

Howdy!
The Winter Term is The Best Time To Study Hard And Crash The Honor Roll. What Are You Going To Do?

The TOREADOR

Did You Know?
That Texas Technological College is the second largest state supported college in Texas? Figures released by the registrar's office show that Tech is second only to Texas University in regard to total enrollment of pupils.

VOLUME VIII

TEXAS TECH

LUBBOCK, TEXAS, THURSDAY, JANUARY 12, 1933

NUMBER 15

Many New Students Registered For Winter Term

Prexy's Paragraphs

BY BRADFORD KNAPP

Enrollment still climbs. Twenty-two hundred and forty-six persons enrolled since September. Young people are wanting a preparation for life amid difficulties and distress. It is a fascinating picture.

What kind of an education, let us ask? Some subjects must be in every college course no matter for what degree. Every college graduate ought to be able to speak his mother tongue correctly; every one ought to have full knowledge of his government, what it is, how it was created and how it operates; every graduate ought to study economics because we have come to an age when one must understand economic forces and economic laws.

Every student ought to know the history of our civilization; how did our people come to this day and age and with these thoughts and conceptions. Beyond these there is the preparation for life, health and happiness and then preparation for some real task in life where one can perform a service which the world wants.

No organization has a right to exist or be tolerated on any college campus which does not perform two functions: first, it must be a real benefit to the individual who belongs to it and, second, it must in some way promote, foster and tend definitely to aid in the general educational objectives of the college.

An organization which has a tendency to interfere with college work or which prevents the student from getting the best out of his college course ought to be abolished. If he organization is the main thing we have them in every day life and plenty of them and you do not need to come to college to belong to them. Every college student body has some sort of organization or organizations and most of them perform a very worthy purpose. They help to develop the individual and they promote social life. They draw together those of similar interests and thoughts and can do so very effectively. However we must always remember that they are for the purpose of aiding the main objective and contributing to the real education of the individual.

Tech has a strong position in fact, figures, statistics to say nothing of its strong position in the affections of its friends and the people generally. It is a young school of marvelous growth, located in a new and growing section of the vast empire of a State. It outranks all but two of the state institutions of Texas in enrollment and in a few years may easily stand second.

The cost of its operation in proportion to its status shows it to be economically administered and less of a burden upon the state than eight of the other state supported schools. It expends a larger percentage of its funds for actual instruction than any state supported institution in the state. It is the only school in the state offering courses for both men and women in agriculture, engineering, home economics and liberal arts (sciences and languages and literature) on the same campus.

We are heading for new times. Get started right, your success will depend upon constant application to daily tasks now, not after while. Do not delay your work. Do not take it lightly at the beginning of the term and hope to have it accumulate in the days to go by. Set yourself to develop your powers of application and your capacity to work. Develop yourself so that you may become physically strong and clean, mentally awake and active and morally straight and dependable. This is your opportunity.

Minerals Are On Exhibition

Geology Department Puts Rare Specimens Of Rocks In Display; California Collector Is Owner

A large collection of mineral specimens gathered from many parts of the earth have been sent to the geology department for sale, and are now in the display case of the geology department. They were sent here from a collector in California.

Their names, the country from which they came, and the price may be found on the card with the specimen. The many varieties in shape, color, and kind, and the legends connected with these minerals make them interesting. Those who are not interested in purchasing these will find it interesting to examine them.

Dr. Einstein

PASADENA, Calif., Jan. 12—Over 2,000 college men and women will convene in the Civic auditorium here on January 23 to hear Dr. Albert Einstein and several other prominent personalities speak on "The World Economic Situation."

Manuscripts Displayed By Artist Group

Rare And Ancient Pieces Of Bookmakers' Work Is Shown By Association; Spanish Music Is In Collection

An exhibit of illuminated manuscripts, which will be on display until next Monday in the engineering auditorium, is being sponsored by the Lubbock Art association under the direction of Professor F. A. Kleinschmidt. This is a collection of fifty original leaves and thirty reproductions, illustrated by an enlarged and elaborated initial letter of a paragraph, through which the development of art probably grew. Pages from large choir books bearing musical notation originating in Spain, Germany, Italy, and Flanders, reflect the importance of the cultural arts from the eleventh to the sixteenth centuries.

One manuscript written on goat's skin from the monastery of Angluc-Kleinheim, this is a collection of notation in 1020, clearly gives an illustrated excerpt of early written music.

Leaves Shown
Another large choir leaf, from a book which formerly was in a convent near Granada, Spain, was taken from large books made shortly after the discovery of America when much of the wealth of the New World poured into the coffers of Spain. These books were presented by Queen Isabella to the church. One of these large books, placed on a stand, sufficed for a half a choir which might have consisted of from sixty to one hundred voices.

The Lubbock Art association has brought this collection to Lubbock from the American Federation of Arts, and Professor Kleinschmidt, study director of the local association, invites all students interested in art, music, or antiquities to see them in the engineering auditorium before Monday.

Chemistry Club To Present Movie Programs This Term

The Chemical club has planned to present some very interesting programs at its meeting during this term. Two one reel moving pictures will be shown in room C 101 Tuesday evening, January 24, at 7 o'clock. One of the pictures is a study of the production of copper, called "From the Mine to the Consumer," and the other is "Portland Cement Manufacturers." All chemistry students are urged to attend these meetings, and all students are invited.

Teams Are Chosen For Girls' Basketball Tournament Play

Although the girls' basketball tournament was not held, teams have been chosen. On the first team are Pearl Dedmon, Lorraine Harrocks, and Delsyma Humphries, forwards; Ruby Beasley, Louise Campbell, and Marie Reddell, guards. These girls will receive 100 points each toward letters in W.A.A. One thousand points earns a large letter and five hundred points a small one. Three teams were selected. The second team gets seventy-five points and the third fifty.

Fun Nites To Be Held Every Month At Gym

First Event Of Year To Be Held February 6; Letters To Be Given To Varsity, Freshmen Players

Is Free Show

Boxing, Wrestling, Tumbling To Feature Programs; Will Be For Men Only; Novelty Acts To Be Put On

Coch "Dutey" Smith has announced that the first fun night of the school year will be held February 6. At this time varsity letter winners and freshmen numerals will feature the program, while tumbling will come in for its share of the limelight. Plans are underway to make these gatherings a monthly affair.

Good Card Planned
Lester "Terrible" Tribble, pivot man for the Matadors, again has charge of the monthly "parties" and the grapplers and has promised an attractive sports card for wrestling and boxing fans at the initial fun "nite." Bill Stubbs is in charge of the tumbler and has created a number of novelty acts to be presented at the monthly "parties" as well as between the halves of the basketball games.

Although the fun nights are for men only, no admittance is charged. These entertainments are open to Tech students and the townspeople. The coaches state that much interest is being manifested in these sports and an effort is being made to establish them permanently on the Tech campus. A fun night will probably be held each month until the last of school.

IRC To Discuss Russia At Meet

Coker, Clements To Debate; Pender To Explain Facts About Recognition Of The Russian State

Recognition of Soviet Russia is to be the topic of discussion at the next meeting of the International Relations Club. The first half of the program will be devoted to a debate on the question; "Resolved that the United States should recognize Soviet Russia," with Glyn Coker upholding the affirmative, and Cannon Clements representing the negative. Following the debate, Professor H. C. Pender will round out the program with an informal discussion of the problems and consequences of recognition of Russia. The program is to be held in room 302, Monday, Jan. 16, at 7 o'clock.

This is the first meeting of the club during the winter term, and all students desiring to become members of the International Relations club are invited to be present. Professor M. E. Ogdon is sponsor of the Club and James Toothaker is president.

Dr. Bradford Knapp was recently appointed a member of the National Council of Boy Scouts of America.

Shakespearean Players Please Packed Crowds

Shakespearean drama is no longer a stranger to West Texans, but Shakespearean drama to the strains of contemporary music is surely an innovation for the citizens of the Plains.

As demonstrated by the Shakespeare Players Tuesday evening in the High school auditorium, the use of music to accent the swell of human emotions has proven most effective. In contrast to the simplicity of companies with the same repertoire that have played here, the company of the Shakespeare Players has followed the lead of the well-known Fritz Lieber in his use of devices to insure the scenes with reality.

During the afternoon performance of "The Merchant of Venice," the already romantic plot, or plots, were emphasized by the use of several Nevin compositions transmitted to the audience from an electric portable through a radio loud-speaker. The ultra-tragic tone of "MacBeth" was increased in the night play by the use of huge bass drums, cymbals, bells, and tamed bird calls. With all the inventions of modernity are employed to give to the art of the great English dramatist its desired atmosphere.

The Shakespeare Players, now controlled and directed by James Hendrickson and his wife, Claire Bruce is a company of nine with an age of six years. All the trouper from Frank Howson, the oldest who was formerly in the cast of the famous Moscovitch productions, to the youngest boy, display a finished dramatic ability.

These players now offer only four plays, all classics. They are "Hamlet," "Julius Caesar," and the two presented Tuesday, "The Merchant of Venice" and "MacBeth," to be given by Mr. Hendrickson, to be given at the top, with a possibility of taking up modern works later.—K. J.

Plans Made For Selection Of Tech Beauties; All Girls Are Eligible; Club Pictures Due

Possible Chance Of Fraud To Be Avoided By La Ventana Officials; Tech Snapshots Are Wanted

La Ventana for 1933 is nearing completion as the deadline for class sections pictures is being set for February 15. According to Everett Fairchild, editor-in-chief, students may not see their pictures made for the annual after that date. All club pictures should be made early. Students having negatives of Tech people or scenes to be published in La Ventana are asked to give the negatives to Bob Walker. These negatives will be returned after the prints are made.

Beauty is as beauty does may be true in life but La Ventana beauties will be chosen by photography rather than by personal appearance. An unprejudiced judge of national fame, whose name will be announced soon, will select the eight prettiest girls in Tech.

All Girls Eligible
All girls who are students of the college are eligible and their pictures may be entered by friends not later than February 1. The pictures must be 8x10 glossy print. Each print will be wrapped and sealed in presence of the publication committee, the editor, and the manager of the annual and the president of the student council or any representative he may select.

The eight prettiest girls will be selected by the artist and these photographs will be arranged in order and in fan shape and photographed together so that there will be no mistake in the arrangement of the winners. Pictures of these beauties will also be published in the Toreador.

Promotions Made
Two promotions have been made on the La Ventana staff. Byron Terrell has been made assistant editor and George Long is now assistant manager. The work of mounting pictures is in charge of these two staff members. According to the editor, students still have

Home Ec Club Holds Annual English Party

Sammie Marie Hitt Crowned Queen Of Medieval Event; Dances, Games Entertain Fifty Guests

The annual Twelfth Night party of the home economics club was held last Friday evening in the home economics building.

Following customs of the English in their celebration of Twelfth Night on the eve of Epiphany, several centuries ago, the club women crowned one of their number, Sammie Marie Hitt, queen. Games and dances were directed by Margaret Baskin, Wilma and Wilda Spikes performed tumbling acts, and Louise Campbell danced tap dances.

Punch was served from a wassail bowl, paper caps were worn, and contented and serpentine were thrown. Guests, lighted candles, made wishes, and sang "Auld Lang Syne" at the close of the evening. About fifty guests attended.

Article By Dr. Sidwell Is Printed In Famous Journal

An article written by Dr. Raymond Sidwell, entitled "New Species From the Colorado Group, Cretaceous, in South Central Wyoming," in which he describes several new species, was given nine pages in the December issue of the Journal of Paleontology, Dr. Sidwell spent two summers in the lower part of the Upper Cretaceous rocks of Wyoming on a field trip. Descriptions of the species which were gathered are given in detail with illustrations in this article.

The identification and description of the fossils were completed at the University of Iowa, and identification of the fossils was made by Dr. J. B. Reeside, Jr., of the U. S. Geological Survey.

CLASS TO ATTEND TEA
Mrs. William Dings' Sunday School class will have the first of four afternoon teas Friday afternoon from 4 to 6 o'clock at the home of Mrs. Dings, 2502 Twenty-First St. Ruth Carter is general chairman of committees.

Press Group Adopts Rules

Taulman Presides At Meet; Abraham Chosen Treasurer By Acclamation; Program Is Planned

Reading and voting upon the constitution and by-laws occupied most of the time when the Press association met at 7 o'clock Monday night in room 314 of the ad building. President Parker Taulman presided.

Malouf Abraham was elected by acclamation as treasurer after the members voted to have separate offices for secretary and treasurer. Committees were urged to meet and function immediately. There will be an organized program for the next meeting, the fourth Monday night of this month.

Students interested in writing are urged to attend the next session of the association.

Equipment Given To Fish Quintets

With the distribution of equipment to approximately 65 candidates, freshmen basketball was initiated this week under the direction of Ross Ayers, last year's Picador coach.

No games have been scheduled for the frosh basketball as yet but lengthy scrimmage sessions with the varsity will probably be in order for the next few weeks. Games with Wayland college, and West Texas Teachers fish will probably be carried by the Picadors in addition with jousts with nearby high school quintets. Already the alums are showing much potential and give promise of developing into a smooth working machine.

Four Courses Now Offered By Extension

Three Night Classes Given On Campus; Students Must Have Dean's Approval; Dr. Holden Teaches History

Classes in four extension courses have already been organized for the term, according to Prof. J. F. McDonald, head of the department of extension. One is being conducted in a neighboring town, and the other three are for the benefit of college students and Lubbock citizens.

Beginning Friday night, January 20, Dr. W. C. Holden will hold classes at Big Spring, giving instruction in the social and economic development of the Great Plains. This will be the first work that Tech has offered at Big Spring.

Night courses in in charcoal and figure drawing, business English, and second term freshman chemistry and geology met for the first time this week. Students who have conflicts or, those who wish to take this work may do so with the approval of their deans. The English and art classes are also open to the town people. The art class meets each Wednesday night at 7:30 o'clock in the Engineering building. The business English class meets at 7 o'clock Monday night with Cecil Horne, and the science courses are taught respectively on Tuesday and Wednesday night by Prof. G. H. Connell and Dr. R. D. Sidwell.

Brandt Makes Cotton Tests By Machinery

Tensile Strength Of Fibers Are Determined; Work Not To Be Authentic Until It Has Been Made One Year

Scientific research, based upon old theories may lead C. D. Brandt of the textile department to valuable discoveries. Old planters of southern states maintain that cotton gains tensile strength as it remains on the seed. Their cotton is taken to a gin only after being stored for at least two weeks.

Mr. Brandt has constructed a machine capable of testing tensile strength in grams. A small motor is attached to the scale by means of a worm gear. The force required to break cotton fibres clamped between the gear and the lever can be measured very accurately.

Results obtained from this experiment will not be authentic until tests have been observed for a year. Mr. Brandt states that his observations of a few weeks are that the fibres take strength from the seed, it is allowed to remain for as much as two weeks. It is natural that oil will be absorbed from the seed after it is picked.

Carpenter Named Banquet Speaker

John W. Carpenter, president of the Texas Power and Light company, will be the main speaker at the Engineering society banquet which will be given March 4, it was decided Monday night at the meeting of the society. A committee was appointed to make all arrangements for the banquet. They are: Don Wellman, Archie King, and W. E. Underwood.

Douglas Ross was elected vice-president of the society following plans for the banquet.

New Students Are Here For Winter Term

Registration Starts January 3 And Still Continues; All Classes Start Next Day; Is Increase Of 9 Percent

Names Listed

Students Receive Grades At Home; Old Timers And Fish Help To Swell Enrollment In Schools

Texas Technological college students have settled down for another three-months grind of studying and hard work.

Registration for the winter term began on January 3 and classes started at 8 o'clock the next day. Many new students and former students have returned for this term's work and the enrollment for Tech during the present term exceeds that of Texas Agricultural and Mechanical college of College Station. At present, there is an increase of 9 per cent over the enrollment at the corresponding time last year. Most students returned to Tech on January 2 after spending the holidays at home. Most of the students received their fall grades before they returned to college.

Names of all the new students enrolling for this term are listed below. Students listed below registered in the school of agriculture for the winter term who were not here last term:

Ayers, Cecil Irvy, Chillcothe; Baughin, Ford L. Deport; Black, Terrell; Bragg, Walter; Brasher, Walter; Brasher, Carl; Lubbock; Briley, Noel C.; Lubbock; Clutter, Elvye C., Jr.; Lubbock; Cook, Elton D.; Lubbock; Drinkard, Cloyce; Snyder; Duff, Berry; Sweetwater; Dundrop, Wally; Lubbock; Elliott, Arvie; Lubbock; Grimes, W. J.; Lubbock; Hargrave, L. M.; Hale Carter; Holland, Edwin; Herford; Jackson, Mack; Crosbyton; Johnson, Joseph, R.; Floydias; Key, Johnny; Wilson, Lawson; Layton; Lubbock; McCullough; Coy R.; Lubbock; Maples, Fred; Dimmitt; Mitchell, E. E.; Snyder; Moreshead, Duke; Lubbock; Pope, Royce; Leveland; Seale, Orris; Lorenzo; Steele, John B.; Lubbock; Smith, J. P.; Littlefield; Taylor, Frank; Fluvanna; Wilkins, Paul E.; Floyd; Willis, Hood; Fluvanna; Egan; Gresham; Eastland; Rohrer, Vern; Springtown; Still, Cnas. A.; Fort Worth.

Scott Named To Head BSU

Baptist Students To Attend Party; Event Held Every Term; Headquarters Moved To Matador Hall

An "auto" party (auto do this, and auto do that) will be held tomorrow night for all Baptist students in the young peoples' auditorium of the First Baptist church. This is the annual winter-term "openhouse" for students, and Mary Alice Scott is in charge of the plans.

Upon the registration of Juanita Poole as president of the BSU council, this week, Miss Scott was nominated to head the organization. The regular council meeting to fill the office for the rest of the year. This nomination will be presented and passed on in the young peoples' assembly Sunday morning.

The new Baptist student headquarters have recently been placed in the south-west corner room of Matador hall after this week, BSU social and council meetings will be held in this room.

EX-STUDENT MARRIES
Mr. and Mrs. Burley McCollum announce the marriage of their daughter, Buriyne, to Mr. Arthur Leiland Weddle, on December 25, 1932, at McCamey, Texas. At home, Alpine, Texas.

Resume Of Happenings On Campus Are Given; Social Calendar Is Full

BY LORENE CHILDERS
Toreador Society Editor

With the beginning of a new year, the minds of the Tech students drop back twelve months and they live again the many and varied happenings of 1932.

January 4—Registration for the winter term of 1933 began. Classes started the following day. With the beginning of the new term various plans were made. "Red Huff, editor of the Tech year book announced his theme, that of "Coronado's Children" on this date.

January 8—As the result of much talk and the progress Tech had made, Dr. P. W. Horn and other members of the athletic council secured Tech a membership in the Border Conference at its official conference held in Las Cruces, New Mexico.

January 14—The student Council submitted a new constitution to the student-body. Later it was not accepted.

January 1—A grain school was held under the auspices of the department of agronomy, in the Agricultural school, and the Lubbock grain exchange.

January 19—Dr. P. W. Horn underwent an emergency operation for appendicitis at the Lubbock sanitarium.

January 22—Sons Sociel club presented new members at their annual formal dance given in the Uptown Dance Palace.

January 15—Centaur club presented new members formally at their annual dance given at the Hilton hotel.

January 28—The first "Mysterious Mike" column was published in the Toreador.

January 30—The annual Silver Key formal dance was given at the Hilton hotel.

February 6—President Horn returned to his office for the first time since his illness.

February 5—The liberal arts football team was announced victor of the intraannual football season.

February 11—Annual South Plains Farmers and Home-makers conference was held in the agriculture school.

February 12—Second all-Men's fun night was held in the gymnasium.

February 12—Las Chaparritas

club presented their new members formally at their annual Valentine dance given in the Uptown Dance Palace.

February 19—Double "T" Minstrel show was staged in the Lubbock high school auditorium, 125 Tech students participated.

February 19—The tag day sponsored by the A. W. S.

February 18—Mary McMurry was elected Freshman queen.

February 19—The last basketball game of the season was played with the Canyon team in the opposition.

February 20—Wrasler club was hosts at their annual formal dance given in the Uptown Dance Palace.

February 26—The annual sophomore hodge-podge was held at the Uptown Dance Palace.

February 22—First annual military ball was given in the armory. Miss Jihla Davis was crowned military queen.

February 23—A special convocation was held in the gymnasium honoring George Washington. The honorable G. W. Dupree was the speaker.

February 24—The Board of Regents voiced disapproval at the lack

of enthusiasm of sports on the part of the student-body. An appeal was made to the students for better athletic support.

February 25—The beauty contests for "Las Donitas" section of the annual ended.

March 1—The sixth annual engineer's banquet was held in the ballroom of the Hilton hotel.

March 4—The judging teams left for Fort Worth to compete in the Stock Show judging contest. They placed second.

March 5—The annual fish ball was given in the Uptown Dance Palace. The freshman president was kidnapped, and the queen was crowned.

March 21—Registration for the spring term of school began.

March 21—First All Women's convocation held in the gymnasium.

March 24—Spring football training started.

April 1—"Scarlet Scavengers" were placed on sale.

April 7—Toreador staff members accompanied by Mr. Cecil Horne

MAKE 1933 THE BEST

The students who are to make the year 1933 the best in their lives must start it right.

The old year is gone. The grades made in 1932 are recorded, never to be changed. Naturally, memories of the old year remain. Some of them are rather unhappy memories, however. But, those things that were unpleasant during the past year should be forgotten and a new start should be made.

As the new year starts, all-wise students will settle down to real work, resolving to improve on the past record and to really do things during the new year.

Mentality and morality together constitute character.—Rev. Denis B. Coleman.

Education is the process of bringing students into harmony with the world.—Bishop H. Lester Smith.

There's not a string attuned to mirth
But has its chord in melancholy.—Thomas Hood.

Nothing except a battle lost can be half so melancholy as a battle won.—Wellington.

I never mail a letter in which I have expressed anger until the next day—then I destroy it.—Congressman C. Cole.

Misunderstandings are serious only when we ignore the other man's point of view.—George Theunis.

One should never put on one's best trousers to go out into a fight for freedom.—Ibsen.

When the candles are out all women are fair.—Plutarch.

A liar should have a good memory.—Quintilian.

No man ever became extremely wicked all at once.—Juvenal.

Is life worth living? Yes, so long
As there is wrong to right.—Alfred Austin.

Imitation is the sincerest flattery.—C. C. Colton.

Mysterious Mike Moses Around

Well fellows old MIKE shows wishes that all of you have had a very MERRY CHRISTMAS AND A HAPPY NEW YEAR, and am ready to start this term of FORMAL DANCES and the PRESENTIN of new members of some of these here social clubs, OLE SANTEY CLAWS, shows were good to some of these students on the campus, but yet I heard that he sorter disappointed some of them too. Well now MOSES told me about a letter that he had written to you about MIKE. It went something like this: MIKE MELBA WATSON, LUBBOCK, TEXAS. DEAR LITTLE MELBA: I am very sorry that I cannot attend the tea your club is giving on Christmas day, from four until six, at MRS. FRIENDS on Broadway. However, I am sending you some excuses so that you can have some more TEAS.

SANTY CLAWS

VIRGINIA BROWN got some very nice presents but EARL PENNEY did not. Have all of you heard about the BIG HOLD-UP? When DOUGLAS KEPPER went home to his mother he was held up by two men. I think that it was ALL THE WAY. And then maybe some of you have not heard about the CENTAURS writing WAYNE KING and his ORKISTRA and ask them what kind of a band he could bring to Lubbock for FIVE HUNDRED DOLLARS. Well ole WAYNE went back and said that maybe he could bring down TWO SHEETS OF MUSIC AND A FEW COLORED PLAYERS. MOSES are wondering whether JACK MICKLE will have them bring the MUSIC or not. We are also wondering where DEMP CANNON, WALTER NIXON, BILL TEAL, JACK DURHAM and the rest of their bunch went several nites before the final exams last term. TOBY GREER let W. N. FUQUA run all over him CHRISTMAS in an ALL STAR football game. When we were registering to-day I heard some fellows talk about FORD BENJAMIN and finally MOSES said that he thought that he was a FRAT HEAD. I thought that I understood correctly. Well, well I reckon that JELLY KELLY FINALLY TOOK OUT his grudge on MARY LEE BARDWELL, or at least he was trying out his GAVE MAN STUFF on her, other night at the HILTON HOTEL DANCE when he grabbed her and hit her on the chin with his fist. MOSES advanced the theory that JELLY thought that MARY LEE talked too much. Ole MIKE will bet his shirt that he knows what WANDA BUTLER was thinking about at this time dance. MALOUF ABRAHAM am back at skul this term and it shore seems good to see OOFIE again. MOSES and me was speaking around the other nite. I happened to see DON MADISON, JELLY BROWN, PARKER T. MAN, JOE HARTER, TRACY WATSON, AND BASIL HILL standing around a punch bowl. They was sorter skuffling around when PREXY knocked over the PUNCH BOWL AND SQUARE HEAD COLLINS FELL OUT. You know Ole MIKE has always wondered if MILTON MOFFETT, JONNIE BEAUCHAMP, BRAXTON GILMORE and GANDY PRATHER go over to see the CALDWELLS or just to be across the street from COLLEGE INN. Also maybe some of you could tell us why TONY ULLRICH got in such a hurry on the train coming out to skul. JEAN SHIELDS and GANDY shore cast some spells on the ENGINEERS during registration and

Honor Roll At Tech FALL TERM 1932-33

TWO HUNDRED and thirty-one students of Texas Technological college are listed on the school's honor roll for the fall term just announced by Registrar E. L. Dooney.

Six students made all "A" grades during the term, two of them, C. E. Mitchell of Slaton and James Toothaker of Downs, Kas., carrying eighteen or more hours of work and Anna Mary Baucum, Novelty Bussey and Katherine Leidligh, Lubbock and James Chamberlain, Rochester, carrying fifteen to seventeen hours.

The honor roll follows: Students carrying eighteen term hours or more: A. A. Grades: C. E. Mitchell, Slaton and James Toothaker, Downs, Kansas. B. Average: Blanche Braunfeld, Lubbock; Guyne Coker, Athens; Mrs. G. T. Patton, Abilene; Mrs. L. Priddy, Whiteville, Ill.; Mrs. M. N. M. Mrs. Florence Ashmore, Hill County; Mrs. L. Priddy, Whiteville, Ill.; Mrs. M. N. M. Mrs. Florence Ashmore, Hill County; Mrs. L. Priddy, Whiteville, Ill.; Mrs. M. N. M. Mrs. Florence Ashmore, Hill County.

especially on SAM HOPPER. The truth is that he went through that long line of registration five times just to hear her ask him WHERE HE LIVED. ADRIAN CLARK said that he would walk on his hands from the AD building to the TEXTILE building if POLLY BARROW would only look at him. Looks to me like she ought to speak to him so that he could FLY IT KEEN. I guess that he is like EINSTEIN, cause very few people understand him too. We wonder who JUNE LAWRENCE really likes? Well the HOME ECONOMICS CLUB have crowned them a QUEEN, MISS SAMMIE MARIE HITT. She shore ought to be able to sew, cook and keep house, boys dont get crushed in the rush HIPPI HERRING shore got a good SUN TAN when he went to CALIFORNIA during the holidays. Or maybe he was just blushing when I asked him about the about the trip EVERETT FAIRCHILD shore am leaving tracks around in the LA VANTANA OFFICE. BOB TRACY shore am going to do a rash deed, so all of you had better stay with him as long as you can. POLLY SHULTZ shore did have a good time at the ALL COLLEGE DANCE last Saturday nite. There shore was a bunch of strange women at that dance, or did they all get a new dress for Christmas. Their lives sounded familiar however. Could any one tell me why MORGAN EUBIE did not let MARY WARREN ride home with him for the holidays.

MIKE
P. S.—Mose tells me that JELLY KELLEY shore kin do that CAM-EL WALTZ.

Alumni News

Dear Graduate: No doubt you have been keeping in close touch with the educational situation in Texas during the last few weeks. The Texas Legislative Committee on Organization and Economy a few weeks ago recommended that Texas Tech be made a Liberal Arts college. It is the only state supported institution in Texas where agriculture, engineering, home economics and liberal arts are all taught.

The fact that Tech has more than a 6 per cent increase in enrollment this year over the corresponding time last year, the fact that this institution has grown more rapidly than any other institution in the United States, the fact that it is the second largest state supported college in Texas, the fact that Texas is the largest state in the Union and Tech is located far distant from most of the older-state supported colleges except the West Texas State Teachers college at Canyon, Texas, the fact that West Texas is a rapidly growing and developing country are some of the many reasons why this institution should be kept a technological college. The figures as compiled by the Legislative Committee show that it costs less per student here than at several of the other leading state colleges and universities and a greater percentage of the money is spent at Tech for instructional purposes than any other state institution in Texas, all tends to indicate that more instruction is given per dollar spent.

West Texas chambers of commerce have gone on record as approving the keeping of Tech a technological college as it was originally founded. The Texas Tech alumni association urges that every graduate, ex-student, and friend of the college do all they can to help in the battle that is to be fought. Talk to your state senator and repre-

Alumni News

Dear Graduate: No doubt you have been keeping in close touch with the educational situation in Texas during the last few weeks. The Texas Legislative Committee on Organization and Economy a few weeks ago recommended that Texas Tech be made a Liberal Arts college. It is the only state supported institution in Texas where agriculture, engineering, home economics and liberal arts are all taught.

The fact that Tech has more than a 6 per cent increase in enrollment this year over the corresponding time last year, the fact that this institution has grown more rapidly than any other institution in the United States, the fact that it is the second largest state supported college in Texas, the fact that Texas is the largest state in the Union and Tech is located far distant from most of the older-state supported colleges except the West Texas State Teachers college at Canyon, Texas, the fact that West Texas is a rapidly growing and developing country are some of the many reasons why this institution should be kept a technological college. The figures as compiled by the Legislative Committee show that it costs less per student here than at several of the other leading state colleges and universities and a greater percentage of the money is spent at Tech for instructional purposes than any other state institution in Texas, all tends to indicate that more instruction is given per dollar spent.

When I like something I evermore like it!

—and I like CHESTERFIELD Cigarettes.

To me, they are mild—that is, they don't seem to be strong; and there is certainly no bite, so far as I can tell.

To me, they taste better and they have a pleasing aroma.

Every CHESTERFIELD that I get is well-filled, and I feel like I am getting my money's worth—that there is no short measure about it.

I like CHESTERFIELDS. They satisfy me.

THEY'RE Milder—
THEY TASTE BETTER

Basketball Season Begins; Intramural Football Starts

Matadors Split Cage Series With House Of David; Large Crowd Applauds Tech Teams

BY BOB TRACY
Toreador Sports Editor

Let's all make a new year's resolution right here and now. If you missed the basketball games last week, you missed a fine exhibition of the cage game. The Matadors did themselves proud, and gave a creditable account of the team-work despite the fact that these games were their first. The House of David team displayed an unusual bearded outfit that had many passing remarks up their sleeve. Making a trick to the effect that you attend all of Tech's basketball games would not be a bad one.

Here's a yarn that may be interesting to some of the followers of baseball. George Johnson, for more than a score of years umpire in the American Association, was the manager of the House of David team. George was not very enthused over his managerial job, but he was ready to talk about the professional football teams in the East. Last season he officiated several of the games in which the champion Green Bay Packers took part. His praise of the pros was high, and he said that it would only be a short while till the professional game would be a serious rival to the college game.

Johnson pointed out that the teams were not just out for the gate receipts primarily, but were playing unusually heavy schedules in the interest of the game. Some of the players, who were stars during their college days have devoted themselves wholly to improving the game, and with their past training in college football, the brand of football they play is far superior to that played in college circles. The average line in professional football ranges around 230 pounds, and none of this is bulky, but beef and brawn that is kept in the finest physical condition. George does a number of things during the off season in baseball like refereeing girls' basketball games around Chicago, wrestling matches, and refereeing a few boxing matches.

Coach Cawthon has returned from New York where he attended the American Coaches Association convention. Pete stated that Tech has gained quite a bit of fame since the last meeting of the coaches, and that a few inter-sectional games was proposed by some of the big league schools. One of these in particular was the U. S. Naval academy for a game to be played here in Lubbock in 1934. It sounds big at present, but by that time we hope that the mention of a game of this sort will be an ordinary occurrence.

Wilson Gilmore, that easy-going boy who never says much about anything surely did make some uncomplimentary remarks to the bewildered boy he was playing against the other night. Ordinarily Gilmore keeps quiet when he participates in an athletic encounter, but he seemed kind of devilish in this game and he gave the Benton Harbor boy a good razzing. Calling a man grandpa is pretty serious business in a situation like this because whippersnappers don't mean a thing to some of these boys.

Folk Robinson along with Leter also gave the "grandpas" a few lessons in how to hook the baskets. These boys just seem not to miss for awhile. Leter parted the meshes for four consecutive times before the Davids could show him up in the first game. Captain Harvey Dunn played a consistent game at guard while Basil Hill turned in a steady game. These men are lettermen from Coach Morgan's last year's team, and are the kingpins of the Matador defense.

Let us pause a few minutes to take our hats off to one Mr. Lucy Turner of the great football team of last season. Lucy not only turned in a fine performance for Pete Cawthon during the past football season, but he turned in a greater performance in the class room. Yes, sir, we have a scholarly football player on the roster of the Matador.

Sophomore Players Show Form To Bolster Starters; Play Of Squad Featured By Team Work; Last Game Is Tight

BY ED McKEEVER
Toreador Staff

A well coached, accurate passing, quick breaking Texas Tech basketball team split a two game series with the powerful House of David quintet. The Matadors won the first contest 48-34, and dropped the second fray in a closely contested game 35-33. Tech looked good both nights.

The Matadors displayed mid-season form the first night, rolling up 48 points, with Will Gilmore and Polk Robinson on the heavy end of the scoring. The House of David took a 10-2 lead at the start of the game but the Matadors started clicking, forging in a lead which they never relinquished. The first team composed of Will Gilmore and Crews, forwards, Polk Robinson center, and Basil Hill and Captain Harvey Dunn, guards, started the game, but the second team made up of Leter, Darr, Flake, Bryant, and Priddy were inserted into the fray in the second and last periods.

In the second game the Matadors held the lead until the waning few minutes of the contest, when Johnson and White rung up goals that gave the House of David their victory. The game, although ragged in spots, had the spectators on their feet in the closing minutes.

The Matadors were outstanding both nights, due to great team play. The House of David club was fully as colorful as expected; it is one of the best amateur teams of the country.

The House of David, bewildered members of a religious cult of Benton Harbor, Michigan, was composed chiefly of former college luminaries, outstanding among them being Johnson, former star forward of Missouri Wesleyan, who was high point man both nights. Their defeat by the Matadors was only the fifth in twenty six starts. The demand for their services being so great that they are booked almost every night in the various sections of the country until the latter part of March.

The teams played out a packed house both nights, over half of the student body turning out to back the Matadors.

FIRST GAME

PARLIAMENTARIANS MEET
The Parliamentary Law class met Monday night at 7:30 in the home economics building, at which time the subjects of "Reconsider, Rescind, and Renewal of Motions" were discussed. Professor H. P. Codeke announced that the next meeting will be January 23 and that the discussion will be on "Incidental Motions" and "Officers and Their Duties."

Tech Captain

HARVEY DUNN GUARD

Captain Harvey Dunn, junior liberal arts student from Ralls, was named as captain of the Matadors basketballers at a luncheon held in Lubbock during the holidays. With only three lettersman available for the nucleus of a strong team, the Matadors, under Dunn's leadership have already shown a very pleasing change from last season's cage quintet.

Bulldogs Lose Final Game To Fighting Team

Techsters Reverse Form And Play Hard To Cop Setto; Game Is Rough But Crowd Remains To See Finish

BY BOB TRACY
Toreador Sports Editor

Playing an entirely different brand of ball than that of the night before, Coach Del Morgan's Matador basketballers took a fast game from the Southwestern State Teachers college Bulldogs at the gym last Tuesday night by a 33-28 score. Young, fast little forward for the visitors, was high point scorer for the night.

The Matadors, led by Wilson Gilmore and Captain Harvey Dunn, got off to a flying start and led the Teachers at the half by 10 points. In the first half Gilmore looped three baskets each to lead in the scoring of his club. Most of the visitors' tallies came as a result of the long shooting of Young from all angles of the hardwood. This little fellow just seemed to hit the basket every time he got his hands on the ball, and although he was removed from the game in the last few minutes of play he led the scorers for the night with 14 points. Laurence Priddy of the Matadors turned in a nice game at the guard position as did Kaiser for the visitors.

Game Is Rough
Polk Robinson contributed five points to the Matadors score, but was ousted by referee Hambricht in the later part of the game on personal fouls. Tuesday night's encounter was much better played by both teams and the number of personal fouls was somewhat smaller. To begin with the Matadors took the lead and ran up twelve points in the first seven minutes of play. The Bulldogs then got together and came out of the locker playing an up seven points before the locals scored another counter. At the half Morgan's lads were enjoying a 10 point lead with the score standing 25-15.

In the second half the Teachers got hot on their long shots and led by Young began to drop the long arch shots from the middle of the court. A scoring spree brought them within two points of tying the score, but then it was the local outfit's time to start the ball to parting the meshes. From then on out the Matadors led the visitors with a comfortable lead. Coach Rankin Williams used only seven men in the game, and Morgan sent three players in as substitutes for his regular lineup.

Between the halves of the game, "Stud" Turner lost a two fall match to "Terrible" Tribble as a little diversion on the program for the evening. Both grapplers weighed in at 175 pounds. The match lasted four minutes.

The box score:

Southwestern (28)	FG	FT	PF	PT
Young, f	5	2	4	12
Barnes, f	1	1	3	3
Everetts, f	0	1	0	1
Francis, c	0	0	0	0
Kaiser, g	2	4	2	8
Vickers, g (C)	1	0	1	2
Ross, g	1	0	1	2
Totals	10	8	11	28

Texas Tech (33) FG FT PF PT
 Gilmore, f 3 2 2 8
 Crews, f 2 3 2 7
 Robinson, c 2 1 4 5
 Flake, c 0 0 0 0
 Dunn, g (C) 3 0 3 6
 Priddy, g 1 2 4 4
 Hill, g 1 0 2 2
 Green, g 1 0 1 2
 Totals 12 9 16 33

Wrestling And Boxing Squads Begin Training

Four Schools Are Well Represented Among Students Signing Up; Football Men To Receive Letters Soon

With one of the largest squads ever to answer the roll call at the first meeting of Tech's wrestlers and boxers, Coach Lester "Terrible" Tribble has planned a program that should keep the hectic and grab and grunt artists busy for the remainder of the 1933 season.

Sixteen wrestlers have signed up for the mat session, and at least two men are represented in every class. Among the heavies is Jerry Owen, Matador griddle of last season, Leslie Hall and Bedford Cunningham, weighing 216 and 230 pounds respectively. Other heavies are Matt Hitchcock, tipping the beam at 178 pounds and Oris Seale, a 195 pounder. Both of these boys represent the aggie school.

Well Represented
The 145 pound class is represented by a number of men from all schools on the campus. From the liberal arts comes Bob O'Hair, grappler from last year, Cy LaMaster, footballer, Garland Moore, and Dave Grayson. Engineers in this class are Eldon Lokey, H. George, and John Hinning. Two men from the liberal arts school are represented in the 150 pound class: Hansel Mayfield. These boys weigh in at 135 pounds. Light heavies are Rex Kimbrough, 162 pounds, and Walker Nichols, 160 pounds, both of the Liberal Arts.

Twenty three leather pushers have also answered the first call and met last Tuesday for a brisk workout. Thirteen of these hail from the liberal arts, while the aggies have six and the engineers have four. Weights of all the men in this department will be recorded after a brief session of training and will be assigned to the various weight classes. Matt Hitchcock is, so far, the heaviest man to sign the dotted line for boxers.

To Award Letters
Tribble has announced that he has worked out a series of matches to be staged during the halves of the coming basketball games, and for the first "fun nite," at which the Matador football squad will be special guests to receive sweaters and letters awards for last season. Any men interested in taking part in either the boxing or wrestling tournaments to be held later are requested to get in touch with Tribble at the gym. Classes are to be held on Tuesdays and Thursdays at 4:00 p. m., and on M. W. F. at 8:00 p. m.

Sometime later on in the season, Tech's boxing and wrestling squads may take on the teams from several of the nearby schools. New Mexico Military Institute of Roswell will send a team here, and Tech may journey to New Mexico for a return engagement. Plans for these contests have not been formulated as yet, however.

Library Improvements Cause Closing Daily From 6 To 7
In order to shift material to new shelves, the library will be closed from 6 to 7 o'clock every afternoon until further notice.

Specially built shelves for newspapers, new shelves for books and for college catalogues have been added in the stackroom. By closing the west passage into the administration building, a new stackroom for magazines has been made possible. It contains 33 feet of steel shelving, and wooden shelves around the walls.

In the office of Miss Elizabeth West, librarian, new shelves have also been added. In the outer office, shelves have been built for catalogues in order to release a table for student use.

Up to the close of the year 34,510 volumes had been catalogued.

The time draws near. Look for IT.

Officials: Referee, Hambricht, (North Texas Teachers); timer, LaMaster, (Texas Tech).

Coaches Quintet

With only three veterans around which to build a fighting team, Coach Morgan, with the aid of a hustling bunch of boys, has been able to place one of the best teams that Tech has had in the last three years in strong competition with all teams played so far this season.

Four Teams To Fight For Tech Campus Honors

Meeting Is Called Tonight To Discuss Details; All Squads To Be Amateur; Is To Be Round Robin Affair

BY LOMER NELSON
Toreador Sports Staff

After an absence of nearly two months, King Football returns to Tech this week as four teams begin preparations for the intramural season.

Coach Pete Cawthon has called a general meeting of all intramural candidates at the Tech gym tonight at 7:30. At this time the four squads will select their own coaches and managers and a schedule will be drawn up for all teams. All intramural aspirants are invited to attend the meeting.

Anticipating a large turn-out of students, Director P. W. Cawthon is laying plans for the biggest gridiron program ever attempted at Tech. Last year more than 200 gridirons reported for duty. The four clubs which will take part in the intramural campaign are the Liberal Arts, the Aggies, the Engineers, and the Army.

This year's intramural football will be conducted strictly on an intramural basis, all varsity lettermen, squadmen, and freshmen footballers being ineligible for participation. Varsity gridirons, however, will be selected to coach the intramural teams.

"Bo" Williams is to be in charge of all managers of the various squads, and Bennie McWilliams will handle all equipment. Players must work out in old clothes until coaches can select their eleven. There is equipment for four teams, according to McWilliams.

Practice will start late this week or the early part of next week and will continue until Saturday, January 28, at which time the first two games will be played. The championship is to be determined by a round robin schedule, with each club playing each of the others. Beginning January 28, two games will be played on one day a week, one contest at 2 p. m. and the other at 4 p. m. All players are to dress in the fish locker room.

Last year the Liberal Arts eleven, coached by Jack Durham and Bill Teal, won the pennant. The Artists are favorites to repeat this winter.

During the past years, intense rivalry has developed among the intramural aggregations for the grid supremacy of the campus.

Cleburne Club Holds Meeting

Carrigan Named As Chairman Of Social Committee; To Hold Next Meeting Late In Month; Hazelwood Plays

Calvin Hazelwood, junior liberal arts student, was the principal entertainer at the meeting of the Cleburne club last Monday evening in room 220 of the ad building. The meeting was called at 7 o'clock. Noel Cason, president of the club was in charge of the meeting.

During the business meeting which followed the musical numbers, Tom Carrigan was appointed to act as chairman of the social committee which will make a report at a called meeting to be held at 7 o'clock, January 23. This committee will decide the nature of the annual social for this year. The meeting will be held in room 220 of the ad building.

It was decided by the club that the dues for the term would be fifty cents. These dues will be used to pay for the socials held during the year. There were fifteen members present.

It's Comins! Watch for S. S.

EX-STUDENTS ENROLL
Students who were not in school last term but have enrolled this term in the home economics school are Lucy Jean Cook, Sally Jane Clay, Velda Beth Gulleddge, Ida Mae Hill, Hazel Price, Dorothy Stevens, Ruby Rae Williamson, and Kathleen Willman.

SOCIETY NEWS

Sans Soucis Have Housewarming

Sans Souci club members entertained guests in the club house, 2401 Broadway with "house-warming" last Friday evening. Club members, rushes, escorts, and stage attended. Dancing was the diversion of the evening.

Patronesses Entertain Las Vivarachas

Mrs. Edward Blackwell scored high in the games when patronesses entertained with a bridge party for members and guests of Las Vivarachas club last Friday afternoon in the home of Mrs. Roscoe Wilson, 2201 Broadway.

Other guests who played were Misses Tylene Walker, Marguerite Taylor, Frances McKee, Tone Dodson, Valeria Ratliff, Catherine Royalty, Juanita Morrison, Charlotte, Lindsey Eva Ruth Brady, Ila Steele Patterson, Mary Lou Jackman, Clarence Adcock, Ruth Hurnance, Frances Beasley, Mary Ann Davis, Lois Houston, Annie Bird Spaulding, Idell Bacon, Sallie Jackson and Margaret Rose Adams.

Las Chaparritas Have Formal Dinner

Las Chaparritas club entertained for twelve special guests Monday evening with their annual formal Mexican dinner in the home of Mrs. H. N. Roberts, patroness of the club, 2415 20th street. Zella Riegel, Sylvia Wilson and Sue Michie were in charge of arrangements and met the guests at the door.

hand painted Mexican scenes. These special guests included: Jean Daly, Ann Dohoney, Audrey Farris, June Lawrence, Kate Mahaffie, Ethel Murray, Sally Russell, Eugenia Smith, Pauline Yeager, Linda Caldwell, Gene Dubberly, Mary Dyer.

Club members present were: Jean Shelby Jennings, Ruth Hutchinson, Sue Barton, Jerry Durham, Polly Barrow, Ann Caldwell, Maxine Clark, Frances Ford, Vonelle Gilkerson, Glyds Grimsley, Cecile Horne, Mary Earle Lofland, Florence Moses, Lynn Pickett, Gail Quinlan, Harriette Roach, Ruth Rutledge, Sarah Lou Stevens, Camille Stobaugh, and Johnnie Gilkerson, sponsor.

Social Calendar For Winter Term Given

The social calendar for the winter term has been made up for over a year. Clubs and societies have reserved dates for annual dances, receptions and banquets. These gaieties will begin this week-end and will continue until the middle of March.

Invitations for membership in the social clubs will be mailed January 15.

The College club will entertain tomorrow evening with a formal dance from 9 until 12 o'clock in the Hilton hotel ball room.

Centaur club will present new members at an annual dance January 20. This will also be given in the Hilton hotel.

No formal presentation of new members will be made by the Silver Key club. These men will entertain with a dance January 28 at the Hilton hotel.

Ko-Shari club will present new members on the evening of January 27 at the Hilton hotel.

The annual Valentine dance will be given by Las Chaparritas club February 10. New members will be presented.

February 3 has been chosen as the date when Sans Souci club members will be hostesses at their annual formal presentation dance.

Las Leales club will entertain with an annual banquet February 11. Sponsors will be special guests for the occasion.

The annual banquet for members of the engineering society will be served March 4.

The Wrangler club will be hosts at their formal presentation dance which is to be given February 24.

Las Vivarachas and De Que clubs

Engineers To Pick Officials For Big Show

Juniors To Elect Assistant Manager; Geologists Will Name Superintendent; Are To Meet This Week

The junior class in engineering will elect an assistant manager, and the geological society will appoint a superintendent of geological engineering this week for the Engineering show which will be held on the campus of Texas Technological college this spring.

Other officers who have already received their appointments are: J. Preston Conner, general manager; Don Wellenman, publicity manager; Carl McAdams, superintendent of architectural engineering; Archie King superintendent of civil engineering; Arthur Washburne, superintendent of electrical engineering; M. Burlett, superintendent of engineering drawing; Alton Miller, superintendent of mechanical engineering; B. L. Manire, superintendent of mechanical engineering; B. L. Manire, superintendent of mechanical engineering shops and Ford Benham, superintendent of textile engineering.

Work on the exhibit and on the program for the show is under way, a large number of visitors are expected to attend.

Meeting Of ASME To Feature Picture On French Aircraft

The ASME will meet next Tuesday night at 7 o'clock in the engineering auditorium to see a picture show, "Warriors of the Air," which was sent by the United States War department and which deals with French aircraft. Following the show, Don Wellenman will speak on Technocracy. As this is the first meeting of the term, members are urged to be present. Visitors are welcome.

Hopper Talks At Meeting Of Architect Society Tuesday

A short program was presented at the regular meeting of the architectural society in room 204 of the engineering building Tuesday evening at 7 o'clock. Sam Hopper gave a talk on the "Mechanical Side of Architecture," and Milton Harber and Joe Fawcett sang.

The society later attended the Lubbock art association lecture.

When the world seems dark and dreary, think of S. S. It'll be good.

Personals

James Henley was in the Lubbock sanitarium this week for eye treatment.

Claude Goldsmith received eye examination and treatment at the Lubbock sanitarium this week.

Dr. M. F. Malone, of the Lubbock sanitarium, gave throat treatment to Felix Ballenger and Roger Pierce this week.

Dr. Beesie League, professor of biology, received treatment at the Lubbock sanitarium this week for a severe cold.

Weldon Cogdell, who was the victim of a recent automobile accident, is still receiving treatment in the West Texas hospital.

Conrad Geeslin, who has a throat infection, is a patient in the West Texas hospital.

Dolly Clements, who has been receiving medical attention at the West Texas hospital, was dismissed Saturday, January 7.

Pauline Bernard was admitted to the West Texas hospital January 7.

Wilson Gilmore was dismissed January 6 from the West Texas hospital where he has been receiving medical attention.

Brode Puckett, a Tech football man, is convalescing at his brother's home in Lubbock from a prolonged attack of pneumonia. He is still receiving treatment from the West Texas hospital.

Several former students visited the Aggie campus last week. Among them was Elmer Hartman, graduate of '31. Mr. Hartman is now employed in the Hans Rothacker Commercial greenhouse in Minneapolis, Minnesota.

Tom Chapman, '29, also visited here. He is United States plant quarantine inspector at Douglas, Arizona.

Another visitor was Hugo Mika, of Meadow, Mr. Mika, who graduated in '31, visited the school Tuesday.

They have set only tentative dates for their annual dances.

As Body Of Statesman Was Laid To Rest

Thousands of people stood in the rain and hail, paying their last tribute to former President Calvin Coolidge. The body of Coolidge was placed in the family burial ground at Plymouth, Vt. Picture shows the mourners gathered about the grave.

Officials And Teachers Listed In Famous Book

Investigation of the Tech faculty roll and the books "Who's Who in America" and "Who's Who in Engineering" shows that names of a fair percentage of the college staff enclosed within their bindings.

Heading the list of those in the first volume is found the name of Dr. Bradford Knapp, who has held the presidency of several well-known educational institutions and who is chiefly interested in agriculture. Next comes that of Dean James Marcus Gordon, also a past college president. The liberal arts dean is well recognized as an educator and for obvious reasons, as disclosed in "Who's Who." Following these administrative heads are the names of two professors in the department of history, Dr. John C. Granbery, member of the faculty last year, and Dr. S. S. McKay are listed as the authors of textbooks, magazine articles, etc. Dr. A. B. Cunningham represents the department of English, being the author of several novels, collections of animal stories, short stories, and theological articles. He is also the holder of five degrees, the winner of a state-wide oratorical contest, and the recipient of several fellowships.

LAMESA CLUB There will be a meeting of the Lamesa club next Monday evening in room 217 of the Ad building at 7 o'clock. All old members are urged to attend and any new students interested are invited to join.

Mrs. Ferguson Gets Tech Coat

Mrs. Miriam A. Ferguson, governor elect of Texas, recently received from Texas Technological college, a coat, every part of which was produced, manufactured and made on the Tech campus.

The wool that went into the making of this coat was produced by sheep belonging to the school of agriculture, and the cotton was furnished by the college farm. The department of textile engineering washed and scoured the raw materials and spun them into thread.

This thread was converted into cloth under the supervision of Professor Carl D. Brandt. Under the direction of Miss Mabel Erwin, Miss Janie Nix Burford, home economic graduate student, made the coat from the cloth thus furnished.

Mrs. Ferguson received this coat with the compliments of Texas Technological college.

NATIONAL WAA TO MEET The National WAA meet will be held in Austin this year in April. Official delegates will be sent to represent Tech, but all other members who wish to go may do so.

Reba Merle Boyles, a graduate of the home economics school in 1932, has been elected home economics teacher in Quanah.

WAA Plans For Winter Sports

Dates Are Set For Meetings Of Skating And Tennis And Field and Soccer, Football and Speedball Introduced

A meeting of WAA was held Monday night, and plans for the winter sports were made. The skating club will meet every Wednesday and Friday night on Broadway and College avenues at 7.30. Every one is invited.

The Tennis club will meet on Friday afternoon at the gym from 4 to 6 o'clock.

A group interested in soccer, football, and speedball will meet on Tuesday and Thursday afternoons at 5 o'clock. These games will be played alternately, so people interested in any of the games are invited to come.

WHITE HAS JOB W. T. White, who is with the United States Geologic survey, is now located in Matagorda, New Mexico, working between El Paso and Vaughn, New Mexico.

Svensen Discusses Growth And History Of Alphabet Professor Carl L. Svensen, head of the drawing department, spoke to the Lubbock Art association at a meeting Tuesday night at 8 o'clock in the engineering auditorium on "The History and Art of the Alphabet." Picture show slides illustrated the lecture.

HOME EC ENROLLMENT GROWS Although something has been said of a depression which keeps young men and women out of college, there is no indication of it as far as the enrollment in the home economics school is concerned. Twenty-three new students enrolled this term making the number attending equal to that of the winter term last year.

Dr. Bradford Knapp spoke January 4 at a meeting of the Texas Cooperative Council and the Texas Farm bureau, in Dallas. His subject was "Old Problems and a New Day in Agriculture."

Rhythm Kings Are To Play For All College Saturday

Don Maddox, manager of the all college dances, announced late Tuesday afternoon that there will be an All College dance held in the Gym Saturday evening from 9 until 12 o'clock. There will be no changes made in the prices of the bids. Stag tickets are One dollar and date tickets are 75 cents.

According to Maddox, New Bradley and his Varsity Rhythm Kings will furnish the music. The orchestra will play some of the latest song hits during the evening and will also entertain with some special features.

AIEE HAS MEETING The AIEE met Tuesday night at 7 o'clock in room 150 of the engineering building to hear Arthur Washburne speak on "Photo Electric Cells in Theory and Application." Counselor C. V. Bullen and 34 students were present.

Resume (Continued from Page One)

left for the Journalism conference which was held at Belton. April 8—Los Camaradas club gave their formal dance at the Hilton hotel.

April 9—Miss Ann Lou Bennett was crowned queen at the junior prom which was given in the gymnasium.

April 13—President P. W. Horn died suddenly at his home from heart attack.

April 14—Dr. Horn was buried in a Lubbock cemetery.

April 15—The annual engineer show was opened.

April 15—Thirty counties were represented at the Interscholastic League District Meet held on the Tech athletic field.

April 21—Administrative power of the college was given to the Tech deans, Gordon, Ledigh, Adams, Weeks, and Cook.

April 30—Co-eds Play Day was held on the Tech athletic field.

April 28—Las Vivarachas formal dance was given in the Hilton hotel.

May 10—Results of the publications election were known.

May 15—First All-Girls' Recognition Day in the history of the college was held. Senior girls were honored.

May 14—Fish day was celebrated with an outing to Silver Falls, near Crosbyton, Texas.

May 19—Announcement was made of Mrs. F. N. Drane's becoming acting-president of the college.

May 19—Finn's annual night was held at the gymnasium.

May 20—New Forum members were introduced at a garden party given on the lawn south of the Administration building.

June 5 and 7—235 seniors were graduated from Tech college.

June 7—Registration for the summer term began.

July 9—Those students attending summer school made their annual trip to the Carlsbad caverns in New Mexico.

July 11—The second annual coaching school was held, 231 coaches attended.

August 25—Summer school ended and Tech college went on a vacation.

Sept. 1—Dr. Bradford Knapp, newly elected president of the college, took over his duties.

Sept. 11—Football practice began in preparation for the fall season.

Nov. 29—Fall football season closed.

December 22—Tech college was dismissed for the Christmas holidays.

January 3, 1933—A new year began for the college when students came back to school and registered for the 1933 winter term.

Debate Is Set For February

New Mexico University Team To Meet Tech; Members Of Squad To Be Selected; War Debts Is Subject

The Tech debate team's first engagement has been scheduled here for February 9, with the University of New Mexico, according to Miss Anna Jo Pendleton, coach. The following is the question as proposed by the opponents: Resolved, That the United States should agree to the cancellation of inter-allied war debts.

Selection of the official teams will be made from a group of 25 students, members of either the Debate club or the debate squad. The successful candidates will be announced by Miss Pendleton within the next few weeks.

Double Key Sponsors Attend Dinner; Plans Are Discussed

Members and faculty sponsors of the Double Key, an honor society in the home economics school, were entertained with a dinner in the home of Misses Margaret Weeks and Mabel Erwin Tuesday night.

Plans for the year were discussed. New members will be taken in some time this term.

TCU Instructor Elected As President Of Science Group

FORT WORTH, Jan. 10.—Dr. J. L. Whitman, head of the chemistry department of Texas Christian University, has been elected president of the Texas Association of Science Teachers.

The association, formerly a division of the State Teachers' Association, was reorganized, with a new constitution, etc. Approximately 2500 science teachers in Texas schools are members of the association.

Other new officers for 1933 are: W. H. Masters, Teachers' College, Denton, vice-president; W. W. McCaskey, supervisor of public school science instruction, Austin, secretary-treasurer.

Svensen Lectures To Members Of Lubbock Art Association

"Old Manuscripts" was the subject of the lecture delivered to the Lubbock art association Tuesday evening in the engineering auditorium by Prof. Carl Lars Svensen, Prof. Svensen is head of the department of engineering drawing.

Parallel with this lecture, a splendid collection of manuscripts will be on display in the auditorium through January 15.

HOME EC PRACTICE WORK

Home economics girls who will spend the required three months in the practice house this term are Lesley Bullock, Imogene Couch, Geraldine Clewell, Ruth Hearrell, Carolyn Dickson, and Gertrude Lozano.

ALUMNI PLEDGE AID

Charles C. Williams, J. Love and W. A. Wardell are now with the Goodyear Rubber company in Rockmart, Georgia. Professor W. E. Street, president of the Alumni association, recently received a letter from them offering assistance to keep Tech from being reduced to a liberal arts school.
