TEXAS TECH

NUMBER 2

Coaches Plan Program For "Open House"

Raider - Fish Scrimmage Highlights Athletic Program

THE athletic department will act as host to the student body and South Plains citizens Wednesday night with "Open House" at the new Matador stadium. Starting promptly at 7:30 o'clock, the gigantic program arranged by the coaches begins.

After an introduction of the varsity football squad members, the Matadors are to demonstrate plays to be used in the gridiron wars of 1936. Following is a showing of all standards of grid formations under the supervision of Cawthon, Smith and Huffman, Tech's mentors.

Fish Scrimmage Raiders

Climaxing the "Open House" night, the Picadors meet the Red Raiders in a scrimmage session. The freshman grididers will be using plays from the Texas Wesleyan camp at Fort Worth. The Matadors open the season against Byron Rhone's Rams Saturday night.

Director D. O. Wiley tells the athletic chiefs that his Matador band is arranging a special musical menu that in itself will be a treat for the customers who like peppy tunes with their football action. Both units are rehearsing, beginning today, to add some sideline color during the first athletic "Open House" sponsored by the coaching staff.

Prepare Program

Assisting the band, Head Yell Leader Arch Lamb and his able assistant, Paul Bowers, will have the "Saddle Tramps," campus honorary cheering unit present to give yells and add spice to the program. Lamb urges other students to join the group in showing the Matadors that they'll get the support needed and deserved during a stiff calendar like the Tech team faces this fall.

Asks Support

Wishing to extend a personal invitation to each student, Head Mentor Cawthon asked the students, both new and old, to rally behind the Raiders and make his seventh year as athletic director a success.

Museum Work To Begin Soon

McMillan Waits Contract Confirmation Before Starting Project

Construction of a museum building at the college will begin as soon as he receives confirmation of the contract, W. G. McMillan, contractor, told The Toreador yesterday. The local contractor stated that he was waiting action by state and college officials.

McMillan was awarded the general contract on his low base bid submitted to John V. Singleton, chairman of the Centennial division of the board of control. McMillan's bid was \$22,452.

Built In U-Shape

The ground floor unit will be built in the shape of an angular U, two wings, 101 x 38 feet, joining the extremities of a rotunda section 60 x 54 feet in area.

This bottom unit, the only one to be constructed at the present will be built of reinforced concrete and steel. The foundation will be designed for two future floors.

Location Given

Located due west of the boys dormitory and at the intersection of the "circle" and the street to the Textile building, the structure will be made of brick to match texture and color of present buildings on the campus. The building is to be trimmed in cast stone. When completed, the structure will be air-conditioned and fireproof.

There are to be no windows in the exhibit-space section which takes in the wings. Only three windows will be found above the ground. Eight windows allow light to enter the basement.

Toreador Editor Calls Meeting Tomorrow At Office To Name Staff

Staff members for the 1936-37 Toreador will be named Wednesday afternoon at two o'clock. The meeting is to be held in the editorial office of the official student publication, located in the north basement of the Engineering building.

All students taking journalism are urged to be present by Jim Lindsey and Burttice Walker, editor-in-chief and business manager respectively of the semi-weekly newspaper. Assignments will be made and beats assigned to those who wish to do laboratory work on the paper.

College, Student Body Presidents Welcome Enrollees To Texas Tech

DR. BRADFORD KNAPP

CLAUDE THOMPSON

Knapp, Thompson Send Greetings To Students

Governing Body Head Asks Enrollees For Support In Sale Of Activity Ticket; Seeks Cooperation

President Bradford Knapp of the college and Claude Thompson head of the Student Council, issued the following letters of welcome yesterday to new and old students at Texas Tech.

Students, new and old, are flocking back to Texas Tech for the new year 1936-37. The College, the town, indeed the whole State join together in bidding you welcome, for all are invested in you and in what you are doing. Our hopes are high, our faith is great, our devotion unfailing. Here you come to develop your personality, to expand through contact with students and teachers, your knowledge, your skill, your capacity to think, your social, moral and spiritual value as an individual in society. Into these halls, into this life and onto this campus for ten years men and women have come for these same purposes. Out of this life for ten years have gone thousands to make their way in the world, to build, to serve, to set standards of worth, to succeed or to fail.

The Student Council welcomes the old students and extends greetings and congratulations to transfers and freshmen upon choosing Texas Tech as your institution of higher learning.

Texas Tech has a place for each of you and needs you. We sincerely hope that you will find your place immediately so that we can work together for our alma mater.

The student governing association was organized in order to bring about a closer relationship between the Administrative Council, the faculty, and the student body. The Student Council is the legislative body of the governing association. It promotes and sponsors the various activities solely for your benefits and for the betterment of Texas Tech.

Students, let's support our activity ticket and artist course one hundred per cent. Back our football team and other athletics, cooperate with your yell leaders in building and keeping up school spirit. By doing this you are helping yourself and aiding Texas Tech.

Keep Tech the same democratic institution by making and keeping friends. Speak to everyone as you go about the campus. Help us make this another banner year in the history of our outstanding institution.

(Signed) Claude Thompson

Honorary Cheering Unit Chooses New Members Monday

"Saddle Tramps," honorary cheering unit under the direction of Head Yell Leader Arch Lamb of Fort Worth and his assistant, Paul Bowers of Miami, selected new members at their first meeting last night in the lounge of the boys' dormitory.

The organization discussed plans for demonstrations at football games with emphasis on the dedication stadium game between Texas Christian University and Texas Tech. Lamb prescribed "lots of hard work" in summarizing his planned program for the year.

The yell leader also placed emphasis on the purpose of the organization. He quoted the constitution which reads: "the purpose of this organization is to bring about closer relationship between the athletic department and the student body and promote spirit and ideals on the campus."

ACCEPTS POSITION

Craig McNeese, former Kemas club president who graduated in 1935 with a degree of bachelor of science in electrical engineering, has a position with General Motors Acceptance Corporation in San Antonio.

Allie Eason, June graduate in Spanish, is teaching English and Spanish in the Sylvester public school.

King's "Bobbie" Takes Camera Being Used By Students Visiting England

EFFORTS of Morris Burchfield to take pictures while visiting in England proved fruitless as the king's "Bobbies" caught the Tech students snapping photos of Buckingham Palace, a letter from Burchfield received by The Toreador yesterday stated. The correspondence was mailed from Middlesbrough, in York the third of this month.

Relating the incident, Burchfield wrote: "It has been impossible to take a picture of anything in England. We had taken a picture of the Buckingham Palace and were standing in front of the gates with our camera when one of the 'Bob-

Senator From Illinois Heads Artist Course

Robert LaFollette Talks At Local High School During November

THE Manhattan String quartet which plays matinee and evening concerts here October 12 initiates the artist course programs for Tech students during the opening semester.

A wide variety of artist course programs will be offered with Senator Robert LaFollette of Wisconsin, prominent figure in national politics and a brilliant orator, and the Kryl Symphony orchestra scheduled for concerts during December. Senator LaFollette will lecture here November 18.

Makes Tour

The Manhattan String quartet made an extended tour of Europe last year, returning in December for a coast-to-coast tour of America. Opening in London, they played concert and radio engagements in Paris, Rome, Stockholm, Copenhagen, Zurich, the Hague, Brussels, Geneva, Budapest, and other cities. Two violinists, a viola player, and a cellist make up this internationally known chamber music organization.

Bohumir Kryl, the director of the 40-piece symphony orchestra which will give two concerts at Lubbock High School auditorium December 1, was born in Bohemia, the son of a sculptor. He ran away from home when he was eleven years old and joined a travelling circus, acting as acrobat during shows and playing the cornet in parades. Leaving the circus after injury in an act, he played his way to America with his violin, and followed his father's trade as a sculptor for a while before he gained a hearing with Sousa, with whose band he played for a few years.

Has Opera Star

Kryl and the Kryl Symphony orchestra have appeared all over the United States, in Canada, Mexico, and Cuba. Margery Maxwell, soprano, formerly an opera singer in New York and Chicago, sings with the orchestra.

McDonald To Arrange Work

Extension Department Plans Night Classes During Semester

"The prospects of work in the extension department for the coming year are exceptionally good," J. F. McDonald, director of extension work, said yesterday.

Classes have been requested to be given in chemistry, zoology, art, history, and education. Requests have also been made for the establishment of class extension work at Crosley, Brownfield, Plainview, Sweetwater, Lamesa, Colorado, Memphis, Slaton, Big Spring, and Paducah. McDonald will hold a conference at each of these places and if there is sufficient demand the classes will be organized by Tech instructors.

RECEIVES REQUESTS

Last year the extension department organized twenty-three classes with 600 students enrolled. Only one class of extension work is allowed each instructor. Usually these classes meet at night or during the weekend.

Correspondence courses were offered in thirty departments last year with 158 courses represented and a total of 893 students enrolled.

The extension department has received a request to organize a night class in English beginning next week. This class will probably be organized, McDonald said, but definite plans have not been completed. This class will consist mostly of high school graduates employed during the day.

NYA Students Build New Structure For Library

Students employed under the NYA will continue excavations which were begun a week ago in the basement of the library. To provide space for hundreds of new books, the student staff of the library is helping workmen build a staircase into the west basement of the Administration building.

The library reading room and stacks are housed on the first floor of the main building, and conditions have been crowded in both departments, Elizabeth H. West, librarian, states. By the receipt of more than a thousand government and state documents the enlargement was necessitated. It is expected that the new space will partly relieve the congestion.

Dr. R. A. Tsanoff, member of the university, states that students seem to be more serious than ever before the depression.

C. E. Mitchell has a fellowship in the physics department.

Students For First Year Register This Morning

Slime, Your Cap?

Upperclassmen Expect Every First Year Student To Wear Green Headpiece Through Thanksgiving

ing. The firm is located at the corner of Thirteenth and Avenue J.

The caps are the same color as last year. Scarlet numerals and button adorn a green covering.

One dollar is the purchasing price for the cap. This sum is returned to the college with the Student Council receiving half of the amount while the remaining fifty cents is placed in the Athletic association treasury.

On Sale Today

Caps go on sale at Hembill-Wells company this morning.

Welcome

Officials, Faculty, Old Students Greet New Tech Enrollees

FRESHMEN Start Enrolling Today At Gymnasium; Sophomores Follow

WITH every indicator pointing to a record enrollment, the doors of the college gymnasium swing open this morning at 8 o'clock to probably the largest number of first year students ever to matriculate on opening day. Sophomores register this afternoon with juniors and seniors filling out registration blanks tomorrow. The eleventh full registration hours are from 8 until 12 noon and one until 5 p.m.

Living quarters are at a premium as students arriving early swarmed the city over the weekend in search of rooms. Both dormitories are reported full with over a hundred on the waiting lists.

Report Long Lists

Mrs. Bennie Buford, social director and matron at the boys campus residence, states that close to 150 have listed for rooms should vacancies occur. One hundred and ten names are found on the list for the girls residence. The college officials sent out an emergency call for rooms Saturday and report the results very satisfactory.

Registrar W. P. Clement says administrative methods will be substantially the same as last year. After schedules are okayed by the deans at the gymnasium, enrollees conclude the procedure with payment of fees at the business office in the Administration building.

Must Present Gradebooks

New students in reporting at the gymnasium must present an entrance card, which may be obtained at the registrar's office in the main building. Former students must have gradebooks secured at Clement's office also. Students entering for the first time must be photographed for identification purposes.

Students will be asked to fill out an information card, church affiliation card and preliminary registration permits upon entering the gymnasium. After reporting to their supervisors or department heads for schedules, the enrollees proceed to sectioners for determination of class hours and room assignments. Deans on duty in the gymnasium must approve the cards of students in their respective divisions before proceeding to the business office for payment of fees.

Classes Start Thursday

Classes start Thursday morning at 8 o'clock. After that date late registration rules are to be enforced.

(See REGISTRATION, page 8)

Work Starts On Inclosure

Tech Judges Begin Training

Local Contractor Puts Down New Foundation For Huge Doors

Senior Team Candidates Return After Three Days Near Canyon

Ten candidates for the senior livestock judging team have been training at the Tierra Blanca farms near Canyon in preparation for their four meets scheduled during the opening semester.

Accompanied by Ray C. Mowery, acting head of the animal husbandry department and team coach in animal husbandry, the group returned last night after spending three days on the Potter county farms.

The first meet listed is the Frontier Centennial contest at Fort Worth October 3. For the first time in the history of the college Tech will participate in the National contest at Dallas October 12.

Next is the American Royal at Kansas City, Mo., October 17. The International competition in Chicago November 28 concludes the participation for this semester.

Record Reviewed

Last year the Tech entry placed seventh in the Kansas Royal contests. J. T. Henry took second individual scoring honors. The previous year the Tech judges placed second at Kansas City and won the Spoor trophy at the International meet in Chicago. The Spoor trophy was given Tech for annexing the title. Although winning several individual honors, the team was unsuccessful in defending the title last year.

Dean A. H. Leidigh of the agriculture division in commenting upon the judging team prospects stated that several "good boys" who were members of the junior team last year would be trying for places on the senior team.

Candidates for the team this year include Arnold Black, Herbert Browder, E. C. Hightower, Pegues Housner, Raymond King, Billy Lewis, Winburn McAllister, Leland Hudson, R. C. Mitchell, C. C. Nunnally, Ralph Riddell, Floyd Williams and Hood Willis.

Librarian Names Staff Assistants

Personnel of the library for the ensuing school year has been announced by Elizabeth H. West, librarian.

Members of the professional staff are: Emma L. Main, assistant librarian; Lulu Stine, assistant cataloguer; Mrs. W. C. Holden, in charge of loans; and Violet Mattson, reference librarian.

Student assistants are Iris Ballou, Sid Stout, Jack Garlington, Wally Wright, Dale Jackson, Owen Loyd, Madeline Neves.

SPORTS EDITOR ARRIVES

D. A. Strain of Grapevine arrived yesterday to take the sports editor position on The Toreador. Strain has been associated with college newspapers before and is a junior in his college work.

Paul Eubank, June graduate in government, will teach this year in the Benjamin Public Schools.

"Wind Thru The Sallyport," After Disposing Of Campus Buzzard, Gets Toreador Scandal Gathering Job Again

AFTER overcoming two obstacles to the ground, Explains Weakness

Explaining the weakness of the wind in dodging the enemy's thrusts, Sally easily convinced Lindsey that she should return to her secret rendezvous. But upon arriving at her abode, a ghastly sight greeted the scandal monger. Workers with the aid of concrete mixers, shovels, picks and other tools of construction had made a dark dungeon out of her whistling warren.

At the conclusion of the last long session, Editor Lindsey decreed the death of Sally and brought the "Campus Buzzard" from unknown parts to do his dirt scooping from lofty highs. But Sally, not to be outdone, got out the old family shotgun after letters of protest forced the editor-in-chief's desk to denounce Lindsey's action. With careful aim, Sally brought the buzzard to the ground.

And slick-tongued gossips sneak into spider-webbed nooks in the enclosed Sallyport to spread their deadly poison, they'll find Sally whistling in and out the unseen cracks and crouching near to catch their mutterings.

Grabs Opportunity

And Sally promised to show no favoritism in presenting the scandal. So take it on the chin for Sally wants no weeping and wailing in the Toreador office.

So here's the first installation from the well-known artist of scandal gathering, the one and only SALLY.

NATIONAL ADVERTISING SERVICE, Inc.
420 Madison Avenue, New York CityFirst Year Students Have Part
In Helping Progress Of College

COMPARATIVELY speaking Texas Technological college is a very young educational institution—an embryo among universities and colleges in the nation's largest state.

The close of the last long scholastic session dropped the curtain on the school's tenth year of operation, the college having opened its doors for the initial registration in the fall of 1925. But a glance back over the road of progress made by the school finds many milestones dotting its history's highway.

Last year saw the establishment of an ROTC unit, the second in the state to be authorized by the federal government, at the college. A military building to be completed in time for occupancy this week places another structure on the campus.

ADDING approximately 11,000 seats to the capacity of Tech stadium, new stands have been constructed during the summer months to accommodate crowds that shall gather in the Hub City to see games making up the "big time" schedule of the Matadors. This structure and outstanding Red Raider grid card are steps in a progressive advancement.

Students saw the best artist course performances in the school's history last year. Rear Admiral Richard E. Byrd, Cornelius Otis Skinner and other celebrities stood behind the flickering lights of the local stage.

THE TOREADOR, realizing such a need, began publication as a semi-weekly newspaper. It again placed high in the national rating contest.

Crowded conditions were caused by the largest enrollment experienced by the college. Classes met in their instructors' offices. One even gathered in a downtown building.

WITH the above as markers on the pages of history, the school faces another banner scholastic period as the twelfth fall registration begins today. Seeing this, the directorate has asked for bigger appropriations with which to increase facilities as indicators point to a record enrollment.

Freshmen, as you don your green headpiece today, you should be proud that Texas Tech is to be your educational home. Not only has this school, situated in a rapidly expanding area, made history in the past but its future holds no boundary.

Grabbing your responsibility and opportunity today, you must join upperclassmen, alumni, ex-students and the college administration in pushing your alma mater to new heights in educational circles.

To find fault is easy; to do better may be difficult.—Plutarch.

The Right Direction

AS much as students of Texas Tech hate to admit it, there has been a decided turn away from organized cheering at college athletic contests. Most enrollees refuse to follow their leaders while a large percentage do not even yell for the Matadors when the going is toughest.

Visualizing this situation, Arch Lamb of Fort Worth, upon being chosen as head yell leader last spring, set the ball to rolling toward an honorary cheering unit like that found on the campus of any large educational institution in the nation. Student leaders and Administrative officials alike lined up with Lamb and his assistant, Paul Bowers of Miami, until at the close of the scholastic period last spring an organization made up of students possessing high ideals had taken form. The purpose of this honorary unit is to bring about a closer relationship between the athletic department and the student body and promote spirit and ideals at the college.

LAMB and Bowers are moving in the right direction. Their work must go on until the honorary cheering unit becomes traditional at a college not blessed by tradition at the present time because of its age.

Today hundreds of freshmen are moving through the steps of registration. Theirs is the burden of carrying on Lamb's mission by showing that they possess the stuff to become members of a group pushing Texas Tech and its activities. With the charter members, upperclassmen cooperating with the college heads must do their assigned tasks. Then, all shall see a wave of school spirit—that abstract, elusive quality which every school lacking pursues and which every school possessing cherishes—never before felt on our campus.

Student Pulse

The Toreador invites the writing of student editorials or letters for publication in the Student Pulse column. Both must pertain to student problems and must be signed by the writer although names will not be used on request. The editor reserves the right to reject any and all articles. Contributions of two hundred words or less will receive preference.

NO DATES FOR FRESHMEN BOYS AT GRID GAMES THIS FALL, ASKS UPERCASSMAN

To the Editor:

As a student at Texas Technological college last year I noticed that a large percentage of freshmen brought dates to the football games. Many of them even refused to sit among students while a larger number did not take part in the yelling.

With the football season just around the corner and being very anxious to see the Matadors get the support that they deserve, I suggest that this situation be remedied. Upperclassmen should take a hand and SEE that SLIMES do not attend the grid games with a GIRL as an escort. After relieving the fish of their girl friends once or twice and putting them in their proper place on the campus, I am positive that freshmen would think twice before bringing a date to the games. A bigger and better yelling unit would also result.

Seeing that freshmen wear their slime caps and attend football games minus girl friends is a practice found on practically every college and university campus. It is a practice that should be adopted at Tech. What do you think?

Yours for better freshmen,
John W.

(Editor's note: I agree with your suggestion wholeheartedly. I am of the opinion that first year students with girl friends hanging on their arms have been too conceited at football games in the past. Since slimes have been told again and again that they are not SUPPOSED to bring dates to grid games, it's high time that we upperclassmen should get together and remedy the situation. Will other upperclassmen join us in placing "green-topped" students down to their level or shall fish continue to put themselves on our part?)

Today's Thought

LET me urge you as you enter upon life's duties and opportunities, that you not only speak, but do; not only assert, but act upon.—President Winfred G. Leutner of Western Reserve University.

One-Minute Interviews

Question: What advise would you give students entering college for the first time?

James Forbis: Important to get your classes arranged so that you will have one in each building over the campus for novelty sake. Don't consider the exercise an advantage; that's thrown in.

Charley Davies: Don't let education interfere with your fun.

Pauline Phillips: Proportion your time evenly between pleasure and study.

Mrs. J. G. Allen, instructor in journalism: Decide what you are going to do after finishing college and arrange your courses accordingly.

Madeline Neves: Forget the importance which you feel in high school.

C. E. Mitchell: I'd be sure that the course I was going to take was the one I wanted.

Sid Stout: Look out for yourself—no one else is going to.

Vivian Johnson, supervisor of teacher training department: Read your catalogue carefully.

Anna Burt Gibson: Be sure transcripts are filed in the registrar's office.

Wendell Watson: Play dumb.

Fred Griffin: Stumble along blindly and let experience be your guide.

Hessler Strickland: Do as they are told by upperclassmen and try not to appear more intelligent than they really are.

Cleora Gill: Do a thorough job of whatever you undertake.

Wayne Sellers: Don't let a scheduler sign you up for all eight and one o'clock classes.

Graduating in June, Georgia Mae Smith, Crosbyton, is serving as an apprentice in the catering department at the International House, Chicago.

Eileen Booker is teaching school at Rule High school this year. She was graduated in June.

Campus Social Clubs Commence Rush Season This Week

Dances, Dinners, Smokers And Teas Cram Calendar During First Two Weeks

Y Groups Schedule Mixer Tomorrow Evening In Dormitory Lounge

As the sendoff for two weeks of continuous social activity for Tech students, the Matador band is sponsoring a dance in the gymnasium Friday evening with Duane Fuqua's orchestra playing. With plans still incomplete, the week is filled with dances, teas, dinners, and smokers.

A YMCA and YWCA mixer will be held in the lounge of the men's dormitory tomorrow evening under the direction of Dr. Archie Bahm. Thursday night the Lubbock churches will hold open house for Tech students.

Wranglers Dance

Proceeding the Tech-TWC football game Saturday, the Wranglers will entertain members and rushees with a dance in the Hilton hotel from 10 until 12 o'clock, with music by Ned Bradley. R. E. Heineman, associate professor of mathematics, is the club sponsor. The Las Armonias will have a dinner for members and rushees at the Glorieta at 6 o'clock. The party proceeds in a body to the football game after the entertainment. Dr. and Mrs. D. D. Jackson, Mr. George Smallwood, Mr. and Mrs. J. S. McDonald, and Miss Dolle Clements will be special guests of the club.

The initial meeting of the Association of Women Students and the Women's Dormitory Self-Governing association will be held Sunday in the form of a tea in the men's dormitory lounge.

KoShari Entertains

Monday the KoShari club will entertain rushees with a tea dance from 6 until 8 o'clock.

The Centaurs plan to hold a picnic for members and guests at Buffalo Springs from 5 until 9:30 o'clock Tuesday afternoon. Mr. and Mrs. Lonnig Langston, and Miss Annah Jo Pendleton and escort will be special guests at the DFD formal dinner at Hotel Lubbock Wednesday evening. Bob Sandusky's orchestra will play.

Council Holds Reception

The annual reception for all students by the President and Mrs. Bradford Knapp and the college Administrative Council is to be held at 8 o'clock in the lounge of the women's dormitory.

Climaxing the first week of activities is the Tech-TCU football game. Preceding the game the Silver Keys have scheduled a smoker at the Hilton hotel. Las Chaparritas entertain with a tea dance from 3 until 6 o'clock on that date.

Matador Band Sponsors First All-College Dance At Gym Friday Evening

Sponsored by the Matador band, Duane Fuqua's orchestra will furnish music for the first all-college dance Friday evening. The entertainment will be given in the college gymnasium from 9 o'clock until midnight.

"Profits from the affair are to be used for construction of elevated platform for the band on Matador field," D. O. Wiley, director stated.

Stags are to be assessed 75 cents while men with escorts must pay one dollar admission price.

Maryne Twyford, associate professor of foods and nutrition, has returned to her office. She received a leave of absence after the fall semester of 1935 and has been at her home in West Virginia.

Home Economics Club Members To Give Picnic Today

The 1936-37 Home Economics club program which was released from the office of Margaret Weeks, dean of home economics, will be initiated with a picnic tonight honoring freshmen students.

The initiation to the club will be held Oct. 13 with a program on the aims of the club. Other programs scheduled are: Oct. 27, "Current Events"; Nov. 10, "Tales of the Sea"; Nov. 24, "Glimpses of Australia"; Dec. 15, Christmas program Jan. 5, 12th Night Party; Feb. 9, "Homemaking in Denmark"; Feb. 23, Book Review; March 9, Style Show; March 23, "Pottery"; April 13, "Vacations"; April 27, Department Style Show and the final meeting May 15 at the annual banquet.

Club projects have been outlined as follows: Oct. 17, Benefit bridge; Nov. 21, Open house for campus clubs Dec. 11-18, Loan fund sale, and in April an open house for high school girls will be held.

Holdens Return From European Trip Today

Arriving in New York harbor Thursday from Antwerp, Belgium, Dr. and Mrs. W. C. Holden and party are expected home today. The group left Lubbock July 18. Their itinerary has included visits to Belgium, Holland, France, Italy, Austria, and England.

Mrs. Holden is instructor in orientation and use of the library. Dr. Holden is acting head of the history department.

Agnes True, associate professor of education and psychology, returned last week to direct student teaching in the Lubbock grammar school. Miss True spent nine weeks with relatives in Michigan.

Miss Lulu Stine, assistant cataloguer, is visiting relatives in Henrico, Virginia.

Church Groups Hold Retreats

Religious Workers Plan Programs On Campus For School Year

For the purpose of planning religious programs to be carried out on the campus and in local churches this fall, three groups of young people attended retreats during the weekend.

Ending their program yesterday morning, young people of the First Presbyterian church followed the theme of "Tech Campus Our Field" at their retreat at Ceta Canyon, near Happy. They went to the canyon Saturday morning. Dr. Jack M. Lewis, pastor, closed the session with a devotional period.

Plan Yearbook

The home of Miss Pauline Phillips, just south of the city on the Justus highway, was the retreat spot for 14 officers and department members of the First Christian church Young People's council. After gathering at the church Saturday morning, the group spent the weekend planning programs and yearbooks.

Twenty-five persons were in the group from the First Methodist church attending a retreat at Ceta canyon. Their program was centered about the subject "Students Building the Church on the Campus." With a worship program conducted by Miss Doris Townsend closing the program, the group returned to the city Sunday evening.

Miss Harriette Roach Marries Hop Halsey In Ceremony Read Saturday

Former Students Leave On Trip; Couple To Live In Austin

EXCHANGING vows before an altar of fern and palms arranged in front of the fireplace, Miss Harriette Roach, daughter of Mr. and Mrs. George Roach, 1811 Seventeenth street, and Marcus (Hop) Halsey, son of Mr. and Mrs. M. A. Halsey, 2308 Seventeenth street, were married Saturday morning at 9 o'clock in the Roach residence. Dr. L. N. Lipscomb, pastor of the First Methodist church, read the ring ceremony.

Immediately after the ceremony the couple left for a trip to Dallas and San Antonio and other Texas cities. Later they will be at home in Lorenzo, where Mr. Halsey will enroll in Texas university as a law student.

Both were prominent in student activities while attending Texas Tech. Mrs. Halsey was named a campus beauty two years and hon-

ored with a full page in La Verana, yearbook. She was a member of Las Chaparritas club. The bride was graduated in 1933.

Heads Classes

Mr. Halsey was president of his freshman and sophomore classes, head of the Inter-Club council during the 1933-34 session and president of the Young Democratic club last year. He is a past president of the Wrangler social club, and was affiliated with the Pre-Law club while in school.

VISITS CAMPUS

Labor Day visitors to the college included Glen and John Newton, 1936 engineering division graduates. The two brothers, who lived in Lorenzo, have been working since graduation. Glenn is employed by the Mosher Steel company, Houston, and John has recently accepted a new position with the Continental Supply company, Dallas.

Start the Fall Term

With the Pen That Students Rate Highest

BY ACTUAL VOTE

Invented by a College Professor to Bring You Higher Grades

A college professor noticed that poor grades are often due not to brains running low but to pens running dry!

So he worked out an utterly different and basically better pen principle—and Geo. S. Parker engineered it to perfection.

Thus came the revolutionary Parker Vacumatic that has superseded every old-style pen—both sacless and sacless.

Recently the student editors of 30 college papers asked 4,699 of their readers, "Which make of pen do you own? Which pen do you prefer?"

To both questions more students answered "Parker," than any other two makes of pens COMBINED!

One reason is that the Vacumatic ink supply is EVER-VISIBLE, the ENTIRE length of the barrel. It isn't merely last-drop visibility—it doesn't really show when your pen is empty. It shows days ahead WHEN IT'S RUNNING LOW, so it can't run dry against your will.

The Vacumatic's working parts are sealed in the top WHERE INK CAN NEVER TOUCH THEM—can never decompose them. That's why this miracle pen is GUARANTEED mechanically perfect.

And the Parker Vacumatic has no rubber ink sac or lever filler—hence

has room for 102% more ink without increase in size!

Its luminous, laminated Pearl style has won every pen Beauty Contest by 2 to 1. Go and see it today at any good store selling pens. The Parker Pen Co., Janesville, Wis.

To Make Any Pen Clean Itself
Parker Quink is an ink that dissolves perfectly in water. Quink cleanses a pen as it writes—a Parker or any other pen needs pen-cleaning Gel Quink at any store selling ink, 15¢ and 25¢.

Allison Heads County Judges

West Texas Association Elevates Ex-Student Of Hockley County

While selecting Lubbock as the next meeting site, the West Texas County Judges and Commissioners association Saturday elected Judge Alvin R. Allison of Hockley county as president of the organization for next year. Allison, former pre-law student at Tech, was secretary before being named to the presidency. He succeeds H. M. LaFont of Plainview.

Other new officers chosen at the Big Spring gathering were Judge R. A. DeFee of Hartley county, vice-president, and Judge Omar T. Burson of Jones county, secretary.

Extend Invitation

Judge Allison is one of the youngest county judges in the state. He was elected to the Hockley county bench two years ago and was unopposed for a second term in the past primaries.

Invitation to make Lubbock the host city was extended by County Judge J. D. Dillard, Commissioners P. B. Penney, T. L. Holt, and B. G. McWhorter, County Auditor J. Y. Boyd and Joe Wilson, secretary of the City-County Welfare association, who represented the city at the Big Spring meeting.

Formby Wins

Another Tech student was elected county judge in the August primaries. He is Marshall Formby, former Toreador editor, who will sit on the bench in Dickens county for a two-year term. He defeated Jim Cloud, also a graduate. Cloud had served two terms and was seeking his third.

Home Ec Students Move Into Management House

Seven students move into the Home Management house today to reside during the first half of the semester. Miss Sannie Callan, associate professor of foods and nutrition, will be house supervisor.

The group includes Mary Eunice Graham of Farwell, Mayvis Strickland of Silverton, Ellen Pearl Davy of Lakeview, Margarette Williams of Sylvester and LaVerne McWhirter and Doris Townsend, both of Lubbock.

COACHES AT PADUCAH
Ed Klein, graduate from Waco, is assisting W. P. Spearman with the Paducah High school football team this fall. He was student manager of athletics here last year.

The charter of Purdue university states that "there shall be on the board of regents one farmer, one woman and one person of good moral character."

Texas Wesleyan Gets Ready For Game With Tech

(continued from page 4)
cated gridders two deep for most positions.

Former high school luminaries make up the backfield that Rhome will line up against the Border conference champions this week. Miller Isbel at quarter, Hall Spawlin and Alvin Reese, halfbacks, all former Poly High stars, and rugged J. D. Stroud, who made history at Cleburne High, at full compose the first string backfield setup. All except Reese are triple threaters.

Out last season with injuries, Aaron Anderson will be ready for service Saturday night. His passing equals Sammy Baugh's slinging and his kicking was considered the best in Interscholastic circles when he annexed all-state honors at Ranger.

The forward wall possessed by the Rams is almost as steady as the Rock of Gibraltar. John Bray, all-state center at Ranger but converted into a tackle by Rhome, is the power unit around which the line is built. Richard, running mate for Bray, and Randolph can stop powerful backs without much difficulty.

NYA Provides 259 Local Jobs

Arts, Sciences Students Get Biggest Part Of College Allotment

With 52 per cent of the total given to students in the arts and sciences division, the college has been awarded the same number of National Youth Administration jobs as was allotted to the school last year. President Bradford Knapp announced yesterday that 259 enrollees would receive employment through the national agency. Stating that the home economics unit will receive 12 per cent of the jobs, the agricultural school ten per cent, and the military corps one student, Knapp pointed out the possibility of getting 130 additional jobs for sons and daughters of the drought stricken farmers. This would bring the total to 389.

NYA employees will be assigned to jobs as clerks, student assistants, ships, laboratory and public offices assistants and employment in experiment work, district supervisor's office, library, buildings, dormitories, and on college farm and campus grounds.

Ray Carr, June graduate in dairy manufacturing, has employment with Borden and company at San Antonio.

Ross Trigg, former enrollee, is head salesman for Bell Ice Cream company in Lubbock.

But those faithful dozen or more men "downtown" once more got their heads together; AND look what we got now!

Yes Sir! Big time isn't the word.

It's a money proposition, yes. But it'll help those guys who have braved the last few years and paid to stand up, besides giving something to rave about when they go after big intersectional games. So put it down in your little red note book that next year's schedule will be even bigger, even though the present ticket isn't anything to snuff at.

And what did they do? The Rams lost three games; and they have all but five men of last season's squad on their 36 roster.

Milton Kirksey, 1934 graduate, has resigned as superintendent of Canadian Valley creamery at Canadian and has accepted the same position with McCray creamery at Austin.

Robert Blake who has been ranching in Arizona will enroll at Tech this week.

Senior Students Start Teaching For Practice

Nine of the senior students in the home economics division have begun practice teaching in the Lubbock and Slaton public schools. The list includes Elizabeth Schott, Mary Katherine Couch, Vada Cole, Stella Beard, and Winona Swepston teaching in Lubbock.

Teaching in the Slaton schools are Mildred Dunlop, Betty Farley, Joyce Pace, and Lois Spraggins.

eagerness get the drop on you. These Rams aren't the usual September number. They're tough, and this department can vouch for that, and we'll bet our hat that Coach Peter Willis isn't taking the opening night lightly.

The Rams, coached by Byron Rhone, a guy that knows his ABC's in grid tactics, has a gamely group of ex-Class A high school stars that can go places and do things. They proved that last year, their first year in college football.

With a group of two dozen men, mostly from Fort Worth, Rhone put out one of the best coached clubs in the minor conferences against Texas and Lone Star circuit.

And what did they do? The Rams lost three games; and they have all but five men of last season's squad on their 36 roster.

Milton Kirksey, 1934 graduate, has resigned as superintendent of Canadian Valley creamery at Canadian and has accepted the same position with McCray creamery at Austin.

Robert Blake who has been ranching in Arizona will enroll at Tech this week.

NAMED MANAGER

Following the death of Dick Smith, manager of the Bell Ice Cream company in Lubbock, Earl Collins was appointed to that position. He is an ex-student in the aggie division.

AIDS WITH BULLETIN
A 1929 graduate from the agricultural division, Claude Hope, has recently aided in publication of the research bulletin, "The Effect of Crazy Top Disorder On Cotton Plants and Its Control By Irrigation Management." Hope is working on his master degree at Michigan Agricultural college.

A. H. Leidigh, dean of the division of agriculture, returned Friday from Los Angeles, California, where he visited his mother.

Sixty Report To Director Wiley For Opening Rehearsal Of Matador Band

College Musicians May Don New Uniforms; Plan Two Trips

Sixty members of the Matador band greeted Director D. O. Wiley at their initial rehearsal of the year Saturday in the band room in the Textile building. After the first session, Wiley estimated that he would probably have 125 members in the Tech musical organization during the 1936-37 scholastic period.

"Because of this large number, the band will be divided into two sections," Wiley pointed out. These will be called the first and second units, Wiley explained in saying that he expected to have some excellent members from high schools to make their appearance for the first time in the Tech band this year.

To Make Trips

Asked about the trips the band will make this fall, Wiley stated that his college musicians will probably go to Los Angeles when the Red Raiders battle Loyola in the Armistice Day classic in the Coliseum, or accompany the Matadors to New Orleans for the game with Loyola of the South. Stating that only one of these trips would be made, Wiley said that another journey would be made with the gridders, however.

The two units of the band will probably rehearse on alternate days of the week, Director Wiley explained. The first organization is to have the regular hours which are from 7:30 until 9 o'clock on Tuesday and Thursday evenings. The second group will assemble each Monday, Wednesday and Friday nights for one hour drills. Band members rehearse three hours weekly.

May Buy Uniforms

Several plans are being considered for securing the money to purchase new uniforms, Wiley said. However, the former leader of the well-known Hardin-Simmons Cowboy band could not make a definite announcement yesterday.

College To Make Photo Engravings

The photographic studio, installed under the direction of the publicity department of the college, begins operation today with the photographing of enrollees for identification pictures.

Housed in a structure formerly used as a band house, the new studio will do all official college photography. It will not be used in making individual pictures for La Ventana, college yearbook, but a dark room and enlarger are to be installed. Winston Reeves, senior student from Plainview and annual editor states, Reeves is in charge of photography.

Henry Godeke Accepts Illinois University Job

Henry L. Godeke, 1934 graduate, has accepted a position as assistant in the mechanical engineering department at the University of Illinois, Urbana.

Godeke received a bachelor of science degree from Texas Tech and was awarded a master of science degree at the University of Iowa in 1935. He is the son of Mr. and Mrs. H. F. Godeke, 3001 Twenty-First street. Mr. Godeke is head professor of mechanical engineering at the college.

Eleanor Hodges, June graduate in home economics, is teaching in a Canadian high school.

Doors Of City Churches Swing Open To Students

Religious Groups Plan Programs Thursday; Council Meets

has been announced. All Methodist students are invited to use its varied facilities, Rev. L. N. Lipscomb, pastor, states.

Initiating church work on the campus, open houses will be featured at Lubbock churches for Tech students Thursday night.

Episcopal students will find a hearty welcome awaiting them at the open house reception to be given at Seaman hall, 2407 Sixteenth street, at 8 o'clock. The college relations committee of the woman's auxiliary will act as hostesses. Old and new Episcopal students are cordially invited to attend this reception by the new student minister, the Rev. J. Hodge Alves, Jr.

Christians Entertain

The First Christian church entertains with a scavenger party for Tech students. The party will meet at the church at 1601 Avenue J, and proceed in cars for the hunt. Mrs. W. R. Vivett, director of young people's work, and Miss Billie Crasbey are planning the party.

The Asbury Methodist church at Avenue T and Twentieth street will greet students with open house under the direction of Rev. A. M. Dupree.

The Methodist church at Broadway and avenue M welcomes Methodist students from 7:30 until 10 o'clock in Fellowship hall. Under the auspices of the college department the Methodist students are sponsoring a student center this year at 2405 Thirteenth street, it

TEXAS UTILITIES COMPANY

Buford Names Dorm Advisors

Social Director Releases List Saturday; Selects Table Hosts Soon

Student advisors have been appointed for the men's dormitory this year. Mrs. Bennie Buford, social director and matron, announced Saturday.

Advisors selected were: John John Flache of Lamesa, L. R. Copeland of Ralls, and Kaufman Florida of Rotan. There is one boy yet to be selected.

This group will be assigned respective floors over which they have supervision and will cooperate with Mrs. Buford in disciplinary matters. These students are of senior or graduate standing.

Schedules Meeting

Table hosts in the dining room will be named by Mrs. Buford next week. The 37 hosts are to have a pamphlet containing the house rules.

A called meeting of the dormitory residence is scheduled for next week. The date has not been definitely set, but probably will be about the middle of the week, Mrs. Buford said.

Erickson Joins Business Administration Faculty

Maurice J. Erickson of Lincoln, Nebraska, has accepted a position as instructor in the business administration department. President Bradford Knapp announced Saturday morning.

Erickson has been highly recommended to the college head. He received his B. A. at the University of Kansas and his M. A. at the University of Nebraska last year.

Stuart Manley, University of California sophomore, is a man without a country. Born in Japan of American parents, he is a citizen of neither country.

Student Pastor

Rev. Joseph Hodges Alves, Jr., has been installed as minister in charge of St. Paul's on the Plains church and student pastor for Tech young people at Seaman Hall.

Rev. Alves is a native of Kentucky, graduate of Guntersville, Ala., high school, later receiving his B. A. at University of the South at Sewanee, and B. D. at the Virginia Theological Seminary at Alexandria, near Washington, D. C. Rev. Alves served one summer at Pampa.

According to a recent survey made by Dr. Harold Diehl of the University of Minnesota the American girl is rapidly becoming taller and thinner. The conclusions resulted from measurements made of 17,127 coeds in nine colleges and comparing these with tables reported twenty years ago. Stanford has the tallest coeds and Smith the heaviest, the survey reveals.

Regents Okay Ex-Students

Former Tech Enrollees Get Appointment At Texas University

Appointments of seven former students of the college to positions on the staff of the University of Texas have been ratified by the University Board of Regents.

One of these, Mrs. T. L. Shepard, is to be an instructor in classical languages, and the other six will be part-time instructors in chemistry. Mrs. Shepard, the former Minnie Lee Barrett, received a master of arts degree in English from Texas Tech in 1929. The University had previously conferred a bachelor of arts degree.

Instructors Listed

The newly appointed part-time chemistry instructors are: Loy Cross, bachelor of arts in chemistry, May, 1929; Frank J. Spuhler, bachelor of science in chemical engineering, June, 1934; R. Vernon Jones, bachelor of arts in chemistry, June, 1932; Stiles M. Roberts, bachelor of science in chemical engineering, June, 1934, and master of science, June, 1936; Douglas D. Henson, bachelor of arts in chemistry, August, 1933; and Fred M. Garland, who received a master of arts degree with a major in chemistry last June, after having received a bachelor's degree from Trinity University, Waxahachie, in 1934.

Refusing Russian Offer, Stangel Comes Back To Animal Husbandry Post

After refusing an offer last month to aid in Russia's livestock replenishment program, W. L. Stangel announced that he would return to Lubbock in December to resume his duties as head of the animal husbandry department at the college.

The Russian offer was made when G. G. Zelenksi, Russian commissar of agriculture, and Boris Peterson, New York, visited the Central Centennial Exposition in Dallas where Stangel is in charge of livestock exhibits. The officials arranged to purchase 3,000 head of Texas sheep for shipment to the Soviet union.

Stangel was given leave of absence for eighteen months to direct exposition livestock exhibits.

Miss Pauline Hooser, summer graduate in vocational home economics, is teaching home economics in the Lubbock Junior and Senior High schools.

Former Aggies Get Positions

Nowlin And Harris Take Jobs With New Mexico Schools This Month

Two summer graduates of the agricultural division have received positions as vocational agricultural teachers in New Mexico High Schools. Dean A. H. Leidigh of the division has announced.

Carl Nowlin, Tahoka, who received a degree last month in agricultural economics, is to teach at Graveline, N. M., and Fern Harris, Southland, summer graduate in animal husbandry, has accepted a position at Springer, N. M.

Loflin Goes North

A June graduate, Uel Bell Lubbock, has been employed recently by the Southwest Dairy Products Company, Fort Worth. Uel Liner, 1932 graduate of the division, has resigned a teaching position at Lazbuddie to take a similar job at Seagraves.

K. T. Loflin, Post, another June graduate from the agricultural division, is employed as a junior soil erosion surveyor in Huron, S. D.

Dallas High Schools Ask Matador Band Concerts

The Matador band has been invited to play at the Dallas High Schools during the annual concert tour of the band, D. O. Wiley, director, states.

"An invitation has always been extended by Fort Worth high schools," Wiley pointed out in making the announcement.

The director said no definite plans have been made concerning the concert tour but the Matador musical organization would probably "take to the road" during April.

'Little Gus' Dallis Plans Return To Native Greece

In 1918 a nine-year-old Greek boy took his first look at American shores. He was coming to Belton, Texas, to live with his uncle, cafeteria operator. This week he plans to bid farewell to New York harbor, but only for three years.

"Little Gus" Dallis has changed during those eighteen years. He came to Lubbock in 1925 and learned English in the local high school, completing his secondary education in three years. College came easy for Gus, and he received a bachelor of arts degree from Texas Tech in 1932. After graduation there was nothing to do but help his uncle in the restaurant business.

But now "Little Gus" is going to do something else. When he returns to the United States in 1939, he will have completed three years in the University of Athens and will be ready to enter the American consular service.

Miss Ester Sorenson, assistant supervisor of the Texas Northwest district of vocational home economics, returned to her work on the campus Monday.

El Paso Hotel Chooses Harold Elliott, Former Enrollee As Official

After being employed by Hotel Lubbock as clerk and assistant manager for five years, Harold Elliott, former student from Dumas, left Saturday for El Paso to take his new position as assistant manager at the Cortez hotel.

Entering Tech in September, 1931, Elliott began working as a clerk at the downtown hotel at the same time. He held this position recently until when he was named assistant manager.

Three Tech Graduates Get Master Degrees At Austin During Summer

Three Tech graduates received their degrees at the University of Texas this summer.

Loy Benjamin Cross, who was graduated in 1929, majored in chemistry with minors in botany and bacteriology at the Austin institution. It was here that she collaborated with Dr. E. F. George, department head, in geophysical work and helped to discover a new method of measuring earth shocks.

Miss Robertson lives at Byers.

Composer Dedicates New Symphony To Tech Band

"A Symphony for Band" written by Carl Venth of San Antonio has been dedicated to the Matador band, Director D. O. Wiley, announced this week. Venth is among the outstanding composers of America.

Wiley stated that the band would start rehearsing the short Symphony immediately and would probably offer it at the first formal concert of the band in December. The symphony is one of the few that have been written for bands.

Miss Margaret W. Weeks, dean of home economics, returned Monday from a two weeks vacation. Dean Weeks visited the Texas Centennial during her trip.

Promotes Comfort And Success

In a few days classes will be starting and that means long hours of study at night under brilliant lights and the reading of fine print. Reduce to a minimum the energy required to complete assignments by having well-fitted glasses, that give your eyes strength and comfort.

Seven out of every ten students have faulty vision. Imperfect vision is the thief of efficiency, the cause of delay, inaccuracy and costly errors. As the examination of your eyes at the West Texas Hospital is included in your Medical fee why not be sure of your visual acuity.

After consulting your oculist if he finds that you are in need of glasses, may we help you select one of the new Ful-Vue Rimless styles which not only reveal the charm of the eyes but lends that smart modern touch to your whole appearance.

Hey Fish!!

Don't Get Caught
Without A
Freshman Cap

Why . . . it might go hard on you . . . oh well, skip it! anyway a Freshman is supposed to wear the little Fish cap wherever he goes . . . a smart Fish is never without it . . . he sleeps with it . . . he eats with it . . . in short it is a very important item to the welfare of a "SLIME".

Incidentally the cap cost each Fish \$1.00 . . . 50c of which is given to the students loan fund for the worthy student (girl or boy) . . . and 50c goes to an athletic loan fund for loans to worthy athletes . . . and we keep none of the money but have all the fun . . . come around at your earliest convenience and let us fit you in one of these becoming little toppers.

The "Official" Freshman Caps cost only
\$1.00

GREETINGS to the OLD HEADS and a HEARTY HAND-SHAKE to the SLIMES. SALLY looks forward to knowing you better. And may she KNOW your more INTIMATE sides. Although SALLY has not reached out very far with her GOSSIP SEARCHLIGHT this summer, here's a FEW STATEMENTS that might INTEREST HER readers.

ROBERT STRICKLAND gets the bottle of "Xmas NITES IN THE STABLE" perfume for his very LOVELY RED fingernails.

AN ARNETT WARE, the ANGEL of Service Dog, has the local HIGH SCHOOL barking in a storm. SALLY thinks that FISH ROY DUNN from Abilene has a SMILE as CONTAGIOUS as a YAWN.

The FRESHMEN girls could learn a few LESSONS in CO-EDITUDE from LILLIAN HEARD.

AFTER SEVEN YEARS in HIGH SCHOOL BAXTER BARDWELL has finally become a FISH again. A good place for UPPERCLASS-MEN to LIMBER UP.

When things get DRY and you need a good laugh, look up COURTYNE NEED and ask him about the PEA VINE episode.

WAYNE SELLERS is trying for an APPOINTIVE position on the SHERIFF'S FORCE in CROSBY county. WAYNE burned up the highway between HERE and LOR-ENZO this summer, and finally found out that the SHERIFF'S DAUGHTER couldn't make appointments.

SALLY is ANXIOUSLY waiting the OPPORTUNITY of GREETING BETTY JANE GRAFKE from SAN ANGELO.

REUNIONS were popular for CAMPUS CLUBS this summer. But it seems to SALLY that the CENTAURS, LAS CHAPS and SAN SOUCI have slipped because they didn't stage REUNIONS.

Native Texan Replaces Ralph On History Staff

Ernest Wallace has been appointed to fill the vacancy left by the resignation of Dr. P. L. Ralph, assistant professor of history, for the year 1936-37. Dr. Bradford Knapp announced Saturday.

Wallace was born and reared in Texas. He received his B. A. degree from the East Texas Teachers college and his M. A. from Tech in the summer of 1935. He has been a successful teacher, and until recently was employed in the public schools of Tulia.
