TRICK OR TREAT IT'S GOOD DEAL

The Halloween "treats" collected by one group of younge sters in Big Spring went to underprivileged families following a decision to supplant the usual pranks with something constructive, the local Red Cross disclosed today.

Mrs. Moree Sawtelle, executive secretary of the Red Cross, said the group was seeking no publicity and preferred to remain anonymous, however. They were members of a Sunday School class in a local church, and when they made the customary Halloween demand, "Tricks of treat," staple foods were requested instead of the conventional

Washington Merry-Go-Round — Drew Pearson

Dewey Has Conducted An Astute Campaign With Quiet And Dignity

(Copyright by Bell Syndicate, 1948) (EDITOR'S NOTE — Drew Pearson's column today takes the form of a letter to his daughter on the question of how she should vote.)

Washington

Mrs. George Arnold, Dear Daughter:

It is difficult, even for an old and seasoned political hand like your father, to advise one who will vote for the first time.

Sometimes a segsoned political observer tends to size up an election the same way a couple of doctors discuss an important surgical operation. They become so immersed in the technicalities that they forget the patients are human beings, and that elections are a clash between several million human beings to pick another human being as their lead-

As a technician I would say that Gov. Dewey had conducted one of the most astute and skillful campaigns in recent years. He made nobody mad. He called no names: he answered no challenges. He ignored a great many of the issues. He knew that he was certain to win if he made no mistakes and aroused no tempers. So his whole campaign was

carefully geared to that end. Dewey even managed to escape answering a question every other candidate has had to answer, namely, place his war record before the voters. However, he managed to duck this, even though Mrs. Mathilda Burling. head of the Gold Star Mothers. specifically asked him in a telegram if he had a farm deferment in 1942. Even one of Dewey's republican Women's Committee members in 1944. Miss Dorothy Frooks, addressed three inquiries to Dewey regarding his

draft record, but got no reply. Gov. Dewey also managed to visit most of the 48 states and make several hundred speeches without any real discussion of the basic issues in the campaign. This, again, was astute politics. For if he had really talked about reclamation when he was in the West, he would have stepped on the toes either of the power companies or the power companies

enemies, and would thereby have lost votes on either side. Instead he cleverly told about the large amounts appropriated for reclamation by the 80th Congress, but left out the fact that the 80th Congress also tied the money up with so many strings it was a bonanza to the big power

companies. Naturally Dewey's evasion of these issues has disappointed some people. But looking at it from the political technician's point of view, a lot of corners are cut by candidates to achieve their main goal-victory. And the interesting thing to me is that Dewey was able to confine his campaign to sweetness and light without having some of these issues thrown at him by certain of

our leading newspapers. Harry Truman, of course, has walked up to the plate and taken a healthy swing at every issue. He has not ducked one curved ball. The country know exactly where he stands, which is his chief trouble in the South.

But the country elso knows, that, whereas Truman's record is excellent on paper, his record of performance is inept and sometimes inexcusable. He seems to have surrounded himself with men dedicated to the task of sabotaging all the fine things their boss stood for on paper.
On the other hand, Dewey's record in New York state has

been excellent both on paper and in performance. And the men around him are Roosevelt braintrust type dedicated to do or die for the boss and his policies. So, undoubtedly, you'll have

teamwork in the White House under Dewey. It may be very careful, sometimes cold-blooded, teamwork. There will be no fun and fireworks, none of the impulsive, sometimes courageous Trumanesque shooting from the hip. The White House poker game will be played close to the vest and certain newspaper moguls now so hell bent for Dewey's election are going to get sore at his tightfistedness

MAY PROVE MIRACLE MAN In sizing up the candidates, however, you also have to take a look at the political parties behind them. The Republican Party since the Civil War, has drawn its financial support from the bankers, the utilities, and big business. Generally, of course, people get what they pay for, and the big GOP contributors have not expressed dissatisfaction with the results.

If Tom Dewey can break away from this traditional GOP hookup he will be a miracle man. He is a tough little guy, and once elected, he may be able to do it. This will be the most interesting thing of all to watch.

The Democratic Party in recent years has drawn the bulk of its support from the big-city populations of the North, and for that reason has been far more liberal. It is bound to remain so if it is to keep northern city sup-

But the Democratic alliance with an unhappy, rebellious South has made the party exactly what Dewey said it was-

will even be lucky to have certain Democrats defeat some of the diehard isolationist Republicans who have been out of step with him in the past. GOP'S CHANCE During Roosevelts first two terms, this country saw some of the greatest social and economic reforms in half a century, They

Man to man, the Democratic

were long overdue, and the Democratic Party deserves great credit for putting them across. After January the Republican

Party, which claims to be the party of efficiency, will be given a chance to demonstrate this Harry Truman has put up a

courageous and magnificent fight. If he had fought as hard and as effectively during all his three years he would not be in the trouble he is today. But thanks to the combination of Dixiecrats, and Wallaceites he cannot possibly win this election. He will roll up a bigger popular vote than previously expected, which will be good. For it is always bad for one party to be too cocksure and overconfident.

Meanwhile, lets hope that Tom Dewey will be as broadminded as he is tough and can bring his party back to the progressivism of Teddy Roosevelt, Abe Line coln and pre-Civil War Days.

Well, thats how the candidates and the parties stack up. I don't know that I've given you any real adivce, because its a very confused situation. And the only thing I'm sure of is that we face one of the most interesting and important periods in our history. Love from Your Father

U. S. Must Tackle Chinese Quickly To Stop The Reds

For DeWitt MacKenzie SHANGHAI (#) - IF COMMUNISM'S fast flow over Asia is to be stopped, the United States must tackle the knotty problem of China again quickly and find a better solution than any tried so far.

Whether or not Communism has been halted in Europe, it certainly has not been stopped in Asia where its encroachment appears geared to China's civil war. Every time the Chinese Reds score a big victory Communist cells begin to ferment all over the Far East.

RED CHINA NEVER LOOKED stronger. The loss of Tsinan, Shantung capital, for example, lent Nanking, Shanghai and the Yangtze heartland of Chiang Kai-Shek's China open to attack. Time draws short What can America do? Veteran observ-

ers in China know the answer is not simply granting more money. The money will disappear and the Reds will keep on coming. Observers see these four courses open: 1. Write off China, let Chiang fall, and hope that Chinese communism will not suc-

ceed. A lot of people don't think it would. 2. Abandon China except for a foothold on the coast and keeps a beachhead should a war against world Communism come. Tsingtao, U. S. Navy Base, seems logical. It isn't strong now, but it could be built

. 3. Continue small-scale aid to Chiang in the hope of buying time. This is the present policy, but it hasn't had much suc-

4. Throw in hig scale aid and try to defeat Communism in China in the hope that thereafter other Asiatic Reds will curl up and die.

THE FOURTH COURSE SEEMS TO BE the most popular now with Americans except those who would have to administer the job. These last favor the idea but despair of making it work.

China is a huge, sprawling land mass, criss-crossed by mountains and rivers with few roads and railroads. In its best days China had little national cohesion Large sections are almost autonomous and pay little heed to Nanking. Some of these seetions are the richest.

Its 450 millions live at peaks of sumptuous wealth and depths of grinding poverty. Literacy is about 10 per cent. Millions of Chinese even in cities don't know the name of their own president. Always badly governed. Chinese have little or no

feeling of patriotism by western standards. And to the civil war, the average Chinese is more interested in keeping out of the way than in winning it. He isn't half as concerned about saving China from Communism as the Americans are.

Today And Tomorrow — Walter Lippmann

Pressure Is On Iom Dewey To Take Stand If He Wins

During the past week Mr. Dewey has been under pressure from Paris. The Associated Press reports that "high authorities" in the American delegation say that Mr. Dulles is "non-commital," and are urging Mr. Dewey, if he becomes President-elect, "to announce quickly his stand on the policies of the delegation, and "to put down in black and white just where

he stands." Failing that, they feel that the Assembly "might just as well adjourn until the United Nations can find out which way the United States is going."

This is not, as we all know, an easy problem to deal with under the American system of government. But some things at least are plain at this time. There is no issue before the Assembly which is so critically urgent that Governor Dewey must announce his position in detail immediately-before he has had time to recover from the fatigue of the campaign and to weigh his decisions carefully on be pressed to throw away, on the pretext the basis of much fuller knowledge than he can possibly have now. Berlin, Palestine, the Italian colonies, Korea, Greece, atomic energy have been with us for a long time and there is no reason to think that another hasty and unconsidered announcement about any of these issues

There have been more than enough announcements, and declarations, and blackand-white statements on all these issues. The world might well be better off if many of them had never been made, and one of the great advantages of a change of Administration at this time is that the new President and the new cabinet do not have to regard all the words uttered by their predecessors as sacrosanct. They will be a new Administration, and they will be able to take a fresh look at a great many things.

would do any good.

The position, after Mr. Dewey's election, will be something like that of a great estate, involved in all sorts of complicated law suits, when the owners decide to appoint new managers and new lawyers. Between the outgoing and the incoming men there is no disagreement that the interests of the estate are to be preserved, defended, and promoted. But that does not mean that the new management will be identical with the old, or that the new lawyers will take over all the old briefs, strips. and be unable to write their own.

The bi-partisan foreign policy covers these policies and programs in which the two parties have in fact collaborated, which a bi-partisan majority of Congress has approved after public debate. Participation in the U. N., the Marshall plan, rearmament, and the Vandenberg reso tion are indisputably in the bi-partisan foreign policy. The North Atlantic pact, with its corollary military lend-lease, will be developed within the bi-partisan under-

But no bi-partisan understanding cam do away with the fact that a large part of the conduct of foreign relations is inevitably and of necessity the responsibility of the President and of his administration. That responsibility cannot be shared equally by the two parties.

For no matter how sincere and earnest the consultation, those who are not on the inside can do little more than approve or disapprove proposals which they do not initiate and are not administering. Thus Mr. Dewey and Mr. Vandenberg and Mr. Dulles have not had, and could not have, equal responsibility for the formation and management of policy in Berlin, or in Germany, or in Japan, Korea, or Palestine, or in Greece, the Mediterranean, or

in respect to the Italian colonies. They should not be asked to assume responsibility greater than the power they have in fact exercised. In so far as it is possible to avoid it, they should not be expected to take responsibility until they can exercise power. Mr. Dewey should not that there is a crisis in the Assembly, the most precious of all things which he was won-power to bring into the old quarrels

a certain freedom of choice. It is, of course, true that the course of events cannot be halted for three months until Mr. Dewey has been inaugurated. There will be need for common sense, good will, co-operation. There will be need for that unity which Mr. Truman as a candidate has found so objectionable. For once he is President again he will find it indispensable during the remainder of his

Baseball, even in these days of the easy dollar, is a risky trade. More than a few clubs lost money during the 1948 season, despite the fact that business was at an all-time peak. Reports seeping in from Lamesa insisted that Dan Davis, the on-again off-again Finnegan owner of the Lobos, stopped something like three grand in 1655 than two weeks' time, mainly because of bad

investments.

In that business, one must crawl before he walks. Corpus should prove its eagerness to embrace any kind of baseball before it bites off more than it can chew. There are 100,000 people within the Corpus area (chamber of commerce figures) but that doesn't necessarily mean the city would support the game day in and day out. Fans have to be educated to the sport and oftimes they take to it slowly.

SOUTH TEXAS LOOP TO OPERATE WITH \$2,600 PAY LIMIT

As it stands now, the new South Texas league will operate with a \$2,600 salary limit, a 17-player limit. Gate receipts will be split 60-40, the visiting club to get the smaller cut. The teams will play through a 150-game schedule. The Longhorn league last season had a \$2.600 salary limit and

each team functioned with a maximum of 16 players. However, an extra hand could be carried on a five-day look.

MIDLAND GRID PLANT A CREDIT TO SISTRICT SAA So much to-do was made over the opening of Odesse high school's football plant, little has been said of Midgard's new stadium. In reality, Memorial stadium, as it will be called, is one of the best in this area and a credit to District SAA.

The Midland park will see 15.00 persons, more than twice as many as Steer stadium. There are press boxes on both the west and east stands, a revolutionary addition. One of the boxes hold scouts and visiting radio teams, the other the gress and home radio.

Sair Official **Expresses His** Thanks For Aid

With tributes still being heard on the 1948 production, officials of the Howard County Fair association busied themselves Monday to straightening affairs of the event which attracted more than 10,000 Legion Receives visitors in three days.

From Lloyd Wooten, general fair Memorial Poppies superintendent, came a statement of appreciation to the public and

"We have received many fine compliments on the far," he said. 'and these belong to the many people who gave tirelessly of their time and energy to make the fair possible, to the scores of people who contributed to the exhibits, and to the thousands who came to

"Without this teamwork through out, we could not have made the sound beginning I believe we have now established for a continuing annual fair. I just want to say thanks from the bottom of my heart to all who helped in any way.

Joe Pickle, put it, "we are anxious to settle our accounts quickly." A preliminary check offered hope that the initial fair would be a paying proposition in spite of some rather heavy expenditures. Cuin Grigsby, finance chairman, estimated that resources would be somewhere above \$2,500.

As soon as information on expenses and disbursements can be ecutive board will be called.
