Number 4

Wiggins To Address Convocation

Tech's Board of Directors Awards Ad Building Contracts to W. G. McMillan

Contracts amounting to \$498,050 were let to W. G. McMillan, Lubbock contractor, for construction of two additional wings to the Administration building at the Tech Board of Directors' meeting Saturday in San Antonio.

The contract for the new wings, which will each be three stories, amounts to \$492,450. The board awarded McMillan an additional contract of \$5,600 to construct full basements for the wings instead of the half-basements originally planned. Frank Junell, assistant to the president, said work will begin immediately although the plumbing and electrical contracts have not been awarded.

Board members also considered the advisability of setting up a fund for a student union building. The finance committee was asked to investigate possible sources of revenue for the fund and to make its report at the next board meeting Oct. 15 in Lubbock. A percentage of profit from the bookstore and revenue from campus concessions were mentioned as probable sources.

Infirmity Additions Approved
The board approved a \$37,120 contract for a cotton research committee to be set up at the college under Dr. Lyle E. Hessler, with the United States Department of Agriculture in Washington. Doctor Hessler will act as Tech's research associate with the "Texas Cotton Research committee, a combined operation by Texas Tech, Texas A&M, and the University of Texas.

Budgets were also approved for the guidance center, West Texas museum and the Pan Tech farms. The board gave permission to make improvements at the infirmary not to exceed \$4,500.

Routine business included approval of several leaves of absence and teachers' contracts.

Twelve bids were received to construct the wings. Other low bids in addition to McMillan's included those of James T. Taylor and Son of Fort Worth, \$504,500; Von Freilick, \$609,100; and I. W. Batson, Dallas, \$510,000.

Shivers Is Luncheon Speaker
The board adjourned to attend a Tech ex-student luncheon sponsored by the San Antonio chapter, Gov. Allan Shivers was the principal speaker and Mayor Jack White of San Antonio extended a welcome to the city. Charles C. Thompson of Colorado City, chairman of the Tech board, introduced board members to the chapter. Addresses by Pres. D. M. Wiggins and Dell Morgan, head coach, concluded the program.

Board members present were Thompson; Raymond Pfluger, Eden; Mark McGee, Fort Worth; C. T. McLaughlin, Snyder; Leon Ince, Houston; Robert B. Price, El Paso; and Charles Woodriddle, Dallas. A. G. Mayse of Paris and Chancellor Weymouth of Amarillo did not attend.

Guests included Wyatt Hedrick, Fort Worth architect; W. T. Gaston, Tech business manager; Marshall Pennington, Tech Controller; President Wiggins and Junell.

Free Fair Day For Techsians Is Friday
Friday will be free fair day for Tech students at the Panhandle-South Plains fair, Joe Meador, publicity manager, has announced.

"Upon presentation of library cards and 10 cents federal tax, students will be admitted to see the greatest array of agricultural, livestock and industrial exhibits plus the finest entertainment in the 32-year history of the fair," Meador stated.

Among the entertainment attractions is the Gertrude and Randolph Avery musical review featured nightly in front of the grandstand. The review is built around a chorus of 16 girls who present the over-all production, "A Trip to Wonderland." Such other specialties as Larry Griswold, comedian and trampoline artist; the Mar Vels, teeterboard tumbler; the Three Jerks, comedians, and the Three Melody Notes, mixed trio, are included in the cast.

On the midway the Forsythe-Davis rides, shows and concessions will offer diversion throughout the six days of the fair.

"Lucky" Lott and his Hell Drivers will appear in front of the grandstand Saturday, last day of the fair.

Admission every day but Friday will be \$1 for Tech students. The regular 25 cents will be charged for automobiles.

Lebanon Student Enrolls In Tech

By MAC STRONG
Toreador Staff Writer

"The outstanding friendliness of Texans and Tech students was the first thing I noticed about my new home, Anne Falman, junior bacteriology major from Beirut, Lebanon, stated Monday.

Anne, who arrived in Lubbock three weeks ago, believes American girls have better opportunities to lead freer lives and get better educations than those in Lebanon.

Customs and habits of dress are not so different in this country from those in Lebanon. I knew what to expect about the United States and its people because for two years I attended the American University of Beirut where I had many American classmates. Also my cousin and his family with whom I'm living in Lubbock have written me many wonderful things about his country," she continued.

Anne's dark eyes sparkled when asked about major differences she has noted between Texas and her home.

"It is so dry and flat here in comparison to my own coastal country where it is very mountainous, and a mild, tropical climate prevails the year around. One day is very hot here, the next day I nearly freeze," she said.

Anne came across on the SS Exceter. This was her first ocean voyage, but she said that she liked it very well and, surprisingly, she didn't get sea sick. Her relatives from Lubbock met her in New York, and from there they traveled to Michigan before coming home to Lubbock.

"I've already seen more of the United States than some of its citizens," Anne laughingly stated.

"I believe American food is my pet complaint about my new home. It is so very different from what I've always been used to in Lebanon, but I suppose I shall become accustomed to it," Anne said.

The young Lebanese looked a little serious when asked if she had gotten homesick yet.

"Yes, I have to admit that I have, but soon I'll get used to being so far from home. I must be because I want to get my degree and go back to Lebanon to do research work. By doing that, I may be able to help my fellow countrymen in a small way," she said.

Four Techsians Will Take Part In Texas State Fair

Four Tech dairy manufacturing students will leave Oct. 9 for the Texas State fair in Dallas where they will take part in the Southwestern Dairy Judging contest.

The team, composed of Clarence Darter, Royce Jackson, Harold Sawyer, and Terry Smith, will be accompanied by J. J. Willingham, head of the dairy manufacturing department.

The prize for which the team will compete is a silver-plated five-gallon milk can.

DEADLINE ANNOUNCED

Roy Grimes, editor of LA VENTANA, announces that the deadline for annual pictures will be Oct. 31. Everyone is urged to go to Koen Studio to have his pictures made as soon as possible. No pictures will be made after this date for the 1950 annual, said Grimes.

FLOAT DEADLINE SET

Bill McCasland, general chairman of the Homecoming parade, announced that all organizations desiring to enter floats in the parade meet at 5 p.m. tomorrow in the Student Council office in the Ad building.

Here's A Guy Who Will Make Some Gal A Perfect Husband!

By MARY VESTAL
Toreador Staff Writer

Something new has been added to the home economics division. That "something" is a tall, blonde boy named Bobby Loyd Edwards. Bobby, a junior arts and sciences student from San Angelo, enrolled in foods 233 because he thinks it will aid him in his proposed medical profession. Incidentally, Bobby cooks for himself most of the time.

He was enrolled in Tech in 1945 '46. He dropped out and for the last two years has been working in a hospital in San Angelo. Bobby said that his experience in a hospital made him realize the important role nutrition plays in certain types of treatment. He plans to take courses in nutrition as soon as possible.

Far from being shy at being the only male in the home ec division, Bobby is equally at home with the girls and the pots and pans in the kitchen.

His teacher, Miss Martha Buttrill, assistant professor of foods and nutrition, said that although she has never had a boy in one of her classes before, she thoroughly approves of Bobby.

New Petroleum Bulletin Described

A bulletin giving the department of petroleum engineering full coverage from a description of the oil industry down to requirements for college entrance and graduation has been prepared.

First such publication to be issued by any department at Tech, the bulletin briefly outlines the history of oil business from the original commercial well down to the complex, wide-spread, oil fields of today.

Included within the bulletin are descriptions of the general phases of petroleum technology, such as geophysical exploration, drilling and production of natural gas, pipeline and transportation, refining and petro-chemical conversion industry, and oil shales and synthetic fuels.

The relationship between Tech and the petroleum industry is pointed out by comparing the principal products of West Texas in earlier days—cotton, cattle and grain—with the vast oil production taking place here today.

USE OF ACTIVITY TICKETS EXPLAINED

Morley Jennings, athletic director, has announced the correct procedure for the use of the new student activity tickets.

Due to the new form in which the tickets were issued this year, several changes have been made. Jennings said students must follow the method set up in order to facilitate entrance to football games this fall.

The rules are:
1. Notice that your student athletic activity card is printed on the back of the receipt which you received when you paid your fees during registration.

2. Fold this receipt so that the activity ticket shows clearly.

3. Have the receipt out of your billfold and ready to show to the gateman.

4. Students must enter the stadium at one of the four gates on the east side of the stands.

By JACK SHELTON
Toreador Staff Writer

The all-student convocation, sponsored by the Student Council, will meet at 10 a.m. this morning in the gymnasium for the purpose of electing class officers, said Curtis Sterling, student body president, in a council meeting Monday night. Margaret Clark, chairman of the elections committee, stated that class sponsors will also be selected at this meeting. All classes will be dismissed.

The program will consist of several numbers by the Tech band under the direction of Prof. D. O. Wiley. A welcoming address will be given by Dr. D. M. Wiggins, to be followed by the introduction of Mrs. Margaret Walker, dean of women, and of James G. Allen, dean of men. Next will be an introduction of Student Council officers and an outline of the Council's plans for the year, said Sterling.

Meeting Places Given

The elections, which will follow the general meeting of all classes, will be held in the following places:

Freshmen will remain in the gym with Miss Clark in charge and Dr. Everitt Gillis acting as class supervisor.

Sophomores will go to C-101 with Marshall Gettys officiating and Miss Lida May as supervisor.

Juniors will be in the aggie auditorium with Raymond Brigham in charge and Robert L. Cunningham supervising.

Seniors will go to the Engineering auditorium with Curtis Sterling in charge and Wilson B. Ward as faculty supervisor.

Bowden Named Sponsor

Following the election of the officers, the girls of each class will remain to elect two representatives from each class as A.W.S. delegates.

At the Council meeting Monday night, Marshall Gettys was elected representative to the Athletic Council for the following academic year. Also, John E. Bowden, auditor, was elected Student Council sponsor.

The general qualifications for all students who are elected to a student office as quoted by the Constitution are as follows:

1. "Attained a 1.00 grade point average in all work taken during the semester preceding the election, the semester in which he takes office and the time during which he holds office."

2. "Attained a 1.00 grade point average for all college work prior to election."

Freshmen officers will be elected from those students having less than 30 semester hours to their credit; sophs will pick their leaders from persons with between 30 and 60 hours; junior class officers will be chosen from students with between 60 and 90 hours and seniors will select officials from all persons having more than 90 hours.

Instructor Added In H. E. Division

Mrs. L. A. Gifford has been added to the staff of the child development department.

She is replacing Mrs. Earl Camp who has gone to Iowa City, Ia., to be with her husband while he studies at the University of Iowa for his Ph.D.

Mrs. Gifford has been teaching in Dubuque, Ia., the past seven years. She was graduated from the University of Iowa and also attended Iowa State college. At Tech, she teaches freshman classes in child development and assists Miss Sannie Callan, head of the department, in the nursery.

This is Mrs. Gifford's first residence in Texas, and she said she is eagerly awaiting the first dust storm.

She explained that she has just recently returned to full-time teaching. Her husband is employed at radio station KSEL.

Traffic Light Badly Needed On College Avenue At Main

Is it possible that the reason there is no traffic light at the intersection of College avenue and Main street is the fact that Tech students have been extremely lucky? We mean by lucky that no one has yet been killed at that intersection of the mechanical and human elements.

One reason a light has not been placed at this point of constant terror, Toreador officials were told last year, is because it is only a three-way intersection. Under the circumstances, it seems to us that a far more dangerous condition exists here than at some other intersections in the city which do have these "slower downers" of the city's mechanized population. Since about 1,300 students feed onto College from the street between the two men's dorms, it certainly appears that this is not a three-way, but a definite and hazardous four-way intersection.

One business man on "the avenue" has seen the need of a light installed at this point; however, he has been put off for some reason or another every time he has made the effort to get the city to put in a light there. Certainly, if this man and many students realize the danger at this potential death corner, it seems that some of the college big-wigs could approach city officials on this problem—again and again until something is done. And we don't mean an empty promise.

College avenue is a stream of vehicles, driven by college students, citizens of Lubbock and the surrounding area, and transients from other states. At times it seems to be a race between drivers to see who gets the first pedestrian or who can get up the greatest amount of speed in the block from Broadway to Main street.

We shall sit around this semester or the next until some one is killed or injured, and then perhaps someone will wake up to the fact that a light is really needed at "the three-way intersection," and has been needed for the past three years. We shall hope, until that condition is improved, that Lady Luck will continue to tag along with the students of Tech who take their lives into their own hands each and every time they cross College avenue at "death's corner."—C. E. W.

Let's Not Alter Tech's Improvements

Your campus is showing signs of improvement daily. For proof, compare conditions today with those of a year ago.

In September of last year, lawns in front of Men's Dorms III and IV and Women's Dorm IV consisted of a few scattered tufts of grass. The lightest breeze that came along caused a general migration of the loose soil to various locations where it was decidedly unwelcome.

At Women's Dorm IV there were no sidewalks leading from the front entrance to the north wing. In rainy weather, there was the choice of wading through the mud or taking a chance on maintaining dignity while leaping from stone to stone on a makeshift walk.

Returning this September, however, you noticed that workmen had been busy during your absence. Grass flourished in front of the dormitories and various other locations around the campus where it had once seemed impossible. Sidewalks were, and still are, being laid.

Why then, after wanting improvements so long, are there students who, with or without thinking, walk across the grass to save a few steps? Why are initials carved in newly-laid concrete, as they were at the north entrance of Women's Dorm IV?

Surely you're proud of Tech's growth and improvement. Please leave it so future Tech students can be proud of it, too.—B. S.

Smithy's Forge

By JAMES F. SMITH

Khalid is more and more becoming familiar dress on College avenue. Techians who, since the war's end, have been acquainted with the military mainly through the ROTC unit on the campus, are finding increasing numbers of soldiers in popular places along the busy thoroughfare.

Full operation of the west air base is expected soon. Thousands of airmen will be stationed in town and at the flying field; eyes and ears will grow accustomed to the din of planes. Lubbock will again know something of the wartime atmosphere which it had when two training schools here were graduating thousands of pilots, and when young men in olive drab were enrolled at Tech.

Those years when youthful GI's occupied dormitories and marched in formation across grassless acres of the campus, brought Tech a temporary transformation which may seem humorous to 1949 students.

Let's take a look at one of those school years—1943-44. This is, partially, what was doing at the college during those semesters.

The president of the student body was Maxine Craddock, second woman ever to head the Student Association. The first was Maxine Fry in 1937. Army men were living in three dorms. Although faced by a housing shortage, civilian students managed to find enough accommodations in private homes and boarding houses.

Two courses of Chinese, one in language and one in manners and customs, were offered by the foreign language department. The courses, both electives, were especially urged for men expecting to enter the service soon. About 100 enrolled.

Women outnumbered men by approximately 2 to 1, and fall registration dropped to about 1,663. Spring enrollees numbered about 1,430.

As the fall semester began, four men's social clubs found it necessary to go on inactive status because of lack of members and eligible pledges. Bowing out for the duration were Silver Key, Kemas, College Club and Los Cams. Soci followed in the spring.

A "victory garden" was growing in back of the Home Economics building. Applications for Tech's correspondence courses were arriving from all parts of the globe. The official out-of-town football game was with Texas Christian university in Fort Worth.

Tennis Star Don Budge was stationed on the campus with the 309th College Aircrew Training detachment. Women of the social clubs were entertaining soldiers in hospitals at the two air fields and

were serving as hostesses at USO Techsians were being fingerprinted at their option in a service project for Alpha Phi Omega, with the prints going to Washington.

THE TOREADOR reported that along College avenue at 10 p.m. on weekday nights, everything was quiet. Sole sign of collegiate life was a "sprinkling of headless slimes wandering around." Thirty-eight coeds pledged social clubs in the spring. Social note: Centaurs and their dates went on a hay ride to MacKenzie park.

On Mar. 15, 1944, Dr. Clifford B. Jones resigned as president, effective at the end of the spring semester. He was unanimously elected president emeritus by the college directorate, and in July was succeeded by Dr. D. M. Whyburn.

As part of a nation-wide curtailment of its work, the Army Specialized Training program terminated its relations with Tech Apr. 1, 1944. The aircrew detachment discontinued on the campus June 30. Both the engineers and the airmen were gone then, and Tech became practically a girls' seminary. Almost no men.

In the first week of July, the division of agriculture moved into the Aggie building for the first time since completion of the structure two years previously. The building had been used by the aircrew detachment.

And in July the student body split into pro and con factions over the midnight curfew. Techsians were required to turn out the lights in their dormitory rooms at 12 p.m. every night except Saturday. According to THE TOREADOR, male

Tech's Graduates Sought By 251 Schools In 5 States

The Placement Service has received 644 requests from 251 school superintendents, representing 1209 vacancies in public schools for 1949-50. These requests came from superintendents in Texas, Oklahoma, Arizona, New Mexico, and Kansas, Mrs. Jean Jenkins, placement secretary, said Monday.

Of the total 1,209 vacancies, 576 were in the elementary grades, among which were 305 vacancies in the primary grades.

Only 268 teachers were available for teaching positions for the school year, an amount far short of the 1,209 vacancies. A total of 49 elementary teachers were available, including 22 teachers of the primary grades.

students took to studying in cafes, drug stores, beneath street lamps, in the offices of the AVALANCHE-JOURNAL, and even in the city police station.

And in the pages of THE TOREADOR appeared too many obituaries.

TEXAS TECH COLLEGE

ROYAL TYPEWRITER NEW GRAY ROYAL PORTA

2214 Texas Ave.

J. Frank Dobie Is Impressed With Improvements Made In Tech Area

Tech is prophesied by J. Frank Dobie, Texas naturalist and writer of folklore, to become a large branch of the University of Texas, according to an article which appeared in Sunday's Fort Worth Star-Telegram.

Dobie and his wife traveled to Denver this summer by way of the South Plains. The article reveals their impressions of the region around Lubbock.

"Texans to the East do not realize the extent and intensity of development in the South Plains country," Dobie says. "Only the Rio Grande Valley equals it in agricultural development... you feel that prosperity and population alike are booming," the author of *Coronado's Children*, continues.

"Without being a prophet," Dobie says, "I can see the day when by virtue of sheer population, of developed resources, and of its representation of a vast territory, Texas Technological college at Lubbock will be to the University of Texas

what the Los Angeles branch of the University of California is to the original University of California at Berkeley (San Francisco)."

Lauding the local region, the former University of Texas professor says, "The comparatively new city of Lubbock is already as far away from the plains of buffaloes and seas of pristine grass as London is from the Roman walls that once enclosed its origins."

With regard to the university possibility, Dobie says that Texas is growing too populous and rich to have but one university.

Miss Carol ISherrord, June graduate in journalism, is the new secretary to Dr. Ernest Wallace, assistant dean of arts and sciences.

A sport dance for couples only will be held from 8 to 12 p.m. Friday in the lounge of Men's Dorm 4. Rather Willis, social chairman, announced. Music will be furnished by a record player.

Nearly 2000 Feet of Sidewalks Are Laid

Tech has spent \$2,050 in the last three months to keep your shoes clean and your feet dry, E. J. Urbanovsky, college landscape architect, said today.

A total of 1,865 linear feet of sidewalks have been laid around Women's Dorms III and IV, and 5,135 additional feet are to be poured as soon as possible.

Men's Dorms III and IV are to receive the same amounts of sidewalks that their sister structures have been given. The sidewalk begun in front of the Home Economics building and running in front of the Tech bookstore is to continue for 800 feet to pass Women's Dorm IV.

Plans call for 800 feet in needed places around the Chemistry building and 150 feet to lead ambitious students to the Library. Walks are to be completed until 7,000 more feet have been laid.

Miss Sorensen Reviews Home Economics Meet

Miss Esther Sorensen, district supervisor of home economics education, was guest speaker at an informal party for the home economics faculty Saturday afternoon. The party was given by Miss Margaret W. Weeks, dean of home economics and Miss Mabel D. Erwin, head of clothing and textiles, in their home at 2202 Twentieth.

Miss Sorensen returned recently from Europe where she attended the Seventh International congress on home economics in Stockholm, Sweden. She gave the faculty members a brief summary of these meetings and other activities of her European tour.

Two sections of nurses from West Texas hospital are taking Foods 135, taught by Mrs. J. M. Michie, professor and head of foods and nutrition.

Social Calendar Installed In Dean Walker's Office

A new Line-O-Dex social calendar has been installed in the office of the dean of women to replace the worn notebook which formerly held a record of social events. The calendar is so organized that all information is easily found and can be changed with little effort. It is available to all students.

A copy of the social calendar for each week will be posted outside the office on the bulletin board, for convenience, said Mrs. Margaret Walker, dean of women.

150 Farmers Visit Campus For Livestock Field Day

One hundred and fifty farmers from 17 South Plains counties attended a field day on the Texas Tech campus Saturday.

During the day the group toured the livestock barns and discussed different phases of livestock and ranching industry.

The field day was sponsored by the animal husbandry department of the college.

Activities Planned By Church Groups

Student religious organizations have planned socials and meetings.

There will be a called meeting of the Student Religious council at 7:30 p.m. Thursday at the Methodist Student center, announces Marion Baumgardner, president.

Campus dating is to be discussed at Forum at 7:30 p.m. tonight in the Methodist Student center, announced Cecil Matthews, youth director. Mary McKee will be the student leader on the "do's and don'ts" of dates.

A watermelon party for the Tech students of the First Methodist church, will be held Friday night at the Jack Earl Creel home.

The council of the Presbyterian Student center will meet at 7 p.m. Tuesday for the purpose of completing membership on missions.

Sumac sorghum is being stored for silage by the animal husbandry department at Texas Technological college. The department will use the sorghum, some 2,300 tons of it, for feeding college-owned livestock.

SPORTS

Sports Chatter

by KEITH ANDERSON

We spent the weekend in San Antonio, and had a right nice time. We arrived about 4 a. m. Saturday, and didn't make it out of the sack until about noon. It was beautiful weather in San Antonio Saturday and Saturday night. Really was fine football weather. Don't have too much to say about the game, except that we just got beat. The boys were trying their darndest, but it just wasn't enough. Those Farmers from College Station had blood in their eyes, and they were determined not to go back home without a victory under their belt. They didn't.

While we're on the game, I would like to say a word about our cheer leaders and band. You can sum it up in three words. They were superb! Jimmy Carter and Pat Thurmond rode back from the game with us, and they were wanting to know how they were. We'll tell you as well as them that we don't see how they could have been much better. That goes for all the cheer leaders which include Bob Hogan, Glenna Winston and Lam McKay along with Jimmy and Pat already mentioned.

The Tech band also was very good. Though not as sharp in its marching as the Cadet band, it had more color, and we thought it deployed itself into formation every bit as well as the A&M aggregation.

The amount of Tech followers at the game would have been disappointing if it had not been for a great number of exes which were on hand. In spite of the fact that it was our only official out of town trip, very few of the students were on hand. Still it was a long trip, and we know for one that the last of the month can be pretty bad so far as finances are concerned.

Back to the game for a minute: Tech suffered more than just the loss of a ball game. Don Williams, big brawny guard for the Raiders, was badly injured in the first quarter of the game. We talked with Dr. Kallina, who was along with the boys, after the game, and at that time he didn't know how serious Don's injury was. "Doc" said that he thought it was a pulled ligament, but until he received a report from the hospital, he wouldn't know just how bad it was. After we

Tech Freshmen Will Open Grid Schedule Against West Texas Frosh Friday Night

Tech's freshman football squad will show its wares for the first time this season at 8 p.m. Friday night in Jones stadium.

The Picadors, under the guidance of Coach Allie White, will tangle with the freshman eleven from West Texas State.

Though the freshman squad is used primarily as opposition for the varsity, it does practice as a team, and Coach White believes that the present group of fish candidates is the best in Tech's history and one of the best he has ever seen.

Of course, it is not known yet just how well the boys will work as a team, but as individuals they have shown a great amount of promise in scrimmage against the varsity. The type of plays to be used by the Picadors is not too varied. They are in the main, elementary plays which are calculated to give the freshman footballers the basic fundamentals for their graduation into Raider varsity ball.

An interesting sidelight of the fish squad given by Coach White is that the members of the team are not in the habit of losing games. In fact, the average loss per man is about one game. Several of the boys have never lost a game in their entire high school careers.

got back down town, we heard all kinds of wild rumors as to the extent of the injury, none of which we will pass along to you, until we get a confirmation.

For our first weekend of predictions, we did not do so badly. With the exception that we had Arkansas playing North Carolina State instead of North Texas State, we only missed two out of 18 selections, that is if we count the Oklahoma A & M-T. C. U. game as a loss. Our other miss was in our own Tech-Texas A & M game. Of course, this early in the season it is fairly easy to run up a high percentage since most of the strong teams open against a supposedly weak eleven. Things get tougher later on, so it's a good thing we compiled a good percentage this week. Our percentage was 89 percent correct.

Carl Madison, all state quarterback from Atmore, Ala., has never tasted defeat; in fact, his team has a current string of 34 straight victories.

Gene Doss and Marland Ribble of Arlington Heights, Fort Worth, were not defeated last year, and were members of the state city-conference champions.

Waldo Young and Alton Linne from Monahans were on the class A state high school champion team of last year, with Young gaining all-state selection.

Harrel Harris, 260-pound tackle from Masonic home, Fort Worth, was not scored on in district play last year, and has been beaten only once.

The average age of the squad is about 17. The youngest of the squad is Sam Jones, center from Temple, who is 16 years old, and the oldest and only ex-service man on the roster is Don Gray, 22-year-old guard from Breckenridge.

The starting lineup for Friday night's game as released by Coach White is as follows, though it is only probable and not necessarily the one that will be used.

Left end—Alton Linne, Monahans.

Left tackle—Charles Goff, McAllen.

Left guard—Don Gray, Breckenridge.

Center—Jimmy Williams, Phillips.

Right guard—Vernon Barron, Temple.

Right tackle—Marland Ribble, Arlington Heights, Fort Worth.

Right end—Jimmy Clark, Sundown.

Quarterback—Carl Madison, Atmore, Ala.

Left halfback—Waldo Young, Monahans.

Right halfback—W. H. Barker, Colorado City.

Fullback—Ronnie Miller, Albany.

Football Trophies Being Displayed

By JIM SANDERS
Toreador Staff Writer

To get an idea of just a little of the glory and public acclaim given to an All-American football player, drop around to Aischuler's Campus toggery and see the display in the show window.

The display is in honor of the 1948 football team, selected by the All-America Board of Football, with special emphasis given to a great footballer from SMU, Doak Walker.

Walker's blanket which forms the center of the display, is surrounded by pictures of the other members of the 1948 All-America team. Members of the dream team were selected by the board composed of Frank Leahy, Jeff Crevath, Herman Hickman, Christy Walsh and Glenn S. Warner. They are Jackie Jensen, fullback, California; Charles Justice, halfback, North Carolina; Walker, halfback,

Southern Methodist, John Rauch, quarterback, Georgia; Al Wister, tackle, Michigan; Leo Nomellini, tackle, Minnesota; Dick Rifenberg, end, Michigan; Leon Hart, end, Notre Dame; Paul Burris, guard, Oklahoma; Bill Fischer, guard, Notre Dame; and Charles Bednarik, center, Pennsylvania.

The display of football greats is topped by the All-America Captain's cup. The trophy is awarded to a member of the team selected as honorary captain. The 1948 team is captained by Bill Fischer of Notre Dame. Among those who have received the honor of having their names on the Captain's cup in recent years are Creighton Miller, Notre Dame, 1943; Les Horvath, Ohio State, 1944; Felix Blanchard, Army, 1945; Charlie Trippi, Georgia, 1946; and John Lujack, Notre Dame, 1947. In the last six years three men from Notre Dame have captained the All-America team. Also in 1932, the first year the Captain's cup was given, a Notre Dame man received it.

The display is touring the country and will be in Lubbock for one week. After leaving here it will be sent to Corpus Christi.

Aggies Down Raiders 26-7 Smith Sparks A&M Attack

By KEITH ANDERSON
Toreador Sports Editor

After nearly two years of drought, the Aggies from College Station tasted the sweet morsel of victory as they pounded a stubborn but outclassed eleven from Texas Tech 26-7.

Before a near capacity crowd of 19,740, the maroon shirted Cadets of Coach Harry Stitteler pushed the Red Raiders into a hole early in the first quarter, and never let them out.

Bob Smith, a big bruising full-back from Houston, was the main cog in the Farmers attack which featured a strong ground game with hardly any aerial play. Running behind a big line, which continually outtrussed the Techsians in the second half, Smith, a sophomore, ate up the ground and then climaxed his evening's performance with a terrific 80-yard canter on the next to last play of the contest.

Glenn Lippman, the El Campo flash, was effectively bottled up with the exception of a very few plays.

Tech won the toss and elected to receive; the Aggies kicking off defended the north goal with the wind at their backs.

Stuver fumbled the kickoff out of bounds on Tech's four-yard line to open the ball game, and Bobby Close punted the ball dead on A&M's 46-yard line two plays later. A&M was held for downs, and Yale Lary punted out on Tech's six. After Stuver failed to gain through the middle, Close got off a short, wobbly punt that went out of bounds on Tech's 23-yard line, setting up the Cadets first score. Taking the ball, the score hungry eleven from College Station; needed just five plays to get across the first counter of the ball game.

Shaeffer's try for extra point was wide, and the score, with seven minutes gone in the first quarter, stood Texas A&M 6, Tech 0.

Tech's first determined bid came in the second quarter. Taking the ball on its own 42, Tech moved down the field, with the aid of some 15-yard penalties for unsportsmanlike conduct on the part of the Aggies, to a first down on the Cadet's 18-yard line. On the next play, Cal Steveson skirted left end for 10 yards, but a penalty for clipping moved the ball back to the Aggies' 29. A line buck and two passes which fell incomplete did not make the necessary yardage, and A&M took over on its own 26.

An exchange of punts followed, and the first half ended without further scoring with the Cadets of Aggieland leading 6-0.

A&M received to open the second half, and promptly scored without losing possession of the ball. Lippman started the march with a 53-yard return of the kickoff. Placing the ball on the Raiders' 42, the Aggies needed just eight plays to get their second score of the game. Bobby Goff slipped through right tackle from the two yard line, Shaeffer converted and the score stood 13-0.

Taking A&M's ensuing kickoff, the Raiders stormed back to score their only counter of the game. With Bud Conley, Earl Jackson and Ike Stuver doing the lugging, the Raiders moved from their own 29 to pay dirt. Conley crashed off right tackle for the score. Hatch converted, and the score stood 13-7, A&M.

The Aggies were not content to leave it that way long, however, as they marched back up the field on the following kickoff, for their third tally of the night.

The final score came when with only seconds remaining in the game, Smith broke loose on his scintillating 80-yard touchdown jaunt to run the final score to Texas A&M 26, Texas Tech 7.

STUDY PLANS DISCUSSED

Plans for helping freshmen men learn correctly how to study in college were discussed by Phi Eta Sigma executive council members in a meeting Monday, Ralph Lacy, president, said. Phi Eta Sigma, national freshman men's honorary group, is sponsored by James G. Allen, dean of men.

Prof. L. E. Parsons, head professor of textile engineering, will attend the National Council of Textile School Deans Oct. 1-Nov. 24 in Manchester, Eng.

Pres. D. M. Wiggins plans to attend a meeting of the Association of Governing Boards of State Universities and Allied Institutions Oct. 5-11 in Denver.

In the first Future Teachers of America meeting this year, officers were elected to fill positions vacated during the summer. Those elected were Bob Burks, vice-president and Mary Vestal, reporter.

Mr. and Mrs. Tom Allen, formerly with the journalism department at Tech, visited in Lubbock Monday. They were on their way to Wichita Falls, where they will be employed by the Wichita Falls Record News. Allen served as associate editor of The Toreador last year, and Mrs. Allen was assistant in the publicity department.

The Tech dairy judging team left yesterday enroute to Waterloo, Iowa where it will participate in the National Intercollegiate Dairy Cattle Judging contest. The group will be accompanied by Koy L. Neely, lecturer in animal husbandry.

Students May Join Independent, Dorm Teams In Intramural Football

Intramural touch football will get underway just as soon as possible, George Philbrick, physical education instructor and director of intramural sports, has announced.

Philbrick has extended an invitation to all interested students to participate in the intramural program.

Those interested in playing may join either organized dormitory teams or independent teams. Teams are urged to meet and organize as soon as they can, Philbrick said. Each team will elect a captain and a manager. The manager and captain of each team are requested by Philbrick to meet with him and Roland Drake in the gym at 5 o'clock this afternoon. Each manager should bring a typed roster of his team along with its official name.

The number of teams to compete in the dorm league under the present setup will be: one team each from West hall and Doak hall and two teams each from Sneed hall, Dorm III and Dorm IV.

The independent league will be set up at the same meeting this afternoon and captains and managers should be there in order to get started with the dorm league.

Drake, assistant to Philbrick, said that it is the desire of the department that more interest will be created in intramural sports than ever before.

The Texas Technological college campus at Lubbock covers 2,000 acres—1,700 of which are used by the animal husbandry, dairy manufacturers and other agriculture departments.

Initiations Held For Club Members

Foremost in women's social club activities this week are the initiations of pledges and members.

Ko Shari will have formal initiation of pledges at 6:30 tonight at the W. C. Holden home, 3105 Twentieth street. Initiation of members is staged annually on Easter Sunday in Santa Fe.

Sans Souci initiated new pledges in a formal ceremony last night in the Xen Harris home, 1924 Fourth street. New members were admitted Thursday, Sept. 22.

DFD formal ceremony for new pledges was held last night at 2615 Twenty-third street. A dinner at the Mexican Inn followed.

Las Chaparrillas admitted five new members yesterday evening at the Hilton hotel. Those initiated were Johnnie Bice, Jaynie Boston, Fern Duncan, Pat Rankin and Wanda Sims. Initiation of the new pledges followed.

Las Vivarachas initiated Pat McCaskill and Marilyn Braselton as members at 7 p.m. last night at 2820 Twenty-second street. Formal initiation for pledges was held Monday night.

Casa Linda Residents Elect House Officers

Dorothy Pustejovsky, senior from Abbott, is the newly-elected president of Casa Linda, women's cooperative house on the campus.

Other officers are Mildred Vardeman, vice president; Anita Burton, secretary; Gladys Haynes, treasurer; Dorothy Harbin, business manager; Deane Richardson, social director; Lamonte Leddy, reporter.

Mrs. Margarette W. Walker, dean of women, spoke at the house meeting Monday night on the subject "How to Be Gracious."

The hayride, which had been planned for Friday night, has been postponed indefinitely.

SOCIETY

Tech Organizations Have Meetings, As Fall Semester Activities Continue

A. J. Bishop was elected president of Kappa Alpha Mu, national honorary photography fraternity, for this year in a meeting held Monday. Other officers elected were: Jack Burke, vice president; Jane Skinner, secretary; Delane Adams, treasurer; Billye Hopping, reporter.

Members of the club decided that the project for the year will be photographing campus organizations desiring to have group pictures made.

All persons interested in becoming a member of KAM may contact Mrs. Jane Moore, instructor in journalism, or Bishop.

DAIRY CLUB MEETS

The Dairy Manufacturing club met Monday in Ag-212. A picnic was planned for Friday in Argie grove, and all dairy manufacturing majors who have declared their major are invited to attend.

The organization meets the first Monday of each month. Dean Gardner is president; Flake Tompkins is reporter; and Dr. J. J. Willingham is sponsor.

SANS SOUCIS TO HAVE PICNIC

The Sans Souci patroness picnic will be from 6-8:30, tomorrow at Seaman ball. The annual picnic is given by Sans Souci patronesses for members and pledges of the club.

KKP SMOKER TONIGHT

To acquaint new members of the Tech band with the older members, the annual Kappa Kappa Psi smoker will be given at 7 tonight at the Hilton hotel.

Refreshments of coffee and cookies will be served. Films of the band marching will be shown by D. O. Wiley, professor and band director.

WRANGLERS TO MEET

Wranglers will meet at 7:30 tonight in Ag-114 for election of fall semester officers.

GAMMA DELTA HAS PICNIC

Gamma Delta, international association of Lutheran students, held a welcome picnic at Mackenzie park this week. One new member, Ralph Krottinger, was accepted.

SAME WILL HOLD SMOKER

Society of American Military Engineers will have a smoker tomorrow night at 7:30 in X-10C for

members and prospective members, according to O. D. Farmer, president. Male students in ROTC and in the engineering division are eligible and are invited to attend.

Other officers of the organization are Don Tandersley, vice president; Adell Crumpler, secretary-treasurer; and H. D. Sursu, sergeant-at-arms.

AED CALLED MEETING

Alpha Epsilon Delta, honorary pre-med fraternity, will have a meeting at 7:30 p.m. tomorrow in room G of the Chemistry building, stated Brent Blomkvist, president.

AIME ELECTS SPONSORS

Faculty sponsors were elected at a called meeting of the student chapter of American Institute of Mining and Metallurgical Engineers club last Thursday night. They were Paul Johnston, Phil Johnson and W. L. Ducker, professor and head of the petroleum engineering department.

Plans were made concerning a Homecoming float, stated Dan A. Bee, reporter.

Riley V. Carlton is president of AIME.

Theta Sig Meeting Scheduled Friday

A report on the national Theta Sigma Phi convention, held in Dallas in July, will be made at the club's first meeting of the semester at 5 p.m. Friday in J-203, Jane Skinner, president, said.

Officers besides Miss Skinner are: Glenna Winston, vice president; Daina McLeroy, secretary; Mac Strong, treasurer; and Bobby Stone, keeper of the archives. Other members are Charlotte Blackburn and Jeanne Dudley.

At the Friday meeting, plans are to be made for the coming year, said Miss Skinner.

Students at Texas Tech have been asked to help South Plains farmers pick what appears to be a record cotton crop. The students will spend free afternoons and Saturdays in the fields until the crop has been harvested.

Women's Social Clubs Announce Pledges Ko Shari Heads List With 35 Women

By PEGGY McCLATCHY
Toreador Society Editor

The five women's social clubs have announced new fall pledges through the office of the dean of women. One-hundred eleven bids were received at 5 p.m. Friday, ending the nine-day rush week.

Ko Shari club heads the list with 35 pledges, who are Martha Lee Adams, Tomasine Armstrong, Thalia Atkinson, Jane Austin, Jeanne Ballew, Carolyn Beane, Joyce Belfony, Charlene Berry, Doris Betenbough, Joan Bolinger, Maxine Boyd, Forrestine Crowley, Bette Deal, Marilyn Denman, Nancy Davis, Corrine Garrison, Nancy Herrington, Connie Hopping, Shirley Johnson, Pat Knight.

Phyllis Leach, Billie Ruth Little, Laura McCracken, Jean McRee, Jane Moseley, Janelle Reed, Sally Rodebaugh, Viola Sansom, Glenda Shoemaker, Virginia Stewart, Pat Townsen, Myrna Whipple, Peggy Sue Williams, Marilyn Williamson and Lucy Ruth Wommack.

Las Vivarachas pledges are Clodette Baker, Mary Jo Bullock, Betty Joe Corcorran, Virginia Corcorran, Elizabeth Dalton, Peggy Dayenport, Pat Edwards, Betty Formby, Beth Gregory, Flora Hall, Billie Hutchings, Mary Janet Johnson, Jeannette Koerting, Helen Ohlenbusch, Joan Pickle, Charlotte Ann Powell, Margaret Nelson, Marcia Rogers, Mary Jane Royston, Shirley Schmidt, Dora Beth Stephens and De Aeon Ward.

Pledging DFD are Ja Ann Appleby, Pat Bennett, Donna Crump, Doris Cooper, Jan Dorn, Pauline Dunbar, Albertine Foster, Marvel Jo Gibner, Phyllis Herrington, Galle Henderson, Wanda Hubert, Rita Lane, Ruth Lawrence, Tibba McMullan, Jeanne Monk, Faye Stanfill, Wanda B. Smith, Joan Teague, Wanda Vowell, Wanda Waldrep and Dorothy Walters.

Sans Souci received Fannie Beth Allen, Helen Ann Ayers, Joan Bethel, Sue Carleton, Edith Elkins, Norma Everett, Jan Ferguson, Wilhelmine Huckabay, Emily Keys, Mary Allen Jones, Celeste McAdams, Ann Malone, Pauline Millspaugh, Erin Nevett, Martha Pace, Nancy Paden and Ann Tidball.

Lubbock Townspeople Lacking In Information Concerning Texas Tech

By CHARLOTTE BLACKBURN
Toreador Staff Writer

What do the Lubbock townspeople think and know about this college? Two Tech students found out last summer.

Darrell Webb and Jack Noyes, under the supervision of Dr. Vernon Clover of the sociology department, conducted a survey to determine what the citizens of Lubbock think about the school and students.

The men of the community know more about Tech than do the women, according to the survey. Seventy per cent of those interviewed were able to identify Dr. D. M. Wiggins as president, though he has been here only one year. In contrast, only 64 per cent could give the nickname of the Tech athletic teams, the Red Raiders, which have been in competition for 20 years.

More than 78 per cent of respondents attend college football games, and three-fourths of the interviewees indicated they would attend basketball games if space were provided for them.

Only one person said he thought Tech should not be admitted to the Southwest conference. Eighty-nine per cent were strongly in favor of it, while 10 per cent had no opinion.

When asked what division of the college was the largest, 60 per cent admitted they did not know. Actually only 18 per cent did know the arts and science division was largest. The engineering division was thought to have the largest number of students by 18 per cent of the townspeople questioned.

Of the 200 persons interviewed, only two said local papers should not carry a series of articles on Tech to enlighten the public. These two, both men, could not answer all the 13 questions on the questionnaire.

One local businessman said he thought a huge sign saying "This is the home of Texas Tech," should be displayed on roads leading into town.

Almost all townspeople think Tech students are a good influence on the young people of Lubbock; however, 85 per cent said they believed the 5,000 students at Tech have no influence upon the city in any way. Only 79.5 per cent believed the students helped business. Very few women interviewed

ROTC Names Year's Cadet Officers

Special orders for appointment of cadet officers of the Tech ROTC unit have been announced by the department of air and military science.

Elbert E. Glider, geology major from Dallas, has been made colonel and cadet commanding officer of the Tech unit.

Regimental headquarters consists of Max N. Osborn, lieutenant colonel and executive officer; Joe M. Overton, major and adjutant; John F. Moss, major and D. A. Wilson, captain.

Officers for Army Battalion headquarters are W. A. Adair, lieutenant colonel; Darwin D. Talafuse, major and C. N. Pendergraft, captain.

Robert L. Goyette, lieutenant colonel; William T. Gregory, major and James A. Cunningham, captain, have been selected for the Air Force Group headquarters.

Commander for Company A is Gary L. Burton, captain; Company B commander is L. M. Huffman, captain, and commander for Company C is Charles R. Hutchins, captain.

Squadron commanders for the Air Force division are: Squadron E, Thomas E. Webb, Squadron F, Robert H. Browder, captain; Squadron G, Austin C. Rose, jr., captain; and Squadron H, James L. Lockley, captain.

Women's

(Continued From Page 6)
Choosing Las Chaparritas were Mary Baker, Billie Lou Betts, Susan Calton, Mildred Cate, Jo Cole, Frances Cox, Pat Jennings, Jerry Freeman, Margaret Israel, Peggy Jordan, Loraine McCloud, Pat Montgomery, Helen Ostrander, Marilyn Reagan, Lucille Seybold and Betty G. Thomas.

Doris Elkins has been recently appointed vice president of the Home Economics club by the club council to fill a position vacated during the summer.

knew when Tech opened, and only half of the men knew. Answers on this question ran from 1921 to 1929.

Ashworth Is New Addition To Agriculture Division

One of the newest additions to the staff of the agricultural economics department is Jack Ash-

worth of Bryan. Ashworth, who is teaching agricultural statistics, took his bachelor's degree at Texas A and M in 1942, where he taught and did research on cotton marketing for a year and a half before coming to

Tech. He expects to get his doctor's degree in "about nine months".

Floyd Tubb, '49 graduate, is teaching commercial studies in Tahoka.

Tech Dairy Products Judging Team To Compete In Los Angeles Contest

The Tech dairy manufacturing judging team will enter the Collegiate Students' International contest in judging dairy products which will be held in Los Angeles Oct. 23 under sponsorship of Dairy Industries Supply association and American Dairy Science association.

Clarence Darter, Royce Jackson, Harold Sawyer and Terry Smith are the students who will participate. They will be accompanied by J. J. Willingham, professor and acting chairman of dairy manufacturing.

Tech has sent teams to this annual dairy classic on seven different occasions in the past. To date, two individuals from this college have rated as medalists in the event.

Highest awards in the contest are graduate fellowships worth \$850 each, given for a year of research in the dairy sciences.

A new sterling silver all-products bowl is being placed among the top trophies of this year's contest to replace the bowl permanently won by Iowa State college last year.

Four cups are awarded to those college teams which place first in judging, respectively, milk, cheese, butter and ice cream. Fifteen gold, silver and bronze medals are awarded to those individual winners who place highest in each division. Individuals who keep the medals emblematic of their victories, but teams may win only cups in behalf of their institutions. A college or university may retain possession of a cup only after three of its teams have qualified as winners.

A preceding all-products bowl went out of circulation last year when a versatile team from Iowa State placed first in the All-Products division for a third time. Ohio State is the only other school to keep the bowl.

The rule of "win it three times and it's yours" applies also to the other team awards in the contest, and it is this rule which makes the coming contest in Los Angeles interesting.

As of the present moment, three teams have a chance to take permanent possession of the Ice Cream cup by placing first in ice cream scoring. These teams are Cornell, Iowa State and University of Connecticut. Last year the University of Tennessee won the cup, coming

up as a dark horse to take the award.

The Cheese cup will also be the focal point of a good deal of rivalry, for if either Michigan State college or Mississippi State can manage to place first in this division, that institution will retain permanent possession of the trophy. Although the present Butter cup has been in circulation since 1940, it has already been won twice by the University of Connecticut.

The Milk cup is the only trophy (aside from the All-Products Bowl) which cannot be won permanently by any team this year. The present cup has been in competition since 1947.

Picadors Schedule Five Tilts This Year

Five games are on the 1949 football schedule for the Texas Tech freshmen this fall under guidance of Allie White, new coach.

Friday night the West Texas State "fish" will invade Jones stadium for a night game. The night of Saturday, Oct. 22, the junior Red Raiders will go to Roswell, N.M. for a game with New Mexico Military institute. The afternoon of Friday, Oct. 28, Red Coats, Tech letterman, will bring his Odessa Junior College team to Lubbock for an afternoon encounter.

The Tech freshmen are to travel to Abilene for the annual encounter with the Hardin-Simmons first-year team the afternoon of Friday, Nov. 11. The season will close on Saturday, Nov. 19, when a return engagement with the West Texas State "fish" is staged in Canyon.

KELLER TO SPEAK

Karl Keller will be guest speaker at the meeting of Gamma Delta, organization for Lutheran students, Sunday afternoon. A business meeting will be held for the purpose of planning the initiation banquet, after which Keller will speak on "My Church."

DANCE TO BE HELD

A dance is to be held in the Recreation hall Friday, stated Troy Enis, director. No admission is charged and Burl Hubbard's orchestra is to play, he said.

Dorm IV Officers Elected

Officers and committee chairmen have been elected by Men's Dorm 4.

President is Joe Norris. Other officers include: Russell Lawson, vice president; Jim Jaquet, secretary; Rather Willis, treasurer; Travis Tadlock, intramural chairman for athletics.

First social function of the dorm is to be a dance Friday.

CLUB OFFICER LIST WANTED

Mrs. Margaret W. Walker, dean of women, urges that all clubs who have not turned in a list of their officers do so as soon as possible, in order to have a complete record of this data on file. Deadline for these lists was set for October, but they should be submitted as soon as the clubs have them completed, said Dean Walker.

There are 10 textile engineering departments in American colleges and universities. The only one located west of the Mississippi river is at Texas Tech.

T. L. Leach, professor of agricultural education, will attend the National Future Farm meeting Oct. 8-15, Kansas City, Mo.

Like The Sea? You Don Navy Blue, Train At Tech Too

Wanna be a sailor? Sixty Techs have an opportunity to court mal-de-mer with very little naval obligation. Lt. John E. Ruzic, officer-in-charge of the Naval Reserve Training center, said today.

Freshmen and sophomores joining this unit will take six weeks' training in San Diego the following two summers. They will receive ensigns' commissions in the Naval Reserve corps at the same time they are handed their college diplomas.

Students who join will attend classes held each Wednesday night for one and one-half hours. Their pay rates vary from \$2.50 to \$5.50 per session.

Non-vets, to qualify for admission, must be from 17 to 39 years of age, while vets 17 to 64 will be admitted. Active duty will be required only in case of war or a national emergency.

Ratings which can be received from the Naval Training center at Tech are: boatsman's mate, radioman, electronics technician, electrician's mate and storekeeper.

Teachers, Students Exhibit At Fair

Mrs. Ethel Beittler, assistant professor of applied arts, won first prize with a water color which is on exhibit in the Art department of the Women's building at the Panhandle-South Plains fair.

Tech students and faculty members as well have art exhibits on display. The faculty members are: Mrs. Troy Lockard, assistant professor of applied arts; Miss Martye Poindexter, professor and head of applied arts, who has a gum wood-on bowl in the exhibit.

The students include: Dorothy Harbaugh with a copper plant box and a chip carved wooden box; Mrs. Lorene Anderson, with a mahogany coffee table.

Textile exhibits are screen-printed, stenciled, tied and dyed, and batik.

The display will be at the fair grounds throughout this week.

The first meeting of the Texas Technological college Ex-Students chapter in Washington, D.C. will be held early in October. Dorothy Rhineland, former Ex-Students' association secretary, is temporary chairman of the capital group.
