BASEBALL WAS NEVER LIKE THIS—but this is the way it will appear Monday night as the dance team from "The Mighty Casey" performs in the Tech Gym. Left to right are Martha Kenley, Clyde Carroll, Mariana Wilson, John Montgomery, Sally Miller, Carleton Holloway and Lynnita Jacobs. (Staff Photo by Joe Spears)

'Mighty Casey' Opens Monday

Opening curtain time for the three-night run of William Schuman's "The Mighty Casey," largest musical ever to be performed on Tech Campus, is 8:15 Monday evening.

A musical dramatization of "Casey at the Bat," the baseball story will be told in dance and song by a cast of over 100 persons in Tech Gymnasium. Identity of the person portraying "Casey" will be withheld until time of production.

Directors of the musical are Cleve Genzlinger and Paul Ellsworth of the music faculty, assisted by student directors Bruce Jackson and Kay Adkins, with Robert Wham serving as student administrator.

Actors Named

Students portraying leading roles in the production include: Louise Crook, Merry; Don Stewart, the watchman; Carl Mathis, Thatcher, the catcher; Richard Watkins, Snedeker, the pitcher; Wayland Stephens, the umpire; Kenneth Prickett, the concession-

aire; Robert Wham, manager; Cecil Morris, a male fan; Carol Schultz Carthel, a female fan; and Chuck Pijan, 9-year old son of Mrs. Dorothy Pijan, as Charlie.

Mariana Wilson will be choreographer for the production's dance team, the Hawks. The seven members of the team include Lynnita Jacobs, Martha Kenley, Sally Miller, Carleton Holloway, Stan Powers, Clyde Carroll and John Montgomery.

Mudville fans will be portrayed by members of Phi Mu Alpha Sinfonia, Mu Phi Epsilon and Tau Beta Sigma. They will form a bleacher chorus of about 75 mixed voices.

Gym Will Be Diamond

Members of Kappa Kappa Psi, honorary band fraternity, will make up the marching band and Sigma Alpha Epsilon and Phi Kappa Psi members will make up the Mudville and Centerville baseball teams. The Tech Theatre Orchestra will also provide background music for the production.

The Gymnasium floor will be

laid out into a baseball diamond for the production and the audience will sit in the stands to give the effect of an actual baseball game," states Genzlinger.

It will be done in Greek fashion with Stewart as narrator. A parade precedes the actual production which is done in three scenes: "Before the Game," "The Game," and "After the Game."

Tickets may be purchased for \$1 from members of the five sponsoring organizations: the Allegro Music Club of Lubbock, Phi Mu Alpha Sinfonia, Mu Phi Epsilon, Tau Beta Sigma, and Kappa Kappa Psi.

Drive By Circle K To Aid Milk Fund

Circle K International, campus Kiwanis organization, is sponsoring a drive for old clothing to be sold. Proceeds will be added to the Children's Milk Fund, which supplies free milk to elementary school children.

Barrels have been set up in each of the dormitories for contributions by students, and will remain in use until May 15.

The campus drive is in cooperation with Hub City Kiwanis Club, which recently held a week-long campaign.

Over 2,000 students in Lubbock elementary schools go without milk for lunch because they cannot afford it, according to Bruce Lokey, rummage sale chairman. The fund last year distributed 30,000 one-half pints of milk to students. During the month of March over \$180 was spent in giving milk to children in 10 city schools.

All clothing obtained during the drive will be sold at a rummage sale in the fall.

History Presented On Parking Problem

Editors note: This is the first in a series of interpretive articles on Tech's traffic and parking problems. Future articles will give information about plans for the future and where the \$3.50 parking fee goes.

By WAYNE JAMES
Toreador Editor

Tech has had a parking problem for several years, but as enrollment continues to mount, the situation becomes more acute. College officials are working to overcome the problem, but they are fighting against great odds.

Recent figures indicate that there were 4,982 automobiles registered to Tech students during the fall semester and 1,080 more registered to faculty and staff personnel for a total of 6,062 cars.

It has been estimated that there are approximately 2,058 paved parking spaces available and approximately another 1,920 spaces on dirt lots.

Because many students park on city streets and parking lots adjacent to the campus, it is impossible to estimate just how many Techsians own cars.

Two Alleviating Factors

Comparing the number of cars registered to the number of available spaces may cast some light on the dark problem of trying to park an automobile between the hours of 8 a.m. and 5 p.m. anywhere within shooting distance of one's destination on campus.

Even taking into consideration the number of automobiles parked on campus by visitors, (which would seem to make the problem even more confused) there are at least two factors that help somewhat to alleviate the problem.

(1) Some off-campus students

do not bring their cars on campus.

(2) Cars leaving the campus between classes provide some spaces for those entering.

Crux of Problem Stated

An overall glance at the Tech motorist's dilemma indicates that the crux of the problem, quite simply stated, is one of too many cars and not enough paved parking places on certain parts of the campus and not enough drivers willing to park on the ungraded lots located a little further from their classes.

The alarming fact is that the number of automobiles increases with every enrollment, but the facilities for handling the additional cars have not likewise progressed. The college has not increased the facilities due to an increase in the construction costs. See **FIRST PARKING**, Page 3

Greek Sing Song Stated Saturday

Approximately 806 students will participate in Tech's fourth annual inter-fraternity sing Saturday at 7:30 p.m. in the Monterey High School auditorium, sponsored by Zeta Sigma Chapter of Phi Mu Alpha, professional music fraternity of America.

Sororities will sing first, then the fraternities. Sororities will sing in the following order: Delta Delta Delta, Zeta Tau Alpha, Alpha Chi Omega, Gamma Phi Beta, Pi Beta Phi, Kappa Kappa Gamma, Alpha Phi, Kappa Alpha Theta, Sigma Kappa and Delta Gamma.

The order of fraternities appearances is: Phi Kappa Alpha, Sigma Nu, Sigma Alpha Epsilon, Phi Delta Theta, Phi Kappa Psi, Kappa Sigma and Phi Gamma Delta. Each fraternity and sorority will sing two songs, one of their choice and the other their organizational song.

Trophies will be given to first and second place winners.

Phi Mu Alpha Glee Club will present a variety of songs while judges are selecting the winners. Either the Phi Mu Alpha jazz combo or the choir also will perform during the program.

Fee to participate in the sing was \$18.29 for each fraternity and sorority. The fees pay for the auditorium, judges and trophies.

Sigma Alpha Epsilon and Pi Beta Phi were the winning fraternity and sorority last year.

Garcia and Mack Receive Awards

Gabriel Garcia and Martha Mack were presented the two top foreign language awards last night.

Garcia received the 1957-58 Roscoe Wilson for \$250 and Miss Mack received the German Leadership Cup at the Foreign Language Awards Program.

Twenty-three other students also received recognition and awards for their part in Tech's foreign language program.

Frau Dr. M. Szollar-Groewel, German consul, was featured speaker at the awards program. She was one of the co-founders of the Christian Democratic Union with Dr. Konrad Adenauer.

Blasting-Off, Tighten Your Helmets The Next Planet You See Is The Moon

By DEANIE KILLION
Toreador Staff Writer

All aboard! The rocket ship to the moon is ready for take-off.

Leaving at 4:30 p.m. Sunday from The Museum planetarium on campus, passengers on the long-awaited trip will blast off with Jimmy Humphreys as space control commander.

Humphreys will take his listener-viewers on "the trip into fantasy which has always intrigued man and in the course of time, may prove to be quite feasible," says Dr. W. C. Holden, director of The Museum.

To make the trip into space, full equipment of the planetarium will be utilized, plus special equip-

ment built for the trip. This will enable passengers to see projections of earth, moon and sky and mountains of the moon after landing.

Curiosity is the main reason expressed by most of the passengers already planning to make the trip. Others state a desire to see what can be seen through a telescope set up on the moon and many want to see what minerals can be found on the moon.

Anyone may make the trip by purchasing a ticket for 50 cents or by presentation of Museum Association membership card.

The trip will be made each Sunday in May at 4:30 p.m. in the planetarium east of The Museum.

A BEAST AND A BEAUTY—Leo Hatfield, Pi Kappa Alpha, and Nan Kelly, Zeta Tau Alpha, were winners of the Alpha Phi Omega Beauty and the Beast Contest Wednesday night. Trophies the winners are holding will be presented to the victors' fraternity and sorority. Names of the winning fraternity and sorority also will be engraved on a plaque in Saddle Tramp Circle. (Staff Photo by Joe Spears)

HOW TO PLANT A SPRING GARDEN

- First, plant four rows of peas:
 - Presence
 - Promptness
 - Preparation
 - Perseverance
 - Next to these plant three rows of squash:
 - Squash Gossip
 - Squash Indifference
 - Squash Criticism
 - Then plant five rows of lettuce:
 - Let us obey rules and regulations
 - Let us be true to our obligations
 - Let us be faithful to duty
 - Let us be loyal and unselfish
 - Let us love one another
 - No garden is complete without turnips:
 - Turn up with a smile
 - Turn up with new ideas
 - Turn up with the determination to make everything count for something good and worthwhile
- Have you planted your Spring garden yet? It is not too late.

—Compliments of William C. Young

First Parking Plan Unsatisfactory

(Continued from Page 1) — of building paved lots and due to the long range building plans of the college.

In the fall of 1953 the college was forced to take definite steps to cut down congestion at key parking areas and to relieve traffic confusion.

A plan was adopted under which each student and faculty member had to register his or her car and pay a \$1 per semester registration fee. In return each driver was assigned a particular lot on which to park from 8 a.m. until noon and was given a parking tag for his license plate.

Parking lot assignments made by the Traffic Committee were based on the number and location of each driver's morning classes and his classification. In addition, in the spring semester consideration was given to the number of violations received in the fall. In the spring of 1954 there were 1,550 applications for parking permits and only 700 paved places available.

The plan used in 1953-54 proved to be unsatisfactory because it took so much time to assign lots and because it was so easy to steal the metal tags that distinguished the lots.

By the start of the 1954 fall semester lots had been divided between the students and the faculty and an additional 980 paved parking spaces were provided. During this semester 3,761 students and 400 faculty and staff members registered cars.

The Dean of Men's office was given the tremendous job of handling the traffic violations. Students were given 48 hours to report to the office in answer to each violation. The first ticket served as a warning, the second as the last warning and on receiving the third ticket, the car was restricted from the campus.

Tuesday: Future Plans.

Blood Drive Needs Student Donations

Tech students are being appealed to for contributions to the National Defense Blood Program drive which will continue throughout 1957.

Donors may come to the local blood bank at 2318 19th from 9 a.m. to 4:30 p.m. Monday, Tuesday, Thursday and Friday and from 10 to 4:30 p.m. Wednesday, said Mrs. Joann Adams, director of Civil Defense blood program in Lubbock.

The blood will be shipped to California to be processed for the national program, and the NDBP will in turn control the distribution of the blood to be used for shock and treatment in case of natural or war disaster. In case of a tornado or other disaster here it would be shipped back to Lubbock, Mrs. Adams stated.

Donor requirements are physical good health and the absence of recent infections or yellow jaundice. Minimum donor age is 18 years.

TOREADOR

The Treador, student newspaper of Texas Technological College is regularly published each Tuesday, Thursday and Friday on the campus at Lubbock by the associated students of the College, and is financed by student activity fees, advertising and subscriptions. Member, Associated Collegiate Press

San Antonio Considers Plans Of Tech's Landscaping Class

By JOAN ABEL
Toreador Staff Writer

Since the beginning of this semester, the eight members of Landscape Design 442 have been working busily on a scale model of a section of San Antonio which will outline a redevelopment plan for the downtown area.

San Antonio city officials and planners are hoping to bring shoppers back downtown by developing the small city parks more fully and by adding trees and grass to undeveloped area.

Working on the task are Don Vinson, Marilyn Floeck, Wallis Champion, Dan Kamp, Jim Thornton, Bill Apperson, Bill Johnson and Dave Loughridge. Dr. Elio Urbanovsky teaches the class.

Individual Projects

Each of the students, besides helping on construction of the scale model, has undertaken an individual project in connection with the redevelopment plan. Vinson is working on maps and statistics showing the number of cars going into the downtown area each day, their reason for going, mode of travel, and the specific street used for the trip.

Miss Floeck is studying the actual evaluation of property and

buildings in that area. Freeway maps are being studied by Kamp, and Thornton is working on land use—what type of business is carried on in each building in the area.

A trade area map showing San Antonio's relationship to the rest of Texas in commerce is being studied by Johnson.

City Officials Will Approve

Champion, Apperson and Loughridge are concentrating on completing the model. However, all members are working on it during four-hour labs Monday through Friday.

Very few San Antonio residents are concentrating on completing the model. However, all members are working on it during four-hour labs Monday through Friday.

"The presentation of this model will enable people to see this or some other type of project to redevelop the downtown area," said Dr. Urbanovsky. "It will stimulate people to do something along those lines. City planners," just hope to get the seed rooster."

In connection, 24 Tech architecture seniors also have worked in connection with the project.

Last weekend the eight park management majors made one of several trips to San Antonio to consult with the City Planning Office. While there, they toured the park system and also flew over the city to see it from the air. About \$400 worth of ground and aerial photos have been used to construct the model. Duane Miller, graduate student in park management, accompanied the group.

TECHSANS TALK BACK

I am writing this letter to thank the different organizations for their participation in the World University Service Drive.

The hard work and avid interest of several students and organizations was deeply appreciated by me and my committee. I also want to thank the Toreador staff and editor for the splendid publicity and interest they took in this drive.

The amount contributed was \$412.90. We narrowly missed our \$500 goal. Here are the organizations and contributions:

Zeta Tau Alpha, \$10; Kappa Alpha Theta, \$10; Tech Vets, \$10; Alpha Phi, \$10; Delta Gamma, \$10; Baptist Student Union, \$10; Knapp Hall, \$10; West Hall, \$30; Gordon Hall, \$50; Bledsoe Hall, \$30; Horn Hall, \$20; Doak Hall, \$30.51 and Sneed Hall, \$31.47.

Other contributions were from the Fraternity Car Wash, \$55.30; APO Mile of Pennies, \$46.62; Faculty Baby Contest, \$7.50; Miscellaneous, \$41.50.

Mary Ellen Carr
WUS Chairman

Science Club Plans Nuclear Discussion

A symposium on "A Nuclear Program for a College" is planned for the final meeting of the Texas Tech Science Club, at 7:30 p.m. Wednesday in Home Ec 164.

Participants and their topics are Dean of Engineering John R. Bradford, "College Research Reactors;" Jerry Bell, instructor of physics, "Accelerators;" Dr. A. G. Oberg, professor of chemical engineering, "Equipment for Handling Radio-active Material;" and B. F. Freasier, instructor of chemistry, "Radiation Damage to Materials."

Following the symposium, officers for 1957-58 will be elected by the group.

Plaques on the front of the Administration building represent the great seals of the six nations under whose flags Texas has served: France, Spain, Mexico, the Republic of Texas, the Confederacy, and the United States.

Graduation Report Deadline Is Set

Seniors expecting to graduate who did not meet the April 2 deadline on filling out graduation reports must get approval by their dean not later than Friday, May 17, the Registrar's Office announced.

Also seniors taking correspondence courses must have grades in by 5 p.m. Monday.

Senior invitations will be in May 15 at the Tech Bookstore, store officials have said.

The Registrar's Office has given a tentative list of 841 seniors expected to graduate in June.

Legislators For Orientation

Group discussions of new legislation will be held at the annual legislative assembly Saturday in the room.

Registration will be followed by a luncheon for the legislators. Mrs. E. N. Jones will be in charge of the luncheon. The legislators will be informed by the chairman, emphasize

"Learning Legislative" is to be the workshop. Problems of organization, participation, enforcement of dormitory regulations will be discussed.

There will be a discussion of the workshop. For the first time, the legislators will divide into groups.

Miss Anna Jo F. will meet with the presidents and AWAs from each dormitory for a discussion of executive committee. Mrs. Alice May, rector of the freshmen legislators, will discuss their individual sessions.

The remainder of the session will be devoted to the

Theta Sigma Initiates

Four women students became pledges of Theta Sigma Phi women's professional fraternity, in a ceremony held at 6:30 p.m. Tuesday at the home of Mrs. Louise A. B. 3110 21st.

Joan Abel, Nita H. of Stone and Carl were selected for membership on the basis of grades and character.

Dr. E. N. Jones, professor of English, will speak to the girls on the pledge service. The girls will receive school textbooks.

Members of the Theta Sigma Phi group have been attending the meeting of the chapter.

Legislators Meet Tomorrow For Orientation Workshop

Group discussions and orientation of new legislators will highlight the annual legislator workshop Saturday in the Union Ballroom.

Registration will begin at 11:30 followed by a luncheon at 12:00. Mrs. E. N. Jones will be speaker for the luncheon. The workshop will be informal. Anita Hope, chairman, emphasized.

"Learning Leaves of Leadership" is to be the theme of the workshop. Problems such as organization, participation and enforcement of dormitory rules and regulations will be discussed.

There will be three separate discussion periods during the workshop. For the first period, the girls will divide into three groups.

Miss Annah Jo Pendleton will meet with the presidents, vice presidents and AWS representatives from each dormitory for a discussion of executive problems.

Mrs. Alice May, resident hostess for Drane will meet with the freshmen legislators for a discussion of their individual problems.

The remainder of the legisla-

tors will meet together to discuss organization and procedure to be used in wing meetings.

The entire group will then assemble and reports will be made. During the third period, there will be five discussion groups. Leaders of these groups will include Sue Shugart, Betty Smith, Susie Smith, Jean Schepers, and Cora Jo Lilly.

In addition, each dormitory will present a short skit. The workshop planning committee includes Miss Hope, chairman; Nancy Carlock, arrangements; Penny Randal, publicity; Nancy Wilton, program; Mary Ann Lindley, reservations.

Party, Picnic Set

A shipwreck costume party is slated by Delta Gamma sorority tonight beginning at 6:30 at the home of Mrs. John J. Christmann, 4610 W. 19th.

The party will include swimming, dancing and refreshments.

Officers Named for New Women's Dorm

Selection of officers for the new women's dorm next year was completed Monday night.

Joan Roberts was named secretary; Ernestine Wood, treasurer; Deann Buske, big-little sister chairman; Candy Parker, chaplain; Sally Miller, social chairman; Janice Green, co-social chairman; Sandra Broome, publicity; and DeLores Hutto, food chairman.

Other officers elected earlier this spring included Gaynelle Williams, president; Betty Alice Lovelace, vice president; and Sandra Shields, AWS representative.

Phi Psi Dance Set

The annual Phi Kappa Psi dinner dance begins tonight at 7 in the Palm Room, with a Southern Plantation setting.

Members, dates and guests will dance to the music of the Esquires.

Foster To Jazz School

Professor of Music Jule Foster has been named dean of the new School of Jazz, scheduled Aug. 12 to Aug. 30 at Lenox, Mass.

The School of Jazz, Inc., is a

non-profit organization formed by jazz musicians, critics and writers. The first session this summer will be held at the Berkshire Music Barn. Enrollment is limited to musicians and 24 auditors, or non-playing students.

Foster is the first faculty appointment to be made by the group. Famous names in the jazz field are to teach instruments, composition and arrangements.

Seniors Honored

Graduating seniors of Alpha Phi and Sigma Kappa sororities are to be honored at breakfasts Sunday.

Members of Alpha Phi will meet at the Chicken Shack at 8 a.m. Sunday for a "Good-bye" breakfast, with a program planned by pledges. Later the group will attend services at First Methodist Church.

Sigma Kappa members will have breakfast at Walden's Restaurant at 8 a.m. Later they are to go as a group to St. Elizabeth's Catholic Church.

Delta Gamma Picnic

Sunday, Delta Gamma's will entertain members of Kappa Sigma fraternity with a picnic at Silver

Falls. The picnic is a result of a bet on a baseball game between the two groups, with the Kappa Sigs winning 41 to 40 in one inning, plus a picnic lunch.

Picadors Smash OC In Finale

By BILLY ELLIS
Friday Sports Editor

Big Charles Flanagin pitched a masterful two-hitter, and his mates provided him with more than enough runs, as the Texas Tech Picadors blanked the Odessa Junior College Wranglers, 12-0 yesterday afternoon in the season finale at Tech Diamond.

Flanagin, 220-pound righthand-

er from Dumas, held the visitors hitless for four and two-thirds innings in going the distance for his second win of the year. The big fireballer struck out seven and walked only one, having his opposition under control most of the way.

The Odessa crew had lost a preceding game to Amarillo College, 17-7, in a contest that de-

ceded the Texas Junior College West Zone championship. Upon request, Tech's game was shortened to seven innings, since the play-off went the full nine frames.

The Picadors went down in order in the first inning, but scored seven times in the second to ice away the game. Flanagin received credit for the first RBI, which was to be enough to win, when he

walked with the bases loaded. Third-baseman Gary Wetter followed with two-run single, and shortstop Kenneth Talkington doubled home two more runs to put the game out of reach.

The Tech Frosh scored five more runs in the fourth on hits by Wetter, Talkington, leftfielder Ken Warren and rightfielder Todd Henson, who replaced starter Bill Dean. Oddly, Tech's "big bats" were silenced by Odessa. Of the top five hitters going into the game, only first-baseman Bruce Boyd collected a hit, but the rest of the lineup came through, with Wetter, Talkington and Warren smacking out at least two hits each.

Raiders Close Season

Rain and wet grounds in Wichita Falls have caused the cancellation of the baseball games between Texas Tech and the Shepard Air Force Base Senators today and tomorrow. Thus the Red Raiders find their season prematurely completed, since the Shepard games were the last on the schedule.

Coach Beattie Feathers' squad finished with a 7-4 season mark, which is the best turned in since the sport was revived in 1954. Last year's team finished with an 8-7 record, only other winning year in the four-year period.

a highly-respectable earned-run average for his college career. Usually the workhorse on Tech's pitching staff, Chase missed a couple of turns on the hill this season because of a pulled arm muscle, but still worked in over half the games.

Henderson, a Jacksboro grad, led the Raiders in hitting with a .343 batting average. Big "Mo" had 12 hits in 35 trips to the plate, including 11 runs scored, eight runs-batted-in, a pair of doubles and a triple.

Along with rightfielder Darrell Summers, Henderson led the team

seven. in stolen bases, as each swiped

CHASE HENDERSON

Only two seniors were on the starting team this year, but they will be hard to replace. They are pitcher Leo Chase and shortstop Monroe Henderson. Chase was the top hurler on the staff this season, and Henderson led the team in hitting.

A 185-pound righthander, Chase has been a Raider starter for all four years of "modern" baseball at Tech. The Amarillo athlete had a 3-2 record this season, but with luck could just as easily have been 5-0.

Complete records are not available, but would show Chase with

Netters Down H-S For Seventh Win

Texas Tech took its seventh tennis win of the season yesterday afternoon on the varsity courts, downing Hardin-Simmons, 4-2. The Red Raiders took three wins in singles competition and split even in the two doubles matches, to make their season slate 7-3-2.

David Kent, playing No. 1 singles for the second-straight day, beat Jerry Goad of H-SU, 6-4, 4-6 and 6-0. Billy Edg Gowan took the No. 2 match over Wayne Miller, 2-6, 8-6 and 6-3. Dick Spiers won No. 3 singles, beating Freddie Kniffen, 6-8, 6-2 and 9-7. Fred is the brother of Tech's Johnny Kniffen, who lost the No. 4 match to Jackie Newton, 6-4 and 6-4.

Hardin-Simmons took the No. 1 doubles match, with the Goad-Miller team besting Kent-Gowan, 8-6 and 6-3, but Tech retaliated in the No. 2 event, as the Spiers-J. Kniffen duo downed Newton-F. Kniffen, 6-3, 6-4.

We'll shell out \$25 for all we use—and for hundreds that never see print. So send stacks of 'em with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, N. Y.

LUCKY STRIKE CIGARETTES

MILLIONAIRES: do your friends yawn at yachts? Do they think diamonds are dreary? Here's a present that would make even a banker hanker: introduce him to Luckies! While you're at it, be a sport: give him a whole *Startin' Carton!* A Lucky is all cigarette... nothing but fine tobacco—mild, good-tasting tobacco that's TOASTED to taste even better. Invest in a carton yourself. You'll say Luckies are the best-tasting cigarette you ever smoked!

Luckies Taste Better

"IT'S TOASTED" TO TASTE BETTER... CLEANER, FRESHER, SMOOTHER!
