Show Exhibits Attract A Record Attendance

By JULIA SHORT
Toreador Staff Writer

The first day of the 17th Annual Engineers' show proved to be a success yesterday with indications that an all-time high in attendance will be reached.

In each of the eight engineering departments, and the geology, physics and military science departments visitors were on hand to see the various exhibits ranging from a large oil well pump in front of the new petroleum building, which opened officially Friday afternoon, to the Texas Fine Arts exhibit in the architecture department.

For those who have not seen the show there will be a demonstration of a potter's wheel at 3:30 and 8 p.m. today sponsored by ceramic students.

Besides the exhibition of oil paintings, architecture students present exhibits of water colors, life drawings, pen and ink drawings; and in commercial design, such things as silverware patterns and toy designs are shown.

Exhibits from the petroleum department consist of equipment which is actually used in finding and producing gas and oil and miniature scale models of large equipment. A mark-up model showing an underground oil reservoir complete with a pumping well and a gas lift well is shown. There will also be movies on different phases of the industry in the petroleum building and X-17. Heavy equipment is displayed on the outside of the building.

The industrial engineering department displays a model paper mill constructed to produce a continuous strip of paper in operation. Also featured are displays showing modern trends in tool design, safety engineering, time and motion studies and production planning and control.

The show is being staged in the Chemistry, Textile, Engineering and Petroleum Engineering buildings. All displays are open to the public.

Annual Arbor Day Is Removed From Spring Calendar

Tech's annual Arbor day has been cancelled for this year, Bill McCasland of the Chamber of Commerce has announced.

The traditional day-long cleanup and beautification of the campus was scheduled for Thursday, April 28.

McCasland stated that the Tech Chamber of Commerce has been informed that no college beautification projects are to be carried out until the landscape architect, Eio Urbanovski, arrives May 1.

The cancellation this year does not mean that Arbor day is to become a thing of the past, said McCasland.

Next year, with the help of the architect and the cooperation of the student body, the Chamber of Commerce hopes to have the most extensive Arbor day program ever planned for the campus, he said.

The Campus Whirl

- Saturday, April 23
- Seventeenth Annual Engineering show. Home Economics open house, 9 a.m.-5 p.m.
- Intercollegiate league, Region I DFD presentation dance, 8-12 p.m., Lubbock hotel.
- Sunday, April 24
- WCCC breakfast, 8:30 a.m., Lubbock hotel.
- Phi Eta Sigma initiation, 5 p.m., aggie auditorium.
- Alpha Lambda initiation, 5:30 p.m., Navajo room, Hilton hotel.
- Phi Eta Sigma and Alpha Lambda Delta banquet, 7 p.m., Hilton hotel.
- Monday, April 25
- Radio club, 7:30 p.m., Radio club building.
- WRA bowling, 4-6 p.m., Plamior Bowling alley.
- Women's social clubs softball tournament, 5 p.m., athletic field.
- AWS council, 5 p.m., Ad-214.
- Kappa Alpha Mu, 5 p.m., J-211.
- Sigma Tau Delta banquet, 7 p.m., Hilton hotel.
- Pre-Law club mock trial, 7:30 p.m., C-101.
- International Relations club, 7:30 p.m., Ad-308.
- Student council, 7:30 p.m., Ad-214.
- Tau Beta Phi, 7:30 p.m., E-208.
- Modern dance, TSCW, 8 p.m., high school auditorium.
- Newman club, 8 p.m., Parish hall.
- BSU, 8 p.m., Baptist Student center.
- Tuesday, April 26
- WRA tennis, 5-6 p.m., tennis courts.
- Women's social clubs softball tournament, 5 p.m., athletic field.
- WCCC, 5 p.m., Ad-206A.
- Book Reviewers tea, 7 p.m., Seaman hall.
- Sigma Delta Phi, 7 p.m., Ad-202.
- Phi Gamma Nu pledge meeting, 7-8 p.m., Ad-316.
- Home Ec club, 7:15 p.m., Annex G.
- Aggie club, 7:30 p.m., aggie auditorium.
- Kappa Kappa Psi, 7:30 p.m., band building.
- Sigma Gamma Epsilon, 7:30 p.m., Ad-210.
- Accounting society, 7:30 p.m., Ad-210.
- Textile Engineering society, 7:30 p.m., T-202.
- Mixer party-Women's Dorm IV for men of Doak hall, 7-8:30 p.m., Women's Dorm IV.
- Wednesday, April 27
- Women's social club softball tournament, 5 p.m., athletic field.
- American Chemical society, 7 p.m., C-G.
- WRA dancing, 7-8 p.m., gym.
- Circle 8 club, 8 p.m., gym.

Carter, Winston Win Cheerleader Positions

James C. Carter

Glenna Winston

Hogan, Thurman And McKay To Be Yell Assistants

James C. "Jimmie" Carter and Glenna Winston were elected head boy and girl cheerleaders in the run-off election Wednesday.

Carter received 1220 votes and his opponent, Bob Hogan, received 895. Miss Winston was victorious with 1084 votes to Lam McKay's 831.

The two cheerleaders have selected their assistants. Carter has named Bob Hogan and Pat Thurman as his assistants and Miss Winston selected Lam McKay.

Carter is a junior business administration student from Big Spring and Miss Winston is a junior journalism major from Brownfield.

Class President Announces Plans For Junior-Senior Prom

Curtis Sterling, president of the junior class, has announced plans for the junior-senior prom which is scheduled from 8:30 until 11:30 p.m. May 7 at the Recreation hall.

The dance is given by the junior class in honor of graduating seniors. The expense of the dance is being taken care of by \$50 contributions from junior class members, stated Sterling.

"We are doing a lot of work and hoping to make this the big dance of the year by making it different and high-lighted by special talent at intermission," said Sterling. A short address will be given by Pres. D. M. Wiggins and Clint Formby, Student Council president, during the 25-minute program at intermission.

Dr. D. D. Jackson, junior class

sponsor, and Troy Ennis, Recreation hall supervisor, will be present as chaperones.

"We feel that we should make this an annual affair, so help us with your attendance," Sterling added.

Dance music is to be furnished by Ted Crager and his orchestra.

Program Planned For Parents' Day

Parents' Day, set by the Student Council for Sunday, May 1, will start with the registration of all parents in the Recreation hall from 1-2 p.m., Ted Forsythe, chairman of the planning committee, has stated.

Student personalities will be introduced from 2-3 p.m. in the Recreation hall. Along with this will be a program of student talent.

The ROTC will parade from 3:10-3:40 p.m. for the benefit of parents and students.

The scholastic recognition service will be staged from 4-5 p.m. in the gymnasium. Pres. D. M. Wiggins will deliver the principal address. Organizations in which two-thirds of the members have a grade point average of 2.00 or over for the spring and fall semesters of 1948 will also be recognized.

Members of the planning committee include Bill McCasland, Lamar Jackson, Elizabeth Craig, Ed McLeroy, and James Rider.

Jones To Address Los Angeles Exes

Dr. E. N. Jones, vice-president, will speak to a group of exes at a reunion in Los Angeles on Sunday, at 2:30 p.m., D. M. McElroy, executive secretary of the Ex-Students association, said today. Exes in California are sponsoring a mid-afternoon luncheon for the affair.

Exes will meet in Scully's Banquet hall in Los Angeles for the first reunion with fellow Techsians in a long time. Many of the Californians are planning to drive several hundred miles for the event. The movie, "Futures Unlimited," will be shown.

5 Tech Students Will Be Delegates At NTSC Meeting

Five delegates from Tech will attend a meeting of the Texas Convention of Student Associations to be held today at North Texas State college, Clint Formby, president of the Student association, has announced.

Tech students attending are E. Formby, Lamar Jackson, council member; Curtis Sterling, next year's student president; Marshall Gettys, council member and next year's vice-president; and Margaret Clark, this and next year's secretary.

North Texas State college has invited 25 colleges in Texas to send representatives from their governing bodies to attend the convention. This is the first convention of its kind to be held in Texas. Tech is not a member of the association.

Activities planned for today include an organizational meeting, study groups, a luncheon, and a dance and stage show. Several panel discussions will be held.

Prof. D. O. Wiley in San Antonio This Week End Judging Band Contests for the Battle of the Flowers festival at Alamo stadium.

Carla Von Roeder, Tech graduate of '49, is employed as an executive leader with the campfire girls at Kingsville.

President Will Address Banquet

Pres. D. M. Wiggins will deliver the main address at the joint banquet of Alpha Lambda Delta and Phi Eta Sigma, freshman honor societies for women and men, respectively, at 7 p.m. Sunday at the Hilton hotel, Sue Holmes, president of the women's organization announced Wednesday.

The "Four Techsians", Charles Nolan, Gene Alford, Bob Weisz and Jimmy Holmes, will furnish music for the occasion.

Honorary members of both organizations will be introduced. Those of Alpha Lambda Delta are Mrs. Mary Doak, Dr. Mina Lamb, Mrs. Johnnye Langford, Miss Marjorie Poindexter, Dean Margaret W. Weeks, Dean Margaret W. Walker, Mrs. Louise Allen and Miss Fay Hattox. Phi Eta Sigma honorary

members are Dean W. L. Stangel, Dean O. V. Adams, Dean R. C. Goodwin, Mr. W. P. Clements, and Dean James G. Allen, faculty sponsor.

Formal initiation for new members of the women's club will be staged at 5:30 p.m. the same day in the Navajo room of the Hilton hotel, Miss Holmes said. New members are Cynthia Armbruster, Betty Jo Boone, Virginia Ann Butler, Sharon C. Cone, Barbara Crossler, Maurine Denton, Dorothy J. Elliott, Elaine Felix, Caroline Greek, Mary Hampton, Mrs. Zeldia Doris Harkins, Jo Olive Mobley, Betty Jo Mullins, Molly Ogg, Nand, Beth Pennington, Carolyn Reeves, Elizabeth Schovajsa, LeJuana Smart, Billie J. Stacy, Jane Steviers and Wanda Wilson. New officials

will be installed who will also be introduced at the banquet.

Phi Eta Sigma will hold formal initiation for 25 new members at 5 p.m. Sunday in the Aggie auditorium, Raymond Brigham, president of the organization, said Thursday. Those to be initiated are Jack C. Alderson, Franklin Brownfield, Stanley E. Burnham, Roscoe Champion, James A. Craig, William Wallis Davis, Avon Flaniken, Edmie C. Hill, Marvin Kitten, Jimmie D. Langford, Wayne Leath, John F. McAleer, James R. Moran, Johnie J. Morgan, John Norcross, Samuel C. Pearson, John C. Pinson, Blanchard Pritchard, Richard Robinson, David Smiley, James Donald Smiley, George R. Truitt, Klieber Van Zandt, Weldon E. Viertel and Lofitt Witcheer.

Work Has Begun On Parking Area Near Ad Building

Work was scheduled to have begun yesterday on the parking lot south of the Administration building, with completion set for May 30.

The parking area, measuring 462 feet by 250 feet, is to be black topped.

Six curbs running north and south will be laid on the lot. Guide lines will be marked at angles to these curbs to indicate how automobiles are to be parked.

The area is to be graded in such manner that the center will be the highest point of the lot, thus permitting rapid drainage.

A roadway is to be constructed to separate the lot from the grounds immediately adjoining the Administration building. On the north side of this roadway will be a gutter.

The parking area will accommodate 280 cars.

Paving will be under the supervision of Kerr and Middleton, Lubbock contractors.

Dr. Fred Sparks, mathematics professor, attended a meeting of the Texas section of American Mathematical Association April 8 and 9 in Denton.

Tech Delegates To Attend Meet In Atlanta, Ga.

Thirteen Tech delegates will attend the national convention of Phi Psi, honorary and professional society of textile engineers, to be held May 6-8 in Atlanta, Ga., Lloyd Greenwood, chapter editor, said Thursday.

Chairman of the convention is Fred Williams, former Tech student who is now general superintendent of the Piedmont Cotton mills. He will be assisted by Frank B. Williams, Jr., president of the Georgia Tech chapter. The Georgia Tech textile department will act as host for the visiting delegates.

Students from Tech who will attend include: Joe R. Williams, Davis; C. J. Arnold, Silverton; Vance Sanders, Lubbock; Bob Ahrens, Hallettsville; Lloyd Greenwood, Hale Center; Wade Webb, Itasca; Joel McConnell, Commerce; Thomas Greenwood, Lubbock; William Harvey, Greenville; R. C. Roberts, Lubbock; Raymond Walker, Bula; Tom Welch, Lubbock; and Dick Siewert, Slaton.

Delegates will leave Lubbock May 4 and plan to return May 12, Greenwood said.

League Entries In One-Act Plays Open To Public

Interscholastic League entries in the one-act play division are open to the public today for 25 cents admission to each group of plays or 50 cents admission to all plays.

The plays are being judged by members of the faculty at the Lubbock High school auditorium. Miss Annah Joe Pendleton, head of the speech department, announced yesterday.

Conference AA plays from Lubbock and Amarillo were judged last night beginning at 7:45. At 9 a.m. today Conference A plays including "As You Like It", "The Severed Cord", "Young As You Look", "Our Town", "Joint Owners In Spain" will be presented by high school groups from Andrews, Floydada, Memphis, Perryton and Slaton.

At 1:45 p.m. a series of plays, including "The Wasp", "The Patchwork Quilt", "High School Daze", "The Sister's Macintosh", "Suppressed Desires", "Who Gets The Car Tonight", "When You Marry The Navy" will be presented by groups from White Deer, Shallowater, Olton, Canadian, Anton, Friona and Lakeview.

Strout Will Face Trial Monday On Marijuana Cigarette Charge

Tech EE Students In Dallas Meeting

Members of the Southwest district of AIEE, fraternity of electrical engineers, met in Dallas April 19-21 said Tom Stenis, professor of electrical engineering. The AIEE students branch met simultaneously to hear speeches presented by professional men of engineering.

The program is planned about the theme "What Electrical Engineers Can do to Meet the Needs of the Growing Southwest." Tech will be represented at the convention by sixty-five students and three faculty members.

Barney J. Carr, senior engineer from Big Spring, will represent Tech in the college speech competition with his speech on uses of coupled circuits.

Those who attend will be taken on field trips to Chance-Vought Aircraft company, area television stations and the research power plants in Dallas.

M. J. Smith, Tom Stenis and John I. Stribling of the electrical engineering department will accompany the group.

Hal Boyle says: "Fears are the only thing that multiply faster than rabbits."

Malvina Stephenson To Address Journalism Congress, Theta Sigs

Miss Malvina Stephenson of Washington, D. C., a news and radio correspondent, will be featured twice during the Southwestern Journalism congress slated for April 29-30 at Texas Technological college.

Miss Stephenson's present professional activity includes writing weekly column "Mirrors of Washington," distributed by North American Newspaper alliance, and handling all NANA correspondence in Washington concerning women in the news. Also she is regular correspondent for Cincinnati Times Standard and Tulsa Tribune and the San Diego Journal.

As a member of the American Broadcasting company's stand-by staff for news programs, Miss Stephenson is responsible for programs on the "lighter side of news."

Last summer Miss Stephenson had time for an article, written with a friend, on Mrs. Dwight D. Eisenhower, entitled "Ike's Silent Partner" which was published in the American magazine.

Since arriving in the nation's capital via some time on a country weekly in her native Oklahoma and a few years as a reporter on the Tulsa World, Miss Stephenson has written primarily about the distaff side of official Washington.

From Sapulpa, Okla., high school she gradually realized her girlhood ambition, a working place in the Washington press. She started her career as feature editor of the Moccasin Print, a high school paper, in a one-time Creek Indian village. After taking a degree leading to a school teaching position in Oklahoma, Miss Stephenson decided to train more exclusively for newspaper work and finished her master's degree in journalism at the University of Oklahoma. Following a short training time on a country paper, Miss Stephenson was employed as feature writer and reporter on the Tulsa World.

While at Texas Tech as a guest speaker for the congress, Miss Stephenson will address the Matrix Table, annual Theta Sigma Phi observance, the evening before the congress officially opens, and later be a featured speaker the opening morning at a general assembly.

Theta Sigma Phi chapter at Tech, national professional fraternity for women, is inviting the attendance of all other members from other school chapters who will attend the congress and a number of alumnae Theta Sigs in Lubbock. Miss Stephenson will discuss the work of a free-lance cor-

respondent and some of the techniques in covering Washington news.

At the general session open to all student and faculty delegates, Miss Stephenson will go into the mechanics of covering Washington news, and "breaking into journalism."

CONGRESS COMMITTEE HOLDS FINAL MEET

Final meeting of the planning committee for the journalism congress was held Thursday to review the progress of the various sub-committees. Prof. Cecil Horne, head of the journalism department, stated.

A new committee was appointed to work out space limitations at the dinner dance to be held at the Lubbock Country club. The com-

Interscholastic League Meet Ends Today

Region One of the Interscholastic League got underway yesterday with approximately 1,000 high school contestants competing in Class AA, A, and B events.

Contests today will include preliminaries and finals in debate, tennis and track, declamation, journalism, typewriting, shorthand, extemporaneous speech, ready writers, number sense, and slide rule.

Yesterday's events included contests in one-act play, preliminaries in tennis, and preliminaries and finals in track and field.

Literary winners are awarded ribbons from Ad-325. The athletic awards will be at Tech field.

The regional winners will go to the state meet in Austin, May 6-7.

NEW BSU OFFICERS

New officers of the local Baptist Student union are attending the spring retreat this weekend at East Texas Baptist college in Marshall. Vestor Wolber, teacher at the Baptist Bible chair, said.

Purpose of the meeting is to formulate plans for BSU activities next year. Miss Hallock, director of the Baptist Student center, accompanied the officers, Wolber said.

"Words of four letters or less make up 50 percent of writing," says Dr. Ernest Horn, professor of education at the University of Iowa.

Four Tremors Are Recorded A Month

"Most students think that there is an average of one or two earthquakes a year," said Dr. Leroy T. Patton, professor of geology and director of Tech's year-old seismological observatory. "Contrary to this, we record an average of four tremors a month in our laboratory."

A summary of earthquakes recorded at the observatory by Doctor Patton and his associates during March, 1949, is as follows: March 4: Kindu Kush range of the Himalaya, Afghanistan, Asia. March 9: Central California. March 13: Northern Chile. March 14: Off the northern coast of California. March 27: Celebes Sea, off southern coast of Mindanao, Philippine islands.

Louise Fargher, regional Camp Fire Girl leader, will return the first week in May to complete work with college girls that was begun in January.

Offices in the new stadium have been painted. The walls are pale green and the ceiling is white.

Rushing To Go To Accounting Meet

Dr. Reginald Rushing, head of the department of accounting and finance, will take part in the Second Annual Accounting Conference of the Agricultural and Mechanical College of Texas to be held at Texas A&M April 26 and 27, it has just been announced at the college.

Doctor Rushing will be the leader April 27 at a conference discussion on "The Influence of Taxes on Management Decisions", following presentation of a paper on that subject by T. Dwight Williams of Oklahoma City, a past president of the American Institute of Accountants.

Others on the program will be Stanley H. Ruttenberg of Washington, director of the Department of Education and Research of the Congress of Industrial Organizations; Harry D. Hopsom of Houston, president of the Texas Society of Certified Public Accountants; and Marquis G. Eaton, San Antonio, a past chairman of the Southern States Accountants conference.

Committee includes: Clark Schooley, chairman, Anita Oliver, Glens Winston, Franklin Grant, Clint Formby, and Charles Schafer.

Tech students who register for the congress must complete registration by Wednesday noon. Professor Horne said. Official journalism congress badges obtained through registration will permit admittance to the social events. Lecture sessions will be open to all Tech students who wish to attend. Professor Horne announced.

One of the campus courtesies to be extended visitors and Tech students who have registered will be a barbeque "with all the trimmings" at noon Saturday in the stock judging pavilion, said Edid McLeroy, chairman of the barbeque arrangements.

The meal will be prepared and served by the Honorary Agricultural club. All members are to be there in western regalia to act as host.

'Spring Jamboree' Is Theme Of Socii Sport Dance

Whitacre-Hampton Vows Read At First Presbyterian Church

Wedding vows were exchanged by Sylvia Inez Whitacre and John Thomas Hampton recently at the First Presbyterian church with Dr. Jack M. Lewis, pastor, officiating. Both the bride and bridesroom are juniors at Tech. The bride is a member of Sans Souci social club, Alpha Om, Alpha Lambda Delta and Junior council.

After a wedding trip to New Mexico the couple will be at home at 1507 Sixteenth.

THOMAS-ORR

Juanita May Thomas became the bride of Tom Edwin Orr in a ceremony held recently at the First Christian church. Rev. Travis White officiated.

On their return from a wedding trip to Mexico City, they will be at home at 3217 Ave. G, Fort Worth. The bride is a former Tech student.

TARTER-GAZE

Betty Jo Tarter and James B. Gaze were married in a double ring ceremony held recently at the First Baptist church, with Rev. A. W. Blaine, pastor, officiating.

After today the couple will be at home in Muleshoe. The bridesroom is a former Tech student.

PAYNE-BICKEY

Polly Payne became the bride of

Club Entertained At Lubbock Hotel

Socii social club entertained with a sport dance last night at the Lubbock hotel. "Spring Jamboree" was the theme of the affair attended by members, pledges and their dates.

Members and their dates who attended were Dickie Buchles, Frances Gibbins; Winifred Chunn, Joan Brown; Winston Churchill, Jane Skinner; Robert Lee Craig, Mary Byars Turner; Durwood Crawford, Mary Harrel; Donald Devenport, Jeannine Smith.

Jimmy Easley, Pat Everett; James Keller, Janelle Turner; Clint Formby, Margaret Clark; Andy Griffin, Amanda Berry; Charles Hajack, Guy Reeves; Gene Hamilton, Thelma Cantrell; John Hill, Mary Lou Moore; Bob Martyn, Dorothy Hayes; Holmes P. McLish, Bonnie Holland.

Robert Morris, Norma Holton; Steve Payne, Patsy Ater; Don Reeves, Peggy Abernathy; Austin Rose, Marie Gekas; Mack Sated, Len McKay; Don Sloan, Harris Xen; Barron Spaulding, Joy Sawyer; Tom Ward, Betty Jean Phillips; Wellborn Willingham, Maxine McCullum; Leo Southern, Betty Willis; Andy Willingham, Mary Alice Christian; Bill Wilson, Jean Garnett.

Pledges and their dates who attended were Jackie Brock, Jean Greer; Noah Lee Cromer, Peggy Carter; Chris Daugherty, Barbara McGee; Lynn Duncan, Jean Thompson; Jack Lorinc, Sue Baker; Jerry Sehon, Lucille Seybold; Travis Tadlock, Anne Hills; Jimmy Whitaker, Marly Allen.

Also attending were Mr. and Mrs. Fred Libby, Mr. and Mrs. Albin Rippstein, Mr. and Mrs. Joe L. Terry and Mr. and Mrs. Harley D. Woods; Tommy Bailiff, Royce Blankenship, Wayne Brown, Claude Donaldson, Ben Fortner, Kelly Harwood, John Hall, Bill Hankinson, Myron Harris, Neal J. Reed, Zackie Reynolds, Bob Roper, Don Shirley, David Smith, Albert Troost, Colby Williams, Frank Ebner, Sammy Hale, Jack Miller, Bob Morris, Dick Nunn, Tommy Riggs, Bill Velvin, Wade Vandell and Bevis Hanna.

WICC Breakfast At Lubbock Sunday To Fete Women's Club

Scholarship cup will be awarded to the women's social club having the highest scholastic standing for the fall semester at the annual breakfast sponsored by Women's Inter-Club council at 8:30 a.m. Sunday at the Lubbock hotel, announced Marie Harrison, faculty sponsor.

Mrs. Margarette W. Walker, dean of women, will present the award. New club presidents are to be introduced by retiring club presidents and a short skit will be presented by each club.

Special guests will include sponsors from each club and Miss Jane Hanson, assistant to the dean of women.

COMMUNION BREAKFAST

Evangelian club will hold a communion breakfast at 9 a.m. tomorrow in Parish hall of St. Elizabeth's church, Bill Luke, president of the club, said.

Dr. C. E. Qualia, head of the foreign language department, will be main speaker. His subject will be "Integrating Religion with Student Life."

Delegates to the South-Central Province Convention will give reports on the activities there, Luki said.

STD BANQUET

Officers for Sigma Tau Delta national English fraternity, will be elected at its annual banquet at 7 p.m. Monday night, in the Hilton hotel, Ralph Bucy, president of the organization, said.

Dr. W. E. Gates, sponsor, is to give a speech on O. Henry and his works at the banquet.

Decorations will be in club colors of red and black.

TBS OFFICERS

Tau Beta Sigma, national honorary band sorority, elected officers for the coming year in a meeting Wednesday night, Alene Whitty, treasurer of the organization said.

Norma Eiring was elected president, Irma Beaver, vice-president; Betty Boone, secretary; Noyce Jennings, treasurer; and Annie Paschall, parliamentarian.

FACULTY CLUB PICNIC

The annual spring outing of the faculty club will be a barbecue May 19 at the barbecue pit at MacKenzie State Park, S. M. Kennedy, president of the club, has announced. New officers for the club will be elected at that time.

AWES REPORTS

Reports from Tech delegates who attended the Intercollegiate Association of Women Students convention will be given at the AWS council meeting Monday, said Miss June Hanson, assistant to the dean of women.

Louis Cone, retiring president; Levora Manning, president elect, and Kathryn Witty, vice-president, attended the convention held April 12-17 in Albuquerque, N. M. The officers were accompanied by Miss Hanson.

SECRET LOVES

Secret loves were revealed last night in a party in Fellowship hall of the First Methodist church, Rev. Cecil Matthews, director of the Methodist student center, said.

Several weeks ago students drew names of their secret love and have done favors for that person without revealing names until last night.

Another activity of the center will be the presentation by the Wesley players of "Simon, the Cyrenean", a one-act play, at 8 p.m. tomorrow during church hour at St. John's Methodist church, Rev. Matthews, said.

Jean Potecet and Gloria Spradley, senior foods and nutrition majors, have been appointed dietitian interns in Ohio State University hospital and Iowa State University hospital, respectively.

Initiation Ceremony Held For Nine APO Pledges

Alpha Phi Omega, service organization for former Boy Scouts, initiated nine pledges Thursday afternoon in the Aggie auditorium, Earl Monteith, president of the organization said.

An anniversary banquet honoring new members followed the initiation at Phil's Ranch house. Principal speaker for the evening was D. M. McElroy, president of the Ex-Student's association.

New members are Thomas Roberts, Donald Shibley, Max Hardesty, Robert Sloan, Russell Lawson, Doyle Tye, James Southwell, Charles Roden, Wilson Youngblood.

Lee D. Dickey in a ceremony read recently in St. John's Methodist church. Dr. M. Norvel Young officiated.

Upon their return from a wedding trip to Dallas, they will make their home in Lubbock. The bridesroom is a junior engineering student at Tech.

KLEFFER-EPASKE

Velma Keller and Malcolm B. Traser were married in a candle-light double ring service read recently in the First Methodist church by Dr. H. L. Robinson.

The bride is a graduate of Tech where she majored in home economics. She is a member of Epistol Sigma Alpha sorority.

COBB-JONES

The wedding of Betty Ruth Cobb and Lamar Jones took place recently in the First Christian church in Clovis, N. M.

Dr. William F. Simmon, pastor, officiated in the single ring ceremony.

The bride is a former Tech student where she was a member of Las Chaparritas social club. After a wedding trip to Bandera, the couple will be at home at 1204 Twythe in Plainview.

BRAY-GRISWOLD

Hermanell Bray became the bride of James A. Griswold in a double ring ceremony read recently in St. John's Methodist church, Rev. E. H. Crandall officiated.

The bride is a former Tech student where she was a pledge of Las Chaparritas social club.

The bridesroom is a senior pre-med student at Tech. After a wedding trip to Santa Fe, N. M., the couple will be at home at 2114 Twenty-fourth.

DIXON-CAMPBELL

Addie Mae Dixon and Calvin Campbell were married recently at the Merkel Methodist church parsonage. Rev. Robert L. Butler officiated.

The bridesroom is a junior business student at Tech. The couple will be at home at 2523 Ruly.

For Rhythm and Romance... Martha Tilton in "I'll Remember April" (A CAPITOL RECORDING)

YES, MARTHA, THE 30-DAY TEST CHANGED ME TO CAMELS FOR KEEPS. FOR TASTE AND MILDNESS, I'LL TAKE A CAMEL EVERY TIME!

I FOUND THE ANSWER TO CIGARETTE MILDNESS YEARS AGO, DICK. IT'S CAMELS! AND THEY TASTE SO GOOD!

Martha Tilton invites romantic memories in this easy-paced dream number! Martha picks her songs with care. And she's particular about her cigarettes, too! "It's Camels for me!" says Martha. "They're my choice for flavor—and Camels are so mild!"

for Taste and Mildness—**Camels!**

In a recent coast-to-coast test of hundreds of people who smoked only Camels for 30 days, noted throat specialists, making weekly examinations, reported

NOT ONE SINGLE CASE OF THROAT IRRITATION due to smoking CAMELS

Martha Tilton takes a recess to talk with Dick Haymes, popular Hollywood radio personality. They reach a quick agreement on Camels.

Philosophy, Not Facts Desired In Education

For graduating seniors, hastily looking back over four or more collegiate years, there might arise the question of just how well they have been prepared to meet the responsibilities of holding a job and making a living.

For them, the college has done just about all it can do. Feeling inadequate to meet the future, some may look back and wish for another chance to learn that which they have by-passed. Others may heave a sigh of relief, realizing that it is almost finished. Whatever the sentiments, each has gone to school to gain an advantage over his fellow man; to acquire potential for quick advancement. And when he faces the world and that new job, he will find many qualities, unattainable by college study, required of him.

He may find that mass of fact acquired at midnight crammings of little use. This is indicated by an article, by Dr. Frank M. Surface of The Standard Oil Company of New Jersey, published in *The Lamp*. Drawing from his experiences with some hundreds of young college trained men and women, Doctor Surface listed personal integrity and mental honesty high on the scale of characteristics expected of the product of our American college system.

"The kind of training we are interested in," he said, "is not necessarily that which crams the student's mind with facts—particularly isolated facts. Rather, it should be the kind that develops a philosophy—a relation of one fact to another and the general scheme of things.

"Next, we want employees who can think for themselves, who are or can become self starters, who are constantly offering new ideas and new suggestions. These are the marks of a good employee who is likely to become a leader in his field," he said.

"Industry has a right to expect that a college-trained man or woman whom it employs will have a good understanding of our economic system and the forces that make it work, an appreciation of our American competitive enterprise system . . ."

Dr. Surface also pointed out what he considered to be the greatest fault of college educated men and women with whom he had come in contact.

"Too often," he said, "young employees who are capable in other respects cannot set down their ideas in succinct and forceful English. It is a serious handicap because, however good ideas may be, they are worthless unless we can sell them to other people. All of us have to be salesmen. In the first place, we have to sell ourselves and that is a never ending job."

"I've been going out with a Frenchman and I want to learn what he keeps whispering to me"

Letters To The Editor

Box 62, Tech Station
Lubbock, Texas
April 12, 1948

Toreador Editor
Texas Tech
Lubbock, Texas

Dear Editor:

In the past two years I have noticed two flaws in our student government, namely, no provision for absentee voting, and graduate students are not allowed to vote. Provisions for absentee voting have been made, yet when I asked to vote today I was refused.

It seems to me that even though graduate students are not allowed to hold office we could at least vote and feel like Texas Tech is glad to have us around the campus.

Sincerely yours,
Floyd E. Camp

BY FRANK McNEILL

Crumbs Of Wisdom

Every young man should learn a trade (I'm going to learn mine down where the trade winds blow—it should be easier there). If you are still young when you get out of college, you might like the idea of earning a good honest living by the good honest sweat of your good honest brow. If you want to work up a coal sweat, there is no better opportunity for you than in coal digging (Women usually prefer to become gold diggers. They claim that is more profitable).

There are two kinds of coal (some authorities will in all likelihood point out that I am wrong about this but it sounds better the way I have it). There is soft coal and there is hard coal. Hard coal is the kind we are interested in because it is probably harder to dig out and will cause more sweat. Hard coal is called anthracite (no doubt, the mere mention of this name will bring moist tears brimming to the eyes of many who have poignant memories of a tender old black mammy crooning a soft lullaby, but this has absolutely no bearing on the story).

Hard coal is found in a number of places. Pennsylvania and South Wales are the ones that is referred to mention any more. Far be from me to profess to be any smarter than Webster. People might begin to think I was conceited. As I was saying, there are

two places mentioned in the dictionary. Pennsylvania is closer but you could probably have more fun in South Wales. (I will discuss Wales sometime if there is enough demand)

Anthracite is found in deep holes called damned old holes, mines, or pits. Men who eat their lunches down in these pits call them snack pits. Sometimes the pit caves in and mashes the miners. When this happens, the stiff, or cadavers, if you prefer, are jocularly referred to as being stone coal dead in the car pit. There is a lot of legislation under way now to prevent the making of messes on the car pit. A fellow with bushy eyebrows named John L. Lewis is behind most of it. You might read about him sometime. A lot of jokes have been made about this fellow but I can't recall any of them at the moment. Some of them are very funny. You'd laugh like-crazy.

There are several things that you probably would not like if you were to become a coal miner. One of these is that the work is very dangerous. As I have already said, the mine sometimes caves in. When this happens, the mine is referred to as being mine over matter. The miner is usually part of the matter. There are other faults too. In many parts of the world, miners are not allowed to vote or drink beer. This thought, is only a miner objection.

EL TORO GRANDE

Parsley Gives Reasons For Voting In Elections

(EDITOR'S NOTE—Bill Parsley, freshman speech major from Lubbock and director of the 1949 Varsity Show, is today's guest columnist.)

★ ★ ★

To most of the student body of Texas Tech, congratulations for the fine way in which they turned out for the recent student body elections.

According to Clint Formby, this year's president of the Student Council, 47 per cent of the students enrolled here went to the various voting booths set up on the campus the 12th of this month and cast their votes for the people they wanted to represent them on the Student Council.

The 47 per cent that DID vote, did so because they have an interest in the affairs of the college. They weren't too busy to take three or four minutes and go mark a ballot in their division. They, the 47 per cent, are the ones who will know the people that will represent them in matters that are of great importance to any student body.

But how about the other 53 per cent; the students who showed no interest at all in any part of the election? They are the ones who will do the griping next year. They will gripe, curse and berate their student leaders because they made no attempt to have a hand in the election of them. They will continue to complain about the way certain aspects of college life are forced upon them, and then in complete ignorance, blame others, when THEY and they alone are responsible for not having the sort of representation they really want.

Why? Why can't at least 85 per cent of any college student body get out on election day, go to the polls, and vote for people they want in office. Why can't they? Simply because they do not have enough interest to take time out and consider a school election important. It's nothing to them at the time. But later on when they have no chance to have a say in matters, it suddenly becomes important just who is representing them in school affairs. If only each student would realize that it is his own personal business to get out and vote, then and only then, would there be a chance for overall student satisfaction.

It is in the end, all up to the individual. And once again to the 47 per cent of individuals here on Tech campus who voted in the first election, congratulations for taking an interest in YOUR school.

Have a time and a place for everything, and do everything in its time and place and you will not only accomplish more, but have far more leisure than those who are always hurrying, as if vainly attempting to overtake the time that had been lost.—Tryon Edwards.

Professor: I'm letting you out ten minutes early. Go quietly, so you won't awaken the other classes.

Government Prof Rates Excellent With Students

Dr. Davis's Primary Interests Are Teaching, Young People

BY MARJEAN KITTS
Toreador Staff Writer

"My teaching career is of primary interest and enjoyment to me, along with the association of young people," Dr. J. William Davis, professor and head of the government department, says.

This statement may well be understood when consideration is taken of the many friends Davis has made, especially among Tech students. Remarks such as "Isn't he wonderful?" and "He is so handsome!" may be heard among the women students. His popularity does not stop with the women, however, as men students think "he's a swell guy."

As the students' choice for teaching and cooperative excellence, he was awarded a plaque by the Vicious Circle, a 1947-48 Toreador column.

Davis came to Tech in the spring of 1938 with a period of teaching experience behind him. "I studied Tech carefully and chose it from three offers because I felt it had a big future," Davis said. "Then too, I felt I had rather live in Texas than any other state," he added.

Music and sports are predominant in Davis's past and present life. While teaching at Victoria, Texas, in 1929-30, he directed the orchestra and band. He also played in many orchestras during summer and vacation time.

He was coach of athletics at Lometa, Texas, from 1932-36 and assistant coach of football at Coleman in 1931-32. He states that he has always enjoyed sports and likes to participate in them, but only has time for an occasional game of golf. He is chairman of the athletic council.

Davis attended John Tarleton Junior college in 1924-25, received his BA degree from A & M in 1928, his MA degree from the University of Texas in 1931, and Ph.D from the University of Texas in 1940.

He married the former Edwena Barnes in 1933 in Austin. They have three children, two boys and one girl. He is a member of St. John's Methodist church.

Active in college and public activities, Davis is chairman of the government section and member of the executive council of the Southwestern Social Science association and the American Political Science association.

He has membership in Pi Sigma Alpha, honorary political science national scholarship fraternity. Davis is speaker at many study clubs, civic organizations, and high school graduation exercises. He is a representative to the council of deans.

During the war, Davis was coordinator of the 309th Aircrew, College Training Detachment at Tech, 1943-44. He has been elected as member of the faculty advisory committee three times and served as vice chairman two years.

Davis's teaching experience includes: principal of high school at Lometa, 1932-36; graduate teaching assistant 1929-30 at Texas A & M; instructor in summers of 1932-33 at Schreiner Institute; instructor in government department at Tech in 1938-40; assistant professor 1940-42; associate professor 1942-44; became professor and head of the government department in 1944.

Organizations on the campus of which he is sponsor include the local chapter of Pi Sigma Alpha and the Silver Key social club.

DR. J. W. DAVIS

Beef Production Class Return From Field Trips

Tech's beef production class has returned from Balmorhea, Tex. after visiting the Texas Agricultural Experimental station, Stanley E. Anderson, assistant professor of animal husbandry, announced Thursday.

The purpose of this field trip was to observe the results of the seventh annual experiment in progeny testing of beef cattle sires.

Wednesday the beef production class went to Spur, to observe agricultural experiment work at the experimental station there. Vitamin A efficiency in beef was studied in connection with the difference in Jersey and Hereford meat.

MATH FACULTY

Faculty members in the mathematics department are planning to attend a meeting of the Association for Advancement of Science May 2-6 in Alpine. Dr. Emmett Hazlewood, head of the department, announced Thursday.

Professors R. E. Heineman, R. S. Underwood, and Hazlewood will represent the mathematics department at the meeting. Other science departments are also planning to send representatives, Hazlewood said.

Tabloid Newspaper Features News Of Drifting Techsians

BY JEANNE DUDLEY
Toreador Staff Writer

After only three years of publication, the Ex-Students News, published monthly by the Ex-Students association of Tech, has approximately 7,500 circulation.

The paper, a four-page tabloid, is financed by the Alumni association and is sent out free of charge to everyone on the mailing list. All an ex must do to receive the publication is to send in his name and address. "We take the graduate list every semester and try to find the correct addresses of all the students," Miss Fry said. The paper is sent to as many alumni as possible.

Stories in the publication feature the activities of the ex's and also the current news of the college. The ex-students send in much of the news; in fact, the submitting of stories by alumni is a chief source of copy. Birth announcements, wedding invitations, clippings from newspapers, and letters are received from exes every day.

Four regular columns appear in the paper. They include "From Ex To Ex" which is an editorial column about the current issues at Tech; "Drifting Techsians", which lists the occupations, home addresses and various accomplishments of alumni; "Cradle Rockers," a birth announcement feature; and "Knot Tiers", giving major details about recent weddings of ex-Techsians.

Each month, the paper is mailed to 500 towns in Texas and is also sent to most of the states in the United States. More are mailed to New Mexico and Oklahoma than other states. Students residing in Mexico, South America, Venezuela, and Guatemala are also on the mailing list.

Someone is always coming in to tell about a new job, and newly married women are always writing in to ask the editor to change the name on the mailing list, Miss Fry said.

In her column "From Ex to Ex" recently, Miss Fry cites some of the answers received on questionnaires sent out for the files of the Alumni association. Answering the question "Married?", such quips as "hopeful", and "still looking," were given.

One fellow said "I am not married and see no chance of remedying the situation in the future." Miss Fry also explained that when the husband filled out the card, the wife was usually listed as unemployed or as a "homemaker" employed by her husband. One truthful spouse listed her as "chief cook and bottle washer."

Former editors of the paper include Bea Green, first editor in 1946, Ellen Miller and Margaret Allen. Miss Fry assumed the position in September of 1948 after her graduation from Tech in August.

Hurley Carpenter of Lubbock is president of the Ex-Students association, and D. M. McElroy serves as secretary.

DEANS, COUNSELOR RETURN

Mrs. Margarette W. Walker, dean of women; Mrs. Lorraine Hudson, assistant to the dean of women; and Miss Gertrude Miller, counselor for Women's Dorm III, will return to Lubbock today from Chicago where they attended the National Convention of Deans of Women.

Modern Dancers Scheduled Tonight

The Texas State College for Women modern dance group will appear at 8:15 p.m. Monday in the Lubbock high school auditorium in a dance recital under the sponsorship of the Tech women's physical education department.

A lecture demonstration is scheduled for 9 a.m. Monday at the high school for women physical education and high school students, Miss Sue Rainey, physical education assistant professor, has announced.

The group is directed by Dr. Anne Schley Duggan, head of the Tech physical education department. Tickets, 60 cents student admission and \$1.20 for adults, are on sale in the Administration building and at Lattimore's Gift shop.

Mrs. George B. Jones, the former Pat Smoot, class of '48, is in Big Spring where her husband is assistant general manager of Truman Jones Motor company.—Ex-Students News.

Profs Bring Radio Into Play For Chess Games With A&M

Chess is being given a new twist this weekend as two Tech professors play the game by radio against opponents at Texas A&M.

This evening in E-256, Dr. R. S. Underwood, professor of mathematics, and Dr. A. L. Strout, professor of English, will be planning strategy and moving figures across the chessboard at the same time their opponents 400 miles away maneuver pieces over a board in competition.

The connecting link will be radio. As each side establishes a move, information will be broadcast. When the moves of the A&M men are received at the Radio club building on this campus, they are to be phoned over a recently installed relay to the Engineering building where the Tech teachers will move their chess pieces according to radioed directions.

Last night the first game with the south Texas school was played, also by radio.

The Radio club building is to be open for inspection while the match is in progress and during

the Engineering show today.

The club is to be one of the hosts to radio hams from Oklahoma, New Mexico, and Texas who will gather in Lubbock today and tomorrow for a "hamfest" conducted by the South Plains Radio club, T. Bruce Craig, convention chairman, has announced.

Attendance is expected from a radius of 400 miles, he said.

Registration at the Lubbock hotel will be completed in time for hams and their guests to attend the Engineering show this afternoon, he stated. The sightseeing tour is to include exhibits and demonstrations in electronics and radio.

Afterward delegates will go to the Naval Reserve armory for a dutch supper.

Other plans for the convention include visits to ham stations in this city and code test examinations to be given by a Federal Communications commission examiner.

There will also be speeches, demonstrations and prizes at a dinner tomorrow.

Intramural Ball Program Delayed

Wet ground has prevented any intramural softball games being played since the Easter holidays.

All softball team managers are requested to fill out a score slip after each game. The information sheets are available in the athletic office next to the bulletin board.

JOBS NEEDED

More short hour jobs for women students are in demand, said Miss June Hanson, assistant to the dean of women.

Most women do not want steady employment, but prefer to work approximately eight hours each week, she explained. Campus office work is given first preference by a majority of the applicants, Miss Hanson said.

Mrs. Cecil Turner, social director for Women's Dorm IV, has returned to her office after a brief illness.

Air Force Officer To Explain Pilot Training Program Here

The opportunity for pilot training and a career as an officer with the United States Air Force which is open to qualified college men will be explained to Texas Tech men May 24 by a special Air Force Aviation Cadet team, Lt. Col. E. P. Riordan said today.

Men, single or married, 20 to 28½ years old, and physically fit, with two or more years of college, will have the opportunity to provisionally qualify for the flight training immediately when the traveling Aviation Cadet team meets here at room 110, Ad Bldg., Veterans' Counsellors Office, Colonel Riordan said.

The team is headed by Maj. Julian Denny and is one of several which is visiting colleges throughout the country.

This is their second visit to Tech this school year.

Men who volunteer and are accepted for pilot training with the

Air Force will receive their basic flight training in Texas.

Successful cadets will be given their pilots' wings and commissions as second Lieutenants in the Air Force reserve after only 12 months of training.

Aviation cadet classes begin eight times a year, or approximately every six weeks, and the top men in each class receive direct commissions in the Regular Air Force. All graduates have the opportunity to apply for regular commissions during their active duty tours.

On May 24, the aviation cadet team will be prepared to administer all preliminary examinations to flight-training applicants. Those who meet the requirements at the time need only take the final physical examination and complete an interview later before being finally accepted and assigned to a class

You Frigid Or Is It True Love? Engineering Gadget Is Answer

By DOROTHY FORSYTH

Toreador Staff Writer

What is a Kiss-O-Meter?

I first started hearing about this fabulous contraption at supper Friday (last night). That was the first day of the Texas Tech annual Engineers' show. On my inquiry, my engineer date said he would not only show the object to me but he would demonstrate its usage. All was to be one in the interest of science, of course.

I was literally forced through all the other exhibits of engineering skill All the while my curiosity was growing.

I kept overhearing conversations in which everyone was laughing and saying such things, "Say, George, you and Betty didn't get past frigid." I thought that they might be speaking of some exhibit in the physics show. My date told me that he was talking about the aforementioned gadget.

I didn't want to appear too ignorant of engineering, so I tried to keep a conversation going. When we came to the exhibit of curing concrete in the civil engineering show, I was completely stumped. I always thought they just poured it and let time take care of the rest. In architectural design, I felt a little more at ease. I had seen building plans before. The talk did lag though, because I kept wondering about this Kiss-O-Meter.

At long last, who came downstairs, rounded a corner, and there it was. The electrical engineers had rigged up a booth, and overhead on the outside there was a device to register kisses. The

gauge to register kisses went all the way from "frigid" to "true love." The kisses were administered on the inside.

Still curious, I was rather rudely shoved into this thing that was drawing such a large crowd of spectators. I was told to hold on to a metal handle with the word "her's" written above it. My date held a similar object with "his" above it.

At this point I began to wonder if I was going to be electrocuted and why everyone outside was laughing. Wasn't it all in the interest of science and my feminine curiosity?

I was told by a strange young man to relax and let my escort do the work. I relaxed, was soundly kissed, and heard "ooh's" and "aahh's" outside. I was just getting used to science when a guy on the outside said "Say, are you two married?"

My first venture into the world of science ended. My curiosity was partially satisfied after my boy friend explained that the machine has a current, and the more body contact the couple has, the more the meter registers. But, I still wonder.

Raiders' Spring Grid Practice Draws Many Schoolboy Stars

BY BILLIE CREAGH
Toreador Staff Writer

Many schoolboy athletes visited Tech during the spring training session just concluded. Some were interested in football or basketball only, but a few of them were interested in both sports.

Some of these boys visited Tech on the recommendation of Tech students and former students. Among the ex-students, probably Truitt "Juley" Owens, coach at Arlington Heights high school of Fort Worth, has sent the most prospects to visit Tech.

Owens' 1948 schoolboy squad won the city conference championship, and many of the boys on the first squad spent a few days on the campus during spring training. These were: Gene Doss, a 2-year quarterback at Arlington Heights who has already enrolled here; Robert Snow, a left half back; Bob Thomas, right end; and Bill Georges, right tackle.

Melvin Griggs, a 1934 Double T man, and at present, assistant coach at Sweetwater, sent James

West, a center, and Raymond Rodgers, a guard, to visit Tech.

Four boys from Lubbock came out to the practices periodically. They were Bill Bridges, Henry Bates, Max Steger, and Jack Davis.

Other boys who came from all over the state to watch the spring practice were: Bill Simmons, back, Crosbyton; Robert Sweet, back, Brackenridge of San Antonio; Horton Ustace, end, Archer City; Jerry Burney, guard, Archer City; Willard Mercer, guard, Brackenridge of San Antonio; Joe Sandlin, guard, Paducah; Hudson Routh back, Olney; Jim Turner, back, Olney; Dan Amon, combination guard and tackle, Eastland; Vernon Barron, tackle, Temple; Sam Jones, end, Temple; Joe Calloway, guard, Kenneth Cochran, quarterback, Pascal of Fort Worth; Jim Cornish, end, Arlington Heights; Kenneth Strickland and Gaston Williams, backs, both from Wellington; Joe Harrison, tackle, Burkburnett; Bud Haynes, guard, McKinney; Don McCord, back, Seymour; Jerry Compton, guard, Graham; and Roby Smaley, Claude.

Roland Elledge, a member of the All-State Class AA basketball team and center on the team that won the State championship in Class AA basketball, has been to Tech to look over basketball conditions and the possibility of attending Tech.

Elledge also plays end in football.

Bill Malone, Marvin Walker, Phillip Thomas, and Jack Russell, all from Joshua, Tex., visited Tech to watch spring workouts in basketball.

Joe Elam, a basketball center from Olney also was one of the many spring visitors.

Golf Tryouts To Be Held 3 P.M. Monday, Tuesday

Next Monday and Tuesday afternoons at 3 p.m., there will be another try-out for all persons who wish to qualify for the four-man golf team. The boys turning in the four lowest total scores for 36 holes will represent Tech at the collegiate golf matches the remainder of this semester. On April 20, the Tech golfers will play host in a return match with the New Mexico team.

Intramural Track Records May Fall In May 7 Contests

By HILERY MATHER
Toreador Staff Writer

Can you beat any of these track records?

440 yard dash	54.0
220 yard dash	24.0
100 yard dash	10.9
60 yard dash	6.9
30 yard dash	3.9
Half mile	2:24.3
440 yard relay	48.8
High jump	5'9"
Shotput	42'10"
High hurdles	18.4
Low hurdles	20.7
Softball throw	67 yds. 13"
Football throw	62 yds. 8"
Broad jump	19'9 1/2"

These were records made at the first annual intramural track meet last year.

"This year's meet, scheduled for May 7th, is expected to be a bigger event than last year's", announced George Philbrick, intramural sports director.

Team members should start working out as soon as possible, especially those who intend to enter running contests of 100 yards or more, he added.

Team managers must have a complete list of their team in the athletic office by May 4, and any person who desires to enter the track meet, but is not yet registered with a team, should notify Philbrick in the athletic office.

No one will be allowed to enter who has been on the Tech varsity team or on a varsity team of any college of a comparable size with Tech.

Each team will be limited to three participants for each event. Intramural track meet will be sponsored for the second consecutive year by The Toreador.

Ribbons will be awarded each winning contestant.

Women's Ball Tourney Slated 5 P.M. Monday

The women's social club baseball tournament begins Monday at 5 p.m. behind the gym when the O.P.D.'s meet the Vixis and the Ko Sharis play the Soucis. Jayne Thompson, president of WICC, has announced. The tournament will continue through Friday.

Official softball rules will be used for the first time this year in the annual event, and girls chosen by the women's physical education department will officiate.

Techsan Determined To Avenge Only Pro Defeat Tuesday Night

By OTICE GREEN
Toreador Staff Writer

Tech's determined Bill Henderson will be more determined than ever Tuesday night at Chapman field when he has a return fight with Jean Mouglin, former lightweight champion of France.

Henderson, winner of nine professional fights since he stepped down as Golden Gloves champion of Texas, received his only professional defeat at the hands of Mouglin recently in El Paso.

"Jean is the toughest man I ever faced. But I don't think he is too tough. I'm going to try to take him," Henderson, senior aggie, told a Toreador reporter Thursday night.

An expected sell-out house will witness the 110-round main event sponsored by the Lubbock Jaycees. The Jaycee ticket office in the lobby of the Hilton hotel reported Thursday that almost all the 3,000 tickets have been sold.

Henderson is in top condition for the fight. He has done five miles roadwork every morning

and has sparring every day for the past few weeks. He will continue to spar about an hour each day until the day before the fight.

His most dangerous punch is a cutting right-cross, and his left hook is greatly improved. He is a little faster than Mouglin.

Mouglin has a good left hook, a good straight right and is a smart fighter with many years of experience in the ring. Henderson dropped before his long, straight right in their first meeting.

The Frenchman is not too fast but has good hard punches. He outweighs Henderson about six pounds and has a small advantage in reach.

The Jaycees expect the proceeds to reach \$10,000 Tuesday night. Henderson and Mouglin are guaranteed \$1,000 each as the main drawing attraction.

The card will also match Gene James of Lubbock, and Dickie Brown of Amarillo in the heavy weight bout of the final. Brown is suffering from an eye injury which may not heal by fight time.

Spring Basketball Training Draws 27

Basketball Coach Polk Robison said that 27 men reported for basketball training Tuesday.

The only two lettermen who reported were Gene Gibson and Jiggs Jackson. Charlie Pinnell, a 1949 letterman, is a member of the track team and is unable to attend the daily basketball sessions at the present time.

Varsity squadmen reporting were Bill Eddins, George Belchoff, Weldon McClure, J. R. McAnally, Verdell Turner, and 1947 basketball squadman Joe Wheatley.

The 1949 freshmen present were: Irl Brown, Jim Sharp, Ted O'Neal, Don Bagwell, Jack Alderson, Doral Sandlin, Jim Eddins (brother to Bill Eddins), and Virgil Johnson.

"The big job is to find someone for the post position," said Robison.

Spring training will end May 20, and it is expected that many schoolboy basketballers will drop in to work out with the boys. Among those expected are: Charles Galey, Lubbock; Lewis Martin, Dimmitt; Derrell Murphy, Shallowater; Buddy Brock, O'Donnell; and Joe Elam, Olney.

Campus Champ!

You know what it takes to be a champion on the playing field: Speed! Stamina! Performance! On your study desk, you'll thrill to those same winning qualities in your own Underwood Champion Portable Typewriter.

You'll get along better with neatly typed homework and classroom papers.

You'll win the admiration of friends with your legibly-typed letters. You'll win more leisure for sports and other activities with the help of this speedy classmate.

So put this Campus Champ on your team. Don't delay... ask

Faculty Committee Releases List Of 50 New Courses

Dr. C. C. Schmidt, chairman of the courses committee for the 1948-49 academic school year, has recently released a list of new courses that will be offered at Tech next year. Doctor Schmidt is also professor and head of the physics department.

Other members of the committee include Dr. W. W. Youcum, Dr. R. S. Underwood, Dr. Ida Vernon, Mrs. Ethel Terrell, E. L. McFee and Mrs. Edna W. Buster.

The new courses are:

Accounting 532: CPA problems, graduates only.

Accounting 533: Budgeting.

Finance 231: Personal finance, home and business investment in real estate, personal property insurance, or securities.

Sec. 337: Report writing training in business and technical reports.

Sec. 338: Filing systems, procedures, practice.

Accounting 533: Current accounting theory, graduates only.

Eco. 3312: Economics of labor.

Management 436: Problems of office management.

Management 435: Employee supervision.

Chemical engineering 425-6: Unit operations laboratory.

Chemistry 5331: Advanced biological chemistry.

Chemical engineering 532: Chemical engineering design.

Chemical engineering 536: Distillation and absorption.

Chemical engineering 234: Engineering mathematics and calculations.

Chemistry 511-12: Graduate seminar.

Chemistry 5323: Qualitative Organic analysis.

Chemical engineering 537-8: Advanced work in special fields.

Chemical engineering: 431-2: Chemical technology.

Chemistry 5341-42: Advanced physical chemistry.

Chemical engineering: 601: Thesis.

Chemical engineering 533: Organic unit processes.

Chemical engineering 421: Fuels and combustion.

Chemical engineering 434: Chemical engineering thermodynamics.

Chemistry and engineering 5354: Biochemical techniques.

Chemical engineering 437: Advanced chemical engineering.

Chemistry 437: Qualitative organic analysis, graduates only.

Agronomy 512-3-4: graduates only.

Agronomy 531-2-3: graduates only.

Bible 223: Book of Romans.

Horticulture 531-2-3.

Agriculture economics 332: Advanced agricultural statistics.

Agriculture economics 427: Farm laws.

Applied art 427: Home planning.

Applied art: 412: Homes in U.S.

Applied art 436: Specific problems.

Education 437: Workshop on educational leadership and supervisory training.

Psychology 436: Personality and character development.

Animal husbandry 412: Dairy cattle breeding.

Animal husbandry, Poultry 423: Market of eggs.

Dairy manufactures 211: Advanced judging of dairy products.

Clothing and textiles 231: Clothing demonstrations.

Clothing and textiles 336: Textile appreciation.

Mathematics 436: Introduction to the theory of finite groups.

Geology 4314-15: Stratigraphy of southwestern U. S.

English 4320-21: American life and literature to 1860—since 1860.

Electrical engineering 601: Thesis.

Electrical engineering 521: Advanced laboratory.

Electrical engineering 531-2: Electron tubes.

Lubbock Theater Group Will End Season Tuesday

Lubbock Little Theatre will end its first season with the presentation of "Claudia" at 8 p.m. Tuesday in the Senior High school auditorium.

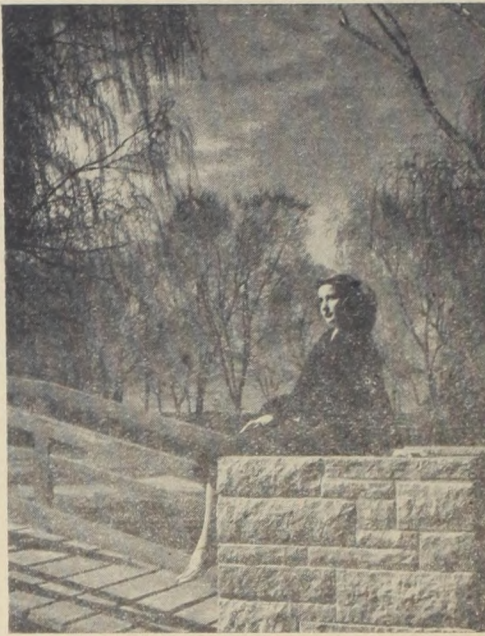

The title role is played by Betty Ferguson. Cast as her husband, David Naughton, is Dr. James Reynolds. The role of Claudia's mother is portrayed by Mrs. C. C. Caldwell.

Other members of the cast are: Mrs. Charles Musson as Bertha, the housekeeper; Bert McGinnis as Jerry Seymour, the English author-neighbor of the Naughtons; Chareen Ketchersid as Madame Darushka, an opera singer; James Droppelman as Fritz, Bertha's husband; and Mrs. G. H. Wilson as Julia Naughton, David's sister-in-law.

Director of the play is Mrs. Charles Cobb, instructor in English, who has directed two other productions for the Lubbock Little Theatre, "The Man Who Came to Dinner" and "You Can't Take It with You." She was starred in the group's version of "Jane Eyre."

Student tickets for the play are 60 cents and may be purchased in L-5 or in the speech office. Season tickets for the five plays to be presented by the Little Theatre in its 1949-50 season will go on sale Tuesday.

Jane Weaver, ex-Tech student, visited friends in Dorm IV over the weekend.

EXHIBIT—Showing work of photography students during the past year, the above shot taken in Mackenzie park is one of many pictures ranging from news to fashions that will be hung in the annual KAM print salon, April 29-30 in the Rec hall. Winning prints will be entered in a national contest early next month. Rickey Archer, senior journalism major from Granberry, was the model for this picture.

Students, Faculty Asked To Support World Student Service Fund Drive

Clint Formby, president of the student association, yesterday urged all students and faculty to support the World Student Service Fund drive which begins at Tech Tuesday.

The three-day campaign is to be conducted for the purpose of raising money which The WSSF will use to supply food, medical aid, books, clothing, and housing to students in foreign countries.

"This is the only drive that the Student Council has initiated this year, and this one is being held in the belief that it is a worthy project in which the college student's money can be of very great benefit," said Formby.

The campaign is to be conducted from booths in campus buildings. Since the organization of the WSSF, American students and teachers have given more than \$3,000,000 for the relief of hundreds of thousands of needy students and faculty members in Europe, China and Southeast Asia.

Primary among the WSSF's accomplishments has been the establishment of nine complete book publishing units for universities where libraries were destroyed.

The Fund has shipped abroad more than \$12,000 worth of laboratory equipment to universities in Asia and Europe, and has created or aided in the support of student rest centers and tuberculosis sanatoria in many nations.

The WSSF appeals only to college and university groups in this country, and it constitutes the only American source of help to university groups abroad.

The WSSF appeals only to college and university groups in this country, and it constitutes the only American source of help to university groups abroad.

BA Students Interviewed By S.H. Kress Representative

Business administration students and others interested in the field of merchandising will be interviewed by M. D. Richards, representative of S. H. Kress & Co. next week. Mrs. Jean Jenkins, executive secretary of the Placement office has announced. Students interested in the training program of that company may schedule individual interviews at the Placement office.

Vets Not In Summer School To File Change Of Address

"The mystery of the missing check can be eliminated," H. A. Anderson, veterans coordinator, said today. Every veteran who is not going to school during the summer, is asked to file a temporary change of address with the veterans coordinator, Ad-110, before May 10, in order to assure the veteran that he will get his May check which will be sent out June 1. Many veterans will leave Lubbock before these checks arrive, Anderson said, and they should not leave the responsibility to a buddy, dormitory system, or landlady of forwarding a check.

BOOKREVIEWERS

Joyce Byom, junior English major reviewed the book, "Peace of Mind," at a meeting of Bookreviewers, Thursday, the club reporter stated.

This book, written by the late Joshua Leibman, a Jewish rabbi, was the 1946 best selling non-fiction book. The subject is a combination of philosophy and religion.

Rodeo Association Team To Be In Roping Contest

Six members of the Tech Rodeo association will participate in calf roping contests in Abilene, April 28-30, Fred Widmoyer, association advisor, said Thursday.

Schools competing in the contests are Hardin-Simmons, Sul Ross college, Texas A&M, John Tarleton and Texas Tech.

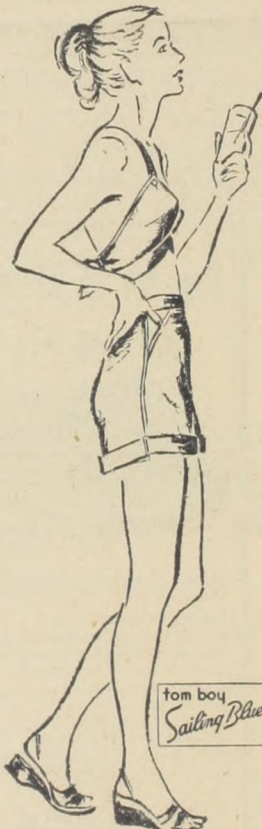

Tech's rodeo team which participated in the Interscholastic Rodeo contest in San Francisco, April 1-11, attended the National Intercollegiate Rodeo convention April 16 in Denver, Colo. The National Intercollegiate Rodeo association, which organized in Dallas last February, made plans for a constitution and by-laws in Denver.

GIRL SCOUT WORK

Women interested in working in Campfire girl camps this summer may secure application blanks from Mrs. Dorothy Davis, Deane hall counselor, Room 232.

Vacancies are open in camps located in Wichita Falls, Waco, Corpus Christi and Fort Worth, Mrs. Davis said. Preferences are given women who have a knowledge of some handicraft and have had two years college work. Length of the camp sessions varies from one month to nine weeks.

"It is important that women who are interested make contacts as soon as possible," she emphasized.

Spent the Summer in Denim

Pick yourself a crew of denims and you'll scarcely want anything else. Sketched are well fitting, well tailored plain shorts, with turned-back cuffs. With them, the matching bra when you take to sunning . . . an outfit designed to be a summer fashion high-spot.

Shorts, 3.50 Bra, 2.50
