

## Raiders Combat Porkers

### Tech Squad Seeks Fifth Win Today

ALL ABOARD FOR ARKANSAS AND TECH'S FINAL GAME

... Tech's cheerleaders are shown as they left on a Champs Aviation plane Wednesday for Little Rock. (Staff Photo by Travis Harrell)

by RALPH W. CARPENTER

Toreador Sports Editor  
WHERE — Little Rock, Arkansas  
WHO — Texas Tech — Arkansas  
WHEN — 2 p.m.

Little Rock, Arkansas, Nov. 21 — Texas Tech's Red Raiders close out the 1959 football season today against the Arkansas Razorbacks.

The Raiders will be seeking their fifth win of the year. The Hogs have cinched at least a tie for the SWC crown, and will be trying to add Tech to their victim list.

The Razorbacks have a 7-2 record for the season. Their only defeats came at the hands of Mississippi and Texas.

If the Texas Longhorns falter against Texas A&M in their annual Thanksgiving Day battle, the Razorbacks will wind up as host team in the Cotton Bowl on New Year's Day.

### Ballet Ends Swim Show

The final performance of the third annual Dolphin Club show, "Water Escapades," will begin at 7:30 p.m. today in the swimming pool of the men's gym.

The Dolphinettes, girls' synchronized swimming group, will team up with the Dolphins to perform eleven water ballet numbers under red, green and yellow lights.

Clown diving, platform diving, spring board diving and three meter diving will be featured between ballet numbers.

Representatives from each of the eleven sororities will display the latest evening fashions in a water-side fashion show. Marilyn Warren will narrate the show.

The Dolphins have been invited to perform in Odessa soon after the show closes here. Bill Boyd, president of the West Texas Beach and Pool Assn., extended the invitation.

Tickets for tonight's performance may be purchased in the Tech Union and at the gym entrance. Tickets are 75 cents each.

Bo Grimshaw, assisted by Norman Womack, is directing the show.

Even if the Longhorns win the Cotton Bowl berth, the Arkansas crew is assured a Bowl appearance. The Gator Bowl wants them if they don't make it to the Cotton Bowl game.

Coach DeWitt Weaver brought a thin 32-man squad into Little Rock Friday. The Raiders, 14-point underdogs, reached Arkansas territory late Friday and immediately went to War Memorial Stadium for drills.

Only three players, Carey Tidwell, an end, and halfbacks Jimmy Williams and Virgil Wilson did not make the trip. They are all on the injury list.

The game will mark an end to the college football careers of five Tech seniors. Ken Talkington, Ronnie Rice, Bill Turnbow, Jerry Selfridge and Mickie Barron will be playing their last game as Raiders.

Tech may enter the contest without the services of two of its top hands. If quarterback Ken Talkington and center E. J. Holub play at all, it will be "limited action."

Talkington suffered a knee injury in the Houston game last week and has been out of workouts. Holub has been in the hospital with a sinus infection and is a doubtful starter today.

Glenn Amerson, who came off the bench during the Homecoming win over Houston, and Bill Turnbow, big senior center, will probably take over for the injured performers.

TECH'S DOLPHIN CLUB PRESENTS "WATER ESCAPADES" ... with the final performance slated tonight.

### MUSIC, DRAMA, ART

## Festival Continues

The Fine Arts Festival continues today with the speech department's presentation of "Blood Wedding" tonight at 8:15 in the Speech Auditorium.

**THE DRAMA** by Frederico Garcia Lorca will be held over for

Monday and Tuesday nights. It is a modern tragedy set in Spain and involves poetry, music and dance, as well as drama.

Exhibits continuing through today include an applied arts display in the Home Economics Bldg.

and a Romanesque Glass exhibit in the Tech Union lounge.

Yesterday's presentations included a jazz concert; the academy award-winning motion picture of the Shakespearean play, "Henry V" and "An Evening of Opera and Dance."

**THE JAZZ** concert was given by the Tech Stage Band under the direction of Keith McCarty. An arrangement by Philip Pearce, a member of the band, was among the five numbers featured.

"An Evening of Opera and Dance" was produced by the Tech Opera Theater under the direction of Charles Lawrie and the Tech Orchestra under the direction of Paul Ellsworth. It featured scenes from operas by Verdi, Puccini and Mozart.

The Tech Orchestra also produced Purcell's "Golden Sonata." The Tech Modern Dance Group, under the direction of Miss Jane Perry, presented a program of four modern dances.

## Tech Crop Judgers Leave for Contest

Texas Tech's crop judging team leaves today for Kansas City to attend the National Grain Judging contest with expectations of repeating top performances of previous years.

After the National contest the team will compete in the International Crop Judging contest in Chicago next Saturday.

In last year's competition, Tech's

team took firsts in both Kansas City and Chicago, which brought the total to seven dual wins in eight years. Crop teams have been coached since 1947 by Cecil Ayers, associate professor of agronomy.

The four team members—Gene Coleman, Amherst; Dean Edwards, Amarillo; Mike McDonald, Lubbock; and Glenn Robison, Hereford—have averaged 18 hours a week in practice for the contest this semester.

As a continuation of a crop identification course begun last spring the members are taking "contest" courses. The boys grade grain, hay and cotton according to federal standards, working under the same conditions used in the contests.

They must identify 400 combinations of crop and weed plants, seeds and diseases, giving the common and Latin name for each. They must be familiar with not only southern crops but also those grown in New England and the Mid-West.

"This team is one of the best I've had," Ayers said, "but they've been a little slow getting the bugs out."

### Swim Meet Set

The first Inter-Squad Swimming Meet will be Tuesday at 4 p.m. in the Texas Tech Swimming pool.

Events include freestyle, butterfly, breaststroke, backstroke and diving.

Captains are Jim Tom Davis and Glenn Shoup. Coaches are Jim McNally and R. W. Kirellis, head.

The swimming team works out from 3 to 5 p.m. each day in the Tech swimming pool. Those who wish to be on the team should come at that time.

## Phi Mu, No. 8 Take Awards

Phi Mu sorority and Men's 8 won plaques for demonstration of the best school spirit at this year's last football pep rally Thursday night. Sponsored by the Inter-Fraternity Council, winners were judged on the number present in the organization, voice power and originality of poster design.

Short speeches were given by the five Red Raider seniors who play their last game today.

The shirt with a future...

You needn't be a man of science to recognize the superior styling of Arrow's Gordon Dover. Its fashion credentials number—the buttondown collar with the perfect arched flare, the finest "Sanforized" oxford cloth, Arrow's outstanding tailoring and enduring fit. Try one—you'll vouch for it! \$5.00.

**ARROW**

Each Saturday see the NCAA football "Game of the Week"—NBC TV—sponsored by ARROW.

## Mortar Board Compiles Outstanding Books List

Tech's chapter of Mortar Board has compiled a book list now available at the College Bookstore. The list was prepared to stimulate reading beyond that required in courses and also to provide a knowledge of the outstanding books in many fields. Books are listed according to category giving the author and title and, in some cases, publishing company and date of publication. Books included were recommended by faculty members and various department heads. Mortar Board will distribute the list to those departments that contributed information. The list, rather than a survey of all the best literature in any of the fields, provides an introduction to the various fields. The book was financed by College Bookstore.

## SAE Pledges Elect Officers

Sigma Alpha Epsilon has announced its officers for the fall pledge class. Chad Moore is president; Tom Merideth, vice president; Bill Watson, secretary; Harvey Muegge, treasurer; and Polly Bell, social chairman.

## Eta Kappa Nu Initiation Set

Fourteen students will be initiated into Eta Kappa Nu, electrical engineering honorary fraternity, at 5 p.m. today in East Engineering 2. A banquet at the Top of the Plains following the initiation will honor the new members. Guest speaker for the banquet is Dr. Paul Griffith, electrical engineering associate professor. Students to be initiated are Charles Bassett, Gilbert Branchflower, Don Cannon, Frank Davies, Robert Ewing, Pat Fisher, Dennis Jones, Larry Masten, Eurfryn McDowell, Weston Roe, Milton Schramm, Robert Shelton, Ralph Tyler and Darrell Vines.

LUCKY STRIKE presents

# Dear Dr. Frood:

Dr. Frood, Ph.T.T.

Dear Dr. Frood: I read a great deal so I never have time for girls. Am I missing anything? *Literate*

Dear Literate: Only a few marbles.

Dear Dr. Frood: The guy next to me copys from my paper. What should I do? *Truthfil*

Dear Truthfil: Warn him. Quick!

Dear Dr. Frood: When I refuse to go out with unattractive girls, my friends say, "Beauty is only skin-deep." What do you say? *Fussy*

Dear Fussy: That's deep enough.

© A. T. Co.

### DR. FROOD'S MORAL OF THE MONTH

*Brevity is the soul of wit. Which is why the sight of a girl in a Bikini invariably brings a smile to a man's face.*

Dear Dr. Frood: Do you think next year's dresses will cover the knees? *Clothes-Conscious*

Dear Clothes-Conscious: They'd better cover more than that.

Dear Dr. Frood: I admire my roommate very much, so I try to be like him. He smokes Luckies. Do you think I should smoke the same cigarette he does? *Awed*

Dear Awed: No. Ask him for an unused Lucky.

Dear Dr. Frood: Do you think a boy should kiss a girl on their first date? *Shy*

Dear Shy: She would seem to be the logical choice.

### DR. FROOD ON QUERIES BEST LEFT UNQUERIED

Years of experience have taught me never to ask a girl these questions:

- Shouldn't we skip the garlic?
- What happened to the fraternity pin?
- Wow! Is that your roommate?
- Do you mind turning out that light?
- You mean that isn't a beanie?
- How come you never wear shorts?
- Why don't you smoke your own Luckies?

## COLLEGE STUDENTS SMOKE MORE LUCKIES THAN ANY OTHER REGULAR!

When it comes to choosing their regular smoke, college students head right for fine tobacco. Result: Lucky Strike tops every other regular sold. Lucky's taste beats all the rest because L.S./M.F.T.—Lucky Strike means fine tobacco.

## TOBACCO AND TASTE TOO FINE TO FILTER!

ART INVADES TECH—Ann Bennett and Doris McFarland examine an African headpiece made by art education students.

### Art Course Emphasizes Imagination

Quiet music, a relaxed atmosphere and plenty of imagination are the ingredients for the student taking Art Education 338, a course designed primarily for the elementary education major. Dr. Bill Lockhart, associate professor of applied arts in the Home Economics dept., is attempting to develop in his students a new philosophy of art.

**THE NEW PHILOSOPHY** is that of freedom of expression. To show them he believes in this philosophy, he allows the students freedom and conducts his classes informally.

"The important thing for the student training for elementary teaching is that she is not just to train little artists, but to help each child to learn to appreciate and enjoy art," Dr. Lockhart said.

The art education classes are taught by Lockhart and by Dr. Arne Randall, professor of applied arts.

**DR. LOCKHART** said that at the first of the semester he always senses a fear and tenseness in his students. At first he encourages them to work in groups to help them overcome their self-consciousness.

One of the main projects for this semester is the making of exhibits for the Art Education Conference this Friday and Saturday. The students are given the topic of the conference and are told that they must decide what materials and subject they will use. Students are encouraged to work with some media they have never used.

The department attempts to show that a child does not perceive objects nor portray them in the same way an adult does. One child may not portray a dog as another child would, for it may be a symbol of gentleness and love to him while to another child it may symbolize fear and danger.

(Compiled from the Intercollegiate Press)

Madison, Wis.—University of Wisconsin regents have approved action of the University faculty on the so-called "1960 clause."

The faculty recently reaffirmed its determination to deny approval to any fraternity or sorority "which has in its national or local constitution or pledge instructions a discriminatory clause," but moved the deadline for removal of such clauses from July 1, 1960, to Sept. 10, 1960.

The deadline change will give the five student organizations affected another summer period for the national meetings needed for such action.

Four social and one professional fraternity with Wisconsin chapters are affected by the faculty action.

They include Alpha Tau Omega, Pi Kappa Alpha, Sigma Chi, and Sigma Nu, all social fraternities, and Delta Theta Phi, professional law fraternity.

★ ★ ★

Middleton, Conn.—The course without grade system at Wesleyan University has been unanimously approved by every teacher who has had a credit-audit student in his class.

The teachers cited the system as a step towards Wesleyan's aim for "learning for learning's sake."

Under the system, each junior and senior, as part of his regular quota courses, is permitted to elect and designate in each semester one course for which he will be granted the usual credit but without an official grade on his record.

★ ★ ★

Syracuse, N. Y.—The following is the text of the new Anti-Demonstration Act, ratified by the Joint Student Legislature of Syracuse University, which will go into effect this fall:

The administration and the student governments of Syracuse University jointly set forth the following policy to be enforced by the Dean of Men, Dean of Women and Joint Student Court concerning any student demonstration which endangers life, endangers public or private property, or violates local, state or federal law.

An example of such a demonstration would be a pantyraid or water fight. (Public demonstrations against the rules, regulations and policies of Syracuse University are illegal unless the participants have attempted to obtain their objectives through the University administration or student government.)

Participation by social center or organization may involve social probation or withdrawal of recognition. A student participating may have his scholarship revoked or be suspended. No legal representation will be given by the University for participants. The University will assume no fine or damages obligation for any student participating.

The Toreador, official student newspaper of Texas Technological College, Lubbock, Texas, is regularly published each Tuesday, Thursday, and Saturday morning during the two long terms, excepting holidays, by students of the College as an expression of campus news and student opinion only.  
 The Toreador is financed by a student services fee, advertising, and subscriptions. Letters to the editor and columns represent the views of their writers and not necessarily those of the Toreador. Letters must be signed, but may be published with initials in justifiable instances. The views of the Toreador are in no way to be construed as necessarily those of the administration.  
 Registered as second class matter at the Post Office in Lubbock, Texas, under the act of March 3, 1879.

# TOREADOR

Serving Texas Tech Since 1925

A THOUGHT FOR TODAY—Whispering from her towers the last enchantments of the Middle Age... home of lost causes, and forsaken beliefs, and unpopular names, and impossible loyalties!

—M.A.

## Are They Necessary?

# How About Loyalty Oaths?

It is our opinion that the students of this school are prodded around like a herd of cattle rather than treated as individuals.

One such instance comes to mind with the mandatory student signature on the loyalty agreement which appears on registration forms each semester.

This, of course, is a pledge of obedience to the laws of Texas, the United States and Texas Tech and conformity "to those highest standards of conduct which are universally recognized in good society and among honorable men and women," with special emphasis on state laws regarding hazing.

If this oath serves any purpose, other than an excuse to expel students who happen to violate them, we don't know what it is.

Proposals to do away with loyalty oaths are not such radical ideas on college campuses and omission is in effect at many other schools.

In fact, Harvard and Yale recently withdrew from the federal student loan program because it required borrowers to sign a similar affidavit.

A Yale official said this affidavit "partakes of the nature of the oppressive religious and political test oaths of history, which were used as a means of exercising control over the educational process by church or state."

A person who could absolutely obey the laws of anything — especially the laws of Texas — would be truly comparable with J. C., himself.

In theory, a student given a ticket for speeding on his way home for a weekend visit could be held to have violated this oath and probably could be expelled.

Such things as this loyalty oath — and believe us, there are others — deny students their rights as individuals, and they should look forward to the day when they are graduated and allowed to live their own lives.

TOM SCHMIDT  
 Editor

## Techsans Talk

# Student Reviews Play Review

Dear Editor:

This is to express my disillusionment of the staff of The Toreador in publishing such a prejudiced review as that which was given the production of "Blood Wedding."

I FEEL that it is pertinent that the student body be informed that the JP by whom this article was signed was John Petty who appears as a member of the cast in the role of a woodcutter in one scene in the third act. Since Mr. Petty was required to be in makeup and costume by 6:30 p.m. on both the nights of the performance and dress rehearsals, it was obviously impossible for him to have seen, much less to have judged, anything that occurred on the stage.

As to his qualifications as a critic of acting, I suggest the general public form their opinions, as I did mine, from viewing his own performance.

SINCE MR. PETTY is a member of the Sports Staff of The Toreador I rather wonder, also, about his qualifications as a critic of original musical compositions.

In conclusion may I add that as a member of the Texas Tech student body, I am disturbed that my school paper would publish what is apparently pure venom and personal prejudice to the detriment of a recognized college activity.

Sincerely,  
 Vera Simpson

Dear Editor:

I would like to express my congratulations to the Toreador for the publishing of the review, written by "J.P.", of the current speech department play.

I would like for the student body to be made aware of the advancement made by The Toreador in the field of news gathering.

Certainly it is an accomplishment when a critical review of a play can be written by a person who was not, and will not be, a member of the audience viewing the play.

Sincerely,  
 Larry Witten

Dear Editor:

Tradition and Double T—two terms so cherished through the years that they have become synonymous in their meaning—have embedded themselves in every fibre of this college. To lose either of the two would be a pitiful blunder. Why not keep the Double T? Tradition? And yet drop the Technological detriment which binds so many graduates? No other name lends itself so well as Texas Traditional University.

TEXAS TRADITIONAL UNIVERSITY — A name so natural that it rings the home chords; so natural that it would hardly be an adjustment to adopt it.

"Immemorial, whereof the memory of man runneth not to the contrary." So Roget's International Thesaurus depicts Traditional. Further, it says Traditional means rooted, approved, legendary, romantic, idealistic, realistic, acknowledged, correct, fabulous, prevalent, mythical, established, proper, true to life, customary and deceptive. What other word can claim these synonyms? What other word so accurately employs all the meaning we want our school to stand for?

AS LONG as we must change our name, let's get something that is all-inclusive, purposeful, different and dignified. Texas Traditional is a name that can sound just as, or more, stately as Yale, Harvard, and Princeton. No other major college can boast a similar name. It's novel. With the advent of full-fledged SWC competition next year, Texas Traditional could stand out just as unique and honored as Notre Dame.

Here's a vote for Double T and Traditional University.

Sincerely,  
 Floyd Bradley  
 Joe Passmore

AT TEXAS UNIVERSITY

# Thomas Attends Meet

Dr. Henry C. Thomas, head of Texas Tech's physics department, has been invited to the Texas Symposium on Nuclear Fission as a guest of the Texas Atomic Energy Research Foundation at the University of Texas today and Friday.

The possibility of using the energy released by nuclear fusion will be discussed at the Symposium.

Physicists from the General Atomic Division of General Dynamics Corp. of La Jolla, Calif., and a professor from the University of Chicago will report on experimentation with the fusion process which is responsible for energy ge-

neration in the sun and stars.

"Fusion is taking elements with low atomic numbers and combining them with the resultant release of energy," said Dr. Thomas. "Fission is the opposite process, by which large number elements are split.

"Fission reactions can now be controlled, and there are places in the world which are receiving their power by these reactions."

So far a way to control fusion reactions has not been found. Another problem is the extremely high temperature at which fusion takes place.

The projects to be discussed at

the Symposium are efforts to control nuclear fusion so that it can be used for power.

"Fusion is being studied because it uses light elements, of which we have plenty. Fission, on the other hand, must have heavy elements which are not so common," Dr. Thomas continued.

"Fusion also does not give off as many radioactive products."

# Picadors Subdue Air Force, 24-8

by JOHN PETTY  
Toreador Sports Writer  
Texas Tech's freshman Picadors displayed an awesome show of power Friday afternoon as they beat the Air Force Academy freshmen 24-8 in Colorado Springs, Colo., for their final game of the season.

Coach Tom Hamm emptied his bench against the hapless Falcons and it was hard to tell the starters from the substitutes by their play. Every man played the kind of ball coaches usually see on a starting team.

The first quarter began slow with the two teams trading the ball back and forth in midfield,

As the second quarter began, quarterback John Lovelace, playing with a sprained ankle, handed off to halfback Jay Byrum and the hard running Ysleta boy scampered 47 yards for the first touchdown of the game. The conversion failed and the Picadors led 6-0.

THE SECOND stanza proved to be the big one with the Picadors scoring twice more on identical plays.

After holding the Falcons to only five yards in three plays after the touchdown kickoff, the freshman Raiders took the ball on their own 45 yard line. 13 plays and three first downs later, they hit paydirt again when Lovelace

pitched out to halfback C. W. Williams, who in turn passed six yards to split halfback Charles McEntire for six more points. An attempted pass for two more points was knocked down but the freshmen led 12-0.

As the clock was running out of time deep in the first half, Tech took the ball and moved it 55 yards for their third TD of the quarter. W. M. Jeter, in at quarterback, took the ball on the Falcon eight yard line and proceeded to begin the same pitch out and pass play that had scored earlier.

The ball went from Jeter to McEntire to halfback Larry Tipton with Tipton going over for the

score. The Picadors missed again on the point after and the half ended 18-0 in favor of the Raiders.

THE FINAL Tech score came late in the third quarter after Picadors had recovered an Air Force fumble deep in Falcon territory. Jeter stood on the eighteen and passed to halfback Joe Ed Pesch who went down to the five for a first down and goal to go. Fullback Eddie Boydston took the handoff and plowed up the middle for the needed five yards, pushing the Picadors ahead 24-0.

The lone Falcon tally came in the last quarter and ended a 72 yard drive when quarterback McClellan sneaked over from the Raider two. A pass conversion gave the Air Force two points and made the score 24-8.

Tom Hamm alternated among

three outstanding quarterbacks during the afternoon. Richard Mahan started for the Picadors but shared the man under duties with Lovelace and Jeter in what was an unbeatable combination.

THE VICTORY left the Picadors with a season record of four wins and one loss. After losing their opening game to North Texas 20-12, they came back to win from the Hardin-Simmons "B" team 28-9, the Arkansas Shoats 26-6 and the McMurry "B" team 39-12 before Friday's conquest.

Over the season, the freshmen scored a total of 129 points in five games for an average of 25.8 points a game. The Picador defense allowed 55 points over the season for a defensive average of 11 points per game.

All filter cigarettes are divided into two parts, and...

"Weni, widi, Winston!" Thus did Caesar (a notoriously poor speller) hail the discovery of Filter-Blend—light, mild tobaccos specially selected and specially processed for filter smoking.

He knew that a pure white filter alone is not enough. To be a complete filter cigarette, it must have Filter-Blend up front. And only Winston's got it!

That's why Caesar would never accept another brand even when it was offered gratis. In fact, history

tells us he'd glower at the extended pack and sneer, "Et tu, Brute?"

In a stirring peroration to his legions, Caesar put it this way: "For the Numeral I filter cigarette—for the best-tasting filter cigarette—for the noblest filter cigarette of all—smoke Winston!"

"Winston tastes good like a cigarette should!"

P.S. to bachelors, If you're lucky enough to find a gal who'll keep you in Winstons, Caesar!

## SAE Team Takes All-College Crown

by BILL BLACKBURN  
Intramural Sportswriter

SAE completely throttled Dorm 6 Friday with a 13-0 shellacking to take the 1959 all-college championship. The Dorm 6 boys were able to complete only three passes the entire game.

Dorm 6 received the opening kick-off, but saw their second effort intercepted by Jerry Craft of the SAE's. Jerry Pearson then

threw a thirty yard aerial to Darrel Summers, which gave the Sig Alphas a first and goal. Jimmy Johnson hauled in the next missile for the tally. The try for extra point was no good and the score stood, SAE — 6, Dorm 6 — 0.

Pearson intercepted Jim Bertram's first pass for the Dorm 6 team in the following series to give the Alphas possession again.

Two quick passes to Summers and Bob Kinney followed, with the latter scoring. Johnson kicked and the SAE's led, 13-0. This ended the first half's action.

A hard charging SAE line, led by Delbert Bassett and Jack Lallament, kept Bertram and Davis, quarterbacks for Dorm 6, under wraps the second half, and the final score stood 13-0 for the SAE's.

Monty Bray was outstanding for Dorm 6 in the line, while Frank Holscher headed the backfield. Other yeomen for the SAE's were Warner Phillips and Malcolm Garrett.

This marked the SAE's tenth victory against one defeat this year. The Alphas also won the All-team in the following series to give the Alphas possession again.

## Tale of Two Cities!

Among Western Hemisphere cities with the largest per capita enjoyment of Coca-Cola are, interestingly enough, sunny New Orleans and chilly Montreal. When we say, "Thirst Knows No Season," we've said a cheerful mouthful.

So don't take any lame excuses about its not being hot enough for Coca-Cola. Forget the temperature and drink up!

**RALPH RAMBLE**  
Let's hope the Raiders day. That 24-8 win over the football picture at Tech afternoon. Arkansas would season record — which is enough, they just might pull

Fidel Buchanan, general manager, requested that all independenters meet with him Monday

Montgomery and Tom S. Tom S. has had a rough year book when this pair get to this season and if they win it

Here we go with our record so far hasn't been last week was the one that the rest right, including that ARKANSAS over TEXAS pretty bad. The Raiders will TCU over RICE — The O almost December now. SMU over BAYLOR — N all afternoon. After all, what

## High School Grid Brief

FLOYDADA (AP)—Fredwell sped 28 yards to a down that brought D City a 14-8 victory over dada Friday in the first of the Class AA school football playoffs. The score was tied in second period when Kie intercepted a pass and ran the Floydada 19. Bert Grabitt lost nine Kie then spun around for the touchdown that Denver City undefeated

CANYON (AP)—John scored all the points Friday. Oton upset Canyon 14-8 the first round of the C He scored a touchdown ran over the conversion in AA schoolboy football play second period to give his team an 8-8 tie at the half. Then with only 30 seconds left in the game he led an on charge that was climaxed by his 3-yard smash for winning touchdown.

QUANAH, Tex. (AP)—T Lovorn ran for two touchdowns and passed for two in leading defending state champion Stamford to a 43 victory over Quanah in first round of the Class football playoff. There was little opposition for the undefeated, undefeated, until Bulldogs as they ran up a 2 margin in little more than three periods.

# RALPH'S RAMBLINGS

by  
Ralph W. Carpenter

Let's hope the Raiders do as well today as the Picadors did Friday. That 24-8 win over the Air Force Academy freshmen sure helps the football picture at Tech.

The Raiders certainly aren't going to have an easy time this afternoon. Arkansas would like to trip us up and improve their season record — which is not bad now by any means — 7-2.

The Hogs are ripe for an upset. If the Raiders want to win bad enough, they just might pull it off.

—RWC—

Edsel Buchanan, genial director of Tech intramurals, has requested that all independent and dormitory basketball managers meet with him Monday in room 254 of the men's gym.

—RWC—

Monterey and Tom S. play this afternoon out at the stadium. Tom S. has had a rough year but you can throw away the record book when this pair get together. The Plainsmen have a good team this season and if they win it will not surprise anyone.

—RWC—

Here we go with our final predictions for this football season. Our record so far hasn't been too bad. The only game we missed last week was the one that counted — Tech and Houston. We got all the rest right, including that TCU win over Texas.

**ARKANSAS over TEXAS TECH**—The Porkers want this one pretty bad. The Raiders will try but the Hogs have too many horses.

**TCU over RICE**—The Owls look better in November — but it's almost December now.

**SMU over BAYLOR**—Now don't tell me that Meredith won't pass all afternoon. After all, what else do the Ponies have?

## Army Cadets Given Officer Promotions

Senior Army ROTC Cadets received promotion and assignments this week with 12 promoted as commanding officers.

Johnny G. Campbell was promoted to colonel and will serve as brigade commander.

The battle group commanders are Lt. Cols. Billy F. Brown, James L. Ward and Jo W. Bird.

Serving as company commanders are Capt. Morris R. Scales, Thommy S. Starnes, Norman R. Loose, William C. Hamilton, Gordon M. Deering, Robert F. Hood and Charles T. Robb.

Capt. Gary F. Mims is the commanding officer for the band.

Officer selections were based on academic grades, drill field performance and instructor evaluation.

Junior selections will be made next week for senior non-commissioned officer slots. Sophomore selections will be made at the same time to fill in all lower positions.

New shoulder type insignia have been received for ranks of Pfc through M/Sgt. The insignia has gold stripes on a black background with the individual's own battle group color on the upper portion.

## Seven Vie In Tourney

Texas Tech speech groups are participating in the Poetry Festival at Southwestern University, Georgetown, and the Shocker Tournament in Wichita, Kan., this weekend.

Anna Joe Pendleton, professor of speech at Tech, and three students are attending the Poetry Festival at Southwestern University.

Participating in the festival are Sandra Clark, junior from Vernon; Peter Mood, junior from Dallas; and Don Zimmerman, senior from Hereford.

Four Tech students are debating in the Shocker Tournament at Wichita University. Ronald Purcell, Lubbock sophomore, and Jerry Wheeler, Houston sophomore, are on the negative side of the question "Congress should have power to reverse decisions of the Supreme Court."

The affirmative side of the same issue is being debated by Mary Helen Fairly, junior from Beeville, and Carol Jean Hanks, junior from Bellaire.

Miss Hanks is also entering the oratory contest. Miss Fairly and Purcell are competing in extemporaneous speaking.

## Club Backs Toys Drive

Circle K Club, campus sponsors of this year's Toys for Tots drive, will award two trophies to organizations making the most outstanding donations of new and serviceable toys.

Toys collected on campus will be sent to the local Marine Corps Reserve unit for distribution to Lubbock's needy children.

The contest runs from Dec. 1 to Dec. 15. Organizations should pick up rules and regulations at Board of Student Organization mailboxes, east of the campus mail desk opposite the Registrar's office.

In last year's drive 2,620 of the more than 17,000 toys distributed were collected on the Tech campus.
