

SAMI HADAWI

Arab Criticizes United States' Refusal In Offering Help

"You refuse to help us and then criticize us for trying to help ourselves." These words were spoken Tuesday night in the Union Workroom by Sami Hadawi, Arab advisor to the United Nations.

IN THIS statement Hadawi was referring to the aid the Arabs were forced to accept from Russia in financing the Aswan Dam. The loan for this dam in Southeast Egypt

was given to the Arabs by Russia for an interest of two per cent after the American interest was not reduced from four and one-half per cent. When the second loan was placed on the market, the United States kept completely silent and again the Arabs were forced to take the Russian offer.

THERE HAS BEEN much bitter conflict between the Arabs and the people of Israel. Hadawi pointed out that Israel has been condemned by the United Nations at least 25 times for attacks on the Arab territory, and four of these times drew censure from the Security Council.

"The Arabs have no intention of attacking Israel at any time," commented Hadawi.

On the subject of religion, Hadawi told his audience that Arabs were not against the Jews as a people, but against the political Zionists. He related that the Arabs start every day with a prayer.

THEY NEVER deny the existence of God, and he based his opinion that the Arabs will never embrace Communism on those facts. "But," he emphasized, "if the Arabs are pushed too far, and their rights are continually ignored, they will cooperate with the Soviet Union."

"Such cooperation, however, will be limited solely to trade, without strings attached," he said.

To sum up the attitude of the

Arabs, Hadawi said that they had three main aspirations: emancipation from foreign domination; improvement of social, economic and education problems; and unity.

Techsans Nominate Class Favorites

Men and women candidates for class favorites will be nominated at 5 p.m. today to compete in the campus-wide elections Wednesday.

Petitions for next week's election of class officers and Mr. and Miss Texas Tech have been received.

Freshmen will meet in the Aggie Memorial Auditorium; sophomores in Chemistry 2; juniors in Ad. 218; and seniors in Ad. 264.

Present candidates for Mr. Texas Tech are Bob Dyer, Dub Hefington and Ken Falkington. Miss Texas Tech candidates are Sandra Hendrix and Gail Petersen.

Senior secretary candidates are Polly Green and Sandy Hamilton. Candidates for sophomore vice president are Ann Jaroszewski, Bill Skeeters and Woodie Wood.

Freshman AWS candidates are Sharron Dee Cacy, Marilyn Gal-loway and Nan Signor. Candidates for freshman council are Betsy Baker, Joe W. Barnhart, Judy Beal-mear, Beverly Brown, Lynn Buck-ingham, Jackie Curry, Ginger For-rest, Betty L. Gray, Rhea Johns,

Betsy Kaiser, Linda Kester, Glen-da Link, Lynda McIntosh, Kakkie Shaughness, Claire Shelton, Sally Stuart, Patsy Sybert and David Wight.

Each class president will conduct the meetings and nominations will be made from the floor. No cam-paign speeches will be made.

The class president must turn the nominations into the Student Council Office by noon, Friday.

AFROTC Gives Awards To Outstanding Cadets

The presentation of Good Conduct Ribbons, marksmanship medals, and battle group tabs to recruits will highlight today's Army ROTC inclement weather sched-ule.

the expert marksmanship medal, the expert marksmanship medal, Paul A. Kotter, Charles K. Al-ford, Harry M. Marsh and Peter S. Hickok were the high firers with respective scores of 237, 235, 234 and 231 out of a possible 250.

Fifty-four cadets will receive the sharpshooter medal and seven-ty-one others will receive the marksman medal.

Good Conduct Ribbons will be presented to 44 freshmen and to 50 sophomores.

The 18 cadets receiving the award for the second time are James D. Adams, David B. Arn-strong, John F. Bashore, Ernest Cox, Harold R. Duke, John O. Ev-ans, Barr K. Ewing and John E. Grist. Others are Larry L. Justice, Jerry D. Landers, George H. Leon-berger, Rodney Pate, Xanthus B. Patillo, Robert L. Sanders, Rob-ert L. Taylor, James D. Thomas, James W. Walker and Virgil L. Wilson.

Cadets receiving the award for the third time are Edwin E. Meier, Drel N. Setzer and Carvy V. Tidwell. All recruits will receive their battle group tabs this after-noon.

Names Needed For Recognition

The College Awards Board needs nominations for the All College Recognition Service from department heads and or-ganization presidents, James Adams, Tech Supreme Court chief justice, announced.

Nominations should be sent to Dean Allen, dean of student life by Saturday.

Phi Gam Leads Speech Meet

Phi Gamma Delta is presently leading in the Intramural Speech Tournament. Kappa Sigma is second; Kappa Kappa Gamma is third.

The first of the two remaining meets will be in the Ag Bldg. on March 15. The last meet is April 9. Eleven organizations are presently participating in intramural speech.

Presentation of awards will be at a Tech Union dance on May 6. Fifteen awards will be presented and the certificates of awards will be read.

BAND PICKED FOR CORONATION DANCE
... Paul Neighbors will play.

School Effort Results In Coronation Dance

Tech's second annual Coronation Dance will be staged 8-11:30 p.m., March 4, at Lubbock Municipal Coliseum. The semi-formal dance is sponsored by the freshmen, sophomore, and junior classes.

During the evening, Mr. and Miss Texas Tech and class favorites will be presented. Elections for these school favorites will be held March 2.

Nationally known Paul Neighbors and his Orchestra will present music for the occasion.

Tickets which are \$1 per person may be purchased from 9-12 a.m. today through Saturday at the Tech Union. Tickets will be on sale from Feb. 29 to March 4.

Mack Robertson, junior class president, said that this will be the "only all-school-sponsored dance of the spring term."

Social Groups Initiate

Three social organizations recently initiated fall semester pledges.

KAPPA ALPHA THETA

Eighteen new members were initiated into Kappa Alpha Theta. They are Ann Atkinson, Sharron Cacy, Jeanne Cagle, Jean Cappadonna, Charlena Chandler, Nancy Deckerd, Carol Jean Francis, Suzy Hawkins, Nelwyn Hermann.

Kay Kagay, Julie Mingus, Carol Nicholl, Priss Nichols, Bette Taylor, Susan Rogers, Doniece Silcott, Mary Thompson and Jane Ann Tolleson.

At Theta's annual awards banquet Sunday night, Miss Kagay was named best pledge; Miss Francis, freshman with the highest scholarship; Nancy Jo Mankins, highest sophomore scholarship; Sandra Wayne Underwood and Richard Wright.

Carolyn Boles won the most-improved-grade-point-average award; Marilyn Warren, best member award; and Mary Ann Lindley, merit award and senior with the highest overall grade average.

SIGMA CHI

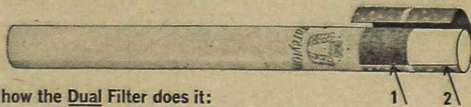

Sigma Chi initiated 19 members. Awards were given to Carl McKinzie for having the highest grade of his pledge class and to Charles McCoy for being elected "best pledge."

Initiated were Joe Barlow, Clark Bennett, Norman Brints, Jerry Bryant, Richard Carlson, Bill Carroll, Reg Crump, Nelson Delavan, Roger Flowers, Bob Fouts, J. H. Green, James Kerbow, McCoy, McKinzie, Bill Miller, Kenneth Parker, Vance Smith, Kenneth Parker, Vance Smith, Wayne Underwood and Richard Wright.

DUAL FILTER DOES IT!

Filters as no single filter can...
for mild, full flavor!

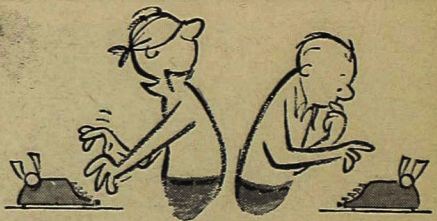

Here's how the Dual Filter does it:

1. It combines a unique inner filter of ACTIVATED CHARCOAL...definitely proved to make the smoke of a cigarette mild and smooth...
2. with an efficient pure white outer filter. Together they bring you the best of the best tobaccos—the mildness and taste that pay off in pleasure!

The Midnight Miss

c. j.

This being leap year and with spring just around the snowbank, news of June brides bustling about with bride magazines is busting out all over.

LOU TO LOUELLA has reported about 125 leapers landing engagements since the start of the semester.

So you busy ones might profit from a brief run-down on the 1960 look in bridal fashions modeled at Hemphill-Wells show Tuesday night.

Repressing the thoughts of aprons and dustpans, 13 Tech coeds portrayed the moonlight and roses side by modeling the newest line of wedding gowns, bridesmaid dresses, lingerie and going-away attire.

FASHION NEWS in wedding gowns includes scallops around the hemline, all over embroidered lace, scooped necks and short or three quarter sleeves.

Bridesmaids dresses shown for this season are slimmer, more molded in front with a dipping back and just a slight fullness.

The new sleeve interest is a simple shearing effect. Bridesmaid dresses are also boasting crushed pleats for a slenderizing look.

THE NEWEST DRESS for bridesmaids is the tiny checked gingham girl in silk organza.

White ballerina length gowns are being shown more than ever for the more informal wedding.

For the trousseau, bone white seems to be the number one color for summer.

MODELS for the show were Pam Goforth, Phi Mu; Marty Smith, Delta Gamma; Paula Wilgerson, Alpha Chi Omega; Betsy Kaiser, Pi Beta Phi; Marilyn Warren, Kappa Alpha Theta; Jane Adamson, Sigma Kappa; and Lynn Hutton, Alpha Phi.

Others were Jane Lackland, independent; Sondra Williams, independent; Betty Brown, Delta Delta Delta; Jean Gilliland, Kappa Kappa Gamma; Janice Cobb, Gamma Phi Beta; and Betty Davis, Zeta Tau Alpha.

★ ★ ★

The weekend's social events include three sorority initiations, Pi Beta Phi, Sigma Kappa and Alpha Chi Omega.

A band composed of Tech students organized at the beginning of the fall semester will play for the Tumbleweed Twister, western dance in the Rec Hall Friday from 8:30 to 11:30 p.m.

MEMBERS of the student band include leader Bob Coleman, vocalist and guitar; Lane "Tater" Goar, fiddle; Mansel Williams, rhythm guitar; Phil Summers, bass fiddle; and Eldon Upchurch, lead guitar. Zeta Tau Alpha has scheduled its annual Flapper Flounce from 8 p.m. til midnight Friday in the Caprock Hotel.

Mr. Executive Dance, sponsored by Phi Gamma Nu, will be in the Ballroom from 8 to 11:30 p.m. Friday.

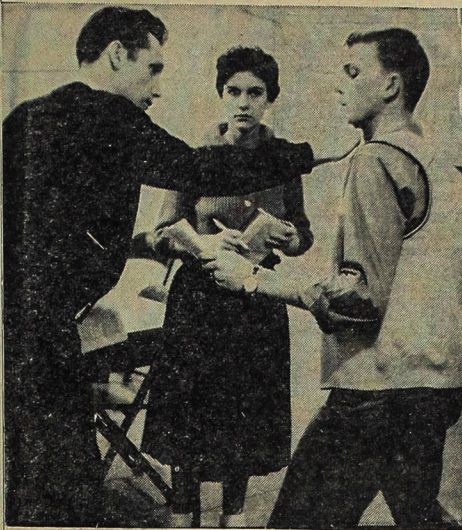

PADDLES will be given big sisters in Gamma Phi Beta between 7 and 8 p.m. Friday in the Gamma Phi lodge.

Also on Friday night's agenda is the Phi Gamma Delta dinner dance and A Chi O sock hop at the Alpha Chi lodge after the game.

On Saturday night's slate is the annual military ball, set for 8 p.m. to midnight in the Ballroom.

ZETAS will have a bridge party from 2 to 5 p.m. in the Zeta lodge Saturday.

Union movie for the week is "Mr. Roberts," starring Jack Lemmons, Henry Fonda and James Cagney. Showings will be at 2:30 p.m. Sunday, 4 p.m. and 7 p.m. Monday.

"HERE I COME RUDOLPHO"—says Eddie (Bob Nelms) as he swings at Rudolpho (Bill Thornton) during stage practice for "A View From The Bridge." The subject for this action is Catherine (Carolyn Clavert) who observes the repartee from the background.

Musical Play Staged Tonight

The stage of the Lubbock Auditorium will be turned into a mysterious mythical land at 8 p.m. tonight when the Boston Opera Co. presents the musical satire "Voyage to the Moon."

The Offenbach-Jules Verne story is about man's first trip to the moon. It is presented as a part of the regular Civic Lubbock, Inc. season.

The show, with a cast of singers, dancers and musicians, will be sung in English.

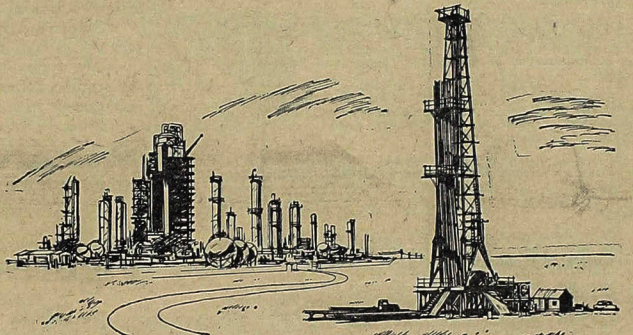

The box office in the lobby of the auditorium will open at 9 a.m. and remain open until show time. Student tickets are \$2.00.

MEMOS . . .

PRE-MED SOCIETY

Members of the Pre-Med Society will discuss plans for Pre-Med Day at 7 p.m. today in Chemistry C-2.

Pre-Med Day is scheduled for March 26.

Humble will interview on the Campus February 29 & March 1

Interviewing teams from Humble Oil & Refining Company will be on the campus February 29 and March 1 to interview students graduating at all degree levels in accounting.

Young men at Humble share in the dynamic progress and growth of a leader in the petroleum industry. Humble is one of the leading producers of crude oil in the United States and is a completely integrated oil company. Humble's Baytown Refinery, one of the largest in the world, is engaged in Refining and Petrochemical Manufacturing. Research centers in Houston, for development of better methods of exploration and production, and at Baytown, for research in manufacturing, are making valuable contributions to the petroleum industry.

Service Fraternity Pledges Interested Students Tonight

Alpha Phi Omega, national service fraternity and former Boy Scouts will pledge men interested in campus and community service projects at 7 p.m. tonight in Chemistry 101.

One of the fraternity's community service projects is the instruction of a troop of handicapped Boy Scouts. APO members have been working with the troop since 1953.

Each Thursday afternoon at the School for Exceptional Children,

the fraternity members guide the youngsters. The advancement program has been modified to meet the needs of the physically and mentally handicapped boys.

Spring semester plans of Alpha Phi Omega include the annual fund-raising activity, the Beauty and Beast Contest, March 23-25. APO will have three booths in the Boy Scout Exposition, March 11.

Alpha Phi Omega pledged 32 men last Thursday.

A Quick Look at the Humble Company

Area of Operation: Texas, Louisiana, California, Mississippi, New Mexico, Florida, Alabama, Arizona, Georgia, Washington, Oregon, Alaska.

Refining Capacity: 282,000 barrels daily.

Retail Sales: Texas, New Mexico, and Arizona. Leading Texas Marketer of tax-paid gasoline.

Humble Pipe Line Co.: Operates crude oil and products pipe lines in Texas; has capacity to transport more than 700,000 barrels daily.

HUMBLE OIL & REFINING CO.

For a rewarding career in the petroleum industry, discuss your future with the Humble Company interviewing team. Check at your Placement Bureau for time and place of interview.

The Spastic

by
Arthur
Mayhew

Campus elections, toned down somewhat this year, will hit the Tech scene early next month. Among the many offices open will be the presidency of the Student Council.

The presidential candidates will all have a platform for "better student government, better relations between administration and students," and other trite promises, 75 per cent of which will never be carried out.

When election time comes, Tech students will march (or be dragged) to the polls to vote. Of all the qualities in any candidate, we daresay that his religion will not enter into the campaign. If the candidate is well-liked and capable, he will be elected whether he is a Protestant or a Catholic.

Not so on the national level. In November, America will go to the polls and elect the president of the United States, the man in whose hands our nation will rest for the next four years.

Of the candidates vying for the Republican and Democratic party nominations, one of them is a Catholic, Sen. John Kennedy (D. Mass.). He alone has two battles to fight.

He has proven in most quarters that he is intelligent in diplomatic affairs and knows how to handle important matters. While he is relatively young as presidential candidates go, he still has the makings of a good president, if not in 1960, perhaps in 1964.

On the above point, his critics agree. On his religion, his Protestant fellow citizens have a field day. They say that because he is a Roman Catholic he will take his orders directly from the Pope; that all matters of state and policy will be channeled through the Vatican. How asinine can they be.

Certainly Kennedy will be directed by his religion, like any Christian man would be. We are not Catholic, but we do know many and they are just as American in thought and action as any Protestant.

Of late, several prominent Protestant ministers and laymen have denounced Kennedy for his religious feelings. The most recent blast has been by the Baptist Standard, the watchdog monthly paper of the Baptist Church and its numerous branches.

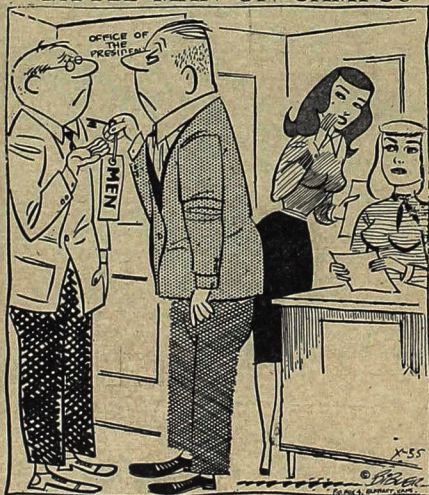

In the most recent editorial in the all-seeing Standard, editor Dr. E. S. James said that Kennedy would have to renounce his allegiance to the Vatican before he would be "eligible" for Baptist votes.

Going on the good Dr. James said, "There must be a renunciation of allegiance to the foreign religion-political state at the Vatican, and there must be a declaration of freedom from the domination of the clergy by American Catholic citizens."

Well, shades of the middle ages. We've got a vote coming in this year's presidential election and we plan to check over the candidates' qualifications.

May the best man win, regardless of his religious convictions. We are surprised the Baptists don't blame Eisenhower for his administration's policies because he is a Presbyterian; it's the same narrow-minded logic.

A THOUGHT FOR TODAY—All animals are equal, but some animals are more equal than others. —G.O.

For Women

AWS Devises Point System

Last spring all women students cast votes on the question of whether or not to have an activities point system. By a large majority the vote was affirmative.

There will be a point system next year and the success of it depends largely upon the outcome of the open AWS general council meeting Monday.

At this meeting, the AWS committee which has been compiling the point system since November, will present it for approval to the women students.

If any woman student is not pleased with the point system as it appeared in Saturday's Toreador, she may make suggestions from the floor for revision or additions.

For a point system to work, it must be agreeable to the students whose activities it will govern. Undoubtedly some students voted either for or against having a point system last year in complete ignorance of what it was.

The system has now been compiled and published and there is no excuse for women students to be ignorant of the question. Each woman on campus has the opportunity to investigate the system and to submit changes.

A point system can be effective on campus if women students will let it work for them. It can enable more women to be active on campus by cutting down on the activities of those who do too much.

Students who are overloaded with activities can benefit by being able to do a few things well rather than many things haphazardly.

The system which has been compiled is the result of many hours of work by the student committee. Members of the committee investigated different systems and talked with many active women students before compiling their list.

Now it is up to the women at Tech to make the point system a workable one.

They may begin participating more in self government now by understanding this issue and attending the meeting at 5 p.m. Monday in Ad 265.

Campus Editor

Figures Invalidate 'Crackdown'

Texas Tech is no harder scholastically today than it was four years ago.

Despite a general consensus among students on campus that "n-thing is a snap anymore, today's student has it just as easy and/or hard as the average Techsan of 1955.

Based on figures released from the Office of the Registrar, a comparison of the percentage breakdown of grades (by A, B, C, etc.) between the fall semesters of 1955 and 1958 shows that the maximum difference between each corresponding grade for the two semesters was only one per cent.

Of the total grades given at the college in 1955, 12 per cent were A's compared with a rise to 13 per cent in 1958; 31 per cent were B's, which fell to 30 per cent in 1958; 33 per cent were C's, falling to 32 per cent in 1958; 13 per cent were D's, rising to 14 per cent in 1958. The percentage of F's given remained 11 per cent with no variance between the two compared semesters.

In 1955, 76 per cent of the grades earned by Techsans were at or above the desirable one-point mark. Four years later the total fell to 75 per cent . . . a difference of only one per cent in eight semesters.

True, the trend goes in the wrong direction — down, but such a slight difference is hardly sufficient evidence to prove that a crackdown on students is underway in the form of stricter grading and harder courses.

In the two semesters compared, figures for both showed that 89 per cent of all courses taken during each semester were passed.

If the courses at Tech are becoming harder to pass, the fact is certainly not proved by the one per cent difference over a four-year stretch of students' grades.

If instructors are cracking down, which doesn't seem to be the case, the process is gradual enough that students aren't taking a scholastic beating because of overly difficult courses.

JACK MOORE
Editorial Writer

Student Questions Columnist's Anonymity

Editor:

With reference to the article written by the "Ghost Writer" in the February 16th issue of The Toreador, I stand in horror to think that any reputable paper would print such an article, much less a school paper. No wonder he chose to remain anonymous. Even if he had a legitimate argument, the language and sarcasm he used is a disgrace to the paper, school and city.

If he wants to take the stand that people who want to go to church will, and those who don't will stay at home; then I ask, why do radio stations broadcast events such as basketball games? You know why as well as I do! I have been told that there isn't an atheist

on The Toreador staff. If this be true, I wonder what kind of religion the "Ghost Writer" has. His views are certainly not in accordance with God's word.

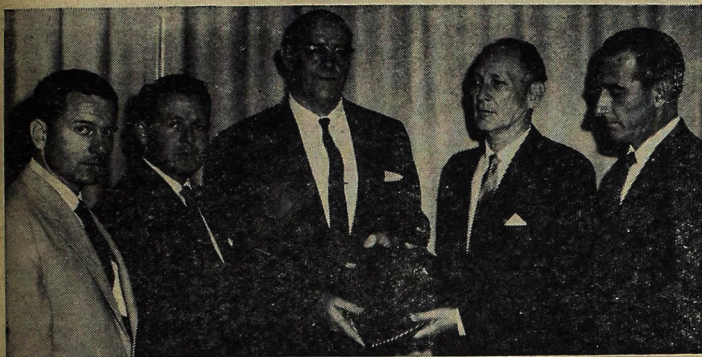

As you have previously stated in The Toreador, naturally, only the antagonized write letters of opposition, and there are quite a few people antagonized over this article.

PHI EPSILON KAPPA OFFICIALS GATHER AFTER INSTALLATION
 ... left to right, Edsel Buchanan, Dr. John W. Cobb, Dr. Guy Nesom, Dean of Student Life James G. Allen and Dr. R. W. Kirellis

New P.E. Fraternity Organized At Tech

Beta Gamma, the first Texas chapter of Phi Epsilon Kappa, national physical educational fraternity, has been organized at Texas Tech.

Formerly known as the Texas Tech Sports Club, after being formed in 1951 by Dr. R. W. Kirellis, the chapter is now number 50 among national schools and the fourth one in the South.

education department's faculty belong to Phi Epsilon Kappa.

They are Kirellis, department head; Edsel Buchanan, intramural director and Dr. John Cobb, assistant professor and Sports Club sponsor. Each is a past president of various chapters of the fraternity.

Doak Wins Bowling Match

Doak Residence Hall won the women's intramural bowling tournament with first and second high series. Alpha Chi Omega team placed third.

High game went to Margie Curry with 179. Brenda Routt was second with 168 and Fran Boyd a close third with 167.

The badminton tournament will be held Saturday morning 10-12 and at 1:30 and 2:45.

KOOL ANSWER

Men's Residence Hall 7 Provides Responsibility And Entertainment

by CAROLYN JONES
 Toreador Staff Writer

If Texas Tech students consider a wing advisor a policeman and think that a dorm is only a place to store books, then apparently they don't live in Men's Residence Hall No. 7.

A NEW POLICY to add interest to residence hall life and provide functioning student government has been implemented in that hall and, from all reports, is meeting with remarkable success.

Participation in hall activities by the residents is emphasized. There are mixers with women, talent contests, tournaments in ping-pong and other sports and, every now and then, breakfasts honoring

certain groups of students.

"ACTIVITIES presented during the first semester," said Dick Phelps, president of Hall No. 7, "proved that a planned agenda does much for the morale and enjoyment of the residents."

Events are planned well in advance and then publicized so that the residents may participate if they are interested. Even when the plan was just beginning, none of the activities resulted in disappointment.

HERSHEL POTTS, hall supervisor, is a motivating force behind this program. A graduate of Texas Tech, he said, "It's not easy to fulfill the need that college men and women have for a good 'substitute home' while completing their education and a place where they can

have a good time.

"Wing advisors should be in the halls for the benefit of the men and not solely for disciplinary purposes. They are carefully chosen and told that their duty is to help the residents in any way possible. They are advisors, not disciplinarians."

ALONG WITH the need for interest in dorm life and for wing advisors to know and understand their job, Phelps indicated that there is an equal need for a functioning student government.

"Active participation is one key," Phelps said, "but so is a desire of the students to elect officers and then be governed by these officers."

H. E Reps Go To Area Meet

"Teacher Competence" was discussed by Dr. Jessie Bateman, a Tech home economics professor, at the Area I Inservice Education Conference for Homemaking Teachers in Plainview last Saturday.

Dr. Elmer Knowles, head of the home and family life department, spoke on "Child Development as a

Young Science."

Mrs. Vivian Adams, home economics education department head; Miss Doris Nesbitt and Miss Billie Williamson, associate professors of home economics education; and junior and senior home economics education majors also attended the meeting.

A Carpenter Without His Hammer—

— or a surgeon without his scalpel — is something like a student without his book. For books are the basic tools of the student's trade. Nothing has ever replaced the professor in the classroom, and nothing has ever replaced the main tool of teaching and learning—the book. You may forget, but your books won't. At 4:00 a.m. before your exams, your professors are getting their much needed rest. But your books are working with you—that is—if you have your own books.

Presumably you are in college because you want to learn. Your books are your tools. Don't be like the carpenter who a borrowed hammer who must finish his work at the convenience of

the man who owns a hammer!

Penny for penny, page for page, books are the best

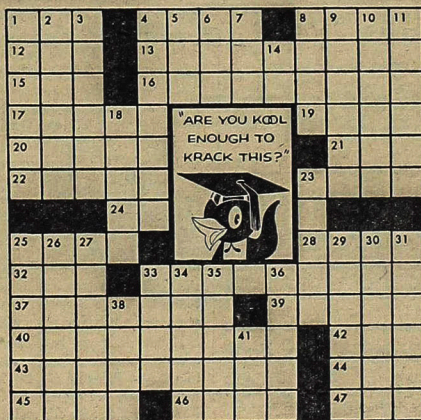

"buy" of your college career. We have them. Come inspect them, and buy your own books today.

Ice Causes Accidents

Slick, icy roads proved costly Wednesday as two cars driven by Tech students collided in the parking lot behind the West Engineering Bldg.

Ethel Bryon Murphy, driving a 1958 Pontiac, entered the parking lot as Frank Vasquez was backing his 1955 Oldsmobile out of a parking space. Icy conditions rendered brakes useless as the two cars slid together.

Damage was estimated at \$100 to the Pontiac and \$10 to the Oldsmobile. The left front fender of the Pontiac was smashed.

Investigating officers Campus Patrolmen Leland Hart and H. D. Taylor, set the time of the collision at 12:20 p.m. No tickets were issued.

Four Places Open For Europe Tour

"There are still four reservations open for the 40-day music tour of Europe," Dr. Gene Hemmle, music department head, disclosed. "The latest date to make reservations is May 28.

This is the B-52. Advanced as it may be, this airplane has one thing in common with the first war-galleys of ancient Egypt... and with the air and space vehicles of the future. Someone must chart its course. Someone must *navigate* it.

For certain young men this presents a career of real executive opportunity. Here, perhaps you will have the chance to master a profession full of meaning, excitement and rewards... as a Navigator in the U. S. Air Force.

To qualify for Navigator training as an Aviation Cadet you must be an American citizen between 19 and 26½—single, healthy and intelligent. A high school diploma is required, but some college is highly desirable. Successful completion of the training program leads to a commission as a Second Lieutenant... and your Navigator wings.

If you think you have what it takes to measure up to the Aviation Cadet Program for Navigator training, see your local Air Force Recruiter. Or clip and mail this coupon.

There's a place for tomorrow's leaders on the **Aerospace Team.**

Enters Politics

Bill Sanderson, a 30-year old chemical engineering major from Seagraves, will vie in the election of the state representative for the 99th district which encompasses Gaines, Lynn, Dawson and Andrews counties.

The election is May 7. Seagraves will be graduated from Tech in June.

He has no specific issues to hit on his campaign for the post in the Texas legislature, but takes note of the poor wage scale paid to teachers.

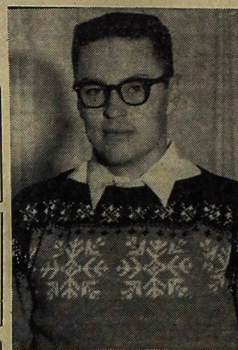

Sanderson has always had a bent toward politics and for the past year has been considering the move into the May primary. The incumbent representative whom he opposes has served two terms in Austin and is going for his third. "I know a lot of people in the

district and after talking to them I feel I have a lot of support," he says.

On Jan 31 Sanderson paid his filing fee of \$10 per county represented.

Sanderson was born in Gaines County where he was raised in farming until his family moved into the town of Seagraves while he was in high school. He played quarterback on the Seagraves team and was chosen team captain.

He is a member of Tau Beta Phi, honorary engineering fraternity; Phi Kappa Phi, honorary scholastic fraternity and Kappa Mu Epsilon, honorary mathematics fraternity.

Museum Sets Space Flight

The job of fueling complete the blastoff engineer started Tuesday, "5-4-3-2-1!" A loud explosion issued forth from the ground control speaker. The door of the rocket ship vibrated, and with this, a simulated expeditious into outer space had begun.

THIS IS the impression given viewers of "Stars by Satellite," the current program being shown at p.m. each Sunday to West Tech Museum Planetarium visitors.

The program, narrated by senior engineering major Steve Ebner, being produced with the Sp planetarium machine in the building behind the museum. It features vivid observations of various constellations, the sun, moon, planets, galaxies, the Milky Way, and 25 different stars—including the North Star. One of the highlights is a spectacular view of the milky colored northern lights. This is done by a small apparatus which Ebner constructed himself.

As the ship leaves the atmosphere, the sun comes into view again. Since there is no atmosphere in outer space to be illuminated by the sun's rays, stars can be seen as well when the sun is in view as when it is not.

STARS do not twinkle during the expedition because there is no atmosphere for the light to filter through. The only light movement seen is in the northern lights aurora, and here it is actually the particles in the air which are moving.

After leaving the atmosphere, the rocket goes into orbit on a path parallel to the equator. It supposedly travels at the rate of a quarter million miles per hour, circling the globe every 3 or 4 minutes. The basic movement of planets, the moon, galaxies, and the earth-star relationship are demonstrated. The closed circuit television screen—produced by slide projections on the wall—facilitates close-views of these bodies.

AT THE END of the expedition, the imaginary rocketship lands at the center of Memorial Circle, although the program takes approximately one hour to execute. The ship returns to catch the camp at dawn. The Great Plains Life Bldg, the Coliseum, the Administration Bldg., and other prominent city and campus structures can be seen along the planetarium horizon as the sun rises.

"Stars by Satellite" will continue each Sunday through May. Private showings for groups and organizations may be scheduled at any desirable time by calling the museum office. Admission is 25 cents for children and 50 cents for adults, including Tech students.

RALPH'S RAMBLINGS

by
Ralph W.
Carpenter

I received a letter Wednesday that you might be interested in:

Dear Cry Baby,
It's no wonder that Texas Tech has such a bunch of poor sports. Reading that sob story of yours should convert anyone. "Dammit, we don't mind losing, but getting robbed is different." Ha!

I saw the game. There has never been a perfectly called game yet and there never will be. Of course, you don't realize that, do you? Why don't you go see Edsel Buchanan. He has a need for "perfect" guys like you to referee intramural games. Try it and I'll guarantee that you will never write another of your asinine columns.

That part of your statement, "We don't mind losing" is really a killer. Do you think that a sprinkling of profanity adds spice to your column? Ha! You need something! I doubt that the "Good Lord" you referred to will be very willing to help one of the devil's helpers to boost Tech back into "big time!"

Bill Yancey

P.S. Who is that atheist who calls himself the "Ghost Writer?"

I certainly appreciate your comments, Bill. You have a right to your opinion too. We thought the game got out of the official's hands — what you believe is your business.

About the Ghost Writer, Bill — if you want to find out who writes that column, you will have to contact someone who works in the general news department of the Toreador. I am connected with news of sports events only. There are rumors, however, that the Ghost Writer has gone into seclusion to meditate on religious matters.

★ —RWC— ★

Tech took over sixth place in the SWC cage chase with their 8-61 victory over Texas Christian Tuesday night. The win gave the Raiders a 4-7 conference mark and improves their chances to finish at least as high as sixth place.

The team plays the Aggies Friday night in the Coliseum in a game that should be interesting to watch. The Texas Aggies lost to SMU Tuesday night and we imagine they will invade Lubbock with a strong desire to take their fury out on the Tech cagers.

The game will pit two of the conference's top sophomores, Del Ray Mounts and Carroll Broussard of Aggieland. When the week opened, Clyde Rhoden of Arkansas and Broussard were leading the conference scoring with 181 points each, Del Ray trailed, just one point behind. Rhoden made 22 points against Rice to make his total 103, Mounts pulled ahead of Broussard to move to second place with 5 markers against TCU. Broussard scored only 10 points against SMU and fell to third in the scoring derby with 191 points.

★ —RWC— ★

If you are interested in seeing some good high school basketball teams in action, you might plan to drop out to the Coliseum on Friday and Saturday. We are listing the pairings below, so take your pick:

Brownwood and Monahans meet at 2 p.m. Friday, followed by Amesa and Dumas at 3:45 p.m. Championship will be decided Saturday at 4 p.m. after a third place game at 2:30 p.m.

Pairings have been announced for Conference 1A and 2A tournaments. All games for these conferences will be played Saturday.

Conference 1A pairings are Sudan-Plains at 8 a.m., Sunray-Junction at 9:30 a.m., with the winners clashing at 7:30 p.m. Conference A contests include Seminole-Cisco at 11 a.m., Dimmitt-Childress at 2:30 p.m. and the championship game at 9 p.m.

Kappa Sigs Capture Berth

by CHARLES RICHARDS
Toreador Sports Writer

Kappa Sigma joined the elite group Tuesday.

By virtue of their 51-28 victory over Pi Kappa Alpha, Kappa Sigma clinched the championship of the Fraternity League, and joined the Chinese Bandits and Dorm B as representative of a league in the All-College Championship Tournament.

THE WIN GAVE the Kappa Sigs a perfect 8-0 record with only one game to play. The loss leaves the Pikes with a 5-2 league record and in a third place tie with Sigma Alpha Epsilon. SAE defeated Sigma Nu 50-53 to earn their share of the tie.

The Independent No. 2 League.

one of the two leagues still not settled, had two games Monday. The Sports Club continued to remain atop the league by easing past the Pasteurizers in a good game, 48-33. The win was not as decisive as the score indicates. The Sports Club pulled away in the final quarter to chalk up the victory.

BILL EARLY AND George Cooper led the Sports Club to their win, each scoring 14 points. For the Pasteurizers, Orran Fairly had 15.

In another Independent League No. 2 game, the Trojans defeated Church of Christ 47-40 on the

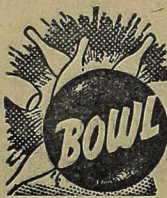

strength of Jack Helton's 14 points. Dee Carter had 15 to lead Church of Christ. The win set up the Monday night meeting between the Trojans and the Sports Club. The winner of Monday night's contest will represent the league as champion.

IN THE DORM B League Snead Hall took a close 53-51 victory over Dorm 5 in the lone contest of the night. The league championship has already been won by Dorm 8, but assured themselves of the runner-up spot with the win. Jeff Jones paced Snead No. 2 game, and Pember Roper took honors for Dorm 5 with 16.

'They Are All Eager To Play' --Layne

by JOHN PETTY
Associate Sports Editor

PIGSKIN WORK — If you are one of those who thinks football is a game played by heroes, well take a long look and see how they get that way — hard work.

The picture at upper left shows Coach DeWitt Weaver explaining blocking assignments to Bobby Cline and Pat Holmes.

At right Pittsburgh Steeler quarterback Bobby Layne fires a pass in a demonstration to Tech field generals. The veteran pro is currently working with the Tech coaching staff during spring drills.

The photo at lower left depicts Raider lineman carrying out the hard work of butting heads with a practice blocking dummy.

At lower right freshman quarterback Johnny Lovelace is preparing to take a snap from center Carl McCormick. Lovelace was one of the standouts on last year's freshman team and is expected to see a lot of action with the future Tech varsity in Southwest Conference competition.

(Staff Photos by Travis Harrell)

Bobby Layne wrapped his experienced fingers around the football and rifled it through the air.

For over a decade, the former University of Texas All-American has been thrilling countless numbers of gridiron fans with this one movement — and he is a master of it.

During Tech's spring training, Bobby is giving lessons to Dee Weaver's quarterbacks — showing them how he wins games with his whipping right arm.

While talking, Layne kept a football in his hands — tossing it in the air, twirling it up, rubbing it.

"The Raiders have an awful lot of hustle and desire on the field," Layne said when asked about the team. "They are eager to play ball ... and that counts a lot toward a good team."

The proposed American Football League drifted into the conversation.

"I honestly don't see how they will make a go of it. (Layne's team, the Pittsburgh Steelers, are in the National Football League). It is going to be pretty tough for some of the towns to support a pro team. Dallas tried it once before and couldn't do it. And then there are towns like Denver — I personally don't see how the league will survive.

"The solution? Well, they could take the stronger teams of the new circuit and add them to our league. Probably we will end up with a 16 team league."

One of the big news items of last season was the contract given Layne by the Steelers, reported to be of lifetime tenure. Bobby smiled when questioned about it.

"Actually, I signed a two year contract."

With a gleam in his eye:

"You might call it lifetime for my football career."

A whistle blew and groups of padded squadmen gathered around the wind swept field to drill on fundamentals. Layne sprinted to the group of quarterbacks to begin his daily session.

Coach Weaver stood in the center of the brown grassed field watching the men work.

"We are planning a big weekend," Weaver said. "We have the coaching clinic highlighting it with our intra-squad game Saturday. Hank Stram, professional coach of the Dallas Texans, will be here along with Warren Woodson of New Mexico State."

Weaver has divided his squad into two teams — the Reds and Whites — for the game. J. T. King will tutor the Whites with Jess Thompson guiding the Red team.

Probable starters for the Reds will be ends Don Waygood of Sundown and Mike Seay of Andrews, tackles Tom Face of Amarillo and Richard Stafford of Roaring Springs, guards Fred Weaver of Cooper (Lubbock) and Dale Robinson of Stamford, center Carl McCormick of San Angelo, quarterback John Lovelace of Farwell, split back Dan Gurley of Fort Worth, halfback Larry Tipton of Levelland, and fullback Coolidge Hunt of Lubbock.

The White lineup will probably include ends Jim Brock of Fort Worth and Jerry Elbert of Wellington, tackles Bobby Cline of Belton and Robert Meyers of San Antonio, guards Charles Edgemon of Wichita Falls and Jere Don Mohon of Panhandle, center E. J. Holu of Lubbock, quarterback Glenn Amerson of Munday, split back Bak Turner of Alpine, halfback C. W. Williams of McKinney, and fullback George Fraser of Llano.

The clash, which will be on the gridiron inside the track south of Municipal Coliseum, will begin at 2 p.m.

A second intra-squad game will be played in Odessa on March 5. The game in the Permian city is being sponsored by the Odessa and Midland chapters of the Tech Ex-Students Association and the Jaycees.
