

Controls Bill Facing Final Tests Today

By WILLIAM F. ARBOGAST WASHINGTON (AP)—The administration's stripped-to-a-skeleton controls bill faced final roll-call tests in the House today.

Anti-Fly Plans Are Stepped Up

City-County health officials are stepping up their campaign for universal support of an anti-fly program.

Sanitarian Lige Fox repeated Thursday that the control of flies is "an individual proposition and everybody's job."

"If you're waiting for the city fogging program or health department action to kill all the flies, you're not doing your part to control or reduce the city's fly population," he stressed.

The sanitarian pointed out that it's practically impossible to kill all adult flies, and that the only feasible way to control the pests is through elimination of propagation.

The health unit is preparing some radio spot announcements for local radio stations to encourage sanitation.

Guards Held As Hostages

EDDYVILLE, Ky., June 26 (AP)—Two guards were reported held as hostages today following a riot at the state prison.

An uprising began among the prisoners at 10 o'clock last night, and was quelled four hours later.

At Frankfort, the state capital, State Police Commissioner Guthrie Crowe said "a riot of undetermined proportions" was on at the prison.

Eddyville is Kentucky's maximum security prison for hardened criminals.

Police Alerted In Defiance Campaign

By ARTHUR GAVSHON JOHANNESBURG, South Africa (AP)—Armed police stood alerted today as hundreds of non-whites prepared to seek jail in a defiance campaign against South Africa's race segregation laws.

Yussif A. Cachalia, campaign secretary, said a trained, disciplined vanguard of volunteers would go into action "like soldiers" in all major cities to flout Jim Crow restrictions. They expect to be jailed.

He stressed, however, that no call had gone out for a general work stoppage. Effective precautions have been taken to conduct the movement peacefully, he added.

Behind the campaign is the African National Congress, representing the country's eight million Negroes, and the South African Indian Congress representing 300,000 Asians.

THE WEATHER

BIG SPRING AND VICINITY: Partly cloudy this afternoon, tonight and Friday; occasional thunderstorms and a few showers and drizzles; a little cooler tonight and Friday.

ern Democrats in a week of heated debate. There was one exception: Republican Leader Martin of Massachusetts told newsmen he thought the House might reverse yesterday's 118 to 87 decision to end wage and price controls July 31.

Rep. Barden (D-N.C.) sponsored this amendment. Martin, who opposed it, said a Senate-House conference committee probably would knock it out of the final bill even if the House didn't cancel yesterday's tentative vote.

Even without the Barden amendment, however, the bill—originally drawn to continue President Truman's wage, price, rent and other control powers for a year—has been so sharply whittled by the House that some members said they'd be surprised if it wasn't sent back to committee.

In that case Congress could either allow all controls to die next Monday, when the present law expires, or pass a quick short-term extension of the present law.

As it now stands the House bill would: End wage and price controls on July 31, 1952.

Continue until June 30, 1953, allocation and priority powers and rent control.

"Request" the President to try to stop the steel strike with a Taft-Hartley Law injunction. Reorganize the Wage Stabilization Board and take away its power to act in labor disputes.

The House left out of its bill all authority for the government to control private credit. This authority had been used in the past to regulate installment buying and house purchases.

Another amendment up for reconsideration today was by Rep. Talle (R-Iowa). It would end practically all price controls after June 30.

This amendment, approved by an unrecorded vote of 145 to 85, appeared to have a good chance of remaining in the bill.

Before today's final votes, the House still had to decide what to do about rent control. An amendment to remove rent controls on July 31 is pending and has strong backing.

The Senate, in its own version of the controls bill, has voted to retain rent controls until next March 1, when it also would end wage and price controls.

The House voted yesterday to remove from wage controls employment of newspapers, magazines, theaters, wire services and outdoor advertising companies. The present law exempts these operations from price controls.

The House ordered that salaries of supervisory, executive, administrative and professional employees be handled by the Bureau of Internal Revenue instead of by the Salary Stabilization Board.

And it voted to allow individual wholesalers and retailers their customary pre-Korean price marks instead of permitting these markups only on an industry-wide basis.

kick off the defiance campaign in Johannesburg. Around midday, after the chief magistrate had been informed, at least 50 Negroes were to breach laws ordering them to carry various sorts of permits—identity, employment and tax papers and the like. Their leader was the Rev. N. B. Trantzi, who heads the African Episcopal Methodist Church here and also is acting president of the African National Congress.

Later a Transvaal State leader of the Indian Congress, Nana Siba, was to lead another group in breaking the night curfew for non-whites.

The defiance aims at repeal of segregation laws deemed unjust by coloreds (mixed blood) and Indians. They hope the law defiance will snowball into a mass movement that will so fill the jails Premier Daniel F. Malan's government cannot handle it.

Non-whites outnumber whites 4 to 1. The growing threat to white supremacy reportedly has produced a new attempt of narrow the wide political gap between Malan's Nationalist government and the opposition United party.

Qualified informants said former Defense Minister Oswald Pirow, a Nationalist supporter, is negotiating secretly for a compromise between moderates in the government and the opposition. The ruling Nationalists and the United party differ little in their race policies—the quarrel is how best to achieve the same goal of continued white supremacy.

Would-Be Assassin

Korean Military Police struggle with a man authorities identified as 62-year-old Ryu Shi Tae, a member of a secret society known as the Corps of Blood Justice, after he attempted to assassinate President Snyderman Rhee as he addressed a crowd of 5,000 on the second anniversary of the Korean War. Rhee's life was spared when the would-be-assassin's gun failed to fire. (AP Wirephoto via radio from Tokyo).

Strike Certain To Last Another Week

By ROWLAND EVANS JR. WASHINGTON (AP)—The steel strike was considered certain today to continue at least another week even if President Truman bowed to the will of Congress and asked a court to order the men back to work.

There was no firm indication, however, how the President would react to yesterday's House request—paralleling a previous one from the Senate—that he use the Taft-Hartley Labor Law to end the crippling, 24-day strike.

The walkout of about 650,000 CIO steelworkers has already cost more than six million tons of steel. The President had a chance to tip his hand at his weekly news conference today. His last public comment on Taft-Hartley was a curt remark that Congress has no power to force its use. He also said, however, the use of the law always has been under consideration.

The law calls for a board of inquiry, appointed by the President, to look into the issues involved in a dispute and make a report to the White House. Not until that has happened—and customarily it takes at least a week—can the President ask a court to issue an order banning continuation of the strike for 80 days.

The steelworkers union, it was learned, is considering an attack on the steel industry through the same Taft-Hartley Law.

The act makes it an unfair labor practice not to bargain collectively. The act says collective bargaining is conferring "in good faith" over union demands for higher wages and other contract changes. The union questions whether the steel companies have, in fact, bargained in good faith, and gives this reason:

The union was reliably reported to have reached a tentative agreement on a new contract late last week with Bethlehem Steel, second biggest producer. The tentative accord, these reports said, was rejected by others of the six main companies in the dispute when Bethlehem asked for their approval under an agreement that all six would stick together in the long contract fight.

Sticking obstacle to settlement of the dispute, which started last November, was a union demand for the union shop, under which all employees could be compelled to join the union.

Beyond a statement by Rep. Halleck (R-Ind.) yesterday that the strike would be settled within a week, there was no apparent indication of any union shop compromise. Halleck, refusing to elaborate on his prediction, said it came from the highest sources.

The National Production Authority, meanwhile, primed a crackdown on any steel hoarders or black marketeers. Enforcement officers were told by their chief, Robert Winn, to keep a close check on steel trade channels.

St. Louis Swelters ST. LOUIS (AP)—It was 100-above and no water for about 5,000 homes in St. Louis County yesterday. A connecting joint on a 36-inch transmission line blew out, cutting off the water supply.

Swimming Pool Delivery Is Delayed Due To Oil In Well Delivery of water to municipal swimming pool from a well near City Park was being delayed Thursday morning by the presence of oil in the water well.

The oil was the due to any petroleum production through the well, though it was attributed to lubrication of pumping equipment formerly stationed over the well by T&P Railway Company when it drew part of its water supply from the area.

Lubricating oil apparently seeped past pump shaft bearings and formed a thick layer on the water below. New pumping apparatus installed Wednesday was coated with the oil when it was placed below the surface of the water.

Pumpers Thursday hoped to flush out the lubricant by pumping the well. To allow the oil to enter the

Slash In Defense Funds Asked By Committee

Move Started To Increase Patrol Work

WASHINGTON, June 26 (AP)—A move to increase funds for immigration patrol work on the Mexican border was started today. Sen. Lehman (D-N.Y.) told a reporter he and Sen. Humphrey (D-Minn.) and possibly other senators would seek to restore \$4,001,000 to the Justice Department appropriations bill for this work.

Unless this is done, he said, immigration officials have warned that control of illegal entry of Mexican "wetbacks" into the United States may collapse.

The Budget Bureau had requested \$44,400,000 for the Immigration Service for the year beginning July 1. This amount was cut to \$40,399,000 by the House, and the same figure was recommended by the Senate Appropriations Committee. The Justice Department bill containing the immigration allocation is now before the Senate.

Argyle R. Mackey, deputy immigration commissioner, told the Senate committee during hearings on the bill that the \$4,001,000 is needed as follows:

Border patrol program, \$1,460,500; operation of detention camps, \$540,500; removal of Mexican aliens, two million dollars. As a part of the alien removal program, the immigration service is using five converted C-46 cargo planes as an airlift to return the Mexicans to their country.

Lehman said that if the control program is dropped, more than 700,000 Mexicans may enter this country illegally within a year.

On the House side, Rep. Bentsen (D-Texas) scouted reports that the border patrol program may break down unless more money is forthcoming.

"The immigration service is no sacred cow and it must take its cuts along with other government departments," he said.

He told a reporter the immigration service is not being cut below last year's appropriation. "They are only being held in status quo," he said. "Each year they ask for more money."

Reds Inconsistent, Harrison Declares

MUNSAN, Korea (AP)—Maj. Gen. William K. Harrison Jr. today accused the Communists of simultaneously agreeing and disagreeing with Russia at the deadlocked Korean armistice talks.

The senior United Nations negotiator made the statement after hearing the Communist reply to his charge that Red insistence on forced return of war prisoners is inconsistent with the policy of Russia in World War II.

U.N. refusal to return prisoners who do not want to go home has blocked a Korean armistice for months.

"It is not apparent how you can at one and the same time both agree and disagree with the acts and declarations of the USSR," Harrison told the Communists at a 35-minute no-progress session at Panmunjom. Another meeting was set for tomorrow at 11 a.m. (9 p.m. EST Thursday).

Harrison told the Reds Saturday that Russian commanders in World War II promised surrounded Axis troops at Stalingrad and Budapest return to the country of their choice at the end of the war.

North Korean Gen. Nam Il replied today that Harrison "misinterpreted and distorted" the "ultimatum issued by the victorious Soviet army to the encircled German, Hungarian and Italian troops." The chief Communist negotiator declared:

"After the conclusion of the Second World War, the Soviet Union in strict adherence to the Geneva Convention repatriated all of the war prisoners held by her—German, Hungarian, Italian, Japanese—and of other countries—with the only exception of war criminals."

He insisted that the guarantees made at Budapest and Stalingrad did not involve prisoners but were actions "of a victorious army demanding the surrender of a losing army during hostilities."

"It is interesting to note that you find it necessary to defend the Soviet Union," Harrison replied. "We merely were showing that your position regarding the questions of prisoners of war contradicts the government from which you have taken your ideology."

DATE CHANGED FOR SPECIAL ELECTION AUSTIN, June 26 (AP)—Date for the special congressional election in the Seventh District was changed today from Aug. 23 to Sept. 23.

Gov. Allan Shivers ordered the change after county judges in the district said they did not have enough ballot boxes and other materials to hold both the special election and the second Democratic primary on the same day.

They said it would cost too much to provide the materials. The election was called to fill the vacancy created by the resignation of Rep. Tom Pickett, who will enter private business July 1. The Seventh District includes Anderson, Cherokee, Grimes, Henderson, Houston, Madison, Montgomery, Nacogdoches, Polk, San Jacinto, Trinity and Walker Counties.

TOO HOT FOR NEWS TODAY

WASHINGTON, June 26 (AP)—President Truman cancelled his mid-afternoon news conference today because of the intense Washington heat. The Weather Bureau indicated the thermometer would go to around 99 degrees by 2 p.m. (CST), time the conference had been set.

Chinese Troops Are Driven Off

By STAN CARTER SEOUL, Korea (AP)—Allied infantrymen drove armor-supported Chinese troops off a Western Korean hill today in a bitter 5 1/2-hour battle.

At least one Communist armored vehicle — type unreported — was damaged by planes supporting the advancing U.N. troops, the Eighth Army said. Two other armored vehicles were seen on the hill.

As the Reds abandoned the hill northwest of Yonchon, Allied soldiers used flame throwers to destroy their bunkers.

Marine planes knocked out two airstrips near the front in Central Korea. Carrier-based Navy planes blasted Communist rail yards and supply facilities in Eastern Korea while the Air Force hammered front-line positions with bombs, rockets and flaming napalm.

An ammunition dump was blown up and 11 Red troop bunkers, four artillery pieces and an anti-aircraft gun were destroyed, the Fifth Air Force said.

Vealmoor School To Open Building Bids

Bids are to be opened Monday, June 30, on the construction job planned for the Vealmoor school, where two rooms, a gymnasium and a cafeteria will be added.

The school will gather at the county superintendent's office here for the undertaking.

The entire project will run in the neighborhood of \$75,000, possibly more.

The Commerce and Interior Departments got what they requested, \$716,536 for Commerce and \$325,000 for Interior. The extra budget of \$132,300 for Congress itself was approved in full.

The Labor Department was cut from \$16,870,000 to \$9,600,000, most of the cut being in funds for grants to states for unemployment compensation and employment service administration.

The Federal Security Agency was slashed from \$110,710,400 to \$10,537,750, the committee rejecting among other things the entire \$6 million requested for school construction.

The \$250,120,000 cut made by the committee in foreign aid funds was considerably less than some had expected. Earlier Congress shaved by 1 1/2 billions the President's request to authorize a \$7,900,000,000 aid program.

The heaviest cut in the defense appropriation was \$68 million dollars aimed at the Air Force, which wanted \$1,768,000,000. The Army got all but 54 million of the \$654,000,000 it sought, while the Navy was given all but \$34,787,900 of the \$421,197,740 it wanted.

The committee expressly refused to provide funds, other than planning money, in connection with the proposed Strategic Air Command installation at Municipal Airport, Lincoln, Neb.

The committee chided the Army See SLASH, Pg. 8, Col. 1

SENATE MAY ABOLISH \$46-BILLION CEILING WASHINGTON (AP)—The 46-billion-dollar ceiling built by the House over military spending looks as if it may be torn down by the Senate.

A Senate Defense Appropriations Subcommittee agreed informally yesterday to eliminate a House-voted amendment which would freeze spending for next year. President Truman said the amendment would wreck the military buildup.

Military officials requested \$2 billion dollars for the year beginning July 1, and the House authorized \$46,200,000,000.

But the rider, sponsored by Rep. Howard W. Smith (D-Va.), would mean the three services could spend only a total of 46 billion dollars from this amount plus funds carried over from past appropriations.

Chairman O'Mahoney (D-Wyo.) said the Senate group agreed with the administration's contention that the amendment would mean renegeing on past appropriations. These have been pledged in pay for military equipment ordered months ago and scheduled for delivery next year. Secretary of the Air Force Fila-

25 Per Cent Cut Is Recommended

WASHINGTON, June 26 (AP)—The House Appropriations Committee recommended today a 25 per cent cut in new funds asked by the administration for the armed forces, foreign aid, atomic energy and a variety of other purposes.

In terms of cash, the purse-holding group's proposed reduction—which comes up for House action tomorrow and will be considered by the Senate later—was \$3,468,156,250.

The committee, headed by Rep. Cannon (D-Mo.), said the agencies involved should get along on \$10,282,532,030 instead of the \$13,750,688,280 President Truman asked.

The money provided in today's bill is separate from regular budget appropriations already considered by Congress for the Defense Department and the Atomic Energy Commission. Their regular budgets, much larger, have been reduced already.

The new funds supplement appropriations already considered for the coming year or actually made for the present year, and are primarily for construction programs.

No big agencies were spared the committee's cuts. The largest was a \$1,706,000,000 reduction in funds for the Atomic Energy Commission. This was 53 per cent less than the \$3,191,000,000 requested.

The foreign aid program was chopped by \$250,120,000, from \$6,526,060,750 to \$6,275,940,750.

The Defense Department, which wanted \$2,993,868,440 for its construction programs, was allotted \$2,187,899,840, a cut of \$805,968,600. A group of defense agencies was trimmed from \$661,610,000 to \$31,690,000, a reduction of \$630,920,000, with \$562,500,000 of the total cut aimed at the Civil Defense Administration.

The Economic Stabilization Agency (ESA) got nothing, the committee saying it would consider ESA funds when Congress decides what to do about wage, price and rent controls. The agency wanted \$103,250,000.

The Commerce and Interior Departments got what they requested, \$716,536 for Commerce and \$325,000 for Interior. The extra budget of \$132,300 for Congress itself was approved in full.

The Labor Department was cut from \$16,870,000 to \$9,600,000, most of the cut being in funds for grants to states for unemployment compensation and employment service administration.

The Federal Security Agency was slashed from \$110,710,400 to \$10,537,750, the committee rejecting among other things the entire \$6 million requested for school construction.

The \$250,120,000 cut made by the committee in foreign aid funds was considerably less than some had expected. Earlier Congress shaved by 1 1/2 billions the President's request to authorize a \$7,900,000,000 aid program.

The heaviest cut in the defense appropriation was \$68 million dollars aimed at the Air Force, which wanted \$1,768,000,000. The Army got all but 54 million of the \$654,000,000 it sought, while the Navy was given all but \$34,787,900 of the \$421,197,740 it wanted.

The committee expressly refused to provide funds, other than planning money, in connection with the proposed Strategic Air Command installation at Municipal Airport, Lincoln, Neb.

The committee chided the Army See SLASH, Pg. 8, Col. 1

Senate May Abolish \$46-Billion Ceiling

WASHINGTON (AP)—The 46-billion-dollar ceiling built by the House over military spending looks as if it may be torn down by the Senate.

A Senate Defense Appropriations Subcommittee agreed informally yesterday to eliminate a House-voted amendment which would freeze spending for next year. President Truman said the amendment would wreck the military buildup.

Military officials requested \$2 billion dollars for the year beginning July 1, and the House authorized \$46,200,000,000.

But the rider, sponsored by Rep. Howard W. Smith (D-Va.), would mean the three services could spend only a total of 46 billion dollars from this amount plus funds carried over from past appropriations.

Chairman O'Mahoney (D-Wyo.) said the Senate group agreed with the administration's contention that the amendment would mean renegeing on past appropriations. These have been pledged in pay for military equipment ordered months ago and scheduled for delivery next year. Secretary of the Air Force Fila-

letter cited the spending ceiling as one factor slowing down the air buildup. Finletter testified last night before a House Expenditures Subcommittee.

He told the group the House Appropriations Committee had cut \$60 million from proposed new aircraft procurement, which is in addition to the regular Air Force budget. The committee was to announce its action on this and other special appropriations later today. The Air Force had requested over \$1,700,000,000 in addition to its regular budget, which totaled \$2,752,412,912 when the House finished cutting it in April. The Senate still has to act on the defense budget.

CONSERVE WATER

Withdrawals during 24-hour period ending at 8 a.m. Thursday: 3,122,000 gallons. Maximum safe sustained withdrawal rate under present conditions: 3,000,000 gallons per day.

# Strike Has Cost Idle Workers \$253 Millions

By GIB STALEY  
PITTSBURGH (AP)—The great steel strike of 1952 already has cost Philip Murray's 650,000 idle steelworkers about \$253 million dollars in wages.

As the strike goes into its 25th day with little sign of a break there are reports of increasing hardship from all sections of the country.

Layoffs in allied industries are increasing almost hourly.

In addition to the 650,000 striking steelworkers from coast to coast the latest survey shows that 216,320

workers in allied industries either have been laid off or ordered not to report for work after July 3.

The number of workers in allied industries already off the payroll is 166,320.

Heavy layoffs are starting in the auto industry. About 30,000 Michigan auto workers alone face immediate or early layoffs. General Motors has expanded its layoff program to include plants at Saginaw after previously announcing thorough schedules for Flint and Detroit plants.

Ford and Chrysler say they hope

to keep production going. The GM layoffs, first in the industry, will extend into the remainder of this week and next week—unless there's a sudden end to the strike.

Some plants are advancing vacation schedules hoping that the strike will be settled in the meantime.

At Cleveland, General Motors Fisher Body Division has laid off 100 workers. It expects to halt production Tuesday, idling 3,200.

From city after city come similar reports of hardship cases among strikers and their families. The powerful steelworkers union does not pay strike benefits although its locals make an effort to aid hardship cases.

Some 1,600 strikers in the Canton and Youngstown, O. area, where about 43,000 steelworkers are idle, have applied for relief. At Canton, Stark County officials said one striker asking for relief must work off his food orders at the rate of 75 cents an hour. Ohio law requires this of any able-bodied person on relief.

The Chicago welfare office reports 100 families of strikers in the Chicago-Caumet-Gary area are now applying for aid daily. They are being given checks for food.

At Duquesne, Pa., a steel community of 6,500 near Pittsburgh, the City Council declared a state of emergency. Mayor Frank Kopriker sent letters to company and union officials and to President Truman urging that the mills get back in operation.

## Marshall Is Committed To Trial On Betrayal Charge

LONDON, June 26 (AP)—A magistrate's court today committed William Marin Marshall, 24, a radio operator for the British Foreign Office, to trial on charges of slipping official secrets to a Russian diplomat.

The action followed a closed hearing. Reporters and the public were barred because of the top secrets involved in the case. At the opening of the hearing, a government prosecutor charged that Marshall was carrying information which would have been useful to the Kremlin when he was placed under arrest on June 13 in the company of the Soviet Embassy official.

Marshall may be tried in central criminal court—Old Bailey—within the next week. This is the same court where Klaus Fuchs was convicted of betraying top atomic secrets to the Russians. Fuchs is serving 14 years in prison.

Marshall was denied bail and ordered held in jail until his trial. Marshall once worked in Britain's Moscow Embassy, where he described himself as a "misfit" and disgruntled with his work.

He was picked up in Suburban Wandsworth Park with Pavel Kuznetsov, second secretary of the Soviet Embassy in London. The So-

viet diplomat was released on grounds of diplomatic immunity.

Magistrate Clyde T. Wilson read four charges against Marshall. Three of them accuse the young radio operator of giving information to Kuznetsov and the fourth of obtaining information at Hanslope Park, where Marshall worked in the foreign office radio station.

Magistrate Wilson asked if Marshall understood the charges and he replied: "Yes, sir, and I deny them all."

## Abilene Diamond Thieves Sought

ABILENE, June 26 (AP)—A statewide search was on today for two women suspected of stealing \$4,400 worth of diamonds from an Abilene jewelry firm, Bush & Sons.

The loose stones which were inside a pouch in a display case were missed yesterday by a clerk, said manager Frank Fite.

Two clerks said they had shown jewelry to the women, one about 35 and another, 53 to 60.

Fite said the theft was effected by a routine he called "familiar in the jewelry business."

The younger woman held the clerk's attention at another counter while the older woman dropped a piece of costume jewelry on the floor, kicked it under the counter and then went around to retrieve it.

## Auto Sets Record

BRUGES, Belgium, June 26 (AP)—A British designed jet engine automobile set a speed of 152.691 miles an hour in official timed trials here today. The experimental car burned a gallon of kerosene every six miles.

## HCJC Policies To Be Explained

Policies of the Howard County Junior College will be explained in black and white for students and faculty when the fall semester opens.

Two booklets are in the process of preparation. One will outline the policies, rules and regulations and lines of authority from the board of trustees through instructors.

Another will be beamed to the students. It will explain HCJC policies: outline attendance requirements and what happens if classes are not met; what the student activity fee covers; library privileges, etc.; traditions; recreation, and a host of other items.

## Crash Kills Man

CARTHAGE, Mo., June 26 (AP)—Douglas Henry Harris, Amarillo, Tex., was killed today in a car-truck collision on Highway 166 south of Carthage. The state highway patrol said Harris' car was struck in the rear by a truck.

## Churchill Seeks Military Man On U. N. Staff

LONDON, June 26 (AP)—Prime Minister Churchill pressed today for quick appointment of a top British military man on the planning and policy staff of the United Nations command in Korea.

This was the aftermath to the row kicked up by the Laborite opposition in the House of Commons over the bombing of the Yalu River power plants.

Churchill's conservative government expressed regret that it was not advised in advance of the bombings but it defended them as attacks on a legitimate war objective. The Laborites said the bombings threatened to extend the warfare in Asia.

The Russians seized upon the debate as showing up British-American differences.

Churchill conferred with Field Marshal Earl Alexander, the British defense minister, at No. 10 Downing St. on the talks Alexander had with U. S. officials at the Pentagon Monday concerning the proposed British appointment to the U. N. Command staff.

## VFW To San Antonio For 1953 Session

GALVESTON, June 26 (AP)—Veterans of Foreign Wars ended their Texas convention here yesterday after selecting San Antonio as the 1953 convention city.

Resolutions disapproved of Texas' failure to allow soldiers to vote, world government, a genocide pact among UN countries, and cuts in Veterans Administration services.

Johnnie U. Foster, Lufkin, was elected department commander.

## Arthritis Victim Is Aided By Strangers

By BO BYERS  
LINCOLN, Tex., June 26 (AP)—A man who fought a losing battle against the twisting torture of arthritis for 18 years gained new courage today because strangers 55 miles away had come to his aid.

Oscar Schiwart, his body immobilized by his wracking pain which held him on his bed as surely as if he had been chained all these years, headed for Seton Hospital in Austin.

Two doctors awaited his arrival. Their services will be without charge.

The hospital room and nursing care also will cost nothing for Schiwart, a 45-year-old man who had to be declared a pauper to qualify for \$25 a month from Lee County. The county, a rural area of Texas, had no charity hospital or county nurse to help care for Schiwart.

The ambulance carrying Schiwart to Austin made the trip without charge.

Drugs which the doctors hope will kill the pain and help Schiwart's rehabilitation will be furnished by a druggist "at cost."

All this was made possible by the efforts of two Austin businessmen who heard of Schiwart's state and determined to help him. The men, Conrad Fath and Bob R. Lockart knew what Schiwart was suffering because they had also suffered arthritis.

Fath and Lockart went to state agencies which they thought should be able to lend assistance.

The answer was always the same: "Sorry, he doesn't qualify for help under the law that covers our work."

Fath and Lockart shifted their

search to private citizens of Austin. There they found response. Joe Manor volunteered the ambulance. Dr. Jim Kreis and Dr. Lawrence Griffin offered their services. Dr. Everette Kelly agreed to supply the drugs on a non-profit basis.

The Rev. Albert F. Jesse of St. Paul Lutheran Church told his congregation about Schiwart and received pledges of financial assistance.

He contacted Lee County Judge John S. Simmang and gained a promise that Schiwart's monthly allotment would be raised to \$40.

Sister Basil, administrator of Seton Hospital, promised a free room and nursing care for three or four months. Meantime, Fath and Lockart are hoping to find an institution that will provide permanent care.

## Texas Dean Named

HANOVER, N. H., June 26 (AP)—Willis B. Woolrich, dean of engineering at the University of Texas, was elected president of the American Society for Engineering Education yesterday.

## Few Vacancies Seen At HCJC

While the picture will not become clear perhaps until August, vacancies on the Howard County Junior College staff appear to be few.

The only "wide open" spot is that in industrial education. B. M. Keese, dean-registrar, said that a full time shops man would be needed.

A speech instructor, who also will double part time in other fields, may be needed. Otherwise, the picture on instructors appears fairly stable at the moment, Dr. W. A.

## Boy Gets Damages For Injury To Eye

FORT WORTH, June 26 (AP)—A boy who lost his left eye and finger while playing with explosives on the World War II site of Camp Wolters was awarded \$7,000 damages in U. S. District Court yesterday.

Walter Wayne Inmon was injured in February, 1949. Judge T. W. Davidson also granted the boy's father, Walter W. Inmon, \$1,000.

The father, who brought suit for himself and his son, had asked \$55,000 from the government.

Hunt, president, is making some studies now toward filling vacancies. He assumes his duties on Aug. 1.

## Wake Up To More Comfort

Without Nagging Backache  
Nagging backache, one of our modern headaches and distress may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages. Don't neglect your kidneys if these conditions bother you. Try Doan's Filmm-a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Film today!

**Homeward Bound**

SAILORS ON THE U. S. S. Essex, newly arrived in Yokosuka, Japan, watch her sister ship, the Princeton, slip out of the Harbor, heading stateside.

What is in store for these boys in the months ahead? What will they have seen and heard and experienced before they, too, are homeward bound? Whatever may come, they'll take it as part of a job they're doing for their country and yours.

You can help, too. Tens of millions of Americans are already helping our country and our way of life — by buying United States Defense Bonds. Probably you are one of them. For you know that with bonds and other forms of saving you're doing more than building up a healthy backlog of savings for yourself and your loved ones. You're helping to keep America's economy strong just as surely as the boys in this picture are helping to keep up her military strength. Peace is only for the strong!

If you're not already a bond buyer, how about starting a patriotic program of regular bond saving today? It's as easy as joining the Payroll Savings Plan where you work. Save a sum out of every check — before you have a chance to spend it. You know, no matter how small your income, you can never afford not to save something for yourself! So join the Plan today. Thousands have found it the one sure way to save!

*Peace is for the strong... Buy U.S. Defense Bonds regularly!*

The U. S. Government does not pay for this advertising. The Treasury Department thanks, for their patriotic donation, the Advertising Council and

**HERE'S HOW E BONDS NOW EARN MORE MONEY FOR YOU!**

Now safe, sure U. S. Series E Defense Bonds pay an even better return than ever before... thanks to 3 brand-new money-earning features just announced by the U. S. Treasury.

1. Now every Series E Bond you buy begins earning interest after only 6 months. It averages 3% compounded semiannually. It reaches full maturity value earlier (9 years, 8 months) and the interest it pays is now bigger at the start.
2. Every Series E Bond you own can now go on earning interest for 10 more years after it reaches the original maturity date—without your lifting a finger!
3. During the 10-year extension period, every un-matured bond earns at the new, higher interest (average 3% compounded semiannually). Your original \$18.75 can now repay you \$33.67. \$37.50 pays back \$67.34. And so on.

Start now! Invest more savings in better-paying Series E Bonds—through the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank!

**Top Air Ace Decorated**

Col. Francis S. Gabreski, (right) top U. S. Air Force ace pilot, receives the Distinguished Service Medal at the Pentagon in Washington, D. C., from Air Force Secretary Thomas K. Finletter. He was decorated for tactical doctrines he set up while directing the 51st Fighter Interceptor Wing in Korea. He is credited with destroying 40 enemy planes, 33 1/2 in World War II and 6 1/2 in Korea. (AP Wirephoto).

## Progress Is Made In Good Vs. Bad

By ALVIN J. STEINKOPF  
MIDDLESBOROUGH, England (AP)—Progress was reported today in this city's good girl vs. bad girl competition for the favor of sailors.

The nice girls are going strong. It was said by the Rev. Cyril Kettle, 35-year-old chaplain of the Mission of Seamen.

The sailors are flocking in greater numbers to his mission where, just as the Rev. Mr. Kettle promises on visits to arriving ships, make it possible, and easy, for some and pretty girls of the city, Middlesborough, an industrial and shipping center of 150,000, has be-

come a bright spot on many a sailor's list.

The Rev. Mr. Kettle's project has attracted a great deal of attention, some reports have suggested that he has organized the proper girls of the town to lure sailors away from the girls, to be found in any port, who aren't so nice.

It isn't like that, he protested. There is no exciting competition in the streets between his team and the good time girls. But he does make it possible, and easy, for sailors who land in Middlesborough to meet girls who can give seamen a memorable and proper evening.

"I wish the mission could supply a few more," the chaplain said. "It's quite a job frequently to turn up a dozen on short notice."

Who are the girls?

"Friendly, church-going and, in many cases, very pretty girls who know a sailor needs a girl to talk to after days and weeks at sea. I like them peppy, and it helps a great deal if they are tireless dancers. Our little church supplies most of the girls but we manage to borrow some from other churches."

"The other churches sometimes are a little unhappy when I make raids on their pretty girls, because the other churches have their own social programs. But the co-operation really is splendid."

Any sailor may find a girl friend here. Many enduring friendships have been formed and, in the Rev. Mr. Kettle's experience, the boy-meets-girl department of the mission has produced at least one highly successful marriage.

## Tech Building Collection Of Region History

LUBBOCK—If you are thinking of burning Great-Aunt Hattie's picture, don't do it. You might be destroying valuable historical material.

At least that's the opinion of Dr. Carl Coke Rister, author and distinguished professor of history at Texas Tech.

Tech is trying to build a Southwest Collection, documentary and pictorial history of the Southwestern region. Dr. Rister feels that there is a wealth of regional history gathering dust in the form of old photographs, correspondence, journals, diaries, maps and other documents.

These papers probably will not appear significant, say Dr. Rister. He asks any person who owns such material to consult him before destroying any papers of this type.

The collection of old books on the Southwest and the general region is also a necessary part of the historical research project. The supply of these early editions is being exhausted by private collectors, he said.

A total of 119 volumes were added to the Tech Library collection on the Southwest last year. Several out-of-print magazine editions were acquired. Plans are under way to purchase materials unavailable in print. The present list includes \$1,000 worth of material to be obtained from the National Archives and Division of Manuscripts, Library of Congress.

## Governor Promises To Send Troopers

MANCHESTER, Ky. (AP)—Gov. Lawrence Wetherby has promised to send extra state troopers here Monday to prevent trouble at a United Mine Workers mass rally.

Local authorities and UMW President John L. Lewis requested the troopers after two shooting affrays this week.

The union, striving to organize non-union miners in Clay and Leslie Counties, expects to mass more than 6,000 members in a demonstration of strength. This is the last non-union stronghold in the Eastern Kentucky coalfields.

Three UMW organizers were seriously wounded by gunfire in an ambush Tuesday night and a union local committeeman's store was riddled by machine-gun bullets yesterday.

## Ingrid Hires Her Another Lawyer

ROME (AP)—Ingrid Bergman announced today she has hired Hollywood lawyer Jerry Gleazier to "fight to the end" to bring her 13-year-old daughter to visit her in Italy.

A Los Angeles judge ruled Tuesday against Miss Bergman's application for a visit by her daughter Pia (Jenny Ann) Lindstrom.

## Agreement Is Seen On Foreign Policy

By JACK BELL  
WASHINGTON (AP)—Sen. Eugene Millikin of Colorado predicted today Republican platform-drafters will agree on a foreign policy plank satisfactory to both major contenders for the party's presidential nomination.

Millikin, head of the GOP National Platform Committee which will go to work in Chicago next Tuesday, told a reporter he believes the views of all major factions of the party can be woven into an acceptable plank.

Sen. Robert A. Taft of Ohio and Gen. Dwight D. Eisenhower, top contestants for the nomination, have expressed hope there can be such an agreement. But Taft appears much more confident of such a result than Eisenhower.

## New York Delegates To Back Harriman

NEW YORK (AP)—Democratic State Chairman Paul E. Fitzpatrick says New York's 94-vote delegation to the party's national convention is "100 per cent behind" W. Averell Harriman and "will continue to be for him."

Fitzpatrick made his statement at a news conference called largely to deny charges by supporters of Sen. Estes Kefauver that the Harriman - for - President drive is just a holding action until New York State party leaders agree on another candidate.

Asked about Gov. Adlai Stevenson of Illinois, Fitzpatrick declared he is not a candidate. "and I know what I'm talking about."

## Mice Have Their Painless Barbers

NEW YORK (AP)—There are barber mice who shave other mice—without a squeak in a carload of customers.

So said Dr. Theodore S. Hauschka of the Institute for Cancer Research and Lankenau Hospital Research Institute, Philadelphia, in the Journal of Heredity yesterday.

Hauschka wrote that the barber rodents give close shaves—but no haircuts—by eating all the whiskers off their companions.

Millikin said he will divide the platform committee into nine or 10 subcommittees, each assigned to a specific subject.

The Colorado senator said he has been in touch with John Foster Dulles, named as foreign policy adviser to the group, and expects Dulles to come up with suggestions for subcommittee consideration.

There are some obvious differences between Taft and Eisenhower on foreign policy and the general has been at some pains recently to point them out.

For instance, he criticized what he called "lip service or begrudging approval" of a program of collective security. Without naming Taft, the general has repeatedly struck out at "isolationists" and "false prophets of stay at home" in the GOP camp.

Taft has said the difference between him and the general is one of emphasis, not principle, adding that Eisenhower gives European aid a higher priority than he does.

As senior Republican member of the Senate Foreign Relations Committee, Sen. Alexander Wiley of Wisconsin got into the argument yesterday by submitting his views on a foreign policy plank to Millikin.

Wiley seemed to be riding with Eisenhower when he told the Senate "the phony remedy of airpower alone" won't prevent Russian aggression.

## Mayor Sends Mail By Private Channel

BRISTOL, England (AP)—The British Postoffice protested formally today against a city mayor who has been cutting in on the postal monopoly by sending goodwill greetings through private channels.

The protest went to the Bristol Aeroplane Company, which last month sent a helicopter on a sales promotion tour of Europe.

The pilot of the helicopter delivered goodwill letters from Bristol's mayor to mayors of several European cities.

Shocked English postal officials complained this breached the postmaster general's monopoly "for the conveyance of mail."

## New Mexico's Democrats In Plea For Unity

By JOHN B. CURTIS  
ALBUQUERQUE (AP)—New Mexico Democrats, pleading for unity but beset by a disturbing family fight, met today to name a 12-vote delegation to the national convention.

The advance indications were that an unstructured delegation of 24 members, each with one-half vote, would be chosen by the party's state convention. The main possibility of a dispute hinged on the method of selecting the delegates.

Backers of Sen. Estes Kefauver of Tennessee said they had given up any thought of asking an instructed delegation for Kefauver, although they were hopeful of getting some delegates friendly to the Tennesseean.

Sen. Dennis Chavez, facing what may be his most bitter battle, and former U. S. Atty. Everett Grantham, whose candidacy for governor is still contested nearly two months after the primary, made the bids for unity last night at a Jefferson-Jackson Day banquet.

Chavez' November opponent is onetime Secretary of War Patrick J. Hurley, whom he defeated by about 4,000 votes in 1946.

Lake J. Frazier, Grantham's opponent in the May 6 primary, has filed an election contest against Grantham, whom the State Canvassing Board certified as the Democratic nominee by a 754-vote margin. Frazier, absent from the meeting, was described by aides as busy with a court case.

The Democrats cheered Gov. Paul Dever of Massachusetts, who will be the national convention keynoteer, when he assailed the Republicans as traditionally the party of the big interests and held up the Democrats, since the days of Jefferson and Jackson, as the champions of the people.

## U. S. Delegates Fail To Agree

GENEVA, Switzerland (AP)—A vote of approval for proposed uniform international standards of social security benefits produced a split last night in the American delegation to the conference here of the International Labor Organization.

## Newspapers Applauded By State Senator At Meet

COLORADO CITY—Pat Bullock, State Senator, applauded the newspaper world in a speech before Jaycees, Lions and Kiwanis, at noon, Wednesday and reminded the crowd of about 200 that a good newspaper was a major contributor to the building of a community.

The luncheon was held to honor the staff of the Colorado City Record, the recipient of several awards from the Texas Press Association, at that organization's annual convention in Houston recently.

Roy Fox, publisher of the Record, was introduced by toastmaster Walter Grubb, manager of radio station KVBC. Fox explained the awards, and noted that 30 papers in the state were eligible to compete. The Hereford Brand topped papers in the state, with the Record second.

Grubb, himself an Associated Press correspondent, introduced the staff members of the Record and others who had contributed to journalism in Colorado City. These included Mrs. A. L. Whipkey

wife of one of the founders of the Record; Mrs. Betty O'Shaughnessy and Mrs. R. P. Hearin, daughters of Walter Whipkey, former record owner.

Also introduced were Mrs. Gerald Gordon, journalism instructor, whose Colorado City High School paper, The Howl, was a three-time winner in state competition; Tom Jay Goss II, free lance correspondent; and Sallie Thorpe, editor of the local Magnolia paper, Flying Red Horse.

## Dallas Man Heads State Labor Group

AMARILLO, June 26 (AP)—The Texas State Federation of Labor re-elected William J. Harris of Dallas, president yesterday and chose El Paso for next year's convention city.

Harris and other unopposed officers were named by acclamation. Five other officers will be elected at today's final session.

Those elected vice presidents include: R. D. Fisher, Waco; George Webber, El Paso; M. M. McKnight, Fort Worth; Ray Johnson, Longview; N. E. Coward, Houston; L. A. Townsend, Galveston; William Cullen, Harlingen; and Freeman Everett, Houston.

## Sunny In Mexico

MEXICO CITY, June 26 (AP)—It was sunny yesterday, with temperatures from 53 to 74.

## City Hall Girls Can't Wear Shorts

CLEVELAND (AP)—The gal workers at Cleveland City Hall are not going to wear shorts, regardless of the sizzling weather. Mayor Thomas A. Burke so ruled yesterday after some of the girls had requested permission when thermometers hobbled to a bake-over 89.

CHIQUETA FOWLER

### Forsan Girl With Brain Tumor Fighting For Life

FORSAN, (Spl)—A smiling, dark-haired little girl with just a dusting of freckles across her small pug nose left Wednesday morning for Dallas to re-enter Baylor Hospital.

Her name is Chiqueta Fowler and a brain tumor is slowly draining life from her tiny body.

Dallas doctors have told her parents, Mr. and Mrs. Clifton Fowler, that the tumor seems to be growing and that another operation would be fatal.

It was before Christmas last year when Chiqueta, a seventh grade student, began complaining of severe headaches.

On Jan. 3 the child underwent surgery in Dallas for removal of the tumor.

On her 13th birthday, April 25, her parents presented her with a wrist watch, which had been promised upon her graduation from the eighth grade.

The attending Dallas physician has advised the Fowlers to make

their daughter as happy as possible during these last months.

And, as any parents, they are doing their utmost. But their minds are on the inevitable, for they know it is only a matter of time.

### Big Spring Girl Is Queen Nominee At Hardin-Simmons

ABILENE — Joanna Gravitt, bonds, petite senior from San Angelo, has been named summer queen at Hardin-Simmons University.

Competing for the title of summer queen with Miss Gravitt were Carolyn Laaseter, Abilene; Martha Gipson, Silver Valley; Marjorie Moore, Big Spring; Evelyn Carey, Hermleigh; Mary Jo Watson, Knox City; Clara Beth Coats, Coleman; Joy Reeves, Portales, N.M.; and Betty Cox, Sentinel, Okla.

### Legion Auxiliary Plans Installation

Members of the American Legion Auxiliary will have a dinner and dance this evening at the Skyline Supper Club following installation service for the recently-elected officers.

### Lodge Makes Plans For Basket Picnic

Plans for a basket picnic to be held July 11 at the City Park at 6:30 p.m. were made when the John A. Kee Rebekah Lodge met Tuesday at the Carpenter's Hall.

### Doe President Gives Report On Convention

Alice Gale was elected new treasurer at the BPOC Does at the regular meeting Monday evening at the Elks Club.

### Mrs. Tuck Is Honored; Shower Fetes Mrs. Thieme

FORSAN, (Spl)—Mrs. Hugh L. Tuck was complimented with a pink and blue shower in the home of Mrs. L. N. Duffer Monday afternoon.

Mrs. O. W. Fletcher was co-hostess. Gifts were presented in a baby carriage covered with pink and blue crepe paper.

Attending were Mrs. E. N. Seward, Mrs. N. H. Seward, Mrs. B. R. Wilson, Mrs. Bill Kinney, Mrs. Arch Roberts, Mrs. J. M. Craig, Mrs. Frank Swiger, Mrs. Jack McCall, Mrs. Sam Rust.

Mrs. G. F. Painter, Mrs. J. P. Kubecka, Mrs. Sammie Porter, Mrs. Hoyt Andrews, Mrs. Buri Griffith, Mrs. W. B. Dunn, Peggy Painter, Lela, Mary and Sherry Fletcher, Oleta Swindell and Dorothy Dawes.

Mrs. Frank Thieme was named honoree at a pink and blue shower given Tuesday afternoon in the school music room.

Hostesses were Mrs. Frank Swiger, Mrs. G. G. Green, Mrs. Harry Barnett, Mrs. A. P. Oglesby, Mrs. W. J. White, Mrs. O. A. Jones, Mrs. M. M. Fairchild, Mrs. Buri Griffith and Mrs. Sammie Porter.

Mrs. Griffith presided at the guest register and Mrs. Swiger poured punch.

The serving table was laid with a lace cloth and centered with a pink net parasol. A pink and green color scheme was used in the refreshments and favors were miniature baby carriages.

A bowl of gladioli, perennial sweet peas and zinnias was on the gift table.

Signing the register were Mrs. Ray Shortes, Mrs. Sam Rust, Mrs. G. F. Painter, Mrs. John Cardwell, Mrs. Eddie Everett, Mrs. A. J. Smith, Mrs. J. P. Kubecka, Mrs. C. V. Wash, Mrs. W. B. Dunn, Mrs. L. W. Moore and Peggy Painter.

Mr. and Mrs. L. B. McElrath and Mary Lou had as their weekend guests his nephew and family, Mr. and Mrs. James McElrath, Vic, Jim and Dan of Valera.

Mrs. O. W. Scudday and children, Mrs. Pearl Scudday, Mrs. M. M. Hines, Ann Spear, Mrs. Helen Kendrick of Brownfield and Mrs. Harry Miller and Billy Dan of Midland are fishing at Red River, N.M.

Dee Anderson and his mother, Mrs. Betty Anderson, are leaving Friday for Evening Shade, Ark. on a vacation trip.

Mr. and Mrs. Otis Griffith and son of Kermit spent last week end with Mr. and Mrs. Buri Griffith.

Cecil Klahr, of Santa Rita spent the week end with his father, Forrest Klahr, and other relatives in Forsan.

Mrs. T. R. Camp and daughters visited in Lamesa during the week. Sgt. Floyd L. Pike sailed from Korea June 25 and is expected to arrive in San Francisco early in July.

a week-end guest of his parents, Mr. and Mrs. H. L. Nixon.

Mr. and Mrs. George Beard of San Angelo were Sunday guests of Mr. and Mrs. Hamlin Elrod and children, Susan Elrod returned to San Angelo for a visit with her grandparents.

Mrs. C. C. Long has returned to her home in Blackwell after spending several days with her son and daughter-in-law, Mr. and Mrs. C. B. Long. The younger Mrs. Long is a patient in a Big Spring hospital.

Other guests in the Long home have been her parents and sister, Mr. and Mrs. Henry Olive and Nora, of Mansum, Okla. Mrs. Olive remained with her daughter, who is reported to be improving.

### Counsellors Elected For Young People

Mrs. D. W. Overman, young people's secretary, presented for approval and election the names of counsellors for the new young people's organizations at Tuesday afternoon's meeting of the HMCreat Baptist WMS at the church.

Elected were Donald Duke, Royal Ambassador counsellor; Bill Rowe, co-counsellor; Mrs. J. W. Arnett, Girls Auxiliary counsellor; Mrs. J. T. Grantham, co-counsellor; Mrs. Doris Duke, Sunbeam counsellor; Mrs. Al Hutchins, co-counsellor.

The Sunbeams and GAs will meet at the church each Monday at 9 a.m. and the RAs at 7:30 p.m. Thursdays.

Mrs. Arnett gave the opening prayer, and Mrs. Overman led in repeating the WMS watchword. Mrs. Clarence Hinkle, stewardship chairman, led the devotional.

Monthly and quarterly reports were completed, and Mrs. Troy Harrell gave the benediction. Six attended.

### Cheerio Club Meets With Nazarenes

Mrs. Ina Montieth discussed her recent trip to the State Blind Convention in Austin and her later vacation to Ft. Wayne, Ind. when the Cheerio Circle met Tuesday at the Church of the Nazarene.

Members of the WFMS were hostesses. Mrs. Montieth led the opening prayer and the Rev. Lewis Patterson, pastor of the church, gave the devotional.

During the business session the group discussed plans for the sale of white canes.

Dinner was served by the hostesses and following this, the Rev. and Mrs. L. V. Reazin of Ropesville played and sang four duets.

Lowell Holland offered the benediction. Drivers were Mrs. Lowell Holland, Mrs. J. Tom Rogers and Mrs. Faye Phillips. Fifteen attended.

### Closing Program For Bible School Set For Friday

Vacation Bible School at the Church of the Nazarene will close Friday at 8 p.m. with a program presented by the students.

### DESIGNING WOMAN Quality Floor Varnish Makes Table Top Finish

By ELIZABETH HILLYER
What kind of finish coat can you add to a touch-me-not table top to make it as damage resistant as possible?

Use a first quality floor varnish, say the experts in the furniture finish making business. Two coats work wonders on dark or medium woods. If the top is badly damaged, the finish must first be removed with varnish remover.

What kind of finish coat can you add to a touch-me-not table top to make it as damage resistant as possible? Use a first quality floor varnish, say the experts in the furniture finish making business.

Two coats work wonders on dark or medium woods. If the top is badly damaged, the finish must first be removed with varnish remover.

But if the damage is rings or marks that aren't too deep, sanding alone may be enough preparation. Light colored woods often wear heavily glazed top coats and these must be completely removed.

Because a tint must be used to make the top match the rest of the table again, the refinishing of light woods should be done by a professional finisher, although some able amateurs can do effective finishes but the harder kinds should be sprayed on—brush stroke overlaps may show.

Be sure the floor varnish you use is top quality and apply it to all the wood surfaces so legs and aprons shrug off damage as well as the top.

rest of the table again, the refinishing of light woods should be done by a professional finisher, although some able amateurs can do effective finishes but the harder kinds should be sprayed on—brush stroke overlaps may show.

### New Officers Told At Garden Club Meet

New officers were introduced when the Big Spring Garden Club met Wednesday morning at the home of Mrs. J. Gordon Bristow for a coke party and the last business meeting until September.

The new officers include Mrs. J. B. Knox, president; Mrs. P. D. O'Brien, first vice president; Mrs. L. B. Andrew, second vice president; Mrs. J. D. Elliott, recording secretary; Mrs. Robert Stripling, treasurer; Mrs. L. B. Baird, corresponding secretary; Mrs. Allen Hamilton, reporter; Mrs. Bristow, parliamentarian.

Members of the various committees were also told. They are Mrs. J. E. Hogan, Mrs. J. D. Benson and Mrs. Ross Boykin, program; Mrs. Boykin, yearbook; Mrs. Andrew, social; Mrs. M. R. Covinton, budget and finance; Mrs. W. N. Norred and Mrs. John Coffee, civic; Mrs. Hamilton, publicity; Mrs. Norman Read, plant and feed exchange; Mrs. R. E. Satterwhite, pilgrimage; Mrs. C. M. Deal, flower display; Mrs. C. D. Wiley, flower show; Mrs. J. E. Hardesty and Mrs. Della Agnell, telephone; Mrs. Clyde Angel, therapy for local club; Mrs. O'Brien, membership.

Members voted to make a booklet on gardening in this area for the Chamber of Commerce to give to newcomers and other interested persons and to sponsor a newspaper column on gardening.

Mrs. Hogan outlined the programs for the coming year and announced that the guest speakers will include Mrs. Eugenia Toland and Fred Keating.

Mrs. Read reported on the plans for the plant exchange for the year ahead and Mrs. D. M. Penn spoke on "Summer Gardening in West Texas."

Mrs. Penn stressed mulching and cultivating and told the group that mulching was most important during the drought as it would keep the soil pliable.

### 510 Knitted Baby Set

By CAROL CURTIS
Knit in white, blue or pink. It takes only three 2-ounce skeins of baby wool, is trimmed with 3 yards of 1/2-inch satin ribbon and three tiny pearl buttons. A nice little baby gift to knit, easily and leisurely, during the summer months so it will be ready for an autumn new baby present.

### In Half-Sizes

Versatile dress with diagonal closing—designed to flatter and fit the half-size figure! Its soft shawl collar styling (with sleeve choice) is the kind needed for airy new sheers.

No. 2683 is cut in half-sizes only. 14 1/2 - 24 1/2. 20 1/2 - 22 1/2. 22 1/2 - 24 1/2. Size 16 1/2, 4 1/2 yds. 39-in., 1 1/2 yds. 39-in.

Send 30 cents for PATTERN with Name, Address, Style Number and Size. Address: PATTERN BUREAU, Big Spring Herald, Box 42, Old Chelsea Station, New York 11, N. Y.

Patterns ready to fill orders immediately. For special handling of order via first class mail include an extra 5 cents per pattern.

The SPRING-SUMMER FASHION BOOK brings you dozens of pretty and wearable fashions for cottons, from cool, cool casuals to town styles; plus the most inspiring suggestions for your vacation wardrobe. In all, over 125 easy-to-make pattern designs for all ages and occasions. Order your copy now. Price just 25 cents.

### Homemaking Girls To Leave Monday On Carlsbad Trip

Garden City summer homemaking students will leave at 7:30 a.m. Monday from the high school on a trip to Carlsbad Caverns, accompanied by their instructor, Doris Morehead.

About 15 girls are expected to make the trip by bus. Mrs. Fannin will drive the bus, and Mrs. Fannin also will accompany the group. The girls will remain overnight and visit other points of interest in the vicinity.

### J. B. Hansons Visit Relatives In Big Spring

Mr. and Mrs. J. V. Hanson of Pomona, Calif. and their daughter and grandsons, Mrs. Mary Lou Hibbard, Jerry and Richie also of Pomona have been visiting his brother and sister-in-law, Mr. and Mrs. Lee Hanson, and his sister, Mrs. Fred Stephens.

While here they have also visited other relatives including Mrs. Mike Phelan and Mrs. R. E. McKinney.

En route home, they will visit in Carlsbad, N. M. and El Paso.

### Mary Martha Class

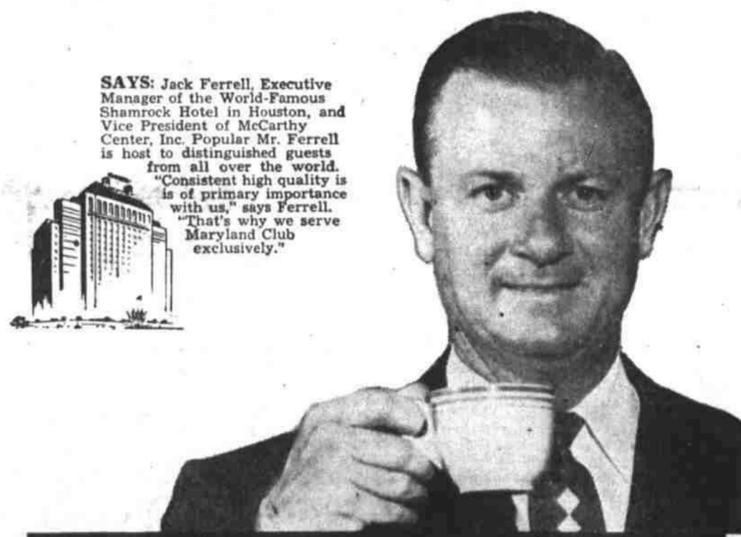

The Mary Martha Sunday School Class of First Baptist Church will meet at 7:30 p.m. today in the home of Mrs. E. A. Turner, 1410 Eleventh Pl., it has been announced.

### Danish Versions Of Sandwiches More Formal Than U. S.

More formal than our sandwiches, the Danish versions are open-face and eaten with a fork. Much like super-size canapés, any full-flavored foods are adaptable for fillings but each should be arranged for color and pattern as well as flavor.

The sandwiches, all the same or varied, should be arranged just before serving to keep the bread crisp.

# "no other coffee can match it"

SAYS: Jack Ferrell, Executive Manager of the World-Famous Shamrock Hotel in Houston, and Vice President of McCarty Center, Inc. Popular Mr. Ferrell is host to distinguished guests from all over the world.

"Consistent high quality is of primary importance with us," says Ferrell. "That's why we serve Maryland Club exclusively."

THE CHOICE OF CELEBRATED HOSTESSES
Maryland Club is as important to my table as fine china silver and crystal," says Mrs. Allen Collette, prominent Houston Socialite.
"Maryland Club has a delicious, distinctly different flavor," says Mrs. Webb Walker, Jr., popular Fort Worth Hostess.

## Maryland Club Coffee

the coffee you'd drink if you owned all the coffee in the world!

ALBANY, N.Y. (AP) — Pointed story: A truck driver stopped at a downtown street corner to ask directions. Samuel Williams raised his right hand to point. A dog seated in the cab of the truck stuck its head out of the window and nipped Williams' index finger.

The Bride-To-Be Arrives

Mrs. Ette Crosbie, of Elkhart, Ind., who answered a newspaper advertisement for a bride, joins her husband, Jesse Garrett at Evansville, Ind., with her two children, Garrett, a retired Scotts Depot, Va., merchant, whose Mrs. Crosbie from 1,000 women who answered his advertisement for someone to care for him, his two sons and \$28,000. Clinging to Garrett, happy over the prospect of a new Daddy, is Karin Crosbie, 6. The other children are, left to right: Garrett, two boys, Junior, 11, and James, 10; and Mrs. Crosbie's son, Quinn, 10. (AP Wirephoto).

### Mississippi Demos Plan A Stiff Fight

By KEITH FULLER  
JACKSON, Miss., June 26 (AP)—Hugh White, keynote of the 1952 Democratic state convention, divided delegates today not to yield an inch in the fight waged with the national party over a compulsory fair Employment Practices act. It was a no-compromise speech wrapped in a rumbling threat of a wholesale Southern rebellion if the national Democratic platform is gain considered "anti-South."

AN ORDINANCE EXTENDING THE BOUNDARY LIMITS OF THE CITY OF BIG SPRING, TEXAS, AND ANNEXING CERTAIN LAND ADJOINING THE PRESENT CITY OF BIG SPRING, TEXAS, BEING OUT OF AND PART OF THE NORTH WEST QUARTER SECTION 11 OF SECTION 22, T-1-S, R-1-E, COUNTY OF HOWARD COUNTY, TEXAS; OUT OF AND PART OF THE EAST ONE HALF SECTION NO. ONE (1), BLOCK THIRTY-THREE (33), T-1-S, R-1-E, COUNTY OF HOWARD COUNTY, TEXAS; THE AREA SO ANNEXED BEING BOUNDED ON THE EAST BY EXISTING WEST CITY LIMIT LINE WHICH RUNS ALONG THE EAST LINE OF THE NORTHWEST QUARTER (NW 1/4) OF SAID SECTION NO. WHEREAS, it is the opinion of the City Commission of the City of Big Spring, Texas, that the best interest of said City and the inhabitants thereof will be served through annexation of said territory and incorporation of same within the limits of said City of Big Spring, Texas.

### Blast Fired At Treasury Department

WASHINGTON, June 26 (AP)—Sen. Williams (R-Del.) let loose a new verbal blast at the Treasury Department today. He said it settled a 38-million dollar claim against a New York oil man for about three cents on the dollar. "This," Williams told the Senate, "is only one of the scores of large tax cases which have been compromised for an insignificant fraction during the past several years." Williams named the oil man as William R. Davis. He said he was a speculator. Davis died in 1941. The Delaware senator said today of the Davis matter: "This compromise tax case was approved by the Treasury Department under the same secretary of treasury, John W. Snyder, who for the past six years has nonchalantly been sitting on the lid of all the corruption which has recently been exposed in the Treasury Department."

### Spectacular Fire Sweeps Kansas Town

ABILENE, Kan., June 26 (AP)—A spectacular fire swept through a milling company plant in this Central Kansas town early today, causing damages estimated at \$750,000 to one million dollars. The fire leaped across five railroad tracks to destroy three coal sheds, a workshop and a cement warehouse at a lumber yard and spread to the roof of the adjoining steam laundry. A block-long feed plant and warehouse belonging to Mid West Mill and a new section of wooden grain elevators were gutted. The only part of Mid West Mill not destroyed was a group of large concrete storage bins.

### AHH!

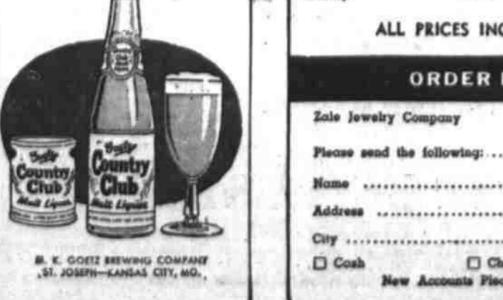

The brightness of beer... The sparkle of champagne!

### Country Club Malt Liquor

Treat your taste to a grand new discovery—Country Club Malt Liquor... the most exciting, most satisfying new beverage since champagne was invented! It's a brewmaster's masterpiece—at a moderate price. Enjoy Country Club Malt Liquor today!

### Evangelist Rites For Howe Are Set Today

AMARILLO, Tex. (AP)—Gene Howe, veteran newspaperman who rose to prominence in the Texas Panhandle, will be buried here today. The body of the longtime editor of the Amarillo Globe and News was found yesterday morning, a pistol clutched in the right hand. A bullet hole was in the 66-year-old newspaperman's right temple. Mrs. W. J. Fleisher, Randall County justice of the peace, returned a verdict of suicide. Friends said despondency over his health caused him to end his life.

### Jorden Heads Club

TOKYO (AP)—William Jorden of The Associated Press will become president of the Foreign Correspondents' Club of Japan July 1. He will succeed Joseph Fromm of U.S. News and World Report.

### Deliver Democracy To Beat Communism, Filipino Urges

MEXICO CITY, June 26 (AP)—The Philippines Republic defense secretary said today the way to beat Communism is to "deliver the substance" of Democracy to the people. Ramon Magsaysay, whose policy of "all-out force" or all out "friendship" broke Communist hopes for an easy victory, was the chief speaker at the International Lions convention. He said the essence of Philippine strategy against the Huku, Communist peasants, was to fight them remorselessly with force. But once they surrendered or were captured, the Army itself guaranteed them a better life, their own land or their own business. Magsaysay said the Huku are recruited from four sources: The ignorant, criminals who join "for the amazing reason that as criminals they are welcome"; kidnapped men who are forced to listen to Communist doctrine and threatened with death if they desert; and those who join "because Communists have told them that Communism offers the only hope."

### ATHLETE'S FOOT GERM HOW TO KILL IT. IN ONE HOUR.

If not pleased, your 40c back. This STRONG INGREDIENT SLOGS OFF the outer skin to expose buried fungus. Kill it on contact. Get Greaseless, Instant-drying T-4-L at any drug store. Today at Cunningham & Phillips. (adv)

# HERE'S PROOF!

A Zale Diamond Is Better and Costs Less

## BETTER BECAUSE:

1. They are mounted in exclusive Paul Raynard settings... scientifically designed to give 33% more brilliance than comparable stones in other mountings!
2. These are not "run-of-the-mill" diamonds. Each stone is carefully selected, must meet highest requirements for beauty and quality!
3. You can buy with confidence! Each diamond carries a Protected Purchase Guarantee of COMPLETE SATISFACTION or your money refunded within 30 days.

## COSTS LESS BECAUSE:

1. You have the advantage of lower prices due to the huge quantity of diamonds bought by Zale's for our 39 stores.
2. You do not have to pay for charges made by "middle men." Diamonds are IMPORTED DIRECT to Zale's from our European buying office.
3. You can wear and buy your diamond on Zale's "Year-to-Pay" plan for EXACTLY the advertised price... there is NO INTEREST, NO EXTRA CHARGE for credit!

# Heat Keeps Up Its Relentless Seige Over Eastern Sections

By The Associated Press  
June's blazing heat kept up its relentless siege over wide areas in the Eastern half of the nation today.

Wednesday was the summer season's hottest day in hundreds of cities in the heat-stricken region. Temperatures soared into the 90s and above 100 in the East, the South and the Midwest. Records for the date were broken in scores of cities.

No immediate, widespread relief appeared in sight. However, some of the cooler air which covered the Northern Plains states was headed into the North Central states. There was a promise of some cooling by Friday. No such relief was forecast for Eastern and Southern hot spots.

Hot dry weather threatened crops in some Southern states, including Virginia and Arkansas. Deaths from heat were reported

in several cities. Hundreds suffered heat prostration.

Baltimore reported 92 heat prostrations and one death from the 96-degree heat. It was the hottest June 25 in 54 years. In nearby Washington, the mercury hit 98 for a season's high and the hottest June 25 since 1875.

Three deaths attributed to the heat were reported in Ohio, which sweltered in temperatures around the 100.

Two persons died from heat in Philadelphia and 40 were treated in hospitals for heat exhaustion. The day's top reading of 96 was a record for the date.

New York City reported a record 96.5 reading. More than a score of persons were treated for heat prostration. One death was reported in Upstate New York where temperatures were in the 90s.

Readings of 100 and above were general in many parts of the South. The day's top of 104 at Macon, Ga., marked the fifth consecutive day

of 100 or higher and the 25th straight day with temperatures above 90. It was 102 in Augusta and 101 in Savannah. The 101 in Nashville was a record for the date while Chattanooga's 102 tied the all-time high for June.

New records for June 25 were set in several Virginia cities, including Newport News with 102 and Richmond and Norfolk with 100. Texas baked, with a top of 106 at Presidio.

St. Louis was promised no relief after yesterday's sizzling 100-degree heat which set a new June 25 record.

It was 97 in downtown Pittsburgh equaling the record for the date set in 1822.

It was nearly normal weather in the Rocky Mountain and Pacific Coast states. The day's top at Los Angeles was 79; 88 at San Francisco and 69 at Seattle.

## More Women In U. N. Suggested

NEW YORK (AP)—More trained women for positions with the United Nations Secretariat has been urged by the board of the International Business and Professional Women.

At its 15th annual meeting yesterday, the board said in a resolution that women "are not as yet adequately represented either in the Secretariat of the United Nations and specialized agencies, or as delegates representing governments."

## Jean Parker Tells Of '51 Marriage

HOLLYWOOD (AP)—Actor Robert Lowery and actress Jean Parker have announced that they are married and are expecting a baby. Mrs. Parker said yesterday the wedding took place May 29, 1951, at the home of a friend in Miami. She expects the baby in October, she said.

Big Spring (Texas) Herald, Thurs., June 26, 1952

# Three-Year-Old Has Six Broken Bones

LOTT, June 26 (AP)—It's mighty tough already for three-year-old Glenn Lorenz.

The youngster has had six bone fractures in his short life—and he and his family and his doctor are afraid it won't be his last one.

Because almost any time he falls or bumps into something a bone breaks. Sometimes his brittle little bones don't even have time to heal before they break again.

That's what happened this time—the day before yesterday, Glenn's left leg was still in supporting braces, but he fell in the yard and hit his knee on a rock. His left thigh again snapped.

home yesterday.

Sweetland says Glenn's trouble is that he has too much calcium in his bones, a condition he calls "marble bone." It has affected all the bones in the boy's body, but the breaks have only bothered Glenn's legs.

It's a rare ailment, Dr. Sweetland says. In Glenn's case his parents, Mr. and Mrs. Grover Lorenz, have to be extremely careful handling the youngster and watching his normal little-boy movements.

Glenn's first bone break came when he was only 15 months old. He slipped on a wax floor and broke his right thigh. Four months later he got a foot hooked on the bedsheets of his crib and broke the lower part of his right leg.

was responsible for a left thigh break. The next time he fell and broke his left leg. Last August he was standing in the family car, he twisted, fell and broke his left thigh again. And then the Tuesday accident followed.

Glenn's folks, who usually farm near here but have been living in Grand Prairie where the boy's father works in a defense plant, are taking the trouble in their stride.

But everybody is pretty careful about handling little Glenn.

## Bull Moose Holds Up School Teacher

BERLIN, N. H. (AP)—Richard Plnette, a Berlin school teacher driving along a country road, was stopped by a bull moose.

The moose wouldn't move—Plnette didn't dare to. A bull moose when irked can do a lot of damage.

Man and beast stared at each other for almost 15 minutes. Along came another car. Two was too much for the moose. He shook his head and sauntered away.

# Shivers To Launch A 30-Day Campaign

By The Associated Press  
Governor Allan Shivers begins a 30-day campaign for re-election Thursday night with a state-wide radio address.

Most of the 30 stations carrying the governor's kick-off address will broadcast it at 8:45 p.m.

There were these developments as political activity in Texas grew more hectic daily:

## Mexican Admits Killing Woman

ST. LOUIS (AP)—A 23-year-old Mexican has admitted the brutal hotel room slaying of Mrs. Irene Thompson, an attractive 32-year-old mother.

Police Capt. John Buck reported last night Jose Romero had signed a statement saying he strangled Mrs. Thompson and left her partially nude body in a room at the Jefferson Hotel.

Mrs. Thompson's body, clad only in panties, was found in the room Sunday. Her throat had been slashed with a broken bottle and an electric cord had been twisted around her neck.

Romero told of having been in a fight with another man over Mrs. Thompson last Friday and then visiting her hotel room later that night. He said she had screamed insults at him and lunged toward him with a desk pen.

Romero met Mrs. Thompson, mother of a 2-year-old daughter, at a dancing studio where she was employed as an instructor.

He surrendered to police yesterday on a warrant charging him with the slaying.

## Nevada Decree Not Good In California

LOS ANGELES (AP)—The divorce that railroad heir Henry E. Huntington II obtained in Nevada last March is not valid in California, a court has ruled.

Superior Judge Thurmond Clark refused to recognize the decree as valid when the issue came up yesterday during trial of a divorce suit brought against Huntington by Martha Outlaw Huntington, former model.

The judge made the ruling after Huntington's attorneys asked that his wife's action be dismissed. The couple married in 1944 and Mrs. Huntington's attorneys asked that support for herself and their two small sons.

## French Marshal In Hot Water Again

PARIS (AP)—French Marshal Alphonse Juin was in hot water again today over a newspaper report which quoted him as saying that the United States often made the United Nations look ridiculous in Korea.

Premier Antoine Pinay claimed the account of Juin's remarks to the French Overseas Club was "distorted," but government circles buzzed with the story.

Marshal Juin is commander of European ground forces under the North Atlantic Treaty Alliance and one of Gen. Matthew B. Ridgway's top aides in NATO.

## White House Water Line Is Cut Off

WASHINGTON (AP)—Many members of Congress—and President Truman—were inconvenienced in yesterday's record 96-degree heat. There was no water. A giant water main burst, cutting off water to the White House and much of downtown Washington.

Water was rationed at hotels. The air conditioning system was shut off in the White House but workers managed to get enough for the President's bath.

document Wednesday. Taft followers said they would release their Sunday evening.

2. Attorney General Price Daniel predicted overwhelming victory in his campaign for United States Senator, but said he would keep on taking his message to the people.

3. Ralph Yarborough, Shivers' most active opponent, said in a speech at Hamilton that the governor wants to reduce tax income of small towns in order to spend more money through the State Highway Commission.

4. Texas Republican leaders received a telegram Wednesday from Senator Lodge (D-Mass) predicting Eisenhower's nomination on "the second or third ballot. Lodge said Eisenhower would get more than 500 votes on the first ballot. Taft, he said, would get fewer than 500."

The Senator has said that he already has the 604 needed for nomination on the first ballot.

Campaign Manager Jack Dillard said in Austin Wednesday night that the governor tonight would stress the importance of attending the July 26 precinct conventions which lead to another Democratic State Convention in September.

Yarborough has been making a vigorous campaign for the governorship and has attacked personal and official actions of the governor.

Shivers forces, favoring an unstructured Texas delegation to the Democratic National Convention in Chicago next month, controlled precinct and county conventions in May. Opposition forces, led by Fagan Dickson of San Antonio, bolted the state convention and held a rump meeting. Now it is up to the credential subcommittee of the Democratic National Committee to seat one of the delegations.

The two factions will renew their fight for control in the July 26 precinct meetings, the Aug. 2 county conventions and the Sept. 9 state conventions. Shivers' organized opposition calls itself the "Loyal Democrats." Many support Senator Kefauver (D-Tenn) for the Democratic Presidential nomination.

Yarborough told the crowd of about 100 persons who heard him speak on the courthouse square at Hamilton that the governor would "strip the small towns by taking funds now going to counties from gasoline taxes and auto licenses."

This, Yarborough said, would "add money for Shivers' State Highway Commission to be dispensed by three of his appointees on the commission."

Yarborough spoke during the day also at Jonesboro and Hico. Wednesday night he was at Stephenville for a rally. Thursday he scheduled appearances at Dublin, De Leon, Rucker, Gorman, Carbon, Castland, Breckenridge, Caddo, Brad, Palo Pinto and Mineral Wells. Thursday night he set a rally at Jacksboro.

Attorney General Daniel's prediction of victory in the Senate race came on the eve of a tour of Northeast Texas. He was to be in Greenville, Bonham, Paris, Clarksville, DeKalb, New Boston and Texasville Thursday. Stops were scheduled Friday for Atlanta, Linden, Daingerfield, Pittsburg, Mount Pleasant and Mount Vernon.

Said Daniel: "From all reports I receive, we are gaining more votes every day and will win by a big majority."

Daniel's most active opponent, Rep. Lindley Beckworth of Gladewater, meanwhile, kept up his self-styled "poor boy's campaign" for the Senate. He took his sound wagons to Shamrock, Wheeler, Pampa, Borger, Panhandle, Claude, Amarillo, Hale Center and Abernathy Wednesday.

Thursday, Beckworth was to be at Lubbock, Tahoka, O'Donnell, and Lamesa. El Paso and Van Horn were on his Friday schedule.

The brief released Wednesday supporting claims of the Eisenhower GOP faction to Texas' 38 convention delegates maintained that all of their actions have been in accordance with Texas law and that all participants in the conventions were Republicans.

At Fort Worth, Henry Zweifel, leaders of the Texas forces and GOP National Committeeman, said the Taft brief contains "many stories of violence, mob rule, intimidation and legal irregularities" of the Eisenhower group.

AREA OIL

South Martin Completes Small Spraberry Pumping Discovery

Humble No. 1 Blocker has been completed for a small pumping spraberry discovery seven miles west of Stanton.

Sinclair completed its No. 1-C TXL-Glasscock as a short north-south extension to the Driver-Spraberry pool in southwest Glasscock.

In southeast Scurry, American Trading No. 1-A Howell was swabbing about five barrels of oil per hour from the Ellenburger.

Top of the Ellenburger had been picked in Sinclair No. 1 Reeder in eastern Borden County, and a drillstem test was in progress.

A southeast Glasscock exploration, Seaboard and Texas & Pacific Coal and Oil No. 1 Bishop, was taking a drillstem test above 5,840.

Sinclair No. 1 Clark, a southwest Glasscock Spraberry outpost, fractured preparatory to testing.

Borden Ashman & Hilliard No. 1-C Long, C NE NE 7-30-4n, T&P, four miles southeast of Gall, drilled to 3,928 and had a fishing job.

Sinclair No. 1 Roy Reeder C SW SE 410-97, H&TC, a north offset to the Myrtle-Pennsylvania field in central eastern Borden County, was at 8,245 in Ellenburger.

Top of the Ellenburger, by samples, was 8,298. Operator is now taking a drillstem test from 8,295-8,345. Elevation is 2,486.

Dawson Cities Service No. 1 Dupree, C NW SE 67-M, EL&RR, was at 11,236 in lime and shale.

Sinclair No. 1 Scott, C SE SE 101-M, EL&RR, 10 miles west of Lamasa, drilled below 9,731 in lime.

Glasscock American Republics No. 1 Buckner Orphans Home C SW SW 17-25-5a, T&P, a mile and a half northeast of Driver Spraberry production was at 8,550 in shale and sand, waiting on cement to set on the 5 1/2-in. casing.

SLASH

(Continued From Page 1)

for putting plush features into some of its constructions, and for building expensive living quarters at such places as Sandia, N. M.

The bulk of the reduction in Atomic Energy Commission money requests was in the estimate for new plant construction and expansion of existing plants. The committee said the program can't be completed for several years.

It told the commission to formulate a specific program based on engineering plans and specifications and come back later for additional funds.

For construction of an estimated 11,000 additional defense housing units in critical areas, the committee recommended 50 million dollars, a cut of 12 1/2 millions from what the Housing and Home Finance Agency requested.

The committee rejected the entire \$11,570,000 requested for payments to school districts overburdened by an influx of defense workers, and said state and local governments should bear a greater share of these costs. In explanation of its refusal to approve any of the 30 millions requested for school construction, the committee said Congress made it clear that the 135 million dollars recently appropriated for this purpose would have to suffice.

MARKETS

NEW YORK, June 26 (AP)—The stock market quietly awaited some indication today of the next move aimed at ending the steel strike.

Prices held to a fairly steady course with some and losses almost entirely fractional.

The stock market yesterday reached a new 1953 high of \$108 as measured by the Associated Press average of 60 stocks. Railroads were the backbone of the rise and today they were unchanged to small fractions higher or lower.

Atlantic Refining announced plans to raise 30 million dollars through the sale of a million shares of common stock. At the opening, Atlantic dropped 1 1/2 at 27 1/2 on a block of 2,000 shares.

Higher stocks included Southern Railway, Texas Co., Youngstown Sheet & Tube, Chrysler, and Douglas Aircraft. Others were Goodrich, American Can, and Baltimore & Ohio.

COTTON NEW YORK, June 26 (AP)—Cotton futures prices were 75 cents to \$1.25 a bale lower than the previous close. July 26-28, October 31-31 and December 30-30.

LIVESTOCK PORT WORTH, June 26 (AP)—Cattle 1,100; calves 400; fairly active, mostly steady; good slaughter steers and yearlings \$26-\$30; a few choice yearlings to \$31; beef cows \$15-\$20; hogs \$10-\$12; good and choice slaughter calves \$17-\$21; steer calves \$18-\$21; stocker yearlings \$17.00-\$22.50.

Hogs 700; butcher hogs opened 50 cents higher but later sales only steady, now unchanged; choice 180-200 pound butchers \$30-\$32 1/2; later sales \$30; sows \$13-\$15.50. Sheep 1,400; active; all classes steady.

Utility to choice slaughter spring lambs \$22-\$24; a few utility and good short slaughter lambs and yearlings \$17; good utility slaughter ewes \$17; good spring feeder lambs \$18-\$17.

THE WEATHER

Table with columns: CITY, TEMPERATURES, Max, Min. Rows include Abilene, Amarillo, Big Spring, Chicago, Denver, El Paso, Fort Worth, Galveston, New York, San Antonio, St. Louis.

HEAT AND SOUTH TEXAS: Partly cloudy and so important temperature changes Thursday and Friday. Windy scattered afternoon showers near coast. Moderate to fresh south and southeast winds 10 to 20 mph.

SOUTH CENTRAL TEXAS: Generally fair with no important temperature changes Thursday and Friday.

WEST TEXAS: Partly cloudy with no important temperature changes Thursday and Friday. Windy scattered late afternoon and evening showers near coast. Moderate to fresh south and southeast winds 10 to 20 mph.

Phillips No. 1-C McDowell, C SW NE 31-33-2a, T&P, was building roads.

Seaboard and T&P Coal and Oil No. 1 S. J. Bishop, C NE NE 31-32-5a, T&P, 14 miles southeast of Garden City, was at 5,840, running a drillstem test.

Sinclair No. 1 G. T. Hall, C SW NW 6-34-2a, T&P, drilled past 5,033 in lime and shale.

Sinclair No. 1 Clark, C SW SE 41-35-4a, T&P, three miles northeast of Driver production was shut in after fracturing the Spraberry from 7,190-7,294 with 4,000 gallons.

Sinclair No. 1-C TXL-Glasscock, 1,900 from the north and east lines of section 45-36-4a, T&P, drilled 24 hours through 2-in. choke after 4,000 gallons fracture. It made no water and 570.3 barrels of 37.6 gravity oil. Gas-oil ratio was 780-1, elevation 2,710, top pay 6,750, total depth 6,850; the 5 1/2-in. at 6,744.

Ashland Oil and Refining No. 1-A-7-TXL, 660 from north and west lines section 7-36-4a, T&P, Driver Spraberry pool, flowed 24 hours through 2-in. choke after 5,250 gallons hydrate. It made no water and 218 barrels of 38.3 gravity oil. Gas-oil ratio was 1,020-1, elevation 2,640 (DF); top pay 6,903 total depth 7,864, the 5 1/2 at 7,864, perforated 7,704-7,808.

Phillips Petroleum No. 1-RR TXL, 660 from the west and 662 from north lines lease section 41-37-3a, T&P, Tex Harvey pool, flowed 24 hours through 1/2-in. choke after 3,000 gallons fracture. It made no water and 311 barrels of 37.6 gravity oil. Tubing pressure was 120, gas-oil ratio 855-1; elevation 2,642; top pay 7,115, total depth 7,686, plugged back to 5 1/2-in. at 7,585; perforated 7,120-70 and 7,269-7,310.

Phillips Petroleum No. 1-QQ TXL, 11,975 and 663 from north lines lease section 47-37-3a, T&P, Tex Harvey pool, flowed 24 hours through 1/2-in. choke after 1,500 gallons fracture. It made no water and 514 barrels of 37.6 gravity oil. Tubing pressure was 100, gas-oil ratio 740-1, elevation 2,673; top pay 7,054, total depth 7,295; the 7-in. at 7,063.

Stanford No. 1 Flynn, C SW SW 12-24B, Hartley CSL, was below 8,900 in lime and shale.

Phillips No. 1-C Schar, plugged back to 8,800, swabbed after hydrate fracturing from 8,650-8,795 with 1,500 gallons. It is located in section 224 LaSalle.

Humble No. 1 Blocker, 660 from the north and west lines of section 1-37-1a, T&P, was completed as a small pumping Spraberry discovery seven miles west of Stanton and three miles northeast of German. In 24 hours of pumping it made 25 barrels of 39.5 gravity oil, plus 46 per cent water. The gas-oil ratio was not reported. Production was from perforations 8,185-8,272 and 7,380-7,450 in the lower and upper Spraberry. Both sets had been fractured and then washed with acid. This test originally went to 12,100 in the Ellenburger but failed there and in the Dean sand.

DeKalb No. 1 Knox, C NW NE 253 Ward CSL, 11 miles north of Tarzan, was drilling ahead at 11,230 in lime, shale and chert.

Humble No. 1 Dayvault, C NE NE 13-15, H&TC, drilled at 7,055 in sand and shale.

Humble No. 1 Foster, C NW NW 4-31-4a, T&P, perforated to 2,490-2,502 and prepared to swab through tubing to test the San Andres.

Humble No. 1 Blocker, 660 from the north and west lines of section 1-37-1a, T&P, was completed as a small pumping Spraberry discovery seven miles west of Stanton and three miles northeast of German. In 24 hours of pumping it made 25 barrels of 39.5 gravity oil, plus 46 per cent water. The gas-oil ratio was not reported. Production was from perforations 8,185-8,272 and 7,380-7,450 in the lower and upper Spraberry. Both sets had been fractured and then washed with acid. This test originally went to 12,100 in the Ellenburger but failed there and in the Dean sand.

DeKalb No. 1 Knox, C NW NE 253 Ward CSL, 11 miles north of Tarzan, was drilling ahead at 11,230 in lime, shale and chert.

Humble No. 1 Dayvault, C NE NE 13-15, H&TC, drilled at 7,055 in sand and shale.

Humble No. 1 Foster, C NW NW 4-31-4a, T&P, perforated to 2,490-2,502 and prepared to swab through tubing to test the San Andres.

Almost Stacked

Back of a Ford pickup rests on the hood of a Jeep after the two vehicles were involved in an accident south of Big Spring Thursday morning. The Jeep was being pulled behind the pickup when a tire on the trailer vehicle blew out, causing both machines to go out of control. The pickup overturned, coming to rest in an upright position with one corner suspended by the Jeep. Two persons were injured, one seriously.

Two Are Injured In Truck Mishap

Two persons were injured, one seriously, about 9:30 a.m. Thursday when their pickup truck overturned about nine miles south of Big Spring on Highway 87.

Mrs. Jack Myler, Kingsville, was said to be in a serious condition at Malone & Hogan Hospital where she was being treated for a thigh fracture sustained in the accident. Her husband suffered a shoulder fracture, but was not hospitalized.

The couple was en route to Colorado from Kingsville, trailing a Jeep behind the pickup. A blow-out on the Jeep reportedly caused the Jeep to lose control of the pickup, which left the highway and overturned. Both vehicles were damaged.

The injured were brought to the hospital in a Nalley ambulance.

## More Facilities Being Planned At New Lodge

Guests and visitors who inspect the new Trail's End Lodge on West Highway 80 during open-house hours Friday will be seeing only a portion of the tourist accommodations eventually to be provided there.

Planned for the immediate future is a considerable expansion of the modern facility for highway travelers.

An east wing will be added to the lodge to more completely enclose the central patio. In addition, a second floor will be constructed for the south wing. In all, the additions will provide 16 more tourist units, office facilities, and possibly other space.

Lodge offices at present are located in a portion of the south wing which will be devoted to storage when additions are finished.

Construction of the 16 new units is expected to get underway within the next six months.

Also planned for the future is a swimming pool for the center of the patio. It will be skirted by paved driveways and spacious lawns. Construction of the pool will be started as soon as an adequate water supply is assured for the city.

Landscaping of the lodge also is being delayed by the water shortage. However, plants will be set out and other phases of the landscaping program started this fall or whenever water is available for irrigation.

Paving won't be completed until after construction of the additions is started. Delay of the paving project was chosen as an alternative to having driveways torn up for installation of water and sewer lines and foundations for the new buildings.

## Stars Ask Court To Inspect RKO

LOS ANGELES (AP)—In an attempt to show that RKO Studio has been making capital gains deals as "lure and bait" for movie stars, Jean Simmons and Stewart Granger have asked a court to inspect the film firm's business records.

The British movie couple are suing RKO for \$250,000 damages, claiming studio boss Howard Hughes repudiated Miss Simmons' \$600,000 contract, then told other movie makers he had exclusive rights to her services.

Both sides have hurled accusations of scheming to list regular income as capital gain, taxable at a lower rate. RKO denies any such deals.

Martin Gang, attorney for the plaintiffs, filed notice to subpoena RKO's records yesterday. If allowed, court inspection would be made of dealings between the studio and such stars as Ingrid Bergman, John Wayne and Ann Blythe.

## Marine Helps Give Out Own Clothing

NEW HOPE, Pa. (AP)—A Marine Corps pilot just back from Korea found his greatest thrill overseas when he saw some of his own civilian clothing in a package sent to help needy Koreans.

Capt. Antonio Grenados, returning home after 82 missions in Korea, yesterday told of this "greatest thrill":

"I wrote home last fall asking New Hope people to send clothes for Korean War orphans and homeless families. One day I went to Pohang to help distribute clothing sent from the United States. One parcel caught my eye.

"In it were two of my old summer suits, a lot of my wife's old dresses and some of our children's clothes which my wife had sent over."

## Judge Denies Move For Outside Opinion

LOS ANGELES (AP)—A federal judge has denied a move by defense attorneys at the trial of 14 California Communist leaders to obtain opinions from a Yale professor and four other prominent men.

The defense asked yesterday to have the five, all non-Communists, give their opinion as to the validity of the trial.

Federal Judge William Mathes ruled, however, that the Smith Act under which the defendants are being tried, has already been upheld by the U.S. Supreme Court. Any opinions on its validity would be immaterial, he said. The defendants are charged with conspiracy to teach and advocate overthrow of the government by force.

## Mississippi GOP Planning A Fight

JACKSON, Miss. (AP)—Two leaders of Mississippi's predominantly white Republican faction leave for Chicago Saturday to prepare for a showdown fight for national party recognition.

They are Anson Sheldon of Greenville, state chairman of the "Lily Whites" faction, and his father George Sheldon of Clinton.

Two rival factions will have delegations at the national convention next month—the "Lily Whites" with pro-Eisenhower leanings but unpledged to any candidate and the predominantly Negro group known as the "Black and Tan," which is pro-Taft. The Negro faction always has been seated by the national party.

Twin Beds

Plenty of sleeping comfort is assured the weary traveler when he and his family stop at the Trail's End Lodge on West Highway 80. Note large twin beds, reading lamps and entrance to tile bath in the background. Not pictured is the radio which is standard equipment for every unit. Big Springers may inspect the new lodge from 2 to 7 p.m. Friday.

## Opening Of Trail's End Lodge Set For Friday

Opening of Trail's End Lodge, Big Spring's newest tourist lodge and one of the most modern establishments of its kind in the Southwest, is scheduled for Friday.

Open house will be observed at the lodge from 2 to 7 p.m. Mrs. Laura Baker, owner, announced to-

day, Big Spring residents, as well as tourists in the area, are invited to inspect the new highway hotel. Trail's End Lodge, named for the famous "End of the Trail" sculpture, is located on West Highway 80, just across from the Phillips Truck Terminal and 66 Cafe, the latter also operated by Mrs. Baker.

Twenty units of Trail's End Lodge will be opened to public inspection Friday to climax a project undertaken 13 months ago by Mrs. Baker. Supplementing the 20 sleeping units are five "sitting rooms"—actually small living rooms distributed through the lodge. Each may be converted to sleeping facilities for the accommodation of tourists requiring more than the one or two beds in regular units.

The lodge consists of two wings, connected to form an "L." West wing, with a tower on which will be mounted a replica of the statue for which the lodge is named, is decorated semi-ranch style with exposed ceiling beams and long windows just under front roof overhang.

Modern motif was utilized in dec-

oration of the south wing. Furnishings in each wing are suited to other decor.

Four distinct color combinations were utilized in the styling of the lodge by Everett Stuntz, interior decorator for Titcher-Goettinger Company of Dallas, decorator of the tourist establishment.

Each unit has an all-tile bath with colored fixtures. In addition, all units have air conditioning, radios, wall furnaces, and will be equipped with telephones as soon as a central switchboard is installed.

All wall-to-wall carpeting to blend with the various color combinations, comfortable furnishings, and entrances facing the patio and future swimming pool area.

Carrying out the "time to rest" theme of the lodge's name, a painting of the End of the Trail will hang in the office. Painting was done by Elam Denham, son-in-law of Mrs. Baker, who with Mrs. Denham will assist in management of the lodge.

## Ike Making Gains In Pennsylvania

By CHARLES WELSH PHILADELPHIA (AP)—Substantial gains for Gen. Dwight D. Eisenhower, and a hard core of support for Sen. Robert A. Taft both are visible in a new Associated Press poll of Pennsylvania's delegation to the Republican National Convention.

Eisenhower, the poll showed, is preferred by 32 delegates in the 70-vote group. That represents a gain of 12 since the previous AP poll two months ago.

Taft has the backing of 24 delegates, a gain of five. Many of them say firmly they will not vote for Eisenhower at the convention.

The number of delegates undecided or not willing to express a preference at this point—10 days in advance of the convention—has been shrinking steadily. The AP poll, which once listed 32 delegates in this group, now shows only 14.

Nevertheless, the intervening weeks have not diminished the prospective influence of Gov. John S. Fine in the Pennsylvania delegation picture. Fine generally has been credited with being in a position to advise or guide the votes of 32 delegates; the governor himself has said he believes the total is "not less than that."

And the newest AP poll, based on direct contacts with the delegates, conversations with leaders of both Taft and Eisenhower factions and many GOP leaders, shows 33 delegates with whom the governor's decision may be persuasive. Fine insists he has not made up his mind, nor given a commitment to any candidate.

The nation-wide Associated Press listing of delegate commitments and expressions of opinion now

shows: Taft 483; Eisenhower 405; other candidates 129; in dispute or undecided, 188. A total of 604 convention votes is needed for the nomination.

Pennsylvania delegates can—and often have in the past—switch their votes in advance of the convention or after the balloting starts. State law leaves the final decision to them.

Taft, for instance, claims 20 votes in Pennsylvania. His backers say the Ohio senator will get that many regardless of what decision Gov. Fine reaches. They estimate with Fine's support—and say confidently they expect to get it—Taft will have at least 50 and perhaps 60 votes.

Eisenhower has made no public claim, but his campaign forces are insisting now "We have a majority" in Pennsylvania, under any circumstances. They, too, say they expect to win Fine's endorsement, and with it have a total of 58 to 65 votes.

## Ike Caused Dispute, Wedemeyer Asserts

WHITE PLAINS, N.Y. (AP)—Lt. Gen. Albert C. Wedemeyer (ret.) says Gen. Dwight D. Eisenhower's backers invited Texas voters to take part in both GOP and Democratic primaries there.

Addressing a Taft-for-President rally last night, Wedemeyer said the dispute over the Texas Republican delegation means a "test of the survival power of the two-party system."

## California Differs, It's Cold Out There

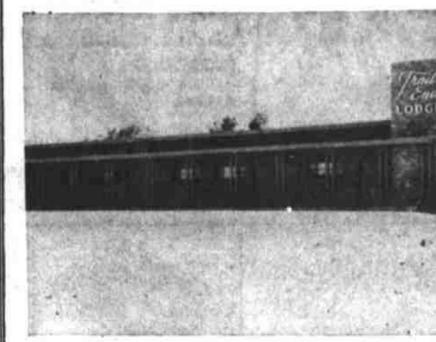

LONG BEACH, Calif. (AP)—The sun did a fadeout in Long Beach yesterday and put a chill on the parade of the prettiest girls of 30 nations competing for the title of

Miss Universe. Most of the 79 candidates, 40 of them from the United States were forced to don wraps over their bathing suits, hiding their charms from nearly 50,000 persons who lined the streets to watch the parade.

## One Change In Curriculum Is Due At HCJC

At least one change in curriculum is apparent for the second six weeks of the summer session for Howard County Junior College.

The woodworking course will be dropped for this period. Wayne Matthews, who has been instructing, is leaving to assume duties as industrial education instructor at Southwest Texas Junior College in Uvalde.

B. M. Keese, dean-registrar, said that students enrolled would probably take other courses. He thought a course in shop mathematics would cover most of them.

Only other deviations for the second six weeks, which starts with enrollment on July 14, will be those occasioned by demands for certain courses. The initial six weeks period ends July 11. Summer school will be out Aug. 22. The fall session will begin on Sept. 8, marking the earliest date a regular session has ever started at HCJC.

## Rail On Elevated Buckles From Heat

NEW YORK (AP)—As New York's temperature zoomed to an all-time asked:

"Okay, it's hot, but how hot is it in the sun?"

The Weather Bureau consulted its special sun thermometer in Central Park and replied: "It's 139 degrees."

At about the same hour, it was so torrid that a third rail on the Third Avenue elevated line buckled.

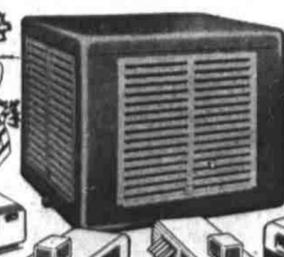

## Plays Up Protest

LONDON (AP)—Moscow radio today began playing up British Socialist protests against the U.N. bombing of North Korean power plants along the Yalu River and charged—that the raiders hit a hospital with "many victims."

## VA Official Here

Carl G. Clift, Lubbock, chief of the training section for the Veterans Administration out of the regional office, visited on the HCJC campus Wednesday. He made routine checks and conferred with B. M. Keese, dean-registrar, on various problems.

**Overnight Luxury**

Furnishings of the new Trail's End Lodge lend themselves to the comfort and convenience of overnight guests. Desk, table lamp and easy chair are provided in addition to large comfortable beds. Each unit has tile bath, radio, air conditioning and carpeting. Telephones are to be added.

## Owner Began Plans Over Two Years Ago

Pride of Mrs. Laura Baker, owner, is the new Trail's End Lodge on West Highway 80.

Mrs. Baker has been working on plans for the modern tourist lodge practically ever since becoming a resident of Big Spring in December, 1950.

Opening of the 20-unit establishment will be high point of some 13 months of actual construction. Completion of the project represents the triumph of work and determination over material shortages, high building costs and other hindrances.

Operation of the modern tourist business won't be a new experience to Mrs. Baker. Since coming to Big Spring she has been managing the 66 Cafe, at the Phillips Truck Terminal, on the west highway.

Formerly, she operated the Gulf Cafe, at a tourist terminal in Abilene. Before adopting Texas her home state, Mrs. Baker owned and managed the Downtowner Restaurant, one of the finest in Springfield, Mo.

Supervising construction of the Trail's End Lodge in Big Spring.

along with management of the 66 Cafe, has been almost more than a full-time task for Mrs. Baker. She will continue to operate the cafe, while her son-in-law and daughter, Mr. and Mrs. Elam Denham, will assist in management of the new lodge.

### Immigration Bill Starts Second Trip

WASHINGTON (AP)—The hotly controversial McCarran-Walter immigration bill—vetoed by President Truman yesterday as dangerous to this country's moral leadership for peace—started a second trip through Congress today.

The House scheduled a roll call vote on overriding or sustaining the President's veto as soon as the controls bill was out of the way, perhaps late this afternoon.

Sen. McCarran (D-Nev), co-sponsor of the measure, blasted the veto as "one of the most un-American acts I have witnessed in my public career."

### Five Korean MPs Quit After Attempt

PUSAN, Korea (AP)—Five South Korean military and police officials resigned today in the wake of Wednesday's assassination attempt on the life of President Syngman Rhee.

A government spokesman said they are Maj. Gen. Won Young Duk, appointed by Rhee to enforce martial law in this provisional capital; the head of the national police, the chief of Rhee's personal bodyguard and two others.

Clarence Rhee, the spokesman, said the five turned in their resignations because they failed to protect the President's life. However, some sources said Rhee asked for the resignations.

A member of a secret Korean society attempted to shoot Rhee as he was delivering an address but the gun failed to fire.

### Police Reserves Have Artillery

TOKYO (AP)—A government official today said the Japanese National Police Reserve now is equipped with artillery.

State Minister Takeo Ohashi said the reserve is training with howitzers and that some 100 planes for reconnaissance and liaison will be leased from the U.S. Air Force.

## Delta Demos Expect Peaceful Election

JACKSON, Miss. (AP)—Mississippi Democrats opened their 1952 state convention here today anticipating a peaceful election of 22 national convention delegates and a bold stand on states' rights principles.

Gov. Hugh White, who with other leaders drew Mississippi away from the national party in 1948, was scheduled to begin his keynote address shortly after the convention opened at 11 a.m.

Most of the delegates and the Democrat-spectators felt the question of being seated at Chicago was answered by the recognition Tuesday of State Atty. Gen. J. P. Coleman as Mississippi national committeeman.

For the first time in its history, the regular state party is being challenged by an opposing group declaring itself loyal to the national party.

## Socialists Nose Into Lead As Strongest Dutch Party

By HENK KERSTING

AMSTERDAM, The Netherlands. (AP)—Socialists nosed into the lead as The Netherlands' strongest political party for the first time in history today as parliamentary election returns gave them three news seats and a gain over 1948 voting of almost 300,000 votes.

The popular balloting yesterday filled the 100 seats in the national Parliament's lower house. Today, provincial legislatures sitting as electoral colleges choose the 50 members of the upper chamber.

On the basis of his party's triumph, Socialist Leader Dr. Willem Drees was expected to be designated again by Queen Juliana to form a new Cabinet. Drees has been Premier of the out-going Labor-Catholic coalition Cabinet.

Another coalition cabinet was expected since none of the parties won a majority in the voting.

Complete, unofficial returns showed that the middle-of-the-road Catholic party lost, by a small margin, the lead in popular votes it held in the 1948 general election.

Labor won 1,345,414 votes to the Catholics' 1,529,464. Each won 30 parliamentary seats, the Catholics losing two.

The Communists also lost two of the seats they won in 1948, leaving them six in the lower house.

### Sunstroke Fatal

FT. JACKSON, S.C. (AP)—Pvt. Harold Kaurman of Cleveland collapsed on a rifle range and died from sunstroke and heart congestion. He was the second soldier at the fort to die from sunstroke in the last week.

### Easy On TV, But Hard On Stomach

NORFOLK, Va. (AP)—It was easy when the man did it on television—so 6-year-old Nancy Jane Giles also tried the trick harmonica act.

Something must have gone wrong because Nancy swallowed the inch-long musical instrument.

Examination under a fluoroscope showed the harmonica was just where the girl pointed. The doctor took a wait-and-see attitude.

A week later an X-ray showed the harmonica was breaking up and the metal casing threatening the child's stomach. An operation was performed and the harmonica removed. Nancy's doing fine today.

### Davis' Daughter, Fireman Elope

HOLLYWOOD (AP)—Actress Beverly Hills, 18-year-old daughter of comedienne Joan Davis, eloped to Carson City, Nev., last Sunday and married a fireman.

Miss Davis didn't learn about it until the newlyweds returned here yesterday. Her comment:

"At 18, kids sure do think they know everything."

The bridegroom is Lee Bamber, 25, of the Pasadena, Calif., fire department.

# Vernon Rally Falls Short; Broncs Win 10-8 Decision

## Dusters Count Five In Ninth

VERNON.—A Big Innings and a rally that fell short here tonight handed the Big Spring Broncs a 10-8 victory over the Vernon Dusters and their second win of the current three-game series.

Big Spring scored four big runs in the sixth and eighth innings and single tallies in the seventh and ninth frames for the winning margin.

Trailing 10-3 going into the bottom of the ninth, the Dusters went to work on Bronc Starter Bert Baez for five big runs but the rally fell short although it chased Baez. Reggi Corrales came on to put out the fire, but not before he was touched for a double.

Baez received credit for the win, his seventh against four losses.

Big Spring scored its first group of four runs in the sixth off four hits and an error. Ozzie Alvarez led off and was safe on an error. Witty Quintana doubled to push Alvarez to third. Manager Pat Stasey singled to plate Alvarez with the first run off Duster Starter Leroy Finkler.

Juan Visteur doubled off score Quintana and chase Finkler from the hill. Eddie Bakki came on to get Al Valdes and Al Costa to fly out, but Stasey and Visteur both scored on the outs.

In the eighth inning four runs scored off four hits, a passed ball and two Vernon errors.

Vernon's big inning, the ninth, found the five runs off seven hits, six of them in a row. Joe Niesdon led off the frame with a single and ended it by flying out to Stasey in rightfield.

Winner And Still Champ

Joey Maxim, shown chatting in his hotel room to his manager, Jack Kearns (right), prior to last night's fight, won a technical knockout over Ray Robinson to retain his Lighthweight Boxing title. The bout was held in Yankee Stadium.

## A 14TH ROUND TKO

# Exhausted Robinson Fails In Bid For Maxim's Title

By MURRAY ROSE  
NEW YORK (AP)—The glorious ring career of Sugar Ray Robinson may have come to an end in the blast furnace heat of Yankee Stadium—just two rounds away from victory over Light Heavyweight Champion Joey Maxim and a third jewel for his gleaming crown.

Steaming 100-degree heat melted the taut flesh off the lean middleweight king and burned out his resistance after 13 rounds of a valiant, winning effort. He collapsed and the victory went to Maxim.

"Ray was going to call it quits if he won decisively," said Julie Clark, a longtime friend of Ray. "Now this could be it, too, I guess." Robinson had been bidding to become the third fighter ever to win three championships and join Ruby Roy Fittsmons and Hammerin' Henry Armstrong in the ultra-elite of the ring.

There was many an expert who felt that he had seen the last of the great Sugar Man.

The bout will go down in the books as a 14th round technical knockout for Joey—the bell had sounded to start the 14th—but everyone in the wild crowd of 47,983 (gross gate \$421,696) will credit the TKO to the steambox that was Yankee Stadium last night.

Ray wouldn't and couldn't talk to the press after he was helped to his dressing room. He had just suffered the first knockout—technical though it was—of his 11½ years of pro boxing. It was only his third defeat in 137 bouts, but two of them have come in less than a year. He lost to Randy Turpin last July 10.

"Robinson is mentally as well as physically exhausted," said Dr. Ira McCown, State Athletic Commission physician and one of the first to leave Sugar's dressing room. "He's speaking unintelligibly. He appears to be out in left field."

The middleweight champion, who started out weighing 157½, to Maxim's 173, left the ball park with his bathrobe wrapped around him. Through the first 11 rounds, Ray, as graceful as a ballet dancer, moved in and out and sideways on his taller foe. He shot jabs to the head and body, rattled him with flashing combinations to the head and body, and staggered him in the seventh and ninth rounds with smashing left hooks.

The best Maxim could do on his darting rival was to dig those shorties to the body in the clinches. He landed occasional left hooks to the head and a rare right without much steam.

In the 12th, two rounds after Referee Ruby Goldstein became ill from the oppressive heat and was replaced by Ray Miller, Robinson appeared to wobble as he retreated from Maxim, now the stalker.

Suddenly the heat, the 25½ pounds weight handicap and everything else caught up with the sleek, poised Harlemite near the end of the 13th.

He let fly with a haymaker right that missed by a mile and fell flat on his face from exhaustion. As the round-ending gong sounded, he collapsed against the ropes in a neutral corner. His handlers quickly dragged him to his stool.

He let fly with a haymaker right that missed by a mile and fell flat on his face from exhaustion. As the round-ending gong sounded, he collapsed against the ropes in a neutral corner. His handlers quickly dragged him to his stool.

## Lockett Medalist In Midland Meet

MIDLAND, June 26 (AP)—The first round of match play in the annual Midland Country Club Invitational Golf Tournament begins today. A field of 140 golfers shot qualifying rounds yesterday and local boy, Roy Lockett, 31, ended up with a par 72 and medalist honors.

The tourney continues through Sunday, when the finals will be played.

## LOOKING 'EM OVER

With Tommy Hart

Bertie Baez, the veteran pitcher-infielder-outfielder of the Big Spring Broncs, may turn umpire in 1953. Baez talked with League Presy Hal Sayles relative to a job in the Longhorn League when Sayles visited here last Sunday.

## ALVAREZ EARNING PAY WITH BIG SPRING

The unsung hero of the recent Big Spring surge was Oswaldo Alvarez, the rookie second baseman. Most any member of the team will tell you that. Pat Stasey, his boss, thinks he's as good a defensive ball player as he's ever seen in this league.

Alvarez ranges far to gobble up ground balls that ordinarily would go for base hits. He's amazingly agile on the double play. And he's learning to hit.

Perhaps his best attribute, though, is his hustle. He never lets up, whether he's trying to beat out a base hit or going back of second base to spear a drive.

Alvarez may well turn out to be one of Stasey's all-time best finds.

Tommy Warren, the ex-Midland flinger, expects to check in at Lamesa when he serves his prison sentence in Oklahoma. He is under contract to the Lobos.

The last time I looked, Ardmore of the Sooner State League had beaten Lawton 27 times in 28 games over a two-year period.

Billy Capps, the ex-Big Springer, is not knocking down any fences in the Big State League.

Latest averages released by the league showed him limping along with a .225 mark. He's with Tyler.

Manny Junco, who was with the Steeds in 1951, is hitting .319 for Class B Danville, the eighth best mark among regular hitters in the league.

News that the Louisiana legislature had killed the bill which would have barred Negro Dave Hoskins of the Dallas Eagles from the Shreveport ball park was soft pedaled.

A. C. Gonzales, owner of the Sweetwater ball club, is cashing in on his baseball investment at Decatur, Ill. The fans are turning out in droves.

The only things Bennie Rutherford needs to make a success of his coaching job at Sweetwater High School are to improve his knowledge of public relations and learn to keep a closer tab on school athletic property.

His coaching ability is unquestionably Grade A. Some of the HCJC officials were unhappy, however, because unauthorized personnel made too many runs on the athletic equipment room during his tenure.

Both Camillo and Mike Fornieles, the star of stars here last year, have signed to play Winter League baseball, for Marianao, Cuba. Fornieles is having a great year with Havana.

## First Win (In PGA) Proves Hardest For Jim Turnesa

By HUGH FULLERTON JR.  
LOUISVILLE (AP)—For Jim Turnesa, the first victory was the hardest.

That's easy to say today after watching the swarthy, tight-lipped little man fight his way back from what looked like a certain defeat to whip Chick Harbert 1-up on the 36th hole of the Big Springs Course to win the PGA Championship.

It was the first major title ever taken by a professional member of the famous Turnesa golfing clan.

But Jimmy said it himself even before he went out to meet Harbert, a golfer who wades into the tough spots and usually comes out ahead with the big punch.

Comparing his trip to the finals this year to that of 10 years ago, when he whipped Dutch Harrison, Jug McSpaden, Ben Hogan and Byron Nelson in successive matches, only to bow to Sam Snead in the final, Turnesa insisted this one was harder.

"I was ahead of those guys," he said unsmilingly. "This time every match has been tough. Ted Kroil (semifinal loser) never let up on me. Every time I thought I had him, he'd come right back at me. If I hadn't played Clarence Doser the day before I probably would have lost to Kroil. Doser played the same way."

Turnesa, third member of his family to reach the PGA final, must have learned something from those matches. Harbert knocked him down at the very first hole.

## Olympic Finals Begin Friday

LOS ANGELES, June 26 (AP)—America's finest track and field athletes, 200 strong, launch their final bids for a place on the U. S. Olympic team when the all-important two-day trials start tomorrow. Past achievements put the athletes into the final trials, but the past means nothing in the determination for berths on America's Finland-bound squad. The first three finishers in each of the 16 Olympic events make the team. Tomorrow's program gets underway with finals in the shotput, javelin, and broad jump at 2:30 p.m. (CST).

## Albritton Draws Outright Release

Following are player transactions completed within the Longhorn League recently, as announced by League President Hal Sayles: Artesia—Johnny E. Graham, Jr., contract assigned outright to Harlingen club of Gulf Coast League. Eli Ray Riley, reinstated from disabled list, and released outright. Midland—Dempsey Albritton, released outright.

## Flores To Laredo

SAN ANGELO—Armando Flores, a catcher, has been sent to Laredo of the Gulf Coast League by San Angelo.

# Washington Sens Making Like Champions In Race

By RALPH RODEN  
Associated Press Sports Writer  
"We won't finish last."  
That's what Bucky Harris, general manager of the Washington Senators stated firmly in February.

Washington HARRIS fans weren't exactly jumping up and down over the Senators' outlook for 1952. There were too many holes to plug.

But Harris, by astute manipulations in the trade marts, has more than kept his word. The Senators are a country mile from last place and are threatening to plunge into the American League pennant race.

Washington's contingent of former New York Yankees figures prominently in the triumph which enabled the Senators to sweep a three-game series from their former tormentors. Before the series Chicago had won six out of seven from the rising Nats.

Jackie Jensen boomed a two-run homer to run his hitting streak to 11 games while Tom Ferrick picked up the win in relief with the help of Don Johnson. The Senators scored four runs in the 10th with the help of three walks off Mary Grissom and an error by Chico Carrasquel.

The victory enabled the Senators to take over fourth place from the White Sox by three percentage points and move to within four games of the league-leading New York Yankees, who dropped a 10-9 decision to the Browns in St. Louis.

Rookie outfielder Bob Neiman broke up the game, playing in 100-degree heat, with a two-out homer in the eighth inning off Bobby Hogue. The teams collected 28 hits and committed seven errors, five by the Browns.

Gene Bearden, who took over the fourth was the winner but he needed help from the amazing Satchel Paige. Paige was called from his special canopied cushioned chair in the bullpen in the ninth after pinch-hitter Johnny

Sain had worked the count to 3-0. Paige struck out Sain and retired the side.

The loss cut the Yanks' lead to 2½ games over the Boston Red Sox, who moved into the runner-up slot by trouncing the Detroit Tigers, 10-3 while Cleveland's erstwhile second-place Indians bowed to the Philadelphia Athletics, 11-9.

Brooklyn maintained its four-game National League advantage over New York, beating the St. Louis Cardinals, 3-1, while the Giants edged the Cincinnati Reds, 3-2.

Carl Erskine, making his first start since his no-hitter against

Chicago, went all the way and allowed eight hits to boost his record to 7-1. Gerry Staley permitted the Dodgers only four safeties but one was a three-run homer in the fourth inning by Roy Campanella.

Whitey Lockman singled home Sal Yvars from third base with two out in the eighth inning to break a 2-2 tie and give the Giants the nod over Cincinnati.

Big Max Surkont and Sid Gordon teamed up to lead the Boston Braves to a 5-2 victory over the Pittsburgh Pirates.

The Chicago Cubs snapped their nine-game losing streak by defeating the Philadelphia Phillies, 4-1.

## Maxwell Pushed But Wins First Test At Lafayette

LAFAYETTE, Ind., June 26 (AP)—National Collegiate Athletic Association officials, who contend their golf tourney is the country's toughest amateur test, had some new taking points going into today's second round.

Billy Maxwell of North Texas State, the 1952 U. S. amateur champion was pushed 18 holes Wednesday to defeat Joe Walsher of Oklahoma A&M, 2 up. Scratch golf wouldn't have beaten Walser. Maxwell had to shoot a 2-under-par 68 over Purdue's tricky south course.

David Stanley of UCLA; 1951 National Public Links champion, failed to survive the 36-hole qualifications in the NCAA meet.

Maxwell's opponent today was Dick Evans of Michigan's Big Ten championship team, who won a first round victory over Dick Tiddy

of Wake Forest, 4 and 3. The usual end came to the medalist, Eastern intercollegiate champion Paul Harney of Holy Cross. Don Addington of SMU scorched him with 4-under-par golf for 15 holes, 4 and 3.

Harney had company among the losers, including Don January of North Texas State, and Don Nichols of Oklahoma A&M. Elliott Phillips of Indiana University was 2 under par in beating January, 4

# Ike To Conduct Personal Fight In Chicago Before Convention

DENVER (AP)—A source in Gen. Dwight D. Eisenhower's headquarters said today the general will leave Denver for Chicago to direct personally the July convention fight for the GOP presidential nomination.

The source, who refused to be identified, said the decision has not been reached, but he would not say when the general is expected to arrive there.

Meanwhile, Eisenhower's campaign manager, Sen. Henry Cabot Lodge Jr. of Massachusetts, said an important shift in delegate opinion has made certain his candidate will get the Republican nomination.

Lodge said "the jig is up" for Taft, who he insisted will get less than 500 votes on the first convention ballot, while Eisenhower will get more than 500. A total of 604 votes is needed for nomination.

Eisenhower's nomination will follow, Lodge said, on the second or third ballot.

Taft's campaign manager, David S. Ingalls, said bluntly, "It just isn't so."

Eisenhower will deliver what is billed as a major speech tonight before an expected capacity crowd of 12,000 at the New Stockyards Coliseum. A paid political broadcast, it will be carried on a nation-

wide radio network at 9:30 p.m. Eastern Standard Time.

Lodge, who flew here yesterday to meet with Eisenhower, refused to state where the shift in delegate strength took place, but said his figures were based on a nationwide telephone survey of delegates conducted by Eisenhower leaders. He said the survey did not include

## Police To File Traffic Cases

Chief of Police E. W. York was preparing Thursday to file complaints against traffic ticket recipients who have failed to appear in Corporation Court.

The chief said 12 to 15 complaints probably will be filed with Corporation Judge William F. Greenlee. The judge then is expected to issue warrants on which police will bring offenders into court.

All persons who have failed to respond to the tickets have been notified at least once that they are delinquent and should appear in court voluntarily in answer to the summons, Chief York said.

Motocyclists who have to be hauled into court by police will have to answer to "failure to appear" charges as well as to the original traffic violations.

states where there are contests between Eisenhower and Taft forces over who is legally entitled to delegate seats.

Asked yesterday to confirm rumors that the general might move to Chicago, Lodge refused comment.

Lodge said, "I came here to tell the general personally of some very important developments. . . I can't tell you what these developments are, but you will know of them soon."

The senator said one indication of Taft's weakening position was the announcement by Sinclair Weeks of Massachusetts, a national GOP committeeman, that he supports Eisenhower.

The announcement "had a tremendous influence on other delegates," Lodge said.

## Man Is Hurt In Fall From Ladder

Elmer Clinton, 1006 W. 2nd, received cuts about the head Wednesday afternoon when he fell from a ladder at Cosden Refinery.

Clinton was taken to Big Spring Hospital in an Eberley ambulance. He was hospitalized for observation after cuts were closed. Accident in which he was injured occurred about 2:45 p.m.

## Jaycees Plan Another Round Of Frivolity

DALLAS, June 26 (AP)—Jaycee-jitery Dallas was ready for another round of fearful frivolity today as the annual U. S. Junior Chamber of Commerce convention roared on.

And the Jaycees were winning friends. Said one oil firm's librarian: "I wish they could stay. . . I never saw so many nice-looking young men."

The complimentary young lady refused to be identified.

Today's program was to feature with the gigantic "Parade of States," featuring floats from all the 48 states, Hawaii and the District of Columbia.

The Hawaiian delegation's float will be burdened with 15,000 orchids flown from the Islands. Horsemen and horsewomen from Hardin-Simmons University and the school's jazzy Cowboy Band will also take part.

Nevada's float was sure to draw attention. The Nevada crew, one of the most popular in the convention, will throw some of the silver dollars from a chest of 12,000 to the parade watchers.

Alice from Dallas, otherwise Miss Barbara Ann Gentry, and Mayor J. B. Adoue Jr. escorted a mule-drawn covered wagon load of Colorado Springs delegates into the city and up on to red carpet proceedings at a hotel.

There was a 20-minute "cease fire," only partly successful, while the mayor nervously drove the nervous white mules up a principal downtown street. A few .45s were fired in the air during the "truce."

Presidential Assistant John R. Steelman, acting director of the Office of Defense Mobilization, was to speak to the rip-snorting delegates today in another rare moment of comparative calm. Steelman was to present the Jaycees with a plaque from President Truman for their work in the defense effort.

The convention lost a speaker when Senator Russell (D-Ga.) wired he would not be able to make the inaugural ball tomorrow night.

The Jaycee publicity office said, however, that Senator Kefauver (D-Tenn.) definitely would be a speaker at the ball.

Genuine Panamas

## Kefauver Going On Without HST's Okay

NEW ORLEANS (AP)—Sen. Estes Kefauver said he is seeking the Democratic presidential nomination without the endorsement of President Truman.

Speaking on a round-table television discussion last night, the Tennessee senator said his platform, different from that of President Truman, advocates more

rights for the states, a balanced budget, emphasizes the cleaning up of crime and the instilling of new determination into government and business.

An advocate of the President's veto of the tidelands bill which would give the states the rights to the oil lands-off their coasts, Kefauver said he followed the Supreme Court decision that the United States should have superior rights to the oil property.

## Mrs. Michaud Found Guilty Despite Her 'Bedroom Deal'

By ED OLSEN  
CARSON CITY, Nev. (AP)—The French-Canadian divorcee who pleaded that she made a bedroom bargain with millionaire La Vere Redfield to steal his 13-million-dollar safe today faced five to 10 years in prison for directing that fantastic burglary.

A Federal Court jury yesterday found Mrs. Jeanne d'Arc Michaud, 36, guilty of carrying more than \$147,000 of the loot across state lines.

The jury rejected the petite, dark-haired woman's contention that she gained Redfield's consent to the theft in a bedroom tryst at the millionaire's gloomy Reno mansion Dec. 28.

A special suicide watch was put over her. She previously attempted suicide and said on the witness stand: "It is preferable to this shame of bringing out my private life as La Vere Redfield's sweetheart."

Redfield denied in court he consented to the theft, but was so hesitant and evasive that Federal

Judge Roger Foley's temper flared at the blue-jeaned financier.

An amazing new touch to a case that will go down in FBI files as one of the strangest in history came yesterday with this revelation: Redfield still has 270,000 dollars cached in a secret basement room of his field stone residence.

The 270,000 cartwheels, which weigh almost 10 tons, were discovered by FBI agents, acting upon coded instructions found in a note taken from Mrs. Michaud upon her arrest.

The note, with a will and other personal papers, was among the currency, jewels and securities chucked into the millionaire's small bedroom safe when it was carted away Feb. 29.

FBI men chiseled through 39 inches of plaster, stone and concrete to find the secret room, which also contained a vast quantity of postage stamps.

Mrs. Michaud, who will be sentenced June 30, freely admitted masterminding the rich burglary. Four men involved in the burglary are under arrest.

## Drouth No Problem To Area Chinchilla Ranches

Drouth and the high price of land do not cut any future with a trio of "ranchers" operating here. The investment of stock is relatively high but Chinchilla breeders can maintain a pair comfortably in a two-by-three-by-two foot "pasture" and a few cents a day feed bill.

The ranchers, Mr. and Mrs. Roy Bell, Mr. and Mrs. Fred Crossland, and Mrs. Ruby Billings, own 33 Chinchillas, bringing Big Spring's Chinchilla industry to over \$20,000. The Bell "herd" is the largest of the three, raising 19. Mr. and Mrs. Crossland have 10 and Mrs. Billings four.

The pelts go into making of Chinchilla coats—reported to be the most expensive coat made. Because of the fineness of the hair, the coat cannot be duplicated. Considering the fact that a pair of animals bring from \$1,200 to \$2,200 and it takes from 120 to 150 pelts to make one coat, the approximate cost of making one coat can be estimated.

Raising the animals takes little time, money or space, breeders claim. Care of the animals requires only about 30 minutes per day; a pair can be housed adequately in a two-by-three-by-two foot pen; and feed for one for a year costs only approximately \$3.60.

Most costly part of the care is preparing for keeping the animals. The room or shelter in which they are kept must remain below 80 degrees constantly. Although it doesn't matter how cold the room or shed gets, the animals cannot live in temperatures higher than 80.

Chinchillas are full grown at the age of from one year to 18 months. When full grown, they weigh from 16 to 32 ounces. Chinchillas weigh from one to three ounces when born.

From one to four babies are born to a litter with two being the average. Two litters a year is the average.

Chinchillas clean themselves by rolling in a pan of fine-grain sand. Because of the fineness of their hair, the animals are free from body parasites. Also they have no body odor which permits raising the animals near the home.

Chinchillas are vegetarians, eating no meat. They feed on grain pellets and alfalfa and prairie hay. Chinchillas are very gentle and like to play—both by themselves and with people. They delight in bouncing up the sides of their cages as though they were taking calisthenics. Chinchillas like nothing better than to chew on a paper card.

Although people can handle and play with them, they must pick the animals up by their five-inch tail—handling the Chinchilla fur would spoil the high value.

## Riding THE GRUB LINE With Franklin Reynolds

Not many years ago this was the scene of one of the best pastures in Martin County and native grasses brushed the stirrups of cowboys riding through it looking for yearlings and new calves in the tall grass.

Now, less than a score of years later, it is in such condition because of blowing sand and the continued drouth that it will hardly carry a cow and a calf to the section. What grass survived the drouth has been killed by sand blowing in on it. There are hundreds of thousands of acres of such land in West Texas today.

Unless enough rain is received to permit the protection of such land with a cover crop the winds next winter and spring will make the devastation worse, according to the conservationists, who say that much of West Texas stands on the brink of another Dust Bowl such as that cut out by the winds to the north of us a score of years ago.

Farmers and ranchers interested in protecting their land with a cover crop should call at the nearest office of the Soil Conservation Service as soon as possible.

Ray Hastings, Martin County agricultural agent, is afraid, he says, to hazard a guess on what the prospects are for a dryland cotton crop in his county, but he isn't over-enthusiastic about a big cotton-picking time this fall.

"It can change and probably is changing by the hour," Hastings says. "With some rain it will go in one direction. Without rain it will go the other way."

Hastings, who has inspected a number of plantings, says harmful insects are very scarce, with a few flea hoppers present in spots. He also reports a fair population of beneficial insects in some fields.

Sunbeam Morrison, secretary of the Texas Horse Breeders Association, reports that another well-known name has been added to the roster of Thoroughbred sires at service in Texas.

**Signs Put Up To Heckle Acheson**

OXFORD, England (AP)—Big white signs reading "Acheson Go Home" and "Yank Go Home" were found plastered on streets and buildings of this university town today but the U.S. secretary of state apparently didn't see them.

Cleaners were called out early to remove the whitewash-painted signs as quickly as they were discovered.

One slogan was slapped on a building at Wadham College, where Acheson dined last night.

**Hearing Is Set In Bribery Case**

DALLAS, June 26 (AP)—A hearing will be held here Friday for Andrew Jackson Burke, 49, arrested on charges of bribery for El Paso federal authorities. The date was set yesterday by U. S. Commissioner W. Madden Hill.

The FBI office here alleges Burke offered money to a Fort Bliss officer to influence the use of a non-chartered airline for business that originated from Army personnel.

**Mother Of Quads**  
Mrs. Marion Manning, 27-year-old mother of quadruplets born last Wednesday at Weymouth, Mass., smiles in her room at South Shore Hospital in this first picture since birth of the babies. At left is the infant of Prague presented to the young mother by Archbishop Cushing. The three boys and a girl, born about two months premature, are doing well in incubators. Mrs. Manning has recovered from a virus attack and is regaining her strength her doctor says. (AP Wirephoto copyright 1952 by the Boston Traveler).

## Pump Sales Much Higher Than Air Conditioners

The city's ordinance passed in May requiring air conditioner owners to use the circulating pump type did not increase the sales of the units—it just jumped the sale of pumps and started the air-conditioner selling season earlier.

Dealers report that sales have been about normal but that people, probably because of the ordinance, bought their air conditioners earlier this year. But, they comment the sale of pumps greatly outdistanced the units, at the time the ordinance was passed.

The pump enables the conditioners to use the water continually with only the water that evaporates being lost. While the other style of coolers used a constant stream of water and the water was used only once.

The dealers estimate the pump will pay for itself in one season from the saving of water.

Dealers differ on the question of whether the use of pumps cuts down on the efficiency of the conditioners. One store manager stated that if the pump were working properly the efficiency would remain the same.

But, he added, by using the same water, dust, excelsior, rust, and

grass worked into the pump clogging the lines.

This, he said, would naturally cut the flow of water through the lines and keep the sides of the unit from being properly dampened.

Dealers find the factories are the reason for the shortage of air conditioners.

The stores are either out of units or low and all state they have orders in to the manufacturers.

## Livestock Decline Noted At Houston

HOUSTON, June 26 (AP)—A drop of from \$4 to \$5 per hundredweight on practically all classes of livestock during the past two weeks, showed up today in figures from the Houston livestock market.

The decline is credited by local sources to consumer resistance to high prices which started last November; to large supplies of cattle, competitive supplies of poultry and pork, and the effect of the steel strike.

A decline in northern markets a week or so ago is reflected in the decline here this week.

## 'Printing Board' Is Still In Existence

Three Big Spring women may hold some sort of record for the number of years spent—without remuneration—in public office.

The three were named to the first City Board of Inspectors of Printed Matter. Apparently they still hold the positions.

If so, Mrs. Charles Koberg is chairman and Mrs. Ira Driver and Mrs. J. P. Dodge are members of the board. That was the lineup when the board was appointed during an "emergency" on May 26, 1931.

City ordinance which created the board and established conditions for a form of censorship of printed matter was passed on the same day.

A search through municipal records failed to show that the ordinance ever has been repealed or that the three members of the board have been relieved. First members of the board of inspectors were to "hold office at the will of the city commission" so the terms may last indefinitely.

Publishers, newsstand operators and other vendors of printed matter can relax, though. The City Board of Inspectors—if it still exists—has no plans for examining the various forms and grades of literature being offered.

In fact, two members of the board don't recall ever having had a part in banning the sale or distribution of printed matter of any kind. The third member, Mrs. Koberg, couldn't be reached for comment.

Mrs. Driver says she thinks the board may have been appointed in connection with work of the City P-TA Council, but she doesn't recall ever taking any "censorship" action. Nor does Mrs. Dodge remember any action of the board.

J. B. Pickle, mayor in 1931, remembers that the ordinance was passed during a period "when public sentiment revolved against some of the literature that was on sale."

The former mayor said there were "flagrant violations of the laws of decency." He mentioned one publication which was considered extremely bad in this respect and which no longer appears on newsstand shelves.

On approving the ordinance city commissioners noted that "a considerable amount of printed matter of an immoral and indecent kind and of a nature calculated to corrupt the morals of the people" was being sold. They adopted the

ordinance, as an emergency measure, with one reading.

The local statute provided for the licensing of persons selling printed matter, set up the board of inspectors, and outlined duties of the board.

Among other things, inspectors were empowered to inspect all items of printed matter "which are kept for sale" and to determine "the character, kind and nature of contents thereof." If they found anything "calculated to corrupt the morals of the youth or public generally" they could prohibit (through the police department) its sale.

Persons licensed to sell printed matter were required to make their offerings available for examination. Violation of the ordinance would constitute a misdemeanor, punishable by fine of not more than \$50.

A list of publications deemed not suitable for sale was to be kept by the city secretary, the ordinance said. That's another indication little action ever was taken by the board. No list is known to exist around City Hall.

## State Breaks Polio Records

AUSTIN, June 26 (AP)—Polio broke all Texas records last week with 146 cases.

The State Health Department said today it was the highest incidence ever recorded in a single week.

Hard-hit Harris County tabulated 45 new cases, more than 30 per cent of the total for the entire state.

The new cases brought the state's total for the year to 917.

"For ten years we've been promoting a policy of basic sanitation as a way to fight polio," State Health Officer George W. Cox said. "We feel like a policy of basic sanitation beginning in the home, and extending into the community, the county and the state, is good insurance against future polio epidemics."

He offered to send an expert in community sanitation organization into any town in the state to get a clean-up drive rolling.

Three new counties, Fayette, Jackson and Wood, appeared on the polio roll last week for the first time this year. Each had a single case.

Other counties reported cases as follows: Nueces, 11; Tarrant 10; Dallas, eight; McLennan and Tarrant, seven each; Dawson, six; Brazos, five; Jefferson and Victoria, four each; Galveston, Lavaca and Wilbarger, three each; Bexar, Bowling, and Wharton, two each; Bee, Bell, Duval, Ellis, Fayette, Grimes, Hardin, Haskell, Howard, Hunt, Jackson, Kerr, McCulloch, Smith, Tom Green and Wood, one each.

It is interesting to note that in the early 1940's the average cubic yardage for stock ponds built in this area was around 1,000 yards. In the past few years, however, the trend has been toward much larger tanks with a present average of 5,000 yards. The demand for larger tanks has been a result of lessons learned in the past. It has been found that an average of seven surface feet of water is lost annually from evaporation alone and that a minimum effective depth of 12 feet should be provided in all cases to assure a dependable supply of water.

This horse is Blandisher, by Blenheim II and foaled by La Rambla by Sir Galahad III, and recently purchased by Dr. T. M. Johnson of Del Rio.

Blenheim II was a great horse in his own right, and Blandisher's maternal grandsire, Sir Galahad III was probably the world's greatest sire of brood mares. He was also a full brother of Bull Dog, the sire of Bull Lea, the sire of Citation and other outstanding winners.

Dr. Johnson's new stallion has sired winners of more than \$122,000.

A new 8,000-yard stock tank has just been completed on the R. L. Powell Ranch, south of Coahoma. It was engineered by Soil Conservation Service technicians.

It will furnish water for two sections that have not had water, thus encouraging a more even grazing of the range. By providing a proper distribution of livestock water in relation to available forage it represents a step forward in the practice of an approved conservation program.

This tank is the fourth completed in the district this year on which the SCS technicians have given assistance in staking, checking and other layout work. The total of tanks to date since the establishment of the Martin-Howard Soil Conservation District 12 years ago is 172. In almost all cases these tanks were given assistance by the PMA.

It is interesting to note that in the early 1940's the average cubic yardage for stock ponds built in this area was around 1,000 yards. In the past few years, however, the trend has been toward much larger tanks with a present average of 5,000 yards. The demand for larger tanks has been a result of lessons learned in the past. It has been found that an average of seven surface feet of water is lost annually from evaporation alone and that a minimum effective depth of 12 feet should be provided in all cases to assure a dependable supply of water.

# New Tech Prexy Was Busy 20 Years Ago

By JOE PICKLE

It doesn't seem so long ago, although it has been 20 years this spring, that part of my duties as a collegiate journalist included daily calls on the dean.

A wiry man with square jaw, piercing eyes, and a closely cropped mustache, he filled the mental picture of a park service ranger (which I understand he had been during summers).

In those days the depression was in full swing and colleges, particularly denominational ones, did well to keep the doors open, let alone cut down on work for the instructors. It so happened that Dr. E. N. Jones was doubling as head of the botany department, as instructor, and as dean of Baylor University.

So he was an extremely busy man a situation which he didn't alleviate through a number of extra activities such as teaching a college men's Sunday school class, working with the Texas Academy of Science, any number of special affairs for students. Endowed with a sharp mind and a vocabulary which possessed everything but periods, he was much in demand as a speaker, too.

But there was never a day when Dean Jones didn't have his secretary work me in between appointments. Whether he had any news to impart appeared to make no difference. He seemed to have the happy knack of seeming unhurried. Always he had some fatherly advice which seemed more like man to man.

Typical was the note he wrote in my yearbook at "commencement." It was not "commendation," he insisted, "but rather continuation of living" with chief reliance upon one's self henceforth.

This is the impression I have of the man who becomes new president of the Texas Technological College some time before Sept. 1. Trustees chose him unanimously last Saturday to succeed Dr. D. M. Wiggins, who is leaving to enter private business.

Dr. Jones is a native of Downs, Kan.; holds his Bachelor of Science

DR. E. N. JONES

(1921) and honorary Doctor of Laws (1940) from Ottawa University at Ottawa, Kans.; has his Doctor of Philosophy degree from Iowa State in 1925, the same year he went to Baylor as head of the botany department. He headed the combined biology and botany departments after 1933. In 1929 he had been named dean of the Arts and Sciences and then later as dean of the University until 1942 when he became president of Texas A. & I. at Kingsville. He was made vice president of Texas Tech in 1948.

At 20 he had been president of the Baptist Young People's Union of Kansas. At Waco he was president of the Rotary Club and the Texas Academy of Science. He was an organizer and first chairman of the Texas Council of Church-Related Colleges in 1937.

In his time he has tasted of the bitter cup, too. About the time he came to Baylor, his first wife died, leaving him with a baby boy. Later he married Florence Maulsby, and they had two children. Within a month after she died of cancer in 1950, his first son died suddenly. These tragedies he bore with the equanimity with which he met his successes.

# City May Not Have Delegate To Highway Group Sessions

Big Spring apparently will be without representation late this week at meetings of two transcontinental highway organizations.

J. H. Greene, Chamber of Commerce manager, said Wednesday that as far as he knows no Big Springers plan to attend either of the meetings.

Annual meeting of the International Highway 87 Association opens Thursday in Raton, N. M. Program will continue through Saturday in the Yucca Hotel.

Central Division of the U. S. Highway 80 Association is to convene Friday for a two-day program at the Wooten Hotel in Abilene.

Objectives of both organizations, as well as business programmed for the meetings, include development of the transcontinental highways and encouragement of tourist use of the routes and facilities available in the various cities they connect.

J. H. Greene, Big Spring, is a director for the Central Division, U. S. Highway 80 Association. Executive secretary is L. A. Chapman of Colorado City. Other area officers are Tom Davis, Odessa, president, and Houston Crump, Odessa, secretary.

# Reese Asserts 'Steal' Cries Part Of A Plot

WASHINGTON, June 26 (AP)—Rep. B. Carroll Reese of Tennessee asserted Wednesday that cries of "steal" in the selection of Texas Republican delegates are part of a "last" minute effort to besmirch the name of Bob Taft.

Reese, Southern manager for Sen. Robert A. Taft's campaign for the GOP presidential nomination, said in a statement that supporters of Gen. Dwight D. Eisenhower are showing "the weakness of their case" by tactics in Texas.

Eisenhower backers have contended their state convention delegates were denied seats while Taft supporters—elected in rump county meetings, the Eisenhower people charged—were allowed to select a pro-Taft delegation to the Chicago nominating convention.

Reese countered with charges that Eisenhower forces had invited Democrats to invade the Republican county conventions, promising them they could return to the Democratic party immediately thereafter.

"The Texas convention was conducted in an entirely proper and legal manner under the rules of the party and the laws of the state," Reese declared.

He said if the Eisenhower backers were "more certain of being in the right, they would not be conducting their present furor."

"It is an admission of the weakness of their case that they are not willing to submit it on appeal through the orderly and legal channels, but instead are resorting to reckless charges against both individuals and Republican organization," Reese said.

He also accused the Eisenhower backers of using strong arm methods in Connecticut, New Jersey and Kansas.

# Vary Cream Sauce Used For Meat

Here's a simple formula for getting variety into your summer meat servings. Start with a cream sauce, then add surprise seasonings or spices along with cooled leftover or canned meat.

For instance, add a bit of curry powder to cream sauce and it becomes just right for lamb cubes, says home economist Reba Staggs. Arrange this mixture on fluffy white rice for serving. Or add paprika to the sauce and you have a tempting choice for ham cubes. Also this may be used for canned luncheon loaf. Cut the canned loaf into thin strips or cubes and add to the sauce. Little canned Vienna sausages also may be heated in such a combination.

# Pelicans Don't Know Their Sex

LONDON, June 26 (AP)—How do you tell a girl pelican from a boy pelican?

You can't unless they are four or five years old, the House of Commons was told yesterday.

The pelicans don't even seem to know themselves, the minister of works, David Eccles said. He was being questioned by Conservative Fitzroy MacLean, who wanted to know about the six of four pelicans presented to St. James Park by Galveston last November. MacLean didn't say why he wanted to know about the birds, named Gal. Ves. Ton and Tex.

"I am advised," Eccles said, "that the birds are still too young to reveal their sex."

Laborite F. G. Bowles said he had it on pretty good authority there is a sure way of finding out, no matter how young they are.

"You take a needle and thread and stick the needle into a cork and hold it over a pelican," he explained. "If it is a male it will swing in a line and if it is a female it will go around in circles."

A reporter called up St. James's Park and talked with Tom Minton, the bird keeper.

Tom said he has been watching the Texas pelicans closely without result. He also has been keeping an eye on Peter and Paul, a pair of Pakistani pelicans which also arrived last November.

"I've a feeling Peter is a male," Hinton said cautiously. "He is becoming a little playful with Paul. But there's not a lot to go by yet."

Two Navy Veterans Drown At Marlin

MARLIN, June 25 (AP)—Two Navy veterans—one of whom was to be married Sunday—drowned yesterday in Marlin's City Lake after their motorboat overturned.

They were Walter Knecht, 35, Marlin cafe owner, and Johnny Kessner, 23, state highway maintenance employe also of Marlin.

Kessner was to have been married Sunday to Miss Ellen McElroy of Marlin.

# THE SPRINGBOARD

News From Webb Air Force Base

By A-3C FERD J. BORSCH

The Air Force was 52 pilots stronger when Webb AFB graduated its first class of cadets in a colorful military ceremony Saturday.

Forty-three aviation cadets and nine student officers from class 52-D, the first assigned to Webb since re-activation, received their diplomas and wings from Colonel Ernest F. Wackwitz Jr., base commander, at the Academic Building auditorium. Brigadier General Robert J. Smith, president of Pioneer Airlines, was guest speaker.

Prior to the commencement exercises, a pass in review and an aerial review were held on the flight line. Several hundred visitors witnessed the aerial show highlighted by acrobatic maneuvers.

WELCOME "HOME" Webb AFB personnel felt more at home following the city sponsored "Welcome Airmen" party at City Park Friday night. A crowd estimated at 2,500 stowed away 6,500 hot dogs and then witnessed a two-hour variety show at the park amphitheater. Chamber of Commerce president Truman Jones made the formal welcome on behalf of the city and Col. Wackwitz responded with a word of appreciation for the welcome gesture on the part of Big Springers.

SWIMMING Swimming enthusiasts at the local air installation have drawn a big red circle around July 1, the date on which the city park pool will open if all plans work according to schedule. AF personnel have been traveling to Midland, Lamesa and Colorado City to pursue the favorite summer pastime and seek a little relief from the 100 degree plus weather here the past week.

PROMOTIONS Fifteen Webb AFB officers have been promoted according to USAF orders received at the base Saturday. The breakdown is as follows: Lieutenant Colonel—William C. Smallwood, Wing Personnel Officer, and John L. Campbell, Materiel Officer. Majors—Emil Bertz, W. A. Boorman, Jack Harrow, Nolan Jones, Charles Maddox, John Wood and William Wright. Captains—John Connolly, Thomas Ford, John Gallagher, James Griffith, William Huerstel and George Steele.

In addition, 150 promotions were given non-commissioned officers and airmen for the month of June. This includes three master sergeants, five technical sergeants, 14 staff sergeants, 63 airmen first

class, 53 airmen second class, and 12 airmen third class.

ECONOMY In line with the management improvement program in progress at all Air Training Command bases, Webb civilian employees have an opportunity to collect cash awards for their suggestions. All civilians employees on the base are eligible to submit management improvement suggestions to a five-man board appointed for that purpose.

Upon recommendation from the committee, the base commander may award from \$10 to \$275 for each adopted suggestion.

NCO DINNER Plans are now complete for the NCO Wives Club sponsored chicken dinner to be held at the NCO Club Saturday night, 7 o'clock. The NCO Wives will hold their general election of officers Monday, July 7. In addition to election of officers, special committees will be appointed at the meeting.

MISSION All interested civilians in the Big Spring area are invited to attend the first Catholic Mission on the base next Sunday through Wednesday. Mission services, consisting of the "Question Box, Sermon and Benediction," will be held at 7:30 each night. Baby sitters will be on hand to tend children too small to attend services.

Father Martin Lombardi of the Paulist Fathers will conduct the four-day program.

EXPLORERS Plans are under way to establish an Air Force Explorer Scout troop at the base, according to Chaplain (Maj) Grant E. Mann. This organization was founded primarily for sons, 14 years and older, of Air Force personnel.

SPORTS The Webb Dusters suffered their first loss in second half action of the Industrial Football League by bowing to Texas and Pacific, 6-5. The Dusters were able to collect only three hits.

Webb has entered its fastball team in the third annual state fastball tournament to be held at San Angelo July 14-19.

Webb's five-man golf team leaves Monday for Perrin Air Force Base to compete in the Air Force North Zone Conference tournament July 1-3. This meet is a preliminary to the Air Force World-Wide tourney scheduled for Maxwell Air Force Base, Ala., July 23-August 1.

# Speed Holds Up Traffic In City

SAN FRANCISCO (AP)—If Walter Speed had lived up to his name, he wouldn't be going to police traffic school today.

Municipal Judge Homer Buckley ordered Speed to brush up on his driving because he held up traffic on the heavily traveled San Francisco-Oakland Bay Bridge.

Speed was going 30 miles an hour in a 40-mile limit lane.

# Protective Plastic

A transparent, film-thin plastic coating can be sprayed on card tables, lamps, door knobs, tools, documents and luggage to seal out moisture and protect the articles from acids, dirt, smears and smudges. The plastic coating will not chip, crack, peel or discolor, according to manufacturers.

# Baby Needs Shoes

The normal American youngster requires 63 pairs of shoes between the time he puts on the first pair of infant shoes and his sixteenth birthday.

Thirsty or Not YOU'LL ENJOY Grapette

MOST BEAUTIFUL SOFT DRINK BOTTLE IN AMERICA

... containing a delicious blend of wholesome ingredients including softly sparkling soda, sugars from the corn belt and the Sunny South, esters, delightful aromes, U. S. certified color—all generously fortified with grape juice from ripe Concord grapes. Join the countless millions who enjoy Grapette, America's Thirsty-Or-Not drink!

## Secretary Believes Hotel Living Best

Imagines sharing an apartment that overlooks the hustle and bustle of Big Spring and Highway 80. One that requires the mere buzz of an elevator button to whisk you away to your own private haven 14 stories up.

It happens to only a few. But Edith Gay, secretary of the Chamber of Commerce, is one of the luckier mortals.

She shares an apartment in the Settles Hotel with Clara Secrest, a school teacher, and Mrs. Lula

Ashley, the consignee of the Texas Co. Originally from De Kalb in northeast Texas, Miss Gay has been a Big Spring citizen since 1934.

During the war, she worked about 15 months at the Civilian Club of Ft. Richardson, in Anchorage, Alaska. But Texas soon lured her back.

In fact, when she decided to return she flew, leaving there at 11 a.m. one day and arriving here at 6 p.m. in the next.

She is a charter member of the B&FW and since the instigation of the club's bathing and dress revues three years ago, she has been in charge.

This year for the first time she has a co-chairman, Dr. Ora Johnson, to assist her in the many details of the show.

She has also long been active in the Music Study Club.

Miss Gay and her roommates prepare many of their meals in the minute kitchen of the hotel apartment.

"But I wouldn't go so far as to say I like to cook," she laughed. "Though there may be differences in taste, all three liked boiled vegetables and cornbread."

And the favorite dessert of the dark-haired, petite secretary is

## Spice Gives Foods New Personality

Everyday foods take on a new personality when a pinch of spice is added. We have in our grocery stores as many as 100 different spices to vary the flavors of oft-used recipes, and most are packed in cans to preserve their volatile flavors.

Here are a few quick tricks from the canned spice shelf to glamorize some old stand-bys:

**Curried Mayonnaise:** For zesty salad dressing, add 1/2 teaspoon curry powder to 1/2 cup mayonnaise or salad dressing. It's delicious to serve on tomato, shrimp or chicken salad.

**Spicy Hamburgers for Four:** To 1 pound ground beef, add 1/2 teaspoon each of onion salt, celery salt, and paprika; 1/2 teaspoon pepper; 1 cup soft bread crumbs and 1/2 cup milk. Mix well, form into 4 patties and pan broil in a lightly greased skillet.

**Spicy Tomato Aspic:** Follow standard tomato aspic recipe, except to add 1 tablespoon pickling spices when heating the tomato juice; strain before adding the gelatine.

**Pickled Peaches:** Drain a No. 2 1/2 can of peaches. Combine syrup with 1/4 cup unsulphured molasses, 1/2 cup sugar, 2 tablespoons vinegar, 1 3-inch piece stick cinnamon and 2 teaspoons whole cloves; simmer 10 minutes. Stick peach halves with several additional cloves, add to hot liquid and simmer 5 minutes more.

**Cherries Jubilee Ice Cream Sauce:** Mix together 2 teaspoons cornstarch, 1/2 teaspoon cinnamon and 3 tablespoons sugar in saucpan. Add syrup from 1 1/2-pound can pitted Bing cherries; cook, stirring constantly until mixture is slightly thickened and comes to a boil. Remove from heat; add 1/2 teaspoon lemon juice, 3 tablespoons dry cooking sherry and the cherries. Cool slightly and serve over vanilla ice cream.

**Lemon Cake Top Custard.**  
**LEMON CAKE TOP CUSTARD**  
 Ingredients:  
 3 tablespoons soft butter or margarine  
 1 1/2 cups sugar  
 1/2 cup flour  
 1/4 teaspoon salt  
 1/2 cup lemon juice  
 1 lemon rind grated  
 3 eggs, separated  
 1 1/2 cups milk  
 Method:  
 Cream butter and sugar, add flour, salt, lemon juice and rind. Beat the three egg yolks well and combine with milk. Mix with other ingredients. Fold in stiffly beaten egg whites. Pour into custard cups and bake 45 minutes in a slow oven.

## Special Serving Tricks Needed When Guests Arrive

Every hostess needs a few special serving tricks to pull out of her apron pocket when unexpected guests arrive for a visit and stay on for supper. Ready to heat and serve, canned corned beef hash is a tasty and versatile standby to keep on the emergency food shelf for such occasions. But be ingenious.

Dress up an otherwise plain meal with some quick serving touches. Broil the hash in patties and top with cheese and a dab of chili sauce just before removing from the heat. Set the table with a colorful cloth, a simple centerpiece and gay china.

## In The Minute Kitchen

... of her apartment way above downtown Big Spring, Edith Gay prepares her favorite dessert, Lemon Cake Top Custard.

## Prize Winning Recipe Is Sure To Win Family Praise

Add to your special pie recipe collection this fruity prize winning raisin pie. It is the recipe of Mrs. Arthur Pearson of Modesto, Calif., who won a large golden trophy and deluxe automatic gas range as first prize in the California Raisin Pie Baking Contest. It is sure to win praise from the family and guests for its rich flavor and wholesome goodness.

**FILLING**  
 1 cup water  
 1/2 cup juice from canned pears  
 1 cup sugar  
 4 tbs. cornstarch  
 2 tbs. lemon juice  
 1 tbs. orange juice

1 tsp. butter  
 1 cup diced canned pears (well drained)  
 2 cups raisins (seedless)  
 Heat water, pear juice, lemon and orange juice to boiling. Add raisins. Boil five minutes. Mix cornstarch and sugar together. Add to raisin mixture. Cook until thick and clear. Fold in diced pears. Let cool slightly. Pour filling into unbaked pie shell. Dot with butter. Cover with top crust. Brush top crust with cream. Bake in 450 degree oven for 15 minutes and then 350 degrees for 25 minutes more.

**PASTRY**  
 1 1/2 cups sifted flour  
 1/4 tsp. salt  
 1/2 cup plus one tablespoon of shortening  
 Ice water to hold mixture together  
 Sift flour and salt together in mixing bowl. Add shortening and blend until like coarse cornmeal. Add just enough ice water, a little at a time, to hold mixture together. Roll out on floured board or pastry canvas.

## Coax Appetites With Food That Has Eye Appeal

Depend on the refrigerator for cool cooking and easy entertaining when the thermometer soars to sizzling highs. Put the emphasis on foods with eye appeal and heightened flavor to coax appetites wilted by hot, sultry weather.

Serve simply with meals arranged to look light and easy to eat. Take a tip from tropical cooks and stimulate appetites by using seasonings with a more generous hand than usual. Remember too that extra liquids are needed in hot weather to keep up pep and energy.

Refreshing and satisfying summertime meals should be cool both to prepare and serve.

## Butter Warmer

Loebster and asparagus eaters will welcome a new little sauce and butter warmer that will keep the liquid hot until the end of the meal. A long-burning candle placed under an attractively designed ceramic pot, supplies just the right amount of heat. The pot fits snugly into a ring at the top of the stand. It holds two ounces, serves two and is available in pastel green or light brown.

# Thrifty Desserts Are Sweet, Simple

Summer is the time of year when a homemaker's thoughts turn from fancy to the grim reality of housecleaning and general renovation—a change about the house, her costume and her hair-do or, perhaps, that long put-off paint job.

Menus need the "fresh look," too—a change from the usual dishes which, though popular, may be getting just a bit monotonous. If the cook is on a budget, and show me one who isn't, she'll want to keep economy in mind when planning new fashions in foods. And there's nothing like dessert when it comes to combining thrifty, nutrition and flavor in one simple dish.

Some people have a knack of making something out of nothing, even in the realm of food, but it can be done by even the most enterprising. Take molded prune fluff for instance. Nothing is more basic than the old pantry standbys of prune, gelatin and marshmallows; yet, combined, they make a dessert to do one proud. For its modest beginnings are so pretty and tempting that it's definitely company fare.

### Molded Prune Fluff

1 package orange-flavored gelatin  
1 cup hot water  
¼ cup prune juice  
2½ cups seeded cooked prunes  
18 marshmallows

Dissolve gelatin in hot water. Add prune juice and chill. Arrange 6 prunes and 6 marshmallows in bottom of 2-quart mold.

Dice remaining prunes and marshmallows. When gelatin is slightly thickened, place in bowl of cracked ice and water and whip with rotary egg beater until fluffy and thick like whipped cream. Fold in diced prunes and marshmallows. Turn into mold. Chill until firm. Unmold. Garnish with orange slices and prunes stuffed with marshmallows, if desired. Serve plain or with vanilla pudding sauce. The recipe makes 8 servings.

### Vanilla Pudding Sauce

1 package vanilla pudding and pie filling mix  
3 cups milk  
Combine pudding mix and milk in saucepan. Cook and stir over medium heat until mixture comes to a full boil, remove from heat. Cool, covered, or stir occasionally while cooling. Chill if desired. The recipe makes 2½ cups sauce.

Golden peaches against a background of green gelatin and creamy white banana heads are just the beginning of a dessert that's simple, delicious and pennywise to boot. Even the topping is thrifty, because glamorous as it seems, it's made from economical non-fattening dry milk.

### Peach and Banana Mold

1 package lime-flavored gelatin  
1 cup hot water  
½ cup canned sliced peaches

1 banana, sliced  
Add cold water.  
Dissolve gelatin in hot water.  
Arrange sliced peaches on bottom of mold. Pour on gelatin, being careful not to disarrange peaches. Add banana. Chill until firm. Unmold. Garnish with thrifty dessert topping, peach slices and banana balls, if desired. The recipe makes six servings.

### Dessert Topping

½ cup water  
1 tablespoon lemon juice  
1 teaspoon vanilla  
¼ cup non-fat dry milk  
3 tablespoons sugar

Combine water, lemon juice, and vanilla in 1-quart mixing bowl. Sprinkle milk powder over liquid. Then beat with rotary egg beater about 10 minutes, or until stiff. Sprinkle sugar on top and continue beating about 5 minutes longer, or until mixture will stand in peaks. Chill before serving. The recipe makes about 2½ cups of topping.

Every woman who knows that economy is important knows, too, that appearance adds much to the enjoyment of food and that the two can be combined. An example is apricot tapioca cream parfait. Homemade tapioca pudding is the base. It is easily made a day or so in advance, then placed in the refrigerator to chill.

At serving time, the pudding is spooned into parfait glasses along with dried, fresh, frozen or canned apricots. The result is a dessert that will delight the family and impress the most discriminating guest.

### Tapioca Cream Parfait

1 egg white  
2 tablespoons sugar  
1 egg yolk  
2 cups milk  
2 or 3 tablespoons sugar  
¼ teaspoon salt  
¾ tablespoons quick-cooking tapioca  
½ teaspoon vanilla

Beat egg white until foamy throughout; add 2 tablespoons sugar, 1 tablespoon at a time, and continue beating with rotary eggbeater until mixture will stand in soft peaks. Set aside.

Mix egg yolk with about 1-4 cup of the milk in saucepan; add 2 or 3 tablespoons sugar, salt, tapioca and remaining milk. Place over medium heat. Cook until mixture comes to a boil, stirring con-

stantly—this takes 5 to 8 minutes.

Four small amount of the tapioca mixture gradually on beaten egg white, blending well. Then quickly add the remaining mixture, stirring constantly. (The hotter the tapioca and the faster it is blended in, the thicker and fluffier the pudding.) Add vanilla. Cool, stirring once after 15 to 20 minutes. Chill. Place tapioca cream and apricot puree in layers in parfait glasses. Top with whipped cream. The recipe makes 4 or 5 servings.

For apricot puree, cook 3-4 pound dried apricots in three cups water 15 minutes. Add ¼ cup sugar and cook 5 minutes longer. Put through coarse sieve. The recipe makes 1½ cups puree or enough for 6 to 8 servings.

### The Bells Toll

A pleasing, eight-note door chime is only 14 inches high and can be placed on your hall or living room wall. The walnut-finish cover blends with most decorative schemes.

A selector sounds eight harmonious notes, or only four if you desire. You can have two notes for your rear door and a single note for a third door. No more jangling door bells to make you start from your chair.

## YOU CAN'T FOOL A GOOD RECIPE!

## Summer Coolers Have Distinctive Flair

Are you a one-woman "refreshment committee" who likes to bring out a big pitcher of something cool when family or friends are gathered? Or, are you a member of a bigger refreshment committee for your club or church group, or possibly having a wedding reception for 25 or more when a refreshing drink with a distinctive flair seems to be called for? In either case, you'll welcome these ideas...

### Spiced Tea-V Cooler for 5

with "Lemon-ated" Sugar  
Pour 5 cups boiling water over 7 teaspoons black tea and 5 whole cloves. Cover and steep 5 minutes only. Strain tea into pitcher filled with ice cubes and chill. When ready to use, stir in chilled orange juice. Serve in 5 tall, chilled, sugar-rimmed glasses—so easily done by dipping glasses into shallow saucer of water, then into granulated sugar. Garnish glass with straw sippers strung with whole maraschino cherries, chunks of pineapple, thin slices of orange, with more cherries on top to hold all in place. Pass "lemonated" sugar and mint sprigs for each to sweeten and garnish his own drink.

### Lemon-ated Sugar

Simply mix 1 cup granulated sugar and the grated rind of 1 or 2 lemons (according to your own taste), just before using for the most tantalizing fragrance and full flavor. Garnish serving bowl with thin curls of lemon peel and surround base with fresh sprigs of mint.

### Mock Pink Champagne for 25

2 cups C and H granulated sugar  
2 cups hot water  
2 cups grapefruit juice  
1 cup orange juice  
1 quart ginger ale  
¼ cup grenadine syrup

Boil sugar and water together in uncovered pan for 5 minutes. Cool. In large bowl, place chilled, strained fruit juices. Add cooled sugar water and grenadine syrup. Chill thoroughly. When ready to serve, add chilled ginger ale. Pour in large punch bowl over block of ice and serve immediately in champagne glasses or punch cups. Makes about 25 servings. Note: The secret is not to add ginger ale until serving, so the sparkle remains, and the block of ice chills, but does not dilute the punch.

What to serve with cold drinks

is sometimes a problem for the hostess. For the Tea-V Cooler, nothing could be better than thin buttered slices of Fruited Brown Sugar Nut Loaf.

### Fruited Brown Sugar Nut Loaf

¼ cup brown sugar  
2 tablespoons soft shortening  
2 mashed ripe bananas  
3 cups sifted all-purpose flour  
3½ teaspoons baking powder  
1 teaspoon salt  
1 slightly beaten egg  
1½ cups milk  
¼ cup chopped nuts meats  
Cream together the sugar and shortening until light. Measure and sift flour, measure and sift again with baking powder and salt. Alternately add sifted flour with egg mixed with milk. Stir in bananas and nuts and mix well. Pour in 9x5x3 loaf pan. Fill only 2-3 full. Bake in moderate oven 350 degrees about 1 hour, or until done when tested with long broom straw.

## Chewing Gum Is Welcome Addition To Picnic Basket

Mothers find they have less trouble keeping the picnic basket intact until lunch time if they take along a few handy packs of chewing gum on summer outings! Chewing gum is a wholesome way to keep hearty outdoor appetites satisfied until it's time to spread the picnic feast.

Also, active days in the outdoors, under the warm summer sun, make folks thirsty, throats and mouths dry and hot. Because of its small size, several packs of chewing gum may be easily carried in the pocket or purse to furnish cooling, on-the-spot refreshment anytime or anywhere.

Children and adults alike find that the long-lasting good flavor of quality chewing gum adds taste enjoyment to any day of fun in the outdoors. Besides this, the act of chewing helps folks get more pleasure from what they're doing.

Many food stores are now featuring the popular brands of chewing gum in displays of suggested items to take along on picnics. Shoppers find that a few inexpensive packs go a long way toward helping make the family outing a complete success.

# British Miners Work For Efficiency By Committee

By RONNIE DUGGER

WIGAN, outside Liverpool, Lancashire, England.—Far beneath the surface of the Maypole colliery, here in the industrial heartland of England, a spark ignited in the methane-saturated atmosphere of one of the coal tunnels.

Within the second's roar went crashing through the mine.

Within the day 83 miners were dead, suffocated by flame.

That was 1908, but the miners haven't forgotten.

We stood on a platform high above the Maypole colliery railroad tracks, waiting for our turn down the elevator shaft to the tunnels 700 yards below. The man in front of me was a tough, wary fellow, barely over five and a half feet high, with a hard, coal-ground face and black hair. He had tied his shirttail into a knot at his waist.

"This is an important man to us, Ronnie," Fred Elliott, the coal miner on my left, said. "Meet Jack Ainsburg, a member of the Consultative Committee." Ainsburg thrust out his hand. He was wondering if I was "with us," as workers put it around here, and he said nothing, only nodded his head.

"What," I asked, "is the Consultative Committee?"

"A group of workers and managers, half and half, who decide how to run the mine," Elliott said. "Jack is one of the workers on it."

"They had the sense to take the right to decide wages away from the committees to a higher level," Ainsburg said quietly. "Now we can talk with them about efficiency and safety conditions and get things done."

He asked me if we have such committees in America—they never forget you're an American—and I didn't know, except that there's a good deal of co-operation now.

They still talk about managers in the state-owned coal industry here because the former owners and executives still hold most of the top jobs.

"But it won't be long before the workers do all the jobs," Ainsburg said. "We just have to learn how to manage."

The conversation drifted around to Aneurin Bevan while we waited for the elevator to reach the top. I asked if he has much working man support in England.

"We're with him," Ainsburg said sharply. "He's a working man and his ideas are right."

"He's the next prime minister," said Elliott. Ainsburg nodded. So did Tom Taylor, a short little fellow, his features gentler than the others. He had started in the mines at 13 and has worked up to safety director, responsible for the lives of his 1,800 fellow miners.

"Don't believe what you hear about his small following," Ainsburg said. "There are 800,000 workers in our union. I'm dead sure 600,000 of them would vote for Nye for prime minister tomorrow."

The elevator jerked to a stop at the platform. I was glad to get in and plummet down within its bare steel walls. I could sense the crowd of workers on the platform taking me in, eyeing the frayed suit I had put on for the mine tour as though it were white linen. I felt too clean, standing among them in their work clothes.

Once down, Elliott, Taylor and I began a long trek through a maze of tunnels, supported by arches of steel held together by wooden planks. There's no neat system of transportation: you just walk and crawl through the poorly lighted tunnels, your hand flashlight and helmet your only protection against a collision with, say, one of the steel beams forced into the tunnel by pressure from above.

We passed a knot of workers having breakfast, and a little further on came to a juncture where the "undermanager" and his crew were standing, waiting for the coal-loaded cars from the different coal "faces" where the mining was going on. "Good morning," Taylor said. They chorused it back. A strange greeting in the dark.

We kept up a steady flow of talk as we walked along, single file. "They kept me in the middle," did you see the manager?" Taylor asked. Yes, I said. (He had been in his office, dressed in work clothes and smeared with dirt and coal dust.) Taylor laughed. "You can't tell workers from supervisors around here." He was right: that was the spirit of the mine.

When I suggested that the psychology of the British worker was different from that of the American, Taylor took me up at once.

"Why should I work any harder than I do?" he asked. "Over there you want to work hard, get ahead, save enough money, and get out. Here it's different. After my first 800 pounds (\$2,240) they take half of what I earn in taxes. I'd rather be home with my family than working for half-wages."

Elliott agreed, but added: "Our average workman is easier satisfied, too Tom, you know that. He's not thrifty as a rule. If he can pay his bills and get his pint, he's happy." Taylor supposed so.

I tried to explain the reasons the American labor unions give why they are supporters of free enterprise: surrounded by prosperity, they believe production, and therefore profits, are highest under that system, and they can claim higher wages because of the higher profits. They feel identified with production; they work harder because of that.

The manager had told me earlier that at Maypole, which is one of the older mines, production targets cover only one-third of the mine's costs. The targets would be impos-

ably high if they tried to justify costs. Britain is maintaining her a factory that is economically obsolete.

Now Elliott said that production didn't have much to do with wages, as long as a man did what he was supposed to. British workers don't like an eager-beaver among them. As long as high workers' taxes and that attitude prevail, Britain can't expect production miracles. When you add obsolete factories, the future gets darker.

Soon we reached the bottom end of a rattling conveyor belt, dumping coal into the rail cars that were pushed up to the main tunnel to be connected to pulleys. We crawled up alongside the conveyor and on our hands and knees up to the coal face. It was a long, low room with wooden posts propped between the dirt floor and the rock roof.

Men were bending low, shoveling loose coal onto a conveyor belt that led to the main conveyor he had passed. Earlier a machine had cut loose five feet of the coal vein's thickness, and the coal had been exploded loose by electrically-deionated cartridges. The next shift would move the conveyors closer to the coal vein, which was 110 yards long.

We stopped to talk to a bunch of the workers. Some wore no shirts; their blackened faces made their eyes and teeth look like shining insects. The dirt on their faces and bodies was smeared in long streaks where they had wiped away sweat. It was hot down there, the air choked with rising dust. You never stood up straight.

Always, I was introduced as "an American friend." The coal-helmet flashlights bored into my eyes and we all laughed when somebody said, "You come to see us limeys work, eh?" Happily, by that time I was as black as they were.

Elliott wandered off somewhere to give some instructions. "Saw your Father Sunday morning," Taylor said to one of the men. "Yeah?" said the man, not surprised. "He's gettin' pretty old." "How's the kid?" Taylor asked him. "O.K." A girl she was, eight years.

We crawled away and they went back to work.

To get back to the daylight, we had to go to the return tunnel and walk up 200 wooden stairs, with a rail on only one side. We stopped on the first landing and rested.

Elliott puffed out a laugh and said he guessed he'd tell us something. "When we were down at the face, one of the men asked me who that young bloke was, meaning you, Ronnie. I told him you were Clement Attlee's nephew. 'What he said, 'you mean his niece don't you?'"

We all laughed. We had suddenly become good friends on that staircase. I brought up the rear as we climbed the last 100 steps.
