Annual Homecoming Features Tech's Past

Preparations for this year's Homecoming parade are gaining momentum. The cooperation of all campus organizations is needed if the parade is to be a success, according to Jack Alderson, chairman of the Homecoming committee.

The plan at present is to present an historical pageant of Tech's 25 years. Participating organizations will draw for a year which their float will depict in the parade. An outstanding event or scene relative to Tech or one of national prominence will be the feature of each float.

Engraved plaques will be awarded to the most beautiful float, the float most clearly describing its scene and the float which most cleverly depicts its year's event. The Thomas trophy will be presented to one of these three for the most outstanding float.

All organizations interested in entering a float are urged to contact the Student Council office or D. M. McElroy of the Ex-Student association, Alderson said.

Low Percentage Gets TB Checks

Only 45 per cent of Tech students voluntarily took advantage of the x-ray survey held on the campus last week, according to Dr. Ramon Kirellis, head of the physical education department.

The total this year was 2,396, compared with 3,656 x-rays made last year. The goal of the physical education department was reached, however, as 95 per cent of its students were x-rayed.

Kirellis suggested that a compulsory program similar to the ones used at Texas university and A&M be worked out for Tech next year because of the poor response this year.

Men's Rush Week To Begin Monday

Rush week activities begin Monday for men interested in pledging a social club. Each of the seven men's clubs will be permitted one function during rush week which begins Monday and concludes Thursday, Oct. 19.

There will be no introductory convocation for rushees. The first function will be Monday night. To be eligible to pledge men must have been enrolled at Tech one semester or two summer terms and must have maintained a 1-point grade average.

Senator Lyndon Johnson Accepts Invitation To Speak at Homecoming

Texas' Senator Lyndon Johnson will be the key speaker at Texas Tech's Silver anniversary Homecoming on Nov. 11, Dean James G. Allen, chairman of the anniversary committee, has announced.

The senator's address is part of the second program for the anniversary year. The first celebration of the Silver anniversary will be held on Oct. 20.

Johnson's talk will probably be broadcast over a statewide hookup from 10 to 10:45 a.m. Nov. 11, Allen said. The program will begin at 9:45 a.m. between the Library and the Chemistry building.

Late Monday Pres. D. M. Wiggins received a telegram from Johnson announcing his acceptance of the invitation to appear

Dean Announces TCU Trip Rules

Dean of Women Margaret Twyman has released regulations for the all-school trip to the TCU game. These rules will apply to women students only.

Those planning to attend must have parents' permission and must check this permission with the dean of women as soon as possible. The trip will be adequately chaperoned, Dean Twyman said.

The chaperones, who will be faculty members, will be given lists of the student's names and addresses of their parents. They will also have the Fort Worth addresses where the students will spend the night.

The chaperones may be contacted at any time according to the dean.

Tickets Available For Trip To TCU

Techans are expected to descend on Fort Worth en masse Oct. 14, complete with cow bells and those famous "Oooooo-ah's." Advance ticket sales indicate that the official out-of-town trip for the TCU game will be well attended.

School will be dismissed for the day, Vice Pres. E. N. Jones announced.

Students who are planning to ride the charter busses and failed to secure a blank for this purpose should get the Saturday's Toreador. The blank is on page eight of that issue.

Departure time is 8 a.m. Saturday with the busses returning to Lubbock Sunday morning. However, those students who want to attend Texas Tech day at the State Fair in Dallas Sunday can get special rates to Dallas and then return Sunday night. Tickets are \$7.50 and are available at the Student council office.

Phillip To Lead Methodist Forum Discussion Tonight

Forum of St. John's Methodist church will meet tonight at 7:15 at the Methodist student center, Patti Pipkin, publicity chairman, has announced.

Billy Phillips will lead the forum discussion on "How Thin Should You Get?" A sing song led by Margie Scales will precede the discussion.

Other phases of the Anniversary celebration include a symposium and dinner on Oct. 20. Speakers for the symposium will be Dr. Henry Steele Commager, professor of American history at Columbia university; Dr. Otto Struve, astronomer at the University of California; Mrs. Chase Goring Woodhouse, member of congress and noted home economist.

Preceding the 2:30 symposium at Lubbock High School auditorium delegates from colleges and universities attending the celebration will hear Gibb Gilchrist, chancellor of Texas A&M College system, at a luncheon. Dr. T. S. Painter, president of the University of Texas will address the delegates at a dinner in Drane hall at 7 p.m.

La Ventana Contest To Select Beauties

Paula Fix, La Ventana editor, has announced that the annual La Ventana beauty contest will open this week.

Any girl with a 1-point grade average who is interested in entering the contest must go by the Student council office to check eligibility and register, said Miss Fix. The office, in Ad 205, will be open 2-5 p.m. on Wednesday, Thursday and Friday of this week and Monday of next week. Entries will be accepted either from the candidate or persons wishing to make nominations.

According to Miss Fix, tentative plans have been made for the first elimination to be held within two weeks.

This year's La Ventana will again feature 16 top beauties. The first eight will have two full pages each with the remaining eight receiving one page each.

Wiggins Begins Three Week Trip

Pres. D. M. Wiggins leaves today for Washington, D.C., on the first leg of a three-week trip on which he will speak six times to civic groups, a church group, automobile dealers and manufacturers.

After attending the American Council on Education meeting in Washington Friday and Saturday, the Tech president returns to Texas where he will speak to members of the Texas Automobile Dealers association in Fort Worth. Subject of his Monday address will be "The Responsibility of Free Men."

He then journeys to El Paso to speak to the Kiwanis club next Wednesday and at an International Mining days meeting on Friday, Oct. 13.

He will attend the Tech-TCU football game in Fort Worth and Tech day at the State fair in Dallas before continuing his tour. Monday, Oct. 16, he goes with Dr. John Carroll, head of the education department, to a meeting of the Kellogg Foundation in Austin.

October 17, the New Mexico Baptist Brotherhood will hear Wiggins in Albuquerque.

His last speaking engagement will be to the Texas Manufacturers association in Galveston on Oct. 19.

Local Fair Spotlights Tech Students In College Day Festivities Friday

The Panhandle South Plains fair extends a particular welcome to Tech students on college day Friday, fair officials announced. Programs with a college twist, ranging from the Red Raider band to the Bikini A-bomb test, will be featured.

A one-hour program spotlighting Tech will begin at 2:30 p.m. The Red Raider band, the Tech chorus, the Glee club and the Saddle Tramps will be combined in a 400-student attraction.

Three Lubbock barbers will act as judges in the beard growing contest at 7:45 p.m. Prizes will be

COUNCIL MEMBERS CALLED

Elizabeth Schovajsa, student association secretary and chairman of the elections committee, requests that all Student council members be at the council office when possible to count ballots Thursday and Friday afternoons.

COUNCIL MEMBERS TALLY VOTES—Shown above are Bill Easter, engineering representative, Elizabeth Schovajsa, council secretary and Horton Russell, president, as they count votes cast in Wednesday's elections. Thirteen runoffs will be held today to reach decisions for class officers. (Photo by I. G. Holmes.)

Class Officers Decided Today

Runoff elections for various class officers will be conducted at 5 p.m. today, according to Horton Russell, Student association president.

Seniors will meet in Ad 320 to choose a president and AWS representative. Ralph Lacy will be in charge.

Home Ec Division To Elect New Council Member

Home Economics students will elect a new representative to the Student council from 8 to 12 a.m. Friday, Horton Russell, council president, said. The election is to be held in the lobby of the Home Economics building.

Petitions have been received for Elizabeth Cocanougher, Mary Ruth Sims, Carolyn Reeves, Jane Foster and Pat Findley.

A council vacancy was left after election of Elizabeth Schovajsa to the post of Student association secretary.

Placement Service Forms Available To Tech Seniors

Seniors who expect to apply for jobs this year, either in the public schools or in business and industry, should order printed personnel sheets by Nov. 1, Mrs. Jean Jenkins, executive secretary of the Placement service, said.

The printed leaflets enable students to present necessary data in orderly manner when applying for jobs. Many employers have indicated a preference for printed sheets because of their convenience and uniformity, she explained.

Two glossy print 2x3 inch photographs must be submitted with the forms which are available at the Placement office.

Buddy Hewett and Andy Behrends are opponents in the presidential race. Mary Harral and Betty Hudson will vie for AWS representative.

Runoff elections for the junior class will be held in Ad220 with Bob Schmidt presiding. Candidates for president are Jack Shelby and George Morris; for secretary, Peggy Carter and Wanda B. Smith.

Harold Brannan will preside at a sophomore meeting in the Aggie auditorium. Contestants in the elections are Jim McGraw and Claude Caperton for president; Nancy Herrington and Carolyn Schaeffer for vice president; Katie Atkinson, and Elizabeth McCain for secretary; Marvel Gibner and Shirley Schmidt for AWS representative; Dr. Doyle D. Jackson, professor of education, and Dr. Byron E. Abernathy, professor of government, for class sponsor.

Freshmen will meet in Engineering auditorium with Keith Schier in charge. Garnet Reeves and Hardy Clemens are runoff candidates for president. Candidates for vice president are J. C. Chambers and Bob Cavazos; for AWS representative, Jo Ann Schovajsa and Kathy Phillips; for class sponsor, Joe Haddon, assistant professor of music, and Dell Morgan, football coach.

Board Approves Contract Changes

Texas Tech board of directors acted on two matters at a meeting held at the St. Anthony hotel in San Antonio Saturday. Ed Smith, assistant to the president, announced.

Minor changes were approved on construction bids for new buildings on the campus.

The board also okayed the use of the quonset hut behind the Textile Engineering building by the Production and Marketing administration. PMA will use the building for about six weeks during the rush cotton season.

Attending the San Antonio meeting were Chairman Charles C. Thompson, Colorado City; Leon Ince, Houston; C. T. McLaughlin, Snyder; Mark McGee, Fort Worth; Raymond Pfluger, Eden; Pres. D. M. Wiggins; Marshall Pennington, comptroller; Ed Smith, secretary of the board.

Bill Sylvester Is Chorus President

Bill Sylvester, senior government major of Ropesville, will be president of Tech choir this year, Reporter Kathleen Clements, said.

Other officers elected in the meeting Monday were Matt Sweeney, vice president; Elaine Felix, secretary-treasurer; Kathleen Clements, reporter.

Silver Key Holds Formal Initiation

Silver Key, men's social club, initiated new members Sunday afternoon at the Hilton hotel.

Richard Clark of Midland was elected best pledge. Best member honors went to Willie Berry of Lubbock.

New members of Silver Key include Henry Blackburn, Donnie Stevens, Jack Little, all of Amarillo; John Hicks, Denison; Charlie Myers, Mt. Pleasant; Ray Shook, Lubbock; and Clark.

Larry Sharp and J. R. Jennings, pledge trainers, were in charge of the initiation service.

College Club Has Initiation; Poage Chosen Best Pledge

Twelve members and a sponsor were formally initiated by College Club Sunday afternoon at Hilton hotel. The initiation service was conducted by Allan Dunbar, president, club reporter Jack Shelby said.

Scott Poage of Waco was elected best pledge. Other new members are Joe Barclay, Spur; Dennis Gingham, Spur; Bill Bumpass, Quanah; Claude Caperton, Dozier; Bryan Close, Shamrock; Jack Eubank, Ranger; Bill Fite, Troup; Wayne Leath, Olney; Joe Jay, Roby; Royce Smith, Stamford; Ray Tomlinson, Tulia.

Jack Ashworth was initiated as

152 Women Pledge Social Clubs; Group Is Largest In School History

One hundred fifty-two Tech women will officially become social club pledges tonight as the clubs begin their regular fall meetings.

This group of women is the largest ever to participate in rush activities at Tech, according to Mary Anne Kelley, WICC president.

Rushes signed their preferential bids Monday afternoon and were received by the clubs at 5 p.m.

Number of pledges received by each club was Las Chaparritas, 41; Ko Shari, 37; DFD, 35; San Souci, 23; Las Vivarachas, 16.

Received by Las Chaparritas were Denese Arnold, Joyce Booher, Pat Brady, Bettie Brown, Margaret H. Brown, Olga Burns, Mary Ruth Byrd, Donna Caldwell, Barbara Curry, Judy Engert, La Verne Estes, Dewey Faye Everett, Betty Flippin, Nancy Free, Elizabeth Halton, Sue Haynie, Petra Leach, Connie Lee.

Sue Ledbetter, Beverly Lemmon, Marjorie Lloyd, Dorothy Lusk, Martha McCullough, Rita McIlroy, Ann Mansfield, Faye Marsh, Sue Mayfield, Jeannine Mullins, Nell Peel, Joy D. Reil, Anne Katherine

one of the club sponsors. He will serve with Bill Whittington.

Rike, Marilyn Row, Sandra Sadler, Pat Sibson, Ann Sheffy, Monte Smart, Patti Sone, Lanelle Sunrow, Elouida Thomas, Ruth Joy Thomas, Shirley Walther.

New Ko Shari pledges are Alathia Baldwin, Gloria Belloumini, Rosemary Blackshear, Darilyn E. Blount, Pat Bollinger, Pat Bryan, Martha Butler, Helan Cartwright, Peggy Carter, June Cook, Iva Crowley, Pat Duncan, Wanda Duncan, Jan Edwards, Margaret Garlin, Dell Gay, Jane Hardy, Martha Sue Hicks.

Radonna Kerr, Pat Kirk, Katherine Lewis, Ann McLaughlin, Zita Martin, Maylene Meester, Kathy Phillips, Mary Lou Repper, Lena Schmidt, Arliss Shell, Betty Slough, Shirley Stephenson, Mary Virginia Still, Juanita Underwood, Mary E. Walker, Marilyn Wheelless, Peggy Wilson, DeRose Wittenburg, Dorothy Yates.

Pledging DFD are Joan Aulback, Joann Biggs, Barbara Bryan, Sylvia Bryan, Ann Coffey, Kay Collins, Marianna Corry, Mary Jo Craig, Nancy Dorn, Sammie Farmer, Arlene Freeman, Gaynell Bordner, Nancy Gill, Mariellen Griffin, Marion Holton.

Joan King, Skeet McLain, Verna Morrisett, Rhea Myers, Mary Norman, Mary Lou Patton, Jerri Pace, Loraine Pipkin, Joyce Rose, Edean Singleton, Lee Sneathen, Nina Spearman, Joan Terry, Joan Thornton, Nell Quattlebaum, Dorothy Vogel, Murna Welch, Wanda Woody, Patsy Williams and Peggy Wright.

Pledges to Sans Souci are Ann Alexander, Geraldine Barton, Marion Best, Adrienne Bridges, Diana Darnell, Jo Francis, Ernestine Gammill, Joann Graham, Pat Hardy, Annie Hayes, Carlene Helm, Phyllis Hesser, Gillian McIntire, Charlotte Mathis, Mary Jeanne Miller, Nancy Moran, Marian Nevitt, Betty Sallee, Rita Schickraun, Rossi Stiles, Betty Wagner, Darlene Wiese and Barbara Wood.

Las Vivarachas received Ann Bucy, Ola Cox, Joan Eisberger, Mary Ann Holt, Jerri Hudson, Mary Louise Jones, Violet Land, Jo Muncy, Margaret Pate, Vanda Ray, Marjorie Stockton, Kathy Stowe, Patsy Tarver, Mary Jean Tefteller, Betty Whisenant and Cecelia Wingham.

A club for vegetarians, the "Cabbage Heads," was formed at Tech in the fall of 1936. Their first meeting was held in Aggie Grove, where they served vegetable soup for dessert.

Bell To Head Square Dance Club

Tommy Bell was named president at the first meeting of Circle Eight, square dance club. Richard Kleinschmidt was chosen vice-president.

It was decided that the club would meet on the first and third

Tuesdays in the Recreation hall for square dance instructions. All persons interested are asked to contact the new officers.

Tech's annual Parents' Day celebration was begun in 1936.

Canadian Problems Whiz Continues Work On Book; Writes For Magazine

Have you ever run across one of those vicious mathematical puzzles which always seem to remain unsolved no matter how many investives and hours of hard work are heaped upon them?

The creator of some of the more fiendish devices is disguised as a kindly professor at Tech. Dr. Leo Moser, professor of math, is new to the campus this year, but is already contemplating bestowing some of these mathematical wonders on his hapless students.

Born in Vienna, Austria, 29 years ago, he lived in Canada from the time he was three until his recent move to Texas.

The chess champion of Winnipeg, where he lived the major part of his life, is working on a book of mathematical puzzles and games with Mel Stover of Winnipeg. Moser and Stover are problem co-editors of Science and Mechanics magazine. Parts of their book are already appearing in the magazine.

Moser said that he is interested in puzzles and games because they stimulate interest in math. The more serious side of math is not neglected by him; however.

He has published a number of research papers and holds membership in several mathematical societies and in Sigma Xi, national scientific research organization.

Although he had been told the usual tall tales about Texas, Moser said that he was not very impressed by them. "This section of Texas is very similar to the country around Winnipeg," he stated.

In commenting on the similarity between Texas students and Canadian students he said, "There is more difference between students of different divisions at Tech than there is in an average Tech student and one from Canada."

He said that there were several outstanding differences in the students, however, and explained that Canadian students are more advanced because of the extra instruction they receive in high school.

Moser holds three degrees from as many universities. He holds a B.S. from the University of Manitoba in Winnipeg; an M.A. from the University of Toronto in Toronto, and a Ph.D. from the University of North Carolina.

Dairy Team Starts Two-Week Tour

The dairy products judging team leaves for Dallas Sunday morning, Oct. 8, to compete in the Southwestern dairy products judging contest. Tech won top honors last year in this contest and will try to keep the trophy.

From Dallas the team goes to Raleigh, N. C., to compete in the Southeastern dairy products contest Oct. 13, held at North Carolina State college.

The team is to compete in the Collegiate Students international contest Oct. 16 in Atlantic City.

STUDENTS! MAKE MONEY WRITING LUCKY STRIKE "HAPPY-GO-LUCKY" JINGLES!

It's easy! It's fun! No box tops to send! No essays to write! Just write a simple four-line jingle, and you may make \$25! Start today!

Write a "Happy-Go-Lucky" jingle, like those you see on this page, based on some phase of college life. If your jingle is selected for possible use in Lucky Strike advertising, we will pay you \$25 for the right to use it and your name in our advertising. Start today. "Happy-Go-Luckies" will soon be running in your paper. Send in your jingles—as many as you like—right away, and \$25 can be yours pronto if your jingle is chosen. Be the first to write a jingle in your school. Watch this paper for more "Happy-Go-Luckies."

READ THESE SIMPLE INSTRUCTIONS

1. Write your "Happy-Go-Lucky" four-line jingle on a plain piece of paper, or postcard, and send it to Happy-Go-Lucky, P. O. Box 67, New York 46, N. Y.
2. Every student of any college or university may submit jingles.

I really am a Lucky guy. Just got my Ph. D., To prove to you how much I know, L.S., sir, means F.T.

I study French and English lit; I study Latin too, But words that I like best to hear Are Lucky Strike, don't you?

Be Happy-Go Lucky!

Enjoy truly fine tobacco! Enjoy perfect mildness and rich taste!

L.S./M.F.T.-Lucky Strike Means Fine Tobacco

Better Instruction . . .

Tech's level of instruction is keeping pace with advances in other fields. The report recently compiled for the Southern Association of Colleges and Secondary schools shows that the faculty academic level has been raised considerably since last year. Students are being instructed by a total of 74 doctors of philosophy, which is 10 more than were on the staff last year.

Fewer faculty members have earned only the bachelor's degree, and even in the field of teaching fellows, the trend is toward employing those persons with master's degrees. Since Tech has begun offering work toward the doctorate in English and history, four teaching fellows, holders of the master's degree, have been employed. In past years the majority of Tech's teaching fellows held only the bachelor's degree. That was understandable since the master's degree was the highest Tech could offer.

In the history department one teaching fellow has completed 50 hours of work beyond his master's degree. And in the English department an assistant professor of English from TCU is doing part-time instructing while working on his Ph.D.

While we do not mean that departments who have teaching fellows with only bachelor's degrees are inferior, it is encouraging to think that more students will be getting instruction from persons with master's degrees. In many instances the teaching fellows will have had previous experience as teachers.

Next summer the education department will offer courses for persons working toward the doctorate, with the chemistry and geology departments getting their doctorate programs underway next fall. This will mean increased competition in the race for teaching fellowships, since persons with master's degree will receive first consideration.

Better instruction for everybody is bound to be the outcome.

Club Budget . . .

Now is joining time.

Each fall the 100-plus departmental, social and honorary organizations make their big drives for members. If you plan to join a club, now is the time to do it, so that you can get in on the year's activities from the first. But in picking your organizations, keep in mind that each time you add your name to a club's roster, you have made a contract to do your part in making the club a success. This includes attending all meetings and doing what outside work is assigned you.

Social clubs have limited memberships, and honoraries will depend on the quality of work you do, but departmental clubs are open to all students and are organized for your benefit. Freshmen who find it hard to make new acquaintances can meet people with interests similar to theirs by simply joining these organizations. Not only can one gain practical experience in his major field, but he can feel that he is actually a part of something in a large school. One never feels out of place when he is working with people who are interested in the same things. An added advantage in belonging to a departmental club lies in the fact that it often brings students into contact with experienced older persons who are already established in his chosen field.

There is a definite place for clubs in your college career. They help you develop social presence, give you a chance to cooperate with others and help develop your outside interests. It is generally agreed that college without extra-curricular activities would not be college. But it must be remembered that you are here primarily to develop intellectually. You can defeat your purpose by joining too many clubs.

The trick is to budget your time, decide how many outside activities you can afford to have and choose them carefully according to which ones appeal to you most. Then go out and join with the intention of working for what you have chosen. The old cliché, "You get out of a thing what you put into it," still holds true. (G.M., S.T.)

Cokes Make Cents . . .

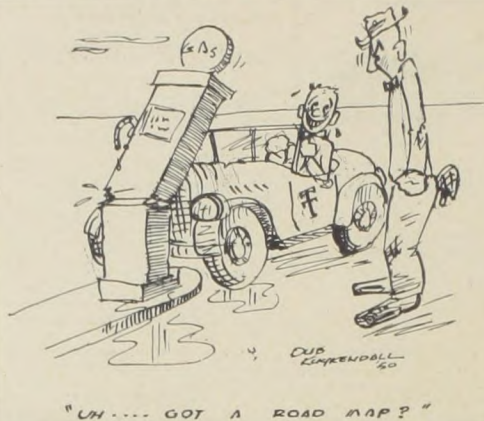

Are we, 1950 students, willing to donate an extra \$544 to the Student Union building fund this year? That sounds like a big order, but let's consider it for a minute.

We are all eagerly awaiting a Student Union building, but what are we, individually, doing to promote this project? The proceeds from all coke and candy machines in campus buildings, including the dormitories, go toward paying for bonds on the Student Union building. Net profits on the coke machines last year were \$10,657.03. A total of \$5,000 was netted from the other machines.

Yet exactly \$544 was needlessly lost last year on the coke contract by broken and unreturned bottles. A profit of one and one-fourth cents is made on each bottle sold, but one and two-thirds cents is lost each time that bottle is not returned. A the same time that we think we are putting money into the building fund, we are sometimes actually taking it out through neglect.

Notice the various benches on the campus and how many coke bottles are under them. Cast a sweeping glance down the halls and notice how many are visible. Glance into the classrooms at the number on the tables and in the corners. We are cluttering up our campus as well as cutting down on the coke profits by indifference to this situation.

If we are allowed to enjoy the luxury of coke machines in our campus buildings, the least we can do is abide by the rules set up for them. The janitors and coke men do not have time to chase up flights of stairs searching for bottles. It is not their job, but ours. It is our job to take an extra minute and place that empty coke bottle on the provided rack. Each time we do this, let's remember we are donating one and one-fourth cents to our Student Union building. Let's make up that \$544 lost last year; let's even double it by starting today to work toward a greater building fund and a cleaner campus. (B.W.)

West Of College Avenue

Wanted: Early Issues Of Toreador; Roommates Quizzed In Survey

By SUE HOLMES
Toreador Editor

LOST AND FOUND

Lost: Two issues of The Toreador. These are not just any two issues, but very special ones. The Toreador was 25 years old yesterday, but the first two issues, Oct. 3 and Oct. 10, 1925, are missing from the files. It's not likely that any of today's Techs would have the first Tech college newspapers, but we are hoping that some reader or readers may know of an aunt, uncle, brother, sister or perhaps a parent, who could furnish these early issues. We'd like very much to have them for the archives.

Found: Results of a survey made among 150 college students concerning what makes a good roommate. Outlook Publishers have included in their Going-to-College handbook a list of qualities to be desired in roommates. Replies from all over the United States have been boiled down into the following list. A good roommate is considerate (about lights, radio, use of room, etc.); respects personal property and privacy; gets along; goes at least halfway; helps keep a neat room; can discuss controversial questions without getting ruffled; makes reasonable adjustments; keeps reasonable hours; cultivates a cheerful disposition.

The survey also lists some negative impressions. An undesirable roommate thinks chiefly of self; makes unreasonable demands; betrays confidences; borrows without asking; leaves things scattered around; argues heatedly; is noisy—and noisy; comes in late and wakes everybody up; is too solitary or too sociable.

We doubt that any roommate is completely devoid of all the undesirable qualities. And it is rather doubtful that all the desirable qualities will be found in one roommate, but it might help to check yourself first, then hope that your roommate sees this list. It is a temptation to leave the radio on during the request program to see if "I'll Never Be Free" is played for you, but remember your roommate's inability to study to music. Keeping the room clean should be almost a cinch, since the sand hasn't blown yet.

BOOKKEEPING

Ownership of textbooks is probably a new thing to most freshmen, who are accustomed to using state-issued texts. The initial expense of the books may have made quite a dent in the billfold that was already flattened by paying tuition, room and board. Not to texts will be the kind you want to keep, although you may end up hanging on to them or accepting a quarter for the ones that will not be used next semester or next year.

Most college texts can be the nucleus of a good library. Although it is not time to think about selling books, it is a good idea to plan to keep some of them. No matter what profession you are planning to enter, a good library of books related to your field would be good to have.

There are arguments for taking marginal notes in texts. The pros

think it helps to take the notes right next to the pertinent paragraph, while the cons staunchly hold to the belief that a book should not be marked. Ten years hence it might be interesting to flip through a book filled with marginal notes and see how opinions on the subject have changed.

F. G. Melcher, writing in Publisher's Weekly, seems to feel rather strongly on the subject of book ownership. He thinks teachers seldom impress upon their students the importance of owning and keeping books used in their courses, or the desirability of purchasing books relating to their special interests. "The book to the student," he says, "becomes merely a tool to be thrown away, or sold for a trifling sum, as soon as he has passed the course."

UPPERCLASSEMEN, TOO

Several issues ago we included some humorous incidents involving freshmen. Freshmen aren't by any means the only students good for laughs, however.

Last spring an instructor had been absent from classes for about a week. Word reached one of her students, who happened to be engrossed in a basic photography course that this instructor was suffering from virus X. No doubt the student was understandably lost in the maze of photographic terms and had spent a few too many hours in the darkroom, because when he saw the instructor back in class the next week, he rushed up and greeted her with: "Gee, I sure am glad you got over that Super XX!"

PLEASANT SURROUNDINGS

We've heard of students trying to get into certain sections of courses because of preference for special instructors, hours of the day, or days of the week, but a new reason has been added for class requests. One coed said she went down the class schedule and when she found a class that met in the Museum, she signed up for it. "It's so pretty over there," was her explanation. By next year she should have a pretty good choice of new buildings to choose from, if she continues to choose electives in this manner.

COWTOWN BOUND

It's not a minute too soon to begin planning to take part in the official out-of-town trip to Fort Worth for the Tech-TCU game. Transportation seems to be pretty well under control. Student council is chartering a bus, and the fare is \$7.50 round trip. This is not over a dollar more than a regular one-way ticket on a non-chartered Fort Worth bus. Cheap enough! Housing accommodations are left up to each individual student, however. Better start lining up a friend or relation living in Cowtown, because we hear that hotels clear to Wichita Falls are booked solid by TCU's rosters who will be in Dallas for the game preceding Tech's night game in Fort Worth.

West Texas State is the only team in the Border conference that has not yet been beaten this year.

ABOUT THE CAMPUSES

The SMU campus discovered that politics this year is about the only thing you can get a stomach full of at the same old rates.

A Wyoming student at Creighton university began crying during a violent windstorm. When her classmates pointed out that the storm would soon pass, she said she wasn't scared. The wind just made her homesick.

Texas Tech library doesn't have quite the problem of Centre college in Kentucky. A book was recently returned to them after 100 years. The fine (which won't be collected) amounted to \$1,095.

The girls in the dormitories at New Mexico Western keep a file on all men who own cars. Motor scooters and pogo sticks don't count.

A University of Houston student enrolled in a course called "Prohibition and Parole" because he thought he might be able to "beat the rap" someday with what he learned.

An editorial in The South Texas urges A&I students to vote in class elections with this reminder: "A strong representative student government is a hard group to run from the outside and a good group to speak for those who made it strong."

SMU's business division is offering two new major courses this fall, one in retail merchandising and one in real estate.

The Daily Texan of the University of Texas has put out its first Saturday paper since pre-war days. The paper was cut to five days per week during the war and had operated that way until this year.

Motorized Texans seem to be causing parking problems throughout the state. A student council committee at SMU is studying the problem on that campus. More parking space close to the campus will be available to University of Texas students with the completion of three new parking lots.

Football games Saturday opened two new stadia in the Southwest conference. Baylor and the University of Arkansas played their first games on new fields.

THE TOREADOR

THE TOREADOR, student newspaper of Texas Technological college, is published every Wednesday and Saturday on the Campus of Texas Technological college at Lubbock by the associated students of the college.

Faculty Additions Boost Staff Rating

A general raise in academic attainment among faculty members is shown this year, Vice President E. N. Jones has announced.

Ten doctors of philosophy have been added since last year bringing the total to 74, Jones said. A report on distribution of faculty degrees will be sent this week to J. M. Godard, executive secretary of the Southern Association of Colleges and Secondary schools, of which Tech is a member, Jones said.

Faculty members who hold only the bachelor's degree have been reduced since last year, the report shows. During the 1949-50 school term 72 members of the teaching staff held bachelor's degrees. Out of the 301 faculty members on the staff last year, 63 persons had the master's degree plus at least one year of graduate work. Also 99

faculty members held the master's degree with additional graduate work not amounting to a year, Jones said. The net gain of 10 doctors of philosophy raised that total from last year's 64 to 74.

Faculty members holding the master's degree are about the same in number as last year, the vice president said. The report also shows that 33 faculty members did graduate study this summer.

Last year 80 per cent of the faculty belonged to at least one learned society in their respective teaching fields. A similar report has not been completed as yet on the present faculty, Jones said.

In the fall of '39 a date bureau was organized on the Tech campus. For 25 cents either boys or girls could obtain the date of their choice.

WHO Tells The FRESHMAN What To Buy?

Nobody much—he's no fool, that kid—mostly he uses his eyes and follows the trend of campus preference.

That is why years after years of freshmen select the COLLEGE BOOKSTORE to service their needs for their class work—and stay with them thru their college years.

They too realize that they are making an investment in college life for years to come—for all profits of the bookstore are to be used for support of the union building.

Holleman Hollers

Maybe its just that we don't see every Texas A&M football game, but we have come to the conclusion that Bob Smith, Aggie fullback, is a specialist. He runs over Texas Tech as though its line were populated with his relatives.

No other single player has been so much trouble to one team. It's

almost as though he popped up out of the ground each autumn with a year's supply of sadism and violence saved specially for Tech. Running the guards, tackles or ends, it makes no difference to him how he scores, and a touchdown scored on a pass is still six points as he demonstrated, Saturday night.

Leading ground gainer of the Southwest conference last season, Smith was considered the outstanding performer in the circuit by many observers. Like many great players, however, he seems to be doomed to graduate unappreciated on the national scene.

He will probably be prevented

from being selected as All-American by the fact that he plays on one of the few very weak Texas A&M teams in recent years.

A Tech defensive line which seemed able to stop Byron Townsend, a much more publicized player, appeared helpless by contrast where Smith was concerned.

On only a few occasions were such men as Price, Hix, Cavazos and Pirtle able to stop the holler. However, Pirtle apparently got mad in the second half and waged a personal war with the Aggie backfield. Two consecutive thrusts at his position were stopped cold by the Tech wingmen. He then teamed with his opposite number,

right end Dick Cavazos, to thwart a third down attempt to pass by Aggie quarterback Sikes.

Tech will be taking on another toughie (are there any other kinds this year?) when they meet the West Texas State Buffaloes here, Saturday night. The Buffs won their third straight game of the year, last weekend, when they took the McMurry Indians by a score of 41-19.

* * *

It may be all SMU on the Southwest conference front this year. Rusty Russell has come up with another gang of last minute winning Frank Merriwell imitators to continue in the Doak Walker

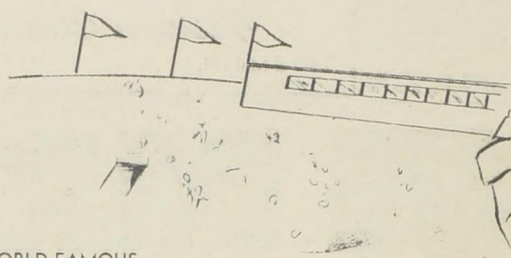

tradition.

Fred Benners' sensational performance in the Mustang's game with Ohio State, last week, gave substance to a rumor going the rounds that Kyle Rote isn't the only football player on the pony roster.

Three touchdown passes in one quarter is a pretty good record in any game. When that performance allows the lucky team to take a victory it indicates substantial talent on the part of the passer.

After Texas university's poor showing in its first two games, it

Aggies Down Raiders 34-13 in Grid Tilt At San Antonio

Two halves and two completely different football games were featured in the Tech-Texas A&M contest Saturday night at San Antonio's Alamo stadium. The Aggies won the game 34-13.

Tech dominated the first half. A backfield of Ike Stuver, Tim Hatch and Earl Jackson with Pete Edwards and Junior Arterburn alternating at quarterback, seemed able to penetrate the Aggie line almost at will. Marking up 12 first downs in their game, the Raiders rolled to two touchdowns and came within one yard of another.

Only one of the wierdest series of downs on record prevented a third Raider score. Early in the game, halfback Ike Stuver broke through tackle and outran Aggie defenders until brought down on the A&M one after a 58-yard jaunt.

Penalties for backfield in motion and illegal use of the hands set Tech back to the 21. Junior Arterburn lost 10 more yards on an attempted pass. Pete Edwards completed an aerial to Close for a five yard loss and dropped 10 more on another attempt to pass.

To top the whole humiliating series, Aggie end Barton partially blocked Stuver's fourth down punt which was good for only eight yards.

Tech line play during the first half was spectacular except in the case of Robert Smith, Aggie fullback. As in last year's meeting between the two teams, the great power runner was virtually unstopable.

Running through every position in the line, Smith alone kept A&M in the game during the first half. Dropping his power role for a moment in the second quarter, Smith turned pass receiver when he gathered in a short shot from Sikes and galloped over the goal. Smith scored three touchdowns and set up another with his consistent gains.

Most of the Aggies yardage was made around and over the scrappy Raider line until, in the second

half, A&M reserve strength began to wear the Matadors down.

Drives of 80 and 70 yards resulted in Tech touchdowns. Stuver and Jackson again led the Raider attack, although the return of Tim Hatch to action lent considerable aid.

There was a noticeable improvement in the Raider aerial attack. Quarterbacks Edwards, Arterburn and Don Seale, who saw his first varsity action during the game, completed 7 of 16 passes for the night.

The one glaring weakness the Raiders demonstrated during the game was a lack of a strong reserve line-up. Whereas the Aggies substituted such men as Gardemal, Schaeffer and Royalty with little loss of power, the class of Tech play was lowered when first stringers left the game.

Toreador ads get results.

HOLLEMAN—

(Continued from page 6)
appears that the Mustangs will be almost a shoo-in for the conference title.

Just where did this Oklahoma A&M team come from? The Aggies have for two straight Saturdays, eked out triumphs over Southwest conference opponents.

Sounds as if the University of Oklahoma doesn't get all of the football material from that section. Maybe OU coach Bud Wilkinson's private draft board is slipping.

Sun Devils Crush Lobos In Grid Tilt

The Border conference spotlight was turned this week on Arizona State of Tempe as the Sun Devils crushed the New Mexico Lobos 41-6 in the only conference game played.

Arizona Flagstaff dropped LaVerne of California to rack up their first victory, 37 to 20. The game between Loyola of Los Angeles and Texas Western, scheduled to play at Texas Western Saturday night, was canceled.

West Texas State's Buffaloes, sparked by fullbacks Bill Cross, Charlie Wright, and the accurate throwing of Gene Mayfield, defeated powerful McMurray Saturday night at Canyon 41 to 19. Until the last five minutes the Buffs led by only a scant 20-19, but then rushed three scores across to clinch the victory.

Hardin Simmons' Cowboys won over Trinity in Abilene Saturday night by a top-heavy 41-0. The Cowboys were held scoreless by stubborn Trinity until the last play of the first half when Ken Watson scored on a 35-yard pass from John (Modle T) Ford.

Utah converted two costly Arizona Wildcat fumbles and one pass interception into valuable touchdowns Saturday night in Salt Lake City and won 27 to 14.

Whites Down Reds In Freshman Game

Texas Tech's freshman football team played its first intra-squad ball game Friday with the Whites winning over the Reds 13-6.

Buddy Farris, fullback for the Whites, scored the first touchdown of the game in the first quarter on a 15-yard run. Moe Turner's try for extra point failed.

The Reds bounced back in the second when Quarterback Hawkins ran over from the 15. The try for conversion failed and the half ended with both teams tied 6-6.

On the opening kickoff of the third quarter, left-half Norman Jones received the ball on his own 25-yard line and ran it all the way back to score the White's winning touchdown. Turner kicked the extra point and the game ended with the Whites ahead 13-6.

Friday the Reds and Whites will play their second game on the practice field. The coaches for the Whites are J. B. Mahler, John Andrews and Hugh Jackson. Coaches for the Reds are Bill Stallings and Cal Stephenson.

Intramural Football Begins; Men's Dorms Vie For Title

Intramural dorm touch football begins this week with more than 200 boys participating and two games already scheduled.

Dorm IV is to meet Doak hall at 5 p.m. Thursday on the field behind the Gym. On Oct. 10 West hall will play Sneed.

All independent teams must turn in their eligibility lists by Thursday, George Philbrick, instructor in physical education, has announced.

All entries in Intramural tennis, doubles and singles, must be in by Oct. 8, said Philbrick.

Each dorm has already signed up about 30 players for the table tennis tournament which starts today. The champions of each dorm, both singles and doubles, will meet in a playoff for the all-college championship. All dormitory championships will be played on dormitory tables.

ENGINEERS SHOW DRAWINGS

Drawings made for various movie sets are on exhibit in the Engineering hall. These drawings were shipped to Tech by the Americal Institute of Decorators and will be displayed until Oct. 14. F. A. Kiemschmidt, professor and head of architecture department, said.

FTA TO MEET THURSDAY

The Future Teachers of America will meet at 7 p.m. Thursday in the Extension building.

This will be the last meeting FTA can accept dues for this semester. Everyone who is interested is urged to attend, President Bob Maniss said.

DAIRY—

N. J. This is the largest exposition held by the producers of dairy products. A silver cup will be the sweepstakes award to the top team and gold, silver and bronze medals will be given for high point individuals.

The team members are Glynn Becker, Paducah; Flake Tompkins, Fort Worth; Emmett Koen Jr., Lubbock and Ralph Button, Austin. The team will return to Lubbock Oct. 22.
