newell, of the mechanical engineering department.

Schools participating in this meeting will be Rice, Texas University, Texas A&M, Louisiana State, Tulane and Texas Tech. The program will consist of speeches by representatives from each of the schools. Prizes will be awarded the winning speakers, announced Professor Powers.

Friday Is Deadline For Fee Requests

Deadline of 5 p. m. Friday has been set for any organization on the campus desiring to request allocations from activity book sales for school year 1948-49, according to Clint Formby, student council business manager.

Organizations which have received allocations from the 1947-48 activity books and which are requesting further allocations should send an itemized list of expenditures for this year's activities, in addition to the amount requested from next year's fees, he said.

CLINT "RAFFLES" FORMBY is pictured with some of the door prizes given away. (Raffles didn't win ALL of those—just four of 'em). The other photos which have just stepped out of the

sels helped make the carnival a success. At right are Barbara Surman, Wanda Jean Shofner, Sue Lawson and Betty Bratton who have just stepped out of the

Stangel To Attend Agriculture Meet

Dean of Agriculture W. L. Stangel left Lubbock yesterday for San Antonio where he will join eight other Tech delegates at the twenty-ninth annual southern regional conference for agricultural educators, which started its four day meeting Tuesday.

Purpose of the conference is to allow vocational agriculture supervisors and teacher trainers to study methods used by other colleges in the teaching of farm subjects, Stangel said. Delegates from several southern states will be present at the meeting.

Representatives from Tech include: R. L. Chappelle, head of department of agricultural education; L. M. Hargrove, assistant professor; T. L. Leach, lecturer; T. E. Limer, lecturer; Mrs. Joyce Leach, department secretary; and State Board Supervisors, O. T. Ryan, Z. G. Brewer and T. R. Neely.

Loyalty Will Out

Today is NOT a holiday; it is Arbor Day on Tech campus. Classes are being dismissed for one specific purpose, to allow students the necessary time to do a job that they, through long and loud cries of indignant protest, have indicated was necessary—to remedy at least part of the deplorable condition of the campus.

This is not an attempt to browbeat anyone into doing anything. It is only an effort to make the record clear as to exactly why this day has been set aside free of classes or other encumbrances that would prevent any one of you from doing your rightful share in making this a brighter, cleaner, and happier place in which to pursue your education, both academic and social.

Arbor Day has not been forced upon us by the board of directors or the faculty. It is a project fostered by the students themselves who saw the need for such an undertaking and vigorously pioneered it to acceptance by the powers that be. Its success or failure lies directly with the individual student whose loyalty and pride in his school will tell the tale.

If you are on the campus today doing your part, rejoice in the personal satisfaction derived from a job well done and services rendered to yourself and to your school. If you are not, then rejoice in the fact that you have fellow students more loyal than yourself, and in the benefits of their labor.—B.K.S.

Let's Be Sane And Safe

If you have had little experience in walking the straight and narrow, you now have an excellent opportunity to practice up a bit. Those safety lanes that have recently blossomed out on the campus during the Easter vacation are for a purpose and are the result of a great deal of effort on the part of Techsians, both faculty and students, who are interested in giving you every opportunity to remain in one piece for the rest of your college career.

They and the various signs that have recently been erected are the results of a good deal of time and effort spent to facilitate the movement of both pedestrian and vehicle traffic and make travel on the campus as safe as possible. It is only a reasonable request that we all observe them. Time between classes is sufficient to make short cuts unnecessary and the delay caused by running out in front of cars usually offsets the advantage of distance saved.

A word of warning is in order concerning failure to obey the rules. Tech is within the Lubbock city limits and its traffic is governed by the same rules that apply in town. It has been emphasized by the police department that infractions will be dealt with as severely here as in other parts of the city. The campus is being patrolled and, now that the proper signs and cross walks have been marked off, indications are that there will be no further tolerance of violations.

Observing the rules has its advantages too. It must be sweet revenge for a harassed pedestrian used to traversing the circle at the hazard of life and limb to hear his erstwhile tormentors come to a screeching halt as he casually steps into a safety lane.

The very discreet signs requesting that we stay off the grass and flowers speak for themselves and it is unnecessary to ask any loyal Techsian to observe them.

Let's give ourselves a break as well as our fellow student and our school by observing the traffic rules.—B.K.S.

Sixteen Pledges Initiated By Sans Souci Wednesday

Sixteen pledges became members of Sans Souci social club Wednesday evening in a formal initiation held in the home of W. E. Eisenberg, 2214 Sixteenth street. Those initiated were Dorothy Anderson, Nita Bragg, Peggy Davis, Barbara Ann Bidwell, Martha E. Knacha, Delight Hardin, Gay H. Reeves, Tommy Ann Campbell, Rachel Dunaway, Louise Elliott, Betty Jenkins, Roena Reitter, Pat Pierson, Lavora Manning, Sue Livingston and B. J. Parnell.

LOS CAMARADAS INITIATE

Twenty-one new pledges have been initiated into Los Camaradas. They are James Bickel, James Blehn, Joe Turner, Boone, Bobby Bowers, John Conely, James Crabb, Leon Giesecke, Billie Bob Lee, Martell LeVeque, Billy Lynch, Albert Martin, Leonard Mouser, Oscar Orr, Bob Overton, Jean Rankin, Joe Rankin, Dawson Reid, H. H. Sampson, Cooper Slay, James Stribling and Gilbert Wallace. The only time the modern mother puts her foot down is when the light turns green.

Screen Fare

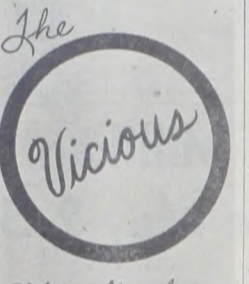

By ALICE MEADING

Cynthia, starring Elizabeth Taylor and George Murphy is a warm and appealing picture. The father of a typical American family in a small town has given up a brilliant future as a doctor in order to pay the bills resulting from his daughter's frail health. The girl rebels against the constant supervision of the family and goes to a school dance against her parents' wishes. When nothing terrible happens to her health as a result of her escapade, they all realize it is no longer necessary to coddle her and that she can lead a normal life. Showing for the last time today at the Tech.

The action of *The Women on the Beach* takes place around a Coast Guard station on a wind and rocky coast. There, in a small cottage, a blind artist (Charles Bickford) and his wife (Joan Bennett) lead a cat-and-dog life. Robert Ryan, as the officer in charge of the station, becomes enamored of Joan. When she pairs herself as a hopeless woman tied forever to a blind and brutal husband, Ryan becomes completely infatuated and dangerously hostile to the husband. He finally causes the husband's death in an attempt to prove that Bickford is shamming blindness. It could be a better picture by changing both the plot and the actors. Today and tomorrow at the Plaza and Broadway.

Yvonne de Carlo plays her typical sexy part in *Stage Girl* at the

BY Oleta Stewart

Dry-Cleaning House-Cleaning

After devoting half an hour to telephoning, the Circle came up with some interesting statistics concerning a collegiate necessity—dry cleaning. The question has been raised as to whether or not the tailor shops on the Avenue, recognizing the need for economy of the majority of Tech's struggling students, offer any reduction in prices or—if they, acting on the realization that proximity will bring them the college business anyway, charge all they can get.

The conclusion reached by the Circle is that dry cleaning prices in the city of Lubbock vary like a West Texas barometer, and the College Avenue establishments should be using golden coat hangers. The Circle's opinion coincides with that of a majority of the student body members when it makes the statement that cleaning shops near the college, because of their location, seem to be charging all the traffic will bear.

Down town shops may have prices just as high but in general they have pick-up and delivery service. Even if such service is offered by avenue shops, college students do their own bringing and delivering of clothing, and thus do not run up an establishment's overhead bill, so why should they be required to pay for services they don't receive?

In other college towns tailor shops have been known to have cut rate campaigns and to offer special college student cleaning weeks. Such a practice might do much to restate the good will of Techsians, and a few reductions would not be likely to seriously unbalance Lubbock's dry cleaning economy. Following is a list of some Lub-

Cataloging The Campuses

By JERRY STOLTZ

"Heard you were moving the piano, so I came over to help." "Thanks, but I've already carried it upstairs." "All alone?" "None, harnessed the cat to it and drug it up." "You mean your cat hauled that piano up two flights of stairs? How could a cat pull a heavy piano?" "Used a whip."

Results of a poll taken by a writer for THE UTAH CHRONICLE on ideal dates and ideal mates were as follows: It was found that there is a definite contrast between the things a man expects of his prospective bride and the things he looks for when asking for a date.

Midway today and tomorrow, *Born For Trouble* features Van Johnson and Faye Emerson there Friday and Saturday. *Black Bart*, with Dan Duryea and Yvonne de Carlo is showing at the Lindsey today through Friday. *Albuquerque* is on at the State and Tower through Friday. Randolph Scott and Barbara Britton have the leads.

Requirements given for a good wife were: good manager, good cook, socially able to meet his friends and business associates, trustworthy, loyal, helpful, kind and thrifty. The women had some definite ideas on future husbands. She wants him to be physically taller, larger and heavier; she wants him to be better in athletics than she is; she wants him to be eugenically sound; she wants him to be a good provider.

Besides all this the college woman of today wants common interests with the man; she wants him to be either more intelligent or to have a higher education than she has; she wants him to be of the same religion, and lastly she wants a man she can be proud of socially.

You probably heard about the (Continued on Page 4)

Quadrangular Track Meet Slated Here Friday

Trackmen Appear In First Home Tilt

Tech Squads Play Hosts To HSU, ACC, McMurry

By BOB LILLY
Toreador Sports Writer

Tech thin-clads will make their first appearance before the home fans Friday as they play host to Abilene Christian, McMurry and Hardin-Simmons in the second of a series of quadrangular meets started last year and unreeled in Abilene. This will be the first time this year the Raiders have come out in full force, competing in all track events, tennis and golf.

Teoff time for the linksmen is 1 p. m. at the Country club course, while the netmen will begin their tourney at 1 p. m. on Tech courts. The track meet starts at 2 p. m. on Tech field.

ACC Is Strong

Coach Maxey McKnight hopes to avenge last year's loss to Abilene Christian, who will again field a strong team and be the Raiders most potent foe. McKnight is relying on Border conference champion sprinter, Charley Reynolds and Seth Murphey in the 100- and 220-yard dashes, and James Mullins in the 400-yard race.

The 440 assignment will be handled by Joe Wilson and Ernest Hawkins. Henry Briscoe dons Tech colors in the half-mile, and in the mile test Edgar Hawkins, James Cruser and Doug Barber are the Raiders' contestants. The relay team for the home school will be made up of Ernest Hawkins, Costin Bufkin, Joe Wilson and anchor man Reynolds.

Encouragement for the local fans is the past performance of Charles Pinnell who took the high hurdles event in Fort Worth recently, and Ed Clepper. Clepper will also enter the high jump. The low hurdle event Raider entree is Pinnell who will be joined in the high hurdles by Clepper. Broad jumpers for McKnight's team are Bufkin and Clepper, and the field events will be handled by "Dingy" Davis.

Play Commences In Intramural Bowling League

Reece Garren, junior engineer from Odessa, was elected president of the newly formed Tech Bowling league, which had its first meeting Wednesday in the Sneed hall lounge. Tommy Scott, sponsor of the league, announced Paul Knight, sophomore from Odessa, was elected secretary-treasurer.

The limit of eight teams have already applied for membership in the league and have played the first match, but there is still room for seven men, Scott said.

The league will meet each Friday night for the next eight weeks at 7 p. m. instead of 6:30 at the Lubbock Bowling alley, Scott stated.

Trophies To Be Presented

Trophies will be presented to the winning teams as well as the highest individual scorers in an eight-week round-robin tournament, Scott commented.

There will be no inter-collegiate matches this year, Scott said, but plans are being made for matches with other schools next year as well as a women's bowling league at Tech. The league, supported by more than 45 participants, expects to have the support of a majority of Tech students by next fall, he continued.

Eight teams and their captains in the league are: Snipes, Eddie Davis; Lucky Strikes, Jimmy Hall; Turkey Trotters, James Hill; Raiders, Ed Moore; (unnamed), Bob Norris; Press Bulls, T. I. Brown; Shamrock Rollers, Reece Garren;

CHAMPS TO MEET IN PLAY-OFF

Intramural All-Star Teams Selected

The all-star player selection on the Independent and Men's Inter Club council basketball leagues were announced Friday by George Philbrick, director of intra-mural sports.

The Centaur club, finalists in the MCCC league against the Wranglers, placed two men, Dick Wolfe and A. C. Griffin, on the MCCC all-star five, as the Wranglers, Silver Keys and College Club placed one each.

The Independent basketball league winners, the Dusters, placed James Cunningham and Paul Jones on the league's all-star team while the Lazy Five, Elks, Polecats and Press Bulls placed one each.

MCCC ALL-STARS

The MCCC all-star team consisted of Forwards Wolfe of the Centaurs, and J. L. Gamble of the Wranglers; Center Griffin, Centaurs; Guards Joe Wheatley, Silver Keys, and Paul Haskins, College Club.

Honorable mention on the MCCC team were Soapy Smith, Centaurs; James Peacock, Wranglers; Bobbie Lewis, College Club; Andy Williamson, Soeli; Gene Thomas, Kemas; Ed Smith, Los Cams; and B. J. Salem, Silver Keys.

INDEPENDENT ALL-STARS

The Independent all-league team was composed of Forwards Cunningham, Dusters, and Glen Johnson, Lazy Five; Center Edmund Deer, Elks; Guards Jan Blackwell, Press Bulls, Jones, Dusters, and Farred Farha, Polecats.

Receiving honorable mention on the Independent league all-star team were Donald Bradley, Dusters; Don Hewlett; Lazy Five; Charles Sharp, Elks; J. B. McCray, Weevils; Shaif De Garish, Polecats; Wayne Du Voney, Red Shirts; Allen Simmons, Press Bulls; and Thomas Bailiff, Polecats.

The third all-star team coming from the Dorm league will be announced at a future date, Philbrick said.

Champions from each of the three leagues are to meet in a triangle play-off soon to determine the all-college winner, Philbrick stated.

STAFF SLANTS

Tech's showing at the Texas Relays was not too impressive, but the track squad was not at full strength and it was competing against some of the best tracksters in the entire nation. Avery Brundage, an umpire for the Olympics selection committee, must have been rather disappointed in the showing of several of the heralded performers at the two day meet.

Flying Charlie Parker of Texas university captured the century in the slow time (for the contestants entered) of 9.9 seconds which is considerably slower than his 9.5 time turned in at the Fort Worth Exposition meet. In fact, if he had turned in a performance at Covtown similar to the one in Austin he would have probably been in seventh or eighth position—but this year Parker has managed, somehow, to stay in front of the pack regardless of the time.

The Raider tennis aggregation is continuing on its winning way this season. So far it has dropped one lone meet, and that a close one to Texas Christian university in Fort Worth on poor courts which probably handicapped the visitors more than the TCU netmen.

The Techsians, paced by Jake Broyles and Glenn Ivy, are being picked to cop the Border conference crown this year. Not only does the Raider team possess depth, but it has a valuable one-two punch in Broyles and Ivy. Broyles, who is undefeated this season, is rated sixth in AAU play, and the doubles team of Broyles and Ivy is rated third.

One team that the Tech golf squad would like to defeat is the one from North Texas State Teachers college which downed the Raiders at Denton during the Easter holidays. NTSTC's linksmen are aiming for the national Pin-Men, Bob Bilheimer.

Results of Friday night's three-line matches were: The Lucky Strikes beat the Snipes 2135-2092, the Raiders defeated the Turkey Trotters 2173-2133, the Shamrock Rollers eased by the Pin-Men 2134-2090 and the (unnamed) beat the Press Bulls 2049-1969.

title this year and enter ever match determined to come up with a victory. The Denton course was rather tricky for the Techsians and they were tired as a result of previous matches that week with SMU and TCU. However, if North Texas comes to Lubbock for a return match it will find a group of Raiders bent on revenge.

Ed Clepper appears certain to grab some valuable points for Tech at the Border conference track and field meet in May. At Fort Worth he placed second in the high jump with an effort of 6 feet 2 inches. In the Texas Relays he cleared the bar at 6-4 which is just shy of the 6-foot, 5 and 1-4 inch Border conference record set in 1936 by Ken Heywood of Temple. Clepper faced some of the best high jumpers in the Southwest at Austin and Fort Worth.

Bill Henderson's manager, Joe Vella reports that Henderson will make his debut as a professional in about two weeks. Vella was enthusiastic about the youthful ex-Techsian and is giving him every opportunity to develop into a top-notch pugilist.

The Tech Bowling league has been affiliated with the American Bowling congress which will make possible a better quality of participants in the loop due to the fact that several first rate keggers which are attending Tech are now eligible to enter competition in the intramural league. Affiliation with ABC almost ascertains success for the league as it will be aided with difficulties by the Congress.

FEMINE GOLDEN GLOVER

When the 1940 Golden Gloves entries were checked, the judges found Jo Maria Carmack's, senior and science student's, name among the heavyweight entries. When a reporter checked the validity of the entry, Miss Carmack calmly stated that she had not seen a man yet that could whip her, and she thought the trip to Fort Worth would be interesting. A mere 65 or 70 weight advantage make the matches about even she said. On the entry blank required by Golden Glove directors, she listed her weight as 195, height at 6 feet, 2 inches and nationality as Jewish.

Tech Tennis Team Blanks ENMT, 9-0 In Return Tilts

Tech netters blanked the Eastern New Mexico Teachers college crew in six single and three double matches at Portales Saturday without the aid of their two top tennis stars. This was the second time the Raider courtmen have won 9-0 over ENMT. In the previous matches Jake Broyles and Glen Ivy played.

Raider Shaif DeGaiish trounced Fred Wells, 6-1, 6-2, in the feature singles set; Carl Schmidt, playing in the number two slot for the Red and Black beat Afton Verner, 6-1, 6-1.

Tech's Eddie Scudday defeated Mickey Hill 6-1, 6-4, in match number three; Cecil Roberts of Tech was extended to three sets in edging Morris Wilson, 6-1, 2-6 and 6-3.

David Hester continued the Tech winning by beating Mickey McGuire, 6-1, 6-3; Jack Prentiss blanked K. Newton of the New Mexicans, 6-0, 6-0.

In the top doubles DeGaiish and Schmidt nosed out Wells and Verner, 10-8, 6-1, while Scudday and Hester swamped Hill and Wilson, 6-2, 6-2. Roberts and Prentiss coped a 6-1, 6-3 win over McGuire and Newton in the final match.

Raider netmen are looking for-

Homecoming Tilt Pits Tech vs. Rice

The Red Raider-Rice Owl football game will feature Tech's 1948 homecoming celebration Oct. 30, D. M. McElroy, executive secretary of the Alumni and Ex-Student association, announced.

More than 5,000 ex-students and alumni are expected to fill their share of the Audrey and Clifford B. Jones stadium as the Raiders meet Rice in Lubbock for the first time. The Owls are expected to have one of the strongest teams in the Southwest conference and the Techsians will be out to maintain their 1947 homecoming record.

ward to this week-end's tussle with Border Conference contestants from Hardin-Simmons. This will give the local courtmen an opportunity to realize their probable ability against future Conference teams.

Tarleton Fencers Win Epee, Saber

John Tarleton fencers captured top honors at the Novice Epee and Saber meet held last Saturday in Tech gym.

In epee, Tarleton's James Powell took first place over Techsians Richard Dickey and Claxton Tucker who placed second and third respectively.

In saber, Bill Spinks of Tarleton outpointed Dickey for first. Joe Stubbs, Tech, and Travis Smith, Tarleton, tied for the third place decision.

George Beakley's Tarleton team gave Tech its only outside competition as Easter holidays made it impossible for other schools to send representatives to the meet said Keith Wells, fencing coach.

ACC Golfers Win Four-Team Meet

Tech's golfers finished second behind the Abilene Christian linksmen Saturday in a quadrangular match between ACC, Hardin-Simmons and McMurry. The ACC team scored a total of 32 points, with the Raider four totaling only 21 points.

For Tech, Elmer McKinney, Jerry Stoltz and E. C. Feagan scored six points each and Ted Forsythe added three. McKinney, number one Tech linksmen, went around the 18 hole course in a 74 to finish second. John Craig of ACC led all scorers with a one over par 72.

Hardin-Simmons placed second with 14 points and McMurry wound up in last place with only two points.

All three Abilene colleges will come to Tech Friday for a return engagement at the Country Club as part of the quadrangular meet in track, golf and tennis.

To keep good time, the interval between ticks of a watch must not vary more than 1/86,000th of a second.

New Flying Club Uses Psychology As Way To Teach

"Learn to fly cheaply," says Arline Stephens, Tech switch board operator, inviting students to join the Twentieth Century Flying club, organized about six weeks ago. Composed of students and "poor working people," Miss Stephens says the membership, although limited, is open to people entirely ignorant as to how to fly.

Jimmy Vickers, owner of Vickers Air Craft, and Ralph Holcombe, employee, are sponsor and instructor of the club. Holcombe uses the psychological approach in teaching people to fly. His method, explains Geneva Collins, Tech switch board operator, and vice president, is to study the personality of the individual on the first time in the air, and teach him from there. Boys usually learn to fly after one to three hours in the air, girls, three to five, said Miss Collins.

The club uses the cooperative basis to reduce actual operating costs to \$1.50 per hour. The group bought its own plane, says Miss Collins, which the members are paying out on the installment plan. This plane will cost each member approximately \$150. Charles Buck, president, employed by Pioneer Air Lines, who soloed after 55 minutes in the air, was the first member to fly.

"Any student interested can contact us," say Misses Stephens and Collins, at the Tech switch board. Meetings are at 8 p. m. each Tuesday, although a definite place has not been designated.

Millikan---

(Continued from Page 1)

University, then he studied in Germany for his Sc. D. and LL. D. Since then he has studied at the most famous universities all over the world, and has been the recipient of many honorary degrees. He has been awarded the Comstock Prize of National Academy of Sciences, and the Nobel Prize in Physics of Royal Swedish Academy, the latter for his work on the atom.

Millikan was a lieutenant colonel in the Signal Corps of the U.S. Army, as head of the research department. In 1923, he was the American member of the Committee on Intellectual Cooperation of the League of Nations. From the end of World War I until 1921, he was an instructor of physics at the University of Chicago. From there he went to the California Institute of Technology, where he became president. Under his guidance, this school has become one of the great scientific centers of the world.

President Whyburn stated that Tech is truly honored that such a distinguished man will lecture here.

Drane Hall Slates Semiformal Dance

Drane hall will have its only dance of the year, a semiformal affair, from 8:30 to 11:30 p. m., Friday, according to Dorris Belle Turner, dormitory president.

Music will be recorded and several loud speakers will be scattered throughout the dining hall, which will be decorated in spring colors. Ray Trent of KSEL will act as disc jockey. He will furnish plenty of "dorm chatter," Miss Turner said.

Special guests will include Mr. and Mrs. George Langford, Dean and Mrs. James Allen, Mr. and Mrs. Wayland Niles and Miss Mozelle Craddock.

Chaperones will be Misses Mary Peacock, Martha Graves and Polly Cook. Refreshments will be served.

Theta Sigma Phi Holds Initiation

Alpha Upsilon chapter of Theta Sigma Phi, women's honorary and professional journalism fraternity, will initiate five new members and three pledged in a formal initiation service at 5 p. m. Friday at the home of Mrs. James G. Allen, 3110 Twenty-first street. Officers for next year and an alumnae adviser to replace Mrs. John Miller, who is retiring advisor, are to be elected and installed in a business session following the services.

A delegate for the Theta Sigma Phi National convention to be held June 24-26, in Milwaukee, Wis., at Marquette University is to be chosen at the meeting.

Those to be initiated as members are Mary Ellen Duffy, Anne Carothers, Jayne Thompson, Aline Whitby, and Mary Louise Clayton. Those to be initiated as pledges are Anita Oliver, Oleta Stuart and Argero Booth Collins.

Florida Geologist Visits Tech Geology Department

Dean Rogers, 1935 graduate of the Tech geology department who received his MA in 1942, is geologist in charge of exploration for Stanolind Oil Company in Tallahassee, Fla. He visited the department here Monday, according to Dr. L. T. Patton, head of the geology department.

Wiley, Haddon Judge "Competition Festival"

Prof. D. O. Wiley, Tech band director and Joe Haddon, assistant band director, were judges at the annual region VII "Competition Festival" to be held at Odesa April 2-3.

Wiley will judge sight reading of the bands and orchestras and Haddon will judge brass and string solos and ensembles.

Approximately 40 bands and orchestras numbering about 3500 pupils of high school and junior high school age will take part in the festival, according to Wiley.

Mrs. Willie Bell Bogard To Speak To HE Seniors

Mrs. Willie Bell Bogard, state school lunch supervisor, will speak to Home Economics seniors at 11 a. m. Friday in Annex G. She will lecture on "The School Lunch Program in Texas."

Mrs. Bogard is associated with the United States Department of Agriculture in Dallas.

Cataloging

girl who went swimming in the raw in a secluded mill pond. Along came a little boy who started to tie knots in her clothes. She floundered around, found an old wash tub, held it up in front of herself and marched toward the little boy saying, "You little brat, do you know who I'm thinking?"

"Sure," said the kid, "you think that tub has a bottom in it."

Somebody on THE J-TAC has classified pin-ball players into five types. They are the modest, the genius, the "eager-beavers," and the habitual types of artist at this game.

The modest type is the one who inserts the coin very easily, slowly releases the plunger, and places his hands in his pockets. When the ball gets nearly to the slot, he moves his head from side to side trying to make the ball hit the "bonus" bumper. The company never loses money on this type winning free games.

The genius is the person who thinks he has the skill of mastering every move of the ball. He spends most of his nickels and affords little amusement to onlookers, because the ball seldom goes where he wishes.

The "eager-beavers" are those that are always trying to beat the machine by practically throwing it from the room. For instance, a certain English professor has a peculiar habit of softly picking the machine off the floor and placing it on the soles of his shoes. This gives the ball plenty of time to hit nearly every bumper on the board. If the machine tilts when he tries this, he makes up for it by trying to imitate a game of handball with the sides of the machine.

The habitual player is the one that "haunts" the machines during all hours of the day. He does not necessarily play the contraption. As a matter of fact, he delights in watching it being filled with someone else's nickels.

8th Naval District Official Will Speak

Commander Hutchins, of the 8th Naval district will be present at the regular meeting of the Naval Reserve at 7:30 tonight in the engineering auditorium. During an informal discussion, Commander Hutchins will answer questions for the aviators present.

All naval aviators and enlisted personnel are invited.

Boys' Dorms Filled For Fall Semester

"All four boys' dormitories are practically filled for next fall," said Miss Mozelle Craddock, dormitory manager. When names on the waiting list are added today, she believes the dormitories will be full.

Cecil Roberts Elected Vice President of IRC

Cecil Roberts, junior arts and sciences student from Lubbock, was elected vice president of the International Relations club of West Texas and New Mexico. The election was held in Plainview during an annual meeting of this organization.

As an officer of the group he will attend the national meeting of IRC in St. Louis during the last part of this month. This meeting will be held to inform representatives of the various clubs in international problems in order that they may relay the information to their respective groups.

Centaurs Annual Hayride To Be Friday Afternoon

Centaurs will have their annual hayride from 8 to 12 p. m. Friday. Leaving from the front of the Ad. building, the hayride will go to Mackenzie park, where members, pledges and their dates will have a picnic.

Special guests for the occasion will be the club's sponsors, Robert Newell, and A. L. Wilson.

Mowery Chosen To Judge Brownfield Stock Show

Ray C. Mowery, head of animal husbandry department at Tech, will judge the junior livestock show in Brownfield Saturday.

Some outstanding examples of work in commercial feeding of calves will be on exhibition at the show, Mowery said. Livestock to be judged are projects of 4H and FFA boys in the Brownfield area. Stock exhibited Saturday will be sold locally after the show.

Davis Named Government Chairman As Profs Attend Science Meeting

Dr. J. William Davis, head of the government department, was named chairman of the government section of the Southwestern Social Science association at a recent annual meeting in Dallas. Tech faculty members attending the meeting included Davis, Dr. B.

'Washington Slept Here' To Be Presented Soon

"George Washington Slept Here," a comedy by Moss Hart and George S. Kaufman, will be presented by the speech department April 26 and 27, according to Lucien Upshaw, director. Students will be admitted to the play on presentation of their activity tickets.

Members of the cast, announced by Upshaw, are D'Ruth Hopping, Bobby Hays, Jeanetta Lewis, Jack Drain, Mack Forrester, Sonny Redus, Henrietta Jackson, James Simpson, Billie Kathryn Lancaster, Gay Reeves, George Ater, Clifford Barr, Mark Smith, and Aubrey Thompson.

10 Kemas Pledges Formally Initiated

Formal initiation for 10 new Kemas pledges was held Tuesday night at the Hilton hotel.

A big brother-little brother breakfast followed the initiation Sunday morning at Elters. Thirty-nine members and pledges attended the annual affair.

New pledges initiated were Philip Brewer, Beryl Conger, Jerry Gibner, Homer Gilkerson, Ralph Hines, Sam Kimmell, David Leaverton, William McMullan, Preston Price and Boyd Webb.

Tuesday Program Planned For Sock And Buskin

Sock and Buskin, dramatic club will meet at 7 p. m. Tuesday in the speech auditorium, according to Billie Kathryn Lancaster, president. The program will consist of skits planned by newly initiated members.

Other officers elected recently are D'Ruth Hopping, vice president; Barbara Ramsey, secretary; Pat Smoot, reporter; and Gene Roy Powers, sergeant at arms.
