"Just like a man-with his superior air-he'd keep telling me any gasoline is the same as any other. But I argued there couldn't be much to lose, as long as they give you the Conoco Mile-Dial perfectly free.

"They certainly wouldn't tease you to take a thing that strictly counts up the mileage from their own gasoline, unless they're awfully sure of themselves. So I steered to the first Conoco station and in half a second the Mile-Dial was on the dash. Looks smart. Free, too.

"The total mileage on your speedometer goes on the Mile-Dial, so you know the start of your test. And you know the amount of your gasoline, by starting with just a full tank of Bronz-z-z. Then going along buying your 10 gallons more, or maybe 8, or 15 let's say, your Mile-Dial keeps count.

"Let's look. I'm up to 53 gaflons. And ... wait a second . . . it's 928 miles since starting this test of Conoco Bronz-z-z. Now watch this

flip of the Mile-Dial. There!-it says better than 17% miles from a gallon of Bronz-z, with a car this big. And do I hear any pooh-pooh?

"Even Henry won't say it's just luck any more, after all the different driving tests he's kept doing with this Mile-Dial ... Luck? ... It's just bad luck using mixed breeds of gasoline when Conoco Bronz-z-z is game to let you dial its true mileage. A smaller car like yours might even beat 17%.

New Stand On "Fifth **Column Activities**" MEXICO CITY, June 12 OP-

The Mexican press was pledged today to "cooperate with the government" by avoiding publication of unverified reports of "fifth colmn" activities and by minimizing news of local origin that might favor the totalitarian cause home or abroad.

The pledge was delivered at a closed meeting which the publishers of the capital's newspapers attended last night at the request of President Lazaro Cardenas.

Secretary of the Interior Ignacio Garcia Tellez told the publishers the president feared that widespread publicity given reports of alleged nazi and communist activities in Mexico might give the United Stats the idea that this nation was anti-democratic and anti-American. As a matter of fact, Garcia

Tellez said in the name of the president. Mexico is unequivocally on the side of the world's democ racies, is pro-United States, i staunch defender of Pan-American solidarity and faces on seriou dangers from internal activities by nazis, fascists or communists.

ever his own self. Pellegrini, on the other hand, was never better. He didn't give up a base blow until the fourth round and looked to fine advantage in choking off anything that looked like a threat on the part of the opposition. The Gassers counted in the fourth on Bobby Decker's circuit clout over the right field wall and again in the

ninth on a double by Claude Gilchrist and Soap Scopetone's single. The Barons saddled up after two men had been retired in the first heat. Wyman Hunnicutt received credit for a double that should have been sacked up by Scopetone in centerfield. Soapy, however, apparently misjudged the ball, attempting to take it with one hand and it bounced free. Parks then leveled his sights on Stan Bolton and his alm was too good. He hit the Big Spring cleanup batter. Bill Garbe appeared, took one down the middle to his liking and the

HELENA, Mont. (UP) - The thousands of prospectors who swarmed over western Montana in the days of Alder and Last Chance Gulch have few modern counter parts, according to the Montana land board.

Like everything else, gold mining has gone streamlined. With it went most of the old-timers, experts with gold pan, pick and shovel.

Since 1937, only 301 permits good for exploring ground and taking assay samples have been issued by the board. Of the total, 112 were iasued for prospecting in Lewis and Clark county where Last Chance Gulch attracted thousands of gold seckers in the last century. Although providing only for prospecting, the permits give hold-ers preference in mining leases should they strike "color."
