

SUN PRINCESS—Shown above is lovely Glenna Winston, senior from Brownfield, who was chosen by the Student Council Monday night to represent Texas Tech at the annual Sun Carnival to be held in El Paso from Dec. 29-Jan. 2. Glenna is a journalism major and has been head girl cheer leader for the past two years. (Photo by John Lee.)

Winston Selected Princess To Represent Tech At Sun Bowl

Glenna Winston, senior journalism major from Brownfield, was chosen Tech's Sun Princess at a called meeting of the Student Council Monday night.

She will be this college's representative to the Sun Queen's Royal Court at the annual 1950 Sun bowl festival in El Paso Dec. 29-Jan. 2.

Miss Winston was a La Ventana beauty in 1948 and 1949. For the past two years, she has been head girl cheerleader. In 1947, she was queen of the annual Brownfield Harvest festival, and in 1948-49, she was society editor of The Toreador.

Other candidates for the Sun Princess title this year were: Jo Simmons, sophomore arts and sciences student from Lubbock; Mary Roe, senior business administration student from Anton; Barbara Shero, freshman arts and sciences student from Eastland; and Ann Malone, sophomore arts and sciences student from Fort Worth.

Miss Winston will attend all official functions of the Sun festival, including the coronation of the Sun Queen Thursday, Dec. 29, and the coronation ball and professional pageant which follow.

On Saturday, Dec. 31, a street carnival is scheduled. Mexico Day, with a ceremony at the International bridge, will be observed Sunday, Jan. 1.

Last day of the festival will be Jan. 2, with a Fairyland Fantasies parade in the morning and the annual Sun bowl football classic in the afternoon. Included in athletic activities on the holiday calendar will be a tennis tournament and a basketball round robin.

Miss Winston will be housed at a leading hotel in El Paso at the expense of the Sun carnival committee. Her transportation to and from the border city is being paid by the Student Council.

Each of the princesses attending the festival will be required to furnish her own wardrobe and to pay all incidental expenses, including meals not furnished in connection with the official carnival. All princess floats are to be furnished by El Paso sponsors.

The princesses will attend from colleges and universities in Texas, Arizona and New Mexico. Host and visiting teams for the bowl clash are to be announced later. Tech last year declined an invitation to be a host, a position which was accepted by Texas Western college, then called Texas College of Mines and Metallurgy. Visiting eleven was from University of West Virginia.

Tech's Sun Princess at the 1949 festival was Jayne Thompson, senior journalism major from Vernon.

At the Monday night meeting of the Council, all members were present except Elizabeth Craig and Margaret Clark, secretary.

Quarterback Club To Institute New Sports Committee

A Quarterback club committee will be organized at 8:15 p.m. tomorrow in aggie auditorium, announced Tommy Scott, chairman. Dell Morgan, head coach, will show pictures of the Texas Western-Texas Tech football game, after which he will answer questions about strategy from members of the committee.

Sponsored by a Student Council appointed committee, composed of Tommy Scott, Bill Trenfield and Keith Anderson, the Quarterback Club committee is an experiment to test interest of the students in a club of this type. If well received, the committee will become a club.

The committee will continue meetings in the spring, showing pictures and hearing lectures from basketball coaches about basketball games.

Pictures will be shown of all Tech football games of the year and Morgan will attend every meeting to answer questions. During basketball season one of the basketball coaches will attend meetings.

Regular meetings will be held every Tuesday at 7:15 p.m. in the Engineering auditorium. The organizational meeting will be held after the pep rally Thursday night.

The Quarterback Club committee was originated because of the lack of school spirit on the part of many students, said Scott. The meetings of the committee will give these students a chance to understand and appreciate strategy used by coaches, he added. The campus committee will be organized on the same basis as the Quarterback club of Lubbock.

All students are invited to attend, said Scott.

Three Dorms Seek Final Approval Of Newspapers

Final approval of newspapers published by three men's dormitories must await action of the publications committee at its regular meeting the first Monday in December.

At a Monday afternoon session, representatives of the residence halls concerned—West, Men's III and Men's IV—were advised that newspapers which make no charge for either ads or individual copies of the papers, need only to be approved by the Student Council and an administrative officer before the committee gives any final nod to their publication.

It was interpreted by Dr. A. B. Strehli, chairman of the committee, that administrative officer in such a case could be the dormitory supervisor.

According to regulations, any publication which solicits advertising shall present the committee with a proposed budget which must include information concerning use of funds to be derived from publication, date of issue, and number of copies to be printed regularly. Approval must be had from the Student Council and from the dean when the publication is departmental. A financial report must be submitted to the committee at the end of the year.

Representing West hall at the Monday meeting was Marshall Gettys. W. J. Powell attended for Men's Dorm III.

A. J. Bishop, business manager of La Ventana, presented a financial report which revealed that income for the yearbook was, as of Monday, \$23,938.65. Budget for the annual is \$24,350.

He said purchases of La Ventana are continuing and that sale of eight more club pages is expected. Curtis Smith, representative of Southwestern Engraving company in Dallas, told the committee that deadlines for the yearbook had been met so far. He praised cooperation of the annual staff.

Techsan Is Elected Group President

Jean Ann Gillum, freshman education major from Vernon, was elected president of the State Discipline Student Fellowship of the Christian church at the state meeting in Mineral Wells last weekend.

Ninety six students, representing eight colleges, attended the meeting. Fifteen Techsans went. Schools represented were TCU, University of Texas, Sam Houston State, North Texas State, SMU, TSCW, Baylor and Tech. Other officers elected were from North Texas State, Sam Houston, and TCU. Miss Gillum was active in the Christian Youth Fellowship, the high school organization of the Christian church. She was president of district 12 in that organization.

Workmen began pouring cement for the basements of the Administration building Monday, announced Frank Junell, assistant to the president.

Thursday Meeting Of TCC Canceled

The Tech Chamber of Commerce will not meet tomorrow as scheduled, due to the conflicting kick-off meeting of the newly organized Quarter Back club, Ell McCasland, president, announced Monday. All Chamber of Commerce members are urged by McCasland to attend this very important Quarter Back club meeting.

HOLIDAYS ANNOUNCED

Thanksgiving holidays will be Nov. 23-26, as scheduled in the catalogue, announced Frank Junell, assistant to the president.

Students and faculty will have three days for Thanksgiving. College offices will close for Thursday, Nov. 24, Junell stated.

Double cuts will be counted two days before and after the holidays, stated Dr. E. N. Jones, vice president of the college.

Museum Association To Present Dinner Celebrating Completion Of New Building

The Museum association will meet at 7 p.m. Friday, Dec. 9, for a dinner and program to celebrate completion of the West Texas museum building, states Dean W. C. Holden, professor and head of history, anthropology, and sociology. This is not to be the formal opening of the museum, Holden points out. The museum will be formally opened next October in connection with Tech's Twenty-fifth anniversary, announces Holden.

The purpose of the dinner is to honor those people who have made the new building possible. Holden estimates that 150 persons will be present.

The dinner will be the annual meeting of the Museum association which was postponed last April, Holden states. It was delayed until the building was completed.

Since the next official board meeting at Tech will be held Dec. 10, the Board of Directors will be special guests at the dinner. Holden explains that the dinner will be a "small, home folks, affair."

Plans are being made ready to move into the Museum during the Christmas holidays. All the history offices will be moved, Holden states. Although two classrooms will be completed, classes probably will not be changed until the spring semester, added Holden. Laboratories and classrooms in the new quarters will be regularly used for the spring semester, the professor concludes.

ROTC Displays Modern Equipment

Modern army communications equipment will be displayed from 10 a.m. to 5 p.m. today in front of the ROTC headquarters building by the Signal Mobile Demonstration team from Fort Sam Houston, Capt. R. M. Wood, officer in charge of the team, said. The equipment will be shown in an eight-ton army van.

Included in the display will be telephone, teletype and field wire equipment. The demonstration will be open to anyone on the campus who wishes to attend, Wood said.

"Pro Patria Vigilans" Signal Corps film, will be shown to ROTC classes Wednesday in M-1. Slide films depicting communications equipment through the stages of development will also be shown.

H. N. Roberts Will Speak At Banquet

An international banquet sponsored jointly by the foreign languages department and the foreign languages inter-club council will be held at 7 p.m. tomorrow at the Mexican inn, 1910 Avenue O.

Principal speaker is to be Harry N. Roberts, who will discuss Guatemala and show kodachrome slides. Theodor Alexander, instructor in foreign languages and sponsor of the council, said yesterday.

Honor guests will be Dr. and Mrs. C. B. Qualia, Pres. D. M. Wiggins, Mr and Mrs. Roberts and Mrs. Roscoe Wilson. Doctor Qualia is professor and head of foreign languages, and Mrs. Wilson is the widow of the late member of the Board of Directors from whose estate was created the Roscoe Wilson Memorial scholarship in foreign languages.

Attending also will be sponsors of the various clubs of the council, including Dr. A. E. Strehli, Capa y Espada; Drs. Eunice Gates and Earle Hamilton, Sigma Delta Pi; Mrs. Theodor Alexander, Le Cercle Francais; and Alexander, Liederkrantz. Participating in the banquet will be members of the Cosmopolitan club, an organization of students whose homes are outside the United States.

Alexander said the council has approved the redecoration of the entire stage of the foreign languages playhouse in Ad-202. New lights are to be installed under direction of Stage Manager Graham Bogel, assisted by Donald Smiley, David Smiley and Curtis Owen.

On Dec. 15, plays in French, Spanish and German are to be presented in the playhouse, said Alexander. Titles will be announced later.

A reception and dance Mar. 17 in the Rocket room of Womble Olds, 1211 Nineteenth, has been scheduled by the council, he said. Tom Cleveland, junior agriculture student from Africa, will be the leader at Forum at 7:15 p.m. today at the Methodist student center, said Rev. Cecil Matthews, youth director of the center.

Opening Of Radio Station At Tech Will Create New Fields

Recently the announcement was made that if all went well Texas Tech would boast a radio station of its own within the next year. The news came as a shock to no one because leading colleges and universities all over the country have begun to develop the field of radio as an approved major for some time now. It is only natural that Tech should also seek to broaden her available fields of study by installing a radio major.

By the same token it is no secret that the newspaper and the radio are highly competitive. Argument after argument can be offered as to which medium best serves the public in the field of news gathering and presentation.

We firmly believe that good healthy competition is the best inducement to any kind of business and so therefore we say bring on the radio station. If students can not learn to withstand such competition while in school then they will be faced with a grave problem when they get out into the every day business world.

A radio station will be one of the most valuable assets to this college which has been introduced in the past two years of a new administration. It will offer a new series of courses to every student interested in the field of radio, including speech, electrical engineering and journalism majors. It will be no small job to get the plan fully organized and in operation, but we firmly believe that with such backing and with such persons working on the idea as we now have interested in the plan it cannot help but succeed. Therefore we offer our sincerest wishes for a long life to this newest idea of furthering education at Texas Tech.

Grand Opera Will Highlight Artists Course Next Week

The average Tech student rarely has the opportunity to see a performance of grand opera. However, under the Tech Artist course series, every student is entitled to attend the presentation of two one act operas Tuesday and Wednesday of next week.

Both "Cavalleria Rusticana" and "I Pagliacci" will be presented at that time as the second in the fall series of the Artist course. Admission to the programs was included in your registration fee. A system has been introduced this year which makes it possible to bring more and better artists to Tech. Under the present plan if you hold an even-numbered card you are eligible to attend the second and fourth programs. In other words, students with even-numbers should attend the operas Tuesday night and the rest will be admitted the following night.

The audience at the first program this semester was much smaller than it should have been. Does this mean students are afraid of such music? We would much rather believe students did not realize the artist course was open to them automatically upon payment of fees.

Cultural growth is an important part of your college education. You should not overlook the opportunity that is offered. Your ticket is already paid for and you might as well get your money's worth. Once there, provided you give it an honest try, you might discover that "long hair music" isn't so bad after all. . . . B.S.

Smithy's Forge

By JAMES F. SMITH

At a meeting of seniors last Wednesday afternoon, Pres. Harold Luke suggested that a possible class gift to the college might be a portion of the furnishings for the student union building.

We have since heard talk of the practicability of having one lounge in the union set aside as a "senior room," with all furniture and recreational equipment to be purchased by graduating students with class funds. No person with less than 90 hours would be allowed in this room.

In all discussions of the plan in which we have participated, we have found reactions varying from warm approval to absolute veto. Major point of opposition to creation of such a lounge is that it would be discriminatory, that it might be the first step in bringing the kind of student segregation which Tech has avoided since its conception.

It has pointed out to us that a senior room might be fitting at those colleges where Greek letter fraternities are permitted and where wealth and family name have greater weight than they do here, but that it would be incongruous at Tech.

We agree. We feel that students of less than senior rank should not be denied entrance to any campus lounge or game room merely on a basis of scholastic classification.

Too well do we remember how, in service, we were barred from certain places by "Officers Only" signs. Enlisted men and officers were kept apart by tradition and by policy. Tech does not have any tradition of class distinction; it needs none; it will surely suffer if ever such separation is practiced on this campus.

Further, we doubt if a senior room would be put to enough use to warrant it. Unless it were rather spacious, with facilities for a large variety of games, it probably would not be frequented constantly.

But what do you think of the

idea?

When "It Happened at the Inn," a French motion picture, was presented at a local theatre by the foreign languages department, we were advised that English subtitles would aid in our understanding of the action. They did.

When "Die Fledermaus," a German movie, was offered, once more we were told that English translations of the speeches would be flashed on the screen so that we could follow the plot. We easily kept up with events in that story.

When "The Red Shoes" was ballooned at roadshow prices this week, we believed that we would have no difficulty in comprehending the story. It is an English picture; its leading roles are played by British stars. Nonetheless, we have seldom been so exasperated in trying to understand the conversation in a movie.

Not only was the English language generally spoken so slovenly or so loudly that it lost meaning, but it was uttered by actors whose French and German accents obscured the importance of their speeches. The dialogue was chaotic; the cutting was impossible; the shifting from scene to scene was so abrupt that continuity of action was extremely hard to follow.

The picture has been running for weeks in New York, where it became something of a surprise hit. It has been acclaimed for the magnificence of its ballets, one of which, "The Red Shoes," is probably the most spectacular wedding of color, lighting, and music ever put on film.

But aside from the dances, the movie has almost nothing to recommend it. We are still glad we saw it, for the ballets should not be missed. But we feel that \$1 was far too much to charge students for a picture which is weakened by its unintelligible speeches.

Maybe the advertising matter should have said: "The Red Shoes—With English Sub-Titles."

Letters To The Editor

Dear Editor,

Six flags from the United Nations trophy have disappeared! For several reasons it was impossible to have the beautiful trophy which was presented to the college by the Cosmopolitan club recently, displayed in the trophy case so for the time being it was openly viewed until a cabinet could be made for it in the library.

A great deal of planning, expense, and tape and energy over the past six months has gone into the creation and presentation of that trophy. The International students like a great majority of Techsians feel that the trophy has a good deal of dignity. Its symbolism approaches being sacred making it safe (we thought) to be openly displayed.

Now the trophy and its meaning has been marred possibly by some

simple thinking souvenir hunter.

I'm disappointed that there is such a person in Tech who would allow a petty desire to deface the purpose and beauty of one of the college's most symbolic trophies.

I am asking, through this paper, that the party or parties now in possession of those six flags have the common decency to return them to Dean Allen's office or to me at 2303-13th street. No questions will be asked. The flags can not be properly replaced otherwise.

Sincerely,
Jim D'Acosta

We are as distressed about the matter as you Jim, if that is possible. We feel sure that the flags will be returned as soon as their real value to the school is realized.

Around The Campuses

Students at the University of New Mexico are having a bit of trouble deciding what's to be done with a 700 pound, nine foot statue depicting "strength" which was made by a graduate student working on his thesis. Seems as though original plans to place the statue next to the swimming pool fell through. Vandals have broken fingers of the statue because it has been left sitting where it was first created in a not too prominent place. The New Mexico Lobo states however that at least the birds have respected the piece of "art" to date.

From the SMU Campus comes word that the Southern Methodist students are very well pleased with Peruna V, their new mascot. The diminutive little pony is smarter and more spry than its predecessor, Peruna IV according to the two handlers which are in charge of the mascot. This edition of the famed Methodist mascot appeared for the first time during the Wake Forest game this year.

A chance for the "armchair quarterback" to air his or her opinions in public has been instituted in a column which appears in the Pow-Wow, Tyler Junior college paper. The column, which has been headlined under "Question of the Week" presents about all the approaches which the stadium strategist can offer. When asked "Why did we lose the Kilgore Junior college game," student answers ranged from "it was snowing too hard" to "we lost it because we lost the game."

Miss True Cable, who was elected chief Homecoming princess at Baylor recently was made an honorary colonel in the Air ROTC unit at the Waco school during her two day reign.

We found this piece of poetry in a recent issue of The Missouri Miner, the newspaper at the Missouri School of Mines. It's kind of cute so we'll pass it on. Here 'tis:

Ode to a Borrower
I think that I shall never see
The dollar that I loaned to thee,
A dollar that I could have spent,
For varied forms of merriment,
The one I loaned to you so gladly,
The one that I now need so badly,
For whose return I had great hope,
Just like an optimistic dope.
For dollars loaned to folks like thee
Are not returned to folks like me.

The Columbian stamp issue will be discussed at the meeting of the Longhorn stamp club to be held at 8 p.m. Friday in E-212. Mr. and Mrs. J. C. Parks, jr. are in charge of the program.

alschuler's POTPOURRI!

An oddtimer is a guy who can remember when a woman stayed home because she had nothing to wear.

Football season is the time of the year when you can walk down the street with a blonde on one arm and a blanket on the other and no cop gives you a funny look.

He was seated in the parlor
And he said unto the light:
"Either you or I, old fellow,
Will be turned down tonight."

A westerner entered a saloon with his wife and six year old boy. He ordered two straight whiskies. "Hey, Pa," said the kid, "ain't Ma drinking?"

Any woman with a figure
Can tempt a man to sin.
For man is but an infant
Clothed in adult skin.

Mitchell, Josephine Cole; James Kennedy, Savannah Tunnell; Bob Montgomery, Dorothy Rountree; Glenn McGehee, Jean Monk; Jerry McKee, Ophelia Young; Brian Webster, DeLois Uterback; Joe T. Lee, Irma Beavers. Sponsors of Centaur are Mr. and Mrs. Seff Hooper and W. D. Moore.

Circle Chatter

Billye Hopping, senior journalism major, is reporting for *The Enterprize*, a new newspaper in the Arnett-Benson district. Dan Tarpley is editor and publisher. Billye previously was society editor for *The Toreador*.

Phi Gamma Nu, national honorary and professional fraternity for women in business, is holding its rush functions this week. The first party was a tea Monday afternoon in the home of Mrs. Dub Lawson and the second one will be a coke party tomorrow afternoon.

Peggy Sitton, ex-Techsan and Las Chap, is marrying Dr. Eugene Hickey on Nov. 25. Both are from Stamford and the wedding will take place there.

Janelle Reed, freshman from Crosbyton, and Dick Snodgrass, sophomore also from Crosbyton are pinned. Janelle, Ko Shari pledge, is one of the Tech beauties. Dick is a member of Los Camaradas.

Dorothy Rountree and Robert Montgomery, Centaur, are on the campus steady list.

Andy Willingham, ex-Socli, was here last week end to see Mary Alice Christian. Andy was graduated from Tech last spring and is working in Amarillo.

June Wilson and John Jackson, Tech exes, are making wedding plans for the near future. June was a member of Ko Shari club and John was a Kemas.

"Building for the Ages", a sound-color motion picture released by the Indiana Limestone Co. was shown at the Gargoyles club meeting at 5 p.m., Monday in E-208. The picture was open to all engineering students.

West hall, recognized campus organization last week, has all members accredited to it, including H. L. Woolverton, head repairman on the campus, stated Selby Clark, dormitory supervisor.

Theta Sigs Entertain Life Photographer

Theta Sigma Phi, national honorary professional fraternity for women journalists, entertained Margaret Bourke-White, photographer for *Life* magazine, with a dinner at 9 p.m. last night in the Colonial room of the Hilton hotel. The dinner followed Miss Bourke-White's speech in the Recreation hall.

Attending the dinner were members and pledges of Theta Sigma Phi, women faculty members in journalism and ex-members of the fraternity living in and around Lubbock. Approximately 25 were present. Jane Skinner, president, said.

Members of Theta Sigma Phi acted as hostesses during Miss Bourke-White's stay in Lubbock. Miss Skinner and Glenna Winton, vice president of the fraternity, accompanied James G. Allen, dean of men, to meet Miss Bourke-White's plane Tuesday morning.

Theta Sigma Phi To Sponsor Forum

Theta Sigma Phi, national honorary fraternity for women journalism students, will sponsor a forum for freshman and sophomore women journalism students at 5 p.m. Friday in J-204, Jane Skinner, club president, said.

Purpose of the forum is to familiarize and create interest in women students in the journalism department, Miss Skinner said.

Miss Skinner will speak about Theta Sigma Phi, later conducting a tour of the journalism building. Those assisting with the tour will be: Jeanne Dudley, press room; Roy Grimes, La Ventana office; Jerry Hall, *The Toreador* office; and Miss Skinner, the darkrooms.

X-Ray Unit Continues Work In American Legion Hall

Students who failed to have X-rays made while the unit was at Tech can get them made through Saturday at the American Legion hall, 910 Texas Ave., states Frank Junell, assistant to the president.

The unit will be in operation from 9 a.m. to 6 p.m. except Saturday, when it will operate from 10 a.m. to 5 p.m. The tests will not be given Friday.

Tech Coeds Favor Modified Version Of The Newer Styles In Women's Clothes

By GUIDA MILLER
Toreador Society Editor

Trends in the latest fashion magazines are reminiscent of the 1920 styles of shorter skirts and slim silhouettes. However, the Tech coed's version is slightly modified. As one of the fair sex commented, "I'm just getting used to long skirts, and that's the way I'll wear them, at least for a while."

The men on the campus have different ideas on women's wearing apparel. "Give us shorter

Final Rush Party On For Phi Gamma Nu

Phi Gamma Nu, national honorary and professional fraternity for women in business, is holding its second rush party from 5-6 p.m. tomorrow in apartment-B, Women's Dorm III.

To be eligible to pledge this group, each girl must have and maintain a B grade average. She must be in the business administration division and have at least six hours. Eula Starkey, president, said.

First rush party was held Monday afternoon in the home of Mrs. Dub Lawson with approximately thirty rushees present. The party tomorrow will end the rush, functions and the pledges will be selected tomorrow night, Miss Starkey announced.

Sponsors of Tech's chapter of Phi Gamma Nu are Mrs. Ethel Terrell, chairman and associate professor of marketing and secretarial administration, and Miss Cureton Harris, associate professor of the department.

skirts, they say almost unanimously, but leave off the stoniness of the 1920 styles."

The average coed's wardrobe contains a recent poll showed, anywhere from three to a dozen skirts, many of which are corduroy. Although she has many sweaters, usually numbering in the teens, she prefers blouses—nylon, if her budget permits. Scarfs in unestimable numbers, sizes and colors, weeklies and jackets are accessories which most college women consider indispensable.

The poll showed that loafers are the favorite class-time shoe; saddle oxfords came second with moccasins running a close third. Nearly every woman interviewed had to admit that she owned at least one pair of each style shoe mentioned.

For "dress-up" dresses, most coeds prefer taffetas, crepes and satins, in that order. The least number of such dresses owned by the women interviewed was one; the largest was five. A suit is a "must" by unanimous decision and of course, accessories galore, depending on how far papa's allowance stretches.

For evening wear, the number of formals ranged from one for the "sometimes, but seldom" goes to 10 for those who attend many formal affairs.

"Styles, one seasoned senior woman surmised it up, have not changed as rapidly on Tech campus as on eastern campuses nearer the large fashion centers. Most of us can still wear clothes that we bought two or three years ago. I think it's because West Texans use common sense before buying faddish clothes that soon become out-moded."

Try outs for some of the Christmas plays to be presented by Wesley Players will be held after Forum tonight at the student center, stated Cecil Matthews, youth director.

Good News for Air Minded College Men!

A U. S. Air Force interviewing team will be here to give you complete details about the many flying and non-flying opportunities open to single young men between ages of 20 and 26½. Find out how you can prepare for a career as an officer in the U. S. Air Force!

SPORTS

IT'S ALL IN HOW YOU STRETCH—Calvin Steveson, 22, Raider halfback places the ball over the goal for the first of two touchdowns which he made against the Miners from Texas Western in El Paso Saturday night. Steveson is being pulled back by Bill McWilliams, 33, and Gerald Campbell, 13. Identifiable Red Raider linemen who opened the hole through which Steveson scored are Bill Sharpley, 80, Marshall Gettys, 75, Bobby Garner, 63, and John Andrews, 72, who is lying on the ground just back of Gettys. The quizzical umpire at left is James Maedgen and the referee coming up is Mike Williamson. (Photo by John Lee.)

Morganmen Trounce Orediggers 13-0, Tie Hardin-Simmons For Conference Lead

By KEITH ANDERSON
Toreador Sports Editor

Tech strengthened its bid for its third consecutive Border crown by pounding in two second half scores as she shut out a strong Texas Western eleven 13-0.

It was the Miners' homecoming, and they tried to make the most of it, as they battled the Raiders to a scoreless standstill, and it was only a stubborn goal line stand, that kept the Muckers from reaching pay dirt in the waning minutes of the first half.

For the Orediggers it was their last determined bid, and nearly their only one, as a hard charging Raider forward wall didn't allow another penetration of its 20-yard line. In fact it was the, at times, outstanding play of the men up front, that beat down the vaunted ground attack of the Miners, and opened the holes through which Tech backs rambled for substan-

sive gains. Again as in the past however, it was a case of rolling in mid-field, and bogging down around the 20, that held the score down for the Raiders. Throughout the first half, the Raiders looked dangerous with Bud Conley, Tim Hatch, and Cal Steveson toting the leather, but fizzled out after moving into enemy territory.

It was the first time since 1947 that a Texas Western team had been shut out, Hardin-Simmons turning the trick at Abilene 18-0. It was a bruising game, but neither team sustained any bad injuries more than cut lips.

The game got underway with the Muckers receiving on their own 15. After getting nowhere fast, they punted to the Raiders, who immediately started a drive that carried them into Oredigger territory. The drive bogged down, and Tech was forced to punt. The first

quarter saw both teams threaten but unable to score. Tech drove down to the Miners 17-yard line, but the defense stiffened and they took over on downs. Texas Western in turn drove down to Tech's 28-yard line, but the Raiders rose up to bog down the drive, and play ended in the first quarter.

The most determined bid by either team came in the closing minutes of the second quarter, when the Orediggers moved for a first down and goal to go from Tech's four-yard line. Four line smashes moved the ball only two yards as the whole line of the Raiders rose up to beat down the attack. On the fourth try Tech was ruled off-side, and Texas Western had another shot at it from Tech's one. Again the red shirted

Centaur's Lose To Kemas; Los Cams Drop College Club In Intramural Ball

Centaur's, Men's Inter-club council champions the past two years, had its crown virtually shoved from its head Sunday when the Kemas gridders battered them 24-0 in a touch football game.

John Shinn intercepted a Centaur pass on the second play of the game and sped 30 yards for the only score in the first half. Another interception, by David Leaverton, resulted in the first of two Kemas, counters in the third period. Leaverton got the ball from the ozone and raced 60 yards before crossing the Centaur's goal line.

Monte Roy completed a pass from Charles Lucas to put the Kemas out front 18-0 before the quarter ended. A pass play set up the next and last touchdown of the game. Lucas passed complete to Ronald Rushing who was stopped just short of pay-dirt. Roy cracked over from the one-foot line for his second touchdown of the day and the final marker of the game.

Los Camaradas clicked for two touchdowns to blank the College

Club 12-0 in another MICC football game played Sunday.

Andy Behrends pitched for both TD's. He cleared Bill Miller in the first quarter and hit him with the first six pointer. Gene Messer was Behrends touchdown target in the third period and his successful toss put the final freeze on an already iced game.

Bob Webster figured in all the Silver Key scoring Sunday as the key gridders found the Socii gates almost wide open to their touchdown thrusts.

Webster passed to Joe Scales for two touchdowns, hit Pat Thurman for another counter, then dashed five yards for the last Key score of the day. Four successful conversions, three by Pete Cook and one by Roy Grimes game them a 28-6 advantage.

Socii garnered their lone score after Don Shirley had run back a pass interception for 40 yards. Shirley was stopped on the one-yard line but Travis Tadlock went over from there for the tally.

ANOTHER FORM

Veterans attending Tech under Public Law 346 should visit the coordinator's office, Ad-110, and fill out a form stating whether they want leave at the end of the present training period. H. A. Anderson, coordinator of veterans affairs, said yesterday.

A skating party will be sponsored by the First Methodist church for all Methodist students who wish to attend at 7:15 p.m. Friday, announced Cecil Matthews, youth director of the Methodist student center. Transportation from the student center will be provided.

Tech Freshmen Upset By Odessa 13-0; Fumbling And Penalties Thwart Picadors

By PUG DAVIDSON
Toreador Sports Writer

Junior Red Raiders of Texas Tech fumbled and slugged themselves into a 13-0 defeat at the hands of the Wranglers of Odessa Junior College in Odessa last Friday night.

The Picadors never were in the ball game and their appearance on the field was noted only by their fumbling, passing into the arms of the Odessa defense, and violating every law of the game in losing 125 yards on eleven rules infractions.

Odessa opened their scoring in the first quarter with a ten yard screen pass from Burr Reynolds to Toots Mathis good for a touchdown. J. R. Bizzell's attempt at conversion was wide. The Wranglers scored again in the third period when Reynolds went through the center of the Picador line for

eleven yards. Bizzell's kick was good and the scoring for the evening was completed.

Picadors of Tech made their only threat in the second period when they drove to the 19-yard line in Odessa territory only to lose the ball on downs. The frosh had one more opportunity but failed to cash in when Hollice Davis recovered a Wrangler fumble, but a penalty moved the ball to the Odessa 47-yard line and a second down pass was intercepted.

The freshmen from Tech played most of the game in their own territory and around midfield, never being able to put on a sustained drive.

The only bit of light shining for the frosh was the outstanding work of Jimmy Williams, Picador center. Williams was the outstanding defensive man on the field and from his line backers position, made at least half of the tackles for the Junior Raiders.

First downs were even, with twelve for each team, and Tech picked up 156 yards rushing to 92 for the Wranglers. The Odessans made 104 yards passing to 101 for the Picadors.

Sports Chatter

by KEITH ANDERSON

Editor's Note: This week Bob Rutland, assistant director of Public Information, is guest columnist for the Sports Chatter. Bob is a graduate of Oklahoma University, and received his masters from Cornell.

The will to win is a wonderful thing. The ability to win is even more tremendous. But the talent for losing—gracefully and with poise—is seldom found and rarely appreciated.

Not that we're sorry Tech dropped the Miners last Saturday. We're proud as punch because the El Paso crew was pointing to Coach Dell Morgan's boys and were loaded for bear. It was a splendid victory for the Red Raiders.

However, all our yesterdays were not triumphs and the tomorrows won't be either. Still we hear the clamor from downtown signal-callers and the other rooters of somewhat dubious loyalty who ask for "a winning team." Presumably, the only formula needed for "a winning team" is to fire the present coach and go far-a-field in search of another method and more versatile gridiron talent.

Funny thing about this hubalallo is that a lot of the wolves aren't alumni of Tech or any other institution of higher learning. Self-made men, in many cases, they assume that a college football team should have the same standards of excellence, i.e., to win. Prompted by localism they adopt the handiest college team, and before long their yearning for a winning team can infect a whole city or student body.

In other words the public suddenly assumes that the research, educational standards, faculty and national academic standing of the college will rise or fall with the outcome of the Saturday forays. Nothing could be more erroneous.

In fact, it is often quite the reverse. Carnegie Tech was a great football power 10 years ago. Today, the Pennsylvanians field a mediocre team. Nevertheless, the quality of its graduates and educational training has—if anything—increased.

The point is: Everything in its proper place. Football is important as a binding force for student morale (spirit) and is a grand extra-curricular activity. It has some value as a media for public relations off the campus. There its value ends.

Educators got alarmed by the trend toward over-emphasizing football about 18 years ago and the now famous Carnegie Report followed. It candidly told how the winningest school in the country was located in Georgia. It also told how that college got its players, etc. The University of Chicago happened to have a spanking good team at that time. The report showed that the Maroons simply had a good bunch of intelligent boys who liked to play football as a sport. Now 18 years later the Georgia school is an educational and sports non-entity. Chicago dropped football altogether and went in exclusively for education. Standards changed in both places.

The standards at Tech ought to change, too. Tech is going to grow and serve Texas and the Southwest, even if the team loses every game next year by a lopsided score. Every student, alumni and town follower ought to readjust their standards of the importance of football in a college program.

If our boys win, fine. If they lose, they did their level best and we still congratulate them. The classrooms will still be open on the next Monday, and the fickle public memory will have forgotten all about it in another month or so, anyway.

Fish Footballers Seek Third Victory In Clash With Hardin-Simmons Frosh

Texas Tech's Frosh, riding along with two wins and one defeat for the season, will take on the Buttons of Hardin-Simmons at 3 p.m. Friday in Abilene.

Coach Allie White's "fish" took an easy 59-7 season opener from the West Texas State frosh. They won a game and dropped one on successive weekends in encounters with the Odessa Junior College Wranglers.

The Buttons opened the season with a 13-7 victory over the Rangers of Ranger Junior college and dropped their next one to the San

Angelo Junior College Rams, 19-14.

The Picadors will depend upon power and speed in the backfield supplied by W. H. Barker, Waldo Young, and Carl Madison. The young Raiders boast a better than average passing attack which can be used to eat up plenty of yardage when the need arises. Pass defense seems to be one of the weaknesses of the frosh but Coach White has been working his boys hard in an effort to correct the fault.

The freshmen will leave Lubbock at 8 a.m. Friday and travel to Abilene by bus.

Library Gets Old Spanish Volume

A six-volume work printed in Madrid during the first half of the 18th century has been acquired by the Texas Tech library.

Published by the Academia Espanola, the works are titled "Diccionario de la Lengua Castellana." They were printed between 1726 and 1739.

Librarian R. C. Janeway said the volumes will be used by advanced Spanish students in research projects.

The Tech library also acquired two volumes in the Army Historical Division series on World Wars I and II. "Early Military Operations of the A. E. F." deals with the 1917-18 conflict, and "Gaudaeanal: the First Offensive," concerns World War II.

ALL AGGIE MAJORS AREN'T MEN—Three of the five coeds who are majoring in animal husbandry at Texas Tech are shown above during a lab. The girls are proof that agriculture isn't necessarily a man's world. They are: from left to right, Barbara Inman of Orange; Jacque Donnell, Eliasville and Dorothy Johnston of Pecos.

Coed Animal Husbandry Majors Proving Agriculture Is Not Strictly For Men

Five coeds at Texas Tech are out to prove that it isn't necessarily a man's world by handling an ornery calf or a blue-ribbon sow with the best of 'em.

The five women students are majoring in animal husbandry at Tech. Most of them came from farm homes and simply want to know more about handling livestock. They are somewhat unconcerned by the fact that they are surrounded by 795 men students in agriculture who perpetually ask them why they are specializing in growing sirlons instead of learning how to broil them.

"My dad was a farm agent in Reeves county, so I got interested in farm animals when I was growing up and never got out of the habit," is Dorothy Johnston's answer. Dorothy is a junior from Pecos.

Jacque Donnell, Eliasville junior, explains that she owns 10 head of Hereford show cattle on her father's ranch. She simply wants to know all she can about Herefords and registered cattle in general.

Barbara Inman of Orange is a freshman and Aberdeen-Angus fan. A transfer from Colorado A&M, Barbara hopes to become a veterinarian some day.

"My big ambition, though, is to have my own ranch," she added.

Her companions pretty generally agreed that the same plans dominated their thinking. Jacque (she pronounces it "Jackie") described a field of clover south of Lubbock as "the prettiest thing in West Texas," and Barbara and Dorothy agreed that Sir Swenson II, Tech's reserve champion Hereford at the State Fair last month, was "simply beautiful."

The other women students enrolled in animal husbandry are Mrs. Pat Dean, Lubbock, and Virginia Robertson, Andrews.

Miss Virginia Keehan Possesses Varied Talents Other Than Those Of Her Job

Teaching illiterate soldiers to read and write, working in a press, teaching in public schools and working at Marshall Field company in Chicago have been among the varied occupations of Miss Virginia Keehan, new assistant dean of women at Tech.

Miss Keehan, who received her Masters in Personnel service at the University of Colorado in March 1949 is sponsor of AWS. She is counselor for all off-campus women, including those in Casa Linda and the Home Management house. In addition to these duties, she is in charge of part-time employment and the social calendar.

While attending the University of Colorado, she held counseling offices there and at Bolder High school. A native of Chicago, Miss Keehan, taught in public schools there for five years after graduation from Rosary College at River Forest, Ill.

During the war, Miss Keehan was a civilian instructor at Fort Sheridan, Ill. She taught illiterate soldiers reading, writing, military etiquette, and current events.

"During summers, while not in school or teaching, I held various jobs in many different fields in order to give me a broader background and fuller understanding of a working person's problems," said Miss Keehan.

Well qualified as a counselor, the assistant dean worked with college students at Long Beach Calif. for three years before attending the University of Colorado and doing counseling there.

Last summer, she attended the University of Southern California.

Dean Walker Goes On Lecture Tour

Mrs. Margarette Walker, dean of women, will leave Thursday on a lecture tour of colleges in Colorado, Nebraska and Kansas. As National president of Mu Phi Epsilon, music sorority, she will speak to active and alumnae chapters of the sorority in nine colleges.

In addition to the lectures, Mrs. Walker will conduct a research on offices of the dean of women in all colleges visited for information and ideas.

Colleges she will visit are: University of Wichita, College of Emporia, University of Kansas, Kansas State College, University of Kansas City, Kansas City Conservatory of Music, University of Nebraska, and University of Denver.

Tech Falls Short Chest Fund Quota

The Community Chest campaign will continue throughout this week, announces Dr. E. N. Jones, vice president of the college. Tech has fallen short of the \$2,500 quota for the drive by about \$1,000, Doctor Jones states.

Approximately 220 persons have donated to the drive, explains Mrs. Flossie Brown, cashier. This number includes faculty members, college employees and one student.

Dr. Jones has sent out letters to all faculty members to remind them of the campaign. He expressed the opinion that many persons have either forgotten the campaign or neglected to make pledges or donations.

Contributions are to be made to Mrs. Brown, window five, in the business office of the Administration building.

Movie "Hamlet" Here This Week

Laurence Olivier's movie production of the Shakespearean drama "Hamlet", will be shown Wednesday and Thursday at the Midway Theatre at student prices. The price will be \$74 for students both afternoon and evening.

This drama has been produced on Broadway a number of times with great success, and the Olivier movie production has attracted still greater audiences. "Hamlet" is one of Shakespeare's best known and beloved plays.

Esther Sorenson Displays Pictures

Miss Esther Sorenson, district supervisor of the board of education, was in Jayton last week attending an area Future Homemakers of America meeting.

She showed pictures of her travels in Europe last summer and will discuss the home life in the countries she visited.

Approximately 500 girls were at the conference, representing 73 schools in the area.

DR. ROBERT LEE

Dr. Robert G. Lee Is Revival Pastor At Baptist Church

Dr. Robert G. Lee, president of the Southern Baptist Convention, will speak to a joint meeting of the Young Men's Brotherhood and the Young Women's Association at 6:20 p.m. tomorrow at the Baptist student center, 2401-13th street.

Doctor Lee, pastor of the Bellevue Baptist church of Memphis, Tenn., is in Lubbock to hold the fall revival meeting of the First Baptist church. He has been proclaimed as one of the greatest living Baptist preachers. The Baptist Review wrote of Doctor Lee, "His silver-tongued oratory and his winsome personality has endeared him to the thousands who have sat spellbound as they have listened, almost breathlessly, to the periods and climaxes of his famous sermons."

A biography of Doctor Lee, called "The Chosen Vessel" is just off the press. It is written by E. Schuyler

Dr. D. B. Calvin Speaks Tomorrow To Pre-Meds

Dr. D. Bailey Calvin, dean of student and curricular affairs at the University of Texas School of Medicine, Galveston, will visit the campus from 2-4 p.m. tomorrow, Roy Baker, president of the Pre-Med club, said yesterday.

He will address pre-medical students at 5 p.m. tomorrow in C-101, and will probably be available for student conferences from about 3:30-5 p.m., said Baker. Further details may be found on the pre-med bulletin board in the Chemistry building, he said.

Yandell Is Honored As Prize Pledge

Wade Yandell was recognized as best pledge at Soci annual big brother-little brother breakfast Sunday morning at the Hilton hotel. Yandell was selected from the pledge group of last spring.

Pledges and their big brothers who were introduced at the breakfast are Oscar Cooper, Hank Spaulding; Kenneth Carter, Boostey Morris; R. B. Miller, Jimmy Easley; Sargent Munn, Buddy Ward; John Coombes, Lynn Duncan; Cliff McMillan, Jerry Payne, and Robert Knight, Robert Lee Craig.

After the breakfast the club attended the First Christian church.

English, who says, "We should not read the book to see what a great man Doctor Lee is, but to realize just how many great things God can do through just one personality."

Doctor Lee speaks from 2:30 to 3 p.m. each Sunday over the ABC network and KFYO. He has written 16 volumes of sermons and each year speaks hundreds of times throughout the nation.

Friday evening is Tech night at the revival at the First Baptist Church. The service will begin at 7:30 p.m. and reservations for groups or clubs to sit in one particular section of the church may be made as late as Friday noon.

"Education" Theme Of Chatman Speech

Dr. J. A. Chatman, negro physician from Lubbock, spoke on the "Tenth American" to members and guests of Gamma Delta, Lutheran student's association, Friday evening.

"Education is the answer to the entire question of race relationship," said Doctor Chatman. He recommends educating both negroes and white persons on their relationship with each other.

Boy's Dorm Has Informal Dance In Lounge Friday

An informal dance for residents of West hall and dates will be held from 8:30 to 11:30 p.m. Friday in the lounge of the dorm. Gene Thomas, social chairman, has announced.

Music will be furnished by a record player purchased by West hall residents for the dormitory. An exhibition square dance team will furnish special entertainment, Thomas said.

ASCE Plans Inspection Of New First Baptist Church

Members of the Tech student chapter of the American Society of Civil Engineers will make an inspection tour of the new First Baptist church this afternoon.

Herbert Brasher, of Burter and Brasher, Architectural firm, will act as guide for the tour. Brasher will point out and explain the various construction features of the church.

This is one of three annual inspection trips made by the civil engineering students.

All women twins who have not reported to the office of the dean of women should do so immediately, said Miss Virginia Keehan, assistant dean of women. A tea is being planned at which these twins may meet. The list is to be completed soon, said Miss Keehan.

First Light Opera "Mikado" Coming

The light opera, "Mikado", is to be presented at 8:15 p.m. Nov. 29 at the Lubbock High school auditorium, under sponsorship of the Lubbock Music club. The first attempt in Lubbock at light opera by local talent, the "Mikado" will feature the Lubbock Symphony orchestra, said Mrs. Margarette Walker, dean of women.

Student tickets for the production are available in the office of the dean of women. They are 60 cents each. Faculty members will be admitted for \$1.20 and reserved seats are \$1.80.

A matinee will be presented the afternoon of Nov. 29 for high school and grade school students of Lubbock.

Senior Engineers Go To Fort Worth

Senior industrial engineering majors will leave tomorrow for Fort Worth where they will tour Trinity Portland Cement plant.

Students making the trip are: N. A. Billingsley, C. L. Bomar, M. N. Cavendor, Lyle Crawford, Leon Cooper, J. L. D'Acosta, Tommy Davis, Bill Eddins, D. L. Goodyear, Lawrence Grady John Jackson, A. E. Kaping, G. T. Kerbow, M. C. Kunkin, J. D. Lea, F. A. Meier, Joe Norris, W. H. Roberts, R. J. Schuette, J. P. Shultz, R. T. Tubb, Dick Wolff, C. E. Wright, and Sylvester Wylie.

The students will be accompanied by P. M. Green, associate professor of industrial engineering.

JUNIOR COUNCIL TO MEET

Junior council will meet at 5 p.m. Thursday in Ad 208, Dorothy Phillips, president announced.

Business will consist of choosing three members to raise the membership back to the original 20. Three girls did not return to school this fall, thus leaving the vacancies.

Bowling League To Elect Officers

Officers will be elected and general plans for the year will be outlined when the Tech Bowling league meets today at 7:30 in Ad-300.

League games will be played at 6:45 p.m. Friday nights at Lubbock Bowling Alleys. Two men and two women are to play on each team. Co-sponsors of the league are Tommy Scott and Marjorie Rowland.

Individual trophies will be given winners in the league, which is to be sanctioned by the American Bowling Congress, Scott said. Women interested in bowling are urged to attend the meeting today, he added.

Anyone desiring further information about the league can call Scott in Sneed or Miss Rowland in Women's Dorm IV.

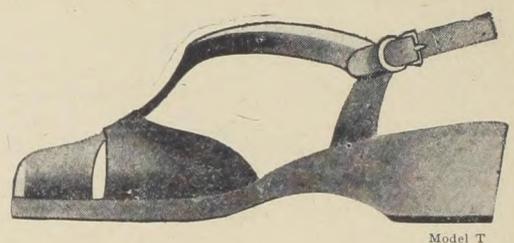

Gamma Delta Has Two New Members

Two new members were admitted to Gamma Delta, association of Lutheran students, in a meeting held Sunday. They are Mr. and Mrs. William Simpson. Since Mrs. Simpson is not a Tech student, she is an associate member.

R. E. Hahn was the leader at the meeting. He spoke of "Church Stewardship." Plans were made for the formal initiation of new members. All members then attended an organ concert given by Ruth Stelzer of Amarillo.

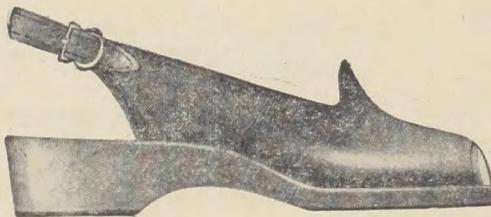

Clifton Fadiman, scheduled to speak at the Rec hall Friday, will not be here on that date, Dean James G. Allen, chairman of the Rec hall committee, announced.

Fadiman, well-known radio personality is to speak at 7:15 p.m. next Wednesday in the Rec hall. His lecture will be "The Literary Climate: The Meaningful Books and Writers of Our Day."
