

ONE OF MANY—Work progresses on the new Science building as Tech's \$4,000,000 building program gets in full swing with nine buildings under construction. (Photo by I. G. Holmes.)

Nine Buildings Rise As Construction Continues At Tech

Tech is rapidly putting on a new face with which to greet the public in 1951. Nine buildings are now under construction and improvements on the Gym are being planned, W. R. Hedrick, architect, said. The Administration building wings are nearest completion, but lack of natural stone may cause delay in completion of the additions. The new wings will provide more floor space than the present building and plans call for occupancy about Feb. 1, 1951.

The new Engineering building will be a twin of the present building and is approximately 18 per cent completed. It is scheduled to be ready for use around Sept. 1, 1951, Hedrick added.

Masonry work on the first floor of the Petroleum Engineering addition is more than half finished. This addition is to provide 4,000 additional square feet of class room and lab space and plans are to have the building ready about Feb. 1, 1951.

Date of occupancy of the new Home Economics additions is expected for June 1, 1951 and will increase the capacity of the present building by 200 per cent. It is about 35 per cent completed and progressing satisfactorily, Hedrick stated.

Lack of structural steel is delaying progress of the Music building which was begun last spring. This completely new building will contain sound proof rooms for band and voice practice, and is scheduled to be finished by Aug. 31, 1951.

The first floor of the new Science building, scheduled for completion about Dec. 31, 1951, is to be poured this month. This building, under construction between the Chemistry and Library buildings, is designed to furnish excellent research facilities as well as classrooms and labs.

Work on the Stock Judging pavilion and the Veterinary Science buildings is being delayed because of a shortage of metal bucks. The combination judging pavilion, classroom, and dormitory is to be completed in March, 1951. Other new Agricultural buildings are to include four greenhouses and an engineering building.

The proposed change in the men's side of the Gym will cost approximately \$19,000 and will provide better facilities for those using that side of the Gym.

The \$500,000 Student Union building is still in the planning stage.

To provide these new buildings with utilities, work is progressing on underground installation of an electric system, new pipe tunnels and new sanitary sewers.

Gain In Air ROTC Members Announced By Col. Turner

An increased enrollment of 33 per cent in ROTC has been announced by Lt. Col. Ollen Turner, head of the air science branch of ROTC. Nearly half of the 369 students registered in the air science branch are freshmen.

"In spite of increased interest in ROTC work this year, the policy of the air science branch will accept quality instead of quantity when enrolling students," Col. Turner said.

Plans Mapped For Possible Addition Of Three New Agriculture Departments

La Ventana Needs Business Manager

Deadline for applications for business manager of La Ventana, Tech yearbook, is 5 p.m. Monday, Chairman A. B. Strehl of the Publications committee announced. All applications are to be made to Professor Strehl, foreign languages department.

Qualifications for business manager are passing grades made in at least 60 semester hours of course work by the end of the semester in which applicant is elected. One applicant will be elected by the Publications committee.

The committee at a meeting Tuesday appointed Harold L. Nelson assistant professor of journalism sponsor of The Toreador.

First X-Rays Set For PE Students

Freshman and sophomore physical education students are to be the first x-rayed when a chest x-ray unit, sponsored by Lubbock County Tuberculosis association, is on the campus Tuesday through Friday.

Miss Virginia Greenwald, secretary of the association, stated that the survey, held in cooperation with the physical education department, will be open to all Tech students.

Thursday and Friday, the last two days of the survey, will be reserved for all students other than physical education students.

X-rays will be made in the Gymnasium from 9 a.m. until 5:30 p.m., each day of the survey.

These x-rays screen chest diseases, particularly heart disease and tuberculosis. Dr. Ramon Kirellis, head of the physical education department, stressed the value of these x-rays, which are also to be used to determine the heart condition of students taking physical education.

Engineering Student Wins AIEE Slide Rule Contest

Robert W. Larrabee, junior engineering student, won the slide rule at the annual AIEE drawing held at the club's first meeting of the year Monday.

The slide rule is furnished by the AIEE. Faculty members were also introduced to new members, V. D. Wade, publicity agent, said.

John Huckabay, 50 Tech graduate, and Bobbie Cowan, former Tech student, were married in late August and are now residing in Dallas.

Plans are being mapped out for the possible future addition of three departments to the division of agriculture, Dean W. L. Stangel has revealed.

Numerous requests of Tech students for more specialized training necessitates the setting up of the three new departments—agronomy, agricultural engineering, horticulture and park management, Dean Stangel says.

Texas Tech's board of directors of directors would have to approve the new setup before a request could be submitted to the Texas legislature for sufficient funds to initiate the program.

At present the three courses of study are a part of the plant industry department. Mechanization on the farm is steadily increasing, he said, bringing an unusually heavy demand from students for an intensive course in agricultural engineering. Stangel feels that agriculture will continue to promote this area. That fact alone justifies agronomy as a major, he said.

Stangel said the new interest in the growing of vegetable crops since irrigation became widespread introduces a new need for horticulture training. And towns and cities on the treeless plains are becoming landscape conscious and want park management graduates.

In explaining his needs, Stangel said, "The budgets we have set up are in keeping with the demands of students in college and will result in greater service of Texas Tech to the surrounding area."

Directors Hold Week-end Meets

Tech's board of directors will meet this morning to discuss routine business in Pres. D. M. Wiggins' office, Ed Smith, assistant to the president, said. Directors of Texas Tech foundation held a business session last night.

Chairman Charles C. Thompson is to preside at the meeting this morning. Board members present for the meeting are: C. E. Weymouth, Amarillo; C. T. McLaughlin, Snyder; Robert B. Price, El Paso; Raymond Pfleger, Eden; Leon Ince, Houston; Charles Woodruff, Dallas.

Present at the foundation meeting were Chairman C. T. McLaughlin, Snyder; H. E. Chiles, Jr., Midland; Raymond Buck, Fort Worth; Robert Bass, Kilgore; Obie Bristow; Big Spring. Lubbock foundation members attending were Dr. Clifford B. Jones, Spencer Wells and O. B. Ratliff, Smith said.

Coaches Tipp Mooney, George Scott and Carl Mulleneaux spoke to the Lubbock Quarterback club Monday.

Schovajsa, Simmons Named To Vacant Student Posts

Elizabeth Schovajsa and Jo Simmons were named student association secretary and head coed cheerleader, respectively, at a called meeting of the student council Thursday night.

Annual Fall Howdy Dance Scheduled Tonight In Gym

The traditional fall Howdy dance, sponsored by the Double-T association, is scheduled tonight at 9 p.m. in the gymnasium, according to Doug McSwane, Double-T member.

Burl Hubbard's orchestra will play for the dance. Tickets are \$1.25, stag or drag, and will be sold in the Ad building, Journalism building, and Engineering building today.

Rheta McMasters was appointed by Miss Simmons as her assistant.

An election in the home economics division will be necessary to fill the vacancy in the student council left by Miss Schovajsa, who was already a council member.

Selection of the officers was made by secret ballot after the council heard election speeches for secretarial nominees and witnessed a demonstration by cheerleader candidates.

Other petitioners for student association secretary were Freeda Harwell, Ann Malone, and Shirley Fields.

Four other petitions were received for cheerleader post. They were for Kathleen Kilpatrick, Rheta McMaster, Rhea Myers and Jo Ann Williams.

Miss Schovajsa, junior home economics student from Littlefield, holds several other offices on the campus. She is vice president of Phi Upsilon Omicron, AWS representative for the junior council and BSU secretary. Last year she was president of Alpha Lambda Delta and received the Panhellenic award in her division.

A junior speech major from Lubbock, Miss Simmons was a student council member last year and a Tech beauty. She is a member of Kappa Phi and was AWS representative for 1948-49.

Miss McMaster is a junior physical education major from Abernathy. She was sophomore favorite last year and secretary of Major-Minor club.

English Department Adds New Course

A new English course, 133, for freshmen with superior background is being offered this year, Dr. T. W. Camp, English department head, announced.

Students will have less English drill and more reading and theme writing. The class will be more on college level rather than high school, he added.

"The class will offer a stimulus to good minds and contains one or two students who are journalistic phenomena," Dr. A. L. Strout, class instructor, commented.

Final membership in the class will be limited to 25 students, selected on the basis of high grades on entrance examinations and further elimination by themes. Present enrollment is 30 students.

Radio station WBAP, Fort Worth, will film the Tech-Texas game for broadcast via television.

Back the Raiders, attend every pop rally.

Petroleum Exhibit Featured At Fair

Tech's petroleum engineering booth at the Tri-State Fair in Amarillo this week is one of the outstanding exhibits at the show, says William L. Ducker, petroleum engineering head.

The booth, which is sponsored by the Shamrock Oil and Gas Company of America, is designed to tell the public about Tech and its petroleum engineering department. Reservoir analysis equipment is being demonstrated and a photographic showing of the oil industry and its activities is being featured.

Demonstrations of the equipment are being given by C. D. Horne, Ed Sessions, Don Tankersley, Doyle McClennen, Jack Brooks, Larry Teague and Don Losher, senior petroleum engineering students.

Registration For 3 Voice Courses Continues Today

Students may add one of three voice courses until noon today, Dr. Gene Hemmle, head of the music department, said. R. C. Goodwin, dean of arts and sciences, has given special permission for the addition of Mixed chorus, Tech choir or Men's Glee club.

Tech choir, which will be directed by Dr. Hemmle, will meet at 1 p.m. Monday through Friday. Mixed chorus, directed by Ira Schantz, will meet at 1 p.m. Monday, Wednesday and Friday.

Men's Glee club, which meets at 5 p.m. Monday, Wednesday and Friday, will be directed by Raymond Elliott. Elliott announced that the Men's Glee club is in great need of basses.

War Situation Believed To Be Reason For Fall Semester Enrollment Decline

Current war situations are believed to be the cause of the 494-student drop in 1950's enrollment, as compared with that of 1949, says W. P. Clement, registrar.

This fall's total is 3,370, while the final count in 1949 was 5,844. Since registration continues through today, 1950's figures are not final. Clement said that a later count would be announced next week.

The registrar said that his previous higher estimation of the students to attend Tech this fall was partly due to the number of form "A" pre-registration blanks returned to him by people who did not return to school this fall. Also many men were inducted into service that would ordinarily have returned to Tech.

The business administration division and the graduate division show increases over last year's count. The graduate division has increased from 377 to 397. The business increase is due largely to the fact that freshmen are now allowed to enroll in the business administration division, while in

previous years, BA freshmen were enrolled in the A&S division. There are 1,092 BA students this year, over the 1949 count of 804.

The engineering division has the only noticeable drop in enrollment. Of the 1,532 students enrolled last year, there are only 1,411 enrolled now.

The arts and sciences division has 1,596 as compared to last year's 1,967. This is actually not a drop because last year's figures counted the BA freshman in the A&S division.

Other divisions show slight drops in enrollment. The agriculture division has 793 now and had 797 in 1949. The home economics division, which has an enrollment of 367 this year, shows a decrease of 16 since 1949.

The total number of men enrolled in the fall of 1949 was 4,406. There are now only 3,955 enrolled. The enrollment of women has decreased slightly. There are 1,415 women enrolled as compared to the 1,438 enrolled last year.

BEST WISHES

RED RAIDERS

TEXAS TECH'S Red Raiders are tops around our store. To the Red Raiders we wish a very successful season; we are behind you 100%. Right at the top of the list with the football team are our many friends out Tech way. If you have visitors from home up for the game today, drop around our store. We would like to meet your friends and family also.

1002 Broadway

Tech To Show Herefords At Fair For First Time

Tech will exhibit Hereford breeding cattle at the Panhandle-South Plains fair for the first time when the twenty-third annual show is held Oct. 2-7.

Dean W. L. Stangel of the agricultural division announced this week that three bulls and four heifers will be in competition at the fair. The cows will be under the charge of William T. Piper, senior animal husbandry student.

Also on exhibit will be representative animals of all breeds of livestock maintained by Tech and used for instruction.

Parliamentary Procedure Added As Speech Course

"Parliamentary Procedure" will be offered at 2 p.m. on Thursdays, Dr. P. M. Larson, head of the speech department, said. One hour credit will be given for the course.

Dr. Larson said the question for debate this year will be "Resolved, that the non-Communist nations should form a new international organization." Any prospective student debaters are urged to report to the speech department office as soon as possible, Larson said.

"Texas Technological college is essentially the spirit of the new, as contrasted with the spirit of the old."—Dr. Paul Whitfield Horn.

Dorm Hand Jailed In Kitchen Shooting

Leroy Adams, 24, Negro employee of Texas Tech, was charged with assault with intent to kill late Wednesday. Bill D. Tucker, assistant district attorney, said.

Adams was charged with shooting James Moss, 30, another Negro, in the kitchen of Women's Dormitory III about noon Wednesday, Tucker reported.

Moss was hit in the right arm and chest by pellets from a 410-gauge shotgun.

The victim claimed someone stole his billfold and later he took \$27 from Adams' billfold, which had been left in a locker, the attorney said. Adams discovered the loss and the shooting resulted,

Wesley Players To Meet Sunday

The Alpha Eta chapter of the Wesley Players will meet at 2:30 p.m. tomorrow in the Methodist Youth center, 2420 Fifteenth street.

Wesley Players, a religious drama organization, is sponsored by the Methodist church, but is open to young people of all denominations. Plays presented are of both religious and humorous nature.

The past summer Lubbock Wesley Players presented five plays and constructed a cyclorama for the stage.

Tucker said. Moss was taken to Lubbock Memorial hospital for treatment.

Engineers Inspect US Gypsum Plant

Fifteen engineering students inspected the U.S. Gypsum plant at Sweetwater Thursday. They were escorted through the plant by T. H. Kassner, works manager.

The trip was a preliminary to I.E. 432, Industrial Plant Design, for which students must make a layout for a gypsum plant.

Those attending were: James H. Eiehn, Jake Currey, Robert Duff, W. J. Duggan, Royce Horn, Gus Jones, James Jones, Thomas Killough, Lewis King, Edward Lewis, David Long, Walter Perkins, William Rowe, Neil Schacht and Dwane Thompson.

They were accompanied by Prof. O. A. St. Clair, head of industrial engineering, and Prof. Parker M. Green, teacher of I.E. 432.

Classes Dismiss For Convocation

Classes will be dismissed from 10 a.m. to 12 noon Wednesday for the regularly scheduled convocation at the Tech Gym, announced Dr. E. N. Jones, vice president.

Pres. D. M. Wiggins will speak at the meeting. Following convocation, the four classes will go to different rooms where class officer elections will be held. Horton Russell, president of Student council, said.

Speech Department Tryouts To Be Held For Fall Play

Tryouts for the fall speech department play will be held at 4 p.m. Tuesday and Wednesday in the Speech building auditorium, John Upshaw, assistant professor of speech, has announced.

Students selected at the tryouts will present "The Skin of Our Teeth" by Thornton Wilder as this semester's production. Anyone interested in trying out may do so, Upshaw said.

Those interested in doing publicity, makeup or handling stage properties are asked to meet at the same time.

Game Entrance Confusion Reduced By Preparedness

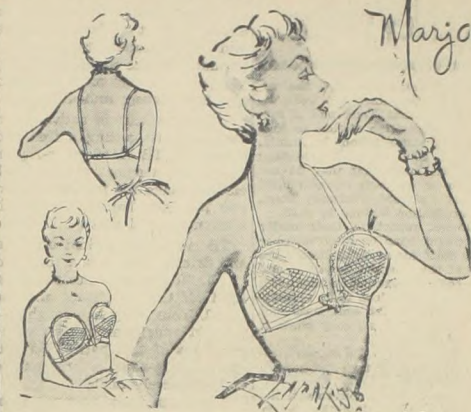

Students may avoid confusion and congestion at stadium gates Saturday, if they have their activity books ready with proper ticket extended on approaching the gate, according to Morley Jennings, Tech director of athletics.

Much time can be saved and handling of expected crowds facilitated if students will have indicated coupons ready for ticket takers, says Jennings.

An announcement will be made each week of which coupon will be used for the following event. Coupon for the Texas game will be number one.

Sections N, O and P have been reserved for students. Fewer student seats will be used than had been anticipated, only about 5,000 activity books being sold. As a result sections M and Q have been made available for non-student reserved seat purchasers.

jimmie henley's heap

After sweating through the usual registration lines last week we wish again that Tech had a system of registration similar to that of its big sister school in Austin.

If you have friends attending there, you know that they do not have to be on their campus until the day classes actually start, for registration is done by mail.

Students report to their major department head, or some member of his staff, for advising before the close of the previous semester and have their course plans approved. After that they drop their request-schedule in a slot and wait—not in a line, but in an easy chair if they so wish.

Then they go to the bursar's office and pay their fees and receive their schedules.

While it is more convenient, the UT system is not altogether better than that used here, for it is necessarily impersonal.

The schedule being made out by staff members instead of by the student, many students are unhappy with the schedules they have.

It seems that such a system would work better on a smaller campus, such as our own, than on UT campus. Meanwhile we use the present system, which includes some seemingly unnecessary checking and double checking, on the whole, however, it acquaints students with their faculty members better, brings them into contact with their deans and serves more to make schedule changes and drops and adds fewer.

Grass is made by a God so great,
Only to be trampled by students, too late.

After weeks of appalling inability of American forces in Korea, the troops are now moving steadily northward toward the thirty-eighth parallel. The entire war thus far has been consistent with past American military procedure: stall for time, mass troops for invasion, attack at an unexpected moment and move toward victory.

The distance to that victory in this particular case will be far different from past history. With the entrance of Red China into the war, it is anyone's guess whether the advances of the past few days will continue.

The UN forces will doubtless continue beyond the thirty-eighth parallel to the North Korean border, once the forces are strong enough to meet the forces thrown at them by the Reds of Korea, China and all points north.

It would be rather ridiculous to connect the removal of Louis A. Johnson from the cabinet with the immediate change of the picture in Korea, but certainly the change in the cabinet will have direct influence upon the future of American defense.

Classes are cut by fools like me,
But only an instructor can "give" a "D".

Certainly members of the Tech faculty and staff rate praise more often than it is given them, but they are appreciated by the students, nevertheless.

One could hardly walk across the campus a single time during the past two weeks without hearing praise for E. J. Urbanovsky, campus landscape architect.

Persons who have been at Tech during past years realize the effect of the grass upon life here. It can't stop West Texas weather, but it can surely make the campus a rest for the sand-burned eyes of West Texans.

We heard someone say the other day that Tech campus had advanced 10 years in a period of two years. No better tribute could be paid Professor Urbanovsky.

Tech campus has become a thing of beauty. Surely there are prettier campuses, but in comparison to the respective surroundings there is no prettier.

Words to "O College Mother, Beautiful," Tech song, were written by Dr. Paul Whitfield Horn, first Tech president.

Tenth anniversary celebrations at Tech were held Nov. 11, 1935.

X-Ray Kills Worry

Techsians know there's no time in a busy college life to worry about being unhealthy, and still less time to be sick.

Chest x-rays to be given in the Gym next week will give every student a chance to determine the health of his chest, and the precautionary measure will be free. The x-rays, given annually by the State Health department, should be taken every year, since lungs may be completely free of disease one year and dangerously unhealthy the next.

Tuberculosis is active in an estimated 500,000 Americans. Techsians are getting a free and easy opportunity to avoid the danger of TB. Modern x-ray machines brought to the campus under the auspices of the Lubbock County Tuberculosis association, make the procedure simple. There's no need to undress; you just step before the machine, take a deep breath, hold it a moment, and that's all. Couldn't be simpler.

TB germs are picked up by every person who eats, breathes and drinks. The x-ray, then, can show one of three things:

1. You have a healthy chest. Your body has been able to fight off the TB germs, and there's no sign of infection.
2. Your body has fought a battle with TB germs and won, without your ever being aware of it. The scars on your lungs are signs of this battle. So you may have to take some more tests and x-rays before your doctor is sure that your lungs are completely healed.
3. Your body may be fighting a losing battle now. You may have active TB. If more x-rays and tests prove this to be true, you will need help to conquer the disease. Treatments should begin at once to keep your family and friends from catching TB.

Good news may come in one of three ways from the x-rays. Proof of a healthy chest or proof that TB germs have been conquered would be good news. If tests show that you have TB in an early stage, before you have begun to feel sick, you can start treatment at once.

Only a few minutes will be required to start and complete the x-ray, which if taken in a clinic would cost \$10. Students in freshman and sophomore physical education classes will be x-rayed during their classes in the Gym. Upperclassmen are dependent on their own sense of values to take advantage of the TB test.

Free x-rays should mean a 100 per cent TB-proof student body.

Give Young Blades A Chance

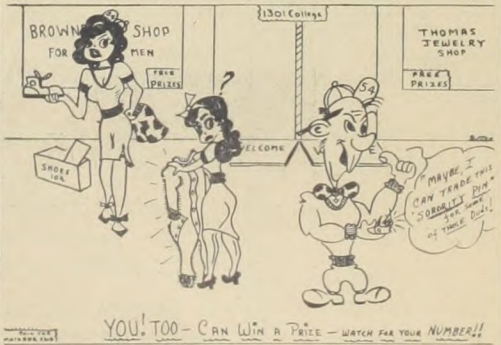

"Bravos" could be heard all over the campus at the beginning of school. Yes, everyone was heralding the differences that had been made during the summer through the campus beautification program engineered by our landscape architect, Elo J. Urbanovsky.

Now the story is different. A few days stay on the campus has changed our outlook. Instead of heralding the growing grass, we are doing our best to trample it back into the inert matter from which it came. We think it will be agreed that the freshmen are not responsible, but the upper classmen. We should know better after seeing the campus as it was before the beautification plans became reality.

We find, on observation, that not only are the students at fault, but also the majority of faculty. It seems those few extra steps to the sidewalks are farther than the last mile in our life's span.

We are able to participate in any activity, regardless of the physical strain involved, but we just can't seem to take the energy to find those two extra steps leading to the sidewalks.

We, along with the rest of the students on this campus, find ourselves violating these unwritten rules practically every day. Yet, it does seem possible that we could stop and think just how much our campus has improved before we do trample it back into the maze of cow-trails which were seen in the years preceding this program, designed to make a campus more pleasurable to us all.

YOU! TOO - CAN WIN A PRIZE - WATCH FOR YOUR NUMBER!!

Wrong Line, Freshman

Many students in Texas Tech today can testify to the fact that lines are confusing things. There is one freshman who had more than his share.

Many, many lines formed everywhere on registration day, and he knew they all led to something.

He attached himself to the end of a long one. Time passed. He didn't seem to be getting anywhere. After a while he punched the upperclassman in front of him and asked a question.

"Is this the line for the coke machine?"

"Hardly. This is to the dean's office," the haughty senior replied. The thirsty freshman disappeared among the endless chains of people.

Explicit, Huh?

College officials are still chuckling over the story of the harassed but cooperative freshman.

During the registration process, one checker had to return a long and complicated form twice to a freshman boy. The questions had not been answered correctly and the boy was cautioned to be more explicit.

Appearing the third time, he handed the form to the checker who found one slight error. In answer to the question of place of birth, the boy had written "Forest General hospital."

TTS, Not MWF

Woe for the life of a freshman! Not only is registration confusing, but the business of getting to the right classes on the right days is a bit rough also.

One green-capped lad went to what he thought was his classroom only to find, after the first twenty minutes lecture of geomorphology, that it was not his finance class at all.

And a young lady member of the class of '54 met her Tuesday morning class on Wednesday, which only goes to show that it's not the studying that makes college fun, but the confusion.

Optimistic Junior

Girls, welcome to Texas Tech! Especially you freshmen! Yes, we're glad you came so all the upperclassmen can have dates. The boys, that is. What's wrong with sophomores?

What was new last year is now just "good old friend Jane."

Who gets all the buzzes? Certainly not the juniors. They're now only blind date bureaus.

And who are the girls requested at these "bureaus"? Seniors? No, seniors are now "mothers-away-from-home" while all the cute little fish meet "Mr. Tech Hand-some."

Don't despair. In a few months they'll come back to "good old friend Jane" and the blind date bureau.

We hope, that is.

Gov. James V. Allred was main speaker at Tech's tenth anniversary celebrations.

Open House Sunday For Women Social Club Rushees

Open house will be Sunday from 2 p.m. to 5 p.m. for all girls wishing to pledge a social club, according to Mary Anne Kelley, WICC president. Rushees will pick up invitations for Period I rush parties between 12:30 p.m. and 3 p.m. at the WICC office in the Ad building Monday.

"Silence" begins also at 2 p.m. Sunday and ends at 5 p.m. Monday, Oct. 2 after invitations to pledge have been received by the rushees. "Silence" prohibits any rushees from conversing with anyone on the topic of clubs at any time except at scheduled rush parties, according to WICC rules.

Friday marked the end of registration for all girls wishing to pledge a club this fall. An informal convocation at 5 p.m. Friday was held in the Aggie auditorium with Miss Kelley presiding.

Schedule for open houses by groups is as follows:

Group I
 DFD, 2 p.m., at home of Mrs. G. E. Turner, 3212 Thirty-second; Las Vivi, 2:40 p.m. at home of Mrs. Robert Maxey, 3223 Twenty-third; Las Chaps, 3:20 p.m. at Mrs. Clyde Smith's home, 1915 Twenty-ninth; Sans Souci, 4 p.m. at Mrs. Roy Furr's home, 3120 Twentieth; Ko Shari, 4:40 p.m. at Mrs. W. G. McMillan's home, Levelland highway.

Group II
 Las Vivi, 2 p.m.; DFD, 2:40 p.m.; Sans Souci, 3:20 p.m.; Ko Shari, 4 p.m.; Las Chaps, 4:40 p.m. Locations for Group II, III, IV and V open houses will be the same as for Group I.

Group III
 Las Chaps, 2 p.m.; Sans Souci, 2:40 p.m.; Ko Shari, 3:20 p.m.; DFD, 4 p.m.; Las Vivi, 4:40 p.m.

Group IV
 Sans Souci, 2 p.m.; Ko Shari, 2:40 p.m.; Las Vivi, 3:20 p.m.; Las Chaps, 4 p.m.; DFD, 4:40 p.m.

Group V
 Ko Shari, 2 p.m.; Las Chaps, 2:40 p.m.; DFD, 3:20 p.m.; Las Vivi, 4 p.m.; Sans Souci, 4:40 p.m.

Parties are as follows:
 Sans Souci Period I rush parties will be given as follows: 5:30-7 p.m. Monday at Mrs. Raymond Shock's home, 3217 Twentieth; 5:30-7 p.m. and 7:30-9 p.m. Tuesday at Mrs. Wayne Prather's home, 3107 Nineteenth; 5:30-7 p.m. and 7:30-9 p.m. Wednesday at Mrs. M. K. Dean's home, 3018 Twenty-first.

DFD Period I rush parties are scheduled as follows: 5:30-7 p.m. Monday at Mrs. Hugh McRelvey's home, 2320 Thirtieth; 5:30-7 p.m. and 7:30-9 p.m. Tuesday at Mrs. R. O. Bennett's home, 1901 Thirty-

first; 4:30-7 p.m. and 7:30-9 p.m. Wednesday at Mrs. Claude Keeton's home, 1902 Twenty-ninth.

Las Vivi rush parties for Period I are as follows: 5:30-7 p.m. Monday at Mrs. Carl Ratliff's home, 2915 Nineteenth; 5:30-7 and 7:30-9 p.m. Tuesday at Mrs. Vernon Bigbam's home, 3312 Twenty-fourth; 5:30-7 p.m. and 7:30-9 p.m. Wednesday at Mrs. Bill Collins' home, 3114 Twenty-second.

Las Chaps Period I parties are scheduled as follows: 5:30-7 p.m. Monday at Mrs. W. B. Rushing's home, 3214 Twentieth; 5:30-7 p.m. and 7:30-9 p.m. Tuesday at Mrs. E. K. Hufstetler's home, 2007 Thirtieth; 5:30-7 p.m. and 7:30-9 p.m. Wednesday at Mrs. Lawrence Bacon's home, 2810 Twentieth.

Ko Shari's parties for Period I are to be as follows: 5:30-7 p.m. Monday at Mrs. Edgar Wommack's home, 3321 Twenty-second; 5:30-7 p.m. and 7:30-9 p.m. Tuesday at Mrs. J. D. Hassel jr's home, 3307 Twenty-fourth; 5:30-7 p.m. and 7:30-9 p.m. Wednesday at Mrs. Wright Kerr's home in Cain terrace.

Rush parties by each women's social club—5:30-7 and 7:30-9 p.m.

WEDNESDAY
 Fall Student Convocation.
 Rush parties by each women's social club—5:30-7 and 7:30-9 p.m.

Physical Education For Women Offers Better Variety Of Activities In Spring

Women will be offered a wider choice of sports in physical education when the spring semester opens, announces Dr. R. W. Kirellis, physical education department head.

Courses in bowling, beginning and advanced swimming, life saving, weight lifting and golf, now offered men students, will be available to women. Other courses offered the coeds will be social and square dancing.

The students seem to be amazed that this year they were not required to take just a regular physical education course, stated Doctor

Students need have no knowledge of any of the newly offered sports to take the course, Doctor Kirellis points out. The courses are offered primarily for the students to learn the various types of sports, he explained.

Kirellis, but now have one choice in each of three different types. In the future we are planning to offer courses in cross country run-

ning, tumbling, wrestling, diving and apparatus work," continued Doctor Kirellis.

Official workout uniforms of red trunks with a black stripe down the sides, are issued to all first semester freshmen boys.

To date, 110 boys have entered bowling classes taught by Ben Brown at the Lubbock Bowling club. Dr. Kirellis and D. Lewis have 60 beginners, 40 advanced, and 18 life saving swimming students.

Swimming courses are taught at the Lubbock Boys' club swimming pool. D. Davis has 35 weight lifting students, and Prof. George Philbrick has 35 golf students. The fundamentals of golf will be taught on the field north of the Gym, and later the class will be moved to the Lubbock Country club.

The freshmen football players are selling tickets to the Howdy dance, which will be held Saturday night in the Gym.

New Football Rule On Substitutions Allows More Liberal Changes In Lineup

Programs will be necessary equipment this fall as two-platoon football swings into an even more liberal free substitution season.

New rule changes provide for an increase from the four of last season to five substitutions. Substitutions may now be made without penalty while the clock is running until a team's five timeouts are exhausted.

Chairman of the National Collegiate Athletic association rules committee, William J. Bingham, of Harvard, spoke of the new anti-roughing rule as being aimed at controlling a "tendency to viciousness in some parts of the country." The new rule states that if a hand or forearm is used in blocking an opponent, it must be kept below the opponent's shoulders and must be in contact with his body during the entire block.

On defensive holding, when the hand or arm is used by the opponent of a runner, the hand must be in advance of the elbow; that is, first contact must be made

with the hand. These changes, requiring a more careful use of the hands, were made to prevent players from knocking out teeth and bruising Adam's apples.

Other changes made by the committee are:

1—The coin toss will be made 10 minutes before the kickoff. This will allow time to announce the starting lineup after a coach decides whether to start his offensive or defensive platoon.

2—A 15-yard penalty will be given for roughing the place-kick holder as well as for roughing the kicker. If a roughing penalty is called on a successful try for extra point, the guilty team will be penalized on the ensuing kickoff.

3—After time outs, the clock will start running again when the ball is ready for play, not when it is snapped.

College athletic commissioners, representing 12 conferences across the nation, declared that changes in football rules to cut out the rough stuff will be enforced to the letter.

Holleman Hollers . . .

Statements from Austin quote Texas university coach Blair Cherry as being unhappy over the lack of an experienced quarterback on his football team this season. But, it's hard to say just how a man can find room to heave mournful sighs when he's crammed to his ears with talented football players.

The finest line in the Southwest conference by the Longhorns. Some of the fastest backs in the country cross their T. They are so packed with talent that one-time all-stars play only part-time on defense.

With such ability at his disposal the quarterback need only call a play and give away the ball. His touchdowns will come automatically. Any quarterback can look good if all the plays work. Coaches emphasize the fact that once one play works consistently all others can be made to work. Texas U should have about seven that will work consistently. One over each position in the line.

This brings us to the game of the week for West Texas. Traditionally sports writers follow a favorite team and consistently pick their pets to win each game. A Texas A&I sports writer might, for instance, pick his home team over Notre Dame in the unlikely event of such a game) and Slippery Rock might hope fervently for an upset win over Army, if such a game were played.

Now we cannot compare Tech to such small schools in football ability, but the facts stand, while Tech is still at the head of its class, Texas university is also at the head of its own. Tech and Texas cannot be expected to play on equal terms.

Higher national standing for the Longhorns attracts fine players and more of them. Townsends, Mayees and McFadins go where they get more recognition. They

obviously won't get as much at Tech. So, teams like Texas, SMU and Rice get them and, with them, beat teams like Tech.

Only an extremely sentimental or unrealistic person could expect the Raiders to overpower a team ranked in the top 10 nationally. Whether or not the weather is cool and even if Texas is not mentally "high" for the game, we pick the Longhorns to win without too much trouble. Although a hustling Tech team could make it close, an upset does not appear to be in the making.

Over the rest of the Southwest, outcomes of games seem to be pretty well settled. Southern Methodist has the toughest job but should manage to take Georgia Tech by about one T. Baylor and Texas A&M should repeat their respective last year's wins over Wyoming and Nevada, respectively. Arkansas will have trouble with Oklahoma A&M but will eke out a close victory.

As usual in the Border conference a few teams dominate and can pretty well be expected to win most of their games. The largest margins of victory will be rolled up by Tempe in its game with Brigham Young and by Texas Western against New Mexico A&M. Hardin-Simmons will beat Cincinnati and New Mexico will trim Flagstaff by lesser margins.

Arizona can expect an unpleasant opening game. West Texas State with one game already under its belt and more good material than it has had in years will win in a walk.

Three Tech football players received slight injuries in last Saturday's scrimmage session. Halfbacks Tim Hatch and Eural Ramsey each received bruised hips. John Tom Baker suffered a pulled muscle in his left shoulder.

Article By Male Published

Dr. Roy R. Male, new assistant professor of English, has had an article published in the University of Texas Studies in English.

The title of the article is "Shelley and the Doctrine of Sympathy," according to Dr. T. W. Camp, head of the English department.

University Of Texas Longhorns Play Tech This Afternoon; Capacity Crowd Expected

A capacity crowd of some 20,000 fans is expected to be on hand today as the heralded University of Texas Longhorns roll into Jones stadium to play Tech's Red Raiders in their opening football game of the 1950 season.

Many potential all-Americans will be on display when the Southwest conference team takes the field. Guard Lewis McFadin and fullback Byron Townsend along with end Ben Proctor have been mentioned as outstanding players on the team.

Although these same Longhorns were only able to finish with a tie for third place in the Southwest conference standings last season, many observers named them the best team, man for man, in the circuit.

Seven offensive and eight defensive starters from last year's squad return for action this year. The four losses incurred by the team were by a total of only 10 points.

Selected as one of the most dangerous teams in the nation, Texas was rated among the top 10 teams nationally by virtually every football writer. They have been selected as the "team to beat" in the Southwest conference.

Texas Tech, in contrast, has been having its troubles this fall. A bad showing in practice last Saturday offered little hope for an upset to Raider followers. But it was hoped that the let-down shown was a result of hard work in previous sessions and would not be an indication of the team's work in the opening game.

Four backfield starters from last year's eleven, two fullbacks and two halfbacks, will return for duty. But few seasoned linemen are available. An injury to stand-out tackle Bobby Broyles in scrimmage, Tuesday, further weakened a line composed principally of sophomores and squadmen of last year.

Made a favorite by from three to four touchdowns, the Longhorns are expected by national sports experts to take advantage of the Techs' inexperience and walk off with their seventh win in seven starts against Tech. However, Raider fans may be quick to recall that when Tech last played host to an outstanding Texas University team the Longhorns were barely able to squeeze by, winning

Seven Westerners Join Tech Ranks

Seven members of the district 3AA champion Lubbock high school team of 1949 have enrolled in Tech for the fall semester. Of the group, five are linemen while one halfback and a quarterback are listed in the first year football ranks.

Three of the group were named for all-district honors at the end of their prep careers.

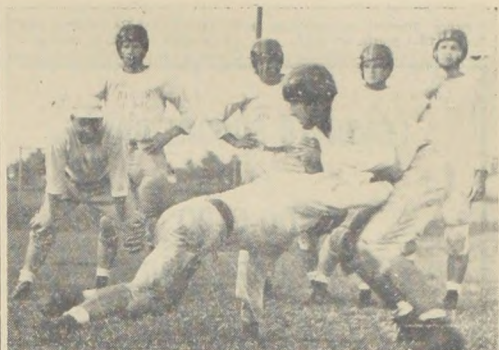

Next in rank among schools furnishing talent are, Amarillo and Fort Worth with two representatives each.

Ronald Miller, back, and Charles Goff, tackle, have transferred from Texas Tech to Tarleton State college at Stephenville, Texas.

Game time is 2:30 p.m. today.

Probable starting line-ups for the two teams are as follows:

Tech	Pos.	Texas
Johnson	LER	Williams
Baker	LTR	Jackson
Gray	LGR	Arnold
Phillips	C	Rowan
Garner	RGL	McFadin
McSwane	RFL	Vykukal
Jackson	REL	Proctor
Arterburn	QB	Tompkins
Stuver	LHR	Shands
Hatch	RHL	Dawson
Jackson	FB	Townsend

BUTTING HEADS—G. B. Morris, Tech line coach, looks on as two Tech linemen demonstrate the new offensive-defensive arms ruling for onlooking Techmen. Coach Morris is setting a stiff workout period in preparation for today's game. (Photo by Allen Hammer.)

Saddle Tramps Fill Vacant Posts

Gene Messer was elected vice president and John T. Hall was elected treasurer of Saddle Tramps in a meeting Thursday, Andy Behrends, president, announces. They fill offices left vacant by the promotion of Behrends.

Plans were made for the reception committee which met the University of Texas footballers at the airport Friday morning. The club will elect another sponsor at the next meeting. Raymond Mack is one sponsor of the club.

Tech Management Elects Schneider For Secretary

Clyde Schneider was elected secretary of the Tech Management association Monday at the first meeting of the year.

Burl Hubbard was appointed to find a new meeting place for the association. The next meeting will be Oct. 2. The meeting place will be announced later, LeRoi Ogden, president, said.

Selected pledges were assigned projects. Pledge captains are Jack Hopper, Larry Bedford and Emery Goodin.

Geology Society Schedules Fall Smoker For Tuesday

The Tech chapter of Sigma Gamma Epsilon, honorary geology society, will hold its annual fall smoker at 7:30 p.m. Tuesday in C205, W. P. Weatherly, secretary, announced. All members and prospective members are urged to attend.
Requirements for membership are junior standing, geology major or petroleum engineer with a geology option, 12 semester hours in geology, 2.0 average in geology, and a 1.33 overall average.
A. H. Howard is to speak and refreshments will be served.

Kappa Alpha Mu Meeting Monday

Kappa Alpha Mu, honorary photography fraternity, will meet Monday at 5 p.m. in J204, said Robert Duke, president.
Any person who has had one semester of photography and who has maintained a B average in photography is eligible for membership in the club. Also, any person, although he has not had a course in photography, may submit ten 8"x10" prints to the club if he wishes to join. Anyone who can meet either of these requirements and wishes to join KAM may obtain added information by attending the meeting Monday.
At the meeting held last Monday Cecil Horne, professor of journalism, was chosen as sponsor.

Aggie Band Will Highlight Club Meeting Entertainment

A western band composed of club members will highlight the Aggie club meeting at 7:30 p.m. Tuesday in the Aggie auditorium. The club will also elect a sponsor for the year.
Old members are asked to attend and new members are invited, Andy Behrends, president, said. Qualifications for joining the organization are enrollment in the agriculture division and payment of \$1.25 in dues.

Society Of Civil Engineers Holds First Fall Meeting

American Society of Civil Engineers will hold its first meeting of the fall semester at 7:30 p.m. Monday, G. W. Parkhill, Lubbock consulting engineer, will be the speaker, said Howard Kuhn, vice president of ASCE.
Membership in the ASCE is open to all civil engineering students and to architects with construction options. The fall program will provide opportunities for student engineers to become familiar with the varied problems in the field of civil engineering, Kuhn said.
Freshmen and sophomores are urged to attend the meeting and to become active in the organization, the vice president stated.
Tech lost 7-6 to the University of Arizona at tenth anniversary homecoming.

Aggie Club Board Meeting
Board of Directors of the Aggie club will hold a meeting at 5 p.m. Monday afternoon in the Aggie auditorium. President Andy Behrends has announced.
