

## Tech Senate to consider cheerleader, vacancy acts

By BETSY JARMON  
Staff Writer

The Tech Student Senate will discuss acts which would remove cheerleader expenses from the Student Association (SA) budget and set up special elections to fill Senate vacancies at its regular meeting today.

The meeting will be at 8 p.m. in room 358 of the BA Building. The Cheerleader Financial Abolition Act was authored by Arts and Sciences Senator Rick Merritt. During the present school year, the SA allocated \$1,000 to the cheerleaders.

The other source of cheerleader funds is the Athletic Council, which provides the cheerleaders' travel expenses for out-of-town games. Members of the Athletic Council have said they will not vote to have the Athletic Department finance completely the cheerleader program.

SA President Bill Scott and head cheerleader T-Bo Smith have both proposed to the Athletic Council that the Athletic Department take over financial control of the cheerleaders.

Sponsors of the Senate Vacancies Appointment Act are Education Senator Bruce Barrick and Arts and Sciences Senators Ken Fields, Candy Hall and Denise Westbrook.

Presently, vacancies in the Senate are filled by appointment by the Judiciary Committee with Senate approval.

Barrick said he will introduce an amendment to the act at the Senate meeting to set up three election times for filling vacancies — the end of September, the beginning of November and the end of January. Regular Senate Elections are held in March.

The Student Regent Act, also sponsored by Fields, was considered in the Government Operations Committee meeting Thursday night and may be debated by the Senate today.

This act would assign the duties of student representative to the Board of Regents to the SA president.

A seven-man committee established under a bill passed by the Senate last semester is working to persuade all Texas gubernatorial candidates to support the idea of students on the

Board of Regents. The committee is also writing to the student associations of the 22 other state colleges and universities in Texas, asking their support for the proposal, said Britt Harrington, Business Administration senator and member of the committee.

Fields said the Senate will direct the SA president as to what policy to support as a board member. "This gives him (the SA president) further duties but no further power," Fields said. "I hope it comes off. If it does, it will be one of the most important things the Senate has done this year."

The Government Operations Committee will report the wording to be included in Wednesday's referendum. Students will vote on whether the SA business manager and secretary should be appointed by the SA president. Both are now elected posts.

A proposal to have two elected SA vice presidents will also be on Wednesday's ballot if the Senate approves the SA Executive Officer Omnibus Reorganization and Constitutional Amendment Act today.

The vice president for internal affairs would be president of the Senate.

The vice president for external affairs would be in charge of implementing SA programs and would supervise the SA business manager and secretary.

The act is sponsored by Business Administration Senators Paul Horton, Bill Sewell and Bob Craig, Agriculture Senators Joe Parker and Freddie Williams and Graduate Senator Mike Tindall.

Specified in the act are monthly salaries of \$250 for the SA president, \$100 for each vice president, \$50 for the business manager and \$50 for the secretary in addition to the regular office salary received by the SA secretary. (If a proposal to be decided in a referendum Wednesday is approved by the student body, the secretary and the business manager will be appointed by the SA president.)

Present monthly SA salaries are: President, \$300; vice

president, \$150; business manager, \$75; and secretary, \$50.

A bill to allocate \$125 to the Free University program for the spring semester was passed by the Allocations Committee and will also be reported to the Senate.

Bills to be introduced today include two which censure the administration for its handling of the University Center (UC)-music department expansion.

The University Center Expansion Resolution is sponsored by Arts and Sciences Senators Hall and Polly Kinnibrugh and Senator Craig. The idea for the resolution originated in the Freshman Council.

The resolution urges the administration to adopt a "radically different approach" to UC expansion, and the students to "come out of their cocoon of apathy and be concerned about what happens to their dollars and their university."

The UC-Music Building Expansion Clarification Act is sponsored by Arts and Sciences Senators Ann Graham, Merritt, Fields and Hall and Senator Tindall.

"The need for improved and expanded facilities for both the UC and the music department are obvious to the point of being embarrassing for Texas Tech University," the act states.

The act states there is a need for more music facilities. "The current use of inadequate space in temporary buildings scattered all over campus is a disgrace to the quality and quantity of serious music students."

The act would "strongly condemn the administration's course of inaction, silence and intended misuse of specifically designated

student funds," encourage students to write letters to the UD and the Board of Regents, provide a petition to demand an immediate statement concerning the use of student fees earmarked for UC expansion and apply "every means of pressure available" to get action on UC expansion.

"Should the Administration and the Board of Regents take no definite action at the next meeting, the Student Senate shall designate and organize a day of protest to seek information and redress," the act states.

Bills sponsored by Law Senator Hac Brummett would include a statement in all university placement publications of the belief by Tech students in equal opportunity employment, provide for the issuance of Tech library cards to members of the Lubbock community, ask university officials to arrange a more effective manner of returning money lost in campus vending machines, and provide automatic refunds of the property deposit paid by each student (now these refunds are made only on the student's request).

A revision of the Executive Order Act sponsored by Senator Hall, Senator Brummett, Senator Barrick and Graduate Senator Rolf Wigand specifies that the SA president cannot create legislation by executive order.

The revision retains the provision of the Executive Order Act which requires a two-thirds vote of the Senate to override an executive order.

Senator Craig and Senator Parker will introduce a resolution calling for one semester contracts for dorm residents.

## 'A whole package of compromises'

# Kennedy offers proposals for UC-music expansion

By CASS RAY  
Managing Editor

Dr. S. M. Kennedy, Tech vice president for academic affairs, presented Wednesday what he called "a whole package of compromises" on University Center-Music Center expansion.

Kennedy said he was optimistic that the available construction funds would be sufficient to provide each of the 16 points of the University Center (UC) priority list "although we may have to do some shaving" on individual facility proposals.

"I hope that we have kept the key features on each of the priority lists," Kennedy told the 13 persons representing the UC, music department, Tech administration and project architects at the Wednesday afternoon meeting.

Attending were Nelson H. Longley, UC director; Bill Sewell, UC president; Dr. W. Clark Ellzey, faculty member of the UC Board; Dr. Lawrence L. Graves, dean of Arts and Sciences; Dr. Gene Hemmle, chairman of the music department; Robert W. Deahl, professor of music; and Margaret Cavenagh, president of the Tech student chapter of Music Educators National Conference.

Also present were Dr. Owen L. Caskey, associate vice president for academic affairs; Leo E. Eells, comptroller and treasurer; Bicknell K. Beckwith, director of development and information services; Norman G. Igo, director of new construction; Bob Ford, assistant to the director of new construction; and Atmar L. Atkinson, project architect.

One million of the available \$4.3 million is to be spent on the construction of a 600-seat organ recital hall, according to the proposal presented by Kennedy.

A \$50,000 organ from Oberlin, Wis., will be housed in the recital hall, Kennedy said. The organ will be purchased over a three-year period and then donated to Tech by Mrs. Tom Moss of Midland, Kennedy said.

The music department will have first priority on the use of the recital hall and will probably need to use it 80-90 per cent of the time, Kennedy said.

Another \$1 million of available funds is to be spent on the construction of a 1,000-seat opera-movie theater.

The UC will have first priority on the use of this hall although the music department will probably need to use it 50 or 60 times throughout the school year, Kennedy said.

"I look forward to the day when we'll have a speaker visiting and speaking on campus every single day and this theater will be perfect for that use," Kennedy said.

Kennedy explained that the acoustical treatment differs slightly between an opera hall and a movie-speaker theater "but from the front of the stage to the rear of the auditorium, it's the same kind of thing." The idea of a combination opera-movie theater is "very plausible," Kennedy said.

The opera-movie theater stage will be slightly smaller than the Municipal Auditorium stage but will be slightly larger than the University Theater stage, Kennedy said.

The opera-movie theater seats will be on one level. "We compromised the expensive balcony out of the proposal," Kennedy said.

Kennedy presented several proposals for the exact location of the recital hall and the opera-movie theater. Each proposal placed the halls between and connecting the UC and Music Building.

One scheme placed the two halls end-to-end, another located them side-by-side and a third placed them in an adjacent position. Service corridors between the two would provide truck docks for both halls.

Kennedy said the campus street east of the UC might require widening.

Each of the location proposals left some sort of open outside area for the construction of a courtyard, one of the 16 points of the UC expansion priority list.

"We want to get what's best for the university and for the students as soon as possible," Hemmle said. "We've waited a long time for expansion and we're delighted to get what we can."

The remaining \$2.3 million would provide as many as possible of the priorities of both groups (UC and music department), Kennedy said.

The proposed 300-seat snack bar addition would include both ground floor and second floor annexes.

A "gentle, sloping staircase" would link the ground floor

snack bar to the second floor seating area, Kennedy said.

Also proposed by the UC was a 250-seat cafeteria dining room addition. One of Kennedy's proposals suggested that the west wall of the existing dining room be removed so that the dining area could be extended westward.

Favored by Kennedy, however, was an alternative which proposed the conversion of the existing UC Ballroom into the dining room addition. Kennedy also suggested that another cafeteria serving line be placed in the new dining room addition.

Kennedy said the existing dining room might be converted into a games area after meal serving times.

Asked by Sewell if the ballroom might still be used for occasional dances, noon concerts and speakers, Kennedy said the dining tables and chairs could be moved aside very easily.

"An open ballroom used for four or five dances a month is a luxury we cannot afford," Kennedy said. He called the ballroom "the least effectively used footage on campus except the football stadium, where we host six galas a year."

"Any speaker will choose the opera theater over the ballroom... The ballroom is a sorry place to speak in. You just can't be heard," Kennedy said.

"This proposal is very surprising but if we can still use the area for concerts and dances, I can accept the proposal," Sewell said.

Longley said he was not sure he could accept the proposal but that he would have to consider it further before making a decision.

Kennedy said he was instructing the architects to proceed with the plans as proposed but that he was "reserving the option to have my mind changed."

Kennedy said \$200,000 would be saved by the conversion of the ballroom. These funds, along with others saved in other areas of construction, would be applied to providing more of the priority list points, Kennedy said.

Also proposed by Kennedy was the construction of eight meeting rooms on the second floor of the UC, above the existing dining room.

"Ten or 12 years ago, when this portion of the University Center was built, we designed the roof so that meeting rooms could be built up there," Kennedy said. "We even put in a service corridor."

The meeting rooms' capacities will vary from 30 seats to over 100.

New servery facilities and the service elevator already in use would provide meal service to the rooms, Kennedy said.

The rooms would be used as classrooms by the music department during the day and as UC meeting rooms at night.

Kennedy said "an orderly listing of dates and uses" would be submitted to his office before priorities would be granted.

Also proposed on the UC priority list and included in Kennedy's proposals was the construction of UC program, student activity and administrative offices.

Kennedy said \$50,000 could be saved by expanding the UC games area into existing space in the UC basement.

"There is a room beside the existing games room which was originally intended for a cooling station," Kennedy said. "We don't need it for that anymore. We can expand the games area in that direction."

Kennedy said ping pong, pool and card tables would be placed in the addition.

Kennedy said he hoped funds would be available to provide the seating and TV lounges and faculty club serving line requested on the UC priority list.

He said he thought the \$39,000 exhibit space requested on the UC priority list was suggested before the "excellent" Art Building exhibit space was made available to students.

Atkinson estimated the ground should be broken for the expansion project in April, 1973. He said the project should then be completed in another two years.

Igo described the various stages through which the project must go and said students would be given a chance to see the plans at each of the stages.

Igo said Kennedy and representatives of the UC and music department would approve each stage of development.

Kennedy said there had been 28 meetings attended by university officials and UC and music department representatives to decide the proposals presented at Wednesday's meeting.

Tech Vice President for Academic Affairs S. M. Kennedy describes his proposals for UC-Music Center expansion to representatives of both campus groups.

### Expansion proposals

## U.S. Senate candidate visits campus

By TOM BRASHIER  
Copy Editor

Harold Barefoot Sanders, Democratic candidate for United States Senator, arrived in Lubbock Wednesday afternoon as the latest, but certainly not the last, of the political hopefuls to visit the Hub City in hopes of winning the West Texas vote.

Sanders will speak at 3:30 p.m. today in room 107 of the Law Building. He will discuss the topic "Justice Under Katzenbach and Clark." The meeting is open to all Tech students and a question and answer period will follow.

Sanders, who is squared off against veteran former Senator Ralph Yarborough for the Democratic primary in May, has served in federal government circles the past few years, and is classified by many as the "dark horse" candidate.

"I think I have a problem in getting well-known around the state though I don't exactly start from ground zero," Sanders said. "I have a good deal of experience not just at the national level but at the state level as well."

Sanders' political record goes back to a stint as a state legislator in the fifties and as a U.S. Attorney in the early sixties. More recently he served as Assistant Attorney General in the

Johnson administration under Katzenbach and Clark, and later as Legislative Counsel to President Johnson.

In the upcoming primary Sanders sees himself in a fairly favorable position. "Texas Democrats fight it out pretty hard during the primary and I feel like I would be in a better position than anyone else to bring them together after the primary."

Sanders added that he intends to run an affirmative campaign with a fresh approach to issues, "looking ahead rather than looking back."

He cited major areas he intends to work toward as "improved education, better health care, better opportunities for everyone and improved law enforcement."

Sanders put the economy as the number one priority, however. "I think the Republican administration has appallingly mismanaged the economy... with the \$40 billion deficit and the prospect of more inflation," Sanders added. "I think that is our first order of business domestically."

Although economy may be the "first" order of business, Sanders' immediate responsibility comes with the primary race at hand. Wednesday evening was spent planning his West Texas campaign with area Democratic leaders. Chances are he'll be back in Lubbock...soon.

Gaining admittance with a search warrant, the officers found dangerous drugs in the office.

He refused to give them permission to search his car parked outside, but they searched it later after obtaining a second search warrant. The policemen found marijuana in the automobile.

The appeals court said the second warrant was faulty because it was based on hearsay from an unnamed informant.

## Former UT prof's drug conviction reversed

AUSTIN (AP)—A former University of Texas English professor won reversal Wednesday of his conviction on charges of marijuana possession.

The Texas Court of Criminal Appeals knocked down the four-year prison sentence assessed Floyd Grady Stoddard on grounds of a faulty search warrant.

Stoddard's office at UT-Austin was searched by policemen in 1969.

## Basketball diplomacy—a new twist

by Don Richards  
Editor

Basketball coach Gerald Myers has learned a few tricks about playing before unruly out-of-town crowds.

Tuesday, Arkansas fans, who sit not more than 15 feet behind the visitors' bench, gave a lot of razing to the Tulsa coach during the freshman game preceding the varsity contest. Myers watched this and anticipated getting the same treatment later in the night.

As Myers stood in front of the bench watching the Raiders warm up, the fans started early with their verbal barrage. Myers turned to the crowd, smiled, pointed at Tech trainer Jim Juvenal and said, "He's the man you want."

According to many marriage counselors, financial problems cause the major troubles in today's marriages. Not everybody can find a simple solution to this problem, but it seems Jacqueline Kennedy Onassis has found the cure.

In a recent story by United Press International a marriage contract was revealed between Jackie and Aristotle that gives her at least \$625,000 a year for her comfort, pleasure and her children. The contract was worked out between the couple's lawyers three days before their 1968 marriage.

Among many benefits the contract stipulates that the couple will occupy separate bedrooms at all times no matter where they are in the world. Normally the couple stay in different spots when they travel.

All of Jackie's personal bills, including

taxes, rents, employe wages, telephone and electric bills everywhere are to be paid by Ari. She receives a budget of \$7,500 a month for personal care such as cosmetics and hair-dressing and \$6,250 a month to maintain a permanent bodyguard.

Another stipulation of the contract says that Jackie is to get a \$10,000 a month dress allowance. This is a bit unusual seeing as how the former first lady was chosen number two by fashion designer Mr. Blackwell of Hollywood in his list of this year's 10 worst dressed women. Only actress Ali McGraw was listed as a worst dresser among the world's popular women.

Jackie also drove a hard bargain on matters concerning separation (by death or otherwise) of her and Aristotle. If she leaves him, she will receive a lump sum payment of \$18.75 million. If he leaves her, she will get \$10 million for each year of marriage. In addition Mrs. Onassis will get \$187,500 a year alimony for 10 years if she stays married for more than five years.

If Aristotle dies, she will inherit \$105 million—only a small part of his fortune. The rest, said to be five or six times as much, will go to the children of his first marriage.

If Mrs. Onassis dies before her husband, he will be responsible for John and Caroline and be trustee of the fortune they inherited from their father, President Kennedy.

Having a successful marriage like that is like the old story of what it takes to be a successful Texas rancher. For every acre of ranchland you need 5 cows, one bull and one oilwell.

*Editorial*

## Students polled on cheerleader funding

TONIGHT THE TECH Student Senate will consider a bill proposing abolition of Student Association (SA) funding of cheerleaders after this year. According to a UD telephone survey, the Senate appears to be heading in the wrong direction on this annually contested issue.

Wednesday afternoon, the UD conducted a random sample survey by telephone, of students listed in the student directory. A total of 190 students were contacted (such a sample is considered to be representative of a campus the size of Tech).

They were asked: "Which plan of funding of cheerleaders do you favor?"

EACH STUDENT WAS given the same answers from which to choose:

- (a) Joint funding by both the Student Association and the Athletic Council
- (b) Athletic Council responsibility
- (c) Student Association alone
- (d) None
- (e) No comment

RESPONSES OVER-WHELMINGLY favored joint funding of cheerleaders by both the SA and the Athletic Council.

The totals for each category were:

- (a) Joint funding — 106
- (b) Athletic Council — 49
- (c) Student Association — 25
- (d) None — 2
- (e) No comment — 8

Well over one half of the students polled said they favored the joint funding concept for cheerleaders. Presently the Senate allocates \$1,000 for cheerleaders while the Athletic Council provides \$500 for traveling expenses, transportation, meals and lodging for four on out-of-town games. This joint venture appears to meet with the approval of the students polled as a representative sample.

WE DO NOT WISH to debate the relevance of cheerleaders or even athletics in interpretation of this poll, but it will be hard to ignore the fact that the students surveyed obviously do not oppose the cheerleader program (only two voted for NO funding). The present system of joint funding received approximately 55 per cent approval from those polled.

THE FINAL DECISION on funding is to be considered tonight by the Senate. Fifty-five per cent of the students polled should be hard to ignore.

## State legislators underpaid?

Who said our state legislators are underpaid?

Seems to me somebody is usually talking about the base pay of \$4800 per session, while the generous "interim allowances" are totally disregarded. Some three years ago, our selfish senate voted themselves \$1700 per month for

expenses and they recently raised that to \$2400 per month.

They also get per diem and travel allowances.

I am aware these are maximum amounts, so if you hear of any of 'em who fail to draw this maximum, please let me know.

Lillian Rountree 4503 W. 18th

## Support abolition of women's hours

As representatives of freshman women, we would like to concur with the previously expressed opinions in other letters supporting the abolition of hours for freshman coeds.

Not only do fixed hours fail to aid in making freshman women study by forcing them to be in at a certain time, it also fails to preserve their reputations (a

reputation is not valid unless it is earned; it cannot be real if it is made of rules). Also, fixed hours violate our rights as voting adults and they constitute definite discrimination against the female sex since freshman men are not similarly bound.

We are wholly in support of the proposal to duplicate men's

open house hours in women's dorms. As voting adults who pay their campus fees like all other students, we resent being the only segment placed under these special restrictions.

Please help us abolish this senseless and unfair policy.

Debi Hall, Sherry Bevers, Ruby Adams, Deborah Carter, George Smith, Karen Finklea, Kay Lessing, Adele English

## Letters to the editor

### Writer tired of dorm food complainers

I am a student who happens to live on campus. I am also a person who is sick and tired of hearing people gripe about the dorm food.

I don't think that I have set down to eat a meal without someone complaining about the food. For all you perpetual grippers, this letter is for you. You seem so quick to criticize the food, without even so much

as to think of how much each meal costs you.

I live in Thompson Hall, so these figures are arranged on my costs. If you only paid \$25 for your room, that leaves only \$60 for 80 meals.

Now, for all you complainers, that means you pay 75 cents per meal. And, for 75 cents a meal, those are good enough for anyone.

If you want to eat steak every meal, then I suggest two things: First, you need to pay \$148 a month for food alone.

Second, I suggest you move out of the dorm by pleading a hardship case due to an ulcer. GOOD LUCK ...

Shannon McWilliams  
421 Thompson Hall

## About letters THE UNIVERSITY DAILY

Gets hero's welcome

# Japanese soldier 'surrenders' after 28 year vigil on Guam

**TOKYO (AP)** — Soldier Shoichi Yokoi came home from World War II on Wednesday with his rifle, a salute and an apology to Emperor Hirohito. Rather than surrender to his American enemy, Yokoi held out for the last 28 years in the jungles of Guam. He was found there last Thursday, fishing for his food. He is now 56 and this is his first look at his homeland since the war. "I have returned although I feel shame," he said. "I've come back to report to the Japanese people about the fighting and my experiences in Guam because I don't know

what wars we may encounter again. "I brought back the rifle entrusted to me by the honorable emperor which I want to return. I want to report that I am sorry I did not serve his majesty to my satisfaction." Yokoi was extended a hero's welcome as he walked down the ramp from a jetliner that flew him from the tiny Pacific island. It was his first visit home in 31 years, having been transferred to Guam from the Manchurian front. On Guam, Yokoi lived in a tunnel he dug in the jungle undergrowth and survived on breadfruit, coconuts, snails, rats' livers,

shrimps and frogs. He made his clothes out of tree barks. He kept time by marking a tree trunk every full moon. He stocked his cave with coconuts, which proved invaluable during typhoons. After his capture, Yokoi told officials he was aware of Japan's surrender in World War II from leaflets and newspapers scattered about the island. But he refused to surrender. He obeyed the old imperial military code to die rather than live in disgrace as a prisoner. Accompanying Yokoi back home were the

ashes of two of his wartime buddies — Mikio Shichi and Satoru Nakahata — who died from malnutrition eight years ago. He said his first plane ride was like riding in a train and the first sight of Mt. Fuji brought tears to his eyes. Asked what he thought of the war, Yokoi pounded a table and said, "Japan lost the Pacific war because it lacked arms, warships and planes and not because of any lack of fighting spirit." Yokoi, his eyes red from tears, told

newsmen when he recovers his health he will console the souls of the war dead and visit families of comrades who died in Guam. From the airport news conference Yokoi was taken to the Tokyo National Hospital where he will undergo medical observation for some time before he returns to his home town in Nagoya in central Honshu. Yokoi has back pay of about 50,000 yen awaiting him. At today's exchange rates this is worth \$162. But he already has received an outpouring of gifts and cash donations that amount to more than \$162,000.

# Frequent draft lottery queries, answers told

**WASHINGTON (AP)** — Here are some of the questions that 19-year-olds involved in Wednesday's draft lottery might ask and the available answers:

**Q.** What is the highest number expected to be called in 1973?  
**A.** Draft Director Curtis W. Tarr says he has no idea now. But it's expected to be far below last year's No. 125. Another factor is that the draft authority expires in mid-1973 and is not expected to be extended.

**Q.** If I don't get drafted under this lottery what happens?  
**A.** You keep the number you received as long as you're exposed to possible draft, normally up to age 26. If you are not drafted next year and you are 1A you drop into a less vulnerable category on Dec. 31 and can't be called short of a major national emergency such as World War II. If you have a deferment and keep it you would be vulnerable to a draft, if there is one, in the year you drop the deferment.

**Q.** If I am drafted when might I be called?  
**A.** You have to be given at least 30 days notice to report.

**Q.** How do my chances in this lottery compare with my chances if I had been in last year's lottery?  
**A.** Your chances of being drafted are considerably less.

**Q.** What about the next lottery?  
**A.** You have to be given at least 30 days notice to report.

**A.** Plans are now to hold a standby lottery early next year even though the draft authority probably will expire. Plans at this time are to give the usual mental and physical exams to men with low numbers.

**Q.** Are there any prospects for a Volunteer Army?  
**A.** President Nixon is sticking by his promise of a zero draft by July 1, 1973, and all sorts of lures have come into being to try and achieve this. There were two pay raises for the military last year, especially for low rankers. The military is trying to provide better living conditions both for barracks and family housing. Many of the old chores, such as

KP and grass-cutting, are being turned over to commercial operations.

**Q.** Now that they are giving no more student deferments what sort of deferment may I get?  
**A.** The principal one is for hardship. Also there are deferments for those who join Reserve components although some limits have been placed on this.

**Q.** I do not have a student deferment although I am in college and will graduate in June 1973. If my draft number comes up in January or February, what happens?  
**A.** You'll be permitted to graduate before being called.

# Mutscher hits voter trail despite bribery trial ahead

**AUSTIN (AP)** — House Speaker Gus Mutscher, facing trial on bribery charges, plans to make the rounds of counties in his district Thursday filing for re-election, his top aide said Wednesday. Rush McGinty, said Mutscher planned to drive to Brenham, his home town, Wednesday and travel through the district the following day. Mutscher must file with county Democratic Party chairmen in Madison, Grimes, Waller, Austin, Burleson and Washington Counties — the 29th legislative district.

Mutscher, McGinty and Rep. Tommy Shannon all go on trial in Abilene Feb. 28. Shannon also

has announced for re-election. The speaker is charged with accepting a bribe from Houston financier Frank Sharp in 1969 in return for his efforts to pass banking legislation desired by Sharp. McGinty and Shannon are charged with conspiracy to accept a bribe. The indictments were returned by a grand jury in Austin, but State District Court Judge Tom Blackwell moved the trial to Abilene on a change of venue. Mutscher has been elected from his East Texas district every two years since 1960. He has been speaker since January 1969.

# Draft lottery calendar

**WASHINGTON (AP)**—Here is the 1973 draft lottery calendar as drawn Wednesday for two million men turning 19 this year:

# National Liberation Front group offers solution to Vietnam war

**SAIGON (AP)** — The Viet Cong said Wednesday it could begin immediate discussions with the Saigon government toward a political solution of the war if President Nguyen Van Thieu resigned now and the United States set a troop withdrawal deadline. In calling for Thieu's immediate resignation, a national Liberation Front radio broadcast said, "Thieu and his oppressive machinery, instruments of the U.S. Vietnamization plan," are the "main obstacle" to a political solution. It said the United States, by setting a date for the complete withdrawal of all allied forces and giving up all U.S. bases, could win freedom for the American pilots held in North Vietnam.

The eight-point allied peace proposal disclosed by President Nixon a week ago included a provision that Thieu would resign a month ahead of an election, with a caretaker government to serve in the interim. It did not provide, however, for any dismantling of the government machinery nor rule out Thieu as a candidate in the election.

The broadcast said that if the preliminary conditions including Thieu's immediate resignation were met, the National Liberation Front "will discuss immediately with the Saigon administration the setting up of a national reconciliatory government composed of three parts to organize a general election to elect a National Assembly, set up a constitution and organize an official government for South Vietnam."

# Guard reports missing boat

**NEW ORLEANS (AP)** — The U.S. Coast Guard reported Wednesday that a 572-foot tanker with 35 persons aboard is missing off the coast of Galveston. A spokesman said the T-2 tanker, owned by Texas City Tankers, left Freeport, Tuesday afternoon and failed to arrive on schedule in Galveston. The spokesman said an aircraft in the area reported sighting a column of smoke Tuesday afternoon, but efforts to locate the source of the smoke failed.

# The Music

by Bill Goodykoontz

This week we'll get away from good old rock 'n' roll, and look at some good more jazz-influenced material.

**OSIBISA.** Santana started this cross-cultural thing, really. They combined a little of that native drive and rhythm influence with a good hard rock basis to make the music palatable to the American record-buying public. It wasn't as much a sellout as it was a contrived art. Sort of like the old melting pot idea—combine two cultures to create a brand new

third. So, Santana has "made it"...

But now there is Osibisa. Seven fine musicians from Ghana, Grenada, Antigua, Trinidad and Nigeria. The name means "criss-cross rhythms." That is a good description.

These guys have their roots, and they let you know it. They are less pop-oriented and more musically complicated than that other "culture" band. The comparisons will still come up

though. Some of the rhythms are similar; the harmonies are more unusual, as is the instrumentation. I've never heard police whistles used in rock before. I really enjoyed this album. I hope that enjoyment doesn't wear off with time. We'll see.

**THE INNER MOUNTING FLAME** by John McLaughlin and the Mahavishnu Orchestra.

This is McLaughlin's third album—his latest and his best. The material is, again, very electric and very experimental in mood, harmony, new rhythm patterns and in the whole musical texture. Every piece is beautifully coordinated—this is a band, not a person.

The LP is not as easy to get into as **DEVOTION**, because the musical styles are much more complex. There is less emphasis on McLaughlin as a soloist, and more on the other members of the band, especially Jerry Goodman (from the "Flock") on violin. He and Jan Hammer on piano are outstanding additions to the group. Hammer's keyboard work in "The Noonward Race" is truly unbelievable.

One piece begins with a very mystical effect created by the background harmony and the lead guitar. But this slips into a basic rock-blues pattern with some good-time piano on the left. This is the most unusual number I've ever heard from McLaughlin.

I still maintain that "Soft Machine" is the most perfectly put together instrumental group in what I very loosely call rock music. But surely, McLaughlin and friends are a close second. Don't miss this one!

**UNIVERSAL CONSCIOUSNESS**—Alice Coltrane.

This album includes some of the most exquisite harmonies I've ever run across. Every piece on this album is totally unbelievable. It will take headphones and total concentration, because Alice Coltrane is a musical artist. This stuff may overload your circuits, so be careful what you play with when you listen to it.

# Conrad magazine to begin in March

"Conradiana," world-wide literary magazine, will release its first issue published on the Tech campus sometime in March. It will be a double issue.

Dr. Daniel Lees, general editor of the journal, said that the "Conradiana" is the only journal in the world devoted exclusively to the life and work of the Polish-born English novelist Joseph Conrad.

"We chiefly publish learned scholarly writings about Joseph Conrad's writings, novels and short stories," he said. "It's a continual bibliography," he added.

The "Conradiana," a non-profit organization, has worldwide contributors who are not paid for their articles. Each author does receive at least ten prints of his work.

The journal was founded in November, 1967, at the University of Maryland. In June of 1969 the magazine was located at McMurry College in

Abilene, Tex.

This fall, due to better facilities and financial funds, the "Conradiana" moved to Tech. It receives support from three sources: the department of English, the College of Arts and Sciences and the Graduate School.

Dr. Lees, assistant professor at Tech, said that he has reduced his teaching load to half-time. A secretary has been hired to help him since he took over the job in November.

The mailing list consists of 700 subscribers. Dr. Lees said the list "includes foreign subscriptions and about 300 libraries at present."

The journal is available for \$4 a year. It may also be purchased at the English department. Those wishing to subscribe can write:

"Conradiana," P.O. Box 4229, Texas Tech University, Lubbock, Texas.

## About organizational activities

The University Daily reserves space on inside pages for announcements of organizational activities. Persons wishing to submit information for publication, including Raider Roundup, should send details to the UD, Journalism Bldg., Room 206, or by calling 742-4254 from 1:30 to 4:30 p.m. daily. Information should be delivered two days before publication date.

## Play held over two more days

Two additional performances of Tech's Laboratory Theater production "Once Upon a Mattress," will be presented at 8:15 p.m. Monday and Tuesday.

Tickets are available at the Lab Theater Box Office in the Speech Building. For more information call 742-2151.

# Cultural Post

by Mark Williams

**DEPARTMENT OF MUSIC TODAY**—Neil Hilton, clarinet, will be featured at the Junior Recital at 8:15 p.m. in Music Building, Room one.

**FRIDAY**—Henry Gonzales, under the auspices of University Artist Speakers Series, will lecture at 7:15 p.m. in the Municipal Auditorium.

Faculty Brass Quintet will play in the Croslin Room of the Library at 8:15 p.m.

**SUNDAY**—Imelda Delgado, pianist, will perform in the University Center Ballroom at 4 p.m.

**NEW MUSEUM THROUGH MARCH 5**—

"Texas Paintings and Sculptures: 20th Century" will be on exhibit in the east, central and west galleries through March 5.

This exhibit and all others may be viewed during regular museum hours: 10 a.m. - 5 p.m. Tuesday through Saturday and 1 p.m. - 5 p.m. on Sunday. The Museum is closed on Monday.

**SATURDAY**—"Indian Star Legends", the planetarium lecture-demonstration, has been held over from January. It will be shown at 3 p.m. Admission is 50 cents for adults, 25 cents for students and no charge for members of the West Texas Museum Association.

**SUNDAY**—"Indian Star Legends" will be shown at 3 p.m. and 4 p.m. The South Plains Archaeological Society will meet in Assembly Room at 2:30 p.m. The Archaeological Institute of America will meet in the Museum Library at 3 p.m. Also at 3 p.m., the South Plains Astronomy Club will meet in Classroom A.

**TUESDAY**—"Augustan Age" will be the lecture topic of the Art Seminar currently exploring the spectrum of "Roman Art." The seminar will meet at 10 a.m. in the Assembly Room.

**WEDNESDAY**—"Augustan Age" will be the lecture topic of the Art Seminar currently exploring the spectrum of "Roman Art." The seminar will meet at 10 a.m. in the Assembly Room.

**THURSDAY**—"Augustan Age" will be the lecture topic of the Art Seminar currently exploring the spectrum of "Roman Art." The seminar will meet at 10 a.m. in the Assembly Room.

**FRIDAY**—"Augustan Age" will be the lecture topic of the Art Seminar currently exploring the spectrum of "Roman Art." The seminar will meet at 10 a.m. in the Assembly Room.

**SATURDAY**—"Augustan Age" will be the lecture topic of the Art Seminar currently exploring the spectrum of "Roman Art." The seminar will meet at 10 a.m. in the Assembly Room.

**SUNDAY**—"Augustan Age" will be the lecture topic of the Art Seminar currently exploring the spectrum of "Roman Art." The seminar will meet at 10 a.m. in the Assembly Room.

# Woman not accepted into Saddle Tramps

"You've come a long way, baby" — but not far enough to become a Saddle Tramp if "baby" happens to be a female. This is what Candy Hall, Lubbock senior, Sociology major, found out when she went through the Saddle Tramp Fall Rush.

"Many of the Saddle Tramps didn't believe I was serious about wanting to pledge," said Mrs. Hall, "but I was."

Jim Gaspard, Port Arthur senior, advertising major, treasurer of the Saddle Tramps, said Mrs. Hall was taken very seriously. "She made it through three 'cut' sessions to the third smoker. Only 29 people out of approximately 250 went to the last smoker," he commented.

Vice President of the organization, Miller Bonner, Hurst junior, journalism major, said Mrs. Hall could not be taken seriously. "A section in our constitution says it is an all-male organization," he said.

Mrs. Hall said she did not think she could be admitted even before she went to the first smoker. "It was one of those million-to-one things, but I wanted to try. I was disappointed when I wasn't accepted," said Mrs. Hall.

For a moment, Mrs. Hall said maybe it was good she was not admitted since she is already involved in many activities on campus. "My husband might

have divorced me!"

She continued, "But Bobby (Robert Hall) is going to run for an office on campus soon, so I wouldn't have felt badly had I gotten in. I really wanted in."

Gaspard said he could see no reason why women should not be members if they were qualified. "But we felt Candy didn't have enough time to devote to Saddle Tramps because she is already involved in Senate activities besides being married."

Mrs. Hall feels women would benefit the organization. She commented, "After all, most high school spirit clubs are composed of females. And when an outstanding individual joins an outstanding organization, there is no way both can't benefit."

Bonner said he did not think women would ever be able to join because it has been a men's organization since its beginning in 1936. He said, "There are certain things we do that women just wouldn't be able or want to do."

He explained that Raider Rustlers was originally a female branch of the Saddle Tramps. Now it is an unofficial group of girls who desire to recruit athletes. They must go through a screening session by the organization.

# Coach on KTXT-TV

"Tech Tansy Ragwort," a TV special, featuring various happenings on the Tech campus, will again this semester appear at 6:30 p.m. Thursday nights on KTXT-TV, Channel 5.

Tonight's program includes an interview between University Daily Sports Editor Miller Bonner and head Raider basketball coach Gerald Myers. Discussion will center around Tech players and Coach Myers' assessment of Tech's chances in Southwest Conference play.

Also featured on the program will be "Three-Way Glass," a folk and religious group, composed of Tech students. Members of the group are Bill Gammil, Bill Louthan and Jimmy Garrison, all sophomores.

Coming from the Dallas-Ft. Worth area, "Glass" recently played at the Miss Cotton of West Texas Pageant, the Tech coffee house and First Baptist Church student services.

**VOTE FOR LIQUOR BY THE DRINK**

question: Can we have a "Beer Garden" with inexpensive beer sold?  
answer: Yes! --Places of business may be put in anywhere in the city limits (subject to city ordinances) which may serve beer only, wine only, or mixed drinks only, or in any combination.

question: Why should we pay \$10 to \$15 a year for the privilege of buying a glass of beer at 50 cents to 75 cents a glass in private clubs?  
answer: You shouldn't! The addition of competition throughout the city and near the college will provide places where beer can be sold at 25 cents a glass.

question: Will a membership fee be necessary?  
answer: No! Most places serving alcoholic beverages will be open to the public.

**Sign the petition**  
The petition which will allow you and other citizens of Lubbock to vote for "liquor by the drink", will be circulated for the signatures of registered voters.

Paid Pol. Adv. - Tech Students for Liquor by the Drink

# Odom drafted by Giants

By MILLER BONNER  
Sports Editor

## Tech receiving ace tabbed as possible defensive back

"It sure was a surprise to me," said Johnny Odom Wednesday after being chosen in the tenth round of the National Football League's annual draft of college players.

Odom, a flanker, tight and split end during his career at Tech, was picked by the New York Giants as a defensive back.

But the tab of defensive back applied to Odom's name doesn't necessarily mean the Giants are going to play Odom at that position.

"They told me that that doesn't really mean anything," said Odom Wednesday night. "I was told I'd have a shot at safety or wide receiver or punter."

Odom will join the rest of the Giant's draftees Feb. 12 in New York when the newly chosen meet the coaches and staff.

"I had been contacted by a number of squads," said Odom,

"but the Giants were not one of them, it was really a surprise."

Odom, a Fort Worth native, led the Raiders in receiving for three years and handled the punting chores his junior and senior seasons.

Johnny-O's best season as a receiver was 1970, latching onto 26 ariels for 331 yards and four touchdowns. One of the six point grabs that season resulted directly in Tech's 14-10 win over SMU. Odom latched onto a Charley Napper pass with 3:12 left in the game for the winning td.

Before the start of the '71 season, Odom ranked fifth on the all time Tech receiving charts with 49 passes caught for 651 yards and eight touchdowns.

Other Texans joining Odom in Wednesday's draft according to the Associated Press included:

**8th Round**  
1. Buffalo, Paul Gibson, wide receiver, Texas -EVL Paso. 7. New Orleans, Ronnie Vinson, wide receiver, Abilene Christian.

**9th Round**  
8. New Orleans, Kent Branstetter, defensive tackle, Houston. 14. Philadelphia, Pat Gibbs, defensive back, Lamar U.

**10th Round**  
2. New York Giants, **JOHN ODOM**, defensive back, Texas Tech. 4. St. Louis, Eric Washington, defensive back, Texas-El Paso.

**11th Round**  
5. Houston, Ron Evans, Tackle, Baylor. 10. New England, Rodney Cason, Tackle, Angelo State. 22. Baltimore, Fred Bernardi, defensive end, Texas-El Paso.

**12th Round**  
11. Chicago, Doug Neill, running back, Texas A&M. 15. Detroit,

Paul Bradley, wide receiver, Southern Methodist. 17. Los Angeles, David Hoot, defensive back, Texas A&M. 19. Cleveland, Bernard Chapman, defensive back, Texas El Paso.

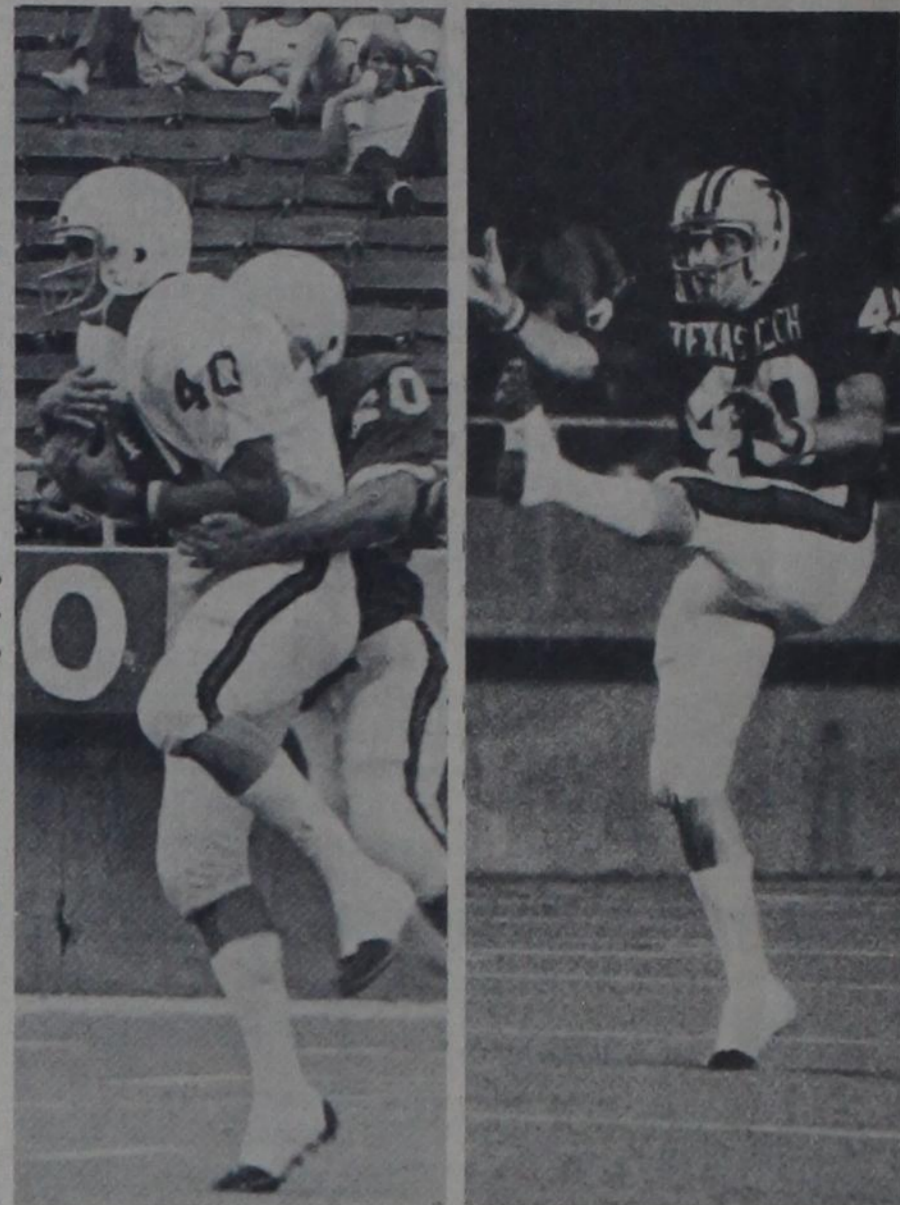

**13th Round**  
6. Houston, Willie Roberts, defensive back, Houston. 12. New York Jets, Steve Sullivan, tackle, North Texas State.

**14th Round**  
4. Denver, Jerome Kundich, guard, Texas-El Paso. 5. Houston, Gary Crockett, center, Lamar U. 9. Chicago, Bob Brown, wide receiver, Rice.

**15th Round**  
None

**16th Round**  
12. Chicago, Bill McKinney, linebacker, West Texas State

**17th Round**  
10. San Diego, Bob Tackett, tackle, Texas-El Paso. 16. Detroit, Mike Tyler, defensive back, Rice.

## Partial Raider track squad heads for Ft. Worth

By LES MOORHEAD  
Ass't Sports Editor

Tech track coach Vernon Hilliard said Wednesday that his team "will take it slow and easy right now" although the mile relay team and the distance medley team will compete this weekend in the Fort Worth Invitational Indoor Meet.

"We're not in shape yet because it is still early in the season," Hilliard said. "We're going to take it slow and easy right now because we can't afford any injuries at this stage."

The Fort Worth Invitational is staged for Friday at 7 p.m. in the Fort Worth Will Rodgers Coliseum. It is the first meet for the Raider track team this year. Tech's next meet is slated for Feb. 11, in Houston.

The track team will be represented by Bill Garrett, Ralph Tidwell, Ken McCabe and Joe Aldridge in the mile relay. The distance medley team is comprised of Kenneth Ford, Dave Gnarr, Lance Harter and John Baldwin.

Oklahoma, Oklahoma State, Houston and the entire Southwest Conference will be running in the Fort Worth Invitational. Hilliard said, "It was one of the biggest tournament type meets that we will run this year. It has everybody in it."

Hilliard was not certain about the other schools who would be represented, but mentioned the above.

Aldridge, a Raider footballer in 1970 as a freshman, will anchor the mile relay team.

Aldridge, from Dallas, ran a 47.0 440 yard dash in high school and is Tech's best quartermiler.

McCabe, who finished third in the conference last year with a 47.2 440, and Tidwell, 47.8, will run the third and second legs of the mile relay.

Ford is the first alternate for

the mile relay. Ken is not likely to enter the long jump competition because Hilliard said, "Kenneth is not in it."

Ford is the premiere long jumper in the SWC and a very versatile trackman.

Tech will travel to Houston in the second indoor meet, Feb. 11.

The Raiders' first home affair will not be until March 25 when the Tech invitational Meet will be staged.

The track schedule following Houston has four straight weekends away. Tech will run in the Southwest Recreational in Fort Worth, Feb. 26, before

competing in the Border Olympics at Laredo March 3 and 4.

Then, they travel to Arlington, March 11, to face UTA and on the following Saturday, March 18, the Raiders will compete in the Arlington Relays, Arlington.

## Winter games open Thursday in Japan

SAPPORO, Japan (AP) — Pomp and ceremonies overshadow but can't eclipse a prevailing bitterness as the XI Winter Olympic Games open Thursday with the proclamation by Emperor Hirohito.

Expulsion of Austrian ski ace Karl Schranz on accusations of professionalism shocked the

European Alpine skiing nations and nearly led to the withdrawal of the entire Austrian team.

Schranz averted a walkout by his teammates Wednesday by asking them to stay. He unleashed a verbal barrage against International Olympic Committee President Avery Brundage.

"He is like a Roman emperor in the old days who turned thumbs down on gladiators," the banned skier declared.

Brundage, the 84-year-old Olympic leader who plans to retire this year, takes a prominent part in the opening ceremonies and his reception will be watched nearly as

closely as the arrival of the flame from the ancient Greek city Olympus.

Following the ceremonial opening, with each of the 35 nations' delegations marching into Makomanai Stadium, only two preliminary hockey games are on the opening day's program.
