

NOMINATIONS TOMORROW!

La Ventana Announces 1941 Texas Tech Beauties

Eight Selected By Phil Harris For '41 Honor

Orchestra Leader Selects Eight From Field Of 16

By MARGUERITE WATKINS Toreador Sports Writer

SELECTION of LaVentana beauties has been completed and announcement is being made of those who have full page pictures in this year's annual, according to A. J. Kemp, LaVentana editor.

The eight most beautiful were picked by orchestra leader Phil Harris from the list of 16 nominated last fall by the student body. In making the selections Harris stated that he had great difficulty in picking eight from the group.

Those selected are: Ollie Sue Armstrong, junior Arts and Sciences student from Fort Worth, Matador band queen, ROTC honorary cadet sponsor, and last week named Tech duchess for the annual cotton carnival.

Kathleen Webb, senior Arts and Sciences student from Lamesa, this year's president of women's dormitory association.

Dorothy Neeley, junior Arts and Sciences student from Waco. Julia Jones, freshman student from Lubbock.

Mary Ann Stephenson, freshman student from Lubbock.

Dorothy Lou Emmitt, from Tulsa, junior queen, ROTC honorary cadet sponsor, and La Ventana beauty queen.

Martha Price, junior from Pampa, also a beauty nominee last year. Louise Jones, junior from Tulsa, secretary of the sophomore class during the fall semester.

Other nominees, selected by the student body during the fall semester, were: Polly Price, Jane Prickett, Jane Brownfield, Walden Donnell, Ruth Loflin, Bobbie Read, Frances Graves, and Mary Price.

Council Votes On Amendments

Possible amendments to the college constitution were made yesterday at a meeting of a committee appointed by the student council. Proposed amendments will be voted upon at the regular meeting of the Student council Thursday night.

Members of the amendment committee were Lynn Cooper, Johnny Williams, Jack Whellis, D. F. Sudduth, Hart Shoemaker, and James Snyder, president of the Student council.

NYA Makes Band Self-Sustaining In Music Stands

One hundred new music stands in the music department of Texas Tech show that Tech is not entirely dependent upon outside sources for new equipment. These stands were made by N. Y. A. boys of Tech and are a distinct improvement over the old metal folding racks.

The news stands which are made of wood are light brown in color and were constructed in the shops behind the textile building.

Block And Bridle Effects Year's Biggest Round-Up

By LOUIE JOHNSTON Toreador Staff Writer Credit for the biggest beef round-up of the year should go to the Block and Bridle club. At their McKenzie park picnic they cut out and rounded up 100 pounds of it with pickles, mustard and potato chips.

Wagons hauled the club members and pledges with their dates to the scene of the feast. They played baseball until sundown, ate steak—100 pounds of and then they danced. Truly the hardy and enduring spirit of the Western pioneers is still strong in collegiate cattlemen.

Chosen by Orchestra Leader Phil Harris from 16 nominations by the student body, are the above eight most beautiful co-eds on Texas Tech campus. The selections were prepared by the nationally-prominent swing band maestro for Editor A. J. Kemp's La Ventana, and released by the annual Tuesday night. Upper row, left to right, are Dorothy Lou Emmitt, Las Vivarachas, repeat winner from last year; Louise Jones, Las Vivarachas; Mary Ann Stephenson, Sans Souci; Martha Price, DFD; Julia Jones, Ko Shari; Lower row, left to right, Kathleen Webb, Las Chaparrillas; Dorothy Neeley, Las Vivarachas; Ollie Sue Armstrong

Convocation Is Moved Up From Next Tuesday

Students To Name 1941-42 Officers In Gym Tomorrow

POLITICAL rumors preceeding every campus election boiled into turmoil last night when it was discovered that convocation for nomination of next year's student body officers would be held tomorrow morning, almost a week earlier than had been previously announced.

With five days slashed off their margin of time, potential candidates were scurrying from school to school in the college, endeavoring to line student nomination support for their respective offices, while rumors flourished as to who would toss their hats into the ring for student body presidency to succeed James Snyder.

Nomination will be made from the floor of Double T gymnasium from general student body convocation Thursday at 11 a.m. Offices to be filled are those of student body president, vice-president, secretary and business manager, student representatives to the athletic council, and both boy and girl head yell leaders. Nomination of the latter offices will be made by the Double T association. Students eligible for any of these offices must have an average of C in all college work, and must have passed a minimum of nine semester hours with a C average last fall.

Candidates for the office of president and vice-president must have 90 semester hours at the time of assuming office, which necessarily will be the end of the current semester.

Nominees for secretary, business manager, student representative to the athletic council and yell leaders must have at least 60 semester hours before assuming office.

Election will be held by secret preferential balloting, Thursday, May 1. Polls will be located in the Administration, Home Economics, and Engineering and Aggie buildings.

All classes and laboratory sections will be dismissed during the convocation tomorrow morning.

Butts Takes Top Money In Junior Golf Tournament

Charles Butts, Texas Tech junior and Silver Key from Wichita Falls, took first place honors in the first Junior golf tournament of the year at Cunningham's Sunday. Butts went the rounds with an 81. The first round of 18 holes was made in 43. The second round was completed in 38. This last score set the course record.

Another tournament will be held next Sunday afternoon starting at 2 p. m. Entrance fee is 25 cents. The winner of the tourney receives half of the entrance fees for the first prize.

Participants play 36 holes. The tournament is open to anyone, and the prize will be awarded to the person shooting the lowest score.

All the participants are arranged in flights of four.

APO Installs Officers Sunday

Installation of officers was held Sunday afternoon by Alpha Phi Omega, national service fraternity.

New officers are: President, Willard McCloy; vice president, Kendrick Wright; second vice president, Dennis Feigenbaum; secretary, William Moody; treasurer, Jack Robinson, Jr.; and historian, Fred Weidner.

Dr. A. W. Young was selected to act as senior faculty advisor for the coming year.

Graduating Class Selects Tech Gift

Chimes Will Toll In West Tower Of Ad Building

Electric chimes are to be installed in the West tower of the Administration building as a parting gift of the graduating class of 1941. As approved by the administration the chimes will sound on the hour, both day and night.

After discussion of possible gifts presented by Duffer Crawford, gift committee chairman at a senior class meeting Monday, the chimes were selected because they will be beneficial to a majority of students than were any of the other plausible suggestions, and will lend atmosphere to the campus.

The chimes, electrically controlled and amplified, will be installed at a cost of \$930. They carry a non-conditional guarantee for one year, and any disturbance due to faulty workmanship, a three year guarantee.

Installation is to be made as soon as possible after collection of assessments from the class members.

According to tradition, pledge lists are to be made and displayed in the various departments of the college by senior students, and all class members are asked to sign these pledge lists turning over \$2.50 of their breakage deposit fee to the class gift fund.

A committee composed of James Pitts, D. F. Sudduth, Ernestine Story, John Williams and Jane Hill was appointed to make plans for the traditional Senior Day to be held in May.

Wesley Players Present "Rock"

Alpha Eta chapter of Wesley players will present a three act play, "The Rock," based on the life of the apostle Paul in Seminole Sunday night, April 27.

Alpha Eta chapter of Wesley players is a national organization for the promotion and production of religious drama, and this play is presented and sponsored by members of the Wesley players of the Lubbock First Methodist Church.

Members of the cast are Ray Ramsey, Tommie Rutledge, Arvis Hilton, Kathryn Temple, Norman Shaw, Roderick Shaw, Catherine Thurston, Earl Wossman, Genevieve Ferguson, and C. M. Gordon, all Tech students and members of the Wesley players.

The play is under the direction of Zoe White and Gail Gregg, sophomore Tech students, and it is supervised by J. Hollie Cross, adult director of the players and instructor in physics at Tech.

AAUW Schedules Tea Thursday

A seated tea for all graduating seniors in the high school and college and women in the graduate division will be given by AAUW Thursday from 7:30 to 9:00 at the Hilton Hotel.

In the receiving line will be the president of AAUW, Mrs. J. I. Kilpatrick, Mrs. Ed Terrell, and the senior sponsors at the high school who are Mrs. Ross Ayers, Miss Glenys Honey, Mrs. L. H. Kirby and Miss Marie Cook.

Mrs. Ed Terrell is in charge of the program which will consist of songs by Miss Christia Cowan and Ira Shantz, Dean Mary W. Dojak will speak on the organization of AAUW.

P. E. Majors And Minors Play Games At Party

A physical education majors and minors club recreational games party was held Tuesday night in the gymnasium. Badminton, shuffle board, and pingpong were played.

The program which is usually planned by the faculty was planned by the club officers. They are George McCauley, president; Nan B. Inford, vice-president; and Kathryn Pruitt, secretary-treasurer.

On Tap

BY "LUCIUS BEEBE" WILSON

Gather not the green ones, Joe Illiott fire is slow to grow.

After perusing Saturday's Toreador for something like an hour I discovered a picture vaguely in resemblance to Ollie Sue Armstrong. Anyone else notice it? Quickly I departed to procure a glass for to drink in the beauty, but when I got there the cupboard was bare, and just to rhyme "I declare."

As evidenced by the winning of several bathing beauty contests the girl is equally as handsome in a full length picture. Ask the man who owns one.

I don't see why so many people beat around the bush—I'd much rather be in it.

During the Easter holidays I stayed with some lovely people. Well pleased I was with many of their household accessories and especially the bath tub. From outward appearances no one would think the product which plagues mankind had stopped, but as I learned after standing two hours in the nude on a tile floor you turn a knob which closed a valve somewhere down the sewer line. From there the water backs up until—well, unsanitary, but efficient.

Robert Ripley said a leach can live on one meal a year, but you can't kid me—editors eat more than that.

The last time I rode the bus lines I noticed that at every stop the bus driver counted the occupants of his little perambulator regardless of whether anyone got on or off. Finally after six such inventories a young wit on the front seat gave his eyebrows a quizzical slant and said, "Well, what d'ya think we are—rabbits?"

Perhaps you can learn to like olives, spinach and beer, but brother, latch onto a course in Zoology 236, and you'll develop gangrene before it meets your gut.

See ON TAP Page 4

Pre-Law Club Elects Leaders

Dean Dunlap, junior government major of Hereford, was elected president of Pre-Law club in one of the most heated elections in the history of the club. Monday night Thelma Payne, sophomore government major of Levelland, was selected as vice-president and Hazel Dickinson, junior history major of Lubbock as secretary-treasurer.

Other officers elected were: chief justice, Willard McCloy; attorney general, Clifford Brown; public defender, P. B. Shannon; first associate justice, Owen Gilbreath; second associate justice, Roderick Shaw; parliamentarian, Jackson Sisk; clerk, Udell Thurman; and sheriff, Billy Sims. Dr. J. W. Davis, instructor in department of government, was elected club sponsor for the coming year.

Newly elected officers will take charge at next meeting of the club.

Tech Archers In National Meet

Tech has entered a team of eight girls to compete in the twelfth annual Intercollegiate Telegraph Archery tournament sponsored by the National Archery association. Any Tech girl may try out for the tournament by practicing once a day until May 13. Competition will be held May 13-20.

Betty Savage To Represent Tech At Home Ec Rally

Betty Savage has been selected to represent the Home Ec club at the State Homemaking rally April 30 to May 3 in Dallas. Members of the Home Economics faculty who plan to attend are Miss Vivian Johnson, Miss Johanne Bowles and Mrs. Edna Heinemann.

Advertising Projects Under Investigation By Sub-Group

A SUB-COMMITTEE was appointed this week by the publications committee to consider and investigate the matter of solicitation of advertising by various college publications and programs in the City of Lubbock.

Pros To Play Badminton Here Next Wednesday

A badminton tournament between Bill Hurley, Pacific coast professional champion and a leading contender for the title, and Steve Stedzo, leading California amateur will be held Wednesday night, April 30 at 7:30 p.m. in the Gymnasium.

Hurley and Stedzo will play a singles match. Then they will split up and play a doubles match and a mixed doubles match with local Tech players. A try-out is being held in the gymnasium to decide who will play for Tech. Hurley and Stedzo will give a demonstrated talk on strokes and an association talk on the game.

During the afternoon of April 30, Hurley and Stedzo will give lessons in badminton for \$1.75 for one half hour and \$3.00 for an hour.

Women's Athletic association is sponsoring this tournament and the charge will be 10 cents per person.

Hurley and Stedzo are touring Texas and Louisiana. They are sponsored by the Hollywood Racket company to stimulate interest in badminton.

Tech Publications To Represent Tech At Home Ec Rally

Betty Savage has been selected to represent the Home Ec club at the State Homemaking rally April 30 to May 3 in Dallas. Members of the Home Economics faculty who plan to attend are Miss Vivian Johnson, Miss Johanne Bowles and Mrs. Edna Heinemann.

Under the Baylor set-up, programs, circulars, etc. of various intra-divisional promotions would not necessarily be condemned by the college authorities as advertising mediums, but they were published at their own responsibility.

In the event the Texas Tech subcommittee finds sufficient evidence of the need for such authoritative endorsement of specified Texas Tech publications, it seemed likely the practice would be adopted here, designed to protect both the advertising merchant and student readers.

THE TOREADOR

THE TOREADOR, student newspaper of Texas Technological college, is published every Wednesday and Saturday on the campus of Texas Technological college at Lubbock by students of the journalism department.

Entered as second class matter, October 31, 1925, at the postoffice in Lubbock, Texas, under the act of March 3, 1879.

Editorial offices, Engineering building, 3, 4, 5. Telephones: college switchboard; Night Editor, 1286.

Is Texas On Outside Just Looking In?

BEHIND his massive, glass-topped office desk overlooking the rolling landscaping of capitol lawn, sits W. Lee O'Daniel today—second term governor of the greatest single state in America.

Perhaps he is thinking of his gubernatorial campaign slogan of just one year ago, when he reiterated his determinations to promote the "cause on industrialization of Texas." Maybe he remembers even farther—to the spring of 1938, when 800,000 Texans voted almost unanimously in various polls conducted by the governor on tour, for giving preference to Texas-made goods.

Surely he remembers his tour of Northern and Eastern areas just before taking the oath of office in January, 1939; for Gov. W. Lee O'Daniel long has seen the handwriting on the wall for Texas. At every turn he has urged increased exploitation of Lone Star state products. He organized, with out additional drainage of state funds, an industrial department, furthering the manufacturing production through developments of Texas cities. And today with increased production throughout the nation for defense orders, the governor's industrialization objectives have ceased completely to be sideline campaign issues with his adversaries, for even they realize the expediency of Texas' exploitation.

W. LEE O'DANIEL Saw Handwriting On Wall

Exemplary of the state's need to increase production was the recent letting of federal contracts for woolen goods—national defense contracts, aggregating \$8,606,413.70. The contracts were sub-divided among socks, blankets, gloves and overcoats.

Annual production of wool and mohair in the state of Texas is well above 77,000,000 pounds. Yet, the state of Texas received not one penny of the eight-million dollar federal order, covering but a single week's federal expenditures for army products.

The governor, himself, pointed out during a campaign that of the 77 million pounds of Texas wool and mohair each year, producers paid freight to Northern and Eastern scoring plants on an estimated 60 percent grease and dirt.

Texas has made tremendous industrial strides within the past decade. Dallas county alone ranks thirty-sixth in national production centers; Harris county is forty-third and Tarrant is ninety-second.

It is undeniable that Texas is more of a production center than manufacturing. Annually, the state produces about \$260 per capita in value of raw products and \$51 per capita in manufacturing processes. Massachusetts produces \$18 per capita in raw products and \$222 in net value of manufactures.

But, Texas is moving out of the industrial isolation through which she has slumbered so undisturbed. Perhaps additional federal de-

Around The Table

BY FANIBETH HARRIS

DURING THE past fifty-two years the world has witnessed the rise and struggle for supremacy of its most spectacular character. That of Germany's Herr Hitler.

Sunday, April 20, marked the day of his birth and as a treat to himself and to his loyal fighting forces, he visited the front lines. Adolph's celebration was only marred by the resistance which met the bombers over England. However, it is rumored that Mount Olympus, home of the ancient Greek Gods, had been captured and presented to him.

At any rate, the blitz which was to be staged on unday seems to have failed, both by German and English reports.

Although denied, and all that sort of thing, yet amazingly obvious is the German faction in South America. Some of our leading citizens have denied that Germany is gaining a foothold in countries of "Our Neighbor to the South," but Argentina and Chile have given the United States the hands-off signal.

The Daily Texan published last Thursday, its Pan-American edition. Editorials and columns were printed in Spanish. The only catch is, there was no translation to any of the articles carried. We are wondering just how many of the students on the campus were able to translate the editorials.

Speaking knowledge of Spanish in Texas is amazingly low and reader knowledge practically nil. Although a majority of high school and college students have studied Spanish they seem to forget it promptly. It seems logical to us that one way to start this good neighbor policy, that is, but learning the language of the people.

Sitting here calmly speculating on the outcome and comparing dates as to when the United States will go into the present conflict, we feel smug. We have built up quite an organization over here. We have a right to feel proud. We have a democracy which has been bigger and greater and lasted years longer than any other democracy in the world. We think because we are the United States that nothing or no combination of forces can ever down us. That's a wonderful attitude and a terribly patriotic one, but we shouldn't be too sure. A little less smug and little more ammunition would seem the better policy.

But then we have strikes in our industries vital to national defense, and we will muddle along until the war is upon us doing the best we can in the face of these difficulties and then bewail our fate when the big blow is struck.

Princeton Glances At The Future Of Nazism

(By Associated Collegiate Press)

(Excerpts from a series of editorial articles in the Daily Princetonian, undergraduate publication at Princeton university).

"We suggest that the ideal which America should strive for is an orderly international society living in accordance with the democratic way of life. We believe it is America's obligation to pursue that end and its destiny to help in effecting realization of that ideal. This 'way of life', embracing social and cultural as well as political democracy, is of such scope and vision that it can never fully be realized unless all the peoples of the world unite to pursue it co-operatively. The problem facing America as a nation, then, is a dual one: to pave the way for future international union and also to keep alive and to extend the democratic way of life."

"Let's look at the blackest side of the picture first—suppose Britain falls. For two principal reasons, we believe that America's non-belligerency is more important to America and to the world than England's victory. 1) The chance of a clean-cut, unconditional surrender of the British people is so slight that it should not be the bogey of American policy. 2) The Nazi regime is built on quicksand. Even a German victory over Britain would not clear the way for Nazi world domination.

"Obviously, a British victory would make the problem of establishing the basis for a just and lasting peace easier—though the victory would not per se mean the solution to the problem. We have stated our belief that America as a victorious belligerent, with the bitterness of war in its heart and the taste of triumph sweet on its lips, would be psychologically unable to offer any solution more rational than another Versailles, or worse. But America as a non-belligerent would be in a position to temper the blind fury of British demands, to prevent a maladjusted order which would produce another Hitler-Frankensteen, and to set up one which would give the world at least hope of lasting peace.

"The third possible outcome of the war is stalemate. In such an eventuality the role of the United States should be to provide without bitterness the structure of an international world order based on democratic principles.

"It is not the war that we hope and believe can end all wars, but the peace after the war. It is not that we would make the world safe for democracy, but make the world a democracy. And the peace we envision is not peace in our time, but for all time."

Defense contracts will combine with the weight of the governor's own campaign to lift Texas into its rightful place among the nation's greater productive states.—Bill Wood

Business Show Set Saturday

Latest Machines On Display At Exhibit

Tech's business administration and economics department will sponsor its second annual Business Show April 26 from 1 to 6 p.m. Displays of the latest machines used in the business field and office equipment will be shown.

There will be a large assortment of modern and up-to-date typewriters, adding machines, filing cabinets, office furniture and similar items on display. Companies showing machines will be Bonroughs Adding Machine, Monroe machines company, International Business Machines and various local office supply and appliance companies.

Those attending the show will have an opportunity to record their voices and hear them reproduced over Ediphones and Dictaphones, also representatives from Dallas will illustrate the use of Punch Card Machines as used in modern accounting.

A movie will run continuously from 1:30 to 5:30 p.m. for the benefit of those visiting the show.

Students and faculty of various schools over West Texas have been invited to attend the show.

Godeke Elected To Office At Annual Meeting

H. F. Godeke, professor of electrical engineering, was elected vice-president of the Texas Section of the Society for the Promotion of Engineering Education at the annual meeting in Houston on April 11 and 12.

The state convention will be held at Texas Tech next year, and according to tradition, the organization elected the vice-president from the school who will be host at the coming convention. Vice-president, J. H. Pound, of Rice Institute was elected president of the Texas Section for next year. At the meeting in Houston, O. A. St. Clair presided over a discussion group and C. V. Bullen presented a paper on the "Electrical Engineering Shop Work."

Persons attending the meet from Texas Tech included O. A. St. Clair and Meseres and Mesadames O. V. Adams, H. F. Godeke, C. V. Bullen, F. L. McRee, J. C. Hargrave and J. H. Murdough.

Professor Godeke will be in charge of the program and all general arrangements at the convention next year.

Dean Adams Goes To Austin Friday

O. V. Adams, dean of engineering, will attend a committee meeting in Austin Friday, for the region 18 engineering defense program.

The meeting will be a call meeting by W. R. Woolrich, dean of engineering at the University of Texas and committee advisor for region 18. According to Dean Woolrich, "This committee is to cooperate with the Adjutant-General of Texas in determining student and faculty deferment procedure that would best facilitate essential defense production and training within the United States."

BACK TO Tin Pan Alley

By A. C. LAMBERT

THAT PORTION of the American scene that was so well pictured by the Warner Brothers and their contemporaries comes to a highly dramatic climax in "High Sierra" now showing at the Tower theater.

W. R. Burnett, who wrote the father of all gangster movies, "Little Caesar," also penned "High Sierra," and for that reason it should marked the completion of a cycle.

There is hardly a starting place for reviewing this movie, because all in all, it's one of the greatest films of its kind I've ever seen.

The story is about a tough guy, Roy Earl, ably portrayed by Humphrey Bogart, and the last stand of his kind. Roy Earl is public enemy number one.

Beginning with the plot, you'll find it pretty well knit. Roy Earl, as I've suggested, is the last of his kind. Every foot of the film seems a sort of allegory in which persons and things are expanded to become generalities. There's the little mug well done by Alan Curtis and Arthur Kennedy. The gum-roll of the old-style gangster is herein played by Ida Lupino. The sweat your thing for whom the tough guy falls is done by Joan Leslie.

Humphrey Bogart gives a restrained performance as Mad Dog Earl. Believe it or not, the gangster does have a heart. He is human. Bogart is a big fish ready for his last caper. He's to rob a resort hotel with the help of Baxter and Kennedy. Baxter has picked up Ida Lupino in a Los Angeles dance hall and she's in on everything.

Bogart meets a family of middle west farmers who have a grand daughter, Velma, played by Joan Leslie. She has a club foot and Earl arranges for an operation to straighten her deformity. He wants to marry the girl, but she's in love with a guy back home, so she

that Davis might thrive on. And she's in love with Bogart, and everything is fine until she finds he's in love with Velma. Then the histrionic fireworks begin. Her final scene is the most dramatic in the production.

Every bit part in "High Sierra" is good. Henry Travers, who appears as the farmer, and all the rest made a remarkable cast. This was Miss Leslie's first big chance in films and she didn't miff it. She does an unsympathetic character well. I doubt if she's the decent girl that Bogart believes.

"High Sierra" is dramatic dynamite. Here's a flash, Eddie Donaldson, who played with Ned Bradley's band last year and before while attending Tech, will take over the Anson Weeks keyboard beginning May 1.

Young Plans To Attend Meeting

Dr. A. W. Young, head of the Tech plant industry department, will attend the committee meeting of the International Crop Improvement association April 24 and 25 at Stillwater, Oklahoma.

The purpose of this meeting will be the setting of standards for the certification of sorghum seed. Mr. R. V. Miller will also represent the Texas Seed and plant board at the gathering.

Points to be discussed by the committee will be the extent of isolation necessary for the growing of pure sorghum seed, the relative importance of purity and germination and the effect of smut treatment on the fertility and growing strength of the seed.

This Lupino dame is no flash in the pan, she's got a sort of Bette Davis complex that will put her up front. Her role here is the sort

Debators Prove Fair In Contest

Teams Win Five Of Six Clashes In Alabama

Competing with 19 schools from 11 southern states in the tournament sponsored by the Southern Association of Teachers of Speech in Birmingham, Alabama, last week, Tech's debate teams were fairly successful.

Sponsored by Miss Annah Pendleton, the teams, Raymond Goodrich and Orville Shofner, Camille Graves and Mary Helen Carroll, were entered in six debates each.

The boys' team won from Berry college, North Carolina State, Southern Methodist. They lost to Louisiana State university, Furman, in Oregon plan contest, and University of Florida, in a direct class debate. The boys division was won by Union college of Tennessee.

Furman and Baylor fell before the Tech girls. They in turn were defeated by University of Alabama, who won that division, Southern Methodist, Agnes Scott and Stetson. The Stetson was on the Oregon plan. The discussion with Baylor was a direct-clash.

Miss Carroll won third in after-dinner speaking contests. The Tech students took an active part in the Student Congress of Human Relations which was held in connection with the debate meet.

Goodrich was speaker protem of the congress which deals with problems of the contemporary world. Discussions are held on Industry, Labor, and Economic problems.

Miss Graves, Miss Carroll, and Shofner served on committees of the congress.

Forum members held their regular meeting yesterday morning at the College Avenue Drug to discuss plans for giving a necklace to the sophomore girl with the highest scholastic average. See CAMPUS REVIEW Page 4.

Spring Raiders Parade Football Wares Friday

Squad Scrimmage Slated At 8 P. M. In Tech Stadium

By GERALD SPRAGUE
Toreador Sports Writer

A PREVIEW OF THE 1941 edition of Red Raiders will be held Friday at 8 P. M. in the stadium, according to an announcement made by Coach Dell Morgan, Tuesday. This will be the first real public showing of the team and all students, as well as towns people, are encouraged to be on hand to see what they look like. This will be the climax to the present spring training program.

In conjunction with the Raiders will be the Lubbock High school Westerners who will be out to show their wares. Both teams have something new to display since there has been coaching changes made in the set-up of each. In the high school situation, however, it has not been so drastic as is the case here at Tech.

The program will consist of the usual warming up exercises, introduction of players and will be concluded with scrimmages between Tech teams and Westerner squads. They plan to alternate to add variety to the evening.

In summing up last Saturday's rough and thorough scrimmage, Coach Morgan said that the boys all looked good at times and then not so good at other times. The entire squad was divided as evenly as possible into two teams, the reds and whites.

After sixty minutes of hard scrimmage the whites were just
See SCRIMMAGE Page 4

Forfeits Mar Intramurals Baseball Play

By L. D. WHITELEY
Toreador Sports Writer

LOS RATOS and Jaywalkers have a monopoly in the independent baseball loop. Maybe its reputation of Paul Reynolds, Los Ratos pitching star who has signed the play with the Amarillo Gold Sox this summer or maybe its impressive record the Jay's have built up in the intramural play the past few years. Anyway, neither club has had to play a single game so far. Their position just didn't show up. Friday No-Star forfeited to the Jaywalkers and Saturday Kappa Kappa Psi failed to show up for their match with Los Ratos.

Over in the social loop plenty of action was seen as College Club downed Silver Key 14 to 7 and Los Camaradas shut out an outclassed Kemas team 9 to 0.

Silver Key marched three pitchers to the mound to try to stop the College Club onslaught but neither of the three could get the ball in there and a total of five runs were forced in by the free-gratis method. Bill Larmen went the route for College Club.

Buster Smith, Los Camaradas pitching star and one of the ace moundmen in the tournament, had the Kemas batsmen on his hip all afternoon and never weakened once as he hung up the first shutout of the tournament. Harry Shaw was pounded all over the lot as the Los Cam batters showed no mercy.

The schedule for the remainder of the week is:
Wednesday, April 23, Centaur vs. College Club
Thursday, April 24, Silver Key vs. Los Camaradas
No Stars vs Jaywalkers
Friday, April 25, Wranglers vs College Club

Tech Net Team Downs ENMC For Second Triumph

Tech won its second tennis match of the season Saturday by downing Eastern New Mexico College, 7-1.

Fox, New Mexico No. 2 singles ace, was the only man to turn the Tech tide. He defeated Jack Lovelace, 6-4, 6-2.

No. 1 Frances Hightower took McKinney, 6-3, 6-0.

Other scores follow:

Jack Shanks beat Nelson of the Greyhounds, 6-0, 6-4.

David Storey defeated Gover, 6-0, 6-2.

Lloyd Brunson took Ness, 6-3, 6-0.

James Yeager downed Jackson 6-4, 6-3.

Lovelace and Hightower took the No. 1 doubles from Fox and McKinney, 6-3, 10-8.

Storey and Brunson beat Ness and Miller, 6-0, 6-2.

One of the features of the meet was the fact that no match went more than two sets. Every man won his match in straight sets.

Dr. Craig Begins AAAS Research

Dr. William M. Craig, professor of chemistry, has been requested to organize two symposia on spectrographic analysis and petroleum industry for the national meeting of the American Association for the Advancement of Science which meets in Dallas during the latter part of December of this year.

The request was made by D. Neil E. Gordon, secretary of the chemistry division of the national AAAS which is the largest scientific organization in the world. Membership in 1940 included 21,000 persons interested in the aims and work of the organization.

Raiders May Re-Enter Border Conference!

By JACK NICKS
Toreador Sports Writer

TEXAS Tech will be invited to re-enter the Border conference this spring if a proposal to be entered by New Mexico university at the conference's May meeting is adopted, according to W. L. Stangel, chairman of the Athletic Council.

Kernit Laabs, athletic director of NMU, said that the University would advocate inviting three schools, Tech, Hardin-Simmons and West Texas State, to become members of the conference.

Mr. Stangel said that if invited Tech would accept.

Tech was a member of the conference from 1932 to 1939. In June of '39 the school was ejected by unanimous vote of the six other members. Reason given for the expulsion was that Tech had not followed the eligibility rules strictly.

Raider cagers won Border championships in 1933, 1934 and 1935, and was runnerup in 1938. Although no official conference championship in football was declared before 1938, Tech won unofficially in 1932, 1933, 1934 and 1937.

J. D. Webster of Tech was conference medalist in golf in 1938. If the proposal is adopted and the three schools accept the invitation several football and basketball games scheduled for next year would become conference games. Tech has several football games next season with New Mex-

ico and Hardin-Simmons and basketball contests with Hardin-Simmons and West Texas State.

Although Tech has been out of the conference for two years, rules of the league are still followed in some sports. For instance, Tech plays her tennis men only three seasons, while some of her opponents play their freshmen and their graduates.

Morley Jennings, newly elected Tech athletic director, will represent the school at the Border conference meeting in Tucson, Ariz., May 8 and 9.

Social Doubles Crown To Kemas

Well, they finally stopped Jim Hamlet. They being Dick Roberts and Johnny Phillips, Kemas doubles team, and the occasion being the finals in the social league doubles tennis tournament.

Hamlet, with his partner Walter Lemke, fell before the Kemas onslaught in three hard fought matches, 6-1, 4-6, 6-4. Previously, Hamlet had marched through the singles play undefeated and had not been pushed to any extent prior to this match.

Kemas presented a better balanced club with either man capable of handling net play about as well as the other. With the exception of the second set, when the Los Camaradas combination really got hot, Kemas seldom dropped a game.

This week Phillips and Roberts will meet the winner of the independent league for the intramural championship. Hamlet will meet Leroy Hinton, Jaywalker's singles ace, who captured the independent league singles crown, for the intramural championship.

Compele dramas, staged and produced at an average cost of \$10, are being developed by Well-lesley college students.

Raider Golfers Just Back; Are Ready To Leave Again!

By JIM BRIGHAM
Toreador Sports Writer

TEXAS TECH'S TOURING brigade of linksters returned from their Southwest conference journey with a total of 17 wins and 19 defeats in matches with Rice, University of San Antonio, Texas U., A & M, T. C. U., and St. Mary's.

Considering the short time in which the Techsters had to get in shape for such tough competition, the tour was not such a failure as the results might indicate.

In the initial fracas with Rice Institute at Houston, the Raiders came out with a 4 to 2 triumph. Capt. Jack Mooney and Ford Sturdivant eked out a 1 up victory over Piercee and Morris in one doubles match while Jaew Walker and Jim Brigham won by a similar margin against Crissman and Deal.

The singles matches were split with Rice. Brigham lost to Crissman and Sturdivant dropped his match to Morris while Walker and Mooney won easily over their opponent.

Texas University blanked the Raiders 6-0 following the games with Rice. The unusually hard greens at Austin were a definite advantage to the Longhorns for the majority of links played on by the Raiders were much softer and as a result there was much overshooting by the Techsians.

At San Antonio the Raiders did an about face and whitewashed the University of San Antonio, but split with St. Mary's the following day 3-3.

Two days later the T. C. U. Frogs were hard pressed to win a 4-2 victory over the Worth Hills course in Fort Worth. Mooney and Sturdivant copped a 1 up decision from Sikes and Beasley, while Brigham and Walker faltered in the other doubles match.

The Frogs, however, came to life in the afternoon singles as Sikes beat Mooney 3-2. Rivercomb smothered Sturdivant 6-4. Gillespie dropped Walker by a 2-1 count. Brigham ousted Beasley 2-1 for the only Raider win in the singles event.

The encounter with Texas A & M was practically a repetition of the Fort Worth matches. Hauser and Richards shot a best ball of 6 under par to win from Mooney and Walker retaliated, however, with a 2-1 decision over Warren and Roberts to split the morning doubles.

Hauser again shot sub par golf in the afternoon to beat Mooney 3-1. Richards walloped Sturdivant 8-6 and Roberts, by dropping a long downhill putt on the nineteenth green put Walker on the sidelines. Brigham again came through with the only Raider win by outlasting Warren and winning on the eighteenth green.

DAD ought to know. Look at the wall behind him—his personal military history. Photo of the troop. Dad by himself, very proud in his old-style choker-collar blouse. And his decorations—the Order of the Purple Heart, Victory Medal, Croix de Guerre with palm.

"You savvy quick, soldier," he says to his son as that chip off the old block in the new uniform proffers Camels. "These were practically 'regulation' cigarettes with the army men I knew. Lots of other things have changed, but not a soldier's 'smokin's.'"

Right! Today, and for more than 20 years, reports from Army Post Exchanges show that Camels are the favorite. And in Navy canteens, too, Camels are preferred.

Just seems that Camels click with more people than any other cigarette—whether they're wearing O.D. blues, or civvies. You'll savvy, too—and quick—with your first puff of a slower-burning Camel with its extra mildness, extra coolness, and extra flavor, why it's the "front-line" cigarette!

The Smoke of Slower-Burning Camels gives you EXTRA MILDNESS, EXTRA COOLNESS, EXTRA FLAVOR and

28% Less Nicotine

than the average of the 4 other largest-selling cigarettes tested—less than any of them—according to independent scientific tests of the smoke itself

What cigarette are you smoking now? The odds are that it's one of those included in the famous "nicotine-in-the-smoke" laboratory test. Camels, and four other largest-selling brands, were analyzed and compared... over and over again... for nicotine content in the smoke itself! And when all is said and done, the thing that interests you in a cigarette is the smoke. YES, SIR, THE SMOKE'S THE THING! SMOKE CAMELS!

BUY CAMELS BY THE CARTON — FOR CONVENIENCE, FOR ECONOMY — BY BURNING 25% SLOWER than the average of the 4 other largest-selling brands tested — slower than any of them — Camels also give you a smoking plus extra, on the average, to 5 EXTRA SMOKES PER PACK!

Socii Club Holds Annual Spring Sport Dance Friday

Men's Club Has Top Social Affair Of Week

Crest Decorates Hotel Lubbock Ballroom; Jack York Will Play

Topping the social calendar for the week, the Socii will hold their annual spring sport dance from 9 to 12 Friday at Hotel Lubbock. Jack York and his orchestra will play for the dance. The club crest will be the only decoration.

Members and their dates include: P. A. Lyon, Waldeen Donnell; Bill Whitfill, Joyce Swan; Jack Lonley, Harriet Rootwell; Fisk Hanley, Catherine Slagel; Morrett Ryan, Beverly Wade; Gerlie Snofner, Mildred Hankins; Charles Walton, Joyce Watson; Bryant Lassiter, Pat Sibley; Paul Davidson, Reba Dee Godfrey.

Other members attending are: Guion Gregg, Theron Lehr, Dale Lehr, H. M. Terry and R. L. McClellan. Pledges and their guests are: Elmer Adams, Billie Jo Dodson; Rex Shearer, Jo Bea Goodloe; Delton Pemberton, Yvonne Westmoreland; Jos B. King, Kara Hunsicker; Dan Price, Terrene Verner; Layton Webb, Mary Frances Gouis; Arch Keys, Gauda Butler; Bill Nelson, Helen Thomas; Weldon McCallum, Marjorie Spencer; Robert Ramsey, Lottie Jo Townes.

On Tap

atory satisfaction.
Worm wood, thymol, iodine, echinacea, spirits of Amomia and calendula make a beautiful mixture, but if John's gastric convulsions are to be considered significant, the concoction is not for internal consumption.

Speaking of iron willpower—I've got it. My mother, sister and girl friend have spent prodigious effort trying to divorce me from the bottle (I, do, you, know). Anyway I just say to myself, "Man or mouse?" and push their diabolic persuasions arrear and play faithfully on with my drinking. That, friend, is willpower!

Some few have criticized the constant publicity of my debaucheries; consequently I hereby reform.

I promise to be nice and good. And do what I'll tellers about. I'll go no more with women lewd. Except, of course, when I am stewed. And since last night I lost my pants. I'll sit no more at games of chance. I'll only drink in dark of night. And only then 'till I'm tight. All bad habits I do throttle. Careful Joe, don't break the bottle!

Biologists Study Field Vegetation

Mountain, desert and fresh water vegetation were studied by members of plant geography and morphology of higher plant classes while on a six day field trip recently, according to Dr. R. A. Studhalter, head of the biology, botany and zoology departments.

Places visited by the group were Chisos mountains, Boquillas Hot Springs on the Rio Grande, Grand Canyon of Santa Helena, Fort Davis mountains, McDonald Observatory near Fort Davis, and Balmorhea state park.

Seven members of the party swam the Rio Grande river in the Grand Canyon of Santa Helena. The walls of this canyon are approximately 1,400 feet high and almost perpendicular.

Those who made the field trip were: Dr. and Mrs. R. A. Studhalter, Dr. and Mrs. D. R. Parker, Harland Soper, Logan Redford, Earl E. Camp, Kathryn Weeth, Edythe Walker, Fred Widmeyer, Lenard Jansen, Max Owens and Eugene Dulaney.

JOURNALISM GRAD VISITS
Travis Foster, 1938 journalism graduate, was in Lubbock this week enroute to his home in Brownwood, where he is employed in a commercial printing shop. He had been in Ft. Worth for an examination for the Air Corps.

Coed's Corner

Dance Features Sports Shirts, Saddle Shoes

By Doris Peavy

THERE'S NOTHING LIKE a good cold spell to whip us out of the old spring fever. More has been accomplished in the last two or three days than at any time since our worm weather started. From today it is only 36 days until school is out for summer vacation, but how will we ever make up for all the lost time by summer.

Double T show seems to be pretty well under way. Charles Daniel is the busiest boy I have seen since Hackler of Varsity Show fame. Different from last year's show in that the entire cast is composed of the Double T boys and other Tech students.

Women's Inter-club Council is planning a dance for the benefit of the Loan Library fund. It ought to be fun, since the boys may come in sport shirts and the girls in sweaters, skirts, anklets and saddle oxfords. Tickets are inexpensive and may be purchased either from any social club girl or at the door. The date is April 26, Saturday.

After the Key dance Saturday night, the strangest thing happened. Dorothy Dell Stovall and steady, Hart Shoemaker, were sitting in a car parked by the Women's Dorm, when a fellow, who was hurrying home, mistook their car for his own. The boy jerked the door open only to have Shoemaker at his feet.

Certainly seemed natural to see Ned Bradley conducting the orchestra at the Key dance the other night. It didn't look quite natural to see him in his uniform, however. So far as having old members and former Techsters on the guest list, the Keys have topped any other club all year, but runners up are Ko Shariis who had a ballroom full of exes at their presentation.

I must have been seeing things that I misunderstood when Frank Spitzer came into senior class meeting with a girl that acted like his date, and Nina Howe Webb was sitting behind me with a group of girls.

Get your mind on politics and be looking for the guy or gal that would be able to fill the office of president of our student body as well as James Snyder has done his job. Don't forget to be thinking of students to nominate for the other student council offices.

Aggie Clubs Hold Joint Meetings

The Texas Tech Plant Industry club and the Cyril Luker chapter of the FFA at Tech met Tuesday to prepare for official and recreational business.

Glen Sanderson of Lubbock was elected president of the FFA for the coming year. Other officers elected by this organization were: Vernon Loveless of Friona, vice-president; R. B. Dawson of Tull, Treasurer; Warren Linder of Lubbock, secretary; Elwin Matthews of Lubbock, reporter; Wayde Frey of Lubbock, parliamentarian; Kenneth Allen of Quail, historian; and Joe Doyle of Shallowater, watch dog.

The Plant Industry club laid plans for a steak fry to be held at Buffalo Springs May 3. An entertainment committee was appointed to make up a program for this event.

Seniors Asked To Sign For Silver Patterns

Senior girls and young married women, who have not already done so, are asked by Junior Council to sign up for their preference in Towle silver patterns sometime today or tomorrow from 8 a.m. to 5 p.m. in the east rotunda of the administration building.

There are no obligations, and money made by the council will be used to help pay expenses of the AWS convention.

Friday Named As Deadline On Senior Invitations Orders

Tech Instructor To Attend Meet

Mrs. Johnnye G. Langford, head department of women's physical education, will attend the forty-sixth annual conference of American Association for Health, Physical Education, and Recreation, to be held in Atlantic City, New Jersey, April 30 to May 3.

She will also attend the pre-convention conference of National Association of Directors of Physical Education for College Women, April 26, 27, 28, and 29, in Atlantic City.

The theme of the conference is to be "The Place of Physical Education in the Defense Program." An explanation of the national bill to provide funds for physical education will be given before Congress.

Sectional meetings will include camping; dancing with Ford dancers and Lloyd Shaw; recreation, mental health; tennis clinics with Alice Marble, Bill Tilden and other nationally known tennis players; physical health; and numerous others.

Ko Shari Wins Grades Award

Ko Shari club was presented a loving cup for having the highest scholastic average of any women's social club for the second consecutive time at the Inter-club council breakfast in the Hilton hotel Sunday morning. It was presented by Doris Peavy, council president.

Las Vivarachas and Sans Souci clubs acted as hostesses. Mrs. Mary W. Doak, dean of women, spoke on the progress of the council for the year, and plans were made for the script dance to be held next week to raise funds for the Loan Library fund, which is supported by the council. Miss Bonnie K. Dysart, sponsor, spoke on problems facing the council and the social clubs in coming years. Eunice Klett played her own composition as used in the Varsity Show, "Prelude to Spring."

The breakfast tables were decorated with bouquets of sweet peas and tulips. Approximately 112 attended.

Former Students Receive Wings

Four former Tech students will receive their wings in the Army Air Corps Advanced School, Stockton, California, April 25. They are John W. Fields, John P. McCrory, Woodrow Ramsey and Lee Michie.

J. N. Michie, head department of mathematics and father of Lee Michie, will attend the exercises.

Michigan Girls Send Tech Book

Evidently the girls from the University of Michigan who attended Tech's AWS convention thought it worthwhile. In an effort to show their appreciation, they recently sent a book to Mrs. Doak entitled "Treasury of Art Masterpieces" — from the Renaissance to the present period.

In gold letters on the outside of the leather cover were the words "To the girls of Texas Technological College, April, 1941."

Plans have been made to keep the book in the lounge of Doak Hall where all girls will have access to it.

Bishop Holt Scheduled For Commencement Address

Bishop Ivan Lee Holt, Ph. D., D. D., L. L. D., of Dallas, will deliver the commencement address to the graduating class June 2, according to President Clifford B. Jones.

Baccalaureate sermon will be given June 1 by Dr. C. E. Hereford, pastor of the First Baptist church of Lubbock.

HARRELL TO SWEETWATER
Fred Harrell, 1938 journalism graduate, who has been employed on the staff of the Hereford Brand has accepted the position of general reporter on the Sweetwater Reporter.

WEEKS ATTENDS MEETING
Dean Margaret W. Weeks will attend a meeting of the State Nutrition committee at TSCW, Denton tomorrow and Saturday.

Schmidt Presents Technical Paper

"Textile yarns as seen by the Electric Eye" is the subject of a technical paper to be presented by Dr. C. C. Schmidt, associate professor of physics, before the physical sciences section of the American Association for the Advancement of Science.

Irregularities in textile yarn may be detected by the photo electric cell if thread or yarn is slowly passed through a narrow beam of light. As the diameter of the yarn changes, more or less light falls on the photo electric cell. The current from the cell is amplified and sent through a galvanometer. Deflections of this instrument are recorded on sensitized paper. Irregularities in the yarn can then be analyzed.

By changing the width of the beam, records may be obtained for various sizes of yarn.

Scrimmage

Continued From Page 3
ahead of the reds, having counted three touchdowns while the reds were making two. Peter Blanda, injured ankle, was the mainstay of the whites' attack.

Berl Huffman, backfield mentor, seemed fairly well pleased with the backs. Glen Lowe, husky 190 pound halfback, was looking good along with Blanda, Roger Smith, J. R. Callahan, Marvin McKown, Tom Douglass, Don Austin, Thayne Amoret and Capt. Ty Bain.

In the line, play was headed by Line Capt. Loyce Baillio. Also showing up well were Bob Duncan, Clarence Tillery, Jack Shanks, Charles Daniel and Harold Crossen. Newman Ledbetter, veteran ironman of the 1940 squad, was playing consistently at his old tackle post Joe Albright and Wayne Pipes were doing good work at the center position.

Meantime the first part of this week has been devoted to more of the same, scrimmage and lots of it. Pass defense and blocking practice has been worked on daily.

The spring training period will be concluded April 29. After that it will be back in the moth balls for the equipment and the boys will take a rest awaiting the opening practice next fall which will take place sometime early in September.

James Henry Meriwether Henderson, graduate student at Wisconsin, received a letter mailed in Washington, D. C., and bearing only his name and "USA" as an address.

MISS WEST TO SPEAK

Elizabeth H. West, librarian, will speak on "As Libraries Look Forward in Texas" at the meeting of Texas Library association which is to be held May 8, 9, and 10 in Galveston.

The general theme of the meeting is "Defense Through Books."

Flowers who raided a Drew university bookstore limited their loot to dishes of ice cream and several pencils.

age. The award will be made at women's Recognition service in May and will become a tradition of Forum.

An alumni dinner will be given Friday at 6:30 p.m. at Mexican Inn. Si Slaughter is in charge of arrangements.

Mr. and Mrs. Mark Edward Wood are the parents of a son born March 5. Mr. Wood is a 1931 Tech graduate and is now employed in the bureau of home economics in the department of agriculture at Washington, D. C.

Daphene Hutchings, senior journalism student, attended the Panhandle Press Association convention held in the Herring Hotel in Amarillo April 18, 19.

Wilson M. Chapman, 1940 graduate in chemical engineering, spent the weekend in Lubbock. Chapman was a member of the varsity tennis team for three years and at present, is technician for the Humble Oil Co. at Baytown, Texas.

Bill Hamm, Watson Carlock and Herschel Finney, chairman, have been appointed on a committee to nominate the president of the Engineering Society. The Engineering Society board has also appointed Archie Nystal, chairman, Lee Perry, and Arnold Maeker on a committee in charge of arrangements for the annual picnic at McKenzie park for engineers and their dates. A feature of the picnic will be the annual softball tournament. All departmental societies are asked to turn in their challenges for the tournament to Arnold Maeker as soon as possible.

Grad Assistant In Illinois Tech
Clytus L. Passis, '39 graduate in civil engineering is now a graduate assistant in Illinois Tech in Chicago, according to J. H. Murchough, head department of civil engineering.

Lieut. Clifton Bellamy of Corps of Engineers is stationed at Camp Bowie.

Traffic Safety Course Taught
Prof. F. L. McRee will offer a course in traffic safety education, known as civil engineering 435 both terms this summer, according to an announcement from the office of J. H. Murchough, head department of civil engineering.

University Dean Speaks At Annual Council Smoker

Dean Arno Nowatny, assistant dean of men at the University of Texas, will speak on "Altitude and Visibility", at the annual Men's Inter-club Council smoker Thursday night at the Hilton hotel.

At this smoker the council scholarship plaque will be awarded the men's social club having the highest scholastic rating for the fall semester. Recognition will be given also outstanding achievements of individual members and well as clubs.

At a dinner to be given before the smoker, honoring club sponsors and academic deans, Dean Nowatny will talk on "Price of Leadership."

Honor guests at the dinner will be President Clifford B. Jones, Deans O. V. Adams, James M. Gordon, A. H. Leidigh, James G. Allen, and Professors Wm. M. Pearce, M. J. Erickson, Lewis E. Thomas, J. Arnold Walter, Haskell G. Taylor, John E. Harding, Dr. F. W. Rolf, N. C. Fine, T. C. Root, and H. A. Anderson.

Taylor Selected To Head AIEE

Douglas Taylor was elected chairman of the American Institute of Electrical Engineers at a regular meeting of the organization Monday night.

Other officers elected were: vice-chairman, Tom Priolett; secretary, Arch Lewis; publicity, John Ely. Dr. W. F. Gray was selected faculty counselor for the coming year. Retiring president of the society is Hugh Granbury.

University of Texas has eight physical training clubs for girls.
