

Reuther Lays Out Program For Big Union

ATLANTIC CITY, N. J., March 28 (AP)—Walter Reuther, newly-elected president of the CIO United Auto Workers, launched his big union toward new spheres of influence today.

Reuther defeated R. J. Thomas, president for seven years, for the leadership yesterday by the slim margin of 125 votes in a turbulent four-hour roll-call at the union convention, marked by fist-fighting and confusion. The official count was 4,445 to 4,320.

Reuther told a news conference after his election that he would work toward:

- 1—Organizing farm equipment workers in a big way.
- 2—Industry-wide collective bargaining in the automobile industry based on equal pay for equal work.
- 3—A bigger, stronger and more unified union, developing responsibility in all plants so that workers would not strike unless authorized by the international union.
- 4—A guaranteed annual wage for the workers.
- 5—Organizing the white-collar workers, engineers and technicians of the auto industry.

He told the convention in a speech after his victory that he wanted to "take my place by the side of Philip Murray and help him carry part of the burden he has to carry as president of the CIO."

And he put industry on notice with these words:

"Let the capitalists and the anti-labor forces realize that we disagree in the convention but when we leave here, we leave as a united organization to fight the common fight."

Diplomatic Brains Whirl On Gromyko

NEW YORK, March 28. (AP)—Soviet Russia had some of the best brains in diplomacy whirling today.

No one seemed able to say exactly why Andrei Gromyko, walked out on the United Nations Security Council.

The so-called "diplomatic experts" who usually know the answers had no explanation for the Russian delegate's action. They were almost equally uncertain what the effect of his action would be on the new world peace organization.

Some thought this showdown with Russia was a good thing. Some wished to high heaven it could have somehow been avoided. A few wondered whether Russia's absence might virtually paralyze the council.

The immediate cause of the walkout was obvious enough. Ambassador Gromyko had served notice that if Ambassador Hussein Ala of Iran was called by the council to say anything on his country's complaints against Russia, Gromyko would leave.

Why Moscow sent those instructions, what she hoped to gain by the action—these were questions without answers today.

Gromyko, the experts suggested, might have remained aloof from Hussein Ala simply by pushing his big green chair back from the council table, folding his arms and declining to join in the discussion.

Measuring the development against the cause of world peace—something that was a subject of speculation in delegation hotel rooms all over town—American authorities came up with these conclusions:

1. In winning his argument that Iran is given opportunity to make a statement without delay, Secretary of State Byrnes had emphasized to the world his principle that no nation on the council could prevent any other nation from being heard.
2. In challenging Russia's threat to walk out, however, the council majority at least temporarily widened the split among the big powers.
3. The brightest spot in the situation as it shaped up was the statement of a Soviet spokesman that Russia would be represented at today's closed council meeting.

Federal Seizure Of Farm Plants Seems Probable

WASHINGTON, March 28 (AP)—Labor department officials said today government seizure of strike-bound farm equipment plants and idle California canneries is increasingly probable.

Both have an important bearing on the nation's food supply.

The California canneries process about a third of the country's canned fruits and vegetables. And farmers badly need new machinery to meet record crop production goals set by the government in an effort to avert starvation abroad.

The labor department officials said both situations will be placed before Secretary of Labor Schweikert when he returns from a west coast trip, either today or tomorrow.

Schweikert is known to favor union seizure action.

Schweikert and Secretary of Agriculture Clinton P. Anderson jointly invited the presidents of three leading farm equipment concerns, to a meeting here Friday. The companies are involved in a contract dispute with the CIO Farm Equipment Workers Union, which has left 42,500 persons idle.

"Supplies of (farm) equipment are at a disastrously low level," the telegram said. "Production is required to furnish farmers with necessary tools to produce food products, not only for the United States but for the suffering people of other countries."

Price Control Future In 'Terrific Danger'

WASHINGTON, March 28 (AP)—A congressional friend of President Truman's economic program said today the future of price controls is in "terrific danger."

After six weeks of slam-bang public hearings before the House banking committee on legislation to prolong OPA's life for a year beyond June 30, Rep. Rooney (D-Okl.), a member of the committee, told newsmen:

"There is real danger—terrific danger—that the OPA law will be amended to death."

Gromyko Disappoints British Foreign Office

LONDON, March 28. (AP)—A foreign office spokesman said today the British government considered that the authority of the United Nations was placed in jeopardy as a result of Russia's walkout from the Security Council meeting last night.

The spokesman said Ambassador Andrei Gromyko's action "obviously was a disturbing factor" and "disappointing."

Republican Cry Of 'Pork Barrel' Snags Housing

Production Chief Small Testifies For More Homes

WASHINGTON, March 28 (AP)—The administration applied fresh pressure today for its homes-for-veterans program but ran into a republican contention that part of it is a "pork barrel" scheme.

Civilian Production Chief John D. Small was the day's chief witness before senate banking committee hearings on legislation designed to make possible 2,700,000 new homes by the end of next year.

Even before Small appeared to renew pleas for a \$600,000,000 subsidy fund to boost production of scarce materials, however, Senator Capehart (R-Ind.) voiced his "pork barrel" charge. He referred, he told reporters, to Housing Expediter Wilson W. Wyatt's plans for the government to guarantee markets for prefabricated dwellings and construction materials.

Under the Wyatt program, the government would undertake to purchase a certain number of prefabricated houses from each builder who demanded assurance that there would be a market for his full production. The government, in turn, would act as sales agent.

Opposition to building materials subsidies also was voiced by Herbert U. Nelson, executive vice-president of the National Association of Real Estate Boards.

Producers of building supplies are against subsidies, Nelson asserted, because "they recognize that if the government hands out money to them they will lose their freedom."

In congress, Senator Wiley (R-Wis.) blasted at the Civilian Production Administration's new order which sharply restricts virtually all new construction except veterans' housing.

CAR'S FLAT TIRE CAUGHT HIM FLAT

CHICAGO, March 28 (AP)—Policeman Edward Mendenhall was ready to drive home after work when he discovered a flat tire on the car parked in front of the Chicago avenue station.

As Mendenhall finished his job, Policeman Frank Sheehan came out of the station and thanked him for fixing the tire on his car.

The two policemen own automobiles of the same model and normally keep them parked in front of the station. But Mendenhall's machine had been moved from its usual parking place.

Husband Given Five Years For Uxoricide

MARSHALL, March 28 (AP)—Herman Wilton was assessed a five-year suspended sentence and his sister, Mrs. Opal McDonald of Mt. Pleasant was acquitted, on charges of assault with intent to murder in the shooting of his wife, Mrs. Sybil Wilton.

Mrs. Wilton was shot at her beauty parlor in Linden. She recovered from the wound. Mrs. McDonald was charged with being an accomplice.

Eisenhower Day

AUSTIN, March 28 (AP)—April 20 will be proclaimed Eisenhower Day, Gov. Coke Stevenson said today, in response to requests from Denison. Details are being worked out, the governor said.

OPA RESTORES WARTIME ORDER ON MEAT, DUSTS OFF ANOTHER

WASHINGTON, March 28. (AP)—With restoration of one wartime meat control already ordered, OPA today dusted off another it may use against black market dealing in cattle.

A price agency official who withheld use of his name, said the government is prepared to re-institute more drastic slaughtering regulations if the measure which goes into effect next Monday does not turn the trick.

These, he said, would limit to a certain base period figure the number of animals a non-federally inspected packing house could butcher. The purpose, as during the war, would be to drive more

Council Calls Meeting After Soviet Walkout

USS YELLOWSTONE AND SOVIET VESSEL—Here is a file picture (top) of the destroyer tender, USS Yellowstone, which figured in espionage charges placed against Soviet Naval Lt. Nicolai G. Redin at Portland, Ore. The other picture (bottom) shows the Russian SS Alma, where FBI agents arrested Redin. The Soviet officer, a member of the Russian purchasing commission at Seattle, was held on a default of \$25,000 bail, charged with seeking plans and information regarding the Yellowstone, one of the newest of the navy's warships. (AP Wirephoto).

Mrs. Roosevelt May Head UNRRA Refugee Commission

ATLANTIC CITY, N. J., March 28 (AP)—A move to place Eleanor Roosevelt at the head of an international organization for handling the problems of political exiles and war-scattered refugees gathered force today among delegates from 48 nations attending UNRRA's council meeting.

There appeared little likelihood, however, that action on the proposition would come at this meeting. It seemed probable it would await the time when the problems of displaced persons were turned over to the United Nations.

But, in circles close to the delegates, it was reported that the question of offering the job to Mrs. Roosevelt already had gone beyond the point of speculation.

If accepted, it would bring back into a working partnership—this time at an international level—the team of Fiorello H. LaGuardia and Mrs. Roosevelt which directed the United States program of civilian defense during the first part of the war.

LaGuardia, former mayor of New York, has been nominated director general of UNRRA to succeed Herbert Lehman.

Before him was a broad program of recommendations to member governments for rigorous food controls—including rationing "where necessary"—together with a call for all-out production, aid to farmers and stringent conservation steps.

The new director will be under orders to contact all of UNRRA's members speedily; find out how much further they can go in their contributions toward forestalling famine, and then call UNRRA's delegates back into session.

Despite the strong recommendations on food controls, there existed among the delegates scant hope that the United States—UNRRA's chief supplier—would return to rationing. A United States spokesman observed that there was nothing mandatory about the recommendation.

Thomas Chosen Vice-President

ATLANTIC CITY, N. J., March 28 (AP)—R. J. Thomas, who was defeated for president of the auto workers union, was elected to one of the union's two vice-presidential posts today.

Killed Instantly

HOBBS, N. M., March 28. (AP)—State police reported Orville Clarence Leach, 38, of Andrews, Tex., was killed instantly last night in a motorcycle-into accident south of Hobbs. Dale Pope of Eunice, N. M., driver of the motorcycle on which Leach was riding, escaped injury.

Trial Mentions Red - Nazi Pact

NUERNBERG, March 28 (AP)—Joachim von Ribbentrop's former personal secretary testified before the international military tribunal today that a secret Russian-German pact dividing eastern European territories, including Poland, was brought from Moscow by the Nazi foreign minister in August, 1939, before the start of the war.

The witness, Margaret Blank, said the pact was in a sealed envelope bearing the inscription "German-Russian secret agreement."

Miss Blank was permitted to testify only after the tribunal had considered the matter in private 75 minutes and over the strenuous objections of the Soviet prosecutor, Gen. R. A. Rudenko.

The witness also told the court Ribbentrop began peace overtures as early as the winter of 1943 when with Adolf Hitler's permission he had sent a Professor Berger to Switzerland for the purpose of finding a basis for peace negotiations.

On April 20, 1945, Ribbentrop also notified Hitler that he wanted to undertake peace negotiations, she said, but Hitler would "sanction negotiations only if military successes were present."

The defense then summoned Paul Otto Schmidt, Hitler's official interpreter, to testify.

Schmidt said Hitler and all top Nazis were "surprised and greatly depressed" at Britain's declaration in support of Poland at the start of the war.

Ribbentrop and the entire foreign office were "completely surprised," he added, at the Japanese attack on Pearl Harbor.

The woman witness barely had time to assert that a Russian-German treaty had been signed by Ribbentrop and Foreign Minister V. M. Molotov in Moscow when the Soviet prosecutor got on his feet and objected.

He declared the matter was irrelevant and that the witness was not competent to testify concerning the alleged treaty, thus posing one of the most delicate questions to be presented to the tribunal since the war crimes trial opened more than four months ago.

The tribunal immediately recessed to discuss the matter in private.

Gen. Rudenko charged that attempts of attorneys for both Von Ribbentrop and Rudolf Hess to

Reds To Reenter If Iran Dropped

NEW YORK, March 28 (AP)—The United Nations Security Council was called into executive session today to discuss grave problems of procedure raised when Soviet Delegate Andrei Gromyko walked out on the council late yesterday after it refused to postpone consideration of the Iranian issue.

A Soviet spokesman indicated Gromyko would attend the session—scheduled for 3 p. m. (CST)—with the understanding that the council would not go into the merits of the Iranian dispute.

Iran Army Told Not To Reenter Evacuated Area

TEHRAN, March 28. (AP)—An Iranian general staff officer said today the government had ordered the Army not to reenter territory evacuated by the Russians.

He said the order had called a halt to general staff plans to reoccupy northern garrison posts.

The officer said the Russians had not yet completed their withdrawal from Karaj, 25 miles north of Tehran, and Garmsar, their nearest post east of the capital, although only about 15 Russians remained at Karaj. A railway station detail remained at Garmsar, he said.

No reports of Russian troops actually leaving Iran have been received by the army, the officer said.

He expressed anxiety about the Iranian garrison at Sardasht, saying communications with that western outpost had been interrupted since Kurdish tribesmen renewed their attacks following an intermission for New Year (Noruz) fasting.

He said attacks on the southern Azerbaijan garrison of Saqqiz had ceased and that road crews had removed snow drifts which isolated the post from divisional headquarters at Sanandaj.

Official Tehran government sources remained silent regarding the Russian delegation's action at the United Nations Security Council meeting in New York. Prime Minister Ahmed Qavam was "too busy" to see reporters and Prince Firouz, the propaganda director, said there was "no change in Iran's status in the Russo-Iranian case."

Youth To Explain Possession Of Goods

DAVID ALVAREZ, 16, is being retained in the juvenile delinquency ward and will be given another opportunity to explain how he came into possession of a quantity of merchandise allegedly stolen from J. and L. Drugs.

Shortly after his apprehension two days ago, David told juvenile officer Jake Bruton he found the goods in the northwest section of the city.

Truck Driver Finds Woman Critically Beaten On Highway

DALLAS, March 28 (AP)—A well-dressed woman believed to be from Oklahoma was found critically beaten alongside a highway near here today.

A driver's license found in the woman's purse had been issued to Mrs. W. H. McHenry, 68, of Pittsburg, Okla. Deposit slips showed bank deposits made to Mrs. McHenry's account at McAlester, Ada and Antlers, Okla.

A truck driver discovered the woman lying in a ditch at 7:30 a. m. She was rushed to a hospital where attendants said she had suffered a skull fracture, fracture of both jaws and a crushed nose.

Officers said the woman was found lying beside automobile tracks in the gravel. They theorized that she was beaten, robbed and pushed or thrown from an automobile last night. They said marks on her body indicated that she had been beaten by fists.

Chief Deputy Sheriff Bill Decker, in trying to identify the woman, said the sheriff at McAlester told him that Mrs. McHenry was well known in McAlester, where she had an inactive and rather substantial bank account, but that she had been away from that city for about two years.

Plant Shut Down

CUMBERLAND, Md., March 28 (AP)—The Kelly-Springfield Tire company plant, employing 2,300 persons, was shut down today by a walkout which a union official said was unauthorized, and which caught wage negotiators by surprise.

JOBLESS YETS ABOUND

AUSTIN, March 28. (AP)—Veteran unemployment appears more critical in only six other states than it is in Texas and non-veteran unemployment more critical in eleven other states, the Texas Unemployment Compensation Commission reported today on basis of a statistical analysis of all states for the week ending March 9.

SOVIET OFFICER SEEKS ADVICE ON REMOVAL FOR SEATTLE TRIAL

PORTLAND, Ore., March 28. (AP)—A Soviet naval officer accused of espionage turned today to legal advice as he prepared for a decision on whether to accept or fight removal to Seattle for trial.

Lt. Nicolai G. Redin, 29, arrested by the FBI Tuesday night on a warrant charging he induced an unnamed person to give him data on the destroyer tender USS Yellowstone, had the aid of Russia's top West Coast representative to help him make the decision.

Redin spent his second night in jail under \$25,000 bail but Soviet Consul-General Michael S. Vavilov, who flew here from San Francisco, said he would post the bail today unless Redin, member of the Soviet purchasing commis-

son at Seattle, were released on his own recognizance.

While official Washington withheld comment on the case, the House committee on un-American activities was told by Elmer W. Sherwood, American Legion Americanism director, that foreign nations are trying to place their agents into veterans' organizations.

The committee, following a closed session yesterday, reported that it would send an investigator to Canada to confer with officials of the alleged Soviet spy ring in that country and start hearings within the next two weeks on reported attempts to steal US atomic bomb secrets.

There was no immediate claim, however, of a link between Redin and other reported activity.

City To Gain Control Of Airport April 6

The latest communication received indicates that the city will assume control of the airport on a temporary basis April 6. B. J. McDaniel, city manager, said.

Two representatives of the US Engineers have been here for several days, taking inventory of equipment in preparation for taking charge of the field from the army. The Engineers will, in turn, pass it on to the city, who will operate it until such time that permanent acquisition can be effected.

Popular - Sized Tires Come In Trickle To Creighton's

Tires in popular sizes are coming into the Creighton Tire company at 203 West Third, but as yet Charlie Creighton, owner and man-

ager, insists the supply is only a trickle. They're not the pre-war rubber tire that motorists have dreamed of buying for so many do-without years, either, but Creighton stands behind his war-baby synthetic Selerlings. "They're just as good, if not better than those bought years ago," he says.

As for wearability, Creighton, who has been a dealer in Big Spring for 18 years, believes the synthetics are better than the natural rubber. However, the tires may heat a little more under excessive speed; but even this temperature increase is not noticed at moderate speeds. Tests have been conducted to prove tires made of synthetic rubber actually drive

more miles than the other kinds. Yet those synthetics are scarce. When they do come in they are offered for sale on a basis of self-rationing. Those customers first on the list of would-be buyers are given first chance.

In the meantime, the company is equipped to recap and vulcanize old tires, making them last miles longer until they may be replaced.

In conjunction with the tire department, Creighton runs a service station dealing in Magnolia products, including Mobilgas and Mobiloil, and other supplies and accessories such as wheels, batteries, etc.

Associated with him in the business is his brother Reuben and four attendants always ready to supply efficient courteous service.

Airplane Is Fast; But Ain't There Yet
KANSAS CITY, March 25 (AP)—A taxi drove up to S. A. Hautt's office and the driver asked directions to Wilmington. Hautt said he knew of no such place. The taxi's feminine passenger described a previous trip to Wilmington.
"I got out of the plane at the Los Angeles airport and took a taxi straight north," she explained.
"But you're in Kansas City now," said Hautt.
"Oh, my gosh," she exclaimed, "take me back to the airport quick!"

MORE FARMING EFFICIENCY—Bob Mabry, mechanic at the Big Spring Tractor company, checks over a Ferguson lister-plant, one of a new shipment recently received by the firm at their warehouse and showroom on the Lamesa highway. The local company is official agency for Ford Tractors and the Ferguson System of implements in this area. They offer the farmer more than 25 implement attachments for the Ford Tractor and maintain a complete stock of parts.

TRACTOR'S USE ON FARM DEVELOPS RAPIDLY; MANY LABOR SAVING DEVICES NOW IN STOCK

Not so many years ago, the use of the tractor was limited almost exclusively to pulling implements, with farmers merely replacing their horses or other animal power with engine power on wheels. However, it wasn't until Harry Ferguson conceived and developed the method of operating with implements. Ferguson's new system that there was any basic change in the Ferguson System and applied it to the Ford-Ferguson Tractor didn't change what the implement did. Rather, it changed how the implement was used. The tool no longer was merely pulled by the tractor. It became a working part of the tractor itself—carried by the tractor.

The Ford Tractor and the Ferguson System of implements are featured locally by the Big Spring Tractor company on the Lamesa Highway. At present they have cultivators and 4-row weedeaters available in large quantities, and also good supplies of such items as tractor tires, knives, sweeps and tractor jacks. Also ready for sale is the best stock of parts the firm has ever offered.

Big Spring Tractor company is official agency in this area for the more than 25 implements for the Ford Tractor. A new item recently added to the list is a digging attachment which is capable of sinking a 40-inch post hole in 15 seconds. Other real labor saving devices are the loading in from one and a half to two minutes. No definite word has been received on shipments of new tractors, but they are expected to begin at any time. Striking workers resumed operations at the Ford

Tractor plant on March 4. Present indications are, however, that prices on tractors and implements will advance. Therefore, farmers are advised to determine their needs as early as possible and try to make their purchases with that in mind.

SHORTAGE OF SIGNS FOR THESE TIMES
CHICAGO, March 25 (AP)—Many Chicago landlords, with no apartments to rent, can't find "no vacancy" signs to post on their buildings.
James Dameron, owner of a sign firm, said during the war manufacture of all metal signs dropped sharply and sign sellers kept only small stocks of "no vacancy" signs on hand. Before the war the big demand was for "for rent" signs — which now are selling at half price. Dameron said his firms turns

K & T Electric Offers Efficient Repair Service
K. and T. Electric company still offers quick and efficient repair service on all types and sizes of electric motors and appliances.
New single phase motors are still on the scarce list, but parts and wiring are plentiful and almost any type of motor can be repaired and kept in service for many more months.
There are plenty of three phase motors available now, and K. and T. also has the ever popular air conditioner pump and motor in stock. Knowing the hot, dry weather which will be here in a scant three months, Henry Thames, owner of K. and T., advised that the air conditioning units be purchased in plenty of time.
Oil fields and ranches can be assured of prompt service and adequate illumination if they install electric power plants from K. and T.
A new service for the Thames company is a refrigeration service. K. and T. is now equipped to handle all electrical problems and announced that J. E. Freeman can meet any situation requiring repair of electrical equipment.
"Housewives," Thames advised, "if you haven't been able yet to acquire a new electric iron, and the old one which has gone through four or five years of constant use suddenly refuses to heat, bring it to us, and we'll put a quick end to your troubles."
Whether it is a burned out iron or a balky electric motor, try K. and T. Electric at 400 East Third for quick, efficient repair service.

Record Turnout To Attend Annual Cap Rock Meet

STANTON, March 28 — A record turnout of 1,000 to 1,200 persons is expected here Saturday for the seventh annual meeting of members of the Cap Rock Electric Cooperative.

The session, called for purpose of receiving annual reports and electing officers, will be held at 2 p. m. in the high school gymnasium, said O. B. Bryan, superintendent.

Nine members of the board will be elected at the session, all present members having been renominated. Other nominations may be made from the floor.

A feature of the affair will be a display of most of the electrical appliances which are or will be available. Two Big Spring houses are exhibiting wares. Some \$300 worth of appliances will be given away, including an initial choice between an electric refrigerator, range, home freezer, water heater, ironer and dryer, kitchen cabinet, etc. Many smaller appliances will be made as gifts.

Principal address will be by George Haggard, Austin, editor of the Texas Power Reserve Electric Cooperative.

Cap Rock today serves 1,225 members on 583 miles, a big gain over the 325 on 172 miles at the outset seven years ago. One of two 100-mile projects of extensions has been completed and a second, embracing 50 miles west of Moore and south of Knott, has been started.

Officers and directors are Glenn Cantrell, Big Spring, president; Jim McCreeless, Stanton, vice president; Arah Phillips, Big Spring, secretary-treasurer; Edgar Phillips, Mrs. Lee Castle, W. L. Clements, D. W. McDonald, L. B. McClain, and C. L. Gray, directors.

Farm And Ranch News

By WACIL McNAIR

According to reports from the district soil conservation office increased acreage of sudan is indicated in Howard county this year. Most farmers in this area are showing a definite preference for the sweet variety, which is a cross between common sudan and a grain sorghum. The basis for this is that the animals grazed on it seem to find it more palatable. However, an increase in acreage of either variety is welcomed wholeheartedly by the conservation service.

Concerned primarily with protecting the soil of both crop and rangeland, a definite relationship exists between sudan and other grass crops and the conservation work. Adequate growth of vegetation eliminates the necessity for man made conservation practices in many cases, and sudan acreage for grazing purposes is an approved method of providing and replenishing such growth. A field of sudan can be used for grazing cattle during the months of summer and early fall, relieving native range grasses and giving them a chance to establish growth for better winter grazing. And judging from recent observations, which have been well publicized about the country, the common range grasses are currently in greater need of a rest than ever before.

These recent reports indicate that the grasses of a quality suitable for grazing are reaching such a depleted state that undesirable varieties are gaining headway to such an extent that they may keep the "good" grasses in subordination. Or, in some cases it may even pave the way for erosion. Overstocking during recent years has brought about much of the depletion, but it is believed that the situation can be eased to a great extent by giving the regular range land temporary relief from the burden during a portion of each year.

Farmers and stockmen are being urged at the same time, however, not to take any chances on losing large quantities of valuable chemicals from their soil while raising sudan. This can be avoided by turning under a substantial part of the

Tired Kidneys Often Bring Sleepless Nights

Doctors say your kidneys contain 15 million of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up nights. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, restful sleep.

When disorder of kidney function permits poisonous matter to remain in your blood, it may also cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Doan's gives happy relief and will help the 15 million of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Second Armored To Be Regular Army Unit

WASHINGTON, March 28 (AP)—Gen. Jacob L. Devers, commander of army ground forces, announced yesterday designation of the Second armored division as a permanent regular army peace-time unit.

The division, stationed at Camp Hood, Tex., was credited by the war department with being the first American unit to enter Berlin.

Surplus Workers Continue Increase

Surplus workers in the Big Spring area continued to increase in number during the past week. With the total today standing at 728 as compared to 672 a week ago.

During the week 95 were referred to jobs by the US Employment Service, and 78 were hired. Current job openings decreased from 63 to 42. A total of 378 workers and employers contacted the office during the week.

Principal labor demands in the area are as follows: one body repairman, one blacksmith, draftsman, bookkeeper (male), one general office clerk (male), one clay pipe layer, 14 laborers, two stenographers, four waitresses, two chambermaids, seven laundry workers, one janitor, seven maids and one practical nurse. Also listed is an out of town opening for one general office clerk.

Taking Important Step

To our way of thinking, the city commission has taken an important step in letting a contract for work looking toward the zoning of the city.

Commissioners accepted a bid for engineering work necessary for making proper plans and adopting the proper ordinances.

Of course, it is too early to ascertain what scope zoning may cover, but it is not too early to fathom the need for it. We are of the opinion that this matter is at least a decade overdue in Big Spring.

Many things can be accomplished by it, yet it might be well to remind ourselves not to expect miracles out of such a piece of local legislation. Many things which have grown up topsy-turvy may not now be easily corrected on the grounds that ex post facto laws are without foundation. Hence, the chief value of a zoning ordinance is pitched toward the future.

In this light, zoning simply recognizes the principle of orderly planning with more than an ordinary amount of vision.

It seems that this step comes at an oppor-

... tune time. To all intents we are on the threshold of another wave of intense development. To make this conform to a definite pattern is wise.

Establish Our Case

The city has taken action toward prosecuting applications for bombardier school properties. It is to be hoped that this property, so sorely needed for meeting housing and other needs, may be obtained. Otherwise, we might, as a community, be faced with the spectacle of seeing at least a sizeable part of it dismantled and sent to other areas where the need probably is no greater than it is here.

Needless to say, such a turn of events would be a blow. This would not be so if it were merely a matter of pride or selfish interests. However, our position is that we have a justifiable case.

Having it, we believe that action to present it with vigor is timely. Everything possible should be done to establish that case.

Life's Darkest Moment

Washington—

More Power Planned For Farmers

By JACK STINNETT
WASHINGTON—On May 20 the Rural Electrification Administration will celebrate its tenth birthday.

It actually was established in 1935 by executive order, but that was with only \$15,000,000 preliminary study funds. It wasn't until May 20, 1938, that it was activated by congressional action.

Five years of its life have been war years, when priorities on materials and manpower brought the fruits of its labors virtually to a standstill. (Contribution of REA-financed systems to the war effort was considerable.)

Ten years ago, less than 11 percent of all farms in the country were electrified. Today, mostly through self-liquidating REA loans, nearly 45 percent of the country's farms are electrified (in spite of the wartime slowdown).

To date, Congress has appropriated \$725,000,000 for REA loans and another \$100,000,000 is coming up for the balance of this fiscal year. In ten years, if the present goal is reached, virtually the whole rural United States will be electrified. The cost will have been something like \$1,825,000,000—but not cost to the taxpayers.

In the ten years of its life to date delinquencies on repayments of the loans have been well under one percent.

As for its effect on farming, Sen. Robert M. LaFollette Jr., said recently: "I venture the assertion that electricity will ultimately revolutionize agriculture more than all farm inventions of the last century combined."

Experts at the Department of Agriculture (in which REA is located) say there are 80 separate uses of electricity in the home and more than 300 on the farm itself.

Broadway—

PLAYWRIGHT FINDS CASH RIGHT

By JACK O'BRIAN
NEW YORK — Back when a riotous farce called "Room Service" was bought for the hefty sum of the Marx Brothers at the then unheard-of price of \$255,000, Broadway took the news with an excited cynicism, sniped the authors, John Murray and Allen Boretz, but agreed all around that it never could happen again.

Then came along a series of even more fabulous movie purchases of Broadway hits, each time bringing with it more of the same derisive cynicism: it just couldn't keep happening. "The Voice of the Turtle" was bought for a down-payment-plus-percentage which made it a half-million dollar proposition for the producer, author and angels. Again, Broadway said, the millennium had been reached.

Then came "Life With Father." It had been kept off the Hollywood auction block until Authors Lindsay and Crouse and Producer Oscar Serlin were good and ready. And when they were ready the price was good: A percentage arrangement on top of various down payments which will turn it into a \$1,000,000 sale. That is not plastic.

So—are Lindsay and Crouse sitting on their cash laurels? Hardly. "Life With Father" is trotting along neatly at the Bijou theatre. Their latest literary antic, "State of the Union," is bouncing along prettily at the Hudson, with a counterpart on the road, as has also "Life With Father."

And, someone may ask, what happens with "State of the Union" in Hollywood. Could anything top the film deal of "Life With Father?"

The answer comes loudly, sol-

Washington Merry-Go-Round—

President May Defer Farm Labor

By DREW PEARSON
WASHINGTON.—Story behind the recent White House visit of GOP Representative William Lemke of North Dakota is that President Truman may liberalize the drafting of farmers in order to aid the bumper harvest so vitally needed this year.

The North Dakota congressman told Truman that many farms in the Northwest are critically short-handed due to the drafting of only sons when they reach the age of 18.

Lemke also pointed out that large numbers of older sons who have served in the armed forces are not returning to the farm. They are taking fancier jobs in the cities instead. In some cases, the younger brothers are being inducted, though sorely needed on the farm.

"Draft boards in my state are taking all unmarried men when they reach draft age, regardless of their essentiality," said Lemke.

"I am aware of the problem," Truman assured him. "The same thing is happening in my own state of Missouri. Some of the draft boards are too stringent in the case of farm workers."

"I don't think anyone should be deferred at the expense of men now in the Army who are entitled to get out," continued Lemke.

However, I believe the Army could find between 200,000 and 300,000 non-essential men who are able to serve but who have been deferred because of some physical defect."

Truman said he was inclined to agree and that he planned to go over the whole draft situation soon with Chief of Staff General Eisenhower and Selective Service chief General Hershey. Special emphasis will be given to essential farm workers, he said, adding that the Army chiefs would be

asked to work out a solution with local draft boards.

Atom Test

The scientists had their own reason for postponing the atomic bomb test, and this was the one which finally controlled—namely, the impossibility of measuring the underwater atomic explosion until a machine is perfected.

At the last cabinet meeting, however, President Truman brought up an additional reason—the fact that he couldn't spare the Democratic senators and congressmen who wanted to witness the test in Mid-Pacific.

This, however, was no problem for Postmaster General Bob Hannegan.

"If you'll let me pick them," he said, "it might be an excellent thing to hold the test at this time."

women's clothing, where there is a higher profit.

Cardinal Von Galen of Germany, the second of the newly appointed Cardinals to die, had planned to visit the United States this year... When Herbert Hoover was food administrator after the last war, he worked closely with Cardinal Achille Ratti, then Pope Pius XI. That was one reason why Hoover conferred with the present Pope on food relief... David Dubinsky, head of the International Ladies Garment Workers, says he isn't putting up any money to take the United Auto Workers away from the CIO. The money he contributed—\$75,000—was for the relief of General Motors strikers' families who, he felt, helped carry the bill to win wage increases for all labor... Incidentally, music man Petrillo also contributed \$2,000 to General Motors strikers' families, while one of the best money raisers for them was John L. Lewis' enemy John Marchland, head of the Progressive Miners union. Lewis himself didn't contribute a red cent, though several senators and even some employers did... The return of Maxim Litvinoff to top Soviet councils may be one reason for a more cooperative policy in Moscow. Litvinoff, ex-ambassador to Washington, has an English wife, was a real believer in international cooperation. For the past two years, however, he got slapped around by Soviet intriguers.

Veterans Go Bare-back

If you are puzzled as to why returned veterans can't buy suits, the confidential government figures on woolens and worsteds goods will give you the answer.

Briefly, it boils down to the fact that more woolens and worsteds are being woven than almost ever before—but they are all going to the ladies. Women's clothing brings higher prices, so the poor veteran is being left out in the cold.

If you don't believe it, look at the figures. During the last quarter of 1945, the production of woolens and worsteds shot up 13 percent over the previous quarter, and 31 percent over the 1939 average. In other words, we were making more woolens at the end of 1945 than before the war started.

However, here is the pay-off. During the same closing months of 1945, 20,000,000 additional yards of woolens and worsteds went into women's clothing. The amount used for men's clothing did not increase at all.

This 20,000,000 additional yards of woolens was enough to make nearly 8,000,000 men's suits in three months. However, the men didn't get 'em; the women did.

Here is the reason. During the war, woolen looms were required to make fabrics for uniforms. This was required by the government. But as looms were released from war production, they shifted to light woolen fabrics suitable for

Merry-Go-Round

British Foreign Minister Ernest Bevin attacked Australian Laborites in a secret meeting the other day when the Aussies claimed a strong Japan would be a threat to Australian security. Said Bevin, "Russia is the real menace..."

David K. Niles, an old Roosevelt braintrust, has been urged by Truman to remain on at the White House indefinitely. He will probably do so... Tireless New York Publisher Genesee Pope is letting no moss grow under his efforts to aid hungry Italy... Pope has bought 2,000,000 pounds of flour, 10,000 pounds of dried peas and 7,000,000 penicillin tablets to help the disease-ridden people of his native Italy.

Boyle's Notebook—

ALL GREEKS RUNNING FOR OFFICE

(EDITOR'S NOTE: Boyle's column today is in the form of a letter to his wife, Frances, in the United States.)

By HAL BOYLE
ATHENS, March 27. (AP)—Dear Frances: Greece has about the same population as New York City and everybody seems to be running for political office.

Next Sunday is national election day and everybody is steamed up over issues and nobody can concentrate on his work. The Greeks have a low boiling point politically and every sidewalk café is overflowing with Mark Hannas.

There are no "post no signs" here. Every public and private business building is plastered with portraits of candidates, their records and promises and political slogans.

My hotel is on the main business street and each morning from my window I can see the white columns of the Parthenon on the Acropolis. It is much more damaged than I had thought from seeing schoolbook pictures.

Athens is quite modern. Its central section shows no signs of damage from the German occupation but in some residential areas apartment buildings still bear bullet and shell marks. Housing is short here, too, and rents fabulous. I like the Greeks very much.

They probably had it tougher than any people in occupied Europe but they don't sit around and complain about the past now. They are very friendly to Americans and many speak English well. They are tough and sturdy and more patriotic than Texans.

They are still mad at the Bulgarians for jumping on them when Germany had them down and many paraders were yelling "On to Sofia." These Greeks are proud of the way they batter the Italians around and a lot of old soldiers would like to do the same thing to the Bulgarians.

Clothing and food prices are high and you need an adding machine for every transaction because one American dollar equals 8,000 Greek Drachmas. I haven't seen anything like it since China.

You would like the pastry shops there. There are more confectionery stores than saloons back home, all full of rich sugary concoctions stuffed with yellow goo and sprinkled with chopped almonds and walnuts. The restaurants are just like Greek restaurants in America. But they didn't have "stromberry" pie.

Steamships operating out of Houston carry cargo to 30 countries.

Today And Tomorrow--

Negotiation With Russia

By WALTER LIPPMANN
It will be most unwise for us to raise the Iranian question in the Security Council before our new ambassador to Russia, General Bedell Smith, has had time to reach Moscow and enter into a full discussion on this and related matters with Stalin.

Perhaps it is impossible to have such a discussion. We should make every effort to find out. The astounding fact is that with the peace of the world hanging in the balance we now have no one in Moscow, and have not had any one during this whole most critical period, who can even see Stalin, much less talk with him. The Russians have no one in Washington to whom we can talk with any hope of an important exchange of views.

Surely it would be better to re-

establish direct diplomatic contact with Moscow before we have a showdown by public debate. A showdown may be necessary and it may be inevitable. But the right time to have a showdown is after diplomatic negotiation has been attempted and has failed, not before it has even been tried.

If we are to have a showdown, which may mean an irreparable break among the great powers and the destruction of UNO, let us have it after our new ambassador reports that he is unable to negotiate seriously with Stalin, and that the differences between us are vital and irreconcilable. To announce that we are going to have a showdown while our ambassador is still grounded in Washington is not firmness in the conduct of foreign affairs. It is recklessness.

nial advisers have a heavy personal responsibility for letting Mr. Harriman come home before General Smith was ready to replace him.

... .

This procedure can be justified only if we have written off as hopeless a negotiated settlement with the Soviet Union. There are many who think that a negotiated settlement is impossible, that the Soviet Union does not and will not keep its promises, that negotiation can result only in appeasement.

Yet if this is to be our final judgment, our people are entitled to feel that it rests not on deductions from assumptions but upon an exhaustive effort to negotiate directly and persistently with the rulers in the Kremlin.

QUALITY SERVICE
announces its
REMOVAL

from its present location to 815 W. 3rd. We will be closed until we move into our new 40x120 modern garage with new equipment.

In addition to shop and other service, we will offer United Body work.

Watch for Opening Date

The Alsop brothers reported on Friday that among "American policy makers" it "is assumed" that a "radical change in Russian policy" can only be accomplished by the most violent kind of crisis which will convince the Russian leaders that the rest of the world means business. "I do not believe that it is the assumption of the President and the Secretary of State that they must now precipitate 'the most violent kind of crisis.'"

For no sane man makes it his policy to precipitate the most violent kind of crisis. This view is, however, held by some of their advisers, and it may account for the fact that the State Department has failed to keep in diplomatic contact with Moscow during the past three months. If so, the tech-

Of course, it is difficult to negotiate with the Russians, and conceivably it may be impossible. But when we had to negotiate the loan agreement with the British, we shut off the oratory and negotiated in private for several months. Why? Because an agreement would have been impossible if the debates had been conducted in public. Yet there it was only a question of dollars. Here the question is the life and death of multitudes of men, and we are trying to deal with this question without taking the most elementary precautions which are necessary if any agreement is ever to be reached.

Combine Vegetables Of Different Colors, Flavors For Interesting Lenten Meals

By CHARLOTTE ADAMS
Associated Press Food Editor

If you don't eat meat in Lent, you needn't have fish at every meal. Vegetable dinners are very good—remember? And there are plenty of vegetables available at this season of the year—fresh canned or quick-frozen to give you variety in your planning.

Just a lot of vegetables, boiled, seasoned and served doesn't offer much excitement, even if you've been good about color combinations and not overcooking. Almost any vegetable dinner you offer will be more interesting if it's based largely upon a sauce.

For instance, try this unusual suggestion of sweet potatoes with a sauce served in green pepper cups and decorated with bright parsley sprigs.

Sweet Potato Croquettes
3 cups cooked, mashed sweet

potatoes
Dry bread crumbs
1-4 cup butter or vitaminized margarine
1-2 teaspoon salt
1-4 teaspoon nutmeg
1-4 teaspoon cinnamon
1 egg
3 green peppers, halved
1-4 cups white sauce
Parsley
Mix potatoes, 1-3 cup bread crumbs, butter or margarine, seasonings and egg. Shape into croquettes. Cover with dry bread crumbs. Bake in hot oven (400 degrees) 30 minutes.
Parboil green peppers. Cut them in half and remove seeds and membrane. Fill halves with sauce made thus:
3 tablespoons butter or vitaminized margarine
3 tablespoons flour
3-4 teaspoon salt
Dash of pepper
1-2 cups milk
Melt butter or margarine. Remove from stove and blend in flour smoothly. Add milk and cook until thickened, stirring constantly. Season. Fill pepper halves and garnish with parsley. Serve on hot platter with sweet potato croquettes.

The Nation Today— Government Experiences Difficulty Finding Grain For Other Nations

By OVID A. MARTIN
(Substituting for James Marlow)

WASHINGTON, March 28 (AP)—Government efforts to obtain enough wheat to meet export promises to hungry areas abroad continue to encounter difficulties. It appears now that for the second consecutive month this year, export shipments in March will fall below the monthly goal of 1,000,000 tons.

Some food officials and farm leaders believe that additional measures will be necessary if goals for April, May and June are to be reached.

Several weeks ago, a shortage of freight cars was said by Secretary of Agriculture Clinton P. Anderson to be holding up movement of wheat from midwestern producing areas to seaports. Anderson said then that country elevators were full and could not accept additional grain from farmers.

Since then, the government took steps to make more cars available. As a result many country elevators which a few weeks ago were bulg-

ing are now empty. Grain is not moving to these elevators from farms in any appreciable quantity.

Food officials believe many farmers are holding their wheat for several reasons, including:

1. Hope for better prices.
2. Because they are too busy with farming to haul wheat to market.
3. They want to wait until they can determine how this year's wheat crops turn out.

The hope for better prices is, in the opinion of food officials, the biggest factor.

Food officials say the best thing that could happen, from the standpoint of the foreign relief program, would be early congressional action on price control. Farmers then would know what kind of prices they could count upon. Then they would be more willing to sell their grain now than to hold it.

Yet, there are only two ways of obtaining grain. One is by offering a price which the grower considers satisfactory. The other is by confiscation. There is no thought being given to the latter method.

Easter Seals Mailed From Dallas Sunday

Easter seals were to have been mailed out from Dallas Sunday and should be received soon, Mrs. James T. Brooks, secretary of the Easter Seal Drive for the American Legion Auxiliary, said today.

A dollar's worth, or one hundred seals, is in each envelope. Contributions should be mailed to Mrs. Brooks, 606 Johnson street.

Proceeds derived from the sale of the seals will go into a crippled children's fund, 60 per cent of which remains in the area, the other 40 per cent going to the state.

Last year the fund aided several children, providing a wheel chair for a Latin-American youngster, rental of a chair for another child, and glasses for several children, Mrs. Brooks said.

Ellis County, in a war on crows, planted more than 200 pounds of explosives in trees.

Excavation Made At Hardin-Simmons

ABILENE, March 28. — Excavation for a new three-story dormitory for women at Hardin-Simmons university is almost complete, and work on the re-enforced concrete frame work will get underway immediately.

The dormitory, which is the third major unit of the Hardin-Simmons expansion program to be contracted, will cost \$250,000 and house approximately 125 girls.

Mrs. J. D. Sandefer, wife of the late Dr. J. D. Sandefer, president of Hardin-Simmons for 31 years, will turn the first shovel full of soil in the formal ground-breaking for the Sandefer Memorial library and administration building at 11 a. m. Tuesday.

Reds Begin Evacuation, But US Not Convinced

TEHRAN, March 28 (AP)—Prince Mozaffar Firouz, political under-secretary of state and director of propaganda, said today that the Russian evacuation of Karvin, 80 miles northwest of Tehran, "has begun and should be completed within three or four days."

United States and British diplomatic officials said, however, that despite Russian troop movements northward they were not yet sure that the Red army intended to withdraw completely from the semi-autonomous Iranian province of Azerbaijan.

Firouz denied that any "secret agreement" existed between Iran and the Soviet Union concerning the Russian evacuation.

The evacuation began, he said, with the withdrawal of Soviet forces from Meshed, Shahrud and Semnan, east and northeast of Tehran, on March 2.

An Iranian general staff officer said there had been no reports, either official or unofficial, that any Russian troops actually had crossed the Iranian frontier into the Soviet Union.

Some observers here foresaw the possibility that the Russian columns now streaming northward might withdraw only as far as Iranian Azerbaijan, which borders on the USSR. These sources said the Russians might support this action by maintaining that the province is no longer a part of Iran.

Azerbaijan was the scene of a rebellion against the Iranian government last November. Iranian troops sent to quell disorders there at that time were turned back by Russian occupation troops.

Army Day Plans Made For City

Preliminary plans were mapped Wednesday for observance of Army Day in Big Spring on April 6.

The date is set aside on the calendar for national recognition of the regular army. The American Legion and VFW posts of Big Spring will assist the Army recruiting staff in making detailed arrangements.

Several store windows in the business section will be decorated with war souvenirs and Army posters prepared especially for the occasion. Flags will be displayed in the business section and all individuals are asked to put out flags at their homes.

In order that all may be notified in advance, announcements will be made in the various service clubs next week, and ministers of the city are being asked to recognize the day in their regular announcements Sunday.

Any veteran who has trophies or souvenirs is asked to permit the army to use them during the day for window decorations. They will be received through Wednesday, April 3, at the Army recruiting office in the post office building basement.

Attending the meeting today were Lt. G. M. Kesselring, commanding officer of the local Army recruiting office, T. A. Thigpen, commander of the American Legion post, Buck Hall, commander of the local VFW, and J. H. Greene, chamber of commerce manager.

Boy Who Shot Father Released To Mother

HOUSTON, March 28. (AP)—John James Ainsworth, 15, who told police he shot his father to death because the latter was mistreating his mother, was released late yesterday to his mother and a family friend, D. E. Henry.

Chief Probation Officer W. E. Robertson said no charges would be brought against the Burbank junior high school student.

Previously Justice of the Peace W. C. Ragan had returned a verdict of justifiable homicide.

Ernest M. Ainsworth, the youth's father, was killed by one shot from a .45 pistol in a bedroom of the family home Tuesday night.

Typographical Error Bars Amendment Vote In November

AUSTIN, March 28. (AP)—A typographical error bars an election on a proposed constitutional amendment designed to enable Texas veterans of World War II to acquire land at low rates.

Rep. W. R. Cousins, Jr., of Beaumont, author of a resolution which, passed by the 49th legislature, calls for the election, pointed out the error yesterday and asked for action of the Supreme Court to correct it.

The resolution sets the election date as "the first Thursday in November, 1946." Cousins declares that it was the legislative intent to specify "the first Tuesday in November, 1946," date of the general election for which an appropriation has been made.

Unless some action is taken, Cousins says, the proposed amendment cannot be submitted to the voters, since there is no provision for an election on the first Thursday in November, 1946.

Bridge Club To Meet In The White House

INDEPENDENCE, Mo., March 28. (AP)—The Independence bridge club may meet soon in the White House.

Mrs. Bess Truman dropped in at the club meeting this week to invite the ten members to her Washington home for a visit. The First Lady has been a member of the club for 20 years.

"We're all planning to accept the invitation," said Mrs. J. C. Noel. "We are certainly thrilled." She added the visit may be the second week in April.

Rainey Speaks

WACO, March 28. (AP)—Dr. Homer P. Rainey, former president of the University of Texas, called for the adoption of new political and education concepts and said he was staying in Texas "to see if I can render my part in securing these concepts." He spoke before the Lions club.

RUN ON SODAS ALL FOR 'JERKER'

HOLLYWOOD, March 27. (AP)—Warm weather wasn't entirely responsible for that run on a soda fountain near Hollywood high school.

The fact that film actor Dana Andrews, natty in spottish white soda dispensers' jacket and cap, was behind the counter had something to do with the rush, chiefly by bobby soxers.

The story goes that Andrews is soon to play the role of a soft drink clerk (sometimes known as soda jerk) in a forthcoming film. So, to pick up the tricks of the business, he attended a school conducted by a drug store chain.

Graduating with honors, he demonstrated his proficiency at a drug store that just happened to be near Hollywood high school. And the kids just happened to find out about it. The studio press department thinks there must have been a leak somewhere.

Indicted For Murder

SAN ANTONIO, March 28. (AP)—A district grand jury has indicted Jim Dempsey, 45, on a charge of murder in the death of his wife, Mrs. Annie Mae Arnold, 39, on March 9. Mrs. Arnold was found dead of a pistol wound in their rented room here.

MOTHER, YOU'RE LOOKING TEN YEARS YOUNGER!

Knott News
W. E. Plunkett Children Gather For Reunion

KNOTT, March 28 (Sp) — In the home of Mr. and Mrs. W. E. Plunkett of Vealmoor recently Mrs. Lula Motley was honored with a reunion. She had all of her children together for the first time in seven years. The sons were Jim, Roy and Porter Motley and their families of Ackery, Cecil Motley and family of Knott, and daughters, Mrs. Archie Hodnett and Mrs. W. E. Plunkett and families of Vealmoor, Mrs. Walter Barlow and family of Abilene, and Mrs. Louis Monganna of Oakland, Calif. Grandchildren present were Mr. and Mrs. Leonard Hodnett and family and Mr. and Mrs. L. D. Smith and family of Vealmoor; Mr. and Mrs. C. H. Hyden and Mrs. Doyle Gillahan of Big Spring; Mr. and Mrs. T. J. Castle of Knott; Mr. and Mrs. Ches Lasiter and son of Colorado City and a visitor, Eulene Jackson of Knott.

Big Spring girls and boys matched the Knott girls and boys in volleyball and basketball last week.
Mr. and Mrs. Altie Grantham had a fish fry recently and attending were Mr. and Mrs. Tom Castle, Mr. and Mrs. Henry Sample and family, Irland Martin and Louis Bayes.
Mr. and Mrs. O. G. Loudamy and daughter visited last week with relatives at Miles.
Guests in the Tom Castle home were Mr. and Mrs. Jewel Martin and family of Carlsbad, N. M., Mrs. George Burchel of Spenburg, Mrs. W. G. Page of Big Spring, Mrs. Joe Bayes and son, Mr. and Mrs. Henry Sample and family and Mr. and Mrs. T. J. Castle, all of Knott, and Irland Martin.

Teachers from Knott attending the teachers meeting at Lubbock last week were Mr. and Mrs. H. E. Barnes, Mr. and Mrs. Cecil Shockley, Mr. and Mrs. O. V. Fuller, Luel Fuller, Mrs. W. R. Cates, Mrs. Mannie, Miss Day, Mrs. Bloodworth and Nelda Jo Harland.
Attending the livestock show in Fort Worth were Mr. and Mrs. F. O. Shortes and family and Sis Ditto, Mr. and Mrs. J. E. Brown and family and Mr. and Mrs. Fred Adams and family.

T/4 Clarence Althart spent an 18-day furlough with his parents, Mr. and Mrs. Lanzo Althart of Knott and his wife and children of Lamesa.

Mr. and Mrs. T. E. Snyder and family of Midland visited recently with her sister, Mrs. P. E. Little and family.
Mr. and Mrs. Britton Pounds and family and Mr. and Mrs. J. T. Gross and family were in Lamesa recently with her sister, Mrs. Callie Specke and her daughter, and family, Mr. and Mrs. Clinton Roberts and family, and Raymond Specke, recently returned from service in Japan.
Guests in the J. B. Sample home Sunday were Mr. and Mrs. Hershel Smith and Wanda Lee Robinson, Mr. and Mrs. Merle Loudamy and family of Miles were recent guests of his parents, Mr. and Mrs. O. G. Loudamy.

John Reed wrote the book "Ten Days That Shook the World."

Episcopal Bishop Reveals Resignation

NEW YORK, March 29. (AP)—The Right Rev. William T. Manning, Protestant Episcopal bishop of New York for 25 years and one of the nation's best-known churchmen, will resign in December.
In an announcement yesterday from the Cathedral of St. John the Divine, Bishop Manning, who will be 80 May 12, said he would present his resignation to the House of Bishops at the Triennial General Convention of the church in September.
The British-born churchman gave no reason for his action.

Department Crew Plan Work On Dog Problem

Beginning Thursday a city department crew will begin working exclusively on Big Spring's dog problem. City Manager B. J. McDaniel has announced.
All dogs found running loose will be caught, and the crew will remain on the special detail as long as necessary to complete the work, McDaniel said.

J. O. Hagood and his guest, Roy Rogan, entertained members of the American Business Club today at its luncheon in the Settles with selections on the piano and saxophone.

Walker Bailey presided in the absence of Ted Phillips.

Announcements were made concerning the national convention to be held in Grand Rapids, Mich., in July, the softball workouts for the club's entry in the local league, the qualifying rounds for the golf tourney, the meeting of the board of governors Monday night and the organization volunteering to help move tables and chairs for the new high school cafeteria.

Two new members, Tom Nobles and Willie Wharton were introduced. Guests present included Leonard Ware, Roy Rogan, Walter Reed, Mr. Dove, Richard Orr, Maurice Copeland and R. F. Burent, W. B. McConnell and C. H. Wallis of Dallas.

County Scholastics Given Patch Tests

A total of 875 tuberculin patch tests have been given to school children in Big Spring and Howard county during the past two months, the city-county health unit reported today.

Results on nearly 800 which have already been tabulated showed 78 positive readings.

Schools where tests already have been made include Big Spring high school, Central Ward, College Heights, West Ward, Kate Morrison, East Ward, South Ward and the Lakeview negro school, all in Big Spring, and Midway, Coahoma, Forsan, and Elbow in the rural areas. North Ward of Big Spring and other rural schools of the county will be completed soon. The tests are by 12 given to children only with parents' consent.

Workers Drafted

RICHMOND, Va., March 29 (AP)—Governor Tuck today drafted approximately 1,500 production and maintenance workers of the Virginia Electric and Power company into the state's unorganized militia and placed them under military law, subject to court martial if they refuse to work for the commonwealth in the event of a strike.

Barbecue Honors Busline Officials After Opening

More than a score of officials from three bus lines were honored at a barbecue affair at the country club Thursday evening, following observance of the formal opening of the union bus terminal and restaurant earlier in the evening.

Host for the occasion was Clarence Fox, manager of the terminal and the coffee shop under his name. Ted O. Groehl presided as master of ceremonies and introduced officials from the Kerrville, Texas-New Mexico-Oklahoma, and Southwestern Greyhound lines, spoke briefly.

Groehl lauded Fox for his promotion of the bus terminal, which he said filled a definite need for building Big Spring. Fox expressed appreciation for support and traced development of the project. Speaker of the evening was T. C. Root, head of the accounting department at Texas Tech, who pointed out growth of Big Spring and of bus traffic. He praised the companies for their service despite wartime handicaps, and proclaimed for free enterprise.

Senator Requests Cancelling Of All Atom Bomb Tests

WASHINGTON, March 29. (AP)—Senator Huffman (D-Ohio) today offered a resolution calling for outright cancellation of the proposed atom bomb tests at Bikini Atoll this summer.

"This is no time for martial gestures," Huffman told the chamber. "The reasons for the cancellation are fundamental and of such common sense as to be obvious."

"The United Nations Organization is in its infancy. It is incongruous to its every purpose and aim for this nation or any nation to exhibit large-scale preparation for future wars, and it is unthinkable that the United States should even remotely indicate that she is preparing for an atomic war."

When President Truman last week postponed the tests from May to early July, Huffman said at once that "the postponement should be made permanent."

The Huffman resolution asked that the Senate request the President "to cancel the two atomic bomb tests scheduled to be held at Bikini in the Pacific ocean commencing in July, 1946."

Saturday Deadline Set For Auto Tags

Tax collector John Wolcott's office is preparing for a busy weekend.

Vehicle registrations through noon Friday totaled slightly more than 4500, a mark some 500 short of the compilation for 1945.

The delinquents must purchase 1946 tags before 5 p. m. Saturday deadline or retire their cars until they bring their records up to date. Wolcott said he expected a booming business all day tomorrow.

The bulk of the sales has been made this week.

Youth Admits Beating Woman Along Hiway

DALLAS, March 29. (AP)—Sheriff Smoot Schmid said that a 17-year-old Dallas youth had admitted to him the beating and robbery of Mrs. W. H. McHenry, 68, of Taloga, Okla., Wednesday night.

Mrs. McHenry, who was discovered in a ditch early yesterday morning by a truck driver, is in a Dallas hospital in which attendants describe as a "critical condition."

The youth is being held in jail pending the filing of charges.

Sheriff Schmid said that the youth told him this story:

Mrs. McHenry picked him up near McAlester, Okla. He admitted kicking and stomping his victim and leaving her in the ditch after she fought with him when he ordered her out of the car. He also stated that he took the woman's car and her purse containing \$11.65 after leaving her unconscious.

New Construction Order May Halt Building Boom

After hitting a new high during the first quarter of 1946 local building permits may have a decided slump in for the future in total evaluation, due to the Civilian Production Administration's new construction order.

Although the permits may continue heavy in numbers, the prospects of curtailment of commercial construction is expected to make a decided slash in the dollars and cents value of new contracts.

Building records of the city show an overwhelming majority of the permits issued recently for repair work and additions to present buildings at costs below \$1,000. Most of these could qualify under the CPA's new order, and therefore, no decrease in this category is expected.

However, for new commercial construction, which has provided most of the value in Big Spring's 1946 building permits, the opposite is true. Local construction men are not positive yet what the effect will be on regular contract work. If materials suitable for building residential units in compliance with the new order are made available in sufficient quantity to take care of expected demand, plenty of work will continue.

Some manufacturers of essential building items have disclosed that up to 75 per cent of their products have been utilized by commercial construction since war time restrictions were lifted. This situation arose, they said, because of the heavy increase in demands for new buildings during the period when construction was not allowed. If their products are channelled to approved residential work, the situation may improve.

Dealers report that mills have been holding large amounts of material in large dimensions in preference to cutting it into lumber suitable for building houses because better prices were permitted for the larger timber. Recent adjustment in some ceiling prices may have a favorable effect on this problem.

A local building material dealer stated this week that he has received only one car of GI lumber since the vet priority system went into effect. He has been allotted another car for future shipment, but a shortage of manufactured items, such as windows and doors is hampering utilization of the lumber for houses. The dealer believes improvement may be expected within the next month or so.

Peron May Establish Strong Central Union

BUENOS AIRES, March 29 (AP)—Col. Juan D. Peron, Argentina's newly-elected president, was expected by political observers today to establish a powerful central government to carry out an ambitious program to keep pace with what he calls a "triumphant social revolution."

The Argentine strong man, whose victory in the presidential race became a certainty last night with the capture of the federal capital's 68 electoral votes, was expected to encounter little opposition in legalizing the planks of his campaign platform, including nationalization of certain public services, agrarian reforms and price-fixing.

His partisans say the plan is modeled along the lines of the British labor government's program, with a little mixture of President Franklin D. Roosevelt thrown in. His foes say it is purely a totalitarian scheme designed to perpetuate Peron.

No date has been set for inauguration of Col. Peron for his six-year term as Argentina's 29th president.

His election constituted a diplomatic rebuff for the United States, which issued a Blue Book only a few days before the Argentine election, Feb. 24, in which it accused Peron of conspiring to aid the Nazis, charges which Peron vehemently denied.

Peron, who rose from obscurity during the 1943 revolution to head the army clique behind the regime of President Pedro P. Ramirez, later became vice president, war minister and secretary of labor under President Edelmo J. Farrell, who forced out Ramirez.

Peron himself was forced out of the government last October and immediately seized control of Argentina's labor movement, building up the party which eventually carried him to the presidency.

Thomas Appeals For County Help

The people of this community as part of a land wealthy people of Texas can play a tremendous role in helping see that the underprivileged masses of Europe have enough to eat this year, according to a prepared statement made by L. H. Thomas, county USDA chairman.

"One way in which we can help," Thomas said, "is by substituting potatoes, of which we have plenty, for bread. And we do not necessarily have to cut down on our consumption of bread, but instead save our enormous wastage."

In his appeal to the people of Howard county, Thomas drew attention to the fact that the American people set the finest table and throw away the richest garbage in the world. He insisted that we must live down the latter reputation by saving what isn't eaten and passing it on to the unfortunate of Europe and Asia.

"The war of guns is over, but the war of food is perpetual," Thomas emphasized. "If we fail to do our part in helping provide the very necessary food, disorders may paralyze every effort at recovery and peace. Guns speak the first word of victory but only food can speak the last word."

Midland Will Sell Surplus Property

Another surplus property sale will begin Monday, April 1 at Midland Army Air Field salvage yard, it was announced today by Lt. John W. Watkins, salvage officer.

Small lots of property will be open for public inspection and bids from 9 a. m. to 4 p. m. daily, beginning Monday, April 1 and lasting through Friday, April 5. Everyone is welcome to bid except military personnel and civilian employees of the war department.

The following items will be included in the sale: desks, tables, chairs, bins, cabinets, cedar posts, galvanized sheet, roofing, water coolers, pipe, balsa wood, shacks from the bombing ranges and miscellaneous other items.

The highest bidder of each individual lot will be notified and will have five days in which to claim the property.

Oilman Appointed

FORT WORTH, March 29. (AP)—Appointment of T. M. McCormick as secretary-treasurer of the Oil Workers International union (CIO) has been announced by O. A. Knight, OWIU president. McCormick, former secretary of the Texas City OWIU local, succeeds E. C. Conarty, resigned.

Search For Sparks

Big Spring police department is trying to locate a man named Bill Sparks, who could not be found by telegraph company delivery service after an urgent personal message was received from Lubbock.

THE OLD JUDGE SAYS...

GEORGE: "Yes, I certainly would like to hear why you call that an old fashioned idea, Judge?"

OLD JUDGE: "Glad to tell you, George. Until recently, a person known as an alcoholic was generally treated as a social outcast. Little if anything was done to understand him or help him. But, during the past few years, medical research and study has developed that alcoholics are really sick people... that there is usually a deep, rooted physical, social or emotional reason behind their behavior. That's why today so much is being done to help them by finding out and correcting the condition that leads them to excess."

GEORGE: "How many folks are there like that, Judge?"

OLD JUDGE: "Well, according to scientific research, 95% of the people who drink, drink sensibly. 5% do so unwisely, at times. Included in that 5% is the small percentage of the sick people I'm talking about."

GEORGE: "That certainly gives me a clearer picture. It's the most sensible approach I've ever heard on the subject."

This advertisement sponsored by Conference of Alcoholic Beverage Industries, Inc.

Livestock

FORT WORTH, March 29. (AP)—Cattle 400, calves 100; small supply, steady; practically no beef steers or yearlings; beef cows 10.00-12.25; butcher calves, common and medium 10.50-13.50.

Farm And Ranch News

BY WACIL McNAIR
If Howard county 4-H club members should plan to make a specialty of any phase of their livestock showing, the group events might be suggested. Taking all factors into consideration they actually made a better mark in these contests than in others. Of course the highlight of the season was the first place award for the 15

best club steers in the Southwest Exposition and Fat Stock Show in Fort Worth. The third place ribbon at Odessa Thursday in the competition of five-animal lots helped out considerably since seven club steers made up the entire Howard county entry list for the Sand Hills event.

Winning group contests may be taken as an indication that Howard county club members have made fine progress toward attaining uniformity in their feeding projects, a quality that is desirable in any herd of commercial cattle as well as show animals. Now, after personally visiting most of the major shows in the Southwest, the club members have announced that they will make strong bids for more individual blue ribbons next season.

One more show remains on the calendar, although Howard county clubbers have closed their season. Out in El Paso they are expecting 2,000 entries in their exposition, which gets underway Tuesday.

Free cotton classification and market news service as provided under the Smith-Dexey act will again be available to organized cotton improvement groups in Texas. John L. McCallum, southwest area cotton branch manager, USDA production and marketing administration, Dallas, has announced. Applications for the service should be filed as soon as all members of the group have planted their cotton, but not later than July 1 for counties lying entirely or for the most part east of the 100th meridian and July 15 for those entirely or for the most part west of the 100th meridian. The 100th meridian passes between Sweetwater and Abilene, placing Howard county in the latter group.

The goal of three quarters of a million gardens in Texas, previously announced for 1946, has been upped to a full million by C. R. Heaton, horticulturist of the Texas A&M college extension. The upward revision points out the need for home production of vegetables at a level equal to that of the war years and reflects the critical world food situation. The appeal to Texas home gardeners to plant an additional 250,000 gardens came after M. L. Wilson, director of the federal extension service, called upon Texas director Ide Trotter to again put into effect wartime policies of home food production.

Boy Scout Fund Swelled By Funds

Boy Scouts of Big Spring found their general fund swelled by \$250.44 at the close of business Friday, after seven hours of traffic control work in the city as a part of the Safety Week program. The money received accounts for more than 800 traffic violations for which fines were assessed, and amounts estimated that at least that many more failed to stop when they sounded their whistles.

Some motorists were particularly late at being stopped for minor infractions, but for the most part they paid off willingly. Regular police officers were on hand at several downtown corners to back up the scout patrolmen in their relatively few arguments with difficult customers, and in some cases issued bona fide tickets.

The fine money collected by scouts has been placed in a fund to be used in various projects. Certain amounts already are earmarked for a contribution to the World Friendship Fund, and for improving water facilities and repainting a sign at the camp grounds.

County Still \$200 Short Of Goal In Red Cross Drive

Howard county now stands at approximately \$200 short of its quota in the annual Red Cross fund drive for the Howard-Glasscock chapter, H. D. Norris, roll call chairman, reported late Saturday afternoon.

Exact status of the chapter's drive is undetermined, since canvass work still is continuing in Glasscock county under direction of Mrs. Ed Teele. However, a few days ago Mrs. Teele reported her total as about \$600 under the Glasscock quota, but felt confident the goal would be reached eventually.

Additional checks have been received from West Texas Compress and Warehouse company and Franklin's store for \$50 and \$25, respectively, Norris said.

Management of the R and R Theatres have announced that special collections will be taken in their theatres in efforts to put the drive over the top. Dates have been set tentatively for Friday, Saturday, Sunday and Monday.

Boy Recovers Of Accident Injuries

J. C. Harris, Jr., 11-year-old son of Mr. and Mrs. J. C. Harris, 300 West 3rd, was reported improving slowly at a local hospital Saturday after sustaining severe injuries when hit by an automobile just outside the city limits on east highway 80 Friday.

The youth was struck down by a car driven by Charles W. Chamberlain of Midland at about 5 p. m. Officers from the sheriff's department, who investigated, said the accident apparently occurred when the lad started across the pavement while walking along the highway. No arrests were made. Although he had not fully regained consciousness late Saturday, hospital attendants said he was responding to treatment.

Plumbing Priorities May Now Be Obtained

Priorities for necessary plumbing materials may be secured by individuals desiring connection with the city sewage system providing such connection will eliminate a health menace, City Manager B. J. McDaniel advised today. The city secured the information from the US Public Health Service, after the city health unit made efforts in Big Spring for abandoning several pit-type toilets in Big Spring.

In correspondence with McDaniel the USPHS stated that individual applications on form CPA 541A under PR 28 will be considered on the same basis as applications for veterans priorities if the purpose is for abatement of a health menace.

Automobiles Reported Stolen Friday Night

Police were searching for two automobiles Saturday, both reported stolen in Big Spring Friday night. At 10:30 p. m. Mrs. O. G. Milam notified officers that her black 1937 model Ford sedan was missing, and at 12:20 a. m. John Dunham reported his car, also a Ford of similar description, stolen from the 200 block of East 3rd, where it was parked.

Local Polio Fund Gets Over \$750 From Show Drive

The local chapter of the Foundation for Infantile Paralysis is financially better off by \$753.82 thanks to the response of the local theatre going public in the recent March of Dimes campaign.

A check for that amount has been received by J. V. Robb of the local R&R Theatres, from the motion picture industry's Dallas headquarters. It represented one-half of the \$1507.64 collected here at the Rita Lyric, Queen and State theatres, and conforms with the National Foundation's policy of splitting on a 50 per cent basis with local communities.

Warm thanks to the theatres for their efforts in behalf of the anti-polio campaign came from Ira Thurman, who served as treasurer of the March of Dimes drive.

Policemen Did Some Traffic Fining Too

Although Boy Scouts probably set a record for traffic fines Friday, regular police officers got in a few licks of their own during safety week, a report of the week's activities shows.

Since March 17 a total of 66 tickets have been issued for running traffic signals, five for reckless driving, five for speeding and 15 for other traffic violations.

German Youth Gang Attacks US Soldiers

FRANKFURT, March 26 (AP)—Military police said today a gang of German youths had emasculated a 26-year-old American army corporal and killed another US soldier near the border of Russian-occupied Germany.

The corporal, whose name was withheld, is recovering in an army hospital from loss of blood. American investigators said no arrest has been made in either case.

Military police said the corporal was waylaid in a dark, rubble-strewn alley in Kassel at 4 a. m. March 20. He said he had been drinking and was set upon by five or six German youths.

Strawberries Given To Mackenzie King

SAN ANTONIO, March 26 (AP)—Prime Minister Mackenzie King can have Texas strawberries for lunch today. A gift crate, especially picked and packed, is included in a shipment of 10,000 pints of the fruit shipped north by air from Brownsville yesterday.

Orville Stites, LaVilla strawberry grower, accompanied the shipment and will present them personally to King today in Toronto.

Appeal Made To Help Starving Of Other Lands

To the Editor:
It seems to me that the time is not yet near when we shall have peace on earth, good will toward men. Neither has the time arrived when the lamb and the lion shall lie down together — unless you would call the lamb being inside the lion as meaning to conquer.

We are still having strikes, and the guns of war are still heard in many parts of the world. The high moguls in religion, politics and commerce seem to think that the selfish and depraved can be bribed into being good by the gift of money, or the things that money will buy; but I hardly think it will work—we tried that on the Japs.

Nothing this side of a new birth will take selfish greed and worldly hearts and minds of men; and it must be the kind of birth that will erase the dollar mark from the brain and heart and let in a little light. It must be the kind of birth that Christ explained to Nicodemus. Now Nicodemus could not understand the new birth for he was satisfied with what he had when Christ told him that "the depth of truth cometh to the light," it did not suit him to come that way. He preferred to get saved by some kind of hocus-pocus, and fly into Heaven on the merits and sacrifices of Jesus Christ. Nicodemus was a bum.

There will never be peace on earth until we have a working religion or a religion that will work. We say we believe in the freedom of religion. One's religion consists of what one does and not what one says or what one might think. The crickets and the katydids sing all the summer long, but when winter comes they perish. Before Christ spoke to the multitudes He was told that the people were hungry; He then performed the miracle of the loaves and fishes. In other words, He first satisfied their hunger for food before pointing their minds to a spiritual life.

Today, millions of people on this earth are on the brink of starvation, and we here in a land of plenty should do everything we possibly can to relieve their suffering. Remember the words of our Saviour: "Inasmuch as ye have done it unto the least of these ye have done it unto me."

Respectfully,
W. H. HART.

UAW Ponders Way To Help Strikers

ATLANTIC CITY, N. J., March 26 (AP)—The UO United Auto Workers convention, temporarily desisting from its hot political battle, deliberated today a proposal to assess the union's membership in support of remaining General Motors strikers.

The convention served notice on General Motors of "united and determined" support of the comparatively few strikers whose piece work dispute is holding up a full return to work of 175,000 men and ordered a committee to examine the assessment proposal.

With the GM strike on the floor, the convention paused from its race down the home stretch of the political fight.

HE WANTED DIRECT LION TO PRESIDENT

TANGIER, (AP)—A sultan of Morocco who wanted the United States to establish a protectorate over his dominions once tendered the President the gift of a man-eating lion.

This Arabian Nights tale is buried in archives of the American diplomatic agent and consul general in Tangier in a series of messages dating from January, 1945. "It is a big lion and apparently very fierce," say the first frantic note to the State Department. "It came in a cage and with an expert keeper to look after it. Please send immediate instructions." The department wrote back that the President "cannot find any use for the lion in Washington." But the agent, knowing the sultan would feel insulted if his gift were not accepted, arranged to ship the beast just the same.

Weeks later, the records show, the lion sailed for America with its keeper and an interpreter for him—each on the State Department payroll at \$50 a month.

There's nothing here to indicate whether the lion ate the interpreter on route, but the sultan didn't get his protectorate.

To Discuss NAM

DALLAS, March 26 (AP)—Robert R. Wason, president and four other executives and consultants of the National Association of Manufacturers arrive here today for a series of discussions on national affairs from the point of view of the NAM.

Earth Shocks Felt

NEW YORK, March 27 (AP)—Two earth shocks, described as fairly severe and probably centering in the Dutch East Indies, were reported today by the Rev. Joseph J. Lynch, seismologist at Fordham University.

County 4-H Feeders Close Most Successful Season In Odessa

Howard county 4-H club feeders completed their most successful stock show season in history Saturday at Odessa, with the sale of six steers, the last of the 1945-46 breeding projects.

Billy Fryer's lightweight, milk fed Hereford topped the Howard entries in both prize money and sale price at Odessa's Sand Hills event. The 760-pound animal was named reserve champion of the milk fed division, after taking first place honors in the lightweight class. It was bred by Tom Roden, Purchaser in the sale was the Turf Club of Odessa at 75 cents per pound.

Other local club animals sold at Odessa follow with the name of feeder, price, breeder and weight in order: Jimmie White, 36, Nick Reed, 770 pounds, Lloyd Robinson, 36, O. H. McAllister, 930; James Coates, 33, R. T. Shafer, 870; Wayne White, 34, W. W. Lay, 870; James Cauble, 31, Mrs. Pearl Cauble, 890.

Prize money won away from Big Spring during the year by the 4-H clubbers was hoisted to \$1,805 with the \$60 aggregate awarded at Odessa. In out of town sales \$3 milk fed calves have averaged 40 cents per pound for a total of approximately \$11,000.

Quicker And Cheaper UNIVERSITY DEVELOPS NEW PROCESS FOR MAKING ICE

AUSTIN, March 19.—Three processes for making ice for commercial purposes more quickly and cheaply have been developed by a young University of Texas engineer—John R. Watt.

Watt, instructor of mechanical engineering, announced his discoveries and demonstrated his methods at the spring meeting of some 100 members of the technical committee of the Southwestern Ice Manufacturers Association in Austin recently, and the reception was very favorable. He has applied for patents, and anticipates that several firms will be licensed to manufacture it.

The processes were developed with the advice and assistance of two colleagues—Dean W. R. Woolrich of the College of Engineering and Dr. Luis H. Bartlett, mechanical research engineer—and a test machine was constructed under a \$600 grant from the University Research Institute.

The three processes are: (1) The making of flake ice, one sixteenth inch thick, for use in restaurants, drug stores, hotels, dairies, etc. (2) The making of coarse crushed ice very cheaply for icing milk trucks and fishing boats and for packing poultry, fish, vegetables, etc., for shipment. (3) The making of solid ice in cakes of any size or shape.

The new method produces solid ice about 100 times as fast as present commercial processes and as Watt observed "is quite possibly the fastest rate of solid ice formation ever developed."

The secret of the speed is that the ice, under the Watt process, is frozen from the inside outward, which is the reverse of the standard ice plant practice.

Water Production Crew In Section 17

Big Spring's water production crew, under direction of Superintendent Roy Hester, is working currently in section 17, cleaning wells and pouring foundations for new pumps. City Manager B. J. McDaniel said today.

The city has been notified by telegram that new pumps ordered about six months ago will be shipped on March 27.

At present about three-quarters of a ton of aluminum sulfate and lime are being used each day for water treatment, McDaniel said, and 60 pounds of chlorine are in daily use for purification.

In other city department activities, R. V. Forestry, street superintendent, reported that 22 cubic yards of garbage and refuse were picked up in the business area Saturday, and 39 cubic yards in the residential areas. Complaints have been received regarding trash from business houses still being swept into the streets, despite an ordinance which requires that it be picked up and placed in containers, McDaniel said.

Water Connections Average Three A Day

New water connections are being made by the city at an average of three per day, Lee Knuebles, water distribution superintendent reported today.

The department installed three new taps Saturday and three more Monday, while extending lines at 17th and Owens streets and on East 17th to accommodate new customers.

At present new sewer lines and extensions are being installed by a crew working in Washington Place.

Fined For Assault

After a brief altercation which occurred shortly after noon Friday in the 200 block of Main Street, Burl Davidson appeared at police headquarters and paid a fine of \$18, entering a plea of guilty to charges of assault. The police department reported, Clyde Thomas, 28, was injured and is scheduled to appear in court at a guilty to similar charges, officers said.

Fatally Stabbed At Uncle's Funeral

SAN ANTONIO, March 27 (AP)—During funeral services for her uncle at the West End Baptist church here yesterday, Leslie Steen, 28, was fatally stabbed in the neck by a man sitting behind her, Rev. W. I. Rector, pastor of the church told police.

Witnesses said that the man after slashing his wrist with the blood from his knife, arose from his seat and walked from the church.

Police arrested a suspect two blocks from the church. The Steen woman was pronounced dead upon arrival at the county hospital.

Chalk, Settles Vote To Consolidate School

Unofficial returns of the election held Saturday in the Chalk and Settles (Forsan) communities for the consolidation of the two school districts showed the referendum to have carried by a 49-33 majority.

Final returns must be canvassed by the county commissioners' court before becoming official.

The voting was lighter than anticipated in both sections.

Liquor Board Shows Over \$28,000 Is Collected In Fines

A total of \$28,213.23 in fines were assessed during the month of February in dry areas of Texas, a report from the state liquor control board shows.

Bringing in \$12,300.35 were 81 convictions on charges of possessing liquor for sale. Other fines in the dry areas were as follows: Sale of liquor, 49 for \$6,758.45; liquor, transportation, 32 for \$5,008.98; possession untaxed liquor 19 for \$2,327.75; possessing illicit equipment, one for \$339.15; possessing beer for sale, eight for \$999.55; and transporting beer, four for \$52.

During the same month 75 fines were imposed in wet areas for an aggregate of \$9,122.15. Heading the list were 14 convictions for sale of liquor during prohibitive hours which drew fines totalling \$1,678. A close second was transporting without a permit, with 11 convictions for a total of \$1,399.85.

Hearings before the administrators totaled 108 on complaints against permits and licenses, resulting in 19 cancellations, 24 suspensions, two dismissals and one reinstatement. Voluntarily cancelled were 109 permits and licenses.

Farm Women At Dairy Meeting

For utmost production of milk of good quality the cow must have a diet complete in the necessary materials, E. R. Eudaly told a group of about a dozen women and several men Monday afternoon at the district courtroom.

Introduced by Margaret Christie, county home demonstration agent, Eudaly spoke primarily to the farm women in HD work giving them suggestions for maximum milk production.

He reminded that all elements are necessary in the cow's diet, ranging from water consumption to the amount of salt the cow absorbs. He added that with a little figuring on conditions of weather and feed types, the dairy owner or the operator of home dairy facilities can receive more milk from the same animal.

Typhus Control Unit Overcomes Dearth Of Needed Material

After a temporary set back due to a shortage of materials, the typhus control unit, under direction of V. A. Cross, is working now in the 100 block of Main street, doing rat proofing on buildings on the east side.

Requirements of considerable amounts of sheet metal have handicapped the work recently. Shortages of materials have hampered operations in other departments also, City Manager B. J. McDaniel said.

Several complaints have been received on the closing of toilet facilities at city park. The facilities will be re-opened, he said, as soon as materials are available for placing them in proper order.

All equipment in the units was wrecked several days ago, and at present they are not in usable condition.

Woman's Perogative To Change Her Mind

LONDON, March 26 (AP)—The US Army Transport Command said today 4,000 GI brides who applied for transportation to join their husbands in the United States had changed their mind as sailing time neared.

Altogether 48,000 applications have been received from brides and children and about 18,000 have sailed, the Transport Command said, adding that it hoped to have the others in the United States by July.

Mexico Monument To Honor Roosevelt

MEXICO CITY, March 26 (AP)—A congressional committee has voted to invite US President Harry S. Truman, Mrs. Eleanor Roosevelt and former ambassador Joseph Daniels to attend cornerstone ceremonies for a monument to the late Franklin D. Roosevelt April 12 in Monterrey.

The day, anniversary of Roosevelt's death, is to be a holiday in Mexico. If Truman is unable to come, he may send a representative.

Crash Dead Buried

MANILA, March 26 (AP)—The bodies of Maj. Gen. James E. Parker, San Antonio, Tex., commander of the 20th Air Force, and eight other military personnel killed in a B-17 crash in northern Formosa last week, were buried today in a military cemetery near Manila.

REPATRIATED

SHANGHAI, March 26 (AP)—American Army headquarters announced today that 1,000,045 Japanese had been repatriated from China and that 1,081,000 remained to be sent home. The repatriation from China, Formosa and India-China is expected to be completed by June 30.

Resident With Shotgun Stymies Police Chase

A blast from a shotgun, fired by a west side resident who apparently thought a "bunch of drunks" were shooting up the neighborhood, stymied police as they ended an auto chase on West 4th street at about 11:30 this morning.

Although two youths, believed to have been in the pursued vehicle, were apprehended later by state highway patrolmen, they were successful in eluding the law immediately after the shotgun episode. A third member of the party still is unaccounted for.

Atomic Bomb Tests Must Be Run Off Before September

WASHINGTON, March 23 (AP)—When and if the atomic bomb tests are held, two of them may be run off within a single month to meet problems posed by President Truman's delay order.

The high command of the joint army-navy task force met today to consider these among other situations created by the suddenly issued White House directive getting back the first test date from May 15 to July 1.

Two factors, of widely different nature, are among the reasons for tightening the schedule—the weather and the opening dates for college semesters.

Experts say the weather is important in both the first (air drop) and second (surface explosion) tests because of the necessity for forecasting the drift of the deadly radioactive cloud formed by the atomic blast.

An unexpected drift of the poisonous cloud might carry it back over the observation fleet or waft it toward inhabited lands.

The college semester situation enters the picture in this fashion: A large number of the task force scientists are civilians with contracts to start teaching at various universities next semester.

One of the scientists, who preferred anonymity, said today he simply must be at his university by September 1 and that if the second test were delayed until mid-August, he couldn't wait for it.

Big Spring Warned To Fight Off Polio

The Big Spring city department has issued a warning to residents that if another near-epidemic stage of polio this spring is averted off, they must be ready to fight back.

The following practices have been recommended to curb the disease: Use due precaution in sanitation and personal hygiene; use only safe, wholesome milk and foods coming from approved sources; keep all garbage and trash tightly covered and allow no collections to exist outside of approved refuse containers; report immediately all cases of untidy lots or homes or any practice of insanitation to the health department; use five per cent or stronger solution of DDT as a spray to kill flies and insects and a 10 per cent or stronger DDT powder as a dust; at the first report of polio keep your child from public gatherings that are not absolutely necessary; if polio symptoms occur in your home, see your family doctor.

Auto Registrations Little Ahead Of 1945

Vehicle registrations were running slightly ahead of the figures of the corresponding time in 1945, according to a check made by Tax Collector John Wolcott.

A total of 8067 tags for passenger automobiles had been sold up until noon today. In addition 498 licenses for commercial machines were distributed.

Old tags may be retained on vehicles no longer than March 31. However, since that day falls on Sunday, deadline for purchasing new registration is Saturday.

Dodd, Piner To Attend Junior College Meet

Dr. E. C. Dodd, president, and R. T. Piner, chairman of the board of trustees will represent the Howard County Junior College at a meeting of the Association of Texas Colleges in Dallas on April 1-3.

They are scheduled to appear before the standards committee on April 1.

Dr. Dodd will lead a discussion on April 2 on aviation education in Texas colleges.

From where I sit... by Joe Marsh
Ben Ryder and the Wanderlust

During the war, Ben Ryder talked about the trips he'd take when gasoline rationing was ended. Used to pore over roadmaps—checking mileages and charting routes.

Now Ben's taking quite a lot of ribbing. Seen as rationing was lifted, he decided he'd stay home, putting in the garden, playing chess, sharing a pleasant glass of beer with friends.

"Shucks," admits Ben sheepishly, "as soon as you can go, there's just as good as having gone!"

Culberson Blames Navy, OPA, Others For Fuel Shortage

AUSTIN, March 28 (AP)—Railroad Commission Chairman Olin Culberson today flung full responsibility for the navy's asserted fuel oil shortage at the navy, the OPA and the producers of residual fuel oils.

In a telegram to the other two members of the commission, Ernest Thompson and Beauford Jester, meeting in Midland today to study gas flaring in West Texas fields, Culberson said the present situation could have been corrected had any of the three activities interested themselves immediately following V-J day.

Before even considering a change in the commission's present oil order which controls Texas crude production, Culberson said he would "insist upon a full hearing after notice to all other interested parties."

The commission chairman said he considered it "ill grace for the navy, the PAW or the OPA to come crying to the railroad commission in an attempt to lay at the commission's door any responsibility whatever for the present situation which has been brought about solely because of economics and differences between departments of Washington."

First Y 'Gym Night' To Begin At 7:30

First of the series of "Y gym nite" affairs will be held at the high school gymnasium starting at 7:30 p. m. today.

Arah Phillips will be in charge of the program of fun, games, exercises, etc., for young men and women, couples from 19 to 30 years of age ("or as long as you feel about 30").

Plans call for a continuation of the program each Thursday evening with the purpose of making a recreation program, including mild physical exercise, available to as many people as wish it.

Here 'n—There

A distinguished visitor to Big Spring recently was Mrs. Eleanor Roosevelt, who returned a few weeks ago from the UNO conference in London, England.

The wife of the former president paused at the local air terminal en route to Los Angeles where she was to fulfill a speaking engagement.

Employees of the American Airlines depot here were all set to service the plane of Col. Pappy Boyington, the famed Marine pilot who was flying west, a couple of days ago.

Pappy flew in for a good look at the town, indicated he had enough petrol in his tanks to get to El Paso and was on his way.

The Big Spring cemetery department is placing fertilizer on special care plots, after completing a general clean-up program. They report that several graves not listed for special care are in need of work also. Most of them belong to out of town residents, however.

Lieut. Jack McDaniel has written his parents, Mr. and Mrs. B. J. McDaniel, that he expects to be home with his discharge by April 15. He is with the 1158th engineer combat group, and recently transferred from Fort Riley, Kas., to Fort Jackson, S. C.

H. B. Linam Service Conducted Today

COLORADO CITY, March 28.—Funeral for Harrison Berry Linam, 82, a farmer in the Loraine area for the past 26 years, was held at 2 p. m. today. Services were conducted by Rev. J. W. Price, Loraine Methodist pastor, at Kiker chapel and burial will be in Loraine cemetery.

Born in Nashville, Tenn., August 22, 1863, Mr. Linam died in a Colorado City hospital at 2 a. m. Wednesday. Four children survive. They are Mrs. D. O. Joyce and Orion Linam of Loraine; Clyde Linam of Colorado City; and Mrs. Lewis Andrews of Tucumcari, N. M. A sister, Mrs. Ida Vance of Greenwood, Ark., eight grandchildren, and two great grandchildren also survive.

4-H Boys Livestock Experience Related At Kiwanis Lunch

Record of Howard county 4-H club boys in livestock feeding during the past year was reviewed by Durward Lewter, county agent, at the Kiwanis club Thursday.

The 55 steers and lambs sold locally brought \$22,000, those sold at other shows \$11,200. In addition, prizes off winners among feeders of 93 steers, 61 lambs and 35 hogs totaled \$1,505, said Lewter.

While he said improvement was the goal, Lewter ventured the record for the year would be difficult to equal or best.

Operations were, for the most part, profitable. Even the milkfed classes came through with a nice margin of profit despite a 24.5 cent per pound cost in gain. Success, however, is determined in lessons on feeding, in character building, teaching of honesty, fair appraisal and good sportsmanship, the agent said.

Lewter acknowledged that the practical application of club feeding is in the dry lot classes, but he thought there should be milkfed classes, too, for the reason they show the ultimate in finishing and offer an opportunity to show to best advantage the high quality breeding calves of Howard county have.

Fully 90 per cent of the boys making shows other than the Howard county event (which Lewter lauded), had never had major livestock show experience, the agent declared.

Achievements were made because of the cooperation of breeders, businessmen, boys, their parents and the schools, according to Lewter. Highlight of the season was the winning of the grand champion carload lot at the Southwestern Fat Stock Exposition at Ft. Worth, he thought. Horace Reagan was in charge of the program.

Opening, Closing Hours To Change

Several local stores have announced new opening and closing hours to become effective April 1.

The move was taken with the idea of shortening hours with "the intention of giving better service" because of shorter working hours.

Among those who have announced the new hours (open at 9:30 a. m., close 5:30 p. m. except 7 p. m. Saturday) are: United, Inc.; J. C. Penney Co., Kid Shop, Lorraine Shop, Mode O'Day, Montgomery Ward & Co., Swartz's, Hemphill-Wellb Co., G. F. Wacker Stores, Franklin Stores Corp., J. & K. Shoe Store, Margo's, Army Store, Fisherman's, Sallie Ann Shop.

RESCUED ON LAKE

SHERMAN, March 28. (AP)—Marooned overnight in Lake Texoma, J. J. Goodman of Dallas and Hugh of Sherman, were rescued this morning after their motor had stalled. Hetherington and The Rev. Ed Barcus, Methodist minister, both failed.
