

# Off-Campus Rules Revised

## Wednesday Last Call For Skiers

Thirty spaces are available for the between-semester ski trip to Hondo Lodge, Taos, N.M. Wednesday is the deadline for reserving space.

**FIFTY TICKETS** for the bus and ten for the cars have been sold.

Condition of the ski slopes in the Taos Ski Valley are reported by ski manager Ernest Blake as the "best of the year."

Seventy-three inches of snow on upper slopes and 62 inches on lower slopes were reported by Blake.

**SKIERS GOING** by bus will leave Sunday, Jan. 24, at 7 a.m. from in front of the Tech Union. They will return Wednesday night.

There will be two and a half days of skiing and three nights of parties at the Hotel Restaurant St. Bernard featuring the election and presentation of the Ski Festival Queen. The Four Teens of Lubbock will entertain.

**EXPENSES FOR** the trip are: membership (card and patch)—\$2, transportation—\$12, dining and lodging—\$21, ski equipment rental—\$5, lift tickets—\$6 and lessons

**THIRTY**, page 3 . . .

**2,000 TOYS FOR TOTS**—Keith White, president of Circle K International, presents plaques to Jerald Lyons of Delta Sigma Chi and Peggy O'Neil of Knapp Hall for organizations gathering the most toys for Tots. (Staff Photo by Travis Harrell)

## Absence Of Male Residents Cited

by **TOMMY SCHMIDT**  
Toreador Editor

A boost from three to six dormitory meal misses for working students to live in town highlights a revised off-campus housing program approved Friday by Texas Tech officials.

The move came after Dean of Men Lew N. Jones proposed shortly before Christmas that the college consider a different evaluation of reasons for students to live off campus.

## Snowballs Stall Cars

They're building bigger and better snowballs at Texas Tech these days.

A group of Tech males built three giant snowballs, each approximately three ft. in diameter, Thursday night and used them to block southbound traffic along College Ave. for about thirty minutes.

**WHILE CARS** stacked up as much as six deep behind the three well-spaced snowballs, the students proceeded to shell the motorists' windshields with well-aimed snowballs of the hand variety.

One motorist rammed his pickup into one of the snowballs and was last seen driving south on College, the snowball perched on front of his pickup.

**THE GROUP** beat a hasty retreat when W. H. Felton, Bledsoe Hall supervisor, arrived on the scene. Felton, persuaded several of the boys to roll the snowballs out of the street.

However, the snowballs were again returned to their positions in the street and motorists greeted with another fusillade of snow.

**A CITY OF LUBBOCK** maintenance tractor was later called to the scene to break up the snowballs.

The incident Thursday night was the second such in as many **MALES**, Page 3 . . .

Another important revision said, "Application must be on file with the Dean of Men's Office at least two weeks before approval may be given."

**JONES** said the two weeks notice will give his office time to write students for their verification and approval of the off-campus housing request.

The rest of the regulations went about according to Hoyle except that the student worker receiving meals for compensation must now receive 10 per week instead of three.

**"THE STATE** of Texas has never given \$1 for student housing," Dean of Student Life James G. Allen commented at the Thursday meeting.

He said the college does not build dormitories just for the fun of it, but rather for the students' benefit.

**FURTHERMORE**, Dean Allen said, "Several years ago there was not a student living on the Texas Tech campus and living conditions off campus were so bad, many protests were raised by parents and students."

"Dorms are the backbone of the college," added Marshall Pennington, vice president and comptroller. "Without them there is no college. We are building them to serve students who probably do not even exist today."

**STUDENT** Council President Bill Pfluger commented that it is unfortunate that students be re-

**PERMITS**, Page 4 . . .

# Varsity Show Planned For Fall Production

A Varsity Show will be produced at Texas Tech next fall—the unanimous decision of the Varsity Show Board in a session Friday afternoon.

**A DECISION** as to the type of show to be presented and a definite date for the show will be made at a meeting of the Board early in the spring semester.

Also to be presented in the next session will be a recommendation concerning the policy of the Board regarding the Varsity Show.

**TEN REPRESENTATIVES** from campus organizations attended the meeting Friday, each presenting a statement of the part each organization would play in the production effort of the show.

A sub-committee was formed to draw up recommendations on the type of show, the date and the policy of the Board, for presentation at the next session. Members are John Gilbert, chairman of the Board; Richard Rodgers and Glenn Cope, Tech Union, and Betty Devine, Mu Phi Epsilon.

**THE FUNCTION** of the Board, which was only recently created, is, according to Gilbert, to serve in an advisory capacity as the central resource for the Varsity Show.

The Board may take action in matters concerning the show, such as selecting a producer, script and the type of show by a majority vote.

**THE DECISION** of producing the show next fall was made following discussion of a best time

for the show. Opinions were presented that by planning for next fall there would be time enough for thorough groundwork this spring.

Also presented was the opinion that casting the show and getting to work in earnest in the early fall, probably immediately after registration, would be the best timing for a successful production.

**THE FIRST** meeting of the Varsity Show Board was on Dec. 17, when information was presented by Nelson Longley, director of the Tech Union, on the background of the Varsity Show itself.

Organizations represented at Friday's meeting and the part they will play in the production are: Alpha Pi Omega, advisory on cast and drama; Tech Orchestra, music; Alpha Delta Sigma, programs; Mu Phi Epsilon, music; Theta Sigma Phi, script.

Also Tech Union, public rela-

tions and publicity, financial, and office space; Sock and Buskin, not definite; Sigma Delta Chi, publicity; American Institute of Architects, designing sets; Phi Mu Alpha, music, and Board of Student Organizations, ticket sales.

## Caution Urged

**WASHINGTON (AP)**—Chairman John C. Doerfer said Friday night the Federal Communications Commission must be very careful in reacting to suggestions on how to handle abuses in broadcasting. "It should be cautious," he said, "lest it take or recommend steps which may militate against the ultimate best interest of the public." Doerfer's audience was the Federal Communications Bar Assn., made up of those who argue cases before the FCC.

**PAUL BUNYAN-SIZED SNOWBALLS**—SPARE-TIME ACTIVITY OF SOME TECH MALES . . . were used to block traffic along College Ave. (Staff Photo)

# Spring Registration To Begin Jan. 28

Spring registration will begin Thursday morning, Jan. 28, and will last through Saturday noon, Jan. 30.

Students must fill out A and H forms and have them approved by the Dean of Men or the Dean of Women before receiving their registration packet. Forms will be in the foyer of the Administration Bldg. beginning Monday afternoon.

Registration packets will be distributed Jan. 18. Dormitories will handle packets for dorm residents

and town students can get theirs in the west foyer of the Ad. Bldg.

Dormitories will open to new occupants on Monday, Jan. 25, at noon. On Jan. 26, freshmen will take examinations.

## Students to Teach

Students planning to do secondary student teaching this spring should meet at 4 p.m. Monday for announcements in Ad. 260.

PIKE GARDENIA GIRL —

# The Midnight Miss

c. j.

With the gradual emergence or emergency of Dead Week, tonight's social life looks sparse. We say Dead Week rather than finals because from the looks of things, Dead Week is the time to sweat.

Soapboxing (as yet) is a little out of our line, but we feel justified in beating one small tom-tom today about the week of restricted social activities.

If the students give up (gladly, we might add) all outside activities during Dead Week to concentrate on reviewing for finals, why can't relentless instructors comply by assigning term papers and quizzes before Dead Week.

Admittedly, we may not be the world's best time-budgeter, but it is a little hard to prepare for two final exams on Saturday, the first day of finals, when quizzes, etc. are scheduled through Friday afternoon, even with socializing thrown out the window.

May the words of unwise—but willing students—not fall on deafened ears. How about a dead Dead Week next semester?

★ ★ ★

The Deans' calendar lists three events for tonight.

Kappa Sigma fraternity will have an informal dance from 8:30 to 11:30 p.m. at the Holiday Inn,

and the Phi Gam Black Diamond formal will be from 8:30 to 11:30 in the Lubbock Hotel.

Twenty-eight pledges and six new members of Alpha Chi Omega will be presented at 7 tonight in the SUB Ballroom as the AXO's present a "Toast to the New Year."

The honorees will be escorted by their fathers or dates onto the stage between two 6 foot silver champagne glasses with pink balloons flowing out of them, a giant mask in the background and balloons and confetti around the scene.

The Phil Pierce Combo is playing for the dance following, scheduled from 9 p.m. to midnight.

## Choral Heads Convene Here

The Interscholastic League of Music is conducting a choral workshop for junior and senior high school choir directors in the music Bldg. today from 9 a.m. to 3:45 p.m.

Directors from West Texas will discuss new techniques in choral work.

F. W. Savage, director of musical activities for the league, will preside at the workshop.

## The whole is equal to the sum of its parts

*(But some of its parts are more equal than others!)*

Even Euclid had to admit...

## It's what's up front that counts

Euclid proved that a straight line is the shortest distance between two points. And if you'll walk a straight line to the nearest pack of Winstons, you'll find it the shortest distance to a really enjoyable smoke. It's the tobacco up front that makes

the difference and that's where Winston packs its own exclusive Filter-Blend—a special selection of light, mild tobacco, specially processed for filter smoking. You'll find Filter-Blend gives Winston a flavor without parallel. In fact, it's axiomatic that...

WINSTON TASTES GOOD, LIKE A CIGARETTE SHOULD!

## Short Story Deadline Set by La Ventana

Entries for the La Ventana's short story contest must be submitted to the La Ventana office by Feb. 1, according to Steve Pool, section editor of the yearbook.

"We will announce the winners of the two divisions in April," Pool said. The stories will be illustrated in L-V's version of the Saturday Evening Post.

One story will be chosen from

each division, short stories of approximately 3000-3500 words and short stories of 1,500-2,000 words.

Any Tech student may enter as many times as he wishes. The stories must be fiction of the "slick" variety found in national magazines and on any subject of college interest.

Stories will be judged on plot, story-telling ability and writing style. Manuscripts must be double spaced on good bond paper.

## Thirty Slots Still Vacant

(Continued from Page 1)

(required)—\$2 for a total cost of \$48.00.

Students should take approximately \$5 to \$10 for personal entertainment and breakfast Sunday. Ski Club membership entitles the skier to a 50 cent-discount at any ski run in New Mexico on a lift ticket or a \$4 discount at Taos during the mid-term ski trip.

**STUDENTS MAKING** the trip must have a one-point grade average for the preceding semester unless exempt as a first semester freshman. Students must have their I.D. cards stamped for eligibility by their academic dean and must have proof of an insurance policy that will cover them for the duration of the trip.

The pre-ski school will hold sessions Tuesday and Thursday from 7-8 p.m. in the women's gym.

## Freshman Girl Wins Contest

La Vetta Hopkins, Lubbock freshman, won the women's intramural posture contest Wednesday night. She is a Pi Beta Phi pledge.

Judges for the contest were Margaret Richards, Lubbock YWCA director, Florence Phillips, dean of women, and Jane Perry, Dance Club sponsor.

Entries for team bowling must be turned in to the intramural office in the Women's Gym by Feb. 10, Rhetta Davis, intramural director, announced.

## Watch Lost

An Ernest Borrell silver case watch with a stainless steel band was lost in the vicinity of the women's dormitories Wednesday.

If anyone has found the watch, contact Don Borders, Room 325-A, Gordon Hall. A reward will be given.

SAE SWEETHEART — Ginger Forrest, Tri-Delt pledge from Waxahachie, was presented as SAE pledge class sweetheart at the annual Snowflake Dance at the Lubbock Hotel Friday night.

## Males Sabotage Passing Autos

(Continued from Page 1)

A group of Tech males snow-balled cars along College Wednesday afternoon about 5 p.m.

According to Bill Daniels, Tech Traffic-Security Chief, two windshielders were reported broken by passing motorists. He estimated the damage at about \$75.

The first Toreador of the spring semester will come off the presses Thursday, January 28. A large size edition is expected.

A guest on the Jack Parr show Friday night predicted there would be a snow storm in Texas this summer.

## '60 CHEVY! ONLY WAY YOU CAN BUY A CAR FOR LESS IS TO BUY A LOT LESS CAR!

- THRIFTIEST 6 IN ANY FULL-SIZE CAR**—Chevy's Hi-Thrift 6 is the '60 version of the engine that got 22.38 miles per gallon in the latest Mobilgas Economy Run—more than any other full-size car.
- NEW ECONOMY TURBO-FIRE V8**—Here's a V8 with the "git" Chevy's famous for—plus a new economy-constructed camshaft and other refinements that get up to 10% more miles on a gallon of regular.
- EASIER-TO-LOAD LUGGAGE COMPARTMENT**—The trunk sill is lower and the lid opening is more than a foot and a half wider than Chevy's nearest competitor's. There's over 20% more usable space!\*
- MORE ROOM WHERE YOU WANT MORE ROOM**—Chevy's trimmed down transmission tunnel (25% smaller) gives you more foot room. You also get more head and hip room than in any other 2- or 4-door sedans in the field.
- WIDEST CHOICE OF POWER TEAMS**—A choice of 24 engine-transmission teams in all—to satisfy the most finicky driving foot. There are seven engines with output all the way up to 335 h.p. and five silk-smooth transmissions.
- EXTRA CONVENIENCES OF BODY BY FISHER**—No other car in Chevy's field gives you crank-operated ventpanes, Safety Plate Glass all around and dozens of other Fisher Body refinements.
- CHEVY SETS THE PACE WITH LOWER PRICES**—All Bel Air and Impala V8's are lower priced, as are many options. Example: a Bel Air V8 sedan with Turboflide, de luxe heater and push-button radio lists at \$65.30 less for '60.
- QUICKER STOPPING BRAKES**—Long-lived bonded-lining brakes with larger front-wheel cylinders for '60 give you quicker, surer stops with less pedal pressure.
- SOFTER, MORE SILENT RIDE**—Chevy's the only leading low-priced car that gentles the bumps with coil springs at all four wheels. Noise and vibration are filtered to the vanishing point by new body mounts.
- NOT CHANGE FOR CHANGE'S SAKE, BUT FOR YOURS**—There's only one person we consider when we make a change—and that's you. That's why we don't think you'll find anything more to your liking at anything like the price.

# Make your next pipeful AMPHORA

...the tobacco that outsells all other imported tobaccos combined! Try it and your very first puff will tell you why. There's more pleasure in smooth-smoking, even-burning, long-lasting, mild AMPHORA.

Popular priced, and more for your money, too—full 2 ounces in every pack! Blended in Holland. In handy pouches and tins. Come in and try it today!

40c 2 Ounce Pouch  
Try a pipeful at the Dealer Nearest You.

The more you look around the more you'll find to convince you that no other low-priced car has so much to show for your money as this new Chevrolet. Here's the kind of styling sophistication and subtle detail that only Fisher Body craftsmanship can create. Here's the kind of Full Coil comfort that neither of the other two leading low-priced cars—and only some of the smoothest riding higher priced ones—build into their suspension systems. Here's more room inside (where you want it) without an inch more outside (where you don't want it). And with all these advances Chevy has managed to hold the price line! Your dealer will be delighted to fill you in on all the facts.

See The Dinah Shore Chevy Show in color Sundays NBC-TV—the Pat Boone Chevy Showroom weekly ABC-TV.

Now—fast delivery, favorable deals! See your local authorized Chevrolet dealer.

# Just Some Gab

—J. S. G.

Not too long ago — I think it was in my sophomore English class (at another school) — the professor posed a question at the very beginning of the semester. He asked, "Why are you going to college?" It was the way he asked it, I think, that threw the class into its usual silence; it was as though he were inquiring as to the weather, or saying simply, "How are you?" At any rate, after a bit of mumbling, he directed the same question to a male student seated behind me.

"Well," he stammered, "I figure no one can make it these days without a degree of some sort. . . . I mean . . . well, if a guy doesn't have the old sheepskin, he just won't make a decent living."

The good doctor turned to a young lady who raised a feeble hand to gain recognition. "It seems to me," she said, "if women are ever going to be given their proper place in this world,

we have no other alternative but to learn as much as the men do. Besides, school teaching is about the highest paying job a single girl can get immediately out of school."

The good doctor was unabashed when my friend and colleague, Hal Dock, shuffled in his seat and, frowning, began to offer his answer to this problem. "Why did I come to college? Well, it seems to me that I read somewhere that a college degree enables a person to earn approximately \$42,000 more per lifetime than one without. However, that is a minor point in my mind. After all, \$42,000 these days is a mere drop in the bucket. I think the why of my coming to college is to learn something."

This, of course, stifled the class momentarily, since it was a known fact the great majority were there to carry on the family traditions of a certain frat or soror-

ity; to be able to say "I have a college diploma, degree or whatever;" or simply to "live it up" a little bit before settling down to business in the old man's career.

There was something of a smile on the great stone face of the good doctor at that moment as though he were reaching out to place a paternal hand on Hal's head, saying, "That's a good boy!" But he did clear his throat, returned to the center of the room (front) and began saying what I feel are some of the most important words I've ever heard.

"Yes, Mr. Dock! It would be nice to have a college full of people who were here to learn something, providing they were here to learn the particular subjects the University offers. Far too many come to learn how to get out of learning, rather than to learn how to get something out of learning. It would seem an imperative in the present world of erratic ideologies to be able to find young people who are eager to complete themselves . . . eager to make of themselves a more complete whole, rather than simply completing a pass on the football field, or merely passing a subject.

"I would like to know that there are people in that young world of yours that are seriously interested in finding out things for their own good and for the good of future generations rather than merely being interested in making the extra few thousand dollars (he looked at Hal), or teaching for the sake of a better wage immediately on graduation (he glared at the girl).

I hope I shall make this course interesting enough so that all of you, or at least a large part of you, will learn something, mostly about the subject, but also about yourselves. I hope you all will strive to excel, not just 'get by.' You have a long way to go. The problem will be what goal you choose and how you get there."

With the advent of "Dead (?) Week, finals, graduation, and more studying next semester for some of us, and with this being a new year, perhaps it is an imperative now to ask ourselves — perhaps again — "Why are you going to college?" "Where are you going?" "How are you doing?"

## Dividends Planned For Credit Group

Texas Tech's Federal Credit Union will hold its first annual share holders meeting Thursday (Jan. 14), Burl Abel, Union president, said.

Dividends for the first year will be announced during the meeting at 7:30 p.m. in the Agriculture building auditorium.

Also scheduled are election of officers, reports of standing committees and a general financial report.

"We've made good progress during our eight months of operation," Abel said. "Share holdings now exceed \$10,000."

## Permits . . .

(Continued from Page One) required to live in dormitories. But he added that he understood the situation and did not think the revisions too harsh.

Dean Jones presented statistics at the meeting showing that a total of 3,564 students were living off-campus at the beginning of the semester last year.

During the semester, 192 have moved out of the dorms.

About 1,233 of these students moved out to live with relatives, to work, or because of health. It was estimated that about one-half of these are living off campus illegally.

## For Fall Date

# Varsity Show Set

So there will be a Varsity Show after all.

A decision was made Friday afternoon by the Varsity Show Board to begin preparations for a Varsity Show at Texas Tech next fall.

The decision is not to be considered lightly. For the first time, the production has behind it as of now the full support of a powerful group of campus organizations.

The show has been hanging in the balance during recent months. Questions have been raised as to whether it should be attempted again.

However, Claude Rogers, president of Tech's senior class and a strong backer of the show last year, originated the idea of a cooperative effort by campus organizations to support the Varsity Show.

As a result, the Varsity Show Board was created to serve as a central coordinating force for organizations willing to lend their support.

In turn, the action of the Board Friday to definitely have a Varsity Show is a strong step, even if one of the first, toward a successful production in the future.

The Board, as set up, may by simple majority make major policy decisions and exert a strong influence toward a successful production.

Whether or not the Board does this will determine the fate of the Varsity Show.

Equally important is the whole-hearted support of each campus organization represented, in the work they have agreed to do.

The full support of both the Board and the organizations they represent in a joint cooperative effort conducted in the most positive manner can bring about a Varsity Show which will be a success in every way.

TONIGHT IN BIG D

# Tech To Play SMU

by DON JONES  
Toreador Sports Writer

Texas Tech, now in the first division of the Southwest Conference basketball race, will try to retain that position tonight when they invade Dallas to take on the once highly touted, now slumping, Southern Methodist Mustangs.

Game time will be 8 p.m. The game will be televised regionally on Channel 11 in Lubbock.

**THE RAIDERS**, fresh from their 71-64 victory over the Rice Owls Tuesday night in the conference opener for both teams, will be seeking revenge over the Mustangs. The Methodists won an 85-65 victory over the Techsans in the first game of the pre-season Southwest Conference Tournament during the Christmas holidays.

Tech, winner of only four games in eleven tries, needs a victory to keep from becoming a possible doormat in the always hectic championship race.

But the Methodists will have equally as much at stake. A victory over Tech is a must if the Mustangs are to keep championship hopes alive. After being established as pre-season conference favorites, SMU has lost its last two games—both to SWC foes.

**THE MUSTANGS** first lost to Texas A&M in the championship finals of the tournament at Houston, and Tuesday night they were dealt an insulting blow in the conference opener when a resurging Texas University team dealt them a stunning 58-56 defeat in Austin.

SMU's probable starters will be a colorful quintet composed of 6-7 Steve Strange, a junior who is the leading scorer for the Mustangs; Max Williams, the 5-10 dribble master and the Southwest's top hardwood showman; Jan Loudermilk, the sensational 6-6 sophomore who promises to do great

things for SMU in the future; and Kim Nash and Wilbur Marsh, both senior veterans who have seen lots of action the past three years.

**PROBABLE STARTERS** for the Raiders will be Don Perkins, the man who terrorized the Mustangs in the tournament by scoring 29 points; Carlyle Smith, a 6-1 sophomore; Del Ray Mounts, a sophomore who is averaging 12.9 points per game; Gene Arrington, senior, the leading scorer for the Raiders with a 14.2 average; and senior James Wiley, averaging 13.6 points

per game. Raiders who will see lots of action in the game will include Steve Lee, 6-2 junior, and Mac Percival, a 6-3 sophomore.

The Mustangs, who have compiled a 7-4 won-lost record this season, have won 12 of 16 games with the Raiders since the series started in the 1944-45 season.

After being defeated by the Mustangs in the first game of the pre-season tournament last year, the Raiders split their two regular conference games with the Mustangs.

"LITTLE STORIES WITH BIG MORALS"  
First Little Story

Once upon a time a German exchange student from old Heidelberg came to an American university. He lived in the men's dormitory of the great American university. He was a fine, decent young man and all the other young men in the dormitory of the great American university tried very hard to make friends with him, but, unfortunately, he was so shy that he refused all their invitations to join their bull sessions. After a while his dormitory mates got tired of asking him and so the poor German exchange student, alas, spent every evening alone in his room.

One night while sitting all alone in his room, he smelled the most delicious aroma coming from the room next door. Conquering his shyness, he walked to the room next door and there he saw a bunch of his dormitory mates sitting around and discussing literature, art, culture, and like that. They were all smoking Marlboro cigarettes, which accounts for the delicious aroma smelled by the German exchange student.

Timidly, he entered the room. "Excuse me," he said, "but what is that marvelous smell I smell?"

"It's our good Marlboro cigarettes," cried the men, who were named Fun-loving Ned, Happy Harry, Jolly Jim, and Tolerable David.

So the German exchange student took a Marlboro and enjoyed those better makin's, that finer filter, that smooth, hearty flavor, and soon he was comfortable and easy and lost his shyness.

From that night forward, whenever he smelled the good smell of Marlboro cigarettes, he always went next door and joined the bull session.

MORAL: WHERE THERE'S SMOKE, THERE'S MEYER

Second Little Story

Once upon a time there was an Indian brave named Walter T. Muskrat who had a squaw named Margaret Giggling Water. Margaret was sort of a mess but she sure could make beaded moccasins. Every day she whipped up a brand-new pair of beaded moccasins for Walter, which were so gorgeous that all the Indian maids on the reservation grew giddy with admiration.

Well, sir, Margaret got pretty tense about all the girls making eyes at Walter and one night they had a terrible quarrel. Walter flew into a rage and slapped her on the wrist, whereupon she started crying like all get-out and went home to her mother and never came back.

"Good riddance!" said Walter, but alas, he soon found out how wrong he was, for the Indian maids were not really interested in him, only in his moccasins, and when he stopped showing up with a new pair every day they quickly gave him the yo-heave-ho. Today he is a broken man, sitting all alone in his tepee and muttering ancient Ute curses.

MORAL: DON'T FIGHT THE HAND THAT BEATS YOU

Third Little Story

Once there was a lion which was a very quiet lion. In fact, the only time it ever made a sound was when it had a toothache.

MORAL: WHEN IT PAINS, IT ROARS

© 1960 Max Shulman

The makers of Marlboro would like to point a moral too: Nothing ventured, nothing gained. Try a pack of Marlboros or Marlboro's sister cigarettes—Philip Morris and Alpine—and gain yourself a heap of pleasure.

NCAA VOTES NO

# Rule Change Hit

NEW YORK (AP) — The National Collegiate Athletic Assn. Friday delivered a surprise attack on unlimited substitution by formally recommending that no substantial change be made at this time in the football rules governing substitution.

THE NCAA, meeting in its 54th annual convention, approved by majority vote (90-46) a resolution recommending its Football Rules Committee stick with current rules at least for the 1960 season. The NCAA Football Rules Committee meets next week in Miami

Beach, Fla., to consider the proposal made earlier this week by the American Football Coaches Assn. that unlimited substitution be returned to the college game for the first time since 1952.

IN OTHER convention business, the NCAA:

Overwhelmingly defeated a constitutional amendment that would have limited the athletic eligibility requirements for foreign athletes.

APPROVED a two-year program for controlled TV programs of college football during the 1960-61 seasons. Previously all contracts with the televising network have been for one year.

Clarified existing legislation which permits freshmen enrollment at member schools of less than 705 students to participate in NCAA small college division events. It was spelled out that these freshmen would also be eligible for three regular varsity seasons.

Certified a new bowl game in New York City, to be played either Dec. 3 or 10. Bowl backers said it would be between major teams.

The SWC basketball game between the Texas Tech Red Raiders and the Southern Methodist Mustangs will be televised.

## DUAL FILTER DOES IT!

It filters as  
no single filter can  
for mild, full flavor!

HERE'S HOW THE DUAL FILTER DOES IT:

1. It combines a unique inner filter of ACTIVATED CHARCOAL...definitely proved to make the smoke of a cigarette mild and smooth...
2. with an efficient pure white outer filter. Together they bring you the real thing in mildness and fine tobacco taste!

# raider review

by john petty

Horse racing seems to be taking a huge stride toward becoming one of the top spectator sports among West Texans. For many seasons the only track that was reasonably near was deep in the mountains of New Mexico at Ruidoso. This past September a new and ultra modern track was opened in Anapra, N.M. — just a ten minute ride from El Paso.

The project has been met with enthusiasm by people from all over Texas. Whereas the racing season for them lasted only during the summer months when Ruidoso Downs was the only track, the addition of the season at Sunland Park in Anapra stretched racing over a full six months. Horses are now running close at hand from spring to winter.

We had a chance to rub elbows with the track enthusiasts over the Christmas holidays at Sunland Park and the excitement of the racing thoroughbreds is one that will not soon be forgotten.

The flashing lights of the tote boards, the blare of the bugles, and the straining fight of long striding horses give racing an air that is found in no other sport.

We sat through ten tension-filled races during our day at the track and loved every second. There wasn't a person in the stands who could sit when starting bell rang and the horses left the post. Everyone cheered his favorite as the silkened jockeys spurred the racers around the turns and toward the finish line.

We had a very strong hunch on a sleek looking racer named Gilhooley and picked him on the nose to win in one of the races. Gilhooley took off like a West Texas sandstorm but from his position at the finish, a more appropriate name would have been Gilhinnie.

★★★  
Bud Wilkinson, head coach at

Oklahoma, must feel like the Roman emperor who stood and watched his empire crumble around his feet. After being considered invincible for almost a decade, Wilkinson saw his winning streaks in both non-conference and conference broken. The final blow to the Sooner mentor came this week when the NCAA slapped a "indefinite" probation on the Oklahoma school. This means no more bowl games and no more televised games for Oklahoma until the NCAA lifts the ban.

The reason for the probation period was — in a pure and simple language — that the NCAA believed Oklahoma had been giving money to their players.

Regardless of the reason, the probation will stick and Wilkinson's practice of luring Texas football players to Soonerland will come to a screeching halt.

★★★  
Tonight's basketball game between the Red Raiders and SMU will be the first one of the season to be televised. The game will be carried by Channel 11 here beginning at 8 p.m.

★★★  
This will be the last edition of the review this semester. If the Powers That Be are willing, we'll be back next semester armed with a one-point and a new typewriter ribbon to finish out the year.

## Buffs Beat H-SU

ABILENE, Tex. (AP) — West Texas State's Buffaloes defeated Hardin-Simmons here Friday night for the first time in four years 102-84 in a Border Conference opener for both teams.

Milton Fitts led the Buffs with 29 points while four other starters also hit in double figures. Keith Blair had 19, Jim Curtsinger 16, Jim Conner 11, and David Seal 10.

## Tech Considers Double-Header Plan

The discontinuance of the pre-season Southwest Conference basketball tournament early this week has resulted in the consideration of a "double-header" plan by Tech basketball officials.

Tech would invite one SWC

team and two outside teams to play on successive nights in a double header program that would take the place of the tournament. The program would take place about the same time of the year as did the defunct tourney—at

Christmas time.

The pre-season play was discontinued for several reasons. Chiefly, the coaches objected to playing conference games without them being counted in the final standings.
