Seventh Annual Engineering Show Opens Today

Election For AWS Officers Set For Today

Polls Will Open At Eight O'Clock For Annual Womens' Vote

POLLS will open at 8 o'clock today in the election of next year's officers for the Association of Women Students. Pieces of voting from 8 to 12 o'clock will be the east rotunda of the ad building, the south hall of the engineering building and the corridor of the home economics building. Women voting before noon will vote in their own divisions. Only the polls in the ad building will be open from 1 to 5 o'clock for all students voting in the afternoon. Every woman enrolled in Tech is automatically a member of the AWS and may vote in the election.

Candidates Nominated
The candidates, nominated by a committee, are: for AWS president, Mary Geniesse Harberger, arts and sciences junior, and Katherine Leigh, home economics junior; for AWS vice-president, Emma Smith, arts and sciences junior; and Mary Frances Johnston, home economics junior; for AWS secretary, Idell Brown, arts and sciences junior, and Elinor Crenshaw, arts and sciences sophomore; for Junior council president, Lois Spraggins, home economics sophomore, and Helen Lehman, arts and sciences sophomore.

Retiring Officers
Officers who will complete their terms this semester are Emily Day, AWS president; Sue Michie, AWS vice-president; Mary Frances Johnston, AWS secretary; and Katherine Leigh, Junior council president.

AWS members attended a convocation at the gymnasium Wednesday morning at 10 o'clock. Two amendments to the constitution were voted and the new officers passed. (Continued On Page Six)

Fifteen Will Attend Meet

Journalism Students To Leave Wednesday Noon For Baton Rouge

Fifteen journalism students plan to leave for Baton Rouge, La., Wednesday to attend the eighth annual meeting of the Southwestern Journalism Congress and Southwestern Press club, which convenes April 12-13 at Louisiana State university.

Leaving here Wednesday at noon, the delegates will arrive in the next city Thursday evening after one night spent in Fort Worth as the guests of Texas Christian university. Sunday will be spent in New Orleans and the group will return Tuesday by way of Houston, where they will probably spend Monday evening.

Program Given
Tentative program for the convention includes speeches by prominent journalists from seven states, luncheons, dinners, dress parade of the university cadet regiment, reception and tea at the college president's home, tour of the campus and city, visit to the state capitol, and a soiree masque climaxed by the convention Saturday evening.

M. G. Osborn, head of the journalism department at L. S. U., is president of the congress. Member schools are Baylor College for Women, Baylor university, College of Industrial Arts, L. S. U., S. M. U., Texas A. & M. college, T. C. U., Tulane university, University of Texas, University of Oklahoma, Hardin-Simmons university, and Texas Tech, which was host to the convention last year.

Students interested in going to the convention contact the arrangements chairman, Josephine Powell, or the Press association president, Forrest Weimhold. Round-trip ticket, which includes the excursion to New Orleans, is \$12.

Amateur Radio Students Begin Meetings Tonight

Electrical engineers and other students interested in the field of amateur radio as a study and in learning the code in order to obtain the amateur's license for operating the engineer's transmitter next year are invited to meet at 1910 Ave. H. every Friday night at 7 o'clock.

The group, which meets in the home of James Miller, is an A. R. R. L. affiliated radio club meeting. Wednesday meetings are held in the same place. There are no dues.

Officers Of Engineering Show

Three students direct this year's Engineers' show in its seventh annual presentation on Tech campus. They are: left, Fred Fairley, Lubbock, assistant manager; and M. P. J. Minter, Sulphur Springs, publicity manager. The exposition opens this afternoon at 2 o'clock and closes at 10 o'clock this evening. The same schedule will be followed tomorrow. Officials are expecting approximately 8,000 spectators to throng the buildings to view the varied exhibits. (See story in column 7.)

Interscholastic League Contests Are To Begin Today; Evans Is Director

Wiley Is Judge At Band Festival In Enid, Oklahoma

Prof. D. O. Wiley, director of the Texas Tech band, left Tuesday for Enid, Oklahoma, to judge in the Enid State Band Festival, Thursday through Sunday. The festival is sponsored by the Phillip university band, and is directed by Frederick E. Green.

This is the fourth consecutive time that Wiley has been chosen as one of the judges. Among other judges are Edwin Franko Goldman, A. Austin Harding, William F. Ludwig and Carl Busch.

The festival is one of the largest of its kind in America. Last year 4,500 musicians participated, and about 8,000 are expected to attend this year. A massed band concert by a group of 550 instrumentalists and 300 singers will be given. Wiley is to direct the opening number of the program.

Faculty Members Will Attend Meet

Three faculty members, J. M. Gordon, dean of the division of arts and sciences, W. P. Clement, registrar, and J. F. McDonald, director of extension, will attend an extension conference to be held in Dallas, April 12. McDonald is chairman of the conference which is held in connection with the annual meeting of the Association of Texas Colleges.

The conference will include a round-table discussion of the methods and problems of correspondence and extension class work. A luncheon is scheduled for a part of the entertainment. Twenty institutions of the state will be represented at the conference.

ACCEPTS POSITION

Horace Dean, 1933 Tech graduate from the division of agriculture, has accepted a position with the Cabell dairy in Dallas. Dean will have charge of the manufacture of ice cream. The dairy is supplied by milk from their pure bred Gurnsey cattle farm, and is a retail organization.

Wide Variety of Jobs Occupy Tech Students Financing Their Own Way

WORKING as dishwashers, janitors, salesmen, waiters, drymen, undertaker's assistants, yarn manufacturers, and freight line operators, Tech students are financing their way through college.

Nine hundred and eleven Tech students are working and are making a total average of approximately \$24,838.37 a month. These students comprise 42 per cent of the enrollment this semester. Of this number 670 are men and 241 are women. FEPA employees number 216, and those employed by the college total 235.

Average 3.7 Working Hours
The average monthly salary for men students is \$28.63 at 30 cents an hour, while the average monthly salary for women is \$23.47 at 25 cents an hour. Both men and women employees average 3.7 working hours per day, this figure being based on 26 working days per month. Applications for work were made by 655 men and 204 women enrolled in the college. Students finishing work but unemployed total 204, 151 of whom are men and 53 women. Seventy-one men are employed as clerks, while 53 are working as waiters, the next highest classification of employment. The 670 men are employed in 134 different types of positions. Two men are employed as pastors of churches. Housework employs 67 women students, and 28 are working as waitresses. Many others are caring for children, doing stenographic work, and operating telephone switchboards.

Since the students outnumber the jobs available, the employment bureau is unable to place all the applicants for employment.

Annual Affair Will Bring Students From 14 Counties

ALL classes will be dismissed from 10 a. m. until 2 p. m. today for the annual district interscholastic league contests, which will bring high school students from 14 counties to the college campus. Dr. A. W. Evans, head of the department of education, is general director of the meet.

Registration will be held in the lobby of the administration building this morning from 8 until 10 o'clock for contestants from Terry, Cochran, Lamb, Hale, Lubbock, Hooker, Bailey, Floyd, Garza, Crosby, Yoakum, Lynn, Dawson and Dickens counties and from Plainview and Lubbock city schools.

Program Given
The remainder of the program follows:

FRIDAY
10 a. m.—Declaration entries meet in room 220, administration building for assignments of sections; judges and presiding officers in room 216; debate contestants in room 302; judges in room 302; one-act play contests in room 202; tennis preliminaries at gymnasium, 10:30 a. m.—Preliminaries in declamation; preliminaries in debate.

1:30 p. m.—Semi-final in boys' girls' debates.
2 p. m.—Preliminaries in volleyball, golf and all other athletic events.

3 p. m.—Extemporaneous speaking contests; three "R" contests; essay contests.

4 p. m.—Spanish contest.
7:45—Finals in high school declamation.

SATURDAY
9 a. m.—Finals in rural school declamation; finals in girls' debate; finals in boys' debate; music memory contest; art contest.
10 a. m.—Typewriting tournament.
2 p. m.—Finals in all track and field events; semi-finals and finals in all events not otherwise provided for.

Erle Ballard, varsity track and basketball coach, is athletic director. He will be assisted by Tech athletes. Events and those in charge are as follows:
Judges: W. L. Stangel, head, Ray (Continued On Page Six)

District One-Act Plays To Be Given On Campus Today

High school one-act play contests will be held in connection with the district interscholastic meet in Room 202 today, according to Miss Annah Jo Pendleton, director.

The following high schools will present plays: Post, "The Blue Teapot"; Lubbock, "The Master in the House"; Brownfield, "The Hardwick Mystery"; Spade, "Faith and Wisdom"; Lockney, "Highness"; Levelland, "The Trying Place"; Muleshoe, "Peggy"; Abernathy, "False Witness"; Idalou, "Neighbors"; Tahoka, "Sauce for the Gossings"; Lamesa, "Boccaccio's Untold Tale"; and Plainview Junior High school, "Sod."

The first play will start at 10 a. m. and other groups will start at 1:30 and 7:30. Judges will be Miss Ruth Fritze, head of the speech department, Francis Cook, instructor in the foreign language department, and Mrs. E. R. Heineman. The winner will represent this district in the regional meet at Abilene. Admission for the entire day will be 25 cents.

Brandt To Attend Textile Meeting In South Carolina

Professor Carl D. Brandt, head of the textile engineering department, leaves today at noon for Greenville, South Carolina, to attend the third conference of the Textile Foundation, April 8, 9, and 10.

Twelve department heads from the textile schools of the South and Northeast and officers of the textile foundation will attend this conference to correlate training with demand in textile mills. These meetings are conducted as a result of a survey made by Frederick M. Ficker, Textile Foundation Survey head.

Brandt will also attend the eleventh annual textile exhibit sponsored by 250 prominent companies at Greenville every year in Textile hall. Staffs of supervisors from all mills, and officers of these textile companies will be present at the exhibit. New processes, chemicals and new materials are exhibited.

Members of Dairy Club To Hold Banquet May 10

The Dairy Club is to have a banquet May 10 at the Hotel Lubbock at 8:30 o'clock.

Ray Karr will be toastmaster. A professional trio of singers will furnish the music and entertainment.

Dairy manufacture majors and graduate students are to attend. Leading creamery men of this section will also attend. About 50 people are expected.

PREPARING PAPERS

Erle Mayo and Marion Royalty are working on papers to be presented at the district meeting of the ATEE at Oklahoma City on April 25-26. Their subject is photoelectric cell circuits for a cathode ray oscillograph. The papers will be read to the Tech chapter of the ATEE before being taken to Oklahoma City.

Home Ecs Will Be Hostesses At Open House

Visitors Will Be Shown Special Exhibits In Each Department

By RUTH HURMENCE
HOME economics students and faculty members will be hostesses at the second annual home economics open house today and tomorrow. The Tech student body and faculty, Lubbock residents, and pupils from 30 nearby high schools have been invited to visit the home economics building and annex and the home management house from 1:30 to 5 o'clock today and from 9 to 12 o'clock tomorrow morning. Visitors will be shown through the women's hall at their request.

Special Exhibits Featured
Special exhibits of each department, and students actually at work on individual and group projects will be featured at the open house this year. A display of peasant embroideries from Czechoslovakia and a collection of dolls from foreign countries have been placed in the show cases in the first-floor hall of the home economics building. An exhibit of china from a china company in Kansas City, Missouri, will include American china and types of English china, such as Wedgwood and Spode. These pieces will not be for sale.

In connection with the open house the Home Economics club is sponsoring a sale of handwoven Russian linens, India prints, crewel embroideries, borgerle work, stamped needle point, Mexican and Pasadena pottery, Mexican painted wooden dishes and Indian jewelry. The Russian linen pieces are five-piece bridge sets and luncheon sets. The prints include bedspreads and wall hangings. The sale will be held in the north room of the annex. Proceeds will go into the (Continued On Page Six)

ASME Selects Best Papers

Work Of Ince And Green Will Be Presented At Dallas Conference

Tech A. S. M. E. selected two papers at a meeting last Tuesday night to be presented before the South Central college conference of the A. S. M. E. in Dallas April 12 and 13 at Southern Methodist university. The two papers selected were "Steam Jet Refrigeration" by Leon Ince and "Methods of Testing and Controlling Foundry Sands" by Truman Green.

Judges were Miss Ruth Pirtle, head of the speech department; A. L. Stearns, professor of English; F. Gotsche, head of department of mechanical engineering; O. A. St. Clair, head of the department of engineering drawing; and O. V. Adams, dean of engineering.

Other papers presented at the Tuesday meeting were "Ice Cooling" by Dycie Kelly and "The Development of the Diesel Engine" by Troy Mitchell.

Students Attend
Students from Tech who will attend the Dallas meeting are: Leon Ince, Cleburne; Truman Green, Portales, New Mexico; Troy Mitchell, Dallas; Charles Howell, Lubbock; Dycie Kelly, Lubbock; Jack Grindy, Quitaque; Benjamin In Priest, Rusk; Fred Jackson, Lubbock; Paul Conway, Hereford; Robert Houston, Plainview; and Ross Watson, Mineral Wells.

Utica Jubilee Singers Appear Here On Final Number Of Artist Course

STRIKING rhythm and the characteristic deep feeling of negro spirituals will be revealed by the Utica Jubilee singers, negro male quintette, who appear here Friday evening, April 12 at 8 o'clock in the Senior High school auditorium. Quarter tones, shurrings, and unusual harmonies will be sung by the quintette.

The singers have made two European tours, going to Germany, Vienna, Budapest, Paris, London and other places. They gave recitals in such musical centers as Milan, Paris, Barcelona, Brussels, Berlin, Amsterdam, Warsaw, Prague, Stockholm and Oslo. They went for a return engagements into ten countries and for two return trips to four others. They represent a Mississippi negro school.

Receives Commendation
In Belgrade they were invited to appear before the royal family at the American Legation and received the personal commendation of the King's brother, Prince Paul and the Princess Olga. In London they were guests of Lady Cook.

Besides making records exclusively for Victor, having appeared weekly for three years on the Victor hour, Atwater-Kent hour, and Independent, a national international broadcasts, they made a "talkie" for Columbia films. Twice, they were selected by the New York Telegram for its "All-American Broadcast" as the country's foremost negro spiritual singers.

This is the last number on the spring semester artist course program. Tickets used for other performances can be used for admission.

Eight Thousand Visitors Expected For Event; New Features Will Be Shown

Fire Without Fuel, Voices Carried On Light Beam And Ordinary Incandescent Globe Lighted Minus Wires Are Novelty Additions This Year

By E. D. FYKE
APPROXIMATELY 8,000 people are expected here today and tomorrow to see the novel experiments and displays of Tech's seventh annual engineering show. The exposition will last both days of the district interscholastic league meet, with eight departments exhibiting daily. New points of interest to be found this year are an ordinary incandescent globe lighted without wires attached, a fire without fuel, voices carried on a beam of light and water flowing from a hydrant hanging from the ceiling by a copper wire.

Wiley Planning Band Session

Second Annual Summer School Will Be Held Here

The second annual Tech summer band school will be held this summer for band teachers and college students from June 10 to July 19 and from July 22 to August 23. A six weeks session for boys and girls under college age will be held from June 10 to July 23.

Wiley Director
Professor D. O. Wiley, director of the Tech band, will be general director of the schools. Wilson T. Betts, who assisted Wiley last year at the school, will be first assistant. Instrumental directors are: H. A. Anderson, director of Lubbock High school band; Earl B. Ray, director of Wink High school band; Lynn G. Gordon, director, Lubbock Junior high school band; G. Sanford Eskridge, former director, Mesquite High school band; Fred E. Martin, director, Rusk High school band; Clyde H. Rowe, director, Slaton High school band; Marion B. Ethridge, director, Levelland High school band; D. W. Crain, director, Abilene Christian college band; Richard Walker, director, Borger High school band; Howard B. Smith, director, Deerfield, La. High school band.

Work Scheduled
Hours of study and recreation will be set aside for each day's work. The band work is divided into periods of private instruction, class instruction, group rehearsals, full rehearsals, conducting and individual practice.

Tech Regents Will Meet Here Friday

Tech college board of directors will meet on the campus Friday, April 12. A convocation will be held in the gymnasium at 10 o'clock, so that board members may attend. The board will meet to acquaint new members recently appointed with other members and for consideration of pressing matters. New directors are Mrs. W. R. Potter, Bowie; Tomas G. Pollard, Tyler; J. M. West, Houston. Other members are Clifford E. Jones, Spur; Roscoe Wilson, Lubbock, vice-chairman; Dennis Zimmerman, Tullis, treasurer; W. T. Gaston, Lubbock, secretary; Mrs. Emma G. Meharg, Plainview; Mrs. John A. Haley, Midland; and J. T. Sneed Jr., Amarillo.

The board will vote on whether final application will be made to the FWA for a new college stadium. Preliminary application has been made.

The directors will be shown through the various buildings of the college.

Seniors Must Register

Seniors have been requested to register with the class president, Robert Harding. Other class officers are: Leonard Curfman, vice-president, and Pauline Yeager, secretary-treasurer. At the class meeting last week, the following dance committee was named by Robert Harding, Evelyn Sloan, Leonard Curfman and Dixie Anderson. Jim Lindsey was appointed publicity manager.

Ranking Juniors Become New Members Of SPES

Six juniors became members of the Society for the Promotion of Engineering Scholarship at its last meeting. The new members, the top eighth of the junior class of engineers, are C. E. Mitchell, Forrest Campbell, Billy Arnold, Raymond Coffman, Bob Harding and M. K. Foster.

The ranking junior, Mark Townsend, was taken into the society last semester.

The belief that man can conquer his environment is the actual benefit Columbus conferred on humanity.

The belief that man can conquer his environment is the actual benefit Columbus conferred on humanity. Mankind makes its most egregious errors in times of prosperity.

Visitors may drink at the "fazy man's fountain", where they only have to bend over to start the flow of water, controlled by a photoelectric cell. They may see steel melted in a bucket of water, then see the same steel cooled in the same bucket of water.

Coil Exhibits
They may see the two and one-half million volt Tesla coil on operation, which was displayed at last year's show.

In the mechanical engineering shops, where the show starts, they may see raw materials, both metal and wood, transformed into finished products. They will be given souvenirs of miniature gadgets made by lathes while they watch. Milling machines, grinder, power hack saw, shaper, gas and electric welding apparatus and other machines will be in operation.

Goods Will Be Woven
Cotton, wool, silk and rayon will be woven from raw materials to finished products. Cotton will go through a carding to a spinning machine, to the spoolers, then will be slashed or treated with starch to facilitate weaving. The yarn will be wound on a beam and woven on looms. Chemical engineering exhibits (Continued On Page Six)

Juniors Name Queen Monday

Class Nominates Seven Candidates; Dance Honors Seniors

Election of the class queen for the Junior Prom will be held in the east rotunda of the administration building Monday, April 8. The prom, which will be given in the gymnasium April 27, is a formal dance honoring graduating seniors. Nominations for the queen were made at a meeting of the class last week. They were: Pauline Yeager, Lubbock; Emma Smith, Childress; Helen Barstow, Lubbock; Martha Jerigan, Childress; Evelyn Sloan, Crowl; Geraldine Wicker, Slaton and Genell Stovall, Floydada.

Vote Today
The balloting boxes will be open at eight o'clock and close promptly at 5 o'clock. They will be in charge of class officers. Date bids for the dance cost \$1 and stag bids sell for \$1.25. Bids may be obtained from Leonard Curfman, Dixie Anderson, Evelyn Sloan and Robert Harding. Spring is the theme of this year's prom. Joe Elder and Billy Grimes have charge of decorations. Faculty sponsors, Miss Ruth Pirtle, head of the speech department, and Ralph Martig, professor of history, will direct the ceremony climaxed by the crowning of the queen.

Seniors Must Register
Seniors have been requested to register with the class president, Robert Harding. Other class officers are: Leonard Curfman, vice-president, and Pauline Yeager, secretary-treasurer. At the class meeting last week, the following dance committee was named by Robert Harding, Evelyn Sloan, Leonard Curfman and Dixie Anderson. Jim Lindsey was appointed publicity manager.

Ranking Juniors Become New Members Of SPES

Six juniors became members of the Society for the Promotion of Engineering Scholarship at its last meeting. The new members, the top eighth of the junior class of engineers, are C. E. Mitchell, Forrest Campbell, Billy Arnold, Raymond Coffman, Bob Harding and M. K. Foster.

The ranking junior, Mark Townsend, was taken into the society last semester. The belief that man can conquer his environment is the actual benefit Columbus conferred on humanity.

Engineers "At Home"

TODAY and tomorrow Texas Tech engineers will be "at home" to other students of the college, faculty members, college officials and thousands of people from over the South Plains. The occasion is the seventh annual Engineers' show.

There is perhaps no other time during the year that is more important to engineers than their annual show. It would indeed be difficult for those people who have never attended the show to realize the significance and magnitude of the event.

Every year the crowds become larger and larger and the exhibits become better and better, keeping in constant progress with new scientific methods and inventions. Each department has separate exhibits and displays. The engineering buildings are filled with interesting and instructive devices and are literally alive with practical demonstrations.

When the first show was opened to the public seven years ago only a thousand spectators viewed the exhibits while the 1934 show attracted a crowd of more than 6,000. The quality of the show has kept pace with the increased attendance until today the merits of the show are recognized throughout the state.

The engineers are expecting a record crowd this year. People who have attended the show in past years know the value and worthiness of the exposition.

The Toreador extends congratulations to the faculty and students of the entire engineering school for making such a worthy undertaking possible. Fred Fairly, general manager of the show; John King, assistant manager; P. J. Minter, publicity manager and the departmental superintendents are especially to be commended for their untiring efforts to make the show a success.

Senior Recognition

WHEN a student has successfully completed three years of college work and has at last attained the rank of senior, he is worthy of some recognition. Freshmen may be laughed at, but seniors should enjoy a certain amount of prestige. "Dignified senior" is an old phrase, and the showing of respect for members of the senior class by lower classmen has become a tradition on almost every campus.

The Texas Tech senior, however, inspires no awe and commands little, if any respect. Recognition of his accomplishment in facing the difficulties, solving the problems and mastering the tasks involved in three years of higher education is rare.

A special section is reserved for seniors at convocation. Senior women staying at the dormitory enjoy 11 o'clock privileges if they have "B" averages, but the same regulation applies to junior women. Senior men and women are guests at the president's annual reception for members of the graduating class and are guests of honor at the annual junior prom.

These were the only distinctions seniors enjoyed until this year when, through the efforts of President Knapp, the date of commencement was changed from a time following the close of the spring semester to a day preceding the final session of classes. Thus the Tech student body will be on the campus to attend the commencement exercises, a situation which was almost impossible in former years. Under the new plan, seniors will, of course, be permitted to take the final exams a week early.

Greater prestige for seniors, obviously, will come only after the senior class, itself, has become unified, closely affiliated, and determined to occupy its rightful place in college affairs and traditions. No one can force dignity and prestige on somebody else, nor is he likely to care to try. Prestige and respect come as a result of what the individual or group who attains them actually is.

When the senior class becomes group conscious and closely knit by fellowship, sympathy and understanding, then it will take the initiative in demanding a new deal for seniors. A senior day, more lenient privileges for senior women, more senior social events, an organization of women seniors, a similar organization of men seniors, campus recognition for outstanding seniors, an organization to promote understanding between the faculty and seniors, and a senior advisory board to the Student Council would all help to weld seniors into that class relationship which is essential to senior recognition and prestige.

A Course In Current Events

GERMANY'S recent defiance of the Versailles treaty has been of vital significance to us who are even slightly familiar with foreign affairs. But to many Tech students the threat of war in Europe and the probable entanglement of the United States in another European conflict mean little or nothing, chiefly because many college students do not have the newspaper reading habit.

Very often the comic sections of newspapers in the library are frayed and torn, while the front page of the news sections, the ink has hardly been rubbed. The magazines most frequently read are not the *Literary Digest*, the *Atlantic Monthly*, or the *Nation*, but the *Woman's Home Companion* and *Esquire*.

Not only is it safe to say that many students do not know that Germany has taken a drastic step in her violation of the Versailles treaty, that Congress has been debating a huge work relief bill, and that Italy is increasing her armaments, but it is not exaggeration to assert that just as many even do not know that Doris Duke recently upset heires tradition to marry a young, untitled American even as you or I, or that Princess Barbara Hutton Midvani is seeking a divorce and refuses to give her prince "a red cent."

All this is, perhaps, the student's own fault. It should be a function of the college, however, to prepare its graduates for life in a social, political and economic world. The generation now in colleges and universities are the statesmen, politicians and voters of tomorrow. Certainly a knowledge of national and foreign affairs is essential to intelligent citizenship. If an interest in world events is not developed in college, the student may not develop that interest after graduation, with the possibilities all on the negative side.

With slight stimulus such an interest could be fostered. A course in current events should be required of all freshmen with this aim in view. Inauguration in current affairs is contemplated by the government and journalism departments, but such a course would hardly be adequate. If circumstances would make prohibitive the introduction of a separate course into the freshman curriculum, the study of current happenings might very well be correlated with the orientation classes.

FROM OTHER CAMPI

A LOGICAL SAFEGUARD

DR. ROBERT A. MILLIKAN, renowned scientist, proved himself a man of keen insight and vision when he said that subversive forces from within will kill liberty or "civilization" unless the American people create an educated and intelligent electorate.

What this country needs, then, even more than the well known "good five-cent cigar is just such an "educated and intelligent electorate" that will prevail against the rising tide of dictatorships. Paralleling much of the growth of the centralization of control of industry, the spirit of dictatorship has grown in the world of government and politics to alarming proportions—preying upon the ignorant and illiterate, appealing to mass emotions.

Dictatorships arise out of mass helplessness. America's masses must never be helpless. If democracy is to prevail and liberty to be maintained, a safeguard must be used. That safeguard is mass intelligence in the form of votes that will enable the masses to defend their own rights and supply the quick, concentrated democratic judgment necessary to keep a complex industrial civilization hitting on all 15 cyclinders.

You're emphatically and undeniably right, Dr. Millikan. We wish your words could reach every college administration in the country. The job of creating an "educated and intelligent electorate" must include education in government, current day problems and civics. In the movement to have these courses taught in every high school and college in the country, the institution of higher learning must lead the way. The sooner they do, the sooner we can feel protected against mass helplessness.—Carnegie Tartan.

SOMEWHAT LITERARY

THE TELEPHONE LOVER

IT'S ten past eight—you're nearly late. But all you can do is groan: It's good old Joe, the Romeo Of the drugstore telephone!

In Martin's Drug you'll find the mug, Or at Pinson's Number Two: With the big, red book and a guileless look He's there ahead of you.

He's always there, foul weather or fair When you simply HAVE to talk, And if you know the ways of Joe You know it's vain to squawk.

He jiggles the hook in spite of your look And the curse you put on his soul— He wraps himself round the phone on the shelf And almost swallows it whole.

It seems that his honey has been acting funny For two whole days in a row— And Joe-Joe is calling to charge her with stalling, To tell her she's losing her Joe.

They say that in class he's a perfect ass, He rates with the dumber-and-dumber— But at least the math should be down his path, The way he works with numbers:—

For breaking the worst to Minnie, the first, Doesn't take him away from the line— He goes through the same with Mabel and May, Till twenty-five after nine!

I place my curse (in hysterical verse) On him and his ancestors: Oh dear old Joe, the Romeo Of the Student Director!

CAMPUS ECHOES

By JIM LINDSEY

It will be "Hell On Earth" at the Lafayette Junior-prom. At least, that's the scene the decorations will depict.

The United States has a higher proportion of college graduates than any other nation in the world. There is one for every 44 persons.

At Ohio State a machine for grading examination papers has been invented.

Two fraternity athletes at Northwestern university lacked the necessary funds to purchase flowers for a formal function. A violent storm was raging, so they prevailed upon a brother to call the dates, inform secret service men were hired for that, and that flowers could not be delivered, because of the weather. Then the gentlemen arrived and expressed their deep indignation at the lack of flowers.

What is believed to be one of the broadest one semester courses ever taught in college is being introduced by Dr. Earnest G. Schwiebert, head of the Valparaiso university history department. The title of the course is "The History of Civilization." Contributions of the various countries will be discussed by 10 professors.

When President Roosevelt recently visited Harvard to attend his son's initiation into a society, 400 secret service men were hired for two weeks to check all homes along the route, making a record of every residence. All roads for a block on each side of the route were roped off, history files were made of every water at the banquet, and operatives were put in the crowd to watch for puns, bombs, etc. The expense ran into five figures, and President Conant of Harvard was not there to greet the President—he gave as his excuse, "Busy in New York."

Only Yesterday

ONLY YESTERDAY, I WAS listening to a guy. THAT WAS pulling a lot of puns. AND I listened for a while. SOME OF THEM were funny. BUT I couldn't laugh. AT THEM, because, I WAS thinking, HOW MANY people, THERE ARE that go through LIFE, living examples, OF A pun. THEY DO not discover, THE REAL meaning, OF LIFE. ALL THEY see is, THE ARTIFICIAL meaning, THAT IS silly. EVEN though complicated, LIKE the puns that, THE WAG was telling, AND I hoped, THAT I could, GET THE real meaning, OF MOST of life, BEFORE I get, MY LAST glimpse of it.

Up early keyholing SALLY

That a certain TECH BEAUTY gave LIZ DRYDEN (a four letter word) because the LaVentura reporter asked the PLAINVIEW LASS for an interview. FRED BARRON'S FLAME added that she hoped they didn't interview her when her beaming countenance adorned a THIRTY-SIX beauty page.

"WIMPY" FAIRCHILD working like A TROJAN.

LEON (DISHWASHER) INCE really gave FRANCES MATHUGH a rush at the D. F. D. FORMAL.

And "BUXOM" JANE WOODRUFF certainly had a good time.

BIG SPRING, here comes a certain gentleman at EASTER TIME, CAN HE TAKE IT?

SALLY hopes "HOOEY LONG" HALSEY will go somewhere and have a seat after that APRIL FOOL edition SALLY would.

BETTY GILBERG craves PUBLICITY and would like to know who SCRIBBLES this column. But don't listen to your true love, JOHNNY, because he has been misinformed as to the author.

CARL MAXEY is OBNOXIOUS. See WEBSTER, you DUMMY.

And alas! EVA MAE O'NEAL and MAXINE FRY spent the weekend in FLOYDADA. Why? Because they didn't receive an invitation to a dance. For your comfort, SWEET LITTLE FISH, you weren't missed!

JOHN DAVID RUTLEDGE is very gloomy these days. He hasn't received that letter from the "Girl of the Southern City."

Moseying across the campus like the old man of the mountain SALLY saw HARRIETTE ROACH with that same guy hanging on her arm and right behind came the prize "love-birds" of the campus—SON SEAMAN and VIRGINIA BROWN.

Cruising slowly down the hall of the Ad building we hear DOROTHY NEUHARDT for the hundredth time telling a group displaying BORESOME looks that she is going to be a DUCHESS.

And a parting word to the GIRL WHO GRADUATED FROM HIGH SCHOOL TOO SOON, if you would like it advertised a little more, SPACE for an AD may be bought in THIS PAPER at a very CHEAP RATE.

SALLY.

RECALLING THE PAST

By E. D. FYKE

SEVEN YEARS AGO— A technical operator for First National Pictures will be on the Tech campus soon to take screen tests in an effort to select prospects for the screen stars of tomorrow, a dispatch to the Toreador Wednesday from the College Humor publications stated.

Police censored some of the signs on the campus wrecks (Fords) and the proprietors of the same merely painted over them and wrote censored by the police. The wrecks are very essential around here so we rise in giving them three cheering cheers.

Tech's first female football game is scheduled for Saturday afternoon.

The dull thud of padded flats upon carcasses is plainly audible each afternoon as the members of the "Tin-ear lodge" meet in regular session. Dr. Patton, instructor, is a past master of the grand old game of give and take and he insists that every man fight hard and clean.

A freshman defines a kiss as follows: a kiss is a noun, though sometimes used as a connective. It is never declined. It is plural and agrees with all. It is both masculine and feminine. It is useless to one but bliss to two. The baby fights, kicks and struggles to repulse it, the small boy runs from it, the young man begs for it, and the old man buys it. To the hypocrite it is a mask, to a young man, a privilege; to a young woman, faith; to a married woman, hope; to an old maid, charity.

Book Reviews

THORNTON WILDER, author of "The Bridge of San Luis Rey", has written a new novel, "Heaven's My Destination."

George Brush, the character around whom this erratic novel revolves, was called crazy by all who knew him. He would at least call himself a fanatic.

George is a man who travels in textbooks, as he phrases it. That is, he covers the territory through Oklahoma, Kansas, Texas, and other southern states, selling textbooks to school officials, and he is quite successful despite the depression. There is nothing so unusual about this, but his reasons for his success may arouse your curiosity, one is his tenor voice; the other his fanaticism. His theories of life are gleaned from Ghandi, and his pet idea is "voluntary poverty," which he follows assiduously.

An unusual person, George, with his athletic build, his good looks, winning personality, tenor voice, and all that it takes to be a ladies man, and all of this offset by his belief that the rich are cursed, men can love once only, and then it is not a question of love, but of the honorable course regardless of personal inclinations.

The author leads us to the place where George may yet become just another American citizen making an American home, which, by the way, is what he considers his duty and privilege.

The final turn in events is rather astonishing and slightly disappointing, though the author succeeds in avoiding the ordinary.

This book may give you a new slant on life or it may leave you quite bewildered. It is unique.

Another argument for the virtue of higher education is seen in the recent statement by Warden Lewis E. Lawes, of Sing Sing prison, that college graduates make very good prisoners.

Pre-Meds To Give Annual Dance

Aggie Club To Give Dance At Hilton Hotel

Ned Bradley's Orchestra Will Play For Both Affairs

Traditional crossbones and skull will be decorations over the orchestra pit at the annual spring dance to be held this evening at the Auditorium by the Pre-Med club.

Club colors of black and white will also be used in the building. Members of Ned Bradley's orchestra will be dressed in surgeon's uniforms.

Chaperones will be the sponsors and their wives: Dr. and Mrs. C. J. Wagner, Dr. and Mrs. R. C. Goodwin, and Milton Frederick Landwer, and Mr. and Mrs. Lonnie Langston, Dr. Beattie League and Mr. and Mrs. Jesse Q. Sealey.

Officers and seniors of the club are Maynard Knight, Harold Dow, Leslie Young, John Hinchey, J. M. Crowell, Roy Eddel, Wayne Hardy, Bob Stabler, Chesley Sullivan, Olin Thomas, Charles Truett, Earl Gobbie, Malcolm Wyatt, Amerius Burroughs, Frank Eaton, Joe Richardson, and Clarence Mast. Their dates are Misses Frances Elaine Price, Minnie McGee, Mary Thomas, Madeline Neves, Genell Stovall, Newel Hatch, Floy Stannard, Joni Bundy, Peggy Koffer of Amarillo, Cecil L. Wolfe, Janet Darwood, Frances Simmons and Margaret Maybough.

Seventy-five guests are expected at the annual spring semi-formal dance to be given by the Aggie club Saturday evening at the Hilton hotel ballroom. Ned Bradley and his orchestra will play for the dance which will be from 9 until 12 o'clock.

Special guests of the club, which consists of 50 members, will be the agricultural division faculty, Mrs. Mary W. Doak, and Dr. and Mrs. Bradford Knapp.

L. M. Hardgrave is president of the club.

New W. A. A. Girls Entertain With Varied Program

New members of the Women's Athletic association furnished the program for the old members at a meeting held Tuesday in the gymnasium.

Games, mixers and skits were played, after which refreshments of apples and candy were served.

New members include Lorene Besaley, Eleanor Jungman, Othella Daniel, Mildred Chappell, Lois Mangum, Lorene Odom, Helen Sims, Elva Laura Hall, Manita Chance, June Glascock, Ryan Bennett, Inez Dobbs, Marjorie Power, Eva Dell Harris, Nell Hughes, Leora Handy and Christine Bundy.

W. A. A. has charge of the following program of sports that is carried out each week:

Monday—volley ball, Lillian Baker, chairman.
Tuesday—tennis, Jewel Bishop, chairman.
Wednesday—tumbling, Ponice Reeves; ping pong, Essie Lee Guthrie, chairman.
Thursday—soccer, Magdalen Doderick, chairman.
Friday—tennis, Jewel Bishop; skating, Roleta Izard.

Archie Bahms Entertain "Y" Clubs Thursday

Cabinet members of the Young Men's and Women's Christian association were guests of Mr. and Mrs. Archie J. Bahms, 2435 Twenty-second street, last evening.

Coffee and cakes were served the guests who came at 8:30 o'clock. Informal discussions were the diversion during the evening.

Dr. D. A. Penick, Texas university tennis coach, has been placed on the Davis Cup committee. "The gray doctor" is also a member of three other nationally known committees.

College Calendar

Friday, April 5
Pre-Med dance, Auditorium, 9-12.
Engineering show.
Intercollegiate League meet.

Saturday, April 6
Aggie club dance, Hilton hotel, 9-12.
Engineering show.
Intercollegiate League meet.

Sunday, April 7
Fireside Forum, Women's lounge, 2 o'clock.

Monday, April 8
Engineering society, 208, 7 o'clock.
Forum, 313, 7 o'clock.
International Relations club, 7 o'clock.
Junior Council, 209, 5 o'clock.
Las Pecos, 220, 7 o'clock.

Tuesday, April 9
Aggie club, pavilion, 7:30 o'clock.

Officers club, armory, 7:30 o'clock.
Gargoyle, 208, 7:30 o'clock.
Debate club, 302, 7 o'clock.
H. E. club, H107, 7 o'clock.
A. I. E. E., 132, 7:30 o'clock.
Cappi y Espada, 210, 7 o'clock.

Wednesday, April 10
Double T gym, 7 o'clock.
Social clubs, 7 o'clock.
A. W. S. Girls' dance, gym, 7-10 o'clock.
F. F. A., Pavilion, 8 o'clock.

Las Chaparritas Pledges Entertain Friday Evening

New members and pledges of Las Chaparritas entertained with a supper Friday evening at the F. R. Friend residence, 2005 Broadway, honoring older members of the club and the retiring president, Miss Pauline Yeager.

Orchid and yellow, club colors, were featured in table centerpieces of flowers and in place cards.

Miss Frances Campbell, new president, presented Miss Yeager with a gift on behalf of the club. Each guest was presented with a gift from the hostesses.

Guests were Misses Campbell, Harriette Roach, Yeager, Charlotte Rattiff, Jane Tinsley, Addie Brown Benton, Sara Sue Stewart, Ethel Murray, Ruth Rutledge, Ruth Hutchinsin, Virginia Brown, Margaret Birdsong, Elinor Crenshaw, Sue Michle, Judith English, Bird L. Glass, Sara Lou Stevens, Linda Caldwell, Reba Wayne Williams, and Madames George Langford and Jesse Rogers.

Hostesses were Misses Eva Mae O'Neal, Newel Hatch, Maxine Fry, Vendelle Prudeaux, Agnes Pickett, Ann Brent, members, and Misses Pauline Anderson, Mary Ann Klimbe and Jeanette Jones, pledges.

Fireside Forum To Discuss Religion

Women of the Fireside Forum will discuss religion at a meeting at 2 p. m. Sunday, April 14, in the lounge of the women's dormitory.

The program committee is composed of Inez Hensley and Elizabeth Conner of the Forum, and Misses Elizabeth H. West and Flora McGee of the Quarterly Club.

Senior class members who are to be hostesses are Catherine Loughridge, Mary Margaret Medford, Sue Michle, Elizabeth Montfort, Guy Mosley, Doris Mullins, Mrs. S. J. Oliver, Mickle Pancake, Gladys Palmer and Vera Ferriman.

"Seven Last Words" To Be Presented April 17

"Seven Last Words" is to be presented by the Texas Tech chorus April 17 in the gymnasium at 8:30 o'clock. Julian Paul Blitz will direct the affair.

Reserved seats will be for the faculty, the press, and clergy, however, the performance, which is the only appearance of the chorus for this semester, is open to the public.

Nine Girls Are Presented By Social Club

DED Pledges Step From Two Pots Of Gold At End Of Rainbow

Nine girls were presented by D. E. D. club Saturday evening at the auditorium when they and their escorts stepped from two ten-foot pots of gold at the ends of a large rainbow improvised above the orchestra pit.

Presentees and their escorts were introduced by Ned Bradley, whose orchestra played.

Miss Dorothy Abernathy, a pledge escorted by Robert Koger, wore coral crepe with blue accessories and a cape of feathers, ranging in color from flesh to henna.

Pledges Listed
Miss Melba Abell of Mineral Wells, who was wearing white starched net over taffeta and rhinestone accessories, was escorted by Malcolm Martin.

Miss Elsie Reinkin, whose escort was her twin brother, Jim, both of Plinview, wore a pink crepe gown with pink net ruffles at the hem and neck line.

Miss Maurine Alexander, of Cleburne, was dressed in a full skirted net dress worn over pink taffeta, with raspberry taffeta bows. She was escorted by Sam Spacek.

Miss Mildred Houston of Hamilton chose green moire taffeta with silver accessories. She was escorted by Charles Bourland.

Miss Dorothy Fortenberry, whose dress was a full-skirted pink net with blue sash and accessories, was escorted by Winburn Morris.

Miss Linda Treadwell of Menard, escorted by J. W. West, wore light green net with silver accessories.

Miss Charlene Abell of Mineral Wells, escorted by Leonard Curfman, wore pale orchid silk organza with train and short coat. She wore pink accessories.

Members attending were Misses Madeline Hughes, Helen Lehmburg, Josephine Powell, Eloise Smith,

Three Tech Coeds Will Be Duchesses At Cotton Show

Misses Charlotte Rattiff, Ruth Rutledge and Dorothy Neuhardt will be duchesses in the Royal Court at the Cotton Style show and pageant at College Station this evening.

Miss Rattiff, who will represent the South Plains A. & M. club, will wear a blue linen evening dress with brown accessories. Miss Rutledge, duchess of Texas Tech, will wear a red organza dress.

Miss Neuhardt, representing Amarillo, will model a cotton evening dress of blue, white and red checkedingham Swiss. The dress is of her own design and choice.

The show which is given annually by the Student Agronomy society at A. & M. college, will terminate with a Saturday evening when the girls will be guests at a corps dance. Misses Rose Lee Briscoe and Joni Bundy, Tech coeds, will also attend.

Play Will Be Given Tuesday Evening

"Smokescreen" will be presented Tuesday evening, April 9, in room 202 by Clay Thompson, Charles Maedgen and Mrs. E. R. Helman. Two performances will be given, the first at 7:30 and the second at 8:30. The purpose of the program is to raise money to pay the royalty on the play. The admission is 15 cents, and Miss Ruth Pirtle, head of the speech department, and director of the play, requests that both Tech students and town people attend. The play has been well received by several audiences in Lubbock.

Betsy Smith, Jane Woodruff, Geraldine Wicker, Lorena Carter, Orathin Kilian, Mary Elizabeth Stanford, Laura Belle Underwood and Mary Camack. Their dates were Messrs. W. T. Stokes, Albert Conaway, Delbert Phillips, John Hiner Wilson, J. P. Carson, Granville Dickinson, Jack Nowlin, Dayle Vannoy, M. K. Foster, Homer Hall, Lloyd Zeller and Craig McNeese.

WE ASKED OUTDOOR PEOPLE:

"Is this fact important to you?"

"Cameles are made from finer, more expensive tobaccos... Turkish and Domestic... than any other popular brand."
(SIGNED) R. J. Reynolds Tobacco Company
WINSTON-SALEM, NORTH CAROLINA

MILDNESS! "Every woman prefers a milder cigarette," says Miss Helene Bradshaw, an enthusiastic horsewoman. "Cameles are the only cigarette I've ever found that is mild—and pleasing to your throat."

HEALTHY NERVES! "I've smoked Cameles for 14 years, without a sign of upset nerves," says Bill Hove, former Gold Cup winner and outstanding figure in American motorboat racing. "I like Cameles and they like me."

ENERGY! "As a master builder, I have learned that any work requiring 'push' just naturally calls for Cameles," comments Frank Furman Peters. "Cameles always give me new energy when I'm feeling listless."

FLAVOR! "It's been thrilling to have a part in the vast enterprise of building Boulder Dam," says E. W. Jones, Boulder Dam engineer. "First of all, many long hours of exhausting work—that's the lot of an engineer on this job! A recent check-up shows that most of us here at Boulder smoke Cameles. Man, what a swell flavor Cameles have! Mild, cool, mellow! You can tell they are made from choice tobaccos, too, because they don't get 'flat' or tiresome in taste when you smoke a lot."

VALUE! "I've seen how Cameles are manufactured," says Charley Belden, who runs the big Pritchard ranch in Wyoming. "They are made from costlier tobaccos. No wonder Cameles have such a rich, cool flavor!"

Matador Tracksters Meet Buffaloes At Canyon Saturday

By JIM LINDSEY
Toreador Sports Editor

THE Little Notre Dame of the Southwest? That's what Bus Ham, Oklahoma scribe, christened Texas Tech on the first invasion of the Matadors to the Smokey State. But should the writer of the phrase visit the campus during this spring days (the few that we have), he might decide to remove the word "little" from this group of words. Come with us as we relate our trip about the campus Tuesday in a verbal manner and see for yourself.

Dropping in at the office of the coaches in search of a news tip, we find Bo Williams arranging the program of events for the District Interscholastic League meet here today and tomorrow. Glancing over the shoulder of Coach Cawthon as we make our way to a chair we notice letters of inquiry concerning the summer coaching session. Although the 7,000 circulars were only mailed last week, we discover letters from various states. There is one from Maine, another from California and many from the Old South and Corn Belt.

The conversation drifts to the Texas Relays. Coach Cawthon returned from Austin the first of the week after acting as "Good Will Ambassador" for the coaching school. Several notices of an invitation to the Drake relay, for the purpose of contacting coaches in that section was extended the head mentor by director of the classic.

But perhaps the outstanding accomplishment of the jaunt to Central Texas was the talk with Bill Hargis, Kansas university track coach. Hargis accompanied Glenn Cunningham and assured Cawthon that he would make every effort in being the holder of the world's record for the mile race here for exhibition purposes. So plans are underway.

GLENN CUNNINGHAM

now to obtain "The Lame Indian" and add the greatest attraction in the cinder path world to the many other features of the summer session. But let's continue the journey!

Accepting an invitation from Coach Smith to accompany him to Matador field, we find Coach "Jab" Ballard rounding the tracksters into form for the Canyon meet tomorrow. We tarry long enough to observe John Case skipping, it seems, around the track with the rest of the squad as observers.

As we head for the baseball diamond, a red and black line makes its exit from the tunnel leading to the dressing room. The first session of spring football training is about to commence. We delay our trip to the baseball games long enough to see the lineups and backs divide into separate groups and start through the mill.

Enroute to see the opening affairs of the Social and Independent leagues, we observe a soft ball contest behind the gym. An investigation reveals that the county soft ball champions are in the making. A three run rally sends us over to watch the other contests.

On our way back to the gym our attention is drawn toward the tennis court. A dozen netters are forgetting their cares (if they have any) in the tennis meads. However, realizing that it is time for the third meal of the day and the inter-section baseball games start at seven, we RUSH toward the family table.

Student Tennis Tourney To Decide Varsity Team; Play Last Matches Soon

First round matches of the Tech student tennis tournament have been completed after two weeks of playing. The four semi-finalists will comprise the Matador squad to play in the intercollegiate matches already scheduled.

Following the close of the tournament, preparation for the first matches with Hardin-Simmons on April 14 will begin under the direction of Henry Roberts. On April 23 and 24 the squad plays return matches in Abilene. Abilene Christian college has also been placed on the card for the week-end. Plans are being made for the team to enter the Boarder conference meet at Albuquerque in May.

In first round matches Gordon defeated Bell 6-0, 6-1; Symes beat Schultz 6-3, 6-1; B. Bozeman won from Smith, 6-0, 6-4 and McDavid lost to Spuhler 6-1, 6-2.

Ballard Enters Fifteen Men In First Dual With West Texas Tomorrow

Scarlet And Black Squad Is Ready For Opening Spring Engagement

COACH Virgil Ballard and his Matador tracksters leave via automobile in the morning for their first track duel of the year against the West Texas Teachers at Canyon tomorrow night. Fifteen men will make the trip.

Several tracksters have displayed their wares in neat fashion during workouts this week. John Case clocked off the two mile stretch in 10:22.5 minutes Monday. The Border conference record is 10:31.

Cowan Brothers Again
The Cowan brothers, Maurice and Coleman, are sounding a warning to peck vaunters as they seek to reach their previous records. Coleman set the Border conference record last year, vaulting 12 feet, two and one-half inches despite a sprained arm. Maurice is holder of the district interscholastic record. In 1933 the younger of the vaunters went over the cane at 11 feet, 6 inches.

Members of last year's squad are getting back to form. Larry Fridley will represent the Scarlet and Black in the 80 tomorrow. J. H. Freeland has been entered in the mile and two mile races. D. M. McElroy will appear in the 200-yard dash and Gwynn Dowell throws the discus, shot and javelin in the meet.

Those making the trip and the event entered are:

- Mile—John Case, J. H. Freeland and Bob Case.
- 140-yard dash—D. M. McElroy, Russell Wimberly and Gordon Ball.
- 100-yard dash—Morris Laine and Esel Matthews.
- 120 high hurdles—J. H. West and Maurice Cowan.
- 80-yard run—John Case and Laurance Fridley.
- 210 yard dash—McElroy, Laine and Matthews.
- Two mile—Freeland, J. Case and R. Case.
- 220 low hurdles—Travis Martin.
- Mile Relay—West, Matthews, Wimberly and McElroy.
- Pole vault—C. Cowan and M. Cowan.
- Javelin—Dowell.
- Shot—Dowell and Bill Holcomb.
- Broad jump—C. Cowan.
- Discus—Dowell and Ball.

STAGG ACCEPTS POST

Amos Aiczo Stagg Jr., son of the noted football coach has accepted appointment as director of physical education and athletics at Salsquashan university.

CUNNINGHAM STAR

Glenn Cunningham of Kansas State set himself as star of the indoor track season by setting four world marks.

Leads Scoring

Red Wester, captain of the third floor, east wing entry, was the leading scorer in the dormitory inter-section basketball chase when the paper went to press Wednesday. The hustling center had tossed 93 points through the circle. His closest rival was Alvin Crews with 81 markers.

Crew's Team Leads Cagers

Third Floor, East Wing, Registers Seven Wins In Dorm Cage Race

With only four games to be played, Alvin Crews' team composed of boys living in the west wing of the second floor of the dormitory led the inter-section basketball chase Wednesday. The loop leaders have dropped only one contest while winning seven games.

Occupying second place in the ladder is the third floor, east wing quintet. This team led by Houston Wester has annexed six engagements and suffered one setback.

Keys Win Over Wranglers In Opening Game

Errors Decide Pitchers Duel Between Hudgins And Losing Hurler

Behind the effective hurling of Pete Hudgins, the Silver Keys turned back the Wrangler nine, 4-1, in the first game of the Social League campaign. The Key pitcher allowed McMurry's team only four hits.

Gill Is Stingy
Cleoro Gill, Wrangler moundman, limited the victors to three bingles but poor support in the opening inning spelled defeat for the hardworking twirler. The Key entry made three tallies in the initial stanza on a walk, two miscues and a single. Another Key crossed the plate in the third session with the lone Wrangler marker coming in the final inning. The Keys gave Hudgins alright support.

Box score:

Team	AB	R	H	PO
Silver Keys (4)	4	1	0	1
Hudgins p	4	1	0	0
Sowell ss	4	1	0	0
Tracy 3b	3	2	0	2

Coaches Hold First Official Spring Football Workouts Tuesday; Meet Sul Ross Teachers On Tech Field April 26

Displaying the same vigor and determination that characterizes their fall training labors, some sixty grid candidates took up spring football practice Tuesday afternoon under the direction of Head Coach P. W. Cawthon and his assistant, Line Coach Russell T. Smith.

The graduating gridders of last year's squad are assisting the coaches in the workouts. Ed McKeever, Leonard Curfman, Adrian Clark, Marion Harris, Gwynn Dowell and D. M. McElroy have charge of the secondary men. Braxton Gilmore and Malcolm Martin are tutoring the terminals. G. B. Morris, Truett Owen, Laurence Fridley, Woodrow Wilson and Joe Barlow are coaching the candidates for the positions which they vacated. Elva Baker, assistant fish coach and captain of the Matadors in 1933, is helping with the forward wall.

Twelve lettermen and 24 Picador numeral winners answered the call. Prospects unseen before in the Scarlet and Black received uniform and took their places beside the experienced players.

After four weeks of practicing the Matadors meet the Sul Ross Teachers on Tech field April 26.

Two weeks will be left in which to iron out the errors occurring during the long spring skirmish.

Varsity lettermen reporting were: Linebackers: Gaines Davis, Sam Jones, Walker Nichols, John Price, Alvin Kotrela, Bill Holcomb, Bert Williams, Leslie Browning, and Tom Wightman. Backs: J. V. Beauchamp, Jim Nell, Winfred Baze and Charles Duval.

Fish numeral winners present for the workout Tuesday were: Alton Owen, Pete Owen, Robert Rader, "Red" Doherty, Frank Gustick, Bill Richards, Fred Byrd, "Doc" Merrill, "Eabe" Curfman, Dempsey Parsley, Miles Chapman, Ed Green, Maurice Chernosky, Stanley Kenneth, G. B. Wimberly, John Bray, Glenn Thornton, James Brown, Gene Barnett, Rayburn Hale, Theodore Wilson, Raymond Lofland and Dick Richards.

Numerous acts that are considered innocent in all other civilized countries are made criminal in America.

If I had my life to live over again I would be more patient and kinder.

Plains Museum Society Holds Meet At Tech

Patton Named Head Of Organization; Holden Elected Curator

The sixth annual meeting of the Plains Museum society here Friday featured papers from Professor Gus L. Ford, Dr. W. C. Holden, and W. G. McMillan. The society's purpose is the establishment of a museum at the college. The group presented prizes to winners in an annual art exhibit, elected officers, and adopted the following resolutions to be considered by the college board of directors in June: society needs should be included in the college budget; college requirements on time and duties of curator should be lessened; curator should have a secretary; the society should have a space for central display of museum places to be open to visitors at stated times.

Patton Named President
Dr. Leroy T. Patton, head of the geology department of the college, was elected president. Professor Ford is retiring president.

Other officers elected were: first vice-president, Mrs. C. J. Wagner; second vice-president, Mrs. C. E. Hooper; third vice-president, E. I. Hill of Tahoka; fourth vice-president, J. Frank Norfleet of Hale Center; treasurer, M. F. Landwer; curator, Dr. W. C. Holden.

F. A. Kleinschmidt presented prizes to the following successful entries in the art exhibit: Mrs. J. C. Allenworth, Antique Vase and Dahlias, \$10. Mrs. C. E. Hooper, Granny Crocheting, \$5.

Holden Presents Items
Dr. Holden presented to the society 74 items collected on a Yaqui expedition.

Plans Made For Gargoyle Club Dance At Meeting

Plans were made for an annual dance at a meeting of the Gargoyle club Monday evening in the engineering auditorium.

The dance is to be April 26, and an annual picnic is to be held May 4.

A playlet "The Theft of the Royal Sapphire," written by Harry Blocker and Pat Marse, was presented.

Directors Of Tech Engineering Show

Above are listed officers for Tech's seventh annual engineering show which will be held on the campus today and tomorrow. Top row (left to right): Edward Redmon, Marshall, geological engineering; T. A. Ford, Lubbock, electrical engineering; John King, Lubbock, assistant general manager; Billy Neill, Athens, civil engineering; and Wilmot Eaton, Rule, Tech Press.

Bottom row: P. J. Minter, Sulphur Springs, publicity manager; Fred Fairly, Lubbock, general manager; Clifton Crawford, Haskell, chemical engineering; Winston Reeves, industrial engineering and engineering drawing; Dyché Kelly, Lubbock, mechanical engineering; L. E. Parsons, Sylvester, textiles; Joe Elder, Cuero, (not shown in picture) is in charge of architectural engineering exhibits.

as Inter-Collegiate Dramatic tournament at Sul Ross State Teachers college in Alpine, Texas, April 11-13. John Marr, club president, who will act as stage manager, and Miss Ruth Pirtle, sponsor of the club, will also make the trip. Fourteen colleges will be represented at the meet.

Amusements

PALACE

"RUMBA."—Today and tomorrow at the Palace George Raft and Carole Lombard, the pair who made "Bolero" famous, appear in its successor, "Rumba." George Raft in the picture is a cafe dancer and one-time gangster accomplice, who performs in Havana. He becomes involved in an affair with Carole Lombard, rich heiress, becomes famous with his "Rumba" and goes to New York to present it despite threats of his former gangster friends that he will be killed.

"After Office Hours."—Clark Gable and Constance Bennett are featured in Sunday and Monday's picture at the Palace. Produced in a newspaper background, "After Office Hours" has Clark Gable as a crusading managing editor who solves a murder mystery, winning back his job and marrying Constance Bennett thereby. Stuart Erwin, Billie Burke and Harvey Stephens are other members of the

cast with well-known screen records. "Naughty Marietta" at the Palace Tuesday and Wednesday brings to Lubbock theatre-goers Victor Herbert's immortal classic. Jeanette MacDonald, Marietta in the picture, shuns a king's ransom for life with a man in a wilderness of love. Nelson Eddy, Frank Morgan and Elsa Lanchester are members of the cast.

LINDSEY

Friday and Saturday, John Wayne in "Haunted Gold."
Sunday, Monday and Tuesday, "Car 99" with Fred MacMurray, Sir Guy Standing and Ann Sheridan.
Wednesday and Thursday, "A Night at the Ritz," starring William Gargan, Patricia Ellis and Allen Jenkins.

TEXAN

Friday and Saturday, Bob Steele in "Galloping Romeo."
Sunday and Monday, Ann Harding and Robert Montgomery in

"Biography of a Bachelor Girl," Tuesday and Wednesday, Stan Laurel and Oliver Hardy in "Babes in Toyland."
Thursday, "Ten Dollar Raise," with Edward Everett Horton and Karen Morley.

Dr. Underwood Is Author Of Book On Astronomy

Dr. R. S. Underwood, professor of mathematics, is author of a book on astronomy "Jaunts Into Space", recently published by the Christopher Publishing house, Boston.

The illustrations, half-tone pictures and line drawings in the volume are the work of Everett Fairchild, senior in the school of arts and sciences, and editor of the 1933 La Ventana. Photographs are by Yerkes and Mount Wilson Observatories.

"Come with me to the far places of the sky," the author begins. "We'll launch the space-ship of the inventor's dream and wander deep into endless trails. We'll look with fitting disrespect upon the jolly old insignificant moon; we'll paint planets with paragraphs, stop casually for suns, and brave the brittle cold of the primal dark outside the very universe of light."

Contrasting Hope Chests Exhibited By Home Ec Group In Open House

TECH students looking for wives soon may be asking the girls of their choice, "What kind of a hope chest have you kept, darling?" That is, if they visit the home economics building during the home ec open house today and tomorrow.

Two Hope Chests

One of the exhibits will be two hope chests. In one chest will be articles which might be collected by a girl without home economics training. In the other, chest will be the ideal collection of a girl with home economics training in college.

The first will contain a rayon bedspread of a cheap, loud color, starch-filled sheets, hen-feather pillows, an imitation rug, embroidered kitchen towels with the words "Good Morning!", and a crazy quilt of varied hues. The general theme of the chest will be dazzling colors and cheap material.

Peach And Green Colors

The ideal hope chest will use a soft peach and green color scheme. It will contain a comforter, the wool for which was raised and processed on the Tech campus, a can-dieck bedspread, standard grade sheets which will endure five years' laundering, an inherited coverlet, a handmade rug, a crewel embroidered wall hanging, goose-feather pillows, and a quilt in a "Rob Peter to Ray Paul" design.

The comforter was made by members of the Double Key society.

Dr. D. D. Jackson Speaks To Parents and Teachers

Dr. D. D. Jackson, associate professor of education, addressed teachers of Mitchell county at Colorado, Friday night on the subject "Can the Schools Guide in Instilling a New Social Order?"

Saturday night Jackson spoke to the Parent Teachers' association at West Brook on "Curriculum Revision Movement in Texas."

League Contests

(Continued From Page One)

Mowery, G. W. Woodbury, J. W. Jackson and E. H. Plank.

Timers: T. C. Root, head, H. C. Pender and "Mule" Davis.

Starters: Lee Jones and E. J. Lowery.

Clerks Named
Clerks of course: Collier Parris and Fish Bailey.
Clerk of track events: Jim Lindsey.

Announcers: Jim Baushe, "Toby" Thornton and Adrian Clark.

Judges of field events: Bob Vailt, Erax Gilmore, head, Sam Jones, assistant and Herschel Ramsey.

Running broad jump: G. B. Morris, head, Leslie Browning and Joe Barlow.

Running high jump: Gaines Davis, head, J. V. Beauchamp and Tommy Williams.

Marshalls Listed
Shot put: John Price, head, Robert Hale and Fred Byrd.
Javelin throw: Laurence Pluddy, head, Jim Neill and George Philbrick.

Rural pentathlon: Truett Owen, head and Bob Rader.

Marshalls are: Leonard Curfman, chief, Malcolm Martin, assistant, Marion Harris, Woodrow Wilson, Pete Owens, Dick Keene, Walter Nichols, Alvin Kotrola, Bill Holcomb, Earl Hunter, Whacker Barton, Alton Barnett, Tox Wiginton, Winnie Baze, Jessie Browning, Raymond Curfman and Tracy Watson.

Home Ecs

(Continued From Page One)

Margaret W. Weeks loan fund.

Hope Chests Exhibited

The textile laboratory will exhibit historic as well as modern textiles. A feature of the clothing and textile department exhibit will be two hope chests, one of a home economics graduate and the other that of a girl without home economics training.

A demonstration by the foods and nutrition department will show the effects of altitude on cookery processes, and animals which have been used in experiments to show the effects of different diets will be on display.

A well-furnished living-room will be part of the display of the home management classes in the annex. Necessary equipment within the reaches of the family with an average income will be on exhibit in the annex, also, as a project of the child study classes.

Souvenirs To Be Given

The applied arts department will give each guest a souvenir in the form of a block print. This department will exhibit art products and craft work done in applied arts classes: jewelry, metal work, batik, block print and leather and chip carving will be shown. Students will be at work in the laboratory.

The student body will have an opportunity to visit the home management house and the home economics laboratories. Dean Margaret W. Weeks said Wednesday, "I often hear students say that they have not been inside the home management house or the home economics building, and one aim of the open house is to afford students and Lubbock citizens an acquaintance with the work of the home economics division," she added.

Attendance this year is expected to exceed the 500 who attended the open house last year. Mrs. Ione McAllister, home economics teacher in the Eola, Texas, high school, and a 1933 graduate of Tech, plans to bring a delegation of 20 students.

Woodruff Billed For Murder; Jury Frees Two Others

Jane Woodruff, Pre-law sophomore, was indicted for the murder of Mildred Houston, freshman coed, by a Pre-law grand jury Monday night and will go on trial for her life at the spring session of the Pre-law Supreme court, April 15.

Paul Eubanks and Clay Thompson were "no billed" by the grand jury. Houston was found murdered on the night of March 18 in the Rock and Buskin club room, where she, Woodruff, Thompson, and Eubank were practicing a play, in which Thompson was supposed to have shot the murdered coed. Thompson was freed because the bullet found in the body was from a .32 calibre gun, and the gun used in the play was a .45 Colt revolver.

At the time of the shooting Woodruff was behind the stage. The blue eyes of the coed flashed hate at the jury when they questioned her about her love for Thompson, who preferred the dead coed.

Screaming wildly she was taken from the court by Sheriff "Get Em Red" Crawford and released today on \$500.00 bond. Her lawyers, Toothaker, Zorns and Griffith, are positive of an acquittal for Woodruff, whom they maintain has been framed by Paul Eubank, her former lover.

This will be the annual spring Pre-law mock trial, which will be held in room 302 of the administration building, April 15.

State prosecuting attorneys, Hankins, Butler, and Eubank, are just as confident of a conviction. The hard boiled prosecutors stated that all evidence was present to send "Killer Jane" Woodruff to the chair.

Engineers' Show

(Continued From Page One)

will be on display in the dyeing laboratory of the textile building.

In the mechanical engineering shops of the college, boilers, an ice plant, a miniature engine made by students of the department, a 450 horsepower Liberty airplane motor and other machinery will be displayed.

Visitors may view the laboratory of the architectural department in which will be clay models and the other objects made by students.

Crushing Concrete

They will see testing machinery in the civil engineering laboratory crushing concrete and breaking steel bars. They will also see small bridges, dams and roads that are working models.

They may visit the engineering drawing and industrial engineering departments to see blue prints and drawings and other projects. In the architectural department they may see designs in water colors, pen and ink and other exhibits. Drawings from schools all over the United States and Canada will be on exhibit. They are part of those entered in national competition sponsored by the SPEE.

In order to give the visitors an idea as to the types of laboratory reports that engineers prepare, a complete exhibit will be on display in the engineering library.

The order of this year's show has been changed. It will begin in the mechanical engineering shops, proceed to the textile engineering lab in the engineering building and end in the civil engineering lab.

Growth Rapid

Growth of interest in the annual show is indicated by an attendance of 1,000 persons the first year and of more than 6,000 last year.

Officers for the show are Fred Fairly, general manager; John King, assistant manager and M. P. J. Minter, publicity manager.

Departmental superintendents

Chemical Engineers Make Plans For Annual Picnic

Plans were discussed for a picnic at Buffalo Springs sometime in April at the last meeting of the Chemical Engineering society Monday night at 7:30 o'clock. Billy Arnold was appointed head of the picnic committee.

Articles of the constitution for the society were discussed in a short business session.

Many men are paying more to fall to put a little golf ball in a hole than they are spending on their children's education.

are Billy Neill, civil engineering; Edward Redmon, geological engineering; L. E. Parsons, textile engineering; Joe Elder, architectural engineering; Dyché Kelly, mechanical engineering; Winston Reeves, engineering drawing and industrial engineering; H. C. Crawford, chemical engineering; T. A. Ford, electrical engineering and Wilmet Eaton, Tech. Press.

Junior Council To Make Final Plans

Junior Council will make final plans for a series of four discussion programs on the "Responsibilities of a Junior Woman" Monday afternoon in room 209 of the administration building at 5 o'clock.

The first discussion will be led by Mrs. George Langford, head of the physical education department, next Thursday afternoon from 5 to 6 o'clock in the woman's lounge. Mrs. Langford will discuss "Social Leadership."

Mrs. Mary W. Doak, dean of women, will have charge of the next meeting to be held April 25, using for her subject "Philosophy of Life."

Two other programs to be led by faculty members will follow on "Physical Fitness" and "Mental Fitness."

The purpose of an education is to help find the truth in order that we may do the right.

There's something about a Chesterfield

There's one thing I especially like about Chesterfields—entirely aside from the fact that it's a milder cigarette—and I've heard a number of people say the same thing ... While I'm smoking Chesterfield I never get little crumbs of tobacco in my mouth—the tobacco doesn't spill out and that adds a lot to my pleasure of smoking them ... I notice more and more of my friends smoke Chesterfields.

Chesterfields are Milder Chesterfields Taste Better
