

## Raiders Open SWC Play

### Girl Student Hit By Car

A Tech coed is in Methodist Hospital suffering from extensive cuts and bruises after being struck by a car driven by another Tech

JUDY PARRISH  
... Injured Monday

student at the back entrance of Weeks Hall Monday morning.

Judy Parrish, a sophomore transfer student from Arlington College, was hit by a 1958 Chevrolet driven by Patrick Dee Blackburn on the sidewalk on the north side of Weeks at 9:11 a.m. Blackburn had entered the sidewalk from Broadway and was backing the car toward the door of the dorm in order to unload. Miss Parrish began crossing the sidewalk before she saw the approaching vehicle. Blackburn did not see her until it was too late to stop.

Miss Parrish was taken to the emergency room on arrival at Methodist Hospital. Authorities reported that Miss Parrish is in good condition and will be kept in the hospital under observation for a few days. She is a sophomore home economics major from Irving and lives in Doak Hall.

Blackburn lives at 2410 46th, apartment B. He is a sophomore business administration major from Dallas.

### Two Techsans Die In Holiday Mishaps

Two Tech students, Thomas A. Merideth, 21 of Fort Worth, and Robert Bearden, 24 of Snyder, were car accident victims over the Christmas holidays.

Bearden, sophomore marketing major, was one of six killed in a two-car collision Dec. 22 on state highway 350, 4 miles south of Snyder. Bearden was traveling north towards Snyder with Mr. and Mrs. D. R. Haney, Snyder, who were also killed.

The Bearden-Haney car collided head on with an auto being driven by an Air Force sergeant carrying his wife and daughter. The three were also killed in the accident.

**THE OTHER** fatal accident over the "holidays" involved Thomas Merideth, junior economics major of 3516 6th Ave., Fort Worth.

Merideth was driving on Colonial Parkway in Fort Worth with a passenger, Craig McElroy, TCU student, enroute to midnight services on Christmas Eve.

**FORT WORTH** police believe the car's right rear tire blew out at a curve near the Colonial Country Club. It skidded into a tree, spun, hit another tree and stopped at a fence on the country club's golf course.

Merideth was dead before ambulances arrived.

McElroy was taken to a Fort Worth hospital and is convalescing at his home.

**BEARDEN** came to Tech in the spring of 1958. He had been a resident of Snyder all his life. He was in the Navy for four years and a member of the Naval Reserve.

Bearden is survived by his mother, Mrs. Ruby Bearden, 3376 Ave. V, Snyder, and five brothers, Olin, Ronald and Lowell, all of Snyder; Clyde of Spur and Frank of Durango, Colo.

**MERIDETH** entered Tech in the fall semester of 1958 and was a Sigma Alpha Epsilon pledge.

He is survived by his parents, Mr. and Mrs. A. F. Merideth, Fort Worth; a sister and grandparents

TOM MERIDETH

"THE THING"—TECH'S NEW CLASSROOM AND OFFICE BLDG.

NEARS COMPLETION

... the new structure is expected to be finished in the near future.

### Red Hosts Rice Owls Tonight

Texas Tech's Red Raiders play the Rice Owls tonight in the opening game of the Southwest Conference basketball race. The game is slated to get underway at 8 p.m. at Lubbock's Municipal Coliseum.

The tilt will be the last game the Raiders will play at home until Jan. 30 when they face the TCU five. The Raiders play SMU at Dallas Saturday and then journey to Waco to play the Bears Jan. 12.

The Rice crew has a 3-7 season record, and the Raiders have also posted a 3-7 mark so far this year. Tech beat the Owls in Houston in a battle for seventh place in the Southwest Conference tourney held during the Christmas holidays.

**THE OWLS** opened the season with successive losses to Trinity, Centenary and Vanderbilt before rising up to drop LSU, 71-57. The Raiders beat LSU too, 72-65. The Rice five dropped Tulane, 93-79, before losing to Missouri.

The night after Texas had been stunned by Oklahoma City University, the Owls romped to a 61-56 victory. The Rice cage men failed to win a game in the SWC tournament.

**THE RAIDERS** started the season with a victory over New Mexico, but then dropped tilts to Colorado, Kansas, Oklahoma and Iowa before beating LSU. The win was followed by a loss to Georgia Tech and two straight losses in the SWC tournament before the win over the Owls.

The Raiders will be without the services of Roger Hennig, 6-4 Tech, page 6 . . .

### Registration to Take First Steps January 11

Preliminary steps for the processing of registration packets will begin on January 11 when students will fill out the A&H forms, according to Donald L. Remmer, assistant registrar.

The A&H forms can be filled out in the East Eng. Bldg. first-floor foyer or in the Ad Bldg. first-floor foyer.

After these forms are approved, processing of the packets will begin. The registration packets will be distributed on the campus Jan. 18. There will be no packets mailed.

Dormitory residents may get their packets from their dormitory counselors. Off-campus students may pick up their packets in the first-floor foyer of the Ad Bldg.

### ON FACULTY NAMES

## Three Present Views

This is the third in a series of articles discussing the pros and cons on the possibility of including the names of teachers beside the courses they teach on the pre-semester class schedules.

Department heads Pearce, Camp and Hazelwood of the School of Arts and Sciences give their opinions as to instructors' names appearing on class schedules.

**DR. WILLIAM M. PEARCE**, history department head, gives two reasons which strengthen the position taken by Dr. Floyd D. Boze.

"First, the printing of schedules is completed months before semester registration begins," Dr. Pearce said. "Some department heads do not even know who will be on their staff at that time."

"SECOND, many departments offer multiple sections. Often, these departments do not know the exact number of sections that will finally be scheduled."

"Because we do not know the exact enrollment, some sections are dropped and others added,

causing a shifting of the staff." According to Dr. Truman Camp, English department head, it would be impractical to publish instructors' names if the students wish to finish registration quickly.

"IT WOULD slow up registration 50 per cent," Dr. Camp said.

Dr. Camp had to shift approximately 25 to 30 per cent of his instructors a few days after he turned in his tentative class schedule. This was several months before registration. Some of the shuffling was due to resignations and leaves.

**DR. EMMETT A. HAZELWOOD**, math department head, has a more difficult problem with instructors than Dr. Camp. He has a large staff of regular employees, part time employees and several teaching fellows.

The registrar's office does not wish to publish names of instructors beside course offerings unless they can be reasonably certain there will not be a change after the schedules are printed.

IT IS THE general belief of the

registrar's office that if a student signs up for a course with the belief he is getting a certain professor and later finds this is not the case, he will be much more disappointed and dissatisfied than he would be if he signed up for a course without the slightest idea of who is teaching it.

Dr. Pearce believes that "if instructors' names are published, the student will be misled."

**DR. CAMP** said, "I think it would cause more confusion in the registration lines and would cause more schedule changes."

At present Dr. Camp gives his students a mimeographed sheet showing the names of instructors who will teach advanced courses and the advanced courses they will teach.

"IF I KNEW the instructors, I certainly wouldn't mind putting their names on the schedule," Dr. Hazelwood said.

It is the policy of the math department to allow students to come to the office and look at the tentative schedule.

**UNION RATS, INC.**

**Biggest Rats Sought**

Who are the six Techsians who spend the most time, energy and money fratting, eating and playing in the Tech Union?

**THE SEARCH** is now on for the six people who can qualify for the coveted title "Union Rat of 1960." Any faculty member, student or administrator is eligible for the Union Rat contest.

Any person entering the staunch playground of the Tech Campus, heretofore known as the Union, may cast six votes for the people he feels spend the most time in the Union. Voting will end Saturday.

The six people receiving the most votes will receive an official Union Rat card entitling them to 10 free cups of coffee or 10 free Cokes. A plaque will be placed in the building with the names of these supporters of America's

greatest enterprise, recreation. **QUALITIES** to be considered when voting for a Union Rat are:

1. Does this person spend every free moment in the Union?
2. Does he sit firmly in his little chair while girls stand up lining the walls?
3. Is his or her major "Unionology" and minor "Campus Fun"?
4. Has this person met the requirements by taking Bridge Tricks .001, Coffee Clutching 6000, Table Top Designing 33 and Tray Balancing 4?
5. Finally, does this "rat" read this column avidly every week absorbing each little grain of wisdom?

If you know six qualified "rats" write their names on a piece of paper and place your vote in the ballot boxes provided in the lobby. Winners will be posted in the Union next Monday.

**Psi Chi Club All-Cotton Fashions To Install To Be Premiered**

Dr. J. R. Strange, head of the Southern Methodist University psychology dept., will deliver the principal address at the installation Wednesday of Texas Tech's Psychology Club as Psi Chi, national psychology fraternity.

Seventeen students and faculty members will be initiated into the fraternity Wednesday morning. The installation of the national group will take place Wednesday at 6 p.m. in the Tech Union ballroom.

Anyone interested may come to the installation banquet while the initiation is private. Tickets to the banquet may be purchased at the psychology administrative offices for \$1.75.

Latest fashions made entirely of cotton will be featured at Texas Tech's second fashion show slated in Lubbock Municipal Auditorium Jan. 26.

Each of the free showings, at 1:30 p.m., 4:15 p.m. and 8 p.m., will consist of six scenes presenting cotton fabrics and fashions for "A Day at Home," "A Day in the City," "Travel," "Holiday — USA," "American Invention — The Coordinated Wardrobe," and "Wedding."

**THE FASHION** show premiere of Vogue pattern styles for 1960 is aimed at demonstrating the effectiveness of all-cotton fabrics in high fashion costumes, Dr. Wil-

la Vaughn Tinsley, Tech home economics dean, said.

Fifty-two garments prepared by students of all levels in the department of clothing and textiles will be shown.

Representing the cotton producers in the area and acting as master of ceremonies will be Wilmer Smith of New Home, vice president of Plains Cotton Growers, Inc.

**MRS. BESS ROTHMAN**, a Chicago fashion coordinator, and Dr. Gene Shelden, head of the department of clothing and textiles at Tech, will narrate the show.

Phases of making, accessorizing and modeling garments will be done by the Tech coeds majoring in home economics.

The show is made possible through the cooperation of the Plains Cotton Growers, Inc., the National Cotton Council of America and Vogue Pattern Service.

**WORTHY**

Your future at Dowell is worthy of every talent you have. The recovery of oil from the mother earth is a challenge to every man in the petroleum industry. Consistently, Dowell leads the industry in the knowledge of stimulating oil flow. By acid treatment of oil-bearing strata to dissolve flow-restricting materials—by hydraulic fracturing of pay formation to increase drainage areas—Dowell applies many techniques to help oil men recover more oil and gas.

Many talents are needed by Dowell to maintain its leadership. *Engineers—mechanical and petroleum—* tailor well treatments from Dowell's combination of services and products. *Chemists* broaden industry know-how and offer laboratory support to field operations. *Accounting and management* personnel support the vital business structure of an aggressive company. *Sales representatives* carry the message of Dowell's abilities to the petroleum industry.

Dowell places no limits on your future. In addition to serving the oil industry, Dowell provides chemical cleaning service to industry including the missile and rocket programs. Variety such as this helps assure your continuing growth.

The challenge Dowell offers you is worthy of your consideration. For full information, write Employment Manager, Dowell, Box 536, Tulsa 1, Oklahoma. Or contact your school Placement Officer.

**Hamilton Gets President Post**

Dr. T. Earle Hamilton, Texas Tech professor of foreign languages, has been elected national president of Sigma Delta Pi, honorary Spanish fraternity.

Dr. Hamilton has been associated with the honorary society since 1935 and served as fourth vice-president for the past ten years. He is the sponsor of Tech's Alpha Phi chapter of Sigma Delta Pi.

His new position will require him to direct the activities of the society and conduct an expansion program among the better universities of the United States and Canada.

**'Best Dressed' Hunt Starts**

Letters are being sent to all campus women's organizations asking for candidates for the Best Dressed Coed contest, sponsored by Theta Sigma Phi, women's journalism fraternity.

Each women's group will be allowed one entry. Deadline for entries is Feb. 11. Winner of the Tech contest will be entered in Glamour magazine's nationwide 10 Best Dressed College Women Contest this spring.

# Swastikas Flare Up In U.S., Australia

by SCHUYLER ALLMAN  
Associated Press Staff Writer  
The embers of anti-Semitism, flying from West Germany across Western Europe, have reached the United States and far-off Australia.

SOME JEWISH leaders blame crackpots for the desecration of synagogues and the appearance of Hitler's swastika and "Jews get out" signs on homes and buildings.

Others shared the alarm of some European governments. The rash of vandalism and threats appeared so serious in some European nations that police guards were placed over Jewish property.

"I THINK this is a synchronized operation, a sort of rally signal to Nazi and Fascist elements all over Europe," declared Franz Boehm, a leader in West German Chancellor Konrad Adenauer's Christian Democratic party.

But Abraham Redelheim, president of the Zionist Organization of America, said in Tel Aviv the slogans and swastikas "are the work of crackpots and not a symptom of rising anti-Semitism."

HEINZ GALINSKI, executive chairman of West Germany's Central Council of Jews, urged a sweeping investigation of Nazism and anti-Semitism in Germany.

On instructions from Adenauer, West German envoys abroad assured other nations that the Bonn government will take swift and drastic action to smash Jew-baiting.

A STATEMENT said "such evil deeds" appeared part of "a planned campaign to discredit the Federal Republic before world opinion."

A British government minister, Sir Edward Boyle, told the annual meeting of the Council of Christians and Jews in Britain that

"We can take heart at the speed and vigor with which the West German government has acted."

THE ANTI-JEWISH outbreak began Christmas Eve in West Germany. A new synagogue in Cologne was smeared with swastikas and anti-Semitic slogans.

Since then, hardly a nation in Western Europe has escaped the tar and paint brushes of the anti-Semites. Now the campaign has vaulted across the Atlantic and Pacific oceans.

TEMPLE EMANU-EL on fashionable Fifth Avenue and two other synagogues in New York City were daubed with swastikas.

A rock was thrown through a window of a synagogue in a suburb of Melbourne, Australia. Swastikas appeared on the walls of a railway station in another Melbourne suburb.

## Houston Steel Needs Contract

HOUSTON AP—Company and steel union officials from Houston will meet Wednesday in Washington to hew out a local contract for the Sheffield Steel Plant here.

"We are real hopeful that we can complete the negotiations in the next few days," said Martin Burns, director of the three-state District 37 of the United Steelworkers.

The Sheffield plant employs about 3,200 steelworkers. About 125 are employed in a number of smaller plants here.

## MEMOS.

A.I.P.—SIGMA PI SIGMA

A.I.P.—Sigma Pi Sigma will have pictures made for the La Ventana at 7:30 tonight in Science 44.

## Library Gets Botany Books

"Medical Botany," a four volume set, is in the rare book section of the Tech library in memory of the late R. A. Studhalter, former professor of botany.

Studhalter, a member of the first faculty, served as instructor

and head of the botany department until his death in the spring of 1958.

R. C. Janeway, Tech librarian, announced the acquiring of the books through a memorial fund from the biology department faculty and library staff.

CAMPUS CLEANERS & MEN'S WEAR

# Tomorrow Is Your Day, Tech Skiers!

Ticket sales for the Jan. 24-26 ski trip to Taos, N.M., begin Wednesday in the Tech Union at 9 a.m.

The annual mid-semester ski festival, sponsored by the Tech Ski Club, will have exclusive use of Hondo Lodge and the Hotel-Restaurant Saint Bernard. According to the latest reports, there are six feet of snow on the ski runs.

ALTHOUGH there is room for 120 skiers at the lodge, a limit of 80 Ski Club members has been set for the official party which will travel by bus. The rest of the skiers will have to go by car.

Rooms will be assigned on a first come, first served basis. Girls will stay in the new Hotel-Restaurant Saint Bernard. The men will stay in the lodge below the restaurant where there is room for 100 guests. Both dormitory bunks and rooms with four beds will be available to the first to join.

THE PRE-SKI SCHOOL sessions on Jan. 11 and Jan. 14 in the Women's Gym at 7 to 8 p.m. will stress preparation for the trip.

All members must attend the Jan. 14 meeting to receive instructions about the bus schedule and dormitory check out.

All members must have a one point grade average and those going by bus must have trip insurance.

## Stork 'n Stereo Come to Pair

A Tech couple was doubly-blessed during the Christmas holidays.

The James C. McCulloughs became the proud parents of a 7 lb. 12 oz. girl Dec. 22 and the proud owners of a hi-fi stereo record player the next day. They won the record player in a drawing at Dom's Ltd. The new daughter is Jamie Lin—the new player is Mathes, valued at \$350.

McCullough is a sophomore architecture major and his wife is a junior elementary education major.

# Columnist To Discuss Satellites

What is a satellite? How do we get it into the sky? What keeps it up there? And finally, what good is it?

These are the four questions Dr. I. M. Levitt will answer in his lecture "Future in the Sky" to be presented Thursday at 7:30 p.m. in the Tech Union ballroom.

As a writer of a weekly syndicated space travel column circulating among 20 million readers in more than 30 large United States cities, Dr. Levitt will illustrate his lecture with a nine-minute movie of the actual take-off of rockets and a view of the earth from an altitude of 76 miles.

Dr. Levitt was graduated from Drexel Institute of Technology and earned his Ph.D. in astronomy from the University of Pennsylvania. He has been director of the Fels Planetarium in Pennsylvania since 1949.

## A Campus-to-Career Case History

In the master control room of San Diego TV station KFMB-TV, Max Beere discusses a new studio-transmitter link with chief engineer Charles Abel.

## His "temporary" job became a career

Max P. Beere spent two years at the University of Hawaii while with the U. S. Navy, then earned his B.S. degree in Engineering at the University of Utah, where he served as technical lighting director for numerous campus theater and television shows.

On graduating in 1955, he fancied a television career for himself, but felt that, being married, he couldn't afford to serve a TV apprenticeship.

Max had an interview with the Pacific Telephone and Telegraph Company in Los Angeles. "I was offered a position in transmission engineering," he says. "It sounded great—but I really thought of it as a 'temporary' thing until I could get into television."

Max's TV career came sooner than he had hoped. Assigned as telephone com-

pany liaison with the TV networks, he was soon surveying microwave relay routes for the "Wide, Wide World" show, and working on "remote" and mobile telecasts from such interesting locations as Death Valley and rocket-launching sites deep in the desert.

In August, 1958, he was transferred to San Diego, where he took on full responsibility for TV-and-radio Special Services. This led to a particularly satisfying assignment in early 1959—the development of a new and successful closed-circuit educational TV system for 18 elementary schools in Anaheim.

"The telephone company really opened my eyes," says Max. "It's a fine place to work, where new ideas are welcomed and recognized and chances for advancement are excellent. I'm sold on it."

Max Beere is one of many young men with varied college backgrounds who are finding stimulating careers in the Bell Telephone Companies. Learn about opportunities for you. Talk with the Bell interviewer when he visits your campus—and read the Bell Telephone booklet on file in your Placement Office.

## Travel for Credit! In History - That Is

A European travel course will be conducted by Tech's history department the first semester of the 1960 summer session.

**THE TOUR** features visits to England, Scotland, Holland, Belgium, Luxembourg, Switzerland, Liechtenstein, Austria, Italy, Monaco, France and Germany.

It is designed for college students, but others may accompany the class. The course (History 3314, 3315) may be taken for six semester hours of credit or for non-credit. Dr. W.M. Pearce, history department head, will direct the tour.

**THE GROUP** will fly to and from Europe via trans-Atlantic jet, meet in New York on May 31, and will travel by deluxe private motor coach and first class local steamer. They will return to New York on July 12.

Total cost of the trip is \$1409.20. This does not include a \$25 registration fee if taking the course for credit.

**THE PRICE** of the tour includes transportation from New York back to New York, hotels, meals, taxes and tips, baggage, transfers

### Books Are Gone; Owner Is Angry

Three valuable books were lying on a railing in Weeks Hall Dec. 19 while Doyle Parker went to carry some things to the car for a girl. When he got back the books were gone.

And he wants them back. The books are economic survey books, and Doyle is offering a \$10 reward for their return.

He can be contacted at SH4-6033.

and sightseeing. Certain meals, excess baggage, items of personal nature such as laundry, after dinner coffees and beverages are not included in the trip fee.

Registration for the tour may be made by mail. A deposit of \$100 must accompany the signed application. The group will be limited to 30 people and is subject to the acceptance of the application. Application may be made any time prior to March 30.

**A REPORT** is required from each student, and there will be a reading list as preparation for the trip. Lectures will be given en route at historic sites by Dr. Pearce and local lecturers.

Arrangements can be made to stay following completion of the course.

For further information, conferences or interviews write Dr. Pearce, Box 4529, Tech Station, Lubbock, or call him at PO 5-8541, Ext. 343.

### Doctor Lets Judy Go Home

**NEW YORK (AP)**—Judy Garland who has been hospitalized for seven weeks with a liver ailment, is leaving Doctors Hospital today, but will probably have to spend another seven weeks in bed at home.

Producer Sid Luft, her husband, said the doctors expect her to make a complete recovery from the disease, acute hepatitis. The 37-year-old singing star is going by train to her Los Angeles residence to continue the extended convalescence.

## Musicians Accredited

Full membership in the National Assn. of Schools of Music has been granted Tech's music department.

Tech became an associate member of the association at the annual meeting in 1957. The department was last examined by the accrediting board in May, 1959.

**THE CURRICULA** which have been approved for Tech lead to bachelor of music and bachelor of music education degrees.

The National Assn. of Schools of Music is designated by the National Commission on Accreditation as the official accrediting body for music training on the college level. Membership in the association includes most of the leading universities, colleges, and conservatories in the United States.

**DR. GENE HEMMLE**, music department head, feels that this is a compliment to the college for it means that the teaching facilities and physical plant meet high standards.

Officers of the NASM are Thomas Gorton, University of Kansas, president; Duane Branigan, University of Illinois, vice president; Thomas W. Williams, Knox College, secretary; and Frank B. Jordan, Drake University, treasurer.

### Californians Start Drive for Johnson

**LOS ANGELES (AP)** — Four men who spearheaded a drive in California for Estes Kefauver in 1952 Monday announced they are now organizing Lyndon B. Johnson for President clubs in this state.

## Steelworkers Jubilant Over Strike Settlement

**PITTSBURGH (AP)**—Steelworkers and their wives received the news of the steel settlement today with shouts of joy and relief.

**"THIS MEANS** a lot to us steelworkers," said Patrick DeCarlo, employed at the Jones & Laughlin Steel Corp. "I'm glad we don't have to go out again."

George Ostermeyer, 40, also employed at the J&L plant, echoed: "Oh, boy! that's wonderful."

**"THAT'S ALL** we've been aiming for — to get a just settlement," said Louis Pierro, a mem-

ber of United Steelworkers Local 1272.

Mrs. Tony Amantea, 46, bubbling with joy, said: "I just don't know what to say. It sure takes the pressure off everybody. And it gives a wonderful feeling of security. Now I can get the freezer I've wanted."

**MRS. AMANTEA'S** husband is employed at U.S. Steel's Homestead Plant.

Mrs. William Hilla, 32, whose husband also works at the Homestead Plant, said she felt wonderful and relieved.

# RALPH'S RAMBLINGS

by  
Ralph W. Carpenter

Welcome back to the grind!  
This department hopes you had a real "ball" during those long awaited holidays. This jotter enjoyed the Cotton Bowl game — that is everything except the Longhorn loss. It hurt us in more ways than one.

If it hadn't been for Arkansas, Texas A&I and Prairie View the Lone Star State's bowl bid would have been a pitiful thing indeed. Well, don't guess we can gripe — should be glad we had so many teams in the bowl picture.

—RWC—

Surely hope you are making plans to attend the game tonight. Heck, we won't have a chance to see the Raiders again until Jan. 30. It surely would be a good thing if we all come out and show the team and coaching staff we are still behind them.

## IN NATION

# Bearcats Top Team

by JACK HAND

Associated Press Sports Writer

Cincinnati continues to make a runaway of The Associated Press college basketball poll with a lopsided lead over runner-up California in the weekly voting of sports writers and sportscasters.

**WITH ALL AMERICA** Oscar Robertson showing the way, Cincinnati cleaned up in the ECAC Holiday Festival in New York by whipping St. Joseph's of Philadelphia and Iowa in the last two rounds.

The Bearcats then hustled home and knocked off Dayton 70-63 Saturday for their 10th straight victory of the season.

**THE THREE VICTORIES** left Cincinnati the only unbeaten team among the top 10 in the latest ratings. California, West Virginia, Utah and Illinois fell from the perfect record class last week. Cincinnati's schedule this week calls for road games at Wichita Thursday and at Tulsa Saturday.

California was rolling along with 25 straight over a two-season span

when it lost Saturday to Southern California 65-57.

**THE GOLDEN BEARS** beat Southern Cal earlier in the week en route to the Los Angeles Classic championship, in which they smothered West Virginia in the final 65-45. California played Southern Cal again Monday night.

West Virginia, beaten only by California in 11 starts, dropped behind California into third place in the ratings. The Mountaineers try to get started again in games with Furman and Penn State this week.

**THE TOP THREE** clubs held a wide edge on the others in the voting. Cincinnati polled 150 of the 175 first place votes, West Virginia 12 and California 11. The only other first place ballots went to once-beaten Georgia Tech, which got two.

The standings are figured on a point basis with 10 for a first place vote, nine for a second and so forth. Cincinnati had 1,666 points, California 1,343 and West Virginia 1,140.

**BRADLEY**, in fourth place with 891 points, moved up from the No. 9 spot a week ago on the strength of triumphs over Butler and St. Louis. Utah, beaten by Duke in the Dixie Classic in Raleigh, N.C., bounced back with victories over Minnesota and Holy Cross to rank fifth.

Georgia Tech gained support by beating both Georgia and Kentucky, advancing from 10th to the No. 6 position. Ohio State slipped from fifth to seventh after a 96-93 defeat by Kentucky.

**WAKE FOREST** popped up from 19th to the No. 8 slot by whipping Holy Cross, Dayton and North Carolina en route to the Dixie Classic title.

After Illinois lost its first game to California, it came back to win over Northwestern and Stanford in the Los Angeles tournament for No. 9 rating. Southern California's success in knocking off California brought the Trojans from nowhere to No. 10.

## Grid Heads Ask Better Conditions

**NEW YORK (AP)** — College football coaches, concerned over the uncertainties connected with their jobs, plan to call for action from their employers and the NCAA this week to improve working conditions.

**AS THE VANGUARD** of some 2,200 delegates and visitors to the annual conventions of the NCAA, American Football Coaches Assn. (AFCA), and various other groups gathered here, it was learned football coaches have demanded a special session to discuss problems of job security.

"The Big Ten coaches asked for an extra session to discuss protection for coaches," D. O. Tuss, McLaughry, executive secretary of the AFCA, explained Monday.

"Years ago we had a committee to deal with such matters, but very few coaches asked for help so it was allowed to die. Now it seems they want to bring it up again, so I scheduled an extra business session Thursday."

Big Ten coaches also are the leaders in a move for the return of unlimited substitutions in football, which is expected to develop in the meeting of the AFCA Rules Committee.

## Tech Seeks Fourth Win

(Continued from Page 1)  
sophomore forward, who will be out with a head injury suffered in a car accident after the Georgia Tech game. Hennig did not play in the Houston tournament.

**THREE RAIDERS** are averaging in double figures to lead the squad. Two seniors, Gene Arrington and James Wiley, head the Tech scorers with marks of 13.3 and 13 points. Sophomore Del Ray Mounts is averaging 12.8 markers a game.

**CARLYLE SMITH** has hit 58.3 per cent of his shots and Wiley has connected on half of his. Mac Percival paces the free throw tossers with 78.4 per cent, followed by Smith with 77.8 per cent. Arrington leads in the rebounding department with an average of 7.3 a game and Wiley has 6.9 rebounds a tilt.

As a team, the Raiders are hitting 42.2 per cent of their field goal shots and foes are hitting 41.4 per cent. At the free throw line, Tech has a slim edge of 66.9 per cent to 66.2 per cent.

New products lead to better jobs at Du Pont

## ATOMS IN YOUR FUTURE?

You are looking at a photograph recently released by the Atomic Energy Commission. It shows the Commission's heavy water plant near the banks of the Savannah River in South Carolina. It is but one unit of an atomic energy project that covers more ground than the entire city of Chicago.

This vast installation was built by Du Pont at government request in 1950 for cost plus \$1. Still operated by Du Pont, it stands as a bastion of strength for the free world. Equally important, here are being expanded horizons of nuclear engineering which will eventually lead to better living for all of us.

Like hundreds of other Du Pont research projects, probing the mysteries of the atom has led to all kinds of new jobs. Exciting jobs. In the laboratory. In production. In administration. Good jobs that contribute substantially to the growth of Du Pont and our country's security and prosperity.

What does all this have to do with you?

For qualified bachelors, masters and doctors, career opportunities are today greater at

Du Pont than ever before. There is a bright future here for metallurgists, physicists, mathematicians, electrical and mechanical engineers, and other technical specialists, as well as for chemists and chemical engineers.

Perhaps you will work in the field of atomic research and development. But that is only a small part of the over-all Du Pont picture. Your future could lie in any of hundreds of areas, from the development of new fibers, films or plastics to the exploration of solar energy. Or in the sale and marketing of new products developed in these and many other areas. In any case, you will be given responsibility from the very start, along with training that is personalized to fit your interests and special abilities. We'll help you work at or near the top of your ability. For as you grow, so do we.

If you would like to know more about career opportunities at Du Pont, ask your placement officer for literature. Or write E. I. du Pont de Nemours & Co. (Inc.), 2420 Nemours Building, Wilmington 98, Delaware.

BETTER THINGS FOR BETTER LIVING... THROUGH CHEMISTRY

# Finals to Begin

The fall's labors will be evaluated during final exam week which will begin January 16 and conclude January 23. Dead Week will precede finals and will begin January 9. Social activities will be restricted during this week and no term themes or other outside work is to be assigned during Dead Week by school rules.

**Saturday, January 16, 1960**  
 8:00-10:30 \_\_\_\_\_ Classes Meeting 9:00 MWF  
 11:00-1:30 \_\_\_\_\_ Classes Meeting 2:00 TTS  
 2:00-4:30 \_\_\_\_\_ Saturday Only classes and all sections of English 131. Room numbers will be announced in respective classes.

**Monday, January 18, 1960**  
 8:00-10:30 \_\_\_\_\_ Classes Meeting 9:00 TTS  
 11:00-1:30 \_\_\_\_\_ Classes Meeting 3:00 MWF  
 2:00-4:30 \_\_\_\_\_ All Sections of Govt. 233 & 234. Room numbers will be announced in respective classes.

**Tuesday, January 19, 1960**  
 8:00-10:30 \_\_\_\_\_ All Sections of Math. 051, 052, 130, 133, 331. Room numbers will be announced in respective classes.  
 11:00-1:30 \_\_\_\_\_ Classes Meeting 1:00 TTS  
 2:00-4:30 \_\_\_\_\_ Classes Meeting 11:00 MWF

**Wednesday, January 20, 1960**  
 8:00-10:30 \_\_\_\_\_ All Sections of Chem. 141. Room numbers will be announced in respective classes.  
 11:00-1:30 \_\_\_\_\_ All Sections of Acct. 244 & 245. Room numbers will be announced in respective classes.  
 2:00-4:30 \_\_\_\_\_ Classes Meeting 3:00 TTS  
 2:00-4:30 \_\_\_\_\_ Classes Meeting 10:00 MWF

**Thursday, January 21, 1960**  
 8:00-10:30 \_\_\_\_\_ Classes Meeting 4:00 TTS and all sections of Biol. 133 & 134. Room numbers will be announced in respective classes.  
 11:00-1:30 \_\_\_\_\_ Classes Meeting 8:00 TTS  
 2:00-4:30 \_\_\_\_\_ Classes Meeting 1:00 MWF

**Friday, January 22, 1960**  
 8:00-10:30 \_\_\_\_\_ Classes Meeting 10:00 TTS  
 11:00-1:30 \_\_\_\_\_ All Sections of Physics 235 & 236. Room numbers will be announced in respective classes.  
 2:00-4:30 \_\_\_\_\_ Classes Meeting 2:00 MWF  
 6:30-9:00 p.m. \_\_\_\_\_ All Sections of Socio. 230. Room numbers will be announced in respective classes.

**Saturday, January 23, 1960**  
 8:00-10:30 \_\_\_\_\_ Classes Meeting 8:00 MWF  
 11:00-1:30 \_\_\_\_\_ Classes Meeting 4:00 MWF and all sections of P.E. 010. Room numbers will be announced in respective classes.  
 2:00-4:30 \_\_\_\_\_ Classes Meeting 11:00 TTS

Classes scheduled for more than one hour will take the first hour of the period on the exam schedule, and two-semester hour courses will take precedence over one-hour courses.

Requested changes in the schedule for individual students will be considered by the Dean of the School in which the student is registered.

### EXAMINATION SCHEDULE FOR EVENING COURSES

**Monday, January 18, 1960**  
 6:30-9:00 p.m. \_\_\_\_\_ Classes Meeting 6:30-8:00 p.m., MW and Monday Only.

**Tuesday, January 19, 1960**  
 6:30-9:00 p.m. \_\_\_\_\_ Classes Meeting 6:30-8:00 p.m., TT and Tuesday Only.

**Wednesday, January 20, 1960**  
 6:30-9:00 p.m. \_\_\_\_\_ Classes Meeting 8:00-9:30 p.m., MW and Wednesday Only.

**Thursday, January 21, 1960**  
 6:30-9:00 p.m. \_\_\_\_\_ Classes Meeting 8:00-9:30 p.m., TT and Thursday Only.

# Daniel Enters Race

by DAVE CHEAVENS  
 AUSTIN AP—Price Daniel said Monday he will run for a third term as governor to complete the "unfinished business" of his administration.

He called on Texans to join him in a crusade for better public schools, listing that along with a teacher pay raise as the No. 1 plan in his reelection platform.

Daniel also urged equitable tax laws "in proportion to the ability to pay" to balance the budget. He said he would oppose state income and sales levies.

Daniel's announcement tonight ended long speculation over his future political plans. It was expected to quickly set the pattern of who will seek the governorship and other major state offices.

HE CALLED for water board reorganization and improvement of the water planning and development program, better law enforcement measures, tighter highway safety laws, and further regulation of the small loan business.

The governor said the last legislature balked at much of his program with many points ending up as "halfway measures or completely unfinished business."

PART OF THE blame he placed on "selfish interests, pressure groups, and powerful lobbyists." Daniel said he was faced with deciding to carry on the fight or "turning my back in the conflict and leaving the job unfinished."

Daniel again hinted strongly that he would call a special ses-

ion of the Legislature but did not flatly say so. The Legislature failed to enact many vital parts of his program in 1959, he said because of the bitter controversy over taxes.

DANIEL LISTED public school improvements, law enforcement, highway safety, water resource development, a balanced budget, adequate financing for a program to attract new industries to the state as among the items left partially done or neglected by the legislature.

The governor said he would not give up hope of accomplishing "some of these programs before the next regular session" but that they could not be completed without "the leadership and experience of a governor who has been on the firing line working and fighting for the programs in the past and who is willing to work and fight for them through the 1960 election campaign."

THAT WAS his strongest hint that he will call a special session.

Daniel already has one announced opponent, former Rep. Jack Cox of Breckenridge, who hopes to draw strong conservative support. Former Highway Commission Chairman Marshall Formby has also said he would run for governor.

ATTY. GEN. Will Willson is another possible in the governor's race, but he has made no announcement.

Daniel said he would have preferred to end his public career at

the close of his current term. He also thanked the members of his family for working with him. Daniel's decision to run again came after a family conference.

DANIEL SAID that the Legislature in 1957 enacted all or in part his recommendations for legislative and governmental reforms, but in 1959 "it was a different story."

"Because of the long and bitter controversy over the tax program, the Legislature failed to implement some of the accomplishments of 1957," he said.

"Many of the most important programs of this administration ended up as halfway measures or completely unfinished business," Daniel said in his 15-minute talk.

"FOR MONTHS I have sincerely hoped that at a special session this year the Legislature could complete the unfinished business of this administration, especially with reference to further improvements in our public schools, law enforcement, highway safety, water resources, adequate financing of the Texas industrial commission's program for attracting new industries to our state, and a balanced budget based on fair and equitable taxation," Daniel said.

Daniel said he had not received enough pledges of cooperation from members of the Legislature on enactment of public school improvements, including the teachers salary raise he had promised, to assure its success at a special session.
