DEADLINE—La Ventana Editor Bob Williams is discussing last minute page layouts with annual staff members in an effort to meet the March 1 deadline to engraving company. Left to right: Jayne Thompson, assistant editor; Williams; Paula Fix, and Don Duncan. (Photo: Fred Gibson)

Three File Petitions For Council Positions

Marshall Gettys, Bill Gillespie, and Bill McCasland, have filed candidacy petitions to fill three vacancies which exist on the Student Council. Clint Formby, president, said in the Student Council meeting Monday night. A special election will be held Feb. 21 to fill the posts.

Representatives are to be elected from the divisions of Arts and Sciences, Business Administration, and Engineering. Gettys is from the Engineering division and Gillespie and McCasland from Business Administration. No one from the Arts and Sciences division had filed a petition Monday night. Deadline for filing the petitions with the Student Council is 5 p. m. Thursday.

Standing committee reports were presented as follows:

Publication committee—George Wilmoth, chairman, reported that advertising space in the Toreador has been raised from 40 to 45 per cent. He stated that Bob Williams, editor of the La Ventana, is meeting his deadlines and that he expects to have all the copy for the annual completed within the next three weeks.

Wilmoth reported that the Block and Bridge association has been granted permission to hold its annual rodeo in Jones stadium. The rodeo will be April 1-2.

Beautification committee—George Wilmoth, chairman, stated that the trash receptacles ordered by last year's Student Council have been paid for and that they will be

set up as soon as stands are built for them.

Varsity show committee—Margaret Clark, chairman, reported that \$10. per song will be paid the lyric writers for the show and that not over five songs will be written.

The council approved Camille Stevens, Gretchen Cliff and Beryl Harris as student representatives to the Artist's Course committee.

Disciplinary Committee

Formerly appointed Bill Reid, George Wilmoth and Martha Lewis to work with him in investigating the possibility of having one or more student representatives on the disciplinary committee. The possibility of securing a "no-test" rule for dead week was discussed. George Wilmoth was appointed chairman of a committee to investigate the matter.

It was decided that the \$600 gift of the ex-student's association to the Student Council would be spent on a trophy case and Bill M. Keith was named chairman of a committee to choose and buy a case. The council hopes to have the case here by the end of the year.

Formerly appointed Ted Forsythe to the publication committee, Elizabeth Craig to the Varsity show committee. Lloyd Greenwood to the beautification committee and Bill Reid was named business manager of the Varsity show.

Before the meeting adjourned, a letter from the journalism department which sought financial assistance in staging the Southwestern Journalism Congress here April 29-30, was read. The council voted not to appropriate any money to the department until it is ascertained how badly the money is needed and how it will be spent.

Dept. Announces Plans For Awards

Awards to be given at the end of each semester to outstanding men in this Military Science Division have been announced by Lt. Col. L. C. Adams.

The awards include:

- (1) Military excellence ribbon (red, with white and blue stripes) to the outstanding basic cadet in each company or squadron, determined by an evaluation of the cadet's drill and classroom performance.
- (2) Good conduct ribbon (half red, half blue) to be awarded to each basic cadet who has accumulated no demerits, and who has not been charged with tardiness or unexcused absences.
- (3) Award to the most outstanding first year advanced cadet, consisting of an appropriate article to be selected and purchased by the staff of the Military Science department.
- (4) Award to the most outstanding second year advanced cadet, consisting of a regulation sabre (engraved) to be procured, and awarded by the South Plains chapter of the Reserve Officer's association.

Teachers Needed In Summer Camps

Positions are still available for women students who can instruct swimming, crafts, music, and direct similar activities in Camp Fire Girl camps this summer Miss June Hanson, assistant to the dean of the department until while she was on the campus last semester may send letters of application to Miss Fargher at 903 Irwin, Keasler Building Dallas, or to Miss Janet McKellar at the national headquarters office, 16 East Forty-eighth, New York City, N. Y.

Women who were unable to confer with Louise Fargher, Camp Fire Girl leader while she was on the campus last semester may send letters of application to Miss Fargher at 903 Irwin, Keasler Building Dallas, or to Miss Janet McKellar at the national headquarters office, 16 East Forty-eighth, New York City, N. Y.

Dorothy Summers, 1948 Tech graduate and elementary teacher in Meadow, Texas visited relatives in Lubbock last weekend.

Board Allocates Building Funds; Fails To Support Medic Branch

By JAMES F. SMITH
Toreador News Editor

In a two-day session highlighted by the adoption of a policy of non-support toward the establishment of a medical college branch, Tech's Board of Directors took first steps in a long-range building and improvement program by earmarking \$1,960,000 of the college's unappropriated funds.

The move by the board represents the first action taken in a building plan designed to lead to more than \$4,000,000 in construction during the next 10 years.

Greatest portion of the earmarked sum is approximately \$1,900,000 for expansion of the buildings of the college divisions. A building priority schedule will be arranged and more specific allocations of the money will be made after completion of an enrollment analysis and detailed study of needs of various departments.

A designation of approximately \$500,000 for addition of two three-story wings to the Administration building was included in the board's allocations.

FUNDS EARMARKED

A total of \$460,000 was earmarked as follows: \$100,000 for emergency work; \$300,000 for campus improvements, such as construction of sidewalks, landscaping and paving muddy parking lots; \$60,000 for improvements in the water system. Frank Junell, assistant to the president, said Monday that bids are to be taken immediately on putting a black top on the parking area south of the Administration building.

Tech Debaters Win Matches In Abilene

Wanda Smith and Anne Eskin, Tech debaters who entered in the Abilene Christian college debate tournament last weekend, won two of five contests in the junior women's division. They defeated teams from TCU and SMU, according to Wilson B. Ward, speech instructor and assistant debate coach.

Mary Beth Logan and Jim Choate, a mixed team entered in the men's junior division, won three of five encounters. They lost the quarter finals. After defeating ACC, Seminole Junior college, Seminole, Okla. and St. Mary's college, San Antonio, they lost to SMU.

The four Tech participants in the tournament were freshmen on their first debate trip. Entry of these teams in other tournaments is planned for the future.

Athletic Council, Building Committee To Consider Plans For Dormitory

Graduation Invitations Will Go On Sale Today

Senior graduation invitations will be placed on sale today, Hubert Burgess, manager of the Varsity bookstore, has announced. Orders will be taken either at the Varsity or College bookstores before a March 30 deadline. No orders will be taken after that date, Burgess said.

Students may choose invitations with a french fold, or of a booklet type. Souvenir invitations are available in red leather, trimmed in black.

REC HALL MOVIE

The movie, "Odd Man Out," starring James Madison, will be shown at 8 p. m. Friday in the Recreation hall. This is the first in a series of scheduled movies to be shown this semester as part of the fun night programs. Troy A. Enis, recreational director, announced today.

Admission will be granted on presenting a recreation ticket or 25 cents, Enis said.

Report by the board's building committee, headed by Chanslor E. Weymouth of Amarillo, on priority of construction and definite allocations of funds is expected at the April 11 board meeting in Austin.

Another possible construction project considered by the board was the building of an athletic dormitory costing approximately \$290,000.

MED SCHOOL

During the session, held Friday and Saturday on the campus, State Representative Preston E. Smith of Lubbock appeared before the board and explained the proposal to establish a medical college in Dallas as a branch of Tech Smith

has been leader of a group of West Texas legislators seeking support of such a move. After hearing Smith's explanation, the board made this statement:

"It is not the desire of this board, nor do we consider it our province, to determine whether or not additional medical colleges are needed in Texas nor where they should be located nor how they should be financed, nor under whose direction they should be operated."

"This board stands ready, when requested, to cooperate fully with the legislature of the state of Texas and other institutions of higher education in our state falling within the area of its responsibility."

"It is not our desire, nor our intention, to promulgate any plan for the establishment of a medical college, nor to actively seek the support of legislature or other groups interested in the establishment of a medical college."

BUDGET OKAYED

The board approved the 1949 summer school budget of \$166,746.66, for salaries only, and appropriated approximately \$15,000 for rehabilitation and scholarships.

A sum of \$1,000 was appropriated for reconditioning the X-ray machine in the physics department. The machine is to be used jointly by the physics and the animal husbandry departments, the latter of which will employ the instrument to study perthas diseases of animals.

For increasing the electrical power to the home economics division \$1,000 was allocated, and \$9,239.60 was appropriated for plastering the basement floor of the Chemistry building. Work on the latter improvement is to begin immediately, Junell said Monday.

The board gave permission to the American Business club to use Jones stadium for the annual Boys' club rodeo, slated for June 8-11, for a fee of \$1,300.

TRACT GRANTED

Tech Rodeo association was allocated use of a five-acre tract between the railroad and Fourth street for construction of stables, corrals and an arena.

The board reallocated the \$15 long session student activity fee as follows: athletics, \$3.30 plus 66 cents tax; artist course, 95 cents plus 19 cents tax; recreation, 95 cents plus 19 cents tax; health service, \$8; other student activities, \$2.76. Junell said Monday that reallocation of this fee means that no extra charge will be made for artist course tickets and recreation hall tickets beginning with the fall semester, 1949.

Reduction of the student activity fee for summer session from \$7.50 See "BOARD GRANTS" Page 2

Board Grants Land To Tech Rodeo Group, Reallocates Students' Fees

(Continued From Page 1)
to \$5 was approved to begin in June, 1949.

SALARIES APPROVED
Approval was given for changing payment of faculty salaries from nine full payments to four and one-half payments each semester.

Blanket approval was given to these additions to the faculty: C. Wade Gilbert, John T. Hickerson, Samuel G. Jackson, instructors in civil engineering; Norman G. Igo and A. Marion Westbrook, part-time instructors in civil engineering; William E. Green, instructor in economics and management; Owen L. Caskey, instructor in education and psychology; Dr. William H. Gordon, part-time professor of sociology; Louise Batin, instructor in physics; E. H. Ford and C. W. Coffey, instructors in mechanical engineering; John M. Marshall, assistant professor of mechanical engineering.

RESIGNATIONS

Resignations accepted included:

Tech Young People's Class To Be Honored At Banquet

Tech young people's class of the Church of Christ will be honored at a banquet at 7 o'clock Thursday evening at the Hilton hotel, Mr. Carl Spain, Bible chair instructor, announced Monday.

A program following the dinner will include a selection of piano solos by Dr. M. Norvell Young, local minister, Mr. Horace Coffman, assistant minister, and Bob Simpson, senior business major, will sing vocal solos. A selection of steel guitar numbers will be played by Jimmy Poteet, high school student, and a presentation of humorous speeches will be given by Austin Tabor. "The Plainsmen" a men's quartet, will offer a few selections.

Physics Club Discusses Engineers' Show And Trip

The Engineers' show and a possible field trip to White Sands in New Mexico were discussed at the Physics club meeting last night. Plans were made for a memorial to the late J. Hollie Cross, former assistant professor of physics.

The next meeting will be March 15.

BISHOP NAMED PRESIDENT

A. J. Bishop, junior Aggie major, was elected president of Kappa Alpha Mu, honorary photography society, at a business meeting Monday. He replaces Joe France who graduated at mid-year.

Nine pledges were signed up for this semester. They are: Clyde Schneider, Jane Skinner, Marjean Kitts, Mary Faye Bonds, Billy Hopping, Jean Woodrum, Robert Duke, Billie Creagh and Delane Adams. These pledges will be initiated Monday at 5:00 p.m. in the Press building.

Mrs. Addie Belle Mauzey, instructor in secretarial administration; Chester E. Hubbard, instructor in economics.

Members attending the session were: Chairman Charles C. Thompson, Colorado City; Leon Ince, Houston; Robert B. Price, El Paso; Kyle Spiller, Jackboro; Charles W. Woodruff, Dallas; Mark McGee, Fort Worth; Chanslor E. Weymouth, Amarillo; O.B. Rathiff, Lubbock. Absent was A. G. Mayse of Paris.

Terms of Price, Spiller and Rathiff expire this month, and their reappointment or replacement on the board is pending.

Thompson was re-elected chairman and McGee vice chairman. W. T. Gaston, Tech business manager, was re-elected secretary. Junell was elected to the new position of assistant secretary.

International Club Meets Tomorrow

The newly-organized International Students club, "The Cosmopolitan," will meet Thursday at 7:15 p. m. in Ad 214.

A short business meeting will precede the special program to which the public is invited. Miss Jane Watson, journalism instructor, will show movies taken during her recent tour in South America.

The Cosmopolitan membership includes all students who are citizens or former residents of any foreign country or United States possession. A special invitation is extended to those students who qualify as regular members but who have not previously attended a meeting of The Cosmopolitan.

SLAGLE HEADS COMMITTEE

Officers of the faculty advisory committee elected at a recent meeting include W. M. Slagle, chairman; W. L. Bradshaw, vice chairman; Dr. Alan Strout, secretary; and Dr. J. William Davis, representative to the council of deans, announced C. V. Bullen, head of the electrical engineering department and past chairman of the committee.

Other members of the committee, which represents every department and division of the college, are Dr. D. D. Jackson, Miss Dotis Nesbitt, Reginald Rushing, John H. Baumgardner, Mrs. Mina Lamb, Dr. Bryan Gates, Robert Mason, W. W. Yocum, F. L. Mize and Emmett Hazlewood.

The committee is chiefly an advisory board as is implied by its title. The main function is that of coordination between faculty and administration in forming the policy of Tech.

According to a recent comparative survey of the enrollments of the fall semesters of '47 and '48 in the registrar's office, the number of undergraduate students is decreasing while that of graduates is increasing.

ASME Delegates To Convene Here For Annual Meet

Tech will play host April 1 to ASME delegates representing all the member mechanical engineering schools in this section, announced Everist L. Bednorz, the fraternity's publicity chairman. It is the first convention of the fraternity held on the Tech campus since 1940.

Each school represented will send two delegates selected by a department elimination procedure conducted in much the same manner in which speeches are judged in final competition at the annual convention. The two-day meeting will be held in either the engineering or Aggie auditorium.

Two Tech men, Edwin Locke and Tom Hassel, took first and second places respectively with their speeches in last year's convention at San Antonio A&M. This marks the only instance in which both the top honors went to the delegates of one school.

Prizes last year were \$50 for first and \$35 for second. This year the membership at Tech will possibly increase the prizes of money and award papers written by mechanical engineering students who are members of ASME. Slide rules and drawing instruments will be given runner-up contestants.

Besides Texas university, A&M and other engineering schools in Texas, the University of Oklahoma, Oklahoma A&M and the University of Indiana will be invited to attend.

P.T Lesson On Nutrition To Be Thursday, 2-4 P.M.

The first in a series of lessons on nutrition will be studied at the organizational meeting Thursday from 2 to 4 p.m. in Annex G of the Home Economics building at Tech. The topic will be "What Composes Nutritious Menus."

Tuesday morning, the third in a series of lessons on "Understanding the Teenager" was held under the direction of Miss Martha Graves, director of home and family life education at Texas Tech. Both are under the general topic of Parent-Teachers Study course.

Men Needed For Air Unit

Lubbock Naval Air reserve unit needs 25 enlisted men with aviation ratings as a minimum for the final training setup, Joe Horne, commanding officer of the unit, has announced.

The local unit, which has been organized for eight months, will be combined with the Amarillo reserve division which is being transferred here. Fifty pilots, minimum number for the organization of such a unit, are active with the training program.

Next unit meeting will be held at 7:30 p. m. Thursday at the naval armory on the campus, at which time a number of benefit forms will be filled out and flight schedules for the next month will be made up, Horne added.

Eugene List Concert To Open Artist Course Series Tonight

Texas Tech Artist Course will present pianist Eugene List as its first artist on the Spring series. The concert, which will be at 8:00 p.m. tonight in the high school auditorium, will include numbers by Bach, Schumann, Ravel, Chopin, and Liszt.

The pianist first won fame when he played for the Big Three at the Potsdam conference while he was a staff sergeant with the special service branch of the Army. He was asked to play four other times before the conference was over and had the unique honor of having President Harry S. Truman as his page turner.

List made his first movie, "Bachelor's Daughter", in the Spring of 1946 and was invited to the Prague International Festival in May of that year. He then toured European cities and was well received in Berlin, Vienna, Budapest, Rome, Paris, The Hague, and London.

The first success of the artist was when he won a scholarship to study with Olga Samaroff at the Philadelphia Conservatory at the

age of 13. Three years later he won a contest sponsored by the Philadelphia Orchestra and as a prize was invited to play the American premiere of a piano concerto by Shostakovich.

Students holding artist course tickets will be admitted to the concert upon presentation of their tickets.

Prof. Wiley Returns From Music Educators Meet

Professor and Mrs. D. O. Wiley and Louie Lee Holder, graduate student, returned Sunday from the twenty-eighth annual convention clinic of the Texas Music Educators association February 9 through the 12, in Galveston. Holder took pictures of all the procedure.

Wiley is secretary of the association. Other officers include Harry from Hardin Simmons university, Texarkana high school, Tyler high school, and John Tarleton university, he stated.

Newman Mardi Gras Dance Set Feb. 25

The annual Mardi Gras semi-formal dance sponsored by the Newman club will be from 8:30 to 11:30 p.m. Feb. 25, in the ball room of the Hilton hotel, Bill Luke, president of the Newman club, said Monday.

Committee chairmen for the dance are: Bill Luke, general chairman; Steve Hall; decoration; Helmer Waggoner, ticket sales; Dorothy Pustejovsky, mailing; and Matt Garcia, publicity.

Tickets may be purchased for \$2.50 per couple from any member of the Newman club, and at the door the night of the dance, Luke said.

Music will be furnished by Loyd Jenkins orchestra. Masks will be given at the door and the public is invited, Luke said.

SWEETHEART

The annual "Sweetheart Banquet" with a colonial theme will be at 7:30 p. m. Friday in the annex of the First Baptist church, Ardelle Hallock, director of the student center, said Tuesday.

Sponsor of the banquet is the Young Women's Auxiliary. Tickets are on sale at the center, Miss Hallock said.

TAU BETA DANCE

Observing Valentine Day, the members of Tau Beta Sigma, national honorary band sorority, sponsored a sport dance for members and dates Saturday night at the band hall.

D. O. Wiley, professor and director of band, Mrs. Wiley, Joe Haddon, assistant professor of band, and Mrs. Haddon were present as chaperones.

CASA LINDA

Residents of Casa Linda, women's residence hall, were hostesses at a semi-formal Valentine dance Saturday night. Lamonte Leddy, reporter, said Monday.

Residents and their dates were: Mary Ann Kveton, Ernest Gibson; Faye Neely, Jimmy Cunningham; Mildred Vardeman, Emery Goodin; Louise O'Hair, Dwane Jones; Billie Stacey, Bill Walker; Lamonte Leddy, Robert Rainey; Dorothy Pustejovsky, Floyd Acker; Joyce Hardin, William Simpson; Dorothy Harbin, George Keith; Gladys Haynes, Loyd Randal.

Anita Burton, Beldon Peters; Gerry Frazier, Bill Askew; Mary Finkner, Bill Slagle; Helen Kocurek, Gregory Roberts; Norma Deane Richardson, Floyd Tubbs; Katherine Keith, Wesley Agler; Josephine Verden, Louis Conn; Peggy Kocurek, Billy Suggs.

Miss Sue Rainey, assistant professor of women's physical education, and Miss June Hannon, assistant dean of women, were faculty sponsors.

DOUBLE T DANCE

Texas Tech Double T association will have its annual dance Saturday from 9 until 12 p.m. in Tech gymnasium, according to Marshall Gettys, president of the association.

Ted Crager's orchestra will play for the dance. Chaperones are Mr. and Mrs. George Langford and Dr. and Mrs. James Michie.

STUDENT FORUM

Bob Cooper, senior Arts and Sciences student, will lead the forum, "Should Truman Meet Stalin?" at 7:15 p.m. tonight at the Methodist Student center, Rev. Matthews, director of the center, said.

Another activity for the week will be a freshman party at 7:30 p. m. Friday at the student center. Theme of the party will be a scavenger hunt, Rev. Matthews said.

ENGINEERS BANQUET

The twenty-third annual Engineering banquet and dinner dance will be held at 7:30 p.m. March 5, at the Lubbock hotel.

All students registered in the engineering division, engineering alumni and faculty members are invited to this semi-formal affair. Students interested in further information should call Robert Payne.

DORM DANCE

Approximately 20 couples will attend a small informal dance from 8 to 11:30 p. m. Friday in Men's Dorm III. Hilary Fry, dorm counselor, said Monday.

Chaps Present 18 Members, Pledges

A setting of orchid and gold, the club's colors, was used as a background for the presentation of 18 Las Chaparritas pledges and members Saturday night.

The Valentine sweetheart theme was carried out with two large gold satin hearts and a central heart covered with orchid plumes.

The presentees were dressed in pastel colors and carried arm bouquets. They were introduced by Bob Williams as Loyd Jenkins and his orchestra played the traditional presentation song, "Sweethearts On Parade."

Initiation Rites Held Sunday For 21 Club Pledges

Sans Souci, DFD, and Las Vivarachas social clubs had initiations for twenty-one spring pledges Sunday.

Sans Souci social club initiated nine girls as pledges in a candle-light ceremony Sunday afternoon in the home of Miss Elizabeth Howard, 2309 Seventeenth street.

Those initiated were Misses Winona Bard, Ludonna Berry, Jo Ann Henderson, Betty Hudson, Jeannetta Lewis, Bobbie Manning, Judy Pierce, Mary Ramirez, and Glenna Shinn.

Ten DFD pledges were initiated Sunday in the home of Miss Barbara Jackson, 2410 Sixteenth street. They are Judy Bevan, Doris Brooks, Alma Joyce Dazier, Patricia Findley, Jean Galloway, Mary Gowan, Richie Ann McCrummen, Duane Wilson, Meredith Wood, and Helen Zweig.

Formal initiation for Las Vivarachas pledges was held at the home of Mrs. T. C. Ingram, 2411 Twenty-fifth street. Marilyn Braselton and Eva Johnson were initiated.

Joe B. Meador, BA in Journalism this past semester, is taking graduate work at the college.

Wrangler Formal Ball Slated Tonight, 9-12

Wrangler social club will celebrate Washington's birthday with its twenty-first annual George Washington birthday ball. The formal date dance will be from 9 to 12 p.m. February 22 at the Lubbock hotel.

Decorations will feature silhouettes of George Washington and other appropriate decorations. Music will be furnished by Ted Crager and his orchestra.

Members and their dates who will attend are Eugene Bills, Bonnie Holland; Ed Campbell, Jayne Thompson; Rex Darling, Loriet Plumer; Loyd Doud, Jane Adams; O. B. Freeman, Betty Eltz; Gene Greathouse, Chalene Minten; Robert Hamilton, Peggy Scott.

Herman High, Beth Nealy; Don Keith; Betty Hancock; Luther Rainwater, Dee Keck; James Eider, Joan Chapman; Fred Schultz, Mary Anne Kelley; Max Sturdivant, Lois Cone; George Schultz, Jo Ann Brown; Albin Taylor, Peggy Wright; Bob Watson, Billye Hopping; Bill Atell, Loraine McCloud; Phillip Ray Sweeney, Pat Page; Buddy Maner, Ramonda McMillin.

Mr. and Mrs. Jim Franks, Mr. and Mrs. Stanley Huckabay, Mr. and Mrs. Gerald Kerbow, Mr. and Mrs. J. R. McEntyre, Mr. and Mrs. Ralph McLaughlin, Mr. and Mrs.

Jim Shoults, Mr. and Mrs. A. J. Smith, Mr. and Mrs. Jack Thompson, Mr. and Mrs. John Waddell.

Also attending will be Gerald Eedenbender, Floyd Camp, J. Lee Davis, Malcolm Duncan, Neal Glaxner, James Hartzog, Bill Jackson, Odell McCloud, Bill Puryear, W. C. Riley, T. C. Root, Jr., Keith Schier, Billy Solley, Glen Marburger, Bill Gillentine, and Gene McLaughlin.

Sponsors of the organization are Earl Camp and Haskell Taylor. Chaperones will be Theodore Charlwood, William Whittington, William D. Moore, and Key L. Nealey.

The engagement of Jane Watson BA in Journalism in '45 and photography instructor, to Doug Moore, instructor in economics and management, was recently announced. They will be married in April.

NEWS DEADLINE

All club reporters, social and departmental, are admonished by the Toreador society staff to please turn in club news by 5 p.m. Saturday for Wednesday editions and by 5 p.m. Wednesday for Saturday editions, because it is impossible to contact the reporters for all club occasions. This action will be greatly appreciated.

Weddings

STUART-MILLER

Miss Elizabeth Miller, daughter of Mrs. Earl Miller of Texon, became the bride of Charles Chilton Stuart, Jr., of Nacoma in a ceremony read Thursday morning by Rev. Hubert Bratcher at St. John's Methodist Church.

The bride attended Texas Tech, where she was a member of Sock and Buskin and treasurer of Drane hall for one semester. Stuart is a graduate of Tech, a member of Socii club and is employed as a bookkeeper for Justin Leather Goods company at Nacoma, where the couple will make their home.

MILLER-BIVENS

Miss Dorothy Ray Bivens was married Feb. 5 to Dr. R. H. Miller, jr., of Amarillo. She was a 1947 La Ventura beauty and a speech major at Tech.

HAMILTON-HOOPER

Miss Jean Adele Hooper became the bride of James Norman Hamilton in a double ring ceremony read Friday in the home of Rev. C. A. Eickley, the officiating clergyman.

The bride, a niece of Mrs. Adele M. Johnson, 2310 Twentieth, is a former student of Texas Tech and a graduate of West Texas Hospital School of Nursing. She has been an office nurse in West Texas clinic. The bridegroom also is a former Texas Tech student.

ASHLEY-IRVIN

A double ring ceremony performed Saturday at the Broadway Church of Christ by Carl Spain united in marriage Miss Janice Ann Irvin and Floyd Taylor Ashley.

Both the bride and groom are graduates of Ralls High school. Mrs. Ashley, daughter of Mr. and Mrs. R. N. Irvin, 2907 Twentieth, is a former student of Texas Tech.

BOONE-WILGUS

Miss Marilyn Wilgus, daughter of Mr. and Mrs. E. J. Wilgus, 1209 Fifteenth, became the bride of George Fraser Boone III, son of Mr. and Mrs. George F. Boone, jr., of Seymour in a double ring ceremony read in the Presbyterian manse Thursday.

The bride, an employee of the First National bank in Lubbock, attended Texas Tech. The bridegroom is now a senior civil engineering student at Texas Tech, having attended John Tarleton Agricultural college before entering the service. The couple will live in Drane hall.

DAVIS-KOONCE

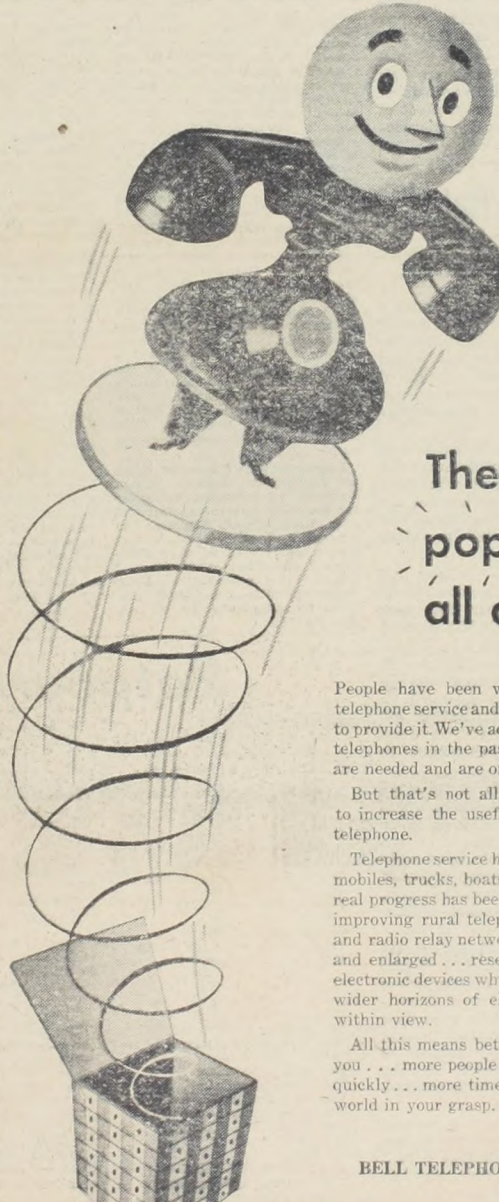

Miss Emily Carolyn Koonce, daughter of Mrs. W. H. Keeling, 1412 Avenue T, an William Thomas as Davis, jr., son of Mr. and Mrs. William Thomas Davis, sr., of Slaton, were married Monday night at 8 o'clock in a double ring ceremony at the First Christian Church.

The bride attended Texas Tech after graduating from Woodrow Wilson High school in Dallas. She pledged DFD club.

The groom is a graduate of Slaton High school and John Tarleton Agricultural college. The couple will be at home at 805 South Fifteenth, Slaton, after Feb. 22.

THOMPSON-FARRIS

Miss Jeanne Farris, daughter of Mr. and Mrs. Paul Farris of Dabhart, and Jack Thompson, son of Mr. and Mrs. Hayden Thompson of Hartley were married recently in the Hertley Baptist church. He is a student at Tech and the bride is a former Techsian.

They're popping up all over

People have been wanting more and more telephone service and we've been working hard to provide it. We've added nearly 9,000,000 new telephones in the past three years. Still more are needed and are on the way.

But that's not all that we've been doing to increase the usefulness and value of the telephone.

Telephone service has been extended to automobiles, trucks, boats, trains and airplanes... real progress has been made in expanding and improving rural telephone facilities... wire and radio relay networks have been developed and enlarged... research has started on new electronic devices which promise to bring even wider horizons of electrical communications within view.

All this means better telephone service for you... more people you can reach easily and quickly... more time in your day... a larger world in your grasp.

BELL TELEPHONE SYSTEM

New Athletic Dorm Would Answer Long-Time Needs

We commend without reservation the action of the Board of Directors in the announcement by its chairman that some decision will be made before next fall in regard to housing athletes on the campus.

The college long has needed suitable, spacious quarters for its players. Perhaps this single factor alone has sent a great number of promising athletes to other institutions to become stars on opposing football line-ups.

Discussion by the board of two remedial measures indicates that the Tech athletic department may at last be near to realizing its dream of many years of adequate housing for its men.

First of the proposals calls for the clocking off of 50 rooms for 100 athletes in one of the campus residence halls. The second is the construction of an athletic dormitory to cost approximately \$200,000. Of the two suggestions, we are inclined to favor the latter.

The grid men have practice hours which would conflict with regular mealtime schedules and dining room procedure. Special training diets would be required. Building and maintenance of training rooms and tables would be necessary. In a strictly athletic hall, no routine would be upset, and space would already be provided for training.

A logical location for this dormitory would be the area north of Men's Dorm III at College avenue and Eighth street. There the athletes would be conveniently nearer the gymnasium and stadium and the main part of the college plant.

Further action by the board on this question has been set for April. But whatever its decision, it has once again given proof of its desire to make Tech better by improvements wherever possible.

If Teachers Were Rated, What Would They Learn?

Recently in a backstage interview with a college student, a well-known singer stated that if he felt his audience unresponsive, he immediately asked himself what was wrong with his performance. This same measure of judgement might well be applicable to teachers who find that their classes show little inclination to respond.

Many are the students who have been forced to take courses because of departmental or divisional requirements, and who have learned almost nothing in class because the teacher had the attitude that there was something at fault with the students rather than with his lecture.

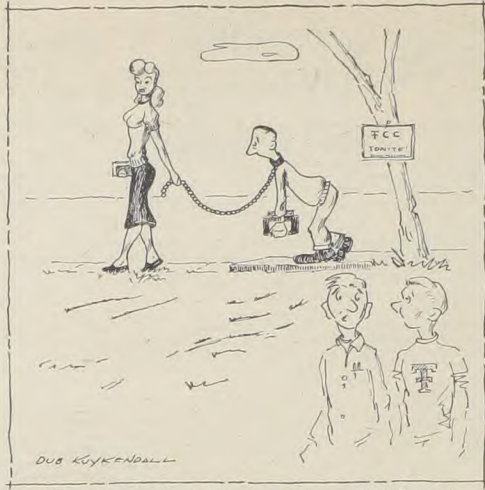

A few teachers appear to believe that careful preparation of their lectures is all that is required of them. Further, they seem to think that if students don't like courses, they can simply change colleges.

The situation used to be entirely different. Back in medieval times, if professors were not stimulating, the whole group migrated to another location where the instruction did meet their standards. And students have been compelled for financial or other reasons to stay in one school.

Last year the student body of Brooklyn college made a survey of its teachers. These ten qualities in teachers were found to be most desirable: organization of subject matter, speaking ability, ability to explain, encouragement in thinking, attitude toward students, knowledge of subject, attitude toward subject, fairness in examinations, tolerance of disagreement and personality.

A total of almost 34,000 individual rating sheets were submitted on the 384 faculty members. Although no positive conclusions were reached, teachers did not want department heads, deans or the president to see their ratings. The president of the college thought that the survey had served the purpose of provoking professional discussion on the campus and that some of the specific conclusions deserved further attention.

Such a survey is feasible on Tech campus, and the results would certainly be illuminating. Tech's teachers might well take a personal survey to determine how they rate with students.

"The way she leads him around is a cryin' shame."

DECRIES DISCRIMINATION

Letters To The Editor

Feb. 12, 1949

Dear Editor:

I have just completed reading of the deplorable condition present at Tech last semester, concerning the number of failures. I agree heartily with the Council of Deans that something must be done. I don't doubt that the Council of Deans looked into many aspects of this problem. However I, as a student, would like to bring to light another point. It is just as possible for a student to fail a course because of poor instruction as from lack of work or any other reason. I think that an investigation should be made of an instructor and his methods of teaching when an unusually large per cent of the class makes failing grades.

I realize that in a few cases the mere reputation of certain courses cause many students to fail. In this respect, the instructor is not at fault, but it is the students who fail to apply themselves or do sufficient work to pass, merely because they think it would be of no use anyway. However, this is not the case with many of the courses. I believe that many of the courses are failed because of poor instruction. And I'm sure that if an investigation was made from this standpoint, it would bear me out.

I disagree with the action taken to discriminate against women students. All corrective action so far has been directed against women merely because it is easier to enforce. It is my contention that men students need as much disciplinary action as women. More, I believe, since probably a greater percentage of them will enter their fields of study than will the women students.

Finally, I believe that any investigation conducted should include students on the investigating committee, as well as faculty members. Let us look into ALL aspects of this problem and place the blame upon whose shoulders it belongs. Then, and only then, will we achieve any degree of success in combating such a problem.

Yours for a better Texas Tech,
Charles W. Reynolds

February 13, 1949

Dear Editor,

What the heck does the Foreign language department think Tech students are anyway—Genii.

I haven't been around the campus long but in the short time that I have been here I have had experience in two 131 foreign language courses. Both these courses were thrown at the class in the form of little readers with incomplete vocabularies in the back. We were supposed to translate the first three or four pages with the help of these vocabularies, and sometimes even a good imagination failed to figure out what some of the words meant.

Bear in mind if you will that we were given these simple lessons before we had had any instruction what ever in the course—pronunciation of the alphabet, how to form plurals, gender, and so forth.

For some odd reason I have the idea that if I had a little classroom instruction on the basic characteristics of the language before starting translation it would be easier for me to understand and get something out of the translations in the reader and so build a foundation for further study of the language.

Yours for better grades,
G. B.

Potpourri

Dear Pot,

Jack and Jill fell down the hill
A stunt that's mighty risky,
If water made them act like
that,
By Gosh! I'll stick to whiskey.
J. E. S.

Dear Pot,

'Tis the night before Sunday
And all through the meal
Not a phone bell is ringing
For me its no deal.
Though the girlfriend's must
know
Of my lonely plight
Trust dear room mate to say
What! No date tonight!
Gertie

Dear Pot,

Here is to Eve,
The mother of our race,
Who wore her fig leaves
In the right place.
But here is to Adam
The father of us all
Who was Johnny on the spot
When the leaves began to fall.
Mary.

Dear Pot,

OPPORTUNITY
When pretty lips says deftly
"no",

With manners quite in doubt,
I'd say it then behooves the lad
To learn what he's about.
Of course, when eyes betray
said lips
And patiently say "yes",
I don't believe I'd linger, boy,
Or stop too long to guess.
JCV

He: I'm feeling a little frail to-
night.
She: Will you stop calling me
that?

Dogs in Siberia are the fastest
in the world because the trees are
so far apart.

When I asked her to wed, "Go
to father", she said,
She knew that I knew that her
father was dead.
She knew that I knew what a
life he had lead.
She knew that I knew what she
meant when she said,
"Go to father".
LJS

We can still use the contribu-
tions, so keep them coming and
send lots of them.
Pot.

By ORLIN BREWER

El Toro Grande

Last week's letter to the editor asking for removal of the flag, wedged at the top of the campus flag pole, got about the fastest action we've seen in a long time. George Long, superintendent of buildings and grounds, seems to be pretty good at jumping the gun on editorial writers, however. Most vividly impressed on our mind was last semester's request, made through this column, for a campus Christmas tree.

We'll swear that Memorial circle was bare when the column was written on a Sunday, but a lighted Christmas tree had graced it for almost two days when the Toreador was published and Mr. Long got to read about our wants.

We've noted a number of athletic letters other than the red Double T on the campus since the beginning of the second semester. We would like to tell the individuals who wear these letters that they are doing so in direct violation of a Tech tradition of long standing.

The tradition that no letter other than its own be worn on the campus is not peculiar to Texas Tech. Such requirements are general among the larger institutions over the country. It is not that the wearers of the Double T begrudge you the glory of your hard earned letter, they simply believe that once you have enrolled in Tech, you should pick up the standard of the institution and concentrate on making it a better one. If you are an athlete and would like to wear a letter, then go out and earn it . . . at Texas Tech.

You won't be asked not to wear a jacket from another school, but you will be asked to remove the letters if the jacket is to be worn on the campus.

Tradition simply for tradition's sake, we would be more inclined to label as intolerance. We feel however, that as each of us observes the traditions of Tech, we come nearer to achieving that feeling of "belonging".

Was talking to a friend the other day who has come up a long way in campus circles since his enrollment here over a year ago. After telling me what a dull and drab existence he had led during his first semesters at Tech, he told me what was responsible for the change.

"You Know," he said, "A person never grows to appreciate a school until he goes to work for it."

And the chemistry prof was trying to explain to a coed in his class about preservatives.

"Paint is a preservative," he said, looking at the girl's rosy cheeks. "That should explain why you'll probably live longer than your husband."

Book Introduces 'Basic Seven' For Clothes Problems

By CAROL JO WHEELER
Toreador Staff Writer

Miss Mabel D. Erwin, head of clothing and textiles, in her latest text book, "Clothing for Moderns", has collected the basic problems of dress into a "handy reference" for the woman with a clothing problem.

In order to get away from the idea that "clothing is sewing", Miss Erwin has devoted chapters to shopping and wardrobe selection, as well as discussions on posture, good grooming, guidance toward a career and personal finance.

Miss Erwin introduced in her book the "basic seven", consisting of seven articles of clothing which will enable the wearer to be suitably dressed for the type of occasion common to most young women. The author suggests beginning with the "basic seven" and supplementing articles as they can be afforded.

Photographic plates of the basic seven and wedding dresses especially selected by Mr. H. Stanley Marcus, of Neiman Marcus in Dallas, and several photographs through the courtesy of Miss Dorothy Shaver, president of Lord and Taylor, New York, supplement the line drawings and original sketches by the author. Mrs. Troy Allen Lockhard, assistant professor of applied arts, did all the pen and ink technical work, refining many of the drawings as well as furnishing some original material, stated Miss Erwin.

Miss Erwin said she has encouraged modern girls through the techniques outlined in "Clothing for Moderns" to discover "talents" by experimenting in pattern design, draping dress forms and executing simple decorations.

The author stated that experience with college girls has pointed out the need for instruction in subjects closely related to clothing for which there is little or no time in a college curriculum, but which are still essential.

SAVAGES ATTRACT SCIENTISTS

Holden Tells of Barbaric Yaqui

By FRANK McNEILL
Toreador Staff Writer

Do you remember the exciting scene in *Sierra Madre* in which Humphrey Bogart and his prospector pals fought off savage Yaqui Indians?

Dr. W. C. Holden, history department head and museum curator, can tell you about the inhabitants of mysterious Yaquiland; he's been there. He led an expedition of scientists and local men into Sonora, Mexico in 1934—only four years after the bloody raids on Mexican ranches and the kidnapping of Mrs. R. L. Slaughter for 24 hours in 1930. One of the victims of these raids, a young Mexican boy, was killed in a strange barbarous way. A crow bar was driven through his neck and he was left to swing in the mouth of a well.

Despite the trouble the party had in getting a full-time interpreter (the only available one was busy chasing devils part of the time), data was gathered concerning the architecture, religion, agriculture, government and general cultural level of these Indians.

One of the many strange and semi-barbaric customs which he witnessed among the Yaquis is the funeral practice of aiding the departing soul Heavenward with home-made bamboo rockets.

He and his party also witnessed the fantastic Fiesta de Gloria which occurs at Easter. In a strange mixture of Catholic and pagan ritual, weirdly garbed devil-chasers pranced and cavorted in a liberal five day re-enactment of the Resurrection.

Dr. Holden says that like many

North American Indian tribes, the Yaquis have sound ideas on democratic government. Village chiefs are elected by the adults of both sexes. Participation in this phase of the government is compulsory. Tardy voters are dragged to the polls and reluctant officials are literally whipped into office. Justice is swift and sure among the Yaquis. Trial is by mass assembly (not compulsory) and decisions are reached without delay or appeal.

Ramon Torry, the Yaqui interpreter for the party, has written several letters to Dr. Holden in the intervening years. These letters, written in a quaint mixture of English, Spanish and Yaqui grammar, have, for the most part, contained news of the tribe and appealed to Dr. Holden to help them with the Mexican government. One of the most recent letters tells of the inundation of the village of Torin and the drowning of 15 inhabitants during a January flood of the Rio Yaqui. Dr. Holden stayed in this village eight weeks and knew many of the flood victims.

Dr. Holden received his B.A. at the University of Texas in 1923, began teaching at McMurray college in Abilene and got his Master of Arts the following year. He served the 80th Infantry Division during World War I.

He has written several historical books, among them *Alkali Trails, Rollie Burns, The Spur Ranch, and Studies of the Yaqui Indians*.

He has been at Tech ever since 1929 when he became first vice president of the newly formed Plains Museum Society. An old

cowboy donated the museum's first exhibits. They were a pack saddle, a Dutch oven and a son-of-a-gun pot, and were placed in the attic of the chemistry building.

R. A. Studhalter was elected president by the society of 20 members. Dues were a dollar a year.

The outcome of the well-remembered Give-a-Erick drive of 1911 was a pile of brick, \$4,000 and a lot of misplaced confidence. Gradually this nucleus has increased to \$45,000 by local men.

Two years ago, the legislature allocated \$90,000 to Tech to finish its museum. Unfortunately, the controller made a mistake, decided that too much money had been appropriated already and the bill became a ghost.

Later, the error was discovered—after a bill prohibiting college appropriations for 30 years had been passed.

With no money from the legislature for 30 years for building and with the local contributors already pled white, there was only one alternative. The college took it, gave the museum \$185,000 of its own funds and the work is at last under way.

Next fall when Tech's new museum is finished, it will be two stories high, a work of art and worth nearly one-half million dollars.

What started it all? Why an old pack saddle, a Dutch oven, a son-of-a-gun pot and Dr. Holden's determination.

Mary Dean Griffin, BA in Journalism in January '49 is teaching school in Brownfield.

Robot's Creation In Fantasy Play Delights Audience

By RICKEY ARCHER
Toreador Drama Editor

RUF, a three-act fantasy portraying the invention and production of robots by man and his ultimate destruction, alternately amused and intrigued an audience of approximately 100 persons Monday night in Tech's Studio theatre.

The diffused lighting, natural makeup, luxurious office settings, and excellent direction by John L. Upshaw and Jerry Suits furnished good background for the satire on mankind.

Outstanding performances in Karel Capek's futuristic production included D'Ruth Hopping as Helena Glory, who performed in her usual natural, effective manner, and equally good portrayals of Dr. Hallemier by Jacob Sitters and Dr. Gall by Gene Aiford. Notable was Don Sloan's performance in suave-ness and hand-kissing as he played Mr. Fabry, Ruby Joyce Redus gave a good character portrayal of Nana and Gene Roy Powers, that of Alquist.

The last act, an epilogue, took place in the laboratory one year later. There, the beginning of the world all over again is shown through the acting of Bob Carnahan and Beverley Zelny, as robots. To the amusement of the audience, the robots discover, in a steel-like birds and bees fashion, that there is more in the world than power.

Designated the new Adam and Eve, they learn, however robots learn such things, to love each other.

Tech Freshmen Prove WTSC Not 'Unbeatable'

Texas Tech's freshman basketball team has erased the word "unbeatable" from the record of the West Texas State first-year basketball team.

The boys from Canyon invaded Tech gym Saturday night, hailed as "the best freshman team in the country." But they went back home on the short end of a 39-38 score.

The score was tied four times and the lead changed hands 14 times as the two quintets battled from the opening whistle to the final buzzer. Only once did either team hold as much as a six-point lead, and that was early in the opening half with Tech out front 8-2.

For the last two and a half minutes the junior Red Raiders stalled, as the visitors pressed and tried frantically to get the ball. Three times during the closing excitement the West Texans committed personal fouls, with the winners taking the ball out of bounds to keep control of the situation.

Jack Alderson, with five baskets out of seven tries in the first half, and Jim Sharp led the Tech fish play with outstanding floor play. Alderson, with 14 points, led scorers, while West Texas' jump-shot artist, Jack Price, got 13.

BOXSCORE

TECH	FG	FT	PF	TP
Alderson, f	5	4	2	14
Eddins, f	0	1	1	1
Campbell, f	2	0	0	4
Brown, c	5	0	0	10
Sharp, f	2	3	0	7
O'Neil, g	0	1	5	1
Bagwell, g	0	0	0	0
Johnson, g	1	0	0	2
TOTALS	15	9	8	39

West Texas	FG	FT	PF	TP
Price, f	5	3	4	13
Stewart, f	3	0	1	6
Poteet, c	2	0	0	4
Burrus, c	3	0	2	6
Vaughn, g	0	1	0	1
Althart, g	1	0	4	2
Hale, g	2	2	2	6
TOTALS	16	6	13	38

Free throws missed: O'Neil, Sharp, Brown 2, Alderson, Bagwell, Price, Stewart.

JUMP ACTION — Arizona's center, Junior Crum, No. 33, extreme left, is standing by just in case Charlie Pinnell, Tech forward, Leo Johnson, No. 19, Arizona guard, or No.

50, Wimpy Hill, Tech guard, can't handle the situation. Tech could and trimmed the wildcats, 60-58, Friday night in Tech gym. (Roper-Gibson Photo).

PROFESSIONAL BASKETBALL MAY OUTDRAW COLLEGIANS

Professional basketball paid admissions are steadily increasing on the sports promoters' cash registers with all indications pointing to a glowing future profit picture, says "Sports Extra."

The public is slowly becoming convinced that professional hoop games are contests between ex-college all-star teams. Some sports authorities even predict that professional basketball will, in time, outdraw college collegians on a per game basis.

March 10 is the last day a student may drop a course without receiving a grade penalty.

West Hall Leads Dorm League After Dropping Sneed 21-19

The A.S.C.E. basketball team dropped the 5th street Ramblers Sunday in one of the closest and fastest games played this season in the independent league.

"This game in my opinion was the best game played by any independent team this year", stated Ronald Drake of the Athletic department. At half time, Ramblers led 11-10, and only two minutes before the end of the game, did A.S.C.E. gain a lead which they were able to hold. Drake has officiated in 50 of the 56 intramural games played this year.

West Hall Eagles jumped to first place in the dorm league when they defeated the Sneed Scamps 21-19 in Tech Gym Sunday.

Ben Street, freshman engineer from Dallas, was high point man for the Eagles, and Larry Cavazos, senior arts and science student from Kingsville was high point man for the Scamps with nine points.

The Eagles dropped the Sneed

Bobcats 34-21 Feb. 9. Bo Barkowsky, junior arts and science major, high-pointed for the Eagles with 10 markers.

Sneed Bobcats won over West Hall comets 31-29, Sunday. Bob Horan, fish from Fort Worth, was high point man for the Cats with 12 points. Bill Millard, soph from Hereford led the Comets with 12 points.

Filthy Five out-scored the Dorm III Hawks 20-19 in a close race played Feb. 9. Filthy Five high pointer was Bob Hutcheson. Roy Collins, senior engineer from Brownfield tied P. Pugh for high score position for the Hawks, each making six points.

Green Hornets tilted Doak Mares 31-28 Friday. High point Hornet was George Wilkenson, and top scorer for the Mares was Dick Wolf.

Sneed Scamps trounced West Hall's comets 26-17. Jack Glover, fish from Fort Worth was Top scorer for the Scamps with 8 points.

Same Attendance Seen This Year For Grid Games

Tech's Red Raiders football team should play to the same size crowds next year in a 10-game series, Morley Jennings, athletic director, said Tuesday.

Last fall Tech played to 10 crowds aggregating about 142,000. For home games last year West Texas State drew about 18,200; Rice drew 18,900; Texas Mines drew 12,255 and New Mexico drew 11,803. It averaged out at 12,320 fans per home game. On the road Tech did some better, drawing an estimated total of 58,000 fans in six games. Texas A&M drew 22,000; SMU 23,000; Baylor drew 8,000; Tulsa drew 12,000; Arizona drew 17,000; and Hardin-Simmons drew 12,000. This averages approximately 15,666 on that road.

Next fall the crowds should average about 15,000 each home game. West Texas State should draw 15,000; Tulsa should draw about 15,000; Baylor should draw about 19,000; Arizona should draw about 12,000; and Hardin-Simmons about 17,000. A home game with Abilene Christian College at the beginning of the season is still unofficial, Jennings said.

On the road Tech is expected to do slightly better. Texas University should draw about 25,000; Texas A&M about 20,000; Rice about 20,000; Texas Mines about 12,000 and New Mexico about 7,000. This figures about 16,800 fans per game on the road.

It is hoped, if finances make it possible that semi-permanent seats on the north end zone will be increased to 1,200, Jennings said.

Raiders Host To New Mexico After Dropping Loop Leaders

The Raiders will meet the New Mexico Lobos here Friday night in an attempt to take another step toward the conference championship. Tech now holds second place with a good chance at first if Arizona meets defeat.

The Raiders defeated the Lobos 58-50 on their own floor last time but the Lobos have shown considerable improvement since then.

New Mexico's "Gnat" Wallace is the same height as Groves and has averaged a little over 15 points a game while Groves has averaged a little over 14. Wallace is New Mexico's scoring ace and is high man among the top twenty scorers in the conference.

The Lobos will be up against Groves, who ranks fifth in the top twenty, Jackson, ranking seventeenth and averaging better than 9 points, and Gibson, ranking twentieth averaging just short of 9 points a game.

Friday night's contest with Arizona found the Raiders trailing

34-28 at the half but coming back early in the second half to tie up the score 35-35 on baskets by Gibson, Barton, Groves and a free throw by Groves. Arizona moved ahead again 43-39. By the middle of the second period Tech led again 44-43 then ran the score to 51-45.

Forward Linc Richmond, one of the best players in the conference made 3 quick baskets and tied up the game. The score see-sawed back and forth until the Raiders reached a 60-58 lead and stalled the last two minutes of the game to insure victory.

The Raiders made 54 per cent of their shorts and Arizona hit only 54 per cent.

Tech Fencing Team Takes Sweeping Win Over Baylor

Tech fencing team won a sweeping victory over Baylor swordsmen in Waco Saturday, winning 21 contests out of 26 played.

Jack Cornell, Cooper Slay, Hillary Sandoval, and Richard Dickey, fencing coach, won seven out of nine fells, six out of eight epee contests, and eight out of nine sabre duels.

Jennings Issues Call For Varsity Golf Candidates

Athletic Department Head Morley Jennings issued a call for all students interested in varsity golf to report to his office in varsity stadium at 5 p.m. today.

Three members of the 1948 five man golf team were graduated, leaving positions open for newcomers. Though other matches are being planned, the following have already been arranged:

Four-team match at Abilene April 8 with McMurry, ACC and HSU.

New Mexico U., April 16, there, Texas School of Mines, April 26, here.

Border Conference Meet at Albuquerque, May 13-14.

Tentative dates have been set for March to play TCU at Fort Worth and SMU here.

Vern Mikkelsen, 6' 7" Hamline university center is rated by pro hoop outfits as superior

UHP - SORRY, ED, MY MOUTH AND - HRUMPH - THROAT FEEL DRY - HRUMPH - AS A BONE.

GOSH, JEFF, THAT LAST HIGH NOTE YOU CROAKED WAS AN ANTEDILUVIAN PICKLE IF I EVER HEARD ONE!

JEEPERS, JEFF, I DON'T MEAN TO EXPOSTULATE - BUT WE'LL NEVER BE THE CHAMPION CAMPUS QUARTETTE UNLESS YOU GIVE AN ULTRAMUNDANE PERFORMANCE.

GEE, I'M SORRY, ED - I WISH I COULD GET THE ANSWER TO THIS SMOKE-OUT FEELING IN MY THROAT.

SOUNDS LIKE CIGARETTE HANGOVER TO ME, JEFF. PHILIP MORRIS IS THE ONLY LEADING CIGARETTE PROVED DEFINITELY LESS IRRITATING, WHY NOT TRY 'EM?

THOSE HE-SIRENS SOUND MORE PHILHARMONIC THAN I'VE EVER HEARD THEM.

THAT TENOR JEFF REALLY THROBS! WE SINCE PHILIP MORRIS HELPED HIM GET RID OF CIGARETTE HANGOVER.

Hit a Happy Note in Smoking

All over America, millions of smokers are discovering — there's NO CIGARETTE HANGOVER when you smoke PHILIP MORRIS... because PHILIP MORRIS is less irritating than any other leading brand. That's why eminent nose and throat specialists actually suggest* PHILIP MORRIS in cases of irritation due to smoking. You'll be glad tomorrow, you smoked PHILIP MORRIS today!

CALL FOR PHILIP MORRIS

Naval Reservists Stand Inspection

Members of the Naval Reserve training center were exposed to their first personnel and working inspection Wednesday night when Capt. E. von Kleeck, jr., USN, and his administrative staff from the Organized Surface Battalion 8-21 in Dallas visited the Lubbock division during an inspection tour of this area.

"Dress blues" was the uniform of the day during the regular drill period and all inspection procedures conformed to those of a rigid military inspection. For many reservists this was the first experience with a real personnel inspection, during which each man had to meet specific and proper uniform requirements.

Drill and training routines were continued as normal throughout the evening and Lt. R. L. Gillis, officer-in-charge of the Lubbock armory, led the inspection party through the various class rooms and training quarters.

Capt. von Kleeck stated that the inspection attendance and general response was better than had been noted in other recent inspections and the Reserve unit here was pronounced in good shape, said Lt. Gillis. Capt. von Kleeck and Lt. Gillis left Thursday afternoon for a similar inspection of the Reserve unit at Abilene.

Contract Signed For Tech Records

Contracts with RCA were signed Thursday for a record album of the Tech band and glee club, W. C. Cole, manager of the Tech bookstore, said yesterday.

There will be eight school songs which are to be selected by Dr. Julien P. Blitz, head of the music department, and one recording by Doctor Blitz in the album. Campus scenes, the school colors and pictures of the band and glee club will decorate the inside and outside covers of the album.

SHAKY — Workmen are shown above early Saturday morning climbing the shaky campus flagpole to recover the flag which became wedged there during the past snow and ice storm. (Photo, Brewer)

Both the annual engineers show and the annual Home Ec open house are scheduled for April 22-23.

Study Club Raises Scholarship Fund

Approximately \$200 was raised for a Tech scholarship fund by the Lubbock Pierian Sorosis club at a benefit square dance Thursday night. Mrs. Carroll Smyers, president of the club said that arrangements had not been made with college officials.

The exact nature of the scholarship has not been decided by the club, but Mrs. Smyers stated that one of the organization's projects was to aid youth. The club is a federated study club and, though it has undertaken many projects, this is the first of its type.

Plans are being made for another such benefit, and Mrs. Smyers expressed the desire that Tech students would attend in number.

Block & Bridle Starts Plans For Tech Rodeo April 1-2

Plans were begun for rodeo and All-Western days April 1 and 2. J. H. "Red" Heath, rodeo manager, said Thursday.

This event will be the first annual All-College rodeo to be held at Jones stadium. Planned events will be discussed at the next meeting of the Block and Bridle club which sponsors the rodeo. J. H. Baumgardner, professor of animal husbandry, is the new sponsor of the club. He succeeds Ray C. Mowery, assistant head of the animal husbandry department.

Committee To Study Foreign Student Problems Appointed By President

An emergency committee has been named to study and recommend solutions to problems confronting foreign students, according to a release from the office of Dr. E. N. Jones, vice president and chairman of the Deans council.

The committee was appointed by Pres. D. M. Wiggins upon recommendation of the council.

Members of the group are to study financial problems of Tech's foreign students resulting from the closing of money exchange between the United States and some foreign nations. Proper agencies are to be contacted in an effort to determine if an improvement may be expected in those factors creating the problems.

An admission policy governing foreign students, to be effective for June and September, 1949, is

to be given consideration.

Committee members include: James G. Allen, dean of men and chairman; W. P. Clement, registrar; Dr. C. B. Qualia, head professor of foreign languages; Dr. Agnes True, associate professor of education and psychology; H. N. Roberts of Lubbock, ex officio member.

Women Job Seekers Asked To Contact Ass't Dean

Women students who filed applications for work last semester and who still want employment are asked to contact Miss June Hanson, assistant to the dean of women and coordinator of campus activities for women students.

Women who registered for part-time employment last semester totaled 216, Miss Hanson said. Of this number, 148 were employed and 13 decided not to work.

The greatest number of women were placed in college offices. Baby sitting took second place and housework third. The smallest number of applicants were employed in local hospitals.

Students are paid 50 cents per hour, Miss Hanson said.

Professors To Go To Austin

Dean Margaret W. Weeks, professor and head of the department of home economics and Prof. Sannie Callan, head of the department of child development and family relations, will attend a conference Feb. 23 to 26 in Austin for teachers of family relations and child development in colleges and universities in the southern region.
