Amendment Decision Is Given By Court

Tech Acquisition Of War Plant Awaits Decision Of WAA Board

Barring unforeseen complications, title to the 17,000 acre Pantex Ordnance plant at Amarillo should be transferred to Texas Tech by the first of the year, D. M. Wiggins, college president, announced Thursday morning.

If the arrangements are completed as expected, they will mark the end of transactions formally begun March 3, 1948, when the Tech Board of Directors filed application with the War Assets Administration for the land.

Dr. Wiggins, who made the announcement after a conference in Grand Prairie with War Assets administration officials, said that the application still must be passed upon by the War Assets board in Washington. WAA zone officials do not expect complications, however, he pointed out, since the college has met all qualifications.

According to information released earlier this year, this property as specified in the application, would be used for the general purpose of broadening education at

Texas Tech. The main purpose of the plant would be related to agriculture and engineering.

Presence of large numbers of Tech students at the plant would not be necessary for its operation. Few, if any, would need to live in that neighborhood in order to receive training on the project, the president's office has reported.

The site is located 17 miles north-east of Amarillo and 139 miles east of the Tech campus.

The government bought the land in 1942 and began to build a shell loading plant. The 414 buildings, built on the land by the government, range from temporary wooden structures, some small, to permanent structures made of tile,

steel and concrete. A network of railroads and utilities is also located on the property.

In the event that the application is approved, the contract will contain a security clause which provides that in case of war the government could take the land back for government use.

Numerous requirements have been met by Tech. Both the U. S. Office of Education and Texas A&M have approved the application.

Another preliminary was the agreement that Texas Tech agree to operate a sewage disposal plant serving a housing project on a small part of the land. The housing project is operated by the City

of Amarillo.

The application explains in detail various types of research, experimentation and training into which Tech expects to enter.

About 8,000 acres of the land have been farmed on lease during the years 1947 and 1948. Tech operated a research project on wheat poisoning.

Texas A&M has a similar project, having received the Blue Bonnet ordnance plant near McGregor for use in experimentation and research.

Dr. Wiggins was accompanied by his assistant Frank Junell, when he attended the WAA zone office meeting in Grand Prairie. Government representatives present included C. M. Bushick, chief of the non-industrial division of the Office of Real Property Disposal; F. A. Ramsey, field representative of the U. S. Office of Education; C. N. Townsend, assistant chief of the institutional branch of the non-industrial division of the Office of Real Property Disposal.

It Took 14 Years To Meet Again

Homecoming weekend will mean more than a football game and varied activities to Thomas George, 23-year-old graduate education student from Lubbock.

Thomas plans to go to Abilene, Texas to talk over a few old times and many new events that have accumulated since 1934 when last he was with his brother, Verlin N. George.

Verlin, whom Thomas hadn't seen in 14 years until this week, discovered his younger brother's whereabouts through a mutual friend. "I was certainly surprised to see him," Thomas said.

"Verlin hadn't changed so much that I couldn't recognize him, but he has aged a little. I was only nine the last time I saw him," reflected Thomas.

Before being sent to Europe, Verlin was stationed in Fort Knox with the tank destroyer division of the Army ground forces. "The war accounts for three years of his absence, but there are many years to be accounted for still," Thomas remarked.

"I don't want to miss Tech's homecoming activities," Thomas said, but he admitted he is rather anxious to meet his 15-year-old niece whom he has never seen.

Opponents Are Preparing Appeal; Texas Supreme Court Next Stop

By FRANKLIN GRANT
Toreador News Editor

Opponents of the college building amendment, which was declared valid in the Third Court of Civil Appeals Wednesday, are making preparations to appeal the case to the Texas Supreme Court, Clarence K. Whiteside, Lubbock business man, told this reporter today.

Whiteside said appeal had been the intention of the group of which he is a member, from the beginning and that they had fully realized the opinion of the lower courts would go against them. This decision is of no consequence since the Supreme Court will make the final judgement, Whiteside said.

Tech Coeds Take Harvest Festival's Three Top Places

This \$60,000 building amendment would give Tech more than three times the amount appropriated by the legislature for buildings since the college opened its doors 22 years ago, and more than one and a half times the total investment in the college's present buildings.

Opposition to the amendment claims the scope of the amendment will not fulfill the needs of the 14 Texas Colleges affected. This to Tech, however is the only certain method of meeting present and future needs. Tech's share of the building fund would be approximately \$7,425,000. Total investment in buildings now on the campus is \$4,004,784.93, and only \$2,226,375.62 of this amount came from the state.

Since the amendment is self-enacting, Tech's first 10 year installment of approximately \$2,475,000 would be available immediately.

A new gym is included in Tech's initial building plans if the proposed college building amendment becomes valid, it was announced by officials when the amendment was first passed.

In addition to this building for physical and health education, other campus additions on the "must" list are completion of the Administration building, completion of the Textile Engineering building and provisions for additional office space.

Even with the 32 army surplus structures now on the campus to temporarily alleviate over-crowded conditions, Tech cannot take care of its pressing needs for permanent buildings unless the amendment is made valid.

The college building program lays the basis for long-range planning, which is essential in any major first-class institution. No such institution can thrive unless a substantial portion of its financial needs can be assured over a longer period than two years.

In the past quarter of a century, these 14 schools through their individual efforts have obtained less than six million dollars in appropriations for buildings and associated equipment as compared to the 45 millions which the amendment will provide in the next 30 years.

Ag's Win Honors At Livestock Show

Edd C. McLeroy, senior aggie student from Brownfield, took honors as high individual in wool judging at the American Royal livestock show this week in Kansas City, Mo., according to a bulletin from the show.

McLeroy won over his opponents with a total of 511 points in the contest which included judging of breed fleeces, commercial fleeces and commercial grading. Robert W. Mims, another member of the Tech team, placed second in commercial grading and third in judging breed fleeces.

The meats judging team from Tech placed twelfth in the overall contest, winning tenth place in beef and eleventh in beef grading. All placings were very close with just a few points between high teams and individuals in team standing in the contest.

Annual Class Pictures Deadline Set; Seniors Allowed Three Extra Days

Three extra days have been allowed seniors who have not had their pictures made for La Ventana at Koen's studio, Bob Williams, editor, announced. A final deadline for all class pictures has also been set, he said.

Monday, Tuesday and Wednesday are reserved at the studio for seniors and Williams urged that all students ok their proofs within 48 hours after pictures are made. Students who have had pictures made from the beginning of school until Wednesday must approve the shot they want in the annual by Friday. Failure to do this on the part of seniors may mean that they will be left out of their section because of engraving deadlines, he declared.

Beginning Thursday any student, regardless of classification, may go to the studio, Nov. 13 was set as the final deadline for class pictures at a meeting with Koen and Floyd Koen, studio owner.

Production is a month ahead of what it was this time last year, Koen said, and if students respond within the coming three weeks as they have in the past, there should be no trouble in getting the work done on schedule. Approximately 1,300 more pictures are expected before the final deadline, Koen reported.

Meeting to Decide Order of Floats

Representatives of organizations entering floats in the Homecoming parade are to meet at 5 p. m. Tuesday in A214 in order to learn the definite order and routing of the parade, said W. O. (Dub) Boswell, parade marshal.

The parade is to begin at 10:30 a. m. and will be headed by the Tech band and color guard from the ROTC. Floats are being prepared to fit a descriptive, a humorous or a beauty theme. Bronze plaques will be awarded to the clubs presenting the prize-winning floats in each of the three classes.

The campus is to be lighted during Homecoming by the inside lights in all campus buildings and by floodlights, said officials of the Alumni and Ex-Students' association. Tech chapter of the American Institute of Electrical Engineers is stringing the lights.

The gym will be decorated for the Homecoming dance with figurines representing each class graduated from Tech since 1925, with each figurine dressed according to the prevailing style of the year which it represents.

Completing the decorations will be shields of all the campus social clubs bearing inscriptions designating the years they were founded.

Alpha Phi Omega, men's service club, is in charge of the decorations.

Game Ticket Sales Held In Advance

Plans for advanced sale of tickets for Lubbock Westerner games to Tech students have been announced by E. E. Lowery, senior high school athletic manager.

A terrific jam and long lines at the ticket office have greatly inconvenienced the college students," Lowery said, "often delaying them well into the first quarter before entrance to the field is gained. It is chiefly to aid them that we are offering advanced sale service," he said.

Tickets for the Amarillo-Lubbock high school football game scheduled for 2:30 p. m., Friday in Jones Stadium, are now on sale at the athletic manager's office in the high school. The students must show their activity cards in order to be admitted at a reduced price, Lowery said.

Jamie Trainer, journalism major who graduated from Tech in 1947, is teaching third and fourth grade and students at Grand Falls. She also teaches journalism and directs the high school band.

The dean of women announced that today is the last day on which petitions may be filed to drop a course without grade penalty.

Betty Hart, who graduated from Tech last Fall, is teaching school in Anton, Texas.

Irrigation Project Tests Are Proving Successful

An experiment conducted during the summer on the Tech farm in use of portable galvanized irrigation equipment has proved more successful than anticipated, Dr. A. W. Young, head of the department of plant industry, said Thursday.

Last June 1, a 120-acre crop of alfalfa, red top cane, barley, milo maize, and corn were irrigated by portable galvanized equipment. The 20-gauge galvanized tubes saved from evaporation 25 to 30 per cent more water, and one man in four less was required for every four acres irrigated.

The year before, without the equipment, 40 per cent of the water was lost through evaporation.

Tests And Interviews Provided At Veterans Guidance Center

Veterans, are you in doubt about your vocational training? Would you like to be certain that you are training in the right occupational field?

If so, tests and interviews at the Veterans Administration guidance center on the campus will help solve problems concerning your objective. The center, established in 1946 and situated south of the Extension building, is staffed with counselors professionally trained in appraising vocational problems.

A veteran may secure an appointment for tests by applying at any time to the VA regional office, 1620-24 19th. After an appointment for the tests has been granted, the veteran is interviewed by a counselor who chooses tests which he believes will be applicable in the veteran's case.

The tests, given by a psychometrist, may cover any number of these fields: intelligence, aptitude, adjustment, personality, preference and occupational inventory. The psychometrist grades the tests and completes a profile sheet to be used in the appraisal work.

This profile sheet is then handed to an appraiser who gives to the veteran a complete interpretation of all his test results and the vocational significance of each. These results are brought together with the past vocational history that the veteran has to offer. By this method is determined the final objective of training.

Chief of the guidance center is Lovic H. Liston, psychologist, P4. Included in the staff of appraisers are these members of the college faculty: Dr. Albert Barnett, professor of education and psychology, head appraiser; Dr. Lewis E. Cooper, associate professor of education and psychology; Dr. Agnes True, associate professor of education and psychology; Sam Lefeste, assistant professor of marketing; J. H. Millikin, director of extension.

The psychometry staff comprises Owen L. Caskey, head psychometrist; Leaverett Guess and Garland Bridges, assistant psychometrists.

Also in the guidance center are two training specialists, Frank E. Elkins and J. Spruce White. Elkins, who is on full-time duty, handles veterans' enrollments, interruptions in training and such Public Law 16 benefits as medical and dental care, loans and leaves. White, on duty only half a day, makes the final concurrence at the completion of an advisement for the training section.

Homecoming Activity Data Must Be Submitted Today

Information about organizational functions planned for Homecoming must be submitted to the Alumni and Ex-Students' association office, Ad-108, by 3 p. m. today in order that such data may be included in the Homecoming program soon to be printed, officials of the association have announced.

Such information should consist of the hour, place and nature of the scheduled event, the officials said.

GET-TOGETHER AT REC HALL TO HAVE INITIATION

Initiation program for the Home Economics club will be held 7:15 p. m. Tuesday, Oct. 26 in the Agriculture auditorium, Wilma Wheeler, general chairman, has announced.

All girls who are interested in homecoming are welcome, Wheeler said.

Officers of the club are Martha Lewis, President; Thelma Zimmerman, vice president; Ruth Ann Fehl, treasurer and Mary Welch, secretary. Miss Doris Nesbitt is club sponsor and Miss Lucy Bibb is faculty chairman.

TO HAVE DINNER

Beta Upsilon chapter will celebrate its first anniversary as a chapter of Delta Sigma Pi, professional international fraternity of business administration majors with an informal dinner 7 p. m. Monday at the Cactus Inn, Newell Reed, president, has announced.

Tool Company Interviews M.E. Graduates Friday

Representatives from the Hughes Tool Company at Houston will be on the campus next Friday to conduct interviews with mechanical engineering students graduating in January. Mrs. Jean Jenkins, secretary to the placement committee, has announced.

F. H. Berleth, head of the company's engineering department, and Thad Weaver, of the industrial relations department, will conduct interviews with engineering students interested in the design and development of steel fabricated products, Mrs. Jenkins stated.

Students who desire to schedule interviews should report to the placement office as soon as possible, Mrs. Jenkins said.

Melchior Holds Audience Spellbound At Opening Symphony Concert Here

By MARY LOUISE CLAYTON
Toreador Associate Editor

A highly receptive audience, some 1200 in number, sat spellbound at Lauritz Melchior's magnificent voice and intensely magnetic personality Thursday night in his guest appearance with the Lubbock Symphony orchestra in its first concert of the season at Lubbock High School auditorium.

The Metropolitan Opera star, recognized as the greatest Wagnerian tenor of our time, displayed a rich, powerful voice and a commanding stage presence throughout the evening. His finest numbers, "Lohengrin's Narration" from "Lohengrin" and "Siegmund's Love Song" from the opera "Die Walkure" were done with finesse and unmistakable artistry.

Mr. Melchior's first encore, the famous "Laughing Song" from "Pagliacci", attempted by many tenors but seldom done well, left no doubt as to the genuine greatness of a truly magnificent voice.

D'Harder's "Because" was warmly received by the audience as was Gounod's "Ave Maria", "The Two Grenadiers" by Schumann, "Without a Song," and "For You Alone."

It is disconcerting to find that a really powerful personality can distract one's attention from the fact that here is one of the few really great artists of our time. However, Mr. Melchior, with his incomparable combination of musical ability and personal geniality leaves little to be desired. The essence of his greatness lies in the contrast between his polished, seemingly effortless grace in singing music with the sparkling, smooth melody of Schumann and the rich, full power and drama in music like the extremely difficult "Pagliacci" number. Mr. Melchior makes the transition with almost unbelievable ease and assurance.

The Lubbock Symphony, with William H. Harrod conducting, did a commendable job of accompanying the soloist and played a well-balanced program of its own. In

Museum's Hectic Beginning Never Seems To Want To End

By CHARLES SCHAFER
Toreador Staff Writer

Despite the small sign on the top that proclaims to the world that the building is a museum, many people have mistaken the edifice that fronts on the northeast segment of the circle for a great variety of things. The most common surmise is that it is a swimming pool, an air-raid shelter or even a depository for U. S. gold if Fort Knox ever overflows. One naive freshman expressed the opinion that it "must have something to do with the atomic bomb."

The museum cannot claim the Manhattan project for part of its history, but nevertheless it has had a somewhat stormy and controversial career. To dispel the wild conjectures that have surrounded the symphony's sometimes inspired, in campus neophytes, perhaps a history of the West Texas museum would be in order.

West Texas Museum association had its inception in two preliminary meetings, the first in March and the second in May, 1929. Plans for the museum were drawn up by the Department of Architecture and Allied Arts, under the direction of F. A. Kleinschmidt, department head. In its finished state, these plans call for a building of two wings set at right angles, joined by a central rotunda. The first, or basement floor, is to house paleontological collections and the necessary work and storage areas. The second, or ground floor, is to

ALL WET—The above Tech fans, obviously unhappy about the turn of events and the weather, manage to work up a little enthusiasm over the Baylor-Tech game, played at Waco last Saturday in the rain. Talent For Hire . . .

Approximately one hundred eighteen women registered in the dean of women's office for part-time employment during September, according to a recent report. Of this number, only 64, a little more than half the women who registered, were able to find jobs. Since most of the students who apply for jobs need them in order that they may continue their schooling, the situation is unfortunate.

The largest part of the 64 who were employed was placed in campus offices. The college administration has maintained a cooperative attitude in using student help in the various departments and offices of the school whenever possible. College officials are to be commended in this respect.

The fact remains, however, that 46 women students are still looking for jobs. The young women remaining on the waiting list desire positions varying from bank work to dancing instructor. In all probability there are many jobs open in downtown Lubbock. If there were a system, wholeheartedly put into effect, whereby local business men who need office help and housewives who need baby sitters filed complete information with the dean of women's office, these girls, most of them unfamiliar with Lubbock, could be notified of tentative positions and given an opportunity for interviews.

The benefits of such a plan are obvious. The students would receive badly needed financial aid; the employers could locate potential employees. Such cooperation could also bring the twosome and the students a little closer together in viewpoint and aims. That in itself isn't such a bad idea.

In the Morning Mail . . .

Oct. 20, 1948

to be tried, but in the dorm, fail-

Dear Editor,

A farce and browbeating and punishment for insignificant mistakes has made rules and regulations in the girls' dorms the subject for much discussion and resentment.

At the beginning of the semester permission cards were sent to parents to be signed, accompanied by a letter which recommended that only limited privileges be given, apparently because of the lack of character of all Tech co-eds. After having lived with their children and having reared them according to their principles, many parents did not exactly appreciate the implications included in those letters.

Girls have been sent to House senate for such trivial offenses as kissing a boy goodnight, nothing more, just a good night kiss. Two freshmen signed out for the minstrel show, decided not to go, checked in, and were in their rooms for the 8:30 check for this they were sent to the House senate and the offense goes on record in the dean's office. Isn't it ridiculous to go on the dean of women's record for smoking in the hall?

When somebody gets in a fight or steals a chicken, they are not sent to the U. S. Supreme Court

time goes through the same procedure for punishment as does coming in thirty minutes late. It is impossible to never make a mistake and it is infuriating to be treated as a potentially bad girl. We want to be members of the AAUW, but new enforcement of old rules, plus far-fetched interpretation of them, and the addition of new rules has not made any noticeable change in the conduct of the Tech dorm girl and has definitely fostered an undesirable attitude toward rules they once obeyed without thinking about it.

Believe it or not, most of us are fairly nice girls and will remain so, with or without guardian angels that wait to pounce on our slightest mistake.

Very Sincerely,
G.R.A.

Potpourri

By FRANKLIN GRANT

Dear Pot,
Solons and brass talk at great length
On foreign threats and fighting strength;
They urge this nation now to act
"Get tough," they say, "Stop using tact."
From Reds we must protect weak Greece,
On Jews and Arabs must force peace
China? France? We must aid all . . .
In short, police this mundane ball
Just one thing more I wish they'd say
Is whether they mean "We" or "They".

—Sagebrush Sally
P.S.—I'll never get a man if they send all these boys off again.

A fool and his money are some party.

We have been wondering who Sagebrush Sally is and it now appears others are wondering . . . from one of the local gals comes this:

"Is better to be safe than sorry,
So just in case sometime tomorrow
You chance to meet with Sagebrush Sally,
You won't have to dilly dally,
Just take this timely hint from me,
Such anxious gals weren't meant to be
Just hanging on a family tree . . .
The tip is very much for free
—From Sober Sue
(Who's lonely too)

One of the cuter campus Queens wrote us a letter this week and asked us to help her pass a campus ordinance requiring all married men to wear rings . . . it seems she flirted with a guy for a whole semester and came to find out he was married.

Dear Pot,
Last week your column overflowed
With stuff you should have known
Wasn't exactly so correct
As a college man might well expect.
The English were awful and I ought to know,
I'm grammar professerr, woman, an dresser,
The eventual successor to Dr. John Blow.

—A Stewardent.

From where we sit it seems that too many of the professors on this campus hold their classes overtime . . . some as much as five minutes . . . we don't mind, but our

El Toro Grande

By ORLIN BREWER

EDITOR'S NOTE—This is the first in a series of guest columns to be written each Saturday by various members of the campus population at the personal invitation of the editor. This week's columnist is CLINT FORMBY, president of the Students Association and senior Government Major from McAdoo.

PICKED UP PASSING BY: Look for at least two if not more vacancies to be filled on the Student Council for the Spring semester . . . Each week we receive mail from various "booking" agencies concerning name bands, for instance, for only \$2000 Lionel Hampton would play here next week. Art Mooney's agents ask only \$1350 to play for a club or organizational dance!

School spirit, probably the best in many years on the campus, will get its biggest test Homecoming day, October 30. With receptions, dances, and floats to build, in addition to backing the Raiders all the way that afternoon, it's going to be a busy day for many students. With a little work and cooperation, however, we should be able to look back and say that we really welcomed the exes back to the old alma mater . . . Committees within the Council are just now beginning to function effectively and we are still open for suggestions at any time concerning any policy or legislation that we might enact.

An indication that college students are becoming more interested in student government and the operation of their own college is shown by recent queries received by the Student Council. Of special interest was a questionnaire received from the Southern Intercollegiate Association of Student Government last week. Aside from routine questions they're attempting to tackle such questions as the racial issue, the honor system, and further student participation with faculty committees.

Inter-College student organizations have begun to spring up over the country in the past few years, with the idea that an exchange of viewpoints among students will aid each member school. Last year, our Student Council rejected the National Student Association, as did most of the Southwest schools, but whether you are in favor of our participation with such organizations or not, exchange of ideas usually are conducive to better

Dial 9814

student government . . . Following the Tech-SMU game, the SMU Student Council entertained the Tech Council with a dinner and many helpful ideas were exchanged. Incidentally, after the dinner, several of their members told us they were strictly behind Tech's getting in the Southwest Conference.

A recent step taken by the Publication Committee, we believe, will make this year's La Ventana a more representative year book. The committee along with the year book editor has set up certain standards for selection which must be met. For instance, this year the Publication Committee, one student representative from each division and the La Ventana editor will select Who's Who on the Campus. In the past this selection has either been made by the editor or a committee of his own choosing. Supposedly, Who's Who on the Campus, is intended to recognize outstanding students who do not meet the necessary grade point average for other recognition. With a representative cross section of students making the selection, Who's Who on the Campus, should be composed of deserving students.

The recent installation of vending machines in various campus buildings not only has added to the luxury of college students but is aiding several campus organizations with a source of income. We understand that it was only after considerable debate that our board of directors allowed coke machines to be installed on the campus. These machines should provide a sizeable income for sponsoring organizations if the dispensers are maintained properly. Recently, however, some of the machines have been empty, cokes so hot you couldn't drink them, or bottles littered over the floor. Unless these organizations can assign definite individuals to care for the machines, there is a good possibility that the machines, will either be taken out of the buildings or returned to private operators.

Tech, Arizona Tangle In Crucial Tilt Tonight

By JIM SANDERS
Toreador Sports Writer

The Red Raiders of Texas Tech invade the University of Arizona campus tonight to do battle with the Wildcats in a Border conference clash which may be the key game in the 1948 race.

The game under the lights will be the second conference game for each team. Both teams have a clean slate in conference competition, having won one and lost none. The Raiders have a 19-0 victory over West Texas State to their credit while the Wildcats boast a 20-14 win over Hardin-Simmons.

In inter-sectional contests, Tech has wins over Texas A&M and Tulsa and losses at the hands of SMU and Baylor. Arizona has a win over San Diego and losses to Utah university and Michigan State.

If the tradition of Mothers' and Dad's Day holds true, Arizona may well go into Saturday night's game as the favorite. Only twice in the 17 years Parents' Day has been ob-

served have the Wildcats been defeated.

Outside of a few black eyes and bruises the Raiders came out of the Baylor fracas in good condition. Milburn Hayden is still on the doubtful list and may not see action tonight.

The Raiders will rely upon Cal Steveson, Bud Conley, J. W. "Duck" Thompson, and Earl Jackson for the line-smashing duties with Charley Reynolds, Glenn Lewis, Walter Maloney, Zac Henderson, and Tim Hatch taking care of the remainder of the running attack. The ball handling chores will be performed by Earnest Hawkins, ably assisted by Milton Rathbone and Bill Lyman.

Fullback Charley Hall is the spark plug of the Wildcat offense. Hall not only is the leading ground gainer for the Cats but has also boosted the ball 549 yards in 16 punts which is a little better than a 40-yard average. John Smith, a standout end for the Arizona ag-

gregation, will possible be back in action. He received a dislocated shoulder in early fall practice and has been out ever since.

The game tonight is the tenth meeting of the two schools of the gridiron. Seven of the previous contests have been won by Texas Tech, one by Arizona, and one in 1936 ended in a 7-7 tie. The Wildcats single victory over the Raiders was by a narrow 7-6 margin in 1935. The Raiders romped to a 41-28 victory last season in Lubbock.

The probable starting lineups:

Texas Tech	Pos.	Arizona
Thompson	LE	Spilbury
Andrews	LT	Varnier
Pursell	LG	Richardson
Williams	LC	Converse
McCurry	RG	Dyer
Gettys	RT	Morrison
Kelley	RE	Woodburn
Hawkins	QB	Abee
Stevens	LH	Wolgast
Lewis	RH	Carrillo
Conley	FE	Hall

The two Rice Owls pictured above are going to bear watching in next Saturday's annual homecoming game at Jones Stadium. They are Jim (Froggy) Williams, left, and Huey Keeney, right. Williams is a 210-lb. end who is touted as the Southwest's best wingman. He was leading

pass receiver in the conference last year and is dynamite on defense. Keeney weight in at 195 lbs. and has been a conference standout at half back for the past three seasons. His punting ability has gained him the nickname of the "Golden Toe".

Press Bulls Take Two Game Lead As Fanning Sparks Kegler Victory

The Press Bulls swept three games from the Snipes in the college bowling league Monday night to take a two game lead over the second place Snipes and Lucky Strikes.

Cotton Fanning led the Bulls to victory with a blistering 249-555 series. His 249 is the high game of the league. Jimmy Oates led the losers with 179-443.

The Raiders rebounded from last week's loss to the Snipes to take two games from the Tech Termites. Ed Moore was high for the Raiders with 235-557 while Herman Nelson took high honors for his team with 199-551. The Raiders set a new high game total with 943 and a new series total of 2,458.

The Lucky Strikes gained a tie for second place by taking the Pinmen two games. Paul Knight's 216-533 was high for the winners. Bob Bilheimer led the Pinmen with 226-564.

The Kingpins jumped back from last week's defeat by the Press Bulls to take two games from the Shamrock Rollers. Bob Lyle's 160-440 was high for the Kingpins and John Sessums led the Rollers with 179-478.

The standings:

Team	W	L
Press Bulls	7	2
Lucky Strikes	5	4
Snipes	5	4
Raiders	4	5
Termites	4	5
Kingpins	4	5
Sham. Rollers	4	5
Pinmen	3	6

Tennis Entries Deadline Set; Intramural Meet Thursday

Male students who are interested in competing for positions on the varsity tennis squad should get in contact with Glen Ivy or Jake Broyles at the Tennis courts next Tuesday or Wednesday between 2 and 4 p.m., according to a recent announcement.

A full schedule of intrasquad and intercollegiate matches are planned for the spring season. In addition to the Border conference meet which will be held here this year, matches are being sought with Texas Christian, Southern Methodist, Texas Mines and the University of Houston.

The University of Arizona won the Border championship last year and reports are that they will be strong again this season. Ivy said that from four to six men will be chosen to represent Tech in conference play this year. Loop play won't start until next spring but the courts will be kept busy with the try outs and other meets.

Plans were also announced for intramural tournament which will include all men who have not let-

tered in tennis at Tech or any other school. The deadline for entries is Wednesday, and they should be turned in to George Philbrick in the gym or to Broyles and Ivy at the courts. This will be a singles meet only and prizes will be awarded to the first and second place winners. The entry fee will be two new tennis balls.

Play in the intramural meet will get under way Thursday afternoon. Plans for a doubles tournament will be announced later in the year.

UNDERWOOD ATTENDS MEET

Dr. R. S. Underwood, professor of mathematics, is planning to attend the National Council of American Association of University Professors in Chicago Oct. 29-30.

Dr. Underwood, a retiring member of the Council, has served since 1946. The Council is comprised of 30 members representing ten divisions in the United States and Canada, and each year ten members are retired.

Sports Grapevine

By THE SPORTS STAFF

So far this sports staff hasn't been doing so well in forecasting football winners. The total average for the last three weeks is just above 60 percent. Here I go hoping to up that average somewhat.

First of all, even though some quarters are placing Arizona six points favorites, I'll string along with Tech by about two touchdowns. Tech was unimpressive in losing to Baylor last weekend, but that's hardly the worst of Arizona's rout by Michigan State. At Waco its homecoming for the Baylor Bears, but they should be good enough to win over the hapless Texas Aggies by 13 points even without that extra boost. The Rice Owls will entertain the Texas Longhorns at Houston, and it looks like another setback for the feathered flock; Texas by two.

SMU takes on Santa Clara in the Cotton Bowl at Dallas, and it looks like SMU after a tough battle. Rounding out the Southwestern conference team dropping Wisconsin, Tulsa over Auburn, Nevada taking the winless Tulsa eleven, USC in a close one over Stanford, California drubbing Washington, Army continues unbeaten over Cornell.

and in a hard one I like Illinois over Purdue.

—Keith Anderson

Statistics released from the Texas Tech publicity director's office show that Charley Reynolds, fleet-footed back, is the leading ground gainer for the Raiders. Reynolds has carried the ball for a total of 373 yards, 85 of which were rushing on 13 carries, two punt returns for 72, and 7 kickoff returns for 216 yards. The sprinter from Odesa also leads in scoring with three touchdowns, 9 extra points and one field goal for a total of 30 points.

Calvin Steveson is runnerup in total yards gained and scoring. Steveson has carried the ball 43 times for a net gain of 170 yards, has returned one punt for four yards, and has caught one touchdown pass for 90 yards, making a total yards-gained of 264. J. W. Thompson is in third place with 151 total yards and James Conley is holding a close fourth with 147.

In the punting department, Zac Henderson has booted the oval 15 times for a total of 470 yards, giving an average of 31 yards per kick. Bill White is in second spot with 12 kicks for 361 and an average of 30 yards per kick. Glenn Lewis has booted five times for a 33 yard average and Steveson has kicked six times for a 34-yard average.

—Jim Sanders

Techsans Return From Tennis Meet

Two Tech students, Glen Ivy and Jake Broyles, have returned from El Paso where they competed in the Southwest Sectional tournament of the U. S. Lawn Tennis Association last week.

The University of Southern California UCLA, Redlands, Arizona, New Mexico and Texas Mines were just a few of the schools that were represented. In addition to that, Frank Sedgeman, fourth ranking player from Australia and co-holder of the 1948 Wimbledon Cup, was present along with stars from the west coast.

Broyles was eliminated 6-4, 6-3 in a hard fought match with Straight Clark, 1947 intercollegiate semifinalist from the University of Southern California. Ivy went down in the quarter final round after defeating Don Sweet of Los Angeles by a score of 6-1, 6-3. George Bull, city champion, of El Paso, defeated Ivy 6-3, 10-8.

In doubles play, Broyles and Ivy beat Sanders and Drummond from Arizona, but were beaten in the quarter-final round by Clark and Roy Grimes from Southern California by a score of 8-10, 6-3 and 6-4.

Library Adds New Member To Catalogue Department
A new assistant cataloguer, Miss Phyllis Johnson, has been added to the staff of the library. She received a B. S. degree from Mississippi State College for Women in 1945 and a library degree from the University of Michigan in 1946.

Before coming to Tech, Miss Johnson was an assistant cataloguer at the Tulane university library and was later librarian for the Mississippi Department of Archives and History. Her home is in Philadelphia, Miss.

AWS to Sponsor Reception

The Association of Women Students will sponsor the annual football reception from 2-4 p.m., Oct. 31 in the Recreation hall, Lois Cone, president has announced.

AWS voted to ask the girls' dormitories to represent the organization's float in the homecoming parade, she said.

Anita Oliver, senior journalism major, was elected AWS representative to the Tech Chamber of Commerce at a recent meeting of the council. Lou Lawson, secretary has announced.

This is hard to believe but Frank Menke's New Encyclopedia of Sports says its so: In 1916, Leo Schlick, playing for St. Viator against Lane, rolled up a total of 100 points—all in one game, that is. He scored 12 touchdowns and accounted for 28 points after touchdown.

Beyond any shadow of a doubt the "Connie Mack" of the gridiron must be Amos Alonzo Stagg who has been teaching the grid lore for a span of 57 years. Stagg has coached at Springfield, College of Pacific and Chicago when the Maroon was the power of the Midway.

Phi Psi Sells Fall Dress Materials

Cotton materials in new fall patterns will be offered for sale this week by Phi Psi professional textile fraternity, at the Textile building. These fabrics will be brought to Tech at considerably less than retail price from the Comal Cotton Mill in New Braunfels, said fraternity members.

A variety of suiting and gingham cottons should be on sale the latter part of this week. Also on hand are materials received recently by the fraternity.

PING PONG POSTPONED
Recreation hall's ping pong tournament scheduled for 2 p.m. Saturday was postponed by a vote of the contestants due to the intramural football games, said Troy A. Ennis, Recreation hall director. Date of the tournament will be announced later.

Quick, now, how many footballs can be used on a wet gridiron? The Football Rules Committee recommends three balls with the privilege of changing the ball after each down.

Ko Sharis Hold Masquerade Ball

Phosphorescent ghosts, confetti and a giant black spider web will be the decorative theme of the annual Ko Shari masquerade ball from 9 to 12 p.m. tonight at the Hilton hotel.

Members, 35 pledges and dates will dance to the music of Burl Hubbard and the Varistonians.

Members and dates who will be present include: Marjorie Allen, Ray Collier, Elizabeth Bedford, A. E. Miller, Billie Benton, E. L. Anderson, Margie Bullen, Floyd Rector, Elizabeth Castleman, Horton Russell, Gretchen Cliff, George LaRoe, Elizabeth Craig, Calvin Carpenter, Annabelle Dyer, Pete Cook, Peggy Garrison, Bernard Bevis, Mary Herral, Durwood Crawford, Jane Holden, Pat Ryan, Virginia Jones, Paul Hardwick, Margaret Klaus, Hooper Sanders, Jane Loflin, Ross Bell, Peggy McClathy, Ronald Rushing, Jane Magee, Jim Franks, Patti Jo Musson, William Murphy, Mary Ruth Norris, Malcolm Duncan, Dorothy Phillips, Dick Bassett, Marjorie Brewitt, Marwin Brakebill, Jan Riley, Dick Wolfe, Barbara Scott, Johnny Walker, Mary Stanford, Ben Low, Corinne Thomas, Bob Watson, Mary Vestal, Walter Phillips, Carol Jo Wheeler, Jack Blake, Barbara Williamson, Bill Abell, Mary Jane Wilson, John Jackson, Kitty Witty, William Nelson, Marion Woods, James Rodgers, Rosie Stubbs, Fred Stubbs, Lucy West, Owen Hamilton, Pat Sprague, Dale Thut. Chaperones will be Mr. and Mrs. W. G. McMillan, Dr. and Mrs. E. A. Hazlewood, and club sponsors, Jane Watson and Dr. and Mrs. W. C. Holden.

Dance Features Starlight Theme

A social highlight of the weekend was the annual Las Vivarachas Starlight dance held last night at the Hilton hotel. The affair honoring new members and pledges featured a starlight theme with sparkling artificial stars suspended from the ceiling.

Members, pledges and their dates were Jane Adams, Andy Behrends, Kitten Mills, Stanley Hall, Edna Morgan, Bob Davidson, Beth Norman, Bob Cody, Donna Jones, Marilyn Cain, Bonnie Robertson, Allen Crane, Pat Noland, Edwin Scuddy, Jean Alger, Hubert Burgess, Jerry Meacock, Jimmy Carter, Joyce Boren, J. L. Houser, Cheri Hannis, Bob Boehme, Beth Neely, Human High, Pat Everett, Jimmy Easley, Martha Lewis, Jimmy Crabb, Wanda Smith, John Driscoll, Nancy Conder, Jerry Dorsey, Bonnie Holland, Dickie Buckles, Betty Hancock, Hugh Mason, Jean Parker, Albert Trose, Jane Duncan, Jack Drain, Jackie Mueller, Richard Hill, Carol Sherrod, Nolen Swain, Betty Thomas, Bill Roach, Barbara McPherson, Larry Flagg, Nancy Arnold, Gerry Edwards.

Chaperones were Mr. and Mrs. John Harding, and Lt. and Mrs. Thurston Mallard. Special guests included Miss Martha Graves, club sponsor, Mrs. Margaret W. Walker, and Mr. and Mrs. James G. Allen.

DEAN OF WOMEN TO SPEAK AT AWS LUNCHEON MONDAY
Mrs. Margaret W. Walker, dean of women, will speak at a luncheon sponsored by the Association of Women Students, for Tech coeds residing in Lubbock, at 12 noon in the Rec Hall, next Monday. Lois Cone, AWS president has announced.

SOCI HAS BREAKFAST
Soci, men's social club, will have its annual Big Brother-Little Brother breakfast at 8 a. m. Sunday at the Hilton hotel at which time each pledge will introduce the member he has chosen to be his "big brother".
The club will later attend church at First Methodist church.

Theta Sigma Phi Initiates Pledges

Five journalism majors were initiated as pledges of Theta Sigma Phi, national honorary and professional society for women in journalism, Friday night at the home of Mrs. J. G. Allen, 3110 Twenty-first, announced Aline Whitby, president.

New pledges are Glenna Winston, Daina McIlroy, Mary Faye Bonds, Julia Short and Jane Skinner.

After a business session, which followed the pledge service, Mary Louise Clayton, secretary, gave a report on the national Theta Sigma Phi convention, which she attended in Milwaukee, Wisconsin, in June.

Mrs. Margaret Long Allen, alumnae advisor, was special guest.

Women Business Students Offered National Charter

Phi Gamma Nu, a new sorority for all women students in the division of business administration, will hold its next meeting at 5 p. m. Thursday, in Ad-316. This meeting will offer the last opportunity for students to become charter members, Mrs. Terrell, sponsor, has announced.

Officers elected at the first meeting Oct. 14, were Virginia Trenfield, president; Cherylne Roberts, vice president; Helen Calcote, secretary; Marianne Greiner, treasurer; Irma Rae Beaver, historian; Estelle Cummings, parliamentarian and Jo Ann Brown, reporter.

Mrs. Ethel Terrell and Miss Cureton Harris are co-sponsoring the organization.

ALPHA CHI HOLDS MEETING

Mrs. Margaret Wible Walker, dean of women, was the principal speaker at the regular monthly meeting of Alpha Chi, national scholarship society, Wednesday afternoon, said Lamar Jackson, president. Mrs. Walker addressed the group on "Why Be National."

Alpha Chi shingles were distributed after the business meeting by Prof. B. A. Mills, Alpha Chi sponsor, who requested that all members who have not received their shingles pick them up immediately at his office in room 209 of the Press building.

A "get-together" is listed on the Recreation hall's calendar of weekend events for 8 to 10:30 p.m. tonight, said Troy A. Ennis, Recreation hall director. Records will furnish music for dancing.
Lewis M. Zafran, magician and Pioneer Air Lines' regional traffic and sales manager for West Texas and New Mexico, was scheduled on last night's program.

Las Vivarachas Awarded Gift By Disabled Veterans

Las Vivarachas social club has been awarded a \$25 prize by the Lubbock county chapter of the Disabled American Veterans for selling the greatest number of flowers on "Forget-Me-Not Day" Oct. 9, reported J. Spruce White, chairman of the drive. Sales by the club totalled \$133.70.

Amounts gathered by other women's social clubs are as follows: Las Chaparrillas, \$124.88; Ko Shari, \$79.84; Sans Souci, \$66.92; DFD, \$61.20. The clubs together collected \$444.34, a figure which White said represented "almost half the total."

"I would like to express my appreciation for the efforts the girls put out, especially so since the weatherman had promised us clear weather, and it rained all day," he said.

"Not only did they do a good job of selling, but the manner in which they did it reflected a lot of glory upon themselves, which in turn was a boost for the DAV."

White stated that many favorable comments had been received on the girls as a whole and especially on "certain individuals who were signalled out by the public as outstanding persons."

The money gained from the sale is to be used mainly for the welfare of disabled veterans, he said. "If any disabled veteran is known to be in distress, it would be appreciated if his case could be reported to Mr. Carl M. Smith, chapter commander, who can be reached at the VA building Monday through Friday from 8 a.m. to 5 p.m., so that if possible, aid can be rendered to him," White said.

The VA regional office is located at 1620-24 19th.

AWS to Sponsor Luncheon Series

Women students living off the campus are invited to attend the first of a series of luncheons sponsored by the Association of Women Students from 12 to 1 p. m. Monday in the southwest dining room of the college cafeteria, Miss June Hanson, assistant to the dean of women and coordinator of campus activities of women students, has announced.

The purpose of the luncheons are to promote participation in campus activities for off-campus women and to enable them to become acquainted, Miss Hanson explained. Organization of the group under AWS sponsorship will be discussed at the luncheon Monday.

Letters inviting women to attend are being mailed by AWS. Sandwiches and drinks will be served for 35 cents, or students may purchase a lunch at their own price, she said.

The college's responsibilities to off-campus women will be discussed at the luncheon by Mrs. Margaret W. Walker, dean of women and faculty sponsor of AWS.

"We hope that we may work as closely with the off-campus women as with those who live on the campus through these meetings, as their leadership and influence means a great deal to the college,"

Home Management House Entertains With Barbeque

Miss La Dot White will act as hostess at a steak barbeque tonight at the home management house, climaxing a week of entertainments.

Informal dancing and a game party will complete the evening for home management house residents and their guests.

Tuesday night, a demonstration dinner was given approximately 17 guests at the home management house by Mrs. L. H. Reed, graduate student in home economics and an agent for the Permanent Stainless Steel company. Faculty members, house residents, and student guests were present.

Mrs. Bea Kealing and Ruth Ann Fahr were co-hostesses Monday night for a buffet dinner at the home management house. Guests were President and Mrs. D. M. Wiggins, Dr. and Mrs. E. N. Jones, Miss Margaret Weeks, dean of home economics, and house residents.

BLOCK, BRIDLE GIVES DANCE

Block and Bridle, honorary national fraternity for animal husbandry majors, entertained members, guests and their dates with an informal dance last night in the gym.

Refreshments were served after dancing.

Mrs. Walker said. Campus activities for the week will be summarized at the luncheon, Glenna Winston and Daina McIlroy, cheerleaders, will lead yells and songs Lois Cone, AWS president, will preside and introduce council members.

Last Youth Revival Meet Held Tonight

City-wide youth revival goes into its last session tonight at the First Baptist church with Warren G. Hultgen, graduate student in Bible at the Southwestern Seminary in Fort Worth, scheduled as the principal speaker.

Officials at the Baptist Student center, said Thursday that large crowds have been attending the revival, sponsored by all the Baptist churches of Lubbock.

Speakers for the meet have been E. O. Baker, pastor of Birchman Avenue Baptist church in Fort Worth and Charles Wellborn, second year student in Southwestern Baptist seminary at Fort Worth. R. F. Boston, University of Houston senior voice student has led the singing.

Miss Ardelle Hallock, director of the Baptist Student Union, said that this is the second city-wide youth revival to be held in Lubbock. All the work is done by the students, she said.
