Speaker Says Trees Aid To Precipitation

Forestry Service Lecturer Heard By Luncheon Club Group

Disadvantages of overgrazing and destruction by fires were the topics stressed by H. N. Wheeler, chief lecturer of the U. S. Forest Service when he spoke before the Business men's Luncheon Club Wednesday noon to a large crowd of members and visitors.

The use of wood produces from railroad ties to neckties and the value of trees were stressed, Mr. Wheeler said that it was the opinion of many authorities that trees increased rainfall. Some said the increase was from 2 to 25 per cent. Trees act as sponges taking moisture from the ground and transferring it through the tips of the leaves into the air he said.

Some of the most vivid pictures showed the results of forest fires and the lecturer took full advantage of this to urge on the public every possible caution against starting any kind of fire that might do a large section. He urged also the protection of all native trees, such as the cedars of the Howard County hills that prevent the natural erosion from doing more damage than it does.

Miss Nancy Dawes played a very enjoyable selection of the piano at the close of the meeting.

A number of men and women attended the club as visitors in order to hear Mr. Wheeler's lecture.

M. H. Morrison and Fox Stripling will have charge of the next week's program.

Eleven Scouts Pass On Tests

Eleven local scouts appeared Tuesday evening before the Board of Review and had tests checked. Nine of this number presented work on merit badges for board inspection.

Members of Troop 1, nine in number were all that received checks on advanced work. Morris Bass passed patch finding and personal health; Good Greaves, life saving, handicraft, and reading; Steve Ford, Jr., horsemanship, Jimmy Ford, firemanship; Robert Hall, automobile; Sam Petty, wood-crafting; George Thomas, path finding and civic; Tillman Crance, swimming and life saving and Paul Warren, art.

Boy Scout Water Meet Postponed

Originally scheduled for Thursday, the Buffalo Trail Council Boy Scout water carnival in Midland has been postponed until Tuesday, Dr. J. R. Dillard, vice-president of the area, has been advised that recent rains and inclement weather were given as reasons for postponement of the affair. It was thought that many troops could not attend due to roads ruined by rain and that cold weather would make it inadvisable for swimming.

Plans had already been made by local troops to attend the carnival. However, it was intimated that all would make the trip Tuesday.

Howard May Receive Tax Reduction Of 19 To 29 Cents

County Judge H. R. Debenport has received word from Gov. Ross S. Sterling asking that Howard county defer fixing the county tax levies for the coming year for retirement of county road bonds.

The governor's telegram reads "I request you defer making county tax levy insofar as highway bonds are concerned until legislature passes on tax relief measures early in September."

Exact amount of highway bond indebtedness that would be retired under a state statute appropriating part of the gasoline tax revenue for that purpose cannot be accurately determined for Howard county at this time.

The county's total outstanding indebtedness for highway is \$238,000, which includes \$58,000 outstanding of the \$100,000 issue of 1911 and \$180,000 outstanding of the \$300,000 issue of 1920.

The county's budget, compiled subject to final approval following a public hearing next Tuesday at 2:30 p. m., calls for tax levies totaling 29 cents to provide interest on a sinking fund for the two county bond issues.

If the entire outstanding portion of these issues were retired by the state the county tax rate would be reduced from 75 cents to 46 cents. However, county officials point out that not all of the proceeds of the two county bond issues was expended on roads that are now state highways—that is, highway No. 1 and highway No. 9.

Part of the 1911 issue was spent on the Gail road north of Big Spring. At that time No. 9 had not been taken over by the state.

The \$300,000 issue of 1920 was sold below par, bringing the county only \$255,000. Two years ago W. R. Ely, chairman of the highway commission, said here that it was his understanding that records of the highway commission preceding the Moody administration, which handled construction work on No. 1 and No. 9 in this county, showed the county spent on construction of state highways \$127,000 of the \$255,000 realized from sale of the \$300,000 issue.

County officials estimate that in case the state retired only \$127,000 of the outstanding bonded debt of the coming year's county tax rate would be reduced 19 cents, leaving the rate at 56 cents.

Of the 1911 issue \$58,000 is outstanding and there is \$107,000 in the sinking fund, including \$9,000 in bonds and \$1,700 in cash. This issue bears 5 per cent interest, payable annually. The issue matures over a 40-year period beginning in April 1911.

Cotton Prices In New Advance

NEW YORK (AP)—Spot cotton closed 17 to 19 points higher, middling 7.15 cents.

The stock market experienced another bullish session, shares rising \$2 to \$8 on the initial movement led by rails, utilities and farm implements. The market reacted but rallied on the late trading, led by motors. Trading totaled 4,500,000 shares, the second largest day of the year.

Wheat rose 1-4 to 1-3-4 cents per bushel.

Sterling Off On Strenuous Speaking Tour

Replies To Statements Of Fergusons In San Marco Talks

By GORDON K. SHEAREE United Press Staff Correspondent AUSTIN, (UP)—Governor Ross S. Sterling was off early Monday on the second week of his run-off campaign of the day scheduled for 8:30 a. m. at Luling.

Wednesday he opened with an 8:30 a. m. speech at Nixon and followed with others at Kenedy at 10:30; Karnes City at 11:30; lunch at Poth; Floresville at 1; Stockdale at 2:30; Seguin at 4:30 and Lockhart at 8:30 p. m.

The governor issued a reply to the opening speeches of the Fergusons at San Marcos claiming that they had built more country school houses than all other Texas governors combined. He quoted appropriations, claiming they show that both he and Governors Hobby, Neff and Moody supported schools better than either of the Ferguson administrations.

"Jim's statement that the Humble Oil company helped pay my debts to the Houston banks is utterly, absolutely and wantonly false," the Sterling statement said.

Market Demand The statement charged that the Fergusons, the Ferguson Forum and the Standard Oil publication "The Lamp," all favor limiting oil production to market demand. It also said that James E. Ferguson opposed the bill to divorce big oil companies from the filling station business and a bill limiting profits of pipe line companies to ten per cent.

Former Governor Dan Moody announced here he will speak in the interest of Sterling's candidacy at Terrell.

The Fergusons continued their plan of making only week-end dates and will visit San Angelo, Coleman and Lampasas at the end of this week.

First primary totals were read with close interest in Austin. "Governor Jim" said that the 105,855 lead given Mrs. Ferguson over Governor Sterling was slightly less than he had estimated.

1,200 Telephones To Be Discontinued If Rate Is Not Cut

HUTCHINSON, Kan. (UP)—Telephones of about 1,200 subscribers will be ordered cut after Thursday unless a rate reduction is made by the Southwest Bell Telephone Company here, it was agreed at a mass meeting here.

There are about 7,000 telephone subscribers in Hutchinson, and all will be asked to join the "strike," A. G. Gleaddall, former mayor, announced today. He is chairman of a committee which a month ago opened a drive for lower rates. A reduction of one dollar is asked.

Gleaddall advised the large crowd attending the mass meeting to decline to pay August bills until after Thursday and then keep the money in their pockets if the reduction is refused, leaving the next move up to the company.

County Budget Hearing To Be Held Tuesday

\$138,030 Expenditures For Year Recommended, Tax Rate Unchanged

Budget of the County of Howard for the coming year, as recommended by the county judge to the commissioners court, subject to final approval following a public hearing Tuesday of next week at 2:30 p. m. calls for expenditures totaling \$138,030. Expenditures of the past year amounted to \$190,923.53. The budget calls for the same tax rate as that of the past year—75 cents per \$100.

Outstanding obligations due during 1933 total \$44,833.08. This includes interest and sinking fund requirements on outstanding portions of two road bond issues, interest and principal on jail improvement, courthouse jail and viaduct warrants.

Total of budget items other than those to care for interest and principal on the bond and warrant debt total \$137,278.

During the past year funds received from all sources amounted to \$211,793.59.

Various tax levies included in the total of 75 cents per \$100 will differ in some instances but their sum will remain at 75 cents.

Fights Occur In Four Cities On First Day

Source Of Plot Indefinite; Naval Garrison Is Mutinous

MADRID (AP)—Rebellion flared in four Spanish cities Wednesday resulting in at least seven deaths and a dozen wounded in Madrid and an attack at dawn on the building housing the premier and ministry of war.

Officially it was announced that the rebel force was under control of General San Jurgo in Seville.

Civil guards in southern provinces including Cordoba and Algeciras had joined him. It was reported that the naval garrison at Cartagena on the southeast coast had mutinied.

Authorities differed on whether the trouble was an attempted monarchist coup, or incited by communists or labor syndicalists.

Ninety arrests were made, including three generals and thirty-six civilians.

The sixth regiment garrisoning Madrid was ordered to attack Seville from the south. Madrid newspapers were suppressed. The country is virtually under martial law.

The Roadside Luncheon

ANYONE WHO does much motoring through the open road country must be convinced that solid prosperity—depression or no depression—awaits every roadside luncheon proprietor who appreciates the value of cleanliness, good cooking and a neat appearance.

The country roads of America are lined by thousands upon thousands of eating places and most of them, unfortunately, are pretty bad. In appearance they are eyesores; there is filth about the premises, on the walls, screens and in the crockery; and the food they put out is greasy, poorly cooked, unpalatable and indigestible.

But things are looking up. The exceptions are not as rare now as they used to be; furthermore, it is comforting to notice that the man who has the good sense to operate one of these exceptions almost invariably prospers.

For the motorist, who is a pretty long suffering citizen, soon learns about such things. He develops a keen eye and when he spies a roadside restaurant that is neat and clean in appearance, with a bit of grass about its walls, screens and its windows, not too many advertising signs nearby and some slight evidence of decent taste in its architecture, he loses no time in stopping to sample its wares.

To be sure, he is sometimes disappointed. But the disappointments are fewer than they were three or four years ago. The unpretentious little places where you can by a really good meal and eat it in pleasant surroundings are getting more numerous.

And now they stand out in the motorist's memory. Like the elephant, he never forgets. He tells his friends about the good places, he goes back to them himself, and gradually they build up a patronage that insures their permanence.

There are, of course, too many roadside lunchrooms already. But there are not too many good ones, and the host who looks for good food and clean, tasteful surroundings are, and supplies them is apt to stay in business for a long, long while.

Mrs. Ferguson Becomes Active At Headquarters

Milk Consumption Increases In Dallas Because Of 'War'

DALLAS (UP)—Milk consumption in Dallas has increased 12,000 gallons daily and six new dairies have sought permits to sell and pasteurizing plants since the start of a distributors' "price war," Dr. J. W. Bass, city health department physician announced.

The "war" carried prices to the lowest level in the department's records when quarts of milk sold for four and five cents. The same dealers offered five cents for the empty bottles.

"According to figures by this office, the recent cut in the price of milk has resulted in an increased daily consumption of approximately 12,000 gallons," Dr. Bass said. "Former daily consumption was approximately 28,000 gallons, which was jumped during the past week to more than 40,000 gallons."

The health department officer said the quality of the product had not changed.

The increase is largely due to the purchase of quarts of milk where pints formerly were bought, he said.

Wholesalers said they were not attempting to pass the loss to farmers who have been paid on the basis of spring prices.

Texas Board Of Education Closes Doors On Inquiry Into Uses Made Of Funds By State Institutions

AUSTIN (UP)—Closed doors today barred the public from inquiries begun by the state board of education here into the expenditures of the state supported institutions of higher learning.

The board is authorized to make recommendations on economies for the various schools and elimination of duplications in their work.

The investigation is an enlargement of the questioning carried on by the appropriations committee of the last legislature.

The University of Texas was first on the list of institutions taken up by the board of education.

While the session was closed, it is known members of the board seek definite information on the number of hours devoted by instructors to classes; how many pupils there are to an instructor in certain courses; how much time professors devote to work away from the university.

Enrollment figures of all institutions are due for a close scrutiny also, charges having been made that some base appropriations requests on peak registrations not truly representative of the student body actually taught during a term.

After questioning university officials, A. & M. College, North Texas, and John Tarleton Agricultural College expenditures and courses are to be considered by the board.

State Seeks To End Restraint On Two Motor Truck Laws

AUSTIN (UP)—Motions to dissolve the temporary restraining orders which now prevent enforcement of two provisions of the state motor truck laws issued by a Corpus Christi Court, will be filed immediately, assistant Attorney General T. C. Christopher said today.

The restraining orders were obtained by Anderson, Clayton & Co. of Houston, world's largest cotton factors. They attack the requirement the state permits be secured for their trucks and also the 7000 pound load limit. The company claims that owning and operating its own trucks, it is exempt from such provisions.

Sixty motor trucks, operating between Corpus Christi and the lower Rio Grande Valley are involved.

Dallas Man Charged After Child Dies Of Accident Injuries

DALLAS (UP)—J. P. Agnew, south Dallas, was released on bond of \$750 after he had been charged with negligent homicide in connection with the death of Bobby Paulk, 23 months old son of Mr. and Mrs. Louis Paulk.

The complaint said Agnew backed his automobile from his driveway into the street. He was unaware of striking the child until his sister told him of the accident. The child died Sunday at Baylor hospital.

Death Penalty Prescribed For German Rioters

BERLIN (UP)—Germany's "all-molecule cabinet" moved to halt terrorism among warring political parties by decreeing the death penalty for all persons convicted of political acts of violence.

Members of the cabinet signed a decree Monday that it provides execution for any person caught with a weapon in his hand in a crowd where someone has been killed even though the holder of the weapon did not commit the murder.

The death penalty is decreed for any person found guilty of political rioting, treason, arson, instigation of explosion or floods, or damaging railways or railway equipment.

The decree will go into effect immediately after President Paul von Hindenburg signs it.

A second decree signed by the cabinet provides for the establishment of special state courts to try all prisoners accused of violence as quickly as possible.

Meanwhile, renewed outbreaks were reported. White police were staging huge raids in the communistic district of Hamburg, fights and bombings were attracting official attention in East Prussia and Silesia.

H. B. Dunagan, who underwent a tonsilectomy in Austin, is reported to be improving slowly. He and Mrs. Dunagan will return to Big Spring in about two weeks.

Miss Clara Blakey, of El Paso, is expected in Thursday to visit her sister, Mrs. J. W. Gallagher. Mrs. Gallagher is visiting her daughter, Mrs. W. W. Inkman.

Accused Flyer Tells Of Love For 'Partner'

Captain Lancaster Says Young Writer Killed Himself

COURTROOM, Miami, Fla.—Captain William N. Lancaster, British aviator, told of his love for Mrs. Jessie M. Keith-Miller, his Australian flying partner, from the witness stand in defense of the charge he murdered Haden Clarke, his rival for her affections.

Clarke, young Miami newspaperman, was fatally shot in a sleeping porch he occupied with Lancaster in the Keith-Miller home here last April 21. Lancaster contended Clarke committed suicide. The state contends Lancaster killed Clarke because of jealousy.

Captain Lancaster resumed his testimony, said that relations between himself and Mrs. Keith-Miller became more than friendly in Australia, after they had completed a flight from London.

One Smoker tells Another

IT is perfectly natural for smokers to talk to each other about what they smoke and why they smoke a certain brand. Tastes differ, and therefore different people smoke different kinds of cigarettes. Those who smoke CHESTERFIELDS seem to take more pride in telling other smokers — "that CHESTERFIELDS are milder; that there is no harshness — no bitterness." They also tell them — "that CHESTERFIELDS taste better; that they have a pleasing aroma." . . . CHESTERFIELDS are clicking with millions.

What's *in the food* New *markets?*

Knowing what foods are seasonable, knowing the prevailing prices, knowing what bargains are offered . . . knowing these things assures you of being able to place before your family the most healthful and easily planned meals. And even more important it enables you to make very substantial savings on the food bill.

Knowing what's new in the food market in both prices and products is admittedly one of the most important functions of the efficient, economical homemaker. It's a part of good management.

And this information is very easily obtainable. A regular reading of the food advertisements appearing in the DAILY HERALD will give you most of it. Every Friday the Herald's market section shows you how to save money on your food purchases . . . tells you where to buy and what to buy so that you may have more to eat and still keep within your food budget. Read the market pages every Friday.

Don't forget . . . a regular reading of the DAILY HERALD food pages can't help but save you money . . . can't help but improve your meals.

Because the women of Big Spring territory read the DAILY HERALD so consistently, advertisers have long since discovered that it is the best medium for all their advertising. That is the reason why the DAILY HERALD has carried the largest percentage of the lineage in this trading area.

CHAPTER XIII

It was as Steve put it, "a man's sized supper." Steve had completed "a deal," he explained rather vaguely, and was in the height of good spirits. Barry had just returned from Twilands, the family estate, where he had attempted without much success to persuade his uncle to aid in financing the dredging machinery for the mine.

became suddenly bitter, "that it's even riskier to offer a gift to an old friend. If it hadn't been for you, Mona, those diamonds would never have been mined. I wouldn't have finished the job without you to think about."

"Oh Yeah?" BUT SCIENCE SAYS O. G. IS THE BEST CIGARETTE"

WHEREVER you are... those tireless cigarette ads will find you! Each urging its own special claim!

Milder! Fresher! Kinder! Good words, but do they constitute proof? Forget the adjectives for a moment... and listen to the findings of Science.

A great testing laboratory recently made 75 tests of 4 leading brands. These tests, verified by scientists of two universities, proved that the smoke of OLD GOLD is cooler, hence more appealing and easier on the throat.

COOLNESS is the key to quality in a cigarette. The finer the tobacco... the cooler the smoke. The PURER the tobacco... the cooler the smoke.

When Science found O. G. the coolest cigarette, it simply verified the fact that OLD GOLD is made of PURE tobacco; the choicest Grade "A" domestic and Turkish leaf, with no artificial flavoring.

*This is to certify that in 75 repeated tests made of four leading cigarette brands... measuring the heat content of each cigarette by the calorimeter method... it was shown that OLD GOLD is from 112 to 156 B. T. U's COOLER than the other brands.

for those who provide the staples of life as well as to improve the value of their holdings.

Now should this happen, should the proposed plan prevail in Texas \$10,000,000 would be transferred from the pockets of the gasoline tax payers from the highway fund to the general revenue fund and this would be wrecking the future by costing the jobs of thousands of employes engaged in road building work in Texas.

There is one road for the intelligent and thinking Texan to take. It is the road to constitutional government, which holds a chief magistrate accountable for every act of his administration and subjects him to impeachment by the legislative body when his acts or his actions show a flagrant disregard for the constitution and constitutional government.

and slander and ugly charges without foundation should be met with concrete facts and figures, and in every county in Texas organizers should work to call upon all the people who are qualified to cast ballots to go to the polls Aug. 2 and settle this and continue in power a constitutional governor and government which stands for the organic law and the statutes of state, the equal enforcement of all laws, an intelligent and honest expenditure of the tax money of the people and loyalty at all times to the ideal and principles of a democratic government which is a government of and for and by those who create or employ and pay public servants.
