

## Fall Festival Opens Friday

WEARY RAIDER FANS CAN NO LONGER STAY AWAKE—THE PARTY IS OVER  
... a long journey back for Tech students who made the train trip to Dallas

## Tech Slates Events For Tri-State Meet

Texas Tech will host its eighth annual Fall Forensic Festival Friday and Saturday.

Registration for the meet will begin at 8 a.m. Friday in the Tech Speech building. The festival will be open to the public.

Representatives of 13 colleges from Texas, New Mexico and Oklahoma will attend the meet.

Texas colleges include Abilene Christian College, Texas A&M, St. Mary's University, San Antonio; Amarillo College, Texas Christian University, Wayland Baptist, Plainview, Hardin-Simmons University, Frank Phillips College, Borger and Texas Tech.

Representing New Mexico will be the University of New Mexico.

**OKLAHOMA** delegates include Southwestern State College, Weatherford; Central State College, Edmond and Panhandle A&M, Goodwell.

Congress, the U.S. Supreme Court and organized labor will be topics on the meet's agenda.

**DEBATE TOPIC** will be; Resolved: "That Congress should be given the power to reverse decisions of the Supreme Court."

"What should be the role of government in regulating organized labor?" will be the group discussion topic.

**INDIVIDUAL EVENTS** are extemporaneous speaking, poetry reading and after dinner speaking. The top three after dinner speakers will be featured at a dinner Friday.

Certificates of award will be made to all speakers receiving superior and excellent ratings.

**SPEAKERS IN** the labor discussion at 9 a.m. Friday are James C. Sharp, business manager of Electrical Workers Union and Dr. Lester S. Levy, Texas Tech associate professor of labor economics.

Round-table debate speakers at lunch Friday will be James O. Cade, attorney and Dr. William E. Oden, Tech associate professor of government.

## Court Gets Six Judges

Six Techsians have received Student Association Supreme Court appointments.

**CHIEF JUSTICE** is James Adams. Associate justices include Bill Downs, engineering; Ada Jane Meissner, home economics; Tom Cobb, business-education; Tom Koger, agriculture; and Bobby Brown, arts and sciences.

**APPOINTED BY** the Student Assn. for president, with the advice of the government department head, all court members serve during both fall and spring semesters.

One associate justice is chosen from each of the college schools offering undergraduate degrees. The chief justice must be a pre-law student.

Duties of the Supreme Court are to interpret the Student Association constitution and to render decisions with a written opinion giving reasons for the decision.

## Three Tech Architects Grab Top State Designing Awards

Three students in Tech's department of architecture were awarded first, second and third place awards in competition at the Texas Society of Architects' convention in Austin Oct. 16.

**THE TECH** victory marks the second time in the 15 years of competition that one school has received all three top awards.

The University of Houston won all three awards last year.

**C. BERWYN TISDEL**, senior from Lubbock, won first place;

Richard Payne, also a senior from Lubbock, second place and Steve Oles, senior from Midland, third place.

The competition is sponsored by the Featherlite Corporation.

Competition was based on designs of a crafts museum. The problem is designed each year by a representative of one of the five schools participating.

**TISDEL ALSO** received the Monarch Tile Co. scholarship, to be used for expenses during his

fifth year of study at Tech.

The crafts museum problem was first judged by the faculty of each school, narrowing their entrants to three, which were then sent to Austin to be judged in competition with the other schools by three professional architects, appointed by the president of the Texas Society of Architects.

**THE JUDGES** were not told the names of the schools or entrants until the designs had been rated.

In competition at Tech, the entrants were rated with Payne first, Oles second, and Tisdal and Don Crumbley, senior from Dublin, tied for third place.

**SINCE THE** competition accepts only three entrants from each school, Crumbley's design was not entered in the state competition.

Schools competing in the judging were the University of Texas, Texas A&M, Rice, the University of Houston and Tech.

## Freshmen Choose Six In Cheerleader Vote

More than 500 Texas Tech freshmen trooped to the polls late Monday afternoon to select their six cheerleaders for the 1959-60 school year.

**THE SIX** new yell leaders, with their ballot numbers in parenthesis, are Lynn Buckingham (2), Jan Payne (17) and Ann Morrow (31).

Boys elected were Dick Wyatt (34), Alan Sumner (35) and Jerry Ford (39).

**THE FISH** cheerleaders will get their baptism of fire Wednesday night when they lead the Tech-Tulane pep rally at the Saddle Tramp Circle at 7:30 p.m.

The rally is sponsored by the freshman class. Master of Ceremonies will be Brian Adams, vice president of the frosh.

The freshman football team, 1-1 for the year, play their last home game Saturday night against the Arkansas Shoats at 8 p.m.

### Photos For Sale

Last year's La Ventana pictures will be on sale today in the Journalism Bldg. from 1 to 5 p.m.

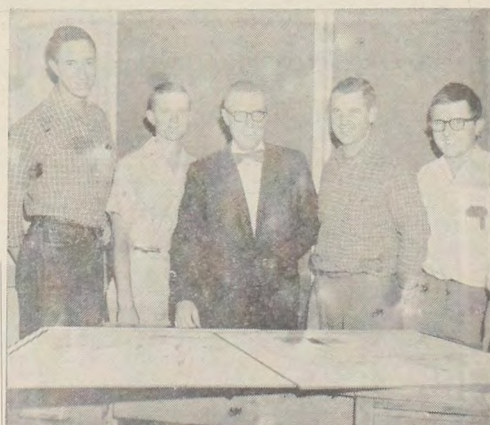

The pictures will be displayed in J-206. Prices will range from a penny to a dime—depending on size.

Photographs from wallet size to 8 by 10 inches from organizations, activities and classes will be on sale.

First come, first served!

### Proof Deadline

Deadlines for returning La Ventana picture proofs to the Book Store have been set for this week. Juniors must have proofs in by Wednesday; sophomores have a Thursday deadline and freshmen must return proofs by Friday for their pictures to appear in the annual.

STATE DESIGNING AWARDS GO TO TECH ARCHITECTS  
... Left to right—Dan Crumbley, Richard Payne, Prof. Nolan Barrick, Berwyn Tisdal and Steve Oles.

# MEMOS...

Mrs. Martha Whitaker of the Hemphill-Wells gift department will speak on "Manners" to Kappa Kappa Gamma members and pledges tonight. Mother's Club and Alumnae Association members are invited to the 7:30 p.m. meeting in the lodge.

★ ★ ★

Pre Law Club will meet today at 7 p.m. in Room B of the Union. All members and prospective members are urged to attend.

## Move Over, Rock! Tech To Reveal Most Handsome

Tech's Most Handsome Man will be elected at Club Scarlet, mock night club, Saturday, Nov. 7.

Twenty campus organizations have nominated candidates. This year marks the 21st Most Handsome Man contest.

The first Club Scarlet was sponsored by Tech Women's Press Club, now Theta Sigma Phi, and took place in the fall of 1938.

Three off-campus judges will select seven finalists before Club Scarlet. Names of these finalists

will be announced prior to Club Scarlet and voted on by popular ballot at Club Scarlet. Each paid admission will have one vote.

Candidates and their sponsors are Robert George Honts, Men's Dorm 7; Winston Ulmer, Kappa Sigma; Jim Stowe, Delta Gamma; Delbert Shirey, Alpha Chi Omega; Jerry Ward, Sigma Chi and Alpha Phi; Floyd Higgs, Phi Mu.

R. David Byrd, Town Girls Club, Horn Hall, Phi Gamma Delta and Pi Beta Phi; Tommy Wilson, Sigma Nu; Jerry Wayne Brooks, Delta Tau Delta; Audris Zidermanis, Major-Minor; Wiley Doran, Kappa Kappa Gamma; Todd Henson, Delta Delta Delta.

Glen Burns, Gamma Phi Beta; Bill Blackburn, Men's Dorm 8; Mack Shurbet, Block and Bridle Club and Vance Smith, Sigma Kappa.

# UNION RATS, Inc.

Tomato juice sales hit a new peak in the Union as a result of the Dallas weekend.

Wearily travelers with bloodshot eyes grumpily sipped coffee Monday morning.

One sour young man in rumpled crew-neck sweater and levis bemoaned the fact that there weren't two lines for coffee and doughnuts.

"How's a guy suppose to have strength to stand in line for two hours to get a doughnut if he doesn't have a cup of coffee in him?" the gentleman said in between careful drags off his cigarette.

Another sleepy-eyed mister went up to get a coffee refill. His books and morning newspaper were care-

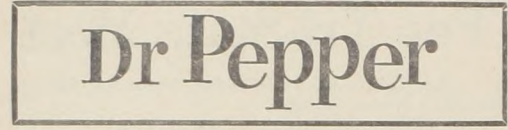

fully marking off his small spot at the table. He returned to find his paper neatly wadded up in the custodian's cart and all his possessions rearranged. His comments (slightly censored) were to the effect, "I realize these gentlemen have duties to perform, but why don't they keep their grubby hands off my paper?"

Let's take a look at the calendar for this week.

Spain's Pamplona Choir will perform this evening in the Union Ballroom. The concert will begin at 7:30 p.m. and is free. All students and faculty members are invited to hear this exceptional group.

"A Man Called Peter" returns to the screen next Sunday and Monday. The Sunday performance is at 2:30 p.m. and the Monday showings are at 4 and 9 p.m.

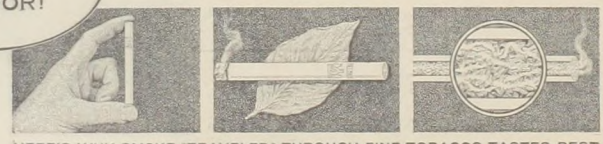

Halloween spooks will be let loose Friday night. A special movie, "Creature Walks Among Us" will be shown in the Ballroom at 7:30. Then from 9:30 until 11:30 grass skirts will fly at the "Pygmy Push" a special Friday night dance. So, grease up your brooms, Rats, your night to howl is coming.

Get satisfying flavor...so friendly to your taste!

- NO FLAT "FILTERED-OUT" FLAVOR!
- NO DRY "SMOKED-OUT" TASTE!

See how Pall Mall's famous length of fine, rich-tasting tobacco travels and gentles the smoke—makes it mild—but does not filter out that satisfying flavor!

HERE'S WHY SMOKE "TRAVELED" THROUGH FINE TOBACCO TASTES BEST

- 1 You get Pall Mall's famous length of the finest tobaccos money can buy.
- 2 Pall Mall's famous length travels and gentles the smoke naturally...
- 3 Travels it over, under, around and through Pall Mall's fine tobaccos... and makes it mild!

Outstanding... and they are Mild!

OUR REPRESENT IN YOUR PLAC NOVEMBER

# Wilson Scholarship Competition Ends

The Woodrow Wilson National Foundation fellowship competition ends Saturday, Dr. D. M. Vigness, foundation representative, announced.

**THIS FELLOWSHIP** program is intended to offset the shortage of qualified college teachers by encouraging outstanding seniors to consider college teaching. Exceptional juniors are also considered.

The Woodrow Wilson Foundation does not accept applications directly from students. Candidates must be nominated by faculty members, but multiple nomination is permitted.

**THE FOUNDATION** annually awards 1000 fellowships for first year graduate study at the university of the recipients choice in the United States or Canada. The student, however, must choose an institution other than his graduating school.

The fellowships carry a stipend of \$1,500 plus full tuition fees and a dependency allowance for wives

and children of married fellows.

**THE PROGRAM** is open to both men and women in the natural and social sciences and in the humanities. Winners are not asked to commit themselves to college teaching, but are required to consider it as a possible career.

After nomination, the candidate will complete application forms and winners will be selected through screening and personal interviews by a regional selection committee from Austin.

**TWO OF THE 1000** fellowships were granted to Tech students Carol Cummings and Lee Huddleston in the 1959-59 competition.

Miss Cummings is doing graduate work in mathematics at Stanford University, Palo Alto, Calif.

Huddleston, a history major, is presently at the University of Texas.

For additional information, call Dr. Vigness, Administration Bldg. 213, ext. 413.

# Students Named For A&M Meet

Tech will send two delegates to the Fifth Annual Student Conference on National Affairs at Texas A&M Dec. 9-12.

Bobby Brown, senior government major from Lubbock, and Johanna Zourmas, senior foreign languages major from Lubbock, were selected to represent Tech. They were chosen by a committee composed of Dr. Sterling Fuller, professor of government, Bill Pflugger, president of the Student Body, and James G. Allen, dean of student life.

# Honorary Plans Sunday Initiation

Phi Eta Sigma, men's undergraduate scholarship organization, will initiate Saturday.

Men students who made 2.5 during either their first regular semester or during the two regular semesters are eligible.

Any student who would like to be checked for eligibility for initiation into Phi Eta Sigma should notify the office of Student Life, Ad. 167.

# Womens Murals Feature Table Tennis, Badminton

Women's intramural managers lounge.

lected an executive committee Wednesday to assist the director in policy-making for the current year.

**THEY ARE** Sharon Thompson, president; Mary Deane Lynn, vice president; and Sandra Seeman, secretary.

Deadlines for the third round table tennis competition and the second round of tennis singles are 5 p.m. Friday. The deadline for the first round of archery is 5 p.m. Monday.

**BADMINTON** doubles entries are due in the Women's Intramural Office by 5 p.m. Wednesday. All captains and managers will change their meeting place to the Home Economics Bldg, Student

**COMPETING** in the first round archery matches are: Chloe Ellen Burnett vs. Patsy Savage; Rosalyn Rough vs. Mary Frank Garrett; Judy Pettitt vs. Kay Graham; Anna Fendrich vs. Perry Thompson; Gwen Brunson vs. Judy Miller; Sally Roberts vs. Marilyn Warren; Linda Pratt vs. Joyce Johnson; and Doniece Silcott vs. Flo Martin.

Glenda Garret vs. Carol McRae; Joan Drummond vs. Judy Kinney; Sarah Beth Nelma vs. Anna Armstrong; Donna Peaches vs. Hannah Kittrell; Nancy Harmon vs. Patty Easton; Jody Ruhl vs. Rose McGuire; Julia Kookon vs. Marty Fincher; Brenda Blackwell vs. Helen Norvell.

FOR VOUGHT VISIT TO YOUR CAMPUS — SEE BOX BELOW

## Five Vought Divisions Provide Engineers Greater Opportunity for Space-Age Advancement

Young engineers, particularly, will be interested in the new opportunities created by Chance Vought's recent realignment into five divisions.

For every Vought engineer, there is a division to make fullest use of his talents and to speed his personal advancement. And, of course, he is backed by the four other divisions whose balanced activities add security to his company and his future.

Vought's realignment intensifies a diversification program which began early in 1959. It gears this 42-year-old aircraft firm for the opportunities of the age of space.

### ASTRONAUTICS DIVISION

Vought is drawing on 12 years' experience in the missile field to obtain broader responsibilities in the race for space. Concentration is on advanced vehicles for space exploration, and on ballistic and anti-ballistic missile systems.

Currently, Vought is readying the four-stage Scout research rocket and its launcher for the National Aeronautics and Space Administration. Also, Vought and other members of the Boeing team are participating in the development of the Dyna-Soar boost-glide vehicle in competition for an Air Force contract. In the human factors of flight, Vought is taking the lead with its orbital flight simulator and space-oriented Cockpit Laboratory.

### AERONAUTICS DIVISION

New generations of manned aircraft and atmospheric missiles, devices for antisubmarine warfare, and many other types of weapons will take shape here.

Among this division's current contracts: a Navy order for development of an environmental protection and escape capsule for aircraft pilots. Other work includes production contracts for three versions of F8U Crusader aircraft, study contracts in submarine detection and classification, and contracts for military and commercial aircraft assemblies.

### ELECTRONICS DIVISION

Vought electronics will be developed, manufactured and marketed in increasing volume. Military systems under development include antennas and related electronics, ground support electronics and antisubmarine warfare apparatus.

### RESEARCH DIVISION

In a new Research Center, scientists of this division will mine new knowledge from many fields. Basic research is planned into astronautics, undersea warfare, the life sciences (relating to human factors of flight), electrogravities and other areas. As it evolves into applied research, this advanced work will materially support other Vought divisions.

### RANGE SYSTEMS DIVISION

Twelve years' experience in remote base operation qualifies Vought for additional business in this new field. The Range Systems team will establish and operate test ranges and test equipment for missiles and space vehicles.

Genesys Corporation, a wholly owned subsidiary company, intensifies Vought's diversification into commercial electronics. Company emphasis is on automation, and its key personnel are engineers experienced in the fields of electronics, computers, magnetic memory, and associated electro-mechanical devices.

### You live at a discount in Dallas

In Texas there is no state income tax and no local or state sales taxes. Low school and property levies add to your savings. Home construction costs — as well as house and apartment rentals — are below the national average. Fuel costs are negligible, and most groceries cost less.

Dallas has grown faster since 1950 than any other U. S. city. One reason is the city's wealth of entertainment and cultural centers. Another reason is the attractive cost of living.

Student engineers are invited to write for further information about new Vought activities, and how you can start your career with one of Vought's five divisions. Please address inquiries to:

Professional Placement Office  
Dept. CN-25

OUR REPRESENTATIVE WILL BE IN YOUR PLACEMENT OFFICE NOVEMBER 2 AND 3

ARMY ROTC SWEETHEARTS FIRE FOR FIRST TIME  
... Jan Cone and Jean Conger admire Copy Stamps' target.

## Sweethearts Use Rifles Males Give Instruction

Army ROTC sweethearts are learning the fine art of riflery. **EVERY OTHER** Thursday afternoon the girls receive instructions and practical training in the use of the rifle from members of the Cadet Brigade staff and members of the cadre in the ROTC rifle range. Members of the regular rifle team also help with the training.

"As near as I can remember, last year was the first time the sweethearts fired as an organized group, said Lt. Col. John F. Henry. **THE CADET** Brigade staff plans to furnish the sweethearts with qualification medals when they qualify with the smallbore weapons. Their medals will be the same as the ones worn by ROTC cadets when they qualify. The only difference will be that there

will be an inscription engraved on the back of the medals. Among those present for the rifle familiarization were Jan Cone, Jean Conger and Copy Stamps. Jan is First Battle Group sweetheart, Jean is Tyrian Rifles sweetheart and Copy is "D" Company sweetheart.

## IN COTTON CONTEST

# Industry Seeks Maid

The search is on for the perfect girl to represent the South Plains cotton industry in the National Maid of Cotton Contest at Memphis, Tenn. This young woman must be between 19-25, be at least 5 feet, 5 inches tall, never married, not wear glasses and been born in a cotton producing state. Official entry blanks may be obtained at the Lubbock Chamber of Commerce or at the local Chamber of Commerce in any South Plains county. Applications accompanied by a photograph must be submitted not later than midnight Nov. 10. The finals will be at 7:30 p.m. Nov. 24.

## LUCKY STRIKE presents

# Dear Dr. Frood:

### DR. FROOD'S MORAL OF THE MONTH

Most college students today do not know the meaning of the word "adversity." Those who do are just a handful of English majors.

Dr. Frood, Ph. T.T.

Dear Dr. Frood: How can I leave my husband without making him happy?  
*Prof's Spouse*

Dear Prof's Spouse: Leave a note saying you'll be back.

Dear Dr. Frood: Our library is full of "no smoking" signs. When I want a Lucky, I have to go outside. Is this right?  
*Furious*

Dear Furious: It's monstrous. But think of the poor souls who go outside only to smoke brand X or Y or Z.

Dear Dr. Frood: Boys are always whistling at me. Do you think my clothes are too snug?  
*Prudence*

Dear Prudence: It's impossible to tell without a picture. Send one. Please.

### DR. FROOD TELLS WHO HOLDS HIS CIGARETTE HOW

I have noticed that the solid, conservative type carries his cigarette between his first two fingers. The nonconformist carries it locked in the bend of his arm. The self-conscious type holds his lighted cigarette in his pocket. The most intelligent species of all carry Lucky Strike (usually between their lips).

Dear Dr. Frood: When raccoon coats swept the campus, I wore a polo coat. When the English bobby cape came in, I wore a raccoon coat. I'm always in last year's style. How come?  
*Dated*

Dear Dated: This is an anxiety complex arising out of being a "late-diaper" baby.

Dear Dr. Frood: I am irrationally, incalculably, irrevocably in love with a girl on campus. How can I tell her?  
*Lovesick*

Dear Lovesick: Use small words.

Dear Dr. Frood: When I listen to stupid people or read anything boring, I fall asleep. What can I do?  
*Superior*

Dear Superior: Yours is an extremely difficult prob mfh zzz z

## COLLEGE STUDENTS SMOKE MORE LUCKIES THAN ANY OTHER REGULAR!

When it comes to choosing their regular smoke, college students head right for fine tobacco. Result: Lucky Strike tops every other regular solid. Lucky's taste beats all the rest because L.S./M.F.T. - Lucky Strike means fine tobacco.

## TOBACCO AND TASTE TOO FINE TO FILTER!

# Techsans End Trip Tired but Happy

by TRAVIS HARRELL  
Treador Staff Writer

A-I-I A-b-o-a-r-d!" the conductor yelled as the train shuddered, lurched and began to ease forward. The Tech student trip was

under way.

**THE ACCUMULATION** of shapely co-eds that had been flirting about the crowded train station were now racing up and down the aisle.

As the train gathered speed, it began rocking and swaying. The students moving up the aisles were thrown from side to side as though they were sea-sick.

"SUCH TORTURE," drooled a male student, slapping his hands back to his side as a shapely feminine form bounced off the corner of his seat.

The exuberant crowd began to settle down to the long nights' activities as the train passed through Sweetwater. Playing cards were out. Chess boards were set up and magazines unfurled. A jazz combo began tuning up in the baggage car where a wild form of dancing was soon underway.

BY MIDNIGHT, anti-sleep parties had been formed. Pillows were pulled over heads to shut out the ear-splitting din of jangling cowbells, drums and other noise-makers.

At 5 a.m., the industrious students paused for refreshments. But, by 7 a.m., they had traded their racket-makers for pillows.

THREE PEOPLE began brandishing pillows and were immediately joined by a dozen or more. Soon, a band of pillow-wranglers were whooping like wild west Indians as they attacked sleepers.

"Such torture," a groggy student moaned as a pillow burst

over his head, filling the car with a thick, brown shower of feathers.

COUGHING and fighting the clinging feathers, students began moving out of their coveted seats. A girl in a black sweater and shorts brushed at the dirty, brown down, only brushing it deeper into her clothes.

In a few moments, tufts of the unsightly feathers were clinging to the seats and clothing of everyone in the car and were drifting into the adjoining compartments.

NEARLY 11 hours after leaving Lubbock, the train pulled into Dallas at 9 a.m. New life seemed to pour into the 511 students as they swarmed off the train, through the station and across the street to Ferris Plaza for a pep rally.

A few yells, a fast parade up Commerce Ave. to the Statler-Hilton hotel and the spirited Raider supporters invaded Dallas.

AFTER A day of varied activities including an exciting football game and a visit to the State Fair, bone weary students began to filter back to the train station for the return trip.

"Such torture," moaned one student as he sat down on his suitcase, removed his left shoe and began massaging his inflamed foot.

FESTIVITIES were light on the return journey. The anti-sleep crowd passed out. Cards were worn thin. Only an occasional par-

ty of stubborn diehards flourished. Shortly after 11 a.m. Sunda the trainload of weary but contented Tech students eased to stop in Lubbock. The 37-hour school trip was over.

## Girls Cry; Eds Laugh

Texas Tech coeds are having the tables turned on them this week as the Rodeo Assn. sponsored Twirp Week begins.

GIRLS are required to ask for all dates and likewise foot the bills.

And to climax the week-long event, trophies will be presented at the western dance in the Re Hall to the boy with the most dates and the girl with the most points. Points will be awarded for special events and types of date.

Twirp License, the rules are sheets explaining the point system will be distributed at the entrance of the Tech Union all week.

Admission to the western dance is 50 cents for those with twirp licenses. Others will be charged \$1. Jimmy Mackey will provide the music.

RULES: Pick the team you think will win and mark "X" after its name. Or, if you think the game will end in a tie, put your "X" in both columns. In the middle will find a "tie breaking game" listed; indicate the score you predict for this game. In case of tie, the winner will be the contestant who gives the score nearest to the actual outcome of the game.

**Rushers, Intramura**

by BILL BLACKBURN

The Baptist Student Union team finally overcame a tough Delta Sigma Pi team Monday by a 13-0 margin. Mike Lundy led the attack for the BSU boys. He found help in the receiving of Speed Nolan, Mike Stretch, and Bill Houston.

MARSHALL JOHNSON handled the tossing chores for the Delta Sigma Pi completed several to toss, Tony Tom, and Greathouse, but was never able to sustain a drive.

After a scoreless first half, Lundy capped a long scoring drive by

**Business Reps To Meet Here**

The tenth annual convention of the West Texas business representatives and teachers will discuss ways of decreasing expenses to increase profits in the office in the Tech Union Saturday.

TOPICS FOR the 9 a.m. to 3 p.m. seminar will include increasing profits through improved office procedures, by dictating better business letters, by decreasing office costs, by education and supervising employees.

A committee will also discuss a national office management association chapter for Lubbock.

Featured speakers will include William J. Speck, president, Speck Office Supply Co., Dallas; William B. Butterfield, vice president for development, Tech; H. C. Bostaman, Briggs Weaver Machine Co., Dallas; Murrell R. Tripp, Western Fire & Indemnity Co.; Ben F. Baldwin, Pan American Petroleum Co.; A. B. Watkins, Dunlap's Lubbock; and Dr. F. L. Moore, management department head, Tech.

**Super S**

It's been said that the atomic bomb "Nautique" stays submerged so long only surfaces to let the crew re-charge. Perhaps for this reason, the Navy has valuable space aboard the "Nautique" only soft-drink vending machine in submarine fleet.

Naturally (or you wouldn't hear at from us) it's a Coca-Cola machine. unrespectably, re-enlistments are respectable.

Ripped lot, those submariners. Get drink, Coke!

# Rushers, BSU Cop Intramural Wins

by BILL BLACKBURN

The Baptist Student Union team finally overcame a tough Delta Sigma Pi team Monday by a 13-0 margin. Mike Lundy led the attack for the BSU boys. He found able help in the receiving of Speely Nolan, Mike Stretch, and Bill Houchin.

MARSHALL JOHNSON handled the tossing chores for the Delta Sigs; he completed several to Sosnowy, Tom, and Greathouse, but was never able to sustain a drive. After a scoreless first half, Lundy capped a long scoring drive by

sweeping the end for the tally. The try for the extra point was no good, and the score stood BSU 6-Delta Sigs 0.

KENNEDY HUFF climaxed another drive for BSU as he snared a Lundy pass in the end zone for the TD. Moore kicked and made it 13-0. The game ended with no further scoring.

In other action Monday, the Church of Christ team took the measure of a well-earned Roman Rusher team by a 1-0 score. Neither team was able to move in the regulation time, but Robert Greenlee connected with David Ivey in the playoff to set the Church of Christ men deep in Roman Rusher territory. The hard-charging C.C. line, led by Morris Shaw, wouldn't let Rusher quarterback Doug Kendrick pull his boys out of the hole.

# Aggies Discuss Trip

Five senior agricultural engineering students will make an evaluation of a student tour, Nov. 2, at the student branch meeting of the American Society of Agricultural Engineers.

THE GROUP toured East Texas farm machinery manufacturing concerns and engineering projects, Oct. 7-11, in connection with a seminar course.

At the Texas Electric Service Company in Fort Worth a field representative told the students all representatives for that company are agricultural engineering

graduates. "HE WAS very encouraging," Richard Gentry, Lubbock senior, commented.

The group inspected a flood control dam on the Clear Fork of the Trinity River.

"WE ARE supposed to design a dam to control flood waters but I didn't even know what one looked like until I saw that one," Don Reddell of Gail said.

The management of the Mitchell Company, Dallas, which makes gin cleaners, auto air conditioners and vending machines, caught the at-

tention of Sabah Ibrahim, Bagdad, Iraq.

"THEY DO NOT have a labor-management problem there because they do not have union workers," he said.

Bob Gray, Ballinger and Roberto Villa Garcia, Inca, Peru, also made the trip.

Among the places visited were General Motors Assembly plant, Arlington; cartographic office of the Soil Conservation Service, Fort Worth; Murray Gin Company and the agricultural machinery exhibits at the State Fair in Dallas.

## Dr. Johnson turns another elegant phrase:

*Sir, if it hasn't got it there, it hasn't got it!*

Old Dr. Sam has done it again—brought his dictionary up to date in terms of modern Winston usage.

**Winston** (win'ston), n. A cigarette with Filter-Blend on one end and a wise man on the other.

**Taste** (tāst), n. What decorators argue about and Winston smokers enjoy.

**Filter-Blend** (fil'tēr-blēnd), n. A happy marriage of art and science. Light, mild, flavorful tobaccos are artfully selected, then scientifically processed for filter smoking.

**Slogan** (slō'gán), n. (e.g., Winston tastes good like a cigarette should). A statement of disputed grammar but unquestioned fact.

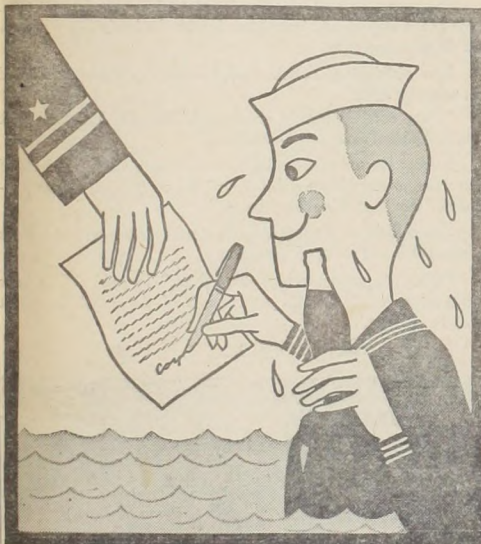

**Front** (frūnt), n. (used in conjunction with the preposition "up"). The section of a filter cigarette where if it hasn't got it, it hasn't got it. Also, the section that counts, the section where exclusive Filter-Blend is to be found.

**Boswell** (bōz'wél). Nickname for a guy who is always hanging around to cadge Winstons from you.

*"There is nothing which has yet been contrived by man by which so much happiness is produced . . ."*

Boswell's Life of Dr. Johnson, Vol. 1, Page 620

## Super Sub!

It's been said that the atomic submarine "Nautilus" stays submerged so long that it only surfaces to let the crew re-enlist.

Perhaps for this reason, the Navy has taken valuable space aboard the "Nautilus" for the only soft-drink vending machine in the entire submarine fleet.

Naturally (or you wouldn't hear about it from us) it's a Coca-Cola machine. And not unexpectedly, re-enlistments are quite respectable.

Rugged lot, those submariners. Great drink, Coke!

# Meredith Praises Tech After Game

CARL GATLIN (33) HEADS FOR A HOLE IN THE PONY LINE

... Holub (55), Weaver (68), and Holmes (76), pave the way

## Gatlin Paces Rushers With 83 Yard Effort

Sophomore Carl Gatlin of Waco, who last week emphasized that football is a thinking man's game, has shot into the lead among Texas Tech rushers as the Red Raiders get ready for Tulane at New Orleans Friday night.

**GATLIN GAINED** 15 of his 83 yards netted against Southern Methodist because he was alert enough to scoop up a fumble

caused by Mustang linemen hitting quarterback Ken Talkington's throwing hand. With the yardage, the young fullback passed the previous leaders, Dick Stafford of Temple and Dan Gurley of Fort Worth, held out because of injuries.

Thanks to those 83 yards, accounting for nearly half of the Raiders' total ground yardage,

Tech had its best rushing of the season — 167 yards — to send its per game average by land to 89.3 yards. SMU limited Tech passing to 70 yards to drop aerial yardage to a still respectable 111.5 a game. Tech is yielding an average of 178.7 yards a game along the ground, 69.8 passing.

**HALFBACK MICKIE** Barron of Childress took over kickoff return leadership, his 72-yarder sending him to 144 on 5 for a 28.8 average. Otherwise, the 21-13 loss to SMU left individual leaders the same—passing, Talkington, Tyler senior, 37 of 78 for 410 yards and three touchdowns; punting, sophomore Bake Turner of Alpine, 39.2 average; punt returns, Turner, 8 for 123 yards, 15.4 average; pass receiving, Turner, 17 for 365 yards and three touchdowns; interceptions, Talkington, 3 for 43 yards; scoring, Talkington, 29 points; and total offense, Talkington, 437 yards.

Texas Tech is now 3-3 for the season. After wins over Texas A&M 20-14, Oregon State 15-14, and Tulsa 8-7, the Raiders have lost to Texas Christian 14-8, Baylor 14-7, and SMU 21-13.

### Picador Gridders Play Shoats Here

First game ever to be played between two Southwest Conference freshman teams in Lubbock is scheduled for Saturday night, when Texas Tech's Picadors are hosts to the University of Arkansas Shoats.

**SWC FRESHMAN** grid play was inaugurated for Texas Tech last fall as Arkansas downed the Picadors 33-0 in Little Rock.

Coach Tom Hamm's frosh, after losing an opener to North Texas State's Eaglets 20-12, defeated the Hardin-Simmons B team 28-9. Arkansas lost to Oklahoma State's frosh 20-14 last week.

## Red Raiders Weary After Hard Battle

by RALPH W. CARPENTER and JOHN PETTY  
Toreador Sports Writers

The injury-riddled Red Raiders, doing battle in the gray shadows of Dallas' Cotton Bowl Saturday, played 60 minutes of football on pure guts and desire.

Long after the heavily favored Ponies from SMU were supposed to have run them out of the stadium, the Raiders fought on motivated by that indefinable little spark that makes champions.

They lost the game, 21-13, but they gained a staunch faith in each of the 30 odd-thousand people who watched the sun drenched battle.

The SMU dressing room was a scene straight from Hollywood. Ecstatic fans pushed and shoved their way into the white washed room, fighting for a chance to see or to speak to this player or that. Mr. SMU Football himself, Don Meredith, had been crowded off into a small side room ordinarily used for taping.

Meredith greeted the uncountable well wishers that flowed at him with his left hand. His right one, the magic hand that launches all the Methodist missiles, he held behind his back. His thumb was still pained from an old injury and he did his best to protect it.

After 15 minutes of unceasing autograph signing, the class All-American began to loosen up and talk.

"We were really glad to come out on top in this one. I'll tell you one thing—and I'm not kidding—Texas Tech is the hardest playing ball club that I've seen.

"They are all good, but that Holub is a great ballplayer. He's All-American in my book, and he should be in everyone else's."

SMU coach Bill Meeks had nothing but praise for the Tech fans.

"It was a tough ball game, and you can't give Tech too much credit. That is one of the toughest teams we've met. Those people in Lubbock should think their lucky stars that they have Weaver and his coaching staff. They are doing one heck of a job out there."

Just across the concrete way, the Raiders were quiet and tired. Some of the players had butted heads with the beefy Pony line for over 45 minutes of play.

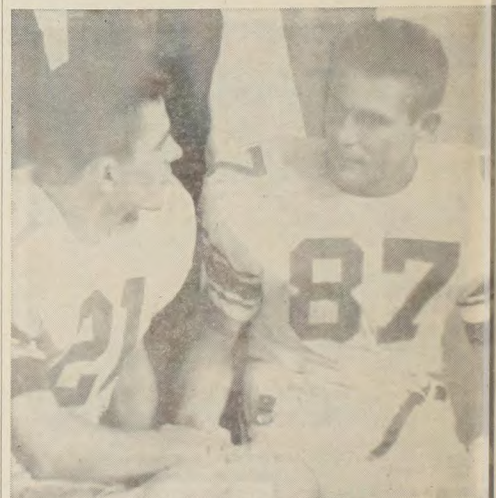

Ken Talkington, Tech's co-captain and quarterback, showed his respect for SMU.

"They (SMU) have a great team. Meredith just stood back there and passed as cool as a cucumber."

Mickey Barron who thrilled Tech fans with a 72-yard kickoff return, pinpointed the game this way: "When (Glenn) Gregory intercepted that pass, it broke our backs."

Coach DeWitt Weaver looked out over the bowed heads of his defeated club and shook his head slowly.

"We have nothing to be ashamed of," he said. "The boys fought all the way, that's all you can ask of them. We must get ready for Tulane."

KEN TALKINGTON AND DON WAYGOOD

... a long, hot afternoon in Big D

RALPH'S

RAMBLINGS

by  
Ralph W.  
Carpenter

After that narrow loss to SMU Saturday the Raiders stand 3-3 for the season. With a few breaks and a few more boys on the squad it could have been 5-1 just as easy.

Heck, let's face it, these boys have done a terrific job for Tech this season. There aren't many of them, but by golly they all come to play. That's a lot more than you can say about a few teams we have seen here in the past few years.

I'll bet there are a lot of people in Dallas who wish their team had just half the heart the Raiders possess. If they did, they wouldn't be sweating their ball game with mighty Texas Saturday.

With tough Texas Christian and SMU out of the way the Raiders may have a chance to come out on the winning side once more. If they can continue to play with everything they have, they may be able to win at least three more this season.

This jotter hopes they go down to New Orleans and whip the daylight out of the Tulane crew. There are at least two good reasons why they should:

1. To show the homefolk that the hard fought game against SMU was no fluke. Also to prove that they can win on the road without a lot of Tech fans in the stands to cheer them on.
2. They will be playing before a host of newsmen who will be in the area to cover the LSU-Mississippi tilt on Saturday. This will be an excellent chance to pick up some prestige for our football program.

★—RWC—★

We had the opportunity Saturday to meet SMU's Don Meredith. He seems to be a good guy on and off the field. The SMU flash had nothing but praise for the Raiders, especially Talkington and Holub.

★—RWC—★

Edsel Buchanan, director of intramurals, has announced that all contestants in tennis, handball, and badminton should check by the men's gym to see their pairings. Play is now underway.
