

Room For Improvement . . .

IS THERE any reason why one hospital should have a two-year monopoly upon Tech students' hospitalization?

What would happen to student health should an epidemic strike—and all medical fee cards were held by one hospital?

At no time in Tech's history have students been given a chance to choose their hospital upon a basis of convenience, service and efficient disposition of their individual cases.

A few weeks ago residents of the mens' dormitories suffered injury through causes arising out of the handling of foods.

Four thousand students are entitled to the best to be had in medical service. The college officials have, to date, worked out what is recognized as the best "inclusive" service of any college in the United States.

It might pay off in health dividends to sacrifice bookkeeping and clerical convenience to put more emphasis on the quality and thoroughness of the medical service called for in the contract.

A Situation Is Born . . .

DURING the year much criticism has been directed toward unsanitary and slipshod methods which characterize college lounges and classrooms.

With students' attitude toward school property it is small wonder that better equipment is not available in college buildings.

Freshly painted walls are an invitation to master up choice bits of poetry, lucky phone numbers, signature specimens and tirades against the professor-in-low-standing.

Here, then, are reasons why the college shows little interest making equipment and surroundings in keeping with the luxury of the buildings—why cleanliness must sometimes be sacrificed to the advancement of collegiate vandalism.

Before any concerted effort can be made to improve classroom conditions, admittedly bad, students must make the first move demonstrating a desire for better surroundings.

Politicians Please Note . . .

If you think that Texas Tech hasn't some growing to do to keep up with Lubbock, just take a glance at recent building statistics for the State of Texas.

When the legislature passed the bill permitting a state educational institution in West Texas, and when Lubbock gave the most attractive offer of 2,000 acres of fertile land for building site of the institution, Lubbock was only a small undeveloped country town of about 10,000 population.

Texas Tech has done much toward building Lubbock, and now that the city is a fair metropolis of 30,000 with a new 8-story office building recently approved, it is time for Lubbock to think of building Texas Tech.

We are conscious of the fact that legislative representation in our state law-making body is limited and our influence as virtual desert inhabitants may not ride so heavy in the capital city, but we can make undaunted attempts for reappointment of representatives, which would indirectly have bearing upon bringing the desired effect about.

Associated Collegiate Press

Talks Over Preparedness . . .

DESPITE the fact that most of the war talk on the nation's campuses is peace talk, there nevertheless is a growing tendency among collegians and their campus superiors to discuss what they believe to be the bad effects of peace movements that make collegians more concerned with safety first than with the fate of their nation.

First to focus attention on this particular interpretation of the undergraduate peace movements was President-emeritus William Allen Neilson, of Smith College, who said: "For the moment, the attitude of our academic youth seems to be so largely self-centered that one doubts whether the form in which pacifism was brought to them during these years was the best for their spiritual health."

The college press early challenged this view, with the University of Iowa Daily Iowan taking the lead with an editorial which said in part: "He asks us to bring justice and liberty to a world that apparently is not greatly concerned about justice and liberty."

Siding in with the Daily Iowan's point of view was the Columbia University Spectator, which maintained that "times have changed and the youth of today realizes that any war he fights will be to protect the interests of the old men running the country—men who have hereditary economic and social interests in other lands than the United States."

Here is a quick summary of the other indications that point to the fact that today's college youth is not unanimous in agreeing with the peace-at-any-price talk.

The Johnson City (Tenn.) State Teachers College Chalk Line says: "Our colleges need to wake up. They need to depart from so much of the present 'theory' teaching and 'idealism', and teach a few fundamental requisites of good, honest citizenship."

Seconding his view, the Eastern Illinois State Normal College News said: "No one can criticize opposition to war in general, but when it comes to such yellow-livered pacifism as this implies we are not surprised that adults wonder whether we are frightened or just ignorant."

number of inhabitants of a section or districts of the state.

But what can we do about it? If we stand with folded hands, everything will ride indefinitely just as it has for the last several years.

Dream Of A True American: Listening to Franco's widow telling Mussolini, who is on his death bed, that Stalin, who shot Hitler a few weeks before, has just been hung by his own rebellious countrymen.

Collegians

Barrymore Over Broadway

NEW YORK CITY, Feb. 7.—It was a wonderful sight indeed, Jack, the Giant Killer sporting his seven league boots primed for slaughter prancing around the stage of the hallowed Belasco the other night after 17 long years.

Then he said, "I say, old fellow, you've had a hard winter." The little girl sitting beside us murmured, "Isn't he wonderful? Isn't he really?"

We were sitting, a few hours later, in one of the cozier oases when the great one stalked in, entourage and all.

"There he is," the little girl still sitting beside us shrieked. For a verity it was he. And his proud offspring, Diana, doing her best to keep him under wraps.

Think Foreign Languages Dead? Tech Forced To Expand Department Eight Times

By DORIS PEAVY

"Oui, oui, monsieur." "Buena, senorita." "Veni, vidi, vici," and "Gut morgen"; phrases such as these can be heard coming from almost every building on the Texas Tech campus.

At this time the department was divided into two divisions; the first included German and French and was under the supervision of Dr. Luther Pfleger, who left here in 1927, two years after the opening of the school.

German and Spanish classes were growing so rapidly that it was necessary to employ another instructor, Mr. Carl Henninger, who joined the staff in 1926.

Latin was added to the course of study in 1927. The first instructors being Dr. James Marcus Gordon, now Dean of the Arts and Sciences, Miss Eugenia Marshall and Dr. Eunice Joiner Gates.

Interest in the foreign languages has been kept high among the students by the extra-curricular activities offered. These are, the German, French, Spanish and Latin clubs, which are open not only to the students of these languages, but to anyone wishing membership.

Through the efforts of the professors it is now possible for any student to acquire a Bachelor of Arts degree, majoring in Latin, French or Spanish, any may serve as minors in work on a Master of Arts degree.

Today, the enrollment of that division exceeds all other languages.

Latin was added to the course of study in 1927. The first instructors being Dr. James Marcus Gordon, now Dean of the Arts and Sciences, Miss Eugenia Marshall and Dr. Eunice Joiner Gates.

Mrs. Georgia Wilson Dingus was employed the following year to complete the staff.

Editor, THE TOREADOR

Assuredly something might be done to make students better satisfied with their medical fee service. Maybe if students were allowed to choose their own doctors and hospitals they would be in a position to demand the attention they pay for or the hospital would find itself without college patronage.

I would like to see some kind of expression from the college officials and student leaders on the question. As I see it, it would be a fine thing for everybody—students, hospitals and the college

DOUBLE T

Mr. Pender Takes The Floor

TRENDS AND TOPICS

By JOE PIERCE
Toreador Sports Editor

Subject of the discussion was Tech's recreation program. Prof. H. C. Pender, member of the athletic council, was doing most of the discussion and your reporter was doing a whole lot of listening.

It all came up when somebody mentioned North Texas Teachers. It seems that North Texas Teachers has quite an athletic program. Swimming pools, Tennis courts, Golf course. All of that.

Somebody wanted to know why Tech couldn't have things like that—enough tennis courts for all students who liked to play, swimming pool, golf course available for students, and so forth.

Mr. Pender, you have the floor:

"North Texas State has a fine athletic plant, but it was not built in a day. They have tennis courts galore, a swimming pool available for students and townspeople, miniature golf courses, a fine football field, a gym that is not a hay loft.

"All of this is self-supporting. Football pays for the football field—and they have enough football fields to take care of intramural football, too. The concrete tennis courts are lighted; several nights each week they are turned into skating rinks. Rental fees for skaters and tennis players pay for the courts. Miniature golf pays for itself.

"Not only do all these activities pay for themselves but they provide employment for several students.

"Tech could have the same thing here. Not so long ago, it was proposed that Tech build a golf course for students on the west side of the campus. NYA agreed to furnish the labor, and the Lubbock county commissioners court offered free use of road machinery. But something came up, there was nobody to push the project and it fell through.

"The same can be said for every one of the other activities mentioned above. Nominal fees would pay for a swimming pool in a very few years; Tech's three concrete tennis courts are being paid for by student fees, and all the courts that are needed could be paid for the same way.

"The average nightly crowd at North Texas State's recreation center last summer was two thousand. In a much larger town, with a larger student body, Tech could put over such a program in grand style, if only there were some one with the initiative to back it.

"This doesn't mean that all this can be accomplished overnight. The thing to do is establish a long-range plan for building a recreation center; then when the money is available, construct part of it, not as a separate unit but as an integral part of an ultimate goal. In that way, Tech could some day have the nation's finest all-round athletic program."

Nice going, Professor. And thanks.

As Mr. Pender pointed out, the chief obstacle is lack of someone to lead the way. Nobody now in the physical education department is available for or has time for this work.

Some time ago the athletic council recommended the addition of a physical education instructor. Whether this recommendation will be followed is problematical.

It is suggested that, when and if the college authorities decide to follow the recommendation of the athletic council in this particular, a man be chosen who could take charge of the work as outlined by Mr. Pender.

All we need is a start. Once started, such a movement can have no end.

Scoring Leaders Listed; Brown, Roper Pace Pack

Tricky Marshall Brown still leads Tech cagers in scoring after the Hardin-Simmons series, just eight points ahead of Bauman Roper. Latest tabulations give Brown 192 points to 184 for Roper.

T. L. Gilley is next in line with 109 points.

Curly Risinger has been caught fouling most, 53 times in all. Gilley leads in free throws made with 35 out of 41 chances.

Roper has sunk one more field goal than Brown, 80 to 79, but Brown has 34 one-pointers to 24 for Roper.

As a team, Tech has sunk 287 field goals and 153 free shots for 727 points. Ninety-nine free throws have been missed.

| Player | FG | FT | FTM | FOULS | PTS |
|-----------|----|----|-----|-------|-----|
| Brown | 79 | 34 | 16 | 28 | 192 |
| Roper | 80 | 24 | 28 | 44 | 184 |
| Gilley | 37 | 35 | 6 | 28 | 109 |
| Percival | 28 | 16 | 6 | 38 | 72 |
| White | 24 | 12 | 15 | 15 | 60 |

Pirtle Announces Speech Program

Miss Ruth Pirtle, head of speech department, announced that the department was making a program to be presented March 8, at a meeting of the West Texas Teachers association in Plainview.

"The Happy Journey," a play by Thornton Wilder, is to be acted by Nettie Belle Batton, John Hill, Doris Kirk, Kathleen Webb, Maitland Beseda and Sterling Lynch.

Clay Thompson and Betty Grimes will be the characters in "Rolls and Salt," a play by Edna St. Vincent Millay.

Miss Pirtle said musical numbers and Spanish dances by John Hill and Mrs. Huffman were being planned.

The Bradley College library has a collection of 1940 books and 6,266 pamphlets dealing with industrial education.

Doak Will Attend AAUW Meeting

Dean Mary W. Doak will attend a state board meeting of the American Association of University Women Feb. 10 in Temple. The dean is parliamentarian of the organization.

Included in the board's discussions will be plans for the Texas breakfast to be held at the sectional convention in Topeka, Kan., April 25-27, exhibits for the Topeka meeting and neighborhood conferences for Texas in 1941. The board members will be guests of the Belton branch of the AAUW at a luncheon.

Massachusetts State College has the only two-year hotel stewarding course in the country.

It costs \$56.50 to outfit a football player with first class equipment.

Raiders Try For Nos. 7 And 8 Against Lobos This Week; Peace Rules As Cowboys Beaten

Brown, Roper Lead Scoring In Wins

Texas Tech's Red Raiders will try for consecutive victories number 7 and 8 this weekend at Albuquerque, engaging the New Mexico Lobos in a Friday-Saturday series.

Tech resumed athletic relations with Hardin-Simmons university in grand style Friday and Saturday, winning one game here and one in Abilene. The scores were 44-25 and 41-22.

Good feeling on both sides was evident in large quantities. Something like two thousand students and fans turned out to see the Friday game in the Tech gym, and all the boogie was reserved for referee Jack Sisco. After the game, Coach Frank Kimbrough of the Cowboys telegraphed the Hardin-Simmons student body, remarking on the attitude of the Tech student body and asking that the Tech team be shown good old western hospitality on the return game.

And that hospitality was there. The team was treated, so they say, "like kings." The Hardin-Simmons "cowgirls" paraded in the gym before the game carrying a huge "welcome Tech" banner.

But to get back to the games: In neither of them was there any doubt about the best team. The Cowboys were a hustling bunch of tall boys but they hadn't the finesse and experience of the Tech-sans.

Marshall Brown and Bauman Roper took turn about leading the scorers, Brown scoring 14 the first night and Roper 17 the second. Coach Berl Huffman substituted freely for Tech, keeping everybody fresh all the time.

Huffman presented a revised starting lineup for the second game, with big Jake Geron going to center, Roper moving to Percival's spot at forward and J. B. White subbing for Curly Risinger at guard.

Track Men Start Work

Not that you could tell it from the weather, but spring is in the air. Why?

Texas Tech track men are working every day in preparation for the forthcoming cinder-path season which opens March 8 when they are entered in the Border Olympics at Laredo.

Coach Berl Huffman sent out a call for additional candidates for the track squad yesterday. Prospects are requested to report to his office in the gymnasium.

Already working out every day are James Foster, J. R. Caldwell, Penrod Pearson, Barkley Meadows, Milton Hill, E. J. McKnight, Bob Duncan, Eugene Carl and others.

In addition to the Laredo meet, Tech has dual meets scheduled with Abilene Christian and Howard Payne. They will enter the Fort Worth Fat Stock races March 15-16, and are tentatively entered in the Texas Relays at Austin April 6 and the Southwestern Relays at El Paso April 13-14.

Organization Meeting For Golf Club Slated Tonight

All students interested in golf are requested to attend an organization meeting of the Golf club in room 210, administration building tonight.

J. W. Jackson, golf coach, and J. D. Webster, veteran Tech golfer, are leading the organization movement.

Bird Dogs Battle Camp Marion Tonight

"Doc" Spears' intramural basketball leagues swing back into action after a two-weeks' between-semesters layoff, with an Independent loop tussle slated for Tech gym at 10 o'clock tonight and a social club clash tomorrow.

The Bird Dogs, currently, paired with the Scotts for Independent supremacy, square off with Camp Marion tonight, and tomorrow Kemas meets the Bull Necks.

Although they are knotted for

the Social league lead in an actual account of games won and lost, the Bull Necks are ineligible to win the pennant. Victories over any quintet will not affect that club's standings in the official league, Spears explained.

Scotts Continue Pace
Two weeks of inactivity didn't cool the red-hot Scotts, who Sunday smothered a bewildered Torch

Finals:

Golden Gloves Finish Set Tonight; Mitchell, Nachlinger Lead Tech

Finals in the district Golden Gloves basketball tournament are scheduled for the Merchants building at the fairgrounds tonight. The program starts at 8 o'clock.

Two nights of fighting have already been reeled off.

Outstanding contenders from Tech entered in the tourney were Pete Nachlinger and Rhea Mitchell. Results of preliminary bouts were unavailable as this was written.

Winners in eight weight divisions will be determined tonight.
