

# Alexander, Miller Picked Mr. & Miss Runoff Necessary For 12 Candidates

Vol. 33 Lubbock, Texas, Thursday, February 20, 1958 No. 53

## Freshman Society Seeks Members

All male freshmen who have a 2.50 grade average are requested to turn their names in to the Dean of Student Life Office for consideration for membership in Phi Eta Sigma, freshman honorary society.

The grade point average may be for the first or the second semesters. Grades have been checked in the student Life Office, but may have been overlooked, Dean James G. Allen said.

## Members to Discuss BSO Constitution

Board of Student Organizations meets at 7 tonight in the Tech Union Ballroom.

Tom Shamburger, vice chairman of BSO said, "The importance of this meeting concerns the discussion and passage of a revised BSO constitution."

Shamburger added that the Board would discuss and approve publicity regulations on the Tech campus for offices, Tech Union, and organization.

Positions open for Council nominees on BSO will also be announced tonight.

## Coed Invades Veterinary Field

by MARTHA CROOKS

Women are invading one of man's last strongholds, veterinary science.

Elain Asher, second-semester freshman from Gatesville, not only firmly declares her intentions of becoming a veterinarian, but shows her ability by ranking second among Agriculture freshmen.

The dark, attractive future vet enjoys outdoor life. She likes to swim and was a member of a high school swimming team. Riding horseback is her favorite recreation, and she mentions casually she also likes riding calves.

Asked if she is a tomboy, her answer is, "If liking these things makes me a tomboy, then I guess I'm a tomboy."

ELAINE has no delusions about the rough sledding when she tries for admission into an out-of-state veterinary school. She emphasizes she has absolutely no plans to crash that all-male bastion, Texas A&M. "If they don't want me, I don't want to go there," she replies matter-of-factly.

## Editor Hopefuls Apply by March 1

Applications for editors of THE FOREADOR and LA VENTANA and for advertising managers of both publications for the 1958-1959 school year must be submitted by March 1. The Student Publications Committee set the deadline in a noon meeting yesterday. Applications should be addressed to the Student Publications Committee and delivered to Journalism 101.

MISS TEXAS TECH

MR. TEXAS TECH

## 'Big D' Trip Ready; Some Tickets Left

"Although the goal for ticket sales was not reached, the El Capitan to Dallas will make the trip with 300 Tech students aboard," reports Wick Alexander, trip committee chairman.

Approximately 1,000 Tech routes will gather in Dallas Saturday to witness the crucial basketball

game between the Raiders and the SMU Mustangs. The Athletic department reported the sale of 400 student and 300 adult tickets to those traveling in cars. A few tickets are still available.

A PEP RALLY is scheduled at the Dallas Hotel, across from the depot, Saturday at 8:30 a.m. SMU students will be on hand for the rally and to welcome the Tech group. Alexander urges everyone to be present to provide transportation from the depot to the campus for students riding the train. Students will need ID cards for admittance to the game and to pick up train and game tickets at the Santa Fe station between 8 and 11 p.m. Friday.

Remaining tickets for train seats will be sold until late this afternoon.

THE TECH DELEGATION will be sent off at 11 p.m. Friday with a pep rally at the depot in Lubbock. An 72-piece Tech band will make the trip and play for jam sessions on the train.

Leaving Dallas at 1 a.m. Sunday, the train will arrive in Lubbock at 10 a.m.

## Sororities, Frats Top Non-Greeks In Fall Semester Grade Point Figures

Five of Tech's social sororities hit the 1.6 grade point average or over scholastically, and four social fraternities averaged 1.3 or more at the end of the fall semester.

Pi Beta Phi took top honors with 1.804 in the sorority division and Phi Kappa Psi was first with 1.306 among the fraternities.

AVERAGE OF ALL 651 members of fraternities is 1.25, while the all men's average, which includes 6,011 students is 1.16.

Sororities, with 677 women, have a 1.58 average topping the all women's average, which includes 2,096 women, of 1.45.

The all fraternity-sorority average is 1.42, and the all undergraduate college average is 1.23.

There are 1,328 students in the Greek organizations and 8,107 listed in the undergraduate average.

SORORITIES in the order of their grade point averages are Pi Beta Phi, Kappa Alpha Theta, 1.717; Delta Delta Delta, 1.650; Delta Gamma, 1.642; Alpha Chi Omega, 1.611; Kappa Kappa Gamma, 1.542; Gamma Phi Beta, 1.466; Sigma Kappa, 1.435; Alpha Phi, 1.430 and Zeta Tau Alpha, 1.426.

Fraternities in the order of their grade point averages are Phi Kappa Psi, Alpha Tau Omega, 1.306; Phi Delta Theta, 1.301; Sigma Chi, 1.300; Phi Gamma Delta, 1.285; Sigma Alpha Epsilon, 1.235; Delta Tau Delta, 1.226; Kappa Sigma, 1.216; Pi Kappa Alpha, 1.168 and Sigma Nu, 1.147.

## Runoff Necessary For 12 Candidates

by TOMMY SCHMIDT

Wick Alexander and Susie Miller were elected Mr. and Miss Texas Tech yesterday in an all-campus election that polled over 1400 votes.

Alexander, a senior pre-dental major from Amarillo, is currently Student Council vice president and TISA president. Miss Miller, senior education major from Fort Worth, is a cheerleader.

Jackie McAninch, Merkel, animal husbandry major and Liz Wilson, secretarial administration major from Houston, were elected senior class favorites.

JUNIOR CLASS favorites are Gerald Myers, education major from Borger, and Peggy Miller, Shreveport education major.

Ken Talkington, electrical engineering major from Tyler, and Sandra Hendrix, education major from Lubbock, were chosen sophomore class favorites.

Freshman favorites are Jerry Storseth, architecture major from Amarillo, and Janie Norris, marketing major from Odessa.

LYNNE BENTON, education major from Lubbock, was elected off-campus representative to the Freshman Council.

In the AWS elections, Jean Brown, English major from Graham; Carolyn Scott, education

major from Jal, N.M.; and Marilyn Adrian, speech major from Houston, were elected first, second and third vice presidents respectively while Jean Scheper, education major from McGregor, was chosen IAWS Representative.

FORCED INTO runoffs were Linda Trojan and Karen Kuhlman for Drane Hall representative to the Freshman Council and Bill Dean and Linda Bunger for business administration representative to the Student Council.

In AWS runoffs will be Barbara McDougal and Libby Balzer, president; Pat Kennedy and Kathy White, secretary; Cora Jean McMurtry and Mary Ann Lindley, treasurer; Mary Etta McDuffie and Donna Christopher, reporter.

## Noted Calypso Group Appears Tonight

Sam Patterson, noted impresario of Caribbean folk music, presents his Calypso Revelers and Singers tonight at 8:15 in the Lubbock Municipal Auditorium.

The performance of typical West Indian folk songs and dances will be free, through sponsorship of the Tech Union special events committee.

INCLUDED IN the program will be scenes of an authentic Trinidad prison, impressions of a Victorian market, and a voodoo ritual. Folk songs will be sung by Massie Patterson, Joan Johnson and other experts of calypso dancing and singing.

Rudolph King and Alvin George will present exhibitions on Trinidad steel drums, and accompany dancers.

THE DANCES of African, Spanish and French origin, will be performed in costumes worn by natives of Martinique, Trinidad, Barbados, Haiti and Jamaica. Costumes were designed and executed by Massie Patterson, born and reared in the West Indies.

The Calypso Revelers are a troupe of native musicians, singers

and dancers gathered to bring this heretofore neglected source of exotic and exciting entertainment to Lubbock.

The story-telling calypso movement stems from early West Indian days when, like the middle ages, singers and dancers traveled from one small community to another, bringing news in song of happenings throughout the islands and outside world. From innate gaiety, infectious humor and a pervading sense of rhythm comes a new primitive folk art.

An unusual program feature is Caneboulay, sometimes known as the Batonye, or ancient stick fight of the islands. This represents the thrilling climax of the carnival celebration when rival factions met and fought to the death in the West Indian equivalent of a fencing duel. Another feature story in song is a Castilian dance influenced by the Spanish.

Colorful and picturesque costumes, top humor and a wonderful sense of rhythm will combine to make one of the most unusual programs ever to come to Lubbock.

## Annual Grain & Storage Conference Begins Two-day Meet in Tech Union

The fourth annual Grain Drying and Storage Conference is meeting today and tomorrow in Tech Union.

The conference is being attended by grain farmers and storage operators from the Panhandle and South Plains.

Twenty-nine specialists will speak on subjects covering sanitation, moisture measurements, aeration and effect of storage on nutritional qualities of grain and grain spoilage.

Featured discussions will cover how industry solves regional drying problems and service charges and handling problems, a panel discussion.

**PROF. IRA WILLIAMS**, Tech agriculture engineering department head, is in charge of arrangements for the meeting, sponsored by 21 organizations.

Tech personnel participating in the conference include Dr. Donald Ashdown, entomologist; Dr. Ray Billingsley, agricultural economist; Dr. Earl Camp, plant pathologist; Donald Day, agriculture

engineer; Dr. Clark Harvey, agronomist, and Dr. W. L. Stangel, agriculture dean.

**OTHER LUBBOCKITES** participating are Ray Anthis, Lubbock Grain Exchange; Archie Campbell, plant breeder; DeKalb Agricultural Assn.; Grady Goodpasture, Goodpasture Grain and Milling Co.; R. S. Johnson, S. E. Cone Grain Co.

## Union Events

Thursday—Calypso Review, 7:30 p.m.

Friday—Don Allen, Calico Capers, Western Dance, 8:30-11:30 p.m.

Sunday—Raider Review, movie 2:30 p.m. "Pete Kelly's Blues"

Monday—Movie, 4 and 7 p.m.

Tuesday—Dance (may be cancelled because of game).

## Around the Circle

—carolyn mimms

After soaking in good old sunshine then feeling our way through the fog, here we are again to relate the happenings around the Circle to you.

With the out-of-town basketball trip, Techsians have slowed down on parties, dances and such this weekend.

Today, Pi Kappa Alpha fraternity will have its official rush party at 7:30 p.m. at the Lubbock Country Club. Men's rush began yesterday.

Weeks and Doak Halls will have a mixer in Weeks at 7 p.m. today.

**PHI UPSILON OMICRON** is planning an honor students tea in the Home Economics dining room at 5 p.m. today.

Gerald Turner, Veterans Administration official, will speak to the Tech Veterans Club about G. I. insurance at 8 p.m. today in the Rec Hall. All veterans are invited.

Alpha Chi Omega sorority nominated officers at its weekly meeting last night. They will be elected and announced later.

Alpha Tau Omega will have a dinner dance from 7 to 11:30 p.m. tomorrow at Lamont's.

**SQUARE DANCING** is being sponsored by the Tech Union tomorrow at 8:30 p.m. in the Rec Hall.

The Tech Accounting Society will hear Ed Smith speak at 8 p.m. tonight in Room 265 of the Ad Building.

Smith is a Certified Public Accountant and formerly taught at Tech. He is also a Tech graduate. All persons interested in the meeting are invited.

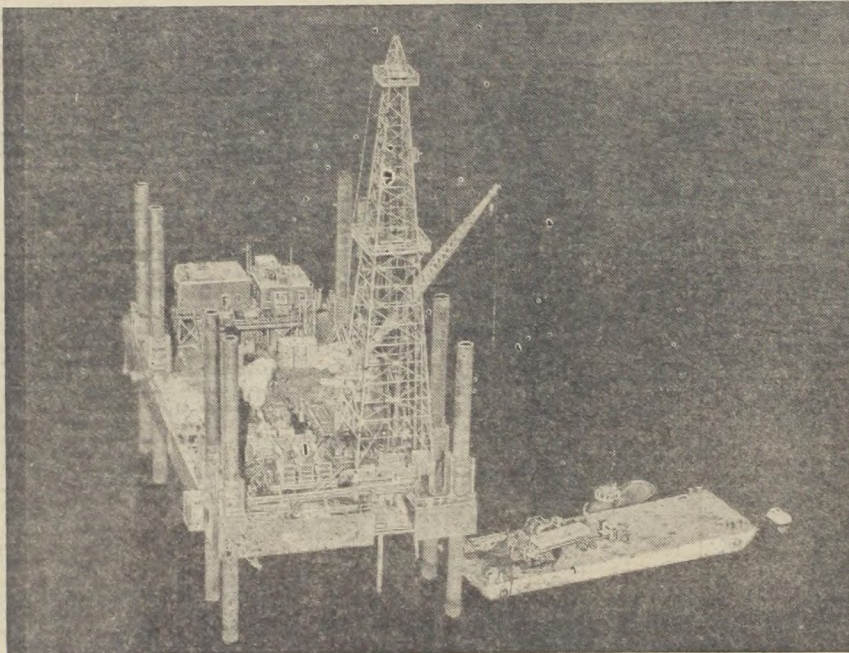

Sigma Nu fraternity has appointed five officers for the spring semester. They are Robert Clark, treasurer; Lowell Whitlock, alumni contact; Jim Wallace, lodge manager; Bill Norris, scholarship chairman and Bill Bratton, reporter.

**FIVE MEN** will be selected Sunday to compete for king of "Dame's Ball." Judges will choose these five men at 3 p.m. Sunday in the Rec Hall. "Dame's Ball," sponsored by Mortar Board, will be March 1.

Anyone going to Pecos this weekend? Mary Alice Atchison, Horn Hall, would like a ride if anyone is going that way.

That's it for this weekend. Have a jolly weekend and let's all support the Raiders as they play Southern Methodist University.

National Supply products are extensively used in offshore drilling for oil. Here, one of our large drilling rigs is working on the first floating platform for offshore drilling in the Pacific.

## IN A CHALLENGING, FAST-MOVING BUSINESS...

an unusual training program for just 25 exceptional men

National Supply is a complex company. Ten thousand employees, six plants making products for the oil fields and general industry, a network of 129 stores on two continents, a world-wide business.

It is a fast-moving company. In the oil fields, our main market, emergencies happen, and when they do they're big. We have to be ready to meet them overnight—and we have done it many times.

It is a fast growing company. We are branching out into new fields.

It is a decentralized company. That means more opportunities for young men to gain responsibilities faster.

We have young men managing million-dollar-volume stores—acting as combination salesmen-diplomats in for-

eign countries—helping to design machines worth a quarter of a million dollars—young men in positions of responsibility throughout the company.

This means we need good young men. So we have a 9-month training program designed to attract them. It is limited to 25 men. For six months it takes the man to all of our plants from Pennsylvania to California. For two months it puts him in the oil fields. It brings him to headquarters for a month, to meet and work with top management.

The selection of the man's job is made after the program is completed. We try to assign him to the job and location he wants. It is costly, but it gets results—to judge by the steady progress in the

company that our trainees have made. Think you might qualify? Ask the Placement Officer to arrange an interview for you when the National Supply representative visits the campus.

### ENGINEER DEVELOPMENT PROGRAM, TOO

Open to 15 graduates, this specialized training lasts 9-15 months beyond the general training program.

## Alpha Phi's Assist Heart Fund Drive

"The prevention and cure of heart disease" — this is the aim of the National Heart Fund and of Alpha Phi sorority during February.

This month, National Heart Month, the Alpha Phis will help the Heart Fund in their nationwide drive. Diseases of the heart, especially in children, is the national philanthropy of the sorority.

A representative of the Heart Fund has said that the girls' duties will probably include preparing material for mailing, packing kits and helping with necessary office work.

This week is initiation week for the Alpha Phis, and the new initiates and their big-sisters will make a special effort to help out the organization. Their motto is: "Little Hearts Need Big Hearts".

# Coaching Staff is Enlarged

by MERIUM JACKSON

With basketball season nearing its end, Tech sports fans are again turning attention to the Raider football team and finding two new additions to the coaching staff.

Recently hired as assistant coaches are J. T. King and Joe Kerbel. Both men come to Lubbock sporting experienced coach-

ing records. Their immediate concern at Tech will be recruiting for this and future years.

**KING, BORN** in Hamburg, Arkansas, attended Reagan High School in Houston. He played for University of Texas from 1935 until 1938, and was a senior when the Longhorns were under the direction of Coach Dana X. Bible.

King's first year of coaching was spent at Kenedy. In 1939, he and his wife, Beth, moved to Enid, Okla., where he coached for six years, during which his Enid High School team won three state and five district championships.

**ASSISTANT** to Coach Henry Frnka at Tulane University, King became well-known for his recruiting from Texas. Of the 22 first men of the Tulane squad, 14 were "Texas Greenies", recruited by King.

The year 1949 found King assistant coach to Harry Stiteler at A&M. In 1950 he returned to Texas, where he remained until 1956, as assistant to Ed Price. During this time, the Longhorns won the Southwest Conference championship three times.

King is the father of four children. He and his family plan to move to Lubbock from College Station in the early summer.

**ASSISTANT** coach Joe Kerbel also brings with him a brilliant record.

Born in Dallas, but raised in Seminole, Okla., Kerbel was graduated from the University of Oklahoma.

His record in high school coaching ranks includes: 75 wins, 15 defeats, and 2 ties.

**HE COACHED** at Cleveland, Okla., in 1950-51. From there Kerbel took a coaching position at Breckenridge. During the three

seasons he was coach, the Breckenridge team won 3A state championships every year.

Amarillo was the next stop for Kerbel. In 1955, his first year with the team, Amarillo had a 5-5 record. The 1957 season ended finding Amarillo boasting an 11-1 record.

**KERBEL** and his wife, Frances, are in the process of building a home in Lubbock. They are the parents of four children.

When asked about the plans of the coaching staff, Coach Kerbel said, "The entire staff hopes to produce a team everyone will be proud of. However, to do this, we must have the concentrated effort of everyone, particularly the student body. The team, as well as the staff, must know that everyone's behind them for a winner to result."

**THE STAFF** has already begun recruiting and making plans for spring training, which will probably begin in late April.

# Tech Student Teaching Tour To Include Europe, Russia,

Following the recently signed cultural-tourism exchange treaty by President Eisenhower and the Soviet ambassador, student and teacher tours have been arranged to Russia in cooperation with Intourist, the USSR government travel agency.

The tours, conducted by a Tech instructor, will cover European highlights, the Brussels' World's Fair and historic Soviet Union.

Tour members will meet their Russian student-teacher counterparts, see the educational facilities, and learn from personal observation the everyday life and ambitions of Soviet students.

**TOUR PROGRAMS** are economically priced and arranged only for students and teachers. Students out of college for two years or less are eligible to join as are students presently enrolled in college or high school.

Six scheduled conducted groups are privately organized and information may be obtained from authorized travel agents or from the sponsoring agent, the Maupin Associates of Lawrence, Kan., one of the few Intourist contractual representatives in the United States.

# Parking Proposal Will Help

ACCORDING TO REPORTS the Campus Traffic Committee is considering a plan to permit parking on streets near Weeks Hall.

If passed by the committee, this will furnish at least partial relief for one of the most acute congestion areas on campus.

Students have been parking on both sides of Fourteenth street to pick up and leave dates, and dorm residents have been parking for short times here. However, traffic tickets have been issued both by the Campus Security Patrol and the city police.

The parking on both sides of this street as it has been practiced has caused a congestion that at times has completely blocked traffic. There is no question but that it has been a hazard, both to the driver and the pedestrian.

The proposal before the committee undoubtedly reads parking on one side of streets only. If it doesn't, the same congestion that there now is would result.

But when parking on one side of the streets is legalized, there still will not be enough parking space, but still it will be a step in the right direction if only in the savings on parking tickets.

Perhaps the final answer to this problem will come with the planned construction of a turn-around loop in front of Drane and an increase in the number of parking spaces on this lot.

But until this construction is done, the present proposal before the Traffic Committee, while by no means completely solving the problem, will partially alleviate it.

### BOOK REVIEW

## Texas Prison Man 'Understood' Meaning of Prison Bars, Freedom

by MYRNA MORRISON  
Assignment Huntsville, The University of Texas Press, \$4.75.

Lee Simmons employs the elements of autobiography, history and his own philosophy of life in his memoirs to produce a colorful and factual account of his career as a Texas lawman—a career which led him from the position of sheriff of Grayson County to that of manager of the Texas Prison System "within the walls" of Huntsville.

SIMMONS' SUCCESS as head of the prison system can be attributed to his personal understanding of exactly what prison bars mean when they stand between an individual and freedom. In the fall of 1894, when Simmons was 20 and the "wild West" was still that, he tried to settle accounts peacefully with an enemy of his brother. The fellow went for his gun and unfortunately lost the draw. Simmons was indicted for murder. After lengthy and muddled court proceedings he was acquitted.

ALTHOUGH Simmons was then beginning his fourth year at the University of Texas, he never returned for his degree. Instead he took up farming near Sherman and was eventually induced to run for the office of Grayson County sheriff. He was elected. Promptly, an unsuccessful attempt was made on his life, three bullets going through his body. Simmons' tenure as sheriff of Grayson County was filled with a number of humorous and

touching incidents. The most amusing having to do with bootleggers, gamblers and mental cases he encountered.

ONE TALE relates of a woman whom he delivered to the State Hospital for the Insane. Much to his embarrassment, as the train rattled along the woman began to howl restlessly up and down the aisle. He followed her. Passengers began to stare. It was obvious that one of the two was looking after the other, but it was not clear which was which. Their amusement increased when the demented lady locked herself inside the ladies' room and Simmons took up his vigil outside the door.

After his resignation as sheriff in 1916, Simmons resided as a private citizen in Sherman until called upon to accept a post which he at first emphatically declined — that of general manager of the Texas Prison System.

AT THIS time the record of the system was dotted with numerous reports of escapes, guard slayings, ill treatment of prisoners and mismanagement of state property and funds. Conditions within the main prison and the farms had been awarded every description of criticism from "rotten" to "safe as a chicken coop."

Simmons' first edict as head of the system was issued to his managers and guards: ill treatment of prisoners — both physical and verbal — was to stop. His first concern in the handling of his duties was al-

ways for the welfare of the prisoners. Simmons' belief that good treatment returns cooperation evidently paid off, if the sharp drop in jumps (escapes), hunger-strikes, work-strikes and the like is any indication.

IN THE FIRST year the total of escapes dropped from 302 to 187. The count during his last year was only 71. On the whole, Simmons' policy of kindness instead of abuse and understanding instead of ridicule was a success.

At the time of Simmons' acceptance of the management of the prison system, there was a notable deficiency in two aspects of the system which he felt vitally important — education and recreation. His handling of these two programs is past history. The most prominent examples of his work along these lines is the nationally famed Huntsville Rodeo, "Texas' fastest and wildest rodeo."

AN OUTSTANDING feature of Simmons' narrative and his sketches of the unusual people whom he encountered on both sides of the law. Most people need no introduction to the names of Clyde Barrow and Bonnie Parker, nor to the deeds which marked their rebellion against society. The chapters devoted to these legendary characters form the most absorbing portions of the book.

One of the most interesting peace officers who gained recognition in Simmons' reminiscences is "Uncle" Bud Russell, transfer agent of the Texas Penitentiary. Over a forty-year period, Russell handled 115,000 prisoners—from the mildest to the wildest — and lost only one.

Losing this prisoner was such a humiliating experience for Russell that he promptly wired Simmons tendering his resignation. Simmons sent him a message upon his arrival at Huntsville refusing his resignation and telling him bluntly to "go to hell."

If Assignment Huntsville occasionally is lacking in literary polish, it is redeemed in the reader's eyes by the frankness and sincerity with which the author presents a factual account. Sometimes humorous, sometimes touching, sometimes serious, it is a subject handled well by the author, who is aided and abetted by a large amount of experience and common sense.

bennett

## The Idealist

"You speak today of 'Naughty Nudes.' You speak tomorrow of 'Das Kapital.'"

As I knelt at the corner news stand eagerly poring over the latest issue of Wow! one part of my mind was torn from the pages of art and humor to the startled exclamations of the proprietor in conversation with a bevy of most ardent women. As the conversation became more animated I forgot to read and listened, not without amazement, to the good ladies and their helpless victim.

"WE REPRESENT the Society for the Furtherance of Good Clean Literature and having been told that you handle certain uh-hm shall we say vulgar publications we felt it to be our duty as Americans and as citizens of this community to come here today to protest the sale of such literature and to warn you that unless such publications are taken from your newsstands we will, first of all take our business elsewhere, and . . ."

"If that's the way you feel, take your . . ."

"And should you still persist in such pernicious actions we will lodge a protest . . ."

"You'll what?"

"Lodge a protest with the proper officials . . ."

"Oh for . . . Get the hell out of here!"

Needless to say the good ladies of the Society for the Furtherance of Good Clean Literature were shocked, but they still did not leave.

"Sir! We have influence and we shall exercise that influence. Wait and see!"

AT THIS THE noble martyrs, doubtless to the refrain of "When the Saints Go Marching In", trooped one and all out of the building.

Having become involved in the series of parties usually associated with Dead Week and final exams it was a few weeks before I returned to catch up on my reading.

IMAGINE THEN my horror and disappointment when, instead of Wow! Naughty Nudes, and Sex Appeal I found my favorite row of magazines displaced by nothing more nor less than such favorites as Repentance or Damnation, The Farmer's Almanack, and Records and Proceedings of the Alexander Pope Literary Society.

With what horror I rushed from the building cannot be imagined; but it was only the beginning for there was not a copy of Wow! to be found. The Ladies' Society for the Furtherance of Good Clean Literature had won . . .

Another place. Another time.

The place is a private home. The time is five years or three years or one year hence. A young man sits reading a book. What it is is unimportant; it could be Das Kapital, The Origin of Species, or The Holy Bible. There is a knock at the door, a loud knock, an official knock, a militant knock. His face pales, his hands tremble, and before he can put the book into his desk, they force open the door.

THEY LOOK at the book—the title is enough. The man starts. They catch his arms, put his hands behind his back. Handcuffs click and the arrest is accomplished. They take him out of the door, one carrying the book, the other holding the man. The book is Das Kapital, The Origin of Species, or The Holy Bible. The man is you or I—the place is here. The time is five years, three years, one year hence . . .

The Ladies' Society for the Furtherance of Good Clean Literature has won . . .

## Opportunities Emphasis on Engineers As Placement Office Continues Rush

Interviews scheduled in the Placement Office next week show a continued trend of emphasis on a demand for engineers, with opportunities in Arts and Sciences and Business Administration also.

Men are invited to schedule appointments regardless of military status. Appointments may be made 2 p.m. afternoons in the Placement Office.

**Majors:** ELECTRICAL ENGINEERING, MECHANICAL ENGINEERING, PHYSICS (All Degree Levels).

**Organization:** SPERRY GYROSCOPE CO., Great Neck, Long Island, New York.

**Date of Interviews:** Monday, Feb. 24.

**Location:** Fort Worth, Tex.; Salt Lake City, Utah; Long Island and other eastern cities.

Research development and production of electronic and mechanical equipment. Products include equipment for processes, precision instrumentation, communications, digital computers and transistors, gunfire control systems, and others. Employed assigned to small group working directly on project. Opportunity for graduate work.

**Majors:** CIVIL ENGINEERING, ELECTRICAL ENGINEERING, INDUSTRIAL ENGINEERING, MECHANICAL ENGINEERING, MATHEMATICS.

**Organization:** TINKER AIR FORCE BASE, Oklahoma City, Okla.

**Date of Interviews:** Monday, Feb. 24.

Permanent air force installation. Increasing construction program. A number of major projects involving air force activities. Opportunities in manufacturing engineering activities connected with a large materials area.

**Majors:** CIVIL ENGINEERING, ELECTRICAL ENGINEERING, MECHANICAL ENGINEERING, PHYSICS, MATHEMATICS (FOR HIGH SPEED FLIGHT STATION ONLY).

**Organization:** NATIONAL ADVISORY COMMITTEE FOR AERONAUTICS, (1) High Speed Flight Sta., Edwards, Calif.; (2) Ames Aeronautical Lab., Moffett Field, Calif.

**Date of Interviews:** Monday, Feb. 24.

Interviews for both facilities on above dates. Opportunities in Bachelor's degree (also advanced degree) in aerodynamics, propulsion, aircraft structures, propulsion systems, structures, instrumentation, combustion, hydrodynamics, aeronautical theory.

**Organization:** FAN.

**Majors:** ELECTRICAL ENGINEERING, MECHANICAL ENGINEERING, MATHEMATICS, PHYSICS, GEOLOGY, PERSONS WITH MATH THROUGH CALCULUS.

These interviews are for summer employment only. (For men who will complete the sophomore and junior year this year.)

Geophysical operations in Southwest and other Western states.

**Majors:** CIVIL ENGINEERING, ELECTRICAL ENGINEERING, MECHANICAL ENGINEERING, PHYSICS.

**Organization:** TEMCO AIRCRAFT CORPORATION, Post Office, Box 6191, Dallas 2, Tex.

**Date of Interviews:** Feb. 24 and 25.

A number of assignments in weapons system engineering.

**Majors:** ACCOUNTING, ECONOMICS, FINANCE, MARKETING, MANAGEMENT.

CIVIL ENGINEERING, ELECTRICAL ENGINEERING, MECHANICAL ENGINEERING, INDUSTRIAL ENGINEERING, PETROLEUM ENGINEERING.

**Organization:** THE NATIONAL SUPPLY CO., Two Gateway Center, Pittsburgh, Penn.

**Date of Interviews:** Feb. 24 and 25.

Company manufactures and distributes oil field machinery and equipment. Produces special machinery, equipment for other industries. Has contracts for development design, manufacture of new items of marine propulsion suitable for atomic powered ships.

**Majors:** CHEMISTRY, CIVIL ENGINEERING, ELECTRICAL ENGINEERING, INDUSTRIAL ENGINEERING, MATHEMATICS, MECHANICAL ENGINEERING, PHYSICS.

**Organization:** FACTORY MUTUAL ENGINEERING DIV., 201 South Central Ave., St. Louis 5, Missouri.

**Date of Interview:** Tuesday, Feb. 25.

Service branch of the Associated Factory Mutual Fire Insurance Companies. Work involves fire protection engineering. Starting assignment in field engineering. Travel out of St. Louis until assigned to a residency in location of choice. Field representatives out of town about 50 percent of time. Engineers review plant processes, production, involving fire, explosion hazards.

**Majors:** Petroleum Engineering, ORGANIZATION CORE LABORATORIES, INC., Dallas, Tex.

**Date of Interviews:** Feb. 24 and 25.

Facilities and Majors: BIOLOGICAL RESEARCH, DEVELOPMENT, PHYSICS, ENGINEERING, PHYSICS, CHEMISTRY.

IT ALL GENERAL LIBRARY. MAJORS WHO TOOK AND PASSED PROFESSIONAL QUALIFYING EXAMINATIONS IN OCTOBER, 1957. THESE MAJORS WILL BE NOTIFIED BY MAIL. For Electrical, electronic, electrical communications and electronic light computer, building equipment. Agency in Washington, D.C. personnel assigned to field offices for advanced degree studies. Graduate civil service examination requirements must be satisfied before called for.

Date of Interviews: Tuesday, Feb. 24 and 25. MAJORS: CHEMISTRY, CIVIL ENGINEERING, ELECTRICAL ENGINEERING, INDUSTRIAL ENGINEERING, MECHANICAL ENGINEERING, MATHEMATICS, PHYSICS. ORGANIZATION: NATIONAL SUPPLY CO., Pittsburgh, Pa.

TECHSANS TALK BACK

Date of Interviews: Tuesday, Feb. 25. SUMMER EMPLOYMENT FOR JUNIORS IN PETROLEUM ENGINEERING. Petroleum reservoir engineering firm with field and laboratory operations. Consulting services to oil companies. Offices located in areas of oil operations. Services include reservoir engineering, core analysis, Reservoir Fluid Division, Special Core Analysis Studies, Well Logging and Research.

MAJORS: ACCOUNTING. Firm: ERNST & ERNST, 618 Gulf Building, Houston 2, Tex. Date of Interviews: Tuesday, Feb. 25. National-wide accounting firm. Offices in numerous cities in this country, abroad.

MAJORS: CHEMICAL ENGINEERING, CHEMISTRY (Advanced degree only). ALSO SUMMER EMPLOYMENT FOR JUNIOR STUDENTS WHO PLAN TO COMPLETE DEGREE REQUIREMENTS BY JUNE. 1958 AND SENIORS WHO PLAN TO WORK TOWARD HIGHER DEGREES. Organization: ESSO STANDARD OIL CO., Baton Rouge Refinery, and Esso Research Lab., Post Office Box 551, Baton Rouge, Louis.

Date of Interviews: Tuesday, Feb. 25. Refinery producing ethylene, polyethylene, and other petro-chemical products which include gasoline, heating oils, other fuels, and chemical products such as synthetic rubber, alcohols, ethers.

Attention: MEN WHO SCHEDULED FOR INTERVIEWS WITH BAILEY METER COMPANY FOR 1958. (Men on waiting list should check with us again).

MAJORS: CHEMICAL ENGINEERING, ELECTRICAL ENGINEERING, INDUSTRIAL ENGINEERING, MECHANICAL ENGINEERING. Organization: BAILEY METER CO., 1009 Franklin Rd., Cleveland, Ohio.

Date of Interview: Wednesday, Feb. 26. Company engaged in development, manufacture, sale of meters, instruments, automatic control systems for electric utility power stations and all types of industrial plants.

Agency: NATIONAL SECURITY AGENCY, Washington 25, D.C. Date of Interviews: Wednesday, Feb. 26.

Positions and Majors: 1. FOR TECHNOLOGICAL RESEARCH, DESIGN AND DEVELOPMENT. MAJORS: ELECTRICAL ENGINEERING, PHYSICS, MATHEMATICS.

2. ALL GENERAL LIBERAL ARTS MAJORS WHO TOOK AND PASSED THE NSA PROFESSIONAL QUALIFICATION TEST ON DECEMBER 7, 1957, AND WERE SO NOTIFIED BY NSA.

For: 1) Electrical, electronic, and mechanical communications equipment; 2) Electronic digital computers, other data handling equipment.

Agency in Washington, D.C.: positions permanent, organized training programs, opportunities for advanced education. NSA outside competitive civil service. No civil service examinations required. Applicants must be native born United States citizens.

MAJORS: CHEMICAL ENGINEERING, MECHANICAL ENGINEERING. Organization: COLUMBIAN-CARBON CO., Monroe, Louisiana.

Date of Interviews: Wednesday, Feb. 26. Positions: Plant Process Engineer. Plant production, process development work in oil and gas, electrical and control, steam generation, combustion, separation, others.

Location: Segroves, Tex. (also possible openings in other plants in Southwest).

MAJORS: BUSINESS ADMINISTRATION GRADUATES INTERESTED IN RETAIL SALES. Organization: GOODYEAR TIRE & RUBBER CO., INC., 245-21 N. Lincoln Boulevard, Oklahoma City, Okla.

Date of Interviews: Thursday, Feb. 27. Group Meeting: Wednesday, Feb. 26, Ad. Bd., Rm. 168, 5 p.m. Openings as Retail Sales Trainee. Short period formal training followed by on-the-job training before assignment.

MAJORS: CHEMISTRY, MATHEMATICS, PHYSICS, CHEMICAL ENGINEERING, CIVIL ENGINEERING, ELECTRICAL ENGINEERING, MECHANICAL. Organization: NORTH AMERICAN AVIATION, INC., International Airport, Los Angeles, 40, Calif.

Date of Interviews: Feb. 27, 28. Divisions: (1) Research Department of Los Angeles Division CHE, CE, EE, ME, Physics, Math.

(2) Rocketdyne Division CHE, CE, EE, ME, IE, Physics, Math. (3) Atomics International Division CHE, EE, IE, ME, Physics, Chem, Math.

MAJORS: ELECTRICAL ENGINEERING, MECHANICAL ENGINEERING, INDUSTRIAL ENGINEERING, PHYSICS (Bachelor or Master's degree). Organization: RADIO CORP. OF AMERICA, Camden 2, N. J.

Date of Interviews: Friday, Feb. 28. Openings for engineers, physicists in fundamental, applied research involving acoustics, communications, computers, defense research, electronics of solids, television, other. Opportunities in manufacturing systems, design and development involving products as air conditioners, altimeters, analog computers, antenna systems, others. Although there is specialized training program for young engineers, company provides opportunities for direct assignment to engineers having experience or advanced degrees. Opportunity to work towards Master's degree.

Organization: REYNOLDS METALS CO., Reynolds Metals Building, Richmond 18, Virginia. Date of Interviews: Friday, Feb. 28. Locations: Plants in 13 states, foreign countries.

Majors and Positions: (All degree levels) Buildings of the CHEMICAL ENGINEERING Process Engineering, Process Engineering Research (Metallurgical, Alumina, Reduction), Development, Production Supervisory Training, Sales.

development, Production Supervisory Training, Sales.

MAJORS: ELECTRICAL ENGINEERING, CIVIL ENGINEERING, Structural Design, Sales.

ELECTRICAL ENGINEERING: Project Engineering, Plant Engineering, production supervisory training, Plant Engineering, Maintenance Engineering, Design Development, Research, Sales.

INDUSTRIAL ENGINEERING: Industrial Engineering, Production Control, Supervisory Training, Purchasing, Sales Personnel.

CHEMISTRY: Research, Development, Production, Sales.

BUSINESS ADMINISTRATION (All majors) Production Control, Purchasing, Purchasing Supervisory Training, Sales Personnel.

ACCOUNTING: Internal Auditing, Plant Accounting, Cost Accounting.

MAJORS: ELECTRICAL ENGINEERING, INDUSTRIAL ENGINEERING, MECHANICAL ENGINEERING. Organization: WESTINGHOUSE ELECTRIC CORP.

Date of Interviews: Friday, Feb. 28. Plant locations in number of parts of the country. Sales offices in principal cities from coast to coast. Company manufactures transformers, generators, elevators, meters, other industrial equipment.

Also, consumer equipment as home appliances, air conditioning, TV, radios. Also involved in building aviation gas turbines, aircraft armament, nuclear reactors for power generation and other purposes. Opportunities in research, design, development services. Also, production, controls, electric controls, other phases of manufacturing. Openings in sales work. Training program for new employees.

Attention: 1958 Graduates Interested in HOME SERVICE POSITIONS. Organization: SOUTHERN UNION GAS CO., 420 East San Antonio St., El Paso, Texas.

Date of Interview: Friday, Feb. 28. Location: Texas, New Mexico, Arizona, Colorado.

Salary Range: Cars are provided for use on job, expenses involved paid. Bonus each year. Other benefits as hospitalization, life insurance, retirement program. The company provides training before assignment.

Attention: WOMEN STUDENTS INTERESTED IN SUMMER CAMP JOBS. Organization: CAMP FIRE GIRLS, North Central Texas Area Council, 814 Brook Street, Wichita Falls, Texas.

Date of Interviews: Friday, Feb. 28. Openings for counselors at Camp Latol. This is Council's resident camp, 5 one-half miles north of St. Jo, Tex. Camp serves meals in Archer City, Bowie, Electric, Henrietta, Iowa Park, Nocona, Olney, Ryan St. Jo, Seymour, Wichita Falls.

Attention: 1968 Graduates Women Organization: OFFICE OF NAVAL OFFICER PROCUREMENT, 1114 Commerce St., Rm. 205, Dallas 2, Tex. Date of Interviews: Feb. 27, 28.

The Navy is authorized to recruit qualified women students for active duty in the following fields:

1) Medical Service Corps: Dietitians, Physical Therapists, Occupational Therapists. (Have active duty while completing last year of training and have two years of service thereafter).

2) Administrative positions: Personnel, Communications, Operations, Educational Service, Public Relations, Intelligence, other.

Qualification: Age - at least 19, under 27. (For Medical Service Corps at least 21, and not over 31 1/2 years of age.)

College Juniors: Qualified juniors may be selected for administrative positions under No. 2 above. If persons selected complete senior year satisfactorily, they will be considered for appointment.

Women interested may report to U.S. Navy Recruiting Center on campus, between 10-12 a.m. Feb. 27, 28 or from 2-4 p.m.

Editor, The Texas Tech Choir expresses deep gratitude to the faculty, staff, and student body for the support offered our organization in our recent production, "Like You Like It!"

The fact that everyone fully enrolled in Texas Tech has paid a matriculation fee is the criteria that makes it possible to use ID cards as tickets. The ID card proves that a person is a student. Every student properly enrolled has a receipt for fees (matriculation included) stamped paid.

THE FACT THAT the matriculation fee is compulsory is a very strong reason why the Administration should not refuse to replace the ID card in its entirety. I believe the student body has a right to know why such a negative attitude is taken when an ID is lost. Could it be possible to have an authoritative report on this subject?

This is not the case with an ID card. If an ID card is lost it cannot be used by anyone except the person whose picture is on it. No one is hurt. For that reason, why shouldn't the ID be replaced with the numbers on it?

THE FACT THAT an ID will be replaced without the numbers only leads me to believe that the present policy toward lost ID cards is merely another means of soaking money from the student body. The process of punching the numbers on the card, so far as I can see, merely serves to give the gate attendant time to make sure that the holder is the owner of the card.

The Tech Choir also expresses sincere appreciation to the many custodians on the campus who made trips to the Music Building and voluntarily purchased tickets to our production even though many of them knew it would be impossible to be present at the show. These men purchased these tickets solely with an idea of supporting this Texas Tech group in assisting with our expenses for our trip to appear on the Ed Sullivan Show.

All of us in the Tech Choir will endeavor to bring high credit to the college and to the area on our appearance in New York and our gratitude to each of your people here shall remain a constant one. We hope all of you will be looking and listening to us when we appear on the Ed Sullivan Show April 13.

Sincerely yours, The Texas Tech Choir

Editor, Because of the present school policy, losing an ID card is the same as losing ten dollars, but this does not mean that an ID card is in effect a ten dollar bill. Your editorial in the Feb. 11 edition of THE TOREADOR displayed a poor conception of both an ID card and money.

PODD HILL leaps high to score against Texas U. Hill led the way to a 93-66 win by dumping 27 points, Ready for a rebound is Pat Noakes, No. 41 (Staff Photo)

# Texas Tech Blasts Way To SWC Leadership Tie

by RON CALHOUN

Texas Tech's fearsome-five some unleashed a furious offensive and displayed a stifling defense to shellac the Texas Longhorns 93-66 in a SWC basketball game which boosted them into a first place tie with Arkansas.

**DISPLAYING DEADLY** accuracy and business-like confidence which added up to one of the smoothest wins for Tech this season, the Raiders avenged by a tremendous 27 points an earlier loss at the hands of the Steers.

The margin probably could have been more, but shooting cooled as most of the first team left the game with five minutes remaining in the last half.

Tech jumped into an early lead as the game progressed. The fast break play of the Steers, which figured so greatly in their victory over Tech two weeks ago, was thoroughly defended against. The win, however, must be attributed to the hot shooting of four Tech double scorers who

have been big guns all season. Rarely have they put their abilities together in such a fashion as they did Tuesday night.

**PODD HILL**, Charley Lynch, Gerald Myers and Pat Noakes paved the road to victory with an onslaught of 78 points between them.

Hill was the top scorer with 27 points. The Sudan junior's total could probably have been much higher, but he left the game with six minutes remaining. Hill scored 15 points in the first half, 12 in the last half and displayed the brand of floor play that will be badly needed against SMU this weekend.

**CHARLEY LYNCH** matched his great night against Arkansas by adding 23 points to the fast-clicking Tech side of the score. Lynch grabbed 14 rebounds and hit several long set shots squarely through the net, greatly pleasing the throng of 8,000. In the first half, Lynch dumped in 11 points, in the last half 12 more.

Gerald Myers, dependable Raider guard, played a staunch defensive game and scored 14 points. A running duel between Myers and SMU's Max Williams will probably develop this weekend in the crucial Dallas game.

**PAT NOAKES** showed no sign of his recent injury as he had one of his better nights in scoring 12 points, proving he will be a tremendous asset in Tech's final drive for the title. As did Lynch, Noakes had 14 rebounds.

Also important were scores by Wade Wolf, Chuck Key, Gene Arrington and Bobby Wilson. Team play was probably the main factor in the victory and could again be the key to success when Tech plays SMU Saturday night at Dallas.

SMU, who swamped Rice 70-59 in Dallas Tuesday night, will be awaiting Tech with a 44-game winning streak on their home court.

**THE RAIDERS** avenged two earlier defeats in their last two games and Saturday night hope to return the compliment to SMU, which handed the Raiders their lone home defeat in conference play.

Some 800 Tech students will make the annual out-of-town trip. A win could mean the title for Tech.

## Roy Campanella Remains Paralyzed

**GLEN COVE, N.Y., Feb. 19 (AP)**—Roy Campanella remains paralyzed from the hips down and the hospital says the longer the condition remains unchanged the less one can expect for the future.

"We are still hopeful that the patient's paralysis will improve," read a statement by Harry C. F. Gifford, administrator of the Community Hospital at Glen Cove, N.Y.

Campanella has been a patient since Jan. 28 when the catcher for the Los Angeles Dodgers suffered a broken neck in an auto accident.

Gifford's statement, issued after consultation with the various doctors who have been associated with the case, made no mention of Campanella's chances of playing baseball again.

## Tech's Ath Among SW

Texas Tech is intent on athletic representatives Southwest Conference. Every effort is being made to turn out first-class athletes. Development of good athletes requires good facilities and good coaching. Tech is fortunate in having both training facilities that are modern and up to date and the athletic department striving to improve those facilities which are only averages. The Lubbock Municipal gym is one of the most comfortable basketball gyms in the nation. The program is playing in the only attraction to prospective school players. Jones Stadium is not SWC standards, but in 1958.

## Venturi, Demar In Houston Cl

**HOUSTON, Feb. 19 (AP)**—Venturi, the lone double on the winter tour, and two town idols, Jimmy Demar and Jack Burke Jr., were the favorites today for the opening of the \$30,000 Houston Class Tournament.

Venturi, winner of the Springs Thunderbird and Phoenix Open, has had scores while inspecting the real Park Course, longest winter tour, since arriving Friday. Demar has been playing the 7,200-yard, par 72 for years.

**RANKED BEHIND** the favorites are Arnold Palm, defending champion, and a hometown product, Dave Palmer won \$7,500 here with a 72-hole 279, nine par. Marr was the leader 54 holes in last week's Open at San Antonio.

Roberto De Vincenzo, the driving Argentine now playing in Mexico City, also drew praise from the odds maker.

Dick Mayer, National Champion, had not made par on the field of 13 holes took final practice. Tournament officials, however, were hopeful Mayer would be the first threesome out at 8 a.m. today.

A THREAT of rain could have temperatures climbed 60s for the first time in days.

The 26-year-old Venturi, one-under 71 the first time in the Memorial. He said the days are a bit soggy from week's rains but that the ice is in good condition.

Demar and Burke have troubles here in the past, that their huge galleries distracted them at times.

Demar, however, finished fourth the past two years. A SECOND ROUND 77 ed Burke out after 36 holes but he won the tour.

## Tech's Athletic Department Among SWC Best Equipped

Texas Tech is intent that its athletic representatives in the Southwest Conference be the best. Every effort is being made by the Tech athletic department to turn out first-class athletes.

Development of good athletes requires good facilities and personnel and Tech is fortunate in having both training facilities that are modern and up to date, and the athletic department is striving to improve those facilities which are only average.

The Lubbock Municipal Coliseum is one of the most modern and comfortable basketball arenas in the nation. The prospect of someday playing in the coliseum is an attraction to prospective high school players.

Jones Stadium is not up to SWC standards, but in 1960 the

Raiders will play in a beautiful 55,000-seat stadium which is now in the planning stage.

Although Tech's track is among the nation's first, the stands need improvement. They will be remodeled soon, according to Jimmie Wilson, athletic business manager.

Coaches on Tech's staff are top men in their field.

Minor sports at Tech are not neglected as four coaches work only with minor sports.

A good athletic department deserves adequate publicity and Bill Holmes, Tech's Sports News Director, is constantly at work keeping the public up to date on the athletic situation at the Southwest Conference's newest addition.

# Gonzales Takes on Hoad In Municipal Coliseum

by RON CALHOUN

Jack Kramer's World Professional Championship Tennis Troop will make an appearance in Lubbock's Municipal Coliseum Feb. 27 at 8 p.m.

The featured match will pit Pancho Gonzales, who has held the championship title for the past several years, against Lew Hoad, the hard hitting Australian.

**GONZALES HAD** little trouble in years past in beating all comers to the coveted title. Last year he beat another Australian, Ken Rosewall, by utilizing a terrific, high bouncing serve and a hard forehand drive. Rosewall's successor, Hoad has so far turned the tables on the big Gonzales.

Promoter Jack Kramer has coached the little Aussie and given him the money incentive to beat Pancho. So far, the match stands 14 for Hoad and 7 for Gonzales. Kramer says it will take a superhuman effort on Pancho's part to catch Hoad.

Hoad, who is the former US Singles Tennis Champion, was given little chance at the start of the tour because of showings made in several professional tournaments. In nine out of nine starts, Hoad was thoroughly trounced by several of the pros

who have been around for quite a while. Then came the coaching by Kramer coupled with a rigid training schedule. Determination, more than any other factor, seems to have played the main role in developing Hoad's winning streak.

Pancho has stated that he realizes the fight he will have to keep his championship for another year. He has instilled a training program of his own in an ef-

fort to put forth the brand of tennis that will enable him to catch Hoad.

Accompanying the two set match between Hoad and Gonzales will be a match between Tony Trabert, former US Singles Champion, and Pancho Segura from South America.

Student tickets will be sold for .90 cents.

## Venturi, Demaret, Burke are Favored In Houston Classic Golf Tournament

HOUSTON, Feb. 19 (AP)—Ken Venturi, the lone double winner on the winter tour, and two hometown idols, Jimmy Demaret and Jack Burke Jr., were the top favorites today for the opening of the \$30,000 Houston Classic Golf Tournament.

Venturi, winner of the Palm Springs Thunderbird and the Phoenix Open, has had sub-par scores while inspecting the Memorial Park Course, longest on the winter tour, since arriving here Friday. Demaret has been playing the 7,200-yard, par 72 layout for years.

**RANKED BEHIND** the three favorites are Arnold Palmer, the defending champion, and another hometown product, Dave Marr. Palmer won \$7,500 here a year ago with a 72-hole 279, nine under par. Marr was the leader through 54 holes in last week's Texas Open at San Antonio.

Roberto De Vincenzo, the long driving Argentine now playing out of Mexico City, also drew high praise from the odds makers.

Dick Mayer, National Open Champion, had not made an appearance as the field of 134 players took final practice rounds. Tournament officials, however, were hopeful Mayer would report before the first threesome moves out at 8 a.m. today.

**A THREAT** of rain continued but temperatures climbed into the 60's for the first time in three days.

The 26-year-old Venturi had a one-under 71 the first time he toured Memorial. He said the fairways are a bit soggy from last week's rains but that the greens are in good condition.

Demaret and Burke have had troubles here in the past, admitting that their huge galleries have distracted them at times. The colorful Demaret, however, has finished fourth the past two years.

**A SECOND ROUND** 77 knocked Burke out after 36 holes last year but he won the tournament

in 1952 with an 11-under par 277, was third in 1955 and second in 1956.

In addition to Burke and Palmer the starting field includes five other former Houston champions

—Dave Douglas, Ted Kroll, Marty Furgol, Mike Souchak and Johnny Palmer. All but Palmer won their titles at Memorial.

**King Nominations End 3 P.M. Sunday**

Nominations deadline for Dames Ball King has been extended until 3 p.m. Sunday.

Qualifications include having a 1. grade average and being unmarried. Candidates must be nominated by a male organization.

All students may attend the eliminations Sunday at 3 p.m. in the Rec Hall. Five finalists will be chosen.

Candidates will be judged according to sex appeal, audience applause and participation. Organizations sponsoring candidates must give a three-minute campaign skit.

Mortar Board is sponsoring the Dames Ball, scheduled for March 1, at 8 p.m. in the Fairpark Coliseum.

Mortar Board members are selling tickets for \$2 a couple.

**Loter Announces Chorus Tryouts**

Tryouts for the Varsity Show singing chorus will be tomorrow at 4 p.m. in room B of the Tech Union.

Roger Loter, Varsity Show producer, said the chorus will number 20 and anyone is eligible. Johnny Gilbert is in charge of tryouts.

Varsity Show cast pictures will be taken tomorrow at 3 p.m. in the Anniversary Room of the Union.

**STD Plans Busy Meeting**

Winners of a creative writing contest sponsored by Sigma Tau Delta, English honorary fraternity, will be announced tonight at a meeting at 2311 13th St. at 7:30.

Also, work on the fraternity's publication, *The Harbinger*, will be planned. Ronald Wetherington, president, said. Orders for books for TOREADOR book reviews, fraternity project, will be taken.

"Committee members are especially urged to attend," Wetherington said.

**FFA Special Meeting**

A called meeting of the Texas Tech Future Farmers of America will be held Monday night to select a representative to the March BSO Retreat.

Dwain Thompson, senior from Fort Worth, has recently been elected spring representative to the BSO.

**Vigness Speaks to IRC**

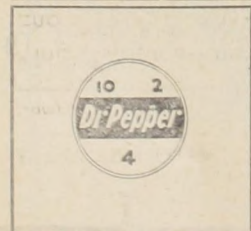

International Relations Club is featuring Dr. David Vigness as speaker at a luncheon today at noon.

Dr. Vigness will speak on "Chile and Politics Today" in the Tech Union workroom. Tickets are on sale at the newsstand for \$1.

**Tea Party Set Today**

Phi Upsilon Omicron, honorary home economics fraternity, will sponsor a tea today from 5-6 p.m. in the Home Economics Building dining room.

The tea will honor home economics majors on the honor roll last semester.

**Faculty to Learn About Computers**

Techniques of electronic computers and their application to education and research will be introduced to the Texas Tech faculty and staff in a seminar Friday and Saturday.

Reservations should be made with W. R. Pasewark in the business education department. Instructional material will be available for participants.

President E. N. Jones said, "The seminar's aim is to provide participants with an opportunity to learn how these machines think, how they can be used, and what we, in our several fields, need to know about them in order to use them."

The first seven seminar sessions will be conducted between 1 and 5 p.m. Friday in the Tech Union Workroom. A series of talks on applications of computers will begin at 9 a.m. Saturday. Saturday afternoon's session will cover the construction of a computer center and the future of electronic computers.

Members of the Tech data processing committee presenting the seminar are Pasewark; Ray Billingsley, agricultural economics; Charles E. Houston, electrical engineering; Robert M. Parker, math; and Miss Billie Williamson, home economics education.

**Fall Scholarship Applications Due Before March 8**

Engineering scholarships worth \$1,000 are available to students who will be sophomores, juniors or seniors next fall, said Dr. John R. Bradford, engineering school dean.

Scholarships will be awarded on the basis of outstanding scholastic achievement, high moral character and financial need. Eighteen scholarships are available. Applications must be in before March 8. Details are available at the engineering dean's office.

**SCHOLARSHIPS** available to majors in any branch of engineering are from the South Plains Chapter of American Petroleum Institute, \$500; Western Electric Co., \$400 and Cities Service Oil Co., \$600.

Two scholarships for electrical, mechanical or petroleum engineering majors are the Schlumberger Collegiate Award of \$500 for juniors and seniors, and a \$250 Rowan Drilling Co. Scholarship for sophomores, juniors and seniors.

Junior civil, mechanical or chemical engineering majors may apply for the Cabot Company Award of \$400 plus tuition.

**JUNIOR AND** senior electrical engineering students may apply for a \$750 Southwestern Public Service Co. Scholarship or a \$750 award from the Texas Electric Service Co.

Junior and senior mechanical engineers may qualify for a \$750 Southwestern Public Service Co. Scholarship. Hughes Tool Co. has available a \$500 award for senior mechanical engineering students.

Junior petroleum engineering majors may apply for a \$1,000 Gardner-Denver Co. Scholarship. Senior petroleum majors have available a \$300 Standard Oil Co. Award and a \$400 plus tuition scholarship from Socony-Mobile Co.

**JUNIOR AND** senior petroleum majors may also apply for the Olson Drilling Co. A.I.M.E. Award of \$250 a semester.

Frontier Chemical Co. has a \$300 Scholarship for junior and senior chemical engineering students. For Eastern States Petroleum Co., Dow Chemical Co. and Monsanto Chemical Co. Scholarships, chemical engineering students may apply at the chemistry and chemical engineering departments.

LT. BUCKHOLTS

**Navy Team Plans Tech Conference**

The Naval Officers Information team will visit Texas Tech Feb. 27-28 and assist students in obtaining Naval commissions.

Lt. Walter H. Buckholts Jr., USN, of the Office of Naval Procurement, Albuquerque, N.M., heads the team.

While in Lubbock, the group will make its headquarters in the Naval Reserve Training Center on campus.

Tech students interested in the Navy are invited to visit the team. Men interested in Naval aviation will be given flight aptitude tests without obligation.

**Seventeen Varsity Show Parts Filled**

Seventeen parts were announced as filled for the Dancing Chorus of the 1958 Varsity Show, "Guys and Dolls," out of the 25 who tried out for the positions, the following Tech coeds were chosen:

Janis Jones, Nancy Pat Houston, Donna Jean Smith, Rebecca Pierce, Judy Long, Johnnie Wade, Gayla Cauthern, Gail Galbraith, Martha Kenley, Dorisanne France, Della Close, Sharon Snow, Caroline Wood, Leta Merle Roberts and Shirley Ann Stephens.

Boys chosen to the chorus were John Tiano and Leroy Plumlee. The cast still has openings for male parts, and anyone interested should leave his name at the Varsity Show office at Tech Union or contact Jean Groesbeck at Knapp Hall.

A rehearsal is set for the Tech musical Tuesday at 6 p.m. Everyone in the show is advised to check the Varsity Show office door for the place of the rehearsal.
