NUMBER 4

College Holds Convocation In Gym Tuesday

President Knapp Delivers Annual Address Before Large Gathering

PRESIDENT Bradford Knapp extended greetings and gave advice to the 1935 Texas Tech student body Tuesday morning at the first regular convocation of the year held in the gymnasium.

"Make the best of your opportunities," Dr. Knapp told the students receiving NYA jobs, stressing the importance of students making a decision on their vocation and applying themselves to the job.

"To earn one's salary, an additional amount of service is necessary," the president said. He defined education and college spirit, urging the students to "play the game on the square."

Dr. Knapp advised the students to take part in extra-curricular activities, but to "mix them judiciously."

Gain in Underclassmen

Instead of 75 per cent of the students being lowerclassmen, there are now only 66 per cent, providing a marked tendency in enrollment in the technical courses in the last three years, the college executive stated.

The check on total enrollment was 2374, but before the final day of registration, a record enrollment will exceed last fall's 2345, the president prophesied.

By division the present enrollment compared to last fall's is as follows: agriculture—227 and 211; engineering—409 and 419; home economics—237 and 252 and arts and sciences—men, 728 and 748, and women, 555 and 702.

Announcement was made of the change in two committees as follows: publications committee—Helen Lehmburg, Byron McCormick, John Manning, Marcus Halsey, and Mary Thomas; artist course committee—Mary Geniece Harberger, Jane Tinsley, Preston Connerly, Lois Watson, Henry Meredith and Russ Wasson.

Attention was called to parking cars in the driveways and See CONVOCATION page 4

Strehlis Study On Continent

Spanish Teacher Works On Doctor's Degree During Summer

Alfred B. Strehli, associate professor of foreign languages, and Mrs. Strehli spent several months in Europe where Mr. Strehli gathered material for his doctor's thesis. Most of his time was spent in Paris, where he did research work in the national library.

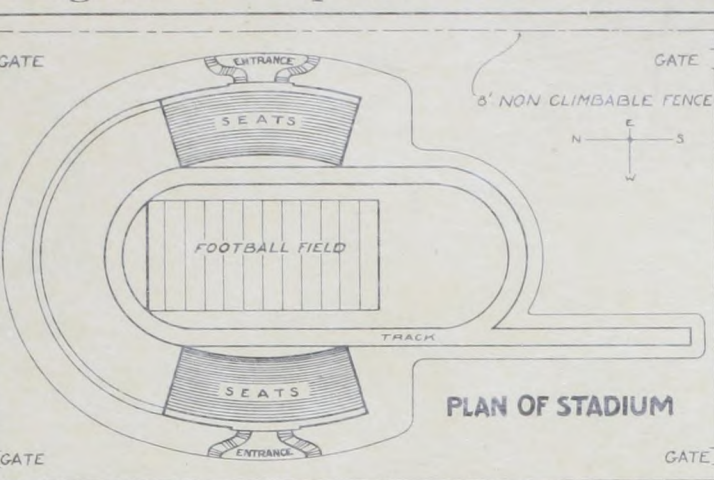

While in Paris, Mr. Strehli visited the Exposition of Italian Arts. This was a temporary showing of famous Italian masterpieces.

Professor Strehli also visited in southern France and in the Pyrenees mountains in northern Spain. From there he went to Brussels where he attended the Universal Exposition. He also stayed a few days at Ostend, Belgium, a seaside resort. Mr. Strehli stopped at Belfast, Ireland on the return trip.

The liner on which Mr. and Mrs. Strehli returned was in the edge of the Florida hurricane.

Diagram Of Proposed Tech Stadium

Drawn from blueprints in the president's office, the above diagram shows construction plans for the proposed Tech stadium. The project has been made possible through a grant of \$67,000 and a loan of \$83,000 from the Public Works Administration. President Roosevelt sanctioned the project with approval of the grant early this month. The seating capacity of the stadium is 14,500. On the west side, 6,500 spectators may be accommodated plus about 500 fans. There are 7,400 seats on the east side. Temporary seats can be erected at the north end of the bowl.

Classes Name Leaders For Year At Meeting In Gymnasium Next Week

Jackson Talks To Crosbyton County School Teachers

Dr. D. D. Jackson, associate professor of education, talked on curriculum construction to the Crosbyton County Teachers Association last Saturday evening. This lecture was sponsored by the State Department of Education.

Mr. J. F. McDonald, head of the extension department, talked on curriculum construction to the Ralls teachers last Thursday evening. Mr. McDonald stated a class will be organized with Dr. Jackson as instructor if enough teachers will enroll.

Amarillo and Colorado have each expressed the desire for a class in curriculum construction. Mr. McDonald said classes would soon be organized in these places.

Clements Leaves To Enter Oxford

Canon Clements, former student of Texas Tech and member of the Tech faculty last summer, sails for Europe today.

While in Tech Mr. Clements had an A average and was awarded a Rhodes scholarship which entitles him to attend Oxford university for two years. He received his degree in Business Administration from Tech in 1932 and his Master's degree in 1933. He attended Harvard last year and was fourth in a class of 400 with an average of 86.2.

Storm Delays Geology Professor In Return To Opening Of Fall Session

Dr. W. L. Robinson, associate professor of geology, who was a member of the research party in Old Mexico this summer, reports that the tropical hurricanes which struck Florida also passed through Talhuallo, Province of Durango, Old Mexico, and destroyed roads so that he will be delayed in returning to the college.

Aggies Enter Booths At Panhandle Fair Exhibits

Prof. C. Luker has announced that several booths will be entered in the South Plains-Panhandle fair now being held here. A particular idea will be featured in each booth.

Wind erosion will be displayed by M. C. Brandon, R. H. Davis, Bill Zirkle, R. L. Burdette and J. R. Hewitt; feeding by L. M. Hargrave, J. D. Strickland, Henry Elder, Bill Stubbs and F. C. Shillingsburg; shop work by T. L. Leach, Lawrence Shipman and G. S. Dowell; pest control by H. C. White, M. P. Vannoy and J. P. Smith; feed conservation by R. L. Faith; curing pork by Roy Monk; farm home demonstration by W. A. King; grain sorghum improvement by R. H. Wells and selecting seed corn by Dewey Davis.

FOUR GIRLS REGISTER

Only four senior girls have registered for the home management course for this nine weeks. These are Hazel Phipps, Vernon; Eleanor Hodges, Lubbock; Sallie Jane Clay, Dunn and Mary Frances Johnston, Lubbock.

Ince Calls Gathering Of Students For Election Tuesday Morning

Student President Leon Ince announced this morning that the election of class officers for the year will be held in the college gymnasium Tuesday morning at 10 o'clock. Classes are to be dismissed during this hour and Ince urges all students to be present.

"We want this year's election to be representative of the entire student body," Ince stated. "In the past there has been a lack of interest on the part of the students in the choosing of class leaders."

Classes will set in separate sections with members of the student council governing each group. Voting is to be oral with the sign of the raised hand or standing as approval.

Select Athletic Representative

Four officers will be selected in each group. Besides the president of the class, there are vice-president, treasurer and secretary to be chosen.

Nominations will be made from the floor by members of the class. After taking the vote, results to be tabulated by members of the student council and announcement of results made.

Freshman Gets Schepps Award

Rupert Triplitt, Tech freshman, was recently awarded a cash prize by the Leopold Schepps Foundation trustees. The total amount of the award is \$200, half of which has already been paid. Triplitt will receive the other \$100 within a few months. The award is for general moral integrity and character.

Mrs. Tom Everheart, his sponsor, gave reports to the trustees concerning the student's trustworthiness in carrying out pledges to the church, to the nation, and to his parents. The reports covered a period of three years.

Triplitt lives at 2435 Twentieth street. His mother, Mrs. J. W. Triplitt, is a teacher in Balmorhea schools.

Joe Bailey Powers, who received his B. S. in education in August, is teaching in the Acuff school.

Graduates In Civil Engineering Get Jobs Over State

Many of last year's graduates in the civil engineering department have received employment in the state. Others graduating previous to 1935 have been promoted from first employment after graduating.

Paul Hall, '35, is employed by the Austin Bridge company in Dallas.

James Johnson, Tommy Chesser, and Bill Neal, graduates of '35, are working for the Texas Highway department. Johnson is working in Sweetwater, Chesser in Brownfield, and Neal in Athens.

Old graduates receiving better positions are:

Archie King, who is the present county engineer of Lubbock County, by Stephen Luce, county engineer of Lockney County, and Duane Orr, Lang County engineer.

Jean Jeffus, Fenton Hardy, and John Lindsey of the '34 class are working for the War Department in New Orleans.

Creamerymen Have Meeting

Group Sees Experiments Under Direction Of Professor Renner

The Texas Creamery Association met Tuesday on the campus under the direction of Prof. K. M. Renner, head of dairy manufacturing. Approximately 30 cream managers and several field men were present. Charles Taylor of West Texas Cream Grading Association, Prof. C. Luker, associate professor of vocational agriculture and agricultural education at the college, Byron Bussell, secretary of State Cream Grading Association, and Professor Renner were in charge of experiments before the group.

Special emphasis was given to sediment testing in the cream grading tests.

Robert Shivey, 1931 graduate who entered the University of Iowa last year to work on his doctor's degree, was winner of the Lowden prize given by former Governor Lowden for the best work in geology in the university.

Cheer Leaders Schedule Two Pep Meetings

Freshmen Meet At Gym Tonight; Big Rally On Tomorrow

BEGINNING tonight two huge pep rallies are to be held in preparation for the Daniel Baker game Friday night.

"Freshmen are to assemble tonight at 7:30 o'clock in the gym to form the proposed cheering section," announced Morris Burchfield, yell leader, yesterday. The meeting was scheduled for Monday night but a small turnout necessitated postponement until tonight.

College Rally Tomorrow

At 7:30 o'clock tomorrow night an all-college rally is to be held on Matador Field unless weather prohibits.

A number of new yells are to be introduced.

Freshmen begin practice tonight as soon as organization is completed. An effort is being made to familiarize everyone with the Matador song.

Burchfield and other campus leaders have been working on the new freshmen organization for several days. They feel the need of an organized pep unit of some kind on the campus, and the freshmen class is the most likely division from which to begin the organization. If the experiment goes over, plans are to keep it as a permanent organization in the school. Rules and a constitution will be drawn up through the help of the Student Council.

To Select Name

The head leaders are asking the cooperation of every student to assist them in selecting a name for the new group. At present the organization is being modeled after similar pep units at Texas universities, Rice, Southern California.

See CHEER LEADERS page 1

Students Hold Dorm Election

Ince Supervises Meeting In Dormitory Lounge This Evening

This year's officers of the boys' dormitory association are to be selected tonight at the first meeting of the organization in the dormitory lounge at 7 o'clock. Mrs. Benjie M. Eulorf, social director, announced yesterday.

Plans for social activities this year are to be formulated following the election of leaders.

Charles Cosgrove, junior student from Cleburne, and Preston Connerly, Clarksville, senior arts and sciences student, have been mentioned as probable candidates for the office of president.

Leon Ince, student president, has charge of the meeting.

Melvin Schumperl of Portales headed the association last year.

Girl Student Enrolls In Department Of Textiles

Professor M. E. Heard, acting head of the textile engineering department, has announced the enrollment of the second girl ever to register for a degree in that department. She is Opal Hill, freshman, who entered Tech last summer.

The first girl is Miss Oneta Jackson, who has been in the school for the past two summers and is now teaching.

Holden Talks To Junior Twentieth Century Club

Dr. W. C. Holden, professor of history and director of archaeological research, was the principal speaker at a meeting of the Junior Twentieth Century club in Room 201 of the engineering building Tuesday afternoon at 3 o'clock.

Dr. Holden was surprised to find that they were not going to be held for questioning. "We expected to be locked in and held until a few questions were asked, but instead, everyone was locked out. The building was cleared shortly after the shooting and the doors locked," he said.

Figures Of Enrollment Approach New Mark As Time Limit Nears Close

ASME Holds First Meeting Tuesday

All freshman students in the mechanical and textile engineering divisions are urged by Ross Watson, president of the A. S. M. E., to attend the first meeting which will be held Tuesday, October 1, in room E150 at 7 p. m.

Prof. V. L. Doughtie, sponsor of the group at the first meeting. He is to emphasize the aims and ideals of the association to new students, and offer suggestive aids that will help the newcomers in adjusting themselves to college life.

The association will meet the first and third Tuesdays of every month.

Many Events On Calendar

Social Organizations Of Campus Schedule Large Number Of Affairs

Bridge parties, smokers, suppers, and dances compose the week's social calendar beginning this afternoon at 5 o'clock with the A. S. M. E. Bridge given by members of the D. F. D. club for rushees in the ballroom of the Hilton hotel. The affair will end at 7:30 o'clock.

Twelve tables of bridge will be in progress. The Spanish theme is to be prevalent in table decorations, refreshments, and favors.

Jack Fuller will play piano selections during the entertainment.

Camaradas Entertain

Los Camaradas club members will be hosts at an annual smoker to be given at 8 o'clock this evening in their club house, 2406 Broadway. Favors are to be given.

For all freshmen and transfer women an annual cabaret party sponsored by the Women's Athletic association, will be given in the gym from 7:30 until 9:30 o'clock this evening.

A program consisting of a piano solo, a tap dance and an impersonation of Mae West by Lillian Baker, a pantomime by club members, Spanish songs and dances by Alice Eason and Leliese Hays, tap dances by Mildred Chappel, Lois Sprague, Jewel Bishop, and Lois Paulsel, tumbling exhibitions by Ouida Davis and Lorene Beasley, and folk dances and songs by the entire club, will be presented. Ned Bradley's orchestra plays for dancing.

Japanese lanterns, serpentine, and dumbbells will decorate the gym. Favors will be given and refreshments served.

San Souci Has Dinner

Members of the Sans Souci club will entertain rushees with a formal dinner at the Hilton hotel Chalmers room Thursday evening.

Before the Texas Tech-Daniel Baker football game, members of the Wrangler club have planned a smoker at their club house, 2323 Thirteenth street.

A dance is to be given after the game. See MAIN EVENTS page 4

Magazine Prints Jackson Article

The Texas Outlook, official magazine of the Texas State Teachers Association, carried an article in the September issue written by Doyle D. Jackson, assistant professor of Education. This article is titled: "The High School Curriculum in the Light of State Curriculum Revision Movement". Dr. Jackson in his discussion on the high school revision predicts that the high school is destined to change fundamentally in the next decade and that enrollment will increase. He also believes that the high school will soon go a long way toward establishing its general educational independence.

Numbers Reveal Slight Daily Increase Over Preceding Year

TO DATE 30 more students have entered Tech than were enrolled in the college this time last year.

Latest tabulations received from the registrar's office showed that 2375 students have received registration cards since the first day of enrollment.

Deadline for full time matriculation is October 1.

100 Less Girls

President Bradford Knapp announced yesterday afternoon that 100 less girls have entered Tech this fall than in '34. The enrollment of boys betters the number that entered last fall.

Since the regular period of registration, the average daily enrollment figures show that approximately 25 new students have entered each day since. At that rate, more than 2,600 students will probably enroll by October 1. More, however, are expected after the deadline.

After October 1, only students desiring less than required work can register. Others have to receive permission from the administrative council.

Expect 2,600

Dr. Bradford Knapp, college president, predicts that more than 2,600 will have registered by October 15.

Registration is to continue in the registrar's office until October 1. During the first day of registration Tuesday, September 17, more than 1,300 students, mostly freshmen, entered. The first day enrollment more than doubled that of last year when only 700 enrolled.

Departments Show Gain

Registration in the departments have shown gains in the agriculture and home economics divisions. The enrollment in the other schools is about normal.

Three hundred sixty-eight more students entered last week than enrolled during the first week of registration last fall.

Florists Visit Campus Soon

Professor Howell Speaks At Convention Here Next Weekend

Preparations have been completed for a meeting of Texas, New Mexico and Oklahoma florists at Lubbock Thursday and Friday.

Prof. O. B. Howell, from the college horticulture department will speak at the convention. On Friday afternoon between 4 and 5:30 p. m. the florists will make a tour of the Tech campus. Prof. R. E. Renner will act as host at the dairy manufacturing building where the visitors are to be served ice cream or sherbet that has been made in the college dairy manufacturing department.

After a banquet Friday evening the florists will attend the Tech-Daniel Baker football game.

The debate club will hold its first meeting Tuesday, October 5, in Room 202 of the Administration building at 7 p. m. All students interested in debate are invited to attend. The club will meet regularly on the second and fourth Tuesdays of each month.

College Calendar

D. F. D. club, bridge party, Hilton hotel, 5-7:30 p. m.
Los Camaradas, smoker, club-house, 2406 Broadway, 8 p. m.
W. A. A. cabaret party, gym, 7:30-9:30 p. m.
Double T club, gym, 7:30 p. m.

Thursday, Sept. 26
Sans Souci club supper, Tree Top Inn, 6 p. m.
Friday, September 27
Daniel Baker-Tech football game, Matador field, 8 p. m.
Wrangler club, smoker, club-house, 2323 13th Street, 6:30 p. m.
Silver Key club, dance, Hilton hotel, 9-12 p. m.

Saturday, September 28
Las Camaritas club, luncheon-dance, Chimayo room, Hilton hotel.
College club, dance, Hilton hotel, 9-12 p. m.
President and Administrative council reception to students' women's dormitory lounge, 8-10 p. m.
Young people's dance, Seaman hall, 9-12 p. m.

Tech Professor Hears Shot That Killed Huey Long

DR. ARCHIE J. BAHM, instructor in philosophy and sociology, never spent but one day in Louisiana. But that day happened to be the day that Huey P. Long was assassinated. And the Tech professor happened to be in the capitol building when the shot was fired.

Dr. and Mrs. Bahm were returning from a brief vacation in Michigan and stopped over in Baton Rouge before coming back to Lubbock. Out of curiosity, they visited the capitol building and listened in on a House session of the legislature. Long was there, and although not in an official capacity, was of more interest than the moving was to the spectators.

"Huey was the whole show. He was all over everywhere being the center of attraction, and even while he wasn't supposed to have anything to do with the session, he was running things. While we were there, he was photographed three times for the newspapers," Dr. Bahm stated.

Huey Is Whole Show

When the House adjourned, the Bahms began walking toward the Senate chamber to see if anything was going on there. While still in the corridor, shots were heard below.

"My first thought was that someone was celebrating by shooting fire-crackers, but I then suspected what had really happened. It was not for half an hour, however, that my suspicions were confirmed and it was made public that Huey Long was shot," the professor explained.

Air Of Excitement

After the shooting, there was an air of suppressed excitement, but no noise, Dr. Bahm said.

"There was lots of excitement. The crowds were very much interested in what had happened. No one knew for sure that Long had really been shot, but that was what everyone thought. In the building everything was tense, but quiet," Bahm commented.

Dr. Bahm was surprised to find that they were not going to be held for questioning. "We expected to be locked in and held until a few questions were asked, but instead, everyone was locked out. The building was cleared shortly after the shooting and the doors locked," he said.

Expected Arrest

Of the three or four citizens to whom he spoke, Dr. Bahm stated they regretted the killing of Long. Although they did not approve his methods, the Louisianians agreed that he had done more for the state through means of road-building and school improvement than any previous governor.

Orientation Classes?

MOST freshmen are like "ships without rudders" when entering college. They are in a new environment. They need help in adapting themselves to college life. There is a wide gap between high school and college that must be filled before the first year student finally finds himself and becomes fully acquainted with his surroundings.

In order to acquaint the freshman with college, every freshman student enrolling at Tech must take orientation. The catalogue states that these classes help the student with the problems of adapting himself, but do they?

With the increase in enrollment, there has been a lack of interest on the part of the Administration in orientating freshmen. Classes have been too large, allowing very little personal contact with the instructor which the new student needs badly. There has been no outlined course of study.

Some of the instructors during recent years have spent the class hour telling jokes or discussing trivial subjects. On the contrary, college regulations should be emphasized, discussions should be frank in regard to personal matters. Any problem which the student is liable to confront should be considered by the professor.

The Toreador does not think that orientation classes are "a lot of foolishness." If the proper approach were made these classes would be worth much to the new student.

Let's Hear From You

AGAIN this year the student body, faculty and alumni of Texas Tech will be afforded the opportunity to express their opinions in the official college publication. Making their debut with this issue are two columns which may be used in expressing your opinion to Toreador readers.

Under the heading "Student Forum," letters and editorials from contributors are to be printed. "One-Minute Interviews" gives an opportunity for answers to questions pertaining to college affairs.

Last year these features were welcomed with open hands upon their appearance in our columns. However, after several issues carrying this medium for student opinion, there was a lag in interest and appreciation for the opportunity to get complaints "off your chest." Students went back to the practice of doing nothing but useless "gabbing" about situations on the campus contrary to their standards.

The Toreador, despite this show of unappreciation, begins these mediums again in its columns. The situation is left squarely to the students. Do you want to enlist followers of your beliefs and get something done about the matter? Or will you continue to talk when it is useless? It's up to you again!

CAMPUS ECHOES

FRATERNITIES at Western Reserve university held a debate recently on the question: Resolved that the shiny nose is preferable to a hole in the heel of the stocking. This was more or less countered by a University of Washington professor who had a boy bring a shaving mug and razor to class upon becoming exasperated at co-eds powdering their noses during his lecture.

Rumor has it that a student at Georgia Tech repeated a course under the same professor in the same room and neither knew it. That may be true, all right, but how did this story get started?

An Oklahoma junior college defies superstition. One member of the football team keeps his clothes in a coffin, and the pep squad has a yell about "Fifteen men on a dead man's chest! . . . All sort of eerie, but not so bad considering that the name of the team is the Pirates.

After ten years of looking for a place to put its world's largest telescope which will have a 200 inch mirror, the California Institute of Technology has selected Palomar mountain, 80 miles from San Diego.

It sounds a bit too pat for truth, but this is the story: A college student, after several hours of arguing about resolutions at a peace meeting, went to the bank to cash a check. They asked him to endorse it. In a mental fuz, he wrote on the back, "I heartily endorse this check."

-Collegiate Digest

Student Forum

Editor's Note: The Toreador invites the writing of student editorials and letters to the editor for publication on this page. Although the name of the writer will not be used, all correspondence must be signed and pertain to campus problems. The editor reserves the right to reject any and all articles. Contributions of 200 words or less will receive preference in our columns).

QUESTIONS DEMOCRACY OF SCHOOL

Are we becoming less democratic at Tech? One provision of the activity ticket makes me think so. Only students who pay for this ticket are given poll tax receipts enabling them to have a voice in the student elections.

Saturday afternoon over 2300 had registered for the first semester. Fifteen hundred had paid for the activity ticket making less than two-thirds of the student-body legally qualified to vote.

I can see no reason why only students who pay this fee should be allowed to vote. The number of persons who vote in student elections has been small enough in the past without limiting it even more.

EYE SIGHT

And

Laws of Average

Have you "Revoking" Eyes?
Bridge mistakes are embarrassing. Yet such social errors are but the minor results of eyes that have been neglected. Physical pain . . . mental loginess . . . facial distortion are too often the penalty inflicted upon the careless ones. Preserve your good vision with good lighting and periodic eye examinations.

The Science of Seeing explains to us that much of the eyesight trouble of today is the result of using eyes under conditions far inferior to the ones Nature designed eyes for—including light that is a far cry from natural outdoor light.

Scientists estimate that 87 per cent of the impressions we receive are recorded by our eyes. When we realize that one of every five grade school children suffers from defective eyesight and that percentage is double among high school and college students, we cannot fail to appreciate the importance of providing better conditions for the use of eyesight.

The most scientific examination by your oculist is of little value unless the glasses represent his findings in every detail. With our experience and facilities, we guarantee accuracy and dependability.

Raiders Tangle With Daniel Baker On Matador Field Friday

By BOB CANNON Sports Editor

LONGATED banner in the Hardin-Simmons Brand prior to Friday night's game. **TECH WALKS HOME TONIGHT.** The Cowboy's pretty bubble burst. A cocky bunch with hatred in their hearts, so sure last Friday night that they would defeat the Matadors, are still in the football oblivion that has encircled the Cowboy campus for more than a decade. With a piercing twang, scarlet arrows in the form of Red Raiders ripped a Hinesey Hardin-Simmons line to pieces. . . . no doubt, their pretty bubble burst. Their spirit dwindled rapidly. Cowboy voices lowered from a roar to a murmur, such as it has been for years. The Matador band gave the famous traveling bandmen, so called pride of West Texas, internationally famous, a lesson or two in music making. A handful of Tech fans could be heard over the huge Hardin-Simmons Homecoming crowd. . . . the Raiders did the rest. And Tech was supposed to walk home.

A Matador never walks, nor does he trot; he runs, win, lose or draw. It looks like Tech was running at full speed, and the Baptists are still crawling.

Cowboy press box notes: FLEM R. Hall, of the Star-Telegram sports staff opined that Winford Baze should be one of the best fullbacks in the Southwest this fall. . . . we don't know where he could find a better one right now. . . . in his estimation every member of the Southwestern loop but Baylor and Arkansas should win the title. . . . Nurdy Hoffman, assistant coach at See **DOUBLE T**, p. 4

Tech Grid Machine Makes First Home Appearance

Sophomores And Juniors Make Up Scrapping Hill Billy Team

DANIEL BAKER college furnishes the competition Friday night when hometown folk get their first action glimpse of Coach Pete Cawthon's Red Raiders. The Matador frolic is scheduled for 8 o'clock under the lights of Matador Field.

After doing their share in saddening the Hardin-Simmons Homecoming, the Raiders checked injuries Saturday morning and found Sad Sam Jones, regular end, with a broken foot. Coach Dutchy Smith says that Sad Sam will be out of the lineup for the next four or five weeks. The big Raider end played a real ball game against the Cowboys for his hometown admirers, and his services will be missed. Raymond "Little Ug" Curfman will probably take Jones' place in the first string lineup.

Patch Up Mistakes

Patching up mistakes in their offense will keep the Raiders busy this week in preparation for the Daniel Baker melees. The Raiders showed signs of needed speed in the backfield where power predominates at the present. If that speed can be attained, the Matadors should have the best backfield array in the southwest.

Daniel Baker's senior team didn't cut any capers last fall, and their sophomore and junior team of this fall can't expect to do much better. However, they have a habit of knocking over more stronger elevens than any other Texas conference member. Coach Gene Taylor predicts in a letter to the sports department that the "Hill Billies See **MATADORS MEET**, p. 4

Athletes Gather At Gym Clubroom For First Meeting

The Double T club holds its initial meeting of the year tonight in the club room in the gym. J. V. Beauchamp, of Greenville, president, announced yesterday. The meeting begins at 7:30 o'clock.

An organization made up entirely of Tech lettermen in all sports, the club will make plans for the ensuing year and other club business is to be discussed.

J. V. Beauchamp was named president for this year at a meeting of the club last spring. Sam Jones, Abilene, fills the office of vice-president. Other officers serving the association are: Walker Nichols, San Angelo, secretary; Leroy Crews, Wilson, treasurer; and Bert Williams, Lubbock, sheriff.

Kiwanis Members Erect Knot Hole Gang Stand

The Kiwanis club Knot Hole gang, 125 strong, will sit in a specially built stand in the Northeast corner of Matador Field Friday night when the Raiders play the Hill Billies.

The stand was erected by the Kiwanis club just before football season got underway. The club has its own band and do their part in supporting the Matador grid team. Heretofore the Knot Hole gang has not had a certain place in the grandstand to sit.

Texas Christian university travels 7000 miles this fall to play 7 games. The schedule includes games in California, Louisiana and Oklahoma.

Cowboys Bow To Matadors In First Game

Duval Scores Touchdown After Receiving Pass From Beauchamp

DISPLAYING a powerhouse onslaught directed at the right side of the Hardin-Simmons university line, Tech's 35 edition of Red Raiders harnessed Kimbrough's famous weapon, power, last Friday night and branded the Cowboys 9 to 0 on Parramore Field in Abilene before 6,500 Homecoming Baptists.

The game climaxed ten years of spirited football rivalry between the Cowboys and the Red Raiders in which Hardin-Simmons, boasting a new coach, Frank Kimbrough, had planned for six months to beat Tech. Fighting in with the game were heated outbreaks in the stands curtailed by a fiasco between Gaines Davis, Raider guard, and Clarey, Hardin-Simmons end, who squared off on the field during the last minute of the game. A near riot broke out, but police quieted feelings and Clarey and Davis were chased to the sidelines.

Tech Uses Reserves

Coach Pete Cawthon wasn't stingy in using reserves. He sent them in 11 at a time, and the score might have been worse had the first string Matadors remained in the game longer. Outside the score, the Raiders corralled the Cowboys in their own lot, piling up 15 first downs to the enemy's 7. Only twice did Kimbrough's charges get past the 40 yard line.

It was the first game of the season for both teams. The Cowboys playing under their new coach, Kimbrough and his touted help from Amarillo junior college, failed

Sooner State Squad Boasts 22 Lettermen

Many Veterans Report To Coach Exendine For First Drill

(Editor's Note: This is the second of a series of stories concerning the Red Raiders football opponents for this year. A Wichita university story appears next week.)

(Special to The Toreador) **STILLWATER, Okla., September 25.**—Of the 63 men reporting to the Oklahoma A. & M. college football squad September 10, 22 were lettermen. After two weeks of practice, the charges of Coach A. A. Exendine, former all-American Carlisle Indian of 25 years ago, is capable of putting one of the best Cowboy elevens on the field against Missouri Valley foes and intersectional competition than any Aggie coach has in many years.

Fifteen men were lost by graduation, but most of the 22 lettermen returning are seniors.

With three lettermen back for the center job and five lettermen returning at ends, Rudy Comstock can devote most of his time to finding two or three pairs of guards and tackles.

Four Veteran Guards Dormer Browning, Glen Dossier, Lewis Thurman, Bud Kee, and Bill Peavler, are the only veteran guards returning. Comstock will have to call them over, along with six sophomores, including Gene Colassacco, Jack Sharp, Tom Bowie, Gene Cowan, Howard Burnell, and Oris Taylor.

Capt. Tom Hanly, Norvel Heidlage, George Enochs, and John Kornegay, are the only experienced tackles. Four likely graduates of See **AGGIES HAVE**, p. 4

FAMOUS FOR THEIR FIT

Abney's Apparel Shop Hotel Lubbock

The leaves of Turkish tobacco are strung one by one like beads (see how it is done in the picture). After the leaves are strung they are packed in bales (see picture) — sometimes as many as 80,000 leaves to the bale.

We have on hand at all times for CHESTERFIELD cigarettes upwards of 350,000 bales of Turkish tobacco . . .

The pleasing aroma and flavor of Turkish tobacco is almost necessary if you want a good cigarette.

Turkish tobacco is more costly when you take into account that you have to pay 35c a pound duty, but we have to have it to blend with our mild ripe home-grown tobaccos.

It helps make Chesterfields milder, it helps give them better taste. *Just try them.*

Outstanding

.. for mildness .. for better taste

... ARE YOU JOINING THE ARROW FRATERNITY THIS YEAR?

Why do two out of every three college men wear Arrow Shirts? Because Arrow Shirts are authoritative in style. Because they are tailored with deft, inimitable skill. Because every Arrow Shirt has the most famous collar in the world—an Arrow collar. Because every Arrow Shirt is Sanforized-Shrunk—to insure permanent fit. Come in—browse around and see the new college shirts with English wide-spread collar; with button-down collar—and many other styles which represent the trend on the major campuses of the country.

We feature the famous "Form Fitting" Arrow

MITOGA Shirt

Arrow's Mitoga shirt is shaped to fit the shoulders... cut in at the waist to take out bunching that is prevalent in other brands and also has that famous Arrow collar. The Mitoga is highly approved by university men who take a pride in their appearance.

Cowboys Lose To Matadors

Duval Scores Touchdown After Snatching Pass From Beauchamp

(Continued From Page 3) The third period as results of a 85 yard drive featuring the oft tackle slants of Jim Neill and the line thrusts of Winford Baze that took them down to the Cowboy's five yard line. Three times Baze pounded his frame against the mad Ranchers, picking up a yard at each attempt. With the ball on the two yard line and fourth down, J. V. Beauchamp, right half, pushed a neatly executed basket pass over the heads of Simmons' secondary and end for a touchdown to Charley Duval who was standing in the end zone. Gaines Davis converted from placement.

The Raiders scored their safety in the fourth quarter after Doc Merrill's 45 yard kick went out on the H & S three yard line. After Kimbrough substituted Buck Howell, Cowboy speedster, into the lineup, J. W. West, Raider left end, smothered him behind the goal line for a safety.

Whistle Ends Drive A belated 45 yard drive in the second quarter taking the Matadors down to the Cowboy's 12 yard line was terminated by the time-keeper's watch. After Baze had punched the ball 3 yards at one whack, an intentional off side stall by Hardin-Simmons put the ball on the 3 yard line. By the time the Raiders had their signals called again, the official had shot the gun. The Cowboys threatened only twice, once in the opening stanza and again in the fourth. In the first quarter of passes by Mahuron, Cowboy quarter, and line backs by Tyler and Cherry placed the ball on the 29 yard line for first down. But the Matador line braced, and the ball went over on the 39 yard line.

Cowboys Threaten In the fourth period an off tackle sprint by Frost for 23 yards took the ball to Tech's 45 yard line but a penalty for clipping set the ball back 15 yards. Cherry the Cowboy ace, got off on his only big gain on the performance when he raced around end for 32 yards. A long pass by Mahuron was intercepted by Duval and the Raiders quickly took the ball out of the danger zone.

Although the Raiders looked exceptionally strong throughout the game, their offense was not true to form. The sophomores gave a fair showing of themselves. Baze Stands Out The ball carrying of Winford Baze was the feature of the night. With Gaines Davis taking the Cowboy guard end ends clear out of the picture, the big Robert Lee product gained the majority of the Raiders' gross yardage. Sam Jones, catching passes and throwing H & S ball carriers for many yards, was also outstanding. J. V. Beauchamp and Jim Neill were spark plugs of the running attack. Beauchamp doing the tossing with his left handed throws, paved the way for the Raiders' only touchdown.

Convocation (Continued From Page 1) entrance. He asked the students to notify the information office of changes in addresses, both faculty members and students.

Winners of 1934-35 honors not announced at spring graduation were given as follows: Double Key club, silver loving cup, Mary Thomas, Lubbock; Pan-Hellenic Society prize of \$40 to the freshman student in the division of home economics making the highest grade in all of her work for the year, awarded to Pauline Anne Edgett, Lubbock; Gargoyle club prize "Italian Sculptors" book, awarded to the freshman student doing the best work in commercial art, Ross Wayne Dowdy, Childress; faculty of the department of architecture and allied arts prize-book "The Life and Works of Baldassarre Peruzzi"—for doing the best work in architectural engineering, William Frank Bates, Pasadena, Calif.; Textile Colorist Medal for the highest ranking senior textile student with textile chemistry option, Elliot Knox, Roby; National Association of Cotton manufacturers award for the highest ranking senior student in textile engineering awarded to Worth Gameil, Lubbock; Mary Overton Craig Prize in chemistry, given H. A. Holcomb, Jr., Wellington, for showing the greatest promise in the sophomore class as a future chemist.

Cheer Leaders (Continued From Page 1) Arizona and Notre Dame. Scarlet shirts will probably be the adopted uniforms. "If this program is to be put into effect, then we need the entire support of the freshman class and the student body," Burchfield stated. "We are expecting every Fresh on the campus to be present tonight." The Matador band is to be present at the all-colleges rally Thursday night. A program to be outlined by Burchfield and his two freshmen assistants, Curtis Thompson and Steve Parkerm, will not be announced until the rally commences.

Mrs. Bradford Knapp left Sunday morning for Los Angeles, California, to join her sister, Mrs. N. W. Glover, of Pasadena. They will tomorrow for Honolulu to spend nine days on the island of Hawaii.

Goes To Oxford

Canon Clements, Tech's first and only Rhodes Scholar, sails for England today to enter Oxford. Clements graduated from Tech in '32 with a degree in business administration. He received a masters degree in '33 and attended Harvard last year.

Matadors Meet Daniel Baker In First Home Game

(Continued From Page 3) will be just about the same as last year."

Use Single Wing Shift

A combination single wing and short punt is used by the Brown-wood college. Coach Taylor was successful with it to some extent last year. Against Hardin-Simmons, the Hill Billies kept the Cowboys on the run. But the graduation of ten of their twenty letter-men, most of them regulars, doesn't indicate that they will keep the Raiders backing up. Their defense should be better than their offense.

The only veteran back on the team is Midford Conger, a rip-snorting quarterback, but he is too small to do much damage. Half-back Howard does most of the punting and passing, and John Little, the last of the long line of Littles that have played for the Hill Billies since eternity, is slated to be the full back. Little is the biggest man in the secondary, weighing 175 pounds.

Coach Is Captain

Travis Roach, all-Texas conference, captains the Hill Billies. Roach was easily the outstanding center in the Texas loop last fall. On Roach falls the task of backing up a sophomore line, and after the record he made last year, he should give the Raiders plenty of trouble. Norman Morris, co-captain and a power at a terminal, is their other defensive cog. Not so prominent as Roach last year, he is rated by Texas scribes as all-conference timber this fall.

The Hill Billies defeated the North Texas junior college Aggies last week, 14-2. The Aggies, according to reports from Ft. Worth and vicinity, are none too strong this fall. Coach Gene Taylor sends the Hill Billies weights as 171 average in the line and a 164 pound average in the backfield. In that case the Raiders will outweigh the Goats several pounds.

RED RAIDERS HOME SCHEDULE

Sept. 27—Daniel Baker college. Oct. 4—Wichita university. Nov. 2—Oklahoma A. & M. college. November 11—Arizona university. Nov. 28—Detroit university.

The University of Detroit will have three sophomores playing on the Titan eleven this fall. The Titans play the Red Raiders Thanksgiving Day here.

Aggies Have 22 Lettermen

Oklahoma Eleven Meets Red Raiders On Tech Field November 2

(Continued From Page 3) last year's freshman crop will get their first opportunity at a varsity berth. This quartet includes: James Patton, Leo Elwell, Shelby Wyatt, and Ray Kozlowski.

Exendine will have lots of backfield material on hand, but all the men are short on experience and capabilities. Dean Weber will be calling signals for his third year, and the three sophomore fullback discoveries of 1934—Lloyd Ricks, Bob Cox, and Herman Pritchard—along with Kester Trent, are ready to go again. Cliff Wright and Mark Hodgson, are the only fair haired boys in the half-back role, and Exendine plans to scan the 17 ball-toting hopefuls, more than half of whom are sophomores, carefully. The Aggies are badly in need of a good blocker, a punter, and a passer.

Exendine is not pessimistic over the outlook for A. and M. in 1935, despite the fact that the Cowboys are facing one of the toughest ten-game schedules of recent years. Exendine places most of his hopes on the sophomores. If they come through, the Ags will go places. If they don't, well, let's wait until the season is under way.

Double T

(Continued From Page 3) Wichita university and a former Notre Dame grid luminary, did much worrying about how the Wichitans could stop Baze. ... he said that Tech was well-known in Kansas territory. Textile Students To Take Eye Test

More than 60 students in the textile engineering department will undergo a test for colorblindness next week, according to Professor M. E. Heard, acting head of the department. Each student working on a degree in textile engineering will be required to take the examination.

Doctors Standefer and Canon will administer the tests as soon as students finish the physical examinations required for entrance to the college. Professor Heard did not know the exact nature of the test, but stated it will be the same as that to which all railroad engineers and airplane pilots are subjected. The tests are prepared by the federal government.
