

Tech Names Who's Who

WHO'S WHO IN AMERICAN UNIVERSITIES AND COLLEGES

... 1962 nominees from Tech are (first row) Kenny Abraham, Linda Barnhill, Amon Burton, Ouida Daugherty, Mike Denton, La Rue Elliott, (second row) George Gibson, Wendell Kent, Peggy Maloy, James Melton, Mary Jo McClain, Carl McKinzie, (third row) Jerry Parsons, Lee Pfluger, Don Roper, Richard Sharpe, Carlyle Smith, Bobby Switzer, (fourth row) Robert Taylor, Richard Toll (picture not available), Carolyn Vines, Rowena Williams and Nickie Woelfel.

Twenty-three Texas Tech students have been nominated for the 1962 edition of Who's Who in American Universities and Colleges.

James G. Allen, dean of student life, announced the nominations Monday. Selection to the national honor is based on a student's degree of excellence in all four areas of scholarship, leadership, character and service to Tech.

A committee of ten students and Dean Allen selected the Who's Who nominees. The committee was made up of two students from each school on the campus.

This year the committee set a minimum of 1.65 over-all grade point average as satisfying the scholarship requirement.

Of the 23 students to receive the Who's Who recognition from the Tech campus this year, 17 are seniors and six are juniors.

The following are Tech's 1962 nominees:

ABRAHAM, THOMAS KENNETH — 2.28, Junior Engineering, Gen. Mgr., Science and Engineering Show, 61-62; Student Council representative, 61-62; Athletic Council, 61-62; Phi Gamma Delta Cabinet, 61-62; Tech Salutes, 60-61; Assist. Gen. Mgr., Science and Engineering Show, 60-61; Phi Eta Sigma, 60-61.

BARNHILL, LINDA M. — 2.31, Senior, Arts and Sciences, Pres., Pi Beta Phi, 61-62 (magazine chairman, 59, corresponding secretary, 60); vice pres., Mortar Board, 61; drill commander, Angel Flight, 59 (assist. drill commander, 58); Office secretary, Board of Student Organizations, 60-61; legislator, Drane Hall, 59-60; Junior Council, 60; Campus Religious Council, 61; Student Education Association, 61.

BURTON, AMON — 2.12, Junior, Arts and Sciences, Pres., Campus Religious Council, 61-62; Chairman, Academic Recruiting Committee, Student Council, 61-62; Secretary, Phi Delta Theta, 61-62 (chaplain, 60-61, Publications Committee, 61-62; wing advisor, Gaston Hall, 60-62; Saddle Tramps, 61-62; Board of Student Organizations, 61-62.

DAUGHERTY, OUIDA M. — 1.85, Senior, Arts and Sciences, Pres., Association of Women Students, 61-62; Intercollegiate Association of Women Students representative, 60-61; Pres., Alpha Phi,

61-62, (activities chairman, 60-61, assistant pledge trainer, 59-60); legislator, Doak Hall, 60-61; AWS representative, Knapp Hall, 59-60; Advisory Board, Knapp Hall, 59-60; President's Hostesses, 60-62; Phi Alpha Theta, 61-62; Women's Residence Council, 59-60; Board of Student Organizations, 60-62; Student National Education Association, 58-59, 61-62.

DENTON, MICHAEL GENE — 1.71, Senior, Business Administration, Pres., Interfraternity Council, 61-62; Pres., Delta Tau Delta, 60-61; Saddle Tramps, 61-62; Board of Student Organizations, 61-62; American Marketing Association, 61-62.

ELLIOTT, LA RUE — 2.29, Senior, Home Economics, Pres., Gamma Phi Beta, 61-62; (first vice pres. and pledge trainer, 60-61, corresponding secretary, 59-60); Secretary, Home Economics Club, 60-61; (AWS representative, 59-60); Phi Upsilon Omicron, 59-61; Freshman Council, 58-59; Junior Council, 60-61.

GIBSON, GEORGE BRUCE — 2.65, Senior, Engineering, Brigade Commander, Army ROTC, 60-61; Pres., Army ROTC Association, 60-61; Varsity baseball letter, 59-60-61; Phi Delta Theta, 59-61; Who's Who in American Universities and Colleges, 60; Tau Beta

Board Approves Private Telephones

by **JOHN PETTY**
Toreador News Editor

Texas Tech will have private telephone service in every dormitory room beginning with the fall semester of 1962.

The Board of Directors unanimously approved the service at their meeting Saturday.

Bill Moser, spokesman for Southwestern Bell Telephone Co., said Monday that the initial engineering work needed for the installation of the telephones is already underway and that actual work will begin sometime after the first of January.

"This is a tremendous job," Moser said, "in that we will have to recable the entire campus plus adding tons of new equipment."

Moser said that at the initial hookup in September, 1962, 2250 telephones will be in service in the dorms plus another 540 phones for administrative use. All the phones will work off a central switchboard which will be located in the current Doak Hall cafeteria.

The service will be intra-campus and will eliminate the 13 master switchboards in the dormitories. When a student living in Thompson Hall, for example, calls a coed living in Knapp, he will pick up the phone in his room, dial a four-digit number (all telephone numbers will be four-digit without prefixes) and the phone will ring in the Knapp room.

Costs to the students for the new service will be \$1.50 per student a month. Everyone living in the dormitories will be required to pay this fee, and it will be added to the room and board fees each month. An official of the administration said that this would be required since to offer such service on a basis of

individual choice would cost the students about \$6 a month. Students will be able to make calls outside of the dormitories by first dialing "9" and then the Lubbock number.

Concerning long distance calls on the new telephones, Moser said that students would be asked to make calls collect or to use the pay phones which will remain in the lobbies of the dorms.

"LSU now has a similar telephone hookup," Moser said, "and we have found that over 99 percent of the (LSU) students follow the no long distance rule. Of course, we have ways of checking any calls out."

This service will not be continued around the clock. Moser said that a certain time each evening (to be decided later by the administration) the chief operator at the master switchboard will cut off the phones with a master key. However, she will remain on duty at the switchboard in case of emergencies.

"One of the main advantages of the new service," the telephone company officials said, "will be to allow parents, for example, to call in case of emergencies, day or night, and get the party in his or her room."

As new dormitories and administrative offices are added to the campus, telephones will be installed. Over 400 will be put into the new woman's residence hall slated to be ready for occupancy in September, 1963.

In other action at Saturday's meeting, Dr. John Bradford, dean of the School of Engineering, spoke to the board concerning the status of his school, stressing that he plans to up-grade it to meet the demands of the age.

Going along with Dr. Bradford's idea, the board gave him a "vote of confidence" concerning a core curriculum for engineers. This core would allow engineers to complete two years of work before deciding

upon a branch of the field in which they wish to specialize.

Manuel DeBusk brought up the idea that a portion of the students and ex-students are interested in changing the school song. While the Board did not express an official opinion, all members spoke favorably of the change.

A \$500 scholarship given by U. S. Department of Health, Education and Welfare to a Cuban student on campus was approved.

A number of course changes was approved in the allied arts department, Engineering School and Geology department.

Concerning the Geology department, the Board approved the changing of its name to the department of geosciences and added majors in geophysics and geochemistry and options in ground water and paleontology.

Tech's department of foreign languages was authorized to make a field trip to Mexico City in the summer of 1962. Six hours credit will be given for the trip. Too, the Board waived the payment of student services fees, Student Union fees and general property deposits for those students enrolling for the trip.

The next board meeting will be Feb. 17, and the members instructed Board secretary J. Roy Wells to schedule meetings next year in various cities across the state.

Attending Saturday were Board Chairman C. I. Wall, DeBusk, Floyd Woodridge, Alvin Allison, Wilmer Smith, Harold Hinn, J. Edd McLaughlin, Dr. R. C. Goodwin, Marshall Pennington (vice president and comptroller), Dr. William Pearce (academic vice president), William Butterfield (vice president for development) and Wells.

Dr. Goodwin attended the meeting for the first time this semester. He has been ill following major surgery.

Fraternity Initiates 27 New Members

Twenty-seven juniors and seniors who are majoring or minor-ing in English have been initiated into Sigma Tau Delta, honorary English fraternity. They all have a 2.2 overall.

Initiates are Ray Thompson, Rosemary Patterson, Libby Malley, Judy Kinney, Mrs. Barbara Kanipe, Janis Richardson, Mrs. Betty Mabry, Anna Gayle Ryan, Mrs. Connie Holt Jones, Lynn Nueman, Norma McAdams, Mrs. Faye Young and Ophelia Dietz.

Others are Mac Marcom, Emily Puckett, Jo Anne Caldwell, Ann Herrscher, Diana Henckel, Beverly Bradberry, James Murphy, Bea Young, Rosemary Donica, Mrs. Dorcas Turner, Lonnie Wheeler, Nancy Martin, Diane Graham and Thomas Langford.

Sneed Hall Names '61 Turkey Runner

Eldon Mongold was crowned winner of the 1961 Sneed Hall Turkey Run Saturday. Runners-up were Gary Milburn and Laver-al Gruben.

Mongold received the turkey, a trophy and a kiss from Miss Glen-da Pettiet, Turkey Queen, as prizes for winning top honor in the annual event.

Trophies were awarded to the second and third place winners.

The race began at Sneed, pro-ceeded south on College to the President's home where it turned right to Boston Ave. From there it ran north on Boston, cut the circle in half, crossed in front of West Hall and ended at Sneed.

WINTER COMES TO LUBBOCK — Dropping temperatures and slippery sidewalks greeted Techsans Monday as they made their way to classes. The cold wave made its appearance Sunday and the weather man has promised more of the same the next few days. The campus scene above was a typical example of the kind of weather the area was having. Raider Roundup

AMA

The American Marketing Assn. will meet at 7 p.m. today in the Workroom of Tech Union. After the business meeting the Alpine Trio will entertain.

AIA

The student chapter of the American Institute of Architects will meet at 7:30 p.m. today in the Architectural Auditorium for slides and a lecture. Bob Burr, who is in charge of city planning in Lubbock will speak on "What is City Planning and Is It Worthwhile?"

AMERICAN CHEMICAL SOCIETY

The American Chemical Society will meet at 7:30 p.m. in the Tower Room of the Chemistry Bldg. The spring plant trip will be discussed and Dr. R. A. Dudek, head of the industrial engineering department, will speak on computers and programming.

TECH SKI CLUB

The Tech Ski Club will meet at 7 p.m. today in the Union Ballroom lounge. Films will be shown at the meeting.

SIGMA DELTA PI and CAPA y ESPADA

There will be a joint meeting of Sigma Delta Pi and Capa y Espada at 7:15 p.m. today in the Tech Union Ballroom. There will be a short play, "Paso de las Acaetunas," and a pinata will be broken.

COSMOPOLITAN CLUB

The Cosmopolitan Club will meet at 7:30 p.m. Wednesday in the downstairs lounge of the Tech Union.

AMATEUR RADIO CLUB

The Tech Amateur Radio Club will meet at 7 p.m. Wednesday in Bldg. X-6.

CHEMICAL ENGINEERING WIVES

The Association of Chemical Engineering Wives will host a Christmas supper and party for members and families at 6 p.m. today in the Candyland Party House.

AIEE-IRE

The American Institute of Electrical Engineers and the Institute of Radio Engineers will meet at 7:30 p.m. today in Rm. 211 of the West Engineering Bldg. Speaker will be Dr. R. L. Carrel of Collin Radio in Dallas and his topic will be "Frequency of Independent Antennas."

Four Win First Awards In District Wool Contest

Winners of the District I "Make-It-Yourself-With-Wool" Contest were announced at 3 p.m. Saturday after intensive judging of construction, fashion and appearance.

First place winners were Peggy Little, Dalhart, sub-deb garment; Susan Flowers, Andrews, junior; Rebecca Karrh, Hale Center, senior; and Mrs. Joyce Rook, Amarillo, adult. These four winners will participate in the state contest at Tech Jan. 6.

Six other girls in the junior division will also be eligible to enter the state contest. They are Pat Lawson, Levelland; Rena Tarham, Levelland; Marilyn Coleman, Plainview; Judy Tapley, Amherst; Paula Johnson, Abilene; and Orinea Seaster, Colorado City.

The sub-deb division included girls from 13 to 15 years of age, and the junior division consisted of 14 to 17 year olds. Women from 18 to 21 years of age were entered in the senior division and women over 21 were in the adult division.

Marcheta Wood, Tech freshman from O'Donnell, was second place winner in the senior division. Mrs. Bernard Smith of Abilene was second in the adult division.

Contestants modeled their own garments, which were required to be made of wool and were judged on quality of construction and on general appearance.

The contest was sponsored by the women's auxiliary of the National Wool Grower's Assn.; the women's auxiliary of the Texas Goat and Sheep Raisers' Assn.; and the American Wool Council.

Club Plans Trip To See And Ski

Only 53 tickets are left for the ski trip to Arapahoe Basin in Colorado between semesters. Members of the Ski Club have already sold 75 tickets to Tech students.

Students will go to Arapahoe via bus Jan. 21 and will return Jan. 24. Included in the trip's activities are ice skating, dancing, election of Snow Queen, dinner at the Air Force Academy in Colorado Springs and lessons in skiing.

Tickets cost \$57 and include payment for all expenses except food while going and returning. Those interested in purchasing a ticket should contact Norman Kinzy or Jackie Blachly, both in Carpenter Hall.

In Meeting Saturday

Tech Board Discusses Song

Texas Tech's Board of Directors has expressed more than a passing interest in the proposal to change the school song.

In their meeting Saturday, board members discussed the idea thoroughly and while they took no formal action at this meeting, it was apparent that the idea to change the song did NOT meet with any DISFAVOR on the part of any board member present.

After hearing the board discuss the song proposal, we feel that the matter now rests on the shoulders of students and Exes.

Now is the time for the students and Exes to move on this vital matter. We firmly believe that the song can be dropped and work began to obtain another—one suited for our school.

The Student Council can start the ball rolling tonight in their meeting. We are sure that the Exes will step forward and do their part.

Let's accomplish our goal. Texas Tech needs a new school song. There should be no hesitation concerning this issue.

RALPH W. CARPENTER
—Toreador Editor

Toreador Mail Call...

To the Editor:

The Toreador staff writer who signs his column "j. petty" has fully justified the poetic accuracy of his well-deserved, lower-case surname by means of his graceless, bigoted and cynically evasive response to Mr. Roger Scott's letter of Dec. 9, condemning the offensive amplified remarks which Tech's head cheerleader directed toward Joe Kerbel and Pete Pedro during the Texas Tech-West Texas State football game. In his headlong rush to whitewash the cheerleader's flagrant and deplorable public misconduct, Mr. Petty apparently felt constrained to beef up his lame apologetics with virtually every corrupt rhetorical device ever employed by shallow and contemptible minds to obstruct reason and obscure objective facts.

For example, Mr. Petty initiated his hostile counter-attack to Mr. Scott's polite, amply-warranted letter by deploring the fact that "society has forgotten how to laugh with people — it thinks it can only laugh at them." This is a typical petty evasion. What, one might conceivably ask, has society's ability or inability to laugh to do with one of our most prominent student spokesmen terming Pete Pedro, a Puerto Rican-born Negro, a "little monkey" before a crowd of several thousand people? Following Mr. Petty's distorted reasoning one assumes that the proper response to the abusive insult would have been for the crowd to have erupted into wild, massive hilarity.

Mr. Petty perhaps best illustrated his adept ability to twist reason in support of his own rabid prejudices in his frontal assault on the recent national trend away from the type of humor based on grossly exaggerated and offensive racial stereotypes. Mr. Petty attacked the animus underlying this trend by (1) linking the fundamental concept with the NAACP, and thus, in effect, smearing the idea as a "radical" objective; and (2) ridiculing the concept by positing the absurd thesis that someday a "pressure" group may be formed among the ranks of the overweight to combat use of the term "fat". (Mr. Petty obviously doesn't believe that the average fat person finds it degrading in the extreme to be the constant butt of ridicule and humiliation fostered by legions of stale, tasteless jokes. All just a bunch of jolly, bouncing clowns those fatsos. Ho ho, indeed). At this point, having carefully covered his flanks by disclaiming any personal racist views, Mr. Petty crowned his carefully-wrought edifice of illogic and innuendo with an emotionally-charged accusation that the whole "root of this mess stems from the 1954 Supreme Court ruling concerning segregation"—leaving us to infer, one gathers, that because of the Supreme Court decision against racial discrimination, we can no

longer lawfully tell or listen to jokes "about the Jewish merchant, the Irish cop, the Negro preacher."

Having successfully advanced his counterfeit reasoning thus far, Mr. Petty then turned his considerable talents for demagogic manipulation of logic to a personal attack on Mr. Scott ("himself the bigot"), one of those "little people in the student section" who were inordinately offended by the cheerleader's "colorful comment" about Pedro. The cheerleader, after all, was entirely innocent and blameless. Mr. Petty concluded triumphantly: the strong implication left that the real troublemaker of the day was Roger Scott, who had the temerity and unpardonable gall to speak out against what he felt to be a public abasement of the precepts of tolerance and common human decency. One is hardly surprised at this point to return to the opening section of Mr. Petty's vicious little diatribe and discover, at last, the real enemy which stalks the logic-bereft, grammatically-impoverished paragraphs of his essay — the ogre who assumes various disguises (the NAACP, Scott, et al), but who is always present when a dissenting voice is lifted in protest.

"The rising tide of individual freedom in America," Mr. Petty states baldly, "has all but destroyed the good old-time humor that we all used to laugh at." The defenseless objects of this humor, Mr. Petty might well have had the courage and honesty to add, were "kikes" and "niggers," among numerous other "inferior" ethnic and religious minorities traditionally slandered by our "good, old-time" national humor. And why can't we good Americans laugh at those funny "little people" anymore, or, for that matter, soothe our injured egos by hurling vicious barbs at some cheeky "little monkey" like Pedro who has the calculated effrontery to play rings around our entire stalwart, straight-thinking, 100% Caucasian football team? Why, because of the damnable "rising tide of individual freedom in America," of course; it's a well-known fact that if you give these rabble an inch, they'll take a mile: And if you allow them a vote and a voice, there's no telling where things will end; look what happened to sweet old Amos and Andy, who used to malign and degrade the entire Negro race every night of the week just as regular as death and poll taxes.

I, for one, am appalled by Mr. Petty's shameful and morally-bankrupt vindication of publicly-enacted intolerance and bigotry. At the very least, I feel that the columnist owes Mr. Scott, not to mention Pete Pedro, Joe Kerbel, and the entire contingent of Negro students at Tech, a sincere and abject apology.

Thank you,
Grover Lewis

Carlyle Smith

News and Views

If the committee report, that is to be submitted to the Student Council tonight, is passed, I anticipate the balloting of the student body in the near future on two particular questions:

1. Whether or not the present school song should be changed.

2. What name would the students prefer were the name of the College to be changed—along with, of course, whether or not the students would prefer any change at all.

On the first question, a student desire to change the school song, in any manner whatsoever, would result in a team composed of student, faculty, administrative, Music Dept., and Athletic Dept. representatives reviewing the suggestions and possibilities, forming conclusions in the shape of a new musical expression to symbolize the school, and presenting this arrangement to the student body for final approval. This is taking for granted that the desire would be expressed strongly enough as to leave no question to the direction the Council should follow.

On the second question, several paths may be taken as a result of heavy or lop-sided balloting; the obvious by-product would be definition of the Council and student position on the question which has been around almost as long as I have (quite a few semesters). Were any particular name favored, this would put us at a level with the ex-students and faculty in that we would have a suggestion to offer and support. If the students desired not to change the name, the Council again would be defined in position on the question.

Let me emphasize that the anticipation of ANY action of the Council resulting from such a proposed balloting of the student body, presupposes at the least a heavy majority vote (in excess of 5001 students). In my recent years at Tech, I have never seen a turnout of this magnitude, but then my observation has been confined to elections in what is loosely called "campus politics". Student apathy in this field has never bothered me too much since I hold that this is primarily an academic institution, and interest in student government is not necessarily a criteria for good college students.

However, interest in questions which very definitely affect your school should certainly become, if not already established, a trait in the character of any college student.

Charles Aycock will serve as the head of the Athletic Recruiting Committee this year. As you will remember, this is the body of student representatives which direct the actions of the campus in welcoming visiting high school athletes to the Tech campus. Last year, with Wayne Underwood as co-ordinator from the Council, the program proved more than satisfactory. This year plans for expansion and new ideas will be employed to develop and improve one of the top methods in the conference for drawing outstanding athletes to a campus.

Special consideration should go to Amon Burton, Sissy Fuller, and Richard Sharpe, who are serving more or less, as pioneers on the Council Academic Recruiting program. These students have already taken their personal time to travel to high schools in order to present Tech and our way of education to prospective secondary graduates. Much of this experience gained by these people this semester, will be transferred to a larger body of students as the committee is expanded for the spring session.

FROM SEA TO SHINING SEA

America is a great country: America's cities are full of houses. America's forests are full of trees. America's rivers are full of water. But it is not houses and trees and water that make America great; it is curiosity—the constant quest to find answers—the endless, restless "Why?" "Why?" "Why?"

Therefore, when I was told that Marlboro was a top seller at colleges from USC to Yale, I was not content merely to accept this gratifying fact, I had to find out why.

I lied myself to campuses in every sector of this mighty land. First, I went to the Ivy League—dressed, of course, in an appropriate costume: a skull-and-bones in one hand, a triangle in the other, a mask-and-wig on my head, a hasty padding in my chaps. "Sir," I cried, seizing an Ivy Leaguer by the lapels, which is no mean task considering the narrowness of Ivy League lapels, but, I, fortunately, happen to have little tiny hands; in fact, I spent the last war working in a small arms plant where, I am proud to say, I was awarded a Navy "E" for excellence and won many friends—"Sir," I cried, seizing an Ivy Leaguer by the lapels, "how come Marlboro is your favorite filter cigarette?"

"How come Marlboro is your favorite filter cigarette?"

"I'm glad you asked that question, Shorty," he replied. "Marlboro is my favorite filter cigarette because it is the filter cigarette with the unfiltered taste."

"Oh, thank you, sir!" I cried and ran posthaste to several campuses in the Big Ten, wearing, of course, the appropriate costume: a plaid Mackinaw, birling boots, a Kodiak bear and frost-bitten ears.

Spying an apple-cheeked young coed, I tugged my forelock and said, "Excuse me, miss, but how come Marlboro is your favorite filter cigarette?"

"I'm glad you asked that question, Shorty," she replied. "Marlboro is my favorite filter cigarette because the flavor is flavorful, the flip-top box flips and the soft-pack is soft."

"Oh, thank you, apple-cheeked young coed," I cried and bobbed a curtsy and sped as fast as my little fat legs would carry me to several campuses in the Southwest, wearing, of course, the appropriate costume: chaps, canteen, and several oil leases. Spying a group of undergraduates singing "Strawberry Roan," I removed my hat and said, "Excuse me, friends, but why is Marlboro your favorite filter cigarette?"

"We are glad you asked that question, Shorty," they replied. "Marlboro is our favorite filter cigarette because we, native sons and daughters of the wide open spaces, want a cigarette that is frank and forthright and honest. We want, in short, Marlboro."

"Oh, thank you, all," I cried and, donning a muu muu, I set sail for Hawaii, because in Hawaii, as in every state where Old Glory flies, Marlboro is the leading seller in flip-top box. On campus, of course, in all fifty states, wherever people smoke for pleasure in this great land of ours, you will find Marlboro.

© 1961 Max Shulman

And you will also find another winner from the makers of Marlboro—the king-size, unfiltered Philip Morris Commander, made by a new process to bring you new mildness. Have a Commander. Welcome aboard.

Loyola Invades Raiderland Saturday

NEW ORLEANS — Loyola's eager Wolfpack will seek revenge for a four-point loss last year when it plays Texas Tech Saturday in Lubbock with four sophomores in the starting lineup.

Gene Turni, 6-6½ forward from Herrin, Ill., recently won the distinction of being the first second-year man in the school's history to

capture the basketball team. Other sophs joining him in the starting unit will be forward Ken Ryan (6-5½) of Hasbrouck Heights, N.J., center Bob Luegers (6-7) of Jasper, Ind. and Ed Kennedy (6-0½), a guard from Rumson, N.J.

Darryl Tschirm (6-1), senior guard from New Orleans who av-

eraged 13.7 points per game last year, will team with Kennedy at guard.

Coach Bill Gardiner, who will work with only a ten-man varsity squad, will have senior Bob Weber (5-11) of New Orleans and soph Larry Hoyt (5-11) of Little Rock as his No. 2 pair of guards.

"The boys have looked good in drills," says Gardiner. "If we can keep everyone healthy we should have a good year. We certainly have a tough enough schedule that the boys should improve."

Luegers had a 21.1 scoring average on last season's frosh team which fashioned a 19-1 record. Turni was next with a 15.0 mark.

WTS Kappa Alpha Wins Tech Tourney

West Texas State's Kappa Alpha chapter defeated the Sigma Chi chapter representing Texas Christian University, 60-49, Saturday to take top honors in Texas Tech's first annual Invitational Fraternity Basketball Tournament.

The victors also dominated the all-tournament squad, placing two on the mythical team.

Sigma Alpha Epsilon (Tech), Sigma Chi (TCU) and Phi Delta Theta (TCU) joined Kappa Alpha's two players in making up the all-tournament selections.

Picked were Don Williams, Sigma Chi; Don Rucker, Sigma Alpha Epsilon; Mark Clifford, Phi Delta Theta; and Doug Corley and Larry Dunaway, Kappa Alpha.

Runners-up for the team were Bevo Francis, Kappa Sigma (Tech); Mark Woolard, Kappa Alpha (ETSC); Nick Encke, Sigma Chi (TCU); Jerry Logan; Kappa Alpha (WTS); and Scott Magers, Sigma Chi (TCU).

Mary Thompson, a member of Kappa Alpha Theta sorority at Tech, was named Tournament Queen and reigned over the dance following the tourney.

Chi Omega sorority was the winner of the attendance trophy.

Dunaway singled the nets for 29 points to lead WT Kappa Alpha to their championship, but gave up scoring honors to Williams. Williams hit 31 to keep Sigma Chi in the game. Logan scored above 20 points for his third time Saturday in this game, as he backed Dunaway with 21. Craig Mason was second leading scorer for Sigma Chi with 6.

Kappa Alpha (WTS) defeated Tech's Phi Delta Theta (50-41) in its quarter-final game. Logan led Kappa Alpha with 25, and Corley had 12. For the losing Phi Deltas, Bill Boyd made 11.

In another quarter-final battle, Tech's Kappa Sigma chapter ran roughshod over fellow fraternity Sigma Nu, as Francis made 17 to head a 59-19 victory. Ronny Gibson helped with 14. Sigma Nu was led by Jimmy Wayne and Jim Bertrand, who scored 6 and 5 points respectively.

Williams scored 18 to lead Sigma Chi (TCU) past Sigma Alpha Epsilon (Tech), 49-39. Rucker contributed 22 to the SAE attack in a game that saw the Sigma Chi group advance to semi-final action.

In the fourth quarter-final game, TCU's Phi Delta Theta chapter beat Kappa Alpha from East Texas State, 45-42. Max Perkins' 15 points led the Phi Deltas, and Woolard's 24 points was high for Kappa Alpha.

Kappa Alpha and Sigma Chi advanced to the finals by virtue of wins over Kappa Sigma of Tech and Phi Delta Theta of TCU, respectively. Logan again was high for KA as they set back the Kappa Sigs, 66-45. Corley was the second leading scorer on the court, aiding the Kappa Alpha team with 18. Francis had 14 and Jerry Moore 9 in the losing effort.

In Sigma Chi's 53-44 decision over Phi Delta Theta, George Bradford led the winners with 15. Mason of Sigma Chi and Clifford of the Phi Deltas shared runner-up scoring laurels with 12 points each.

REWARDING

The future at Dowell can be rewarding in many ways. Because the earth still holds mystery in the production of oil—the ideas of every Dowell man must be considered. Dowell offers a man the opportunity to see the limits of his assignment. His skills and his desire to progress are given an open road. And, Dowell is eager to recognize and reward his growth.

Dowell's industry leadership is based on the best in well stimulation services. Providing the best requires top-flight personnel. Dowell seeks these people constantly, and the range of talents needed is wide. Petroleum engineers, mechanical engineers, chemists, accountants, management personnel and sales representatives, all are needed by Dowell to provide its services to the oil and gas industry.

The petroleum industry is aggressive, and so is Dowell. As the industry reaches out to new frontiers, Dowell must constantly expand its operations. Today, Dowell services are offered in the United States, Canada, South America, Europe, North Africa and the Middle East. For a Dowell man, the open road may lead in many directions.

The challenge Dowell offers can be most rewarding. For full information, write Employment Manager, Dowell, 1579 East 21, Tulsa 14, Oklahoma. Or, contact your school Placement Officer.

Fullmer Bout Interests Dones

LONDON (AP)—Britain's Terry Dones said Monday that he is interested in the idea of defending his share of the world middle-weight title against Gene Fullmer instead of against Paul Pender.

Such a fight would settle the undisputed world title. Fullmer is recognized as world champion by the American National Boxing Association and Dones is recognized in Europe, New York and Massachusetts.

Fullmer has offered Pender \$15,000 for first crack at Dones.

The suggestion was indignantly turned down by Pender, who lost his share of the title to Dones in London last July and is entitled by contract to a return fight in the United States.

Club Plans Annual Smoked Ham Sale

The Block and Bridle's sixth annual Blue Ribbon Ham Sale will get underway at 12:30 p.m. Saturday in the Livestock Pavilion.

Auctioning will begin at 4 p.m. following the Little International competition. However, early bids on hams will be accepted in Tech's animal husbandry department, Ext. 250, by Cyril May, chairman of the ham sale.

Members of the Block and Bridle Club have sent letters to former buyers of hams and to all persons interested in promoting the Block and Bridle Club.

A grand champion and a reserve champion ham will be selected for auctioning. Last year's grand champion was sold to Lewter Grain Co. for \$105. Reserve champion was sold to Roy Furr of Furr Foods, Inc.

Average price of the hams sold last year was \$15-\$20.

Kenneth Bozeman will be auctioneer for this year's sale.

The hams sold at the auction will average 15 pounds. All hams are cured and smoked by the Block and Bridle Club.

Proceeds from the ham sale will be used by the Block and Bridle Club in sponsoring FFA and 4-H judging contests this spring. Several thousand high school students will participate in the contests.

Proceeds will also be used to publish a yearbook which will be sent to over 2,000 persons interested in Tech's agriculture program.

Remaining profits will be awarded in the form of a scholarship to an outstanding club member and will be used for general Block and Bridle Club activities.

Preceding the ham sale will be the Little International competition at 12:30 p.m. and the Milk Maid contest at 3 p.m.

Showing animals in the 14th Annual Little International will be 42 contestants who have had one month to train and groom their animals. Ribbons will be awarded in each division of the competition and a grand champion showman trophy will be presented.

Milk Maid competition will include a girl's ability to get as much milk as possible from a cow in a three-minute limit. Girls are sponsored by various women's organizations on campus. Contestants may be entered in this competition as late as Saturday noon.

Admission to both Little International and the Block and Bridle Blue Ribbon Ham Sale is free.

Tech Students Read Poetry

Approximately ten students from the speech department will read seasonal prose and poetry for the Christmas program sponsored by the Tech Union at 7 p.m. Thursday in the workroom.

Linda Eberly, assistant chairman of the Ideas and Issues committee, said that those attending may hear any of the following Christmas writings: Charles Laughton's "Christmas Book," a reading of Christ's birth in Matthew, "A Child's Christmas in Wales," "The Littlest Angel" or "The Night Before Christmas."

SLICING IT UP

... is Richard Sharpe as he helps get prepared for the sixth annual Blue Ribbon Ham Sale sponsored by Block and Bridle this Saturday in the Livestock Pavilion. Sharpe, senior agriculture major from Weatherford, is president of the Block and Bridle Club.

Union's Raider Rambles Picks Eight Acts For Talent Show

Eight acts have been selected for the Union's Raider Rambles to be at 7:30 p.m. Friday in the Ballroom.

Top act in the all-college talent show with a "Curtain Call" theme will receive an audition for one of ten acts in A&M's Intercollegiate Talent Show this spring.

Clyde Bateman, last year's Rambles winner, performed at A&M before an estimated 6,000 people, according to Pat Holt, Rambles' publicity representative.

The representative said that the variety of acts selected for Tech's show should have something for everyone. She emphasized that admission is free.

Acts selected for the show are the following:

Solos by Sharon Vinyard, Sherry Burgamy, Linda Hart and James Bowling.

Douglas Purnmill, Paul Benningfield, V. J. Lowrance and Harold Reeves in a quartet number.

A trio of Bob Black, Ron Logan and Ken Ballard.

Modern Dance by Sara Gordon and Jan Payne and a quintet composed of Nancy Telfair, Carol McCormack, Johnnie Raborn, Carol Henderson and Pam Morgan.

Judges for Friday's show are James Pinson, Mrs. John Woolford, Mrs. Marjorie Magness and George Robinson. David Lindeman will be master of ceremonies.

Form Distribution Begins Wednesday

Distribution of A&H Forms for the spring semester will begin Wednesday in the west foyer of the first floor of the Ad. Bldg. Forms will be available throughout registration.

The distribution of the forms will be for those students enrolled in Tech this semester. Other students planning to enter Tech in the spring must make application for admission or re-admission in the registrar's office.

Students residing off campus must have their housing permit approved by the Dean of Women or the Dean of Men.

Spring registration will be based on the same half-day period as fall registration.

RIFLE CHAMPIONS — Harry Marsh, captain of Tech's Army ROTC Rifle team, and Capt. Joseph D. Macklin, sponsor of the team, present Col. William M. Brown, head of Tech's Army ROTC department, with the first place trophy which the team recently won in the Western Conference rifle match against four other schools in Texas and New Mexico.

Tech Talks 193 Hours

"Yakity yak" might be appropriate for Tech's school song.

Midnight Monday marked 193 hours of continuous talking as Tech attempts to set a new record in a talkathon.

Gaston and West Halls have talked for 193 hours and 45 minutes. Thompson and Knapp Halls, which began 45 minutes later, have talked exactly 193 hours.

"There have been a lot of studying and a lot of dates made," Peggy Berendzen, president of Knapp, said. "Anyone that comes along can talk. So far there have been no problems," she continued, when asked if any difficulties had arisen over who talked.

A schedule is posted in West. "Girls sign up and are limited as to the number of hours per week that they can talk," Karan Fickert, West president, said.

In West the receiver is taped so that it is impossible to hang up. In Thompson, the phone has wires and chains attached to it. The boys in Gaston, however, are free to hang up at any time. When asked what would happen if anyone hung up, Don Loafman, president of Gaston, said simply, "We'd cut his throat."

what happens if we run out of gas?

Must tomorrow's travelers resort to howdahs and camel litters in order to get about? Not so, say our Ford Motor Company scientists.

First—aside from the unlikely depletion of our natural sources of gasoline—the prospects for higher-efficiency internal combustion engines are excellent.

Second, while gasoline still appears the best conceivable automotive fuel, our scientists are studying the outlook for new energy sources for cars.

Among intriguing possibilities: new energy conversion systems using degraded fuels, or fuels synthesized from low-cost power produced by nuclear fusion, Magneto-hydrodynamic generators and solid-state thermoelectric and electrochemical converters offer other possibilities.

This is all part of a broad quest for fundamental knowledge, earning Ford its place of leadership through scientific research and engineering.
