

3 Dead, 8 Injured In Howard County, 1941

Fair tonight, increasing cloudiness Tuesday; colder Tuesday.

Germans Near Turk, Greek Borders

Proponents Seek Action On Aid Bill By Saturday

PLASTER MODEL OF BIG BEND PARK SHOWN IN HOTEL LOBBY

Without going further than the Settles hotel lobby, Big Spring people can get a very good idea about the size, scope and ruggedness of the proposed Big Bend park this week.

Suggested national park area, one embracing 750,000 acres or more than 1,300 square miles. Shown on the relief map are the various mountains, mesas, canyons and rough stretches of country so typically Big Bend.

Expansion Of FSA Program To Be Asked

WASHINGTON, March 3 (AP)—Congress learned today that a special committee investigating interstate migration would recommend an attempt be made to solve the problem through a vast expansion of the Farm Security Administration program.

Splitting the Sierra San Vincente is the Rio at a point where it is definitely no longer the lazy stream of song and legend. Interesting, too, is the layout of the Santa (H) Elena canyon, its sheer walls rising out of the cleft in Mesa de Anguila.

Committee members have reached the conclusion, congress was informed, that only by an "enlargement" of FSA's rehabilitation loan program can additional thousands of farm families be kept from joining 4,000,000 migrants already on the march.

Act Validating Local Issue Of Bonds Passes

House approval has been given a bill which will validate Big Spring municipal airport bonds, E. V. Spence, city manager, said on his return Monday from Austin.

High Court Holds Style Pacts Illegal

WASHINGTON, March 3 (AP)—The supreme court outlawed today agreements by which manufacturers of women's hats and dresses sought to eliminate style "piracy" by registering new creations and penalizing anyone copying the designs.

The bill would give the city authority to own more than 640 acres of land. A measure has been approved to that effect, but through legislative process an amendment to make it retroactive and include the Big Spring project was not included.

Justice Black wrote the two unanimous opinions, applying to the Millinery Creators' Guild, Inc., and the Fashion Originators' Guild of America, Inc., both of New York, and their members.

At the airport workers were busy sinking test holes over the area to gain accurate information on base soil. Contemplated for most of the new runways, which will boost the landing areas to seven for the port, is a stabilized base.

Black asserted that the agreements violated federal anti-trust legislation which prohibit combinations which restrain interstate commerce.

Strike-Prevention Machinery Asked

WASHINGTON, March 3 (AP)—Robert P. Patterson, undersecretary of war, proposed today creation of strike-prevention machinery such as was set up in the World War period to prevent interruptions to current arms production.

In addition, a "declaration of cooperation" was obtained from retail dealers throughout the United States who agreed not to handle copied styles.

Reviewing the work of a 12-man war labor board organized by President Wilson in 1918, Patterson said that he believed a similar system, based on conciliation and voluntary compliance by labor and management, would avert many strikes and prevent the loss of many men-days of work.

FREAKISH WEATHER PREVAILS IN MIDWEST, ON PACIFIC COAST

By The Associated Press Snow, rain, hail, dust and high winds grounded some planes and stranded a freight train in a freak weather display in the western United States Sunday, but the pigeons flew through. A homing pigeon from the C. A. Kahrs loft in San Diego, Calif., sped 260 miles through high winds, snow, rain and hail from Gila, Ariz., to San Diego to win a race. Its speed was 981.57 yards a minute—approximately 23.5 miles an hour.

Training ship, enroute to Canada, was missing between Kingman, Ariz., and Salt Lake City in rugged, uninhabited country. It was piloted by Joe S. Martinek, a veteran flyer, of Hollywood, Calif. Six other planes in the ferrying party landed at Salt Lake City or Las Vegas, Nev., because of weather conditions. A 40-mile an hour wind and six-inch snowstorm at Cedar City, Utah, prevented six light airplanes from taking off there in search of the training ship.

Barkley Says Debate Limit May Be Asked

WASHINGTON, March 3 (AP)—The senate leadership announced today its determination to obtain action on the British aid bill by this weekend, and Democratic Leader Barkley said he was considering a move to limit debate on the measure.

Barkley conferred on strategy with Chairman George (D-Ga.) of the senate foreign relations committee and announced afterward that every effort would be made to obtain a vote by Saturday.

One administration leader, asking not to be quoted by name, asserted that "we are going to give them (the opposition) another day or so, and if they are still talking we will have to exercise what pressure we can to prevent a full-fledged filibuster."

Barkeley told reporters he was thinking of asking the senate to agree unanimously to curtail debate. This proposal, which was expected to be blocked by opposition senators, would precede any effort to force night sessions.

In his prepared speech, Walsh declared: "I look upon this bill as equivalent to a declaration of war."

"Once in war," he asserted, "there can be no turning back. The congress will have no choice, the people will have no choice, such a war will not be America's war. It will be a world war in which we will join in world ruin."

This war view was contradicted by two supporters of the bill, Sen. Smathers (D-N.J.) and Tamm (D-Ind.).

New Call Asks 13 Men From Howard County

The Howard county selective service board has received a call for 13 men to go into one year's military training on March 18. T. C. Thomas, member of the board, announced Monday.

Currently, the county's monthly quota totals 26, with one group of 13 selectees scheduled to be inducted on March 7.

According to figures released by the state headquarters of selective service, approximately two-thirds of Texas' yearly quota has been filled. Howard county has, as of date, supplied 51 men. Five of this number have yet to go into induction stations but will do so when the time comes for regular re-placements.

Davey Jones Gets Letters From US

WASHINGTON, March 3 (AP)—The war is filling Davey Jones' locker with mail from the United States.

Eight vessels carrying mail from this country to foreign destinations have been sent to the bottom and 14,501 sacks of mail lost, a post-office department compilation showed today.

A full sack of mail weighs about 96 pounds and holds approximately 2,500 letters.

Army Takes Two Big Spring Men

Two more Big Spring men have been accepted by the regular army, according to notice received by Sergeant Troy Gibson, local recruiting officer.

GERMANS INTO SOFIA AND VARNA; MAY PUSH SOUTH—Germany's twin thrust (black arrow) into Sofia (1) and Varna (2) opened the possibility German troops now may move toward Istanbul or across the Dardanelles into Turkey (3), or drive toward Salonika (4) (broken arrow). Complicating developments was the Greek earthquake which damaged Larisa (5). A German thrust toward Salonika would force Greece to divert part of the army which to date has pushed Italian troops in Albania back nearly to Valona (6).

FRUIT TREES MAKE READY FOR ANNUAL SPRING FREEZE

Big Spring and surrounding area was back in the weather groove Monday, for the old cycle was surely working around to the set-up of blooming fruit trees for a belated freeze.

Due to swing back to the balmy 75, or thereabouts, maintained for three successive days, the weather bureau warned that a cold wave was creeping slowly off the icy crests of the Rockies toward this area.

45th Division Holds First Drill In Texas

ABILENE, March 3 (AP)—Soldiers of the 45th division, having settled themselves in Camp Barkley following Friday's record motor movement from Fort Hill, had their first good drill in ten days this morning.

Meanwhile, 600 trucks left Fort Hill early this morning for Camp Barkley, carrying approximately 500 men and a large quantity of tentage, artillery supplies and other freight.

Units moving today included service companies of three artillery regiments, Company C of the 179th infantry and one company of the 120th medical regiment.

Curious crowds crowded sidewalks around the Citizens National bank here this morning while soldiers armed with machine guns and rifles guarded \$400,000 to \$2,000,000 in cash being counted in the bank preparatory to paying of the Camp Barkley personnel tomorrow.

Postmaster Shick Returns To Home Postmaster Nat Shick was returned to his home here Sunday evening to convalescence from an heart involvement.

He has been under treatment in the Baylor hospital at Dallas and likely will be required to remain in bed for two or three weeks yet. His condition was said to be improved although he is to have no visitors.

Nazi Propaganda Agent Indicted

WASHINGTON, March 3 (AP)—Dr. Friedrich Ernst Auhagen, called a Nazi propagandist by the Dies committee, was indicted today by a federal grand jury on charges of failing to register as a paid publicity agent for the German government.

It'll Be Plumb Scandalous—Teachers To Play Basketball Game

Things are going to be cock-eyed up at the high school gymnasium Tuesday at 7:45 p. m. when men and women teachers tangle in a basketball (?) game for benefit of the approaching West Texas Teachers association convention here.

War Department Buys Gas Masks For Civilians

WASHINGTON, March 3 (AP)—The war department disclosed today that it had ordered a "limited quantity" of low cost gas masks for non-combatants.

Officials said the masks were designed to meet the requirements of a military commander in providing protection against gas for non-combatants remaining in areas under military jurisdiction and control.

The non-combatant gas mask, however, is of a type which the war department believes would be suitable for general civilian use, a formal announcement said.

Weather Forecast

WEST TEXAS — Cloudy north and southeast portions tonight and Tuesday. Otherwise, fair and colder north portion tonight.

EAST TEXAS — Partly cloudy to cloudy, cooler north portion tonight and Tuesday. Moderate southerly winds on the coast.

LOCAL WEATHER DATA Highest temp. Sunday, 78.1. Lowest temp. today, 68.1. Sunset today, 6:46 p. m. Sunrise tomorrow, 7:19 a. m.

Workmen At Army Camp Go On Strike

By The Associated Press Skilled AFL workmen went on strike today at the army's \$15,000,000 Camp Davis in eastern North Carolina.

An officer of the state highway patrol said between 3,000 and 4,000 men were picketing entrances of the reservation, an anti-aircraft center scheduled for completion late this month.

L. H. House, business agent for the Wilmington, N. C., Building Trades Council, announced after a union meeting last night that 5,000 workers decided on the walk-out over the issue of a preferential shop, under which union men would have first call on job vacancies.

The project employs 15,000 workers, including many who are unskilled and non-union. But Rouse said he expected many of the unskilled workers would support the strike. A representative of the firm which holds the contract for the project, said the action resulted from "outside agitation."

Regional Boy Scout Official Visits Here

James P. Fitch, Dallas, regional scout executive, and Earl McClure, Dallas, assistant regional officer, were here with E. P. Gaslin, Sweetwater, area Boy Scout executive, inspecting work in the Buffalo Trail council.

Fitch said that he and McClure would be in the council area for two or three days, noting progress of the work and making contacts.

They conferred with Stanley A. Mate, Big Spring field executive, during the morning.

Meanwhile, on the local scout front, plans were completed for the regular monthly court of honor session at 7 p. m. Tuesday in the district courtroom. W. C. Blankenship, chairman, said there would be a large number of awards.

Mexican Held After Hijacking

A Mexican man was being held Monday by the sheriff's office in connection with the robbery by assault of Z. A. Mitchell. Mitchell lost \$22 when a clubbed with a blackjack near a hotel on the north side of town Saturday night. A Mexican friend also was beaten when he sought to intervene.

Britain To Break With Bulgars Soon

SOFIA, Bulgaria, March 3. (AP)—Reports filtering into Sofia from the provinces today said the entire country was filling up with German troop units moving swiftly southward toward Greece and southeast toward Turkey.

The vanguard of these troops already has reached the Greek frontier—at one point only 65 miles from vital Salonika—and it was understood here that Britain probably would break off diplomatic relations with Bulgaria by mid-week.

King Boris III was said by a highly reliable source to have given British Minister George Randal no encouragement to remain here when the two conferred last night. Previously, Randal was said to have informed the king that the break probably would come tomorrow and that a state of war "undoubtedly" would follow.

(Randal has been given a free hand by the British government.) Sofia itself rapidly took on the aspect of a military camp, with hundreds of Nazi officers arriving hourly.

The Turkish naval ministry closed the Dardanelles—strategic strait forming one of the links between the Black Sea and the Aegean—to ships save those with special permits and carrying Turkish pilots. Turkish naval units were reported steaming toward the narrow passage.

Almost every country in southeastern Europe reacted swiftly to the rush of events which followed Bulgaria's formal adherence to the axis alliance Saturday and occupation of the kingdom by Nazi soldiers.

The kaleidoscopic Balkan picture included these developments: 1. An authoritative report from Zagreb that neutral Yugo-Slavia, a nation created as an outgrowth of the World War, would become the fifth nation to join the Rome-Berlin-Tokyo alliance.

2. Unconfirmed reports from Negotin, Yugoslavia, near both the Rumanian and Bulgarian frontiers, that British warplanes had bombed the rich Rumanian oil field center at Ploesti, long occupied by German forces.

3. The arrival of British Foreign Secretary Anthony Eden and General Sir John G. Dill, chief of the imperial staff, in Athens from Turkey.

4. A report in Istanbul that Germany had asked Turkey to offer to mediate the European war during Eden's visit there but that Britain had refused to consider mediation when sound-out by Turkey. Berlin scoffed at the report.

The arrival of German mechanized forces at Bulgarian towns just short of the Greek frontier, was interpreted here as apparently bringing embattled Greece face to face with the alternative of suing for peace with Italy or calling for further British aid—in the form of land forces.

British bombers already are operating in Greece and the eastern Mediterranean within easy flying distance of Bulgaria and Rumania.

Reports in Negotin said heavy explosions had occurred in the Ploesti oil fields and that big fires had been started. These reports, noting that several fleets of unidentified planes had flown high over the town in the direction of the oil fields, attributed the explosions to British bombers. The British declined comment.

Two trainloads of Nazi infantrymen were said to have been dispatched from Plovdiv, Bulgaria's second largest city, toward the Turkish frontier. Other units were said to be rolling into Plovdiv, which is 165 miles air-line from the Dardanelles.

Agricultural Appropriation Receives Cut

WASHINGTON, March 3 (AP)—A bill appropriating \$890,824,087 for the 1942 farm program and other activities of the agricultural department was sent to the house today by its appropriations committee.

This total was a reduction of \$4,977,984 from the budget estimates and a \$19,928,808 cut from the appropriation for the current year.

A technical change in manner of financing parity payments was responsible chiefly for the large slice of the latter reduction.

The bill means that \$1,420,977,899 will be available to the department next year, by virtue of permanent appropriations, re-appropriations, power to borrow from the Reconstruction Finance corporation and authority to make contracts for \$122,000,000 in parity payments.

The overall total for the current year was \$1,477,001,061.

The committee proposed that the usual \$212,000,000 for parity payments be made available, but, instead of providing actual cash, it followed President Roosevelt's suggestion that only \$50,000,000 be appropriated and that the department be given authority to make commitments for the remaining \$162,000,000.

The president suggested in his budget message that he and the department have the power to use this money at their discretion, but the committee at the last minute eliminated that provision, without comment.

Parity payments, designed to raise farm prices to a level where farmers will have the same purchasing power they had from 1909 to 1914, have never been included in the president's budget until this year, but congress nevertheless has appropriated such money for the past three years.

Over Half Of February Is Cloudy Here

More than half of February was cloaked in clouds here at Big Spring, the U. S. department of commerce weather bureau reported in a monthly survey released by Charles H. Newton, station manager.

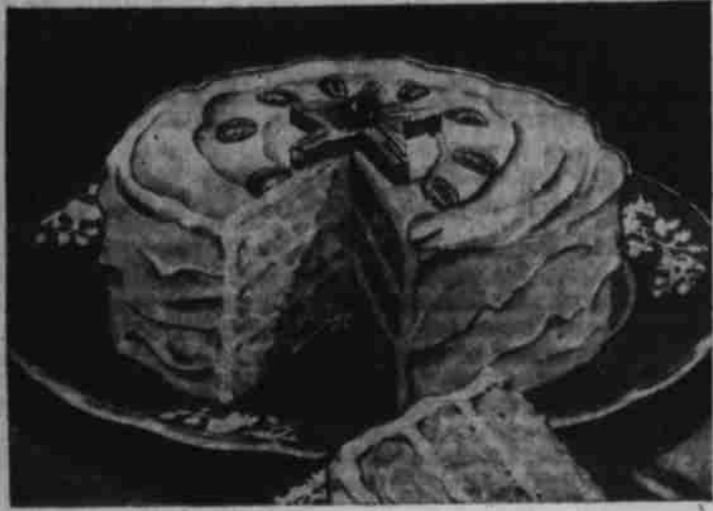

In addition there were eight days listed as partly cloudy and only five with clear weather. Yet, the precipitation total, figuring in 12 days with fog or mist, amounted to only 1.07 inches. This happened to be better than the average, however.

Mean maximum for the month was 56.9 and mean minimum 27.8 and 29 was the minimum as against 77 as the highest temperature. One thing about the month was its comparative calmness when it came to wind—only four days of dust or sand were shown. There was a trace of snow on one occasion and a light hail shower on the 25th.

Bulgarian Funds In US 'Frozen'

WASHINGTON, March 3 (AP)—The state department advised the treasury today to "freeze" Bulgarian funds in the United States as a result of the entrance of German troops into that country.

Sam Houston White Cake

March 3rd is the 148th anniversary of Sam Houston's birth. This great Texas patriot, hero of San Jacinto, president of the Texas Republic and first governor of Texas, like most Texans of today, was fond of good cake. According to legend, he had a favorite recipe. So this March we are naming Sam Houston White Cake the cake of the month. The recipe is reprinted from "Aunt Cora's Book of Unusual Cakes and Cookies," compiled by the folks in Sugarland,

Texas, who refine Imperial pure cane sugar. The recipe was brought South when Texas was struggling for independence. It has been handed down from generation to generation and today, it lives up to its glamorous past. It is truly a cake you'll be proud to serve. Here's the recipe:

SAM HOUSTON WHITE CAKE

3-4 cup butter
2 cups Imperial granulated sugar
1 1/2 cup milk
1-2 cup water
3 cups sifted flour
3 tablespoons baking powder
6 egg whites, beaten until stiff but not dry
1-3 teaspoon lemon, rose, or almond extract
Cream shortening until soft and light. Add Imperial granulated sugar gradually and continue creaming for several minutes to incorporate as much air as possible. Mix flour and baking powder and sift three times. Add extract to milk and water. Add flour alternately with liquid to creamed mixture, beating well after each addition. Beat egg whites until stiff but not dry and fold immediately into batter, blending thoroughly but quickly. Avoid beating. Pour batter into three greased and floured 9-inch layer cake pans. Bake in moderately hot oven (375 degrees F.) for 20 minutes. Cool for 5 minutes and remove from pans onto wire rack.

For a pure white cake put White Mountain frosting or Fluffy Uncooked Icing between and on top of layers. For a different flavor, add chopped candied orange peel to frosting instead of extract or decorate top with candied fruits, colored candies or colored icing.

WHITE MOUNTAIN FROSTING

2 cups Imperial granulated sugar
2 tablespoons white Karo syrup
2-3 cup hot water
3 egg whites
1-4 teaspoon cream of tartar
10 or 12 marshmallows
Put granulated sugar, water and Karo syrup over slow fire and stir until sugar is dissolved and mixture begins to boil. Cover for 2 or 3 minutes to wash down crystals. Allow syrup to boil vigorously until it spins a thread (soft ball stage). Add marshmallows and remove from fire. Beat eggs and cream of tartar until stiff. Pour syrup very slowly into eggs. Be sure that syrup goes into the egg and not on sides of bowl. After 1-4 of the syrup has been added it may be poured more rapidly. Beat until cool. Frosting should hold its shape when dropped from a spoon. Keep over hot water while frosting a cake to prevent its becoming hard.

Yield: Sufficient for top and sides of a three-layer cake.
For a colorful Texas touch you can mold your top decoration into a star, and garnish with Texas pecans.

Potato Grower Repeats As Michigan Champion

EAST LANSING, Mich.—A former school teacher and law graduate of the University of Michigan is the states champion potato grower for 1940.

Past Arrivals Indexed At Philadelphia Port

PHILADELPHIA — A file, complete with all the indexed names and identities of 3,000,000 passengers and seamen who entered the Port of Philadelphia from 1883 to 1924, is being compiled by WPA workers.

Also indexed will be the names of all seamen who entered the port between 1904 and 1939.

PERTAINING TO PEOPLE

Mr. and Mrs. A. Glenn and daughter, Joyce, spent the weekend visiting in Breckenridge with his parents, Mr. and Mrs. J. M. Glenn.

Mr. and Mrs. E. C. Gaylor had as guests Sunday, Mr. and Mrs. Fred Simpson of McCamey.

Nona Baldwin of Albany spent Sunday here visiting with friends.

Good Graves spent the weekend in Abilene visiting friends.

Mr. and Mrs. Wayne Campbell and daughter, Gwendolyn, of near Midland spent the weekend with her parents, Mr. and Mrs. G. C. Graves.

Mrs. L. J. Sheen and daughter, Joyce Elaine of San Angelo are visiting this week with her mother, Mrs. M. Schubert. Mrs. Sheen is the former Lillian Schubert.

Mr. and Mrs. C. D. Reed of Brady were weekend guests of Mr. and Mrs. J. P. Kenney. Reed was formerly advertising manager for the Herald.

Mr. and Mrs. E. L. Perkins, Jr., of Ranger spent Sunday here with her parents, Mr. and Mrs. Sam Goldman.

Mr. and Mrs. Marvin Hull have returned from Tucson, Ariz., where they visited with Mr. and Mrs. Ray Harris. They also attended the rodeo and went fishing at Duymas, Mexico, for a few days.

Mrs. Adna Mae Laneburg will return Monday from El Paso where she visited over the weekend with relatives.

Mr. and Mrs. J. F. Jennings spent the weekend in Dallas.

Mr. and Mrs. Dave Eastburn had as weekend guests her sister, Thelma Terry, and Marinet McNeill, both of Dallas.

Jess Fuglar of Los Angeles, Calif., is spending a few days here with his sister-in-law, Mrs. V. W. Fulgar and family, en route to Lubbock where he has been transferred. Fuglar is a former resident here and attended Big Spring high school where he played on the football team. He will be here for a few days visit.

Tax Bill Due To Emerge This Week

AUSTIN, March 3 (AP)—John Q. Citizen perhaps will find out this week what kind of additional state taxes the important house revenue and taxation committee thinks he ought to pay.

A five-man sub-committee said it hoped to have a tax bill ready for presentation to the main committee by tomorrow or Wednesday. Many persons believed that the main body would act on the bill almost immediately. The legislative session already is 48 days old, and tax hearings were started Feb. 11.

Members of the sub-group stated the bill they first would recommend likely would levy new or higher taxes on several things. They had not made the details public, but it appeared that oil, natural gas and sulphur, long favorite tax targets, would bear a substantial part of the proposed heavier load. The measure also might call for more taxes on public utilities, cigarettes, new automobiles, corporation franchises, insurance companies or amusements.

When the bill is taken up on the house floor, perhaps within two weeks, the house can alter it in part or in whole.

Third Of U.S. Exports Under Restrictions

WASHINGTON, March 3 (AP)—More than one-third of the United States' \$4,000,000,000 export trade is now subject to control restrictions "in the interests of national defense."

There are approximately 3,500 articles on the control list today, and the list is steadily lengthening. The defense-inspired restrictions cover a large portion of normal Russian and Japanese purchases here, and in numerous instances have had the incidental effect of preventing these two nations from obtaining some needed supplies in American markets, or reducing the amounts obtained.

A survey by the office of General Russell L. Maxwell, administrator of export control, shows that on a valuation basis, approximately 35 per cent of shipments in January required export licenses or were prohibited except to the British empire and western hemisphere nations.

Life Indoors Blamed For More Sinus Ills

MEMPHIS, Tenn.—Sinus infections are increasing, according to Dr. Edwin H. Broyles of Johns Hopkins University, because Americans are not breathing enough fresh air.

GOLD WOOL crepe frock with matching cone shaped turban and large pouch bag. This winter-into-spring costume was designed by Ellnor Jenkins for Elizabeth Russell, radio actress. The skirt has the new picked-up front draps. Big gold initials are pinned on the bag.

Daily Calendar Of Week's Events

- MONDAY**
AMERICAN LEGION AUXILIARY will meet at 7:30 o'clock with Mrs. W. A. Ricker, 1510 Scurry.
FIRST BAPTIST FRIENDSHIP CLASS will meet at 7:30 o'clock with Mrs. Alton Underwood, 107 E. 17th.
- TUESDAY**
O. E. S. will meet at 7:30 o'clock at the Masonic hall.
GARDEN CLUB will meet at 3 o'clock with Mrs. R. L. Beale, Government Heights.
HIGH SCHOOL P.T. A. will meet at 4 o'clock for a recital program.
REBEKAH LODGE 284 will meet at 7:30 o'clock at the I. O. O. F. hall.
BUSINESS AND PROFESSIONAL woman's club will meet at 7:30 o'clock at the Elks hall.
ALTA SOCIETY will meet at 7:30 o'clock at the St. Thomas Catholic rectory.
- WEDNESDAY**
FIREMEN LADIES will meet at 3 o'clock at the W. O. W. hall.
P.T. A. COUNCIL will meet at 4 o'clock at the high school.
FIRST METHODIST PHILATHEA CLASS will meet at 10:30 o'clock at the church for a covered-dish luncheon and business meeting.
KAPPA DELTA KAPPA SOCIETY of Delphian Society will meet at 9:45 o'clock at the Settles hotel.
- THURSDAY**
VFW AUXILIARY will meet at 7:30 o'clock at the W. O. W. hall.
SOUTH WARD P.T. A. will meet at 3 o'clock at the school.
G. I. A. will meet at 3 o'clock at the W. O. W. hall.
- FRIDAY**

FASHION REVUE and Automobile show will be held at 7:45 o'clock at the City auditorium.
TRAINMEN LADIES will meet at 3 o'clock at the W. O. W. hall.
AIRPORT WIDOWS will meet at 1 o'clock at the Settles hotel.
- SATURDAY**
1930 HYPERION CLUB will meet at 3 o'clock with Mrs. J. Y. Robb, 600 Matthews.
HYPERION CLUB will meet at 3 o'clock with Mrs. Lee Hanson, 1601 Rannels.

News And Views About Books

Strategic to national defense is the oil industry. Coincident with various large scale plans for the expansion and protection of America's oil resources, the publication of a unique special edition of an important book about the oil industry has been announced. It is the Oil Industry Edition of This Fascinating Oil Business, (Babbs-Merrill) by Max W. Ball, one of the foremost authorities on oil resources and oil production in the United States. The Oil Industry Edition is dedicated to the industry. Each copy bears a distinctive device symbolic of the industry's manifold activities and each copy is autographed by the author. The new edition is attracting wide attention among the million employees of the oil industry scattered throughout the country.

John Kieran, top flight metropolitan sports writer and fabulously well informed "Information, Please!" expert, is one of America's most skilled amateur naturalists. In John Kieran's Nature Notes, to be published February 21, Doubleday Doran, the genial pundit offers informal reflections on nature which advance readers have compared to the nature passages in the work of Henry D. Thoreau.

Doubleday Doran has ordered a first edition of 100,000 copies of Daphne du Maurier's "Come Wind, Come Weather," paper bound volume of true stories of the war in England, to be published February 21 at twenty-five cents. More than 200,000 copies of the book have been sold in Great Britain.

Christmas cards from England now filtering through the mails are occasionally and quite paradoxically both grim and gay. One particular card received from the London stationer, Simpkin Marshall Ltd., bears a photograph of a completely wrecked building with a sign before it "as it stands 7-4 or after."

There were 35,880 major crimes in New York state in 1940 compared with 38,799 the year before.

Orchard Owners Fear Apples Heavily Damaged

MARIONVILLE, Mo.—Orchard owners reported today that extensive damage to their apple and peach trees had been caused by the extreme cold of late November.

Some orchardists reported that they would have no crop in 1941; all said the crop would be drastically reduced. Greatest damage was to apple trees, where some recently grown wood on limb tips died. Those trees will not bear normal yields for several years, growers said.

Downtown Stroller

Was informed this morning that plebe weather was here, in case nobody else had noticed. One of our local school teachers went picnicking Friday and liked it so well she went Saturday and Sunday too. Wonder if the word has gotten out to the ants and flies. They always picnic wherever we are....

DEL FRANK BOYLE liked the Rubloff concert so well that he drove to Sweetwater Saturday to hear the violinist again. The feeling seemed to be mutual, too, with the artist giving rave notices about all the Dr. had done to handle arrangements for his concert here....

Some of those at the First Christian church who are really working these days are Mr. and Mrs. DOUG PERRY who had charge of the evening service Sunday, Mr. and Mrs. G. C. DUNHAM will have it next Sunday night and are working hard to beat attendance records....

MADELINE CRIMMINS made her bow in our sheet Sunday with a column "Petroleum Paragraphs" which is to be a Sunday feature in the HERALD. She will give the Coeden folks the once over each week and write her findings. As a fellow writer, we say "howdy" and glad you're with us....

Went down and inspected the PALM ROOM at the Settles where members of the club will be able to put their foot some Wednesday night according to Speers-Prust combine, the brains of the idea....

Women's Golf Club To Meet Tuesday At Municipal Course

A new organization, "The Golf Club" will meet at 2:30 o'clock Tuesday afternoon at the municipal golf course and any women interested in playing are invited to attend and join the club. A membership fee entitles free games on the course. Mrs. John Griffin is president of the club.

Parents Of Daughter

Mr. and Mrs. Denver Yates are the parents of a daughter born Friday at Malone and Hogan Clinic-Hospital.

Mr. And Mrs. L. Zooks Are Parents Of Son

Mr. and Mrs. Lloyd Brooks are parents of a son born Sunday at Malone and Hogan Clinic-Hospital.

Hospital Notes

BIG SPRING HOSPITAL
Mr. and Mrs. Jeff Grant, Route 1, are the parents of a daughter born Sunday.
Eula Mae McClendon, Kermit, returned Monday after medical treatment.
L. Joiner was admitted Sunday for medical treatment.
Conductor Halls Citizenship
BOSTON.—Serge Koussavitzky, Russian-born conductor of the Boston Symphony Orchestra, celebrated his becoming a United States citizen by presenting a special program of American music.

Models For Hair Styles Selected By Shops For Fashion Revue Friday

Models to show the latest in spring hair styles at the Fashion Revue and Automobile Show Friday at 7:45 o'clock at the city auditorium have been selected, according to committee chairman.

The Revue which is the ninth annual event staged by the women of St. Mary's Episcopal church is Big Spring's prelude to spring.

Those to model for the Youth Beauty shop are Mrs. Douglas Orme, Mrs. Cecil McDonald and Sue Cole. From the Crawford will be Mrs. John Davis, Helen Woods, and Pearlina Robertson.

Mrs. H. Moore, Mrs. C. J. Staples and Carolyn Smith will model Joyce the Bonnie Lee shop, Mary Joyce Minns, Roxie Cross and Ruby Helen Fryer will show hair styles designed by La Rae shop. The Settles Beauty salon will have as models, Maxine Howard, Irene Knaua and Mrs. Emmen Lovelady.

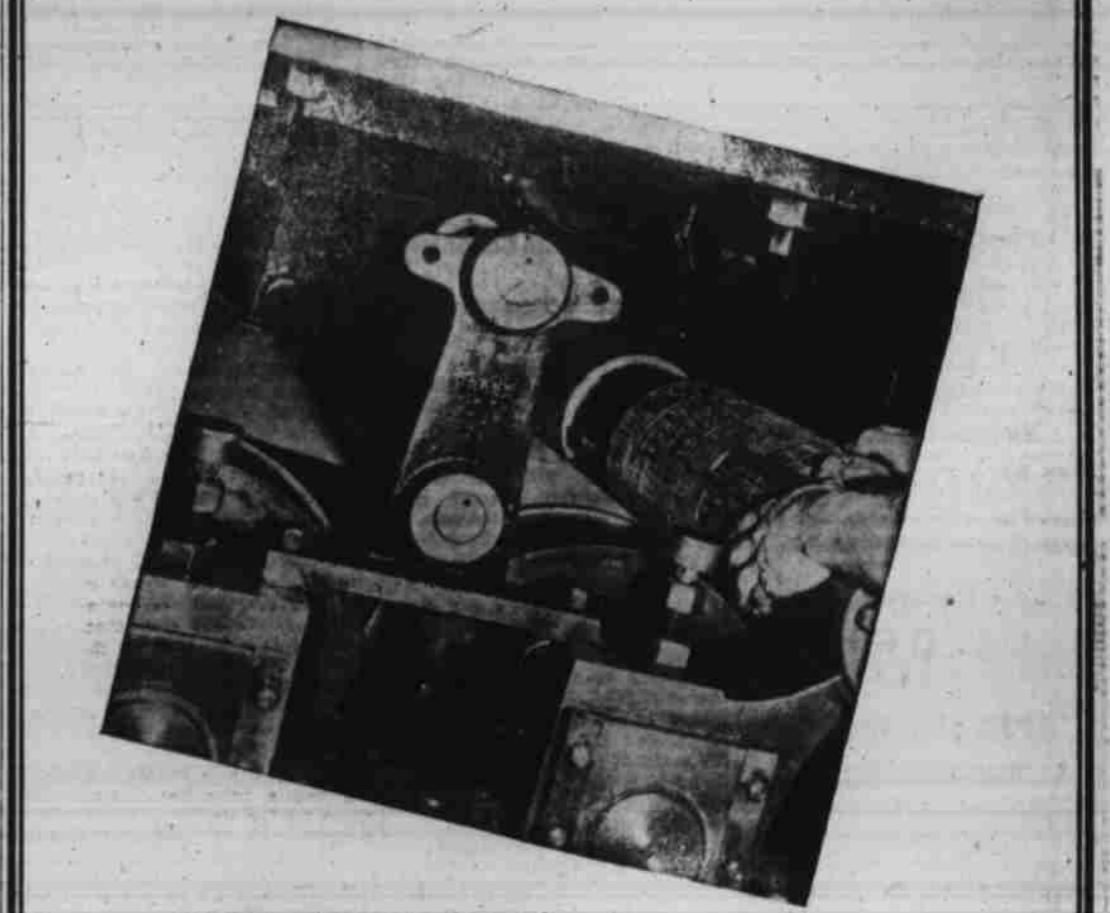

The McDowell Beauty shop will also show hair styles.

The models will be Mrs. W. O. Harper, Mrs. Bill Davidson, and Gloria Conley.

Styles in hair, spring clothes for men, women, and children and automobiles with the addition of a between acts program will be presented at the show.

Lemon Juice Recipe Checks Rheumatic Pains Quickly

If you suffer from rheumatism, arthritis or neuritis pain, try this simple inexpensive home recipe that thousands are using. Get a package of Ru-Ex Compound, a two-week supply, today. Mix it with a quart of water, add the juice of 4 lemons. It's easy. No trouble at all and pleasant. You need only 2 tablespoonsful two times a day. Often within 48 hours—sometimes overnight—splendid results are obtained. If the pains do not quickly leave and if you do not feel better, return the empty package and Ru-Ex will cost you nothing to try as it is sold by your druggist under an absolute money-back guarantee. Ru-Ex Compound is for sale and recommended by Collins Bros. and drug stores everywhere.—adv.

...HED!

The word sounds like so much Indian talk... but in The Herald pressroom, it's the "all clear" signal from the pressman to the man at the switch... "Let 'er Go!" in other words, as the last plate is snapped on and The Herald is made ready for delivery to your door.

This sound signals end of the news day for your afternoon newspaper... filled with columns of interesting local, national and international reading. It's the day's contribution to 1941 history, brought up to date.

Thumbing through the pages you find, in addition to world news, your favorite daily feature, comics, etc. Too, you are privileged to shop leisurely in the comforts of your home as you check the merchandise news of Big Spring establishments.

These, and other services, are offered only by your afternoon newspaper—

Income Tax Payments Up 58 Percent

WASHINGTON, March 3 (AP)—The treasury reported today that early income tax payments were running 58 per cent ahead of a year ago under the new defense tax system which requires more Americans to pay more taxes than ever before.

The budget calls for a 46 per cent gain, but how this expectation will fare depends on the record of the next several days when 10,000,000 taxpayers slide in under the March 15 deadline for filing income returns. Less than half that number have filed so far.

Soon after the defense program began, the administration and congress looked to the income tax to help pay part of the extra burdens. Tax rates were raised; exemptions were lowered.

Only the young men called for selective service were given a "break." They were not excused from filing returns, but were granted a moratorium on paying the tax until six months after their military duty ends.

Altogether, the treasury expects 15,000,000 individuals and 3,500,000 corporations to file returns this year—but only about half of the returns will show enough income to require payment of the tax.

For the average person, the most important change congress made in the law was to reduce personal exemptions from \$2,500 to \$2,000 for family heads, and from \$1,000 to \$800 for single persons.

Anyone with more income than these figures must file a return, whether he has enough other deductions to escape tax or not. This means married persons earning more than \$38.47 and single persons earning over \$15.39 a week must file.

MALONE-HOGAN NOTES

Omar Pitman, Jr., was admitted Saturday for medical attention.
Garland Finley, son of Mr. and Mrs. Finley of Route 2, had minor surgery Saturday.

Allis-Chalmers Machinery Sold By Walker Co.

Leslie Walker, owner of Walker Implement company at 205 NE 2nd St., deals with items that are of particular interest to this section of the country—namely, farm and ranch equipment.

Leading his list of stock is a complete line of Allis-Chalmers implements. This includes tractors, feed mills, silage cutters and breaking plows of all kinds.

In the featured role at Walker's place of business is the new, low-priced Allis-Chalmers tractor. This necessity of a modernly equipped farm or ranch has all the accessories of an expensive machine, yet is in the price-range of most low-downers. Fitted out with hydraulic power lift, self-starter, lights and a full two-pow, this tractor is ready to meet the demands of the majority of Howard county farmers.

Walker's business, since it does center mainly on farmer demands, is somewhat seasonal in activity. During the spring and fall he is called on to supply the greatest number of farm implements. As he is the only Allis-Chalmers agent in Howard county, Walker sometimes finds that the demands are almost as much as the supply during these rush periods.

In addition to sales, Walker is prepared to service any and all farm machinery that needs it.

After six years in the implement business in Howard county, Walker points out that he has nothing of which to complain so far as volume of trade is concerned. He is a native-born Howard county man and is well-qualified to recognize the demands and needs of people throughout this area.

X-Rays Expose Defects In Defense Materials

BOSTON—Even X-rays are doing their part in the nation's defense preparation, according to Arthur E. Auelair.

The Boston scientist told the Bay State Society of X-ray Technicians that all major arsenals, shipbuilding plants, and aircraft factories are using a gamma ray radiograph process to discover defects in war materials.

Boys At NYA Center Elect Own Officials

Hiram Shaw, Carlsbad, has been elected mayor of the National Youth Administration work center here as 48 youths balloted for their own "city" officials.

He won over Sam Barrett, San Angelo, after initial balloting showed them tied at 24-24. In a run-off, some of Barrett's supporters neglected to vote, while Shaw got his 24 again.

Other center officials named were Arthur Geffa, Colorado City, councilman-at-large; Valton Laird, Stanton, councilman place No. 1; Leonard Ford, Sweetwater, councilman place No. 2; and Clyde George, San Angelo, councilman place No. 3.

The five will make up the city council and largely govern the boys at the center in much the same manner as an ordinary municipal government is operated. They will appoint a chief of police, operator of the canteen, fire chief and health officer. Except in major disciplinary problems, they will mete out punishment to offenders by cancelling weekend leave or imposing extra duty. Last week the center adopted a charter.

Joe B. Harrison, supervisor, said Saturday that virtually all the shop equipment had been received and that machines were in place with exception of an adjustable saw which arrived Saturday. The forepart of the week the wood shop will go into production, turning out equipment for the Foran and Big Spring schools. R. M. Treadwell will direct activities.

Around 100 boys have been working on the NYA airport terminal and the number will vary on this job according to demands. All boys are making a welding class daily.

Odessa Solon Thinks Texas Needs Better Constitution

AUSTIN, March 3 (UP)—A West Texas legislator who thinks about 75 per cent of the state constitution should be wiped out and properly placed on the statutes instead has offered the machinery for performing the job.

Rep. Taylor White of Odessa, a business man holding his first public office, is the author of a resolution he believes could result in re-writing the constitution to meet present day needs and accomplish governmental reorganization.

It calls for a 15-member committee, five named by the governor, five by the speaker of the house and five by the senate president, to draft a new document and submit it to the next legislature which in turn could submit it to the people.

The present constitution adopted in 1876—the fifth since Texas became a state—has become out-moded, White believes.

If not, why the multitude of proposed amendments offered every time the legislature meets? he asks.

There are 16 in the house this session. And almost yearly for the past two decades the people have been approving or rejecting others.

"The constitution was written when Texas emerged from carpet-bag rule and there is no need for that kind of a document today," the insurance man-legislator declared.

"All we need is a simple bill of rights and the rest can be placed in the statutes. While we are at the job we can provide for court and fiscal reform and executive and legislative reorganization to meet present day needs—all in one basic operation."

He thinks a unicameral legislature would be fine for Texas and ought to be considered in rewriting the constitution. He has observed Nebraska's one-house legislature at work and believes it worthy of emulation.

However, this is one of the details that can be worked out later. The big job as he sees it is to get something started and as far as he is concerned his colleagues can alter his amendment just to they pass it.

"For no other reason the constitution should be re-written because it is too wordy, he maintains.

Illustrating this point he opened a book to the constitution of the United States. It was printed on five and one-half pages.

Immediately following it was the Texas constitution—on 23 1-2 pages.

Health at 77 Credited To Winter Gardening

COLUMBUS, O. — George R. Wheeler, 77, credits his system of "winter gardening" for his excellent health.

Wheeler spades his half-acre garden during the winter months, both for practical reasons and for exercise. He explains that after the ground is spaded in winter, "the frost pulverizes the earth, making the drainage perfect and putting the ground in good condition for grading and planting in the spring."

Wheeler boasts that his gardening habits have been partly responsible for his freedom from any serious illness during his life.

Contraption To Build Finger Muscles Shown

WORCESTER, Mass.—A finger-strengthening gadget for weak-muscle pianists is on exhibit at the Worcester historical society.

The gymnastic contraption, marketed in 1885 by J. Brotherhood of New York, consists of weights, arm rests, a small keyboard and several coil springs. After preliminary weight lifting on one section of the device, the pupil was supposed to manipulate the keyboard which offered stiff resistance.

New 4-H Club At Courtney Is Organized

STANTON, March 3 (Spl) — The number of home demonstration clubs in Martin county has been boosted to eight with organization of one at Courtney.

Miss Gracie McKee was named president of the new club, and other officers were Mrs. Elmo Nichols, vice president, Mrs. Odie Hazelwood, secretary - treasurer, Mrs. Roscoe Hazelwood, council delegate, Mrs. Bill Clements, recreational leader; Mrs. Pat Howard, parliamentary, Mrs. Harrison Bickley, expansion chairman, Mrs. J. D. McClellan, reporter, Fannie Luckie, home demonstration agent, met with the new unit. Mrs. McClellan said that since Courtney is one of the larger communities of the county and in a rich farming section, it would be expected that the membership would be second only to that of Stanton's club.

Senators Sheppard Seeks To Set Record Of Tenure In Congress

WASHINGTON, (AP)—The congressional service records of but three men in history now stand ahead of that of 65-year-old Senator Morris Sheppard (D-Tex.), who came here Oct. 11, 1903 as a representative.

The Texan is going on his 39th consecutive year in congress, having left behind the 38-year mark by the late Claude A. Swanson of Virginia and Frederick H. Gillett of Massachusetts.

Longest any man ever served was 46 years, the colorful Uncle Joe Cannon of Illinois, long time republican speaker, having set that mark. His service was not continuous. Should Senator Sheppard be re-elected in the coming year, he would serve the entire term, he will have put in 46 years and two months, consecutively.

The other two men whose records exceed that of Texas' senator were J. S. Morrill of Vermont, 43 years and 9 months, and W. P. Frye of Maine, 40 years and four months. Both were republicans and served during the last century.

A legal resident of Texarkana, Sheppard frankly admits he would like to set an "all-American record of service in congress" and that he intends to be in there campaigning for re-election with all his might in 1942.

His closest race for the senate was his first, in 1912. Having already served in the house, ten years, he decided to seek the senate vacancy scheduled to occur in 1913 through failure of the incumbent to seek reelection.

Although the seat was to be filled then as in the past by the state legislature, the Texas law-

Plane Tickets On Installment Plan Offered

Effective as of March 1, 1941, seventeen leading airlines, members of the Air Traffic Conference of America, offered a new installment plan for the purchase of air travel. This plan, in which American Airlines, Inc., is participating, permits the time payment purchase of air travel, and is the same as the one in effect for nearly a year in rail transportation.

This announcement by the airlines culminates a widening campaign to enable the average American family to purchase its travel as it is accustomed to purchasing so many other things. Until the past year, transportation was perhaps the only commodity that the American public could not "Buy Now and Pay Later."

It is believed that thousands of persons who have done little or no flying, due to a lack of ready cash, will now avail themselves of this new opportunity to travel by air on credit. A recent survey showed that 63 per cent of the persons who have availed themselves of the opportunity to purchase transportation on the installment plan would have stayed at home had the plan not been available.

Use of the plan requires no collateral and no down payment—only the signature of the individual. The cost of the proposed trip, however, must total \$50.00 or more to be eligible for purchase on credit. There is a nominal service charge for the credit accommodation.

Under this new arrangement, said Charles A. Rhinastrom, vice-president in charge of sales of American Airlines, Inc., the user of air service merely goes to any airline ticket office or travel bureau and makes application for travel credit.

Chrysler Leads In Increase In Sales

According to the official registration figures compiled by R. L. Polk and company, and published in the "Automotive News," Chrysler with an advance of 55.5 per cent, led the entire industry in percentage of gain in the calendar year 1940 over 1939.

This was the largest calendar year in Chrysler's entire history in the total number of six- and eight-cylinder cars sold, with 100,117 registrations, which beat the previous high, 1937, by several thousand units. It was the first time that Chrysler registrations had passed the 100,000 mark since the manufacture of sixes and eights began.

Appointive Oil, Gas Body Asked

HERALD AUSTIN BUREAU
AUSTIN, March 2.—Rep. Taylor White of Odessa, one of the sponsors of the new oil and gas commission bill in the house of representatives, expressed the opinion today that an appointive commission will bring harmony in the regulation of Texas' multi-billion dollar oil and gas industry.

"Under the present set-up," he said, "there is no harmony. Whenever you have members of a commission from different parts of the state favoring different sections of the state, you will never have harmony. Some areas are bound to be discriminated against under such a system."

L. E. Coleman Pioneers Tourist Camp Business

Almost as long as U. S. Highway 80 has been funneling transcontinental tourist traffic through Big Spring, L. E. Coleman has been maintaining his tourist quarters to make this an overnight stop for travellers.

A pioneer Big Spring citizen, Coleman also is a pioneer in the tourist field. His business located at the east end of E. 3rd street on the crest of what is familiarly known as Coleman Hill, is now in its 18th year.

During that time it has steadily expanded and improved in its facilities until today it excels the rigid standards of the Delux Motor Courts association, with which Coleman is affiliated.

As his accommodations met with an appreciative response on the part of tourists, Coleman not only improved quality of his cabins, but increased them in number. Today he has two units, Coleman Camp and Coleman Courts.

In summer, should the refreshing West Texas evening breezes fall to satisfy patrons, the cabins are so equipped that air-conditioning may be brought into play. Winter tourists, who go in more for putting up at night than do their summer cousins, find that Coleman has provided for their comfort with steam heat.

These are but typical of the accommodations available. Tourists find ready access to a store and cafe, filling their every need quickly after and before a day's hard travel.

Coleman has developed his business to the extent that tourists have learned they can go there with reasonable expectation of getting what they want at prices they are accustomed to paying. Too, the motor courts' association shows him listed in its literature on approved courts from coast to coast.

TEXAS IS READY!

OLD MAN TEXAS is ready and waiting to supply all of Uncle Sam's oil requirements for our new mechanized army, air corps and two-ocean navy.

And Old Man Texas can do this alone—without the aid of any other of the 24 oil-producing states. Merely by opening just a little wider the valves on the 95,000 wells now producing in the Lone Star State, he can furnish Uncle Sam's entire military needs. All of this can be done very easily, without drilling an additional well and without depriving a single American motorist of a gallon of Texas gasoline or quart of motor oil.

That's how ready Texas is to play its part in furnishing the Nation with whatever is needed of the most vital essential of modern warfare — oil.

A survey of how well prepared Texas is to meet the increased oil requirements caused by the National defense program has just been made by the Texas Mid-Continent Oil and Gas Association, research organization of Texas oilmen. The facts which it found are startling.

For instance, estimates on the total increased consumption of Uncle Sam for full war purposes range from 50,000,000 barrels more a year to 150,000,000 more. Yet one Texas field—the great East Texas field—last year produced over 140,000,000 barrels, or almost three times this minimum estimate. And this was under the most rigid control of East Texas output, with the field shut down nearly half of the time. To meet the 50,000,000 barrel a year in-

creased demand, all of the more than 500 separate oil fields in Texas today would together have to produce less than 140,000 barrels more a day. That's only 275 barrels more per field per day. Or only a barrel and a half more per well per day!

That the 50,000,000-barrel estimate is not much too low is seen in the fact that Hitler is credited with requiring 84,000,000 barrels of oil per year for armed forces numbering around 7,000,000 men, and spread from Scandinavia to Sicily. But let's consider the highest American estimate of 150,000,000 barrels of oil a year for our defense needs.

Experts with leading Texas oil companies calculate that Texas could produce from 427,000 barrels more per day to as high as 1,000,000 more per day than it is now producing. This is as of today and without drilling a single new well. Even if Texas produced only 427,000 barrels a day additional, this State alone in a year would put out 155,855,000 barrels more of oil, or nearly six million barrels over the highest estimate of American war demand. If Texas produced 1,000,000 barrels more a day, the total would be 365,000,000 barrels additional, or nearly two and one-half times as much as the top military demand figure. And this 1,000,000 barrels more per day could be produced quite easily by 23 principal flush pools of Texas (but NOT counting East Texas) by adopting a rate of depletion of 6.2 per cent. This is the average rate of depletion for all prorated oil

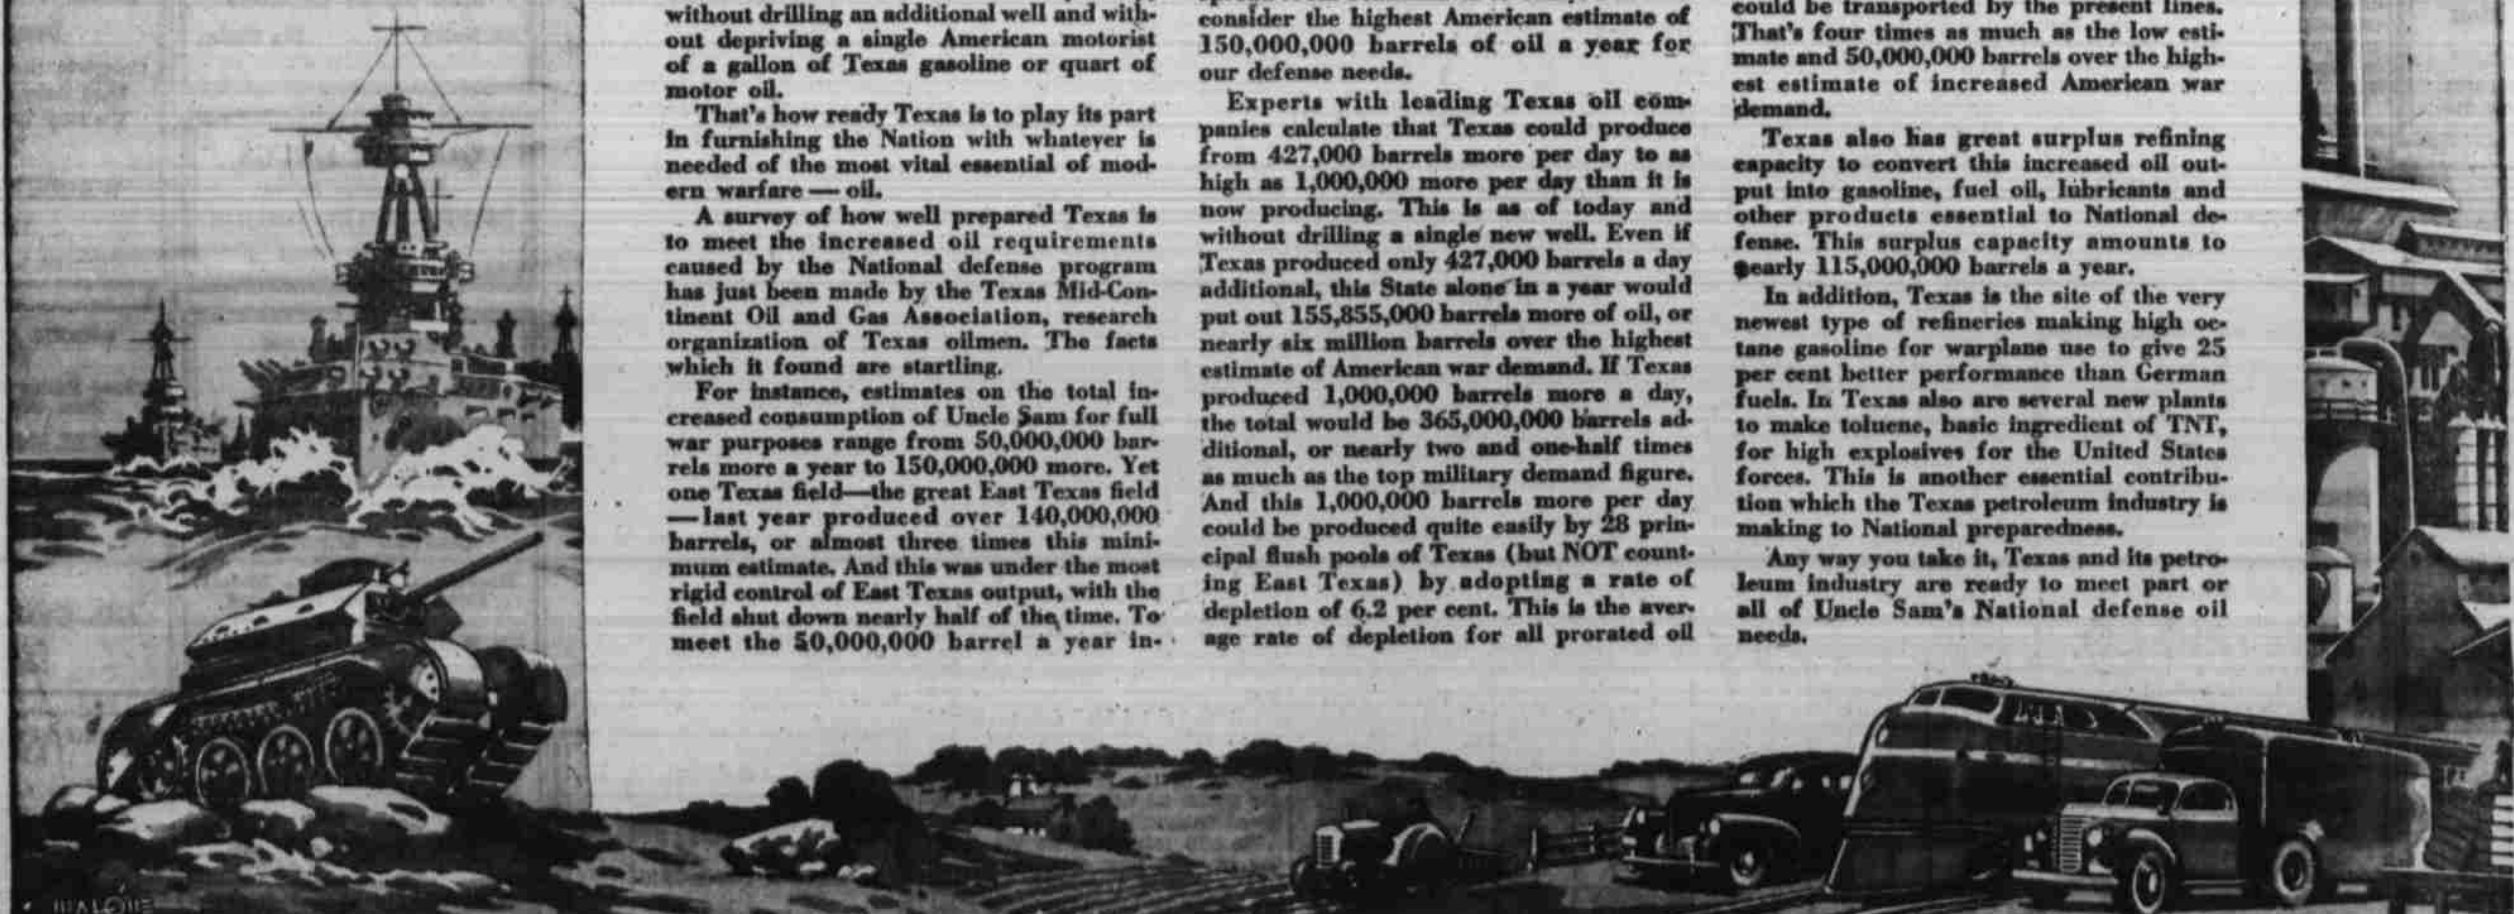

fields in Texas outside these 23 largest pools, so the rate apparently would not be excessive.

Furthermore, Texas has the surplus capacity in its 32,000 miles of oil pipe lines to transport millions of barrels more of oil a year. Figures gathered by Texas Mid-Continent statisticians show that while Texas pipe lines move about 475,000,000 barrels per year, the lines still have a surplus capacity of 43 per cent. That means 43 per cent more, or 200,000,000 barrels additional, could be transported by the present lines. That's four times as much as the low estimate and 50,000,000 barrels over the highest estimate of increased American war demand.

Texas also has great surplus refining capacity to convert this increased oil output into gasoline, fuel oil, lubricants and other products essential to National defense. This surplus capacity amounts to nearly 115,000,000 barrels a year.

In addition, Texas is the site of the very newest type of refineries making high octane gasoline for warplane use to give 25 per cent better performance than German fuels. In Texas also are several new plants to make toluene, basic ingredient of TNT, for high explosives for the United States forces. This is another essential contribution which the Texas petroleum industry is making to National preparedness.

Any way you take it, Texas and its petroleum industry are ready to meet part or all of Uncle Sam's National defense oil needs.

Mighty Rookie Signs Papers With Cubs

AVALON, Santa Catalina Island, Calif., March 3 (AP)—Walloping Louis Novikoff, the Babe Ruth of the minor leagues, may do an elf fold comparable to those of several other Pacific Coast league batters, but he certainly made a favorable impression in a hurry on a man who should know a hitter when he sees one.

Manager Jimmy Wilson of Chicago's Cubs took one look at the famed Novikoff swing and at a ball traveling out toward a 45-foot target in deep right field, and whistled:

"Whew-le."

It was the veteran Wilson's one-word stamp of approval on perhaps the year's outstanding rookie, whose big bat has captured the hitting championships of every minor league he has played in—the coast, Texas and Three-I circuits.

Novikoff, up from Los Angeles after clouting the ball at a 363 clip last season, made his debut in a Cubs uniform yesterday 20 minutes after he reached a salary agreement with General Manager Jim Gallagher.

The end of Novikoff's holdout stage apparently was good news to both sides. He reportedly was offered \$4,000, asked \$8,000, and probably settled for a figure in between, with a promised bonus if he comes through.

Boston Bees Switch Grempp From PITCHER To CATCHER

SAN ANTONIO, March 3 (AP)—Manager Casey Stengel rates Buddy Grempp as "the most promising rookie" in the Boston Bees camp and said he would have given him serious consideration for first base if the club hadn't obtained Babe Dahlgren from the New York Yankees. Now he is going to be tried out as a catcher.

Coffin Calls Good Poem Useful And Long Lasting

TULSA, Okla.—Robert P. Tris-tram Coffin American poet, says that a good poem is like a good plow—"It has good lines and contours; it is useful, long lasting, and never gets out of date."

Coffin, a stalwart New Englander, pool-pooched the popular conception of poetry as a delicate, diaphanous something of a pale lavender hue. Good poetry, he said, can be and usually is forceful and earthy.

"The things that go together to make a poem," he said, "may be quite ordinary things—like a dog's tail, a plank, or a plow."

Dear Visit Downtown

TRINIDAD, Colo.—Trinidad had a pair of unusual visitors when two handsome buck deer wandered into the downtown section. The bucks darted among cars, nibbled at some lawns, and then ambled back into the mountains.

Big Spring, Texas, Monday, March 3, 1941 Page Five

LEW JENKINS, Sweetwater battler, sings a victory song with his wife, Katie, after his seventh-round technical knockout of Lou Ambers of Herkimer, N. Y., at New York City.

Ponies Hold Hogs' Adams To One Goal

By Associated Press

Only five points between him and a life-time dream, string-bean Johnny Adams had no alibi today for failing to set a new scoring record in Southwest conference basketball and emerged as one of the finest competitors in conference history.

Guarded closely Saturday night by Southern Methodist's Wilbur Keith, Rusty Bocuse and Johnny Sebeck in a tantalizing man-for-man shifting defense, the Arkansas jumping jack—one of the greatest offensive threats the game ever knew—scored only one field goal.

Definitely off his game, a bit "light" under pressure, he missed shots he usually made.

The Pony defenders hounded him like stray dogs.

They kept him away from the foul circle, forced him to the corners, rushed him into frequent errors.

The night before the Hogs beat S. M. U. 40-23. In the two games they pushed their season's total scoring to 646 for a new conference record. Adams made 30 points in the series, giving him a season total of 206. Hub Kirkpatrick of Baylor holds the record—210 in 1933.

The Mustangs' two losses gave them an even break in conference competition—six wins and six defeats. Tuesday night they handed Texas Christian its twelfth consecutive loss, 38-36.

Rice, a great offensive combination featuring Frankie Carswell, Bob Kinney and Tom Closs, whipped Baylor 62-60 Monday and Texas 73-64 Saturday, the latter contest setting a new conference record for total points in one game.

The Owls, who last season scored 607 points for a new record, scored 645 this year—one less than Arkansas. Their eight victories and four defeats (two to Arkansas, one to S. M. U. and Texas) gave them second place in conference standings.

Texas beat the Texas Aggies Thursday 43-22. The Cadets lost Saturday night to Baylor, 33-28.

Only games remaining on the schedule is the Texas-A. & M. contest Thursday night in Austin.

Behind Adams in scoring is Carswell with 175 points, Kinney with 144 and Closs of Rice with 124.

Veteran Ball Man Steps Down

BINGHAMPTON, N. Y.—After 54 consecutive years of railroading, a man has a right to a little rest. So Edward F. Kenetic, an engineer, has hung up his overalls for good. He started as a car repairman in 1887.

Lookin' 'em Over

With Jack Douglas

To say that Jodie Tate and Tink Riviere, Big Spring baseball impressionaries, are pleased with their working agreement with Larry McPhail's Brooklyn Dodgers, is putting it lightly—they are tickled pink.

It means more to them than just getting a crew of young players who have been given the once-over by the best ivory-hunters in the land—the idea of being affiliated in even a small and rather round-about way with one of the top-ranking major clubs, is enough to give the owners a pleasant glow.

But, the agreement means more than that—it is a rock-ribbed indication that the local club is a permanent fixture, as near as any organization of its nature and location can be.

Dr. M. H. Bennett, hard-riding Big Spring poloist, is in San Antonio to engage in one of the biggest horse-mallet-rider exhibitions in the nation. Bennett is a part of the Lamasa quartet that will match its wares against all comers until that ad moment when they are either ousted by a club with the most on its ball or go to the last go-round.

Lou Ambers, one of the greatest of this day's fighters in all weights, came to the end of his flistic road Friday night in a blaze of glory. He was put out of the running by one of the hardest-hitters among the little fellows—put out with a decisive technical knockout in the seventh round—but it was him, not the winner, Lew Jenkins of Sweetwater, who got the applause of the crowd as he moved out of the ring and down the aisle.

Things like that happen sometime, especially when the loser puts up a game scrap and the winner is one who is disliked by the majority of fans. It was a grand tribute to one of the games' and most likeable boys in the sport when the New York crowd of 15,000-plus raised the roof, but not so good for Texas Law, especially when his share of the racket consisted solely of a hearty and thunderous round of boos.

But, Jenkins has a long way to go yet. There can be no doubt about him being one of the best and the fans will like to follow him as time goes on. It happened in Dempsey's case and it can be repeated.

Cage 'Experts' Start Picking Nat'l Bidders

NEW YORK, March 3 (AP)—This is the time of the year when the basketball "experts" work harder than the boys who spend their evenings running up and down a hardwood floor trying to toss a ball through an elevated hoop.

The major part of the season's work for the players—settling their sectional championships—is nearly over. Titles that haven't already been decided probably will be this week. But the "experts" are just starting the task of picking out the teams that will compete for the various national championships.

Representatives of various sections must be chosen for the National Collegiate A. U. tournament. In most cases the conference champions get first call, but occasionally there are powerful "independents" to be considered or else the champs don't want to play any more.

New York's national intercollegiate invitation tournament will run four nights at Madison Square Garden this year and plans call for wider representation than ever before. The New York basketball writers have the job of picking teams for this meet. Then there's the national intercollegiate tournament at Kansas City, which brings out the mighty small-college teams. A few college quintets usually enter the National A. U. tournament, although they seldom go far in it.

The championships of the Southern, Southeastern, Big Ten and Pacific Coast, northern division, circuits were decided last week with the titles going to Duke, Tennessee, Wisconsin and Washington State, respectively. Arkansas in the Southwest conference and Stanford in the Pacific Coast southern division previously had clinched their crowns.

Penn's Woods Remains True To Old Name

HARRISBURG, Pa. — Pennsylvanians practically never get out of the woods. Nearly half of the 13,200,000 acres comprising the state are covered with forests.

Farmers own the majority of timberland, approximately one-third of the total acreage. Bituminous and anthracite coal miners own 2,000,000 acres.

State forests amount to 1,654,283 acres and game refuges take up 680,774 acres. Another 600,000 acres are devoted to recreational pursuits by individuals and clubs, and nearly 100,000 acres are made into municipal forests and city recreational zones.

English Students Form Squad To Bathe Babies

MANCHESTER, Eng. — Young men and women students of Manchester University have formed a "bath squad" as part of their contribution to the help being given to hard-pressed mothers of large families who have been bombed out of house and home.

The procedure is to gather up babies soon after breakfast, carry them to the men's and women's tubs, wash them in the basement a dozen at a time in bathtubs and wash basins, and then return them home to their mothers.

Big Spring Baseballers Open Season On April 22

Local Club Has Wichita As First Opponent On 140-Game Schedule

Big Spring's baseball club journeys to Wichita Falls on April 22 to open its share of 1941's West Texas-New Mexico league wars, as arranged in the schedule worked out at Berger Sunday in the annual convulse of all about managers and owners.

Other inaugural games will line up Pampa at Berger, Amarillo at Clovis, N.M., and Lubbock at Lamasa. Return home engagements will place the opening day fess on the field on April 24.

This year's card calls for each organization to step before the customers 140 times before the finishing touches are put on regular season competition. Labbock was chosen to be the site of an all-star battle on July 21.

Jodie Tate and Tink Riviere, co-owners of the local club, were on hand at the parley to receive formal approval of the removal of the Odessa franchise to Big Spring. Other business included official awarding of the 1940 pennant to Berger and the setting of uniform admission charges.

With the final touches put on the loop's groundwork, early spring preparations are slated to slip into high gear by the latter part of March. This year's setup includes two withdrawals, Midland and Odessa, but these vacancies were filled by the admission of Wichita Falls and the return of Big Spring to the fold after letting its franchise go to Odessa midway of the 1940 race.

Phillips Has Slight Lead In Pre-Game List

Phillips' Tremen vs. Empire's Gassers and Crystal's Chefs vs. Vaughn's Doughboys are the featured attractions on the bill of fare in the first round of the Major City basketball league playoff to be held Monday night at 7:30. Winners of the evening's sessions clash for the final decision Thursday night of this week while the losers conspire each other in a prize battle on the same card.

The Tremen tangle with the Gassers to raise the curtain on the 1941 loop's elimination scramble. At 8:30 p. m. the Chefs see what the Doughboys have to offer to bear out their bid for the city title.

This year's roundelays have come through with an outstanding brand of basketball with most of the quintets blasting each other in a nip and tuck battle for the leading role. Coming up out of the ranks in a flashy manner, the Chefs have displayed the greatest tendency to upset the two pre-season favorites, Phillips and Vaughn's. Losing their lead when they dropped a rough and ready fight to the Doughboy five last week, the Chefs were noted by a consistently powerful Tremen crew and go into the final rounds in the second-place berth.

Vaughn's quintet has had a rather on-again, off-again record marked against them during the race, but finished up regular scheduled play with enough dash to be counted as one of the pre-tournament favorites.

Given but an outside chance to sop the title, the Gassers have indicated they are capable at times when the pinch comes.

Final standings:

Team	W.	L.	Pct.
Phillips	5	14	.260
Crystal	5	2	.200
Vaughn	6	34	.150
Empire	5	5	.500
Cities	4	6	.400
Ward	0	10	.000

Bill To Stop Death Penalty Discussed

(Herald Austin Bureau)

AUSTIN, March 3—Working up material to present to the criminal jurisprudence committee, Rep. Taylor White of Odessa said today he would ask for a hearing in the near future on his bill to abolish the death penalty in Texas.

The bill was introduced in line with suggestions from Governor W. Lee O'Daniel, who has consistently opposed the infliction of the death penalty since he took office.

"The only justification for the death penalty," pointed out Rep. White, "is the claim that it will deter crime. The experience of other states, however, does not sustain this claim."

Texas Waterways Expenditures In Texas Suggested

WASHINGTON, March 3 (AP)—Congress was informed today by army engineers that \$27,128,900 could be profitably expended on Texas waterways during the 1942 fiscal year, including \$15,360,200 for continuing construction at the Red river dam near Denison.

The sum was in addition to any unexpended funds already available for Texas improvements. For the Denison dam it was estimated that with expenditure of the \$15,360,200 the \$24,000,000 flood control power project would be 59 percent complete at the end of the fiscal period beginning July 1.

A sum of \$6,250,000 was listed as estimated expenditure, should congress see fit to appropriate it for flood control improvements on Buffalo bayou, at the head of the Houston ship channel. Navigation projects accounted for the remaining \$6,528,700.

The engineers explained that the sum mentioned for the Denison dam, if appropriated, would be spent as follows:

- Engineering studies and exploration, \$300,000; acquisition and clearing land for reservoir area, \$2,500,000; operation service railroad, \$85,000; outlet works structures, materials, \$150,000; embankment construction and spillway excavation \$6,163,700; spillway construction \$1,500,000; relocation railroads, highways and public utilities, \$3,200,000; powerhouse equipment, \$1,000,000.

At the top of navigation projects was the Sabine-Neches waterway, on which the engineers said \$2,778,500 should be spent. The Louisiana-Texas intra-coastal canal from the Sabine river to Corpus Christi, was listed with an estimate of \$1,153,000.

Other Texas navigation projects, and the sums which could be profitably expended on each, included: Trinity river, \$44,000; Cypress bayou and waterway between Jefferson, Texas, and Shreveport, La., \$1,600.

Johnny Allen Returns To St. Louis Browns' Fold

SAN ANTONIO, March 3 (AP)—Johnny Allen, the temperamental pitching veteran whose absence from camp had Manager Fred Haney of the St. Louis Browns worried all last week, worked out with the squad Sunday for the first time. He declared he was "ready" and the other Browns hope he was right.

Jack Sharkey Knows Whether Joe Louis Can Outpunch Dempsey, But Won't Tell

probably is better fixed than he was when his earning capacity was the greatest. In those days, all of his purses, except the funds needed for the upkeep of his beautiful Chestnut Hill estate and the living expenses of himself and family, went into trust funds.

Some of them have matured and been re-invested soundly. Most of them will do the same soon. But Sharkey does not have to touch any of them to maintain a high living standard for his family. He makes more than enough out of his tavern to meet current expenses and provides him with the pleasures he desires, such as expensive automobiles, theatre parties and interesting wagers at pool and hearts.

"Respected Neighbor"

Champion Sharkey is a man of substance, a respected neighbor in one of Boston's most exclusive sections and a patron of many arts. His interest in boxing is only academic now, but he will go miles out of his way to help that sport or one of its unfortunate victims.

"I still love boxing," he says. "I should, for it was good to me."

Sharkey's, naturally, is the first port of call for every broken-down battler to hit town. Most of them have him marked for "the bite."

"No one can make a chump out of Sharkey but when you raise a helping hand from him, you get the old-timer's sag."

Wigwam Type Shelters Designed For US Use

QUINCY, Mass. — The Brooks-Skinner company, manufacturer of structural steel buildings, announces it has equipment ready for production of 50,000 bomb shelters a year.

Plant officials say the entire factory could be converted overnight into such manufacturing should war come to the United States.

Experiments costing thousands of dollars were made before the several-sized models were developed. The shelters are similar to those used by British families, but have a sharp pointed cone top instead of a dome top.

The steel-plate shelters are built to accommodate from 5 to 50 persons and will from \$11 up according to size. They resemble wigwams or pyramids and have concrete foundations.

Leipzig Trade Fair Plans Spring Session As Usual

LEIPZIG—The 126th session of the Leipzig trade fair will be held from March 2 to 7, inclusive, it has been announced. More than 8,500 exhibitors from 18 countries have engaged space and fair representatives estimated more than 100,000 buyers and visitors from 35 countries would attend.

The Leipzig fair has been held without interruption for more than 200 years.

First Round Of M-C Cage Loop's Playoff Tonight

Big Spring Baseballers Open Season On April 22

Local Club Has Wichita As First Opponent On 140-Game Schedule

Big Spring's baseball club journeys to Wichita Falls on April 22 to open its share of 1941's West Texas-New Mexico league wars, as arranged in the schedule worked out at Berger Sunday in the annual convulse of all about managers and owners.

SPORTS ROUNDUP

By EDDIE BRIEZY

NEW YORK, March 3 (AP)—Golfers Willie Turner's draft number will be coming up shortly. . . . Right now Jack Doyle, the "wisard of odds," leans to the Yanks and Reed, but he's afraid the draft is going to ball everything up. . . . Dan Cupid just called to say Don Bugde has fallen hard for Alice Marble and vice versa. They say she's out his matted milk quota from ten to five per day. Also, Don must be thinking of other things than tennis for old Bill Tilden snored his way back in Fort Worth the other night. . . . The draft has bagged Jack Naylor, ex-Columbia basketball star and he leaves for camp today.

Omigosh!

One of the best baseball writers in the business picked an all-major league club team and who do you suppose he left off? . . . G. Herman Ruth, than whom there is none whomer.

Caught on the fly.

There were more football coaches than fight managers at the Chicago Golden Gloves tournament. . . . The Browns have a standing offer for Rick Ferrell which may be why Rick signs those Washington contracts so promptly. . . . Just 21 coaches applied for the Boston College job, while more than 60 went into a mad scramble for Al McCoy's old post at Colby. . . . Both Jersey City and Washington are trying hard to get the Tony Galento-Buddy Bear away from Philly. How come? . . . Jimmy Fox is commuting between the Red Sox training camp at Sarasota and St. Pete where he owns a golf course. . . . Jack Curley, veteran boxing instructor in a New York gym, says Dempsey would have polkaed off Joe Louis in two heats.

Today's guest star.

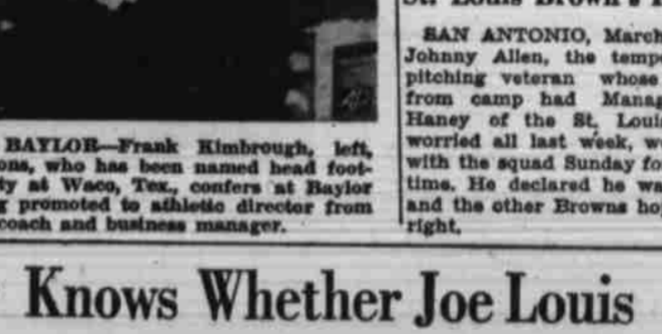

Arch Ward, Chicago Tribune: "How come no one has mentioned that the U. of Oklahoma should expect a brilliant football season now that it has signed Dewey Luster as coach?" . . . Or that Friday night's fight was a Lou-Lew, Arch?

Personal mention.

Judge Landis' new hat is a nifty number. . . . During his 27 years as athletic manager at Colorado Mines, Dave Johnston has seen 13 football coaches set up housekeeping and 12 depart. . . . The south will get a look at Tom Harmon when the Hammond (Ind.) basketball team invades that section soon. . . . If we had had a parlay on Ray View and Big Pebble you can bet we wouldn't be banging out this dope today. . . . Dick Bartell says Charlie Gehring has the sharpest eyes for balls and strikes of any player in the American league. . . . They booed Lew Jenkins when he entered the ring and booed him after the fight. Made him so sore he wouldn't speak on the radio. Quite a popular character, Lewis.

Johnny Allen Returns To St. Louis Browns' Fold

SAN ANTONIO, March 3 (AP)—Johnny Allen, the temperamental pitching veteran whose absence from camp had Manager Fred Haney of the St. Louis Browns worried all last week, worked out with the squad Sunday for the first time. He declared he was "ready" and the other Browns hope he was right.

Jack Sharkey Knows Whether Joe Louis Can Outpunch Dempsey, But Won't Tell

Jack Sharkey, who has named himself as the man who will decide whether Joe Louis can outpunch Gene Tunney, says he knows the answer but won't tell.

"I still love boxing," he says. "I should, for it was good to me."

Wigwam Type Shelters Designed For US Use

Houston Five Is Favored In State Meet

By Associated Press

The Jeff Davis Panthers of Houston look like the team to beat in the state schoolboy basketball tournament at Austin this week—but there are quite a few who say San Marcos can do it.

The Rattlers stumbled at first but finished the district and regional drive with a rush. Followers of the team declare it now is every bit as good as that of last season when the Rattlers worked their way to the state championship.

San Marcos dropped games to Austin and Jeff Davis in the practice schedule but it was Austin the Rattlers beat out for the district flag.

Equipped with three members of last season's title team—Coers, Edwards and Jones—San Marcos has the experience and poise necessary to wade through such a strong field as presented at the state tournament.

Jeff Davis has lost but one game and the Panthers loom as all sorts of trouble for the field in the showdown Friday and Saturday.

Luck of the draw may put the two teams in opposite brackets, which would make them favorites to clash in the final. Pairings will likely not be made before tomorrow.

Two other teams stand out in the drive to the state tournament. Mount Vernon, the East Texas power, may be the "dark horse."

El Paso High, the 1940 state runner-up, is back with another fine team. The Tigers, like San Marcos, had trouble until the chips were down. Then El Paso went to work, beating the widely-heralded Odessa team in the first round of the regional tournament and crushing Imperial in the final.

Among the four other teams qualifying for the state tournament is Abilene, a perennial visitor to Austin. The Eagles have won their regional championship three times in four years and are unbeaten this season.

Pampa, Waco and Bloomington are the remaining three.

Bill To Stop Death Penalty Discussed

(Herald Austin Bureau)

AUSTIN, March 3—Working up material to present to the criminal jurisprudence committee, Rep. Taylor White of Odessa said today he would ask for a hearing in the near future on his bill to abolish the death penalty in Texas.

The bill was introduced in line with suggestions from Governor W. Lee O'Daniel, who has consistently opposed the infliction of the death penalty since he took office.

"The only justification for the death penalty," pointed out Rep. White, "is the claim that it will deter crime. The experience of other states, however, does not sustain this claim."

Texas Waterways Expenditures In Texas Suggested

WASHINGTON, March 3 (AP)—Congress was informed today by army engineers that \$27,128,900 could be profitably expended on Texas waterways during the 1942 fiscal year, including \$15,360,200 for continuing construction at the Red river dam near Denison.

The sum was in addition to any unexpended funds already available for Texas improvements. For the Denison dam it was estimated that with expenditure of the \$15,360,200 the \$24,000,000 flood control power project would be 59 percent complete at the end of the fiscal period beginning July 1.

A sum of \$6,250,000 was listed as estimated expenditure, should congress see fit to appropriate it for flood control improvements on Buffalo bayou, at the head of the Houston ship channel. Navigation projects accounted for the remaining \$6,528,700.

The engineers explained that the sum mentioned for the Denison dam, if appropriated, would be spent as follows:

- Engineering studies and exploration, \$300,000; acquisition and clearing land for reservoir area, \$2,500,000; operation service railroad, \$85,000; outlet works structures, materials, \$150,000; embankment construction and spillway excavation \$6,163,700; spillway construction \$1,500,000; relocation railroads, highways and public utilities, \$3,200,000; powerhouse equipment, \$1,000,000.

At the top of navigation projects was the Sabine-Neches waterway, on which the engineers said \$2,778,500 should be spent. The Louisiana-Texas intra-coastal canal from the Sabine river to Corpus Christi, was listed with an estimate of \$1,153,000.

Other Texas navigation projects, and the sums which could be profitably expended on each, included: Trinity river, \$44,000; Cypress bayou and waterway between Jefferson, Texas, and Shreveport, La., \$1,600.

Johnny Allen Returns To St. Louis Browns' Fold

SAN ANTONIO, March 3 (AP)—Johnny Allen, the temperamental pitching veteran whose absence from camp had Manager Fred Haney of the St. Louis Browns worried all last week, worked out with the squad Sunday for the first time. He declared he was "ready" and the other Browns hope he was right.

Jack Sharkey Knows Whether Joe Louis Can Outpunch Dempsey, But Won't Tell

Jack Sharkey, who has named himself as the man who will decide whether Joe Louis can outpunch Gene Tunney, says he knows the answer but won't tell.

"I still love boxing," he says. "I should, for it was good to me."

Wigwam Type Shelters Designed For US Use

QUINCY, Mass. — The Brooks-Skinner company, manufacturer of structural steel buildings, announces it has equipment ready for production of 50,000 bomb shelters a year.

Plant officials say the entire factory could be converted overnight into such manufacturing should war come to the United States.

Experiments costing thousands of dollars were made before the several-sized models were developed. The shelters are similar to those used by British families, but have a sharp pointed cone top instead of a dome top.

The steel-plate shelters are built to accommodate from 5 to 50 persons and will from \$11 up according to size. They resemble wigwams or pyramids and have concrete foundations.

Leipzig Trade Fair Plans Spring Session As Usual

LEIPZIG—The 126th session of the Leipzig trade fair will be held from March 2 to 7, inclusive, it has been announced. More than 8,500 exhibitors from 18 countries have engaged space and fair representatives estimated more than 100,000 buyers and visitors from 35 countries would attend.

The Leipzig fair has been held without interruption for more than 200 years.

Beware Coughs Following Flu

After the flu is over and gone, the cough that follows may develop into chronic bronchitis if neglected. CREOMULSION relieves promptly because it goes right to the seat of the trouble to help loosen and expel gun laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. No matter how many medicines you have tried, tell your druggist to sell you a bottle of CREOMULSION with the understanding you must like the way it quickly silences the cough or you are to have your money back.

CREOMULSION for Coughs, Chest Colds, Bronchitis

Editorial—Censorship Duty Of Press Presents Complications

The President, in commenting recently on newspaper reports that General George C. Marshall, Army chief of staff, had told the Senate Military Affairs Committee in executive session that the Pacific fleet is being reinforced with modern airplanes, directs attention to a problem that promises to become increasingly delicate and difficult. In time of war or threat of war it is clearly necessary to distinguish between information that should be made public and that which should be withheld from publication. And yet, as illustrated by this incident, the distinction is one which is not always easily made.

Man About Manhattan—Hawaiian Trio Learns Musis Of Isles After Leaving Them

NEW YORK—A deceptively unattractive sight in west 48th street, just off 6th avenue, is a weather-stained table standing on the sidewalk against the facade of the Bryant Book shop. On this table is piled a rabble of books, many of them as weather-stained as the table itself. You will find old mystery thrillers, travel journals, memoirs, and many similar volumes, some second hand, others the left overs of old stock that did not sell.

Hollywood Sights And Sounds—'Strawberry Blonde' Makes The Crowd Laugh Plenty

HOLLYWOOD — "The Strawberry Blonde" Screenplay by Julius J. and Phillip G. Epstein, from play by James Hagan. Directed by Raoul Walsh. Principals: James Cagney, Olivia de Havilland, Rita Hayworth, Alan Hale, Jack Carson, George Tobias, Una O'Connor, George Revere.

ALONG CAME CINDERELLA

Bored Where a stone wall skirted the steep slope they stopped. Roger sat down on the low wall. Emily moved in close as she so often had to Roger's arm should to close around her in the familiar way. She looked at him thoughtfully.

The Timid Soul

HOOD CHILDREN HAVE BEEN THROUGH SNOWBALLS The neighbor—hood children have been through snowballs. A man with a big, powerful head, thin straggling hair and steel spectacles that somehow give him a menacing expression, paced up and down reading his speech with gestures, by his desk at the front of the chamber.

Also And Kintner—Filibuster Over Lease-Lend Presents A Strange Sight

WASHINGTON, March 3—It is now clear that the leaders of the opposition have organized a filibuster against the lease-lend bill. Poor management of the administration forces in the senate, due largely to the prolonged illness of Senator Walter F. George, has given the opposition a tempting chance. They are now delaying the final vote for a week or ten days, in the hope that by hammering on the nerves of the senatorial wobblers and the public, they will finally obtain a response.

Your Income Tax—The Green Sheet's Gone

WASHINGTON — For the millions of Americans fighting the perennial battle of income tax returns, there is at least one consolation this year. The painful chore of making out a "green sheet," or duplicate return has been eliminated. The idea of the green sheet, successor to the blankety-blank pink sheet, was to provide for local tax authorities where officially requested the names of persons having taxable property.

Don't overlook any item of schedule on the form which you are required to fill out. Don't omit any explanation or information that is essential to a complete audit of your return. Fill in the schedules on the back page of your return before attempting to make out the main part on the front page. Double-check all items and be sure that your return is filed at the office of the collector of revenue (or in the mail) before midnight, March 31.

British Bomb Brest Harbor

LONDON, March 3 (AP)—British bombers attacking Brest yesterday reported that sticks of bombs were seen to straddle docks at which a German cruiser of the Admiral Hipper class was berthed, while other raiders sank a 2,000-ton vessel in an "enemy" supply convoy in the North sea, the air ministry said today.

Authoritative sources said the Hipper class cruiser was the same vessel the RAF reported attacking last week at Brest.

(Vessels in the Hipper class are 10,000-ton craft, all five of them being built between 1937 and 1939.)

Other planes attacked the seaplane base at List, in the Kiel region of Germany, and also bombed shipping off the Dutch islands, the air ministry said.

San Antonio Hotel Manager Succumbs

SAN ANTONIO, March 3 (AP)—Paul E. McSwain, 45, manager of the St. Anthony hotel here, died suddenly yesterday.

He collapsed while dancing at the San Antonio country club about 1 a. m. Justice of the Peace Otis West returned a verdict of death from a heart attack.

Active in civic affairs, McSwain was King Antonio XVIII during the Fiesta De San Jacinto in 1936. He had served as a member of the executive council of the American Hotel Association, and as president of the Texas Hotel Association.

Camp Wolters Nearly Finished

MINERAL WELLS, March 3 (AP)—Priority or "must" construction at Camp Wolters was approximately 98 per cent complete today, a week before first selectees are received for basic training at the big infantry replacement center.

Work on the camp as a whole was 84 per cent complete, with approximately 12,000 construction men of all types on the job.

March 11 is the date set for arrival of the first batch of selectees.

Dwarf Apple Tree Appears

GENEVA, N. Y.—A truly dwarf apple tree, easy to pick and quick to bear fruit, has become a practical accomplishment, according to Dr. H. B. Tukey, state experiment station horticulturist. The dwarf tree grows no taller than a man's knee and bears fruit in the second year at the latest.

Bid Of \$10,000 Refused For Model Locomotive

PHILADELPHIA — Edward W. Scher, president of the Reading company, in revealing that actress Miriam Hopkins had offered \$10,000 for the miniature model of Engine 111, has promised that the model never will be sold.

The 24-foot-model, built by apprentices at the company's Reading, Pa., shops, will be placed on permanent exhibition at Reading Terminal here, according to Scher.

The miniature is a one-eighth working size model of the Reading's crack engine which pulls a passenger express between New York and Philadelphia.

Co-Ops Save Students

CHAMPAIGN-URBANA, Ill. — University of Illinois authorities report that many students are cutting expenses from the \$40 average per month for each student to as low as \$25 by cooperative living.

Democrat Chairman To Visit In Abilene

DALLAS, March 3 (AP)—Democratic executive committee chairman E. B. Germany and Clarence Butcher, secretary, will leave here Wednesday to join Edward J. Flynn, chairman of the National Democratic Committee at Abilene, who will be in Texas next week on a tour of the state.

Germany said they would join Flynn there early Thursday morning, and travel with him via Brownwood and Fort Worth back to Dallas.

World Chemistry Lead Held By U. S. Since '30

NEW YORK—World leadership in the output of chemical research reports passed to the United States in 1930 and has not changed since, according to Dr. E. J. Crane, Columbus, O.

"In 1913 the German output of chemical papers was 34.4 per cent of the world's total, while that of the United States was 23.7 per cent," writes Dr. Crane in the American Chemical Society publication, Chemical Abstracts.

"In 1939 the output of papers in the United States had reached 27.7 per cent and Germany's had dropped to 18.7."

Science Proves Women Prefer Warmer Rooms

KANSAS CITY, Mo. — Science has proved a fact which men have suspected for a long time — that women like the room temperature considerably higher than is comfortable for the men.

F. C. Houghton, director of the American Society of Heating and Ventilating Engineers' research laboratory, spent a year recording the reactions of persons under different temperature and heating conditions to prove the contention.

The reason, he said, is obvious. Women just don't wear as many clothes.
