

Traffic Safety Progress Lauded By Garrison

Improvement in Texas During '48 Noted By Director

HOUSTON, March 10. (AP)—Texas made more progress toward traffic safety last year than ever before...

In a 1948 inventory of the state's traffic control program, Colonel Garrison expressed hope that similar progress will be made this year.

"The Texas highway patrol," he told several hundred safety-minded conferees meeting here, "has adopted the goal of holding traffic deaths in the state during the year to 1948."

"This would be a substantial reduction from the 2073 we had in 1948," he added.

Colonel Garrison said recent changes authorized by the Legislature "has enabled the department to undertake selective enforcement projects that were impossible before."

As a result, he stated, there is an increase of 81 per cent in hazardous moving traffic arrests made by the patrol last year, an increase of 185 per cent in arrests for vehicle equipment defects, and a 5 per cent increase in drivers' license arrests.

"The increases were not the result of a drive or campaign," the department director emphasized. "They resulted from the scientific placement of personnel and the concentration on violations that cause accidents and the violators who need to be arrested."

Colonel Garrison pointed out that issuance of drivers' licenses last year totaled 1,700,000, an increase over the previous year of 80 per cent.

Jury Indicts Two On Red Spy Charges

NEW YORK, March 10. (AP)—A federal grand jury today returned a four-count espionage indictment against Judith Coplin, Department of Justice analyst, and Valentine A. Gubitchev, Russian engineer employed by the United Nations.

APPOINTED—The Moscow radio announced that Alexander I. Yefremov (above) has been appointed a deputy chairman of the council of ministers...

writings and notes containing intelligence reports relating to espionage and counter-espionage activities in the United States.

The two were arrested here last Friday night after FBI agents had trailed them through Manhattan streets.

Gubitchev was suspended from his UN post Saturday. Officials of the world organization said he did not have diplomatic immunity although Soviet officials have unsuccessfully sought his release.

The other units charged that Miss Coplin and Gubitchev conspired between themselves and with other persons unknown to defraud the United States by obstructing the functions of the Justice Department and FBI...

The conspiracy count listed three meetings—the one last Friday and previous contacts alleged to have occurred Jan. 14 and Feb. 18 in Manhattan.

Reds Get Convertible

MOSCOW, March 10. (AP)—The convertible top is being added to Russia's automobile selection, Pravda announced today.

Dane Official Due Today To Discuss Pact

Discussions May Bring Denmark Into Security Treaty

WASHINGTON, March 10. (AP)—Danish Foreign Minister Gustave Rasmussen traveled here today for first hand information on the North Atlantic Security Treaty.

He is expected to confer with Secretary of State Acheson and other American officials in the course of a brief visit.

Danish membership in the alliance is considered highly important. This is so not only because of Denmark's location in western Europe, but also because that country holds the island of Greenland with its strategic bases guarding North Atlantic Sea and air routes.

The American government has been anxious to retain the bases which military strategists consider essential to the defense of the western hemisphere. Under the new strategy of joint North American-western European defense the bases gain additional importance because of the need to keep open oceanic transportation routes between the two continents.

This is true of several other island positions also. The republic of Iceland and the Azores, which belong to Portugal, have similar strategic importance.

Authorities here hope that Iceland and Portugal will also become members of the North Atlantic Security system.

Eight nations are now involved in the negotiations on the treaty. They are the United States, Britain, France, Belgium, the Netherlands, Luxembourg, Canada and Norway. If Denmark, Iceland and Portugal and Italy decide to join the total number will be 12.

Rasmussen has already declared his government's favorable attitude toward the alliance.

Big Spring Soldier Among 6,785 Dead Being Returned

Bodies of 6,785 World War II dead, including one from Big Spring, are being returned from Europe aboard the U. S. Army Transport Barney Kirschbaum, the department of the army announced Thursday.

Among the remains of 371 Texans are those of Pfc. Gordon H. Haynes, Army. He was the husband of Mrs. Marie Haynes, Big Spring, who is a daughter of Dr. and Mrs. P. D. O'Brien. Two sons, Carl Phillip and John Gordon, are among immediate survivors.

Others in this area aboard the transport are F.O. C. B. King, Air Force, son of W. L. King, Tahoka; Pfc. Patricio Llaner, Army, with Mrs. Eulalia B. Laner, Odessa, as next of kin; S-Sgt. Troy W. Norris, with Troy Norris, Roscoe, next of kin; 1st Lt. Vernon L. Red, Jr., Air Force, with Vernon L. Red, Midland, as next of kin; 2nd Lt. John B. Thomas, Jr., with John B. Thomas, Midland, as next of kin.

IN RETURN FOR HOSPITALITY

Big Spring has its own version of the "meanest thief in the world" this morning.

An Austin blind man, S. J. Smith, and his wife told County Attorney Elton Gilliland a hitchhiker they had picked up along the way to McCamey and permitted to sleep in their car last night had disappeared along with the machine, a considerable amount of money and some clothes this morning.

The couple had registered at a local tourist court. They were on their way to visit a relation, H. H. Peoples, of McCamey. Their vehicle was a 1939 model Ford tudor with the license plate number JV 7027.

A police broadcast was sent out over this area, describing both the car and the suspect.

Three Are Killed 40 Injured In Storms, Floods

Late winter storms and floods left damaging blows over southern and central states today.

At least three persons were killed, some 40 others injured and hundreds still homeless from the battering by weather's elements.

Tornadoes which ripped through six southern states killed one school girl and injured 40 persons. The worst blinding snow storm of the winter season struck the Missouri Ozarks yesterday. At least two persons were killed.

Dallas Teacher Freed Of All Punishment Charges

DALLAS, March 10. (AP)—Miss Nellie Golightly, Dallas school teacher, went back to her classroom today with a court decision clearing her of charges of harsh punishment of students alleged in a lawsuit.

District Judge W. L. Thornton refused yesterday to issue an injunction against the teacher. Twenty-two parents of pupils at Lanier School had sought the injunction. He said he "had no right to suspect" Miss Golightly would violate a recent ruling by the Dallas Board of Education forbidding corporal punishment by teachers other than principals.

"In view of the board's new rule and the testimony presented here," the judge said, "I must conclude that the anxieties and fears of the parents are not justified."

One Killed In Car Wreck Near Dumas

DUMAS, March 10. (AP)—One person was killed and two others injured in a car-truck accident near Hartley last night.

George Clinton, about 70, of Clayton, N. M., was killed instantly when his car was in collision with the truck.

Mrs. Ora E. Perry, 24, Dumas, and a grandson, George Donati Watkins, 15, both riding in the truck, were seriously injured.

DEATHLESS DAYS 455 In Big Spring Traffic

Two Confess Daring Robbery Of Train

CONNALLY, ACHESON CONFER — Chairman Tom Connally (D-Tex.) (left) of the Senate Foreign Relations committee and Secretary of State Dean Acheson confer in Washington at the conclusion of a three-hour closed session of the committee devoted to discussion of the final draft of the North Atlantic security pact.

Pair Seized After W. Virginia Holdup

WASHINGTON, March 10. (AP)—Police reported a confession today from two suspects seized in the daring Martinsburg, West Virginia, train robbery.

The two were trapped by police today in a Washington pawnshop near the White House.

One was shot when he drew a pistol. Police Lt. John E. Winters, who said the pair confessed, named them as Luman Ramsdell, 23, Youngstown, Ohio, and George Lleyelyn Ashton, 21, also of Youngstown.

Winters said Policeman Elwood Lomax fired when Ramsdell drew a .45 caliber revolver. Ramsdell was taken to a hospital with a bullet wound in the stomach.

The two were captured 15 hours after two young gunmen halted the Baltimore and Ohio's westbound Ambassador train yesterday near Martinsburg, terrorized passengers and escaped with more than \$1,000.

Ramsdell and his partner were found in the pawnshop by officers searching the area on a tip that two young men resembling the train robbers had got off a bus from the train robbery area.

The two men, police said, were talking about purchase of a suitcase in the S. and W. Pawnbrokers Exchange when Lomax and Police Pvt. James D. Kennedy entered.

The two officers said the pair answered the descriptions given for the train robbers, and they approached to ask for identification.

Lomax said Ramsdell made a gesture toward his hip pocket as if to produce a wallet.

Instead, the policeman said, he came out with a pistol. Ramsdell's condition was reported at the hospital as undetermined. Ashton was held at a police station, less than two blocks from the scene of the shooting.

Police said they took a .38 caliber revolver from Ramsdell, with four exploded shells and one loaded cartridge. From Ashton they said they took a .45 caliber pistol, also loaded.

Detectives who reached the scene, about five blocks from the White House, soon after the shooting said they found several hundred dollars in the men's pockets in bills ranging from \$1 to \$20 denomination. They expressed belief it was part of the train robbery loot.

The detectives said they asked both men directly: "Did you help rob the train in West Virginia last night?" "Yes," was the answer in both cases, the officers said.

The first tip that the train robber suspects had backtracked to Washington came from Martinsburg police, who were informed that two suspicious looking men had been questioned by a Leesburg, Va. policeman. The latter unaware of the train robbery, let the pair go after they explained they had been in an automobile accident.

The Leesburg policeman told Martinsburg authorities the men boarded a bus for Washington. On arriving in Washington, the driver of the bus reported his two Leesburg passengers had left the bus at 21st and K Sts., N. W. Police patrol cars in that area were alerted immediately.

AEC Names Group WASHINGTON, March 10. (AP)—The Atomic Energy Commission today named a committee of businessmen to advise it on controlling exports of equipment used to make atomic materials.

Boulevard Parkway Being 'Dressed Up' A general "face lifting" project for the parkway on Washington Blvd. is due to continue on to the east city limits, city officials reported this morning.

Crews started the work at the boulevard gates and are now moving eastward. Initial part of the project involves removal of excess dirt from the parkway, followed by planting of shrubs in the center. Although the parkway will not become a "tropical garden" City Manager H. W. Whitney said it was hoped that the project would improve appearance of the boulevard.

Russians Flayed in Notes Cuban-Soviet Rift Reported Imminent

HAVANA, Cuba, March 10. (AP)—An early rupture in Cuban-Soviet relations was predicted today after the Cuban government handed two blistering notes to the Soviet Embassy here.

They said Communism seeks destruction of "the world democratic aggressive" propaganda and totalitarian methods.

They said Communism seeks destruction of "the world democratic system" and bluntly added: "This situation cannot persist."

President Carlos Prío Socarrás' government also rejected a Soviet protest about the sale here of carnival masks of Prime Minister Stalin's face.

The Cuban notes said there was no violation of law in such sales. They added that efforts of the Soviet legation "to apply the totalitarian repressive measures it suggests is unacceptable."

This was taken to mean that the legation had asked the Cuban government to ban sale of the masks.

Cuba formally protested recent statements by Communist leaders in various countries that Communist sympathies in these nations lie primarily with Russia.

These statements were made, the notes said, "in obedience" to orders from Moscow. They added such action by "disloyal groups" is "unacceptable" to democratic governments.

There was no indication when the expected formal break in diplomatic relations might come. But a high authority said Cuba is "sick of this unnatural, unwholesome relationship."

Soviet legation sources could not be reached immediately for comment.

Speed Urged On Tax Problems

Persons needing assistance with income tax returns were urged by Ben Hawkins, in charge of the bureau of internal revenue office in the postoffice basement, to contact his office as soon as possible.

Due date for the returns is Tuesday midnight, and experience of previous years has taught that there is invariably a rush the final two days. It would facilitate service by the staff is as many as possible needing help would come as early as possible, said Hawkins.

Joseph P. Gordon, formerly of Fort Worth, joined the staff of the deputy collector here Monday. Other member is H. K. Macaulay. After a busy time last week, requests for aid slackened the fore part of this week, according to Hawkins.

SCIENTIST PREDICTS SMOKE-FREE NATION

Application Of Atomic Energy Will Transform America, Oilmen Are Told

GALVESTON, March 10. (AP)—A University of Chicago scientist looked into the future today and speculated on what an atomic powered America might look like.

Dr. T. R. Hogness, director of the institute of radiobiology and biophysics, visualized a smoke free nation studded with 100 or more electrical generating plants, each with a capacity of a million or more kilowatts.

Large metropolitan areas might be equipped with atomic heating piles to produce steam for heat. The more isolated homes would be heated by electricity. There would be no smoke problem.

operating by electricity could easily find it more economical to get their power from the atomic power producers.

Hogness said his subject, "nuclear fission as a source of competitive energy is highly speculative in that there is as yet no such thing as atomic power."

"But surely we shall have this power and in the not too distant future, he said, "Let us take it for granted we shall have an atomic energy pilot power plant of at least some hundreds of horsepower within five years, and one or more plants of 100,000 horsepower or more in 20 years."

He made his brief look into the future after assuming there will be no atomic war.

GOVERNOR DRAWS FIRE IN HOUSE

Jester's Tax Stand Rapped By Solon

AUSTIN, March 10. (AP)—The House started debate on the basic science bill again today after hearing one representative jump on the governor for his tax stand.

Rep. Preston Smith of Lubbock got up and said he had read that against the natural resources tax.

"He's making chumps out of the members of this legislature," Smith yelled. "He ought to stay in this state and tend to business."

A few yells of "pour it on" came from the floor. Smith continued: "He's trying to crawl back to the people saying 'yeah, we may need this tax.'"

Practically every appropriation he has sent up has been an emergency appropriation. "He's putting members on the spot and he is going to crawl out to the people and say 'I recommended this but they didn't do it.'"

Smith then sat down amidst scattered applause. He commented: "I was just speaking because I was mad."

The House then settled down to more amendments in the siege opponents of the basic science bill started leveling at the measure yesterday.

Delaying tactics were noticed earlier this morning when opponents started asking questions on three Senate bills first on today's calendar. After a barrage of questions against a bill appropriating \$40,000 to fight the black fly threat to the citrus groves, the House approved the measure, 110-15.

Forsan Youth Has Champion Lamb At Odessa Show

Jesse Overton, Forsan, set the pace for winners in the lamb division of the Sand Hills Hereford show judging at Odessa Wednesday afternoon.

He showed the champion fine wool lamb, was first and second in the class for two lambs of 100 pounds or more. Raymond Phillips took third place in the division for three lambs fed by the division for Crane, Odessa and Andrews, and the open classes were to be judged Thursday.

Nobel Prize Winner Says Russians Do Not Have Atom Bomb

BERLIN, March 10. (AP)—Nobel Prize Winner Otto Hahn expressed the belief today that Russia has not yet produced an atom bomb. Hahn received the 1944 Nobel Prize in physics for discovering a method of breaking the nucleus of the atom.

Bishop Named To Post In Pitone

VATICAN CITY, March 10. (AP)—Pope Pius XII accepted today the resignation of Magr. Emanuel Ledvina, bishop of Corpus Christi, and appointed him titular bishop of Pitone.

Magr. Ledvina resigned for reasons of advanced age and poor health, an informed Vatican source reported.

Additional stories on robbery will be found on Page 12.

G. Woodward Succumbs After Heart Attack

COLEMAN, March 10. (SC)—Garland Woodward, 77, Coleman, died at 2 o'clock this morning in the Santa Fe Hospital in Temple. He entered the hospital a few weeks back after suffering a heart attack. The funeral services will be at 2 p. m. Friday. J. K. Stevens Co. is in charge of the arrangements. Burial will be in the City Cemetery here.

Son of the late Judge and Mrs. J. O. Woodward, he was born in Coleman Aug. 6, 1871. His only brother, the late Sen. Walter C. Woodward, preceded him in death several years ago.

Survivors include his wife, two sons, Halbert Woodward of Houston and Warren Woodward of Washington, D. C.; Mrs. Roy Howell, Mrs. J. K. Baker and Mrs. Mabel Henson, all of Coleman, and Miss Jessie Woodward of Dallas.

Mr. Woodward practiced law in Big Spring for a number of years and was attorney for the Federal Land Bank of Houston for five years prior to coming to Coleman in 1944, when he joined the law firm of Critz and Woodward. He served as lieutenant governor of Kivans for a term and has been active in civic affairs. He organized the downtown Sunday School class more than two years ago, as teacher, and the class grew rapidly under his leadership.

FATE OF CIVIL RIGHTS PROGRAM AT STAKE

Truman Demos Want Ruling By Barkley To Break Filibuster

WASHINGTON, March 10. (AP)—Democratic leaders trying to break a southern filibuster bet heavily on an expected ruling by Vice President Barkley today that a two-thirds vote can gag Senate debate any time.

Sen. Lucas of Illinois, the Democratic leader, all but said outright that if this move fails, there is no hope now for early enactment of President Truman's civil rights program.

He said he plans to push the issue to a vote sometime tomorrow but this schedule was subject to last-minute changes. Sen. Eastland (D-Miss) was ready to keep the

Dixie filibuster going. Lucas contended that administration forces are gaining in strength—largely through picking up some Republican support they hadn't expected.

Lucas indicated strongly that even if the Senate supports Barkley's expected ruling on a debate-limiting cloture petition to be filed today, efforts to change the Senate rules may be dropped at this time.

That's how the filibuster started—in a southern attempt to block action on a resolution by Sen. Hayden (D-Ariz) and Wherry (R-Nebr) to permit two thirds of those

voting to curb debate. But Lucas noted that if Barkley holds that two-thirds can do it now—and is sustained by the Senate—it will have the same effect as the Hayden-Wherry resolution.

A ruling of this kind would let the administration take up civil rights measures at any time with the guarantee that two-thirds of those voting could halt a filibuster.

Lucas indicated that he might recommend in such a turn of events that the Senate get busy now on legislative measures that have been piling up during the nine days that talk has stopped all action.

Texans CWA To Vote On CIO Affiliation

DALLAS, March 10. (AP) — Ballots will be mailed next Monday to 91 Communications Workers of America locals in Texas to determine if the membership wishes to merge with CIO or remain independent. CWA Texas Director Ray Hackney, who made the announcement, said the ballot will be secret.

Movie Operator Must Keep On Toes To Maintain Continuity Of Film

The movies don't move, but there is no illusion about the mobility of the projectionist, the man behind your evening's entertainment. While you are scooting to the edge of your seat with your heart jumping and skipping, your fingernails creeping between your teeth as the villain hammers the hero dangerously near the cliff, a lot of unsung activity is going on up in the projection room. If everything goes all right—as it almost always does—the operator keeps a sharp eye on the projected image and checks to see that the thunderous, spirited background music is ringing clearly as the rancher's daughter prays for the miracle that is bound to save her hero. But should the music suddenly stop and a flicker and sudden glare replace the pictures, the projectionist becomes the personification of "the hand is quicker than the eye." He must pick up the film at the lost point, cut the light back and take it from there. Breaks in the film are rare these days, but there was a time when interruptions were to be expected along with images which seemed to straddle the screen. No little of the operator's work is concerned with maintaining a flawless continuity. For instance, he has to check his film before it is run. There is the task of rewinding and of threading one projection machine while another is in use. Toward the end of one reel, he picks up his

cue, starts the second machine, which is blinded from projecting beyond the booth. At the precise moment, he trips the connection which opens the second machine and blinds the first. In perfect synchronization, the show jumps from one reel to another. Of course, the projectionist immediately sets about rigging up the next reel on the first machine so that it may be cut in again when the second machine has run its course. There is little possibility of sound failing to match motion of the lips. Early sound movies had a terrible time with this problem because sound came from a separate disc, supposedly synchronized with the film. Long since, sound apparatus has worked from a "sound track" which is part of the film. While the main beam of light if projecting lines in a narrow strip paralleling the pictures. This line causes a minute fluctuation in light, which is picked up by an electric eye on the other side, and in turn it translates the fluctuations into sound. The projectionist works with equipment which create a perfect illusion of movement. Actually, the eye sees 22 still pictures a second. The mind retains vision momentarily so that a rapid sequence of pictures creates the effect of motion. Projecting machines are geared so that a revolving slotted disc blots out light as one picture moves out of the light range and another takes its place, whereupon

a slot turns up to permit the new image to be projected. It's done so smoothly that no one realizes that during two hours he or she has seen a series of about 158,400 still pictures. A bugaboo of early movie houses was fire. If the machine jammed, the intense light ignited the celluloid film and it was as though a pile of powder had been touched off. This isn't hard to understand because the highly combustible film must be with in inches of a light source derived from the near union or two oppositely charged carbon rods, yielding a light as bright as an electric welding arc. But safeguards have been installed. Film can be shielded instantly from the hot light in an emergency. If worst comes to worst and film is ignited, none would know what was going on except that the show stopped. The inside of a projection room looks like a New York fire station—literally filled with highly effective fire preventives and extinguishers. Fire would cause the room to be sealed airtight automatically, closed up like a suit case. Construction is fireproof, and flames would immediately smother. In the best tradition, the projectionist would cut off the arc light, ignoring lethal fumes before leaving the booth. Should an emergency occur elsewhere, he would take the microphone to calmly direct the audience to exits. These incidents almost never occur. The projectionist contents himself by working like a beaver while you rest comfortably in your seat, laughing, crying, or wondering just how the hero is going to get away from that cliff.

Truman Taking Things Easy On Vacation

KEY WEST, Fla., March 10. (AP) — President Truman kept abreast of developments at home and abroad by direct telephone line to the White House today as he pursued his vacation routine. Aides at Washington filled him in on the progress of the Senate filibuster aimed at his civil rights program, and of the developments on the Atlantic Treaty front. There was no official comment, however. Mr. Truman has made it clear that he thinks the filibuster will run its course and that his fair deal program will clear legislative hurdles before Congress adjourns. He feels his associates said that his departure from Washington will help, rather than hurt, the administration objectives. They point out that his plane, the "Independence," is available for a quick flight back to Washington if his presence is required there. The President's press secretary, Charles G. Ross, is flying in today with the presidential physician, Brig. Gen. Wallace Graham. Chief Justice Vinson will arrive later this week for a visit. William D. Hassett, a presidential secretary, told reporters that Mr. Truman's only plans today are to go swimming and sunbathing after reading official documents and correspondence.

SCHOOL OFFICIAL LEARNS IT MAY PAY TO LISTEN TO QUIZ PROGRAMS

OKLAHOMA CITY, March 10. (AP) — Charles Wallace doesn't listen to quiz programs and see what happened to him. Wallace is assistant superintendent of schools here. Tuesday a big package came to him at the school board. Wallace didn't know what it was, but he

paid the express man \$8. It was awful heavy. Wednesday, a man from a sporting goods firm came to see him. He told Wallace how lucky he was to win their super de luxe outdoor charcoal grill on the name-drawing program. Only Wallace didn't have the grill anymore. When the package came, he had called in the school system's supply director and another assistant super. All three put their heads together to puzzle out what the gadget was. They finally decided it was a sample shoe scraper for a gymnasium. And since the schools hadn't ordered one, they sent it back.

Roving Factory May 'Settle Down'

PHILADELPHIA, Pa., (AP) — A shipment of eight two-ton roller bearings from here to Ijmuiden, Holland, brought to light the story of an uncompleted Dutch steel mill that has been wandering over Europe for 10 years. The Royal Netherlands Blast Furnaces and Steel works, for whom the bearings were made to order here by SKF Industries, Inc., twice has been moved—lock, stock and bearings: once 340 miles from Holland to Germany and now, back to Holland. Construction of the steel mill, said SKF officials, was halted at Ijmuiden when war broke out in 1939. The Nazis invaded the Netherlands and decided to complete the mill. But, three years later, with production about to start, the Germans dismantled the plant and moved it to Branchweig to become part of the Herman Goering Works. Just when the plant was once more ready to operate, in 1945, it was seized by Allied troops. The Dutch entered a claim for the plant. Again the mill was dismantled and moved back to Ijmuiden. Now, it appears, production may finally start.

Big Spring To Be Circled In Record Flight Attempt

FULLERON, Calif., March 10. (AP) — Big Spring, El Paso and Fort Worth, will be circled by two fliers attempting to set a world's endurance flight record. The pair, Bill Barris and Dick Riedel, plan to make their flight a cross country hop from here to Miami, Fla., and back. They are to take off at 10 o'clock Sunday morning. They will spend succeeding nights circling Phoenix, El Paso, Big Spring, Fort Worth, Meridian, Miss., and Jacksonville, Fla. Barris, 35, and Riedel, 34, will attempt to stay aloft longer than the 726-hour record flight set in 1939 by Wes Carroll and Clyde Schliepper. The endurance plane will be refueled by cans of gasoline handed up from speeding jeeps.

Big Spring To Be Represented At Housing Parley

Several representatives from Big Spring are due to attend the housing parley set for March 17 in Midland. Purpose of the conference is to seek means for encouraging production of lower-priced housing for rent or sale. An effort will be made to hear expressions from all segments of the home construction industry. In addition, there will be discussion of various types of financing available to builders and purchasers of the lower-cost units. The meeting is slated for the Midland high school auditorium at 7:30 p. m. The district director of the Federal Housing Administration and members of his staff will attend, as well as officials from the Veterans Administration. K. C. Smith, assistant district director, said that FHA officials had repeatedly contended that "the construction of safe, livable homes at prices reasonably related to the incomes and financial resources of the vast majority of the people is a national necessity." Attendance is expected from a 15-county area from Nolan through Winkler counties.

Board Directors Of Architects Meet

HOUSTON, March 10. (AP) — The board of directors of the American Institute of Architects meets here tomorrow in a session preliminary to the opening of the institute's 81st annual convention. More than 1,000 architects are expected here for the convention's sessions of March 15-18.

Japan, Germany Change-over Talked

WASHINGTON, March 10. (AP) — Speculation over possible changeovers from military to civilian control in the occupied areas of Japan and Germany has been increasing. What touched it off, apparently, was the State Department's announcement a week ago of reorganization of its branches specializing on Japanese and German policies. However, responsible administration officials said today that they knew of no decisions so far to shift to civilian occupation control in Japan or Germany.

Old toasters! I'M TIRED OUT! TRADE ME IN QUICKLY!

Stanton Wins Knott Tourney

KNOTT, March 10—Stanton won both the boys' and girls' basketball tournament here last weekend, the boys trouncing Knott in the finals, 20-27, after the Stanton fens subdued the Knott lassies, 21-20.

In boys' consolation, the Knott reserves upset Courtney in the finals, 13-12, while Lamesa was winning girls' consolation by beating Ackery.

Teams representing Knott, Stanton A. and B. Flower Grove, Lamesa A and B, and Courtney participated in the tournament.

The San Francisco 49ers punted only 44 times in 14 All-America Conference games last season.

McDonald Edges Cabbie Keglars

McDonald Motor company nudged Yellow Cab by a single point in the initial game of their Automotive Bowling league here and went on to take two of three games Tuesday night.

A smart 172 by Long plus a 67 pin handicap helped turn the trick in the opener for McDonald Motor.

In other matches, McEwen Motor swept three games from Griffin Nash while Marvin Hill Motor was rallying to grab two of three from the Jones Motor Co.

E. B. Dodler, Sr., hit a 503 aggregate for the top score of the evening.

RACE PREJUDICE CHARGED

Longorio Reburial Probed By Solons

THREE RIVERS, March 10. (U)—A group of investigators from the state legislature met here today in Felix Longoria's home town to find out who told the truth about the Latin-American soldier's reburial.

The investigation by five picked members of the House of Representatives may continue for several days, Rep. Cecil Storey of Longview, chairman of the committee, said.

"Looks like there will be a long line of witnesses," Storey said. Yesterday he obtained the services of an interpreter from Cuero to help in questioning Latin-American witnesses who do not speak English.

A court reporter with her shorthand transcribing machine is on hand to record the probe.

"I don't want this to be a long drawn out affair," Storey said, "but we are going to do everything asked in the resolution that passed the House."

The resolution presented by Rep. J. F. Gray of Three Rivers said that settlement of the controversy "is now absolutely necessary for the continuation of good relations among the peoples of South Texas and to our international relations."

Gray also is author of a bill to do away with the Texas Neighbor Commission. He alleged on the floor of the house that the commission made untruthful reports on the soldier's reburial. The commission has denied this.

The people of Texas and the nation first heard of Felix Longoria when his body was shipped back to the United States from the Pacific in January. It was reported that the director of a Three Rivers fu-

Honors For Goethe Planned On 200th Anniversary

FRANKFURT, Germany. (U)—More than 200 scientists from the United States, South America and West Europe have been invited to come here next August to honor the memory of Johann Wolfgang Goethe, German poet.

Celebrating the 200th anniversary of the birth of Goethe, the city has arranged an international scientist's congress to debate "Goethe's influence upon the thinking of the present-day world."

The congress will meet here Aug. 24 to 28. It will be the climax of the "Goethe Festival Year" beginning in March and ending in October.

Goethe was born here Aug. 28, 1749, and died at Weimar at the age of 73.

The festival program includes gala performances of Goethe's dramatic works including "Dr. Faustus."

Scheib Impressive
WEST PALM BEACH, Fla.—The Philadelphia Athletics' training camp pitching is good enough for mid-season competition.

In yesterday's intra squad game, Carl Scheib allowed two hits in three innings and Dick Fowler only one in the same number of frames.

German Radio Stations Get More Freedom

BERLIN. (U)—The American Military Government has just returned Radio Munich and Radio Frankfurt to the state of Bavaria and Hesse. Radio Bremen and Radio Stuttgart will be released soon.

Under German control these stations will operate under the same rules of objectivity that apply to the radio in the United States. But as in Britain they will be owned by the state.

For almost the whole of its 25-year history German broadcasting has been an agency of the central government. For more than half its life it was the tool of one party—the Nazis.

Now the states of Bavaria and Hesse have committed themselves to the principle that radio should serve the listeners who buy the sets and not the state or a single group within the state.

They have established by law public radio corporations. These are controlled by radio councils called Rundfunkraete. The councils are elected by economic, social and political groups such as trade unions, news associations, labor groups, church organizations and political parties.

The day-to-day operation of the stations will be left to people skilled in the various phases of broadcasting. American employees of both stations will be retained as observers and advisers to the Germans.

Hawk Baseball Drills Planned

Baseball workouts will begin at Howard County Junior college Monday, according to an announcement made by Coach Harold Davis this morning.

The Jayhawks are members of the Tri-County independent league, which begins play Sunday, April 17. The collegians will probably play several practice games before that time, however, and are lined up to scrimmage with the local high school team.

Davis has a veteran crew coming back this year. He will build his team around Don Clark, a short stop, who was one of the Tri-County league's top performers in 1948.

The Hawks won the first half title in the 1948 Tri-County league race and then lost to the last half titlists, Forsan, in the championship playoffs.

Postal Committee Head Backs Small Papers On Rates

WASHINGTON, March 10. (U)—Chairman Johnston (D-SC) of the Senate Post Office Committee said today "postal rates should never penalize the small newspapers."

Johnston said that while he helped introduce a bill to adjust postal rates at the request of Postmaster Gen. Donaldson, he may not support some of its sections.

Under the bill, highest increases in postal rates would be for second class mail, which covers newspapers, magazines and other publications.

"I certainly am not willing to see smaller daily and weekly newspapers—whose continued existence is essential to the free and independent dissemination of local state and national news—penalized severely," Johnston said.

"I think that our government should, in part, subsidize the widespread distribution of as many news organs as possible."

Poage Sees Price Support For Cotton Within Few Hours

WASHINGTON, March 10. (U)—Price support programs for grain sorghums are expected shortly.

Rep. Poage (D-Tex.) said an official announcement of the Agriculture Department support program should be forthcoming within a matter of hours. Poage is a member of the House Agriculture Committee.

"There is every reason to believe we will get price supports for the 1949 crop," Poage told a reporter.

"We asked for a 90 per cent of parity loan. However, agriculture officials reminded us the loan on last year's crop was only 78 per cent of parity."

Rep. Mahon (D-Tex.) joined Poage in urging prompt announcement of a price support program for feed grains.

Striking Miners To Resume Duties

GALLITZIN, Pa., March 10. (U)—A group of miners who staged a short-lived sitdown strike underground have voted to go back to work.

Sixty miners employed by the Argyle Coal Co. stopped working in the Bennington mine last Monday, declaring they wanted "equitable distribution of work."

All of them had come up out of the mine by the next day and last night voted to go back to work.

Francis K. Kneese, committeeman for the United Mine Workers local at the Bennington mine, said "neither the strike nor the back-to-work vote has settled anything."

New Delhi Plans Diplomatic Colony

NEW DELHI, India. (U)—The government will soon start work on a diplomatic colony for this overcrowded capital.

A spokesman for the works, mines and power ministry says 700 acres of a 1,800-acre tract in southwest New Delhi will be developed. The government will spend 15,500,000 rupees (\$5,000,000) leveling land and constructing roads, water and sewer systems and shopping centers. Foreign governments will have to put up their own buildings.

Many embassies may occupy former New Delhi palaces of maharajahs. Some late-comers have had to make hotel rooms their headquarters.

Eyewitness Tells Of Brutal Slaying In Murder Trial

POINTE A LA HACHE, La., March 10. (U)—A shocking eyewitness account of a child's violent death unfolded in testimony at the murder trial here of a 15-year-old schoolboy.

The state produced an eyewitness late last night to the brutal slaying of six-year-old Faudez (Boo) Landry July 23 in nearby Poydras.

Charles Sartalamaccia, a quiet-mannered student with a head of unruly hair and cool eyes wide behind thick glasses, is charged with the slaying of his neighboring playmate.

His sister-in-law, Mrs. Joseph Sartalamaccia, 21, ended a parade of 14 prosecution witnesses by testifying she saw Charles furiously attack the child by crashing his head against a concrete step.

Her story to the jury tallied with that of her husband, Joseph. The husband earlier said he had hated Charles for a long time and then testified that Charles told him how he had killed Boo.

CRIPPLES BACK
CLEARWATER, Fla.—Outfielder Richie Ashburn and Pitcher Russ Meyer have reported back for workouts at the Philadelphia Phillies training camp—apparently recovering from their recent injuries.

National 4-H Club Week Observed At Achievement Day Tea Wednesday

In observance of National 4-H Club Week, Howard County 4-H club girls held their annual

achievement day tea at the YMCA Wednesday from 1 to 3 p. m.

Billie Jean Walker, who won the state fair award for district 6, was also honored.

The Thrill that Lasts!

Golden-hued DIRILYTE

This luxurious tableware is the lovely color of gold, but it's harder than gold or silver—a lifetime investment in beauty! 26 pc. service for 6, in chest, is only \$58.50. See and thrill to it!

Marie Petty of the Elbow community, was named the gold star award winner. Mary Evelyn Hanson of Luther took first place in the bedroom contest. Her gift was a birthstone ring. Barbara Lewter, Four Leaf Clover Club, and Mary Ann Green, Forsan, were the second and third place winners in the bedroom contest and presided at the register.

Members who were recognized for their work in the 1948 dress review, were: Peggy Crow of Center Point, who was the county representative in the state fair review and the winner of an electric iron in that contest, Geraldine Webb of Knott, Madge Anderson of Forsan, Barbara Davidson, of Center Point, Connie Crow of Luther, and Marie Petty of Elbow. They were presented pins for their high scores in this work.

Club presidents served as hostesses. Green and white, club colors, were used in the refreshments and table decorations. Corsages were furnished by Conley's and Adrian's Flower Shops. Estah's furnished the centerpiece. Mrs. J. A. Miers was in charge of the floral arrangements. Mead's Bakery provided the cake. Mary Ann Green and Connie Crow presided at the punch bowl. They were assisted by Barbara Lewter, Billie Jean Walker and Marie Petty.

Mrs. Hank Hanson, chairman of the 4-H club committee and a member of the Center Point club. Mrs. L. J. Davidson of Center Point, Mrs. H. B. Reagan of Midway and Mrs. J. B. Petty of Elbow were in charge of arrangements for the tea.

With the exception of the girls at the register and Peggy Crow and Geraldine Webb, who were not present, all of the honored girls were in the receiving line. Others in the receiving line were Mrs. Frank King, Forsan sponsor, and Mrs. Emmett Grantham of Knott, chairman of the sponsors committee.

Club presidents served as hostesses. Green and white, club colors, were used in the refreshments and table decorations. Corsages were furnished by Conley's and Adrian's Flower Shops. Estah's furnished the centerpiece. Mrs. J. A. Miers was in charge of the floral arrangements. Mead's Bakery provided the cake. Mary Ann Green and Connie Crow presided at the punch bowl. They were assisted by Barbara Lewter, Billie Jean Walker and Marie Petty.

Mrs. Hank Hanson, chairman of the 4-H club committee and a member of the Center Point club. Mrs. L. J. Davidson of Center Point, Mrs. H. B. Reagan of Midway and Mrs. J. B. Petty of Elbow were in charge of arrangements for the tea.

Presbyterian Class Has Meeting

First Presbyterian Elizabeth McDowell Class held their monthly covered dish luncheon in the home of Mrs. T. S. Currie with Agnes Currie and Mrs. Catherine Eberly as co-hostesses.

Silver Tea Planned By Rainbow Girls

Plans were made to hold a silver tea sometime in April at a meeting of the Order of Rainbow for Girls held in the Masonic Hall on Tuesday evening. The box supper which was originally planned for the date was postponed.

It was announced that Vevagene Apple, Joyce Howard, Joy Williams, Mary Ann Attaway, Charlotte Williams and Kitty Roberts were awarded certificates at the school of study held in Monahan Saturday.

Those attending were: Vevagene Apple, Wanda Petty, Charlotte Williams, Peggy Lamb; Jean Robinson, Kitty Roberts, Floyce Brown, Peggy King, Joyce Woods, Fern Crabtree, Joy Williams, Mary Felts, Madlyn Guess, Sue Craig, Doris Stevens, Jan Masters, Evelyn Wilson, Marilyn Miller, Mary Sue White, Beverly Campbell, Jo Nell Neel, Dorothy Christian, Judy Lawson, Annette Puckett, Nilah Jo Hill, Mary Frances Norman and Mrs. Vivian Peck.

Tournament Held By P-TA Members

COAHOMA, March 10 (Sp) — Proceeds amounting to \$125 were realized from the local 42 tournament at the school Friday evening under the auspices of the Parent-Teachers association.

Tournament winners included Mr. and Mrs. Burl Cramer, high score and Mr. and Mrs. Cliff Neil, consolation prize.

Food was served throughout the evening by the members of the association. Mrs. Tom Birkhead, president of the local unit, served as general chairman.

Approximately 200 persons attended the tournament.

Mrs. Bill Morris Honored At Shower

Mrs. Bill Morris was named honoree at a pink and blue shower in the home of Mrs. Joe Elrod, 1506 Johnson, Tuesday evening, with Mrs. Avery Falkner as co-hostess.

Floral arrangements of yellow daffodils and jonquils were used in the decorations. Miniature storks and baby cribs were placed at vantage points in reception rooms.

Games were entertainment and refreshments were served. Those attending were Mrs. J. C. McWhorter, Mrs. Dewey Dykes, Mrs. Durward Lewter, Mrs. H. C. McNabb, Mrs. L. B. Amason, Mrs. G. L. Wiley, Mrs. M. N. Thorpe, Mrs. David Elrod, the honoree, Mrs. Morris, and the hostesses, Mrs. Elrod and Mrs. Falkner.

Fashion Show Plans Announced

CENTER POINT, March 9 (Sp) — Margaret Christie, county Home Demonstration Agent, announced that three girls out of each division would be chosen to model the clothes submitted by the store managers at the Fashion show to be held March 29, at the meeting of the local 444 club in the school house Monday.

Refreshments were served to those attending. They were Elouise Carroll, Barbara Davidson, Rose Rice, Francine Walker, Sherry Fuller, Iris Rice, Totsy Hill, Rexie Nance, Carol Hanson, Carolyn Sneed, Glenda Adams, and guests, Mrs. Nita Adams, Mrs. Ira Rice, Margaret Christie, sponsor, Mrs. L. J. Davidson and hostess, Barbara Davidson.

Broadway And Echoes Is Music Club Topic

"Broadway And It's Echoes," composed of modern music murals in a popular vein was presented by Mrs. Bernard Lamun as a continuation of the study, "Today in American Music," at the meeting of the Music Study Club in the home of Mrs. Omar Pitman Tuesday evening.

Mrs. Lamun reviewed the book, "Why Should the Devil Have All the Good Tunes," by Rowland Hill, prior to the musical presentation of "Romance," from "The Desert Song," by Sigmund Romberg. Mrs. J. F. Neel acted as soloist, accompanied by a sextette, composed of Mrs. Harold Talbot, Mrs. W. K. Edwards, Mrs. C. C. Jones, Helen Duley, Mrs. H. G. Keaton and Mrs. Bill Griese.

Mrs. Chester Barnes and Mrs. Everett Ellis played a piano duet entitled, "Study A La Jazz," by C. Bianco, followed by a violin

solo, "Smoke Gets In Your Eyes," by Jerome Kern and presented by Mrs. J. E. Hardesty, with organ accompaniment by Mrs. Omar Pitman.

In conclusion, Mrs. Omar Pitman at the organ and Helen Duley and Velma Griese, at the piano played favorite excerpts from Victor Herbert's selections.

Those attending were Mrs. Chester Barnes, Mrs. Cooper Brown, Mrs. W. D. Edwards, Helen Duley, Mrs. Bill Griese, Roberta Gray, Mrs. J. E. Hardesty, Mrs. Everett Ellis, Mrs. C. C. Jones, Mrs. H. G. Keaton, Mrs. Bernard Lamun, Mrs. R. V. Middleton, Mrs. J. F. Neel, Mrs. Omar Pitman, Mrs. Harold Talbot and Mrs. Homer Willoughby.

White Elephant-Bingo Party Held By Class

Mrs. Jack Y. Smith and Mrs. Joe Tuckness were hostesses to a white elephant sale and bingo party held in the Smith home by the First Baptist Friendship Class.

Those present were: Mrs. H. J. Agee, Mrs. J. C. Pickle, Mrs. Clayton McCarty, Mrs. T. J. Clark, Mrs. Louis Atkins, Mrs. Joe Pickle, Mrs. Burl Haynie, Mrs. Lynn Dasher, Mrs. Ruth Young, Mrs. Melvin Boatman, Mrs. Chester Cluck, Mrs. A. P. Clayton, Jr., Mrs. Marion Beam, Mrs. Ray Worley, Mrs. J. D. Elliott, Mrs. J. B. Knox, Mrs. Elva Isbell, Mrs. Ervin Daniel, Mrs. Ross Boykin and the hostesses.

Music Club To Meet

There will be a meeting of the Allegro Music Study Club at 2 p. m. Saturday in the First Methodist Church, according to an announcement made by a club sponsor Thursday morning.

Are Parents

Mr. and Mrs. Alfred Adams became the parents of a daughter, Cynthia Ann, Wednesday evening, March 9.

Maternal grandparents are Mr. and Mrs. W. R. Douglass, 1505 Johnson and paternal grandparents are Mr. and Mrs. T. G. Adams, 507 Johnson.

Theatre-Coke Party Held By Sorority

Members of the Nu Phi Mu sorority entertained rushees with a theatre and coke party Monday evening.

Rushees attending were Jean Tom, Mamie Jean Meador, Barbara Lytle, Quopha Preston, Eva Smith, Betty Robertson, Melba Preston, Patsy Burrus, Beverley Campbell, Dolores Hull.

Members participating were Milie Balch, Bobby Green, Evelyn Anderson, Frances Weir, Muriel Floyd, LaVerne Casey, Gertude Hull, Bessie Sims, Dolores Sanderson, Martha Bearden and the sponsor, Theresa Crabtree.

Johnson Commended On First Appearance As Senate Speaker

WASHINGTON, March 10. (A) — Texas' rangy junior senator, Lyndon B. Johnson, made his maiden speech in the Senate yesterday, as part of the southern filibuster.

Mrs. Johnson sat in the gallery while her husband delivered his unemotional 7,500-word script opposing the move to limit debate. Several Texas representatives came across to the Capitol to hear Johnson.

When he finished, Sen. Connally was among the long line that formed to shake his hand.

New West Texas State Dean Named

CANYON, March 10. (A) — Dr. Walter H. Juniper will be new dean of West Texas State College here beginning June 1.

He was named to succeed retired Dean D. A. Shirley by Dr. James P. Cornette yesterday.

Bishop Quarterman To Arrive Sunday

The Rt. Rev. George H. Quarterman, Bishop of the Missionary District of North Texas, and Mrs. Arthur H. Ware, president of the District Woman's Auxiliary, will arrive in Big Spring Sunday to conduct the annual 39th convocation of the Protestant Episcopal church in the Missionary District of North Texas.

Services will be conducted at St. Mary's Episcopal church with the Rev. J. R. Maceo, rector, serving as host pastor. Mrs. John F. Warfield, president of the Woman's Auxiliary, will preside as general chairman during the convocation.

Registration of the delegates will begin at 3 p. m. Sunday in the Parish hall and will continue through 7 p. m. A dinner entertaining the Woman's Auxiliary is scheduled for 8 p. m. in the Maverick Room of Hotel Douglass.

Following the convocation sermon conducted by the visiting

Bishop Quarterman, an informal reception will be held in the Parish hall at 9 p. m. Those in the reception line will include Bishop and Mrs. George H. Quarterman; the Rev. and Mrs. J. R. Maceo; E. B. McCormack, Junior Warden, Mr. and Mrs. William R. Dawes; Mrs. Arthur H. Ward, Mr. and Mrs. John F. Warfield and Mrs. V. VanGieson.

Breakfast will be served at the Parish hall during the registration hour at 8 a. m. Monday and luncheon will be served at the Hotel Settles at noon.

Corporate communion will be observed Monday at 9 a. m. followed by the organization of the convocation in the Parish hall under the direction of Bishop Quarterman. Mrs. Ware will conduct the organization of the Woman's Auxiliary in the nave of the church. Convocation services will begin at 10 a. m. Monday and will reconvene following luncheon.

EAT PLENTY AND TAKE OFF UGLY FAT

When you buy Barcontrate, you buy a preparation for taking off weight. You do not fear for any painful diet or for vitamins to fortify you against weakness while on a starvation diet. You need never know a hungry moment while taking this preparation. Barcontrate is the original grapefruit juice recipe for weight reduction.

Just go to your drugist and ask for four ounces of liquid Barcontrate. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take just two table-spoonsfuls twice a day. That's all there is to it. If the very first bottle doesn't show you the simple, easy way to take off ugly fat, return the empty bottle for your money back.

Lost 56 pounds

Here is what Mrs. L. J. Bryant, P. O. Box 66, Whitehurst, Texas, wrote us: "I want to tell you what Barcontrate has done for me. I weighed 260 pounds when I started taking it. I now weigh 212."

"I have taken my dress size down from size 50 to 44 and never felt better in my life and everybody tells me how much slimmer I look than I did."

"I am still taking Barcontrate as I want to get my weight down to 180 or 170 pounds."

Five Texans In Oklahoma Hospital Following Wreck

SALLISAW, Okla., March 10. (AP)—Five Texas people were in a Fort Smith, Ark., hospital last night recovering from highway crash injuries. An Oklahoma man was also injured in the accident which occurred near here.

A. C. Rayburn, state trooper, identified them as:

Carl Hammer of Pampa, fractured ribs and back injury; his wife, internal injuries and multiple fractures; Lester Hathaway, Mobeetie, possible skull fracture; and Rev. John Freeman, Lubbock, Van Borneau, Dodson, and Ernest Markwell, Shawnee, Okla., all minor injuries.

They were all passengers in a car which overturned near here.

Beware Coughs From Common Colds That HANG ON

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION For Coughs, Chest Colds, Bronchitis

EX-OPA CHIEF MAKES APPEAL

Bowles Asks Rent Control Extensions

WASHINGTON, March 10. (AP)—Gov. Chester Bowles of Connecticut today asked Congress to extend rent controls 27 months and "remove the gnawing fear of eviction that hangs over millions of American families."

The former OPA chief urged those steps as part of a program which also calls for triple damages for rent overcharges and criminal penalties of willful and fraudulent representation.

Bowles said those provisions should be substituted for "the cream puff enforcement provisions" of the present law, due to expire March 31.

Bowles set forth his views in a statement prepared for a Senate studying legislation to extend controls.

His testimony came as Democratic leaders in the House-fearing a major defeat on extension of controls—considered a new compromise putting emphasis on "reasonable" profits for landlords.

A watered-down administration rent bill faces House debate and a possible showdown vote tomorrow. In what may be the severest test of President Truman's power thus far in the 81st Congress.

The committee-approved meas-

Local Woman Is Hurt In Crash

Mrs. Belle Gomez, 48, wife of Vincente A. Gomez, operator of the El Patio cafe here, sustained painful injuries Wednesday when the car in which she was riding rolled down a 15-foot embankment 12 miles north of San Angelo.

Her husband, who was at the wheel, sustained only minor injuries. Mrs. S. M. Aleman, his mother-in-law, was shaken and extent of injuries had not been determined Wednesday evening. Mary Stein, 5, other occupant of the car, was unhurt.

Gomez told highway patrolmen that a tire blew out on his 1949 Lincoln as he speeded toward Big Spring. He managed to squeeze the machine through a culvert only to have the wheel catch on the shoulder and flip the car down the embankment on the Grape Creek bridge approach. Occupants were removed to San Angelo for treatment.

Bowl Options Are Still Available

DALLAS, March 10. (AP)—Nearly 3,000 options on proposed new Cotton Bowl seats are still available.

The State Fair of Texas has sold enough options to add 5,000 seats to the bowl, the board of directors said yesterday. The directors plan to build 7,758 seats. That leaves 2,758 still for sale at \$50 apiece.

Twenty-One Persons Killed In Air Crash

BRISBANE, Australia, March 10. (AP)—Twenty-one persons were killed today when a passenger plane crashed and burned at Billings, 60 miles south of here.

The Lockheed Lodestar plane was taking off from the airport at Billings when it nose-dived to earth. The plane, under charter to Queensland Airlines Limited, was on a run from Coffs Harbor, New South Wales, to Brisbane.

Kuhel Mixes Golf

ORLANDO, Fla. — There'll be no more golf playing for Washington Senators after today says Manager Joe Kuhel. He says ballplayers can get too golf-minded during spring training.

The season's first intra-squad game is scheduled today.

Clinic For Cerebral Palsied Children To Be Held At Lubbock

A clinic for the examination of cerebral palsied children will be held April 4 at the Cerebral Palsy Treatment Center, 1317 Tenth St., Lubbock.

Orthopedic specialists from Amarillo and Plainview will be present to examine patients.

Cerebral palsy is sometimes referred to as spastic paralysis or birth injury and may be evidenced by the child's inability to sit alone, stand alone, walk or hold objects at the age these things are accomplished by the average child. Research has shown that treatment is most effective if started within the first few months of the child's life although children re-

Wool And Mohair Production Down

AUSTIN, March 10. (AP)—Both wool and mohair production in Texas were down last year.

The United States Department of Agriculture reported today that the 1948 wool clip was 55,653,000 pounds, 13 per cent under 1947.

Mohair production was estimated at 15,810,000 pounds, 9 per cent less than in the previous year.

Parents planning to bring children to the clinic are requested to register the children at the center prior to the date of the clinic. Information regarding the clinic may be obtained by writing Dr. Esther Snell, Director or calling Lubbock 6541.

PROOF OF SUPERIORITY... IN ALL WHITE Super Deluxe Tires

LOW TEMPERATURE (Cold) RUBBER
NAMED ONE OF THE 10 LEADING SCIENTIFIC ACHIEVEMENTS FOR 1948

as selected by Science Service

A nationally known non-profit institution with headquarters in Washington, D. C. Science Service is headed by a Board of Trustees composed of some of the nation's outstanding scientific leaders, nominated by the great national academies and councils for advancement of science and research. Each year they select the 10 leading scientific accomplishments. White's Auto Stores is proud to learn that one of the 10 great achievements for 1948 is one in which they had a part in pioneering.

10 Leading Scientific Achievements Named for 1948 by Science Service

1. Creation artificially in world's largest cyclotron of sub-atomic particles, called mesons, that may unravel mystery of composition of matter.
2. Achievement by jet plane of speed well beyond the sonic barrier, opening a new air age.
3. Demonstration that a single penicillin pill, swallowed a few hours after exposure, can prevent one of the two major venereal diseases, gonorrhea.
4. Synthesis of glycine from petroleum, making its commercial production independent of fat supply.
5. Discovery of auremycin and polymyxin, drugs effective against diseases unconquered by sulfa drugs and other antibiotics.
6. Completion of the 200-inch world's largest telescope on Mt. Palomar, Calif.
7. Authorization of two gigantic atom smashers, to produce three to five years hence three to five years hence sub-atomic "bullets" rivaling cosmic rays, vastly extending scope of nuclear physics.
8. Commercial production of "low temperature" rubber, giving chemical rubber superiority over natural rubber.
9. Discovery of the fifth moon of the planet Uranus, with 30-hour orbit.
10. Use of neutrons to explore the structure of matter by production of diffraction pattern photographs.

You Get Cold Rubber IN ALL WHITE Super Deluxe PASSENGER CAR TIRES

Science Service has recognized the scientific superiority of Cold Rubber. But the actual proof of greater mileage has come from the overwhelming evidence of sustained, around-the-clock, high speed runs, in every kind of weather... proving by millions and millions of test feet-miles that Cold Rubber treads outwear the finest natural rubber! Others are promising you Cold Rubber "tomorrow"... but White's offer you "The World's Best Tires" TODAY!

Russian Parliament Meets To Consider 1949 Soviet Budget

MOSCOW, March 10. (U.P.)—Russia's two-house parliament, convened for what may be a revealing session, voted today to consider the Soviet Union's budget for 1949 in joint session.

The council of the union and then the council of the nationalities, equal houses in the supreme Soviet of the U.S.S.R., took the action soon after assembling for a meeting closely watched by the western nations for clues to Russia's intentions.

A. I. Mikoyan was present as a member of the council of nationalities. He recently stepped aside as minister of foreign trade at the same time Y. M. Molotov and Mikoyan still are deputy prime ministers.

The world—and its envoys to Russia—had an ear cocked for answers to many burning questions which may be heard in the sessions of the Supreme Soviet, the national parliamentary body.

What lies behind Russia's recent shakeup of government leaders? What military expenditures does Russia propose for the coming months? How has Russian economy reacted to recent far-reaching govern-

Some—possibly all—of the amendments decreed?

Whether they will be full or partial answers remained to be seen.

COUPLE WHO WANTED TO ADOPT SOME KIDS FIND ENTIRE FAMILY ON HANDS

INDIANA, Pa., March 10. (U.P.)—Mr. and Mrs. Metro Harvey, who wanted to adopt some children,

have an entire family in tow today.

2 Men, Woman Die In Triangle

NEW YORK, March 10. (U.P.)—Two men and a woman died in a blast of gunfire last night while a mother 3,000 miles away listened by telephone to her daughter's dying screams for mercy.

The "adopted" family consists of Wasy Babij, 30; his wife, Jelysaweta, 25, and their nine-month-old son, Bohdan, all brought to the United States as displaced persons from the American zone of Germany.

The Babij and the Harveys got together through a slight mistake. Mrs. John Artymovich of Dixonville, Pa., arranged for passage of her nephew's family from the British zone of Germany. Mrs. Artymovich was notified March 1 that her relatives had "died."

Boating On Lake To Be Prohibited

Boating will be prohibited on Moss Creek lake during the fish spawning season from March 16 to May 29, city officials have announced.

Salt Lake Searches For Gas Seepage

SALT LAKE CITY, March 10. (U.P.)—"Enter at your own risk" signs hung in business establishments on Salt Lake City's west side today as the search continued for underground seepage of gasoline.

Announce Program For Clinic Of Press Association

Program for the spring clinic of the West Texas Press association, which will be held in Midland on Friday and Saturday, has been announced by Wendell Bedchek, Abilene, president.

Shift In Selective Service Is Sought

WASHINGTON, March 10. (U.P.)—The Hoover Commission plans to recommend to Congress that the selective service system be moved into the Labor Department, it was learned today.

WOULD RESTORE LABOR PRESTIGE

Shift In Selective Service Is Sought

Persons familiar with the reorganization plans said privately that the commission also will propose that the United States Employment Service be restored to labor.

If these and other recommendations are not changed and Congress approves them, the now feeble Labor Department would regain much prestige. In any war emergency, it would have the key responsibility for meeting military draft calls as well as recruiting and placing civilians in essential industry.

Former President Herbert Hoover, chairman of the commission, reportedly agreed with a majority of his 11 colleagues that the Labor Department should be rebuilt. It was stripped almost to a skeleton by the Republican 80th Congress.

The shift of selective service apparently won the commission's support on the ground that problems of military manpower should be co-ordinated with problems of the civilian labor supply.

School Trustees Will Meet Today

Meeting of the board of trustees of the Big Spring Independent school district, moved back to Friday has now been moved up to its original time of 7 p. m. today.

Tired Kidneys Often Bring Sleepless Nights

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause seeping headache, throbbing eyes, headache and dizziness. Frequent urination, loss of appetite, and general weakness are also signs of kidney trouble.

Glasscock Future Ranchers Carry Off Honors In Show

GARDEN CITY, March 10.—Glasscock county Future Ranchers of America virtually dominated the lamb division of the Midland Fat Stock show Monday and Tuesday.

Would Honor Ridings Texans In Finals

FORT WORTH, March 10. (U.P.)—The Texas Christian University Press Club and T Association are asking the TCU football stadium be named in honor of the late J. Willard Ridings.

Texans Have Major Stake In Impending Tidelands Battle

One of the major news services (INS) has had an ace correspondent (Inez Robb) in Austin on special assignment. Back of this was not a curious interest in the doings of the Texas legislature, but to get the temper of Texans on the tidelands issue.

She found some mumbling about secession, and others more practically determined to battle to the last ditch. Among the latter was Attorney General Price Daniel who has been leading the battle to preserve Texas rights to submerged lands now valued at \$22 billion because of vast oil deposits beneath them. More than two years ago Daniel was sounding the alarm on this issue, and he included Big Spring on his itinerary in seeking to awake Texans to the danger of federal encroachment.

This was at the time the supreme court was ruling in the California tidelands case in disregard for every previous ruling. Then Texas was told to be calm; that the decision would not affect this state; that Texas had peculiar treaty rights to her tidelands.

It hasn't turned out that way. The administration seems bent on ousting the

state from tideland domain, and even without the constitutional requirement of just compensation for seized lands. A measure to cede tidelands to the federal government has been introduced in Congress and with support of the chairman of its committee, it has the inside track over one by Rep. Ed Gossett (D-Tex) to establish the sovereignty for the states. State Sen. Bell has launched a maneuver for an amendment to the U. S. constitution to fix the state's rights in the matter. It is a long route and uncertain; but it has possibilities.

Meanwhile, the frontal attack offers more immediate hope, although it will be an uphill battle. Aside from the principle of state dominion, versus federal invasion, Texas has its special treat rights, a condition of its entry into the union, as a bulwark. These are the principles involved; the immediate fruits are great revenues, estimated at a million dollars a month, to the Texas public school fund.

The matter is one that concerns every Texan, and one in which every Texan ought to be sufficiently interested to inform his representative of his feelings in the matter—now.

New Impetus On Lateral Roads Should Stress Permanent Type

Final passage and approval of a measure which would pump more funds into a state lateral road program seems just around the corner.

In prospect are new funds in the amount of \$15 million per year, to be allocated at the rate of \$1,250,000 per month to the counties. In the main, these call for hard surfaced secondary roads, which, presumably would be those in the key route variety. Another measure, the McLellan bill, would permit use of state funds for caliche and gravel constructions for roads to connect with the secondary

arteries.

The governor has objected to investing in these less permanent materials, and he has a point. However, there are sections of Texas where mud is of such a nature as to make expedient connection a vital matter for real utility of the secondary roads. In this area, should the programs go through, it is to be hoped that concentration will be upon the permanent type roads, for mud is not normally a continuing problem. Out here, caliche and gravel have a way of blowing

Today And Tomorrow—Walter Lippmann

Key To The Moscow Riddle Is That Of Russian Self-Interest

In connection with the Molotov-Vishinsky affair many have recalled the famous saying of Mr. Churchill that the action of Russia "is a riddle wrapped in a mystery, inside an enigma." The rest of what Mr. Churchill said on that occasion is worth recalling too. He was speaking on October 1, 1939, four days after Warsaw had surrendered and six days after the Red Army, by agreement with Hitler, had occupied Eastern Poland.

The event, said Mr. Churchill, is "The assertion of the power of Russia. Russia has pursued a cold policy of self-interest. We could have wished that the Russian armies should be standing on their present line as the friends and allies of Poland instead of as invaders. But that the Russian armies should stand on this line was clearly necessary for the safety of Russia against the Nazi menace. At any rate the line is there, and an eastern front has been created which Nazi Germany does not dare assail. When Herr Von Ribbentrop was summoned to Moscow last week, it was learned the fact, and to accept the fact, that the Nazi designs upon the Baltic states and upon the Ukraine must come to a dead stop."

Mr. Churchill, who was speaking twenty months before the Nazi invasion of Russia, then went on to say, "I cannot forecast to you the action of Russia. It is a riddle wrapped in a mystery inside an enigma; but perhaps there is a key. That key is Russian national interest. It cannot be in accordance with the interest or the safety of Russia that Germany should plant itself upon the shores of the Black Sea, so that it should overrun the Balkan states and subjugate the Slavonic peoples of Southeastern Europe. That would be contrary to the historic life-interests of Russia, thus, my friends, at some risk of being proved wrong by events, I will proclaim tonight my conviction that Hitler, and all Hitler stands for, have been and are being warned off the East and the Southeast of Europe."

Mr. Churchill was not proved wrong by events. He had in fact found the key to the riddle wrapped in a mystery inside an enigma. He found that key not in the writings of Marx and Lenin and not in the

turgid literature of the Communist International but in the "historic life interests of Russia."

Now it may be, of course, that the key to Soviet policy is no longer the historic life-interests of Russia, and that Stalin, at the age of seventy, is no longer pursuing a cold policy of Russian self-interest. But there is as yet nothing to suggest that the old leopard has changed his spots, and that Soviet policy is not now dictated, as it has been ever since Stalin overthrew Trotsky, but the Russian national interest.

Now the essence of Stalinism has been the conviction that the future of Communism abroad must serve the Russian interest, and that when there is a conflict between Communism and the Russian interest, as for example in Yugoslavia and in China, the Russian interest is paramount.

Using this key, which has now been tested by the experience of ten years, we may note that Mr. Vishinsky was in Czechoslovakia in contact with the Communist leaders before he became Foreign Minister. We may note also that his visit to Czechoslovakia coincided with the final negotiations of the Atlantic Pact, and particularly the adherence of Norway, and that it was followed by the defiant declarations of non-resistance and collaboration by Thorez, Togliatti, and of Communist leaders in all the Atlantic nations, and also in Germany.

It is a reasonable assumption that Vishinsky is to administer the Russian reaction to the Atlantic Pact. The character of that reaction is indicated by the sequence of events—namely that nothing much happened until after Norway came into it. All through the summer and autumn when the Pact was confined to Western Europe, and the discussion was about building up defenses on the Rhine, the Russians did little more than express their dislike of it. But when Norway came in, the Russian national interest was involved. For while Russia cannot be attacked by land armies from France and Belgium, it can be attacked by bombers from Southern Norway.

Notebook—Hal Boyle

Comedian Out As Hubby, Declares Georgia Gibbs

By GEORGE TUCKER
(For Hal Boyle, Who Is Vacationing)

NEW YORK. (AP)—LIFE IS A ZANY BUSINESS for a girl who spends all her time with comedians.

After working with Danny Kaye, Jimmy Durante, Milton Berle, Bob Hope, Ralph Morgan, and Red Skelton, Georgia Gibbs has found this out.

"They're fun, but I'd never marry one," Georgia Gibbs said. "You'd have to laugh at all their jokes, and be a straight man the rest of your life."

—There's another reason, too.

"Everybody hears about comedians. But who ever hears of a comedian's wife?" Georgia Gibbs, known as "Her Nibs," is a tiny redhead from Worcester, Mass. As Danny Kaye's sparring partner, his eerie behavior on stage is part of her business.

"HE CHANGES HIS ROUTINE ANYTIME, anywhere, without prior notice to anybody. Maybe he roams the audience

for food, picking up a banana here, a bag of peanuts there, I've seen him hold up a show half an hour."

Of Bob Hope Miss Gibbs remembers: "Bob is restless. Like a fight referee. He says, 'come out punching. Punch hard. Don't lag.' Sometimes he sounds breathless and excited, but he isn't excited. That's just his way. His gags sound impromptu and up to the minute, as if he's just thought of them. But they're carefully rehearsed. He's like a cat, too; always lands on his feet. He has two or three gags for every situation."

It was Jimmy Durante who introduced her one night as "Miss Gibbs, Her Nibs"—and the name stuck.

"Eddie Cantor, he's quieter. He'll sit down and block out a joke. He'll test it until it's perfect. He knows when to laugh, and when not to laugh. Gags just don't happen. They may seem that way, but you know they're coming. And you sweat them out."

"WHAT DO YOU MAKE OF IT?"

Merry-Go-Round—Drew Pearson

Navy Secretary Threatens To Quit In Unification Wrangle

WASHINGTON — Sitting in front of President Truman the other day, Secretary of the Navy John Sullivan gave virtual notice that he would resign if the new armed forces unification bill is passed by Congress.

Sullivan's statement came during a long White House huddle while the heads of the Army, Navy and Air Forces smoothed out the wrinkles in the bill which is supposed to cut out bickering, overlapping, and backbiting. Secretary of Defense Forrestal is also present, together with his successor, Louis Johnson, while Truman himself sat in part of the time.

During the long discussion of the bill, Secretary Sullivan made objection after objection. He was especially opposed to taking away the autonomous power of the Secretary of the Navy and making him take orders from the Secretary of National Defense.

After the new unification bill was finally complete, and after Sullivan had registered all his objections, Secretary of Air Stuart Symington turned to him and said:

"Are you going to support this bill when it goes up to the hill, John?"

"My course is all too obvious," replied Sullivan, "those who present made it quite clear that he would resign."

President Truman, who was present, obviously heard the remark but said nothing.

NOTE — Sullivan is reported as a possible choice for Secretary of the Treasury when and if John Snyder resigns. Sullivan once held the job of assistant secretary of the treasury under Henry Morgenthau, who eventually eased him out. Truman, who disliked Morgenthau, would like nothing better than to show what had judgment Henry had by reappointing Sullivan to the treasury.

rightfully belonging to France."

HOFFMAN PASSES BUCK
Hoffman passed the buck first to Norman Collison, chief of the ECA mission in Germany, then to the State Department.

However, in the next breath, he admitted that a number of the steel plants would have to be kept in Germany in order to build German production up to the 10,700,000 tons a year rate, which is the 1936 standard. German steel production now totals 7,900,000, 000 tons a year.

"That isn't answering my question," persisted Mrs. Douglas. "I want to find out how many steel plants will be moved out of Germany, when, and to what countries."

Pinned down, Hoffman confessed that he didn't know, that the final answer would be up to the State Department and the nations involved. He then threw up his hands and appealed to the committee for support. "I'm doing the best I can," said he, a little plaintively.

McKELLAR LECTURES
Peppy Purcell L. Smith, registered lobbyist for the National Association of Electric Companies, got a snappy lecture the other day from crotchety Sen. Kenneth McKellar of Tennessee. Smith also got a very, very red face.

The Senate Appropriations Committee was holding hearings on \$2,500,000 to build a steam-electric plant for the Tennessee Valley Authority.

Smith's electric association was

opposed—on the ground that the appropriation was unconstitutional and would be an "entering wedge" for the socialization of all industry. To support their campaign, Smith introduced in the record a letter from a CIO local in Ohio, opposing the \$2,500,000 for the TVA steam-electric plant.

Next day, the Washington Post carried a full-page advertisement, paid for by the electric association, outlining the CIO stand.

Sen. McKellar promptly put the ad in the committee's record.

Then, turning to Smith, he almost roared: "Is this put in as a threat to congressmen that CIO workers are not going to support them unless they adopt your view about this plant?"

"I cannot attempt to interpret the views of the CIO workers," replied the electric company lobbyist.

"Your real purpose," McKellar shot back, "was to prevent passage of this steam-electric appropriation. It is propaganda, pure propaganda that you are undertaking indirectly to threaten the Congress about this matter, and I want to say that, as chairman of this committee, I resent it very strongly."

"I do not think you should have done it," continued the senator from Tennessee, catching a fresh breath. "I think you have done your association an injustice and it will be a remarkable thing if they retain you, with the big salary that you get of \$65,000 a year."

Hollywood—Bob Thomas

Jimmy Stewart Essays Reporter's Role Again

HOLLYWOOD — James Stewart, the movie maker's idea of a newspaperman, has his pad and pencil out again.

The long drink of water from Indiana, Pa., is playing a reporter of sorts in "Operation Malaya" and he admits he is sticking his lengthy neck out. Newsmen are a touchy tribe, you know.

"I don't blame them," he told me. "And after all, they were portrayed so long as gin-slugging, lazy characters with hats on the backs of their heads and cigarettes dripping from their mouths."

Jimmy said he doesn't know why he is so often chosen to play reporters, but he doesn't mind it at all. "Newspapermen are such complex characters, they're a challenge to play," he remarked.

The only hazard is risking the wrath of newspapermen by movie honors. His last job, "Call Northside 777," had a whopper. Reporter Stewart slipped some paper into the typewriter and put a headline on the story before he wrote it. (Reporters do not write heads on Metropolitan papers.)

"That was put into the picture by the insert department after we finished it," Jimmy related. "The director, Henry Hathaway, said he would give his right arm up to here if he could have the shot out of the

Uncle Sam As A Publisher Has Several Best-Selling Volumes

The best-sellers are not always the volumes one would ordinarily guess to be the most popular. We all know how the Bible stays at the top year after year; we are familiar with the millions of sales of "Gone With the Wind," and we recall the other popular novels of year to year.

But you might be surprised to know that Uncle Sam is a strong competitor in the best-seller lists with the commercial publishers.

The old Uncle prints bulletins and pamphlets by the thousands. We even wrote the other day for one called "Special Days, Weeks and Months in 1949," thinking that it might be a handy reference around the newspaper office.

Then comes along some sales figures that disprove the belief that government documents are dismissed as dry, statistical tomes. The superintendent of documents of the Government Printing office makes a report for February showing that the Uncle Sam booklets are attracting a widespread audience.

There is one pamphlet (price 10 cents) titled "100 Things You Should Know About Communism and Education," and, believe it or not the first printing of 25,000 has been sold out. The schools very likely made a run on this one. Then there are two companion pieces, "100 Things You Should Know About Communism and Religion," (10 cents) and it has "consistently good sales." A third of the group, "100 Things You Should Know About Commu-

nism and Government" (also a dime) has "sales increasing steadily."

Then there's "100 Things You Should Know About Communism in U. S. A." (another ten-cents) which sold 7,500 copies in February alone. To keep on the same subject, "100 Things You Should Know About Communism and Labor" is going at the rate of 2,000 a week.

These indicate the tremendous interest in the country in everything pertaining to communism, and a very healthful interest it is, too. But what about some other government pamphlets?

One called "How Manufacturers Reduce Their Distribution Costs"—and it costs 35 cents—is selling 1,000 a week. And then, of all things, a book called "Manual For Courts-Martial" which sells for \$1.75 is reported to be on a fast uptrend in sales.

The "U. S. Government Printing Office Style Manual," which is more costly at two bucks is called a "best seller since 1945." And it apparently has to do with printing-type styles rather than with women's modes. Dunno who would keep that one on the best seller-list.

It's easy to understand two other volumes. "Your Federal Income Tax" (25 cents) sold 250,000 in three months, but let's call that a seasonal item.

The other is a 15-cent booklet called "Infant Care." And it's an all-time best-seller with 5,000,000 copies distributed. It currently is going at 4,000 copies a week, and definitely is a year-around attraction.—BOB WHIPKEY.

Nation Today—James Marlow

One-Man Talkfest Stops Senate Wheels, Drives Visitors Away

WASHINGTON, D. C.—HOW DOES A ONE-man talkathon look? From where I sat it's a sad sight: Bleak, lonely, and boring.

Sen. Harry Cain of the State of Washington put one on Tuesday. The sandy-haired Cain, who looks younger than his 43 years, talked for six hours and 45 minutes.

Seems Republican Cain doesn't like Democrat Mon C. Wallgren who used to be governor of Cain's State of Washington.

Cain has made this known many times before. In case anyone had any doubt of it, he threw his marathon talk Tuesday.

Senate work came to a full stop. Never more than a handful of senators sat around, listening or talking among themselves.

Stray visitors wandered into the galleries, stared down at Cain, listened blankly, and left.

CAIN OPENED UP THE TALK, FULLY prepared with a 264-page address, 79,000 words long, plus anything else he could think of to throw in.

He talked, waved his arms, pointed his finger sternly in the air like a magistrate passing judgment, raised his voice, lowered it, put a dramatic pitch in, took out the dramatic pitch, stepped forward, stepped back, put a hand in his pocket, took it out, looked very earnest, and talked.

The hours dragged on. The dim light filtered in through the skylight in the Senate ceiling, some newspapermen peeked in through the gallery doors to reassure themselves he was still at it and those who had to stay and listen to every word just stayed and listened.

If you ever hear that a one-man talkfest is going on, stay away.

All this started some time ago.

Wallgren, before he became governor of

Washington, was a congressman and a senator. While he was in the Senate he became a great pal of Sen. Harry Truman.

THEY REMAINED PALS WHEN MR. Truman became President. In the last election Wallgren was defeated for re-election as governor.

Mr. Truman remembered his old friend, and having won a new term himself, called Wallgren to the capital and named him to be chairman of the National Security Resources Board.

The job pays \$14,000 a year and the board's job is to see that American industry can convert quickly to war production in case of war.

As soon as Mr. Truman announced the job for Wallgren, Cain got busy to block it. The appointment can't go through unless the Senate approves. And before the Senate approves, the Senate's Armed Services Committee will have to approve.

THIS COMMITTEE HAS HELD HEARINGS on Wallgren's fitness for the job. And Cain protested that Wallgren was unfit. "Politics," said Mr. Truman. "Personal prejudice," said Wallgren. Cain replied that his opposition was "firm and honest."

And there it stood. What Cain thought he could accomplish by his long-drawn-out talk—beyond what he had accomplished by what he said before—is not clear to me.

The Senate wasn't ready to vote on Wallgren anyway, and won't be for at least a week. The Armed Services Committee won't vote on Wallgren till next Tuesday and the full Senate can't vote on him before that.

But at least Cain managed to make the Senate wheels stop for a day.

Affairs Of The World—DeWitt MacKenzie

Western Allies Must Act To Guard Against Any Sub Menace

AMONG THE MAJOR SECURITY tasks of the western allies is that of providing a fool-proof defense against any such submarine menace as that with which the Germans all but defeated them in the two world wars.

One of England's foremost newspapers, the Manchester Guardian, calls attention to this in connection with the current debate on British naval estimates in the House of Commons. The Guardian points to two vital defense problems:

1. To see that all reasonable steps are taken to ensure that the sea links between America and western Europe, and between America and the Near East, can't be cut.

2. To make sure that the Royal Navy and the U. S. Navy are working hand in glove, and that neither will find itself engaged in major sea warfare without the other at its side.

THE VALUE OF ANY PARTNERSHIP between America and European nations of course hinges heavily on their control of the sea. The proposed North Atlantic Alliance would be an empty gesture if an enemy controlled the ocean lanes between the two hemispheres.

Those who date back to the first world war will remember the terrible days of 1916 and 1917 when the Kaiser's unrestricted submarine campaign brought Germany close to victory. The all-important stream of war and food supplies from America was cut to the "anger point. John Bull's island was on such short rations that the population was under a strain.

Not only were the Atlantic lanes being cut, but those in many other parts of the world. I went from India to London by sea in February, 1917, and 13 vessels were sent to the bottom by submarines near my ship in the Mediterranean. One big steamer went down only a couple of miles from us. No shipping was safe anywhere.

THINGS GOT SO BAD THAT BRITAIN'S Admiral Jellicoe took the unusual step of writing direct to the prime min-

ister, warning that loss of shipping alone might soon force the allies to make peace. Various proposals for dealing with the submarines were put into effect, and then America came into the war. By the end of 1917 the menace was got in hand by intensive convoying of cargo vessels.

Again in World War II Hitler for a time was able to duplicate the Kaiser's success. The scope of the submarine warfare was greatly extended. Longer cruising range was secured by building bigger submarines.

Early in 1942 the axis powers shifted their submarine warfare to the western Atlantic and in 10 months the loss of over 500 ships was reported. More than 7 million tons of allied shipping was lost.

By the end of the year the German U-boat campaign was the major threat to an allied victory.

Hogs Face Arizona For Tourney Berth

Baylor, Flock Are Defeated

DALLAS, March 10. (AP)—Arkansas and Arizona, who were picked to take the count in the first round, meet tonight for the right to represent District 6 in the National Collegiate Athletic Association Basketball Tournament at Kansas City.

It was a night for the underdogs to howl as Arkansas trounced a nemesis, Rice, 50-34, and Arizona upset Baylor 55-47. Rice was a heavy favorite, having beaten Arkansas twice during the season. Baylor, which wound up in a tie with Rice and Arkansas for the Southwest Conference championship, was the general choice to trim Arizona, title team of the Border Conference.

Both games were rough with a total of 34 fouls in the Arkansas-Rice tussle and 38 in the Arizona-Baylor engagement. Bob Ambler, Arkansas center, was put out of the game before it was five minutes old for hitting Bob Foley, Rice guard.

Only once was Rice ahead. That was a brief period midway of the first half. Ken Kearns, all-southwest conference guard, paced the Arkansas attack with 15 points. Big Mike Schumchek, Arkansas guard, did a great job of guarding Bill Tom, Rice's high-scoring center, and also got in some grand work under the basket taking the rebounds.

Little Leon Blevins rammed in 25 points, scoring from all angles, to give Arizona its upset triumph over Baylor. The Bear were ahead only once, also, and it was in the first half. After the intermission the Wildcats were out front all the way except when the score was once tied.

A crowd of 3,700 turned out to see the two games at the recreation building.

Tonight's game will be at 8 o'clock and the winner will go to Kansas City March 18 and 19 for the Western Regional NCAA Tournament.

NIBT Lineup Is Completed

NEW YORK, March 10. (AP)—The National Invitational Basketball Tournament, which finally let almost everyone into the act, will open here Saturday afternoon with 12 teams, four more than ever before.

The oversized field includes six of the nation's first 10 clubs and three of the five players on the Associated Press All-America first team.

This is the lineup: Kentucky (29-1), St. Louis (21-3), Utah (24-7), Western Kentucky (25-3), Bradley (25-6), San Francisco (21-5), Bowling Green (21-6), Loyola of Chicago (22-5), City College of New York (17-7), Manhattan (18-7), St. John's of Brooklyn (15-8) and New York University (12-7).

The All-Americas are Alex Groza and Ralph Beard of Kentucky and Ed McCauley of St. Louis.

Looking 'Em Over

by Tommy Hart

Back from Dallas and the football coaching school at Southern Methodist university, Herschel (Mule) Stockton, the Big Spring high school mentor, says he probably got more out of that clinic than he did the Texas Coaches' association course at Abilene last year.

Stock, and the other 80 or so instructors who were on hand, got liberal orientation in the T formation, as taught by Bud Wilkinson, the University of Oklahoma mentor.

Rusty Russell, the SMU backfield coach, was present too, to expound on the single and double wings.

Mule also was privileged to see the SMU Ponies stage a workout. The Cayuses, as most everyone knows, are engaged in spring training without half their regulars, who are out for other sports.

Of Wilkinson, Stock says the youthful mentor made the T look astoundingly simple. He says Bud insisted that he used but five plays to the left, another five to the right. The success of his 1948 club speaks for itself. Mule might be tempted to switch to the 'man under' formation if he had a back the caliber of Jack Mitchell, Wilkinson's quarterback last season.

Both the football field and the baseball diamond here are getting liberal helpings of fertilizer. Several truckloads were hauled into the athletic plants Tuesday and distributed by coaches and players.

ROGERS NAMED ALL-DISTRICT 108 CAGE TEAMS

Jack Rogers, The Daily Herald's correspondent in Ackerly, writes that his idea of an all-District 108 basketball team for the past season would include Hocker and Wright, both of Dawson; Murphy and Heald, both of Flower Grove; and Tuttle, Union.

Rogers' second team would consist of Woosley, Flower Grove; Bass, Ackerly; Burns, Flower Grove; Teague, Dawson; and Lambright, Union.

LOMBARDO AND OTHERS MAY RACE AT TEXHOMA

The nation's top speedboat kings, including the well known band leader, Guy Lombardo, may stage a race at Lake Texhoma near Denison this summer.

It is estimated a 100,000 or more people would be lured to the lake for such an event.

COWSER TO DIVIDE TIME WITH CLAWITTER

Morris Cowser, the ex-Lynchburg baseball league performer, will probably divide catching duties of the Amarillo Gold Sox this year with Ted Clawitter next season.

Cowser, who played with Vernon last season, hits from the right side, Clawitter from the left.

FORMER BIG SPRING TRAINER IN COAST MATCHES

Roy Barry, who trained polo ponies for Dr. M. H. Bennett here some months ago, will be taking part in an international polo series in Los Angeles starting March 20.

Included among the teams which will be on hand are the El Ranchitos of Vernon, Texas, Laddie Sanford's Long Island quartet, the Venado Tuerto squad from the Argentine, and an outfit known as the United States team.

The Argentine players are flying up 30 ponies from their native country. Their matchless steeds may give them a distinct advantage over the Americans.

Roy, a seven goal player, will team with his brothers, Bill and Harold, both of whom are rated at seven goals, Cecil Smith, the only ten-goal star in the meet; George Oliver (9 goals), Eric Pedley (7 goals), Alden Roark (7 goals), Dutch Avinger (7 goals), George Pope (5 goals) and Bob Fletcher (5 goals).

The Argentines will have three 9-goal stars and a 7-goal player.

City Conference Teams Begin Tourney In Houston To Decide State Champs

HOUSTON, March 10. (AP)—Texas schoolboy basketball enters its final phase of the 1948-49 season in today as eight Big City Conference teams complete preparations for the new circuit's first tournament.

With three state champions determined last week in Austin, the league's busy basketball calendar will conclude here Saturday night as the big city boys determine their champion.

Wildcats Land Two On 1949 All-America

NEW YORK, March 10. (AP)—Two players from the South, and one each from the East, Midwest and Rocky Mountains make up the 1949 Associated Press All-America basketball team.

This geographically representative quintet contrasts sharply with the 1948 five which was dominated completely by the Midwest. Last year four cagers from the Midlands were on the first team.

Kentucky's NCAA champions and the nation's No. 1 team, contributed the two players from the South—Alex Groza and Ralph Beard. Ed Macauley, of St. Louis, is the Midwest representative. Tony Lavelli of Yale, represents the East and Vince Boryla, of Denver, the Rocky Mountains.

Beard and Macauley are repeaters from the 1948 team. Kevin O'Shea, of Notre Dame, and Jim McIntyre, of Minnesota, selected on the 1948 first team, only made the third team in this year's voting by 404 sportswriters and broadcasters throughout the nation.

Groza and Lavelli, seniors like Beard and Macauley, each moved up a notch from the 1948 second team.

Wah-Wah Jones, another member of the Kentucky team and the U. S. Olympic squad, was named on the second team along with Dwight Eddleman, of Illinois; Bob Harris, of Oklahoma A&M; Bob Cousy, of Holy Cross; and Ernie Gardner, of Utah.

Ernie Vandeweghe, Coziate star, topped a third team which also includes Dick Schnittker, of Ohio State; Meyer Skoog, of Minnesota; and O'Shea and McIntyre.

Others earning honorable mention included Slate Martin, Texas.

New Home Wins Opener, 63-33

HILLSBORO, March 10. (AP)—The State Girls' High School Basketball Tournament moves into quarter-final play tonight with New Home and East Chambers playing the feature tilt.

New Home yesterday walloped Cranfills Gap, 63-33, and East Chambers, 1947 state champion, swamped Millsap, 38-18.

In other first round games, Seagoville came from behind to defeat Post, 30-26; Teneha downed Lawn, 28-23; Delhart whipped Kildare, 33-15; McLean beat West Columbia, 34-27; Rogers rolled over Huckabay, 38-28, and Forreston nosed out Roosevelt, 39-27.

Coleene Savage tossed in 30 points to lead New Home to its one-sided victory and Ozell Collins starred in East Chambers' easy win by scoring 20 points.

The schedule today in the championship bracket:

6 p.m.—East Chambers vs New Home.

7 p.m.—Rogers vs Forreston.

8 p.m.—Teneha vs Dalhart.

9 p.m.—McLean vs Seagoville.

Pairings for first round consolation games:

Noon—Millsap vs Cranfills Gap.

1:10 p.m.—Huckabay vs Roosevelt.

2:30 p.m.—Lawn vs Kildare.

3:30 p.m.—West Columbia vs Post.

BIGGEST OF ALL Big Spring Fems' Volley Ball Meet Begins Friday

Play will begin at 2 p. m. Friday in the fourth annual Big Spring girls' volleyball tournament, Garden City and Andrews taking the court at Steer gym for the first game.

Arah Phillips, tournament director, has all but completed preparations for the biggest show in the history of the meet.

Sixteen teams, including Big Spring, will be gunning for the title won last year by a good Water Valley team.

Co-favorites this year are Fort Davis, which copped the Andrews tournament two weeks ago, and a great Ringgold sextet coached by R. C. Wilson.

Seminole, last year's runner-up, will be back along with Denver City, third place winner in 1948, Forsan and Garden City, who finished 1-2 in the consolations a year ago.

The tournament is being sponsored by the American Business club of Big Spring. There'll be trophies for the first, second and third place winners along with individual awards for 12 members of the all-tournament squad and to the outstanding player of the tournament. In addition, the consolation winners will get a cup.

The school cafeteria will be opened to service participants in the tournament.

First round pairings and starting times (in order of draw):

Water Valley vs Lubbock, 9 a. m. Saturday; Coahoma vs Wink, 4:30 p. m. Friday; Seminole vs Odessa, 9:45 a. m. Saturday; Lamesa vs Forsan, 3 p. m. Friday; Ringgold vs Denver City, 8:30 p. m. Friday; Midland vs Fort Davis, 3:45 p. m. Friday; Garden City vs Andrews, 2 p. m. Friday; Big Spring vs Fort Stockton, 7:30 p. m. Friday.

Quarterfinal games in the championship bracket go on at 10:30 a. m., 12 noon, 1:40 p. m. and 3 p. m. Saturday. Semifinal games are booked for 4:20 and 5:40 p. m. Saturday while the title bout will be unreeled at 8:20 p. m. Saturday. Contest for third place is scheduled for 7 o'clock Saturday evening while the consolation finals will be played at 7:40 p. m. the final day.

Loop Cage Meet Opening Today

LOOP, March 10.—A boys' and girls' basketball tournament will be staged in the Loop high school gymnasium, starting tonight and extending through Saturday.

Seven boys' teams are entered along with eight fem. clubs.

In the boys' bracket, Dawson tangles with Loop, the Dawson B team faces Ackerly and a Union-Dawson combination tests Flower Grove in first round games. Klondike, which drew a bye in the preliminaries, squares off with the winner of the Union-Dawson and Flower Grove game Friday.

In girls' competition, Dawson tests Loop, the Dawson Bees oppose Ackerly, Klondike tangles with Lamesa and Union-Dawson challenges Flower Grove in initial matches.

Water Valley To Stage Annual Track Meet Saturday, March 19

WATER VALLEY, March 10.—A track meet for junior and senior high school teams will be staged here Saturday, March 19, starting at 10 a. m. Coach Elvin Mathis has announced.

In the past, the Olympic metric system has been used in all races but Mathis has indicated that will be abandoned for regulation measurements.

A medley mile relay (440, 220, and 880 yards) will be conducted along with a 1 1/2 mile distance medley relay (440, 220, 880 and mile).

Medals will be given to all individual winners and to all winning relay team members. Team trophies will be awarded to first and second place squads in the senior division and to the aggregate finishing first in the junior division. In addition, an identification bracelet will be presented to the high point man in the senior meet.

Teams which will probably compete are Coahoma, Robert Lee, Forsan, Garden City, Sterling City, Water Valley, Mertzon, Rankin, Big Lake, San Angelo Junior high, Miles, Bronte, Wall and Christoval. Coaches desiring to enter squads must get their entries to Mathis, care of the Water Valley high school, not later than Wednesday, March 18.

Coach Oliver Jackson, in his second year as track coach, expects the Wildcats to make their best showing in the relays, and the open 440-yard dash. Johnny Mason and H. D. Terry, two-year lettermen of Plainview and Abilene, respectively, will form the nucleus of this year's squad. Seventeen men are listed on the roster.

Three freshmen are expected to gather points for the Wildcats in their first college competition. Leonard Lepard, of Big Spring, 1948 Texas Class AA 880-yard champion, seems pretty well assured of a berth on the mile relay quartet, probably as anchor man.

One of the brightest newcomers to the ACC cinders is Paul Faulkner, national high school pole vaulting champion with a height of 13 feet, 1 1/2, who is aiming for 14 feet this Spring. A newcomer to the dash ranks is Arnold Fairley of Pecos who placed 2nd in both the High School Class A 100 and 220 yard dashes at state last year.

Others trying include: Abe Wadley and Roy Breen, Pecos; Bill Wright, Texarkana; Tim Mason, Leroy Middleton, and John Moran, Abilene; Pete Ragus, San Jose, California; John Sikes, Roswell, New Mexico; Jimmy Barbee, Pampa, Texas; Ralph Ellis, San Angelo; Dick Qualls, Denver, Colorado; and Tex Williams, Waco.

Hamline Meets Tech Raiders

KANSAS CITY, March 10. (AP)—Hamline University's Pied Pipers emerged as a slight favorite today to win the NAIB title—mainly because of Center Verne Mikkelsen and Forward Hal Haskins.

Mikkelsen, a 6-foot 7-inch scoring marvel, and Haskins, 6-2, each is making his third start in a National Association of Intercollegiate Basketball Tournament. They will lead the St. Paul, Minn., team against Texas Tech at 9:05 p. m. (CST) in the feature of tonight's four-game quarter-final card.

Mikkelsen, used sparingly as Hamline beat Indiana Central of Indianapolis, 83-66, in second round play yesterday, still scored 13 points.

Haskins poured in 12 field goals and 5 free throws for 29 points and Texas Tech, which has plenty of height in its own lineup, advanced to the quarter finals by beating North Dakota University, 62-57.

Beloit (Wis.) College, Hamline's outstanding rival in the upper bracket, will take on the surprisingly strong Eastern Illinois College, of Charleston, Quintet.

Regis College of Denver, one of the taller teams in the meet, beat St. Thomas of St. Paul, 53-52 last night and will play the Northwest Louisiana State Demons of Natchitoches, Northwestern eliminated Brigham Young University, 59-57, yesterday.

The rugged Emporia (Kan.) State Hornets meet Indiana State of Terre Haute, in tonight's final game.

LEGION LETTER

By KAY BUGG

Out of the pot of candidates for National Commander it seems that James H. Green, World War II veteran from Omaha, Nebraska, is the best bet and most likely... The Evans Bill HR No. 2680 should interest veterans who have been denied claims by the Veterans Administration... We are happy to see the G. I. home loan active in Big Spring. Buddy Sid Johnson and Buddy John Hendricks will soon move into their new G. I. home. Commander Neel Barnaby is over the 100 mark in the membership drive for the third consecutive year. Wonder if he has already had those boots fitted. Buddy Harold Steck will officially represent the American Legion on the directorate of the Centennial committee... Did you know that both U. S. Senators, Tom Connally and Lyndon P. Johnson and 12 other members of Congress from Texas are members of the American Legion?... Bailey Ireland and orchestra will be here Saturday, March 12, for another public dance. The Roundelay Club had their party at the Legion clubhouse Wednesday... We wonder how Buddy Wayne Spears is getting along with the arrangements for another barn dance. New members signed up for the Legion are: Luther E. Edwards, Jr., John B. Moore, Herbert F. Rule, Thomas J. Williamson, John H. Day, Alfred Goodson, Earl R. Herring, Roy L. Jeffcoat, James A. Jolley, Dewey P. Limer, Charles McElrath, Vergil D. McCraw, Eugene M. Sonnenschein, Carl W. Titsworth and Morton T. Walker. Buddy Harry S. Truman's new Secretary of Defense, Colonel Louis A. Johnson, is formerly a national commander of the Legion... Mrs. Culin Grigsby is on an extensive trip to Oklahoma... Buddy Joe Roscoe Fenn, member of the Clovis, N. M. Post, has moved to this city, accepting a position with Bugg Wholesale Meats. He is a cousin to Mr. Henry Bugg. Mrs. Harold Steck and Mrs. Fred Stitzell's parents Mr. and Mrs. R. S. Fleming from Hobbs, N. M. spent Sunday with them... Buddy Jim Hartley spent last weekend in Snyder visiting with his parents, Mr. and Mrs. L. Hartley... There will be a Teen Age party at the Legion clubhouse on March 25. Buddy Alvin Smith was appointed to the committee on Latin-American Rehabilitation... Appointed to the Barn Dance

Paving Work Goes Forward In City

Paving work was moving forward rapidly this morning as crews made progress on several units of the contract project and the city neared completion of curb and gutter installations on the Lamesa highway. The contractor was excavating on Nolan street south of 11th Place, while the paving base was being prepared on Owens street and asphalt topping was being spread on a Settles street unit extending from 11th Place to East 13th. The city expects to complete curbs and gutters on the Lamesa highway within the next few days, after which the state highway department is due to begin paving there.

Fined In Car Mishap

Carroll Smiley, involved in an automobile mishap east of town earlier in the week, was fined \$75 and costs in county court this morning on a charge of driving while under the influence of intoxicants. Smiley also yielded his driver's license for the ensuing six months.

committee last Thursday evening were Buddies Wayne Spears and D. R. Gartman... The American Legion called on two widows last week who were badly in need of assistance. There will not be an auxiliary meeting this Thursday night... The basketball team of the Legion won the game from Forsan 29 to 23 in the Stanton tournament Monday night. They will play Midland Thursday night. Be sure to see this game... Buddy Harry King has taken on quite a job in teaching the Legionnaires to square dance. Come Thursday evening for the first class of square dancing which will start promptly at 8:00... Buddy Jewel Eden is confined to the Veterans Hospital in Amarillo. We hope he is out very soon. We are happy to hear that Buddy Paul Soiden is able to report for work. There are approximately 515 new members in the post now which is only 23 short of our quota. No one put in their bid for the "cannon" this week... The stag party was a big success Monday evening. There were 100 present and Buddies John Stanley, James Vines and Roxie Dobbins won high score.

Texans Push For Burlison

WASHINGTON, March 10. (AP)—Texas congressmen worked quietly today for the appointment of one of their number to the House Foreign Affairs Committee. They are pushing Rep. Burlison (D) to fill the vacancy created by the death of Chairman Bloom (D-NY). Rep. Kee (D-WVa) moves up the committee seniority ladder to chairmanship. Rep. Combs (D) the state's member of the Ways and Means Committee, which makes all other House Democratic committee assignments, told a reporter: "The Ways and Means Committee naturally has not yet taken up the matter. You may be sure, however, that I have been talking with different members and doing all I can to get Burlison appointed." "He very narrowly missed being appointed at the beginning of the present session, when 50 or more congressmen were candidates for the then few existing vacancies." "Burlison is a capable man. The question is whether Texas can get a spot on the committee, competing with all other states for the limited number of assignments."

Scout Crusade To Be Launched Here Saturday

All residents of the Big Spring Boy Scout district are invited to witness ceremonies here Saturday afternoon which will launch a two-year Scout Crusade, Nat Shick, general chairman, said this morning. Shick said Scout officials not only hope to have uniformed Scouts from all units in the district here for participation, but a large number of parents and members of sponsoring organizations as well. The ceremony here, which will be duplicated on the same date at other cities in the Buffalo Trail Council, is set for 3 p. m. on the courthouse lawn. The crusade is a nation-wide project of Boy Scouts of America designed to bring the Scout organization up to peak strength by 1951, the 40th anniversary year.

Junior College Will Be Host To High Schoolers

Closing a full schedule of Pioneer Week activities, Howard County Junior college will be host Friday to a group of students representing more than 15 high schools in this area. In addition to a conducted tour of the college, the guests will have opportunity to witness the HCJC "kangaroo court" an annual feature of Pioneer Week activities on the campus, and a play to be enacted by the literary guild. Another annual highlight is the barbecue supper, which will begin at 6 p. m. Immediately thereafter the college students and guests will attend a dance in the college gymnasium which will conclude the program. High school students are expected from Forsan, Garden City, Courtney, Stanton, Sparenburg, Midland, Roscoe, Loraine, Snyder, Knott, Ackery, Flower Grove, Westbrook, Colorado City, Sterling City and Lamesa.

Prisoners Make Brier Stay Here

Six prisoners, all of them sentenced to terms in the state penitentiary, were left in the Howard county jail for safekeeping Wednesday night by the attendants of a vehicle taking them to Huntsville. Most of the prisoners had been sentenced in Taylor county.

Former Big Spring Residents Have Son

A six-pound son has been born to Mr. and Mrs. Bill Sims, formerly of Big Spring and now of Wynnsboro, La., according to word received here. The newcomer, named John Henry, arrived March 8. Sims was an engineer with the T&P railway while here.

MARKETS

NEW YORK, March 10. (AP)—The stock market closed a bit lower in another day of lackluster trading. However many issues remained. Changes either way were mostly in fractions.

LIVESTOCK
FORT WORTH, March 10. (AP)—Cattle 900; calves 300; generally steady; medium and good slaughter steers and yearlings 21.00-24.00; few good yearlings 24.00-25.25; plain butcher yearlings 18.00-21.00; beef cows 15.50-18.00; canners and cullers 11.00-15.50; sausage hogs 18.00-20.50; good fat calves 24.00-25.25; plain and medium calves 20.00-24.00; medium and good stocker yearlings and calves 22.00-25.00; most stocker cows 17.00-19.50. Sheep 1,200; butchers mostly steady to 25 cents above Wednesday's levels with some 25-50 cents higher; and feeder pigs unchanged; top 21.25; good and choice 190-188 lb. butchers 20.75-21.15; good and choice 150-148 lb. 18.00-20.50; and 200-200 lb. hogs 18.00-20.25; sows 16.00-17.00; feeder pigs 17.00-19.00. Hides 1,500; slaughter lambs steady to 50 cents higher and feeder lambs steady; good and choice wooled slaughter lambs 24.00-26.00; good milk-fed lambs 28.50; good and choice short lambs with No. 3 pelts 24.00-26.00; medium to good hinds 22.00-24.00; common sorts 18.00; feeder lambs 22.50.

WEATHER

BIG SPRING AND VICINITY: Partly cloudy, rising temperatures today, tonight and Friday. High today 68, low tonight 46, high tomorrow 69. Highest temperature this date, 93 in 1911; lowest this date, 12 in 1948; maximum rainfall this date, .57 in 1913. EAST TEXAS: Fair this afternoon and tonight. A little colder extreme south portion this afternoon. Scattered frost north-east portion tonight. Friday partly cloudy, warmer in afternoon. Moderate north and northeast winds on coast becoming variable tonight. WEST TEXAS: Partly cloudy with rising temperatures this afternoon, tonight and Friday.

CALCIUM GLUCONATE PROVES WORTH Soldier Survives At Least 600 Bee Stings

WASHINGTON, March 10. (AP)—A government doctor told today of a soldier who survived at least 600 bee stings after a terrible, swarming attack.

Square Dance Club To Be Organized

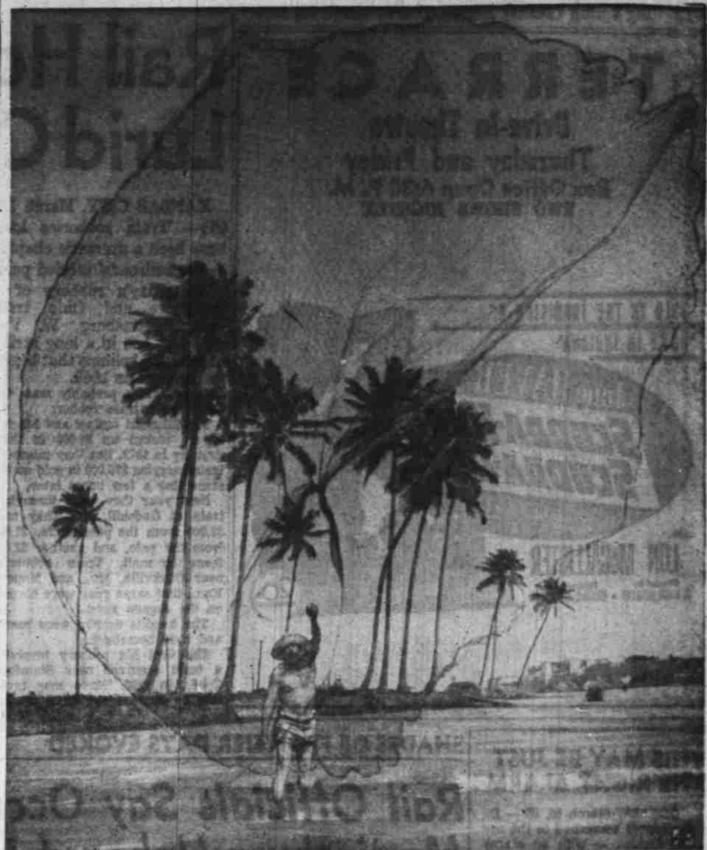

Members of the American Legion here will organize a square dance club at the post's regular meeting tonight at the Legion clubhouse, Neel G. Barnaby, post commander, announced this morning. Tonight's session is set for 8 p. m. Membership in the square dance club, which will be restricted to Legionnaires and their wives, will participate in a six weeks course of instruction. Harry King will be instructor. Hereafter, the square dance club will meet on Friday nights at the clubhouse, Barnaby said.

Cattle Sale Here Big, Despite Slump

The cattle market experienced a slight slump here Wednesday but in numbers, the sale conducted at the Big Spring Livestock Auction company was bigger than anything held here in recent weeks. Some 900 cattle and over a 100 head of hogs went through the ring during the busy afternoon. Fat bulls were bringing up to 21.00, fat cows ranged from 18.50 to 19.00. Butcher cows sold from 14.50 to 16.50 and fat calves from 24.00 to 25.00. Stocker steer calves brought bids from 25.00 to 27.50, heifer calves from 25.00 to 26.00 while hogs exchanged hands for prices up to 20.00.

Publisher Succumbs

GREENVILLE, O., March 10. (AP)—William A. Browne, Jr., editor and publisher of the Greenville Daily Advocate died of a heart attack early today in Raymondville, Tex. He was 76.

NET GAIN—Tossing a net 25 feet in diameter a distance of 40 feet is light exercise for Juan Montalvo, fisherman at Cabras Island, Puerto Rico, who has been doing it for 40 years. The nets, homemade of nylon and known as "atarrayas," trap mullet, red snappers and other small fish.

TRY THE FORD "FEEL"

Rail Holdups Have Written Lurid Chapter In Storied Past

KANSAS CITY, March 10. (AP)— Train robberies long have been a dramatic chapter in the railroads' storied past. Yesterday's robbery of a Baltimore and Ohio train near Martinsburg, W. Va., was just one in a long string of railroad holdups that began as far back as 1866.

Jesse James probably was the best known train robber. The Missouri outlaw and his followers picked up \$3,000 in their first try in 1873. But they missed a train carrying \$75,000 in gold on the same line a few hours later.

Next year they went through a train at Gadshill, Mo. They took \$2,000 from the passengers, \$1,000 from the safe, and another \$2,000 from the mail. Train robberies near Otterville, Mo., and Muncie, Kan., that same year were blamed on the James gang.

The bandits usually wore masks and rode horseback. The first big robbery involving a train occurred near Stamford, Conn., in 1866. Three men broke into an express car on a run be-

tween New York and Boston and made off with cash, bonds, and jewels valued at \$700,000. Caught later, they implicated seven others, including the messenger who rode the car.

As recently as 1937, two easterners, dressed as cowboys and firing revolvers, failed in attempting to rob passengers of a train speeding across the New Mexico desert.

One of the men smashed a passenger's watch with pistol fire and a shot grazed another passenger's clothing. But trainmen and other passengers tripped the two in the aisle, overpowered them, and bound them to the coach seats. They hauled the pair into Deming, N. M., and turned them over to authorities.

Two attempts in California were more successful. Ten sections of rail were derailed near Saugus, Calif., in 1929, derailing an engine, baggage and mail cars, and two passenger coaches. Seven other cars remained upright. Two armed men herded passen-

gers together and escaped with about \$500, taking only cash. The engineer of the train was scalded to death by steam from his overturned engine.

A few months earlier two men boarded a train near Pittsburg, Calif., shot the engineer and forced him to back his train to a rendezvous with a third bandit.

The third man had a machine gun set up and covered passengers as they were ordered out of the train. The bandits, apparently looking for weapons, took nothing from the passengers, but took pouches containing about \$20,000 from the mail car.

Five members of the Alvin Karpis gang were charged with the machine-gun robbery of a passenger-mail train at Garrettsville, O., in 1935.

When the train pulled into the station the robbers forced the train crew out of the engine, fired a shot into the mail car and forced a bystander to help carry mail pouches out of the car to a nearby auto. The holdup netted the gang about \$46,000.

Four armed and masked bandits terrorized and robbed about 50 passengers aboard a train en route from Chicago for the Gulf Coast in 1935. They fired a shot into the ceiling of each car as they went through the train to scare the passengers and got away with less than a thousand dollars.

After finishing their search they rode the train for half an hour before dropping from the train near Kankakee, Ill.

A Florida-bound train was held up near Bellefontaine, O., in 1931 by six armed and masked men. They shot one passenger and collected about \$3,000 from half a dozen others.

THIS MAY BE JUST THE RIGHT ALARM

ODESSA, March 10. (AP)— D. R. Rogers awakened in the usual fashion — with an alarm clock — this morning.

But yesterday it was a different story.

A pickup truck invaded his bedroom and awakened him. The truck skidded around a turn and crashed into Rogers' bedroom. It was driven by Homer Dye.

SHADES OF FRONTIER DAYS EVOKED Rail Officials Say Occurrence At Martinsburg Unheard Of Anymore

NEW YORK, March 10. (AP)— Everybody aboard, had picked an "ideal spot for the robbery."

"I am familiar with that area, and it's sort of out in the wilds and getting into the Cumberland Mountains," he said.

The gunmen went through the cars twice, taking cash from about 100 passengers.

"Since they bothered to take the time to rob each individual, Caviston said, "they must not have been looking for any valuable mail shipments."

Caviston said the only passenger

railroad protective official said early today there has not been a passenger train robbery like the one in West Virginia last night since frontier days.

"Such a thing is just unheard of anymore," said J. C. Caviston, secretary of the protective section of the Assn. of American Railroads.

"I guess those kind of robberies used to happen once in a while back in the days of the Old West," he said, "but to my knowledge, there hasn't been anything like that in many years."

Caviston, who has been in the protective division since it was organized nearly 30 years ago, said he recalled no passenger train hold-ups in that period.

"The chances of gunmen trying a stickup like that and getting away with it are very, very slim," he said. "Criminals don't take chances like that these days. There are too many easier ways."

Caviston said the gunmen who held up a Baltimore and Ohio train at Martinsburg, W. Va., and robbed

train robbery of any kind he could recall was about 15 years ago at an uptown New York City station of the New York Central Railroad, when holdup men tried unsuccessfully to intercept a mail shipment of money.

Johnny Perkovich, coming up with the Chicago White Sox as a pitching candidate from Memphis, once sold peanuts at Comiskey Park.

Two High Schoolers Held For Allegedly Holding A Third

BROWNWOOD, March 10. (AP)— Two Austin, high school students who deny accusations they held against his will a third youth, were held here last night by officers awaiting return to Austin.

They were arrested near here late yesterday after a wide search. No charges had been filed.

In sworn statements they denied they had forced the third youth to accompany them from Austin to near San Saba.

Phillip Waters of Austin had told police they had forced him to accompany them.

Club Steer Judging Featured 2nd Day Of San Hills Show

ODESSA, March 10. (AP)— Judging of club steers and registered Herefords today featured the second day of the San Hills Hereford Show here.

Quarter horses will be judged tomorrow. Club steers, lambs and registered Herefords will be auctioned Saturday.

The show opened yesterday with the sheep and lamb show.

REGULARS WIN

ST. PETERSBURGH, Fla.—The Rookies and the regulars will play again today in a St. Louis Cardinals intra-squad game. The regulars under Coach Tony Kaufman edged Coach Buzzy Wares' team, 4-3, yesterday.

LOPAT IN SHAPE

ST. PETERSBURGH, Fla.—There were hopes in the New York Yankees training camp today that Lefty Ed Lopat may have conquered his "hot weather" complex. He is the best conditioned flinger in camp this year.

BIG SPRING

IT'S HIS PLAY—Arthur Miller, author of Broadway's current stage hit, "Death of a Salesman," walks past theater sign advertising his play. Miller, 33, tall and gaunt, is product of WPA writer's project.

ASK ARTHUR MILLER

Playwright Has His Agonizing Moments

NEW YORK, March 10. (AP)—Playwrights and professional wrestlers have a lot in common. They sweat a lot. Each is subject to a wide assortment of aches and pains.

But the wrestler can ease his bruises at the local apothecary, whereas the playwright—whose pain is beyond medicine—must work out his own salvation.

If you think a gouged eye or a bruised kidney is worse than the mental shenanigans of a writer who has misplaced a line of dialogue, or messed up a scene, go and see Arthur Miller, whose "Death of a Salesman" currently is the big noise on Broadway.

Miller is a product of the WPA writer's project and the Brooklyn Navy Yard. He is the collapsible type. Whether you meet him in a restaurant or a producer's office, he settles almost imperceptibly in his chair as he talks until his six feet, two and a half inches are draped over most of the furniture in sight.

His face is gaunt and angular. Miller hates people to say he resembles Abraham Lincoln, which

Pink Bollworm Sterilizer To Be At Lomax

LOMAX, March 10.—Farmers are being notified that the pink bollworm sterilizer will be here Monday to start treatment of cottonseed.

The unit will be here only a few days and farmers are urged to contact the gin management for a schedule for bringing seed. Only the 1948 seed are to be treated unless they have been mixed with 1947 seed, in which event both must be subjected to sterilization.

In this vicinity farmers are about to complete plowing. They are now awaiting a spring planting rain.

Fifty-two persons were present for Sunday school last Sunday morning. A service in song is scheduled for 7 p. m. this Sunday. Those attending will bring a basket lunch.

Richard Rawls, who has been repairing the school cistern, is on the sick list.

Mr. and Mrs. Joe Blissard were guests of their daughter, Mrs. E. L. Stephens, Monday.

Bobbygene Stephens celebrated her 11th birthday on Wednesday with a party at the school house. Refreshments were served to all the children.

Dr. G. T. Hall is making preparations to subject most of his farm lands southwest of Lomax to irrigation. Farm houses, tool sheds, cow lots and barn are being moved to higher ground, and heavy machinery is leveling parts of the field for the project.

The Lomax gin has a new (third) partner. He is DeWitt Shive of Coahoma. Currently the gin is being remodeled extensively on the inside, and new machinery is being installed. The press will be on the ground floor with concrete foundation and apron. Work will be completed well in advance of the fall crop.

Jack Lacy returned last week to San Juan, N. M. where he is working.

Mr. and Mrs. Hub Phillips were in Garden City Tuesday and Wednesday following the death of his brother, J. J. Phillips, Jr.

Lions Entertained By Girl Scouts

Girl Scouts presented the program for the Lions club Wednesday.

The club, incidentally, has pledged that the Girl Scout organization in Big Spring will share in the net proceeds from the recent minstrel. These funds will be used for improvements of the scout hut.

Preliminary reports from the minstrel were given to the club, but it was too early to arrive at any net figures with some small amount of revenue outstanding together with expenses.

Giles May Enter Governor's Race

FORT WORTH, March 10. (AP)—Bascom Giles, state land commissioner, is thinking about running for governor.

"It is too early to announce for office, but I am thinking it over," the 48-year-old commissioner said.

MOVIE STAR'S WIFE SCRAPS WITH GREEN-EYED MONSTER, JEALOUSY

HOLLYWOOD, (AP)—Ever wonder what a movie wife thinks when she sees her handsome husband passionately kissing other women on the screen?

Brenda Marshall used to blow her top or, as she says, "flip my lid. It tormented me." Her husband is William Holden.

Driving home from the preview of one of his pictures, he asked "Well, how did you like it?" Brenda snapped bitterly, "how you kissed that Claire Trevor!"

Bill was silent and angry for several miles. Finally, he exploded, "is that all you can say about the picture?" There followed, Bill says, "one of our worst fights."

The problem was "a big fighting point." Brenda adds, "I'd lose all sight of whether a picture was good." One day she visited his set and planted herself where he'd see her when he went into a clinch.

"Anything to throw him," Brenda admits. Bill led her aside and said, "get off the set. You're upsetting my leading lady."

This was several years ago. Brenda has become reconciled—even proud.

"After all, which could be more intriguing than to be married to a big romantic star?"

It didn't annoy her a bit when three New York telephone operators, on their afternoon off, recently made a party-line call to Bill at a restaurant here. Just wanted to talk with their movie hero.

"As long as it's the females who are being aggressive," Brenda smiles. "Now, if it were the other way around. . ."

It did annoy her that Bill never complained about her own movie love-making—with Errol Flynn and others. ("She didn't do so bad," Bill remarks.) Except for the forthcoming "Whispering Smith,"

Brenda has sidetracked her career to bring up their children. He calls her by her real name, Ardis.

The Holdens live in the big-homes-and-lots-of-lawns suburb of Toluca Lake, in the San Fernando Valley. Around 7 p.m. their three youngsters—11 to 2 1/2 years—are in nighties and bathrobes on a living-room davenport, absorbed by blackface comedy on television.

They go to bed promptly. Bill says, or "get the bum's rush." It's a long time since he had to cut a walnut twig to enforce discipline.

**Monte Carlo Place
Now For Poor Man**

MONTE CARLO, Monaco, (Society of the Sea Baths of Monaco)—The man who broke the bank at Monte Carlo could get his working capital today by swiping junior's piggy bank. Depreciation of the franc has turned the most famous gambling casino in the world into a poor man's paradise. Surrounded by beautiful gardens and overlooking the blue Mediterranean, the Casino bears the formal and impressive name of "so-

ciete Des Bains De Mer De Monaco"—Society of the Sea Baths of Monaco. The Society has made the transition from cleaning the body to cleaning the pockets successfully. All plunges now are taken onto a cool green roulette table. Today poppa can be a plunger for the price of two tickets to the corner movie. The franc is going for more than 315 to the dollar at the banks—and for around 300 on the wide open black market. Admission to the Casino so storied in fiction, drama and motion pictures costs only 50 francs for the public gaming rooms and 150 for the "private salon." On the right in the great building as you enter is a bar surrounded by slot and coin machines. For one franc—less than a third of a cent—you can play the "one-armed bandit." Incidentally, these quaint devices are labeled "made in Chicago." If you can afford to toss away more than a third of a cent in this fabulous haunt of millionaires, then move on to the public gaming room. There, from 10 a.m. until midnight, croupiers with dinner jackets and refrigerated eyes preside over the roulette tables, four croupiers to each table. The minimum bet is 50 francs—16 cents at the official exchange rate. System players with sheets

full of scribbled figures and notes are interspersed between tourists and poorly dressed gamblers obviously from the lower working class. Inside the "salon prive" the minimum bet is 100 francs—32 cents. The most accepted is 100,000 francs—about \$300, but the biggest bet I saw made all night was 5,000 or about \$15. In the private rooms there were only three or four black ties, no tails and only a half-dozen evening dresses among the cash customers. "The great days of the past are gone," an old doorman said. "It is not the same."

SHOVEL and HOE

A Garden Column by Virginia Scott. Presented by the Big Spring Garden Club.

A Tennessee gardener wants to know just how hardy Azaleas are supposed to be. That depends upon the kind, of which there are several in general use.

A well known wholesale grower in Alabama classifies Azaleas in the following manner: Kurume, which will stand the winters of most Southern States without protection, and farther north with some protection; Hardy Japanese, all of which are hardy, most of them evergreen except a few that lose their leaves in the New England States; Azalea Indica, a fast growing type in the Lower South. We can vouch for the Hardy Japanese type which stood eighteen degrees below zero in the Upper South that awful winter several years ago. They lost their heads, but came out from the roots in the spring. Buds are sometimes killed in hard freezes following warm spells that cause them to expand too soon. An Ohio grower lists Azalea Mollis as being able to take ten degrees below zero.

Azalea Culture
These plants can be moved in the spring, early fall, and when in bloom. Should be balled and burlapped. Very small plants can be moved bare root. Partial shade is desirable, but dense shade should be avoided. The Alabama grower recommends light applications of cotton seed meal about three times a year. Azaleas must have good, well-drained, slightly acid soil. Leaf-mold or peatmoss helps to keep the soil right, and a mulch of leaves is good to retain moisture. Azalea Mollis is tolerant of lime.

Around The Garden
Where ground is in condition, hardwood cuttings that have been buried in sand can be planted out where they are to grow. It is always a good idea to protect such cuttings from wind, if possible. Set them deep into the soil so that only one or two eyes are at the ground surface.

Where summers are long, hot and dry, it is better to plant perennial seeds in the spring. You also gain quite a bit of growth that you wouldn't get, if they were planted in August, as recommended by many growers.

Some perennials that are easy to grow from seeds are: Pink Columbine, Nierembergia, and Candytuft. A good biennial plant that is not too often seen is Hesperis. This looks somewhat like the old fashioned Purple Phlox, is very fragrant and makes good cut flowers. In sections where mulches have been used, it is better to begin removing them a little at the time, and always on a still, cloudy day. High winds and late freezes are hard on plants.

Oil spray guns, paint the garden tools, take stock of any garden furniture that has to be repaired, prune shrubs that have bloomed (unless they bear berries later), spray dormant evergreens with miscible oil spray, when weather is mild. Roses can be pruned in Upper and Mid South this month when weather is normal.

There Are Lots Of Interesting New Cookbooks For Kitchen Libraries

By CECILY BROWNSTONE
Associated Press Food Editor

There are lots of interesting new cookbooks. One very impressive set is Meta Given's Modern Encyclopedia of Cooking, in two volumes, published by J. G. Ferguson and Associates, Chicago. Miss Given has had years of experience in the food field, including the running of her own well-known experimental kitchen. Her recipes show careful testing, good judgment in selection, clear and thoughtful terminology. There's a wealth of supplementary cooking information along with them. This cookbook should be a great help to novice or experienced cooks.

"Let's Talk Turkey" by F. Meredith Dietz (The Dietz Press, Richmond, Va.) is an excellent book in style and format. Its recipes come from a gourmet's delight, The White Turkey Inn, near Danbury, Conn.

Stage and screen stars, musicians, diplomats, and radio entertainers—among others—all gave their favorite recipes to Grace Turner, who edited "The Celebrities Cookbook" (published by Thomas Y. Crowell, New York, N. Y.). Miss Turner, assisted by a home economist, has put the recipe material into excellent form. There are short interviews with each of the celebrities and it's fun to read their reactions and comments on food.

"Diabetic Menus, Meals and Recipes" (Dupleday & Company, Garden City, New York) is the title

GINGERBREAD... Serve it with ice cream

of a new guide to the planning meals for diabetics. It is by Betty M. West, a diabetic herself, and has an introduction by Russel F. Rybins, M. D., Chief of the Diabetic Clinic of Mt. Zion Hospital, San Francisco, Calif. It is a thorough, practical, and well organized cook-

book and should be of immense help.

If regional cookbooks interest you, you'll like "A Cook's Tour of the Eastern Shore of Maryland." It was originally published by the members of the Junior Auxiliary of the Memorial Hospital at East-

on, Maryland, but the first edition was so successful that Farrar, Straus and Company, New York, N. Y., are bringing it out. (The authors' royalties on all editions are being turned over to the East-on Memorial Hospital.) All of the recipes in the cookbook are printed in the contributors' handwriting.

Here's a gingerbread recipe from Meta Given's "Modern Encyclopedia of Cooking." Serve it with ice cream if you want to delight your family.

GINGERBREAD

Ingredients: 1 1/2 cups all-purpose flour, 1/2 teaspoon salt, 1/2 teaspoon baking powder, 1 teaspoon ground ginger, 1 teaspoon ground cinnamon, 1/2 cup shortening (half butter), 1-3 cup firmly packed brown sugar, 1 cup light molasses, 2 beaten eggs, 1/2 cup boiling water, 1/2 teaspoon soda.

Method: Sift flour, measure and resift three times with next 4 ingredients. Cream shortening and sugar until light and fluffy, add molasses and beat well. Add the eggs and beat vigorously until fluffy. Add flour mixture and beat until smooth. Then add the water combined with the soda and beat quickly until smooth. Pour into an 8-inch square pan or a 7 x 11 1/2 inch oblong pan (bottom lined with plain paper). Bake at 350F. (moderate) for 35 minutes. If glass baking dish is used, bake at 325F. Best served warm. 6 to 8 servings.

Finpan haddie may be broiled, but before doing so it should be allowed to stand in hot water for about 10 minutes, then drained well and spread with softened margarine or butter.

Chocolate Cake Makes Fine Dessert

Macaroni and Cheese
Buttered Snap Beans
Salad Bowl with Garlic Dressing
Hard Rolls and Butter
Frosted Chocolate Cake*

Beverage
(Recipe for Starred Dish Follows)
Frosted Chocolate Cake

Ingredients: 2 cups sifted cake flour, 1 teaspoon baking soda, 1/2 teaspoon salt, 1/2 cup shortening, 1 teaspoon vanilla, 1 1/4 cups firmly packed brown sugar, 2 eggs, 3 squares (3 ounces) unsweetened chocolate (melted), 1 cup milk.
Method: Sift flour, baking soda, and salt together. Cream shortening and vanilla, add brown sugar gradually, and cream until light and fluffy. Beat in eggs, one at a time, extremely well. Add melted chocolate and blend. Add dry ingredients alternately with milk, mixing until well combined each time; but do not overmix and begin and end with flour. Turn into a greased 8 x 8 x 2 inch pan and bake in a moderate (350F.) oven until done.

For Frosting: Cream a quarter cup of butter or margarine and beat in 2 cups of sifted confectioner's sugar and a teaspoon of vanilla; thin with a little cream until consistency for spreading.

If pie dough is chilled thoroughly before it is rolled out it will be much easier to handle. Use the leftover scraps by cutting them out with a cookie cutter and sprinkling with finely ground nuts and sugar and cinnamon. Or cut in strips and sprinkle with grated yellow cheese and paprika for cheese straws.

Shirred Eggs With Vegetables And Bacon Strips

Cream of Asparagus Soup
CROUTONS
Hot Buttered Rolls
Vegetables and Bacon Strips*
Berry Bowl
Shirred Eggs with Vegetables and Bacon Strips

Ingredients: 8 eggs, 2 cups cooked diced carrots and celery, parsley, 4 slices bacon (crisply cooked).
Method: Grease four individual shirred egg dishes. Break 2 eggs into each dish. Put dishes on a baking sheet so they will be easy to handle and bake in a slow to moderate (325F-350F) oven for about 12 to 18 minutes, or until eggs are as firm as desired. Sprinkle lightly with salt. In the meantime heat carrots and celery and drain well; put a border of them around each shirred egg dish. Garnish one side with a sprig of parsley and lay a strip of bacon across the other. Serve at once.

Chicken Is Good In Barbecue Sauce

Broiled Chicken, Barbecue Sauce*
Mashed Potatoes
Peas and Carrots
Pear and Green Pepper Salad
Butterscotch Pie
Beverage
(Recipe for Starred Dish Follows)
Broiled Chicken, Barbecue Sauce

Ingredients: 1/2 cup salad oil, 1 clove garlic (peeled), 1 teaspoon salt, 1/2 teaspoon pepper, 2 tablespoons cider vinegar, 2 tablespoons Worcestershire sauce, 1 medium-sized onion (grated), 1 bay leaf, 1/2 cup tomato catchup, 1/2 cup water, 1 large fryer (cut in pieces and cleaned).
Method: Put the salad oil, garlic, salt, pepper, vinegar, Worcestershire sauce, grated onion, bay leaf, tomato catchup, and water in

a saucepan and bring to a boil; allow to simmer for about 5 minutes. Arrange chicken pieces in a baking pan, skin side down. Pour sauce over chicken. Broil under low to medium heat for 45 minutes to 1 hour, basting frequently with sauce and turning to brown both sides of chicken. Remove garlic and bay leaf before serving. 5 to 6 servings.

CUT MEAL COSTS FISH

RECIPE
FISH FILLETS BAKED IN WINE
Cut fish into serving pieces, then soak in cooking sherry 8 minutes. Grease baking pan, arrange fillets and add 1/2 cup sherry in which soaked. Bake in moderate oven, 375°, for about 20 minutes, basting several times.

NATIVE GIRLS IN OKINAWA—All English speaking Okinawian employed by U. S. Military Government instructs young girls in proper posture and other forms of mannerisms to fit them for employment in homes and offices of U. S. Army in Okinawa. Natives of the island, released from long bondage of Japan are 'docile people.' (AP Photo).

NO ONE OWNS IT, EVERYBODY WANTS IT Okinawa Is The Keystone Of America's Foremost Defense Line In Pacific Area

(EDITOR'S NOTE: Russell Brines, chief of the Associated Press Bureau in Tokyo, recently visited Okinawa and the Philippines. In this article he discusses strategic Okinawa, about which little has been written since the end of the war.)

By RUSSELL BRINES
 Associated Press Staff
 TOKYO, March 10.—A handful of Americans on Okinawa—still littered with the debris of typhoon and battle—are trying to prepare an advance dike against any Communist tide that may flow from Asia.

Five major air fields on the tablelands and coastal plain have made bloody Okinawa the keystone of America's foremost defense line in the Pacific.

The advance line sweeps up from the Philippines through Okinawa and Japan to Alaska. Behind it lie the air fields of Guam and the Naval Base at Hawaii. Clark Field, about 50 miles north of Manila, is being groomed as a major and self-contained base.

Okinawa—the island no one owns and everyone wants—is both the key and enigma of this aerial line of defense. It is in the center of the line—within 200 miles of the South China coast and within heavy bomber range of Siberia.

Bought with 7,000 American lives, Okinawa also has been claimed at various times by China, the Philippines and Japan. Until its status is settled definitely the question of U. S. funds to build it up properly likely will remain confused.

Air Force officers are saying—as did ground force officers in the Philippines seven years ago—that they are trying to do too much with too little. The program was set back seven months by the disastrous typhoon of 1948. Planning has been handicapped by uncertainty over the amount of funds to be made available.

At present Okinawa has only half the aerial and ground force strength necessary for offensive and defensive operations in a quick war. Much remains to be done to make it over into a major base.

Americans also are conducting the quietest and least noticed of their world-wide operations. They are trying to revive the economy of 500,000 Okinawans and about 300,000 other natives in the rest of the Ryukyu Island chain.

War is only slowly leaving this rugged, 80-mile-long island. The war dead now are gone home. The rusting hulks of ships and lighter crafts are still impaled on reefs, killed by wartime gunfire or the disastrous typhoons of 1945 and 1947.

There are 15,000 soldiers here and numerous civilian employees and their families. Most of them live in quonset huts near the air fields or near the headquarters of the ground forces. At the end of the Trans-Pacific supply line, they frequently find commissary articles limited.

Some all-weather housing units and barracks have been built, but uncertainty over funds has delayed the program. The buildings erected so far supply only a fraction of Okinawa's needs.

A sense of uncertainty and frustration is augmented by the constant threat of typhoons and the feeling that Washington cannot make up its mind about Okinawa's future.

But the work of enlarging and improving the air fields continues. Combat training goes on all the time, with a lot of eager young pilots always anxious to take up their last jet flights.

industry to make Okinawa more self-sufficient. There also are phosphate deposits.

But with at most only 20 per cent of its land arable, and with industry negligible, Okinawa's economic future is bleak.

Okinawans say they are just getting by on an average of wages of 245 yen a month, compared with 5,300 yen a month in Japan.

They have rebuilt their crowded villages with no evidence they resent the destruction of their homes by Americans. In time of war, say military officials, this complacency would be an asset.

The Freedom Train soon will be rolling again across the country and residents of many a small city can thank Rep. Homer Thornberry of Austin when it stops in their home town.

A member of the committee which considered legislation financing the train's future tours, Thornberry devoted his first speech in the House to the subject.

"It is only right that the history-laden train visit small towns," he said, "because I feel the people of these communities have time and again demonstrated their willingness to be first when there is fighting to be done—first when there are taxes to be paid, and first when there is work to be done for the general welfare of their country."

Colleagues applauded and promptly passed the measure, which provides \$2,500,000 to operate the historic train until July 5, 1951. (The train was set up, and maintained until now by a private foundation).

Future schedules will be planned by a bi-partisan joint Senate-House committee working with the executive branch of the government.

FREED OF HEX?—Mrs. Reuben Rock, 22, widow of Pvt. Reuben Rock, is shown above. Her father, Arthur Dively, says a ceremony performed at the grave of Pvt. Rock freed her of a "spell." During the ceremony the U. S. army uniform worn by Pvt. Rock was taken from his body and burned. (AP Wire-photo).

Birmingham Builds New Atom Smasher

BIRMINGHAM, England (AP)—Birmingham university is building a new type of atom splitting machine. It is called the synchrotron. It is similar to the powerful new atom smasher unveiled recently at the University of California.

The British version of the synchrotron will weigh approximately 1,000 tons and develop energies of 1,000 million volts. The cyclotron now in use at the university develops voltages between 40 and 50 million volts.

Prof. Marcus L. Oliphant, director of the physics department and one of Britain's leading atom specialists, designed the Birmingham machine. Prof. Oliphant worked in the United States for two years on the "Manhattan" atom project and is in regular contact with American scientists.

Poland Lightens Income Tax Load

WARSAW, Poland (AP)—The Polish government says it is lightening income tax burdens for workers. Tax exemptions previously were allowed for those earning up to \$22.50 per month. The figure now has been raised to \$32.50.

Those who earn \$50 per month now pay a 5 per cent levy. Salaries or wages over \$250 monthly are subjected to a 30 percent tax.

Artistry Lands This Man In Calaboose

SINGAPORE (AP)—Ibrahim bin Daud is 22 and of artistic temperament.

Dissatisfied with the flatness of the photograph on his identity card, he used red ink to add color to his lips on the picture. Then he embellished the prosaic looking document with floral designs.

Brought into court, he heard the judge tell him he acted like a boy of five. He also was sentenced to a day in jail to brood on the lack of artistry in officialdom.

Poland To Get Austrian Tractors

WARSAW, Poland (AP)—The official press agency announced Poland would buy 400 tractors from Austria within the next six months.

The tractors, of 26 horsepower with diesel engines, are being purchased in the Steyer-Daimler Works. The machines were described as similar to the Zetor 25-type tractors made in Czechoslovakia. Poland is buying 2,700 from the Czechs this year. Coal will be sent to Austria to pay for the tractors.

ON DISPLAY FRIDAY—Chrysler's "Windsor" four-door sedan is one of the 1949 Chrysler line being put on display Friday, and the new cars will be shown at the local dealer's, Marvin Hull Motor company, 207 Goliad. Wheelbase has been increased, more interior roominess is stressed.

Chrysler For '49 Being Shown Friday At Marvin Hull Motor Co.

Motorists get another look at what's new in automotive transportation when the 1949 Chrysler line goes on display Friday. Joining dealers throughout the nation in exhibiting the new cars is the local agency, Marvin Hull Motor company, which is inviting the public to see the Chryslers at the showrooms, 207 Goliad.

Increased passenger space combined with maximum comfort; improved performance and added safety features; augmented steering and handling ease are presented as some of the highlights of the 1949 Chrysler.

Chrysler designers have produced a car that has more room in all of the essential places and four inches greater wheelbase, yet is lower by approximately two inches, and also narrower and shorter than previous postwar models. The reduction of the overall width and length resulted from the public's desire to have a car that would fit into the average-size garage.

Wheelbase in the sixes has been increased from 121 1/2 inches to 125 1/2 and in the eights from 127 1/2 to 131 1/2.

Width of front seat cushion has been increased from 32 to 35 inches and of the rear cushion from 31 to 33 inches in the four-door sedans. This gain of six inches in the front seat and seven inches in the rear seat permits three persons of above average size to ride in perfect comfort, both front and rear. Chrysler's "chair-height" rear seats, an important factor in passenger comfort, have been raised slightly both front and rear, further helping their occupants to ride in a natural and relaxed position.

Headroom has been increased in the critical dimension parallel to the back of the rear seat, the place where this room really is needed. Rear doors in the sedan models are hung from the center

post, making it easier for passengers to enter and leave the rear compartment and contributing to safety.

Another notable contribution to safety is an increase in the area of the windshield from 687 square inches to 851 1/2, a gain of 24 percent. The part of the windshield covered by the wiper blades also is increased from 348 to 502 square inches, a gain of 44.2 percent. The area of the rear window likewise has been made appreciably greater also.

Interior styling combines beauty with functional excellence. The whole front compartment is treated in what is known as the "cock-pit" manner, to give convenience, safety and increased passenger room. A new "Safety-Eye" instrument grouping is placed directly in front of the driver's seat, with all instruments arranged in the form of an arch so as to be most readily visible. The starter button has been eliminated through the use of a combined ignition and starter switch operated by the ignition key.

For the protection of passengers riding in the front compartment, a safety cushion is installed at the top of the instrument panel. This cushion is made of thick sponge rubber, leather covered. It curves completely around the front of the compartment.

The steering wheel post has been tilted forward eight degrees, which lowers the top of the wheel rim slightly over one inch, resulting in better vision for the driver. Steering has been made easier and the transmission of road shocks minimized by the use of a new central steering system, with reverse caster.

A newly-designed "Prestomatic" Fluid Drive Transmission, hydraulically operated, includes important refinements over former types and permits the simplification of servicing. This transmission has

only two forward speed ranges, the power range and the driving range. In each of these ranges, there are two speeds and the gears shift automatically from one to the other as the car gains or loses momentum. Under all ordinary driving conditions, the gear-lever is put in the driving range and left there throughout an entire trip.

Venice Folk Ired By Reduction In Pigeon Rations

VENICE, (AP) — Venice is stirred up about the municipal action against pigeons of St. Mark's Square, beloved alike by tourists and Venetians. Their daily ration of 35 pounds of city corn, the town council has decided, will be cut down to 22 pounds.

The city's fine arts division also stated that the pigeons were spoiling the roofs of St. Mark's basilica and has put sharp steel edges on one of the favorite resting places.

It is calculated here that the pigeons—a Venetian landmark—number about 2,000. Since the war many have become accustomed to seek their food elsewhere and do not rely entirely on municipal corn. Kind Venetians who love the pigeons put food for them in their gardens or on window sills.

Protests are coming from pigeon lovers against the "sanctions" imposed by the city fathers. "Gazzettino Sera" published an angry letter from a Venetian, "against this inhuman treatment to the symbols of peace." But the town council has not budged. The pigeons will get short rations from now on.

Singers To Meet At YMCA Monday

A second meeting of quartet enthusiasts has been set for the YMCA at 8 p. m. Monday following a fair response at an initial session this week.

More than enough for two quartets were on hand Monday evening, and plans were made to double attendance for the next session, when organization of a local chapter of the SPEDSQA (Society for Preservation and Encouragement of Barber Shop Quartet Singing in America) will be attempted.

It is probable that some arrangements will be made for several to attend a quartet rally scheduled for 8 p. m. March 29 at Lubbock, when quartets from Kansas, Oklahoma, New Mexico and Texas will be on hand for a rally.

All but one member of Harry Cleverly's 19-man Boston U. hockey squad hail from Massachusetts. The exception, Goalie Larry Beecher, lives in Hamden, Conn.

India Wanting French Areas In Payment

NEW DELHI, (AP) — The government of India is paying the French-Indian government \$340,000 annually, in fulfillment of certain agreements and conventions entered into with the French government in India.

Pandit Jawaharlal Nehru, prime minister, told questioners in parliament the government was considering "whether under present conditions it will be advantageous to continue all or any of them."

During the war, the Government of India took over the management of the customs for the French in India and paid them a lump sum of 620,000 rupees annually. The French government agreed not to produce salt in its possessions in India in lieu of an annual compensation of 460,000 rupees. The Government of India managed their posts and telegraphs, paying them 50,000 rupees for their loss of postal revenue. Another 18,000 rupees are paid to them for letting the supply of opium remain in the hands of India.

Nehru said no payment was made to the Portuguese Government in India.

The French hold five settlements in India, with an aggregate area of 203 square miles and a population of 400,000. Smaller still are the Portuguese possessions, with headquarters at Goa on the Arabian Sea coast.

Nehru said "There is only one future for these possessions—merger with the rest of India. Geographically, politically, strategically, economically and culturally there is no other alternative."

"But," Nehru added, "the government of India is trying to solve this peacefully and with the goodwill of the foreign powers in India."

Jake Kirrance, younger brother of Gundy Kirrance, Boston U's hockey captain, is the property of the Boston Bruins of the National Hockey League.

Railroad Boom Brings Protest

HAINAULT, England (AP)—The city council has voted a protest to the government against the booming voice (you can hear it two miles away) which shatters the dawn here daily.

The voice comes from a loud-speaker at the Central Line railroad depot promptly at 5 a. m. It is used by a traffic director to get the locomotives moved out of their sheds in proper order. The council will take it up with the Ministry of Transport, which runs the nationalized railroads.

Civilian Workers Recruited To Keep The Airlift Going

BERLIN, (AP) — The same guys who won the war for the United States have licked the biggest problem threatening the airlift—line of two million Soviet-blockaded Berliners.

Once again the United States has turned to its civilians for help and found it.

The forces denied it officially. But three months ago the airlift was threatened by crumbling morale. Airmen had to fly day and night, week after week, month after month, in all kinds of weather. The job was monotonous, tough, dangerous.

Today a great percentage of the hundreds of airlift crews are one-time civilians. They were rushed through training of the "little vities" Great Falls, Mont., station. The weary veterans of the early lift are being rotated back to the United States for needed rests. They have put in more flying time in a few months than many pre-war fliers did in a lifetime.

The newcomers like their job and are ready to stay at it indefinitely. Most of them want to stay in the Air Forces even if the present emergency should end.

PERK with Armocel*
SAVES 1/3
ON SOAP

...WASHES CLOTHES REALLY CLEAN!

Here's proof beyond question from 1,218 washing tests

PROOF

PERK SAVES YOU MONEY

Identically soiled fabrics were washed to equal degrees of cleanliness with new Perk and with three other leading types of soap. In each and every case, to get things really clean, it required 1/3 less Perk than any of the other soaps tested. Put Perk to work on your family wash.

***ARMOCEL - the Double-Action Wash Perfector**

Only Perk contains Armocel, Armour's exclusive new ingredient that gives you: 1. **Magnet Action:** Perk with Armocel draws dirt out of clothes like a magnet, seals it in the water so dirt cannot settle back. Removes accumulated grays, prevents future graying. 2. **Sunshine Action:** Perk with Armocel gives clothes a new sunshine brilliance that reflects the radiant, sunny new whiteness and brightness in all of your wash.

PROOF TELLS YOU WHY

PERK IS YOUR BEST BUY - for clothes - for dishes

SOIL CONSERVATION

Has Success With Pasture Grasses

R. C. Reed has harvested thirty pounds of blue panic grass seed last fall from a three-fourths acre plot on his farm southwest of Elbow. Reed, who is a cooperator with the Martin-Howard Soil Conservation District, first tried blue panic grass two years ago. He plans to increase his acreage each year until he has 100 acres of sandy land planted to grass.

Reed will also plant four acres this spring to King Ranch blue-stem for a seed plot to furnish seed to go in the 100 acres. Other district cooperators who will plant pasture grasses this spring are M. L. Hamlin, J. E. Norris, Willis Winters, Frank Loveless and the Sheriff's Posse.

Construction of irrigation ditches started last week on irrigated farms of Merwin Haag; B. E. O'Neal; Foy Powell, Lloyd Hastings, and Edmund Tom. Haag's irrigated farm is ten miles northwest of Midland and O'Neal's four miles south of Midland. Powell, Hastings and Tom are farming irrigated land near Tarzan in Martin county.

The farmers are building the irrigation ditches as part of their conservation irrigation program. They will level their land and construct borders to install a level border system of irrigation on their farms.

Joe Calverley, rancher cooperator with the district, started building borders last week on 20 acre of irrigated land on his ranch eight miles northwest of Garden City. The district cooperators putting in irrigation systems, had the help of the Soil Conservation Service in laying out their ditches and borders.

Terrace construction started this week on the farm of Ira and E. P. Driver in the East Center Point soil conservation group. The Drivers are building their terraces to district specifications of 15 inches settled height and 24 feet base width. They are building a large type terrace to stop washing on their farm and hold more water on the land. The wide terraces will also be easier to farm.

George White, cooperating with the district on his ranch and farm land sixteen miles northwest of Big Spring, had a water spreading system laid out on 50 acres of his farm land last week. White will build the water spreading struc-

ture to spread water from a draw over the 50 acres of farm land.

J. E. Norris plans to plant his cotton land two rows in and two rows out this year. Norris, a cooperator with the district in the Richland soil conservation group, will use the two skip rows to get in a soil building crop of peas this summer. He plans to plant peas as a part of his coordinated soil conservation program to improve the soil by adding organic matter and nitrogen.

Four thousand feet of diversion terraces were laid out last week on the Smith Bros. ranch in the ranch group. The Smith Bros. are building the diversion terraces to protect their cultivated land from damage from water running off pasture land.

Colorado 'Oil Mine' Operation To Up U. S. Reserves

LOS ANGELES, March 10 (AP)—A gigantic "oil mine" operation in Colorado has multiplied America's petroleum reserves several fold.

This is disclosed by Boyd Morris of the U. S. Bureau of Mines Division of Synthetic Fuels, who says an oil shale deposit near Rifle, Colo., eventually should become the largest mining operation in the world.

It has a potential of about 350 million barrels of crude oil, he told the American Institute of Chemical Engineers' convention yesterday. That amounts to about 10 times the volume of all the oil from wells drilled so far in this country.

The project, already operating on a small scale, consists of mining the shale rock and transforming the near-solid petroleum contents into crude oil.

Silent Screen Star Files For Divorce

LOS ANGELES, March 10 (AP)—Charging cruelty, silent screen comedienne Alice White, 41, has sued for divorce from her second husband, Film Writer John Roberts. The suit was filed yesterday and her attorney said a property settlement has been signed.

A LINOLEUM DESIGN STARTED IT—Here is a view of the radically different hexagon Equity elevator at Farnsworth, Texas. Notice the tops of the bins, showing the six-sided design. E. N. Puckett, general manager of the Union Equity elevator at Enid, Okla., thought up this design after seeing the pattern in a linoleum rug and built a terminal elevator along the hexagon lines in 1948. This Farnsworth Equity elevator, completed in October, 1948, is the second of the design to be built. It has a storage capacity of 268,000 bushels. (AP Photo).

Hexagonal Grain Elevator Got Its Design From Floor Pattern

PERRYTON, March 10 (AP)—It's a long jump from a linoleum floor to a modern concrete grain elevator, but that's where this elevator got its start.

Residents of Farnsworth, Texas, a small hamlet located in the great wheat growing section of the Texas Panhandle, thought the construction workers were "off the beam" when they laid out the forms for the 268,000-bushel elevator of the Perryton Equity last May. The forms were six-sided instead of round.

Concrete grain elevators are commonplace in this area, and even Farnsworth, with less than 100 population, already had a 400,000-bushel concrete elevator, owned by the Batman Grain Co. All other concrete elevators in the area are conventional round bins, however, not hexagonal like the Farnsworth Equity elevator.

This one is the second radically

Brown Still Under Care For Malaria

PHILADELPHIA, March 10 (AP)—Joe E. Brown is under hospital care today, suffering from a recurrence of malaria contracted while entertaining U. S. troops during World War Two.

Several days ago, the veteran comedian was forced to withdraw from the cast of the play "Harvey," but remained in his hotel room.

On Sunday, he developed a high temperature and yesterday his physician ordered him removed to a hospital.
