

KTTC Sponsors All-Night Marathon for Toys for Tots

In the background can be heard strains of "Chances Are" by Johnny Mathis, and . . .

Three o'clock . . . didn't know the night was so long . . . certainly is short enough when I'm sleeping . . . ah, a good Samaritan just brought some toys.

THE PRECEDING thoughts will probably be running through the heads of KTTC personnel tonight when Tech's radio station will have an all-night marathon

for the benefit of the "Toys for Tots" campaign.

A live broadcast from 7 to 9 p.m. originating from the Rec Hall will kick off the marathon.

THE REC HALL will be the scene of a record dance sponsored jointly by the Tech Union and KTTC.

"At 9 p.m. the broadcasting equipment will be moved to a tent in the vicinity of the Circle, but at the present the exact locali-

ty is not known," stated Bob Sewell, KTTC station manager.

MAIN PURPOSE of the marathon is to create interest in the closing days of the "Toys for Tots" drive. Deadline is Thursday.

Students are urged to bring toys by the tent starting at 9 p.m. and continuing throughout the night.

COLLEGE OFFICIALS stressed the fact, however, that they did

not want any students congregating around the broadcasting area with the exception of those students bringing toys.

Tonight's program will consist of KTTC's regular format of music and news. Prior to the marathon, the radio station has been publicizing the drive by broadcasting a "Toys for Tots" weather campaign.

STUDENT announcers will

broadcast approximately two hours apiece. They are Ed Black, Vic Kleiss, Don Denton, Fritz Stanley, Breck Harris, Doug Malcolm and Beth Cochran.

Wayne Whitman, David House, Ann Stovall, Frank Young, Gold-man Parrish, Glenn Windham, Tom Mosley and Gordon Lee.

Engineers include Dwight Carver, chief engineer, Billy Johnson, Jim Lindley and Frank Young.

Women's Dorm Named 'Weeks Hall'

Red Raiders Down LSU 79-72

by BILL DEAN & BILLY ELLIS

Little Gerald Myers had the greatest night of his varsity career last night in leading the Raiders to their fifth straight victory over LSU 79-72 in a narrow escape.

Myers hit 27 points in leading the Raiders to a sweep of their two-game road trip through the Southeastern Conference.

TECH NEEDED every bit of it too as Pod Hill had one of his poorest nights with only six points.

But the Raiders also received unexpected aid in the form of sophomores Pat Noakes, who hit for 15 points, and Gene Arrington, who had 11.

Cary Guglielmo led the Tigers with 20 points, all in the second half. Wayne Munsen followed him with 18.

THESE TWO LED the Tigers on a thrilling comeback that came within five points of catching the Raiders in the second half after Tech had enjoyed a 40-28 halftime lead.

Myers was terrific most of the night and when he trailed off Noakes and Arrington where there to take up the slack. Charlie Lynch added 10 and Wade Wolfe 7.

Don Merle got the Tigers off to a short-lived lead on a jump in the opening minutes but after Myers hit on a jump to tie it and LSU took a 3-2 lead on a free throw Joe Cones, Wolfe hit on a set shot and the Raiders were never behind the rest of the half.

THE RAIDERS, led by Myers jumped into a 14-8 lead at 14:50 but LSU narrowed this moments later to 19-18. Then Tech began to pull away.

Pod Hill, unusually cold, connected on a pair of free throws sandwiched in between two fielders by Wolfe and the margin was 25-18.

THEN GENE Arrington hit on two free tosses, Wolfe dropped another in and Myers hit two charity tosses for a 30-21 lead.

Pat Noakes led Tech to a 40-28 halftime mark scoring four of the last six in the half.

The Raiders came out for the second half a bit cold and LSU, led by Guglielmo who hit 20 in the half, began to close the gap.

THE TIGERS narrowed the margin to 53-42 at 13:47 on fielders by Guglielmo and Crisco.

Page 4, TECH . . .

Board Okays Proposal

by C. J. WREN

The approval of a submission to the Texas Commission of Higher Education of a proposal for speeding further development of graduate research at Tech, beginning in science and engineering, was a major item at the Saturday meeting of the Board of Directors.

In other action the board authorized sale of \$2,915,000 in bonds to the Housing and Home Finance Agency for financing the second unit of the men's dormitory project now being constructed, and the board authorized Pres. Jones to make application for a grant from the Atomic Energy Commission of \$225,000 for nuclear research.

THE PRESENTATION of plans for graduate research, a supplement of a previous report on the role and scope of Tech as requested by the state commission, will be expanded as rapidly as possible to include other areas.

The proposal emphasizes the

freedom of Tech to secure funds "under approved conditions from any and all reputable outside sources—private, industrial and governmental."

These funds are to be used for augmenting salaries of faculty members, research fellows and assistants, and others as needed, and for the purchase of supplies and equipment.

The board's consideration of the proposal Saturday culminated more than two years of administration and faculty study of possibilities for developing Tech's graduate program.

OTHER POINTS in the proposal include adoption of a definite plan for adequate buildings in pace with academic developments, salaries that at least meet competition and purchase of certain necessary research equipment.

In other action the board passed a resolution expressing approximately 10 acres of land on the west side of the college farm to take care of future expansion of

the fraternity and sorority lodge area, subject to prior legislative action and determination of legality of the sale.

Parking Situation Discussed by Panel

(EDITOR'S NOTE: This is the third of a series of articles on panel discussions by a speech class on current Tech topics.)

by JAMES HAMM

For the second time a speech panel discussed the Tech parking problem.

Panel members were Don Ormand, chairman, Bob Black, Royce Beck, Dick Escue, Richard Miller, Paul King and Clarence Caywood.

"Non-paved parking lots rather than not enough parking space is the biggest problem about park-

ing," said one panel member in setting the general pattern for discussion.

"**WE MUST** decide where lots could be paved and how the money could be raised," asserted another.

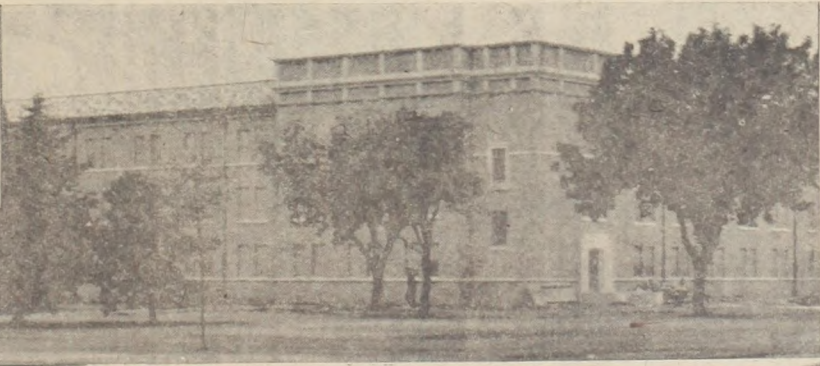

The main source of money for projects concerning parking is parking fees.

THE PANEL pointed out that official thinking on the Tech problem has been that in the future cars will probably be banned from the campus so why go

Page 2, DISCUSSION . . .

Tech's "Women's Dorm No. 5" has been designated "Weeks Hall" in honor of Miss Margaret Watson Weeks, shown in the inset, above left. Christening of the dorm, which was put into use this fall, was made known at a meeting of the Board of Directors Saturday. A

member of the original Tech faculty, Miss Weeks served as dean of Home Economics at Tech for 27 years. She was a co-worker with Tech's first dean of women, Mary W. Doak, for whom Doak Hall is named.

by JOAN ABEL

Tech's new women's dormitory has been named the Margaret Watson Weeks Dormitory, in honor of dean emerita of Home Economics, Miss Margaret Watson Weeks.

The Board of Directors, meeting Saturday, authorized the decision. The dorm will be designated "Weeks Hall." Completion of the building is scheduled about January 1.

"I am greatly appreciative of the honor, but feel totally unworthy of it," Miss Weeks modestly commented yesterday when contacted by THE FOREADOR. "I want to thank all the faculty members and others who have called offering congratulations," the dean emerita stated.

"**THIS IS** a distinct honor. I want everyone to know how greatly I appreciate the action of the board," Miss Weeks continued. She went on to say that she was especially pleased that her name had been bestowed upon a women's dorm, since her work at Tech had been primarily associated with women students.

"I am glad to hear that Doak Hall will be changed to a women's dorm, and that it will be linked to the new dorm," Miss Weeks pointed out. Mary W. Doak was the first dean of women at Tech and was a personal friend and co-worker with Miss Weeks, as the two worked together for the betterment of Tech women students.

Miss Weeks, who served as dean of Tech's Home Economics School for 27 years, resigned Sept. 3, 1953. She was a member of the original Tech faculty.

Dean Weeks has served as president of the Texas Home Economics Assn., the Texas Vocational Assn., and the Lubbock branch of the American Association of University Women.

She is a life member of the American Home Economics Assn. and of the American Vocational Assn.

MISS WEEKS was born in Canada and became a United States citizen in 1932. She finished high school in Canada and taught at a country school near Grand Pre, Nova Scotia. She attended State Normal School, Truro, Nova Scotia. In 1922, she received her B.S. degree from Teachers College, Columbia University, and her M.S. degree in 1925.

She also holds memberships in the following groups: American Dietetic Assn.; Delta Kappa Gamma; American Assn. for the Advancement of Science; Texas State Teachers Assn. and Phi Upsilon Omicron.

Watch Service Set

A Christmas campus-wide morning watch service will be observed from 7:25 to 7:50 Friday.

The event is sponsored by the Student Religious Council and will be held in the Union Ballroom. The Reverend David Richmond, Presbyterian University Pastor, will lead the service.

Scott Wins '57 Grand Championship

Tayton Scott, junior animal husbandry student from Merkel, won the grand championship of the 10th annual Little International Livestock Show at Tech Aggie Pavilion Saturday.

Scott, who showed an Angus steer, was awarded a leather brief

case engraved "1957 Little International." The event, sponsored by the Tech Block and Bridle Club, was Scott's first experience with showing livestock.

RESERVE CHAMPION banner was awarded Scott Pepper, Lubbock, who showed a Poland China Gilt.

Norma Jean Dillman, representing the Rodeo Club, won the girl's cow-milking contest with 1.8 pounds of milk in three minutes.

Other top winners in the show include Scottie Windham, champion showman in the sheep division; Don Wideman, champion of the dairy cattle division; Tommy Ballard, champion of the Quarter Horse division.

... Discussion

to the expense of paving lots. However, the panel held that the students now should get the benefits of better parking lots since they pay \$3.50 per semester.

FUNDS FROM the parking fee are presently being used largely to support the Tech security force, which, the panel declares, is much larger than necessary. The panel warned against cutting the force too much, though. The campus is also being patrolled by city policemen.

"Students could be used to give tickets, which would help students who must work their way through college and save the college money," pointed out a panel member.

"STUDENTS COULD realize a profit on the money saved by better parking lots or lower fees—or a little of both," asserted another.

Complicating the parking problem, the panel said, are students who take up more than one parking space by parking in the wrong manner.

"Some students park almost parallel," a panel member said.

THE PANEL also said that lots now paved and any paved in the future should be clearly marked off and a heavy fine levied on any student parking his car on more than one space.

Since students living in the dorms have their own lots, the problem mainly concerns off-campus students, most of them married.

"Thirty per cent of the students at Tech are married," a panel member pointed out, "and the percentage will probably rise."

THE PANEL asserted that the new dorms, when they are opened,

Musical Program Set Tonight by Mu Phi

Epsilon Pi chapter of Mu Phi Epsilon, national music sorority, will present a program of Christmas music tonight at 8:15 in the First Presbyterian Church.

Included on the program will be organ selections, a flute solo, contralto and viola ensemble and several arrangements of Christmas pieces.

A highlight of the program will be Britten's "Ceremony of Carols," a suite for treble voices and harp.

Mu Phi Epsilon is composed of women students majoring or minoring in music. Basis for selection is scholarship, musical ability and character.

The Mu Phi Epsilon Chorus has performed publicly in Lubbock several times during the past year. Last spring they presented a program of contemporary music composed by Mu Phi's from over the country. This fall they performed on the Twilight Music Hour at the West Texas Museum.

The chorus is conducted by Sandra Hemmle and accompanied at the organ by Jan Higinbotham. Mary Jean van Appledorn is faculty advisor for Epsilon Pi chapter.

Tryouts Scheduled

★ Tryouts for this year's Variety Show will begin shortly after the Christmas holidays student council officials announced today.

The delay is due to selection of a script which will be selected immediately after the holidays.

The deadline for scripts written by Tech students is immediately after the holidays in the Union program office.

Bob Huff, Union Program Council treasurer, said, "the deadline is short because there is very little time left for organization."

will help alleviate the off-campus student parking.

A member of the panel stated that, since they would also be helped by better parking lots, the faculty should also pay fees.

Another stated that faculty members shouldn't pay fees because they work at Tech.

"ANY BUSINESS will supply parking space for its employees," he stated.

In the following class discussion, a student offered the idea of a parking building or underground parking lot, centrally located on campus.

A Word of Thanks

On behalf of the Epsilon Delta chapter of Delta Tau Delta, I would like to express our gratitude to the many people who had a very important part in making our installation a success.

We would like to thank THE TOREADOR and the Office of Public Information for their excellent assistance and cooperation in the publicizing of the many events of the weekend. Their stories and releases helped immeasurably in putting our new name before the students of Texas Tech and the people of the South Plains.

The sororities deserve public acknowledgment for their great part in making our installation ball a success. We wish to express our deepest thanks to the many girls who had dates with our Delt brothers from other campuses. We would especially like to thank and apologize to the girls who had dates with Deltas who found it impossible to attend. We are sincerely sorry and wish that this inconvenience could have been avoided.

The administration, especially Deans Allen and Whitehead, had a great deal to do with the obtaining of our charter; and we appreciate their aid very much. These are only a few of the many who have given us aid and assistance during the past months, and we wish to thank everyone else who has had anything to do with our growth.

Sincerely,
Jerry L. Martin
President,
Delta Tau Delta

And Some More Thanks

Amidst all of the gripes, complaints and fault-findings which have been sent to your desk recently, I wish to offer a few words of gratitude.

First, I would like to express my sincere appreciation to the Tech Union for sponsoring the George Shearing Quintet perform-

ance at the Auditorium Tech is one of the few colleges in America which have had the privilege of seeing and hearing this outstanding group of talented musicians. This is only one of the many contributions of the Union for the purpose of making Tech a better college.

Commendatory remarks are also in order for THE TOREADOR and the Student Council. For, where else can the individual student express his points of view to the administration as a whole?

As long as these three organizations continue to strive for the benefit of Tech and Techsans, they will never be open to the criticisms which are presently engulfing the administration.

I feel that I speak for other Techsans, too, when I say to THE TOREADOR, Student Council, and Tech Union:
"Thanks for the tremendous effort you are putting forth for the betterment of Texas Tech."

Sincerely,
Doug Howell
Room 337
Sneed Hall

Vet's Christmas Dance

We of the Texas Tech Vets have repeatedly asked for an article about our forthcoming dance, Friday, Dec. 20 at the VFW Hall. After many personal promises and written submissions we have finally made the news as a cake sale. Thanks! Sigma Kappa will probably thank you also, since they have spent considerable time on preparing the cake sale.

After many promises, we feel as if we are just talking to a screen wire—and our words just blow through. Really, we thought this was a campus NEWS paper, not second-hand news available for five cents on the public streets. Our news on campus can be obtained from just one source—You.

Thanks again for your unlimited cooperation.

Douglas Buckelew
Secretary,
Tech Vets

(Editor's note: Sorry we could not run your letter last issue. An impossible backlog of letters to Techsans Talk Back made this impossible. Our apologies for the mixup in the story. We checked and the reporter who wrote the story will take oath that the mixup happened somewhere between the sending of the copy down and its printing. Apparently when the type was set, the copy was mixuped. As to the publishing of your story, it is the practice with everyone to publish a story according to its immediacy. Your dance is the 20th. Your publicity in THE TOREADOR on it is one week in advance, according to the policy.

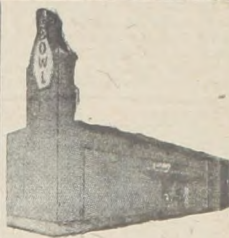

I hold it to be a fact, that if all persons knew what each said of the other, there would not be four friends in the world.

—Pascal.

'Hospitality Hour' Set For Tomorrow

'Hospitality Hour' for Tech students and faculty will be sponsored by the Tech Union Thursday, Dec. 19, from 3:30 to 5 p.m. in the Union Ballroom.

The purpose of the program is to enable Tech Students and faculty members to become better acquainted. No admission will be charged for the event.

Noakes and Arrington helped the faltering Raiders to keep pace with the Tigers early in the half. At 9:46 Arrington connected on a jump to make it 63-53, but goals by Wayne Munsen, Lynn Moon and Joe Cones narrowed this to 66-59.

ARRINGTON AND Myers sent it back to 10 points, 71-61, at 4:33 but then Guglielmo hit three field goals and three free throws while Myers connected on a pair of charity tosses and the lead was cut to 73-68 at 2:04.

Then Myers hit four straight free shots for a 77-68 bulge. Munsen scored on two fielders to make it 77-72 with 25 seconds left but Chuck Key hit on a drive for the 79-72 final as time ran out.

Wolfe, Hill and Charlie Lynch all fouled out in the half and Myers had four personals to his credit.

THIS WAS THE last game of the current road trip for Polk Robison's cagers. They return to

the home court Friday night to battle Santa Clara.

After that they will be entered in the Southwest Conference Tournament in Houston shortly after Christmas.

Herbie Flam Benched by Bill Talbert

by WILL GRIMSLEY

MELBOURNE, Australia, Dec. 17 (AP)—On the advice of a physician, Herbie Flam was benched today as a member of the U. S. Davis Cup team. Two veterans and two youngsters were named to face Australia in the challenge round December 26.

IN AN 11TH hour decision reversing the announcement made earlier in the evening, Captain Bill Talbert nominated a four-man

squad consisting of Vic Seixas, 34, of Philadelphia; Gardner Mulloy, 44, of Miami, Fla.; Barry MacKay, 22, of Dayton, Ohio, and Ron Holmberg, 18, of Brooklyn.

In the surprise move, made shortly before the midnight deadline, Talbert disclosed Flam, whose highly nervous condition and deep depression caused considerably anxiety prior to the interzone match with the Belgians, was being left off the team.
