

Frank Thomas Signs To Teach At Summer Coaching School

Alabama U. Mentor Has Impressive Grid Record

Former Notre Dame Star Produces Undeclared Team This Year

THE first pupil of Knute Rockne, dean of football mentors, to win a title and lead a team to the Rose Bowl, will teach his system here next summer at the fifth annual Texas Tech coaching school. He is Frank Thomas, whose Alabama university Crimson Tide swept everything before them to stand alone with Minnesota as the major teams of the nation with undefeated, untied records for the 1934 campaign.

Star Quarterback

Thomas, quarterback on Notre Dame's great grid teams of 1921, '22, and '23, succeeded Wallace Wade at Alabama following the 1930 season. During his four years as coach at the southern institution, Thomas has won 33 games, lost four and tied one.

The first coaching job held by Thomas was an assistant at Georgia in 1923. He went to Chattanooga the next year as head coach where his teams annexed two S. I. A. A. championships. Thomas was recalled to Georgia in 1929 when a former teammate at Notre Dame, Harry Mehre, was made head coach there. On the resignation of Wallace Wade at Alabama in 1930, Thomas accepted the vacant position.

Tide Washes Stanford

With Dixie Howell's passes always finding somebody to catch them, the Red Tide washed Stanford, 29-13 on 'Bama's fourth appearance in the Rose Bowl in less than ten years. The invaders were tied in 1927, and by coincidence that game was with Stanford. Victories over Washington and Washington State marked other trips. Dana X. Bible, athletic director and head football coach at the University of Nebraska, and Bernie Bierman, whose unbeaten Minnesota Gophers were considered the national collegiate champs by most critics, have already been secured for the fifth session of the world's largest coaching school, August 15.

The signing of Thomas brings coaches of the two undefeated, untied aggregations of the nation as headliners here this summer.

More To Be Signed

Another football coach of national fame, a basketball instructor, a physical education expert and a field and track tactician yet to be selected will complete the staff for the school. Nat Holman, former professional star and present basketball coach at City College of New York, is being considered as age instructor, but terms have not been arranged.

With the selection of Bible, Bierman and Thomas as three of the leading instructors, the 1935 school bids fair to be the largest in Tech history.

Raiders Pace Border Chase

Scarlet Cagers Journey Around Border League Following Exams

With final examinations hogging the limelight, Matador basketball has been forced to take a back seat temporarily. Ballard's basketball will not swing into action until February 11 and 12 against the Sul Ross Teachers on the slippery court at Alpine.

At the present stage of the Border conference chase, the Scarlet cagers are perched on top of the circuit pinnacle as a result of four victories. In the first game with loop foes, the Tech dribblers repulsed the Arizona State Teachers from Tempe on the local rectangle by taking a two-game series by the scores of 40-23 and 34-31. A week later the Flagstaff Bulldogs fell prey to the local sharpshooters as Weaver and Crews fed the basket at frequent intervals to lead the Tech five in a brace of victories, 41-33 and 31-24.

Bison Fall

When the Matador cagers thoroughly trounced the West Texas State Bison by the largest majority in ten years of competition between the schools, local fandom saw the pennant-bound Mats in action for the last time until March 1 and 2 unless the Hardin-Simmons Cowboys visit the Matador court. However, as the schedule now stands, the University of Arizona Wildcats furnish the first opposition for the loop leaders here.

Following registration for next semester, the Techsters start their annual journey around the circuit. On February 11 and 12 the Sul Ross Teachers play hosts to the travelling cagers.

After the Sul Ross engagements, the loopsters move on to Las Cruces for their fifth and sixth conference struggles.

'Bama Coach

Frank Thomas, whose University of Alabama team finished the 1934 season undefeated and untied, will teach at the fifth session of the Texas Tech coaching school this summer.

By JIM LINDSEY
Toreador Sports Editor

Hum, all is quiet on the western front this week as far as the sporting slate is concerned. From a sporting standpoint, things are due to be dormant on the campus for the next few days. Athletes have laid aside their scarlet apparel to face a foe of a different brand—examinations.

But before the hustling crews of Tech cagers lowered the curtain temporarily they left an impressive victory over the "Moon Greasers" from Canyon in the minds of the spectators. It has been many a moon since the Thundering Herd has met such an overwhelming setback on the slippery court.

SPORTS AND MORE SPORTS

With the cagers travelling, much activity is being planned in the home lot. In fact, there is going to be so much that we are thinking of recruiting a score of extra scribes. Golfing, track, boxing, wrestling and presentation of football awards are carded for the weeks immediately after completion of examinations. Track meets and engagements for the wrasslers and leather pushers are being considered by the athletic council and will be released soon.

RAMBLING RAIDERS

Tech is getting to be another Notre Dame at least as far as rambling is concerned. Looking over the schedule released by coaches this week, we find the Matadors of 1935 meeting grid machines from seven states. Far-flung sections of the country will see the Red Raiders in action. Playing teams like Loyola and DePaul will give the Matadors more recognition and publicity than would Southwestern conference teams. Both of these institutions are located in large cities. From these points publicity has a habit of trickling to all points in the nation. Cayton probably had this in mind when he drew up the schedule.

Matador Grid Card Includes Ten Machines

Raiders Clash With Clubs From Seven States On Gridiron This Fall

Grid machines from seven states appear on the ten game schedule of the Matadors for 1935 with five contests to be unreeled on the local field. This was confirmed when Head Coach Pete Cayton announced the complete schedule in its final form this week.

- The complete schedule is as follows:
- Sept. 29 — Hardin-Simmons (here).
 - Sept. 27 — Daniel Baker (here).
 - Oct. 4 — Wichita university (here).
 - Oct. 12 — DePaul university (Chicago).
 - Oct. 25 — Loyola university (Los Angeles).
 - Nov. 2 — Oklahoma A. & M. (here).
 - Nov. 11 — Arizona university (here).
 - Nov. 23 — St. Mary's university (San Antonio).
 - Nov. 28 — Detroit university (here).
 - Dec. 7 — Oklahoma City U. (Oklahoma City).

Oklahoma A. & M. replaces the University of St. Louis which was given on the tentative schedule. Dates have been shifted with DePaul matched against the Matadors at Soldiers' Field in Chicago on October 12. Negotiations with Centenary failed to bring about a contest with the Gentlemen. The Red Raiders will remain idle the week of October 19 before making the jaunt to Los Angeles for a struggle with Tom Lieb's Loyola Lions.

On November 2 the Oklahoma Aggies invade the local arena to do battle with the Border conference champions. It had been planned previously for the Techsters to appear in the "Windy City" on this date.

AFTER CONCENTRATING — GET A LIFT WITH A CAMEL!

JOHN L. FILSON, '36 — BIOLOGY.
Filson says: "After a long 'lab' session, dissecting and drawing detailed diagrams... spending hours over a microscope... you get pretty well worn out. I keep a pack of Camels beside me. For, with such exacting work, it's a great relief to smoke a Camel any time I'm tired and quickly experience a delightful return in energy. And boy! Do those Camels taste good!"

LEE-TOBACCO EXPERTS AGREE:
"Camels are made from finer, More Expensive Tobaccos—Turkish and Domestic—than any other popular brand."

TREE SURGEON. "Camels help to relieve the tiredness that follows a hard day's work," says H. L. Vough, a Camel smoker for 8 years. "I'm a pretty constant smoker. I consider Camels the mildest cigarette—they never jangle my nerves."

DRAFTSMAN. Franklin Dominick says: "Camels restore the feeling of ease and mental alertness that a draftsman needs to continue his exacting work. I smoke Camels constantly. And never have they given me any sign of ragged nerves."

Max Baer" says he is not going to marry the next girl on his list, Miss Mary Kirk Brown of Atlanta, Georgia.

Coach Tom Lleb, director of athletics of Loyola university, has been slightly indisposed the past few days as a result of an attack of influenza.

Aggies Apply For Novelty Positions

New football positions have been devised by students in the Division of agriculture.
On the list of students interested in participating in intramural football appear the following names and positions: Ray Karr, drawback No. 1; Don King, drawback No. 2; Elizabeth Mont.ort, fullback; John Manning, way back; Carl Harris, scrimmage dummy; Floyd Wilkes, yell leader; Lawrence Shipman, waterboy; Jot Smyth, end (of bench); Wayne Griffith, second waterboy; Coleman Cowan, swayback; George Townsend, pig tail; and Dean Leidigh, mascot.

Mr. C. Luker, associate professor of agricultural education, went to Plainview Tuesday to attend the Irrigation Conference.

Dormitory Boys

(Continued from page one)
ditions of the strike is not known, but some have already given in to the demands of polite society and, convinced that "powder will not cover it up", have shaved off the offending growth. "I felt like Rasputin," one boy said.

TEXAS TECH COLLEGE

—so far as we know tobacco was first used about 400 years ago

—throughout the years what one thing has given so much pleasure..so much satisfaction

They came looking for gold . . . but they found tobacco

. . . and tobacco has been like gold ever since! The tobacco raised in Virginia and exchanged for goods helped the struggling colonists to get a foothold when they came to America.

Later on, it was tobacco that helped to clothe and feed Washington's brave army at Valley Forge.

Today it is tobacco that helps—more than any other commodity raised in this country—to pay the expense of running our Government.

In the fiscal year 1933-34 the Federal Government collected \$425,000,000 from the tax on tobacco. Most of this came from cigarettes — six cents tax on every package of twenty.

Yes, the cigarette helps a lot—and it certainly gives men and women a lot of pleasure.

Smokers have several reasons for liking Chesterfields. For one thing, Chesterfields are milder. For another thing, they taste better. They Satisfy.

Early Colonial planters shipped hundreds of pounds of tobacco to England in return for goods and supplies.
