## Directors Approve New Graduate Division Plans

### Unit Registers 261 For This Summer; Lists 45 Candidates

By Marie George

BY a formal resolution of the board of directors June 1, 1937, Dr. W. A. Jackson, head professor of government, was promoted from chairman of the graduate division to dean of the new graduate division provided in the recently approved education bill.

Since the graduate committee began functioning 299 applications for degrees of master of arts have been approved. Forty-five candidates have applied for degrees this summer, and 261 students are enrolled in the division.

### Confer First Degrees

First masters degrees granted at Texas Tech were presented in 1928 to three men: H. B. Carroll, who later received a Ph.D. from the University of Texas, majored in history and is now teaching in West Texas State Teachers college, Canyon; R. W. Matthews, who majored in education, is principal of Lubbock High school; W. I. Wilkins, deceased, majored in sociology.

The following year twelve master's degrees were granted. Among them were four members of the present faculty: Mrs. Mary W. Doak, dean of women and professor of English; Mrs. William M. Dings, assistant professor of Latin; Miss Ruth Horn, instructor in English, and J. W. Jackson, assistant professor of government.

### Names New Committees

Doctor Jackson said a new graduate committee to formulate policies for the graduate division has been named to assume duties in September. The committee consists of Dean James M. Gordon of the arts and sciences division; Dean A. H. Leidigh of the agriculture division; Dean O. V. Adams of the engineering division; Dean Margaret W. Weeks of the home economics division; J. H. Murdough, head professor of civil engineering; C. E. Russell, head professor of plant industry; Dr. J. O. Ellsworth, head professor of economics and business administration; Dr. E. F. George, head professor of physics; Dr. R. C. Goodwin, head professor of chemistry and chemical engineering; and Doctor Jackson, chairman.

Doctor Jackson was a member of the first faculty of Texas Tech in 1925, and in 1928 he became chairman of the first graduate committee. He is a member of the administrative and athletic councils.

Graduate work at Texas Tech is confined to work toward the degrees of master of arts and master of science and toward professional degrees in certain branches of engineering.

## Becomes Dean

By action of the board of directors June 1, Dr. W. A. Jackson, above, head professor of government and chairman of the graduate division, became dean of the division.

## Textile Short Course Closes

### Cleaners, Dyers Attend Three-Day Session On Tech Campus

The second annual short course for cleaners and dyers opened at the college Monday with an attendance of more than 100 during the first day. The three-day course was sponsored by the textile engineering department, under the direction of M. E. Heard, department head.

A special feature was the Monday night meeting to which downtown merchants were invited. George G. Gaubatz jr., Silver Spring, Mr., textile analyst of the National Association Institute of Dyers and Cleaners, was the principle speaker. The meeting was held in the cotton classing room of the textile engineering building. The day's program included speeches, a "Dutch" lunch at the Hilton at noon, programs during the afternoon, and a visit to the West Texas museum followed by a dance.

## Summer Class Names Waters Senior Prexy

### August Graduates Meet Wednesday; Elect Other Leaders

ORGANIZATION of summer school seniors was effected with election of officers, sponsors, and a committee to aid officers at first meeting of the class Wednesday night.

Officers are: G. Dallas Waters, Brownfield, president; Clifford Gibbs, Ropesville, vice-president; Virginia Spyles, Hermligh, secretary; and Mrs. Lee Lewis Reeves, Jericho, treasurer.

### Name Sponsors

Miss Zella Riegel, assistant professor of physical education for women, and Cecil Horne, head of the journalism department, were chosen class sponsors.

Committee members are Mrs. Ruth Carter and Royal Furgeson, Lubbock, and Noah Cunningham, Quail.

The class will meet at 7 o'clock Wednesday night in room 220, Administration building, to discuss further organization, invitations, and a senior gift. Officers will gather at 3 o'clock Monday afternoon to outline plans for the session, Waters said.

## College Calendar

### TONIGHT

Council of Women Graduates, tea honoring women in graduate division, Men's Dormitory, 7:30-8:30 p. m.

Saturday, June Nineteenth  
Dance, Men's dormitory, 9-12 p. m.

Monday, June Twenty-first  
Public lecture, J. L. Taber, National Grange president, Matador stadium, 7:30 p. m.

Tuesday, June Twenty-second  
Band concert, South lawn, Administration building, 8 p. m.

Thursday, June Twenty-fourth  
Esperanto class, Room 220, 7 p. m.

## Grand Canyon, Carlsbad Caverns, Texas Shows? See Page 4

Holiday trips to Carlsbad caverns, the Grand canyon, and Texas show towns are being arranged by officials of the summer session recreation program.

Transportation and living accommodation costs will be at a minimum, said Dean James M. Gordon, chairman of the program. Special buses will run to Williams, Ariz., Carlsbad, N. M., Fort Worth, and Dallas, Saturday, July 3, returning in time for resumption of class-

work Tuesday, July 6. Exact hours of departure have not been announced.

Round-trip fare to Grand canyon is \$10, to Carlsbad caverns, \$3.50, and to Fort Worth and Dallas, \$5, Gordon said. Housing accommodations at the Arizona showspot range from \$1 to \$2.50 per person, at Carlsbad from \$1 to \$1.50. Cost of meals is average at both places, the chairman said.

Additional trips to the down-

## Recreational Program Gains Early Impetus

### Recreation Head

Chairman of the recreation committee planning trips for coming holidays and other features of a twelve-weeks play program is Dean James M. Gordon of the arts and sciences division, pictured above.

### Committee Plans Varied Summer Session Play Features

By Mary Bynum Cobb

Summer recreational program is gaining impetus in the second week of the first term. Plans are being made to follow up the Tuesday night mixer with varied other play features, said Dean James M. Gordon, chairman of the summer recreational committee.

Plans are progressing for a recreational sports night program to be sponsored by the women's physical education department. The entertainments are to be open to both men and women.

### List Dance Night

The first program, a dance night, will be tonight in the gymnasium, under the direction of Mrs. Johnnye Langford, associate professor and head department and Miss Margaret Baskin, instructor in physical education for women.

Monday night is to be designated as an all-sports night, and will be under direction of Miss Zella Reigal, assistant professor in that department. Wednesday evening has been planned for the swimming night at the city pool, where free instruction will be given by the physical education department.

### Hockley, Hawaii Win

Hockley county received first prize for having the largest representation, and Miss Ioway Claunch from Hawaii was given the prize for the guest who had come from the longest distance at the all-college mixer held last Friday night on the south lawn of the Administration building.

Approximately 400 attended the informal mixer for students and faculty. The program consisted of folk dancing and varied entertainment features, and refreshments were served. Summer school band students, directed by D. O. Wiley, played numbers throughout the hour.

### Chappelle Presents

Ray L. Chappelle, acting for the committee, presented the representatives of Hockley county with a 30-inch candy stick, while Miss Claunch was given a leather bound notebook bearing a Tech seal.

Lynn county had the second largest number from one county in attendance.

Professional entertainers already listed, said Dean Gordon, are: Bob and Cleone Pollard and their players; Harry Hamilton and Wana Williams, interpretative dance team; and J. Franklin Caveny, sculptor-artist, who will give an illustrated lecture July 27. The college speech department will present a play in late July, and the chairman is negotiating with other professional entertainers.

## Grange Leader To Visit Here

### National Master Speaks At Three Meetings On Campus Monday

Louis J. Taber of Columbus, Ohio, master of the National Grange and outstanding in American agriculture, will visit the campus Monday as a guest of President Bradford Knapp. Three meetings are scheduled for the campus, the first being at 3 p. m. in the livestock pavilion, with an open forum meeting for agricultural workers, a round table discussion of leading agricultural problems as applied to this section.

### To Speak Again

A meeting at 7:30 p. m. in the stadium will be open to farmers, county agents, vocational agriculture teachers, Resettlement administration men, and the general public.

The concluding meeting will be in the college gymnasium at 8:30 p. m. for the Lubbock county Grange, a closed meeting for members in this section.

## Education Bill Gives Tech New Chances

LEGISLATIVE events of closing days in the recent regular session carry greater significance for the future of Texas Technological college than the mere passing and gubernatorial signature of an education bill in toto might suggest.

Approval of the bill by Gov. James V. Allred last week bids fair to mark the beginning of an entirely new era in the history of Texas Tech. Appropriations favoring the college, to say the least, embody the increasing recognition Texas' youngest state-supported institution is receiving from both sides of the 100th meridian.

Observers who have seen the growth of Texas Tech from its founding in 1925 have little doubt that, even without the recent legislative recognition, the college would have continued to progress with the undaunted spirit born of pioneering. On the other hand, it is obvious that the four favorable provisions of the bill place the college on the threshold of an era of new and exciting adventures in higher education.

Chances for further loss of invaluable professional talent was placed at a minimum by restoration of salaries of higher ranking staff members almost to the levels they held before undergoing a drastic cut in 1933. At least one particularly efficient faculty member had been lost, and larger colleges and universities with a more satisfactory schedule had been angling for others. Efficient instruction hardly can be defined. It is more than brilliant lectures and interesting textbook re-hashing. Its results are bound up in that intangible quality popularly labelled "culture" that is the ultimate aim of higher education.

Longer envisioned and of no less importance is the coming realization of a new library building made possible in the recently approved bill. With the opening of the 1939-40 long session, ample reading room and storage space will be available in a modern \$275,000 library building. Hampered by utter lack of space in all departments, Miss Elizabeth H. West and her assistants have fostered a collection of publications that soon will rival the best in the Southwest. Anticipation of more apropos quarters will facilitate further development.

Journalism schools steadily are gaining favor in the eyes of professional employers. Newspapers in West Texas are fast-growing, and the demand for college-trained newspaper men and women should be met with local talent. Operating as a subsidiary of the English department, a journalism bureau for four years has turned out graduates who are filling positions in leading papers of the Southwest.

Official recognition of the quality of graduate work in Texas Tech came with the provision for a separate graduate division under deanship of Dr. W. A. Jackson, head professor of government and chairman of the present graduate division.

The Summer Session Toreador adds its voice to other expressions of gratitude and anticipation of future benefits made possible by legislative and gubernatorial action.

## Texas Tech Paces The State Safety Parade

IF the United States is to be made safe in future years from wanton destruction caused by careless driving, it is logical to begin teaching elements of correct driving to high school students—the beginning drivers of today and the responsible drivers of tomorrow.

High school boys and girls will not shy at courses in traffic safety. In this era, boys of high school age have tinkered with automobiles from strip-downs to limousines and on the average are good mechanics. They know more about the insides of an automobile at seventeen than their fathers will know at seventy. The girls have entered into competition with their brothers for knowledge of mechanical operations. A few are mechanics by profession. More are versatile in distinguishing the parts of an automobile, such as accelerator, carburetor, and spark plugs. These modern students are not averse to instruction connecting their knowledge and manipulation of the parts of an automobile to the impulses and reflexes of their brains. They welcome the chance to learn because they care about safety.

One big obstacle will be overcome when teachers cease regarding courses in traffic safety as useless, burdensome, extra-curricular nuisances. Traffic safety is a much more important and vital subject to the young student behind an unfamiliar steering wheel than many of the courses in the present curriculum. Its returns will be far greater appreciated than those of the regular course. Its returns will be in the saving of human lives.

Texas is responsible for its share in the nations steadily mounting list of traffic accidents. Realizing that fact, state leaders are setting out to train high school youth in safe driving and to diminish its list of deaths.

To carry out a program of safety, Governor Allred appointed his Traffic Safety committee. Carl Rutland of Dallas is its permanent chairman, and Dr. Bradford Knapp, president of Texas Technological college, is chairman of its sub-committee on college and school education. The State superintendent of Public Instruction, Dr. L. A. Woods, has cooperated with the committee.

First, the teachers themselves must be taught to teach safety. Texas Tech is one of two colleges conducting special courses this summer for the training of teachers of traffic safety. The course is in charge of F. L. McRee, associate professor of civil engineering, assisted by representatives of the American Automobile association and the Texas State Highway patrol.

President Knapp has studied the matter the past four months. In his words, "It is the feeling of the Education committee that school students must be taught the fundamentals of safe driving and all those rules, regulations, and customs which are necessary in order to prevent accidents on the highway. It has been demonstrated that such education is effective in preventing accidents. We earnestly hope that high school students so trained by competent teachers may become habitually safe drivers."

The other college, Texas A&M, has announced its course: "Habits formed tend to remain fixed, and studies on the subject of automobile driving show that drivers tend to form the habits of their teachers. . . . Because the majority of people eventually drive a car and because the common legal age for driving is reached during the high school period, it would seem that the logical time and place for teaching drivers is as a part of the high school curriculum."

Results will not be evident in the list of traffic fatalities this year. But in 1940, if intelligent education on traffic safety continues, the ghastly figures will be decreased.

M. G.

## Work On Concrete Tennis Court Nears Completion

Play on the new concrete steel reinforced tennis court, gift of the class of '37, will begin early next week.

Finishing touches on the court are being made by W. G. McMillan, contractor. The court cost about \$800, said W. T. Gaston, Texas Tech business manager.

Reservations on any of the courts may be made on the clay courts south of the bookstore from 8 to 10 o'clock a. m. by college students. A fee of ten cents per hour will be charged.

Others wishing to play may make reservations from 10 to 12 o'clock for 25 cents per hour. Reservations can be made only for one day at a time.

Miss Mary Catherine Couch, Pecos, June home economics graduate, will teach in Idalou next year.

Miss Nancy Margarette Williams, June graduate of the home economics division, will teach at Post next fall.

## Week's Social Events Honor All Graduates

### Dean Presides At Tea For Women Tonight In Men's Dorm

By Lorena Owens

Two affairs honoring students enrolled in the graduate division are listed in this week's social calendar. The Council of Women Graduates are to hold a reception from 7:30 to 8:30 tonight in the Men's dormitory lounge with women graduates as special guests.

Miss Margaret W. Weeks, dean of home economics, will preside at the tea table, and members of the council will be in the house party. As a feature of the program, Elizabeth Miller and Madeline Ely will give piano and vocal selections. Miss Miller will play "Lento" (Scott) and "Reflets Dans L'eau" (Debussy). Miss Myrtle Dunn, instructor in voice and piano, is to accompany Miss Ely at the piano.

Men and women graduates were entertained with a tea Wednesday night at the home of Dr. and Mrs. W. A. Jackson, 2515 Twenty-second street. Hosts were Dr. and Mrs. Bradford Knapp, deans of each division, members of the graduate council, and the summer recreational committee. These included Messrs. and Mesdames J. M. Gordon, A. H. Leidigh, O. V. Adams, M. E. Heard, J. H. Murdough, W. T. Gaston, W. P. Clement, Doctors and Mesdames Mary W. Doak, R. M. Chitwood, George Langford, C. E. Russell, and Ray L. Chappelle, Misses Mabel D. Erwin, Jonnie McCreery, Elizabeth H. West, Ruth Pirtle, Margaret W. Weeks, Zella Iegel, and Vivian Johnson.

The garden was decorated with Chinese lanterns, and refreshments were served from a lace covered table centered with grapevine fruit.

Misses Jean Ayres, Rose Heatly, Bess Boverie, Alice Muse Rogers, Anna Burt Gibson, Ruth Craig, and Flossie Burkholder served.

K. M. Renner, head professor of dairy manufacturing, left this morning to attend the annual meeting of the American Dairy Science association at the University of Nebraska, Lincoln.

## Second Floormen Down First, 6-0

Paced by their veteran pitcher, Paul Nixon, with a double and home run, the second floorites of the Men's dormitory trounced the first floor dwellers 6 to 0 in the first game on their diamond east of the dorm.

Twelve games will be played by each of the three teams, the first term, with a game on tap each evening except Sunday.

Some 55 boys are signed by the managers to participate in the evening entertainment. Boys of the first floor chose Bob Sedwick of Coleman as their leader; second floor men took Coy Tindel from Brownboro; and Kenneth Clinton of Sherman was elected by the third floor entrants.

About 50 fans witnessed the first encounter.

Tonight the second floor club will take on the third floor, and Saturday the first floor will encounter the second. Monday the third floor plays first, Tuesday second and third tangle, and Wednesday first and second will again oppose each other to complete the first round of play.

## Erwin Leaves Tomorrow

Miss Mabel D. Erwin, head professor of clothing and textile department, is one of the 90 visiting instructors at the Columbia university this summer. Miss Erwin has been asked by her alma mater to teach courses

in fitting and pattern making based on a laboratory manual she wrote in 1933.

Miss Erwin will leave Saturday for Kansas City to attend the American Home Economics Association June 21 to 24. From there she will go to Frankfort, Indiana, to visit her father be-

An exhibit from the college is to be included in the West Texas Chamber of Commerce exhibit at the Frontier Fiesta which opens in Fort Worth June 26.

fore going to registration at Columbia July 8 to 12.

**Wiley Plans Cosmopolitan Program In Second Weekly Concert On Lawn**

Featuring a program with a cosmopolitan flavor, Texas Tech band school will present selections taken from composers of many nations at the second of a series of weekly concerts Tuesday night at 7:30 o'clock on the lawn south of the Administration building.

Tentative schedule of numbers released by Professor D. O. Wiley, general director of the band school, includes: "Amarita Roca", Jaime Texidor; "In A Monastery Garden", Ktelby; Marche from "Love of the Three Oranges", Serge Prokofieff; "Finlandia", a Swedish tone poem, Sibelius; Coronation Scene from "Boris Godounow", Moussorgsky; University Grand March", Goldman; "Apollo Overture", Wood; and probably two marches of a lighter nature. A student guest director will have charge of each number.

Approximately 70 band school students participated in last Tuesday's concert which had an estimated attendance of 500.

R. A. Dhossche, guest instructor, arrived this week to direct junior and intermediate bands and to teach flute. He is a graduate of the Royal Belgian conservatory in Ghent, Belgium, and was a classmate of Professor Julien Paul Blitz, head of the music department. For the last several years he has been connected with the Beaumont High school band.

Enrollment in the band school is well over a hundred and the course is still open to late registrars.

Students who have not received their copies of La Ventana, college yearbook, may secure them in room 327, Administration building, from 10 to 11 o'clock each morning or from 2 to 3 o'clock each afternoon except Saturday, according to a statement made by R. A. Mills, professor of English and faculty business manager.

Winston Reeves, editor of "candid camera" edition of La Ventana, said that 1600 copies of the publication were printed this year, showing an increase of 200 over the 1936 figure. The book contains 362 pages, 50 of which are devoted to clubs, and 72 to features showing every phase of campus life. "Candid camera" style characterizes every part of La Ventana, and it is further modernized by elimination of a humor section.

Reeves will teach a course in press photography both semesters of next year. The course is the first to be added to the new journalism department.
