LUBBOCK, TEXAS, THURSDAY, MARCH 2, 1933

TEXAS TECH

NUMBER 21

John W. Carpenter To Speak At Engineer Banquet

Chamber Of Commerce To Dissolve; Blue Key Fraternity To Organize

Prexy's Paragraphs

BY BRADFORD KNAPP

An institution is but the product of men's lives. The Texas Technological college is not alone a thing of brick and steel and stone, of trees and shrubbery and material things. It is the gradual product of lives of men and women who have thought the institution, loved it, lived its life and been a part of it, and whose thoughts and lives have been translated into events, history, achievements and records of the institution.

E. L. Dohoney was a man of this character. He was here at the very beginning. He took the materials of the institution when it was in the very formative period and carefully constructed that most important office in which the records of its achievements are kept. Patient, kindly, earnest and devoted to his task, he set a high standard in doing a most important work for the whole institution and for every student who has become a part of it.

It is worth while to remember how one has served, what one has done, but somehow I personally like to remember the man, the personality, the inspiration of the individual life. The solid and substantial character of our departed friend made sure and certain the qualities of the service he rendered to this institution.

A life well-spent, a character uprightly sustained, is no slight legacy to those of us who must take over. His life indeed was a difficult place to fill.

The most important service which an executive can render to an institution is the task of choosing the men to fill its various positions. It is not often that such a decision should be made hastily. When it is made, it will be our most sincere purpose to choose wisely and well in the interest of the institution and the work to be done.

Constantly in reports which have been circulated about this institution, one finds the statement that we are all one-sided and that the real purpose, which the founders had in mind has not turned out to be the trend of the students who have come to the institution. It takes time and leadership to reach an objective in education. The task of establishing technical courses is slower and more laborious than those branches which lead to general education without technical objectives. A paragraph from one of the reports attempts to give the number graduating from the so-called technical divisions. Strange to say, the report attempts to give the graduates of 1930-31, but inadvertently gave the figures for the year 1929-30. The figures for 1929-30 were for the third real class graduating from the institution and make the poorest showing in the whole record. A few students graduated in the year 1927-28. For some reason, the year 1929-30 was not the year that should be chosen to show the true situation. Here are the figures by years:

In 1927-28 the Bachelor's degrees conferred were: 11 in Agriculture, 3 in Engineering, 10 in Home Economics and 78 in Liberal Arts. In 1928-29, 12 in Agriculture, 19 in Engineering, 14 in Home Economics and 130 in Liberal Arts. In 1929-30, 16 in Agriculture, 22 in Engineering, 7 in Home Economics and 127 in Liberal Arts. In 1930-31, 24 in Agriculture, 38 in Engineering, 24 in Home Economics and 180 in Liberal Arts. In 1931-32, 29 in Agriculture, 30 in Engineering, 29 in Home Economics and 151 in Liberal Arts.

If we take those in Agriculture, Engineering and Home Economics, we find the percentage of technical graduates to all graduates to be as follows: 23.7 per cent in 1927-28, 25.7 per cent in 1928-29, 26.2 per cent in 1929-30, 35.2 per cent in 1930-31 and 36.4 per cent in 1931-32.

If we were to add to these the groups in Liberal Arts courses which might reasonably be designated as technical, the picture would be changed further. For example: In 1931-32, 81 out of the 150 graduates in Liberal Arts were in such subjects as Biology, Chemistry, Economics and Business Administration, Education, Zoology and Physics, while the balance were in such subjects as History, Government, Languages, Mathematics, Music and Speech. This would make 71 per cent of the graduates of last year taking either scientific or technical courses in preparation for definite vocations. This is quite a different picture from the one presented in the report mentioned.

Luella McCrummen has been receiving treatment at the Lubbock sanitarium.

Installation Service To Be Held Next Monday Night

Monday, March 5, marks the end of one of the oldest of campus organizations and the inauguration of another to take its place. After that date, the Tech Chamber of Commerce will become the sixty-fifth chapter of the Blue Key, national honor fraternity which functions the same way in colleges that Rotary clubs do in towns and cities.

Formal installation services of Blue Key will be observed in the banquet rooms of one of the local hotels Monday evening at 7 o'clock, the oath to be administered to 37 men students by a ranking member of the college staff. Talks will be given on the history and emblem of the fraternity and the future plans of the Tech body.

Work Reviewed

The past work of the Chamber of Commerce has coincided exactly with the aims set forth in the charter of the national organization. Non-social and non-political methods have predominated, a democratic spirit prevailing among the members at all times.

During the six years of its functioning, it sponsored many worth-

ing. The inspiration of the individual life. The solid and substantial character of our departed friend made sure and certain the qualities of the service he rendered to this institution.

Rev. Barnett Gives Lecture Last Thursday

Speaks On Episcopal Church History To Members Of The Wesley Foundation; Speaks Again Tonight At 7:30

Reverend Lyle S. Barnett, rector of St. Paul's-on-the-Plains Episcopal church, spoke briefly to the discussion group of the Wesley Foundation on Thursday, February 23, at the home of Mrs. T. C. Delaney, 2411 Fifteenth street.

Reverend Barnett gave succinctly the history of the Protestant Episcopal church, showing its relation to the Anglican church. "The Protestant Episcopal church is daughter to the Church of England, or Anglican church, in the same way that the United States is daughter to England," he explained. "The Episcopal church is not a branch of the Catholic church, nor was it established by Henry VIII, as many believe."

Similarities and differences of the Episcopal church to other modern Protestant denominations were shown by Mr. Barnett. Numerous questions concerning the services, the latitude of worship allowed in the church, and the creeds of the Episcopal church were made clear.

Tonight at 7:30 at 2411 Fifteenth street, Reverend Barnett will continue his lecture on the Episcopal church. This subject will be of especial interest to many Tech students, and all are invited to be present.

Plans were made by the group to attend en masse a service of each church which has been the subject of the discussion this term.

Third All Girls' Dance To Be Given In College Gym

An all girls dance, sponsored by the WAA this term, will be given in the college gymnasium tonight. Girls are asked to wear overalls or aprons. Admission will be 25 cents per couple. All girls are invited.

Dean Margaret W. Weeks of the school of home economics received medical treatment at the Lubbock sanitarium this week.

Pioneer Storekeeper Is First Lubbock Settler

BY ELIZABETH DRYDEN

Water! Water! a blessed word to the pioneer after days of dusty travel.

These were the words that came from the lips of George W. Singer, the first owner of a store in this part of the state, after a day of hard travel. But he was mistaken, it was not water, but a mirage, one of those peculiar phenomena of West Texas.

Lured by the buffalo trade, Singer, a pioneer of the plains ventured out on the plains with a wagonload of merchandise in 1879.

After days of monotonous riding he at last sighted a small lake fed by a spring in the Yellow House Canyon. At the head of Yellow House creek, he built a square "boxlike" store with the lumber which he had hauled all the way from Fort Worth. He unpacked his goods, and started waiting for customers.

The first store in this part of the state was like a huge box with no ceiling and only a rude

Resolutions To Retain Status Of Tech Passed

Farm And Home Conference To Urge Better Representation Of West Texas On Board Of Tech And A. & M.

Leidigh Talks

Harbaugh Gives Demonstration Of Big Team Hitching; Knapp Discusses Cooperative Work Of Markets

Resolutions demanding retention of Texas Tech as constituted at present and representation of this section of the state on both Tech and Texas A. & M. college boards was adopted by the fourth annual chapter of the Blue Key, national honor fraternity which functions the same way in colleges that Rotary clubs do in towns and cities.

When questioned on the case, District Attorney Clyde James said: "The public may rest assured that it is the intent of this office to prosecute Charles Cobb to the fullest extent of the law."

Charles O'Neal has been appointed judge of the Texas Tech Pre-Law supreme court.

Winn Prize

The Hardy community was awarded a place on the program of the farm and home conference by virtue of the fact that it had won first prize in the community program contest of 1932. Union Community and Becton community won the second and third prizes.

More than 200 persons attended the farmers' supper of the Farm Lubbock ballroom Thursday night, and Home Conferences in the Hotel John T. Orr, Dallas county farmer and business man, was principle speaker. Dr. Bradford Knapp also spoke.

Leidigh Talks

"You are doubtfully because of what you represent," said Dean A. H. Leidigh of the school of agriculture, in his welcoming speech Thursday morning. He discussed briefly state and national legislation on agriculture and its relation to Tech.

Stirling C. Evans, district county agent leader; James D. Potts, senior student of Tech, and H. M. Bell, assistant agronomist at Tech made talks on soils, their conservation and their reaction to moisture control during the discussion of Tech.

The regular bi-weekly social hour for all Baptist students will be on Saturday night this week, in the young people's auditorium, with Frances Winn in charge. The date was changed from Friday night because of the B. T. S. study course being taught at the church each night this week.

Books offered for young people in this week's study are: "Investments in Christian Living," taught by Rev. R. C. Campbell; "People Called Baptists," by Dr. F. B. Malone; and "Modern B. Y. P. U. Methods," by Raymond Dunn.

The last week in April has been set as the date for Baptist student revival, and Raymond Robinson, Tech freshman, has been placed in charge of musical arrangements. Robert Flinn, state B. S. U. president and student in Southwestern Baptist Theological seminary, will have charge of the services.

BSU To Change Date Of Meet

Group To Meet Saturday Instead Of Friday Due To BTS Program; Frances Winn In Charge Of Arrangements

The regular bi-weekly social hour for all Baptist students will be on Saturday night this week, in the young people's auditorium, with Frances Winn in charge. The date was changed from Friday night because of the B. T. S. study course being taught at the church each night this week.

Books offered for young people in this week's study are: "Investments in Christian Living," taught by Rev. R. C. Campbell; "People Called Baptists," by Dr. F. B. Malone; and "Modern B. Y. P. U. Methods," by Raymond Dunn.

The last week in April has been set as the date for Baptist student revival, and Raymond Robinson, Tech freshman, has been placed in charge of musical arrangements. Robert Flinn, state B. S. U. president and student in Southwestern Baptist Theological seminary, will have charge of the services.

Junior Livestock Judging Team Makes Visit To Hereford Farms

The junior livestock judging team made a two day trip to Canyon, Pampa, and Miami February 24 and 25. Visits were made to the Tierra Blanca farms at Canyon, and the Hereford farms belonging to J. P. Osborne of Memphis, and H. A. Talley of Pampa.

The following men of the team made the trip: Jack Downs, T. L. Leach, Bill Gregory, J. D. Strickland, E. R. Steen, Odis Holly, and Professor R. C. Mowery, coach.

Trial Put Off

Cobb To Appear In Court Next Term

Recent developments in the case of the Texas Tech Pre-Law club vs. Charles Cobb have made it necessary to place the trial in the first school week of next term, according to Clyde James, District Attorney of the Pre-Law club.

Charles Cobb was indicted by the Pre-Law grand jury for running over and fatally injuring F. H. Heidel on the corner of Broadway and College Avenue on February 22, 1933.

When questioned on the case, District Attorney Clyde James said: "The public may rest assured that it is the intent of this office to prosecute Charles Cobb to the fullest extent of the law."

Charles O'Neal has been appointed judge of the Texas Tech Pre-Law supreme court.

Frosh Judgers To Compete In Stock Contest

Thirty-Two Slimes Are To Take Part In Event; Five Classes Of Livestock To Be Subject Of Contest

The seventh annual Freshman Livestock Judging contest will be held Saturday, March 4, in the livestock judging pavilion of the Aggie school. Those eligible to compete for this honor are those freshmen who have completed two live stock judging courses. There will be approximately thirty-two freshmen, who have the highest average, competing in this contest.

Dairy cattle, horses, hogs, beef cattle, and sheep will be judged. All classes of these livestock will be brought to the livestock judging pavilion Saturday morning where they will be placed by the contestants.

During the afternoon, oral reasons will be given on the five of the ten classes placed. These contestants eligible will not be announced until this afternoon.

The seniors are to handle this contest. Curtis Williams will be superintendent of the contest. He will be assisted by Lanoy Hazel and Ben Jenkins as section leaders. E. G. Cauble will tabulate the results of the contest. All of these boys were members of the judging team last fall.

The judges are R. B. Davis, manager of the cooperative creamery at Plainview, graduate of Texas A. and M. and member of that dairy cattle judging team, and L. C. Jennings, formerly employed by Universal Mills at Beaumont, Texas, and a member of the first judging team Texas Tech ever had in March, 1927. At this time he was high individual over all contestants at Fort Worth.

Two seniors, Buford Browning and Harlan Howell, will also assist in the judging. These were both members of the judging at Chicago last fall, and eighteenth man among all the hundred contestants.

Bowling Club Changes Date

Skating And Tennis Clubs Are Meeting Regularly; Soccer Team To Play Physical Ed Team Tuesday

Since the Matador Bowling alley has made Friday all-women's night, the W.A.A. bowling club has changed its meeting time to 7:00 o'clock on that evening.

The skating club meets every Wednesday and Friday nights at 7:30 o'clock on Broadway and college avenue. Everybody is invited to come out and skate.

The tennis club meets Friday afternoons from 4:00 to 6:00 o'clock. It has ten members; others are invited.

The W.A.A. soccer team will play the physical education team Tuesday, March 7, on the football field at the gymnasium.

Junior Livestock Judging Team Makes Visit To Hereford Farms

The junior livestock judging team made a two day trip to Canyon, Pampa, and Miami February 24 and 25. Visits were made to the Tierra Blanca farms at Canyon, and the Hereford farms belonging to J. P. Osborne of Memphis, and H. A. Talley of Pampa.

The following men of the team made the trip: Jack Downs, T. L. Leach, Bill Gregory, J. D. Strickland, E. R. Steen, Odis Holly, and Professor R. C. Mowery, coach.

Boy Scout Training Course To Begin On March 21; To Be Taught In Ad Building; Fee Is \$1.50

The first session of the boy scout training school for the Spring term will be held Monday evening, March 21, from 7:30 to 9:30 o'clock in room 214 of the administration building. Dr. J. C. Ellsworth will be scoutmaster.

This course will be offered throughout the Spring term, and will be signed up for during registration through the regular schools. Only boys are admitted to the class, and a fee of \$1.50 will be charged for the course. All books are furnished.

Credit Given

This course is designed for scout leaders and all others interested in scout work. One hour's college credit will be given for the passing of the term's work.

The contents of the course, together with a tentative assignment of instructors follows:

March 21, Nature of the Boy, W. P. Clement; The Program Which Meets the Boy's Needs, D. T. Jennings, March 28, Educational Objectives, Dean J. M. Gordon; Scouting Objectives, J. O. Ellsworth, April 4, Methods of Education, Prof. J. T. Shaver; Scouting Methods of Education, Dean H. Leidigh, April 11, The Project Method and Scouting Projects, Dr. A. W. Evans; Troop Program Building, Don L. Jones, April 18, Yearly Outdoor Program of Scout Troop, D. T. Jennings; Troop Administration, K. N. Clapp, April 25, Ceremonies in the Scout Program, Carl Thompson; The Boy's Reading Program, Rev. Haynes, May 2, Education for Character, Dr. A. W. Evans; Character Values of Scouting and How Obtained, Dr. F. E. Malone, May 9, The Relation of the Troop to the Parent Institution, President Bradford Knapp; The Working Relation Between Troop Committee and the Troop, Dr. W. M. Craig, May 18, The Measure of a Good Scoutmaster, Dr. F. E. Malone, May 23, Scout Advancement and Specialization, Prof. W. P. Clement; Scouting Applied to Life, Dr. J. O. Ellsworth.

Tentative June Graduates Are Given By Deans

Twenty-One Aggies, Eighty-Six Liberal Arts, Fifteen Home Economics, And Thirty-Two Engineers Listed

Rolls Incomplete

According to an announcement made Tuesday by the deans of the four schools, the tentative list of June graduates includes 154 names.

There are 21 seniors in the school of agriculture, 15 in the home economics school, 32 in the engineering school, and 88 in the school of liberal arts.

The list is as follows:

B. S. in School of Agriculture: Roy Bayouss, Russell Bean; G. L. Beene; Buford Browning; E. G. Cauble, Jr.; Horace Dean; Fred DeLashaw; Tom Lee Easley; G. G. Gordon; Lanoy Hazel; Chester Hulstedler; W. F. Hughes; Robert Kuser; Ben Jenkins; John T. Kennon; Milton Kirksey; Edgar Kuebel; James Potts; J. Bryan Stine; Curtis Williams; Painter C. Wylie.

B. A. in School of Liberal Arts: Florence Jones Ashmore; Ross Ayers; Virginia Thomas Bacon; Mary Louise Baskin; Roscoe Irvin Bayles; Juanita Helene Beard; Victor Cecil Bickley; Hazel Aileen Brown; William Boyd Bush; Lois Lorraine Butler; Opal Gladys Butler; William Eason Caldwell; Allie-Ede Collins; Charles Lewis Cromwell; John Lake Dean, Jr.; Manuel C. DeBusk; Ione Dodson; Campbell Hill Elkins; J. Charles Featherston; Jack Jefferson Flowers; Augusta Maye Foster; Edith LaVerne Garrison; Lyle E. Garrison; Leona Marshall; G. L. Galt.

Verna Vonelle Gilkerson; Cecil Hughes Gilliam; Joseph Leslie Hall; Jewell Naomi Hammock; Julia Margaret Harmon; George Truett Hatten; James Renfro Henley; Fred John Hinger; Gertrude Harriet Holcomb; Murray Linden Holcomb; Ols Irene Hughes; Clyde Wolfe James.

Robert Butler Tech Judgers Receives First Prize At Meet

Portrait In Oil Wins First Place At Second Annual Exhibition Of Plains Museum Society; Studhalter Is President

Robert Butler, a McAdoo farmer, in Dickens county, won first prize in the second annual exhibition of the Plains Museum society held here Friday, March 11, in company with his little daughter, entitled "Four Years Old." Mr. Butler spent two years in Europe studying art before he began operating the farm in Dickens county.

Other winners in the exhibition were Mrs. E. L. Reed, Lubbock, second prize, with a portrait of the west portion of the administration building of Tech. Honorable mentions were Miss Dorothy Pray, Lubbock, with a picture of Superstition Mountain; Mrs. C. S. Mast, Lubbock, with "Corespals"; and Ethel Lou Edwards, Lubbock, with a portrait of Margaret Cooper.

W. H. Abbt, physics professor, and M. P. Landwer, associate professor of biology, were the principal speakers of the afternoon session, held at four o'clock in the Engineering auditorium. Dr. W. C. Holden, of the history department, presided over the meetings.

Principal speakers of the evening session, which started at 7:30 o'clock, were Dr. Bradford Knapp, rector of the college; E. A. Studhalter, head of the biology department; and Dr. W. C. Holden.

New officers chosen in the Plains Museum Society were R. A. Studhalter, president; F. A. Kleinschmidt, head professor of architectural engineering; vice president, Miss Sylvia Wilson, secretary; Miss Vivian Johnson, treasurer; Dr. M. A. Stainbrook, creator. Honorary vice-presidents were L. F. Shelby, Canyon; Floyd V. Studler, Amarillo; George Doughty, Post; and Victor Smith, Alpine.

MEETINGS DISCONTINUED

Presidents of clubs in the chemistry building have announced that there will be no meetings held during the next week.

G. B. Morris underwent an operation February 21 at the West Texas hospital. His condition is quite satisfactory.

Ellsworth To Teach School

Boy Scout Training Course To Begin On March 21; To Be Taught In Ad Building; Fee Is \$1.50

The first session of the boy scout training school for the Spring term will be held Monday evening, March 21, from 7:30 to 9:30 o'clock in room 214 of the administration building. Dr. J. C. Ellsworth will be scoutmaster.

This course will be offered throughout the Spring term, and will be signed up for during registration through the regular schools. Only boys are admitted to the class, and a fee of \$1.50 will be charged for the course. All books are furnished.

Credit Given

This course is designed for scout leaders and all others interested in scout work. One hour's college credit will be given for the passing of the term's work.

The contents of the course, together with a tentative assignment of instructors follows:

March 21, Nature of the Boy, W. P. Clement; The Program Which Meets the Boy's Needs, D. T. Jennings, March 28, Educational Objectives, Dean J. M. Gordon; Scouting Objectives, J. O. Ellsworth, April 4, Methods of Education, Prof. J. T. Shaver; Scouting Methods of Education, Dean H. Leidigh, April 11, The Project Method and Scouting Projects, Dr. A. W. Evans; Troop Program Building, Don L. Jones, April 18, Yearly Outdoor Program of Scout Troop, D. T. Jennings; Troop Administration, K. N. Clapp, April 25, Ceremonies in the Scout Program, Carl Thompson; The Boy's Reading Program, Rev. Haynes, May 2, Education for Character, Dr. A. W. Evans; Character Values of Scouting and How Obtained, Dr. F. E. Malone, May 9, The Relation of the Troop to the Parent Institution, President Bradford Knapp; The Working Relation Between Troop Committee and the Troop, Dr. W. M. Craig, May 18, The Measure of a Good Scoutmaster, Dr. F. E. Malone, May 23, Scout Advancement and Specialization, Prof. W. P. Clement; Scouting Applied to Life, Dr. J. O. Ellsworth.

Landwer Collects Data On Animals; Makes Trip

Animal families are like those of men. They flourish for a while then vanish, leaving few records behind them. Thus several groups of mammals that once inhabited the plains regions are now practically extinct.

To prevent the unnoticed disappearance of the tribes that are left, M. P. Landwer, associate professor of biology, began a detailed study of them last spring. His discoveries are applicable to his decorative thesis, the subject of which is "Mammals of the Texas Plains Region."

Beginning his field trip in April, Landwer did not stop until August.

"It was comparatively easy," he says, "to collect data on the smaller animals, but the larger ones are very difficult to find." Most of his time was spent not on the Plains proper but in the canyons and sandhills attractive to fauna. The territories west of Plainview and surrounding Goliath were especially productive.

"In these places," he continues, "I have been able to collect a large number of new ones and am certain that they will do, but think that because they are closely related to the plants that we have cultivated, they might grow also," said Professor Russell.

"We have a cotoneaster and it has done very well, and now we have a relative to this plant and will see how it does. Also we have planted a holly, a honeysuckle, a pine, and a poplar, and hope that they grow, too," continued Russell.

These plants have been planted in the nursery near the green house on Tech campus.

Shelby Reed underwent an operation February 25 at the West Texas hospital.

Engineer Banquet Will Be Held Saturday Eve

Dates Are Set For Engineering Show; Tricks Planned

Is Speaker

Dates have been set for the Engineering show to be held on April 14 and 15 in the afternoon and nights between the hours of 1 o'clock and 5 o'clock. All departments of engineering at Tech will take part in the affair.

Engineers have been given permission to paint announcements of the show on the sign boards used by the athletic department for football schedules which are located in the highways leading into Lubbock.

Tricks Planned

An interesting feature to be shown during the show will be a two cylinder stationary gas engine made in the mechanical engineering shops. The engine is so small that it can be spanned by the hands of one man. The engine is made of aluminum and will run at the rate of 1400 revolutions per minute and develops one horsepower. The size of the cylinders are one and one fourth of an inch in bore. Many other new and odd features are being prepared by the engineering students that will be ready for the show.

Plans Are Completed For Annual Event; Speakers Named

Final arrangements have been made for the Engineering society banquet to be held on March 4, at 7 o'clock in the Lubbock hotel. Speakers have been chosen for the senior, junior, sophomore, and freshman classes and Professor C. D. Brandt of the textile department will be master of ceremonies. More than 200 engineers and alumni are expected to be present. The board of directors of Tech are invited.

Committee for arrangements of the banquet have been working for the preparations of this chief engineering social event. The banquet will be the last big event the Engineering society will have this year except the picnic to be held in the spring term.

Is Get Together

The banquet is a means for engineering students to become better acquainted and to show how much interest the engineering students of Tech take in their school.

The principal speaker and guest at the banquet will be John W. Carpenter, president of the Texas Power and Light company and a member of the Tech board of directors, will be the principal speaker at the Engineering society banquet next Saturday night at the Hotel Lubbock.

Tickets are now on sale. Prices are 75c for members of the Engineering society and \$1.00 for non-members. All engineers are urged to buy tickets immediately.

Dr. Knapp Attends Teachers Meeting

Team Members To Be Named On Saturday; Dairy Judging Team To Be Represented In Fort Worth

Scheduled speakers for the session include five university and college presidents, as follows: Doctor Bradford Knapp of Texas Technological college; Doctor E. Y. Brandt of the University of Texas; Doctor W. B. Bizell of the University of Oklahoma; Doctor T. O. Walton of the Texas Agricultural and Mechanical college, and Doctor H. W. Morelock of Sul Ross State Teachers college; as well as State Superintendent F. A. Wood and H. W. Stillwell, president of State Teachers association.

Emma Chapman Has Charge Of Home Ec Girls Club Meeting

Emma Chapman was in charge of the program presented by the Home Economics club Tuesday night.

Following a short business meeting conducted by Ruth Carter, president, Gertrude Samson played a viola solo, accompanied by Maurine Havis, and Mr. F. A. Kleinschmidt, head of the architecture department in the engineering school, gave a short talk on etchings.

Miss Chapman is chairman of the February group of the club.

Foreign Plants To Be Studied

Tech Alumni To Attend Meeting

All graduates are urged to attend a call meeting of the local members of the Texas Tech College Alumni association Thursday, March 2, at 7 o'clock in the engineering auditorium.

The purpose of the meeting is to promote a closer acquaintance of the local alumni; to learn more about the college and its future; to increase the interests of the alumni in the college; and to hear inspirational and informative talks.

Miss Lucille Gill, instructor of English, received treatment at the Lubbock sanitarium.

Landwer Collects Data On Animals; Makes Trip

Animal families are like those of men. They flourish for a while then vanish, leaving few records behind them. Thus several groups of mammals that once inhabited the plains regions are now practically extinct.

To prevent the unnoticed disappearance of the tribes that are left, M. P. Landwer, associate professor of biology, began a detailed study of them last spring. His discoveries are applicable to his decorative thesis, the subject of which is "Mammals of the Texas Plains Region."

Beginning his field trip in April, Landwer did not stop until August.

Las Vivarachas Club Dance Climaxes Winter Term Social Functions

Series Of Informal Functions Planned By The Various Clubs

Will Conclude Entertainments Before Dead Week; Several Parties And Dance Feature Activities Last Week-End

Tech's social activities for the winter term were climaxed when Las Vivarachas club presented their new members at the annual dance given last Saturday evening in the Hilton hotel ball room. A series of breakfasts, luncheons, and informal dances will conclude the social plans of the various clubs before dead week.

Las Vivarachas Present Eight New Members

The eight pledges of Las Vivarachas club were presented as they stepped from the doorway of a miniature Cinderella coach. They were announced by the footmen, Eileen Marr, Elmo Morrison was co-chairman.

The club crest hung at the back of the ball room, and Ned Bradley's orchestra furnished the music. About 200 guests attended.

Presenters and their escorts were Miss Tyline Walker and Jimmy Roberts, Miss Lois Houston and Dan Lane, Miss Frances McKee and Edward Redman, Miss Rachel Campbell and Jesse Holmes, Miss Marguerite Taylor, and J. G. Butler, Miss Frances Beasley and Billy Crenshaw, Miss Idell Bacon and Vaughn Peterson, Miss Humence and Art Prentwich.

Club members and their escorts were Misses Kathleen Conrad, Juanita Mills, Lois Morrison, Wesley Bullock, Sue Brown, and Eileen Graves, Messrs. Benton Teal, Penton Harding, Jesse Young, Bob Tracy, Harrison Munroe, Dick Heineman, Mr. and Mrs. Homer Maxey, Mr. and Mrs. Doyle Jordan, and Mr. and Mrs. Edward Blackwell.

The special guests were Miss Ruth Pirtle, sponsor, Miss Katherine McCarter of Plainview, Dr. and Mrs. Bradford Knapp, Mrs. Mary W. Doak, and Mrs. R. M. Chittwood.

Las Leales Entertains At Bridge Party

Misses Ruth Thompson, Ena Armstrong, and Eunice Cone were hostesses to members of Las Leales club at a bridge party in the home of Mr. and Mrs. Earl Thompson, 2020 Eighth street last Thursday afternoon.

The George Washington theme was used in the bridge and talk appointments.

Mrs. Wilbur Pearson made high score in the games and Miss Lois McKennie scored low.

Mrs. Irene McClellan of Spearman and Miss Billie Plain and Mrs. J. S. Tealke of Slaton were the special guests.

Club members attending were Misses Lizzie Belle Clements, Mary Leidigh, Margaret Green, Pauline Garrigues, Emma Jean Douglas, Lucille McGunden, McKenna, Mary Evelyn Gordon, Roma Yarbrough, Ruth Douglas, Christina Sawyer, Ruby Rae Williamson, Mrs. Pearson, and Mrs. A. M. Eubanks.

Alumni Members Of Centaurs Entertain Active Members

Several alumni members of the Centaur club entertained active members with a breakfast Sunday morning at the Hilton hotel.

Hosts were Trent Campbell, Tom V. Watson, Bill Seall of Slaton, Bill Collins, Gordon, Dickson, James Whitesides, James H. Dallas, of Brownfield, and Adolphus Smith of Brownwood.

Guests were Lonnie Langston, sponsor, Jack Mickle, Hugh Hunter, Richard Hoffman, Charles Mandgen, Jack Egan, Dickson, Morris Burchfield, Ches Cass, Donald Casterlin, Dick Carter, John L. Cook, Billy and Charles Crenshaw, Claude Goldsmith, John Gray, Calvin Hazlewood, James Henley, Van Hinds, Billy Lane, George Newsum, John G. Reid, Virgil Rowland, Wallace Sanders, T. G. Scott, Joe Taylor, O. R. Seaman, Jr., Dell Smith, Bob Taylor, E. G. Pharr, Trustee Brooks, Tom Hutchinson, and Kenneth Leftwich.

Sans Society Given Bridge Party At Hotel Lubbock

Mrs. D'Aun Hunter was hostess Wednesday afternoon, February 22, with a bridge party given in Hotel Lubbock for members of Sans Foul club.

The George Washington theme was used in appointments and decorations, and the guests were club members only.

Those attending were Misses Helen Barstow, Lois Watson, Lena Grace Sanderson, Lois Pitts, John Anna Boyd, Mary Wilbanks, Dorothy Dobbins, Evelyn Price, Eleanor Halbert, Fay Brown, Audrey Farris, Nancy Ruth Leaverton, Mary Genevieve Hardberger, Coleta Baker, Christine Bundy, Ruth Heard, Polly Shultz, Melba Watson, Frances Snyder, Rosemary Leaverton, Kitty Jameson, Wanda Butler, Effie Smith, Virginia Bacon, Dorothy Rushing, Ann Lou Bennett, Roberta Myrick, and Mary Lee Bardwell.

Last Friday evening the club members served coffee to their guests at the club house, 2403 Broadway.

Pre-Med Banquet Is Held Saturday Night

The Pre-Med banquet was held Saturday night, February 25, in the main ball room of the Hotel Lubbock. The decorations of the banquet were in the Pre-Med colors, black and white. Red and white sweet peas were worn on favors in the lapsels of the men's coats. Special college motif was carried out

Wellenman; William Basil Hill; Lloyd Scarborough Reeves.

Students who have not checked their graduation requirements with their deans are asked to do so at once. All students who plan to graduate in June must make application for their degree before the spring term begins. Students who do not get their application approved in time will be forced to graduate in August with the summer term graduates.

Miss Mattie Cameron, who has been a patient in the West Texas hospital, was dismissed February 26.

Aleen Brown, who was operated on February 21, is convalescing satisfactorily, according to attendants at the West Texas hospital.

eighties one day while he was gone. A demented Mexican set fire to it just as Singer was returning. He chased the Mexican and shot him to death up in a bend of the canyon. The Mexican was never buried, but was left as food for the buzzards. After this unhappy incident, Singer rebuilt his store one-half mile around the bend of the canyon.

After the founding of Lubbock, Singer moved to the corner of H and Main, north of the courthouse.

Where Singer came from or where he died no one knows. All that is left, as a memory to this old pioneer of the days when a man's word was law, is a marble marker at Yellow Creek Canyon, where his first store once fed the country for hundreds of miles around.

Thus the pioneer comes silently from where we don't know and thus he leaves as silently as he came, but he leaves behind a civilization which is part of his handiwork.

Patron Saint Introduced At Pre-Law Feed

Dan Blair is Main Speaker At Annual Banquet Which Forty Students Attend; Coker Is Toastmaster

The Pre-Law Banquet was held Saturday night, February 25, in the small banquet room of the Lubbock Hotel. The "patron saint" of the Pre-Law club was the centerpiece of the banquet table. It is a drinking fountain which they bought from the Engineers, formerly used in the Engineering building.

Charles O'Neal introduced Sinkwink Narona, the patron saint, to the pledges and told them its glorious history.

District Attorney Speaker
The main speaker was Dan Blair, present district attorney, who spoke on "The Responsibilities of the Public Prosecutor."

Music was furnished throughout the banquet by Boots Melton and her Buddies. There were forty members of the Pre-Law club present.

Glynn Coker, president of the Pre-Law club, was toastmaster.

Landwer
(Continued From Page One)

tinues, "there are probably just as many small mammals as ever. Little decrease in reproduction is noticeable and the coyotes in particular seem to be holding their own."

So far, Professor Landwer's investigations have been fruitful. He recently sent 300 specimens to the University of Michigan. They will be retained there in connection with others gathered before his work is complete.

His shipment included a number of ringtails, coyotes, black-tail jackrabbits, pocket gophers and mice, spotted ground squirrels and three kinds of white-footed mice. He hopes to find more of the large animals on his next field trip.

He has been able to identify my findings by the skulls and skins. Strangely enough, skulls and teeth are much more useful than hides.

The biologist, however, has a broader purpose than the mere collection and identification of these quadrupeds. He studies the habits of each and determines the faunal and floral relationships.

"It would be a great project, he thinks, to take steps preventing the further extinction of these real Plains natives and save as many as possible. He has set aside as game reserves for the buffalo and antelope especially. Such preserves would not only furnish a place of refuge for the animals locally obtainable but might be made the home of imported ones which once lived here but have since been removed.

Program Committee Is Named For Aggie Club At Meeting
The Tech Aggie club met in the pavilion last Tuesday night at 7 o'clock. Curtis Williams, president, was in charge of the meeting.

The program committee for the remainder of the school year was elected. The members are: Gerald Gordon, chairman; Edgar Kuebel; Glenn T. Hackney; Homer Brunstey; and Clayton Fuller. This committee will be responsible for all programs of the club. It is their aim, according to Gordon, to have out-of-town speakers for each meeting.

Tylene Walker was dismissed from the West Texas hospital February 25.

Letters To The Editor

Dear Editor:
The "dog-in-the-mangerish" practice of tipping chairs against tables in the library, in order to reserve places, is unfair to other students. It is discourteous and selfish to expect to keep a reserved seat all day for only one or two hours use.

Under the present crowded study conditions, students should be considered enough to occupy chairs only as long as necessary. Holding an unused place for 10 or 15 minutes is acceptable, but depriving some student of an hour's study while you are in class is unjustifiable.

Student opinion could check this practice, giving every one an equal chance at the limited space.
Signed,
G. R. COKER.

Alice Mulkey Heads School

Sixty Girls Get Certificates Closing Night Of Girl Scout Training School; White And Gilkerson Assist

Supervised by Miss Alice Mulkey, national Girl Scout director, the Girl Scout training course lasted from Monday through Friday night of last week at Seaman hall. Alma White and Johnny Gilkerson, head of the girls' physical education department assisted her.

Sixty girls received certificates the last night of the course. Holders of these are eligible to organize at any time or place, girl scout troops, and may attend the scout leader's course given at Camp Mary White, near Cloudcroft, New Mexico, every summer.

The course was given especially supervise groups of girls in the future for college women who expect to

Connell Conducts Experiment On Fluorine Content Of Water
C. H. Connell, graduate assistant in the chemistry department, is conducting an experiment in the Lubbock City schools for the purpose of determining some preventative for the effects of the fluorine in West Texas water on children's teeth. Members of the Lubbock Dental association and the Tech Pre-Med club are assisting him.

Through a series of questions, Mr. Connell hopes to learn the types of water used by the children whose teeth are stained or mottled.

Casey Kunkel, who has been suffering with pneumonia, was dismissed recently from the West Texas hospital.

Felix Ballenger, Chess Cross, and Roger Pierce were given medical attention at the Lubbock sanitarium during the past week.

Wynona Huff had her tonsils removed February 25 at the West Texas hospital.

W. R. Hudson was dismissed February 21 from the West Texas hospital.

Everett Williams received medical treatment for an arm infection February 23-24 at the West Texas hospital.

Tech Golfers Elect Officers

Holmes, Pendleton, Wilson Are Officers For Season; Langston is Sponsor; Williams Is Manager

Tech golfers made preparations for their coming season's activities at the first meeting of the Texas Tech Golf club last Friday night at the college gymnasium.

Officers of the club were elected for the remainder of the school year. Billy Holmes of Shrock, winner of a score of trophies in amateur tournaments in this section of the country is president of the club. Walter Pendleton of the same city was elected to the office of secretary and treasurer, while Jack Wilson will serve as vice-president.

Bill McMillan, owner of Meadowbrook course, spoke on "Business and Social Advantages of Golf" at the meeting. The club also decided that the Meadowbrook course be used by Tech golfers. A green fee of \$1.50 per month will be charged each candidate for the team.

Plans were discussed for the third annual Texas Tech golf tourney which will be staged at the local country club about the first or second week of the spring term. The eight golfers, who are to represent Tech, will be selected by elimination at the tournament. All students are eligible for the prizes offered in the contests. This club will be instrumental in promoting the West Texas invitation tourney to be held here next month.

Langston To Coach
Lonnie Langston, assistant professor of mathematics, will be coach and Bo Williams, manager.

It is present plans materialize, the club intends to match several of the college teams in the western part of the state, and probably book a few dual meets with New Mexico teams. And one interested in golf, and who would like to try for the team, may see Pendleton, Holmes or Langston for full particulars.

R. E. Bourland was operated on recently for appendicitis. He was dismissed from the West Texas hospital February 25.

Everett Williams received medical treatment for an arm infection February 23-24 at the West Texas hospital.

soils Thursday morning.

Demonstration Made
Dr. F. G. Harbaugh, assistant professor in animal husbandry, closed the afternoon Production program with a high demonstration at the barns of the college by actual work in preparing land. During the discussion of production, Dr. J. O. Ellsworth, head of the agricultural economics, illustrated his discourse on "Controlling Production By Agricultural Forecasts" with a series of charts and graphs indicating the trend of prices, production, etc.

Mrs. F. P. Reiver, outstanding woman agriculture leader, told of efforts of many farm women to preserve their own food supply and even allow a little for sale in nearby towns. W. L. Stangel, head of the animal husbandry department of Texas Tech, and Fred Hale, swine division chief at Texas A. & M., made talks in feeds and their relation to production.

Marketing Discussed
Dr. Bradford Knapp opened the speaking program Friday morning on Marketing with a talk on cooperative marketing as an aid in the solution of the present farm problem. He explained how a realization of higher returns from farm products could be brought about by cooperative effort in buying and selling.

In connection with the discussion of the problems of marketing, Miss Myrtle Murray, district home demonstration agent leader, spoke of the cooperative marketing of farm home products. She stressed the fact that to make home as it should be, women who live in the country or elsewhere should make their own rugs and fabrics instead of buying them. By so doing, Miss Murray explained, real culture and homemaking may be developed.

R. J. Murray, general manager of the Texas Cotton Cooperative Association, made the closing address. He gave a history of cooperative cotton marketing since the first effort was made in 1878.

W. A. King, grauntee of 1932, and another ex-student, Herbert Kirk attended the short course.

W. R. Hudson was dismissed February 21 from the West Texas hospital.

Tech Fighters Meet NMMI In Ring And Mat Tourney

New Mexico Military Institute Fighters Invade Tech Tomorrow

First Intercollegiate Boxing And Wrestling Contests In Lubbock To Be Held In Tech Gym

Texas Tech will meet the New Mexico Military Institute tomorrow night in the first intercollegiate boxing and wrestling contests ever held in Lubbock.

The Matadors will have an even chance of avenging the two previous defeats handed them by the Cadets. New Mexico boasts of not only the best collegiate team in New Mexico but of one of the best in the West. Tech, after several fun nights in preparation for the meet, has a well balanced team.

The feature bout will be Gil Carter of Tech and "Whop" Chairmonte of the institute. The other fights scheduled are: Harry Guthrie and Cadet Whittington in the heavyweight division. Toby Greer of Tech and Hoffman of the institute, light heavyweight. Demp Cannon, undefeated Tech middleweight, and Kilgore of New Mexico. John McCrady and Cadet Benson will battle in the welterweight class. Morris Alford of Tech and Hill of the institute, lightweights.

Cadet Goldstein will fight a Tech opponent that has not been decided upon as yet.

The wrestlers will include: Captain Truett Owen and Swope of the institute, heavyweights; Ted Wilson and Vaughn of New Mexico in the 175 pound class. Matt Hitchcock of Tech and Captain Turner of the institute, 185 pound class. James May and Cadet Helms will grapple in the 155 pound class. Tommie Zorns of Tech and Slinger will meet in the 135 pound division. Walter Nichols and McKinney of the institute will wrestle at 145 pounds. Joe Turner and Cadet Stanmire will end the wrestling program with a match in the 125 pound class.

Burl Hoffman will referee the boxing contests, and Bill Tallant, formerly of the University of Missouri, will officiate the wrestling.

All students will be admitted free with activity tickets.

Buffaloes Win First Of Two Games Played

Bufs Take 43-29 Victory Monday; Fortenberry, Colvin, Buff Threats; Crews, Roberson, Gilmore Star For Tech

The highly touted West Texas Teachers Buffs defeated the Texas Tech Matadors Monday night 43-29. The game was hard fought from the opening tip-off until the final gun. The Canyon Teachers by virtue of their height, reach, and accuracy in tipping the ball in the basket, had the edge after the first five minutes of play.

Alvin Crews, Tech forward, broke through the Buff's defense after a pass from Will Gilmore for the first basket. Polk Roberson, Matador center, followed with a one handed shot from the free throw line. The Teachers came back with field goals by Fortenberry and Comer. Roberson hit another one-handed shot from the side, and a free throw on Burk's foul. Fortenberry made a crisp shot and then a free throw to tie the score. Comer of the Buffs sank a long shot and a few minutes later followed up with a crisp after a pass from Colvin. Crews took the ball away from Fortenberry and dribbled under the floor for a crisp shot. The half ended 20-15 in favor of the Buffs.

Crews started the second half with a one handed shot from the side. Colvin tried one from the center of the court and Fortenberry tipped the ball in after it hit the basket. Colvin was trying his marksmanship on long shots and sank his next two tries. Will Gilmore shot from the side and his try was good for two points. The game became rough. J. C. Thomas, Matador guard, was put out on his quota of fouls and Comer of the Buffs followed one play later. Burk took a pass from Colvin for a crisp shot, stroudd tapped the ball in the basket after he and Fortenberry had missed five or six previous attempts. Fortenberry made a crisp shot and when he was fouled referee Frank Kimbrough gave him two additional technical fouls on boobying by the crowd. The last two of which he converted.

The elongated Fortenberry, Colvin and Comer were the Buffs' threats; and Captain Harvey Dunn, Will Gilmore, Polk Roberson, and Alvin Crews starred for Tech.

West Texas 43; Texas Tech 29 at Lubbock.

The box score: WEST TEXAS (43) FG FT PF TP Comer, f 5 0 4 10 Colvin, f 3 5 2 11 Richards, f 0 0 0 0 Fortenberry (C), c 6 4 3 16 Stroud, g 2 0 0 4 Burg, g 1 0 2 2

Totals 17 9 11 43 TEXAS TECH (29) FG FT PF TP Gilmore, f 1 2 3 4 Crews, f 5 2 1 12 Roberson, c 4 2 3 10 Dunn (C), f 0 1 2 1 Thomas, g 1 0 2 2

Totals 11 7 11 29 Referee: Kimbrough (Simmons university); timer: LaMasters (Texas Tech).

Under The Double "T"

BY ED McKEEVER Texas Tech will definitely have intramural golf, baseball, track, and tennis. Plans are being drawn up at the present time by the coaching staff for these minor sports.

A golf club has already been formed. Lonnie Langston, math professor, is coach and sponsor of the club. Billy Holmes, twice Tech golf champion and winner of the Greenbelt tournament last year is president. Jack Wilson of Clifton is vice-president. Walter Pendleton of Shamrock is secretary and treasurer. A captain will be elected early in the spring term when a team is formed.

New Mexico Military Institute will meet Texas Tech tomorrow night at the Tech gym in the first intercollegiate boxing and wrestling matches ever held in Lubbock. The Cadets have defeated the Matadors on two previous occasions at Roswell. Texas Tech students will be admitted free with activity tickets.

The institution boasts of one "Whop" Chairmonte. The barrel-chested, easy going, boisterous "Whop" has won every one of his 65 collegiate fights by knock-kouts. He has made quite a reputation around the coal mine regions of his home town, Gallup, New Mexico. Technically, Chairmonte is not a professional but early last summer he won a decisive decision over Eddie Mordock of Tulsa, Oklahoma, one of the leading contenders for the middleweight championship. It was because of this fight that Chairmonte was

Plays Last Game

HARVEY DUNN, GUARD

Tuesday night's game with the Canyon Buffaloes marked the curtain call for Captain Harvey Dunn, three year Matador cage veteran. Dunn's absence will leave a hole that will be hard to fill.

declared ineligible for Olympic competition.

The "Whop" will have a worthy opponent in Gil Carter of Tech. Carter is a fast, experienced, clever boxer who should give Chairmonte a run for his money.

Demp Cannon is probably the most colorful fighter on the Tech boxing team. Cannon fights much in the same fashion as did the late Harry Greg; taking the defensive and then swarming all over his opponent with gloves and elbows flying.

Trust Owen, heavyweight, who has never been defeated in two years of varsity competition, is the Matador wrestling captain. Marion Harris, middleweight, a finalist in the Olympic tryouts of the Oklahoma division, heads the boxers.

The West Texas Buffaloes who played Texas Tech in a two-game series Monday and Tuesday nights, are one of the two teams conceded the highest rat-

Eliminations Are Held By Tennis Team

Thirty Candidates Report At First Meeting; Team Is To Play Under Border Rules; Balls Are Furnished

Thirty candidates have reported to Homer Roberts for berths on the Texas Tech tennis team. Four players will compose the team.

In the first game of the tournament which began last Saturday, J. D. Donaldson defeated Sam Black by winning two love sets. Weather conditions prevented the continuation of the matches.

The team, which will comply with Border conference rules, is financing itself. The J & J sporting goods house is furnishing balls for the tournament.

Games Billed Games will be played with New Mexico Military Institute, Amarillo Junior college, Abilene Christian college, and Simmons university. The team will go to the Border Conference tennis meet.

According to Coach Roberts, who is a Tech graduate, and a member of the team last year, the material is good. Cecil Bickley is the only player returning from last year. Promising players who have reported are: Lloyd Glover, Larry Taylor, Jennings Lewis, and Gordon May.

Kid Chocolate, classy little Cuban scrapper, doesn't have a mark to show for his years in the ring.

ing for the National AAU basketball championship to be held at Kansas City this month. Wichita Henry's, representing a clothing firm of Wichita, Kansas, is the other rating team.

Word has come from the coaching office that the freshmen numeral and varsity basketball sweaters will not be ordered for the individual lettermen who do not pass the required nine hours of scholastic work this term.

Season Closes For Freshman Basketball Men

Coach Ayers' Men Conclude The Season With Three Victories Over Ralls All-Stars; Hardesty Is High-Point Man

By taking the Ralls invitation tournament last Friday and Saturday with three victories, Coach Ross Ayers' Texas Tech Picadors concluded the season schedule with 12 consecutive wins and no defeats except by the Santa Fe team of Slation in a pre-season practice tilt.

In the final game of the tournament, the freshmen trounced the Ralls All-Stars, 34 to 24 to carry off championship honors. Joe Hardesty of Lamesa was high point man for the Picadors with 15 markers. Ropesville was defeated by the frosh in the semi-finals, 36 to 33.

By making a clean sweep of their regularly scheduled games, the slimes turned in one of the most successful seasons ever experienced by a Picador quintet. Two of the wins were registered at the expense of the Wayland college Jackrabbits by decisive scores. Draughtons Business college dropped three tilts to the Techsters and the Idalou Independents lost by a close score.

High School Teams Lose In addition to these frolics, some of the strongest high school clubs in this section bowed to the freshmen cagers. Grovesville High lost to the Picadors and Ropesville, district 2 high school finalists this year, donated two games to the frosh win column. The Lubbock High Westers were handed an overwhelming defeat last week by the freshmen.

Jesse Briscoe of New Lodon, Mo., Leroy Crews of Wilson, Leon Marks of Clovis, N. M., "Red" Wester of Plainview, Clayborn Norris of Quitman, Miss., and Jerome Vannoy of Corpus Christi played brilliantly throughout the season.

Matadors Lose Final Game To Tall Boys From Canyon

Tech Squad Plays Sensational Game; Fortenberry And Comer Star For Buffs; Harvey Dunn Plays In Last Game

Texas Tech lost the last game of the current basketball season to the West Texas Teachers Tuesday night 37-25. Tech displayed the best brand of defensive basketball seen on the local court this season.

Comer of the Buffs started the scoring with a field goal, and Fortenberry hit a crisp shot for two

points. Alvin Crews made his free throw good. Comer then Burk made long shots for Canyon. Polk Roberson hit a one handed shot for Tech. Fortenberry found the range and made a long shot from the side. Will Gilmore dribbled into the side of the court and made his attempt good. Comer again, this time he tapped in a goal after Durk's attempt failed. Roberson took a pass from Captain Harvey Dunn and worked the ball in for the basket. The half ended 19-14 in favor of the Buffs.

Threaten Buff Lead Gilmore and Crews came back the second half with shots that threatened the Buffs lead. Comer dribbled in from the side of the court and made a crisp shot for the Teachers. Fortenberry made a one handed shot from the free throw line, then Comer hit a long shot from the middle of the court. Roberson took a pass from Dunn and dribbled in for the goal. Burk, Buff guard, tackled Crews, Tech forward, and both were expelled from the game by referee Frank Kimbrough when Crews hit Burk as he was falling.

With ten minutes to play the Teachers lead 23-21. The Buffs took advantage of their height and both Fortenberry and Comer rang up goals tapping the ball into the bas-

ket. Fluke, Tech center, made a pretty one handed shot. Comer came back with two field goals. And Fortenberry took a pass from Comer and dribbled to the side to ring up a one handed basket. The work of Captain Harvey Dunn playing his last game for the Matadors was sensational. J. C. Thomas turned in his best game of the year. Will Gilmore and Polk Roberson both played a fine defensive game besides being the chief offensive threats. The Buffs leave for Kansas City, Missouri where they are one of the favorite teams to win the national AAU tournament to be held next week.

The box score: W. T. Teachers (37) FG FT PF TP Comer, f 4 1 1 9 Monroe, f 1 1 4 3 Colvin, f 1 0 1 2 Burk, g 0 1 0 2 Fortenberry (C), c 7 6 1 20 Stroud, g 0 0 1 0 Richards, g 0 1 0 1

Croton Girls Win District

Defeat Shallowwater Team To Take First Crown Awarded Girls In District Two; 3rd Place Goes To Lamesa

The Croton girls' basketball team, of Dickens county, defeated the Shallowwater team last Saturday night at the Tech gymnasium to win the first district two championship ever awarded a girls' team.

Miss White, a tall, active goal-shooter, from Croton was the outstanding performer of the game. She scored 16 points in the final game Saturday night to help her team win the championship with a 30 to 24 victory.

In previous games Saturday afternoon and night Shallowwater had beaten Lamesa in a first round battle which appeared to give them the edge before the final game started. Croton had also made a good impression by defeating Ropesville's girls 35 to 34, in one of the closest games of the tournament.

Shallowwater, losing in the final game, took second place. Lamesa defeated Ropesville with a 33 to 13 victory to win third place in the tournament.

It's fun to be fooled — ...it's more fun to KNOW

ILLUSION: Look at this remarkable lady... with three lovely and perfect heads... all attached to a normal body. She appears to sit on the stage, with the lower part of her body concealed by flowers. She can wink, smile, and nod. She can talk, laugh, and sing—all at the same time. Thousands of people have seen this feat of magic and pronounced it a wonderful sight!

EXPLANATION: Audiences used to pay an extra fee to go behind the scenes to see how this trick was worked. They discovered that the three-headed woman was merely a reflection in a mirror. The glass showed the heads of three girls but the body of only one. The other two were cleverly hidden so that only their heads showed in the mirror.
