## Associate Editor Of Vogue To Discuss Codes Of Behavior

Mrs. Millicent Fenwick, associate editor of Vogue magazine who thinks etiquette is inevitable will speak on codes of behavior at 7:15 tomorrow night in the Rec hall.

Author of the recently published "Vogue's Book of Etiquette," Mrs. Fenwick has been associate editor of the magazine for more than ten years.

Home Economics club, acting as institutional host to Mrs. Fenwick, will honor her with a reception in the Home Management house after her lecture. Members of the Home Economics club council, faculty members and special guests will be present. Miss Geraldine Clewell, sponsor of the club, said. Plans are being made for a luncheon to honor Mrs. Fenwick tomorrow, Marion Woods, president of the Home Economics club, said.

**Has Traveled Widely**  
The young editor is equally at home in Europe and South America, having traveled widely on both continents. A native New Yorker, she was educated at the Foxcroft School in Virginia. She spent four years in Spain when her father, Ogden Hammond, was appointed by the late President Coolidge as ambassador to that country.

"A code of behavior is an inevitable part of life in any country," says Mrs. Fenwick, "and if we hadn't inherited ours, we should have had to invent one." "A system or set of rules is vital for anything in which human beings are involved. The practical beauty of etiquette is that it is precise, detailed, and widely accepted," the magazine

MILLICENT FENWICK

editor states.  
Mrs. Fenwick thinks etiquette has practical, aesthetic and civil values, and she embodies these three points in her book.

**Students Admitted Free**  
Students will be admitted to the lecture on presentation of their activity receipts. Faculty and other non-students may purchase tickets at the door for \$1.20. James G. Allen, chairman of the Rec hall committee, said.

## Changes Made In WICC Rush Rules; Registration Begins January 31

By CHARLOTTE BLACKBURN  
Toreador Staff Writer

Changes in rush rules for Women's Inter-Club Council spring rush week, Feb. 3 to Feb. 9, were announced yesterday by Alice Hix, WICC president.

Women planning to participate in rush must register sometime between Tuesday, Jan. 31, and Friday, Feb. 3, in the WICC office, Ad-203. They will be able to register each day from 12:30 to 4 p.m. Miss Hix emphasized the importance of this registration for those who plan to attend rush convocation to be held at 5 p.m. Friday, Feb. 3 in Aggie auditorium.

Previously, prospective rushees have registered at the convocation, but this new system of pre-registration allows WICC to check on each one's grades before convocation and saves time at convocation," Miss Hix said.

During registration each woman will be assigned to a group, with which she will attend open houses held by all clubs. She will also be given a copy of rush rules, added Miss Hix. Also at registration, all women will receive a card to be turned in when she attends convocation. This is a check to see that she attended the compulsory convocation, said Miss Hix.

Open houses will be held Saturday, Feb. 4. Each rushee must attend all at the time designated to the group to which she has been assigned.

Invitations to parties are to be picked up on Monday, Feb. 6 between 12 and 3 p.m. in Ad-203, said Miss Hix.

"The new procedure for picking

## College Physician Returns From New York Meeting

Dr. Embree Rose, college physician, has returned from the twenty-eighth American College Health association meeting held in the Henry Hudson hotel in New York City.

There were 150 representatives from 35 states and two delegates from Canada at the meeting. Texas Tech has been a member of this association for two years. There are four other Texas colleges in the Southwestern section that are members. They are North Texas State Teachers college, Sam Houston State Teachers college, University of Texas and Texas State College for Women.

## Women's Discipline Committee Functions To Be Investigated

### Professor Writes Magazine Article

"Non-Meaningful Verbal Structure as Projective Material," an article written by Dr. Lehman C. Hutchins, associate professor of education and psychology, was published in the December issue of the "Journal of Consulting Psychology," Doctor Hutchins said yesterday.

The article is an exploratory study of certain verbal structures to determine their effectiveness as projective material, stated Doctor Hutchins.

Such projective material has only recently come into use and has been a development of major importance toward tapping psychological processes and dynamics of human behavior, Doctor Hutchins said.

Doctor Hutchins received his doctor's degree from Columbia University.

### Stock Show Starts On Campus Today

The Second Annual Little International Livestock show, sponsored by the Tech Block and Bridle club, is being held today at 2:00 p.m. in the livestock pavilion.

Approximately 60 animals are being exhibited by senior animal husbandry students. Awards will be presented at the conclusion of the show and the best showman will receive an award from the national chapter of Block and Bridle.

The judges for the show are Homer Brumley, 1935 Tech graduate, and William Gregory, who graduated from Tech in 1934. After his graduation Gregory taught vocational agriculture at Junction and Eola. At that time he held the position of livestock superintendent of the state eleemosynary institutions. He now is veterans coordinator of agricultural training in Dickens county.

Superintendents of the show are Doyle Lane, general director; Buddy Winters, beef cattle; William Krueger, dairy cattle; W. G. Rogers, horses; J. H. Heath, sheep and Bobby Fee, swine.

### Group From Council To Report Findings To Administration

By JACK SHELTON  
Toreador Staff Writer

Reported reasons why the Women's Disciplinary committee is not functioning was the main topic of discussion at the Student Council meeting Monday night.

It was moved that Curtis Sterling, student body president, "appoint a committee to investigate specific problems and complaints (concerning this matter), and that the committee is to present this data to the proper administrative authorities." Besides Sterling, Marshall Gettys, Raymond Brigham and Margaret Clark will serve on this committee.

An informal discussion concerning whether or not students should smoke in class-rooms also was held. This matter was referred to the council by a group of faculty members for recommendations. Bill Trenfield, senior arts and sciences representative, made the motion, which passed, "to recommend to the proper administrative authorities to leave smoking regulations as they are now."

### Other Business Discussed

Other business of the night consisted of a report, by way of explanation, from Raymond Brigham, business manager of the council, concerning the inadequacy of the speakers connected with the amplifying system in the Ad building. Due to the condition of these speakers, the broadcasting of the carols preceding the Christmas holidays was unsuccessful. Brigham was appointed by Sterling to investigate the possibility of securing new speakers to be installed in connection with the new public address system which has recently been completed.

### Members Praised

Roy Trice, senior representative from arts and sciences, reported that the official "lost and found" department of the college is located in the registrar's office. "There had been some question of the location of the department," Trice said, "and after studying the situation, it was decided this would be the most centralized place."

A vote to phrase a resolution of appreciation to Bill McCasland and Robert Lee Craig, representatives to the council who will graduate in January, for their services, passed unanimously.

Absent from Monday's meeting were Pat Keffer, Bobby Joe Salem, and Brodie Hutchinson.

## Fire In Aggie Shop Caused By Motor

Moderate damage was caused by a fire which broke out Monday evening in the old aggie engineering shop building. The fire was discovered about 9:30 a.m. E. L. Price, assistant fire chief, estimated that the building was about 15 per cent damaged.

It is believed that the fire originated in a faulty electric motor and spread from it to the attic, where the damage was most extensive. The west wall of the building was damaged primarily from smoldering cotton-hull insulation.

The roof of the building was destroyed. Water damage was slight. A metal lathe and two motors were totally ruined.

## Museum Expert To Tell Of Mexican Travels Tonight

By BETTS DALTON  
Toreador Staff Writer

Stories of expeditions in Mexico will be told by Dr. Robert T. Hatt tonight in his talk "Exploring Mexican Caves and Mountains." Dr. E. N. Jones, vice president of Tech, will introduce Dr. Hatt tonight at 8 p.m. in the north wing of the Museum.

Dr. Hatt has made two expeditions to Mexico; the first to the highlands of Michoacan in 1944 to study the effect of the new volcano, Paricutin, on living things. He took colored pictures of the destruction of San Juan Patemarcituro, a city of 3500 that was completely covered by lava.

The second expedition was in 1947 to the peninsula of Yucatan for a study of the history of Mayan caves. Pictures were made of the Mayan Indians and the underground caves there.

Dr. Hatt is from Detroit, Mich. where he is director of the Cranbrook Institute of Science. Experienced in museum problems, Hatt is on the honorary staff of four museums, and is on the executive committee of the American Association of Museums. He is past president of the Midwest museums conference.

"I think this building has an opportunity to become the leading museum of the Southwest", Dr. Hatt said of the Tech museum. It has ample space for the exhibition of the archeology of the area.

This lecture is open to the public.

## FORMER TECH FACULTY MEMBER DIES

Final funeral arrangements for Miss Bonnie Dysart, former faculty member in the education department, are pending until a brother can be notified.

Miss Dysart died in her home at 2705 Twentieth street here in Lubbock about noon Tuesday following a lengthy illness. She first became a member of the Tech faculty in 1928.

up invitations is to be used to prevent women from getting two invitations at one hour. WICC fills out invitations; they are checked to eliminate duplication, and then picked up by rushee," Miss Hix continued.

Parties will be held Monday, Feb. 6, from 5:30 to 7 p.m., Tuesday, Feb. 7, from 5:30 to 7 p.m. and Wednesday, Feb. 8, from 5:30 to 7 p.m. and 7:30 to 9 p.m.

Preference slips are to be signed by rushees on Thursday, Feb. 9, from 12 to 2 p.m. at WICC office. At 5 p.m. that day, rushees will receive invitations to pledge at WICC office, said Miss Hix.

Requirements for rushees are: they must have a C average, must pay registration fee of \$1, and must go to open houses and parties at the time assigned, stated Miss Hix.

Silence will last from 2 p.m. Saturday, Feb. 4, to 5 p.m. Thursday, Feb. 9 after invitation to pledge has been received, she added.

## Research On The Toreador Reveals Readers Want Larger News Coverage

So you don't think The Toreador covers campus news properly. Well, apparently the majority of Techsians think not. According to research done by an economics and business research class, 127 out of 200 students claim The Toreador does not cover all matters of interest to Tech students thoroughly.

The purpose of the questionnaire, conducted by the economics class, was to find out who reads The Toreador and what they like best in it. And here is what was found.

Of the 200 students interviewed, 132 read every issue of the paper, 48 read it often, 20 read it occasionally, only 71 read it thoroughly, while 85 read it partially and 44 scan it.

One hundred thirty-three of the interviewees read one of The Toreador columns regularly. Page one articles were read more than anything else, with sports and "Circle Chatter" falling next. A large majority favored the return of a regular joke column such as "Pot-pouri."

The Toreador was considered a first class semi-weekly college newspaper by 163 of the 200. And most of these would like to see it

become a daily, according to the survey.

Over half the interviewees scanned the advertisements, and 13 read them thoroughly. Over one-fourth consider Toreador advertisers when they buy. Almost all thought the line and price of merchandise should be carried in ads. Three-fourths preferred cartoon advertising to straight-copy ads.

When asked to list five local firms whose advertising is reasonably consistent in The Toreador, students listed 32 places of business. Most often named were Alschuler's, Varsity Bookstore, Hemp-hill-Wells, Corcoran's, Thomas Jewelry, and College Bookstore.

More coverage of national sports was favored by 119. And 139 considered the local sports activities adequately covered while 140 said "Sports Chatter" contains what they want to read. The majority also favored sending a Toreador sports representative to all out-of-town activities with expenses paid.

When asked what they would like to see more of in The Toreador, almost all said human interest articles—so here you are!

# THE TOREADOR

THE TOREADOR, student newspaper of Texas Technological college, is published every Wednesday and Saturday on the Campus of Texas Technological college at Lubbock by the associated students of the college.

Entered as second class matter, October 31, 1925, at the postoffice in Lubbock, Texas, under an Act of March 3, 1879.

## Rising Number Of Divorces Create Need For Strict Laws

In answer to the accusation that colleges in America are now "marriage mills" it would be easy to take the monkey off the schools' backs and cite a more pertinent example of blasting at the foundation of our way of life. We might say, "What about the divorce racket?"

Those people who meet that right mate in college are sometimes met with some pretty frightening mates later. In marriage they are faced with new responsibilities and the realization that Hollywood's conception of love on the silver screen is somewhat distorted.

The next step in their thinking about these difficulties is the ease with which the whole union can be sacrificed, by a simple and comparatively inexpensive divorce. Evidently, quite a few couples choose to say, "Well, tough, but we actually weren't meant for each other. Adios!"

The oldest and most beautiful of all our institutions is in deadly peril of becoming the antiquated and unnecessary end of a beautiful courtship. Lately that is becoming more and more indicative of the attitude of contemporary homemakers. It is hard to get along with the spouse, just get yourself a lawyer. He'll untie the knot that encumbers.

It is about time the lot of us took stock and demanded that stringent divorce laws be put into effect by state legislatures. Public opinion must be brought to bear on the courts which make it too easy for couples to break it off at the first sign of difference.

Training for marriage in colleges is doing a great deal of good and the program might be increased to include a wider educational group to even better advantage. But it is evident that marriage counseling, training and agencies for adjusting family difficulties must be supplemented with better divorce laws. When the American family fails, America is in danger. . . . O.H.

## Loss Of Frank Junell Will Be Felt Heavily By College

The announcement last week that Frank Junell, assistant to the president, had resigned his job came as a surprise and a regretful one at that. Mr. Junell, who came to Tech from Texas Western when the present administration began, was one man who really worked for the college.

In the nearly two years which we were associated with him as a sort of public relations man and friend of Texas Tech we never found him at any time unwilling to cooperate to the fullest extent on any problem which came up. He gave unselfishly of his time, not only during office hours, but his spare time as well toward building this college.

One has only to look around to see the visible advances which Texas Tech has made in the past one and one half years and certainly Frank Junell was a part of that advancement.

As yet a successor to Mr. Junell has not been named, and he will remain at his desk until the time when such a person can be found. To Frank Junell in his new job we would like to say, "Best of Luck" and for his job here at Tech we would like to say, "Well Done!"

## Broader College Training, Goal Sought By University Women

By MARY VESTAL  
Toreador Staff Writer

What has your college education meant to you? This was the question asked on a survey made by the American Association of University Women last year. The results were published in the fall issue of the Journal of the AAUW, the first issue since Tech became a member of the AAUW.

The questionnaire was published in an earlier issue of the Journal, according to Mrs. Vivian Adams, professor and head of home economics education. Mrs. Adams was chairman of the committee seeking to gain admittance for Tech into the AAUW.

The answers to the questionnaire were received from women who had been out of college from two to forty years. Several Tech professors participated in the survey.

Replies showed two emphases. The answers showed that the majority of those questioned felt that a college education should be broad enough to cover every important aspect of each woman's life, and that a college education should give more specific skills, more practice in doing things.

Most frequently expressed wishes were for more liberal arts for those who were in home economics, and more home economics for those in liberal arts, and more social science for both. The answers expressed a wish for more practice in home-making, child care, public speaking, teaching live children, rather than merely learning the history of education out of a book, more chance

to speak the foreign languages which are studied.

The survey shows that women feel college should prepare them to make a living, as a way of life for the unmarried, in case of need for the married. College should prepare women for the role of homemaker, wife and mother. Here, homemaking is seen as household skills, motherhood primarily as a psychological skill in rearing children, being a wife as being helpful to one's husband. In short, these women feel that college should provide more practical training for their life after they graduate.

## Six New Courses Being Planned For Spring Term

Six new courses which are not listed in the catalog will be offered next semester, Warren G. Harding, assistant to the registrar, announced yesterday. Eight courses, especially designed for teachers, are to be taught on Saturdays, Harding said.

New courses include: Sociology 334, Patterns of Cultural Traditions; Horticulture 434, Landscape Planning; and 423, Design and Operation of Parks and Recreation Systems; Zoology 332, Comparative Vertebrate Embryology; Psychology 233, Fields of Psychology; and Education 5311, Research Problems.

Saturday courses which will be offered during the spring semester are: Education 3365 from 1 to 4 p.m.; Education 533 from 12:30 to 3:30 p.m.; Education 5311, from 9 to 12 a.m.

English 4315 will be taught from 9 to 12 a.m. Saturdays. English 537 will be offered during those same hours.

History 435, section 1, will be offered from 10 a.m. to 1 p.m. Saturdays. History 535 classes will be held from 9 to 12 a.m. Saturdays.

One course, Education 531, is to be offered from 5 to 6:30 p.m. on Tuesdays and Fridays.

## Library Publishes Teacher Handbook

A new library handbook is being published for the use of faculty members. The idea behind this book is primarily the same as that of the student handbook.

This guide was compiled and written by the library staff under the editorial supervision of J. E. Platz, assistant librarian.

The handbook gives faculty members information as to how to get books put on reserve and how to order books.

## Tech Steers Are Entered In Show

Texas Technological college has entered six yearling steers in the Southwestern Exposition and Fat Stock show to be held in Fort Worth Jan. 27-Feb. 5, W. L. Stangel, dean of agriculture has announced.

Included among the show animals are three Herefords and three Aberdeen Angus, Stangel stated. The steers are to be exhibited by William T. Piper, junior animal husbandry student and cattle herdsman for the college. R. I. Collingsworth Jr., animal husbandry student from Abilene, will assist Piper.

Since he is serving as superintendent of the steer department for the 1950 show, Dean Stangel will be in charge of the entire steer show. Previously he had served as superintendent of the Aberdeen-Angus division and has served as an official of the show since 1921. At the present time, Stangel is attending a meeting of superintendents of the show in Fort Worth.

A Tech graduate, W. A. King, is general livestock superintendent of the show. King was graduated in 1932 and formerly lived in Floydada.

## alschuler's POTPOURRI

Professor: Young man, do you know who I am?  
Student: No, Sir—but if you remember your address, I'll take you home.

He: The last issue of the humor magazine must have really been good.  
She: How do you know? I thought you never read it.

He: I don't, but the editor's been kicked out of school.

It's impossible to kiss a girl unexpectedly—the nearest you can come to it is to kiss her sooner than expected.

The modern play-suit is merely a couple of bandanas and a worried look.

Young wife, sadly: He never used to snore before we were married.

Joe: "Is she a nice girl?"  
Moe: "Moraleless!"

What is that crawling on the wall?  
A lady bug.  
What eyesight!!

## Rose Of Delta Sig Will Be Presented In Annual Formal Dance Friday Night

Beta Upsilon chapter of Delta Sigma Pi, international professional business fraternity, will hold its annual formal Rose presentation dance from 8:30 to 11:30 p.m. Friday in the ballroom of the Hilton hotel. The Techsians orchestra will provide music for dancing and for the presentation ceremony.

Doris Brooks, business administration senior from Marshall, will be presented as "Rose of Delta Sig" in a formal ceremony during the intermission. Miss Brooks' attendants will be the runners-up, Dorothy Stephenson, business administration junior from Fort Stockton, and Pat Todd, arts and sciences junior from Houston. Miss Brooks will be presented a bouquet of roses and named sweetheart of the fraternity.

Those to attend include E. C. Grimm, Fannie James; C. D. Wickson, Evelyn Veretto; Land Wall, Rita Roberts; Ellis Kelly, Jamie Reagan; Wendell Wagley, Billie Jean Hogg; Russell Crocker, Wanda B. Smith; James Niver, Eva Johnson; Wayne Lee, Earline McClintock; Jimmy Hall, Mary Stanford; Austin Christman, Dorothy Stephenson; Gale Rogers, Susan Sherry; Elmer Austin, Maxine Boyd; Keith Schier, Doris Brooks;

Messrs. and Mmes. Joe Cree, Stan Burnham, Ben Hearne, Jr., James Rink, Bill Teuton, Gordon Heard, Bob Berry; Louis Kiker, Lowell Emmet, John Gillespie, R. L. Van Norman, LeRoy Ogden, Pat Kidd, George Kenneth Hobbs, Ronald Rushing, Boyd Webb.

At the time this issue went to press, a complete date-list was unavailable.

## Circle Chatter

Judy Pollard, former Tech student and La Ventura beauty in 1947-48, visited friends and relatives in Lubbock recently. Judy is attending Texas university.

Tom and Margaret Allen visited friends on the campus Saturday. Tom was associate editor of The Toreador last spring, and Margaret was assistant publicity manager for Tech.

Tommy Cooper's Christmas present to his fiance, Cecile Butler, was her Las Chaparritas club pin.

"Battle of Cassino" and "Liberation of Rome", combat films, will be shown at the Infantry club meeting at 7 p.m. tomorrow night in M-2.

Patsy Elkins, Tech student from Littlefield received an engagement ring from Ed Elliott, Los Camaradas member, Thursday night. Wedding plans are being made for August, after summer school.

Patricia Lindsey, ex-Techsan and member of Sans Souci social club was home for Christmas, visiting her parents and many Lubbock friends. She is attending Southern Methodist university.

Sans Souci exes and former Tech students also visiting in Lubbock over the holidays were Dorothy Barnett, who is going to school at the University of Arizona, and Jeanetta Lewis, who is attending U.C.L.A.

Nancy Powers, arts and sciences junior from San Angelo, was chosen queen of the Tech student Christmas ball held Dec. 26 at the Melody club in San Angelo.

The Student Religious council will have a council supper and business meeting at 6 p.m. tomorrow at the Church of Christ student center, 2412 Main, announced Marion Estumgardner, president. The Wilson lectures to be presented in March will be discussed, he said.

## Ko Shari Observes 18th Founders' Day

Ko Shari, women's social club, observed its eighteenth anniversary with a founders' day dinner Sunday night in the ballroom of the Hilton hotel.

Barbara Scott, club president, welcomed the active members, alumnae and patronesses, and introduced Dr. W. C. Holden, dean of graduate studies and one of the founders of Ko Shari. Doctor Holden told of the heritage of the club.

Mr. and Mrs. Douglas Moore, club sponsors, and Dr. and Mrs. Holden, honorary sponsors, were recognized. Dr. Agnes True, president of the patronesses, was introduced by Miss Scott. Miss Sannie Callan, head of the child development and family relations department, explained the founding of the patronesses group. Alumnae were represented by Mrs. Betty Winner, president of the Alumnae, who told of the activities of that group.

Activities of the present club were told by Mary Ruth Norris, who introduced the pledge program. The Charleston was done by Nancy Herrington, Marilyn Denman and Joan Bollinger. Nancy Davis and Janell Reed gave vocal solos reminiscent of the twenties.

## Techsans Present Two Radio Shows

Margaret Clark and Phil Nickell will conduct the Tech News cast at 6:45 p.m. today over KSEL. This is one of two programs presented regularly by Techsans over Lubbock radio stations, Robert L. Cunningham, assistant professor of speech, said.

Student from radio classes and the Tech Broadcasting club will conduct the broadcasts each week. Members of a radio writing class in the department of journalism will write the scripts for the programs.

Bill Parsley will interview Miss Lola Marie Drew, associate professor of home management, on the Tech Information show at 10:45 a.m. Saturday on KFYO. The discussion will concern "Care of Electrical Appliances".

Each week, a faculty member from one of the divisions will be interviewed. Scripts for these broadcasts will be written by the radio writing class.

## Sans Souci Members And Pledges To Be Honored With Tea Saturday

Members and pledges of Sans Souci, women's social club, will be honored with a tea from 4 to 6 p.m. Saturday in the home of Mrs. J. N. Michie, club sponsor, 2110 17th street.

Guests are to come in two groups, one from 4 to 5 p.m., and the other from 5 to 6 p.m., Gay Reeves, club president, said. Miss Reeves will preside at the tea service the first hour and Delight Hardin, president for the spring semester, will preside during the second hour.

The house party will consist of Misses Reeves and Hardin, Levora Manning, vice president and Paula Fix, secretary of the club.

Directors of the Easter plays to be presented by Wesley Players have been elected, announced J. B. Cooper, president. Oleta Hill and Grady Singletery were elected at a meeting held Sunday.

## Marriage Vows Are Read At Iowa Park

Maye Mitchell and Bill Kelley, both Tech graduates, were married in a double ring ceremony recently in the First Baptist church at Iowa Park.

Helen Mitchell, former Tech student, attended her sister as maid of honor. Robert L. Horton of El Paso was best man. Following the ceremony, a reception was held in the home of the bride's parents.

The bride was a member of Las Chaparritas social club while attending Tech. Kelley was a member of the Raider squad and has completed his first season with the Green Bay Packers professional football team in Green Bay, Wis.

The couple will make their home in Lubbock after a wedding trip to New Orleans, Monterrey and Mexico City.

## TCC MEETING SLATED

A president will be chosen to succeed Bill McCasland, who is to be graduated this month, when the Tech Chamber of Commerce meets at 7:30 p.m. tomorrow in C-101.

Final plans are to be made for the spring Howdy dance which the Chamber of Commerce is to sponsor, he said.

The meeting tomorrow will be the last of this semester, and McCasland urged that all members attend.

## Women's Senior Ring Is Redesigned In Miniature

A miniature senior ring especially designed for women can be ordered by the Tech Bookstore, W. C. Cole, manager of the store, stated.

These rings the same finishes and stones as the regular weight rings, Cole said. The price of each is \$29.70, including tax.

**SOPHOMORE FLASH**—Jack Alderson, shown above, has become a regular Raider cage starter in this his sophomore year. He sparked the Raiders to two victories out of three starts in the recent New Mexico road trip.

## Basketball Team Returns From Trip; Has Two Conference Wins, One Loss

By JIM SANDERS  
Toreador Sports Writer

Tech's basketball team made its debut into Border conference competition with considerable success. The Raiders returned to the campus with victories over Texas Western and New Mexico, but the New Mexico Aggies knocked them out of a perfect record for the trip.

Veteran Gene Gibson and Jack Alderson, the sophomore sensation, lead the scoring for the Raiders on their first lap of the conference race.

### Win In Overtime Period

The first night out, Thursday, Jan. 5, found Coach Fels Robison and his crew in El Paso playing against time and Miners of Texas Western. The regular playing period ended in a 49-49 tie and the 5-minute overtime which followed allowed the Raiders to edge ahead and emerge with a 59-58 decision.

The Techsians enjoyed a 9-point lead at half time but the Miners stormed back in the second period to narrow the margin and pull abreast 44-44 with less than five minutes remaining. Alderson was high man in the point-getting department with 15. Gibson and the Miners' D. W. Harkins each had 13 points.

Gibson's 17-point effort was not enough to carry the Raiders through the contest against the

## High Scores Soar As Intramural Basketball League Resumes Play

By SAN ANDERSON  
Toreador Sports Writer

The West hall Eagles supplied the big offensive punch in last week's intramural basketball. The Eagles soared to a 70-29 win over the Filthy Five of Dorm IV.

Archie Cambell soloed for 29 of the victor's tallies, and Hugh Ingram, a teammate, made 13.

Bo Barkovsky counted 14 times for the Filthy Five in a game, but futile effort to keep his team abreast with the Eagles. The game was a Dorm II encounter.

West hall III eked out a win over the Doak hall Green Hornets 24-23 in another Dorm league II match in the week ending Saturday.

J. C. Griffin and Jud Marsters each made six points for West hall and tied for individual scoring honors for their team. Gary Wingham garnered 13 tallies for the Green Hornets.

**Rebels Trounce Hotrods**  
Warren Robertson and Ken Burgess with 12 and 8 points respectively led the Dorm IV Rebels to a 36-25 triumph over the Sneed hall Hot Rods.

Bob Cline, scoring ace for the Hot Rods, paced both the victors and the losers individually with 14 points. This game also was under the auspices of Dorm league II.

**Independent League Tilts**  
Two games were played in Independent league II the preceding week. The Ball Hawks scored a 50-19

win over the Dairy club with Max Williams and Durwood Wright forming a potent one-two punch for the winning five. Williams made 18 points while Wright racked up 16. Corky Hunsucker's 7 tallies were high for the Dairy club.

American Institute of Mechanical Engineers lost 21-10 to the American Society of Civil Engineers in a low scoring game. Bill Tibbets was high for AIME with 6 points, and Charles Wood made 6 for personal honors on the winning quint.

**Anonymous Quints Down Wildcats**  
The Anonymous Quintuplets netted 40 points for an Independent league I win over the Wesley Wildcats who totaled 22 points during the encounter.

San Anderson was high for the victorious Quintuplets with 19 tallies, while a teammate netted 9 points. Jim McGraw paced the Wildcats with 3 field goals.

A "Leroy" paced each team in another Independent league I clash last week.

LeRoi Ogden led the Jolly Jiggaboos to a 23-18 decision over the Quintessence Quintet who had Leroy Morrison as the chief scoring threat. Each of the two players netted 7 points.

Mrs. Curtis Sterling, who was graduated from Baylor university with a degree in radio, will speak to the Tech Broadcasting club at its regular meeting at 5 p.m. today in Ad-320.

## Five Home Games Included In 1950 Football Schedule

An 11-game football schedule for Texas Tech with five contests slated for Jones stadium next fall, including a Nov. 11 homecoming date against the University of Tulsa, has been announced by Morley Jennings, athletic director.

Texas Christian university returns to the Tech schedule after a short absence, replacing the 1949 date with Abilene Christian college.

Five of the foes for Coach Dell Morgan's Red Raiders are in the Southwest conference. Border conference competition and the game against Tulsa, of the Missouri Valley conference, round out the slate.

The complete 1950 schedule:  
Sept. 23—Texas, here.  
Sept. 30—Texas A&M, San Antonio.  
Oct. 7—West Texas State, here.  
Oct. 14—TCU, Fort Worth.  
Oct. 21—Baylor, Waco.  
Oct. 28—Texas Western, here.  
Nov. 4—Rice, Houston.  
Nov. 11—Tulsa, here.  
(Homecoming).  
Nov. 18—Arizona, Tucson.  
Nov. 25—New Mexico, here.  
Dec. 2—Hardin-Simmons, Abilene.

### BSU TO HONOR GRADS

Graduating seniors will be honored at the fellowship from 4 to 6 p.m. Friday at the Baptist Student Center. Refreshments will be served, games of table tennis, "42," volley ball, and checkers will be available to all who attend. Everyone is invited.

Sports Chatter

by KEITH ANDERSON

Conference play is well underway for the Tech cagers, and so far, the sophomore-laden charges of Coach Polk Robison are not doing so bad. In fact, their recent road trip through Mexico and El Paso netted them two victories out of three games. That might not sound too good to an outsider, but anyone who knows the Border conference teams' habit of losing on the road, and winning at home, does not take such an accomplishment lightly. Of course it's too bad that we couldn't have taken a clean sweep, especially after beating the Westerners of El Paso. It was only natural that after reaching such great heights against Texas Western, the boys would suffer a letdown against New Mexico A & M. Still it was thought before the game, that letdown or no, Tech would have enough to take the Aggies. Well, it appears that A & M either has hit its stride, or Tech had the misfortune of catching the Aggies when they were at their peak.

As was suspected and as was predicted by some, Sophomore Jack Alderson, of Lubbock, is setting the pace for the hoopsters. Of course we did not get to watch him here at home and he looks good. He is a smooth floorman as well as a good shot. In addition to these worthy assets, he is also one of the best hustlers on the squad. On our book, that means quite a lot. We remember well the fact that Ardis Barton had a small physique and no great amount of talent and became one of Tech's better ball players in the last couple of seasons simply because he was out there trying at all times.

Still Alderson isn't alone in the department of good ball playing. Two veterans, Gene Gibson and Jiggs Jackson, are playing their share of the work, and if we know those two boys, they will continue to do so. Gene, a forward up until now, seems to be coming along pretty good on the post. Gibson was honored in a national basketball magazine as being one of the three best centers in the Southwest. That's a pretty big order, but if he continues to improve, he will earn the honor.

Jackson a guard for the last three seasons, seems to be playing his usual type of good ball. Jiggs at times has the hard luck of being colder than that well-known potato. Luckily for Tech it isn't often, and then rarely does he stay cold for a complete game. Jackson is a ball-hawking type of player, and is the old man of the Tech squad. He is a good floorman, and does much to steady the crop of sophomores with whom Coach Robison is working. In fact, Jackson's playing seems to be a fairly good indication as to the kind of play that the Raiders are going to turn in. Against New Mexico A & M, Jiggs was decidedly off his game the first half, and the score at halftime was a landslide in favor of the Aggies. Jackson got hot in the last half, the whole team picked up, and nearly pulled the game out of the fire.

While we are devoting this column to basketball, we would like to extend congrats to Coach Robison for the fine work he is doing. Kinda early you say to be slapping him on the back. We don't think so, because no matter what our final record is, Tech is already assured of being well represented when she takes the hardwood, and by a team that before the season started was expected to fight it out with Hardin-Simmons for a loop cellar.

Tech Professor Attends Marketing Meeting In N.Y.

Miss Cureton Harris, assistant professor of marketing, attended the Allied Social Sciences and the American Marketing association conferences in New York City Dec. 27-31.

Five leading authors defended their methods of presenting the various aspects of teaching general marketing, Miss Harris stated.

The Committee on techniques of teaching marketing, sponsored by the American Marketing association reported on 1949 research to improve teaching procedures. Next month the committee will start distributing bulletins to association members.

Articles Jam Lost-Found Office

By SUE HOLMES Toreador Staff Writer

Have you lost a glove, a cedar gavel, a slide rule, earring, book or jacket? Or maybe you've lost your pledge pin, wedding band, home key or car key.

All these articles and many more have drifted into the lost and found department, which is located in a corner of the registrar's office in the Administration building.

Apparently students do not know where to look for lost articles, judging from the number of unclaimed belongings we have in here," Mrs. A. N. Harp, employee in the registrar's office, said. Some days she does not have any calls for lost articles, she said.

A checkbook belonging to some person with a balance of \$262.95 has been turned in to the office. Many gloves—odd and in pairs—are nestled in the lost and found drawer. Four buttons, which look like the kind that would be hard to replace, are also in the drawer next to 13 odd earrings, none of which look like the ten-cent variety.

Psychology Adds Two New Courses

Two new courses in psychology are being added by the education and psychology department, Dr. Lehman C. Hutchins, associate professor of the department, said yesterday.

One of these courses, Psychology 436, will be listed in the catalogue under the description "Principles of normal personality and character development; the integration of development factors."

"The emphasis will be on a practical understanding of personality development," Doctor Hutchins said in reference to this course. The course will be designed to meet the practical needs of teacher, personnel workers, clinical psychologists and others who are interested in the development of personality from the point of view of guidance of growing personalities and the adoption of appropriate attitudes which will be remedial, ameliorative or therapeutic, he continued.

For this reason, Doctor Hutchins explained, the orientation will not be toward theoretical and research problems, but such problems will not be wholly neglected, as some students may be interested in taking advanced psychology.

The other course is to be listed in the catalogue as "Psychology 233, 'A continuation of introductory psychology, with special reference to such fields as experimental physiological, social, abnormal, clinical, and industrial psychology."

"This course is designed to present a bird's eye view of the fields of psychology, in order that the student may better understand some of the widespread developments of modern psychology," Doctor Hutchins said. An attempt will be made to show how psychologists actually go about their work, so as to make possible a much fuller understanding of the results and their interpretation, he continued.

Auctions Held

Last year two auctions of lost and found articles were held in the Rec hall, Troy Enis, Rec hall director, said. The money from the auction went into the recreation fund, he said. An auction has not been held this year, but if enough of the displaced objects are not sought after by their rightful owners soon, one will be necessary. Slowly but surely, the shelves and drawers reserved for the lost and found objects, burst at the seams. Some of the things have had to be moved to the basement.

Articles with feminine owners include 13 scarves—some wool, some silk and some cotton ones. A white silk one has "Diball" embroidered in big script letters on it. Another is white with red "Dorothy's" printed all over it. The other 11 cannot be identified. The wind is going to start howling out of the north, girls, so you'd best go see if you can find that scarf you lost.

Club emblems, including a Sans Souci pledge pin, a Los Camaradas key, a Tech student council key, are unclaimed. Same goes for a wedding band, a girl's ruby ring, a strand of pearls, a gold cross on a chain, and a bobby pin decorated with make-believe sapphires.

Kings Turned In

Two senior rings dated 1947 have been turned in. One is a Lubbock ring. A bracelet lost by a 1947 graduate is also in the drawer. One ring in the drawer has a silver face on it with the words "Bodie and Frances Forever" engraved in it.

A cedar gavel was found in Ad-208 last Nov. 17. If it belongs to you, retrieve it and restore good parliamentary order to your organization.

Officials Present Series At RAAB

A series of talks at Reese Air base, to be made by several officials and professors at Tech, is to begin this month, Dr. D. M. Wiggins, Tech president, announced Monday.

The talks, which grew out of a general discussion with air base officials early in the year, will cover the general fields of international relations, economics, government, and education. Lt. Col. H. G. Brady of Reese Air base is in charge of arrangements.

Doctor Wiggins, who will speak this month, has not announced his topic. Dr. E. N. Jones, Tech vice president, plans to speak on some general phase of education during February.

The speaker for March will be Roy Bass, Lubbock lawyer and part time lecturer in accounting and finance, who will speak on responsibility in civism. J. William Davis, professor and head of government, will speak on international relations during April. The final speaker will be Byron R. Abernethy, associate professor of government, whose general theme will be economics.

Two pipes full of stale tobacco and two tobacco pouches have been found by their owners. A green alligator billfold with Eleanor Lincoln's name in it has not been claimed. Neither has Donna Woolman's billfold.

Glasses Found

Nine glasses cases are idle and five pairs of glasses with pink plastic rims have been turned in. Two more pairs are in cases.

If it is a book you've lost, you should check with Mrs. Harp before replacing it. She has a shelf-full of tomes ranging in subject matter from the New Testament to progressive basketball.

Many pencils and fountain pens have been turned in. Paddocks, lipsticks, combs without teeth, tie clasps—no matter what you've lost, be sure to check with Mrs. Harp before renouncing your loss.

One thing an inventory of the lost articles revealed was that Tech students hold fast to their money or else have none to lose. Among all the trivia, only five lone pennies can be found.

Techsan Is Named Wesley Secretary

Oleta Hill, sophomore business administration student from Levelland, was elected secretary of the national organization of Wesley Players, at the annual meeting held during the Christmas holidays at Urbana, Ill., announced Billy Phillips, official delegate from Tech's chapter.

Miss Hill is taking the post vacated by Gene Sorley, also a Tech student. Miss Hill represents the only national officer from Texas. Other officers named were from Tennessee and South Dakota.

Alpha Eta, the Tech chapter of Wesley Players, with its ninety members, is the largest chapter in the United States, said Phillips. He added that the most members other chapters had was twenty and the average was about five. Tech's chapter also gives more plays, which is the primary purpose of the organization, said Phillips. Tech presents 10 plays a year, while most other chapters present only two.

Baptist Students To Hold Discussion

"Your Vocational Choice" will be the subject of a panel discussion held by the Baptist Student Union at 7:30 p.m. Friday at the Baptist student center, announced Ardelle Hallock, student director.

Roy Bass, Tech instructor and Lubbock attorney will be the leader. On the panel will be Mrs. J. Ralph Grant, representing the home with the topic, "finding friends and marrying one." Dr. M. N. Ewing will advocate "the medical profession." Mr. W. P. Clement, Tech's registrar, will speak "as an educator" and Rev. Cecil Ray will talk on the clergy.

Funds for the sidewalk being built from Doak hall to College avenue were donated by W. B. Rushing, ex-student and owner of the Varsity Bookstore, through the Ex-Student's Loyalty fund.

# Review Of 1949 Football Explains Tech Record Of 7 Wins, 5 Losses

By KEITH ANDERSON  
Toreador Sports Editor

The football season has come and gone, and all that remains is a summary of the year's happenings. This past season saw Tech's Red Raiders defend their title for the third consecutive time, and also keep their record of never having won a post season game intact. It also saw four members of the championship team taking down all-conference awards, and Tech facing the realization that none of the four, along with many other stalwarts, will grace the field next season.

Bud Conley, Marshall Gettys, Dan Pursel and Cal Stevenson received "all" selection with the first three making the first team, and Stevenson being named on the second eleven.

Conley and John Andrews were named co-captains of the 1949 edition of the Raiders by a vote of the squad at the end of the season, and as a reward they received a big welcoming kiss from the Raisin bowl queen as they stepped off the train in Fresno.

**How to Longhorns**  
In the past season Tech stepped out and played an 11-game schedule which seems indicative of things to come.

To open the season, Abilene Christian college met the Raiders here Sept. 10 in a night game that Tech was supposed to win in a walk. The final score was 20-0. Tech, but the Wildcats for the most part battled the favored Raiders on even terms.

The University of Texas was next in line and in a day game in Austin Sept. 17, the heat and Longhorns proved too much for the plains boys and Tech absorbed a 43-0 shellacking.

**Down to San Antonio**  
The Texas A & M game was named as the official out-of-town trip for students one week later, Sept. 24, and so we went down to see of the Redclads could repeat last year's win. For a while it appeared as if they might, but in the last half Bob Smith and company proved too strong, and Tech came out on the short end of the 26-7 count. This game also saw the last action of the season for Guard Don Williams who sustained a bad knee injury.

Tech opened conference play at home Oct. 1, against West Texas State. The Raiders opened up strong, but suffered a serious let-down and won 35-19 on the strength of the first period margin.

The Tulsa Golden Hurricane, a team that one week later was to astonish the nation by upsetting mighty Villanova, was the next visitor, and after a pier sixer, the Raiders emerged victorious 15-0.

**Homecoming Game With Baylor**  
Homecoming was due, and Oct. 15, the unbeaten Baylor Bears romped into town. They romped out again with a 28-7 win via the

strong arm of Adrain Burk, but Tech played one of its better games.

The oft-beaten Arizona Wildcats next invaded Jones stadium, and after a listless first half played in a drizzle, Tech caught fire in the third quarter long enough to win 27-7 for its second conference victory.

The mighty feathered flock of Rice was next on docket, and in spite of the long trip to Houston, Tech played a much better game than the 28-0 score would indicate. The Owls were listless, and for the most part were out-fought by the lighter Raiders.

Tech made its third conference tilt another win on Nov. 5 in El Paso, as it held the nation's leading offensive team to scant yardage, and shut the Orediggers out for the first time since 1947, when Hardin-Simmons turned the trick. The final score read 14-0 and gave Tech three wins and no losses in conference competition for the season.

The Raiders enjoyed an open date, then marched on the University of New Mexico in the last regular tilt away from home. The Lobos were game, but lacked the stuff to stop the Raiders from winning in what turned into a complete rout.

**Defeat HSU For Crown**  
The Raiders needed only to get by Hardin-Simmons on Nov. 26 for their third consecutive conference crown, and win they did, 23-13. The Cowboys threw a strong passing game at the home eleven, but could go nowhere on the ground.

Tech was automatically invited as host team in the Sun bowl at El Paso, but declined and in turn accepted a bid to the Raisin bowl in Fresno, Calif. The opponent was San Jose State and in spite of playing a good game, Tech lost to the Spartans 20-13.

Tech ended the season with a record of seven wins and five losses and had 184 points against it, while racking up 188 of its own.

## Cosmopolitan Club Hears Speaker On European Trip

The speaker for the Cosmopolitan club's last meeting will be L. E. Parsons, head and professor of Textile engineering, who will speak on his trip to Europe, said Jim D'Acosta, president.

The meeting will be at 7:15 p.m. Thursday in Ad 214, stated D'Acosta.

The president will be elected for next semester, said D'Acosta. All students are invited.

Cpl. Bill Frame from Reese Army Air Base will be the leader of forum at 7:15 p.m. today at the Methodist student center, announced Cecil Matthews, student director. "What Is Christian Brotherhood" will be the topic.

Patronize Toreador Advertisers

## Wiggins Schedules Seven Speeches

Dr. D. M. Wiggins, Tech president, will speak tonight at a meeting of the Roswell Education association. Teachers representing the city, county and New Mexico Military institute will be present.

The president will be the main speaker tomorrow night at the annual award banquet given by the Colorado City Chamber of Commerce. A trophy will be presented to the outstanding man of the year in that city, Charles C. Thompson of Colorado City, chairman of the Board of Directors, arranged for Dr. Wiggins to be present.

Doctor Wiggins plans to attend a meeting of the Council of Presidents Monday and Tuesday in Austin.

Other talks the president has scheduled include two Jan. 19. He will speak at Reese Air Base at 3:30 p.m. That night he will be the guest speaker at the Lubbock Junior Chamber of Commerce annual distinguished service award banquet.

A new course will be offered in the clothing and textiles department next semester. It is Clothing 233. Mrs. Lila Kinchen, assistant professor of clothing and textiles, will teach the course. It deals with the theory of dressmaking and will be a lecture course, with clothing demonstrations by Mrs. Kinchen and the students.

## Dr. Strout Plans Trip To England

Dr. Alan Strout, professor of English has been granted a sum of money by the American Philosophical society to do research in Edinburgh, Scotland and London during the coming summer.

The research will be done in connection with the Quarterly Review and Blackwoods magazine, both British periodicals founded in the early part of the nineteenth century. These two magazines are similar to the Atlantic Monthly.

Doctor Strout will sail from New York in June and return to Lubbock in September.

American Philosophical society is the oldest learned society in the United States, having been founded in 1743 by Benjamin Franklin, Doctor Strout said.

## Riley, Rogers Win Design Contest And Prize Of \$20

William Riley, senior architecture student from Fort Worth, and James M. Rogers, senior agriculture student from Lubbock, won a competition for the best design for an entrance to the campus.

Students of E. J. Urbanovsky's landscape class and architecture students cooperated on each design. The designs were judged by Urbanovsky and the winning drawings are now displayed in the window of the Varsity Book store.

W. B. Rushing, owner of the Varsity Bookstore and ex-student of Tech gave \$20 to the winning team of designers.

## Basketball--

(Continued from page 4)

New Mexico Aggies. The Aggies turned on the power at the opening whistle and by half time had built up a 36-19 lead. Tech came back the second half in a more business-like manner to narrow the score margin to 4 points before the final whistle. The final score was 58-54 with Tech on the small end. Jiggs Jackson, who was unable to find the range the first half, dumped in 6 field goals and a charity toss in the last period to aid in the Raider cause.

Gibson's 17 points were matched by the Aggies' Dick Apodaca for the scoring honors. Tech's Jackson and A&M's Thomas each had 14.

## Saturday Night In Albuquerque

In Albuquerque Saturday night the Raiders took their second victory in three starts by taking the New Mexico university Lobos into camp 48-44.

Again it was Alderson who paced the Raiders in the attack. He poured 17 points through the hoop to stand head and shoulders above Lobo Merle Korte who was runner-up in points made with 12.

Robison's charges built up a comfortable lead early in the game and never relinquished it. In the waning minutes of play the Lobos pulled within 2 points of the Raiders but could not muster enough drive to overtake them. Tech led 13-18 at half time.

# NEW career opportunities for you in the U. S. AIR FORCE as an

# OFFICER AND NAVIGATOR

In this era of long range flights, the role of the navigator has become increasingly important.

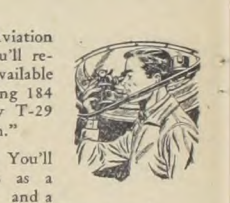

The U. S. Air Force now offers new opportunities to young college men between the ages of

20 and 26½ who are single and can qualify for such training. If you can meet the high physical and educational standards (at least two years of college), and are selected, you can be among the first to attend the new one-year navigator training course at Ellington Air Force Base near Houston, Texas. A new class begins each month!

You'll be an Aviation Cadet! And, you'll receive the best available training—including 184 hours in the new T-29 "Flying Classroom."

Then, graduation! You'll win your wings as a navigator . . . and a commission as a Second Lieutenant in the Air Force. After a 30-day leave with pay, you'll be ready for challenging assignments as navigator with one of the famous commands in the U. S. Air Force. Your office will be the "front office" of mighty bombers or long-range transports!

Be among the first to win your wings as a U. S. Air Force navigator under the new navigator training program—be a key man on the Air Force team!

Air Force officer procurement teams are visiting many colleges and universities to explain these career opportunities. Watch for their arrival—or get full details at your nearest Air Force Base, U. S. Army and U. S. Air Force Recruiting Station, or by writing to the Chief of Staff, U. S. Air Force, Attention: Aviation Cadet Branch, Washington 25, D. C.

**Other Flying, Non-Flying Careers**  
Aviation Cadet pilot training is also available to young men between the ages of 20 and 26 1/2. See about the many nonflying assignments, too! Never before in peacetime has there been such a good opportunity for college-trained men and women to obtain regular commissions in the United States Air Force.

# South Plains Poultry Conference Is Slated For Tech Campus Next Week

"Two hundred laying hens on every farm," will be the theme for South Plains poultry conference to be held on the campus of Texas Tech college Jan. 17-18. The conference is sponsored by the Animal Husbandry (Poultry) department of the college cooperating with the West Texas Hatcher's and Poultryman's Association and Extension Service.

Speakers from Dallas, Denison, Fort Worth, St. Louis, Mo. and College Station will join the Tech faculty in presenting the two-day program.

"We hope to point out to visitors the need for poultry-raising on every farm in Texas and we will show the farmers how flocks can be a definite economic asset," said H. L. Mathews, associate professor of animal husbandry and head of the poultry department at Tech.

The schedule of events is: Tuesday, 9:30 a.m.—Registration. 10:00 a.m.—Welcome—W. L. Stangel.

10:15 a.m.—"Selecting Quality Chicks"—T. A. Hensarling.

10:35 a.m.—"Breeding for Increased Liveability and Family Breeding Versus Individual Performance"—Kenneth Williams.

11:10 a.m.—"The How and Why of Hy-line Hybrids"—Lloyd Halbrooks.

11:40 a.m.—"Debeaking as a Control of Cannibalism, Pickouts, Feather-Picking, and Egg-Eating—Demonstration and Discussion"—J. R. Grubbs.

12:00-1:30—Lunch.

1:30 p.m.—"Good Feeding and Care Makes Good Pullets"—D. H. Reid.

2:00 p.m.—"Feeding and Caring for the Laying Flock for Commercial and Hatching Eggs"—H. L. Wilcke.

3:00 p.m.—"So You Want to Go in to the Poultry Business"—H. L. Mathews.

3:30 p.m.—Panel Discussion—"Should Every High Plains Farmer Keep a Flock of Laying Hens?"

4:00 p.m.—Adjourn. Wednesday, 10:00 a.m.—"Standards for Quality of Individual Shell Eggs"—J. A. Bybee.

## Cooper Is New President Of Sigma Gamma Epsilon

New officers have been elected by Sigma Gamma Epsilon, honorary geology fraternity. They are Wallace Cooper, president; Jeff Puckett, vice president; Hershell Holman, secretary; Audean Lieb, treasurer; and Norman Peterson, corresponding secretary.

The club voted on and approved the admission of two colleges to this organization at its last meeting. The colleges who had petitioned for admission were Upsala college in East Orange, N. J. and the University of Washington at Seattle.

10:30 a.m.—"The Chicken of Tomorrow"—Joe Fechtel.

11:00 a.m.—"Responsibility in Marketing Poultry and Poultry Products"—F. Z. Beanblossom.

11:30 a.m.—"Qualities That Make Texas the Number One Turkey Producing State"—W. T. Jones.

11:50-1:15—Lunch.

1:15 p.m.—"The Place of Turkeys on the High Plains"—George McCarthy.

2:05 p.m.—"The Newcastle Disease—What Now?"—Don Demke.

2:50 p.m.—"Sanitation and Parasite Problems with Laying Hens"—F. C. Harbaugh.

3:20 p.m.—Panel Discussion—"What Can We Do to Receive More for Our Poultry and Poultry Products?"

## Students In Family Relations Hear Outside Speakers

The students taking marriage and family relations courses this semester have spent a good portion of their time listening to outside speakers give their professional opinions on various aspects of marriage.

Miss Sannie Callan, professor and head of child development and family relations, teaches family relations 433. Ivan Little, assistant professor of philosophy, teaches Sociology 331, commonly called the marriage course.

The classes are taught separately. Several times during the semester the classes meet together to hear outside speakers.

Among the speakers this semester are Dr. J. C. Cross, professor and head of biology, who spoke on heredity; Dr. V. T. Clover, associate professor of economics and management, who spoke on investments; W. W. Buck, an insurance man, spoke on insurance; Dr. F. W. Hudgins, associated with Lubbock Memorial hospital, spoke on pregnancy and childbirth; Dr. G. S. Smith, associated with Lubbock Memorial, spoke on planning the family; Dr. O'Laughlin, spoke on the importance of early child training; and Mr. C. L. Cobb, an attorney, spoke on the legal aspects of a family. A protestant minister and a catholic priest discussed religion in marriage.

These speakers donate their time in the hope of bettering the general understanding of the aspects of family relations in marriage.

Plans for the spring semester include lectures on the same subjects. Miss Callan's course will not be offered next semester but it will be offered in the summer.

## Students Will Leave Today To Attend Galveston Meet

Nine representatives of Tech will leave this afternoon for the Texas Agricultural Workers association meeting in Galveston.

W. L. Stangel, dean of agriculture; E. L. McBride, professor and head of aggie economics; William Tinney, professor of dairy manufacturing; T. L. Leach, professor of aggie education; R. L. Chappelle,

professor and head, aggie education; Dr. F. G. Harbaugh, professor and head, animal husbandry; and Dr. W. W. Yocum, professor of plant industry are the men who are to attend the meeting.

# NO CIGARETTE HANGOVER

## when you smoke PHILIP MORRIS!

In just a few seconds you can prove PHILIP MORRIS IS DEFINITELY LESS IRRITATING than the brand you're now smoking!

1...light up a PHILIP MORRIS

THEN, just take a puff—DON'T INHALE—and s-l-o-w-l-y let the smoke come through your nose. Easy, isn't it? And NOW...

2...light up your present brand

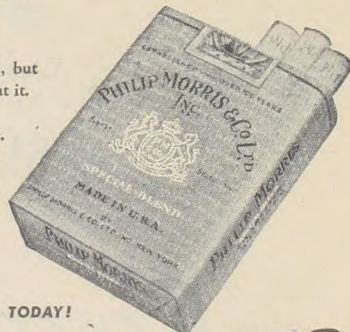

Do exactly the same thing—DON'T INHALE. Notice that bite, that sting? Quite a difference from PHILIP MORRIS!

NOW YOU KNOW WHY YOU SHOULD BE SMOKING PHILIP MORRIS!

Everybody talks about PLEASURE, but only ONE cigarette has really done something about it.

That cigarette is PHILIP MORRIS!

Remember: less irritation means more pleasure. And PHILIP MORRIS is the ONE cigarette proved definitely less irritating, definitely milder, than any other leading brand. NO OTHER CIGARETTE CAN MAKE THAT STATEMENT.

YOU'LL BE GLAD TOMORROW— YOU SMOKED PHILIP MORRIS TODAY!
