Student Body Chooses Leaders At Polls Tuesday

City Officials Name Prim To Lubbock Post

Instructor Accepts Job With Local Chamber Of Commerce

JOHN N. Prim, assistant instructor in the business administration department of the arts and sciences division, resigned this week to accept the position as publicity manager and assistant secretary of the Lubbock Chamber of Commerce. He succeeds Garnet O. Reeves, who resigned the post to become manager-secretary of the Pampa organization.

In all probability Prim will also become secretary to the Retail Merchants association, President Bradford Knapp stated in announcing the resignation.

Attends Haskell

Prim graduated from high school in Miami, Okla. in 1928, enrolling in Haskell Institute at Lawrence, Kansas, in 1931. He entered school here as a sophomore in 1933 and is a candidate for the BBA degree in June. He has fulfilled most of his requirements for his master's degree. Prim has been continually on the honor roll and lettered in football for two years.

The Stander-Cannon award, given annually at the college to the student football letterman who makes the highest scholastic average went to Prim during the winter session of 1934-35.

Reeves Leaves

Prim assumed his new duties yesterday. Reeves left Wednesday for Pampa after being honored with a banquet Tuesday night by Lubbock business leaders.

Married. Prim has a year-and-a-half-old son. He lives at La Fonda on Main street.

James Toothaker and Mary Louise Middleton, student assistants in the business administration department, will continue the work formerly under the supervision of Prim.

Knapp Studies Stadium Plan

State Governing Body Asks President To Consider Cost

President Bradford Knapp is now considering a new draft of plans for a Tech stadium which will reduce the original cost from \$135,000 to \$75,000. These plans were drawn upon the request of the state legislature.

The proposed stadium will accommodate 10,000 people while the original draft would seat 14,000. The seats will be of wood construction instead of concrete. The track field and the press box is to be temporarily omitted, but a place will be left for them to be built later.

In many respects the stadium will not be as luxurious as the original one planned. Dr. Knapp pointed out.

Revises Plans

If Knapp approves these plans, they will be filed with the Public Works Administration in Fort Worth for consideration of a grant and loan. The plans are to be forwarded to headquarters in Washington if they are approved in Fort Worth.

The plans were revised by Wyatt C. Hedrick of Fort Worth, college architect according to instructions received by the institution head.

SALLY wants to APOLOGIZE for being A DAY or TWO behind time with her STATEMENT about ALICE TOWNSEND and BILL STUBBS. But was your FAITHFUL reporter to KNOW that they slipped OFF? BEST of LUCK is WHAT SALLY wishes for them NOW.

SOMEHOW the RUMOR has been going AROUND that DRUMMER PRITCHETT has been KICKED out of SCHOOL THAT'S what SOMEBODY gets for trying to beat SALLY to the scandal. THERE AIN'T NUTHIN' to it!

THERE have been a lot of FUNNY RUMORS and GUESSES as to what SALLY meant about PRINCE HOLBERT Wednesday. WELL, he has been SOLD. THAT'S ALL. (See SALLYPORT, page 4)

Group Votes Down Service Time Too Limited, States Committee Considering Recognition Of Men

A special committee, composed of faculty members and students meeting in President Bradford Knapp's office Tuesday afternoon voted against the proposal for a men's recognition service on the campus.

President Knapp expressed the belief that little could be accomplished this spring. He said the proposal would not be dropped, but instead would be called to the attention of the new Student Council and College Administrative Council this fall.

Knapp Quoted "Every effort will be made to have the service but it is felt that the matter involves too many questions of standards and policies to be settled at once," Knapp said.

Sufficient time should be given so that the matter might have rather full discussion among the various organizations on the campus, the college head added. It is the belief that a year will be necessary before such an important step can be taken, Knapp pointed out.

The special committee consisted of faculty members, C. E. Russell, J. O. Ellsworth, J. H. Murdough, Chas. V. Bullen, V. L. Doughtie, R. C. Sidwell, A. J. Balm, J. G. Allen, R. C. Goodwin, and A. B. Cunningham; students, Leon Marks, Ray Dunlap, Lee Norris, L. E. Parsons, H. C. Crawford, Paul Wilhelm, Roy Riddel, Lewis Kerr, Newton Smith, Raymond Loffland, Leon Ince, Paton Price, and Registrar W. P. Clement.

Extension Department Head Leaves Next Week For National Convention

J. F. McDonald, director of extension will attend the annual convention of the National University Extension association which meets in Baton Rouge, La., next weekend. The association, which is composed of state universities, colleges, and independent schools, has 48 members. Tech and Texas university are the only members in Texas.

Capa Y Espada Installs Newly Elected Officers

Officers who were elected by Capa y Espada, campus Spanish club, this week to be installed at their annual banquet Tuesday night are: Raymond Libby, president; Oleta Kelley, vice-president; Allie Hevia, secretary, and Ruth Black, treasurer.

Outgoing officers are: Allie Eason, president; Sybil Poteet, vice-president; Elizabeth Stokes, secretary and Milburn Aldridge, treasurer. Eason will preside at the banquet honoring Dr. and Mrs. C. B. Quaila who are leaving for Kansas.

Division Dean Talks At Frenship School Banquet

A. H. Leidigh, dean of the agricultural division, visited the Frenship school yesterday where he spoke at a FFA vocational agriculture banquet.

L. M. Hargrave, Tech graduate with a major in agriculture in 1935, teaches there.

Leidigh discussed phases of "Permanent Agriculture."

Students Go To Plainview

Whatley Takes Spanish Group For Program Before Chapter

Miss Frances Whatley, associate professor of Spanish, and a group of advanced Spanish students leave this afternoon for Plainview to attend the first meeting of Llano Estacado, West Texas chapter of American Association of Spanish teachers.

The students from Tech will present the program for the association. Following the presentation there will be a dinner at the Hilton hotel.

Vice-President

MEETING in Austin last month, the Texas Dietetics association elected Dean Margaret Weeks of the home economics division as vice-president of the organization. She will serve in this capacity for one year.

Name Clerks Gwynn Dowell will be the announcer for the events. Pauline Reeda and Pauline Boren are to act as clerks.

The following program for the day has been worked out by a committee consisting of Jewell Bishop, chairman, Allie Hevia, Dona Huff, Mildred Fouts, Christine Harris, and Elizabeth Arnett.

Eight o'clock—registration in the gymnasium; 8:30—general assembly; 9—tennis, singles and doubles, jacks and basketball, both first and second teams; 10—archery, ping-pong, singles and doubles, and joroback riding; 11—volleyball; noon—barbecue luncheon on Tech field; 1—posture parade, original costume clog, general folk dancing and singing; 2—horse shoe, 60-yard dash, basketball throw for distance, and standing broad jump; 3—playground baseball, aerial dart, and skating. Golf matches will be played Sunday morning at 7 o'clock on the Meadowbrook course.

List Committees The following committees have made all the arrangements for the day:

Program and registration: Jewell Bishop, chairman, Allie Hevia, Dona Huff, Christine Harris, Christine Harris, and Elizabeth Arnett.

Equipment committee: Lois Bradford, chairman, Melzine Rocke, Inez Ross, Neorie Greer, Beatrice Nichols, Lois Paulsel, and Dorothy Spense.

Gregory Is Chairman Publicity and invitation: Evelyn Gregory, chairman, Katherine Johnston, Mary C. Couch, Loraine Watson, and Geraldine Fox.

Awards: Ruth McWhirter, Linna Gilmore, Alma Jones, Estelle Holbert, and Dorothy Bernathy.

General arrangements: Doris Hopping, chairman, Mildred Chapel, Faye Hodge, Magdalen Dederick, and Linda Treadwell.

Charge Fee Luncheon: Juana Chance, chairman, Lois Sprague, Elsie Feigen, Irene Harrell, and Mattie Cora Hodge.

Girls majoring or minoring in physical education and faculty members will judge events. A registration fee of 25 cents is being assessed participants.

Library Receives Almanac Copies

Lloyd Croslin, Tech graduate and secretary to Congressman George Mahon, has supplied the library with several copies of the Nautical Almanac, Miss Elizabeth H. West, college librarian, said.

The Almanac were sent from the office of Congressman Mahon and included issues for the years 1908 to 1911 inclusive, 1914, 1918 to 1931, 1923, 1925, 1931 and 1932, and 1935 and 1936.

Croslin has been secretary to Congressman Mahon since his election to office. He received his B. A. degree here in 1930.

Club Receives Invitation To Appear At Centennial

Liederkranz, German singing club, recently received a formal invitation to sing at the song festival of the Centennial at Dallas, October 4, 5, and 6.

Visitor Taught Edward VIII To Play Poker, Dice

By FRED GRIFFIN A VALUABLE man to have around is the one who taught the King of England to play draw poker and the American game of "craps." That teacher, Will H. Fox, newspaperman and showman, extraordinary, spent two days on the campus early this week as a representative of the Texas Centennial.

Fox had resigned his post as a cub reporter on the Chicago American to enlist in the American Expeditionary forces in France. As soon as his former bosses discovered he was in the lines, they assigned him to interview the Prince of Wales, who is now King Edward VIII of the British Empire. The young American exercised all the wiles of which he was capable, but he had been unable to reach the royal would-be gambler.

Gets Interview One evening a group of dough-boys was sitting around a fire when one of the Prince's aides came in-

to the American camp declaring that the British nobleman wanted to learn poker and "craps." Fox almost fell over himself in being the first to volunteer as an instructor. He taught Edward VIII the two American games—and got his interview.

Fox seemed to enjoy telling the story to a Toreador reporter as he stood in the Textile building allyport, gazing dreamily past the smokstack of the power plant into the realms of memory. He was a member of the "lost battalion" that lived for days without food and with little water.

Tells Stories An interview with the Centennial representative is easy, but he told stories of people with whom an interview was almost impossible. He has climbed in windows, bribed bellboys, used all the conventional methods of getting an interview, and has invented methods of his own.

"I think women in newspaper

Thompson, Cooper Seek Presidency Of Council; Eaton, Duvall Unopposed

Zorns, Lehberg, Fry Appear On Ballot For Secretary-Treasurer

HEADING the ballot in Tuesday's Student Council voting are Claude Thompson and Al Fry Cooper, candidates for president of the governing body. They are among the fifteen students nominated at a mass convocation Thursday morning. The ballot was reduced to ten names by withdrawals and declaration of ineligibility.

Thompson is a senior arts and science student from Lubbock, and Cooper is a junior engineer from Ralls. Winburn McAllister, junior in the agriculture division, was nominated for the same post, but asked that his name be withdrawn. Thompson is a former vice-president of the Student Council, and is president of the College Club and Sigma Gamma Epsilon, honorary geological fraternity. Cooper is a member of ASME, mechanical engineering society.

Eaton Unopposed Wilmet Eaton, junior journalism student from Rule, is the only nominee for vice-presidency of the student governing body. Names of three girls were submitted as candidates for the office of Student Council secretary-treasurer. Leila Mae Zorns, junior journalist from Meadow and member of the K-Shari club, was nominated. Maxine Fry, sophomore journalism student from Floydada, and Helen Lehberg, junior arts and sciences student from Mason, are also candidates for the post. Miss Lehberg is a DED while Miss Fry belongs to Laa Chaparritas.

Charles Duvall, junior in the arts and sciences division from Sherman, Red Raider letterman, is the only candidate for student representative to the Athletic Council.

Shanks Withdraws The greatest number of nominees are in the race for yell leader. Arch Lamb, junior agriculture student from Fort Worth; Paul Grandin, junior engineer from Miami; Larson McGee, junior engineer from Borger; and Dave Shanks, sophomore in the arts and sciences division from Perryton are candidates for cheer leader. Three other nominations were made, but George Carithers and Don Miller rejected candidacy, and Lloyd Turner was declared ineligible to hold the post because (See STUDENTS, page 4)

Hodges Returns For Work During Summer Session

Miss Carrie Hodges, who has been on leave of absence from the faculty of the home economics division for the past year, will assist Miss Sannie Callan, associate professor of foods and nutrition, in parent education and nursery school work this summer, Dean Margaret W. Weeks said Thursday.

Miss Hodges has been studying child development and parent education at Iowa university this past winter.

The summer nursery school is conducted each year in the home management house. Children from 2 to 5 years of age attend the school. Home economics students are given the opportunity of observing small children while assisting Misses Hodges and Callan in the work, the dean explained.

Schuck Sends Abstract Of Investigative Paper To Flagstaff Gathering

Dr. Cecilia Schuck, professor of foods and clothing, has sent an abstract of her investigative paper on "Studies in the Occurrence of Mottled Enamel" to be read at the Southwest Section of the American Association for the Advancement of Science now in session in Flagstaff, Ariz. Dr. Schuck was asked to present her paper personally, but was unable to attend the meeting at this time.

A number of investigations have been conducted by Dr. Schuck to determine the prevalence of mottled teeth in this section. Tech students and Lubbock public school children with stained teeth were questioned and studied in an effort to reveal the exact nature of the defect and methods to prevent it.

LaVerne Manire, graduate chemical engineer, will leave Monday for Whittenton where he is to do research work for the Phillips Petroleum company.

Band Sells Ducats

Reared in New York, he told of awakening in a downtown hotel and looking out to see a broad expanse of prairie rather than a maze of skyscrapers and billboards. He delayed his arising thirty minutes in order to get full benefit of the view.

The Centennial promoter made two public appearances on the campus. Tuesday morning he was interviewed by a sophomore journalism class, and that evening spoke to the Matador band, delegating that organization as the exclusive advance ticket salesman in this county.

Division Offers Unique Souvenirs At Annual Affair

Airplane views of the campus, block-printed by applied arts students, are being given as souvenirs to visitors at the annual home economics open house now in progress at the Home Economics building. Craftwork of all kinds is on display, and students may be seen at work on projects in the different departments.

Visitors are being shown through the home management house and the women's dormitory, besides the Home Economics building. The open house closes today at noon, Dean Margaret W. Weeks said.

Pauline Hooser, president of the home economics club, states that most of the surrounding high schools have sent large delegations to the affair. All Tech students are invited to attend, Miss Hooser urged.

Children Sing At Tech Field

Five thousand school children thronged Tech field at 3 o'clock yesterday afternoon to sing Texas songs. Three hundred school buses brought the children from sixteen counties of state supervisory district 2 to participate in the South Plains preliminary of 40,000 school children who will sing at the Dallas Centennial on June 13. The gathering at Dallas is sponsored by the state department of education.

The committee members in charge were: city superintendent, K. E. Oberholzer; county superintendent, Joseph R. Gliggs; deputy state superintendent, G. D. Holbrook; state superintendent, L. A. Woods, and other officials of the state department who were in Lubbock for the singing.

List Songs The songs rehearsed were a culmination of two years intensive study of songs of Texas and the Southwest. They are the ones which all Texas will be singing during the Centennial year, Oberholzer commented.

The entire group sang: "Texas Our Texas," "Beautiful Texas," "Texas, Pride of the South," the junior chorus sang, "Sing a Little Song," "Over the Heather," "The Leaf and the Bird," "Battle Hymn of the Republic," the entire group; "The Bluebonnet," "Rounded Up In Glory," "Will You Come to the Bower," the senior group; "Stars of the Summer Night," "Black Joe," "Billy Boy," "O Susanna," "Whoopee Ti Yi," "Yo, Old Chisholm Trail," "Home Sweet Home," and "The Eyes of Texas Are Upon You."

Davis Presents One-Act Play

Mrs. Martha Knight Davis, student director of dramatics, will present Kirkpatrick's one act comedy, "Teapot on the Rocks," before Sock and Buskin club Tuesday evening at 7 o'clock in room 220 of the Administration building. This is the last of a series of student directed plays produced by Sock and Buskin club members during the year 1935-36. It is the only comedy attempted this term, Miss Ruth Pirtle, speech department head and club sponsor, said.

Student Director Offers Comedy At Dramatic Club Meeting

The plot concerns two girls who refuse marriage in order to follow careers as managers of a team that is a business failure. Gwen Marr Davis, as Mae Loveless, has much trouble with her lady partner, Daisy Anderson, played by Margaret Hines. Other characters are Mrs. Carstairs, a customer, played by Elsie Crosby; Roy Williams, Mae's boy friend, portrayed by Toby Ingram; and R. V. Jones as Willie, the grocery boy.

The scene is laid in a cozy colorful team room in an American village. In business meeting, the club will make plans for the annual Sock and Buskin picnic scheduled May 19.

Dairy Club Nominates Heads For Next Year

The Dairy club at their meeting this week nominated officers for the coming year. Election will be held Monday, May 18, J. C. Adams, organization president, said.

Nominees are: Maurice Cowan, president; James Hill and Bert Rigler, vice president; Morris Hill, secretary-treasurer; Arch Lamb, and Sam Hill, corresponding secretary and reporter; and Bert Rigler, and Van Scheid, sergeants-at-arms.

GIVES TESTS

Rogers Orr, assistant in the education department, returned Friday from Paducah where he gave the Harlow achievement test to sixth and seventh grades of Cottle county.

Your Ticket Purchase Means Helping School, Matador Band

WEST TEXANS are Texans! This is a fact that many of us who live in the western part of a state that is one hundred years old have forgotten. We have been blinded by jealousy and principles of petty pride, injured by the fact that our section of the state has hardly received an equal share of Centennial appropriations.

Students have been heard condemning Centennial officials for the scanty appropriations, but an event took place in the Textile building Tuesday night that should abolish all such condemnations.

A Centennial publicity official delegated the Matador band to handle exclusive sales of advance tickets in Lubbock county to the exposition. The band is to get a substantial commission, and it is likely that the funds will be used to send the musicians to the Central exposition grounds for several concerts during the summer.

It is necessary, then, that the whole student body talk and think Centennial, and that enrollees buy the tickets to be placed on sale Monday. Such action will not only be helping the band, but if the unit goes to the Centennial, its appearance is likely to bring credit to the whole college. Let us forget our petty jealousies and cooperate to give the Texas Centennial and the Matador band a chance to achieve what they are capable of being.

"In England we would hold up our hands in horror at anything so childish, so undignified, as the beauty contests so prevalent in American colleges." William E. Williams, secretary of the British Institute of adult education, holds up his hands in horror for a Drake Times-Delphic reporter.

"Higher education in the United States from 1920 to 1930 was a pretty sloppy kind of affair," according to Dr. Stephen Dugan, director of the Institute of International Education, who ought to know.

We Ask You, West Texas Chamber Of Commerce!

CONTINUALLY the Administration, faculty members, students, citizens of Lubbock and other individuals interested in the college cry to the "high heavens" for appropriations from the state legislature. Figures are presented, pictures of jammed classrooms and overflowing offices painted, and general crowded conditions shown with the ever increasing enrollment. But, with the lack of graduates in the Texas governing body and a "thumbs down" attitude on the part of government officials, the time has come when we must turn to some other agency for aid.

Nearly twenty years back, an organization was formed in this section of the state. The West Texas Chamber of Commerce sets forth as its main purpose the promotion of interests that stimulated the growth and development of the large expanse of land between Fort Worth and the New Mexico border. True, this has been done along commercial and civic lines but, sorry to say, this agency has been lax in making advances to place better educational facilities before the school going populace of West Texas. Especially is this so when its largest institution of higher learning is mentioned.

However, the time for redemption is now before the organization. Tech needs help. The school must have it to advance. Leaders of West Texas, let's get it! How? Through cooperation in applying pressure on narrow-minded, jealous and prejudiced government heads at our state capital.

Like most everything, politics is a game. (No, not a great discovery, but just a plain fact.) In the future, as this section becomes more densely populated, our power in state government circles is to increase. Our weight will be felt more and more until our words may become "the gospel" in some matters affecting the entire state.

As a single unit, backed completely by the people of the western part of Texas, the Chamber of Commerce should go to Austin and make its demands. With leaders from every city, town and hamlet forming this organization, free of present existing petty jealousies caused by minor happenings in the past, a big influence could be exerted with the legislature by refusing to "play ball" in the future. A united force in this direction would make the hair of many legislators stand on ends. Especially our representatives could see the writing on the wall before selling out to East Texas lobbyists for a song and dance offering.

Shall we act? Shall we put West Texas forward? Or shall we allow West Texas high school graduates to enroll at downstate institutions because of lack of facilities at home? We ask you, West Texas Chamber of Commerce!

"The machine age has produced the subtle propagandist with his alien program of social discontent and world revolt directed against the principle of authority, against Christianity, against the Democratic ideal." Dr. Edmund A. Walsh, vice-president of Georgetown university, says writing on the wall is in a crude Russian hand.

"Physiology has a great deal to learn from the scientific study of the elephant!" Dr. Francis G. Benedict, Carnegie Tech, bewails the unwarranted snubbing of the largest terrestrial mammal.

"Washington's boyhood has been distorted, his public career has been misrepresented to further the selfish political interests of his successors, and his historians have deliberately falsified the things he said and did in order to present a picture of the 'Father of Our Country' as a man without a fault." Prof. James B. Hedges of Brown indulges in a little debunking.

CAMPUS CAMERA

"KAFFE KALAS" IS ENJOYED EVERY AFTERNOON BY THE STUDENTS AND FACULTY OF AUGUSTANA COLLEGE. THOSE FUNNY WORDS MEAN ROLLS, RUSKS, AND COFFEE ON THE TABLE. THE SPREAD IS OPEN TO ALL STUDENTS. AND THE TOTAL COST IS WHAT YOU PUT YOUR HAND ON FIRST WHEN YOU REACH IN YOUR POCKET!

Reporter Sees Unusual Laboratory Experiment

Amphibian Falls Victim To Executioner In Muscle Tests

"THIS is the way," said the scientific man, (said while he stood by the water) "The only way, since men began to analyze muscles, they could in school." Then dropping his hand to the laboratory pool, He drew a frog from the water.

Dr. D. W. Douglas, instructor in biology, like Elizabeth Browning's pan, ends the natural and insignificant existence of water organisms to further art and science, and the happiness and wisdom of men. Dr. Douglas did not teach the frog to sing, however; he used it to teach zoology students how muscles work.

Passes Away The little pop-eyed frog was taken from his ninety-seven brothers in the pool in the biology conservatory Monday afternoon at 2:09 o'clock. He looked long and full at his family from his position in the instructor's hand; then he glanced at his non-committal neighbor, the snapping turtle, who stood with his back toward the victim and his head in the corner. The executioner prepared him for the ordeal for which he was brought from New Orleans. The needle pressed sharply through the brain. Instantly, and with apparently no sensations of fear or pain, the frog quietly passed away.

The zoology laboratory class, Dr. Douglas, Student Assistant Phillip James, and a reporter witnessed the following experiment performed with the leg muscle of the

WHY BE UNEMPLOYED THIS SUMMER? We offer you an opportunity to join our organization doing work of an educational nature. Our training insures you of success without previous experience. Many students have paid their entire college expenses from this work. Some have advanced to positions of a permanent and responsible nature. Write Today For Particulars ADDRESS COLLEGE DEPT. UNIVERSAL HOUSE 1010 Arch St. Philadelphia, Pa.

frog, a dry-cell battery, a recording drum, ring stand, and levers. Stretch Muscle The muscle is stretched from the ring stand to an easily elevated lever, also attached to the stand. Copper wire touches the nerve of the muscle, and an electric current runs through the wire when the button is pressed. The electric shock provides the stimulus usually provided by the brain. Smoked paper surrounds a recording drum, revolved by clock work. Three things are charted on the drum simultaneously: the lever moved by the contracting muscle (See REPORTER, page 4)

Lockard Lectures On American Art, Furniture Sunday

In the third of his series, R. I. Lockard, assistant professor of architecture and allied arts, will lecture on "Early American Arts and Furniture" tomorrow afternoon in the auditorium of the Engineering building. The talk, sponsored by the Tech Museum association, begins at 3 o'clock. Originally scheduled for last Sunday, the discussion was postponed until tomorrow because of adverse weather conditions, association heads pointed out. The society plans to present a lecture on "An Artist's Expression of American Painting" during May. Date of the talk has not been decided on, officials state.

One-Minute Interviews

Question: What do you think of the proposed men's recognition service at the college? Maurice Wright: It's okay, if they can find the true leaders. Louise Hall: I think it's a shame the women are getting ahead of the men so. Walter M. Pendleton: Men are due as much recognition as women. The true leaders deserve it. Mildred Blanton: It's the only way the world will ever know some of them exist. John R. Sanderson: I will not be quoted. Helen Lehmborg: What have they done? Eugene Struve: It's okay if they include those who are for fair play in campus politics—the "yellow sheet gang." Linda Treadwell: I think they should be recognized as well as women. Grace Stengel: Ditto what Linda said. Sid Stout: Realizing that women have been more numerous in the halls of fame than men, but due to the fact that men have been coming to the front in the past few years, I think it adequate to place men on the same basis as the fairer sex.

Club Names New Officers Monday

The Pre-Law club will elect next year's officers, complete plans for the annual picnic Friday, and discuss the final trial at its regular meeting Monday night at 7:15 o'clock in room 210 of the Administration building. Eugene Struve, Maurice Wright, Bill Craig, Sid Stout, and Angus Wages are members of the picnic committee. Making recommendations for next year's officers are: John T. Howell, James P. Howell, Eerton Tate, Dudley Wooten, and Clay Thompson.

The University of Pennsylvania had a "fault-finding day" recently. Everyone aired his pet gripes, but knockers claimed nothing was done about any of them. The belief that left-handed persons are slightly abnormal, says Dr. Samuel T. Orton of Columbia, is just another piece of folk-lore. Secondary school students in 1,000 cities are being polled to discover their "key problems." The psychologists are curious.

Miss Bonnie K. Dysart, associate professor of education and psychology, addressed Littlefield teachers Wednesday on the primary curriculum.

THIS week's craft from the Technique: Art there is the canny Canadian who crossed a kangaroo with a fox so he could produce fur coats with pockets.

The TCU Skiff announces that their boys dormitories have gone feminine and adopted the plan of signing in and out. One ed signed out to "shoot a little" and signed in "lost \$25."

When a young man swears undying devotion, says Dr. Calvin Stone of Stanford university, he should hold his head instead of clasping his hand over his heart. What counts, says the doctor, is the pituitary gland at the base of the skull. Most young men, however, still clasp their hands, for they are aware that they will be holding their heads soon enough, opines the Los Angeles Junior Collegian.

They're actually digging up old dirt at the University of Texas. Seventeen dinosaur footprints on a block of limestone are being prepared for shipment to the university, where a portion will be displayed with the exhibit of the geology department during the University's Centennial exposition from June to December.

Bruno Richard Hauptmann died an innocent man, if a recent poll of Ohio State students means anything. Of 300 questioned, 161 stated their belief that the Bronx carpenter should not have been executed.

Typical comment found in the ACP report: I was in Flemington at the time of the trial. Hauptmann was not guilty. So many questions remained unanswered or were not even asked. Clarence Darrow could have saved him.

Association Gathers In Final Session At Hotel Lubbock For Luncheon

The Lubbock branch of the American Association of University Women will hold its final meeting of the year at a luncheon today at Hotel Lubbock. Dean Margaret W. Weeks of the home economics division, president of the local chapter, announced yesterday. The bookman group will have charge of the program, Miss Weeks said. Miss Alice Beckett is to review "The Life of Sarah Bernhardt." The meeting convenes at one o'clock.

DO YOU REMEMBER? IN THE GOOD OLD DAYS. WHEN bicycles were four feet tall? You, and you, and you, probably don't but oddly enough, bicycling was then as it is now, a thoroughly modern and popular sport.—And of course in those days it was a new sport or at least a modern sport in a new guise. YET today, when it is neither a new sport or an adventuresome task to ride a bicycle, people are still riding because it is a popular, good, healthy, and pleasurable diversion from the regular everyday grind. Second Half Opens Today In Intramural Baseball Leagues

By BOB CANNON Sports Editor

Kemas Cops Social Loop Bunting; La Fonda Wins In Independent Circuit

College Club Meets Los Camaradas; La Fonda Opposes Ratos

THAT Tech's showing at the Drake Relays kindled more track fire for next year is definitely on the up and up.

Yes sir, you can look forward to reading about Tech's Red Raiders flying down the cinder paths of every big meet in the nation next fall. And why shouldn't they? ... There is plenty of material other than dashes, to develop one of the best track squads in the Southwest next spring.

Returning early in the week, grinning from ear to ear, Coach Berl Huffman is proudly talking about two typical West Texas boys, John Case and Maurice Cowan, who, he believes, will be the tops in the 3,000 meter and the pole vault next year.

"Just you wait," Huffman announces, "Give us another year and the boys who placed at the Southwest, Texas and Drake Relays this spring will win 'em next year."

It may be news to you but Maurice Cowan has qualified for the Olympic trials at Chicago early next month. When he soared over the bar at Des Moines last week at 13 feet six inches that did the work. And Coach Huffman is optimistic enough to believe that he could do 14 feet this year should he be pushed at the Border conference meet next week.

"Maurice was the only entrant at Des Moines that even came close to making 14 feet," Coach Huffman said. "He only tied for third but when 13 and a half was made by all of the entrants, the bar was moved up to 14. Cowan's first trial missed by a hair, and I believe that he can make it if he is pushed."

It is tough luck for John Case that the Olympics will not be held next spring. Those who beat Case at Drake, Lash of Indiana and Wheelock of Oklahoma in particular.

It is going to be smooth sailing for John Case next spring, if he continues the streak in which he has been going since last spring. Both Lash of Indiana and Wheelock of Oklahoma who placed one, two at the Drake meet, graduate. Although Case's time was approximately 40 seconds slower than Lash, the winner, who set the new record of 9:10.3, Case should be able to cut his own best time down to about 9:30 by next spring. Lash and Wheelock were more than 60 yards ahead of the last three places.

OPPOSITION gets another chance to knock the props from under the Kemas in the Social League and the LaFonda in the Independent league when the second half opens today on the Intramural diamonds.

Although several postponed games have still to be played, but no doubt, won't, the first half season is over, and everybody is happy.

Leaders To Receive Trouble Comebacks will be attempted by the Los Ratos and the North Plains in the Independent circuit, and the Silver Keys and Los Camaradas in the Social organizations. All four teams boast formidable nines, but failed to click against loop leaders during the first half.

Larry Trenary's Kemas will not play until tomorrow when they pit their top clouting and pitching against the strong arm of George Ed O'Neal and the batting potency of the Wranglers in a bargain bill on diamond number 2.

Los Cams Play Opening the tussle today will be the second place Los Camaradas nine who will swap swats with the unsteady College Club crew in a bargain encounter beginning at 2:15 o'clock. Bill Davis and his clouting mate, Lefty Sullivan, aren't hankering to remain in the lower divisions of the Social circuit during the second half.

In the Independent circuit—minus two clubs, the Water Moccasins and the Sinkers—will start anew today in hopes of not being in the secondary while the Social loop reaps all the glory.

Kemas Begin Defense Working today will be the first half winners, LaFonda's big-bad-batters, who have become unmerciful with the bludgeon since football training has eased down, against the rejuvenated Los Ratos. It is expected to be two games that should keep the stands away from the Social league contest.

Tomorrow morning the Silver Keys are scheduled against the Los Camaradas at 9:45, and the Kemas, first half champs, start their defense against the much battered Wranglers in a twin set.

Basketball Coach Calls Spring Drills

Spring basketball will get its chance to develop a few promising basketeters for next year's squad when Coach Berl Huffman calls the first drill after the Border conference meet next week.

Coach Huffman plans to devote two full weeks of careful work on preparing the Raiders for a successful cage season this winter. With a job of lettermen returning the Raiders should have one of their best clubs in many seasons. "All students, regardless of whether or not they were on either the fish or varsity squad last fall, will be eligible to come out for the spring session," Huffman said.

Jackson Presides At Border League Meet Next Week

Dr. W. A. Jackson, professor of government, leaves Wednesday for Tucson, Ariz., to preside over the annual spring session of the Border conference moguls Friday.

Issues to be discussed and studied at the spring meeting are:

1. Classification of junior college transfers as to whether freshmen and sophomore eligibility will be taken away from them in athletic competition.
2. The extent of competition in freshmen athletics.
3. The type of competition permitted an athlete without freshman or varsity eligibility.
4. A study of contests and guarantees.
5. Whether or not there will be a permanent winter meeting place of the officials.
6. Whether or not the limit of track participants representing one college should be extended or lowered.

SAYS MR. WALSH Germany is either going to win the Olympic championship in track and field events from the United States or come so close that somebody may have to do a Dave Barry and give us a Chicago count, says Davis Walsh, INS sports editor.

Dorothy Ince, Hembree, freshman arts and sciences student, is visiting her parents in Henrietta this week-end.

Crack Two Miler

JOHN CASE, Tech's sensational two miler, is expected to whack more than 30 seconds from the present Border conference record in that event.

Allen Releases Schedule For Tennis Team

Netters Play Conference Foes In Annual Meet; Combat Teachers

Marshall Gordon and Harry Jordan, Tech's ace netters carry the Matador colors into the Border conference tournament at Tucson, Ariz., next Saturday. James G. Allen, coach, said yesterday.

Marshall will play the seeded Tech position and Jordan is slated to play the number two slot. They will team to form Tech's doubles entrant.

Face New Mexicans The Matador tennis team will face the toughest competition they have met this year at Tucson when they clash with the University of Arizona team. The Wildcats have one of the best singles players in that part of the country.

Matches with Amarillo Junior college and the Canyon teachers college on May 15 and 16 have been signed by Mentor Allen. The Tech team helps open the new concrete courts at the Canyon school.

The team faces New Mexico Military Institute later in the season, Allen said.

Three University of Georgia students called King Edward VIII the other day to tell him about an athletic contest. His Majesty wasn't at home, and the bill was \$75.

Microscopic spores 165 years old have been found in California adobe bricks and brought back to life.

New York university has received \$123,635 in gifts during the last two months.

Loop Winners Lead Batting

Kemas Tops Hitting In Social Baseball Wars; Johnson Is High

LARRY Trenary's blue shirted Kemas nine dominates returns of the first half in hitting, team batting and pitching, besides winning the first half go around, chalking up seven wins against one defeat.

Trenary, himself, leads the pitchers with the Kemas' seven victories and a lone defeat, the blue shirts only loss during the first term. He has rapped out the most doubles, 5.

Cecil Johnson with eight blows in 13 trips to the plate tops the individual batting with a .571 average. Johnson hit safely in four

Batting Averages On Page 4

trips to the plate against the Kemas early this week to boost his average. Glenn Stevenson holds second place with 10 hits in 23 times at bat. Along with another 400 clouter, Bill Davis of College club, Stevenson holds away in the number of hits registered.

—for Digestion's sake—smoke Camels

MENTAL STRAIN induces nervous tension—slows down the digestive functions. Smoking Camels increases digestive activity—gives you a "lift." Smoke Camels for digestion's sake. Camels set you right!

Camel's aid to digestion confirmed by Science

Many phases of modern life—the hurry, worry, and mental effort—tend to slow down the flow of the digestive fluids. Smoking Camels helps release you from this strain on digestion. Renewes and increases the natural and necessary flow of the digestive fluids.

Enjoy Camels steadily! They encourage that delightful sense of comfort and well-being that good digestion brings in its wake. Smoke Camels with meals, after, as often as you like—for the pleasure of their matchless flavor... for digestion's sake... for their cheery "lift." Camels set you right! You can smoke as many as you please. Camels never get on your nerves or tire your taste. Turn to Camel's costlier tobaccos today.

Dining de Luxe at Pierre's, New York

What will you have? It's pleasant to imagine. Perhaps *Borsch Polonaise* to start. Then *Supreme of Halibut à la Russe*, Braised Lettuce, and String Beans au Gratin. Then... a Camel... a crisp salad... a Camel again... and an ice with *demi-tasse* and... Camels! Camels are part of the art of dining today. They stimulate digestion—add to the sense of well-being every one should have after dining. M. Bonaudi (above), the banquet manager of Pierre's, who handles many of New York's smart "deb" parties and other exclusive society functions, says: "Camels are by far the most popular cigarette here."

METHOD USED. Credit for paving the way for the discovery that Camels promote digestion goes to Pavlov, the great physiologist. Recent investigation confirms Camels' beneficial effect.

WHIRLED THROUGH SPACE upside down. Attractive Vera Kimris, featured artist in the New York hit, "Jumbo," says: "Thanks to Camel's aid to digestion, I can always be sure of enjoying my food."

Annual Silver Key Dance Tonight At Hilton Ends Week's Activities

Club Members Entertain Las Chap Patrons With Bridge Party

The annual Silver Key spring dance to be given at the Hilton hotel this evening from 9 until 12 o'clock tops the social events for this weekend. Ned Bradley's orchestra will furnish music for the dance.

Other campus society for the weekend includes a bridge party this afternoon and another dance this evening.

Residents of the women's dormitory were hostesses with a semi-formal dance last evening in the dining room of that building and Las Armonias club had an informal party at Seaman hall.

Hold Open House
Athletic coeds will be attracted to annual Play Day sponsored by the Women's Athletic association and physical education department in Matador field and in the gymnasium today. Numerous campus folk and town visitors continue until noon inspecting the home economics division, which opened doors for its annual open house yesterday afternoon.

Eleven girls are entertaining patronesses of Las Chaparritas club at a 3 o'clock bridge party in Hotel Lubbock. Members and pledges are to attend.

Plate favors, tiny pansy corsages, will harmonize with the spring motif of the affair.

Name Hostesses
Hostesses include Lillian and Margaret Heard, Pauline Yeager, Alice Townsend Stubbs, Charlotte Ratliff, Mary Earle Lofland, Maxine Fry, Addie Brown Benton, Joretta Rogers, Anita Matheson and Mrs. George Langford.

Honorees are Mesdames W. E. Price, James G. Allen, Fred Standafer, R. D. Erwin, Parker Prouty, J. T. Hutchinson, R. T. Canon, Sim O'Neal, Harry Roberts, W. T. Lewis, Sam Dunn, T. R. Pridoux, Charles Guy, T. B. Duggan, Jr., Hugh Fields, Charles Reed, Wesley Read and Misses Lula Mae Cravens and Mary Meador.

Decorations Feature Insignia
Other guests will be Jeanette Jones, Mary Anne Kimble, Sara Sue McWilliams, Sue Ellen Evans, Isabel Warren, Maxine Dorn, Mary Florence Van Horn, Pauline Anderson, Ruth Hutchinson, Sue Michie, Jane Tinsley, Emilie Mae Esse, Alene Thompson and four pledges, Betty Alice Gordon, Catherine Pearce, Roberts Lee Hanson and Alta Taylor.

Decorations for the men's club dance will feature the insignia of the organization.

List Hosts, Dates
Hosts and their dates will be Hays Hlatt and Betty Blankenbecker, Woodrow Holt and Caroline McCleskey, Morgan Jones and Dorothy Neuhardt, Jerome Harkey and Lillian Stuart, E. V. Jones and Virginia Stovall, Bill Yeatta and Martha Vernon Smith, G. T. Baldwin and Joretta Rogers, Robert Allen Hill and Maxine Dorn, Lee Michie and Margaret Heard, Wayne Prather and Helen Lehmburg, Billy Dykes and Alta Taylor, Richard Snyder and Ada Williams, and Neil Wright and Mary Katherine Rice.

Howard Lee and Jane Woodruff, Hugh Horne and Isabel Warren, Courtney Neeb and Mary Ross Edwards, David Rutledge and Addie Brown Benton, Sam Hargett and Mary Earle Lofland, Frank Hudgens and Ruth Hutchinson, Kenneth Rollo and Roberta Lee Hanson, Eugene Alderson and Mary Florence Van Horn, Robert Cannon and Anne Williams, Robert Bourland and Evelyn Burnaldes of Lamesa, A. J. Carpenter and Mary Jo Muller, Jack Stephens, Willard Simpson, R. B. Roper and A. A. Chamberlain.

Sponsors to attend include Messrs. H. M. Crain, J. G. Allen, Lonnie Langston and Francis Cook, Mesdames Crain, Allen, Langston, and Miss Nancy Faver will be special guests.

Several alumni of the organization are expected to attend the dance, Woodrow Holt, club president said. These include Milo Fiereband of Amarillo, J. B. Wilson, Durwood and Douglas Howell of Enochs, David Hicks of Littlefield and Fred Seely of Fort Stockton.

Wind thru the Sallyport

(Continued From Page One)
SALLY saw AUBREY LOYD and RUTH KEETER downtown the other NIGHT, and IT RE-MINDED her of the time the AMHERST lad WOKE up the whole HOUSE yodding, "KEETER, oh MY KEETER!"

IT'S ABOUT TIME for "SHER-LOCK" EUBANK and his GANG to get OUT another SERIES of "YELLOW SHEETS." That is, AS SOON AS they make up their MINDS who they are going to SUPPORT!

SALLY walked by LA YENTANA office the other NOON and saw the YEARBOOK dive labeled "THE IDLE BRAIN." SHAME on YOU, ZOENS!

There is a STOOOL PIGEON in the BOYS' DORMITORY. SALLY KNOWS who he is, and HE USED to be OK. WATCH your step, STOOOLIE. THE JOB isn't WORTH IT.

MARY HOWELL has REALLY changed her WAYS since the JOURNALISM CONGRESS. What COULD have HAPPENED? SHALL SALLY tell all?

SALLY saw JAMES SHEEHAN borrowing a TICKET to get his

Students Choose Council Heads At Polls Next Week

(Continued From Page One)

he is only a freshman, Shanks withdrew from the race Friday.

Pace Boxes

Boxes will be placed in the Administration, Home Economics, Agriculture, and Engineering buildings Tuesday for the election. Polls open at 8 o'clock in the morning, and voting will continue throughout the day except during the noon hour, Leon Ince, Student Council president, announced yesterday.

Helfield Speaks

One candidate will be chosen to fill each post except that of yell leader. The student who polls the largest number of votes will bear the title of head yell leader, and the one placing second will be his assistant, Ince said.

After the nomination session, students heard Fred Helfield, field representative of the Texas Centennial Central exposition, describe highlights of the exposition. He discussed preparations for the Dallas celebration and depicted briefly some of the exhibits that are to appear at the centennial show. His talk was accompanied by anecdotes and gestures that held interest of the students.

Under Double T

(Continued From Page Three)

NOTES FROM THE TRIP:

Huffman and the boys talked continuously about Alton Terry, the new inter-collegiate javelin champ and the holder of a new record. Terry, from Hardin-Simmons, made the trip with the Tech men. Neither Cowan and Case nor Huffman can find sufficient praise for Terry.

"One of the most amazing contrasts that I have ever witnessed was Terry, weighing less than 170 pounds, slowly trotting up to the throwing line and hurling that javelin 222 feet, while the rest of the entrants, men weighing more than 200 pounds, backing off 40 to 50 feet and running at full speed at the line and not coming within 30 yards of Terry's throw," Huffman commented.

"After beating the Drake record the day before during the qualifying, he stole the show Saturday, and everyone was spellbound with the ease in which he conducted his trials."

According to Huffman, Terry has developed an abnormal muscle in his right bicep. To keep the arm and wrist thoroughly exercised, Terry has an innovation of his own. With a broom handle, a piece of rope and a brick attached, he can roll the rope, weighed down with the brick, up and down with his fingers and wrists 12 or 14 times. . . . Try it sometime and see if you can pull the brick all of the way up even once.

"And," Huffman said jokingly, "He thinks more of that javelin than he does himself. Why, you couldn't get that guy to work out with it. Instead he will borrow somebody else's."

On trips Terry carries the javelin around with him wrapped in towels for protection against the elements.

And we can say one thing, Hardin-Simmons' ambassador of good will, if you will permit us to say, certainly changed an aspect of feeling of Tech toward Hardin-Simmons. The incident of several weeks ago is a closed book, thanks to Terry. And if Hardin-Simmons didn't know it, that boy has put 'em on the map, thanks to Huffman's cordiality and hospitality.

Couple Announces March Wedding

The marriage of Mr. and Mrs. Voyle Vaughn, who were married March 24 in Brownfield, by the Rev. James A. Fry, Church of Christ minister, officiating, was announced by the couple Wednesday afternoon. The bride is the former Miss Mary Barker, daughter of Mr. and Mrs. C. T. Barker, formerly of this city and now of Sausalito, Calif.

Mr. Vaughn, a son of Mrs. E. W. Vaughn, 2122 Ninth street, is president of Alpha Chi fraternity and is affiliated with the Pre-Law, International Relations and Young Democrats clubs. He is working on his master's degree with the M. C. Overton fellowship.

Both Mr. and Mrs. Vaughn are graduates of Lubbock High school, where the latter was a member of Silver Key, a girls' social club. At present she is secretary to George Brewer, Standard Abstract company.

The couple is living at 1912 Avenue Q.

Freshmen, Sophs Enter Contests

Plant Industry club will sponsor contests between the freshman and sophomore classes next Wednesday and Thursday afternoons. Bailey Maner, chairman of contest committee, and Rex Johnston, president of the organization, said yesterday.

All freshman and sophomore students with a major in agriculture are eligible. Contests include commercial judging of seed grains, identification of common seeds and plants of this region, cotton classing as to grading and lint determination, and different phases of cutting and grafting.

Maner Assists
Students in charge Thursday afternoon are Carl Moosberg, Ernest Bailey, Perry Ewaser, Cecil Brashaw, and Jewell Gutfrie.

Committee on contests includes Maner, who will act as general supervisor and assistant to A. W. Young, associate professor of agronomy, Audrey Mitchell, Rex Johnston, Cecil Ayers, and Woodrow Wilson.

Reporter Views Unusual Laboratory Experiment

(Continued From Page Two)

records the contractions with a steady curved line; another lever records the application of the electric stimulus, and a tuning fork which vibrates 100 times per second records the time in a line like saw teeth, each point representing 1/100 of a second. Thus the periods of contraction and relaxation under variable degrees of stimulation can be accurately determined.

Muscles Respond
The muscle twitch experiment performed this week is one of a series to be carried on with the recent shipment of frogs. Frog muscles are admirably suited to muscle physiology because these frogs are not costly, and the muscles will respond to stimulation a month after the brain is dead.

But what of the family and neighbors. The 97 brothers have apparently forgiven and forgotten because in their open gaze no resentment abides, no accusation smolders. The remains of the martyr to science were dropped in the pool of Neighbor Turtie, who snapped and swallowed.

"Then who will sigh for the cost and pain, For the frog who croaks never more again, As a frog with the frogs in the water."

Kemas Club Members Choose New Officers

Kemas club, boys social organization, elected and installed new officers for the remainder of this semester and next year at a meeting of the group Wednesday night. Members chosen by the club to direct the club's activities for the coming year are:

president, Burnice Walker of Littlefield; vice-president, Travis Hicks, Corpus Christi; secretary, R. C. Mitchell, Lockney; treasurer, Maynard Holl, Lubbock; reporter, Wayne Sellers, representative to Burnice Walker Inter-club council, Walter Hicks, Corpus Christi.

Referring officers are Rescoe Clark, Lubbock, president; Leroy Mosely, Winters, vice-president; Walter Hicks, secretary; Mitchell, treasurer, and Forrest Weimhold, Suda, reporter.

The club discussed plans for a picnic on May 10 and their annual spring dance later this month.

Las Vivarachas, Guests Attend Buffet Supper

Las Vivarachas club members and guests attended a buffet supper Wednesday evening at the home of Mrs. F. R. Friend, 2005 Broadway.

Special guests were Ita Brunmet, Lois Spraggins, Frances Allison, Joan Johnson, Dorothy Cook, Edith Mae Collins and Audrie Lofland. Twenty-nine members were present.

BSU TO GIVE PLAY

The BSU of Texas Tech will present a three-act play entitled "The Three Links," by Sibel Brame, tomorrow night, in the auditorium of the First Baptist Church. The proceeds derived from a free-will offering are to be used in offering representatives to the Southwide BSU Retreat at Ridgecrest, N. C., in June. A cordial invitation is extended to all students to attend the play.

Northwestern university, pioneer in traffic control, now has a graduate course in that subject.

Delegates to the 1936 Psi Upsilon convention went on record as opposing physical punishment in connection with initiation.

H. C. Pender, associate professor of government, will leave Sunday to attend the Lion's convention in Childress.

Springfield college, Springfield, Mass., has just received an Olympic cup it won 16 years ago.

Going to town with Luckies

A LIGHT SMOKE

of rich, ripe-bodied tobacco

Over a period of years, certain basic advances have been made in the selection and treatment of cigarette tobaccos for Lucky Strike Cigarettes. They include preliminary analyses of the tobacco selected; use of consideration of acid-alkaline balance, with consequent definite improvement in flavor; and controlled uniformity in the finished product. All these combine to produce a superior cigarette—a modern cigarette, a cigarette made of rich, ripe-bodied tobaccos—A Light Smoke.

Luckies are less acid

Recent chemicalists show that other popular brands have an excess of acidity over Lucky Strike of from 53% to 100%.
