Peruvian troops revolt

LIMA, Peru — Peruvian troops overthrew the troubled government of President Fernando Belaunde Terry in an apparently bloodless coup Thursday, but within hours student mobs were battling with troops and police in the streets.

Whisked off by plane to exile in Buenos Aires, Belaunde, 55, declared on arrival that he had been overthrown "by a barracks coup, not by the armed forces of the constitutional government."

It was announced in Lima, however, that Gen. Juan Velasco, army chief of staff and president of the joint chiefs, had been made head of the revolutionary government.

The coup came 12 hours after Belaunde had installed a new 11-member Cabinet, the seventh in his five-year-old regime. It was reported later that the Cabinet had met in the Foreign Ministry Building to condemn the coup.

Senate approves bill

WASHINGTON — The Senate gave overwhelming approval Thursday to a record \$71.9-billion defense appropriations bill after beating back efforts to trim funds for a missile defense system and to impose other cuts.

A 55-2 roll call sent the measure to conference with the House which voted \$352 million more for the Defense Department.

The over-all measure allocates, in rounded sums, \$24.3 billion to the Air Force; \$23.2 billion to the Army; \$20.4 billion to Navy; and \$4 billion to various other defense agencies.

An estimated \$25.8 billion of the total will go for Vietnam war costs but the Pentagon is expected to request supplemental funds later.

Before Thursday's votes rejected efforts to cut \$6 billion from the bill, it already had been reduced \$5.2 billion from President Johnson's original request—but it remained the biggest single money bill ever voted by the Senate.

Czechs want Reds out

MOSCOW — A Czechoslovak delegation, headed by Communist party chief Alexander Dubcek, came to Moscow Thursday in the hope of persuading Soviet leaders to start withdrawing some troops from Czechoslovakia.

Continued criticism of Czechoslovakia in the Soviet press, however, indicated they might face an uphill task in their talks with the Kremlin top command, which sent soldiers and tanks into that country Aug. 20-21.

The Kremlin said at the time it acted to save Czechoslovakia from an overthrow of communism. It demanded a reversal of Czechoslovakia's liberal communism, introduced by Dubcek, and the Soviet Communist party newspaper Pravda was still calling Thursday for "practical actions" toward more orthodox communism in Prague.

Chicago probe continues

WASHINGTON — An antiwar protest leader walked out and another witness refused to answer questions on whether he was a Communist Thursday at hearings by a House subcommittee on un-American activities.

An undercover police agent charged the groups that planned the riotous Chicago demonstrations during the Democratic National Convention favor violent overthrow of the U. S. government. He quoted one Yippie leader as saying all the presidential candidates should be killed and the government toppled.

Rep. Richard Ichord, D-Mo., chairman of the subcommittee, said earlier testimony had cited 21 Communists as participants in the Chicago disorders last August. He did not identify any of them by name.

Heart patient satisfactory

DALLAS — The world's 56th heart transplant recipient was progressing satisfactorily Thursday, Parkland Hospital spokesmen said.

The 46-year-old Dallas man was awake and had seen his wife.

A spokesman said Floyd Pratt's vital signs were stable.

Pratt received his new heart Wednesday night in a four-hour operation at the Dallas medical center. Dr. Watts Webb headed the surgical team from the University of Texas Southwestern Medical School.

Hospital spokesmen said the donor was a Dallas man, 43, who died of a brain hemorrhage. They said relatives asked that his identity not be disclosed.

Pratt had been dying because his old muscle grew too weak to function, Webb said. The recipient suffered his first heart attack July 4. He was able to leave the hospital in August, but returned to Parkland in critical condition Sept. 1.

Navy plane downed

SAIGON — The United States announced Thursday the loss of another plane over North Vietnam, as American ground forces hurled back an enemy attack on a U. S. base near Saigon.

The plane, a U. S. Navy A4 Skyhawk from the carrier Hancock, was downed Wednesday by ground fire two miles below the 19th parallel, spokesmen said, and the pilot was seen ejecting. His parachute opened, but he was not found and is listed as missing.

It raised to 903 the number of American planes downed in combat over the North since the air campaign began in February 1965.

In the South, enemy forces lobbed more than 100 rounds of mortar shells into a U. S. base 14 miles northwest of Saigon, then sent in a platoon of soldiers in apparent attempt to test American defenses.

PILOT PROGRAM — Leonard Randolph talks with Linda White and Judy Keyes after the first Sock and Buskin meeting. As the assistant director of state and community operations for the National Endowment for the Arts, he spoke about the pilot program of the local chamber of commerce to advance the arts. (Staff photo by Richard Mays)

Chamber office initiates arts, culture program

By CLAUDE PERILLI
Staff Writer

Leonard Randolph, is in Lubbock this week working with the Lubbock Chamber of Commerce on a pilot program dealing with community arts and culture.

Randolph discussed an endowment included in the program, culture and the arts with Sock and Buskin, a drama club, Thursday.

Randolph is the assistant director of state and community operations for the National Endowment for the Arts.

DURING THE meeting Randolph said, "The Lubbock Chamber of Commerce came up with this idea. It is to my knowledge the first time that a community organization has initiated a project of this kind, the project being to help advance interest in community culture."

"The National Endowment for the Arts, Randolph said, "is a semi-public, semi-private organization interested in giving technical assistance to cultural organizations." The National Endowment for the Arts was created in 1965 and was signed into law the same year by President Johnson.

THE CHAMBER OF commerce and the National Endowment will present four programs to be held at five local high schools. Most of the persons involved in these programs will be Tech faculty and students.

The first program will consist of a series of educational programs on serious music. Members of the Tech music department will initiate the project.

Moliere's, "The Silly Young

Ladies," will be the second program in the series. The play, directed by Larry Randolph, will tour five area high schools and also Meadow High School. All cast members of the play are Tech students.

Doctor may go free

Eidinoff judged sane after 10 year fight

RUSK, Tex. (AP) — A jury ruled Dr. Harold Eidinoff sane Thursday, the first break the El Paso physician has received in 10 years of trying to free himself from a mental hospital after the slaying of a hometown lawyer.

Eidinoff's lawyers contend the murder charge was wiped out 10 years ago when Eidinoff was ruled insane and sent to the Rusk State Mental Hospital.

THE GENERAL TEXAS legal rule is that if a person is insane at the time a crime is committed he is not a responsible person. Should such a person become mentally healthy he can go free.

El Paso Dist. Atty. Bart Bowling and Cherokee County Atty. James Perkins said they had not decided late Thursday afternoon whether to appeal. They represented the state at the hearing.

Eidinoff was charged with murder in the slaying of El Paso lawyer Ted Adress. The lawyer was shot to death

as he stepped off an airliner at El Paso. The two had been feuding for some time, each filing suits and countersuits against the other.

THE RUSK COUNTY jury hearing the sanity case required 50 minutes to reach a verdict.

Minutes before the verdict came in, Eidinoff told a reporter, "I'm not optimistic."

Eidinoff, a thin, greying but still handsome man of 55, took the stand earlier in the day in a dramatic, last-minute bid for freedom.

HIS CALM, apparently earnest testimony ended a nine-day parade of witnesses which included psychiatrists, psychologists and hospital attendants, most of them employed by the state.

Eidinoff sat in the witness box with his legs crossed and gestured mildly as he made his appeal to the jury.

He shot Adress, president of the El Paso School Board, to death in 1957.

Wallace names Curtis LeMay as No. 2 man

PITTSBURGH (AP) — Former Air Force Chief of Staff Curtis E. LeMay joined George C. Wallace as his vice presidential candidate Thursday and urged more military pressure on North Vietnam.

Attacking what he said was an American policy of "no will to win," the famous flying general of World War II said he, too, would rather talk than fight.

BUT, HE SAID, "When you get in it, get in it with both feet, and get it over with as soon as you can."

"I think there are many cases when it would be most efficient to use nuclear weapons," said LeMay, described by a military biographer as the "architect of systematic destruction" for his bombing raids on Germany.

"I'll be damned lucky if I don't appear as a drooling idiot whose only solution is to drop atomic bombs all over the world," LeMay said later.

"I DON'T THINK it would be necessary in Vietnam. I've always said that," he went on. "But I don't think they are going to negotiate at Paris until we twist their arm a little more."

Campaigning in Welch, W. Va., Vice President Hubert Humphrey said he was shocked at the way LeMay talked about the use of nuclear weapons.

"It would be disastrous if anyone who spoke as Gen. LeMay did this morning should come into a position of high responsibility," Humphrey said.

"I NEVER WANT to see nuclear weapons used anywhere, by anyone—in Vietnam or elsewhere," Humphrey said.

Wallace introducing the stocky, hard-driving father of the Strategic Air Command, said he had always admired LeMay's blunt language.

"In Gen. LeMay we have a man who, through close personal contact, has a working knowledge of the aims, the goals and the capabilities of our nation's enemies as well as her friends," Wallace said.

"I MIGHT ADD here that he, unlike some of our so-called high level diplomats, recognizes the difference between the two."

LeMay, without the cigar he usually has clamped in his teeth, said, "Some

Fish yell leaders to file applications in Tech Union

Freshmen cheerleader prospects should meet in the Coronado Room of the Tech Union at 4:30 today to file their cheerleading applications. Lynn Hamilton, member of the election committee of the Student Senate, said Thursday.

The elections will be next Thursday. All persons filing for cheerleader must be carrying at least 12 hours and be classified as a freshman, she said. Miss Hamilton said, "We hope that a lot of the freshmen will file for cheerleader and tryout."

of my friends are surprised at my being here today. I am somewhat surprised myself."

Reading slowly from a prepared text, the 61-year-old LeMay said he declined the first time Wallace asked him to be the No. 2 man on the American Independent Party ticket.

BUT AFTER thinking about it, he said, his refusal seemed the same as the Vietnam position of some people — presumably the doves who don't want to fight.

Although a lifelong Republican, he said he rejected both the GOP and the Democrats because they offer nothing more than a continuation of deteriorating moral values, bad money policy and crime in the streets.

"I see in Gov. Wallace new, positive action ..." he said. "After adding up all the factors I decided to dedicate myself in joining him in getting this country back on the right track."

WALLACE HAS STRESSED in his speeches that, should peace negotiations fail, he would seek to end the Vietnam war "militarily and with conventional weapons."

Flying from Pittsburgh to Indianapolis with LeMay accompanying him, Wallace said he was convinced he and his running mate saw eye to eye on the issue of nuclear weapons.

Financiers fanciers of 43-24-37x2

NEW YORK (AP) — It wasn't the volume of trading on the Stock Exchange that captured the attention of figure-minded financiers on Wall Street Thursday.

It was figures from Cleveland: 43-24-37 X 2.

A NOONTIME crowd of 4,000 jammed the intersection of Broad and Wall Streets to ogle two girls from Cleveland, each of whom boasted measurements of 43-24-37 inches.

Sheila Moore, 21, and Suzanne Zukowski, 25, were brought to New York by Cleveland radio station WIXY to show Wall Street that Cleveland could match the 43-25-37 of Francine Gottfried, the 21-year-old bank computer operator who attracted crowds of more than 6,000 persons two weeks ago.

The Cleveland girls emerged from a subway stairway near the Stock Exchange shortly before noon for a brief picture-taking session.

THE CROWD, like the market, became bullish as runners, clerks and brokers pushed towards the gals, who beat a hasty retreat.

"This is better than the World Series," said Arnold Bilmes, 23, of Brooklyn.

And, for Friday, another set of Geri Stotts, 34, of Los Angeles—47-29-38 has announced she will stroll down the financial cavern at noon.

SAO has plans for convention system

By LYNN GREEN
Copy Editor

The Student Action Organization (SAO) will discuss plans Saturday for the creation of a convention system at Tech so as to enable independents and fraternity members to be more equally represented in the Student Senate.

The discussion, open to all Tech students, will be at 10:30 a.m. at the Wesley Center.

SAO PRESIDENT David Sanders said Thursday that SAO is trying to create an All Student Political Convention. He noted that several colleges have campus political parties from which candidates are run for office.

The decision to create an All Student Political Convention was made at a Wednesday meeting of the SAO.

"Now about 90 per cent of under-

graduate representatives on the Student Senate are Greek and only about 10 per cent are independents. Whereas, compared to the total Tech population last year, only about 11 per cent of students are in Greek organizations," Sanders said.

"THE WAY THE system is now, fraternities and organizations stand behind all candidates," he said. With a convention system, however, independents would have more of a chance to win and the student body would have more than just representatives from a few select organizations, Sanders added.

Sanders also said, "On this campus, there is a fraternity or organizational machine that is run in such a way as to win all elections. This machine is composed of people who are in the know and know how to conduct a campaign to win an election."

"Our organization wants to encourage independents to run for office, but mainly we want a chance to discover and recognize any who best answer requirements for (senatorial) jobs," Sanders said.

HE SAID, "Representation in the Student Senate should be equalized somewhat; however, it should not be done at the expense of the quality of the senate."

The convention would also nominate and train students who plan to run for office.

"We are trying to start a political system on campus so that all students could be equally and competently represented in the Student Senate. With both fraternity and sorority members and independents equally represented, we feel that we could increase the

competence of the people in office," Sanders said.

SAO MEMBERS also discussed the current Association of Women Students' Constitution.

At the present time AWS has no approved sponsor although it does have two acting sponsors, Miss Joan Moberly and Mrs. Ruth Causey. The sponsor, as written in the AWS constitution, is supposed to be the dean of women; but since the office of dean of women was recently abolished, AWS is having to amend its constitution.

At the AWS meeting Wednesday, its members received a list of four articles and a proposed amendment that are to be discussed at a called meeting next week. The four proposed articles involve substituting the term sponsor of AWS for the term dean of women

in four articles in the old constitution. This provision would place the sponsor of AWS in the same position as the former dean of women.

SANDERS SAID the administration did not request this authority, and has already given AWS authorization to decide its powers.

SAO members have spoken with AWS and WRC representatives, and student body president Mike Riddle, sponsors of last year's women's rights petition and administration officials about the need for rewriting the AWS constitution and quick action by the organization.

SAO members said they would ask women students to vote against further amendments and to vote for rewriting the constitution.

Adopted at Cal Tech

Pass-fail study released

AMHERST, MASS. (IP) — In its report on the status of pass-fail options at twenty-two colleges and universities, the Office of Institutional Studies at the University of Massachusetts includes as Appendix B a statement from the committee on the freshman year at California Institute of Technology.

After a two-year experiment, the faculty at California Institute of Technology confirmed Pass-Fail for freshmen as permanent policy. Before voting, the faculty had spent nearly a month studying a report from the committee on the freshman year which included the following items:

Year-end freshman attrition was down from the average of recent graded years.

What attrition there was fell almost entirely in the bottom quarter of the class among those in academic difficulties, in contrast to previous years in which it had been spread over the entire class and had included departure by transfer of good students.

Voluntary participation in the freshman honors program had more than doubled under Pass-Fail.

The Institute psychologist reported: "It has been my impression — admittedly a highly subjective one — that the freshmen I have seen who had Pass-Fail grading were less deeply and frantically anxious about their academic situation than was characteristic of freshmen I saw in earlier classes."

The sophomore performance of the first Pass-Fail class of freshmen was better than that of previous sophomore classes, and it is expected that sophomore attrition will be significantly less than in previous years.

Faculty who had had experience with freshman classes extending over several years reported that under Pass-Fail there was a significantly improved attitude toward learning for reasons other than grades. From a humanities instructor: "They're reading books again!"

This same improvement carried over into the sophomore year. "I would like to report that the morale of the sophomores in this class (a second-year course) was distinctly higher than in previous years. Their interest and spirit and general zest in scientific

inquiry and concepts were noticeably greater."

A very large majority of the undergraduates were strongly in favor of Pass-Fail: A majority of the upperclassmen observed that the freshmen made constructive use of the freedom they were given under Pass-Fail. Almost all the freshmen said Pass-Fail significantly reduced competitive pressure among them. A large majority of both freshmen and sophomores believed Pass-Fail had made their adjustment from high school to Caltech much easier than they had anticipated.

Freshmen substitute their own judgment, which is based on too limited an experience, in deciding what is worth working at. Thus they cut corners in laboratory work to the point it is clear that they are not acquiring the skills embryo scientists should develop. A significant number of freshmen, with high 700 scores in CEEB Math and a presumed strong interest in math as a central feature of their science training, gave so little attention to the theory, the conceptual as-

pects, of the required calculus course that they failed the final examination.

They made the mistake of assuming that Pass-Fail gave them freedom to ignore all but the problem-solving techniques in the course.

Many freshmen clearly worked less and accomplished less than they would have under the stress of competition; some carried this to the point of a "just get by" attitude.

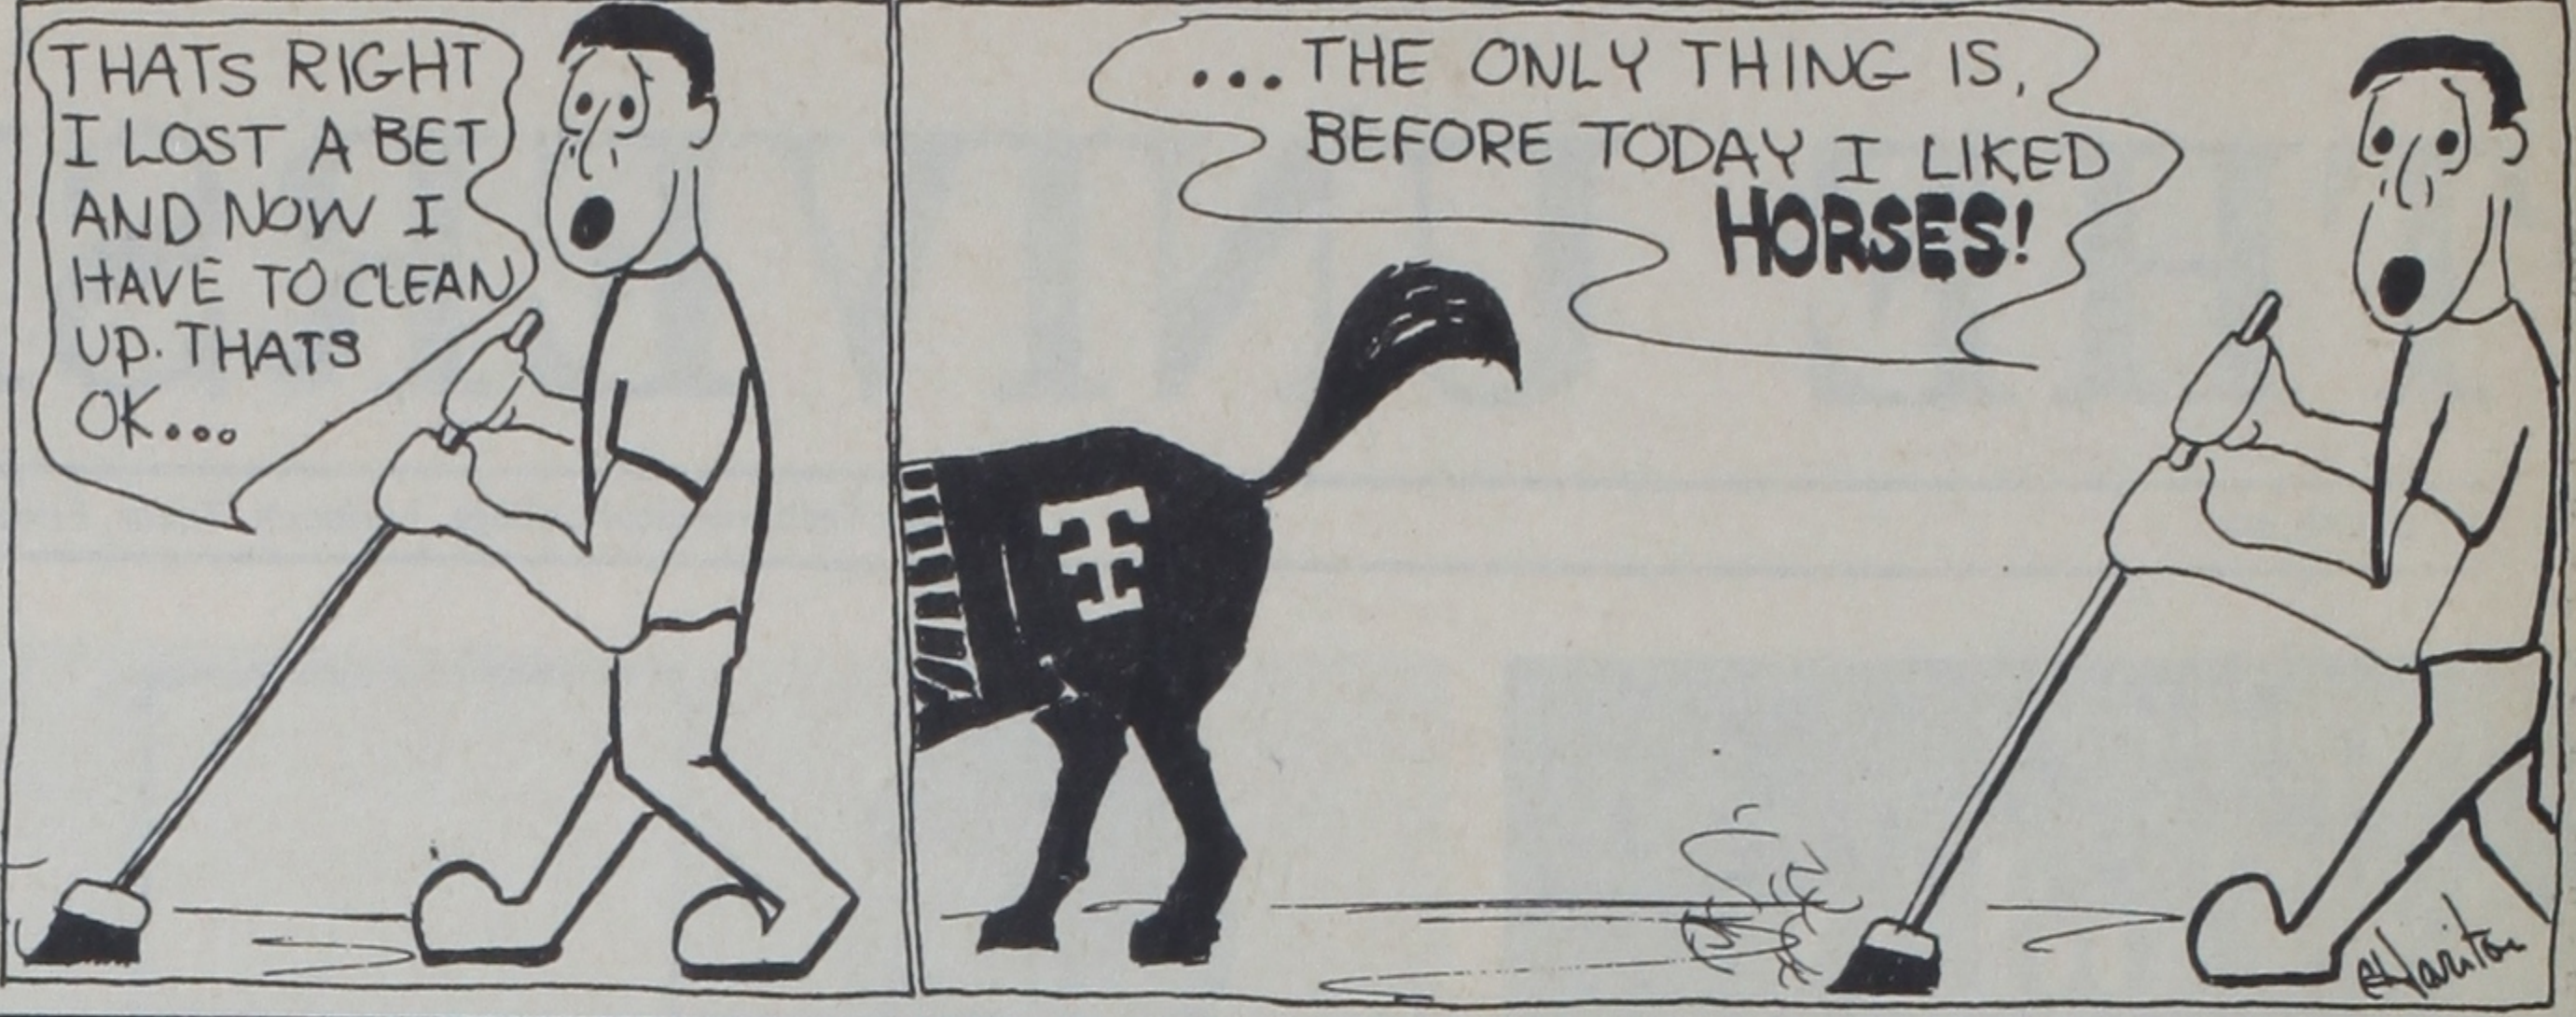

Some of the freshmen with the greatest potential had so conditioned themselves to the top awards of competition that they suffered a real psychological shock when these awards, in the form of grades, were not obtainable.

Although some of the statements above are buttressed by numbers and tabulations from questionnaires (circulated to both faculty and students), almost the entire discussion in the faculty revolved around subjective judgments and evaluations.

Many had expected that this faculty, composed largely of working scientists, would conduct this experiment on a "scientific" basis and would produce a significant publication filled with statistics and their related reliability checks.

THE CONTINUING STORY OF TECHSAN PLACE

BY WALLY CHARITON

The Presidency Commissions named; Mike Riddle: legislation asked

As my column this week, I submit the first part of the text of my state of the Student body address which was made before the Student Senate Tuesday. The rest of the message will appear in my next column.

It is my duty as the President of the Student Association to deliver the state of the Student Body, fall 1968. I am going to talk in abstracts about this student body, about Texas Tech 1968, and about our responsibility to it. This is an age and active time of participation on the student level in the life of the university. This is true at Texas Tech as well as at other universities in our land.

This presents to you and me a great responsibility. We are the legally constructed government of this student body and it befalls us to accept the challenge of involvement, to accept the challenge of serving the student body, to accept the challenge of being concerned and individually willing to stand up, speak up, and willing to take action.

Tonight I have a number of specific requests, a number of specific announcements regarding our participation, regarding service to the student body and regarding our concern to the university as a whole, its nature, and its concept, and its physical plant. To begin with let me announce the creation

of four special presidential commissions. With the authority given to me Article III Section 5 of the constitution of the Student Association I am hereby establishing the following commissions:

1. A COMMITTEE to study Student Association government Student Association government, to analyze it and to seek a method for making it more efficient, more operative, and more responsive to the student body which it is to govern.

2. I am establishing a committee to study housing regulations and ways of improving the dormitories as they now exist. This committee will not only be expected to look at regulations here, but regulations at other major universities. Not only at dormitories as they exist here, but at dormitories in this major area. The effective being to show student concern and to create on the part of the Student Association constructive solutions to many of the problems which are plaguing us in the dormitory situation.

3. A SPECIAL committee which will be composed of the executive vice-president of the university, the vice-president for business affairs of the university, the president and business manager of the Student Association and two senators, whom I shall select. This committee is constituted to do an in depth study and analysis of the system of student financing on this campus, in two respects: 1. the student services fee, how it is divided, where it goes, why, and what better methods might be found to accomplish the same purpose, and 2. to study the concept and the idea of adjusted tuition, that is if a student taking three hours and a student taking twelve hours are paying the same rate of tuition there is something wrong somewhere and that is what is happening at Texas Tech right now. This committee hopefully, will be able to find new answers and possible solutions that may be tried in the way of adjusting fees and adjusting tuition to match the load that the student is carrying.

4. I shall constitute a committee on the name change. My thought behind this being, I have seen us go about this in a number of ways. The most disastrous of which to me, was the year we waited until the spring to do anything. Therefore, I

shall establish a special committee to deal with the name change, to inform the students, to educate the students on past conflict, and to hopefully push for student action and some settlement of this issue during the coming year. I think I could safely predict to you, one way or other this issue will be settled this year.

THESE FOUR special commissions will be constituted as of tonight. I will submit to you for your advice and consent at your next meeting the membership on these committees and they shall each be asked to perform their assigned function and have prepared a report. I do not intend these to be year long committees in their present state. They may be continued after the first of the year but I would at least like to have a report from them and hopefully some action.

The next area I would like to go into relates to you, specifically as a senate. The constitution gives to me the authority to suggest to you a legislative program. I shall now do that. First, I think you have an executive reorganization bill before you. I suggest this to you and I urge you to follow it. It is a request from my office to you. I think it is clear and I think it is non controversial and I know it will make more effective the duties I must perform as President, so I ask your immediate consideration of this and your favorable consideration.

I would also ask that you create some form of legislation that would revise the numbering system for the Student Senate Code. It is a very simple thing I would ask. Instead of numbering by current year, that we adopt a system when a bill is adopted and signed it would be a consecutive number within the Student Senate Code. This would make it much simpler the task I am now trying to do, put this Student Senate Code together including the legislation enacted by the Senate a year and a half ago. I ask that you give your attention to that.

THIRD, I WOULD ask for legislation and study regarding parking and traffic safety in, on, and around the campus. Particularly in the parking area I would ask your immediate investigation into and suggestions concerning legislation upon dormitory parking problems. This is a problem that has been anticipated, but nothing has been done about it. I would like very much to have some legislation from you on which I could act. The second part of that, safety around campus, I am particularly concerned with the situation that exists on University Avenue and 19th Street. I urge you and suggest you look into the situation, the accident rate on 19th Street and University Avenue, the traffic load, and see if we can find some solution, some constructive solution that would improve the situation and reduce the accident and death rate of Texas Tech students.

Temple schools shun hearings

WASHINGTON (AP) — Representatives of the Temple, Tex., school system failed to appear Thursday for a hearing on the government's contention that Temple operates a dual school system for white and Negro children.

Edward Levy, an attorney for the Department of Health, Education and Welfare, urged hearing examiner Leonard J. Ralston to find the Temple school district not in compliance with the 1964 Civil Rights Act and with government desegregation guidelines.

If Ralston upholds the HEW contention and his decision is approved by the Secretary of Health, Education and Welfare, Temple would lose federal financial assistance.

The Civil Rights Act bars federal aid to schools that discriminate against Negroes and operate dual systems.

Levy argued that Temple's freedom of choice desegregation plan has not worked out and that the school district has refused to try alternative ways of accomplishing desegregation. He said Temple has several exclusively Negro schools.

The U.S. Office of Education requires that a school have a plan for complete desegregation by next school year. Levy said Temple has not produced such a plan.

Temple contended in earlier correspondence with the Office of Education that its freedom of choice plan is working adequately and that no reasonable alternatives are available to them.

Levy said that 20 per cent of Temple's Negroes attended predominantly white schools last year and that 42 per cent are attending such schools this year. But he said the closing of a Negro high school was responsible for about two-thirds of the increase in integration rather than the freedom of choice plan.

C. D. Landolt of the Office of Education's Civil Rights Division in Dallas was the only witness. He told of visiting Temple schools last March and finding exclusively Negro and white schools.

Levy also represented the National Science Foundation and recommended that its funds be terminated for Temple.

Ralston ruled that both Levy and the Temple school board may file briefs in reply to the transcript of today's hearing.

Reviews Russian policy Gromyko stand firm on intervention note

UNITED NATIONS, N.Y. (AP) — Soviet Foreign Minister Andrei A. Gromyko declared Thursday that interference by the West in Czechoslovakia or any other Communist Bloc country would run the risk of a new world war.

But in a policy speech to the 125-nation General Assembly he tempered firm words on West Berlin, Germany and Czechoslovakia with an offer to enter into negotiations immediately with the United States on limiting ballistic missiles, and on other disarmament measures.

Gromyko appeared to be holding out a kind of olive branch to the United States with these words: "We are for friendship with the peoples of North America, including the people of the United States, who will always remember, as we will, the tradition of joint struggle in the ranks of the anti-Hitler coalition, and who also shoulder a tremendous responsibility for the preservation of world peace."

But in obvious reply to U. S. avowal that the Western allies would defend West Germany and West Berlin against armed intervention, Gromyko asserted:

"West Berlin has never belonged, nor does it belong, nor will it ever belong, to the Federal Republic of West Germany. If sometimes an aggravation of tensions may occur here, the responsibility for this lies squarely with the West German government."

Six women and three men leaped to their feet in the public gallery near the end of his hour-long speech shouting in unison, "What the hell are you doing for Biafra?"

They were ushered out quickly by U.N. guards, who acted similarly when Vietnam peace demonstrators heckled U. S. Secretary of State Dean Rusk in the assembly hall Wednesday.

Rusk listened intently to the Gromyko speech, and told a reporter afterward it was serious in nature and contained no surprises. He described it as a general review of Soviet policy, and added: "It didn't answer the questions asked in my speech."

Rusk told the assembly Wednesday that the Soviet-led armed intervention in Czechoslovakia endangered world peace and he challenged the Soviet Union to say when their troops would leave.

Gromyko dwelt at some length on disarmament.

He said the General Assembly was well aware of agreement reached between Moscow and Washington on an exchange of views concerning the mutual limitations and subsequent reduction of strategic nuclear weapon delivery vehicles, both offensive and defensive, including antimissile weapons.

"The Soviet government is prepared to start a serious exchange of views on this matter," he said.

He called also for an immediate end to all tests of nuclear weapons, the halting of flights by warplanes carrying nuclear weapons, and for talks on banning use of chemical and bacteriological weapons.

Grad fellowship applications open

Texas Tech Dean of Arts and Sciences Lorrin Kennamer announced Thursday that the Danforth Graduate Fellowships will be awarded in March of next year.

Applicants or persons interested in the fellowships may obtain additional information from his office.

The fellowships, offered by the Danforth Foundation of St. Louis, are open to men and women who are seniors or recent graduates of accredited colleges in the United States, who have serious interest in college teaching as a career and who plan to study for a PhD in the field common to the undergraduate college.

Applicants may be single or married, must be less than 30 years of age at the time of application, and may not have undertaken any graduate or professional study beyond the baccalaureate.

Approximately 120 fellowships will be awarded in March.

Candidates must be nominated by liaison officers of their undergraduate institutions by Nov. 1, 1968. The Foundations does not accept direct applications for the fellowships.

Danforth graduate fellows are eligible for four years of financial assistance, with a maximum annual living stipend of \$2,400 for single fellows and \$2,950 for married fellows, plus tuition and fees. Dependency allowances are also available. Financial need is not a condition for consideration.

Danforth fellows may hold other fellowships such as Ford, Fulbright, National Science, Rhodes, and Woodrow Wilson concurrently, and will be Danforth fellows without stipend until the other awards lapse.

The foundation is both an operating and grant-making agency. It makes grants to schools, colleges, universities and other public and private agencies, and also administers programs designed to reflect its central emphasis.

Bowen to lead AFROTC as fall staff installed

The 802nd Cadet Wing listed its new fall staff with Cadet Col. Richard M. Bowen, an electrical engineering major from Dallas, to serve as commander.

Vice Commander is C-Lt. Col. Charles W. Borders, mechanical engineering major from Abilene.

Operations officer is C-Maj. Wayne Lovell, personnel management major from Lubbock.

Inspector general this fall is C-Maj. Kenneth McClure, C-Maj. Phillip Vick is security and law enforcement officer.

Tim Venziano, C-Maj., is information officer, in charge of publishing Sky Raider and is from Escondido, Calif. C-Maj. Mile Starch, 802nd group commander, is from Falls.

David Henneke, C-Maj., is personnel officer this fall. He is also executive officer in Arnold Air Society.

Everand T. Cowan, C-Maj., is material officer.

Gary Brackett, C-Maj., is accounting and finance officer and is from Lubbock. C-Maj. John Curtis is 801st group commander.

David Dismukes, C-Maj., is 803rd group commander. He is a marketing major from Dallas.

Record number to pledge WSO

Women's Service Organization (WSO) will have only one pledge class this year instead of the one class per semester it has had in the past, pledge trainer Frances Dyer said Wednesday.

The organization, which usually has a pledge class of 32 women each fall and spring, already has 92 pledges signed up and the deadline for pledging is six days away. This is the largest pledge class in WSO's history on the Tech campus.

Miss Dyer said that the reason for the one large class is "because of the number of pledges. There would be no way the girls could complete their pledgship in one semester. It

Honor group makes plans for actives

Tech's Upsilon chapter of Tau Sigma Delta, architecture honor fraternity, met Monday to register members with the national chapter and plan activities for the coming year.

Jim Boydston and Robert Batson are president and vice-president of the organization, which has been inactive on the Tech campus until this year. However, the society hopes to sponsor a design contest and host a spring banquet honoring outstanding students.

Membership in Tau Sigma Delta is composed of students with at least second semester junior status and a 2.8 overall g.p.a. with a 2.8 g.p.a. in their major. New members will be taken at the beginning of next semester.

Col. Phippen department visits ROTC

Col. Daniel K. Phippen of Maxwell Air Force Base, Ala., Area 1 commandant for Air Force ROTC, will visit Texas Tech today and Friday to confer with ROTC officials and administrative officials of the university.

While on campus for the routine visit, Col. Phippen will attend cadet drills and sit in on classroom activities.

Graduate of the University of Idaho, Col. Phippen received a master of science degree in education from Troy State University in Alabama. He also attended the Air Command and Staff College and served on the faculty there from 1953 to 1957.

He returned from a three-year tour of duty in Germany in 1964 and became deputy commandant of the Squadron Officer School at Maxwell AFB. He has been Area 1 commandant of ROTC since 1967.

No more Swifts, Sherwoods, or Porters

Telephone prefixes replaced

Beginning Thursday, Lubbock telephone customers may have all-numeral telephone numbers if they desire, rather than the familiar two-letter, five-digit numbers.

The seven digit numbers will be on an optional basis through Oct. 31.

Each all-numeral telephone number assigned between Thursday and the cutoff date will appear in the new telephone directory to be delivered in December.

"The optional assignment of seven digit telephone numbers is a step toward conversion of each Lubbock telephone number to the nationwide All Number Calling (ANC) system," said John Whitcomb, division

manager for Southwestern Bell Telephone Co.

"ALL LUBBOCK telephone numbers will be converted to ANC in December, 1969," he added.

Each telephone number assigned after Nov. 1 will be all-numeral. However, those numbers will not appear until the

December, 1969, directory, which will be Lubbock's first to have complete ANC numbers. "Even though the present Swift, Porter and Sherwood prefixes will be replaced by numbers, there will be no dialing changes," Whitcomb pointed out.

SW WILL BECOME 79, PO

will be 76 and SH will be 74. Each new prefix will be in the same location on the dial as its present two-letter counterpart.

The last five digits of existing telephone numbers will remain unchanged when the complete ANC conversion is made in 1969.

For example: SW9-8010 will

be 799-8010; PO3-2660 will be 763-2660; SH4-8158 will be 744-8158.

Whitcomb noted that the first step toward ANC for Lubbock came in the December, 1967, directory which listed Texas Tech official numbers as seven digits.

"PERSONS OR FIRMS using printed material which shows their telephone number should keep the 1969 change in mind," Whitcomb suggested.

Whitcomb explained that the conversion to all-numeral telephone numbers is necessary because of the tremendous growth in the total of telephones throughout the nation.

"Telephone companies eventually would run out of suitable numbers if they did not convert to ANC," the Southwestern Bell official added.

About 80 per cent of the telephones in the U.S. already have been converted to ANC.

Homecoming spirit mounts as 11 floats enter parade

The countdown is 22 days—Homecoming is drawing near.

"Texas Tech—Where the Action Is!— is descriptive of the preparations taking place for homecoming, and if campus organizations will follow the groundwork laid by Alpha Phi Omega, the service fraternity in charge of Homecoming for the Ex-students Association, this yearly celebration can be the best yet as far as size and excitement are concerned.

Alpha Theta will enter a car in the parade.

Blue praised these groups for showing enthusiasm by their prompt replies to the entry letters mailed to all campus organizations last week. The deadline for placing an entry in the parade is Oct. 9, Blue said. He hopes that other or-

ganizations will follow the lead set by these groups.

BLUE HAS CALLED the first Homecoming parade meeting for all entering organizations on Oct. 8 in the Coronado Room of the Tech Union at 4 p.m. If any organization failed to receive an application for the parade, an entry form may be picked up in the west wing basement of the Ad Building.

More than 3,000 luminaries will outline the campus on the eve of Homecoming, Richard Green, Corpus Christi junior, said.

Green, chairman of the campus lighting committee for the fraternity, said the luminaries (paper sacks partly filled with soil and containing a lighted candle) will be made at the Physical Plant off Flint Ave. with the help of the Women's Service Organization; Chi Rho, men's Catholic service fraternity; and Circle K International service group.

Oct. 9, is also the deadline for submitting entries for Homecoming Queen, Don Cobb, junior from Abilene, said today. Cobb said Alpha Phi Omega will accept entries only for fulltime students who are sponsored by any campus organization who has met the college requirements for scholarship.

Cobb said the Queen's election is set for Oct. 15, with the runoff, if necessary, Oct. 12.

Landers to address Chis

Dr. William F. Landers of the Department of Psychology at Texas Tech will speak at the luncheon meeting of the Society of the Sigma Xi at noon Tuesday.

His subject will be "Object Concept Development in Pre-Verbal Infants." Faculty, students and the interested public are invited to attend the meeting in the Mesa room of the Student Union. Persons attending the luncheon may pay at the door, but reservations should be made by 12 noon Monday, Oct. 7, with the Biological Department. Chairs will be provided for those who do not wish to attend the luncheon.

69 grads file job forms

The Tech Placement Service has asked 1969 graduates to turn in Personnel Information Forms to the placement office Oct. 7-9 if they have not already done so, Mrs. Jean Jenkins, director, said.

Filing of the forms and two 2-by-3-inch glossy photographs is a requirement for graduation, but the photos do not have to be filed now.

Students who have already filed these forms should come to the placement office to make revisions. The forms may be picked up in room 252 of the Electrical Engineering Building.

Printed personnel sheets can be purchased from the office for a \$7 fee. The Placement Service uses these sheets to furnish copies of information on file at the request of the student concerned.

Fraternity social appeal must bow to intellectual

By LEE SLEEPER
STAFF WRITER

"Fraternities are going to have to change their approach to the student if they are to stay in existence," said Dr. William H. Duvall, Associate Dean of Men, during a meeting of the Intra Fraternity Council Thursday night.

Duvall said such organizations are going to have to accent the intellectual approach rather than the social to increase membership.

According to Duvall, fraternities are losing their social appeal because the dorms are beginning to offer a more active social life, there are more groups on the college campuses that offer social activities to the students and the students are more mobil now than at any other period in college history.

DUVALL SAID this mobil-

ity of the students has decreased the need for social organizations such as fraternities because the students are able to provide their own social life.

Duvall said fraternities need to become involved in civic and college issues and to sponsor speaker series in order to appeal to the intellect of the students and the faculty. He asked them to "take a serious look at the problem."

In OTHER BUSINESS, the IFC appointed judges to the court. Chief justice is Ron Todd, and associate judges are David Wiggs, Howard Garrett, Jody Durham, and Larry Wynn.

The IFC also passed a motion not to rush freshmen. In this way, they said they will be able to cut down rush from a full semester to six weeks.

The IFC set pledging convocation for Oct. 12.

Editors named for La Ventana

La Ventana section editors announced their 1968-69 staff members yesterday. Editors and their staffs are:

Senior View: Barbara Hansen, Section Editor; Denise Welch; Dianne Meyers; Dixie Howell; Billie Jo Poage.

Post: Sheila Looney, Section Editor; Amy Hammer; Elaine Morse; Sue Walker; Karen Carlson; Bernie Masek; Earlene McCall.

Freshmen View: Christy Chapman, Section Editor; Monte Dodd; Linda Stewart; Ruth Studer; Anne Donegan.

Sports Illustrated: Jim Snowden, Section Editor; Karen Jessup; Dave Ammons; Carol Childress; Gary Stephenson.

Life: Darla Dunn, Section Editor; Eren Johnson, Ass't. Editor; Vance Muse; Debbie Wright; Joan Levers.

Town & Country: Peggy Tipton, Section Editor; Retha Ketter; Linda Guinn; Cindy Caldwell.

Junior View: Peggy Tipton,

Section Editor; Lindy Cook; Judy Durham; Stephen Maddox. Mademoiselle: Elaine Saul, Section Editor; Pam Hooser; Denise Sekridge; Kathy Rhoads; Future: Tom Scott, Editor; Sharon Jones; Sharon Smith; Judy Henry.

Tyme: Jackie Williams; Diana Miller; Anita Long. Sophomore View: Patty McKinney; Jaci Crook; Ruth Burney.

Playboy: Donna Johnstone, Section Editor; Debbie Gibbe; Laurie Ingle; Cindy Henderson.

The section editors, chosen last spring, are headed by co-editors Mary Margaret Monarch and Ronnie Lott.

The staff will compile the annual throughout this school year and it will be delivered to subscribers next fall during week of registration.

La Ventana is laid out following a magazine format with individual sections divided into individually bound magazines complete with a color cover.

NEW TIMES - New hours for the library were announced this week. They are 7:20 a.m. to 12 midnight Monday-Friday, 7:20 a.m. to 5 p.m. on Saturday, and 2 p.m. to 12 midnight on Sunday. Pictured at library check out desk are Lanelle Johnson, clerk-typist and Connie Church, Houston sophomore. (Staff photo by Richard Mays)

Tech Eco. major studies in France

Joe Frank Tarver, son of Mr. and Mrs. Joe F. Tarver and an economics major at Tech, has been admitted to the program of the Institute for American Universities in Aix-en-Provence, France, where he will spend the academic year 1968-69.

The Institute, chartered by the University of the State of New York, and under the auspices of the University of Aix-Marseille, is designed for American undergraduates who wish to study abroad and have credit transferred to their home universities.

Courses are offered in French language and literature, fine arts, social and political sciences, Mediterranean area studies and Provencal studies.

A special honors program provides for qualified French majors to study with French students at the Faculte des Lettres. A six-week intensive French course is given for beginners in French upon their arrival at the Institute.

More than half the graduates of the Institute have gone on to "public" service or to graduate schools. Large numbers are teaching French in colleges and high schools; some are in the Diplomatic Corps and others in the Peace Corps or international business, where their experience in living abroad and their fluency in French have made them especially useful.

Aix-en-Provence is located in Southern France, 17 miles north of Marseille, within easy reach of the French Riviera, ski resorts in the French Alps,

Shaughnessy to play with Tech Band

Ed Shaughnessy, drummer on NBC's "Tonight Show," will arrive in Lubbock at 7:40 p.m. today for a special appearance Saturday night in Jones Stadium with the Goin' Band from Raird-erland.

Shaughnessy, who has been performing at colleges throughout the country, will perform an arrangement of "Strike Up the Band," written especially for him by Joel Leach of the Music Department.

"Artistry in Rhythm" is the theme of this week's half-time show, band director Dean Killion said. Featured songs are "Artistry in Rhythm" and "H. M. Jollies," a traditional British march.

"Brazil," a samba, will feature Terry Stephens and the band majorettes. Rhythm routines will be performed to the music of "Basin Street Blues" and "Mississippi Mud."

Janet Parker, El Paso, Miss Majorette of Texas for 1968-69 and a runner-up in the Miss Majorette of America Contest, will perform a twirling routine to the music of "Georgy Girl."

An arrangement of "What Now, My Love," by Joel Leach, will end the half-time program.

Killion and his staff, Dick Tolley, in charge of the trumpet section; Tony Brittan, French horns; Joel Leach, percussion, and John Farrell, woodwinds, work continuously on marching routines for band performances.

Scholastic honorary to plan year

Eligible sophomore women may sign up for Alpha Lambda Delta, scholastic honorary, in room 171 of the Ad Building. Requirements for membership are a 3.5 over-all g.p.a. and at least 30 semester hours.

Women will be notified of their acceptance into the organization, and a pledge service will be held Nov. 10.

Season theater tickets on sale

Season tickets for the University Theater's major productions will be available to members of Tech's faculty and staff and their immediate families through Nov. 11.

The tickets, which are \$5, entitle the holders to reserved seats for the performance of their choice for each of the four productions.

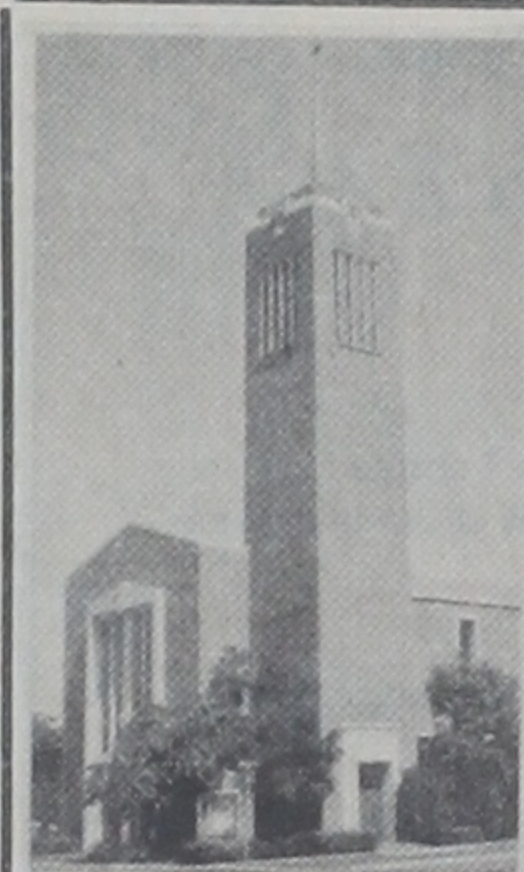

Requests for the tickets,

along with enclosed payment, may be mailed to the Theater. The number of season tickets requested will then be put on file in the holder's name at the box office. Prior to each production the holder may call the box office to confirm the date, and tickets will be held until that performance.

Ronald Schulz, theater director, has asked that orders be received, by campus mail, as early as possible to simplify clerical work.

One conference and six non-conference games are on tap for Southwest conference teams as they open their third week of play. This week SWC teams will try to improve on their 5-6-3 overall record with most eyes riveted on the TCU-Arkansas contest.

The Horned Frogs play host to the Razorbacks this week coming off a spirited 28-17 win over the Hawkeyes of Iowa. After dropping their first game to Georgia Tech in unimpressive fashion, scribes started to doubt whether the Frogs could stand up to the promised stiff competition in the SWC. But last week TCU running attack put itself together and the Purple and White are rated as a champion threat again.

TCU could have picked an easier foe for their initial conference start. Arkansas has limited the Horned Frogs to three touchdowns and two field goals while winning nine in a row from the Ft. Worth team.

The high scoring Razorbacks have vaulted into the national scene ranked number 14 by virtue of their impressive wins over Oklahoma State and Tulsa. Their blitzkrieg attack will be led by super-soph Bill Montgomery at quarterback and David Dickey, who has scored at least once in the Hogs last eleven games.

Liberty Bowl champion North Carolina State visits the Cotton Bowl for the first time as they meet the nationally prominent SMU Mustangs. This is the Ponies' debut before the home folks after last week's team, SWC and national record breaking passing exhibition against Ohio State.

WOLFPACK quarterback Jack Klebe prefers to keep the ball on the ground, but last week, when he was forced to throw against Oklahoma, he set a school record. Chuck Hixson, the SMU quarterback, had better be careful, the Wolfpack defense has already devoured nine enemy fumbles and intercepted four tosses. (Continued on page 7)

Atlanta gets coach; Dallas meets Cards

BY MIKE BRYSON
ASSOCIATED PRESS SPORTS WRITER

Norm Van Brocklin is back, but it isn't expected to deprive Green Bay a good opportunity Sunday of doing at least some temporary patch work to a crumbling dynasty.

The former Minnesota Viking coach was named last week to replace Norb Hecker as Atlanta's coach after the Falcons lost their first three games.

BUT Van Brocklin's first assignment is Green Bay and the Packers are seething indigna-

tion over their worst start in a decade.

The Packers, plagued with injuries that have considerably tamed a once-feared powerhouse, have dropped two of their first three games under Vince Lombardi's successor, Phil Bengtson.

It's the first time since 1963 that the National Football League champions of the past three years have been below the .55 level. And, they are strongly favored to do a little atoning in the match on the Falcons' field.

MEANWHILE, four other teams - New York, Baltimore, Dallas and Los Angeles - will be trying to protect perfect records on the seven-game schedule.

The Colts, 3-0 and tied with Los Angeles for the Coastal Division lead, will probably be without sore-armed Johnny Unitas again when they play hosts to Chicago, 1-2, but Earl Morrall has proved more than an adequate replacement at quarterback.

The Bears, who stopped Minnesota 27-17 last week after losing their first two, have quarterback troubles of their own, and will have to rely on Larry Rakestraw.

NO. 1 signal caller Jack Concanon suffered a broken clavical and his replacement, Rudy Bukich, received a shoulder separation in the Vikings match. However, Gale Sayers, the league's top rusher who was injured late in the game is expected to be ready.

Dallas, 3-0, visits St. Louis and is favored to hand the Cards their third setback in four games. The Cowboys, back-

ed by Don Meredith's sizzling passing, have rolled up 132 points so far while holding their foes to only 33.

Meredith passed for 231 yards, including five touchdowns, in a 45-13 romp past Philadelphia last Sunday - the third time he has thrown that many TD tosses.

New York, which shares first in the Capitol Division with the Cowboys, also if favored at home to turn back the Saints, 1-2. The Giants' scrambling quarterback, Fran Tarkenton, apparently has found the range with Homer Jones, who streaked 82 and 56 yards to score in 48-21 rout of Washington a week ago.

Los Angeles, 3-0, will have a chance to avenge its only regular season loss last year when the Rams entertain San Francisco, 2-1. But, they'll have to stop John Brodie, who hit 17 of 20 pass attempts - matching the second highest game percentage in NFL history - and registered three touchdowns in a 28-13 conquest of Atlanta.

THE RAMS, meanwhile, are fresh from a 24-6 coast past Cleveland marked by Dick Bass' 23 carries for 134 yards - best in the league this season - and Roman Gabriel's 17 of 34 pass-completions for 194 yards and one touchdown.

The top spot in the Central Division will be at stake when Detroit and Minnesota, both 2-1, collide in a game shifted from Detroit to the Vikings' field because of the World Series.

The Lions, who brushed aside Green Bay 23-17 in their last outing, have come on strong since quarterback Bill Munson returned after missing the first game because of injury.

PHILADELPHIA, 0-3, was holding out hope that Norm Snead would be ready to guide the Eagles against Sonny Jurgensen - led Washington, 1-2. Snead broke his leg in the Eagles' pre-season opener, and replacements King Hill and John Huarte haven't been very effective.

Jurgensen's 270 yards passing in the loss to New York was the best by an NFL quarterback this season, but he was hurt by three interceptions.

Only three games were on tap Sunday in the American Football League - Boston at Oakland, Cincinnati at Denver and Miami at Houston.

After what happened to the New York Jets in Buffalo a week ago it behooves the Oakland Raiders to be on guard against the Boston Patriots.

Intramurals to begin season with record breaking participation

A flurry of sports activity is due to hit the campus Monday as the Intramural department opens what promises to be another record breaking season.

Acknowledged as one of the best Intramural programs in the nation, over 7,000 students are expected to participate in this year's activities. Close to two-thirds of the male population

at Tech is expected to participate in a sport this year.

HANDBALL and Golf doubles, along with touchfootball kick-off their season this Monday. Thompson Hall will defend its all-college Touchfootball championship, the Fraternity division will have the Phi Deltas as defending champions. Open league champs last year

were the PEK's and the Club division defending champions are the Toads.

ENTRIES for Badminton doubles and co-ed volleyball close today at 5 p.m. Entries for the pentathlon, wrestling, tug-of-war, table tennis doubles, tennis doubles, horseshoe doubles, paddleball doubles, and spaceball doubles will be accepted in the Intramural office through Oct. 15.

A Graduate - Faculty - Staff touchfootball league is being organized with games scheduled for each Friday starting at 5 p.m. The deadline date for entries is set for Tuesday, Oct. 8, at 5 p.m. A general

rules meeting will be held on Wednesday, Oct. 9, at 5 p.m. in the Intramural gym. Play will start on Oct. 11. Additional details may be obtained through the Intramural office.

Judo instruction is available this semester through the Intramural program for those students who are preparing for the judo competition this spring. Instruction will be provided in the Intramural gym every Monday and Wednesday from 6 p.m. to 8 p.m.

DUE to an error by the Intramural department, the picture of the "Us Five" all college league bowling champions which appears on page 46 of the Intramural handbook is incorrect. Members of the "Us Five" team are: John Sneed, Randy Loftis, Don Walters, Ray Everts, Mike Brockman, and Bill DeFee.

Defensive secondary wary. . .but ready

Here's more about The Way I See It

(Continued from page 6)

Ken Fleming, the receiving end of SMU's spectacular sophomore battery, is ahead of the SWC record pace for TD passes. The record is jointly held by Bob Long of A&M and former Baylor star Larry Elkins, each caught eight six point passes. Fleming has four touchdown receptions in two games.

The once wounded Aggies of Texas A&M travel to Florida State to take on the Seminoles. Florida State is seeking their fifth straight win over a SWC representative.

A PERSONAL rivalry may develop between the Cadets quarterback, Edd Hargett and FSU's All-American receiver Ron Sellers. Hargett has thrown for at least one touchdown in his last ten games. Sellers is expected to be the main target for quarterback Gary Pajcic's tosses.

Hargett's throwing arm should get a stern test against the Seminoles, their pass defense is ranked number four in the nation.

The Longhorns are at home this week and hope to taste victory for the first time this year against the Cowboys of Oklahoma State. UT owns an eight to one edge in past contests.

THE COWBOYS will have to retrack their defense which gave up the lead and 22 points in the third quarter against Arkansas in their first game of the season.

Darrell Royal is keeping everyone in the dark about his quarterback choice for the OSU game. Last week, junior signal caller James Street came off the bench in the third quarter to spell Bill Bradley and performed more than impressively. Looks as if Royal has learned that great runners like Gilbert, Worster, and Koy can't win ball games if the passing threat isn't present. Though touted as Texas' greatest quarterback since Bobby Layne, Bradley has small hands which have hampered his effectiveness.

Coach Bo Hagan is hoping for a superior effort from his quarterback, Robby Shelton, as the Rice Owls take on the Tennessee Volunteers this Saturday night in Houston.

TENNESSEE boasts a win over Memphis State and a tie with Georgia; while the Owls tied Washington and took it on the chin last week at the hands of LSU.

Though Tennessee, number two ranked last year, has not looked particularly impressive this year, the return of Olympic hopeful Richmond Flowers will bolster their offensive attack. The SWC nemesis, Louisiana State plays host to Baylor this Saturday night in Baton Rouge.

LSU has, in the last two weekends, dumped both A&M and Rice, it looks as if it will take an inspired effort by the Bears to salvage a victory for the SWC from the Tigers.

Baylor is heavily dependent on sophomores, but Coach John Bridgers has been encouraged by the showing of his offensive line against tough Big Ten foes, Indiana and Michigan State.

Tech's high flying Red Raiders will take on the Colorado State Rams Saturday night in Jones Stadium. The Raiders have to be ready for this one because it counts as a conference game for the Rams. Starting their first year in the Western Athletic Conference crown.

Lolich's pitching, hitting sparks Detroit's 8-1 win

ST. LOUIS (AP) — The Detroit Tigers exploded for three solo homers, including one by pitcher Mickey Lolich, and defeated St. Louis 8-1 in the second World Series game behind Lolich's six-hitter Thursday.

The triumph enabled Detroit to deadlock the Series, 1-1. The third game will be played in the Tigers' ball park Saturday.

The American League champions, helpless before Bob Gibson's 17-strikeout pitching in the opener, flared back with three homers in a 13-hit attack.

Lolich, a 27-year-old left-hander who rides a motor bike to the park when the club is home, had a shutout in hand until the sixth when the Cards scored on a walk to Lou Brock, a scratch single by Curt Flood and a bloop single by Orlando Cepeda.

"I didn't expect to pitch today's ball game," Lolich said afterwards. "I developed an infection in my groin overnight and I wasn't feeling strong at all. I figured the most I could pitch was five or six innings."

Willie Horton, Norm Cash and Lolich slammed homers off Nelson Briles, the Card starter and loser who threw 18 gopher balls in regular season play, tops on the St. Louis staff.

Mickey appeared to be so surprised when he hit his homer in the third inning that he paused momentarily at first and watched the ball sail into the left field seats about 350-feet away.

The Cards got their run in the sixth when Lou Brock walked, stole second, moved to third on Curt Flood's scratch hit and scored on Orlando Cepeda's looping single to center.

St. Louis won the opener 4-0 Wednesday behind Bob Gibson's five-hitter and record 17 strikeouts.

By BENNY TURNER
Sports Staff

Doubt seems to loom in the minds of some of the Red Raiders' fans as to whether the Tech defensive backfield can defend against the passing attacks of upcoming opponents.

Although some of the supporters feel this way, there are no qualms whatsoever in the minds of the four men that this re-

Oilers' Beathard doubtful starter

HOUSTON (AP) — Quarterback Pete Beathard of the Houston Oilers went to a hospital Thursday for gall bladder tests. The American Football League office was notified Beathard is a doubtful participant for Sunday's Astro dome game with the Miami Dolphins.

Under league rules, the Oilers have until the Sunday kickoff to determine whether Beathard will be able to play.

Houston has two other quarterbacks. Bob Davis, a second year player from Virginia, has completed nine of 19 passes for 112 yards and led a Houston comeback that scored one touchdown and threatened another last Sunday after Oakland had jumped to a 24-9 lead. Don Trull was activated last week from the taxi squad.

Beathard ranks sixth among AFL passers after four league games and ranks first in yardage gained. He has completed 61 of 125 passes for 912 yards and four touchdowns, but leads the league with 10 interceptions.

responsibility lies on. This quartet of pass defenders consists of Larry Alford, Denton Fox, Gary Golden, and Ronnie Rhoads.

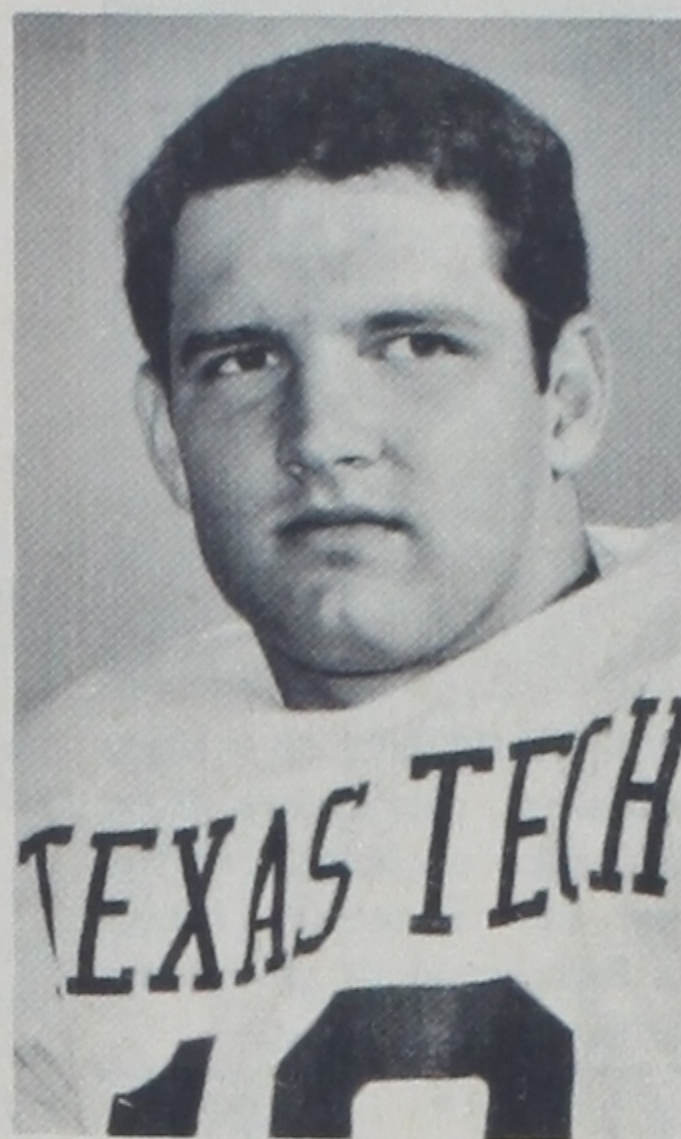

ALFORD, a 5' 10", 185 pounder has retained his berth thus far as the leading punt returner in the Southwest Conference. Last year, he led the conference with a total of 320 yards on 32 returns. "I think I've gained more confidence in my playing this year and this makes it easier to recognize the plays. I also try to concentrate on the plays the team has run in similar situations."

So far this year, Alford has returned seven punts for 208 yards; but punt returns is not the only things he does well. In 1967, he ranked fourth in the SWC as a tackler, with 30 tackles and 23 assists.

A product of Houston Memorial Alford picked up three letters in both football and baseball. His freshman year he led in kickoff returns with five attempts for 112 yards and a 22.4 average. As a sophomore Alford was named Tech's most outstanding defensive back.

DENTON FOX, a native of Claude, is a junior and a returning letterman. Last Saturday against the Longhorns, he made six tackles and broke up a key pass. Fox feels that the experience he gained from last year helped him quite a bit in the Texas game. The defensive left halfback tips the scales at 198 pounds and stands 6'3".

"Tech's zone defense can readily be adapted to any offensive formation," Fox said.

Larry Alford

Colorado State will be setting up as well as running some unusual plays, but this will not hinder our secondary in any way."

Fox was a four year letterman in football, basketball, and track in high school.

SPEED MERCHANT Gary Golden holds down the rover spot of the Red Raider defensive unit. Golden who bears the number 20, runs a 9.6 hundred yard dash and is a member of the SWC champion 440 relay. The team was clocked at 40.7.

"Last year I tore a cartilage and pretty well messed up my knee," he said. "During the off-

Denton Fox

season it was operated on and corrected. I think the one factor which has helped me most this year is a solid knee."

In the Longhorn game Golden came up with seven tackles, one blocked kick, and one fumble recovery. The two year letterman will wrap up his career at Tech this year.

MOVING FROM ROVER to right halfback hasn't seemed to give Ronnie Rhoads much trouble. A two year letterman, Rhoads racked up 28 tackles, nine assists and two interceptions in the 1967 season. Last week the 190 pounder came up with an interception that helped

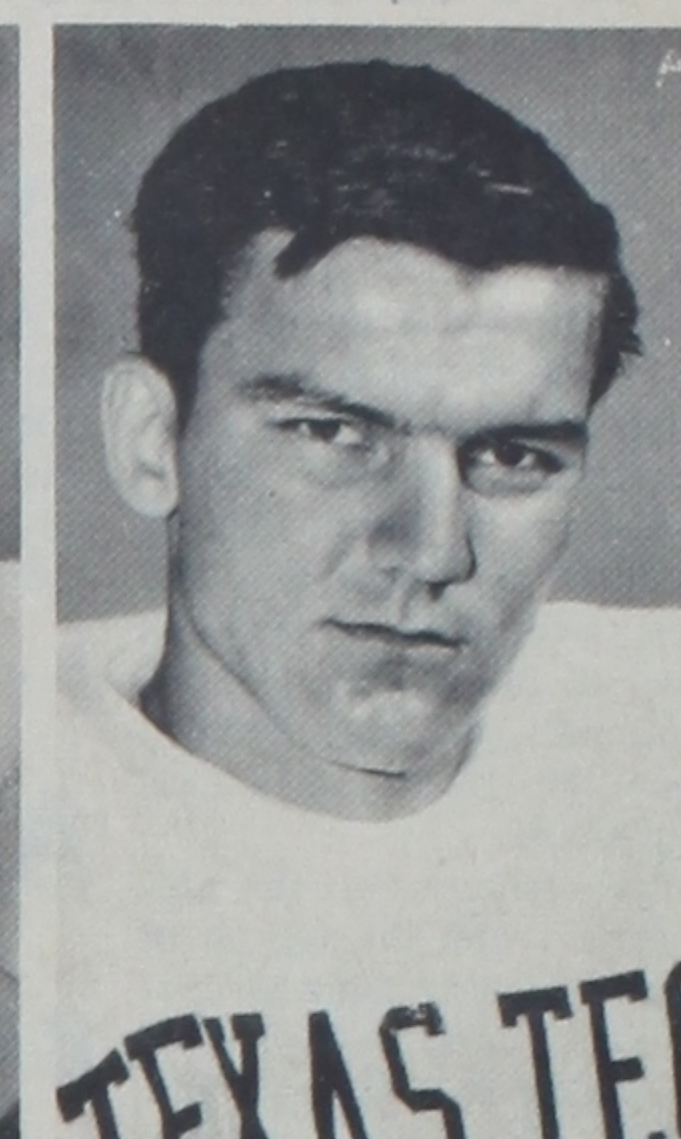

Ronnie Rhoads.

break down the highly touted Texas offense.

"I think we gained quite a bit of experience from last year. We (defensive backfield) are working more smoothly and reading our keys better than last year," Rhoads said.

Each of the four gridders seemed unified on the idea of beating Colorado State before even thinking of A&M. All

Gary Golden

agreed that the Bears' offense would be tricky, but it can and will be overcome.

IN THE SECONDARY Alford is the leading punt returner and Rhoads leads the conference in interceptions.

So for all you fair-weathered fans take one more look at the facts before you doubt the Tech secondary.

Student revolt spurns more deaths, turmoil

MEXICO CITY (AP) — Troops hunted room by room for snipers while tanks patrolled downtown streets Thursday after the bloodiest fighting of Mexico's student revolt. The turmoil prompted an anxious meeting of international Olympic officials, but they decided to open the 1968 games Oct. 12 as planned.

Savage clashes between student rebels and the forces of President Gustav Diaz Ordaz' government Wednesday night left a death toll variously estimated at 20 to 40. Hundreds of others were injured and thousands jailed.

Rioting has shaken Mexico City since mid-July when students struck to back up such demands as elimination of the riot police corps, firing of top police officials, changes in the antismuggling law and a guarantee of university autonomy. The harassed government ordered an army takeover of the University of Mexico last month.

Avery Brundage, president of the International Olympic Committee, announced the Games will go on as scheduled after an emergency committee session.

"We have conferred with the

Mexican authorities and we have been assured that nothing will interfere with the peaceful entrance of the Olympic flame into the stadium on Oct. 12, nor with the competition which follows," Brundage said in a statement.

Angel officers take command of flight

Angel Flight officers for 1968-69 include: Donna Johnstone, commander; Margaret McGill, executive officer; Amy Trail, administrative officer; Kay Blackwood, comptroller; Mary Tucker, information officer; Susan Norfleet, operations officer; Camilla Nash, material officer.

In charge of pledge training is Karen Johnson assisted by Carolyn O'Dell. Other officers include: Debbie Campbell, historian; Jackie Goodwin, nation-

al publications; Barbara Langley, national archives; Peggy Woolridge, AWS representative; Donna Snyder, censor; and Carol Cloyd is publicity chairman.

Activities for this year's Angel Flight members include acting as hostesses for the area conclave and various functions at Reese Air Force Base, service projects, and trips to Phoenix, Ariz.; Anaheim, Calif.; and New Orleans.

SIGMA NU PRINCESS — Mary Hutchinson, sophomore from Dallas, was presented as the Sigma Nu fraternity White Rose Princess at its after-game party Saturday night.

ROTC adds new profs

Maj. Walter F. Jordan has been named instructor of senior students and staff weather officer for Department of Aerospace Studies (Air Force ROTC) at Texas Tech and Capt. James A. Warsinske is the new instructor of sophomores in the Department of Aerospace Studies (Air Force ROTC) at Texas Tech.

AP writer says

Cheating is possible on new DPS drinking test

By ROBERT HEARD

AUSTIN (AP) — You can cheat on the new breath test the Department of Public Safety has for drunken driver suspects, but you must be awfully good at it.

What they want, if you consent to the test, is a sample from the third of the air in your lungs. So they will ask you to blow a long slow breath into a plastic tube until all the air in your lungs is expelled.

THE TESTING OFFICER is trained to observe you closely to make sure you blow all the air out. So if you know how to fake that under the watchful eye of a trained observer, presumably you can get away with it. The DPS is willing to bet you can't.

And if you are really stoned, forget it. A sample of your breath from the top two-thirds

registers nearly as high.

THE DPS demonstrated the new tester Thursday. It is called Breathalyzer and they have 90

Tuition hike not favored by Eggers

HOUSTON (AP) — Paul Eggers, Republican candidate for governor, told a University of Houston audience Thursday he opposes a tuition increase at state-financed colleges.

He also said, "Our education system in Texas is in need of immediate improvement. As governor, I will encourage an active dialogue with students and faculty alike. Too often in the past, our state government has not communicated effectively with students."

of them. They cost nearly \$1,000 each.

Half the \$250,000 needed for a one-year study of the breath-testing project came from a federal grant.

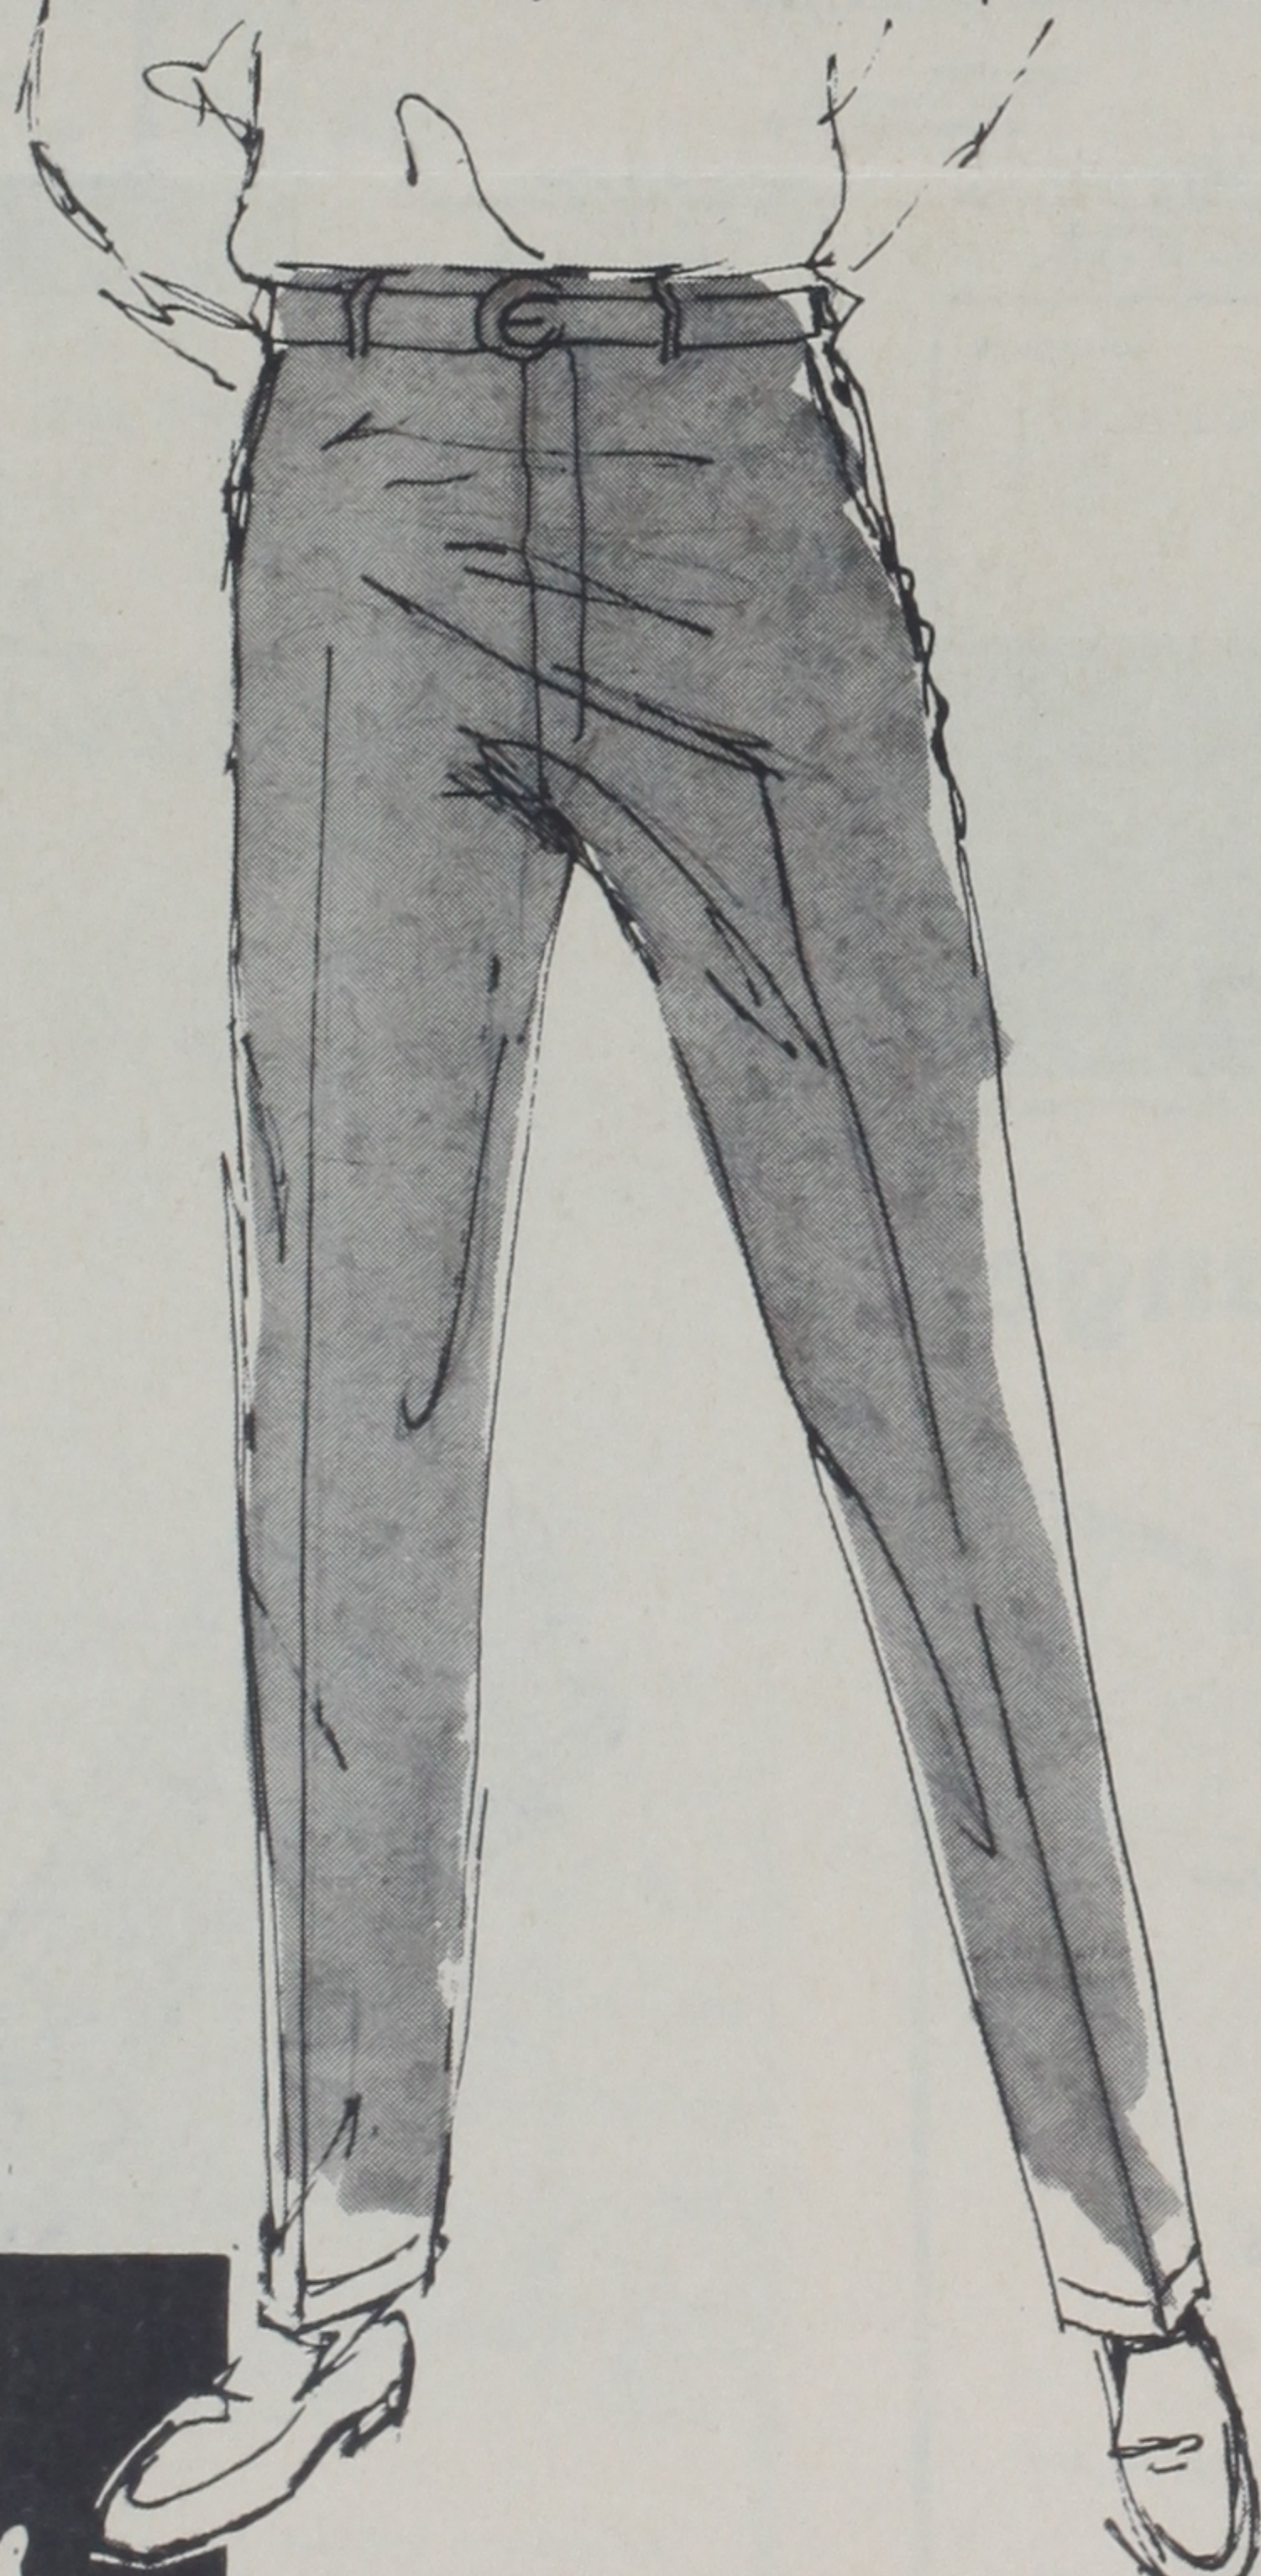

The testers will be put into

operation within two or three weeks, said DPS director Wilson Speir. Large cities like Houston and Dallas probably will get two of them. The others also will go to metropolitan areas, he said.

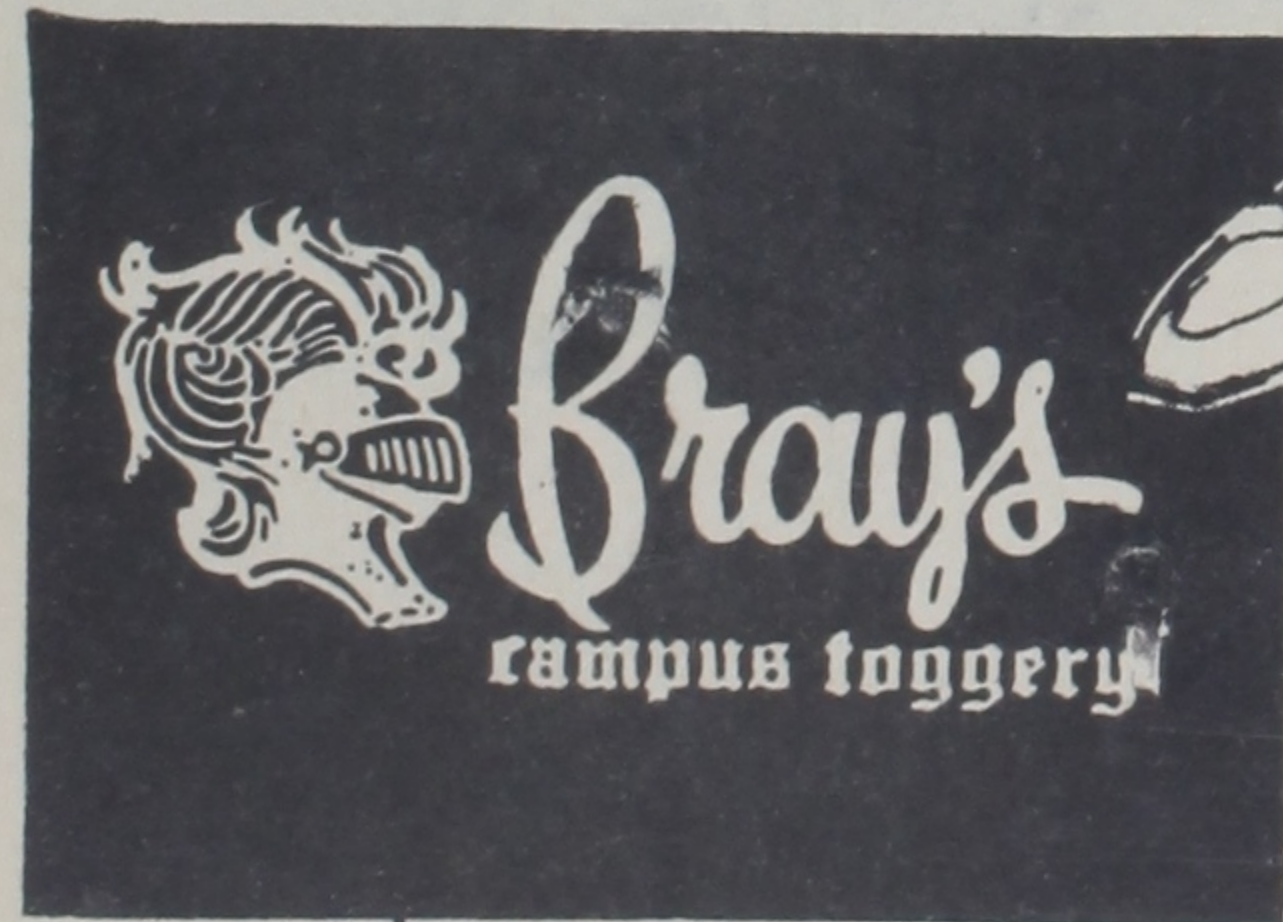

Raider Roundup
