

Food poll set April 15

The student food service council and the Senate food committee met Thursday to map out plans for a coordinated poll on food services to be conducted April 15.

The poll, to be conducted in all residence halls, will use mimeographed sheets handed out in dining halls each day for five days.

The Senate food committee will have one questionnaire and the student food service council another.

THE SENATE committee's form will have a space for students' name, his dorm and space for suggestions and complaints. The form will request that complaints be as specific as possible and will also ask student opinion

of optional meal tickets. One other question, applicable to women dorm residents only, will ask if they would prefer eating on their trays.

The student food service council poll will have a list of foods and ask that the student rate them 1 (best liked), 2 (satisfactory) or 3 (not liked) in an effort to determine what foods are more popular and could possibly be served more often.

The Senate committee made an effort two weeks ago to conduct a poll but were unable to pick up their questionnaires after they had been distributed.

Krete Jeffrey, a member of the Senate committee, said the forms were distributed in all dormitory dining halls after the committee had discussed the matter with Mrs. Shirley Bates, food service director. She said when they returned to pick up the forms residence hall personnel refused to give them the forms, saying they had been informed by director of residence halls—Guy Moore—that the poll was illegal.

MOORE TOLD the University Daily he had acted following telephone calls from residence hall directors asking about the polls. He said the questionnaires had been distributed without clearance from his office or the various halls.

"This is in violation of a campus rule against any kind of solicitations," Moore said.

He said the Senate committee had simply misinterpreted the rule and termed the incident a misunderstanding.

HAROLD WRIGHT, president of the dorm food representatives, said his group and the Senate food committee had the same ends but in the past they had worked against each other to a large degree.

Wright said he felt the coming effort would benefit all concerned and that recommendations based on the findings of the poll would be presented to Mrs. Bates.

Editor forms due next week

Applications for 1967-68 University Daily editor and business manager and 1967-68 La Ventana editors are now available in the Student Publications Office, room 102 of the Journalism Building.

The deadline for returning forms is 4 p.m. next Friday.

APPLICATIONS should be addressed to Bill Dean, director of Student Publications.

Applicants must be juniors or seniors and have 2.0 overall grade average. The Student Publications Committee will interview the applicants and determine who will fill the positions.

Best dressed coed will be named today

Annual contest set for 2 p.m. in Union

Tech's best dressed coed will be selected at 2 p.m. today in the Coronado Room of Tech Union.

Sherrill Reagan, Fort Worth junior and last year's best dressed coed, will crown the 1967 winner who will be presented with a bouquet of flowers and have her picture in the 1967 La Ventana. Her sponsoring organization will receive a plaque.

THREE DRESS categories will be considered in the judging: sports wear, class wear and formal wear. Each of the 80 contestants will be judged in each costume on poise and clothes sense.

The contest, sponsored by Theta Sigma Phi, women's journalism sorority, will be emceed by Lou Keay, public relations director for the West Texas Museum.

Several leading campus women will be featured in a fashion show during the intermission. Beverly Barlow, Nancy Taylor, Marilyn Mingus, Genevyn Cannon and Sandy Harris will model spring creations for the "style-minded coed."

The contest will be from 2-5 p.m. in the Coronado Room and admission will be 50 cents.

Official paper blasts Chinese leader Liu

TOKYO (AP)—From the highest level of the Chinese Communist party Friday came the first official attack on President Liu Shao-chi, an indication that the struggle for power was closer to a climax.

Red Flag, the theoretical journal of party Chairman Mao Tse-tung, assailed Liu's book, "How to be a Good Communist," which has been held up for years as a model for 17 million party members.

TO EMPHASIZE the repudiation of Liu's teachings, the Red Flag article was reprinted in People's Daily, the official Communist party paper, and all other newspapers in Peking.

Heretofore, attacks on the white-haired, 68-year-old president have been limited to wall posters put up by fanatic, teen-age Red Guards loosed by Mao last year to spearhead the power struggle. The posters never had official recognition and recently were sharply curtailed by authorities.

Red Flag did not mention Liu by name as it blasted the book he wrote in 1959. Liu, once considered Mao's successor, fell from grace last year and Defense Minister Lin Biao became the No. 2 man in Red China.

RED FLAG DECLARED Liu's book "must be completely denounced and its bad influence must be thrown out" because it "takes a roundabout route to push bourgeois individualism and slavery."

FBI head assails dissenters

WASHINGTON (AP)—FBI Director J. Edgar Hoover has assailed organizers of campus filthy-speech movements and the author of the play "MacBird!", asserting they are "determined to destroy all acceptable standards of personal conduct and sane behavior."

Hoover fired his broadside in a foreword to the FBI's monthly Law Enforcement Bulletin which is distributed free to about 57,000 law enforcement officials.

SMALL BUT VOCAL groups, Hoover said, "seem bent on eliminating all ethical practices relating to our established order."

In an obvious reference to Barbara Garson's off-Broadway production of "MacBird!" Hoover said: "We should be alarmed when widespread recognition and monetary awards go to a person who writes a 'satirical' piece of trash which maliciously defames the President of our country and insinuates he murdered his predecessor."

HE SAID THE overwhelmingly majority of "Americans do not want their families exposed to indecent, immoral and unlawful practices," but "unorgan-

TECH'S BEST DRESSED?—One of the contestants in today's Best Dressed Coed contest shows off her impeccable taste and flair for high fashion. The winner of the annual event, sponsored by Theta Sigma Phi, women's journalism society, will be named at 2 p.m. in the Tech Union Coronado Room.

Chief notes rise in stolen permits

The Traffic Security Department has noted a sharp increase in both stolen and forged parking permits as a result of the entry stations, Chief

Security Officer Bill Daniels said Friday.

"Students have begun to forge their own parking permits to get on campus and avoid paying for a permit at the same time," Daniels said.

Daniels said that there have been more cases of "forged permits" this year because of the entry stations limiting the traffic on campus.

"**STUDENTS HAVE** not been content with forging their own permits, so now they are stealing them off authorized cars," he said.

"Dr. Fred Kallina, head of the infirmary, left his car at a local car dealer and when he picked up the car his parking permit was gone," he added.

"When the student tried to use the permit on campus one of the traffic officers at the entry station discovered the staff permit did not correspond with the license number," Daniels said.

"**THE STUDENT** was turned over to the dean of men for disciplinary action as are all cases of forged or stolen permits," he said.

One of the traffic officers at an entry station told the University Daily that if a parking permit does not correspond with the car license, the permit is taken off and turned in to the Traffic Security Department. The student is then referred to the dean of men.

Harold Smith, representative of the Traffic Appeals Board, said very few of the violations have come to the appeals board.

"**THE PERMIT** violations that have come through have been from students who have tried to update expired permits," he said.

"One of the most obvious faults of the forged permits is the color," he added. "There have been gold, staff parking permits in the dorm parking lot which makes them easy to detect."

Italian youths slam Humphrey

ROME (AP)—About 800 Italian Communist and Socialist youths demonstrated against the United States on Friday night in downtown Rome, shouting for visiting Vice President Hubert H. Humphrey to go home and for the Americans to get out of Vietnam.

The demonstration erupted outside the building where Humphrey was meeting with Pietro Nenni, deputy premier and veteran Italian Socialist.

Police, who had earlier placed the number of demonstrators at 400, said about 800 participated and at least 100 of them were taken into custody. Among those arrested was Marisa Malagoli Togliatti, adopted daughter of the late Palmiro Togliatti, longtime leader of Italy's Communist party.

Drys must amend pleas

Judge James A. Ellis gave dry protesters in the Jan. 14 wet-dry election until April 17 to amend their pleadings.

Judge Ellis said the claims of the Drys were too general and that they must be more specific. He said they must name specific voters who are claimed to be illegal.

The petition, which was filed by James F. Davis Jr., Earl Hammett and Rev. W. O. Donley, charged that the county clerk had not been elected to serve as election judge for absentee voting, that the location had not been named for the box and that there were "irregularities" in the election.

IN THE PETITION, they claimed that more than 300 persons who weren't qualified had cast votes. They also claimed that allowing Slaton to

ing offbeat dolts whose ability is measured only by how deep they can dip their poisonous pens into the pots of blasphemy, filth and falsehood."

vote, although it would not be affected by the outcome, violated the Supreme Court's one man-one vote ruling.

County Attorney Fred West set forth exceptions to the charges.

Judge Ellis upheld the exception that no one specifically had been barred from voting. He also upheld West's contention that an election contest suit must be confined to specific irregularities pertaining to the election and that the one man-one vote objection should be a separate suit.

WHEN THE exceptions were upheld the attorney for the Drys immediately asked for extended time to file an amended petition naming unqualified voters.

West was given until May 1 to study the written amended petition, which is due April 17, and file an answer.

Stover to ask CSO for 'function' guides

Thomas P. Stover, Tech fraternity advisor, said Friday he will ask the Committee on Student Organizations to consider fraternity functions and lay down guidelines for them.

Stover's request is the result of a disagreement with the Interfraternity Council Court which laid down guidelines of its own after exonerating Pi Kappa Alpha of a charge that they sponsored an off-campus beer party in February.

STOVER SAID he would not ask the CSO to consider the IFC court verdict or the guidelines specifically, but to consider the idea of fraternity functions for the purpose of establishing guidelines which would define a function.

He described the IFC court verdict as "counter to what I know to be the school's policy," and said that on that basis he is taking the question to a

college agency.

Stover said the request would be made at the next meeting of the CSO, and said he did not know whether the decision of the IFC court would be affected by the CSO action or not.

GUIDELINES SET down by the IFC court defined an event as a fraternity function if:

- Fifty per cent of the chapter's members and pledges had attended it;
- The facilities for staging the event were secured by the chapter or any person acting on behalf of the chapter; or
- The event was intended to be a chapter activity.

Stover said of the guidelines at the time they were passed, "This isn't the school's definition of the alcoholic beverages part of the Code of Student Affairs; it's the court's."

Into six-lanes

Widening of College Avenue to be completed by October

Construction will begin soon on widening College Avenue into a six-lane thoroughfare from 19th to 34th Streets.

Lubbock City Council members recently awarded a \$149,107.50 contract to Kerr Construction Co., low bidders on the project.

Bond funds used for the project were approved by voters in a bond election four years ago. Completion date for the project is set for Oct. 15.

WHEN COMPLETED, the project should have some effect on Tech, according to city council member W. E. Medlock.

Cheer candidates

Candidates for cheerleader are required to meet at noon today in the Intramural Gym to be tested by the cheerleader screening board at 1 p.m.

Students living on the south side of the school will encounter only three intersections between 34th and 19th, allowing them to get on campus much quicker. He said the situation at the intersection of College and 19th would be improved to accommodate the heavy traffic.

He said the widening would allow persons traveling to and from Tech easier access on and off campus and the Tech traffic congestion could be improved more through the widening of Indiana Avenue and its extension through the campus, although no plans have been announced for this yet.

TRAFFIC SECURITY Chief Bill Daniels said the widening of the avenue would help the city more than Tech, but all improved outlets would be helped.

Construction has not yet begun, but preliminary work could begin soon. City officials hope to keep the existing College Avenue lanes open for the duration of the construction.

SPRING MADNESS—Playful Techsians always seem to be able to find a new pastime for the long spring days as evidenced from the above picture. Since bombing entry stations is now against school policy, pulling them

around Buffalo Springs Lake by speed boat is taking the campus by storm. Have you forgotten that today is April 1?

Dr. Tinsley views Moscow facelifting

Sixth in series
EDITOR'S NOTE: Following is the sixth in a series of articles written by Dean Willa Vaughn Tinsley of Tech's School of Home Economics during her trip to Europe to attend a three-week comparative education traveling seminar. Dean Tinsley returned to Lubbock during Spring Vacation.

By WILLA VAUGHN TINSLEY
Dean of Home Economics
 Because of the current interest in our national government in city planning and development and the "growing pains" felt by most cities in the U.S.A., I think you might be interested in the plan here for controlling the development in Moscow:

Moscow is one big city that does not want to get bigger. The government intends to stabilize the population at the present 6 1/2 million. It is allowing no new industries to

come in. It discourages labor from migrating here.

THIS IS ALL part of an ambitious plan to make the Soviet capital "the most beautiful city in the world."

The 68-mile superhighway that encircles the city has been made its permanent outer boundary. The idea is to build up a fixed area, using centralized planning to make the most of it.

MODELS OF the future city show whole sections laid out as units, with skyscrapers spaced far apart, winding lines of lower buildings and lots of parks.

The congestion of the downtown area is going to be thinned out to emphasize its institutional, historic character. The population living within the line of old fortifications will be reduced from 600,000 to 250,000.

A BILLION rubles (officially \$1.1-billion — a ruble is worth about \$1.10 in U.S. currency) a year is being spent on Moscow's facelifting. Most of this goes for apartments in an effort to meet the housing shortage caused by the quadrupling of the population since the 1917 revolution.

The Government is no longer content with the brick boxes that Nikita Khrushchev, the former Premier, favored in his crash construction program.

THE DIRECTOR of Mos-

Clay Shaw is arraigned

NEW ORLEANS (AP) — Clay L. Shaw will be arraigned in Criminal District Court next Wednesday on charges that he conspired with Lee Harvey Oswald and others to kill President John F. Kennedy.

Attorneys for Shaw, former managing director of the International Trade Mart here, said they will enter a plea of innocent.

cow's Institute of Standard and Experimental Design says "buildings should please the eye, decorate the city and give the people a maximum of convenience."

Apartment houses used to be largely without elevators and no more than five stories high. Now 15-17 stories are preferred, and as many as 22 stories are being tried.

CONVENIENCES common in Western cities are being introduced at a fast rate. There are to be a million and a half telephones by 1970, or one for every two apartments, and twice that number before the decade is out.

Other ameliorations of daily life—nurseries and kindergartens for all children, no more two-shift schools, and thousands of new stores—are included in the plan for Moscow's future.

But the plans at least have been drawn up and the government has committed itself to carrying them out.

Fire leaves calling cards at business

Charred fragments of clothing, the lingering stench of smoke, and blackened ruins remain today after a fire destroyed Bray's Ladies Sports Wear, 2418 Broadway, early Tuesday morning.

A smoldering cigarette butt is believed to be the cause of the fire, which also caused smoke damage to Kappa Kappa Gamma Lodge, Avalon Studio, and Bray's Campus Campsite Cleaners.

Firemen said that the cigarette butt had apparently smoldered for some time in a trash box before the fire flared and that the fire was well under way before an alarm was turned in.

The fire was contained in the sports wear shop where the suspended ceiling caved in and clothing and walls were scorched with fire. No one was injured.

Renovation is now under way at the Kappa Kappa Gamma Lodge and will soon be ready for use.

Leon Qualls, owner of Avalon Studio, said his shop sustained heavy smoke damage to the drapes, walls, and posing stools. Cameras and lenses were soiled by the smoke, but can be cleaned.

MUSEUM GIFTS—Shown examining two clay pots from Peru are Julian Pardo, finance major from Peru, and Dr. Earl Green, Director of the West Texas Museum. Mrs. Joe H. McWilliams of Plainview, right, presented the gifts to the Museum's ethnological collection. Mrs. McWilliams, the former Mary Ann Gidney, attended Tech in 1956. The pots, dating back to the sixteenth century, are thought to be made by the Incas, influenced by the Chimu culture.

Raider Roundup

ORGANIZATION FUNDS
 Forms for student organizations seeking funds for their functions for the 1967-68 school year from the Student Senate Allocations Committee may be picked up in the student government office.

ALPHA LAMBDA DELTA
 There will be a party for all new pledges of Alpha Lambda Delta at 5 p.m. Monday in the Mesa Room of the Tech Union.

JUNIOR COUNCIL
 Junior Council will meet at 1 p.m. today in the Tech Union.

INTEREST COMMITTEE
 Members of the International Interest Committee may pick up posters in the Tech Union program office any time today.

City group to seek members
 The Lubbock Community Concert Association will conduct its annual membership drive Tuesday through Saturday. Five Lubbock concerts plus concerts of the surrounding area are available to the members.

TB X-rays on campus
 The West Texas Tuberculosis Association will conduct chest X-rays in the mobile detection unit on the Tech campus next week.

KA's start organization
 Kappa Alpha Order fraternity has established a service organization which will furnish official hostesses at all fraternity functions.

Education for medicine theme for Pre-med day
 "Education for Modern Medicine" will be the theme of the tenth annual Tech Pre-medical Day program set for next Saturday.

KA's start organization
 Kappa Alpha Order fraternity has established a service organization which will furnish official hostesses at all fraternity functions.

TECH UNION OFFICERS
 Applications for chairmen and assistant chairmen of Tech Union are now available in the Program Office of the Union. Applicants may pick up applications in the Program Office from 8 a.m. - 5 p.m., Monday-Friday.

TECH UNION OFFICERS
 Applications for chairmen and assistant chairmen of Tech Union are now available in the Program Office of the Union. Applicants may pick up applications in the Program Office from 8 a.m. - 5 p.m., Monday-Friday.

TECH UNION OFFICERS
 Applications for chairmen and assistant chairmen of Tech Union are now available in the Program Office of the Union. Applicants may pick up applications in the Program Office from 8 a.m. - 5 p.m., Monday-Friday.

Placement interviews

Students perform

Miss Janet Holmes and Robert Adeock will give music recitals Monday and Tuesday night, respectively.

MISS HOLMES, a student of Dr. Kent Hill, will perform on the organ at the First Methodist Church Monday. Concerto in G Major and Prelude and Fugue in D Major by J.S. Bach are some of the selections she will play. The recital will begin at 8:15 p.m.

Tuesday, Adeock will perform on the cello accompanied by Miss Katherine Collier. He is a student of Benjamin Smith and his performance will include Sonata, Op. 5, No. 1, F Major and Suite, No. 5, C Major, for Unaccompanied Cello. This recital will also begin at 8:15 p.m.

Job prospects grow for grads

Opportunities likewise are increasing for business administration majors. Pay scales range from \$625 to \$675 per month. Here, too, experience and advanced degrees command salary premiums, especially in accounting where offers from accounting firms and private industry cite annual incomes in the five figure bracket.

Jobs also are more plentiful. "We are receiving a larger number of interview requests from the business community than in past years," Mrs. Jenkins emphasizes, "with a corresponding increase in types of jobs available to the 1967 graduate."

Last year, 377 organizations, including personnel representatives from both industry and schools, scheduled 340 on-campus visits interviewing dozens of candidates each trip. The number of campus visits is expected to be much higher this year.

In addition, many more interviews are being conducted at plants with transportation and other expenses underwritten by the company seeking talent. At-the-plant interviews not only give the student an insight into his future working environment and living conditions, but also provide his prospective employer with an opportunity to evaluate the applicant's suitability in all areas.

KA's start organization

Kappa Alpha Order fraternity has established a service organization which will furnish official hostesses at all fraternity functions.

The Society of Southern Belles has 26 members. Each girl is dropped, pinned, engaged, married or is a sister to a K.A.

The president of the charter organization is the reigning K.A. Rose (the fraternity sweetheart), Lyn Hamilton. Other officers are Cheryl Clayton, vice president; Pat Meiske, secretary; Genie Clayton, social chairman; Linda Lou Hendrick, treasurer; and Joan McKinnon, publicity chairman.

The girls were initiated on March 19.

Texas relay records fall

Mooney second in shot

AUSTIN, Tex. (AP)—Randy Matson, the Texas Aggie giant, threw the discus 201 feet 1/2 inch Friday to break his own intercollegiate record and set his second record of the Texas Relays.

THE THROW bettered Matson's intercollegiate record of 200 feet 7 1/2 inches set two weeks ago and also his Texas Relays record of 180-8.

Previously, Matson had thrown the shot 68 feet 3/4 inch to set a Texas Relays record, cracking his own mark of 67-9.

HE SET the records in preliminaries and still has a chance to eclipse world records during this track and field meet. He holds the world record in the shot at 70 feet 7 1/4 inches. The world record in the discus is 213 feet, 11 1/2 inches.

Matson's were two of three records set in the Texas Relays Friday. The other was 3:24.0 in the sprint medley relay by the University of Texas at El Paso in the Junior College-Freshman division. It was three-tenths of a second under the record.

BAYLOR came within two-tenths of a second of the 440-yard relay record in the Junior College-Freshman class when it breezed to a 41.6 mark but was disqualified passing

the baton out of the zone. North Texas State got the top qualifying spot with 41.7.

Matson was disappointed with his effort in the shot. "It slipped off my thumb or I'd have done better," he grumbled.

BUT HE was almost 13 feet better than second place Ed Mooney of Texas Tech, who couldn't find anything wrong with Matson's throw.

Abilene Christian ripped off a 3:09.7 in the mile relay to indicate a new record in the university division Saturday. The record is 3:07.9.

TEXAS Southern, which talked about a new world record in the 440 relay, showed it was hot after it with a 40.0 effort in the preliminaries. It will take a half-second better than that Saturday to crack the world mark.

The wind played havoc with record tries in the 100. Jim Hines of Texas Southern ran the 100 in 9.5, which tied the Texas Relays record held by the immortal Bobby Morrow. However, he had a 10 1/2-mile favoring wind and it couldn't be allowed.

ARNALDO Bristol of Texas Southern did the high hurdles in 14.0, a tenth of a second over the record. There was a 5.5 miles per hour wind. The limit is 4.475.

Tech represented in several events

Texas Tech Coach Vernon Hilliard is entering eight varsity and nine freshman performers in the Texas Relays at Austin today.

INJURIES have cut into the team's strength. Hurdler-jumper Art Carroll of Lubbock is still out with a pulled leg muscle, and similar injuries have hampered Richard Hardy of Dallas and Wayne Nelson of Houston. Hardy and Nelson, both of whom have

run the No. 2 leg on the 440 and 880-yard relays, are making the trip, however.

Texas Tech has won two meets this season—the Southwestern Recreation at Fort Worth and a triangular with McMurry and Eastern New Mexico. Highlight of the latter meet was a new school record in the javelin throw of 211 feet, 6 inches by Russell Durham of Comanche.

BY EVENT, varsity competitors with best times are: 440 relay—Gary Golden of Stephenville, Wayne Nelson, Don Parrish of Daingerfield, and Jim Jones of Austin (41.5) 880 relay—same as 440 relay (1:26.7)

Two-mile relay — Parrish, Bobby Nelson of Quanah, Jones, and Wayne Nelson.

440 hurdles—Tim Garrison of Lubbock (54.8)

100—Parrish (9.7), Hardy, or Golden

High hurdles—Dennis Lilley of Lubbock

Shot Put—Ed Mooney of Walkill, N.Y. (55-4)

Discus—Mooney (160-1 1/2)

Javelin—Russell Durham of Comanche (211-6)

High jump—Foster Miller of Llano (6-4)

Broad jump—Garrison (22-4 3/4)

Pole vault—Sam Hart of Tatum, N.M. (14-0)

Ford vs. Chaparral in Sebring race

SEBRING, Fla. (AP)—Unless mechanical troubles plague them again, it'll be Ford versus Chaparral Saturday in Sebring's 12-hour sports car endurance race—second in the series for the 1967 world prototype championship.

IF THESE big, seven liter machines falter, as they did in the 24-hour Continental at Daytona Beach, Germany's small tough Porsches could roar in to sweep the honors.

"It's the Fords and Chaparrals we must beat, of course," said David Piper, whose London racing team will carry the banner of Italy's Ferrari factory with a privately entered four-liter prototype.

ENZO Ferrari, who dealt a humiliating 1-2-3 defeat to Ford's world champions at Daytona, held his factory team out of the Sebring race, robbing it of much of its usual glamour.

Dan Gurney, a star of the Ford racing team who will be in the unusual role of a spectator this time, said a Ford Mark-IV prototype to be driven by Mario Andretti of Nazareth, Pa., and Bruce McLaren of New Zealand, "is the fastest car here."

"If it doesn't have trouble, it should win," Gurney said. "Otherwise, it's anybody's race—Chaparral and Porsche probably."

With only two entries instead of its usual five or six, the Ford factory is not using Gurney in this race. Eagerly sought as a co-driver by Pedro Rodriguez of Mexico, who has entered a two-liter Ferrari Dino, Gurney was forced to decline because of his contract. He also was courted unsuccessfully by the Porsche factory.

FORD'S Mark-IV, driven by Andretti, was clocked at 215.8 miles per hour in proving ground tests. The factory's second entry is a new lightweight version of the Mark-II, with which it won the world title in 1966.

A. J. Foyt, an Indianapolis 500 winner, and Lloyd Ruby, co-driver of the winning Mark-II at both Daytona and Sebring last year, will drive the second Ford machine.

THE STAR driver of the Chaparral team, former world champion Phil Hill of Santa Monica, Calif., was stricken Friday with a probable appendicitis attack and taken to a St. Petersburg hospital.

Jim Hall of Midland, Tex., entered two Chaparrals like the one which sped to victory over a rain-flooded track here in 1965.

ACTION IN ACTION—Pat Acton, Wichita Falls junior, will see plenty of action today as the Raider netmen host the Rice Owls at the Varsity Courts. Acton plays both singles and doubles for the Raiders. Rice is the defending Southwest Conference champion.

Raiders host Rice Owls in tennis match today

By GEORGE CHAFFEE
The Rice Owls, one of the toughest teams in the Southwest Conference and an old nemesis for the Red Raiders, invade the Tech Varsity Courts today for a SWC round robin match.

The No. 2 team will be composed of Pat Acton and either Gutierrez or Mike Parrish. The Raiders, opening their Southwest Conference title play with today's encounter, are 3-1 in dual match play this season.

Diamondmen improve despite poor record

By GARY TILROY
Sports Writer
Although the Red Raider diamondmen are currently 3-9 for the season, there have been some bright spots along the way.

with 4-7 for a .571 average. Jerry Kolander is next with 8-17 for .470. Schuessler is 1-3 for .333 and Ray rounds out the .300-plus hitters with a 4-13 performance for .307 average.

Since the Raiders began conference play in 1958, the Owls have captured all nine meetings, taking 48 individual matches to Tech's six. However besides Rice, only Texas has compiled a better record than Texas Tech in SWC round robin matches. Tech has a pair of draws with Texas and holds an edge over all other SWC opponents.

JOHN McINTYRE leads with total base hits with 11. He is followed by Kolander at eight and Champion with seven. Eddie Stiles and Jim Murrell each have six hits.

GRETEL'S Genoa ripped only 400 yards from the finish line and she finished under her mainsail. She also broke a backstay.

SAUNDERS leads in the double department with three and Stiles is second with two.

Gretel, now behind 5-1, captured the race by 1 minute, 9 seconds after Dame Pattie lost three Genoa jibs and Gretel one in seas whipped by wind gusts that reached 40 miles an hour.

KOLANDER and Champion are the only ones with a triple. As for home runs Kolander and Frost have collected the only four baggers. McIntyre has the most stolen bases with five and he also has the most base-on-balls with eight.

PHILBRICK will match sophomore Mike Beene against Seewagen and Rudy Gutierrez against Hamilton.

RALPH COX leads with 11 strike outs but Buddy Hampton is in a close second with nine. Stiles and Bo Keith each committed five errors each and McIntyre has four.

The Raiders' strongest chance for winning a match will depend on the strength of the Owls' No. 3 and No. 4 men—Bob Olberg and Jerry Outlaw. Both volunteered their services last year after Rice's tennis ranks were thinned by graduation.

Over all the Raiders and their opponents are about even in most categories. The Raiders have a .242 batting average as compared to their opponents' .246. Each has 12 doubles but their opponents lead in triples 7-2 and home runs 4-2. Tech has 85 base hits while their opponents have 91.

IN DOUBLES play, the No. 1 team will consist of Murphy Yates and Beene and

THE ONE big factor that is hurting the Raiders the most is they have been out scored 60-44. The Raiders worst defeat so far has come from New Mexico Highlands in the first game of the year 6-1. Tech's biggest victory was against Texas Western 13-4.
