

## "Gunner" Holmes To Go To Trial In Snyder Case

### Hamilton To Defend Jealous Lover In Court

Trial for the shooting of James Snyder, junior, prexy from Moran, by Henry Holmes, Shamrock "big shot" comes up Nov. 20, stated Garth Thomas, local lawyer in a press conference late Monday afternoon.

Snyder, who was leaving the library with Kathleen Webb Friday morning, was shot four times by Holmes. The Holmes and Snyder families have been bitter enemies for generations. The shooting grew out of an old rivalry between the two younger "romeos" of the Snyder and Holmes families, James and Henry, over Kathleen Webb. The final action grew out of a threat made by Holmes only a few days ago. Holmes, it seems, of late had the upper hand in the affair. And taking this as a significant fact, he forbade Snyder to see her again. So when Snyder walked out of the library Friday morning with the Miss Webb on his arm, his rage was too much. He fired four shots from his 32 caliber pistol into the body of Snyder and then sped away. Snyder was rushed to the West Texas Hospital and was reported to be doing fine.

James Hamilton, public defender, will represent Holmes at the trial. District attorney Maurice Pool will take the state's case. Judge Maurice Goodpasture will preside with his associate Mayo Boucher. John Chambers will act as clerk and Sheriff Aubrey Weaver, who picked Holmes up after the shooting, will keep order in the court. The only witnesses up to date are Kathleen Webb, James Snyder and a slime, Charles V. Steed, Clovis, N. M., who was on hand when the shooting took place.

This is the annual trial of the Pre-Law club. The above arrangements were made to make the trial possible.

## Glass Exhibition Given Gargoyles

Ford company is now on display in Room 204 of the Engineering building.

The exhibit, a permanent gift, was presented to Gargoyles club in their regular meeting Monday night by Harold J. Yeager, sales representative for the company.

A short history of glass, its development, introduction into America, present manufacturing processes and use of glass were given by Yeager. Two reels, one on manufacture of window, plate and safety glass and one describing Vitrolite or structural glass was shown to the club.

The exhibition includes samples of every piece of glass made by Libby Owens Ford glass company. The display also shows samples of sands used in processing different glasses, the color pigments used, and the various metal holders used in keeping glass fixtures in place. Some of the samples illustrate the sundry flaws found in glass and gives the technical name for each.

## Slimes To Be Feted Wined And Dined

Members of Textile engineering department will honor freshmen in that division with an open house to be held Nov. 13, in the textile building, at 7:30 p. m.

Plans for entertainment of visitors have not been fully completed, but an invitation to all members of this department has been extended by officials in charge of the program.

A special meeting of association of textile engineers has been announced for Thursday, Nov. 9, in the textile building at 5:00 p. m.

## TECHSTERS EARN EXPENSES

Twenty-nine per cent of all Techsters last year earned at least one-fourth or more of their expenses, according to a survey made by H. L. Kent, administrative research expert.

## Make Your Dates From: The College CALENDAR

Armistice Holiday

## Techsters May Get Wings Air Officials Visit Campus

Tech students will have their chance to become flying cadets when Lt. Col. Armin F. Herold, president of the Flying Cadet Examining Board of Barksdale Field, La., visits Tech Nov. 18.

Purpose of this board is to enlist senior students as cadets in the Army Air Corps. However, any student with 80 hours credit who is unmarried and between the ages of 20 and 27 may present himself for an examination to be admitted to the corps.

Applicants for flying cadet appointment must submit the following documents to the Flying Cadet Examining Board: three letters of recommendation, including one letter of recommendation from an R. O. T. C. instructor, and one from National Guard commander if the applicant has been a member of either organization.

If exemption from the mental examination is claimed, an official transcript of college record signed by the registrar can be used if the applicant has completed one half or more credits required for a four year degree at a recognized college. If the applicant does not have sufficient college credits, he must take an examination in the following subjects: United States history, English, general history, geography, arithmetic, higher algebra, plane and solid geometry, plane and spherical trigonometry and elementary physics.

The applicant must also present an authenticated copy of his birth certificate. Applicants under 21 years of age must have the consent of their parents or guardians. All persons who are over 27 are disqualified.

After successful completion of the examination, applicants are placed on a waiting list for appointment as flying cadets. Upon appointment, they are enlisted for three years and sent to the government's expense, to one of the civilian schools designated to give flying training to military personnel, usually for a period of three months for primary flying training. While at these schools, cadets receive \$75 per month plus an additional allowance of approximately \$52.50 monthly for food and lodging, and are furnished flying clothes and accessories.

After completion of training at these primary schools, the flying cadet continues training at Randolph and Kelley Fields, San Antonio, normally serving three months at each school.

Candidates must agree that upon successful completion of the course of instruction as a flying cadet, they will, if their services are desired, serve for at least three years active duty with the regular Army Air Corps Reserve Officers, unless sooner relieved by competent authority.

Flying cadets must remain unmarried during the period of training.

Students interested in contacting Lt. Col. Herold regarding the Flying Cadets should see Doyle Settle or the dean of men to leave advertisements, or give information regarding where they can be contacted.

## Teaching Staff Survey Released

According to Dr. Harry L. Kent, director of administrative research, 28.7 per cent of all members of the Tech teaching staff hold earned Ph.D. degrees, this number being taken from the recent survey of the teaching staff, completed by Dr. Kent.

The count revealed that of the members of the teaching staff, a total of 49 hold doctor's degrees, 85 hold master's degrees and 33 are holding bachelor's rank. A total of 28.7 per cent of the staff hold the highest ranking, 49.7 per cent are in the next bracket and 19 per cent of the staff are holders of bachelor's degrees. Of the number holding an M. A., approximately one-fourth are working on their Ph. D., while over one-half of those possessing a B. A. are working on their masters degree.

The department of Geology has five staff members, all of whom have Ph. D. degrees; two departments, math and psychology, have six members each holding this degree.

Biology, English, chemistry and mechanical engineering, all have five doctors on their staffs, and the department of physics has four members of this rank on its roll.

A total of 38 professors, 49 are men and 9 women; assistant professors are 20 men and 10 women; associate professors are numbered as 25 men and 9 women and instructors total 34 men to 15 women.

Dr. Kent's report did not include deans or members of the administrative staff who are not regularly included as part of the teaching staff.

**PI BOYS SHIP SUGAR BEETS**  
Eighty-five thousand pounds of sugar beets were shipped to the American Crystal Sugar company at Rockford, Colo., Saturday by the plant industry department.

This shipment was part of a cooperative experiment with the Santa Fe railroad and American Crystal Sugar company. Scientific data on the crop will be sent to Tech at a later date.

## Famous Russian Chorus Expected At High School

The world famous Don Cossack Chorus, conducted by Serge Jaroff, which is to appear on Nov. 13 in the Lubbock high school auditorium, arrived in America a few weeks ago on the S. S. Strangerford from Oslo, Norway.

Caught in Germany at the outbreak of the war, Jaroff and his 37 singers are probably the only large group that succeeded in reaching a neutral country intact. In order to secure accommodations on a neutral steamer, the chorus turned a drawing room into one large cabin. They gave a daily concert for the passengers. It is almost 19 years since they formed a part of a band of 2000 Russian exiles who were loaded on a small Turkish steamer and dumped on the Isle of Lecus, pending the decision of the League of Nations for those who put up last resistance to the Bolsheviks.

The departure from war-time Germany had its heartbreaks for the chorus. The 24 married members were forced to leave their wives and children behind, and it is doubtful if they will see them again until hostilities are over. Possessing only "Nansen" passports, it is virtually impossible for the chorus to continue its worldwide travels.

While the members of the group are forbidden to talk politics, it is understood that they maintain the Cossack tradition of violent anti-communism.

With the completion of their tenth American tour, which opens in Montreal on Oct. 1, the Don Cossack Chorus will have sung 3942 concerts. New York heads the list with 103 of the 726 concerts sung in the United States. California comes second with 62, and New Mexico is last with one. The chorus has appeared in every state in the union with the exception of Nevada. Canada has heard the chorus 87 times.

## "Y" Seeks \$333 In Annual Drive

### Team Captains Direct Campus Activities

This is "Harvest Week" for the "Y." The drive to get \$333 that started Monday will end Thursday.

Fifty students will seek contributions and the YM-YWCA board of directors is conducting the downtown campaign. Dr. M. E. Ogdon, professor of government, is supervising the drive among faculty members.

Students team captains for the drive are Marianna Coffey, Foster Lindley, Jr., Martha Farnell, Doris Stoneham, A. M. O. Wilson, Lyman McGehee, Elizabeth Titus, Gertrude Richter, Alma Rhea Eades and Jane Hill.

All students will be asked to contribute this week or pledge money to be paid April 1.

Members of YM-YWCA have had two entertainments this week. Monday night a "kick-off" supper at Seaman hall was held, and Dean and Mrs. James G. Allen Sunday night entertained 10 freshmen and two upperclass members. Every Sunday night members of the "Y" will be supper guests of some faculty member.

The organization plans to conduct weekly programs such as skating parties, "dateless" dances, bicycling parties, picnics and group discussions.

### GRAD VISITS CAMPUS

Walton, Nixon, '35 graduate in agronomy, visited at Tech Saturday. Nixon now holds an important position with the soil conservation district office in Fort Worth.

## It's A Crying Shame That These Silly Ninnies Absorb H<sub>2</sub>O While Liquor Goes To Waste

"Water, water everywhere, And all the students think, Water, water, everywhere, Nor does it cost to drink."

This is the crime of the modern mariner whose closest association with bilgewater waves is an infrequent plunge into tepid bathwater on Saturday night. An investigation of this peculiar species has revealed his habits include a greater desire for water taken internally than externally.

Perhaps it is the dusty climate, the hot air, or a combination of both which causes an astounding quantity of aqua impura (H<sub>2</sub>O plus fluorine) to be imbibed daily by collegians in avenue drug stores. Proprietors vie with one another in relating, with tearful eyes, the wondrous student capacity for

## Photo Studios At Work

Photographic students go out on an assignment and return with results, as the above picture shows. Some student caught the class at work and shot them while each was busy with a particular angle. The course, taught by Joe B. Cowan, journalism instructor, is open to anyone who wishes to take it. The course was formerly taught by Winston Reeves, '36 grad, who now operates a downtown studio. Students learn the chemical end of the course as well as subject matter.

## Beauties Powder For Big Election

Big political guns are being primed today as students prepare for La Ventana beauty nominations to be held Thursday.

This is first of two elections. Voting will again take place on Nov. 19 by preferential ballots consisting of ranking 24 candidates selected at the first poll.

Initial voters will be given ballots with blank lines for their nominations to be written in. Each student will list three girls, for a position of honor in the 1940 yearbook.

Beauties receiving first 16 places in the second election will be judged either in person or by photographs. To make appointments impartial, judges will be from some other part of the country or some other state, Freddy Boswell, editor-in-chief of La Ventana stated.

Candidates are to be judged according to poise, charm, beauty and a "Y" other characteristics which give a girl that added amount of "comp."

The judge will pick eight girls from the 16 submitted whom he considers the most beautiful. This group will receive a full page in the beauty section of La Ventana.

"We are endeavoring to eliminate any semblance of a 'popularity contest' from this election," said Miss Boswell, "and we feel that with two elections and final selection of the eight beauties by impartial judges will do so."

Last year nominations were made in this manner and considered successful.

Formerly a petition signed by 15 per cent of the student body had to be filed with the student council as a nomination for a place in La Ventana beauty race.

## Students Show Baptist Trend

Of the 16 churches to which Techsters belong, the Methodist and Baptist have the downhill pull, the former with 1350 students, and the latter with 1248, according to a survey by the registrar's office.

The smallest church representation was the Greek Orthodox which has only one student enrolled. Third largest ranking was the Church of Christ which has 330 student members. Presbyterians rank 280 strong with students who had no preference taking fourth place with 228.

Church preferences given on the list issued from the registrar's office were as follows: Assembly of God, 6; Baptist, 1248; Catholic, 68; Christian, 222; Christian Science, 27; Church of Christ, 330; Congregational, 4; Episcopal, 83; Four Square Gospel, 2; Greek Orthodox, 1; Jewish, 8; Latter Day Saints, 5; Lutheran, 25; Methodist, 1350; Nazarene, 3; and Presbyterian, 280.

## Block and Bridle Sends Delegates To Chicago Meet

Stewart Sewell and John Amos Wright, both senior agriculture students, were chosen as delegates to a national convention of Block and Bridle clubs in Chicago Dec. 5 at a meeting of Tech branch Monday night.

A. C. Sears, senior of Merkel, presided at a session in which suggestions for the revision of the national Block and Bridle constitution were discussed. A constitutional committee comprised of John Henry Baumgardner, Jack Hancock and Koy Neeley was appointed.

A committee to select a float for the homecoming parade Nov. 18 was appointed. Lewis Nance, Tom Green, Ed Allen and Robert Hendard were named.

J. C. Geary, Jack Stansell and Allen Henry were made responsible for entertainment at the "Days of '49" celebration of the club Dec. 15. A dinner-meet of club members in January is to be considered by a committee composed of Russell Reid, Walter Henderson and Sidney Rogers. Allen Henry read guests quota whom members may invite for the club pig roast. Nov. 14.

## Jones Goes To Washington, D. C.

Complying to a request from the state department, President Clifford B. Jones left for Washington, D. C., Monday night to attend a meeting of representatives from certain institutions of higher learning scheduled at the conference of inter-American relations.

The conference is set for Nov. 9-10, and representatives of over thirty American colleges are expected to attend the meeting, which will emphasize the problems attendant on presenting a plan for Latin-American students and educational institutions that will present more opportunities and better relations with their countries.

Exchange of students and professors between colleges will be discussed at the meeting, as will the financing of fellowships and scholarships, recognition of academic credentials and of the problems of inter-American educational exchanges will be considered.

## Dolores Haseloff Elected President Of Dallas Club

Dolores Haseloff, senior home economics student, has been elected president of the Dallas club to succeed Jane Davenport, senior from Fort Worth.

Other officers elected are H. M. Terry, vice-president; Rollinda Chappell, secretary; Charles Crow, treasurer; and Carl Barnett, reporter.

## Homecoming Fete To Be Gala Occasion

### Cowboys Play For Round-up Bradley Waves Magic Baton

## Eight Engineers Initiated Into Tau Beta Pi

Eight senior engineering students of Texas Technological College were initiated into the Texas Beta chapter of the Tau Beta Pi Association last night. To be eligible for election to this association the students must rank in the first quarter of the senior engineering class.

Those initiated were: C. C. Armstrong, Jr., Anson; James H. Cowan, Spur; Garth Faquay, Mt. Vernon; Raymond E. Glass, Amarillo; Herman Granberry, Mt. Calm; Winston Nippert, Clarendon; Kenneth Woods, Holland and James T. Young, Arlington.

James H. Murdough, professor and head department of civil engineering was initiated into the association at the ceremony last night. Murdough was graduated from the Massachusetts Institute of Technology in 1916.

The initiation ceremony was followed by a banquet in the Chimayo Room of the Hilton hotel. Members of the alumni association present were: H. F. Godeke, W. F. Gray, A. C. Oberg, Frank A. Pettit, Valerie Schneider, Herrol J. Skidmore, and C. M. Stanley, Jr. of the Tech faculty; King I. Glass, James B. Litton, Clarence Rannefeld, and John W. Sheehan, graduate engineering students at Tech; Mr. A. W. SoRelle and Mr. O. L. Garrettson of Amarillo and Mr. Winfield Holbrook of Plainview were guests.

The Texas Beta chapter of Tau Beta Pi is the youngest of the sixty-nine chapters which are located at the leading engineering schools in the United States. There are about 32,000 members of the association. The association is now fifty-four years old, having been established at Lehigh university in 1885.

## Sealey Carts Off 7 Photo Prizes

A kodaslide projector, the grand prize, was awarded S. Q. Sealey, professor of biology, for "Rock Bluff", entered in the South Plains Camera Club exhibition at the museum here.

Of the 90 prints entered Sealey entered 13 prints and won seven prizes. Competition was organized into four divisions. Division of black and white prints had the largest number of entries. "Water Towee" by Sealey won first prize in this division, and "Little Mexico" and "Yucca" won second and fourth prizes.

Sealey's "Kittens" and "Many Years Have Passed" won second and third prizes in the toned print division.

Sealey did not enter prints in the division of direct color prints, because of the complicated coloring procedure, but his hand colored picture, "Women In White", was the only print entered in the fourth division.

Prints judged Friday will be on exhibition until Nov. 15.

## Hazlewood and Settle To Attend Young Demos Meet

Calvin Hazlewood, chairman, and J. Doyle Settle, executive committee member for this senatorial district, 30, plan to attend an executive meeting of the Young Democrats of Texas Dec. 3 in Austin.

Hazlewood attended the last executive meeting of the Young Democrats of Texas on Oct. 22 at the Adolphus Hotel in Dallas. Plans were made for the organization of the club for the coming year. On the same date Hazlewood also attended a meeting of the Garner-for-President National Executive Committee of which he is vice-chairman. Plans for making more money for Democrats were discussed.

## Future Farmers Feed Fares And Friends

The annual banquet of the Texas Tech C. Luker Chapter of Future Farmers of America will be held at Knapp hall Friday at 7:30 o'clock, according to Mrs. L. J. Winn of the agricultural education department.

All members and dates will be invited as well as all faculty members of the agriculture division, said Mrs. Winn. This will be the first time that the 36 members of the club have ever taken dates to the banquet.

Latest development for homecoming celebration, as announced by Calvin Hazlewood, alumni secretary, is that Hop Halsey's Drug Store Cowboys will play for the round-up at noon on Nov. 18.

Hazlewood announced that the fifteenth Homecoming will be a gala affair. An array of entertainment and excitement is in store for the alumni.

The celebration will begin Friday, Nov. 17, when a pep rally will be broadcast over radio station KFYO and the Texas State Network, beginning at 7:15 p. m. Following the pep rally, the traditional bonfire will be held south of the gymnasium.

On Saturday from 9 until 12 a. m., a reception will be held in Knapp hall. A parade with each of the clubs sponsoring floats to represent homecoming will be held from 11 until 12 o'clock.

At noon Saturday, a round-up will be held on Tech field with Hop Halsey's Drug Store Cowboys furnishing music. This will be followed by the football game between the Raiders and Marquette.

Saturday night, the annual homecoming dance will be held in the gymnasium, beginning at 9 o'clock. Ned Bradley and his orchestra will supply the music.

Plans have been made by the Alumni association to make technical films of the entire homecoming celebration. These films will be shown to clubs and used for reference to the fifteenth homecoming.

## Tech Livestock Judges Try Out

Senior livestock judges received competition Saturday afternoon in preparation for the international livestock exposition at Chicago when a practice contest was held with outside judges offering the

With 43 entered in the practice contest two teams of five seniors each, won first and second places. Students competing for the junior team were in the contest to add to the number in order to stimulate actual conditions at the international, where approximately a hundred and forty boys participate each year. There are 32 competing for places on the junior team.

Assisting as judges to aid in giving team members experience were Henry Elder, '35 graduate who was a member of the 1934 team which won the international contest and is now a vocational agriculture teacher in the Lubbock public schools; L. M. Hargrave, vocational agriculture teacher of Wolfsoth, who has consistently coached some of the strongest high school stock judging teams in this area; M. J. Williams, vocational agriculture teacher at Shallowater and member of the Tech team of 1937 that won the American Royal exposition at Kansas City; W. L. Stangel, C. N. Fine and Ray C. Mowery.

About two-thirds as many classes of livestock and reasons for decisions were required as will be used at the international contest, according to Mowery, coach of the team.

Allen Henry, John Jackson and Arthur Mill acted as officials and tabulated results of the contest. These boys are not eligible this year for team competition.

In Saturday's contest only two classes each were judged of beef cattle, hogs, horses and sheep. Three classes of each animal are judged at the international show.

## Jackson Career To Be Recorded

A biographical sketch of Dr. Doyle D. Jackson's professional career will appear in the next issue of the Biographical Directory of Leaders in Education.

This directory contains brief biographies of all persons in America who have contributed to the advancement of education, whether by teaching, administration, publication or research.

A review of Dr. Jackson's professional career has appeared in Who's Who in American Education and in American Young Men, the official who's who among the men of the nation who are under the age of 40.

Dr. Jackson is widely known as the "flying professor" of Texas Tech.

## Aggie Division Employs Own Grad As Herdsman

At least one institution is convinced of the efficiency of Tech graduates. This was demonstrated this week by the announcement that Joe Christian, '39 graduate in animal husbandry, has been employed by the college as dairy cattle herdsman.

DOUBLE T

Schedules and Headaches

TRENDS AND TOPICS

By JOE PIERCE  
Toreador Sports Editor

Do you want to know what the toughest, most discouraging job on the campus is?

Bill Parker, athletic publicity director for Texas Tech, says it is trying to schedule "big time" football games for the Red Raiders.

And after glancing through Parker's correspondence file, this reporter is inclined to agree with him.

A few days ago, we walked into Parker's office and demanded to know why Texas Tech was playing such schools as Texas Mines, Texas Wesleyan, Flagstaff Teachers, Loyola of the South and others whose names carry little weight in the gridiron world, instead of Minnesota, Texas A&M, Southern California, and so on.

In answer, Parker reached down into a capacious drawer and jerked out a stack of letters fully two feet high. Said he, "There's the reason. Look 'em over."

We Learn Something New

So we looked them over, and found the reasons were more than sufficient.

We looked over scores and scores of letters and telegrams from various colleges and universities all over the land, including all the Southwest conference schools and such other "big name" teams as Notre Dame, Georgia Tech, Minnesota, Ohio State, Cornell, Purdue, Pittsburg . . . The list is endless.

Right there we decided that football schedule makers can have their job, as far as we're concerned. We don't want it.

And we learned more about the business side of football in an hour there than we ever knew before.

We found that football games aren't just thought up by someone in authority on the spur of the moment. They are carefully planned for years in advance.

We found that the better-known gridiron institutions of the country don't play for peanuts—they play for what is commonly called real dough.

Four Games Set For Next Season

First going into what we learned of next year's schedule, we found that four games are definitely lined up for next fall. The opponents already set are Centenary, Marquette, Brigham Young and Oklahoma Aggies. Other likely opponents are Idaho, Miami, Creighton, Dayton, and Arizona.

For 1941, two games have definitely been set. The Raiders will go to Austin to play Texas on Oct. 4, 1941. Oklahoma A&M will play in Lubbock at an undetermined date.

There were letters from all the Southwest conference schools in that two-foot stack. Only Texas seemed at all interested in tussling with the Red Raiders. In regard to a return game with Tech, Coach Dana Xenophon Bible of the Longhorns said "We would like to come to Lubbock to play a return game, but it looks as if he Oct. 4, '41, date with you fills our schedule until 1943. Only a couple of spots are left and we are trying to arrange games with Big Ten or Pacific Coast elevents for those two. If this keeps up, we expect to begin scheduling games for our grand-children to play soon."

They're Not Interested

Pittsburg, Notre Dame, Cornell, Purdue and certain other "major league" gridiron powers were offered practically the whole campus and half the town to play a game with Tech here. They weren't interested in the slightest. Their position may be better understood when it is remembered that Pitt, to pick an example, has an indebtedness of a million and a half dollars on their stadium. The best offer that Tech could make would be only a drop in the bucket compared to that.

A typical comment was that of Georgia Tech: "With our already overloaded schedule, we would be foolish to add such a strong team as yours to our schedule."

Among the other schools contacted were Mississippi, Louisiana State, Temple, Long Island, Fordham, Boston college, Carnegie Tech, Ohio State, Indiana Illinois, Louisiana Poly, Dayton, West Virginia, Vanderbilt, Nebraska, Kansas State, Michigan . . . and dozens of others.

The Search Goes On

Long Island talked favorably through a lengthy series of letters, but finally decided "you would be too much for us. See SCHEDULES, page four"

Victory-Hungry Red Raiders, Battered and Bruised From Two-Game Eastern Trip, Ready For Armistice Day Contest With Gentlemen of Centenary In Shreveport

Gents, Losers of Eight Straight, Hope To Break Into Win Column Against Cawthonmen

Texas Tech's rambling Red Raiders, battered and bruised from two successive licks on a long eastern road trip, leave tomorrow night on another junket into foreign parts. Saturday they will engage the oft-beaten Centenary Gentlemen in football battle on Centenary field, Shreveport.

The Raiders arrived from the Miami game Monday afternoon, and were greeted by a small delegation of faithful rooters. There was no noticeable cheering.

Sailing time for tomorrow's trip is 10:10 o'clock. The gang will arrive in Marshall, deep in the piney woods of East Texas, at noon Friday and will work out briefly in Marshall.

The Centenary crew has been licked eight straight times this season, and have yet to win a game. Sports writers over the state are saying, however, that the Gents are due to break into the win column Saturday.

Included in the list of those teams who have won from Centenary are three Southwest conference teams, Rice, A & M and Texas Christian.

Other winners from the Gents have been Louisiana Poly, Hardin-Simmons, Mississippi, Tulsa and Arizona. Latest victor was Arizona, who licked the Gents in Tuscon last Saturday night, 7 to 0. A last-minute pass play was responsible for the score.

No changes are contemplated in Tech's starting lineup.

Next game for the Raiders is the Marquette game, feature of the Homecoming celebration the week-end of November 18.

Marquette Plays Iowa State

MILWAUKEE, Nov. 7.—Marquette University's Golden Avalanche makes its last home start of the 1939 season here Saturday against Iowa State of the Big Six conference.

The game will be the feature of a Parent's Day celebration.

The Hilltoppers leave early next week for their season's final game, with Texas Tech in Lubbock, Nov. 18.

Iowa State has licked the Marqueters the last two years, but the all-time record shows five wins for the Hilltoppers and two for the Cyclones.

Coach Jim Yeager of the Iowa team has a dozen lettermen for a nucleus, and demonstrated their power in holding the perennially strong Nebraska team to a 10-7 count a few weeks ago.

Nine Marquette seniors will be making their last appearances at home. They are Al Beitzinger, Dave Braden, Chuck Hooper, Ray Busler, Tom Woods, Bill Burke, Harry Leysenaar, Johnny Maitch and Reggie Coidagell.

Big Durwood . . .

DURWOOD HERRING-TACKLE

YES SIR, IT'S BIG DURWOOD Herring, understudy tackle for Rafe Nabors. Coach Cawthon was quite dissatisfied with the play in the line in the two eastern games, so it may be that Durwood will see a lot more action than usual Saturday.

Last-Second Pass Brings Eighth Licking For Gents

TUSCON, Arizona, Nov. 7.—The fighting Gentlemen of Centenary college held the Arizona Wildcats in check for three quarters here Saturday night, but a long pass in the fading moments of the game brought victory to the Wildcats, 7 to 0.

It was the eighth straight licking for the luckless Centenary eleven.

Arizona got within scoring distance in every quarter, but the stubborn Centenary line refused

# Sans Souci Alums Fete Members And Pledges With Dance Friday

## Bradley's Band Plays at Hilton From 9 til 12

Sans Souci members and pledges will dance to the rhythm of Ned Bradley's orchestra Friday night at their first dance of the year, a semi-formal affair from 9 until 12 in the Hilton Hotel ballroom given by the Alumnae association.

Members and their dates are: Mary Beth Tomlinson, Neil Wright; Ruby Faye Meredith, Holis Haddleton; Jane Davenport, Gulon Gregg; Doris Peavy, L. D. Whitley; Arnette Halsey, Dan Critser; Linda Chapman, Gene Alderson; Marjorie Hillis, Robert Snyder; Jane Erickson, Roger Kaykendall; Ertle Brashear, George Stinson; Peggy Dunlap, Mack Tittle; Helen Cantrell, Jack Wells; Jean Clapp, Ken Germond; Dolores Hasehoff, Jack Giles; Dorothy Kelly, Ansel Thomas; Doris Minor, Troy Pickens; Cora Jean Watson, C. A. Rathman; Jane Wilson, Charles Bucy.

Pledges and their dates are: Frances Bingham, Frank Scott; Mary Catherine Booth, Jerome George; Frances Brashear, Bob Wilson; Betty Burke, Lester Grimes; Ruth Campbell, Jack Allen; Emma Ruth Cox, Kenell Long; Ann Davidson, J. B. Wilson; Jacqueline Davis, Pat Slavin; Sara Davis, Pat Slavin; Lucille Elberger, Trutt Patterson; Wilma Ruth Forbis, Jimmy Day; Fat Fullbright, Sumner Reed; Betty Grimes, Hugh Horne; Virginia Hoffmaster, Bob Stewart; Helen Jarrott, Horace Runnicles; Hilte Levens, Raymond Lee Williams; Catherine McCullum, Franklin Mast; Marilyn Miller, John Wacker; Marilyn Rice, Charles Norton; Ruth Rogers, Jimmy Walton; George Markham, Russell Hedrick; Lady Jo Romple, J. B. Davay; Betty Sanford, Bill Whitfill; Micky Temple, Pete Brown; Helen Thomas, Pete Brown; Peggy Winford, Pete Brown.

Patronesses are also invited to attend. Mrs. Kenneth D. Leftwich is president of the Sans Souci Alumnae association, and Coleta Baker is representative to the active chapter.

### IN COED'S CORNER

## Romeo Defies All By Winning Love With One Deft Blow

By MARY BETH

"I heard him right outside, and then he slipped that yellow-sheet under my door. I know some boys delivered them—they must have slipped through the tunnel." Such was Monday morning's conversation in the girls' dorm. However, reliable reports are the sheet-distributor was not a black-mustached villain, but a diminutive coed. Oh, well. . . . When, and if, this fight is ended I'm going to miss it. Never again will I have such a chance to hear people airing their views on so many subjects of which they know so little, and hold the audience.

Vassar's doing it now too! When Tech initiates a plan that Vassar adopts later, its news. Tech's loan library supplies students with texts every semester. Funds are derived from donations and sales of those little red tags you've seen on the campus this week.

"They said I couldn't win her, But I knew they were wrong, She was, oh, so very lovely, And she filled my heart with song."

I loved her hair, her lips, her smile, She thrilled me with her charms, I knew I'd never be content, 'Til she nestled in my arms.

So I gripped the baseball in my hand, And buried in to the wall, The bottle toppled over and I won my kewpie doll."

Freshmen are natural mimics. They act like upperclassmen in spite of every effort to teach them good manners.

No coed ever asks another's advice about frocks. Naturally, you don't ask the enemy how to win the war.

The prof that said matrimony is a serious word is wrong—it's a sentence.

My idea of rigid economy is a dead Scotchman.

Hm-m-m, if I can find my hat under all the rubbish, think I'll go home. To look at these desks you'd think we were a literary group—yes, extremely litter-ery!

### Library Gets Microfilm Of Life Of Madame Curie

The library has received a short microfilm of the story of Madame Curie and her discovery of radium from the Metropolitan Life Insurance company of New York. The film gives something of the life and work of the famous scientist and of the nature of the precious metal and its distribution. The metal is derived from a substance known as pitchblende. There are only 300 grams (about a teaspoon full) of radium in the United States, and it is worth \$25,000 per gram. Radium gives off three rays, the alpha, beta, and gamma rays, which are used in the treatment of cancer. It also gives off a gas known as radon.

### Cathman Covers Campus Capers

## The Cossacks Are Coming; Senator Smith Filibusters

C. A. KATHMAN

It's here! "Golden Boy." You have all seen the screen play, now see the stage version as the author, Clifford Odets has written it in his own vigorous character-revealing style.

Heading the cast is Eric Linden, stage and screen star, and Bernice Claire, beautiful Broadway screen and stage idol, who scored outstanding success last season. Linden is the boy musician who yearns for fame and fortune. He is good with his fist and takes fighting as the way to attain his ambitions. The play has a tragic ending and is shown as the author has written it. The screen play was censored, probably the only difference in the two plays.

Coming soon . . . November 13 The Don Cossack Chorus. Refugees from a war-torn country, these singing Russians are making their tenth tour of the United States. They have appeared in several places and in the movies. "Imperial Hotel" featured these fine voices. They bring to Lubbock music lovers songs from their own country and also some of the best loved classics. With the completion of their tour, which opened in Montreal Oct. 1, they will have sung 392 concerts.

The practice of celebrating Sadie Hawkins day is sweeping the country. Unfortunately, or vice versa, the affair doesn't always take place on the same day in the same place, largely because women are still prone to change their minds. This year the NBC received inside information and is going to broadcast the activities of the Sadie Hawkins day in Philadelphia Friday, Nov. 17. Whether this is childish or not, Tech could profit from such a day here on the campus. What about it?

The reel glory of Frank Capra's "Mr. Smith Goes To Washington." If you haven't seen "Mr. Smith" then by all means do. If any picture's box office pull can be used as a gauge of public taste, then this one is a hit. If the person who sees the crowds outside the box office wishes to be cynical, he can say that the unfavorable publicity gained at the Washington premiere is the cause of it all, but the stellar cast, which includes Jimmy Stewart, Jean Arthur, Claude Rains, Thomas Mitchell and Harry Carey, give the film a real punch. With Frank Capra behind the megaphone, it could be nothing short of a four-star picture. Mr. Smith shows at the Palace for the last time today and tomorrow. . . . Sigrid Guire is the cabaret singer in "Rio" showing at the Palace Friday and Saturday who turns on her glamour to the con-

sternation of Basil Rathbone, Victor McLaglen and Robert Cummings. . . . One of the best pictures of last season is to be at the Tech Thursday, Friday and Saturday. Don Ameche appears in the title role of "Alexander Graham Bell" with Loretta Young as his faithful wife. Miss Young emerges as a really competent actress in her portrayal of a deaf girl whose eyes are her ears. Ameche leaves his master of ceremonies attitude at home and if convincing as hard-working Mr. Bell, Henry Fonda is tops as Bell's assistant.

Slips that pass . . . Germany's new submarine slogan, "Join the Navy and see the next world" . . . America is the land of opportunity, which may account for so much knocking . . . All is not sex that appeals . . . When television comes into more general usage, there won't be so many dates made over the wires . . . Modern philosophy . . . The glass that cheers is milady's mirror.

### Varsity Book Store

Tomorrow, November 9, is COLLEGE CLUB DAY at ACHILLES CORCANGES SPORT SHOP. The purpose of this program is to aid clubs on the Tech campus in carrying out their program. There will be club members throughout the day in the shop to greet you. A percentage of the sales made on this day will go to their treasury.

Now will be a good time to register at the Hosiery Bar

## Jones Asks For Arts Corporation

President Clifford B. Jones announced that a petition for a corporation to be formed by himself, Spencer A. Wells, and Tom Gaston, all of Lubbock, has been sent to the secretary of state, which would allow for formation of an organization to promote the study and extension of the fine arts in Texas Tech.

The corporation would be known as the Texas Technological College foundation, would be non-profit in nature, and would be undertaken for the support of fine arts in Tech as painting, music and scientific undertakings of various natures. Other activities of the corporation would include library maintenance and an endeavor to promote extensive interest in fine arts in the college.

Petition for formation of the corporation has been sent to the secretary of state, in compliance with regulations which govern formation of corporations in this state.

### Schedules

Continued from page three

Just forget the whole thing." Louisiana Poly, holder of eight straight victories and one of the rising football powers of the country, after much bickering and dickered discovered that they had only one open date, that on Sept. 14, which, they concluded, was entirely too early to play a game of football. But, in spite of setbacks and discouragements on every side, the search goes on. Verily, the road to gridiron glory is rocky and rough.

In the ball game as Black booted the ball neatly between the goal posts.

Weenie Bynum, Centenary half-back who has been called one of the Southwest's best, was almost the whole show for the Gentlemen, carrying the ball on almost every play. The tough little lightweight also did all the kicking and most of the passing.

Each team tried field goals before the final scoring play, but both were short.

The Gentlemen play Texas Tech in Shreveport next Saturday.

## Cinematainment Smith Off To Capitol When Arcadia Calls Out Danger Patrol

day, Friday and Saturday, "Alexander Graham Bell," with Don Ameche, Loretta Young and Henry Fonda.

## Judging Teams Are Guests Of Aggie Club at Pig Roast

Twelfth annual pig roast of the Aggie club will be held in the pavilion Tuesday night, Nov. 14, honoring five judging teams of Tech. A. B. Tarwater, state representative from Plainview, is principal speaker. J. R. Bertrand, president of the Aggie club, is master of ceremonies and Dean A. H. Leidigh will speak.

Coaches and the teams they will introduce are: Ray C. Mowrey, American Royal and international livestock judging teams; M. G. Pederson, dairy products judging team; N. C. Fine, dairy cattle judging team; E. T. Duke, crops judging team.

M. G. Pederson, sponsor of the Aggie club, will introduce the guests. Plans have been made for an attendance of about four hundred, more than have ever before attended the affair. This year the membership of the Aggie club has almost doubled any previous figure.

According to Forrest Baumgardner, in charge of roasting the pigs, two pigs of over two hundred pounds each have been secured for the roast. The rest of the menu includes Mexican style beans, cabbage

slaw, pickles, apples, ice cream and coffee.

Assisting with the pig roast are the dairy club, furnishing the ice cream and coffee cream; the plant industry club, who will bring the apples; and the animal husbandry department, who is donating one pig. All the departmental clubs in the agriculture division are invited to the roast.

Cooperating with the feast preparations are two dormitories, Men's dormitory No. 1, which will cook the beans and make the salads and Men's dormitory No. 2, which will roast the pigs.
